INTRODUCTION

Since our founding in 2003, the mission of the Office for Education Policy has examined pressing issues through the lens of academic research and disseminating our findings to educators, policymakers, and other stakeholders around Arkansas. Every once in a while, however, we think it is okay to stray from issue analysis and simply share some good news!

In this Arkansas Education Report (AER), we aim to highlight excellent performance and offer our congratulations. To that end, we are happy to highlight many excellent schools around the state in our now-annual AER, entitled the **Outstanding Educational Performance Awards**, or the OEP awards.

In the 2015-16 academic year, Arkansas students have yet again undergone a change in their assessment of student performance to replace the **Partnership for Assessment of Readiness for College Careers (PARCC)**. The ACT Aspire examinations were administered to students in grades 3 through 10 in Math, Reading, Writing, English and Science. For the purposes of this report, the scores obtained in Reading, Writing and English were combined to create a combined ELA score.

This edition of the **OEP Awards** will highlight high-performing schools in Arkansas based on their performance in the Math, ELA and Science exams at the Elementary, Middle, Junior and High school level.

In 2012, we introduced an academic performance indicator, the **“GPA” rating system**, to rank the highest-performing schools. Unlike the commonly reported percentage of students scoring at or above the proficient level on each assessment which suffers from being an “all-or-nothing” measure in which a student is either proficient or not, the “GPA” includes information provided by student scores that are placed into the four different performance categories: **In Need of Support, Close to Meeting Expectations, Ready, and Exceeded Expectations**.

Our GPA indicator gives the most credit to students who have exceeded expectations and the least credit to those that are in need of support. In this GPA measure, parallel to the familiar grade point average for individual students, a 4.0 is a perfect score. The GPA measure, we believe, is a better representation of student achievement on statewide standardized exams.

ACT Aspire Performance Category	GPA Points Awarded
Exceeded Expectations	4.0
Ready	3.0
Close to Meeting Expectations	2.0
In Need of Support	1.0

In this report, we are presenting a list of the top 20 schools in each area. In some cases, these “top 20 lists” will contain more than 20 schools as some schools’ GPA scores will be identical.

In the following weeks, we will focus on high-performing elementary schools, middle schools, and high schools in the various regions across the state. We will conclude this edition of the report by highlighting schools that are beating the odds (that is, schools that have high levels of student achievement while serving a high percentage of low-income students). Our release schedule is:

- **High-Achieving Elementary Schools**
- **High-Achieving Middle Schools**
- **High-Achieving Junior High Schools**
- **High-Achieving High Schools**
- **Beating the Odds: High-Achieving Schools Serving Low-Income Communities**

V. 2016 OEP AWARDS: BEATING THE ODDS – HIGH ACHIEVING SCHOOLS, BASED ON THE ACT ASPIRE EXAMINATIONS, SERVING LOW INCOME COMMUNITIES

This section highlights high-achieving schools across Arkansas based on the ACT Aspire examinations in Math, English Language Arts (ELA) and Science for the 2015-16 academic year. For these awards, we consider schools that serve free or reduced lunch to at least 66% of the student body.

This section is divided into subsections based the three exams. Schools are ranked using the GPA performance measure (explained in the Introduction) in each subject. Because the exams are not “grade-specific,” schools in each of the subsections are categorized differently to account for school performance based on grade levels served; this is explained further in the introduction text in each subsection. Furthermore, each subsection includes the top schools, the top “high-poverty” schools, and the top five schools by region. In the subsections, the tables present the high-achieving schools for the noted category and subject using the GPA performance measure. These tables include the region in which the school is located, the number of test takers, the percentage of students that met or exceeded expectations, and the GPA of the school in that particular subject.

Q. Elementary Schools “Beating the Odds”

Beating the Odds: Overall ACT Aspire, 2016

Table 97: Top 10 "High-Poverty" Elementary Schools in Arkansas based on Overall ACT Aspire Achievement (Math, ELA and Science combined)

	School (District)	Region	Grades Served	%FRL	# of Test Takers	% Met Readiness Benchmark	GPA
1	Salem Elementary (Salem)	NE	K-6	69%	696	75%	3.07
2	Clinton Elementary (Clinton)	NW	K-3	71%	276	65%	2.93

APPENDIX

A. Methods

The Office for Education Policy strives to make all of our calculations and publications transparent to our readers. Thus, in this appendix we describe our data source, calculations performed on these data for the purposes of our reporting, and our method for determining a school's classification as an elementary, middle, or high school.

All data used in this report were obtained from the Arkansas Department of Education via the link <http://www.arkansased.gov/divisions/learning-services/student-assessment/test-scores/year?y=2016>. Other data, such as the percent of students eligible for free and reduced lunch, were obtained from the Arkansas Department of Education Data Center (<http://adedata.arkansas.gov>).

As discussed in the introduction, in order to calculate the GPA measure we treat the ACT Aspire test scores similar to the existing grade point system.

ACT Aspire Performance Category	GPA Points Awarded
Exceeded Expectations	4.0
Ready	3.0
Close to Meeting Expectations	2.0
In Need of Support	1.0

We calculate the GPA measure for Math and ELA and Science scores. The GPA measure is comprehensive in that it takes into account all of the test score levels (Exceeded Expectations, Ready, Close to Meeting Expectations or In Need of Support), instead of combining Ready or Exceeded Expectations.

B. School Classification

For the OEP Awards, we classified schools based on the following rules:

- Elementary School: primarily grades 3-5 (minimum grade P, K, 1, 2, 3, or 4)
- Middle School: primarily grades 6-8 (minimum grade of 4, 5, or 6 and maximum grade of 7, or 8)

There were also a few “comprehensive schools,” such as K-8 or K-12 schools, that we included as either middle schools or elementary schools based on their enrollment numbers. The following table lists every grade configuration and their classifications.

Table A: School Classifications

Elementary Schools		Middle Schools
P-2		4-6
P-3		4-8
P-4		5-6
P-5		5-7
P-6		5-8
P-7		5-9
P-8		5-12
K-3		6
K-4		6-12
K-5		6-7
K-6		6-8
K-7		
K-8		
K-9		
K-12		
1-4		
1-5		
1-6		
1-8		
2-3		
2-4		
2-5		
2-6		
3-4		
3-5		
3-6		
4-5		
5		

B. School Classification – High School Awards

For the OEP High School Awards, we primarily classified schools based on the following rules:

- Junior High: primarily grades 7 – 9 (maximum grade of 9)
- High School: primarily grades 9 – 12

Table B: School Classifications

Junior High		High School
7-8		7-12
7-9		8-12
8-9		9-12
8		10-12
9		11-12
		9-10
