## LEGISLATIVE JOINT AUDITING COMMITTEE DIVISION OF LEGISLATIVE AUDIT

### INDEPENDENT AUDITOR'S REPORT

University of Arkansas, Fayetteville  
Legislative Joint Auditing Committee

We have audited the balance sheet of the University of Arkansas, Fayetteville, an Institution of Higher Education of the State of Arkansas, as of June 30, 2000 and the related statements of changes in fund balances and current funds revenues, expenditures, and other changes for the year then ended as listed in the table of contents. These financial statements are the responsibility of the University of Arkansas, Fayetteville's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the University of Arkansas, Fayetteville as of June 30, 2000 and changes in fund balances and the current funds revenues, expenditures, and other changes for the year then ended, in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 8, 2000 on our consideration of the University of Arkansas, Fayetteville's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants.

## NOTES TO THE FINANCIAL STATEMENTS

### *(1). Summary of Significant Accounting Policies*

The financial statements for the University of Arkansas, Fayetteville (“the University”) for the fiscal year ended June 30, 2000, have been prepared in accordance with generally accepted accounting principles contained in *College and University Business Administration* published by the National Association of College and University Business Officers (NACUBO), as well as *Audits of Colleges and Universities* published by the American Institute of Certified Public Accountants (AICPA). The accompanying notes to the financial statements are an integral part of the financial statements. The statements are intended to provide a summary of the flow of financial resources of the University during the fiscal year and balances available for future use.

#### **Accrual Basis**

The financial statements of the University have been prepared on the accrual basis except for depreciation accounting for plant assets.

The Statement of Current Fund Revenues, Expenditures, and Other Changes is a statement of financial activities of current funds related to the current reporting period. It does not purport to present the results of operations or the net income or loss for the period as would a statement of income or a statement of earnings.

To the extent that current funds are used to finance plant assets, the amounts are accounted for as (1) expenditures, in the case of the normal replacement of movable equipment and library books; (2) mandatory transfers, in the case of required provisions for debt amortization and interest; and (3) transfers of a non-mandatory nature for all other cases.

#### **Fund Accounting**

Accounts are maintained in accordance with the principles of Fund Accounting. This is the procedure by which resources are classified for accounting and reporting purposes into funds that are in accordance with activities or objectives specified. Separate accounts are maintained for each fund. Within each group, fund balances restricted by outside sources are so indicated and are distinguished from unrestricted funds designated for specific purposes by the University.

#### **Current Funds**

The current funds group includes those economic resources of the institution which are expendable for any purpose in performing the primary objectives of the institution and which have not been designated by the University’s Board of Trustees for other purposes. The term “current” indicates that these resources are intended for use in the current fiscal period. Current fund balances are separated into those which are restricted by donors or grantors and those which are unrestricted. Restricted current funds are reported as revenues and expenditures when expended for current operating purposes.

#### **Loan Funds**

The loan funds group is used to account for loan programs available to students.

#### **Endowment and Similar Funds**

True endowment funds consist of gifts from donors or external entities. These funds are subject to the restrictions of the gift instrument requiring that the principal is not expendable and that it be invested in perpetuity. Depending on the terms of the gift, the income from the endowments may be expended or added to the principal of the fund. The endowment fund does not include the assets of the University of Arkansas Foundation, Inc., a separate non-profit entity. Term endowments are resources provided by gift or bequest, or by administrative action, with the understanding that the principal is to be maintained for a specific period of time or for a specific expenditure. Quasi endowments are funds designated by administrative action to function as endowments. Quasi endowments can be withdrawn by administrative action.

**UNIVERSITY OF ARKANSAS, FAYETTEVILLE**  
**NOTES TO THE FINANCIAL STATEMENTS**

Income derived from investment of endowments is reported as endowment income, except for income made available for expenditure in the current funds.

**Plant Funds**

The plant funds consist of (1) unexpended plant funds which are to be used for the construction or acquisition of physical properties for institutional purposes; (2) renewal and replacement plant funds which are to be expended for renewals and replacements of plant fund assets; (3) retirement of indebtedness plant funds which consist of funds set aside for debt service reserves and charges; and (4) investment in plant funds which are funds expended for and thus invested in institutional properties.

Physical properties are recorded at cost, or if by gift, at fair market value at date of acquisition. Present accounting principles do not require the depreciation of physical property values.

**Agency Funds**

Agency funds are used to account for assets held by the University as custodian or fiscal agent for others.

**Cash and Cash Equivalents**

The Balance Sheet classification "Cash and Cash Equivalents" includes all readily available sources of cash such as cash on hand, cash on deposit with financial institutions, cash on deposit with the State Treasurer and other state agencies, and highly liquid short term investments.

**Inventories**

Inventories are valued at cost with cost being generally determined on a first-in, first-out basis.

University Press	\$ 393,018	\$ 368,345

Museum Gift Shop	9,536	11,051
Total Inventories	\$ 2,106,070	\$ 2,135,313

**Accounts Receivable**

Unrestricted current fund accounts receivable are stated at estimated net realizable values; that is, the gross amount of the receivable is reduced by allowances for estimated uncollectible accounts. Unrestricted current fund receivables represent charges due the University from various student fees, room and board, student fines, and other charges. Restricted current fund accounts receivable consist mainly of unreimbursed expenses relating to research contracts with federal, state, and private agencies. Accounts receivable totaling \$101,472 were written off during the fiscal year ended June 30, 2000.

**Due To and Due From Other Funds**

Interfund receivables and payables arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed.

**Encumbrances**

Encumbrances are defined as commitments related to unperformed contracts for goods or services. Encumbrances are not recorded in the accompanying financial statements.

## NOTES TO THE FINANCIAL STATEMENTS

### **Biennial Appropriated Budgets**

Biennial appropriated budgets are adopted for the state general fund. The fiscal year commences on July 1 and ends on June 30 of the following year. The biennial period commences on July 1 of each odd year following the adjournment of the regular sessions of the General Assembly, and ends on June 30 two years thereafter. An appropriation is construed to be available for the two year period following the legislative session in which it was approved. All appropriations lapse at the end of the second year of the biennium unless otherwise provided.

### **Plant Assets**

Plant assets consisting of land, buildings, furniture, fixtures, equipment, improvements, and construction in progress are stated at cost or fair market value at date of gift. Livestock is under the control of the Department of Animal Sciences and is maintained primarily for research purposes with any other benefits derived from the operations considered as incidental to the primary mission of the Department. The inventory value placed on the animals is determined by department heads utilizing current market prices and breeding and research intangibles.

### **Capitalization of Interest**

The University capitalizes interest involving qualifying assets. The amount of interest cost to be capitalized is interest cost on borrowings netted against any interest earned on temporary investments of the proceeds of those borrowings from the date of borrowing until the specified qualifying assets acquired with those borrowings are ready for their intended use.

### **Service Departments**

Service departments provide various specific services to institutional departments as well as individuals and concerns outside the University. The net of revenues and expenditures of the various service departments are reflected in the function which the operations support.

### **Memorandum Totals**

Total columns are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in financial position in conformity with generally accepted accounting principles.

### **(2). Reporting Entity**

The University of Arkansas, Fayetteville ("the University") was established at Fayetteville in 1871 under the provisions of the Morrill Act as both a state university and the land-grant college of Arkansas. The University of Arkansas, Fayetteville includes the Division of Agriculture, the Cooperative Extension Service, Arkansas Archeological Survey, and the Criminal Justice Institute as well as the academic units. The academic units in Fayetteville include eight colleges and schools: the Dale Bumpers College of Agricultural, Food, and Life Sciences, the School of Architecture, the J. William Fulbright College of Arts and Sciences, the Sam M. Walton College of Business Administration, the College of Education, the College of Engineering, the School of Law, and the Graduate School. The University is one of eight campuses of the University of Arkansas System. The governing body is the Board of Trustees which is comprised of ten members.

**UNIVERSITY OF ARKANSAS, FAYETTEVILLE**  
**NOTES TO THE FINANCIAL STATEMENTS**

**(3). *Compensated Absences***

Employees accrue and accumulate annual and sick leave in accordance with policies established by the Board of Trustees. Full time, non-classified, University employees accrue annual leave at the rate of fifteen hours per month, classified employees at a variable rate (from 8 to 15 hours per month) dependent upon number of years of employment in state government. Under the University's policy, an employee may carry accrued leave forward from one calendar year to another, up to a maximum of 240 hours (30 working days). Employees who terminate their employment are entitled to payment for all accumulated annual leave, up to the maximum allowed.

The University recognizes a liability for compensated absences. The liability is based on the value of unused employee vacation and compensatory time as of year-end, including the associated benefits: contributions to Retirement, Social Security, Medicare, Workers' Compensation, and Unemployment Insurance.

It is the policy of the University to recognize the cost of sick leave when paid. Employees who leave University employment are not entitled to be paid for accrued sick leave. Therefore no liability is shown in the financial statements for accrued sick leave.

**(4). *Cash Deposits and Investments***

The University uses commercial banks for its depositories. Deposits with commercial banks are insured by the Federal Deposit Insurance Corporation (FDIC). Any deposits not covered by FDIC are secured with collateral held by a third party financial institution (normally Federal Reserve, St. Louis branch).

**Cash at June 30, 2000**

The above deposit schedule does not include cash on hand in various imprest funds maintained by the University in the amount of \$33,620 for the year ended June 30, 2000.

Cash balances in excess of current requirements are pooled and invested in short and intermediate term securities. Cash from the various funds is effectively transferred to the Current Unrestricted Fund (except where prohibited by legal or contractual provisions) to make these investments. Income earned on these investments is recognized in the Current Unrestricted Fund. A portion of the investment income is subsequently transferred to other funds at management's direction or where required by legal or contractual provisions, i.e. federal funds. Investments are periodically allocated to the various funds for reporting purposes.

**Investments at June 30, 2000**

During the year ended June 30, 1997, the University of Arkansas System and the University of Arkansas Foundation established and began using an external investment pool. **UNIVERSITY OF ARKANSAS, FAYETTEVILLE**  
**NOTES TO THE FINANCIAL STATEMENTS**

On November 1, 1997, the University issued \$19,170,000 in bonds with an average interest rate of 4.82 percent to advance refund \$17,825,000 of outstanding Series 1991 bonds with an average interest rate of 6.55 percent. The net proceeds of \$18.9 million (after payment of \$243,473 in underwriting fees, insurance, and other issuance costs) plus an additional \$1,024,372 of 1991 sinking fund monies were used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments of the 1991 Series bonds. As a result, the 1991 Series bonds are considered defeased. The liability for those bonds has been removed from the Investment in Plant Fund. The University advance refunded the 1991 Series bonds to reduce its total debt service payments over the next 15 years by \$1,558,118 and to obtain economic gain (difference between the present value of the debt service payments on the old and new debt) of \$901,333. Regularly scheduled interest and principal payments on the 1991 issue were made on March 15, 1998 and will continue through September 15, 2001 from the escrow fund. All outstanding Series 1991 Bonds will be redeemed on September 15, 2001 at a price equal to 100% of the principal amount plus interest accrued thereon.

The University issued \$12,105,000 in bonds during the fiscal year ended June 30, 1997. In order to advance refund the 1988 issue and to defease the 1989A issue, net proceeds of \$11,916,359 plus an additional \$345,527 of 1989A sinking fund monies were placed in escrow with commercial banks. All Series 1988 bonds were redeemed on May 1, 1997 at a redemption price equal to 101.5% of the principal amount plus interest accrued thereon. Regularly scheduled interest and principal payments on the 1989A issue were made on February 1, 1997 through August 1, 1999, from the escrow fund. Arkansas Code Annotated authorizes participation in the plan.
