Requirements for teacher licensure vary from state to state and may differ among teacher preparation programs. Please note that Arkansas requires all applicants to successfully complete a criminal background check. Background checks must be cleared before the candidate begins student teaching.

### Courses

CATE 3003. Teaching Housing and Interior Design to Secondary Students. 3 Hours.
This course prepares students to teach housing and interior design concepts to students in secondary school settings. Topics to be covered include housing needs and decisions, architectural design and construction, furnishings, safety and security, and careers related to the housing industry. Problem-based and project-based learning will provide the foundation for content delivery in this course. (Typically offered: Fall)

CATE 3103. Introduction to Professionalism. 3 Hours.
Studying and developing educational concepts in career and technical education with accepted principles of professionalism in secondary education settings. Prerequisite: Career and Technical Education (CATE) students only. (Typically offered: Fall)

CATE 3103H. Honors Introduction to Professionalism. 3 Hours.
Studying and developing professional concepts in vocational education with accepted principles of professionalism applied to career and technical education settings. (Typically offered: Fall)
This course is equivalent to CATE 3103.

CATE 4013. Teaching Strategies. 3 Hours.
Methods and techniques in the preparation and delivery of teaching. Prerequisite: CATE 3103. (Typically offered: Fall)

CATE 4023. Classroom Management. 3 Hours.
Theory and techniques in classroom management, including professional ethics and school policies related to students, faculty and programs. Prerequisite: CATE 3103. (Typically offered: Fall)

CATE 4033. Assessment / Program Evaluation. 3 Hours.
An introduction to constructing, evaluating and interpreting tests; descriptive and inferential statistics; state competency testing; and guidelines for state program valuations. Prerequisite: CATE 3103. (Typically offered: Fall)

CATE 4052. Seminar Teaching Internship. 2 Hours.
Site-based field experiences are integrated with the course content to provide continuity between theory and practice. Classroom management, ethics and diversity are emphasized. Corequisite: CATE 406X. (Typically offered: Spring)

CATE 406X. Teaching Internship. 12 Hours.
A minimum of 15 weeks will be spent in an off-campus school, at which time the student will have an opportunity under supervision to observe, to teach and to participate in other activities involving the school and the community. Successful completion of a criminal background check required before student can begin internship. Prerequisite: Senior status, CATE 3103, CATE 4013, CATE 4023, CATE 4033, CIED 3023 or CIED 4023 and CIED 3033. (Typically offered: Spring)

CATE 4073. Introduction to Teaching Programming in the Secondary Schools. 3 Hours.
This course provides an introduction to the foundations of teaching methods for computer programming in the secondary schools. Methods of computer programming instruction will include teaching strategies in coding, developing computational thinking, problem-solving skills, and applying key programming concepts. This is an introductory level course. No prerequisites are required. Corequisite: Lab component. (Typically offered: Irregular)
CATE 4803. Problems in Career & Technical Education. 3 Hours.
Problems and issues relating to instruction in career and technical education. You
must have approval by the instructor of this course to enroll. (Typically offered: Fall,
Spring and Summer)

Childhood Education (CHED)
The Department of Curriculum and Instruction offers programs that
prepare candidates for initial teacher licensure in Elementary Education
(K-6). The B.S.E. degree in Childhood Education is not an initial teacher
licensure program but instead leads to the Master of Arts in Teaching
(M.A.T.), which is the initial teacher licensure preparation program.
Information about the M.A.T. degree program can be found in the
University of Arkansas Graduate Catalog. on the Elementary Education
(p. 1346) page or the Teacher Education (p. 1543) page.

Requirements for B.S.E. in Childhood Education with EASL Concentration
Admission to the B.S.E. in Childhood Education is competitive and
consists of a three-stage process; simply meeting the minimum
requirements will not guarantee admission to the program. Admission will
be determined by the Childhood Education faculty based on the seven
items listed below in Stage II.

Stage I: Pre-Elementary Education (PELED)
Complete either 63 hours of program pre-requisites for CHEDBS or 47
hours of program pre-requisites for ELELBS:
1. Obtain a GPA of 3.0 or better on UA coursework.
2. †Complete all program courses with a “C” or better.
3. Obtain a passing score on the Math, Reading, and Writing sections
   of the Praxis Core or ACT.
4. Complete a background check.

Stage II: Admission to the Childhood Education Program (CHED)
Admission to the Childhood Education Program is competitive and
completion of all Pre-Elementary Education requirements must occur
prior to entering the Childhood Education Program of Study the following
fall term. Not all applicants meeting the minimum requirements will be
admitted to the program. Applications to the Childhood Education (CHED)
program must be submitted by Jan. 30.

The application process includes:
1. Submission of the application to teacher education (see the Teacher
   Education Application Fee (p. 72)) through the university-wide
   Teacher Education Office.
2. Submission of Childhood Education application.
3. Submission of transcripts for all coursework.
4. Oral Interview with Childhood Education faculty.
5. Submission of Writing Sample.

6. Submission of passing score on Math, Reading, and Writing sections
   of the Praxis Core Exam.
7. Current background check

Stage III: Requirements for Program Continuation
1. Declaration of endorsement area of ESL, GT, Reading, or STEM.
2. Maintain a cumulative GPA of 3.0 or better.
3. Passing score on Praxis II, Elementary Education: Multiple Subjects
4. All non-methods math, science, social studies and English Language
   Arts courses must be completed prior to senior year.

†All program courses must have a grade of “C” or better. No teaching
methods courses may be taken as self-paced (correspondence) courses.

For licensure, students must continue in the Master of Arts in Teaching
program, which has limited enrollment. Find out more about the M.A.T.
Program (p. 1346) in the Graduate Catalog.

Childhood Education Requirements
Students in the Childhood Education program must choose one of four
concentrations: English as a Second Language Concentration, a Gifted
and Talented Concentration, a Reading Concentration, or a STEM
Concentration.

Requirements for B.S.E. in Childhood Education with Gifted and Talented Concentration

Admission to the B.S.E. in Childhood Education is competitive and consists of a three-stage process; simply meeting the minimum requirements will not guarantee admission to the program. Admission will be determined by the Childhood Education faculty based on the seven items listed below in Stage II.

Stage I: Pre-Elementary Education (PELED)

Complete either 63 hours of program pre-requisites for CHEDBS or 47 hours of program pre-requisites for ELELBS:

1. Obtain a GPA of 3.0 or better on UA coursework.
2. Complete all program courses with a “C” or better.
3. Obtain a passing score on the Math, Reading, and Writing sections of the Praxis Core or ACT.
4. Complete a background check.

Stage II: Admission to the Childhood Education Program (CHED)

Admission to the Childhood Education Program is competitive and completion of all Pre-Elementary Education requirements must occur prior to entering the Childhood Education Program of Study the following fall term. Not all applicants meeting the minimum requirements will be admitted to the program. Applications to the Childhood Education (CHED) program must be submitted by Jan. 30.

The application process includes:

1. Submission of the application to teacher education (see the Teacher Education Application Fee (p. 72)) through the university-wide Teacher Education Office.
2. Submission of Childhood Education application.
3. Submission of transcripts for all coursework.
4. Oral Interview with Childhood Education faculty.
5. Submission of Writing Sample.
6. Submission of passing score on Math, Reading, and Writing sections of the Praxis Core Exam.
7. Current background check

Stage III: Requirements for Program Continuation

1. Declaration of endorsement area of ESL, GT, Reading, or STEM.
2. Maintain a cumulative GPA of 3.0 or better.
3. Passing score on Praxis II, Elementary Education: Multiple Subjects
4. All non-methods math, science, social studies and English Language Arts courses must be completed prior to senior year.

†All program courses must have a grade of ‘C’ or better. No teaching methods courses may be taken as self-paced (correspondence) courses.

For licensure, students must continue in the Master of Arts in Teaching Program (p. 1346) in the Graduate Catalog.

**Childhood Education Requirements**

Students in the Childhood Education program must choose one of four concentrations: English as a Second Language Concentration, a Gifted and Talented Concentration, a Reading Concentration, or a STEM Concentration.

**Total Units in Sequence:** 122

1 Denotes field experience component.
Requirements for B.S.E. in Childhood Education with Reading Concentration

Admission to the B.S.E. in Childhood Education is competitive and consists of a three-stage process; simply meeting the minimum requirements will not guarantee admission to the program. Admission will be determined by the Childhood Education faculty based on the seven items listed below in Stage II.

Stage I: Pre-Elementary Education (PELED)

Complete either 63 hours of program prerequisites for CHEDBS or 47 hours of program prerequisites for ELELBS:

1. Obtain a GPA of 3.0 or better on UA coursework.
2. †Complete all program courses with a “C” or better.
3. Obtain a passing score on the Math, Reading, and Writing sections of the Praxis Core or ACT.
4. Complete a background check.

Stage II: Admission to the Childhood Education Program (CHED)

Admission to the Childhood Education Program is competitive and consists of a three-stage process; simply meeting the minimum requirements will not guarantee admission to the program. Admission will be determined by the Childhood Education faculty based on the seven items listed below in Stage II.

The application process includes:

1. Submission of the application to teacher education (see the Teacher Education Application Fee (p. 72)) through the university-wide Teacher Education Office.
2. Submission of Childhood Education application.
3. Submission of transcripts for all coursework.
4. Oral Interview with Childhood Education faculty.
5. Submission of Writing Sample.
6. Submission of passing score on Math, Reading, and Writing sections of the Praxis Core Exam.
7. Current background check

Stage III: Requirements for Program Continuation

1. Declaration of endorsement area of ESL, GT, Reading, or STEM.
2. Maintain a cumulative GPA of 3.0 or better.
3. Passing score on Praxis II, Elementary Education: Multiple Subjects
4. All non-methods math, science, social studies and English Language Arts courses must be completed prior to senior year.

†All program courses must have a grade of “C” or better. No teaching methods courses may be taken as self-paced (correspondence) courses.

For licensure, students must continue in the Master of Arts in Teaching program, which has limited enrollment. Find out more about the M.A.T. Program (p. 1346) in the Graduate Catalog.

Childhood Education Requirements

Students in the Childhood Education program must choose one of four concentrations: English as a Second Language Concentration, a Gifted and Talented Concentration, a Reading Concentration, or a STEM Concentration.

Requirements for B.S.E. in Childhood Education with STEM Concentration
Admission to the B.S.E. in Childhood Education is competitive and consists of a three-stage process; simply meeting the minimum requirements will not guarantee admission to the program. Admission will be determined by the Childhood Education faculty based on the seven items listed below in Stage II.

Stage I: Pre-Elementary Education (PELED)

Complete either 63 hours of program pre-requisites for CHEDBS or 47 hours of program pre-requisites for ELELBS:

1. Obtain a GPA of 3.0 or better on UA coursework.
2. †Complete all program courses with a “C” or better.
3. Obtain a passing score on the Math, Reading, and Writing sections of the Praxis Core or ACT.
4. Complete a background check.

Stage II: Admission to the Childhood Education Program (CHED)

Admission to the Childhood Education Program is competitive and completion of all Pre-Elementary Education requirements must occur prior to entering the Childhood Education Program of Study the following fall term. Not all applicants meeting the minimum requirements will be admitted to the program. Applications to the Childhood Education (CHED) program must be submitted by Jan. 30.

The application process includes:

1. Submission of the application to teacher education (see the Teacher Education Application Fee (p. 72)) through the university-wide Teacher Education Office.
2. Submission of Childhood Education application.
3. Submission of transcripts for all coursework.
4. Oral Interview with Childhood Education faculty.
5. Submission of Writing Sample.
6. Submission of passing score on Math, Reading, and Writing sections of the Praxis Core Exam.
7. Current background check

Stage III: Requirements for Program Continuation

1. Declaration of endorsement area of ESL, GT, Reading, or STEM.
2. Maintain a cumulative GPA of 3.0 or better.
3. Passing score on Praxis II, Elementary Education: Multiple Subjects
4. All non-methods math, science, social studies and English Language Arts courses must be completed prior to senior year.

†All program courses must have a grade of “C” or better. No teaching methods courses may be taken as self-paced (correspondence) courses.

For licensure, students must continue in the Master of Arts in Teaching program, which has limited enrollment. Find out more about the M.A.T. Program (p. 1346) in the Graduate Catalog.

Childhood Education Requirements
Students in the Childhood Education program must choose one of four concentrations: English as a Second Language Concentration, a Gifted and Talented Concentration, a Reading Concentration, or a STEM Concentration.

Total Units in Sequence: 124

Beasley, Jennifer G., Ed.D. (University of Virginia), M.A. (Wichita State University), B.A. (Kansas State University), Clinical Associate Professor, Department of Curriculum and Instruction, 2009.
Eilers, Linda Hale, Ph.D. (Louisiana State University at Shreveport), M.Ed., B.S.E. (University of Arkansas at Little Rock), Clinical Associate Professor, Department of Curriculum and Instruction, 2001.
Elsass, Angela Carlton, Ed.D., Ed.S. (University of Arkansas), M.Ed. (Harding University), B.S.E. (University of Central Arkansas), Clinical Associate Professor, Department of Curriculum and Instruction, 2010.
Imbeau, Marcia B., Ph.D. (University of Connecticut), M.Ed. (University of Arkansas at Little Rock), B.A. (Hendrix College), Professor, Department of Curriculum and Instruction, 1991.
Kerr, Grace R., M.A. (Texas A&M University), B.A. (Sam Houston State University), Clinical Instructor, Department of Curriculum and Instruction, 2006.
Courses

CIED 1003. Introduction to Technology in Education. 3 Hours.
A study of computer technology as it relates to teacher education. This course introduces students interested in teacher education to the knowledge and skills required to demonstrate their proficiency in technology and learning. (Typically offered: Fall, Spring and Summer)

CIED 1013. Introduction to Education. 3 Hours.
Integrates psychological, sociological, and philosophical foundations of education with concurrent involvement in field experiences. Encourages prospective teachers to become reflective practitioners by emphasizing organization of school systems, planning and implementation of effective classroom environments, development of teaching styles, and new directions in education. An 18-hour early field experience designed to give prospective teachers opportunities to observe and participate in a variety of school settings is incorporated in this introductory course to education. (Typically offered: Fall and Spring)

CIED 2173. Literacy in America. 3 Hours.
A course that examines the myriad definitions of literacy (and illiteracy) and their connections to issues of social class, occupational status, economic and political structures, educational institutions, cultural organizations, and the media. (Typically offered: Fall and Spring)

CIED 2943. Foundations of Language and Literacy. 3 Hours.
A foundational study of language and literacy with an emphasis on content knowledge for teachers that is essential to the components and principles of science-based literacy. (Typically offered: Fall and Spring)

CIED 3001. Early Childhood Education Practicum. 1 Hour.
This practicum course provides opportunities for students to observe and practice providing instruction and guidance in preschool settings. Corequisite: CIED 3003. (Typically offered: Fall, Spring and Summer)

CIED 3003. Early Childhood Education. 3 Hours.
The study of kindergarten and preschool programs: social context of early childhood education, purposes, research basis, curriculum development, methods, and materials. Corequisite: CIED 3001. Prerequisite: CIED 1013. (Typically offered: Spring and Summer)

CIED 3013. Development and Learning Theories in the K-6 Classroom. 3 Hours.
This course allows students to cultivate an understanding of how elementary students develop, process information, and learn; studies educational applications pertaining to theories of development, intelligence, and thinking dispositions. Students study various learning theories, their implications for instruction, and their role in the K-6 classroom. Field experience required. Prerequisite: CHEDBS or EELBS major. (Typically offered: Fall and Spring)

CIED 3013H. Honors Development and Learning Theories in the K-6 Classroom. 3 Hours.
This course allows students to cultivate an understanding of how elementary students develop, process information, and learn; studies educational applications pertaining to theories of development, intelligence, and thinking dispositions. Students study various learning theories, their implications for instruction, and their role in the K-6 classroom. Field experience required. Prerequisite: CHEDBS or EELBS major and honors. (Typically offered: Fall and Spring)

CIED 3023. Survey of Exceptionalities. 3 Hours.
A survey of the characteristics of students with exceptional needs. Reviews the definitions of exceptionalities, learning and behavior characteristics of individuals with exceptionalities and the legal basis for the education of persons with exceptionalities in both elementary and secondary schools. Prerequisite: CIED 1013, or MUED 2012, or AGED 1123, or PSYC 2003. (Typically offered: Fall, Spring and Summer)

CIED 3023H. Honors Survey of Exceptionalities. 3 Hours.
A survey of the characteristics of students with exceptional needs. Reviews the definitions of exceptionalities, learning and behavior characteristics of individuals with exceptionalities and the legal basis for the education of persons with exceptionalities in both elementary and secondary schools. Prerequisite: Honors standing, CIED 1013, or MUED 2012, or AGED 1123, or PSYC 2003. (Typically offered: Fall, Spring and Summer)

CIED 3033. Classroom Learning Theory. 3 Hours.
A survey of the major theories of learning with special emphasis on human learning and implications for education. Field experience required. Prerequisite: CIED 1013; or MUED 2012; or PHED 1003; or AGED 1123; or PSYC 2003. (Typically offered: Fall, Spring and Summer)

CIED 3033H. Honors Classroom Learning Theory. 3 Hours.
A survey of the major theories of learning with special emphasis on human learning and implications for education. Field experience required. Prerequisite: Honors standing and (CIED 1013; or MUED 2012; or PHED 1003; or AGED 1123; or PSYC 2003). (Typically offered: Fall, Spring and Summer)

CIED 3053. The Emerging Adolescent. 3 Hours.
This course is a study of the developmental characteristics (social, emotional, physical, moral, and intellectual) of early adolescents (ages 10-15 years). The implications of these changes for motivation, instruction, learning, and classroom management in the classroom are emphasized. Course has field component. Prerequisite: CIED 1013. (Typically offered: Fall and Spring)

CIED 3083. Arts Integration in the Classroom. 3 Hours.
Content course in arts integration including the pedagogy, design, and implementation of lesson plans which teach skills through the visual and performing arts to students. (Typically offered: Fall)

CIED 3103. Children and Adolescent Literature. 3 Hours.
A survey of children's literary works, authors, and illustrators with emphasis on elementary grade and adolescent literature. Prerequisite: CHEDBS or EELBS or HDFSBS BRKD or HDFSBS CDEV or PSPED major. (Typically offered: Fall and Spring)

CIED 3103H. Honors Children and Adolescent Literature. 3 Hours.
A survey of children's literary works, authors, and illustrators with emphasis on elementary grade and adolescent literature. Corequisite: CIED 3113. Prerequisite: CHEDBS or EELBS major and honors. (Typically offered: Fall and Spring)

CIED 3113. Emergent Literacy. 3 Hours.
An understanding of emergent literacy development through a study of science-based literacy pedagogy and practical field experiences. Prerequisite: ENGL 1013, ENGL 1023, CIED 2943 and CHEDBS or EELBS or HDFSBS BRKD or HDFSBS CDEV or SPEDBS major. (Typically offered: Fall and Spring)

CIED 3113H. Honors Emergent Literacy. 3 Hours.
This course focuses on theories of children's emerging literacy and on the continuing development of literacy abilities in pre-kindergarten and early elementary years. Field experience required. Prerequisite: ENGL 1013, ENGL 1023, and CIED 3262, CHEDBS or EELBS major and honors. (Typically offered: Fall and Spring)

This course is equivalent to CIED 3113.
CIED 3123. Mathematics Methods in the K-6 Classroom. 3 Hours.  
An examination of the content of elementary mathematics courses. Special  
emphasis given to methods of teaching the content as well as enrichment materials.  
Prerequisite: MATH 1203, MATH 2213, MATH 2223, STAT 2303, and CHEDBS or  
ELELBS major. (Typically offered: Fall and Spring)

CIED 3133. Integrated Social Studies for the K-6 Classroom. 3 Hours.  
Focuses on the methodology of facilitating elementary students’ development in  
language arts and social studies. Integrates the curriculum and teaching strategies  
in language arts and social studies. Prerequisite: CHEDBS or ELELBS major, and  
PLSC 2003 and HIST 2003 and HIST 2013, and (HIST 1113 or HIST 1123), and  
(GEOS 1123 or ANTH 1023), and (ECON 3053 or ECON 2143), and ARHS 1003,  
and MLIT 1003. (Typically offered: Fall and Spring)

CIED 3143. Teaching Science in the Elementary Grades. 3 Hours.  
Study of the methods and materials in teaching science. Classroom applications  
of teaching strategies with analysis of teacher effectiveness in seminar settings are  
emphasized. Prerequisite: (BIOL 1543 and BIOL 1541L), and (GEOS 1113 and  
GEOS 1111L), and (PHYS 1034 or ASTR 2003 and ASTR 2001L), and CHEDBS or  
ELELBS major. (Typically offered: Fall and Spring)

CIED 3262. Language Development for the Educator. 2 Hours.  
Nature of speech-language development in preschool and school-aged children,  
including cognitive prerequisites, social contexts, and relationships between  
language acquisition and literacy. Language differences (dialectal, bilingual) and  
speech-language disorders are explored. The role of the educator in facilitating  
language acquisition is emphasized. Prerequisite: CHEDBS or ELELBS major.  
(Typically offered: Fall and Spring)

CIED 3453. Developmental Literacy, 3 Hours.  
A deep and comprehensive application of the development of literacy skills from  
decoding to fluent, comprehending readers. Field experience required. Prerequisite:  
CIED 2943, CIED 3113, and admission into ELELBS or CHEDBS programs.  
(Typically offered: Fall and Spring)

CIED 3453H. Honors Developmental Literacy. 3 Hours.  
A deep and comprehensive application of the development of literacy skills from  
decoding to fluent, comprehending readers. Field experience required. Prerequisite:  
CIED 2943, CIED 3113, admission into ELELBS or CHEDBS programs, and honors  
standing. (Typically offered: Fall and Spring)

CIED 3901H. Honors Curriculum and Instruction Education Thesis Tutorial. 1  
Hour.  
Designed to provide the foundation for the Honors Thesis. Students and faculty  
tutors work ‘one-on-one’ exploring a specific topic which has been agreed upon  
by the student and the professor. Prerequisite: Honors candidacy and CATEBS,  
CHEDBS, EDSTBS, EGEDBA, ELELBS, FREDBA, GREDBA, SNEDBA, SPEDBS,  
or SSEDBA majors. (Typically offered: Fall, Spring and Summer)

CIED 4003. Elementary Seminar. 3 Hours.  
This course is designed to synthesize the foundational content presented in the  
Bachelor of Science in Education, Elementary Education program. It focuses on  
refinement of generalized knowledge to accommodate specialized content relevant  
to elementary students. Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS  
major. (Typically offered: Fall)

CIED 4013. Capstone Course for Foreign Language Licensure. 3 Hours.  
This course is designed to identify and provide evidence of content language specific  
proficiencies in the four skills of reading, writing, listening, and speaking a foreign  
language. (Typically offered: Spring)

CIED 4023. Teaching in Inclusive Secondary Settings. 3 Hours.  
This course is designed to prepare pre-service teachers to teach in inclusive  
classroom settings at the secondary level. Course content will focus on the ways in  
which exceptionally, specifically focused on high-incidence disabilities and culture,  
specifically focused on English language learners mediate the learning experiences  
of secondary level students. (Typically offered: Summer)

CIED 4083. Creativity in Daily Practice. 3 Hours.  
Arts integration course including the ideas, design, and implementation of practices  
in the classroom, board room, and professional field that enrich the experiences  
of all stakeholders while building right-brain thinking skills for the new millennium.  
(Typically offered: Spring Even Years) May be repeated up to 6 hours of degree  
credit.

CIED 4101. Practicum. 1 Hour.  
Practicum. Corequisite: CIED 3133. (Typically offered: Spring)

CIED 4113. Integrated Communication Skills for the K-6 Classroom. 3 Hours.  
Focuses on the methodology of facilitating elementary students’ literacy  
development. Emphasis is on the integration of the communication skills of reading,  
writing, speaking, and listening across the curriculum. Prerequisite: COMM 1313 or  
COMM 2323 and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4113H. Honors Integrated Communication Skills for the K-6 Classroom. 3  
Hours.  
Focuses on the methodology of facilitating elementary students’ literacy  
development. Emphasis is on the integration of the communication skills of reading,  
writing, speaking, and listening across the curriculum. Prerequisite: COMM 1313 or  
COMM 2323 and CHEDBS or ELELBS major and honors. (Typically offered: Fall  
and Spring)

CIED 4123. Literacy Assessment and Interventions in the Elementary  
Classroom. 3 Hours.  
An undergraduate course focusing on literacy assessment and intervention for  
prospective classroom teachers. Participants become familiar with assessment  
procedures and instruments for identifying student strengths and weaknesses in  
literacy, determining effective intervention strategies for literacy improvement,  
and principles of reporting assessment and intervention outcomes. Corequisite:  
CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4131. Practicum for Secondary and Multilevel Tracks in Education. 1  
Hour.  
This practicum is a requirement for entry into the EDUC MA, Master of Arts in  
Teaching program. Students will be involved in documented experiences with  
children for a minimum of 60 hours in grades K-12. Students enrolled in the  
multilevel track will be placed in a combination of elementary, middle, and high  
level settings. Students enrolled in the secondary track will be placed in a  
combination of middle and high school settings. Prerequisite: Cleared background  
check. (Typically offered: Spring and Summer)

CIED 4133. Measurement and Research in the K-6 Classroom. 3 Hours.  
This course is designed to provide an introduction to educational assessment,  
research methods, and what research has to say about trends and topics in  
elementary education. Prerequisite: CHEDBS or ELELBS major. (Typically offered:  
Summer)

CIED 4143. Curriculum Design and Applications of Instructional Practice. 3  
Hours.  
A course in the design and adaptation of curriculum for students in regular,  
elementary classrooms. Theoretical bases and curriculum models will be reviewed.  
Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered:  
Spring)

CIED 4153. Classroom Management in the Elementary Grades. 3 Hours.  
This course focuses on a number of different management techniques for  
elementary classrooms that can be used in general education settings. Prerequisite:  
CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4163. Senior Project. 3 Hours.  
This course is designed to provide students with the research skills necessary to  
complete their senior project. Prerequisite: CHEDBS or ELELBS major. (Typically  
offered: Summer)
CIED 4173. Student Teaching. 3 Hours.
Full-time student teaching in grades K-6 to be repeated both fall and spring semesters. Students will practice and master instructional strategies under the supervision of qualified mentor teachers and university faculty members. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

CIED 4183. Instruction and Assessment of Writing. 3 Hours.
Develop knowledge, skills and dispositions about writing processes, genres, and pedagogy. Field experience required. Prerequisite: CIED 2943, CIED 3113, CIED 3453, and admission into CHEDBS or ELELBS programs. (Typically offered: Fall and Spring)

CIED 4286. Teaching Experience. 6 Hours.
The teaching experience is an essential component of the Bachelor of Arts in Teaching degree. The two semester experience allows Teacher Candidates (TC) to make further application of theoretical principles of teaching and learning. Teacher Candidates will be assigned placement in area schools for both fall and spring semesters. Teacher candidates are placed in K-12 or 7-12 levels depending on their content area for licensure. The fall semester consists of a field experience including observation, co-planning, and co-teaching. The spring semester consists of an immersion experience for teacher candidates to plan and teach independently. Prerequisite: Admission to the B.A.T. program. (Typically offered: Spring) May be repeated for up to 12 hours of degree credit.

CIED 4323. Instructional Design for Teachers. 3 Hours.
Study of the design of instruction for students with exceptionalities. Emphasis is placed on synthesizing a broad range of existing and emerging perspectives and methods of instruction and applying them to practical classroom practice. Prerequisite: CIED 3023 and CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4363. Disciplinary Literacy in the K-6 Classroom. 3 Hours.
Focuses on the methodology of extending K-6 learners’ basic literacy development, as a foundation for intermediate and disciplinary literacy. Emphasis is on the engagement of students in the distinct reading, writing, speaking, and listening requirements of different disciplines. Prerequisite: CIED 3113 and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4403. Understanding Cultures in the Classroom. 3 Hours.
This course provides pre-and in-service teachers knowledge and skills necessary for educating ethnically and linguistically diverse classrooms. Students have the opportunity to understand positive relationships while removing stereotypes and prejudices. It addresses issues for social justice education through understanding ways that children learn and communicate in their homes and communities. Students will examine how topics in multicultural education inform instructional goals, curriculum planning/implementation, and teaching practices across content areas in public K-12 classrooms. Some sections of this course will contain a service learning component. (Typically offered: Fall)

CIED 4413. Acquiring a Second Language. 3 Hours.
The course gives an introduction to the basics in research and learning theories involved in the acquisition of second languages and cultures, particularly of English. (Typically offered: Spring)

CIED 4423. Teaching English as a Second Language. 3 Hours.
This course is designed to provide teacher candidates with the basic knowledge and teaching skills necessary to address the linguistic needs of English language learners (ELLs) in regular classrooms. The students in this class will learn about and use multiple strategies for promoting ELLs’ reading, writing, listening, and speaking skills. Emphasis will be placed especially on differentiating early reading instruction for ELLs. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Spring)

CIED 4433. The Moral Mind in Action. 3 Hours.
The Moral Mind in Action explores how people reason through moral dilemmas and prepares students to more effectively recognize and resolve moral problems. Best practices of teachers and administrators of K-16 character education programs are discussed. (Typically offered: Fall)

CIED 4443. Moral Courage. 3 Hours.
Moral Courage explores the factors that support translating moral thinking into moral action. This course draws from the field of positive psychology to guide students as they leverage existing strengths and develop new strategies for acting with moral courage in their personal and professional lives. Best practices of teachers and administrators of K-16 character education programs are discussed. (Typically offered: Spring)

CIED 4463. Culture and Learning. 3 Hours.
Culture, its meanings, dimensions, and manifestations are explored in this course. How these cultural elements impact perceptions of students, classroom practices, and educational processes are explored in this course. A strength-based approach is employed to explore the issues associated with including all students within classrooms. (Typically offered: Fall, Spring and Summer)

CIED 4503H. Honors Charles Darwin and the Legacy of Evolution. 3 Hours.
This highly integrated honors class draws on various perspectives to examine the life of Charles Darwin and the legacy and impact of evolution. Topics and guest instructors change each semester, but the course will focus on evolution from the perspectives of biology, anthropology, the law, philosophy, history, culture and literature. (Typically offered: Spring Even Years)

CIED 4513. Teaching Children with Mild Disabilities. 3 Hours.
This course is a study of the characteristics of young students with disabilities and methods for teaching this group of students. The course will provide future teachers with an understanding of interventions useful in teaching individuals with special learning needs during grades P-4. (Typically offered: Fall and Spring)

CIED 4523H. Honors Teaching Children with Severe Disabilities. 3 Hours.
This course is a study of the characteristics of young students with severe disabilities and methods for teaching this group of students. The course will provide future teachers with an understanding of interventions useful in teaching individuals with special learning needs during grades P-4. (Typically offered: Spring and Summer)

CIED 4533. Reading Comprehension Through Children’s and Adolescent Literature. 3 Hours.
An examination of the major genres of children and adolescent literature to develop and extend K-6 students’ skills in reading comprehension. Field experience required. Prerequisite: CIED 2943, CIED 3113, CIED 3453, and admission into CHEDBS or ELELBS programs. (Typically offered: Fall and Spring)

CIED 498VH. Curriculum and Instruction Honors Thesis/Project. 1-3 Hours.
Designed to provide facilitation of the Honors Thesis/Project. Students and faculty work ‘one-on-one’ to complete the honors thesis/project. Prerequisite: Honors candidacy, CIED 3901H, and CATEBS, CHEDBS, EDSTBS, EGEDBA, ELELBS, FREDBA, GREDBA, SNEDBA, SPEDBS, or SSDBA major. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

CIED 499V. Special Topics in Curriculum and Instruction Education. 1-6 Hours.
Discussion and advanced studies on selected topics in curriculum and instruction. Special focus on recent and emerging topics in education. (Typically offered: Fall, Spring and Summer) May be repeated for up to 18 hours of degree credit.

CIED 499VH. Honors Special Topics in Curriculum and Instruction Education. 1-3 Hour.
Discussion and advanced studies on selected topics in curriculum and instruction. Special focus on recent and emerging topics in education. (Typically offered: Fall, Spring and Summer) This course is equivalent to CIED 499V.
Communication Sciences and Disorders (CDIS)

An undergraduate major in communication sciences and disorders leads to the B.S. degree and prepares students for graduate studies (master’s level) in speech-language pathology and/or the professional doctorate in audiology. The minimum requirements for all students in the college are listed under general studies (p. 675).

Admission to the B.S. Major Degree Program in Communication Sciences and Disorders is competitive and consists of a three-stage process. Students must apply for formal admission and be accepted to the undergraduate B.S.E. degree program in Communication Sciences and Disorders prior to taking junior- and senior-level classes in the major.

Stage I: Pre-Communication Sciences and Disorders (PCDIS)

All students declaring a major in communication sciences and disorders are accepted as tentative candidates to the undergraduate program and assigned the pre-communication code - PCDIS.

The PCDIS program includes:

1. Complete all program pre-requisites courses.
2. Obtain a minimum cumulative grade-point average of 3.0 on all college level coursework.
3. Complete the following courses with a “C” or better: ENGL 1013, MATH 1203, and COM 1313.
4. Obtain passing scores on the Core Academic Skills for Educator: Math, Reading, and Writing sections of the Praxis Core Exam.

Students who do not meet admission criteria for the B.S. degree program in communication sciences and disorders in any given year may reapply in subsequent years.

Stage II: Admission to the Communication Sciences and Disorders Program (CDIS)

Admission to the Communication Sciences and Disorders Program is competitive and occurs after completion of all Pre-Communication Sciences and Disorders requirements and prior to the beginning of the fall semester of the junior year.

Applications to the Communication Sciences and Disorders (CDIS) program must be submitted by January 30th.

The application process includes:

2. Submission of transcripts for all coursework
3. Submission of passing score on Math, Reading, and Writing sections of Praxis Core Exam
4. Satisfactory completion of an admission interview with designated faculty

As a result of the competitive process, not all applicants meeting the minimum requirements will be admitted to the program.

Stage III: Requirements for Program Continuation and Completion

1. Maintain a minimum cumulative GPA of 3.0.
2. In order to enroll in CDIS 4001 Clinical Practicum: Undergraduate, students must have an overall GPA of 3.0 in the following courses: CDIS 2253, CDIS 3124, CDIS 3213, CDIS 3223, CDIS 3203, CDIS 4223 and a “B” in CDIS 3233. Clinical Practice is an elective for undergraduates and is taken for course credit hours, not a grade.
3. Meet all university requirements for graduation.

Requirements for Communication Sciences and Disorders (CDIS)

University Core (State Minimum Core) 35

Of which Communication Sciences and Disorders requires the following specific courses:

Communication Sciences and Disorders B.S.
Eight-Semester Plan

All CDIS students are accepted as tentative candidates and thus not eligible for the eight-semester degree plan. Students must apply for formal admission to the undergraduate B.S. degree program in CDIS prior to taking junior- and senior-level classes in the major. However, students who qualify to finish a degree in four years can follow the suggested order of classes below.

Communication Sciences and Disorders (CDIS)

Year Total: 15 15

Total Units in Sequence: 120

1 Must meet University Core requirements (http://catalog.uark.edu/undergra...requirements/universitycore/).
2 Required Social Science Core for CDIS majors.
3 CDIS 498VH: Option only for students successfully completing Honors Program.

Bowers, Andrew L., Ph.D. (University of Tennessee Health Science Center), M.A., B.A. (University of Tennessee), Associate Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2012.

Bowers, Lisa Marie, Ph.D. (University of Tennessee Health Science Center), M.A., B.A. (Louisiana State University), Associate Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2012.

Frazier, Kimberly Frances, Ph.D. (University of South Carolina–Columbia), M.S., B.S.E. (University of Arkansas), Associate Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2007.

Glade, Rachel E., Ph.D. (University of Arkansas), M.S. (University of Arkansas for Medical Sciences), M.A. (University of Arkansas), B.S. (University of Arkansas at Little Rock), Assistant Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2015.

Haghighi, Mohammad, Ph.D. (Ohio University), Assistant Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2019.

Hagstrom, Fran W., Ph.D. (Clark University), M.S. (University of Texas Health Science Center-Houston), M.A. (St. Louis University), B.A. (Southwest Baptist University), Associate Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2002.

Hoffield, Christine, Ph.D. (Pennsylvania State University), M.A. (University of Kansas), B.S. (Central Michigan University), Assistant Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2017.

Holyfield, Christine E., Ph.D. (Pennsylvania State University), M.A. (University of Kansas), B.S. (Central Michigan University), Assistant Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2017.

Perry, Kim, M.S. (University of Arkansas), Instructor, Department of Rehabilitation, Human Resource and Communication Disorders, 2007.

Courses

CDIS 2233. Introduction to Communicative Disorders. 3 Hours.
An introductory course which surveys the professional interests of speech-language pathology and audiology with specific attention to the general recognition and classification of disorders of speech, language, and hearing, and general trends in rehabilitation. Consideration given to the classroom teacher's involvement in communication disorders. (Typically offered: Fall and Spring)

CDIS 2903H. Honors Introduction to Research in Communication Sciences and Disorders. 3 Hours.
This course introduces students to the research process in the field of communication sciences and disorders. Prerequisite: Acceptance into the COEHP Honors Program and instructor consent. (Typically offered: Fall and Spring)

CDIS 3103. Introduction to Audiology. 3 Hours.
Introduction to the basic concepts for administering and interpreting hearing tests, including the anatomy and physiology of the auditory system, disorders of the ear, and techniques for administering and interpreting basic pure tone threshold tests. Corequisite: PHYS 1023 and PHYS 1021L, PHYS 2013 and PHYS 2011L or CHEM 1073 and CHEM 1071L. Prerequisite: CDISBS major or departmental consent. (Typically offered: Fall and Spring)

CDIS 3103H. Honors Introduction to Audiology. 3 Hours.
Introduction to the basic concepts for administering and interpreting hearing tests, including the anatomy and physiology of the auditory system, disorders of the ear, and techniques for administering and interpreting basic pure tone threshold tests. Corequisite: PHYS 1023 and PHYS 1021L, PHYS 2013 and PHYS 2011L or CHEM 1073 and CHEM 1071L. Prerequisite: CDISBS major and honors standing, or departmental consent. (Typically offered: Fall and Spring)

This course is equivalent to CDIS 3103.

CDIS 3124. Normal Phonology and Articulatory Process. 4 Hours.
Analysis of the English speech sounds as a basis for speech improvement; physiological positions and movements; acoustic qualities and transcription in the international phonetic alphabet. Corequisite: Lab component. Prerequisite: CDISBS major or departmental consent. (Typically offered: Fall)

CDIS 3203. Articulation Disorders. 3 Hours.
A study of the definition, etiology, pathology, and treatment procedures of problems of articulation. Prerequisite: CDIS 3214, CDIS 3213 and CDISBS major or departmental consent. (Typically offered: Spring)

CDIS 3213. Anatomy of Physiology of the Speech and Hearing Mechanisms. 3 Hours.
Structure and function of the organic mechanisms responsible for speech, language, and audition. Pre or Corequisite: BIOL 1543 and BIOL 1541L or higher. Prerequisite: CDISBS major or departmental consent. (Typically offered: Fall)

CDIS 3223. Language Development in Children. 3 Hours.
Study of typical development of speech and language functions for communicative purposes in children from infancy to early school-age years, including the major components of language as well as the social, cognitive, biological and cultural factors related to language acquisition. Pre- or Corequisite: PSYC 2003. Prerequisite: CDISBS major or departmental consent. (Typically offered: Fall)

CDIS 3223H. Honors Language Development in Children. 3 Hours.
Study of typical development of speech and language functions for communicative purposes in children from infancy to early school-age years, including the major components of language as well as the social, cognitive, biological, and cultural factors related to language acquisition. Pre- or Corequisite: PSYC 2003. Prerequisite: Honors candidacy and CDISBS major or departmental consent. (Typically offered: Fall)

This course is equivalent to CDIS 3223.

CDIS 3233. Introduction to Clinical Practice. 3 Hours.
An introduction to the various aspects of clinical operations including technical and interpersonal relationship skills necessary for case management and a survey of professional standards. Pre- or Corequisite: COMM 1313. Prerequisite: CDISBS major or departmental consent. (Typically offered: Fall and Spring)

CDIS 3233H. Honors Introduction to Clinical Practice. 3 Hours.
An introduction to the various aspects of clinical operations including technical and interpersonal relationship skills necessary for case management and a survey of professional standards. Pre- or Corequisite: COMM 1313. Prerequisite: Honors standing and CDISBS major or departmental consent. (Typically offered: Fall and Spring)
CDIS 3253. Cultural Diversity in Communication Disorders. 3 Hours.
An introduction to various cultures, customs, and professional standards in health-related fields that helps to develop intercultural communication skills necessary to manage the increasingly diverse case loads of health-related professionals. Pre- or Corequisite: COMM 1313. Prerequisite: CDISBS major or departmental consent. (Typically offered: Fall)

CDIS 3901H. Honors Communication Disorders Thesis Tutorial. 1 Hour.
Designed to provide the foundation for the Honors Thesis/Project. Students and faculty tutors work ‘one-on-one’ exploring a specific topic which has been agreed upon by the student and the professor. Prerequisite: Honors candidacy and CDISBS major. (Typically offered: Fall, Spring and Summer)

CDIS 3923H. Honors Colloquium. 3 Hours.
Treats a special topic or issue, offered as part of the honors program. Prerequisite: Honors candidacy (not restricted to candidacy in speech or dramatic art). (Typically offered: Irregular) May be repeated for degree credit.

CDIS 399VH. Honors Course. 1-6 Hour.
Honors course. Prerequisite: Junior standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

CDIS 4003. Clinical Practicum Undergrad. 3 Hours.
Enter-level training in speech-language clinical practicum activities. This course is taken for satisfactory or unsatisfactory credit. Prerequisite: Admitted to the Communication Sciences and Disorders (CDISBS) major, CDIS 3213, CDIS 3223 and CDIS 3233, plus satisfactory completion of specific program requirements for admission to clinical practice. (Typically offered: Fall and Spring)

CDIS 4003H. Honors Clinical Practicum Undergrad. 3 Hours.
Enter-level training in speech-language clinical practicum activities. This course is taken for satisfactory or unsatisfactory credit. Prerequisite: Honors standing, admitted to the Communication Sciences and Disorders (CDISBS) major, CDIS 3213, CDIS 3223 and CDIS 3233, plus satisfactory completion of specific program requirements for admission to clinical practice. (Typically offered: Fall and Spring)

This course is equivalent to CDIS 4003.

CDIS 4103. Sign Language and Deafness. 3 Hours.
An introduction to American Sign Language (ASL) and the Deaf Community that uses it. This class will study expressive and sign language skills using ASL vocabulary, structure and grammar. The Deaf Community will be studied through videotapes and readings. Issues in Deaf Education will also be introduced. (Typically offered: Fall, Spring and Summer)

CDIS 4133. Introduction to Aural Rehabilitation. 3 Hours.
Study of the technique used in the rehabilitation of speech and language problems of the hearing impaired including the role of amplification, auditory training, and speech reading in rehabilitation. Prerequisite: CDIS 3103. (Typically offered: Spring)

CDIS 4183. Clinical Assessment of Speech and Language Disorders. 3 Hours.
Study of the basic diagnostic procedures used in speech-language pathology. Emphasis is placed on the clinical processes of assessment, including criteria for test selection, techniques in test administration, and interpretation of test. Pre- or Corequisite: Prior coursework in CDIS and ANTH 1023. Prerequisite: CDISBS major or departmental consent. (Typically offered: Spring)

CDIS 4213. Introduction to Speech and Hearing Science. 3 Hours.
Study of the acoustic structure of oral speech and the auditory skills underlying speech perception. Prerequisite: CDIS 3203, CDIS 3213, CDIS 3124 and its lab component and CDISBS major or departmental consent. Pre- or Corequisite: MATH 1203 or higher. (Typically offered: Spring)

CDIS 4223. Language Disorders in Children. 3 Hours.
Study of disorders of language acquisition and usage in children and adolescents, with emphasis upon the nature, assessment, and treatment of such disorders. Prerequisite: CDIS 3223 and CDISBS major or departmental consent. (Typically offered: Spring)

CDIS 4223H. Honors Language Disorders in Children. 3 Hours.
Study of disorders of language acquisition and usage in children and adolescents, with emphasis upon the nature, assessment, and treatment of such disorders. Prerequisite: CDIS 3223 and CDISBS major and honors standing or departmental consent. (Typically offered: Spring)

This course is equivalent to CDIS 4223.

CDIS 4253. Neurological Bases of Communication. 3 Hours.
A study of the structures and functions of the central and peripheral nervous systems as they relate to human speech, language, and cognition. Prerequisite: CDIS 3213 and CDISBS major or departmental consent. (Typically offered: Fall)

CDIS 4253H. Honors Neurological Bases of Communication. 3 Hours.
A study of the structures and functions of the central and peripheral nervous systems as they relate to human speech, language, and cognition. Prerequisite: CDIS 3213, honors standing, and CDISBS major or departmental consent. (Typically offered: Fall)

This course is equivalent to CDIS 4253.

CDIS 4263. Advanced Audiology. 3 Hours.
Study of the basic techniques used in audiological assessment of children and adults, including pure tone audiometry, speech audiometry, and special tests of hearing function. Prerequisite: CDIS 3103. (Typically offered: Fall)

CDIS 4273. Communication Behavior and Aging. 3 Hours.
Study of the effects upon communication of normal aspects of the aging process, from early adulthood through the lifespan. Changes in speech, language, and hearing functioning are identified; common alterations in communicative disorders commonly associated with advanced age are discussed. Prerequisite: CDISBS major or departmental consent. (Typically offered: Fall)

CDIS 4273H. Honors Communication Behavior and Aging. 3 Hours.
Study of the effects upon communication of normal aspects of the aging process, from early adulthood through the lifespan. Changes in speech, language, and hearing functioning are identified; common alterations in communicative disorders commonly associated with advanced age are discussed. Prerequisite: CDISBS major and honors standing, or departmental consent. (Typically offered: Fall)

This course is equivalent to CDIS 4273.

CDIS 490V. Special Problems. 1-3 Hour.
Special problems. Prerequisite: Advanced standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

CDIS 496VH. Honors Communication Disorders Thesis/Project. 1-3 Hour.
Designed to provide facilitation of the Honors Thesis/Project. Students and faculty work ‘one-on-one’ to complete the honors thesis/project. Prerequisite: Honors candidacy, CDISBS major, and CDIS 3901H. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

Curriculum and Instruction (CIED)
Cheryl Murphy
Department Head
216 Peabody Hall
479-575-4209
Email: cmurphy@uark.edu

Curriculum and Instruction Website (https://cied.uark.edu/)

The Department of Curriculum and Instruction sponsors initial teacher licensure programs in the areas of career and technical education (p. 681), elementary education (p. 727), childhood education (p. 689) and special education (p. 774). The department also offers additional licensure plans in ESL, gifted and talented, special education and selected other areas (please see College Web Site licensure link). The Special Education Program also offers a Graduate Certificate in
Autism Spectrum Disorders (ASD) as well as a Graduate Certificate in STEM education for Childhood Education candidates.

Five teacher licensure majors also lead to Bachelor of Arts in Teaching degrees: English Education (p. 733), French Education (p. 740), German Education (p. 745), Social Sciences Education (p. 764) and Spanish Education (p. 769). Additional secondary school licensure programs are made available with the cooperation of the Department of Health Science, Kinesiology, Recreation, and Dance; the Department of Rehabilitation, Human Resources and Communication Disorders; the Fulbright College of Arts and Sciences; and the Dale Bumpers College of Agricultural, Food and Life Sciences.

The department offers a non-licensure program in educational studies (p. 710) for students wishing to focus on general theory and practice of learning and teaching. This major gives students the cognitive ability to apply teaching strategies to a variety of employers in private sector businesses, nonprofit organizations, and community agencies.

The department also offers a minor in Secondary Mathematics and/or Science Teacher Education (p. 780) through the UAVTeach program.

### B

**Barth, Daniel**, Ph.D., M.A. (Claremont Graduate University), B.S. (Eureka College), Assistant Professor, 2014.

**Beasley, Jennifer G.**, Ed.D. (University of Virginia), M.A. (Wichita State University), B.A. (Kansas State University), Clinical Associate Professor, 2009.

**Beauchemin, Faythe**, Ph.D. (Ohio State University), M.Ed. (Boston College), B.S. (Lesley University), Associate Professor, 2019.

**Beck, Dennis E.**, Ph.D. (University of Florida), B.S. (Pennsylvania State University), Associate Professor, 2010.

**Bell, Karmen V.**, M.Ed. (Indiana Wesleyan University), Clinical Instructor, 2015.

**Bell, Kathrynn M.**, Ph.D. (University of Pittsburgh), Lecturer, 2019.

**Bengtson, Ed.**, Ph.D. (University of Virginia), Ed.S. (George Washington University), M.A. (California State University-Sacramento), B.S. (Pennsylvania State University), Assistant Professor, 2010.

**Blair, Alissa**, Ph.D. (University of Wisconsin-Madison), M.Ed. (University of Notre Dame), B.A. (Saint Mary’s College), Assistant Professor, 2020.

**Bowles, Freddie A.**, Ph.D., M.A. (University of Arkansas), B.A. (Arkansas State University), Associate Professor, 2004.

**Brady, Kevin P.**, Ph.D. (University of Illinois-Champaign-Urbana), M.A. (Columbia University), B.A. (Binghamton University), Associate Professor, 2014.

**Burks, Lizette Anita**, Ed.D. (University of Kansas), Instructor, 2019.

### C

**Carter, Vinson R.**, Ph.D., M.A.T., B.S. (University of Arkansas), Associate Professor, 2008.

**Collet, Vicki S.**, Ph.D. (State University of New York at Buffalo), M.A. (University of Northern Colorado), B.A. (University of Utah), Associate Professor, 2012.

**Collins, Jamie**, Ph.D. (University of New Mexico-Albuquerque), Instructor, 2019.

**Collins, Kathleen**, Ph.D., M.A., B.A. (University of California-Santa Barbara), Professor, 2002.

**Connors, Sean P.**, Ph.D. (The Ohio State University), M.S. (Elmira College), B.A. (SUNY Geneseo), Associate Professor, 2010.
McComas, Kim Krusen, Ph.D. (University of Arkansas), M.A. (West Chester University of Pennsylvania), B.A. (University of Arizona), Teaching Assistant Professor, 2012.
McComas, William, Ph.D. (University of Iowa), M.S. (West Chester University of Pennsylvania), B.S. (Lock Haven University of Pennsylvania), Distinguished Professor, 2006.
Mears, Derrick, Ph.D. (University of Arkansas), M.S., B.S. (University of Central Missouri), Teaching Associate Professor, 2014.
Mounts, Denise Ann, Ed.D. (Saint Louis University), B.S.E. (Northwest Missouri State University), Clinical Associate Professor, 2005.
Murphy, Cheryl Ann, Ed.D., M.A., B.A. (West Virginia University), Professor, 1996.

N
Norwood, Demeka L., Ph.D. (University of Missouri), Lecturer, 2019.

O
Ogilvie, Christine R., Ph.D. (University of Central Florida), Lecturer, 2019.
Orr, Betsy, Ed.D., M.Ed. (University of Arkansas), B.A. (University of Arkansas at Monticello), Associate Professor, 1989.
Owen, Donna S., M.S., B.S., B.A. (University of Arkansas), Clinical Instructor, 2005.

P
Penner-Williams, Janet, Ed.D., M.Ed., B.S.E. (University of Houston), Associate Professor, 2005.
Pijanowski, John C., Ph.D., M.S. (Cornell University), B.A. (Brown University), Professor, 2007.

R
Ralston, Christine R., Ph.D. (Purdue University), M.Ed., B.S. (Indiana Wesleyan University), Clinical Assistant Professor, 2015.

S
Schafer-Whitby, Peggy, Ph.D. (University of Central Florida), M.A. (University of Houston-Clear Lake), B.A. (St. Cloud State University), Associate Professor, 2012.
Slocum, Megan M., Ed.D. (Harding University), Lecturer, 2019.
Smith, Christy L., Ed.D., Ed.S., M.S.E., B.S.E. (University of Arkansas), Clinical Assistant Professor, 2019.
Smith, Tom E.C., Ed.D. (Texas Tech University), M.Ed., B.S.E. (University of Mississippi), University Professor, 2002.
Speight, Dana Renee, Ph.D. (University of Arkansas), Research Associate, 2019.

T
Terrell, Joyce E., Ph.D. (University of Arkansas), Instructor, 2019.

W
Ward, Peggy, Ph.D. (University of Arkansas), M.S. (Texas A&M University), B.S.Ed. (Southern Arkansas University), Clinical Assistant Professor, 2010.
Watson, Angela R., Ph.D. (University of Arkansas), Lecturer, 2019.
Wishehr, Cathy, Ed.D. (University of Missouri-Columbia), M.N.S.Ed., B.S. (Southeast Missouri State University), Clinical Associate Professor, 2009.

Y
Young, Heather D., Ph.D. (University of Arkansas), M.S. (University of Tennessee), B.S. (Arkansas Tech University), Associate Professor, 2007.

Courses
CIED 1003. Introduction to Technology in Education. 3 Hours.
A study of computer technology as it relates to teacher education. This course introduces students interested in teacher education to the knowledge and skills required to demonstrate their proficiency in technology and learning. (Typically offered: Fall, Spring and Summer)

CIED 1013. Introduction to Education. 3 Hours.
Integrates psychological, sociological, and philosophical foundations of education with concurrent involvement in field experiences. Encourages prospective teachers to become reflective practitioners by emphasizing organization of school systems, planning and implementation of effective classroom environments, development of teaching styles, and new directions in education. An 18-hour early field experience designed to give prospective teachers opportunities to observe and participate in a variety of school settings is incorporated in this introductory course to education. (Typically offered: Fall and Spring)

CIED 2173. Literacy in America. 3 Hours.
A course that examines the myriad definitions of literacy (and illiteracy) and their connections to issues of social class, occupational status, economic and political structures, educational institutions, cultural organizations, and the media. (Typically offered: Fall and Spring)
This course is cross-listed with ENGL 2173.

CIED 2943. Foundations of Language and Literacy. 3 Hours.
A foundational study of language and literacy with an emphasis on content knowledge for teachers that is essential to the components and principles of science-based literacy. (Typically offered: Fall and Spring)

CIED 3001. Early Childhood Education Practicum. 1 Hour.
This practicum course provides opportunities for students to observe and practice providing instruction and guidance in preschool settings. Corequisite: CIED 3003. (Typically offered: Fall, Spring and Summer)

CIED 3003. Early Childhood Education. 3 Hours.
The study of kindergarten and preschool programs: social context of early childhood education, purposes, research basis, curriculum development, methods, and materials. Corequisite: CIED 3001. Prerequisite: CIED 1013. (Typically offered: Spring and Summer)

CIED 3013. Development and Learning Theories in the K-6 Classroom. 3 Hours.
This course allows students to cultivate an understanding of how elementary students develop, process information, and learn; studies educational applications pertaining to theories of development, intelligence, and thinking dispositions. Students study various learning theories, their implications for instruction, and their role in the K-6 classroom. Field experience required. Prerequisite: CHEDBS or EELBS major. (Typically offered: Fall and Spring)

CIED 3013H. Honors Development and Learning Theories in the K-6 Classroom. 3 Hours.
This course allows students to cultivate an understanding of how elementary students develop, process information, and learn; studies educational applications pertaining to theories of development, intelligence, and thinking dispositions. Students study various learning theories, their implications for instruction, and their role in the K-6 classroom. Field experience required. Prerequisite: CHEDBS or EELBS major and honors. (Typically offered: Fall and Spring)
This course is equivalent to CIED 3013.

CIED 3023. Survey of Exceptionalities. 3 Hours.
A survey of the characteristics of students with exceptional needs. Reviews the definitions of exceptionalities, learning and behavior characteristics of individuals with exceptionalities and the legal basis for the education of persons with exceptionalities in both elementary and secondary schools. Prerequisite: CIED 1013, or MUED 2012, or AGED 1123, or PSYC 2003. (Typically offered: Fall, Spring and Summer)
CIED 3023H. Honors Survey of Exceptionalities. 3 Hours.
A survey of the characteristics of students with exceptional needs. Reviews the
definitions of exceptionalities, learning and behavior characteristics of individuals
with exceptionalities and the legal basis for the education of persons with
exceptionalities in both elementary and secondary schools. Prerequisite: Honors
standing. CIED 1013, or MUED 2012, or AGED 1123, or PSYC 2003. (Typically offered:
Fall, Spring and Summer)

CIED 3033. Classroom Learning Theory. 3 Hours.
A survey of the major theories of learning with special emphasis on human learning
and implications for education. Field experience required. Prerequisite: CIED 1013;
or MUED 2012; or PHED 1003; or AGED 1123; or PSYC 2003. (Typically offered:
Fall, Spring and Summer)

CIED 3033H. Honors Classroom Learning Theory. 3 Hours.
A survey of the major theories of learning with special emphasis on human learning
and implications for education. Field experience required. Prerequisite: Honors
standing and (CIED 1013; or MUED 2012; or PHED 1003; or AGED 1123; or
PSYC 2003). (Typically offered: Fall, Spring and Summer)

CIED 3053. The Emerging Adolescent. 3 Hours.
This course is a study of the developmental characteristics (social, emotional,
physical, moral, and intellectual) of early adolescents (ages 10-15 years). The
implications of these changes for motivation, instruction, learning, and classroom
management in the classroom are emphasized. Course has field component.
Prerequisite: CIED 1013. (Typically offered: Fall and Spring)

CIED 3083. Arts Integration in the Classroom. 3 Hours.
Content course in arts integration including the pedagogy, design, and
implementation of lesson plans which teach skills through the visual and performing
arts to students. (Typically offered: Fall)

CIED 3103. Children and Adolescent Literature. 3 Hours.
A survey of children's literary works, authors, and illustrators with emphasis on
elementary grade and adolescent literature. Prerequisite: CHEDBS or ELELBS or
HDFSBS BRKD or HDFSBS CDEV or PSPED major. (Typically offered: Fall and Spring)

CIED 3103H. Honors Children and Adolescent Literature. 3 Hours.
A survey of children's literary works, authors, and illustrators with emphasis on
elementary grade and adolescent literature. Corequisite: CIED 3113. Prerequisite:
CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)
This course is equivalent to CIED 3103.

CIED 3113. Emergent Literacy. 3 Hours.
An understanding of emergent literacy development through a study of science-
based literacy pedagogy and practical field experiences. Prerequisite: ENGL 1013,
ENGL 1023, CIED 2943 and CHEDBS or ELELBS or HDFSBS BRKD or HDFSBS
CDEV or SPEDBS major. (Typically offered: Fall and Spring)

CIED 3113H. Honors Emergent Literacy. 3 Hours.
This course focuses on theories of children's emerging literacy and on the continuing
development of literacy abilities in pre-kindergarten and early elementary years.
Field experience required. Prerequisite: ENGL 1013, ENGL 1023, and CIED 3262,
CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)
This course is equivalent to CIED 3113.

CIED 3123. Mathematics Methods in the K-6 Classroom. 3 Hours.
An examination of the content of elementary mathematics courses. Special
emphasis given to methods of teaching the content as well as enrichment materials.
Prerequisite: MATH 1203, MATH 2213, MATH 2223, STAT 2303, and CHEDBS or
ELELBS major. (Typically offered: Fall and Spring)

CIED 3133. Integrated Social Studies for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' development in
language arts and social studies. Integrates the curriculum and teaching strategies
in language arts and social studies. Prerequisite: CHEDBS or ELELBS major, and
PLSC 2003 and HIST 2003 and HIST 2013, and (HIST 1113 or HIST 1123), and
(GEOS 1123 or ANTH 1023), and (ECON 3053 or ECON 2143), and ARHS 1003,
and MLIT 1003. (Typically offered: Fall and Spring)

CIED 3143. Teaching Science in the Elementary Grades. 3 Hours.
Study of the methods and materials in teaching science. Classroom applications of
teaching strategies with analysis of teacher effectiveness in seminar settings are
emphasized. Prerequisite: (BIOL 1543 and BIOL 1541L), and (GEOS 1113 and
GEOS 111L), and (PHYS 1034 or ASTR 2003 and ASTR 2001L), and CHEDBS or
ELELBS major. (Typically offered: Fall and Spring)

CIED 3262. Language Development for the Educator. 2 Hours.
Nature of speech-language development in preschool and school-aged children,
including cognitive prerequisites, social contexts, and relationships between
language acquisition and literacy. Language differences (dialectal, bilingual) and
speech-language disorders are explored. The role of the educator in facilitating
language acquisition is emphasized. Prerequisite: CHEDBS or ELELBS major.
(Typically offered: Fall and Spring)

CIED 3453. Developmental Literacy. 3 Hours.
A deep and comprehensive application of the development of literacy skills from
decoding to fluent, comprehending readers. Field experience required. Prerequisite:
CIED 2943, CIED 3113, and admission into ELELBS or CHEDBS programs.
(Typically offered: Fall and Spring)

CIED 3453H. Honors Developmental Literacy. 3 Hours.
A deep and comprehensive application of the development of literacy skills from
decoding to fluent, comprehending readers. Field experience required. Prerequisite:
CIED 2943, CIED 3113, admission into ELELBS or CHEDBS programs, and honors
standing. (Typically offered: Fall and Spring)

CIED 3901H. Honors Curriculum and Instruction Education Thesis Tutorial. 1 Hour.
Designed to provide the foundation for the Honors Thesis. Students and faculty
tutors work 'one-on-one' exploring a specific topic which has been agreed upon
by the student and the professor. Prerequisite: Honors candidacy and CATEBs,
CHEDBS, EDSTBS, EGEDBA, ELELBS, FRDBA, GNDBA, SNEDBA, SPEDBS,
or SSDEBA majors. (Typically offered: Fall, Spring and Summer)

CIED 4003. Elementary Seminar. 3 Hours.
This course is designed to synthesize the foundational content presented in the
Bachelor of Science in Education, Elementary Education program. It focuses on
refinement of generalized knowledge to accommodate specialized content relevant
to elementary students. Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS
major. (Typically offered: Fall)

CIED 4013. Capstone Course for Foreign Language Licensure. 3 Hours.
This course is designed to identify and provide evidence of content language specific
proficiencies in the four skills of reading, writing, listening, and speaking a foreign
language. (Typically offered: Spring)

CIED 4023. Teaching in Inclusive Secondary Settings. 3 Hours.
This course is designed to prepare pre-service teachers to teach in inclusive
classroom settings at the secondary level. Course content will focus on the ways in
which exceptionally, specifically focused on high-incidence disabilities and culture,
specifically focused on English language learners mediate the learning experiences
of secondary level students. (Typically offered: Summer)
CIED 4083. Creativity in Daily Practice. 3 Hours.
Arts integration course including the ideas, design, and implementation of practices in the classroom, board room, and professional field that enrich the experiences of all stakeholders while building right-brain thinking skills for the new millennium. (Typically offered: Spring Even Years) May be repeated for up to 6 hours of degree credit.

CIED 4101. Practicum. 1 Hour.
Practicum. Corequisite: CIED 3133. (Typically offered: Spring)

CIED 4113. Integrated Communication Skills for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' literacy development. Emphasis is on the integration of the communication skills of reading, writing, speaking, and listening across the curriculum. Prerequisite: COMM 1313 or COMM 2323 and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4113H. Honors Integrated Communication Skills for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' literacy development. Emphasis is on the integration of the communication skills of reading, writing, speaking, and listening across the curriculum. Prerequisite: COMM 1313 or COMM 2323 and CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)

This course is equivalent to CIED 4113.

CIED 4123. Literacy Assessment and Interventions in the Elementary Classroom. 3 Hours.
An undergraduate course focusing on literacy assessment and intervention for prospective classroom teachers. Participants become familiar with assessment procedures and instruments for identifying student strengths and weaknesses in literacy, determining effective intervention strategies for literacy improvement, and principles of reporting assessment and intervention outcomes. Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4131. Practicum for Secondary and Multilevel Tracks in Education. 1 Hour.
This practicum is a requirement for entry into the EDUC MA, Master of Arts in Teaching program. Students will be involved in documented experiences with children for a minimum of 60 hours in grades K-12. Students enrolled in the multilevel track will be placed in a combination of elementary, middle, and high school settings. Students enrolled in the secondary track will be placed in a combination of middle and high school settings. Prerequisite: Cleared background check. (Typically offered: Spring and Summer)

CIED 4133. Measurement and Research in the K-6 Classroom. 3 Hours.
This course is designed to provide an introduction to educational assessment, research methods, and what research has to say about trends and topics in elementary education. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Summer)

CIED 4143. Curriculum Design and Applications of Instructional Practice. 3 Hours.
A course in the design and adaptation of curriculum for students in regular, elementary classrooms. Theoretical bases and curriculum models will be reviewed. Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Spring)

CIED 4153. Classroom Management in the Elementary Grades. 3 Hours.
This course focuses on a number of different management techniques for elementary classrooms that can be used in general education settings. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4163. Senior Project. 3 Hours.
This course is designed to provide students with the research skills necessary to complete their senior project. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Summer)

CIED 4173. Student Teaching. 3 Hours.
Full-time student teaching in grades K-6 to be repeated both fall and spring semesters. Students will practice and master instructional strategies under the supervision of qualified mentor teachers and university faculty members. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

CIED 4183. Instruction and Assessment of Writing. 3 Hours.
Develop knowledge, skills and dispositions about writing processes, genres, and pedagogy. Field experience required. Prerequisite: CIED 2943, CIED 3113, CIED 3453, and admission into CHEDBS or ELELBS programs. (Typically offered: Fall and Spring)

CIED 4286. Teaching Experience. 6 Hours.
The teaching experience is an essential component of the Bachelor of Arts in Teaching degree. The two semester experience allows Teacher Candidates (TC) to make further application of theoretical principles of teaching and learning. Teacher Candidates will be assigned placement in area schools for both fall and spring semesters. Teacher candidates are placed in K-12 or 7-12 levels depending on their content area for licensure. The fall semester consists of a field experience including observation, co-planning, and co-teaching. The spring semester consists of an immersion experience for teacher candidates to plan and teach independently. Prerequisite: Admission to the B.A.T. program. (Typically offered: Spring) May be repeated for up to 12 hours of degree credit.

CIED 4323. Instructional Design for Teachers. 3 Hours.
Study of the design of instruction for students with exceptionalities. Emphasis is placed on synthesizing a broad range of existing and emerging perspectives and methods of instruction and applying them to practical classroom practice. Prerequisite: CIED 3023 and CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4363. Disciplinary Literacy in the K-6 Classroom. 3 Hours.
Focuses on the methodology of extending K-6 learners' basic literacy development, as a foundation for intermediate and disciplinary literacy. Emphasis is on the engagement of students in the distinct reading, writing, speaking, and listening requirements of different disciplines. Prerequisite: CIED 3113 and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4403. Understanding Cultures in the Classroom. 3 Hours.
This course provides pre-and in-service teachers knowledge and skills necessary for educating ethnically and linguistically diverse classrooms. Students have the opportunity to understand positive relationships while removing stereotypes and prejudices. It addresses issues for social justice education through understanding ways that children learn and communicate in their homes and communities. Students will examine how topics in multicultural education inform instructional goals, curriculum planning/implementation, and teaching practices across content areas in public K-12 classrooms. Some sections of this course will contain a service learning component. (Typically offered: Fall)

CIED 4413. Acquiring a Second Language. 3 Hours.
The course gives an introduction to the basics in research and learning theories involved in the acquisition of second languages and cultures, particularly of English. (Typically offered: Spring)

CIED 4423. Teaching English as a Second Language. 3 Hours.
This course is designed to provide teacher candidates with the basic knowledge and teaching skills necessary to address the linguistic needs of English language learners (ELLs) in regular classrooms. The students in this class will learn about and use multiple strategies for promoting ELLs' reading, writing, listening, and speaking skills. Emphasis will be placed especially on differentiating early reading instruction for ELLs. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Spring)
CIED 4433. The Moral Mind in Action. 3 Hours.
The Moral Mind in Action explores how people reason through moral dilemmas and prepares students to more effectively recognize and resolve moral problems. Best practices of teachers and administrators of K-16 character education programs are discussed. (Typically offered: Fall)

CIED 4443. Moral Courage. 3 Hours.
Moral Courage explores the factors that support translating moral thinking into moral action. This course draws from the field of positive psychology to guide students as they leverage existing strengths and develop new strategies for acting with moral courage in their personal and professional lives. Best practices of teachers and administrators of K-16 character education programs are discussed. (Typically offered: Spring)

CIED 4463. Culture and Learning. 3 Hours.
Culture, its meanings, dimensions, and manifestations are explored in this course. How these cultural elements impact perceptions of students, classroom practices, and educational processes are explored in this course. A strength-based approach is employed to explore the issues associated with including all students within classrooms. (Typically offered: Fall, Spring and Summer)

CIED 4503H. Honors Charles Darwin and the Legacy of Evolution. 3 Hours.
This highly integrated honors class draws on various perspectives to examine the life of Charles Darwin and the legacy and impact of evolution. Topics and guest instructors change each semester, but the course will focus on evolution from the perspectives of biology, anthropology, the law, philosophy, history, culture and literature. (Typically offered: Spring Even Years)

CIED 4513. Teaching Children with Mild Disabilities. 3 Hours.
This course is a study of the characteristics of young students with disabilities and methods for teaching this group of students. The course will provide future teachers with an understanding of interventions useful in teaching individuals with special learning needs during grades P-4. (Typically offered: Fall and Spring)

CIED 4523H. Honors Teaching Children with Severe Disabilities. 3 Hours.
This course is a study of the characteristics of young students with severe disabilities and methods for teaching this group of students. The course will provide future teachers with an understanding of interventions useful in teaching individuals with special learning needs during grades P-4. (Typically offered: Spring and Summer)

CIED 4533. Reading Comprehension Through Children's and Adolescent Literature. 3 Hours.
An examination of the major genres of children and adolescent literature to develop and extend K-6 students' skills in reading comprehension. Field experience required. Prerequisite: CIED 2943, CIED 3113, CIED 3453, and admission into CHEDBS or ELEDLS programs. (Typically offered: Fall and Spring)

CIED 498VH. Curriculum and Instruction Honors Thesis/Project. 1-3 Hour.
Designed to provide facilitation of the Honors Thesis/Project. Students and faculty work 'one-on-one' to complete the honors thesis/project. Prerequisite: Honors candidacy, CIED 3901H, and CATEBS, CHEDBS, EDSTBS, EGEDBA, ELEDLS, FREDBA, GREDBA, SNEDBA, SPEDBS, or SSEDLS major. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

CIED 499V. Special Topics in Curriculum and Instruction Education. 1-6 Hour.
Discussion and advanced studies on selected topics in curriculum and instruction. Special focus on recent and emerging topics in education. (Typically offered: Fall, Spring and Summer) May be repeated for up to 18 hours of degree credit.

CIED 499VH. Honors Special Topics in Curriculum and Instruction Education. 1-3 Hour.
Discussion and advanced studies on selected topics in curriculum and instruction. Special focus on recent and emerging topics in education. (Typically offered: Fall, Spring and Summer) This course is equivalent to CIED 499V.

Dance Activity (DEAC)
The Department of Health, Human Performance and Recreation offers coursework in Dance Activity but has no degree program in dance.

Educational Studies (EDST)
The Bachelor of Science in Education in Educational Studies (B.S.E.) is a customizable degree for all students within the College of Education and Health Professions. It focuses on the general theory and practice of learning and teaching. This degree, in itself, does not include licensure. Students completing this program will have the cognitive ability to apply teaching strategies to a variety of employers such as private sector businesses, nonprofit organizations and community agencies. With additional training and licensure, students can also work in school settings.

Total Units in Sequence: 120

1 Any 1000 or 2000 level course meets this requirement.
2 Any 3000 or 4000 level course meets this requirement.
3 EDST 4933 includes 100 hours of internship and 20 hours of coursework.

Courses

EDST 2003. Introduction to Educational Studies. 3 Hours.
The course explores the field of education through the lens of educational studies, a unique interdisciplinary association of looking at education as a function of society, psychology, politics, religion, and economic interests. This course introduces non-education field students to the difference between the various fields of study within education, including, but not limited to: instruction, curriculum, comparative education, multicultural education, informal education, content education, pedagogy, education policy, support services, and community education. No field observation hours are required for this course. (Typically offered: Fall and Spring)

EDST 3003. Formative Readings for Cultural Education. 3 Hours.
This course examines some of the historically important readings stemming from identification of the America Reads project produced by the Library of Congress (2014-2016). Special attention will be devoted to the understanding of the relevance of these historical documents and texts to the American identity. The course will focus on the role education plays in the creation of the current society through cultural transmission. The role of education through public schooling in the formations of citizens has been historically documented and deemed necessary under American political thought. This course is constructed to establish linkages of educational trends in the promotion of literacy and the popularization of popular cultural literature of the 18th, 19th, and 20th century that has shaped the social, economic, environmental, and political landscape that a citizen may navigate over their lifetime. (Typically offered: Fall and Spring)

EDST 3003H. Honors Formative Readings for Cultural Education. 3 Hours.
This course examines some of the historically important readings stemming from identification of the America Reads project produced by the Library of Congress (2014-2016). Special attention will be devoted to the understanding of the relevance of these historical documents and texts to the American identity. The course will focus on the role education plays in the creation of the current society through cultural transmission. The role of education through public schooling in the formations of citizens has been historically documented and deemed necessary under American political thought. This course is constructed to establish linkages of educational trends in the promotion of literacy and the popularization of popular cultural literature of the 18th, 19th, and 20th century that has shaped the social, economic, environmental, and political landscape that a citizen may navigate over their lifetime. Prerequisite: Honors standing. (Typically offered: Fall and Spring)

This course is equivalent to EDST 3003.

EDST 3113. Legal Developments in Education. 3 Hours.
This lecture provides an overview of issues in the field of education coming out of legal developments in the United States over the last two centuries involving the legal basis for public schooling, Constitutional issues in public schools, and contract law governing private schooling. Special interest is paid to education legislation and case law on educational issues. (Typically offered: Fall)

EDST 3203. Multicultural Education Issues. 3 Hours.
The purpose of this course is to give pre-service educators an opportunity to explore various facets of multiculturalism and their implications for future practice. We will examine the impact of race, class, gender, sexual orientation, religion, and other aspects of social group identities on teaching and learning as they relate to contexts in multiple learning environments. While this course is broad in scope, the primary aim is to assist future educators in exploring what it means to be an educator in a society that is multicultural, within a vast educational system (public and private) which is stratified according to multiple factors. Students should not be in enrolled in EDST 3203 & CIED 4403 during the same semester. (Typically offered: Fall)

EDST 3223. American Educational History. 3 Hours.
This course is designed to offer a comprehensive study of the history of the American education system. Students completing this course will be able to document the diverse and often competing influences into what has become the public school structure, as well as, the second system of American schools, parochial schools, arising out of the schooling conflict of the 1880's. Starting with the development of literacy skills and the formation of township or colony schools, the lineage of schooling will be investigated from the late 1600's to the present time. (Typically offered: Fall and Spring)

EDST 3223H. Honors American Educational History. 3 Hours.
This course is designed to offer a comprehensive study of the history of the American education system. Students completing this course will be able to document the diverse and often competing influences into what has become the public school structure, as well as, the second system of American schools, parochial schools, arising out of the schooling conflict of the 1880's. Starting with the development of literacy skills and the formation of township or colony schools, the lineage of schooling will be investigated from the late 1600's to the present time. Prerequisite: Honors standing. (Typically offered: Fall and Spring)

This course is equivalent to EDST 3223.

EDST 3333. Children's & Young Adult Literature in Educational Settings. 3 Hours.
This course provides a comprehensive overview of children's, adolescent, and young adult literature across educational settings, both formal and informal. Picture books, novels, informational texts, and the novelization of movies and vice versa for children and adolescent audiences will be explored. This course is not part of the K-6 license program. (Typically offered: Fall)

EDST 3913. Formal Classroom Internship in Education. 3 Hours.
The internship is a prearranged onsite work experience serving in an educationally related field. The formal classroom internship is taken after the completion of CIED 1013 and either along with or after the completion of CIED 3033. Locations have been selected by the EDST program and Office of Teacher Education. Internships my be served at a variety of public or private based educational services or agencies. The internship experience must include a minimum number of practical work hours (120), reflective journaling, mid-semester evaluation, and final report. All arrangements for internships are coordinated through the CIEEP Office of Field Placement by the Director of Field Placement. State of Arkansas background checks may be required for individuals completing internships at locations serving populations of minors. Prerequisite: CIED 1013. Pre- or Corequisite: CIED 3033 and EDST 3113. (Typically offered: Fall)
EDST 3923. Informal Based or Outdoor Internship in Education. 3 Hours.
The internship is a prearranged onsite work experience serving in an educationally related field. The informal/outdoor internship is taken during or after taking EDST 4113. Locations have been selected by the EDST program and Office of Teacher Education; during the summer, students may petition for a camp based informal experience that is outside of the typical semester offering. Internships may be served at a variety of public or private based educational services or agencies. The internship experience must include a minimum number of practical work hours (120), reflective journaling, mid-semester evaluation, and final report. All arrangements for internships are coordinated through the COEHP Office of Field Placement by the Director of Field Placement. State of Arkansas background checks may be required for individuals completing internships at locations serving populations of minors. Prerequisite: EDST 3113. Pre- or Corequisite: EDST 4113 and CIED 3033. (Typically offered: Fall, Spring and Summer)

EDST 399V. Special Topics in Educational Studies. 1-3 Hour.
Discussion and advanced studies on selected topics in educational studies. Special focus on recent and emerging topics in education. Junior (3000) level course offerings. Course may be repeated only for unique topic enrollments. (Typically offered: Irregular) May be repeated for up to 15 hours of degree credit.

EDST 399VH. Honors Special Topics in Educational Studies. 1-3 Hour.
Discussion and advanced studies on selected topics in educational studies. Special focus on recent and emerging topics in education. Junior (3000) level course offerings. Each offering of EDST 399VH must be unique. Student may not repeat the same topic for degree credit multiple times. (Typically offered: Irregular) May be repeated for up to 15 hours of degree credit. This course is equivalent to EDST 399V.

EDST 4003. Philosophy of Education. 3 Hours.
This course provides a review of philosophical ideas in education and an introduction to research, methodologies, foundation theories in education. Students explore historical ideas in philosophy pertaining to education and how those ideas contribute to current educational practices. Students in the course learn about the nature of research, both theoretical and applied, and the process of developing future research based agendas. Prerequisite: EDST 3113 or (PHIL 2003, PHIL 2103, or PHIL 2203) or senior standing. (Typically offered: Spring)

EDST 4003H. Honors Philosophy of Education. 3 Hours.
This course provides a review of philosophical ideas in education and an introduction to research, methodologies, foundation theories in education. Students explore historical ideas in philosophy pertaining to education and how those ideas contribute to current educational practices. Students in the course learn about the nature of research, both theoretical and applied, and the process of developing future research based agendas. Prerequisite: EDST 3113 or (PHIL 2003, PHIL 2103, or PHIL 2203) or senior standing. (Typically offered: Spring)

EDST 4113. Teaching and Funding Outdoor & Informal Education. 3 Hours.
In-depth exploration of natural/outdoors education and informal education and grant writing for education will be covered. Methods and techniques in the preparation and delivery of teaching in nontraditional instructional settings (informal education) will be developed. Course participants will be required to teach an outdoor and/or informal education class and participate in a collaborative grant application process. Prerequisite: EDST 3113. (Typically offered: Spring)

EDST 4213. Religion, Education, & Religious Education. 3 Hours.
This course provides a comprehensive introduction on the influences of religion in education, particularly in relation to the dynamic of religion in public education in the United States. Students in the course learn about the nature of the study of religion, religious studies, and religious education, as well as the teaching of religion. Prerequisite: (EDST 3113 and EDST 3223) or Religious Studies minor, or instructor consent. (Typically offered: Fall)

EDST 4933. Capstone Seminar and Final Internship in Education. 3 Hours.
The capstone course provides students with a culminating experience for Educational Studies. The course provides an opportunity for students to develop a portfolio of their learning and to evaluate their overall program performance in preparation for completion of their degrees. This course contains 100 hours of internship experience and will serve as the final internship experience for EDSTBS majors. This course includes 20 hours of coursework along with the required internship experience. This course should only be enrolled in after the completion of Formal and Informal internships and during the students' final year of coursework. Prerequisite: EDST 3913, EDST 3923, EDST 4113, and CIED 3033. (Typically offered: Fall, Spring and Summer)

Eleanor Mann School of Nursing (NURS)
Susan Kane Patton
Director
Epley Center for Health Professions
479-575-3904
Email: nursing@uark.edu

Eleanor Mann School of Nursing Website (https://nurs.uark.edu/)
The Eleanor Mann School of Nursing contributes to the three purposes of the university: education, research and service. The mission of Eleanor Mann School of Nursing is to transform lives through nursing education and inspire leadership in nursing practice and academics to improve the health and well-being of society.

Professional nursing begins with a Bachelor of Science in Nursing (B.S.N.) degree. Nursing education offers a research base for nursing practice that promotes the ability of the nurse to effect change needed to improve health. In the study of professional nursing, the student builds on a planned general education for the academic disciplines and acquires theoretical and specific knowledge to meet health care needs of diverse clients in various settings. In addition, the curriculum provides opportunity for students with technical nursing education to expand their knowledge and scope of practice. The baccalaureate program establishes a foundation for graduate education in nursing and for continued personal and professional development.

Graduates of the pre-licensure B.S.N. program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN) for licensure as a registered nurse (R.N.).

Requirements for B.S.N. in Nursing
Pre-Licensure B.S.N. Program (PNURS)

Admission Policies
Conditional Admission to the Pre-Licensure B.S.N. Program

Students interested in nursing will be admitted to the University of Arkansas as pre-nursing majors. Admission to the Eleanor Mann School of Nursing requires an application in addition to the application to the University of Arkansas. In line with initiatives of the university and the College of Education and Health Professions, as well as the philosophy of the Eleanor Mann School of Nursing, this holistic admission process is utilized to enhance a diverse academic experience for all students and results in additional expertise in providing care to an increasingly diverse patient population. Admission is competitive, not all applicants who meet the minimum requirements will be admitted to the program.
The holistic admission process for the professional program of study is as follows:

1. Application to the Eleanor Mann School of Nursing completed. Please refer to current dates for the application window that can be located on our website. Please note that students need to apply almost a full year in advance of when they plan to start.

2. Students transferring from another nursing program must provide a letter from the nursing program indicating that they are eligible to return and are in good standing to be considered for admission.

3. Final transcripts will need to be submitted for any non-University of Arkansas coursework by the end of the application semester. (official dates on website)

4. Upon review of these transcripts, the holistic admission committee will review the following:

Stage I: Primary Academic Factors (50% of total score)

1. Nursing prerequisite GPA of 3.0 or more (GPA X 7) = up to 28 points

2. Completion of 4 required science courses (see below) with at least a C grade in each. Points will be awarded as follows: 4 points for each course taken at the UA, and 4 points for 1st attempt As and 2 points for first attempt Bs = up to 32 points

   - CHEM 1073 Fundamentals of Chemistry (ACTS Equivalency = CHEM 1214 Lecture)
   - & CHEM 1071L and Fundamentals of Chemistry Laboratory (ACTS Equivalency = CHEM 1214 Lab)
   - BIOL 2013 General Microbiology (ACTS Equivalency = BIOL 2004 Lecture)
   - & BIOL 2011L and General Microbiology Laboratory (ACTS Equivalency = BIOL 2004 Lab)
   - BIOL 2213 Human Physiology (ACTS Equivalency = BIOL 2414 Lecture)
   - & BIOL 2211L and Human Physiology Laboratory (ACTS Equivalency = BIOL 2414 Lab)
   - BIOL 2443 Human Anatomy (ACTS Equivalency = BIOL 2404 Lecture)
   - & BIOL 2441L and Human Anatomy Laboratory (ACTS Equivalency = BIOL 2404 Lab)

3. Admitted Honors Program students with 18 or more honors credit hours and a 3.75 GPA = 5 points

4. Successful completion of required* nursing prerequisite courses

   - 20 points for 75% completion of the required* nursing prerequisite courses at UA excluding electives
   - 10 points for 50% required* nursing prerequisite courses at UA excluding electives
   - 25 points for previous Bachelor’s degree
   - 30 points for previous Master’s degree (points awarded for highest degree)
   - a. Required nursing prerequisite courses include: English 6 credits, Mathematics/Statistics 6 credits, Sciences 16 credits, Fine Arts/Humanities 6 credits, U.S. History 3 credits, Social Sciences 9 credits, Pre-Nursing 6 credits.
   - b. For students entering the University of Arkansas as freshmen, credits transferred in from high school dual enrollment or AP/IB credit will be counted in the required nursing prerequisite courses at the UA.

Secondary Admission Factors (20% of total score)

5. Personal Statement / Diversity in Nursing (part of your application)

All of the above items are scored and calculated into the first 70% of the overall candidate score. The candidates are then ranked. The top 50% (or more depending on the total number of applicants) will then be invited to move on to Stage II and attend an interview.

Stage II: Non-academic Factors (30% of total score)

- Structured Interviews
  - Knowledge of Nursing/Motivation
  - Interpersonal Skills/Communication
  - Life Experiences/Problem Solving
  - Initiative/Leadership/Service
  - Realistic Self-Appraisal/Long Term Goals

Remaining candidates are ranked by total score and the cohort (selected by rank for total scores) will be invited for conditional admission to the program.

Students who are conditionally accepted into the nursing program must maintain their GPA.

**PNURS Requirements for Pre-Licensure Bachelor of Science in Nursing:**

### University Core (State Minimum Core)

**Total Hours**

61

61

1. Denotes required nursing pre-requisite courses.
2. BIOL 1543/BIOI 1541L is a prerequisite for BIOL 2013/BIOI 2011L and BIOL 2443/BIOI 2441L and may be used as part of the elective hours.

**Full Admission to the Pre-Licensure B.S.N. Program (NURSBS-PLRN)**

Full admission to the Eleanor Mann School of Nursing is contingent upon meeting all the conditional requirements and successfully meeting the following requirements:

1. All prerequisite coursework for a fall admission into the Professional Program of Study in Nursing must be completed by the end of the spring semester. All coursework for spring admission must be completed by the end of the fall semester prior to entering the Professional Program of Study in Nursing.
2. Maintain the individual GPA that was present at the time of conditional admission. Any decrease in GPA is subject to review by the nursing school's faculty.
3. Provide proof of all required clinical paperwork as requested by the school of nursing. Please note that a criminal background check and regular drug screens are required. (The most current clinical requirements can be located in the student handbook.)

The minimum number of hours required to receive a baccalaureate degree at the University of Arkansas is 120 semester hours. The nursing major is exempt from the eight-semester degree plan since the program is admission-based. There is no guarantee that a student meeting the minimal GPA requirement will be admitted. Please refer to the College of Education and Health Professions website for specific information related to the admission criteria.

**Progression, Withdrawal, and Dismissal**

1. For progression in the nursing program, only grades of ‘C’ or above will be accepted. Students who make less than a ‘C’ may not progress into courses for which that course is a prerequisite until the course is repeated and the required minimum grade attained. Note that the Eleanor Mann School of Nursing uses the following grading scale and exam policy:
   a. Grading Scale: A = 92 – 100% B = 83 – 91% C = 75 – 82% D = 62 – 74% F = below 62%
Didactic/Professional Role Implementation Courses

1. A student who needs to repeat a course in which they were unsuccessful must submit a petition to the Student Affairs Committee in nursing and are encouraged to do so as soon as they are aware of the need to repeat a course. An academic success plan will be implemented upon approval as outlined by this committee.

2. Students will be readmitted on a space-available basis according to the following priority system:

   - **Priority Groups for Placement in Required Clinical Courses**
     a. First Priority – Continuing full-time students in good academic standing.
     b. Second Priority – Continuing part-time students in good academic standing.
     c. Third Priority – Students repeating a course due to an academic or clinical failure or were administratively withdrawn with a ‘W’ for failing the medication calculation test who were unable to repeat a course for one or more semesters.
     d. Fourth Priority – Students repeating a course due to an academic or clinical failure or were administratively withdrawn with a ‘W’ for failing the medication calculation test who were in the preceding semester.

3. Spaces in clinical courses are limited and tightly controlled by accreditation, the Arkansas State Board of Nursing, and clinical agency policies. Enrollment in Didactic courses is limited to space available. A student re-enrolling in a Professional Role Implementation Course (whether due to illness, course failure, or other reasons) will not be assured a clinical placement space in subsequent courses.

4. **NOTE:** Readmission will not be considered for any student dismissed from the School of Nursing who obtained a ‘D’ or ‘F’ in one nursing course and was unable to make a ‘C’ or better upon repeating this course or who was dismissed from a Professional Role Implementation Course due to safety, ethical, or dishonesty issues. Exceptions to this policy due to safety, ethical, or dishonesty issues.

5. **Exit Policies**

   a. Students must complete the requirements for the degree within five years of enrolling in the first upper-division nursing course. If the student does not complete the Professional Program of Study within the five-year limit, nursing credits must be reevaluated.

   b. All University of Arkansas requirements must be met.

   In addition to the program requirements, students must meet the university and college graduation requirements. This curriculum is subject to change to comply with national accreditation and the Arkansas State Board of Nursing Standards.

Bachelor of Science in Nursing Pre-Licensure Option (NURSBS-PLRN)

1. Students should note that a flagrant or established pattern of disregard to Eleanor Mann School of Nursing policies can result in failure of the course and/or dismissal from the program without prior warnings. (See Forms page on nursing program website for performance improvement plan guidelines).

**Readmission Policies**

Any student whose enrollment in the professional program of study has been interrupted may seek readmission following the steps below:

1. Seek readmission into the University of Arkansas (if applicable).

2. Complete Readmission Application to the School of Nursing during the application periods. (Readmission is limited by space availability).

3. Readmission will not be considered for any student dismissed from the School of Nursing who obtained a ‘D’ or ‘F’ in one nursing course and was unable to make a ‘C’ or better upon repeating this course or who was dismissed from a Professional Role Implementation Course due to safety, ethical, or dishonesty issues. Exceptions to this policy will be considered by the Student Affairs Committee in nursing on an individual basis.

**Exit Policies**

1. Students must complete the requirements for the degree within five years of enrolling in the first upper-division nursing course. If the student does not complete the Professional Program of Study within the five-year limit, nursing credits must be reevaluated.

2. All University of Arkansas requirements must be met.

In addition to the program requirements, students must meet the university and college graduation requirements. This curriculum is subject to change to comply with national accreditation and the Arkansas State Board of Nursing Standards.

Year Total: 14 14

Total Units in Sequence: 120

1 BIOI 1543/BIOI 1541L suggested due to prerequisite required for BIOI 2443/BIOI 2441L and BIOI 2013/BIOI 2011L.
2 Core areas must be completed as outlined in the state minimum core (p. 96).

R.N. to B.S.N. Option (NURSBS-RNBN)

Program Admission Policies

Step One

Complete university admission application and associated requirements. Current practicing Registered Nurse applicants will select R.N. to B.S.N. program for their program of study.

Step Two

Upon receipt of all required application material, the university determines if the applicant is qualified for general university admission. If so, the application then goes to the nursing department. At that time, the nursing department will complete the following:

- Verify completion of an accredited and state board approved R.N. program.
- Verify the status of licensure to practice as a R.N. in Arkansas and/or any other state that has granted approval of the program. Not all state boards of nursing will accept outside of state education. See program website for current list of allowed states. The nursing license must be active and unencumbered. Students admitted to the program will be required to maintain this active, unencumbered status for the duration of their enrollment in the program.
- Verify employment status of applicant based on the following:
• R.N.s with 12-months or greater since nursing program completion:
  • Documentation from current and/or recent employer(s) where applicant is hired as an R.N. including institution or organization name, address, and supervisor contact information, area or unit of service, position title, and employment status (e.g. full-time, part-time, per diem). Applicants should include documentation of one of the following:
    • Employer verification of 1,000-R.N. practice-hours completed within 12-24 months of beginning the program.
    • Completion of a state board of nursing approved R.N.-refresher courses within 12-24 months of beginning the program.

• Nursing students enrolled in the final semester of an accredited nursing program may apply and be eligible for conditional program admission upon successful completion of their current nursing program. Students in this category will be required to submit the following:
  • Verification of good standing provided from the director or dean of the respective nursing program from which the applicant is transferring (form provided in University application).
  • Final transcripts (official) to the University and a copy (can be unofficial) to the nursing department upon completion of current nursing education program.
  • Date of NCLEX exam once scheduled and testing outcome resulting in licensure. In addition, students may enroll in a maximum of 6 credit hours of course work within the R.N. to B.S.N. program of study and enrollment duration may not exceed one academic semester or 6 months following Pre-R.N. licensure program completion.

Step Three
Once admitted an academic advisor will evaluate the general education requirements (state minimum core (p. 96) and nursing program prerequisites). It is preferred that all prerequisites are completed prior to beginning the nursing program courses. The academic advisor will assist each student in the development of an individualized course progression plan to meet the requirements of the program.

Additional Program Information
• Professional nursing courses for R.N. to B.S.N. students are delivered online through University of Arkansas Global Campus.
• Students will be required to identify a qualified mentor (B.S.N. level or higher) for the NURS 4092 practicum course involving 75 clinical hours.
• Students admitted to the program may request up to 3 credit hours of previously completed B.S.N.-level course credit in substation for a core R.N. to B.S.N. program of study course. Petitions for transfer credit will be evaluated for core course substitution eligibility by nursing faculty.

Program Outline
Credit for courses listed below will be held in escrow. The student will receive credit for these courses upon successful completion of the program.

NURS 2032 Therapeutic and Interprofessional Communication 2
NURS 3313 Pharmacology in Nursing 3

NURS 3422 & NURS 3424 Nursing Concepts: Foundations of Professional Practice and Professional Role Implementation I: Caregiver 6
NURS 3634 & NURS 3644 Nursing Concepts: Adult Health and Illness I and Professional Role Implementation II: Caregiver 8
NURS 3742 & NURS 3752 Nursing Concepts: Mental Health and Illness and Professional Role Implementation III: Caregiver 4
NURS 4154 & NURS 4164 Nursing Concepts: Children and Family and Professional Role Implementation IV: Teacher 8
NURS 4262 Nursing Concepts: Adult Health and Illness II 2
NURS 4442 & NURS 4452 Nursing Concepts: Critical Care and Professional Role Implementation VI: Role Synthesis 4

Total Hours 37

Requirements for Bachelor of Science in Nursing R.N. to B.S.N. Option

State Minimum Core (35 hours)

English 1
Choose two courses:
ENGL 1013 Composition I (ACTS Equivalency = ENGL 1013) 2
ENGL 1023 Composition II (ACTS Equivalency = ENGL 1023) 2
ENGL 1033 Technical Composition II (ACTS Equivalency = ENGL 1023) 3

Mathematics 1
MATH 1203 College Algebra (ACTS Equivalency = MATH 1103) (or any higher MATH course with MATH 1203 as a prerequisite) 3

Sciences with Labs 1
Choose two Core Science courses with labs

Fine Arts 1
Any Core Fine Arts course 3

Humanities 1
Any Core Humanities course 3

U.S. History or Government 1
Choose one of the following:
HIST 2003 History of the American People to 1877 (ACTS Equivalency = HIST 2113) 1
HIST 2103 History of the American People, 1877 to Present (ACTS Equivalency = HIST 2123) 2

Social Sciences
Choose three Core Social Sciences courses

Additional Program Requirements
Sciences, in addition to state core sciences with labs. 1
Statistics 1
Elective hours (as needed) 1

R.N. to B.S.N. Professional Nursing Program (30 hours)
NURS 4003 Transition to Professional Nursing Practice 3
NURS 4013 Informatics for the Professional Nurse 3
NURS 4203 Leadership for Professional Nurses 3
NURS 4023 Health Promotion Across the Lifespan 3
Progression, Withdrawal, and Dismissal for R.N. to B.S.N. program

The minimum number of hours required to receive a baccalaureate degree at the University of Arkansas is 120 semester hours. The Nursing major is exempt from the eight-semester degree plan since the program is admissions-based.

Progression, Withdrawal, and Dismissal for R.N. to B.S.N. program (NURSBS-RNBN)

1. For progression in the nursing program, only grades of 'C' or above will be accepted. Students who make less than a 'C' may not progress into courses for which that course is a prerequisite until the course is repeated and the required minimum grade attained. Note that the Eleanor Mann School of Nursing uses the following grading scale and exam policy:
   a. Grading Scale: A = 92-100% B = 83-91% C = 75-82% D = 62-74% F = below 62%
   b. Exam Policy: A 75% average on class exams is necessary to pass the course. Once this criterion is met, other course grades will be factored into the final grade.

2. If a student earns a 'D' or 'F' in a course, the course may be repeated once. The course must be passed on the second attempt. If a student earns a 'D' or 'F' in a second course, the student will be dismissed from the program and may not be eligible for re-admission.

3. If the student does not earn a grade of at least 'C' upon repeating the nursing courses, the student may not enroll in any nursing courses or continue in the School of Nursing or be eligible for re-admission.

4. If a student withdraws from a course, the course may be repeated. No more than two withdrawals from the same course will be allowed. If not passed in the third attempt, the student will be dismissed from the program.

5. The one 'D' policy includes only nursing courses.

6. Students must maintain an active, unencumbered licenses to practice. If at any point in the duration of the program, the student's nursing license becomes encumbered or inactive the student must notify the school of nursing and will be dismissed from the program.

7. Students admitted prior to taking their NCLEX RN exam must report successful licensure within 6 months of program start. If unsuccessful on NCLEX RN exam, the student will not be permitted to enroll in subsequent semesters until licensed.

Didactic/Clinical Practicum Courses (NURSBS-RNBN)

1. A student who needs to repeat a course in which they were unsuccessful must make petition to the Student Affairs Committee in nursing and are encouraged to do so as soon as they are aware of the need to repeat a course. An academic success plan will be implemented upon approval as outlined by this committee.

2. Students will be readmitted on a space-available basis according to the following priority system:
   Priority Groups for Placement in Required Courses
   a. First Priority – Continuing full-time students in good academic standing.
   b. Second Priority – Continuing part-time students in good academic standing.
   c. Third Priority – Students repeating a course due to an academic or clinical failure.

3. Spaces in clinical practicum courses are limited and tightly controlled by accreditation, the State Boards of Nursing, and clinical agency policies. Space in Didactic courses are limited to space available. A student re-enrolling in a Clinical Practicum Course (whether due to illness, course failure, or other reasons) will not be assured a clinical placement space in subsequent courses.

4. NOTE: Readmission will not be considered for any student dismissed from the School of Nursing who obtained a ‘D’ or ‘F’ in one nursing course and was unable to make a ‘C’ or better upon repeating this course. Also, a student dismissed from a Clinical Practicum Course due to safety, ethical, or dishonesty issues will be administratively withdrawn from the course, and may be subject to administrative withdrawal from the School of Nursing following a full review. In such cases, readmission is not guaranteed.

5. Students should note that a flagrant or established pattern of disregard to School of Nursing policies can result in a failure of the course and/or dismissal from the program without prior warnings. (see Forms on nursing website page for performance improvement plan guidelines)

Readmission Policies

Any student whose enrollment in the professional program of study has been interrupted may seek readmission following the steps below:

1. Seek readmission into the University of Arkansas (if applicable).

2. Readmission will not be considered for any student dismissed from the School of Nursing who obtained a 'D' or 'F' in one nursing course.
and was unable to make a ‘C’ or better upon repeating this course or who was dismissed from a Clinical Practicum Course due to safety, ethical, or dishonesty issues. Exceptions to this policy will be considered by the Student Affairs Committee in nursing on an individual basis.

Exit Policies

1. Students must complete the requirements for the degree within five years of enrolling in the first upper-level nursing course. If the student does not complete the Professional Program of Study within the five-year limit, nursing credits must be reevaluated.

2. In addition to the program requirements, students must meet the university and college graduation requirements. This curriculum is subject to change to comply with national accreditation and the Arkansas State Board of Nursing Standards.

R.N. to B.S.N. Option

Semester Degree Program
The nature of the R.N. to B.S.N. major excludes it from ACT 1014 eight-semester degree-completion program requirements. The degree is a 120-hour degree in accordance with ACT 747.

Presented below is a typical plan for completing this degree in four semesters; individual student plans may vary.

Students are not required to enroll in courses during the summer, but courses may be offered. Students may be able to finish the program sooner if they enroll in summer courses.

Requirements for L.P.N./L.P.T.N. to B.S.N. Option

Pre L.P.N. to B.S.N Option (PLNBN)

In line with initiatives of the University and the College of Education and Health Professions, the Eleanor Mann School of Nursing seeks to enhance a diverse academic experience for all students. This results in additional expertise in providing care to an increasingly diverse patient population. The pre-nursing option for Licensed Practical Nurses provides an online platform for completing the required state minimum core and nursing program prerequisite for admission to the school of nursing.

Once admitted to the University, an academic advisor will evaluate the general education requirements (University core and nursing program prerequisites) that the student has already completed. Students interested in the online L.P.N. to B.S.N. program option will be admitted to the University of Arkansas as pre-nursing majors. The academic advisor will assist each student to develop an individualized course progression plan to meet admission requirements to the nursing program.

Program Admission Policies

Step One - General Education Requirements

Successfully complete all general education requirements (state minimum core (p. 96) and nursing program prerequisites) and maintain good academic standing.

State minimum core and Pre-Program prerequisites (48 hours)

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 1013 Composition I (ACTS Equivalency = ENGL 1013)</td>

MATH 1203  College Algebra (ACTS Equivalency = MATH 1103) (or higher)  3

Sciences with labs must include:

Chemistry (4 hours)  4
Anatomy (4 hours)  4
Physiology (4 hours)  4
Microbiology (4 hours)  4
Fine Arts  3
Humanities  3
American History/American Government (choose one)  3
HIST 2003  History of the American People to 1877 (ACTS Equivalency = HIST 2113)  3
HIST 2013  History of the American People, 1877 to Present (ACTS Equivalency = HIST 2123)  3

Social Sciences  9
Statistics  3
Electives  2
Total Hours  48

Upon completion of the above courses, the academic adviser will initiate a review for program admission eligibility in conjunction with the department of nursing (see step two). Of the above 48 hours, students must have completed a minimum of 42 credit hours of prerequisites to be permitted to enroll in nursing program courses. Those minimum of 42 hours must include English (6 credits), sciences (16 credits), and core math (3 credits). All University core and nursing program prerequisites must be completed prior to enrolling in the first clinical practicum course. Pre-L.P.N. to B.S.N. online students taking general education courses must maintain a GPA that allows them to remain in good academic standing (minimum of 2.0) with the University of Arkansas in order to enter the nursing program of study.

**Program Requirements**

**Step Two - Nursing Program Eligibility**

Upon notification from the academic advisor that a student is ready to enter the nursing program courses, the nursing department will complete a review to determine eligibility by verifying all of the following criteria:

1. Completion of an accredited and state board approved L.P.N., L.V.N., or L.P.T.N. program.
2. Proof of, and maintenance of, an active, unencumbered license to practice as an L.P.N., L.V.N., or L.P.T.N. in Arkansas and/or any other state that has granted approval of the program. Not all state boards of nursing will accept outside of state education. See program website for current list of allowed states. Students admitted to the program will be required to maintain this active, unencumbered status for the duration of their enrollment in the program.
3. Employment/nursing experience status of applicant based on the following:
   - Documentation from current and/or recent employer(s) where applicant is hired as an L.P.N. including institution or organization name, address, and supervisor contact information, area or unit of service, position title, and employment status (e.g., full-time, part-time, per diem). Employer verification of 2,000-L.P.N.
   - L.P.N. to B.S.N. online students taking general education courses must include English (6 credits), sciences (16 credits), and core math (3 credits). All University core and nursing program prerequisites must be completed a minimum of 42 credit hours to be permitted to enroll in nursing program courses. Those minimum of 42 credit hours must include English (6 credits), sciences (16 credits), and core math (3 credits). All University core and nursing program prerequisites must be completed prior to enrolling in the first clinical practicum course. Pre-L.P.N. to B.S.N. online students taking general education courses must maintain a GPA that allows them to remain in good academic standing (minimum of 2.0) with the University of Arkansas in order to enter the nursing program of study.

**Additional Program Information and Requirements**

- Professional nursing courses for L.P.N. to B.S.N. students are delivered online through University of Arkansas Global Campus. Clinical practicum hours can be completed with a qualified (B.S.N. level or higher) student-selected preceptor in the student’s geographic area.
- L.P.N. to B.S.N. students may also receive credit for NURS 3772/NURS 3782, NURS 4124/NURS 4143, and/or NURS 3302 through validation examination. Qualification for these exams is based on setting of nursing practice hours.
- Students are required to provide proof of all required clinical paperwork as requested by the school of nursing. Please note that annual criminal background checks and regular drug screens are required. (The most current clinical requirements can be located in the student handbook.)
- Students admitted to the program may request up to 3 credit hours of previously completed B.S.N. level course credit in substitution for a core L.P.N. to B.S.N. program of study course. Petitions for transfer credit will be evaluated for core course substitution eligibility by nursing faculty.

Credit for courses listed below will be held in escrow. The student will receive credit for these courses upon successful completion of the program.

- NURS 2032  Therapeutic and Interprofessional Communication  2
- NURS 3313  Pharmacology in Nursing  3
- NURS 3422  Nursing Concepts: Foundations of Professional Practice  2
- NURS 3424  Professional Role Implementation I: Caregiver  4
- NURS 3644  Professional Role Implementation II: Caregiver  4

**Total Hours**  15

**Requirements for Bachelor of Science in Nursing L.P.N. to B.S.N. Option (NURSBS-LNBN)**

The minimum number of hours required to receive a baccalaureate degree at the University of Arkansas is 120 semester hours. The nursing major is exempt from the eight-semester degree plan since the program is admission-based.

### Progression, Withdrawal, and Dismissal for L.P.N. to B.S.N. program (NURSBS-LNBN)

1. For progression in the nursing program, only grades of 'C' or above will be accepted. Students who make less than a 'C' may not progress into courses for which that course is a prerequisite until the course is repeated and the required minimum grade attained. Note that the Eleanor Mann School of Nursing uses the following grading scale and exam policy:
   a. Grading Scale: A = 92-100% B = 83-91% C = 75-82% D = 62-74% F = below 62%
   b. Exam Policy: A 75% average on class exams is necessary to pass the course. Once this criterion is met, other course grades will be factored into the final grade.

2. If a student earns a 'D' or 'F' in a course, the course may be repeated once. The course must be passed on the second attempt. If a student earns a 'D' or 'F' in a second course, the student will be dismissed from the program and may not be eligible for re-admission.

3. If the student does not earn a grade of at least 'C' upon repeating the nursing course, the student may not enroll in any nursing courses or continue in the School of Nursing or be eligible for re-admission.

4. If a student withdraws from a course, the course may be repeated. No more than two withdrawals from the same course will be allowed. If not passed in the third attempt, the student will be dismissed from the program.

5. The one 'D' policy includes only nursing courses.

6. Students must maintain an active, unencumbered license to practice nursing. If at any point in the duration of the program, the student’s license becomes encumbered or inactive the student must notify the school of nursing and will be dismissed from the program.

7. For licensed nurses the school of nursing is mandated to report positive drug screens to the board of nursing. Confirmation of a positive drug screen will result in being administratively withdrawn from nursing courses and dismissed from the nursing program.

8. A positive background check may impede or halt the student's progression in the program and may impact clinical placement and eligibility for licensure. If a student is arrested during their program of study, the school of nursing should be notified immediately and the student will become ineligible for clinical courses pending the outcome of an investigation and/or judicial process.

9. The school of nursing will comply with the policies, rules, and regulations set by the Arkansas State Board of Nursing and that of the student's respective State Board of Nursing.

### Didactic/Clinical Practicum Courses (NURSBS-LNBN)

1. A student who needs to repeat a course in which they were unsuccessful must make petition to the Student Affairs Committee in nursing and are encouraged to do so as soon as they are aware of the need to repeat a course. An academic success plan will be implemented upon approval as outlined by this committee.

2. Students will be readmitted on a space-available basis according to the following priority system: Priority Groups for Placement in Required Courses
   a. First Priority — Continuing full-time students in good academic standing.
   b. Second Priority — Continuing part-time students in good academic standing.
   c. Third Priority — Students repeating a course due to an academic or clinical failure.

3. Spaces in clinical practicum courses are limited and tightly controlled by accreditation, the State Boards of Nursing, and clinical agency policies. Enrollment in Didactic courses are limited to space availability. A student re-enrolling in a Clinical Practicum Course (whether due to illness, course failure, or other reasons) will not be assured a clinical placement space in subsequent courses.

4. Readmission will not be considered for any student dismissed from the School of Nursing who obtained a 'D' or 'F' in one nursing course and was unable to make a 'C' or better upon repeating this course. Also, a student dismissed from a Clinical Practicum Course due to safety, ethical, or dishonesty issues will be administratively withdrawn from the course and may be subject to administrative withdrawal from the School of Nursing following a full review. Readmission is not guaranteed to these students.

5. Students should note that a flagrant or established pattern of disregard to Eleanor Mann School of Nursing policies can result in failure of the study or dismissal from the program without prior warnings (see Forms page on nursing program website for performance improvement plan guidelines).

### Readmission Policies

Any student whose enrollment in the professional program of study has been interrupted may seek readmission following the steps below:

1. Seek readmission into the University of Arkansas (if applicable).

2. Readmission will not be considered for any student dismissed from the School of Nursing who obtained a 'D' or 'F' in one nursing course and was unable to make a 'C' or better upon repeating this course or who was dismissed from a Clinical Practicum Course due to safety, ethical, or dishonesty issues. Exceptions to this policy will be considered by the Student Affairs Committee in nursing on an individual basis.

### Exit Policies
1. Students must complete the requirements for the degree within five years of enrolling in the first upper-level nursing course. If the student does not complete the Professional Program of Study within the five-year limit, nursing credits must be reevaluated.

2. In addition to the program requirements, students must meet the university and college graduation requirements. This curriculum is subject to change to comply with national accreditation and the Arkansas State Board of Nursing Standards.

**L.P.N. to B.S.N. Option (NURSBS-LNBN)**

**Semester Plan**
The nature of the L.P.N. to B.S.N. major excludes it from ACT 1014 eight-semester degree-completion program requirements. The degree is a 120 hour degree in accordance with ACT 747.

Presented below is a typical plan for completing this degree in five semesters; individual student plans may vary significantly.

Students are not required to enroll in courses during the summer, but courses may be offered. Students may be able to finish the program sooner if they enroll in summer courses.

**Total Units in Sequence:** 120

**Courses**

**NURS 2012. Nursing Informatics. 2 Hours.**
This course focuses on how information technology is used in the health care system. The course describes how nursing informatics is currently being used by healthcare professionals and speculates about future applications. Prerequisite: For pre-nursing and nursing majors only. Must have sophomore standing or above and a GPA of 3.0 or above. (Typically offered: Fall, Spring and Summer)

**NURS 2022. Introduction to Professional Nursing Concepts. 2 Hours.**
The course presents an overview of theories, principles and concepts essential to professional nursing practice. It includes ethical and legal implications relevant to health care systems. Focus is on the nursing process as the organizing framework for the delivery of care. It also explores the role of the professional nurse. This is a pre-nursing course. Prerequisite: For pre-nursing and nursing majors only. Must have sophomore standing or above and a GPA of 3.0 or above. (Typically offered: Fall, Spring and Summer)

**NURS 2032. Therapeutic and Interprofessional Communication. 2 Hours.**
Focuses on intrapersonal and interpersonal strategies necessary for effective nurse-client interactions. Introduces a variety of communication techniques skills including group process and dynamics. This is a pre-nursing course. Prerequisite: For pre-nursing and nursing majors only. Must have sophomore standing or above and a GPA of 3.0 and above. (Typically offered: Fall, Spring and Summer)

**NURS 3111. Clinical Skills for Professional Nurses. 1 Hour.**
Students apply nursing concepts and skills with emphasis on the caregiver role transition and use of the nursing process. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head, and students must have completed all University core and program prerequisites. Pre- or Corequisite: NURS 4323. (Typically offered: Fall and Spring)

**NURS 3171. Independent Study Nursing. 1 Hour.**
A structured learning experience in nursing to improve knowledge of the science in nursing. Objectives and experiences are designed on an individual basis with a faculty advisor. May be taken with any 3500 level nursing course or above. (Typically offered: Irregular) May be repeated for up to 7 hours of degree credit.
NURS 3302. Older Adult Nursing. 2 Hours.
This course builds on previous nursing knowledge by focusing on gerontologic theories, concepts, and principles as they relate to nursing care of older adults. Students explore socio-cultural context of gerontologic nursing, professional standards of practice, common health concerns, and future considerations. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 3313. Pharmacology in Nursing. 3 Hours.
The use of therapeutic drugs in health care is the focus of the course. Nursing assessment, safety measures and client education related to drug therapy are emphasized. This is a Level I course. Prerequisite: Admission into the BSN professional program. (Typically offered: Fall and Spring)

NURS 3314. Pathophysiology. 4 Hours.
The course focuses on underlying concepts common to pathophysiologic processes across the life span. Factors that contribute to altered physiological functioning and the body's adaptive and compensatory mechanisms are studied. Emphasizes concepts essential for understanding the rationale for preventive and therapeutic nursing interventions in health and illness. This is a Level I course. Prerequisite: Admission into BSN professional program. (Typically offered: Fall and Spring)

NURS 3321L. Health Assessment Practicum. 1 Hour.
The course focuses on the implementation of concepts and principles of health assessment, preparing students to complete a holistic health assessment of the well person. This is a Level I course. Corequisite: NURS 3342. Prerequisite: BIOL 2443, BIOL 2441L, BIOL 2213, BIOL 2211L, and admission to the BSN professional program. (Typically offered: Fall, Spring and Summer)

NURS 3332. Adult Health I for Nurses. 2 Hours.
The course focuses on the experience of acute problems across the health-illness continuum. Students learn to utilize the nursing process through care planning and case studies while focusing on the adult population. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 3342. Health Assessment. 2 Hours.
This course focuses on concepts and principles of health assessment in a well person. Health status, environment, physical and psychosocial findings, and medical terminology are emphasized to create a holistic health assessment plan. This is a Level I course. Prerequisite: Admission into the BSN professional program of studies, BIOL 2443, BIOL 2441L, BIOL 2213 and BIOL 2211L. Corequisite: NURS 3321L. (Typically offered: Fall and Spring)

NURS 3402. Nursing Concepts: Older Adult. 2 Hours.
This course focuses on gerontologic theories, concepts, and principles as they relate to nursing care of older adults. Students explore socio-cultural context of gerontologic nursing, professional standards of practice, common health concerns, and future considerations. This is a Level I course. Prerequisite: Admission into the BSN Professional Program of Studies. (Typically offered: Fall and Spring)

Introduction to the nursing process and the scope of basic human needs. The student learns to use nursing diagnoses and care plans in case studies. This is a Level I course. Corequisite: NURS 3424. Prerequisite: Admission to BSN professional program. (Typically offered: Fall and Spring)

NURS 3424. Professional Role Implementation I: Caregiver. 4 Hours.
Students apply basic nursing concepts and skills in laboratory and clinical settings. Emphasis is on the role of nurse as caregiver and use of the nursing process in the delivery of care. This is a Level I course. Pre- or Corequisite: NURS 3422, NURS 3321L, and NURS 3313. Prerequisite: Admission to the BSN program. (Typically offered: Fall and Spring)

Focuses on the adult population experiencing acute problems in the health-illness continuum. Utilizing the nursing process, nursing, and medical treatments of selected conditions that will be emphasized in the acute care setting. This is a Level I course. Corequisite: NURS 3644. Prerequisite: NURS 3313, NURS 3314, NURS 3321L, NURS 3402, and NURS 3422. (Typically offered: Fall and Spring)

NURS 3644. Professional Role Implementation II: Caregiver. 4 Hours.
Emphasizes the role of caregiver in acute care settings. Course expands on assessment and includes advanced clinical skills. Emphasizes the use of clinical judgment to promote optimal health for adults experiencing illness and/or undergoing surgery. This is a Level I course. Pre- or Corequisite: NURS 3634. Prerequisite: NURS 3313, NURS 3314, NURS 3321L, NURS 3402, NURS 3422, and NURS 3424. (Typically offered: Fall and Spring)

NURS 3644H. Honors Professional Role Implementation II: Caregiver. 4 Hours.
Emphasizes the role of caregiver in acute care settings. Course expands on assessment and includes advanced clinical skills. Emphasizes the use of clinical judgment to promote optimal health for adults experiencing illness and/or undergoing surgery. This is a Level I course. Pre- or Corequisite: NURS 3634. Prerequisite: NURS 3313, NURS 3314, NURS 3321L, NURS 3402, NURS 3422, and NURS 3424. (Typically offered: Fall and Spring)

NURS 3742. Nursing Concepts: Mental Health and Illness. 2 Hours.
Presents the basic concepts and theories of mental health and illness. Examines various therapeutic modalities in the care of clients experiencing mental health or psychosocial disorders. This is a Level I course. Corequisite: NURS 3752. Prerequisite: NURS 3313, NURS 3314, NURS 3321L, NURS 3402, and NURS 3422. (Typically offered: Fall and Spring)

NURS 3752. Professional Role Implementation III: Caregiver. 2 Hours.
Students work with clients who have mental health problems, observe group process in therapy sessions, and develop interpersonal communication skills. Students apply research-based knowledge in assisting assigned clients to meet mental and other health care needs. The caregiver role is emphasized. This is a Level I course. Pre- or Corequisite: NURS 3742. Prerequisite: NURS 3313, NURS 3314, NURS 3321L, NURS 3402, NURS 3422, and NURS 3424. (Typically offered: Fall and Spring)

NURS 3772. Mental Health Nursing. 2 Hours.
This course presents basic concepts and theories of mental health and illness. Students examine nursing care of clients with various mental health and psychosocial disorders. Therapeutic modalities and their use in a variety of settings are explored. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 3782. Mental Health Practicum. 2 Hours.
Students will apply the theoretical principles learned in the NURS 3772: Mental Health Nursing to the care of clients with mental health disorders in a variety of settings. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. Pre- or Corequisite: NURS 3772. (Typically offered: Fall, Spring and Summer)

NURS 3842. Foundations of Scientific Evidence in Nursing Practice. 2 Hours.
Introduction to the use of scientific evidence in nursing through a comparative analysis of selected studies. Theoretical, methodological, and analytical approaches are explored. Students acquire basic competencies in evaluating, interpreting, and applying evidence-based knowledge for use in professional nursing practice. This is a Level I course. (Typically offered: Fall and Spring)
NURS 3842H. Honors Foundations of Scientific Evidence in Nursing Practice. 2 Hours.
Introduction to the use of scientific evidence in nursing through a comparative analysis of selected studies. Theoretical, methodological, and analytical approaches are explored. Students acquire basic competencies in evaluating, interpreting, and applying evidence-based knowledge for use in professional nursing practice. This is a Level I course. (Typically offered: Fall and Spring)
This course is equivalent to NURS 3842.

NURS 3901H. Honors Nursing Thesis Tutorial. 1 Hour.
Designed to provide the foundation for the Honors Thesis/Project. Students and faculty tutors work 'one-on-one' exploring a specific topic which has been agreed upon by the student and the professor. Prerequisite: Honors candidacy and NURSBS major. (Typically offered: Fall, Spring and Summer)

NURS 4003. Transition to Professional Nursing Practice. 3 Hours.
This course supports educational mobility building on a core of common knowledge and skill from previous nursing education. The course emphasizes a transition to the professional nursing roles and competencies outlined in the Essentials of Baccalaureate Education in Professions Nursing Practice. Prerequisite: Admission to an online undergraduate BSN professional program, or instructor or departmental consent. (Typically offered: Fall and Spring)

NURS 4013. Informatics for the Professional Nurse. 3 Hours.
This course focuses on how information technology is used in the health care system. The course describes how nursing informatics is currently being used by healthcare professionals, and speculates about future applications. Prerequisite: Admission to an online undergraduate BSN professional program, or instructor or departmental consent. (Typically offered: Fall and Spring)

NURS 4023. Health Promotion Across the Lifespan. 3 Hours.
This course introduces theories and concepts of teaching and learning, health and wellness, and health behavior in the context of health promotion in nursing. The complex relationships that exist among culture, family, community, and health are explored. Students apply evidence-based strategies to assess, implement, and evaluate health promotion interventions for individuals, families, communities, and populations. Prerequisite: NURS 4003, NURS 4013, NURS 4843 and admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4063. Population and Community Health Nursing. 3 Hours.
This course introduces general principles of population and community health nursing to provide a theoretical base for the care of families, aggregates, communities, and populations. Students apply the concepts of disease prevention and assessment to plan, implement, and evaluate interventions to address diverse health care issues across the lifespan. Corequisite: NURS 4073 (for LBN student only). Prerequisite: NURS 4003, NURS 4843, NURS 4013, (ESRM 2403 or STAT 2303) and admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4073. Population and Community Health Practicum. 3 Hours.
Practicum basis for applying knowledge from public health and nursing theory. Learners utilize evidence-based strategies for disease prevention and health promotion with individuals, families, and populations in a variety of community health settings. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. Pre- or Corequisite: NURS 4063. (Typically offered: Fall, Spring and Summer)

NURS 4092. Professional Role Practicum. 2 Hours.
Role Synthesis provides the RN to BSN student with an opportunity to synthesize and apply knowledge of concepts developed throughout the nursing program. Evidence based practice will guide development of a quality improvement project in an area of student's interest. The course provides an opportunity to collaborate with a mentor and reflect professional goals. Requires a total of 75 clinical hours. Prerequisite: Admission to an online undergraduate BSN professional program or permission by the instructor or department head. Pre- or Corequisite: NURS 4701. (Typically offered: Fall, Spring and Summer)

NURS 4102. Adult Health II for Nurses. 2 Hours.
Focuses on the adult population experiencing chronic problems in the health-illness continuum. Utilizing the nursing process, nursing and medical treatment of selected conditions will be emphasized across transitional care settings. Prerequisite: NURS 3332, NURS 3302 and admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4112. Nursing Concepts: Teaching and Health Promotion. 2 Hours.
The course focuses on teaching/learning and the professional nurse's role in health promotion and disease prevention. A variety of health education and health promotion strategies are presented and evaluated. This is a Level I course. Prerequisite: Admission to the nursing program and completion of NURS 3422 and NURS 3424. (Typically offered: Fall and Spring)

NURS 4124. Child and Family Nursing. 4 Hours.
Students explore theory and evidence-based knowledge regarding holistic nursing care of children and families. Principles of health promotion and health education are utilized throughout the course. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. (Typically offered: Fall and Spring)

NURS 4143. Child and Family Practicum. 3 Hours.
Clinical practicum experience for application of evidence-based knowledge and skills in the nursing care of children and families. Prerequisite: NURS 3111, NURS 4323 and admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. Pre- or Corequisite: NURS 4124. (Typically offered: Fall and Spring)

NURS 4154. Nursing Concepts: Children and Family. 4 Hours.
This course provides theory and research-based knowledge regarding holistic nursing care of children and families. Principles of health promotion and health education for expanding families are integral to this course. This is a Level II course. Corequisite: NURS 4164. Pre- or Corequisite: NURS 4112. (Typically offered: Fall and Spring)

NURS 4164. Professional Role Implementation IV: Teacher. 4 Hours.
Clinical and laboratory experience for application of research-based knowledge and skills in the nursing care of children and families. Emphasis is on teaching role of the nurse. This is a Level II course. Pre- or Corequisite: NURS 4154. Prerequisite: Completion of Level I courses. (Typically offered: Fall and Spring)

NURS 4203. Leadership for Professional Nurses. 3 Hours.
This course introduces theories and principles of management and leadership and the professional nurse's role within the health care system. Social issues, economic policy, and regulatory requirements are used to explore healthcare delivery systems and access, quality improvement, and patient safety. This course includes strategies for monitoring delivery of care, outcomes, and evaluating program effectiveness. Prerequisite: Admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)
NURS 4212. Leadership Practicum. 2 Hours.
Students will apply the theoretical principles learned in NURS 4203 to the delivery of healthcare. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. Pre- or Corequisite: NURS 4203. (Typically offered: Fall, Spring and Summer)

NURS 4242. Leadership in Nursing. 2 Hours.
Introduces principles of leadership and the professional nurse's roles in the health care system. Considers the perspectives of management, organization, and change theory. Includes strategies for monitoring delivery of care, outcomes and evaluating program effectiveness. This is a Level II course. (Typically offered: Fall and Spring)

NURS 4252. Professional Role Implementation V: Manager. 2 Hours.
Students will apply the theoretical principles learned in NURS 4242 and NURS 4262 to the delivery of care to adults with chronic conditions across transitions of care settings. The manager will be emphasized. This is a Level II course. Prerequisite: Completion of Level I courses. Pre- or Corequisite: NURS 4242 and NURS 4262. (Typically offered: Fall and Spring)

NURS 4252H. Honors Professional Role Implementation V: Manager. 2 Hours.
Students will apply the theoretical principles learned in NURS 4242 and NURS 4262 to the delivery of care to adults with chronic conditions across transitions of care settings. The manager will be emphasized. This is a Level II course. Prerequisite: Completion of Level I courses. Pre- or Corequisite: NURS 4242 and NURS 4262. (Typically offered: Fall and Spring)

This course is equivalent to NURS 4252.

NURS 4262. Nursing Concepts: Adult Health and Illness II. 2 Hours.
Focuses on the adult population experiencing chronic problems in the health-illness continuum. Utilizing the nursing process, nursing and medical treatment of selected conditions will be emphasized across transitional care settings. This is a Level II course. Prerequisite: Level I courses. (Typically offered: Fall and Spring)

NURS 4262H. Honors Nursing Concepts: Adult Health and Illness II. 2 Hours.
Focuses on the adult population experiencing chronic problems in the health-illness continuum. Utilizing the nursing process, nursing and medical treatment of selected conditions will be emphasized across transitional care settings. This is a Level II course. Prerequisite: Level I courses. (Typically offered: Fall and Spring)

This course is equivalent to NURS 4262.

NURS 4313. Pathophysiology in Nursing. 3 Hours.
The course focuses on the study of the underlying concepts of physiological functioning and the body's adaptive and compensatory mechanisms within a systems framework. Learners examine aspects of disease processes including etiology, pathogenesis, and clinical manifestations, as it applies to current nursing practice with diverse clients across the lifespan. Prerequisite: Admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4323. Health Assessment and Clinical Reasoning. 3 Hours.
This 3-credit theory course focuses on increasing knowledge of health assessment skills. Emphasis is placed on strengthening clinical reasoning skills through identifying normal findings, interpreting abnormal findings, and applying principles of evidence-based practice to the health assessment process. The role of documentation of assessment findings to third-party reimbursement is also explored. Prerequisite: Admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4442. Nursing Concepts: Critical Care. 2 Hours.
Focuses on the adult population experiencing multiple or critical illnesses or conditions necessitating admission to a critical care unit. The course emphasizes both nursing and medical treatment of selected conditions. This is a Level II course. Corequisite: NURS 4452. Prerequisite: Completion of Level I courses and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, and NURS 4262. (Typically offered: Fall and Spring)

NURS 4452. Professional Role Implementation VI: Role Synthesis. 2 Hours.
Clinical learning is focused on further developing and refining the knowledge, skills, and attitudes necessary to manage the care of an acutely ill or complex patient and/or family within the context of an inter-professional team. This is a Level II course. Prerequisite or Corequisite: NURS 4442. Prerequisite: Completion of Level I and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, and NURS 4262. (Typically offered: Fall and Spring)

NURS 4503. Introduction to Health Care Policy. 3 Hours.
This course provides an overview of health care policy orienting students to the political and social processes impacting the current health care environment. The course provides a basic framework for understanding the role of nursing in advocacy, leadership, economics and ethics associated with influencing health care policy. Recognizing the financing of health care and the impact on quality through policy changes will be discussed. Prerequisite: Admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4542. Critical Care Nursing. 2 Hours.
Focuses on the adult population experiencing multiple or critical illnesses or conditions necessitating admission to a critical care unit. The course emphasizes both nursing and medical treatment of selected conditions. Prerequisite: NURS 3111, NURS 3332, NURS 4102, and admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4552. Critical Care Practicum. 2 Hours.
Clinical learning is focused on further developing and refining the knowledge, skills, and attitudes necessary to manage the care of an acutely ill or complex patient and/or family within the context of an inter-professional team. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. Pre- or Corequisite: NURS 4542. (Typically offered: Fall, Spring and Summer)

NURS 4603. Nursing Concepts: Community. 3 Hours.
The course focuses on theories and concepts in community health nursing. Health resources are explored in a variety of settings. This is a Level II course. Corequisite: NURS 4613. Prerequisite: Completion of Level I courses and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, and NURS 4262. (Typically offered: Fall, Spring and Summer)

NURS 4603H. Honors Nursing Concepts: Community. 3 Hours.
The course focuses on theories and concepts in community health nursing. Health resources are explored in a variety of settings. This is a Level II course. Corequisite: NURS 4613. Prerequisite: Completion of Level I courses and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, and NURS 4262. (Typically offered: Fall, Spring and Summer)

This course is equivalent to NURS 4603.

NURS 4613. Professional Role Implementation VII: Role Synthesis. 3 Hours.
Application of community health concepts and the nursing process to promote community health and to restore health in a variety of settings. This is a Level II course. Pre- or Corequisite: NURS 4603. Prerequisite: Completion of Level I courses and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, and NURS 4262. (Typically offered: Fall and Spring)

NURS 4613H. Honors Professional Role Implementation VII: Role Synthesis. 3 Hours.
Application of community health concepts and the nursing process to promote community health and to restore health in a variety of settings. This is a Level II course. Pre- or Corequisite: NURS 4603. Prerequisite: Completion of Level I courses and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, and NURS 4262. (Typically offered: Fall and Spring)

This course is equivalent to NURS 4613.
Requirements for B.S.E. in Elementary Education

Stage I: Pre-Elementary Education (PELED)
Complete either 63 hours of program pre-requisites for CHEDBS or 47 hours of program pre-requisites for ELELBS:
1. Obtain a GPA of 3.0 or better on UA coursework.
2. Complete all program courses with a “C” or better.
3. Obtain a passing score on the Math, Reading, and Writing sections of the Praxis Core or ACT.
4. Complete a background check.

Stage II: Admission to the Elementary Licensure B.S.E. (ELEL)
Admission to the Elementary Licensure Program is competitive and occurs after completion of all Pre-Elementary Education requirements and prior to the beginning of the spring semester of the sophomore year. Not all applicants who meet the minimum requirements will be admitted to the program. Applications to the Elementary Licensure (ELEL) program must be submitted by September 15.

The application process includes:
1. Submission of the application to teacher education (see the Teacher Education Application Fee (p. 72)) through the university-wide Teacher Education Office.
2. Submission of Elementary Education application
3. Submission of transcripts for all coursework
4. Oral interview with Elementary Education faculty
5. Submission of Writing Sample
6. Submission of passing score on Math, Reading, and Writing sections of the Praxis Core Exam or ACT
7. Current background check

Stage III: Requirements for Program Continuation and Student Teaching/Internship
1. Maintain a cumulative GPA of 3.0 or better
2. Submission of Internship Application
3. Passing score on Praxis II, Elementary Education, Multiple Subjects
4. Successful teaching audition
5. Submission of letters of recommendation
6. Maintain a current background check
7. Earn a CPR card

This B.S.E. (4-year) degree includes approximately 9 months of student teaching/internship experience in public elementary schools. Senior-level students must therefore attend full-time.

Requirements for teacher licensure vary from state to state and may differ in teacher preparation programs. Please note that Arkansas requires all applicants to successfully complete a criminal background check. Arkansas Teacher Licensure requirements can be found at http://arkansased.org/teachers/ licensureinitial.html.
† All program courses must have a grade of "C" or better. No teaching methods courses may be taken as self-paced (correspondence) courses. A grade of 'B' or better must be earned in both the fall and spring semesters of CIED 4173 Student Teaching.

**Elementary Education Requirements (ELEL)**

**Pre-Elementary Education (PELED) requirements †**

**Total Hours**

123

† Complete all requirements with grade ‘C’ or better unless otherwise noted.

1 Or any 3-hour Arkansas history course

2 Two semesters required for licensure; one taken Fall, other taken Spring

3 Must have a grade of ‘B’ or better for graduation

**Elementary Education B.S.E. Eight-Semester Plan**

Because this program requires admission to progress, it does not qualify for the university’s Eight-Semester Degree Program; however, students who qualify for admission to the program can finish a degree in four years by following the suggested order of classes below.

| Total Units in Sequence: | 123 |
Students study various learning theories, their implications for instruction, and their students develop, process information, and learn; studies educational applications This course allows students to cultivate an understanding of how elementary Classroom. 3 Hours.
ELELBS major. (Typically offered: Fall and Spring and Summer)

CIED 1013. Introduction to Education. 3 Hours.
Integrates psychological, sociological, and philosophical foundations of education with concurrent involvement in field experiences. Encourages prospective teachers to become reflective practitioners by emphasizing organization of school systems, planning and implementation of effective classroom environments, development of teaching styles, and new directions in education. An 18-hour early field experience designed to give prospective teachers opportunities to observe and participate in a variety of school settings is incorporated in this introductory course to education. (Typically offered: Fall and Spring)

CIED 2173. Literacy in America. 3 Hours.
A course that examines the myriad definitions of literacy (and illiteracy) and their connections to issues of social class, occupational status, economic and political structures, educational institutions, cultural organizations, and the media. (Typically offered: Fall and Spring)

This course is cross-listed with ENGL 2173.

CIED 2943. Foundations of Language and Literacy. 3 Hours.
A foundational study of language and literacy with an emphasis on content knowledge for teachers that is essential to the components and principles of science-based literacy. (Typically offered: Fall and Spring)

CIED 3001. Early Childhood Education Practicum. 1 Hour.
This practicum course provides opportunities for students to observe and practice providing instruction and guidance in preschool settings. Corequisite: CIED 3003. (Typically offered: Fall and Spring)

CIED 3003. Early Childhood Education. 3 Hours.
The study of kindergarten and preschool programs: social context of early childhood education, purposes, research basis, curriculum development, methods, and materials. Corequisite: CIED 3001. Prerequisite: CIED 1013. (Typically offered: Spring and Summer)

CIED 3013. Development and Learning Theories in the K-6 Classroom. 3 Hours.
This course allows students to cultivate an understanding of how elementary students develop, process information, and learn; studies educational applications pertaining to theories of development, intelligence, and thinking dispositions. Students study various learning theories, their implications for instruction, and their role in the K-6 classroom. Field experience required. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 3013H. Honors Development and Learning Theories in the K-6 Classroom. 3 Hours.
This course allows students to cultivate an understanding of how elementary students develop, process information, and learn; studies educational applications pertaining to theories of development, intelligence, and thinking dispositions. Students study various learning theories, their implications for instruction, and their role in the K-6 classroom. Field experience required. Prerequisite: CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)

This course is equivalent to CIED 3013.

CIED 3023. Survey of Exceptionalities. 3 Hours.
A survey of the characteristics of students with exceptional needs. Reviews the definitions of exceptionalities, learning and behavior characteristics of individuals with exceptionalities and the legal basis for the education of persons with exceptionalities in both elementary and secondary schools. Prerequisite: CIED 1013, or MUED 2012, or AGED 1123, or PSYC 2003. (Typically offered: Fall, Spring and Summer)

CIED 3023H. Honors Survey of Exceptionalities. 3 Hours.
A survey of the characteristics of students with exceptional needs. Reviews the definitions of exceptionalities, learning and behavior characteristics of individuals with exceptionalities and the legal basis for the education of persons with exceptionalities in both elementary and secondary schools. Prerequisite: Honors standing, CIED 1013, or MUED 2012, or AGED 1123, or PSYC 2003. (Typically offered: Fall, Spring and Summer)

CIED 3033. Classroom Learning Theory. 3 Hours.
A survey of the major theories of learning with special emphasis on human learning and implications for education. Field experience required. Prerequisite: Honors standing and (CIED 1013; or MUED 2012; or PHED 1003; or AGED 1123; or PSYC 2003). (Typically offered: Fall, Spring and Summer)

CIED 3053. The Emerging Adolescent. 3 Hours.
This course is a study of the developmental characteristics (social, emotional, physical, moral, and intellectual) of early adolescents (ages 10-15 years). The implications of these changes for motivation, instruction, learning, and classroom management in the classroom are emphasized. Course has field component. Prerequisite: CIED 1013. (Typically offered: Fall and Spring)

CIED 3083. Arts Integration in the Classroom. 3 Hours.
Content course in arts integration including the pedagogy, design, and implementation of lesson plans which teach skills through the visual and performing arts to students. (Typically offered: Fall)

CIED 3103. Children and Adolescent Literature. 3 Hours.
A survey of children's literary works, authors, and illustrators with emphasis on elementary grade and adolescent literature. Prerequisite: CHEDBS or ELELBS or HDFBSBS BRKD or HDFBSBS CDEV or PSPED major. (Typically offered: Fall and Spring)

CIED 3103H. Honors Children and Adolescent Literature. 3 Hours.
A survey of children's literary works, authors, and illustrators with emphasis on elementary grade and adolescent literature. Corequisite: CIED 3113. Prerequisite: CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)

This course is equivalent to CIED 3103.

CIED 3113. Emergent Literacy. 3 Hours.
An understanding of emergent literacy development through a study of science-based literacy pedagogy and practical field experiences. Prerequisite: ENGL 1013, ENGL 1023, CIED 2943 and CHEDBS or ELELBS or HDFBSBS BRKD or HDFBSBS CDEV or SPEDBS major. (Typically offered: Fall and Spring)

CIED 3113H. Honors Emergent Literacy. 3 Hours.
This course focuses on theories of children's emerging literacy and on the continuing development of literacy abilities in pre-kindergarten and early elementary years. Field experience required. Prerequisite: ENGL 1013, ENGL 1023, and CIED 3262, CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)

This course is equivalent to CIED 3113.
CIED 3123. Mathematics Methods in the K-6 Classroom. 3 Hours.
An examination of the content of elementary mathematics courses. Special emphasis given to methods of teaching the content as well as enrichment materials. Prerequisite: MATH 1203, MATH 2213, MATH 2223, STAT 2303, and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 3133. Integrated Social Studies for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' development in language arts and social studies. Integrates the curriculum and teaching strategies in language arts and social studies. Prerequisite: CHEDBS or ELELBS major, and PLSC 2003 and HIST 2003 and HIST 2013, and (HIST 1113 or HIST 1123), and (GEOS 1123 or ANTH 1023), and (ECON 3053 or ECON 2143), and ARHS 1003, and MLIT 1003. (Typically offered: Fall and Spring)

CIED 3143. Teaching Science in the Elementary Grades. 3 Hours.
Study of the methods and materials in teaching science. Classroom applications of teaching strategies with analysis of teacher effectiveness in seminar settings are emphasized. Prerequisite: (BIOL 1543 and BIOL 1541L), and (GEOS 1113 and GEOS 1111L), and (PHYS 1034 or ASTR 2003 and ASTR 2001L), and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 3262. Language Development for the Educator. 2 Hours.
Nature of speech-language development in preschool and school-aged children, including cognitive prerequisites, social contexts, and relationships between language acquisition and literacy. Language differences (dialectal, bilingual) and speech-language disorders are explored. The role of the educator in facilitating language acquisition is emphasized. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 3453. Developmental Literacy, 3 Hours.
A deep and comprehensive application of the development of literacy skills from decoding to fluent, comprehending readers. Field experience required. Prerequisite: CIED 2943, CIED 3113, and admission into ELELBS or CHEDBS programs. (Typically offered: Fall and Spring)

CIED 3453H. Honors Developmental Literacy, 3 Hours.
A deep and comprehensive application of the development of literacy skills from decoding to fluent, comprehending readers. Field experience required. Prerequisite: CIED 2943, CIED 3113, admission into ELELBS or CHEDBS programs, and honors standing. (Typically offered: Fall and Spring)

CIED 3901H. Honors Curriculum and Instruction Education Thesis Tutorial. 1 Hour.
Designed to provide the foundation for the Honors Thesis. Students and faculty tutors work ‘one-on-one’ exploring a specific topic which has been agreed upon by the student and the professor. Prerequisite: Honors candidacy and CATEBS, CHEDBS, EDSTBS, EGEDBA, ELELBS, FREDBA, GREDBA, SNEDBA, SPEDBS, or SSEDBA majors. (Typically offered: Fall, Spring and Summer)

CIED 4003. Elementary Seminar. 3 Hours.
This course is designed to synthesize the foundational content presented in the Bachelor of Science in Education, Elementary Education program. It focuses on refinement of generalized knowledge to accommodate specialized content relevant to elementary students. Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4013. Capstone Course for Foreign Language Licensure. 3 Hours.
This course is designed to identify and provide evidence of content language specific proficiencies in the four skills of reading, writing, listening, and speaking a foreign language. (Typically offered: Spring)

CIED 4023. Teaching in Inclusive Secondary Settings. 3 Hours.
This course is designed to prepare pre-service teachers to teach in inclusive classroom settings at the secondary level. Course content will focus on the ways in which exceptionality, specifically focused on high-incidence disabilities and culture, specifically focused on English language learners mediate the learning experiences of secondary level students. (Typically offered: Summer)

CIED 4083. Creativity in Daily Practice. 3 Hours.
Arts integration course including the ideas, design, and implementation of practices in the classroom, board room, and professional field that enrich the experiences of all stakeholders while building right-brain thinking skills for the new millennium. (Typically offered: Spring Even Years) May be repeated for up to 6 hours of degree credit.

CIED 4101. Practicum. 1 Hour.
Practicum. Corequisite: CIED 3133. (Typically offered: Spring)

CIED 4113. Integrated Communication Skills for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' literacy development. Emphasis is on the integration of the communication skills of reading, writing, speaking, and listening across the curriculum. Prerequisite: COMM 1313 or COMM 2323 and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4113H. Honors Integrated Communication Skills for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' literacy development. Emphasis is on the integration of the communication skills of reading, writing, speaking, and listening across the curriculum. Prerequisite: COMM 1313 or COMM 2323 and CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)

This course is equivalent to CIED 4113.

CIED 4123. Literacy Assessment and Interventions in the Elementary Classroom. 3 Hours.
An undergraduate course focusing on literacy assessment and intervention for prospective classroom teachers. Participants become familiar with assessment procedures and instruments for identifying student strengths and weaknesses in literacy, determining effective intervention strategies for literacy improvement, and principles of reporting assessment and intervention outcomes. Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4131. Practicum for Secondary and Multilevel Tracks in Education. 1 Hour.
This practicum is a requirement for entry into the EDUC MA, Master of Arts in Teaching program. Students will be involved in documented experiences with children for a minimum of 60 hours in grades K-12. Students enrolled in the multilevel track will be placed in a combination of elementary, middle, and high school settings. Students enrolled in the secondary track will be placed in a combination of middle and high school settings. Prerequisite: Cleared background check. (Typically offered: Spring and Summer)

CIED 4133. Measurement and Research in the K-6 Classroom. 3 Hours.
This course is designed to provide an introduction to educational assessment, research methods, and what research has to say about trends and topics in elementary education. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Summer)

CIED 4143. Curriculum Design and Applications of Instructional Practice. 3 Hours.
A course in the design and adaptation of curriculum for students in regular, elementary classrooms. Theoretical bases and curriculum models will be reviewed. Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Spring)

CIED 4153. Classroom Management in the Elementary Grades. 3 Hours.
This course focuses on a number of different management techniques for elementary classrooms that can be used in general education settings. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4163. Senior Project. 3 Hours.
This course is designed to provide students with the research skills necessary to complete their senior project. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Summer)
CIED 4173. Student Teaching. 3 Hours.
Full-time student teaching in grades K-6 to be repeated both fall and spring semesters. Students will practice and master instructional strategies under the supervision of qualified mentor teachers and university faculty members. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

CIED 4183. Instruction and Assessment of Writing. 3 Hours.
Develop knowledge, skills and dispositions about writing processes, genres, and pedagogy. Field experience required. Prerequisite: CIED 2943, CIED 3113, CIED 3453, and admission into CHEDBS or ELELBS programs. (Typically offered: Fall and Spring)

CIED 4286. Teaching Experience. 6 Hours.
The teaching experience is an essential component of the Bachelor of Arts in Teaching degree. The two semester experience allows Teacher Candidates (TC) to make further application of theoretical principles of teaching and learning. Teacher Candidates will be assigned placement in area schools for both fall and spring semesters. Teacher candidates are placed in K-12 or 7-12 levels depending on their content area for licensure. The fall semester consists of a field experience including observation, co-planning, and co-teaching. The spring semester consists of an immersion experience for teacher candidates to plan and teach independently. Prerequisite: Admission to the B.A.T. program. (Typically offered: Spring) May be repeated for up to 12 hours of degree credit.

CIED 4323. Instructional Design for Teachers. 3 Hours.
Study of the design of instruction for students with exceptionalities. Emphasis is placed on synthesizing a broad range of existing and emerging perspectives and methods of instruction and applying them to practical classroom practice. Prerequisite: CIED 3023 and CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4363. Disciplinary Literacy in the K-6 Classroom. 3 Hours.
Focuses on the methodology of extending K-6 learners’ basic literacy development, as a foundation for intermediate and disciplinary literacy. Emphasis is on the engagement of students in the distinct reading, writing, speaking, and listening requirements of different disciplines. Prerequisite: CIED 3113 and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4403. Understanding Cultures in the Classroom. 3 Hours.
This course provides pre-and in-service teachers knowledge and skills necessary for educating ethnically and linguistically diverse classrooms. Students have the opportunity to understand positive relationships while removing stereotypes and prejudices. It addresses issues for social justice education through understanding ways that children learn and communicate in their homes and communities. Students will examine how topics in multicultural education inform instructional goals, curriculum planning/implementation, and teaching practices across content areas in public K-12 classrooms. Some sections of this course will contain a service learning component. (Typically offered: Fall)

CIED 4413. Acquiring a Second Language. 3 Hours.
The course gives an introduction to the basics in research and learning theories involved in the acquisition of second languages and cultures, particularly of English. (Typically offered: Spring)

CIED 4423. Teaching English as a Second Language. 3 Hours.
This course is designed to provide teacher candidates with the basic knowledge and teaching skills necessary to address the linguistic needs of English language learners (ELLs) in regular classrooms. The students in this class will learn about and use multiple strategies for promoting ELLs’ reading, writing, listening, and speaking skills. Emphasis will be placed especially on differentiating early reading instruction for ELLs. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Spring)

CIED 4433. The Moral Mind in Action. 3 Hours.
The Moral Mind in Action explores how people reason through moral dilemmas and prepares students to more effectively recognize and resolve moral problems. Best practices of teachers and administrators of K-16 character education programs are discussed. (Typically offered: Fall)

CIED 4443. Moral Courage. 3 Hours.
Moral Courage explores the factors that support translating moral thinking into moral action. This course draws from the field of positive psychology to guide students as they leverage existing strengths and develop new strategies for acting with moral courage in their personal and professional lives. Best practices of teachers and administrators of K-16 character education programs are discussed. (Typically offered: Spring)

CIED 4463. Culture and Learning. 3 Hours.
Culture, its meanings, dimensions, and manifestations are explored in this course. How these cultural elements impact perceptions of students, classroom practices, and educational processes are explored in this course. A strength-based approach is employed to explore the issues associated with including all students within classrooms. (Typically offered: Fall, Spring and Summer)

CIED 4503H. Honors Charles Darwin and the Legacy of Evolution. 3 Hours.
This highly integrated honors class draws on various perspectives to examine the life of Charles Darwin and the legacy and impact of evolution. Topics and guest instructors change each semester, but the course will focus on evolution from the perspectives of biology, anthropology, the law, philosophy, history, culture and literature. (Typically offered: Spring, Even Years)

CIED 4513. Teaching Children with Mild Disabilities. 3 Hours.
This course is a study of the characteristics of young students with disabilities and methods for teaching this group of students. The course will provide future teachers with an understanding of interventions useful in teaching individuals with special learning needs during grades P-4. (Typically offered: Fall and Spring)

CIED 4523H. Honors Teaching Children with Severe Disabilities. 3 Hours.
This course is a study of the characteristics of young students with severe disabilities and methods for teaching this group of students. The course will provide future teachers with an understanding of interventions useful in teaching individuals with special learning needs during grades P-4. (Typically offered: Spring and Summer)

CIED 4533. Reading Comprehension Through Children's and Adolescent Literature. 3 Hours.
An examination of the major genres of children and adolescent literature to develop and extend K-6 students’ skills in reading comprehension. Field experience required. Prerequisite: CIED 2943, CIED 3113, CIED 3453, and admission into CHEDBS or ELELBS programs. (Typically offered: Fall and Spring)

CIED 498VH. Curriculum and Instruction Honors Thesis/Project. 1-3 Hour.
Designed to provide facilitation of the Honors Thesis/Project. Students and faculty work ‘one-on-one’ to complete the honors thesis/project. Prerequisite: Honors candidacy, CIED 3901H, and CATEG, CHEDBS, EDSTBS, EGDBA, ELELBS, FREDBA, GREDBA, SNEDBA, SPEDBS, or SSDBA major. (Typically offered: Fall and Spring) May be repeated for up to 3 hours of degree credit.

CIED 499V. Special Topics in Curriculum and Instruction Education. 1-6 Hour.
Discussion and advanced studies on selected topics in curriculum and instruction. Special focus on recent and emerging topics in education. (Typically offered: Fall, Spring and Summer) May be repeated for up to 18 hours of degree credit.

CIED 499VH. Honors Special Topics in Curriculum and Instruction Education. 1-3 Hour.
Discussion and advanced studies on selected topics in curriculum and instruction. Special focus on recent and emerging topics in education. (Typically offered: Fall, Spring and Summer) This course is equivalent to CIED 499V.

Curriculum and Instruction Website (https://cied.uark.edu/)

The Department of Curriculum and Instruction offers a Bachelor of Arts in Teaching in English Education that leads to licensure for 7-12 instruction. The program focuses on developing reflective practitioners based on the constructivist perspective that teachers are life-long learners, reflective practitioners themselves, and scholar researchers. The coursework is designed to develop these attributes so that students graduate as effective teachers with the knowledge, skills, and dispositions to engage students with meaningful and authentic instruction. The Bachelor of Arts in Teaching degree will also prepare students in the humanities with the pedagogical skills, the content knowledge, and the dispositions for teaching and learning in 21st century classrooms.

B.A.T. in English Education
Stage I: Pre-English Education (PEGED)

Complete all 46 hours of program pre-requisites for each content area (see below).

1. Obtain a GPA of 3.0 or better on UA coursework.
2. Complete all content and pedagogy courses with a “C” or better.
3. Obtain a passing score on the Math, Reading, and Writing sections of the Praxis Core or ACT/SAT/GRE as defined by the Arkansas Department of Education.
4. Complete a background check.

Stage II: Admission to the B.A.T. program

Admission to the Bachelor of Arts in Teaching program (B.A.T.) occurs the semester after the candidate has completed all pre-B.A.T. requirements, including the first three courses in education — CIED 1013, CIED 1003, and CIED 2173 — prior to a student entering one of the individual programs of study the following fall term. The B.A.T. program is competitive, and meeting the minimum requirements does not guarantee admission to the program. Applications to the B.A.T. program must be submitted by January 30.

The application process includes:

1. Students must complete the application to teacher education (see the Teacher Education Application Fee (p. 72)) through the Teacher Education Office during spring semester of sophomore year. This includes completing and passing the criminal background check* and also passing Praxis Core academic subjects test or equivalent tests by meeting or exceeding the Arkansas Department of Education cut-off scores.
2. Submission of B.A.T. application.
3. Submission of writing sample to content area faculty.
4. Submission of transcripts for all coursework.

* Another background check will be required prior to graduation in order to be eligible for licensure.

Stage III: Requirements for Program Continuation and Internship

1. Maintain a cumulative GPA of 3.0 or better.
2. All professional education courses and content courses must have a grade of ‘C’ or better (except SEED 3282 below). No teaching methods courses may be taken as self-paced (correspondence) courses.

Stage IV: Requirements for Internship Semester (spring, senior year) and Program Completion

All students in the B.A.T. program must complete the following requirements prior to being admitted to the spring semester of their senior year.

1. Students must earn a ‘B’ or better in the fall semester, senior year. Students are not permitted to intern in the spring if the GPA requirement has not been met.
2. Earn a cumulative GPA of 3.0 or better by the end of the fall semester, senior year. Students are not permitted to intern in the spring semester, senior year.
3. Students must have taken the appropriate Praxis II-Content Knowledge exam to be admitted to the spring semester, senior year.
4. Candidate must complete a successful internship admission interview with B.A.T. faculty. Note these interviews are scheduled with all senior students during the fall semester.
5. Satisfactorily complete the internship/student teaching experience that has been approved by the Director of Field Placement.

All students seeking licensure in the state of Arkansas are subject to a criminal background check. Background checks can take up to six months to process; therefore, students are advised to complete and submit the forms to the proper authorities at least six months in advance of graduation (or six months prior to applying for a teaching license). Arkansas will not grant a teaching license to anyone who has been convicted of a felony.

CIED 4286 Teaching Experience

Year Total: 14 12

Total Units in Sequence: 120

Courses

CIED 1003. Introduction to Technology in Education. 3 Hours.
A study of computer technology as it relates to teacher education. This course introduces students interested in teacher education to the knowledge and skills required to demonstrate their proficiency in technology and learning. (Typically offered: Fall, Spring and Summer)

CIED 1013. Introduction to Education. 3 Hours.
Integrates psychological, sociological, and philosophical foundations of education with concurrent involvement in field experiences. Encourages prospective teachers to become reflective practitioners by emphasizing organization of school systems, planning and implementation of effective classroom environments, development of teaching styles, and new directions in education. An 18-hour early field experience designed to give prospective teachers opportunities to observe and participate in a variety of school settings is incorporated in this introductory course to education. (Typically offered: Fall and Spring)

CIED 2173. Literacy in America. 3 Hours.
A course that examines the myriad definitions of literacy (and illiteracy) and their connections to issues of social class, occupational status, economic and political structures, educational institutions, cultural organizations, and the media. (Typically offered: Fall and Spring)

This course is cross-listed with ENGL 2173.

CIED 2943. Foundations of Language and Literacy. 3 Hours.
A foundational study of language and literacy with an emphasis on content knowledge for teachers that is essential to the components and principles of science-based literacy. (Typically offered: Fall and Spring)

CIED 3001. Early Childhood Education Practicum. 1 Hour.
This practicum course provides opportunities for students to observe and practice providing instruction and guidance in preschool settings. Corequisite: CIED 3003. (Typically offered: Fall, Spring and Summer)

CIED 3003. Early Childhood Education. 3 Hours.
The study of kindergarten and preschool programs: social context of early childhood education, purposes, research basis, curriculum development, methods, and materials. Corequisite: CIED 3001. Prerequisite: CIED 1013. (Typically offered: Fall, Spring and Summer)

CIED 3013. Development and Learning Theories in the K-6 Classroom. 3 Hours.
This course allows students to cultivate an understanding of how elementary students develop, process information, and learn; studies educational applications pertaining to theories of development, intelligence, and thinking dispositions. Students study various learning theories, their implications for instruction, and their role in the K-6 classroom. Field experience required. Prerequisite: CIEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)

CIED 3023. Survey of Exceptionalities. 3 Hours.
A survey of the characteristics of students with exceptional needs. Reviews the definitions of exceptionalities, learning and behavior characteristics of individuals with exceptionalities and the legal basis for the education of persons with exceptionalities in both elementary and secondary schools. Prerequisite: CIED 1013, or MUED 2012, or AGED 1123, or PSYC 2003. (Typically offered: Fall, Spring and Summer)

CIED 3023H. Honors Survey of Exceptionalities. 3 Hours.
A survey of the characteristics of students with exceptional needs. Reviews the definitions of exceptionalities, learning and behavior characteristics of individuals with exceptionalities and the legal basis for the education of persons with exceptionalities in both elementary and secondary schools. Prerequisite: Honors standing, CIED 1013, or MUED 2012, or AGED 1123, or PSYC 2003. (Typically offered: Fall, Spring and Summer)

CIED 3033. Classroom Learning Theory. 3 Hours.
A survey of the major theories of learning with special emphasis on human learning and implications for education. Field experience required. Prerequisite: CIED 1013; or MUED 2012; or PHED 1003; or AGED 1123; or PSYC 2003. (Typically offered: Fall, Spring and Summer)

CIED 3033H. Honors Classroom Learning Theory. 3 Hours.
A survey of the major theories of learning with special emphasis on human learning and implications for education. Field experience required. Prerequisite: Honors standing and (CIED 1013; or MUED 2012; or PHED 1003; or AGED 1123; or PSYC 2003). (Typically offered: Fall, Spring and Summer)

CIED 3053. The Emerging Adolescent. 3 Hours.
This course is a study of the developmental characteristics (social, emotional, physical, moral, and intellectual) of early adolescents (ages 10-15 years). The implications of these changes for motivation, instruction, learning, and classroom management in the classroom are emphasized. Course has field component. Prerequisite: CIED 1013. (Typically offered: Fall and Spring)

CIED 3083. Arts Integration in the Classroom. 3 Hours.
Content course in arts integration including the pedagogy, design, and implementation of lesson plans which teach skills through the visual and performing arts to students. (Typically offered: Fall)

CIED 3103. Children and Adolescent Literature. 3 Hours.
A survey of children's literary works, authors, and illustrators with emphasis on elementary grade and adolescent literature. Prerequisite: CIEDBS or ELELBS or HDFBS BRKD or HDFBS CDEV or PSPED major. (Typically offered: Fall and Spring)

CIED 3103H. Honors Children and Adolescent Literature. 3 Hours.
A survey of children's literary works, authors, and illustrators with emphasis on elementary grade and adolescent literature. Corequisite: CIED 3113. Prerequisite: CIEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)

This course is equivalent to CIED 3103.

CIED 3113. Emergent Literacy. 3 Hours.
An understanding of emergent literacy development through a study of science-based literacy pedagogy and practical field experiences. Prerequisite: ENGL 1013, ENGL 1023, CIED 2943 and CIEDBS or ELELBS or HDFBS BRKD or HDFBS CDEV or SPEDBS major. (Typically offered: Fall and Spring)

CIED 3113H. Honors Emergent Literacy. 3 Hours.
This course focuses on theories of children's emerging literacy and on the continuing development of literacy abilities in pre-kindergarten and early elementary years. Field experience required. Prerequisite: ENGL 1013, ENGL 1023, and CIED 3262, CIEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)

This course is equivalent to CIED 3113.
CIED 3123. Mathematics Methods in the K-6 Classroom. 3 Hours.
An examination of the content of elementary mathematics courses. Special
emphasis given to methods of teaching the content as well as enrichment materials.
Prerequisite: MATH 1203, MATH 2213, MATH 2223, STAT 2303, and CHEDBS or
ELELBS major. (Typically offered: Fall and Spring)

CIED 3133. Integrated Social Studies for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' development in
language arts and social studies. Integrates the curriculum and teaching strategies
in language arts and social studies. Prerequisite: CHEDBS or ELELBS major, and
PLSC 2003 and HIST 2003 and HIST 2013, and (HIST 1113 or HIST 1123), and
(GEOS 1123 or ANTH 1023), and (ECON 3053 or ECON 2143), and ARHS 1003, and
MLIT 1003. (Typically offered: Fall and Spring)

CIED 3143. Teaching Science in the Elementary Grades. 3 Hours.
Study of the methods and materials in teaching science. Classroom applications of
teaching strategies with analysis of teacher effectiveness in seminar settings are
emphasized. Prerequisite: (BIOL 1543 and BIOL 1541L), and (GEOS 1113 and
GEOS 1111L), and (PHYS 1034 or ASTR 2003 and ASTR 2001L), and CHEDBS or
ELELBS major. (Typically offered: Fall and Spring)

CIED 3262. Language Development for the Educator. 2 Hours.
Nature of speech-language development in preschool and school-aged children,
including cognitive prerequisites, social contexts, and relationships between
language acquisition and literacy. Language differences (dialectal, bilingual) and
speech-language disorders are explored. The role of the educator in facilitating
language acquisition is emphasized. Prerequisite: CHEDBS or ELELBS major.
(Typically offered: Fall and Spring)

CIED 3453. Developmental Literacy, 3 Hours.
A deep and comprehensive application of the development of literacy skills from
decoding to fluent, comprehending readers. Field experience required. Prerequisite: CIED 2943, CIED 3113, and admission into ELELBS or CHEDBS programs.
(Typically offered: Fall and Spring)

CIED 3453H. Honors Developmental Literacy. 3 Hours.
A deep and comprehensive application of the development of literacy skills from
decoding to fluent, comprehending readers. Field experience required. Prerequisite: CIED 2943, CIED 3113, admission into ELELBS or CHEDBS programs, and honors standing. (Typically offered: Fall and Spring)

CIED 3901H. Honors Curriculum and Instruction Education Thesis Tutorial. 1 Hour.
Designed to provide the foundation for the Honors Thesis. Students and faculty
tutors work ‘one-on-one’ exploring a specific topic which has been agreed upon
by the student and the professor. Prerequisite: Honors candidacy and CATEBS,
CHEDBS, EDSTBS, EGEDBA, ELELBS, FREDBA, GREDBA, SNEDBA, SPEDBS,
or SSEDBA majors. (Typically offered: Fall, Spring and Summer)

CIED 4003. Elementary Seminar. 3 Hours.
This course is designed to synthesize the foundational content presented in the
Bachelor of Science in Education, Elementary Education program. It focuses on
refinement of generalized knowledge to accommodate specialized content relevant
to elementary students. Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4013. Capstone Course for Foreign Language Licensure. 3 Hours.
This course is designed to identify and provide evidence of content language specific
proficiencies in the four skills of reading, writing, listening, and speaking a foreign
language. (Typically offered: Spring)

CIED 4023. Teaching in Inclusive Secondary Settings. 3 Hours.
This course is designed to prepare pre-service teachers to teach in inclusive
classroom settings at the secondary level. Course content will focus on the ways in
which exceptionally, specifically focused on high-incidence disabilities and culture,
specifically focused on English language learners mediate the learning experiences
of secondary level students. (Typically offered: Summer)

CIED 4083. Creativity in Daily Practice. 3 Hours.
Arts integration course including the ideas, design, and implementation of practices in
the classroom, board room, and professional field that enrich the experiences
of all stakeholders while building right-brain thinking skills for the new millennium.
(Typically offered: Spring Even Years) May be repeated for up to 6 hours of degree
credit.

CIED 4101. Practicum. 1 Hour.
Practicum. Corequisite: CIED 3133. (Typically offered: Spring)

CIED 4113. Integrated Communication Skills for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' literacy
development. Emphasis is on the integration of the communication skills of reading,
writing, speaking, and listening across the curriculum. Prerequisite: COMM 1313 or
COMM 2323 and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4113H. Honors Integrated Communication Skills for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' literacy
development. Emphasis is on the integration of the communication skills of reading,
writing, speaking, and listening across the curriculum. Prerequisite: COMM 1313 or
COMM 2323 and CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)
This course is equivalent to CIED 4113.

CIED 4123. Literacy Assessment and Interventions in the Elementary
Classroom. 3 Hours.
An undergraduate course focusing on literacy assessment and intervention for
prospective classroom teachers. Participants become familiar with assessment
procedures and instruments for identifying student strengths and weaknesses in
literacy, determining effective intervention strategies for literacy improvement,
and principles of reporting assessment and intervention outcomes. Corequisite:
CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4131. Practicum for Secondary and Multilevel Tracks in Education. 1 Hour.
This practicum is a requirement for entry into the EDUC MA, Master of Arts in
Teaching program. Students will be involved in documented experiences with
children for a minimum of 60 hours in grades K-12. Students enrolled in the
multilevel track will be placed in a combination of elementary, middle, and high
school settings. Students enrolled in the secondary track will be placed in a
combination of middle and high school settings. Prerequisite: Cleared background
check. (Typically offered: Spring and Summer)

CIED 4133. Measurement and Research in the K-6 Classroom. 3 Hours.
This course is designed to provide an introduction to educational assessment,
research methods, and what research has to say about trends and topics in
elementary education. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Summer)

CIED 4143. Curriculum Design and Applications of Instructional Practice. 3 Hours.
A course in the design and adaptation of curriculum for students in regular,
elementary classrooms. Theoretical bases and curriculum models will be reviewed.
Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Spring)

CIED 4153. Classroom Management in the Elementary Grades. 3 Hours.
This course focuses on a number of different management techniques for
elementary classrooms that can be used in general education settings. Prerequisite:
CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4163. Senior Project. 3 Hours.
This course is designed to provide students with the research skills necessary to
complete their senior project. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Summer)
CIED 4173. Student Teaching. 3 Hours.
Full-time student teaching in grades K-6 to be repeated both fall and spring semesters. Students will practice and master instructional strategies under the supervision of qualified mentor teachers and university faculty members. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

CIED 4183. Instruction and Assessment of Writing. 3 Hours.
Develop knowledge, skills and dispositions about writing processes, genres, and pedagogy. Field experience required. Prerequisite: CIED 2943, CIED 3113, CIED 3453, and admission into CHEDBS or ELELBS programs. (Typically offered: Fall and Spring)

CIED 4286. Teaching Experience. 6 Hours.
The teaching experience is an essential component of the Bachelor of Arts in Teaching degree. The two semester experience allows Teacher Candidates (TC) to make further application of theoretical principles of teaching and learning. Teacher Candidates will be assigned placement in area schools for both fall and spring semesters. Teacher candidates are placed in K-12 or 7-12 levels depending on their content area for licensure. The fall semester consists of a field experience including observation, co-planning, and co-teaching. The spring semester consists of an immersion experience for teacher candidates to plan and teach independently. Prerequisite: Admission to the B.A.T. program. (Typically offered: Spring) May be repeated for up to 12 hours of degree credit.

CIED 4323. Instructional Design for Teachers. 3 Hours.
Study of the design of instruction for students with exceptionalities. Emphasis is placed on synthesizing a broad range of existing and emerging perspectives and methods of instruction and applying them to practical classroom practice. Prerequisite: CIED 3023 and CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4363. Disciplinary Literacy in the K-6 Classroom. 3 Hours.
Focuses on the methodology of extending K-6 learners' basic literacy development, as a foundation for intermediate and disciplinary literacy. Emphasis is on the engagement of students in the distinct reading, writing, speaking, and listening requirements of different disciplines. Prerequisite: CIED 3113 and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4403. Understanding Cultures in the Classroom. 3 Hours.
This course provides pre-and in-service teachers knowledge and skills necessary for educating ethnically and linguistically diverse classrooms. Students have the opportunity to understand positive relationships while removing stereotypes and prejudices. It addresses issues for social justice education through understanding ways that children learn and communicate in their homes and communities. Students will examine how topics in multicultural education inform instructional goals, curriculum planning/implementation, and teaching practices across content areas in public K-12 classrooms. Some sections of this course will contain a service learning component. (Typically offered: Fall)

CIED 4413. Acquiring a Second Language. 3 Hours.
The course gives an introduction to the basics in research and learning theories involved in the acquisition of second languages and cultures, particularly of English. (Typically offered: Spring)

CIED 4423. Teaching English as a Second Language. 3 Hours.
This course is designed to provide teacher candidates with the basic knowledge and teaching skills necessary to address the linguistic needs of English language learners (ELLs) in regular classrooms. The students in this class will learn about and use multiple strategies for promoting ELLs' reading, writing, listening, and speaking skills. Emphasis will be placed especially on differentiating early reading instruction for ELLs. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Spring)

CIED 4433. The Moral Mind in Action. 3 Hours.
The Moral Mind in Action explores how people reason through moral dilemmas and prepares students to more effectively recognize and resolve moral problems. Best practices of teachers and administrators of K-16 character education programs are discussed. (Typically offered: Fall)

CIED 4443. Moral Courage. 3 Hours.
Moral Courage explores the factors that support translating moral thinking into moral action. This course draws from the field of positive psychology to guide students as they leverage existing strengths and develop new strategies for acting with moral courage in their personal and professional lives. Best practices of teachers and administrators of K-16 character education programs are discussed. (Typically offered: Spring)

CIED 4463. Culture and Learning. 3 Hours.
Culture, its meanings, dimensions, and manifestations are explored in this course. How these cultural elements impact perceptions of students, classroom practices, and educational processes are explored in this course. A strength-based approach is employed to explore the issues associated with including all students within classrooms. (Typically offered: Fall, Spring and Summer)

CIED 4503H. Honors Charles Darwin and the Legacy of Evolution. 3 Hours.
This highly integrated honors class draws on various perspectives to examine the life of Charles Darwin and the legacy and impact of evolution. Topics and guest instructors change each semester, but the course will focus on evolution from the perspectives of biology, anthropology, the law, philosophy, history, culture and literature. (Typically offered: Spring Even Years)

CIED 4513. Teaching Children with Mild Disabilities. 3 Hours.
This course is a study of the characteristics of young students with disabilities and methods for teaching this group of students. The course will provide future teachers with an understanding of interventions useful in teaching individuals with special learning needs during grades P-4. (Typically offered: Fall and Spring)

CIED 4523H. Honors Teaching Children with Severe Disabilities. 3 Hours.
This course is a study of the characteristics of young students with severe disabilities and methods for teaching this group of students. The course will provide future teachers with an understanding of interventions useful in teaching individuals with special learning needs during grades P-4. (Typically offered: Spring and Summer)

CIED 4533. Reading Comprehension Through Children’s and Adolescent Literature. 3 Hours.
An examination of the major genres of children and adolescent literature to develop and extend K-6 students’ skills in reading comprehension. Field experience required. Prerequisite: CIED 2943, CIED 3113, CIED 3453, and admission into CHEDBS or ELELBS programs. (Typically offered: Fall and Spring)

CIED 498VH. Curriculum and Instruction Honors Thesis/Project. 1-3 Hour.
Designed to provide facilitation of the Honors Thesis/Project. Students and faculty work 'one-on-one' to complete the honors thesis/project. Prerequisite: Honors candidacy, CIED 3901H, and CATEG, CIEDBS, EDSTA, EGEDBA, ELELBS, FREDBA, GREDBA, SNEBBA, SPEDBA, or SSEDMA major. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

CIED 499V. Special Topics in Curriculum and Instruction. 1-3 Hour.
Discussion and advanced studies on selected topics in curriculum and instruction. Special focus on recent and emerging topics in education. (Typically offered: Fall, Spring and Summer) May be repeated for up to 18 hours of degree credit.

CIED 499VH. Honors Special Topics in Curriculum and Instruction Education. 1-3 Hour.
Discussion and advanced studies on selected topics in curriculum and instruction. Special focus on recent and emerging topics in education. (Typically offered: Fall, Spring and Summer)

This course is equivalent to CIED 499V.
Exercise Science (EXSC)

The program in exercise science is designed to prepare candidates for a variety of career options, including teaching physical education, coaching, analyzing and prescribing fitness programs, athletic training, or preparation for professional programs in allied health.

Graduates of this program should be well prepared to enter graduate programs of study in such areas as exercise physiology, biomechanics, athletic training, sport management, medical school, physical therapy school, and other allied health professional schools.

Requirements for B.S. in Exercise Science

Requirements for the B.S. in Exercise Science

Students must have 40 hours of 3000/4000-level classes to graduate.

French Education (FRED)

Freddie Bowles
Program Coordinator
3066 Peabody Hall
479-575-3035
Email: fbowles@uark.edu

Curriculum and Instruction Website (https://cied.uark.edu/)

The Department of Curriculum and Instruction offers a Bachelor of Arts in Teaching in French Education that leads to licensure for K-12 instruction. The program focuses on developing reflective practitioners based on the constructivist perspective that teachers are life-long learners, reflective practitioners themselves, and scholar researchers. The coursework is designed to develop these attributes so that students graduate as effective teachers with the knowledge, skills, and dispositions to engage students with meaningful and authentic instruction. The Bachelor of Arts in Teaching degree will also prepare students in the humanities with the pedagogical skills, the content knowledge, and the dispositions for teaching and learning in 21st century classrooms.

B.A.T. in French Education

Stage I: Pre-French Education (PFRED)

Complete all 46 hours of program pre-requisites for each content area (see below).

1. Obtain a GPA of 3.0 or better on UA coursework.
2. Complete all content and pedagogy courses with a “C” or better.
3. Obtain a passing score on the Math, Reading, and Writing sections of the Praxis Core or ACT/SAT/GRE as defined by the Arkansas Department of Education.
4. Complete a background check.

Stage II: Admission to the B.A.T. program

Admission to the Bachelor of Arts in Teaching program (B.A.T.) in the five content areas occurs the semester after the candidate has completed all pre-B.A.T. requirements including the first three courses in education — CIED 1013, CIED 1003, and CIED 2173 — prior to a student entering the individual program of study the following fall term. The B.A.T. program is competitive, and meeting the minimum requirements does not guarantee admission to the program. Applications to the B.A.T. program must be submitted by January 30.

The application process includes:

1. Students must complete the application to teacher education (see the Teacher Education Application Fee (http://teacher-education.uark.edu/admissions/)) through the Teacher Education Office during spring semester of sophomore year. This includes completing and passing the criminal background check* and also passing Praxis Core academic subjects test or equivalent tests by meeting or exceeding the Arkansas Department of Education cut-off scores.
2. Submission of B.A.T. application.
3. Submission of writing sample to content area faculty.
4. Submission of transcripts for all coursework.

Stage III: Requirements for Program Continuation and Internship

1. Maintain a cumulative GPA of 3.0 or better.
2. All professional education courses and content courses must have a grade ‘C’ or better (except SEED 3282 below). No teaching methods courses may be taken as self-paced (correspondence) courses.

Stage IV: Requirements for Internship Semester (spring, senior year) and Program Completion

All students in the B.A.T. program must complete the following requirements prior to being admitted to the spring semester of their senior year.

1. Students must earn a ‘B’ or better in the fall semester, senior year SEED 3282 practicum course.
2. Earn a cumulative GPA of 3.0 or better by the end of the fall semester, senior year. Students are not permitted to intern in the spring if the GPA requirement is not met.
3. Students must have taken the appropriate Praxis II-Content Knowledge exam to be admitted to the spring semester, senior year.
4. Candidate must complete a successful ‘internship admission interview’ with B.A.T. faculty. Note these interviews are scheduled with all senior students during the fall semester.
5. Satisfactorily complete the internship/student teaching experience that has been approved by the Director of Field Placement.

All students seeking licensure in the state of Arkansas are subject to a criminal background check. Background checks can take up to six months to process; therefore, students are advised to complete and submit the forms to the proper authorities at least six months in advance of graduation (or six months prior to applying for a teaching license). Arkansas will not grant a teaching license to anyone who has been convicted of a felony.

French Education B.A.T.
Eight-Semester Plan
Because this program requires admission to progress, it does not qualify for the university’s Eight-Semester Degree Program; however, students who qualify for admission to the program can finish a degree in four years by following the suggested order of classes below.

First Year
ENGL 1013 Composition I (ACTS Equivalency = ENGL 1013)  3
Fall
MATH 1203 College Algebra (ACTS Equivalency = MATH 1103) (or higher)  3
Spring
Social Science Core  3
FREN 2013 Intermediate French II (ACTS Equivalency = FREN 2023)  3
CIED 1013 Introduction to Education  3
ENGL 1023 Composition II (ACTS Equivalency = ENGL 1023)  3
Spring
Science Core with lab  4
COMM 1023 Communication in a Diverse World  3
FREN 3003 Advanced French  3
CIED 1003 Introduction to Technology in Education  3
Year Total:  15  16

Second Year
Fine Arts Core  3
Fall
Social Science Core  3
Spring
FREN 3113 Introduction to Literature  3

Third Year
4000-level Literature course  3
FREN 4033 French for Oral Proficiency  3
SEED 4063 Disciplinary and Interdisciplinary Literacies in Education  3
CIED 4403 Understanding Cultures in the Classroom  3
General Elective  3

CIED 4286 Teaching Experience  6
Year Total:  14  12

Total Units in Sequence:  120

Courses
CIED 1003. Introduction to Technology in Education. 3 Hours.
A study of computer technology as it relates to teacher education. This course introduces students interested in teacher education to the knowledge and skills required to demonstrate their proficiency in technology and learning. (Typically offered: Fall, Spring and Summer)
CIED 1013. Introduction to Education. 3 Hours.
Integrates psychological, sociological, and philosophical foundations of education with concurrent involvement in field experiences. Encourages prospective teachers to become reflective practitioners by emphasizing organization of school systems, planning and implementation of effective classroom environments, development of teaching styles, and new directions in education. An 18-hour early field experience designed to give prospective teachers opportunities to observe and participate in a variety of school settings is incorporated in this introductory course to education. (Typically offered: Fall and Spring)

CIED 2173. Literacy in America. 3 Hours.
A course that examines the myriad definitions of literacy (and illiteracy) and their connections to issues of social class, occupational status, economic and political structures, educational institutions, cultural organizations, and the media. (Typically offered: Fall and Spring)

CIED 2943. Foundations of Language and Literacy. 3 Hours.
A foundational study of language and literacy with an emphasis on content knowledge for teachers that is essential to the components and principles of science-based literacy. (Typically offered: Fall and Spring)

CIED 3001. Early Childhood Education Practicum. 1 Hour.
This practicum course provides opportunities for students to observe and practice providing instruction and guidance in preschool settings. Corequisite: CIED 3003. (Typically offered: Fall, Spring and Summer)

CIED 3003. Early Childhood Education. 3 Hours.
The study of kindergarten and preschool programs: social context of early childhood education, purposes, research basis, curriculum development, methods, and materials. Corequisite: CIED 3001, Prerequisite: CIED 1013. (Typically offered: Spring and Summer)

CIED 3013. Development and Learning Theories in the K-6 Classroom. 3 Hours.
This course allows students to cultivate an understanding of how elementary students develop, process information, and learn; studies educational applications pertaining to theories of development, intelligence, and thinking dispositions. Students study various learning theories, their implications for instruction, and their role in the K-6 classroom. Field experience required. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 3013H. Honors Development and Learning Theories in the K-6 Classroom. 3 Hours.
This course allows students to cultivate an understanding of how elementary students develop, process information, and learn; studies educational applications pertaining to theories of development, intelligence, and thinking dispositions. Students study various learning theories, their implications for instruction, and their role in the K-6 classroom. Field experience required. Prerequisite: CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)

CIED 3023. Survey of Exceptionalities. 3 Hours.
A survey of the characteristics of students with exceptional needs. Reviews the definitions of exceptionalities, learning and behavior characteristics of individuals with exceptionalities and the legal basis for the education of persons with exceptionalities in both elementary and secondary schools. Prerequisite: CIED 1013, or MUED 2012, or AGED 1123, or PSYC 2003. (Typically offered: Fall, Spring and Summer)

CIED 3023H. Honors Survey of Exceptionalities. 3 Hours.
A survey of the characteristics of students with exceptional needs. Reviews the definitions of exceptionalities, learning and behavior characteristics of individuals with exceptionalities and the legal basis for the education of persons with exceptionalities in both elementary and secondary schools. Prerequisite: Honors standing, CIED 1013, or MUED 2012, or AGED 1123, or PSYC 2003. (Typically offered: Fall, Spring and Summer)

CIED 3033. Classroom Learning Theory. 3 Hours.
A survey of the major theories of learning with special emphasis on human learning and implications for education. Field experience required. Prerequisite: CIED 1013; or MUED 2012; or PHED 1003; or AGED 1123; or PSYC 2003. (Typically offered: Fall, Spring and Summer)

CIED 3033H. Honors Classroom Learning Theory. 3 Hours.
A survey of the major theories of learning with special emphasis on human learning and implications for education. Field experience required. Prerequisite: Honors standing and (CIED 1013; or MUED 2012; or PHED 1003; or AGED 1123; or PSYC 2003). (Typically offered: Fall, Spring and Summer)

CIED 3053. The Emerging Adolescent. 3 Hours.
This course is a study of the developmental characteristics (social, emotional, physical, moral, and intellectual) of early adolescents (ages 10-15 years). The implications of these changes for motivation, instruction, learning, and classroom management in the classroom are emphasized. Course has field component. Prerequisite: CIED 1013. (Typically offered: Fall and Spring)

CIED 3083. Arts Integration in the Classroom. 3 Hours.
Content course in arts integration including the pedagogy, design, and implementation of lesson plans which teach skills through the visual and performing arts to students. (Typically offered: Fall)

CIED 3103. Children and Adolescent Literature. 3 Hours.
A survey of children's literary works, authors, and illustrators with emphasis on elementary grade and adolescent literature. Prerequisite: CHEDBS or ELELBS or HDFSBS BRKD or HDFSBS CDEV or PSPED major. (Typically offered: Fall and Spring)

CIED 3103H. Honors Children and Adolescent Literature. 3 Hours.
A survey of children's literary works, authors, and illustrators with emphasis on elementary grade and adolescent literature. Corequisite: CIED 3113. Prerequisite: CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)
This course is equivalent to CIED 3103.

CIED 3113. Emergent Literacy. 3 Hours.
An understanding of emergent literacy development through a study of science-based literacy pedagogy and practical field experiences. Prerequisite: ENGL 1013, ENGL 1023, CIED 2943 and CHEDBS or ELELBS or HDFSBS BRKD or HDFSBS CDEV or SPEDBS major. (Typically offered: Fall and Spring)

CIED 3113H. Honors Emergent Literacy. 3 Hours.
This course focuses on theories of children's emerging literacy and on the continuing development of literacy abilities in pre-kindergarten and early elementary years. Field experience required. Prerequisite: ENGL 1013, ENGL 1023, and CIED 3262, CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)
This course is equivalent to CIED 3113.

CIED 3123. Mathematics Methods in the K-6 Classroom. 3 Hours.
An examination of the content of elementary mathematics courses. Special emphasis given to methods of teaching the content as well as enrichment materials. Prerequisite: MATH 1203, MATH 2213, MATH 2223, STAT 2303, and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)
CIED 3133. Integrated Social Studies for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' development in language arts and social studies. Integrates the curriculum and teaching strategies in language arts and social studies. Prerequisite: CHEDBS or ELELBS major, and PLSC 2003 and HIST 2003 and HIST 2013, and (HIST 1113 or HIST 1123), and (GEOS 1123 or ANTH 1023), and (ECON 3053 or ECON 2143), and ARHS 1003, and MLIT 1003. (Typically offered: Fall and Spring)

CIED 3143. Teaching Science in the Elementary Grades. 3 Hours.
Study of the methods and materials in teaching science. Classroom applications of teaching strategies with analysis of teacher effectiveness in seminar settings are emphasized. Prerequisite: (BIOL 1543 and BIOL 1541L), and (GEOS 1113 and GEOS 1111L), and (PHYS 1034 or ASTR 2003 and ASTR 2001L), and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 3262. Language Development for the Educator. 2 Hours.
Nature of speech-language development in preschool and school-aged children, including cognitive prerequisites, social contexts, and relationships between language acquisition and literacy. Language differences (dialectal, bilingual) and speech-language disorders are explored. The role of the educator in facilitating language acquisition is emphasized. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 3453. Developmental Literacy, 3 Hours.
A deep and comprehensive application of the development of literacy skills from decoding to fluent, comprehending readers. Field experience required. Prerequisite: CIED 2943, CIED 3113, and admission into ELELBS or CHEDBS programs. (Typically offered: Fall and Spring)

CIED 3453H. Honors Developmental Literacy, 3 Hours.
A deep and comprehensive application of the development of literacy skills from decoding to fluent, comprehending readers. Field experience required. Prerequisite: CIED 2943, CIED 3113, admission into ELELBS or CHEDBS programs, and honors standing. (Typically offered: Fall and Spring)

CIED 3901H. Honors Curriculum and Instruction Education Thesis Tutorial. 1 Hour.
Designed to provide the foundation for the Honors Thesis. Students and faculty tutors work 'one-on-one' exploring a specific topic which has been agreed upon by the student and the professor. Prerequisite: Honors candidacy and CATEBS, CHEDBS, EDSTBS, EGEDBA, ELELBS, FREDBA, GREDBA, SNEDBA, SPEDBS, or SSEDBA majors. (Typically offered: Fall, Spring and Summer)

CIED 4003. Elementary Seminar. 3 Hours.
This course is designed to synthesize the foundational content presented in the Bachelor of Science in Education, Elementary Education program. It focuses on refinement of generalized knowledge to accommodate specialized content relevant to elementary students. Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4013. Capstone Course for Foreign Language Licensure. 3 Hours.
This course is designed to identify and provide evidence of content language specific proficiencies in the four skills of reading, writing, listening, and speaking a foreign language. (Typically offered: Spring)

CIED 4023. Teaching in Inclusive Secondary Settings. 3 Hours.
This course is designed to prepare pre-service teachers to teach in inclusive classroom settings at the secondary level. Course content will focus on the ways in which exceptionality, specifically focused on high-incidence disabilities and culture, specifically focused on English language learners mediate the learning experiences of secondary level students. (Typically offered: Summer)

CIED 4083. Creativity in Daily Practice. 3 Hours.
Arts integration course including the ideas, design, and implementation of practices in the classroom, board room, and professional field that enrich the experiences of all stakeholders while building right-brain thinking skills for the new millennium. (Typically offered: Spring Even Years) May be repeated for up to 6 hours of degree credit.

CIED 4101. Practicum. 1 Hour.
Practicum. Corequisite: CIED 3133. (Typically offered: Spring)

CIED 4113. Integrated Communication Skills for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' literacy development. Emphasis is on the integration of the communication skills of reading, writing, speaking, and listening across the curriculum. Prerequisite: COMM 1313 or COMM 2323 and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4113H. Honors Integrated Communication Skills for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' literacy development. Emphasis is on the integration of the communication skills of reading, writing, speaking, and listening across the curriculum. Prerequisite: COMM 1313 or COMM 2323 and CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)

This course is equivalent to CIED 4113.

CIED 4123. Literacy Assessment and Interventions in the Elementary Classroom. 3 Hours.
An undergraduate course focusing on literacy assessment and intervention for prospective classroom teachers. Participants become familiar with assessment procedures and instruments for identifying student strengths and weaknesses in literacy, determining effective intervention strategies for literacy improvement, and principles of reporting assessment and intervention outcomes. Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4131. Practicum for Secondary and Multilevel Tracks in Education. 1 Hour.
This practicum is a requirement for entry into the EDUC MA, Master of Arts in Teaching program. Students will be involved in documented experiences with children for a minimum of 60 hours in grades K-12. Students enrolled in the multilevel track will be placed in a combination of elementary, middle, and high school settings. Students enrolled in the secondary track will be placed in a combination of middle and high school settings. Prerequisite: Cleared background check. (Typically offered: Spring and Summer)

CIED 4133. Measurement and Research in the K-6 Classroom. 3 Hours.
This course is designed to provide an introduction to educational assessment, research methods, and what research has to say about trends and topics in elementary education. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Summer)

CIED 4143. Curriculum Design and Applications of Instructional Practice. 3 Hours.
A course in the design and adaptation of curriculum for students in regular, elementary classrooms. Theoretical bases and curriculum models will be reviewed. Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Spring)

CIED 4153. Classroom Management in the Elementary Grades. 3 Hours.
This course focuses on a number of different management techniques for elementary classrooms that can be used in general education settings. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4163. Senior Project. 3 Hours.
This course is designed to provide students with the research skills necessary to complete their senior project. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Summer)
CIED 4173. Student Teaching. 3 Hours.
Full-time student teaching in grades K-6 to be repeated both fall and spring
semesters. Students will practice and master instructional strategies under
the supervision of qualified mentor teachers and university faculty members.
Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring) May be
repeated for up to 6 hours of degree credit.

CIED 4183. Instruction and Assessment of Writing. 3 Hours.
Develop knowledge, skills and dispositions about writing processes, genres,
and pedagogy. Field experience required. Prerequisite: CIED 2943, CIED 3113,
CIED 3453, and admission into CHEDBS or ELELBS programs. (Typically offered:
Fall and Spring)

CIED 4286. Teaching Experience. 6 Hours.
The teaching experience is an essential component of the Bachelor of Arts in
Teaching degree. The two semester experience allows Teacher Candidates (TC)
to make further application of theoretical principles of teaching and learning.
Teacher Candidates will be assigned placement in area schools for both fall
and spring semesters. Teacher candidates are placed in K-12 or 7-12 levels
depending on their content area for licensure. The fall semester consists of a
field experience including observation, co-planning, and co-teaching. The spring
semester consists of an immersion experience for teacher candidates to plan and
teach independently. Prerequisite: Admission to the B.A.T. program. (Typically offered:
Spring) May be repeated for up to 12 hours of degree credit.

CIED 4323. Instructional Design for Teachers. 3 Hours.
Study of the design of instruction for students with exceptionalities. Emphasis is
placed on synthesizing a broad range of existing and emerging perspectives
and methods of instruction and applying them to practical classroom practice.
Prerequisite: CIED 3023 and CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4363. Disciplinary Literacy in the K-6 Classroom. 3 Hours.
Focuses on the methodology of extending K-6 learners’ basic literacy development,
as a foundation for intermediate and disciplinary literacy. Emphasis is on the
engagement of students in the distinct reading, writing, speaking, and listening
requirements of different disciplines. Prerequisite: CIED 3113 and CHEDBS or
ELELBS major. (Typically offered: Fall and Spring)

CIED 4403. Understanding Cultures in the Classroom. 3 Hours.
This course provides pre-and in-service teachers knowledge and skills necessary
for educating ethnically and linguistically diverse classrooms. Students have the
opportunity to understand positive relationships while removing stereotypes and
prejudices. It addresses issues for social justice education through understanding
ways that children learn and communicate in their homes and communities.
Students will examine how topics in multicultural education inform instructional
goals, curriculum planning/implementation, and teaching practices across content
areas in public K-12 classrooms. Some sections of this course will contain a service
learning component. (Typically offered: Fall)

CIED 4413. Acquiring a Second Language. 3 Hours.
The course gives an introduction to the basics in research and learning theories
involved in the acquisition of second languages and cultures, particularly of English.
(Typically offered: Spring)

CIED 4423. Teaching English as a Second Language. 3 Hours.
This course is designed to provide teacher candidates with the basic knowledge
and teaching skills necessary to address the linguistic needs of English language
learners (ELLs) in regular classrooms. The students in this class will learn about and
use multiple strategies for promoting ELLs’ reading, writing, listening, and speaking
skills. Emphasis will be placed especially on differentiating early reading instruction
for ELLs. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Spring)

CIED 4433. The Moral Mind in Action. 3 Hours.
The Moral Mind in Action explores how people reason through moral dilemmas and
prepares students to more effectively recognize and resolve moral problems. Best
practices of teachers and administrators of K-16 character education programs are
discussed. (Typically offered: Fall)

CIED 4443. Moral Courage. 3 Hours.
Moral Courage explores the factors that support translating moral thinking into moral
action. This course draws from the field of positive psychology to guide students as
they leverage existing strengths and develop new strategies for acting with moral
courage in their personal and professional lives. Best practices of teachers and
administrators of K-16 character education programs are discussed. (Typically offered: Spring)

CIED 4463. Culture and Learning. 3 Hours.
Culture, its meanings, dimensions, and manifestations are explored in this course.
How these cultural elements impact perceptions of students, classroom practices,
and educational processes are explored in this course. A strength-based approach
is employed to explore the issues associated with including all students within
classrooms. (Typically offered: Fall, Spring and Summer)

CIED 4503H. Honors Charles Darwin and the Legacy of Evolution. 3 Hours.
This highly integrated honors class draws on various perspectives to examine the
life of Charles Darwin and the legacy and impact of evolution. Topics and guest
instructors change each semester, but the course will focus on evolution from the
perspectives of biology, anthropology, the law, philosophy, history, culture and
literature. (Typically offered: Spring Even Years)

CIED 4513. Teaching Children with Mild Disabilities. 3 Hours.
This course is a study of the characteristics of young students with disabilities and
methods for teaching this group of students. The course will provide future teachers
with an understanding of interventions useful in teaching individuals with special
learning needs during grades P-4. (Typically offered: Fall and Spring)

CIED 4523H. Honors Teaching Children with Severe Disabilities. 3 Hours.
This course is a study of the characteristics of young students with severe disabilities
and methods for teaching this group of students. The course will provide future
teachers with an understanding of interventions useful in teaching individuals with
special learning needs during grades P-4. (Typically offered: Spring and Summer)

CIED 4533. Reading Comprehension Through Children’s and Adolescent
Literature. 3 Hours.
An examination of the major genres of children and adolescent literature to develop
and extend K-6 students’ skills in reading comprehension. Field experience required.
Prerequisite: CIED 2943, CIED 3113, CIED 3453, and admission into CHEDBS or
ELELBS programs. (Typically offered: Fall and Spring)

CIED 498VH. Curriculum and Instruction Honors Thesis/Project. 1-3 Hour.
Designed to provide facilitation of the Honors Thesis/Project. Students and faculty
work ‘one-on-one’ to complete the honors thesis/project. Prerequisite: Honors
candidacy, CIED 3901H, and CATEBS, CHEDBS, EDSTBS, EGEDBA, ELELBS,
FREDBA, GREDBA, SNEDBA, SPEDBS, or SSEDBA major. (Typically offered: Fall,
Spring and Summer) May be repeated for up to 3 hours of degree credit.

CIED 499VH. Special Topics in Curriculum and Instruction Education. 1-6 Hour.
Discussion and advanced studies on selected topics in curriculum and instruction.
Special focus on recent and emerging topics in education. (Typically offered: Fall,
Spring and Summer) May be repeated for up to 18 hours of degree credit.

CIED 499VH. Honors Special Topics in Curriculum and Instruction Education.
1-3 Hour.
Discussion and advanced studies on selected topics in curriculum and instruction.
Special focus on recent and emerging topics in education. (Typically offered: Fall,
Spring and Summer)

This course is equivalent to CIED 499V.

Curriculum and Instruction Website (https://cied.uark.edu/)

The Department of Curriculum and Instruction offers a Bachelor of Arts in Teaching in German Education that leads to licensure for K-12 instruction. The program focuses on developing reflective practitioners based on the constructivist perspective that teachers are life-long learners, reflective practitioners themselves, and scholar researchers. The coursework is designed to develop these attributes so that students graduate as effective teachers with the knowledge, skills, and dispositions to engage students with meaningful and authentic instruction. The Bachelor of Arts in Teaching degree will also prepare students in the humanities with the pedagogical skills, the content knowledge, and the dispositions for teaching and learning in 21st century classrooms.

B.A.T. in German Education
Stage I: Pre-Admission German Education

Complete all 46 hours of program pre-requisites for each content area.

1. Obtain a GPA of 3.0 or better on UA coursework.
2. Complete all content and pedagogy courses with a grade of 'C' or better.
3. Obtain a passing score on the Math, Reading, and Writing sections of the Praxis Core or ACT/SAT/GRE as defined by the Arkansas Department of Education.
4. Complete a background check.

Stage II: Admission to the B.A.T. program

Admission to the Bachelor of Arts in Teaching program (B.A.T.) occurs the semester after the candidate has completed all pre-B.A.T. requirements including the first three courses in education — CIED 1013, CIED 1003, and CIED 2173 — prior to a student entering the individual program of study the following fall term. The B.A.T. program is competitive, and meeting the minimum requirements does not guarantee admission to the program. Applications to the B.A.T. program must be submitted by January 30.

The application process includes:

1. Students must complete the application to teacher education (see the Teacher Education Application Fee (p. 72)) through the Teacher Education Office during spring semester of sophomore year. This includes completing and passing the criminal background check* and also passing Praxis Core academic subjects test or equivalent tests by meeting or exceeding the Arkansas Department of Education cut-off scores.
2. Submission of B.A.T. application.
3. Submission of writing sample to content area faculty.
4. Submission of transcripts for all coursework.

Stage III: Requirements for Program Continuation and Internship

1. Maintain a cumulative GPA of 3.0 or better.
2. All professional education courses and content courses must have a grade of 'C' or better (except SEED 3282 below). No teaching methods courses may be taken as self-paced (correspondence) courses.

Stage IV: Requirements for Internship Semester (spring, senior year) and Program Completion

All students in the B.A.T. program must complete the following requirements prior to being admitted to the spring semester of their senior year.

1. Students must earn a 'B' or better in the fall semester, senior year SEED 3282 practicum course.
2. Earn a cumulative GPA of 3.0 or better by the end of the fall semester, senior year. Students are not permitted to intern in the spring if the cGPA requirement is not met.
3. Students must have taken the appropriate Praxis II-Content Knowledge exam to be admitted to the spring semester, senior year.
4. Candidate must complete a successful internship admission interview with B.A.T. faculty. Note these interviews are scheduled with all senior students during the fall semester.
5. Satisfactorily complete the internship/student teaching experience that has been approved by the Director of Field Placement.

All students seeking licensure in the State of Arkansas are subject to a criminal background check. Background checks can take up to six months to process; therefore, students are advised to complete and submit the forms to the proper authorities at least six months in advance of graduation (or six months prior to applying for a teaching license). Arkansas will not grant a teaching license to anyone who has been convicted of a felony.

Total Units in Sequence: 120

1 Only 6 hours GERM 470V allowed for degree credit.

Courses

CIED 1003. Introduction to Technology in Education. 3 Hours.
A study of computer technology as it relates to teacher education. This course introduces students interested in teacher education to the knowledge and skills required to demonstrate their proficiency in technology and learning. (Typically offered: Fall, Spring and Summer)

CIED 1013. Introduction to Education. 3 Hours.
Integrates psychological, sociological, and philosophical foundations of education with concurrent involvement in field experiences. Encourages prospective teachers to become reflective practitioners by emphasizing organization of school systems, planning and implementation of effective classroom environments, development of teaching styles, and new directions in education. An 18-hour early field experience designed to give prospective teachers opportunities to observe and participate in a variety of school settings is incorporated in this introductory course to education. (Typically offered: Fall and Spring)

CIED 2173. Literacy in America. 3 Hours.
A course that examines the myriad definitions of literacy (and illiteracy) and their connections to issues of social class, occupational status, economic and political structures, educational institutions, cultural organizations, and the media. (Typically offered: Fall and Spring)

CIED 2943. Foundations of Language and Literacy. 3 Hours.
A foundational study of language and literacy with an emphasis on content knowledge for teachers that is essential to the components and principles of science-based literacy. (Typically offered: Fall and Spring)

CIED 3001. Early Childhood Education Practicum. 1 Hour.
This practicum course provides opportunities for students to observe and practice providing instruction and guidance in preschool settings. Corequisite: CIED 3003. (Typically offered: Fall, Spring and Summer)

CIED 3003. Early Childhood Education. 3 Hours.
The study of kindergarten and preschool programs: social context of early childhood education, purposes, research basis, curriculum development, methods, and materials. Corequisite: CIED 3001. Prerequisite: CIED 1013. (Typically offered: Spring and Summer)

CIED 3013. Development and Learning Theories in the K-6 Classroom. 3 Hours.
This course allows students to cultivate an understanding of how elementary students develop, process information, and learn; studies educational applications pertaining to theories of development, intelligence, and thinking dispositions. Students study various learning theories, their implications for instruction, and their role in the K-6 classroom. Field experience required. Prerequisite: CIED 1013, or MUED 2012, or AGED 1123, or PSYC 2003. (Typically offered: Fall and Spring)

CIED 3023H. Honors Development and Learning Theories in the K-6 Classroom. 3 Hours.
A survey of the characteristics of students with exceptional needs. Reviews the definitions of exceptionalities, learning and behavior characteristics of individuals with exceptionalities and the legal basis for the education of persons with exceptionalities in both elementary and secondary schools. Prerequisite: CIED 1013, or MUED 2012, or AGED 1123, or PSYC 2003. (Typically offered: Fall, Spring and Summer)

CIED 3023H. Survey of Exceptionalities. 3 Hours.
A survey of the characteristics of students with exceptional needs. Reviews the definitions of exceptionalities, learning and behavior characteristics of individuals with exceptionalities and the legal basis for the education of persons with exceptionalities in both elementary and secondary schools. Prerequisite: Honors standing, CIED 1013, or MUED 2012, or AGED 1123, or PSYC 2003. (Typically offered: Fall, Spring and Summer)

CIED 3033. Classroom Learning Theory. 3 Hours.
A survey of the major theories of learning with special emphasis on human learning and implications for education. Field experience required. Prerequisite: CIED 1013; or MUED 2012; or PHED 1003; or AGED 1123; or PSYC 2003. (Typically offered: Fall, Spring and Summer)

CIED 3033H. Honors Classroom Learning Theory. 3 Hours.
A survey of the major theories of learning with special emphasis on human learning and implications for education. Field experience required. Prerequisite: Honors standing and (CIED 1013; or MUED 2012; or PHED 1003; or AGED 1123; or PSYC 2003). (Typically offered: Fall, Spring and Summer)

CIED 3053. The Emerging Adolescent. 3 Hours.
This course is a study of the developmental characteristics (social, emotional, physical, moral, and intellectual) of early adolescents (ages 10-15 years). The implications of these changes for motivation, instruction, learning, and classroom management in the classroom are emphasized. Course has field component. Prerequisite: CIED 1013. (Typically offered: Fall and Spring)

CIED 3083. Arts Integration in the Classroom. 3 Hours.
Content course in arts integration including the pedagogy, design, and implementation of lesson plans which teach skills through the visual and performing arts to students. (Typically offered: Fall)

CIED 3103. Children and Adolescent Literature. 3 Hours.
A survey of children's literary works, authors, and illustrators with emphasis on elementary grade and adolescent literature. Prerequisite: CIEDBS or ELELBS or HDFSBS BRKD or HDFSBS CDEV or SPED major. (Typically offered: Fall and Spring)

CIED 3103H. Honors Children and Adolescent Literature. 3 Hours.
A survey of children's literary works, authors, and illustrators with emphasis on elementary grade and adolescent literature. Corequisite: CIED 3113. Prerequisite: CIEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)

CIED 3113. Emergent Literacy. 3 Hours.
An understanding of emergent literacy development through a study of science-based literacy pedagogy and practical field experiences. Prerequisite: ENGL 1013, ENGL 1023, CIED 2943 and CIEDBS or ELELBS or HDFSBS BRKD or HDFSBS CDEV or SPED major. (Typically offered: Fall and Spring)

CIED 3113H. Honors Emergent Literacy. 3 Hours.
This course focuses on theories of children's emerging literacy and on the continuing development of literacy abilities in pre-kindergarten and early elementary years. Field experience required. Prerequisite: ENGL 1013, ENGL 1023, and CIED 3262, CIEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)
CIED 3123. Mathematics Methods in the K-6 Classroom. 3 Hours.
An examination of the content of elementary mathematics courses. Special emphasis given to methods of teaching the content as well as enrichment materials. Prerequisite: MATH 1203, MATH 2213, MATH 2223, STAT 2303, and CIEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 3133. Integrated Social Studies for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' development in language arts and social studies. Integrates the curriculum and teaching strategies in language arts and social studies. Prerequisite: CIEDBS or ELELBS major, and PLSC 2003 and HIST 2003 and HIST 2013, and (HIST 1113 or HIST 1123), and (GEOS 1123 or ANTH 1023), and (ECON 3053 or ECON 2143), and ARHS 1003, and MLIT 1003. (Typically offered: Fall and Spring)

CIED 3143. Teaching Science in the Elementary Grades. 3 Hours.
Study of the methods and materials in teaching science. Classroom applications of teaching strategies with analysis of teacher effectiveness in seminar settings are emphasized. Prerequisite: (BIOL 1543 and BIOL 1541L), and (GEOS 1113 and GEOS 1111L), and (PHYS 1034 or ASTR 2003 and ASTR 2001L), and (ECON 3053 or ECON 2143), and CIEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 3262. Language Development for the Educator. 2 Hours.
Nature of speech-language development in preschool and school-aged children, including cognitive prerequisites, social contexts, and relationships between language acquisition and literacy. Language differences (dialectal, bilingual) and speech-language disorders are explored. The role of the educator in facilitating language acquisition is emphasized. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 3453. Developmental Literacy, 3 Hours.
A deep and comprehensive application of the development of literacy skills from decoding to fluent, comprehending readers. Field experience required. Prerequisite: CIED 2943, CIED 3113, and admission into ELELBS or CIEDBS programs. (Typically offered: Fall and Spring)

CIED 3453H. Honors Developmental Literacy, 3 Hours.
A deep and comprehensive application of the development of literacy skills from decoding to fluent, comprehending readers. Field experience required. Prerequisite: CIED 2943, CIED 3113, admission into ELELBS or CIEDBS programs, and honors standing. (Typically offered: Fall and Spring)

CIED 3901H. Honors Curriculum and Instruction Education Thesis Tutorial. 1 Hour.
Designed to provide the foundation for the Honors Thesis. Students and faculty tutors work 'one-on-one' exploring a specific topic which has been agreed upon by the student and the professor. Prerequisite: Honors candidacy and CATEBS, CIEDBS, EDSTBS, EGEDBA, ELELBS, FREDBA, GREDBA, SNEDBA, SGEDBS, or SSEDBA majors. (Typically offered: Fall, Spring and Summer)

CIED 4003. Elementary Seminar. 3 Hours.
This course is designed to synthesize the foundational content presented in the Bachelor of Science in Education, Elementary Education program. It focuses on refinement of generalized knowledge to accommodate specialized content relevant to elementary students. Corequisite: CIED 4173. Prerequisite: CIEDBS or ELELBS major. (Typically offered: Fall)

CIED 4013. Capstone Course for Foreign Language Licensure. 3 Hours.
This course is designed to identify and provide evidence of content language specific proficiencies in the four skills of reading, writing, listening, and speaking a foreign language. (Typically offered: Spring)

CIED 4023. Teaching in Inclusive Secondary Settings. 3 Hours.
This course is designed to prepare pre-service teachers to teach in inclusive classroom settings at the secondary level. Course content will focus on the ways in which exceptionally, specifically focused on high-incidence disabilities and culture, specifically focused on English language learners mediate the learning experiences of secondary level students. (Typically offered: Summer)

CIED 4083. Creativity in Daily Practice. 3 Hours.
Arts integration course including the ideas, design, and implementation of practices in the classroom, board room, and professional field that enrich the experiences of all stakeholders while building right-brain thinking skills for the new millennium. (Typically offered: Spring Even Years) May be repeated for up to 6 hours of degree credit.

CIED 4101. Practicum. 1 Hour.
Practicum. Corequisite: CIED 3133. (Typically offered: Spring)

CIED 4113. Integrated Communication Skills for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' literacy development. Emphasis is on the integration of the communication skills of reading, writing, speaking, and listening across the curriculum. Prerequisite: COMM 1313 or COMM 2323 and CIEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4113H. Honors Integrated Communication Skills for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' literacy development. Emphasis is on the integration of the communication skills of reading, writing, speaking, and listening across the curriculum. Prerequisite: COMM 1313 or COMM 2323 and CIEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)

This course is equivalent to CIED 4113.

CIED 4123. Literacy Assessment and Interventions in the Elementary Classroom. 3 Hours.
An undergraduate course focusing on literacy assessment and intervention for prospective classroom teachers. Participants become familiar with assessment procedures and instruments for identifying student strengths and weaknesses in literacy, determining effective intervention strategies for literacy improvement, and principles of reporting assessment and intervention outcomes. Corequisite: CIED 4173. Prerequisite: CIEDBS or ELELBS major. (Typically offered: Fall)

CIED 4131. Practicum for Secondary and Multilevel Tracks in Education. 1 Hour.
This practicum is a requirement for entry into the EDUC MA, Master of Arts in Teaching program. Students will be involved in documented experiences with children for a minimum of 60 hours in grades K-12. Students enrolled in the multilevel track will be placed in a combination of elementary, middle, and high school settings. Students enrolled in the secondary track will be placed in a combination of middle and high school settings. Prerequisite: Cleared background check. (Typically offered: Spring and Summer)

CIED 4133. Measurement and Research in the K-6 Classroom. 3 Hours.
This course is designed to provide an introduction to educational assessment, research methods, and what research has to say about trends and topics in elementary education. Prerequisite: CIEDBS or ELELBS major. (Typically offered: Summer)

CIED 4143. Curriculum Design and Applications of Instructional Practice. 3 Hours.
A course in the design and adaptation of curriculum for students in regular, elementary classrooms. Theoretical bases and curriculum models will be reviewed. Corequisite: CIED 4173. Prerequisite: CIEDBS or ELELBS major. (Typically offered: Spring)

CIED 4153. Classroom Management in the Elementary Grades. 3 Hours.
This course focuses on a number of different management techniques for elementary classrooms that can be used in general education settings. Prerequisite: CIEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4163. Senior Project. 3 Hours.
This course is designed to provide students with the research skills necessary to complete their senior project. Prerequisite: CIEDBS or ELELBS major. (Typically offered: Summer)
CIED 4173. Student Teaching. 3 Hours.
Full-time student teaching in grades K-6 to be repeated both fall and spring semesters. Students will practice and master instructional strategies under the supervision of qualified mentor teachers and university faculty members. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

CIED 4183. Instruction and Assessment of Writing. 3 Hours.
Develop knowledge, skills and dispositions about writing processes, genres, and pedagogy. Field experience required. Prerequisite: CIED 2943, CIED 3113, CIED 3453, and admission into CHEDBS or ELELBS programs. (Typically offered: Fall and Spring)

CIED 4286. Teaching Experience. 6 Hours.
The teaching experience is an essential component of the Bachelor of Arts in Teaching degree. The two semester experience allows Teacher Candidates (TC) to make further application of theoretical principles of teaching and learning. Teacher Candidates will be assigned placement in area schools for both fall and spring semesters. Teacher candidates are placed in K-12 or 7-12 levels depending on their content area for licensure. The fall semester consists of a field experience including observation, co-planning, and co-teaching. The spring semester consists of an immersion experience for teacher candidates to plan and teach independently. Prerequisite: Admission to the B.A.T. program. (Typically offered: Spring) May be repeated for up to 12 hours of degree credit.

CIED 4323. Instructional Design for Teachers. 3 Hours.
Study of the design of instruction for students with exceptionalities. Emphasis is placed on synthesizing a broad range of existing and emerging perspectives and methods of instruction and applying them to practical classroom practice. Prerequisite: CIED 3023 and CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4363. Disciplinary Literacy in the K-6 Classroom. 3 Hours.
Focuses on the methodology of extending K-6 learners' basic literacy development, as a foundation for intermediate and disciplinary literacy. Emphasis is on the engagement of students in the distinct reading, writing, speaking, and listening requirements of different disciplines. Prerequisite: CIED 3113 and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4403. Understanding Cultures in the Classroom. 3 Hours.
This course provides pre-and in-service teachers knowledge and skills necessary for educating ethnically and linguistically diverse classrooms. Students have the opportunity to understand positive relationships while removing stereotypes and prejudices. It addresses issues for social justice education through understanding ways that children learn and communicate in their homes and communities. Students will examine how topics in multicultural education inform instructional goals, curriculum planning/implementation, and teaching practices across content areas in public K-12 classrooms. Some sections of this course will contain a service learning component. (Typically offered: Fall)

CIED 4413. Acquiring a Second Language. 3 Hours.
The course gives an introduction to the basics in research and learning theories involved in the acquisition of second languages and cultures, particularly of English. (Typically offered: Spring)

CIED 4423. Teaching English as a Second Language. 3 Hours.
This course is designed to provide teacher candidates with the basic knowledge and teaching skills necessary to address the linguistic needs of English language learners (ELLs) in regular classrooms. The students in this class will learn about and use multiple strategies for promoting ELLs' reading, writing, listening, and speaking skills. Emphasis will be placed especially on differentiating early reading instruction for ELLs. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Spring)

CIED 4433. The Moral Mind in Action. 3 Hours.
The Moral Mind in Action explores how people reason through moral dilemmas and prepares students to more effectively recognize and resolve moral problems. Best practices of teachers and administrators of K-16 character education programs are discussed. (Typically offered: Fall)

CIED 4443. Moral Courage. 3 Hours.
Moral Courage explores the factors that support translating moral thinking into moral action. This course draws from the field of positive psychology to guide students as they leverage existing strengths and develop new strategies for acting with moral courage in their personal and professional lives. Best practices of teachers and administrators of K-16 character education programs are discussed. (Typically offered: Spring)

CIED 4463. Culture and Learning. 3 Hours.
Culture, its meanings, dimensions, and manifestations are explored in this course. How these cultural elements impact perceptions of students, classroom practices, and educational processes are explored in this course. A strength-based approach is employed to explore the issues associated with including all students within classrooms. (Typically offered: Fall, Spring and Summer)

CIED 4503H. Honors Charles Darwin and the Legacy of Evolution. 3 Hours.
This highly integrated honors class draws on various perspectives to examine the life of Charles Darwin and the legacy and impact of evolution. Topics and guest instructors change each semester, but the course will focus on evolution from the perspectives of biology, anthropology, the law, philosophy, history, culture and literature. (Typically offered: Spring Even Years)

CIED 4513. Teaching Children with Mild Disabilities. 3 Hours.
This course is a study of the characteristics of young students with disabilities and methods for teaching this group of students. The course will provide future teachers with an understanding of interventions useful in teaching individuals with special learning needs during grades P-4. (Typically offered: Fall and Spring)

CIED 4523H. Honors Teaching Children with Severe Disabilities. 3 Hours.
This course is a study of the characteristics of young students with severe disabilities and methods for teaching this group of students. The course will provide future teachers with an understanding of interventions useful in teaching individuals with special learning needs during grades P-4. (Typically offered: Spring and Summer)

CIED 4533. Reading Comprehension Through Children's and Adolescent Literature. 3 Hours.
An examination of the major genres of children and adolescent literature to develop and extend K-6 students' skills in reading comprehension. Field experience required. Prerequisite: CIED 2943, CIED 3113, CIED 3453, and admission into CHEDBS or ELELBS programs. (Typically offered: Fall and Spring)

CIED 498VH. Curriculum and Instruction Honors Thesis/Project. 1-3 Hour.
Designed to provide facilitation of the Honors Thesis/Project. Students and faculty work ‘one-on-one’ to complete the honors thesis/project. Prerequisite: Honors candidacy, CIED 3901H, CATEBS, CHEDBS, EDSTBS, EGEDBA, ELELBS, FREDBA, GREDBA, SNEDBA, SPEDBS, or SSEDBA major. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

CIED 499V. Special Topics in Curriculum and Instruction Education. 1-6 Hour.
Discussion and advanced studies on selected topics in curriculum and instruction. Special focus on recent and emerging topics in education. (Typically offered: Fall, Spring and Summer) May be repeated for up to 18 hours of degree credit.

CIED 499VH. Honors Special Topics in Curriculum and Instruction Education. 1-3 Hour.
Discussion and advanced studies on selected topics in curriculum and instruction. Special focus on recent and emerging topics in education. (Typically offered: Fall, Spring and Summer)
This course is equivalent to CIED 499V.
Health, Human Performance and Recreation (HHPR)

p callee@uark.edu

Health, Human Performance and Recreation website (http://hhpr.uark.edu/)

The department offers programs leading to the B.S. degree with majors in exercise science (p. 738), public health (p. 753), or recreation and sport management (p. 757), and teaching K-12 physical education and health (p. 777). The department also offers coursework in dance activity (p. 710).

Bonacci, Jeff, D.A. (Middle Tennessee State University), M.S. (West Virginia University), B.S. (University of Akron), Clinical Associate Professor, 2000.

Calleja, Paul C., Ph.D., M.S. (University of Arkansas), B.S. (San Jose State University), Clinical Professor, 2003.

Davis, Robert, Ph.D., M.S., B.S. (University of Mississippi), Assistant Professor, 2018.

DiBrezzo, Rosalie, Ph.D. (Texas Woman’s University), M.S. (Indiana University), B.S. (Brooklyn College), University Professor, 1983.

Dittmored, Stephen W., Ph.D. (University of Louisville), M.A., B.A. (Drake University), Professor, 2008.

Dobbs, Page, Ph.D., M.S., B.S. (University of Arkansas), Assistant Professor, 2020.

Edmonston, Craig, M.S. (University of Kansas), B.S. (Kansas State University), Assistant, 2016.

Elbin, R. J., Ph.D. (Michigan State University), M.A., B.A. (University of New Orleans), Associate Professor, 2013.

Forbes, Janet B., M.Ed. (University of Florida), B.S.E. (Georgia Southern College), Instructor, 1978.

Gallagher, Kaitlin, Ph.D., B.Sc. (University of Waterloo, Canada), Assistant Professor, 2015.

Ganio, Matthew Stueck, Ph.D. (University of Connecticut), M.S., B.S. (University of Georgia), Professor, 2011.

Gorman, Dean Richard, Ph.D. (University of Kansas), M.S., B.A. (Arizona State University), Professor, 1979.

Gray, Michelle, Ph.D. (University of Arkansas), M.S. (Ball State University), B.S. (University of Tennessee, Chattanooga), Associate Professor, 2010.

Greene, Nicholas P., Ph.D. (Texas A&M University), M.S., B.S. (University of South Carolina), Associate Professor, 2013.

Hammig, Bart, Ph.D. (University of Kansas), M.P.H. (University of Kansas Medical Center), B.S. (University of Kansas), Professor, 2008.

Henry, Leah Jean, Ph.D. (Texas Woman’s University), M.A. (Michigan State University), B.S. (Texas A&M University), Associate Professor, 2008.

Howie, Erin, Ph.D. (University of South Carolina), B.S. (University of Maryland), Assistant Professor, 2016.

Jones, Ches, Ph.D. (University of Alabama at Birmingham), B.S.E. (Pittsburg State University), Professor, 1994.

Jozkowski, Kristen N., Ph.D., M.S. (Indiana University at Bloomington), B.S. (Pennsylvania State University), Associate Professor, 2011.

Kern, Jack C., Ph.D. (Texas Woman’s University), M.Ed. (Texas State University-San Marcos), B.S. (University of Wisconsin-LaCrosse), Clinical Professor, 1996.

Langsner, Steve, Ph.D. (Indiana University at Bloomington), M.S. (University at Baltimore), B.S. (Springfield College), Associate Professor, 1989.

Lens, Joshua, J.D. (University of Iowa), B.A. (University of Northern Iowa), Clinical Assistant Professor, 2018.

Lirgg, Cathy D., Ph.D. (Michigan State University), M.S. (Indiana State University), B.A. (Muskington College), Professor, 1991.

McDermott, Brendon P., Ph.D. (University of Connecticut), M.S. (Indiana University at Bloomington), B.S. (University of North Carolina), Associate Professor, 2012.

Moiseichik, Merry Lynn, J.D. (University of Arkansas), R.Ed. (Indiana University at Bloomington), M.S., B.S.E. (State University of New York at Cortland), Professor, 1989.

Ralph, Christy, M.A. (University of Arkansas), Instructor, 2019.

Russell, Alex, Ph.D. (Texas A & M University), M.A. (University of Houston), B.S. (University of Houston), Assistant Professor, 2020.

Schmitt, Abigail, Ph.D. (University of Florida), M.S. (University of Northern Colorado), B.S. (University of North Carolina), Assistant Professor, 2020.

Schmitt, Craig, Ph.D. (University of Northern Colorado), MBA (University of Central Florida), B.S. (University of Florida), Clinical Assistant Professor, 2020.

Smith-Nix, Angela, Ph.D. (University of Arkansas), M.Ed., B.S.E. (Arkansas State University), Clinical Assistant Professor, 1989.

Sullivan, Amanda Lynn, Ph.D., M.A.T., B.S.E. (University of Arkansas), Clinical Associate Professor, 2010.

Vandermark, Lesley, Ph.D., M.S. (University of Connecticut), B.S. (California University of Pennsylvania), Clinical Assistant Professor, 2016.

Washington, Tyrone A., Ph.D., B.S. (University of South Carolina at Columbia), Associate Professor, 2011.

Human Resource and Workforce Development Education (HRWD)

Academic Adviser, Undergraduate HRWD
106 Graduate Education Building
479-575-4690
hrwd@uark.edu

The undergraduate Human Resource and Workforce Development Education (HRWD) program is specifically designed for adults who want to complete a bachelor’s degree that opens doors to opportunity and personal growth. HRWD curriculum prepares individuals to apply integrated training, organizational development, and career planning and counseling skills to the design, management, and evaluation of programs to improve individual productivity, employability, job satisfaction, and organizational effectiveness. Undergraduates also obtain a solid academic base to pursue a graduate degree. This major does not lead to traditional licensure for teachers in Arkansas.

All students start the program as pre-HRWD majors. To be admitted into the HRWD major, the students must meet the following criteria:

1. Have three or more years of full-time work experience or equivalent.
2. Complete all 35 hours of university core courses, including the Pre-HRWD requirement:

Math course chosen from:
- MATH 1313 Quantitative Reasoning (ACTS Equivalency = MATH 1113)
- MATH 2053 Finite Mathematics
- MATH 2183 Mathematical Reasoning in a Quantitative World
- STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103)

Economics course or courses chosen from:
- ECON 2143 Basic Economics: Theory and Practice
- ECON 2013 Principles of Macroeconomics (ACTS Equivalency = ECON 2103)
- & ECON 2023 and Principles of Microeconomics (ACTS Equivalency = ECON 2203)

Up to 19 credit hours of electives can include technical credit that can be obtained through experiential learning credits and/or faculty approved courses. ¹

Suggested HRWD electives:
- HRWD 4113 The Generational Dynamics in the Workplace
- HRWD 4323 Instructional Technology and Design

3. Have a 2.5 or higher GPA, or have a 2.5 or higher GPA on HRWD required courses after completing 12 hours of HRWD coursework.

Human Resource and Workforce Development (HRWD) Major

Electives

Up to 19 credit hours of electives can include technical credit that can be obtained through experiential learning credits and/or faculty approved courses. ¹

Suggested HRWD electives:
- HRWD 4113 The Generational Dynamics in the Workplace
- HRWD 4323 Instructional Technology and Design

HRWD Required Courses

Career Development Pillar (15 hours)
- HRWD 3113 Foundations of Human Resource Development 3
- HRWD 3123 Career Development 3
- HRWD 3133 Writing for Human Resource and Workforce Development Professionals 3
- HRWD 4123 Strategic Human Resource Development 3
- HRWD 4133 International Human Resource Development and Cultural Differentiation 3

Organization Development Pillar (15 hours)
- HRWD 3213 Organization Development 3
- HRWD 3223 Managing Human Resource Development Programs 3
- HRWD 4213 Workplace Diversity and Human Resource Development 3
- HRWD 4223 Professional and Leadership Development 3
- HRWD 4233 HRD Legal and Ethical Issues 3
- Training and Development Pillar (15 hours) 3
- HRWD 3313 Training and Development 3
- HRWD 3323 Designing and Developing Human Resource Development Programs 3
- HRWD 3333 Communication in Human Resource and Workforce Development 3
- HRWD 4313 Human Resource Development Program and Product Evaluation 3
- HRWD 4333 Human Resource Development Capstone 3

Total Hours: 120

¹ 1. Experiential Learning HRWD 450V
   a. Credits from HRWD faculty approved National Occupational Competency Testing Institute (NOCTI) assessments accepted and assessed by the HRWD faculty NOCTI coordinator.
   b. American Council on Education (ACE) and Council on Adult and Experiential Learning (CAEL) credits as accepted by the University of Arkansas' undergraduate policy will also be accepted by the undergraduate HRWD program for Experiential Learning HRWD 450V credits.
   c. 3 credit hours will be awarded for recognition from the Association for Talent Development, (formerly the American Society for Training and Development), as a Certified Professional in Learning and Performance (CPLP).
   d. Credits will be given for earning from Society for Human Resource Management (SHRM) Professional in Human Resources (PHR) and Senior Professional in Human Resources (SPHR) certification. 1 credit hour will be awarded for PHR certification. 3 credit hours for SPHR certification. If a student enters the undergraduate HRWD program with PHR certification and obtains SPHR certification while in the program, they will be given an additional 2 credit hours for a maximum of 3 credit hours.
   e. A maximum of 3 credit hours of Continuing Education Unit (CEU) will be accepted. 15 hours of continuing education equals 1 CEU and equals 1 credit hour. Acceptable CEUs must be in training and development, career development, or organization development.
   f. A maximum of 6 hours of ROTC credit will be granted for military service in accordance with the current University of Arkansas Policy.

2. Faculty Approved courses
   a. Sanctioned by HRWD faculty.
   b. Related to one of the HRWD areas, including psychology, organizational behavior, adult education, occupational counseling, skill testing and evaluation, program design and evaluation, consulting practice, organizational development, training, management, development, customer service, or total quality management.
   c. Suggested HRWD electives: HRWD 4113 and HRWD 4323.

Human Resource and Workforce Development Education Semester Plan

The nature of the Human Resource Development major excludes it from ACT 1014 eight-semester degree-completion program requirements. The HRWD degree is a 120 hour degree in accordance with ACT 747.

Presented below is a typical plan for completing this degree in four semesters; individual student plans may vary significantly.

If fewer credits than needed are earned through technical credits, completing additional appropriate coursework will require heavier course loads and/or additional semesters to graduate. The 19 hours of technical
requirements can be completed at any time during the four semester program. Students are not required to complete courses during the summer, but courses may be offered. Students may be able to finish the program sooner if they enroll in summer courses.

Earned prior to Fall Semester Year 1

University Core

Must specifically include:

3-6 hours Pre-Hrwd Economics Requirement chosen from:

<table>
<thead>
<tr>
<th>Course</th>

Complete all planned NOCTI tests by March, if any, approved by HRWD advisor and enroll in technical requirement hours (if applicable)

Suggested:

HRWD 4113 The Generational Dynamics in the Workplace
HRWD 4323 Instructional Technology and Design

Year Total: 12 9

Total Units in Sequence: 45

Combined Totals

Credits earned prior to Fall Semester Year 1: 35
Credits in HRWD sequence: 45
Electives: 40
Total Hours: 120

Houin, Cameron B., Ph.D. (University of Arkansas), Lecturer, .
Hughes, Claretha, Ph.D. (Virginia Polytechnic Institute and State University), M.S. (North Carolina State University), M.B.A. (University of Arkansas), B.A. (Clemson University), Professor, 2004.
Samuels, Mandel G., M.B.A. (University of Arkansas), B.A. (Oklahoma State University), Clinical Assistant Professor, 2012.

Courses

HRWD 200V. Work Knowledge. 1-19 Hour.
Credit by advanced standing examination for job knowledge as measured by program approved National Occupational Competency Testing Institute (NOCTI) assessments. (Typically offered: Irregular) May be repeated for up to 19 hours of degree credit.

HRWD 3113. Foundations of Human Resource Development. 3 Hours.
Provides the theory and processes associated with human resource development (HRD) used to design and measure interventions in the areas of organization development, personnel training and development, and career development. Students will analyze organizations and study global implications of HRD, and survey topics in human resource management (HRM) that distinguish HRM from HRD. Prerequisite: Students must be admitted to the University of Arkansas and to the HRWD program. (Typically offered: Fall, Spring and Summer)

HRWD 3123. Career Development. 3 Hours.
This course introduces the concepts of career development and career theories. Career development in both the private and public sectors will be explored. Students will gain knowledge that should enable them to be effective in developing their careers and those of others. (Typically offered: Fall and Summer)

HRWD 3133. Writing for Human Resource and Workforce Development Professionals. 3 Hours.
This course focuses on the types of formal reports typically prepared by Human Resource Development professionals with an emphasis on preparation, data collection and research, organization, style, format, graphics, and technical descriptions. (Typically offered: Spring)
HRWD 3213. Organization Development. 3 Hours.
This undergraduate-level course presents the theory and practice of organization development (OD) as a means for performance improvement at various levels, including organization, departmental unit, work group, and individual. The course covers the processes of OD, interventions, theories, and practice of OD life goals. (Typically offered: Spring and Summer)

HRWD 3223. Managing Human Resource Development Programs. 3 Hours.
The basic aim of this course is to equip the students to examine the essential aspects of the theory and practice of managing human resource development programs. Employees require higher level of analytical, problem solving and creative skills. This course aims to help students develop the skills of employee through better understanding of mechanisms for employment equity, transparency, intellectual capital, e-learning, and career development. This course is designed to guide students through an in depth process of identifying, analyzing, and synthesizing elements related to developing, articulating, and implementing an organizational vision, mission, and strategic plan for HRD programs. Prerequisite: Junior standing. (Typically offered: Fall and Spring)

HRWD 3313. Training and Development. 3 Hours.
This course addresses the acquisition of professional skills and strategies associated with creating and maintaining training and development activities in the workplace. It involves a regular class/workshop situation where training and development skills are practiced and encouraged and a work-based situation where skills are tried and implemented as well as assessed. (Typically offered: Fall and Spring)

HRWD 3323. Designing and Developing Human Resource Development Programs. 3 Hours.
Students will learn to design and develop training programs. The focus is on need for training, application of learning principles, writing instructional objectives and plans, designing active training methods, using visual aids, working with groups, and evaluating training. Prerequisite: HRWD 3113 and HRWD 3313. Prerequisite: Junior standing. (Typically offered: Fall and Spring)

HRWD 3333. Communication in Human Resource and Workforce Development. 3 Hours.
This course offers instruction on types of communication commonly encountered by Human Resource Development professionals. Emphasis is on audience and purpose analysis, topic research, visual aids, and delivery methods. Activities include preparation and delivery of extemporaneous speeches, team communication, communication with clients, and preparation and delivery of training sessions. (Typically offered: Fall and Summer)

HRWD 4113. The Generational Dynamics in the Workplace. 3 Hours.
Focus of study on the concepts of individual and generational differences among employees in the workplace; what they are and how they affect workplace teaching and learning. Prerequisite: Senior standing. (Typically offered: Fall and Spring)

HRWD 4123. Strategic Human Resource Development. 3 Hours.
This course introduces students to the theories and principles of Strategic HRD. Methods of aligning HRD strategy with the business strategy of the organization are discussed. Prerequisite: Junior standing. (Typically offered: Fall and Summer)

HRWD 4133. International Human Resource Development and Cultural Differentiation. 3 Hours.
This course is designed to introduce students to concepts of international HRD and cultural differentiation that must be acknowledged when developing programs for all employees in the workplace. Prerequisite: Senior standing. (Typically offered: Fall and Summer)

HRWD 4213. Workplace Diversity and Human Resource Development. 3 Hours.
Students will study workplace diversity and the role of HRD in implementing workplace diversity strategies and programs. Prerequisite: Senior standing. (Typically offered: Spring and Summer)

HRWD 4223. Professional and Leadership Development. 3 Hours.
Students are introduced to professional and leadership development theories and principles. Methods and strategies for succession planning, self-development, and change are discussed. Prerequisite: Junior standing. (Typically offered: Fall and Summer)

HRWD 4233. HRD Legal and Ethical Issues. 3 Hours.
This course covers the major employment law facts and concepts used in human resource development. Applications of the key concepts and facts are emphasized in the class. Knowledge of the employment law facts and concepts and their applications at the workplace is vital for the human resource development professional. Prerequisite: Junior standing. (Typically offered: Fall and Spring)

HRWD 4313. Human Resource Development Program and Product Evaluation. 3 Hours.
This course covers the evaluation of HRD programs and products used in the workplace. Students will develop methods of assessing the viability of programs and products to best meet the needs of the organization. Prerequisite: Senior standing. (Typically offered: Spring and Summer)

HRWD 4323. Instructional Technology and Design. 3 Hours.
This course addresses the application of instructional technology and design associated with the needs assessment and design of course materials in human resource development. The emphasis is on the learner in workplace situations. The course will cover the history of the field and its current status. Prerequisite: Junior standing. (Typically offered: Fall and Summer)

HRWD 4333. Human Resource Development Capstone. 3 Hours.
This course will serve as the assessment course for students in the HRWD program. The course work will evaluate all aspects of the HRD curriculum, specifically the three pillars of HRD: career development, organization development, and training and development. Prerequisite: HRWD 3113, HRWD 3213, HRWD 3313 and senior standing. (Typically offered: Fall and Spring)

HRWD 450V. Experiential Learning. 1-19 Hour.
This course is limited to persons qualifying for experiential credit to be applied to the Human Resource Development Concentration only. Credit is awarded for documented experiential or occupational learning based on a standardized format as suggested by the Council for the Advancement of Experiential Learning (CAEL). Credit for certain occupational training or professional certifications may also be earned using the American Council on Education (ACE) guidelines. (Typically offered: Irregular) May be repeated for up to 19 hours of degree credit.

Public Health (PBHL)
Public health is an exciting, diverse major that focuses on disease prevention and health promotion needs at the community level. Public health work is conducted by teams of clinicians, epidemiologists, behavioral scientists, environmental scientists, health education specialists, health inspectors, statisticians, and health administrators. Students receiving a B.S. in Public Health will be trained for entry-level public health positions found in government agencies, health corporations, and community non-profit organizations. Graduates are employed in a variety of settings, including: public health departments, non-governmental agencies, hospitals, health care management organizations, and health care accrediting agencies. The public health degree at the University of Arkansas is specifically focused on health promotion, health behavior and health education. In accordance, graduates are eligible for the Certified Health Education Specialist credential.

Public health is delivered in a variety of capacities to:

- Impact behavioral factors that are linked to chronic diseases, such as heart disease, diabetes, and cancer.
• Promote behaviors that positively impact outcomes related to issues such as physical activity, nutrition, and sexual health.
• Prevent and control the spread of infectious diseases
• Improve access to health care
• Affect issues related to the health of the environment
• Prevent violent and unintentional injuries
• Participate in global health endeavors
• Prevent drug use and abuse
• Assure the safety of our food supply
• Manage the delivery of health services

Requirements for B.S. in Public Health
An undergraduate major in public health leads to the Bachelor of Science degree. The minimum requirements for all students in the college are listed under general studies.

All students begin the program as pre-public health majors. To be admitted into the Public Health major, the student must meet the following criteria:

1. Complete the Pre-Public Health requirements
2. Have a 2.5 or higher University of Arkansas GPA

Total Units in Sequence: 120

1 Course requires C or better for degree award.
2 If a student earns a 'D', 'F', or 'W' in this course, the course must be repeated. The course must be passed on the second attempt (i.e., 'A', 'B', or 'C'). If a student earns a 'D', 'F', or 'W' in a second attempt, the student will be unable to obtain their degree in Public Health.

Hammig, Bart, Ph.D. (University of Kansas), M.P.H. (University of Kansas Medical Center), B.S. (University of Kansas), Professor, Department of Health, Human Performance and Recreation, 2008.

Henry, Leah Jean, Ph.D. (Texas Woman's University), M.A. (Michigan State University), B.S. (Texas A&M University), Associate Professor, Department of Health, Human Performance and Recreation, 2008.

Jones, Ches, Ph.D. (University of Alabama at Birmingham), B.S.E. (Pittsburg State University), Professor, Department of Health, Human Performance and Recreation, 1994.
Jozkowski, Kristen N., Ph.D., M.S. (Indiana University at Bloomington), B.S. (Pennsylvania State University), Associate Professor, Department of Health, Human Performance and Recreation, 2011.

Courses

PBHL 1103. Personal Health and Safety. 3 Hours.
Health and safety problems with emphasis on the promotion of individual health and safety. (Typically offered: Fall and Spring)

PBHL 1203. Prevention of Drug Abuse. 3 Hours.
Provides an overview of drugs of use and abuse in society. Also assists the student in evaluating drug abuse prevention approaches for public, private, or community settings. (Typically offered: Fall and Spring)

PBHL 1303. Introduction to Human Sexuality. 3 Hours.
An examination of human sexuality with a critical analysis of male and female attitudes and values affecting self-understanding and gender identity. (Typically offered: Fall and Spring)

PBHL 2101. Special Topics. 1 Hour.
Examination and application of health promotion concepts based on individualized health hazard appraisal. (Not to replace content courses leading to teacher certification in health education). (Typically offered: Fall and Spring) May be repeated for up to 5 hours of degree credit.

PBHL 2663. Terminology for the Health Professions. 3 Hours.
Emphasis is on word roots and combined forms of words describing various facets of health and disease. Descriptive definitions with application of practical significance included for the health professional. (Typically offered: Spring) This course is cross-listed with EXSC 2663.

PBHL 310V. Seminar in Public Health. 1-3 Hour.
Synthesis and critical analysis of current literature in the area of community health promotion. Prerequisite: PBHL majors only. (Typically offered: Spring) May be repeated for up to 12 hours of degree credit.

PBHL 3202. Health Care and Public Health Policy. 2 Hours.
This course provides an introduction to health care services, inclusive of the characteristics and structure of the U.S. health care delivery system and comparison to other health systems. Aspects of public health policy, laws, ethics, and economics will be examined. Upon completion of the course, students are expected to demonstrate an understanding of the key elements of the health care industry as it pertains to medical care and public health, including an understanding of the roles of health care providers, public and private payers, the role of government, and challenges facing health care systems. Pre- or Corequisite: PBHL 1103 and PBHL 3443. (Typically offered: Spring)

PBHL 3202H. Honors Health Care and Public Health Policy. 2 Hours.
This course provides an introduction to health care services, inclusive of the characteristics and structure of the U.S. health care delivery system and comparison to other health systems. Aspects of public health policy, laws, ethics, and economics will be examined. Upon completion of the course, students are expected to demonstrate an understanding of the key elements of the health care industry as it pertains to medical care and public health, including an understanding of the roles of health care providers, public and private payers, the role of government, and challenges facing health care systems. Prerequisite: Public Health Bachelor of Science (PBHLBS) major required. Pre- or Corequisite: PBHL 1103, PBHL 3443, and honors standing. (Typically offered: Spring) This course is equivalent to PBHL 3202.

PBHL 333V. Research in Public Health. 1-3 Hour.
This course is intended for undergraduate students who wish to gain research experience under the direction of a faculty mentor. Students will work independently and collaborate with faculty member(s) and fellow students to conduct research in a specified area of interest. The purpose of the course is for the student to develop knowledge in her/his own domain, strengthen her/his research skills, and work collaboratively on research projects. The directed research course places more emphasis on the students' role as a researcher in an academic setting. Prerequisite: Instructor consent. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

PBHL 333VH. Honors Research in Public Health. 1-3 Hour.
This course is intended for undergraduate students who wish to gain research experience under the direction of a faculty mentor. Students will work independently and collaborate with faculty member(s) and fellow students to conduct research in a specified area of interest. The purpose of the course is for the student to develop knowledge in her/his own domain, strengthen her/his research skills, and work collaboratively on research projects. The directed research course places more emphasis on the students' role as a researcher in an academic setting. Prerequisite: Instructor consent. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

PBHL 3443. Introduction to Public Health. 3 Hours.
This course is intended for undergraduate students and will focus on the foundations of public health as a profession and its future outlook. Public health concepts and practice. Topics include philosophy, purpose, history, organization, functions, tools, activities and results at national, state, and community levels. (Typically offered: Fall and Spring)

PBHL 3633. First Responder-First Aid. 3 Hours.
Prepares persons to administer cardiopulmonary resuscitation and emergency aid to victims of serious bleeding, poisoning, shock, fracture, and other forms of injury until emergency medical services personnel arrive at the scene. (Typically offered: Irregular)

PBHL 3643. Public Health Program Planning and Evaluation. 3 Hours.
Emphasis on community analysis; defining and verifying community health problems; establishing program goals; defining and assessing health behaviors; formulating educational goals, objectives, methods, and activities; promoting programs; and designing program evaluation. Prerequisite: Public Health Bachelor of Science (PBHLBS) major. (Typically offered: Spring)

PBHL 3643H. Honors Public Health Program Planning and Evaluation. 3 Hours.
Emphasis on community analysis; defining and verifying community health problems; establishing program goals; defining and assessing health behaviors; formulating educational goals, objectives, methods, and activities; promoting programs; and designing program evaluation. Prerequisite: Public Health Bachelor of Science (PBHLBS) major and honors standing. (Typically offered: Spring)

PBHL 3663. Principles and Practice of Mental Health Promotion. 3 Hours.
Understanding and practicing the principles of sound mental health are key elements in achieving high level wellness. This course encourages students’ exploration of the mental dimensions of holistic health and presents strategies to achieve a more healthful balance in life. (Typically offered: Irregular)

PBHL 3683. Health Care Consumerism. 3 Hours.
Study of products and services provided by the health care delivery system; an analysis of those components lacking scientific credibility, yet promoted for the maintenance or restoration of health status. (Typically offered: Irregular)

PBHL 3683H. Honors Health Care Consumerism. 3 Hours.
Study of products and services provided by the health care delivery system; an analysis of those components lacking scientific credibility, yet promoted for the maintenance or restoration of health status. (Typically offered: Spring Even Years) This course is equivalent to PBHL 3683.
PBHL 3901H. Honors Public Health Thesis Tutorial. 1 Hour.
Designed to provide the foundation for the Honors Thesis/Project. Students and faculty tutors work ‘one-on-one’ exploring a specific topic which has been agreed upon by the student and the professor. Prerequisite: Honors candidacy and PBHLBS major. (Typically offered: Fall, Spring and Summer)

PBHL 391V. Special Topics in PBHL. 1-3 Hour.
Designed to cover specialized topics not presented in public health coursework. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

PBHL 4043. Internship in Public Health. 3 Hours.
Designed to provide the student with an extended work experience in a selected community/public health program. The student works under college supervision with a professional in the health care delivery field. Pre- or Corequisite: PBHL 3643 and PBHL 4603. Prerequisite: Senior standing and successful completion of PBHL 1103. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

PBHL 410V. Global Health: Issues, Concepts and Perspectives. 3-6 Hour.
Emphasis placed on needs assessment, development, implementation, evaluation, and sustainability of public health initiatives designed to improve the health and well-being of community members at all levels of the health continuum; topics of focus will include determinants of health, mental health, environmental health, nutrition, maternal and child health, sexual health, injuries and chronic and infectious diseases. Prerequisite: Approval from Study Abroad to participate in the Community Development Service Learning Program. (Typically offered: Summer)

PBHL 410VH. Honors Global Health: Issues, Concepts and Perspectives. 3-6 Hour.
Emphasis placed on needs assessment, development, implementation, evaluation, and sustainability of public health initiatives designed to improve the health and well-being of community members at all levels of the health continuum; topics of focus will include determinants of health, mental health, environmental health, nutrition, maternal and child health, sexual health, injuries and chronic and infectious diseases. Prerequisite: Approval from Study Abroad to participate in the Community Development Service Learning Program. (Typically offered: Summer)

This course is equivalent to PBHL 410V.

PBHL 4401. Certified Health Education Specialist: Responsibilities and Competencies. 1 Hour.
This course is an overview of the competencies necessary for being a Certified Health Education Specialist (CHES), and also of the concepts and skills required for carrying out effective health education programs in a variety of different settings, including School, Community, Health Care and Worksite settings. Through a combination of self study, seminar discussions, and research projects, a thorough understanding of the competencies and core concepts in the fields of public health and health promotion will be attained. While the emphasis of the course is placed on studying for the CHES examination, the course will also provide a format to further your preparation as a professional health educator. Prerequisite: PBHL major. (Typically offered: Spring Odd Years)

PBHL 4553. Environmental Health. 3 Hours.
This course explores current environmental problems and issues related to public health. Topics include health risk assessment, management, and communication; sources of pollution, environmental and health effects of war, food safety and other environmental health topics. Also discussed are the roles of the environment in human health and disease, the basic principles of environmental health practice, and major environmental health legislation and policy. Format for course will include lecture web based seminars, and small group seminars. (Typically offered: Irregular)

PBHL 4603. Health Behavior: Theories and Application. 3 Hours.
Understanding the reasons for health behavior is vital for the health education professional. It is necessary to assist in the development of services and programs that are likely to move an individual from an unhealthy behavior to one that is more appropriate for a healthy lifestyle. This course surveys the major health behavior theories used in health education and applications of the theories will be used in the class. Prerequisite: PBHL 3443 and Public Health Bachelor of Science (PBHLBS) major required. (Typically offered: Fall)

PBHL 4603H. Honors Health Behavior: Theories and Application. 3 Hours.
Understanding the reasons for health behavior is vital for the health education professional. It is necessary to assist in the development of services and programs that are likely to move an individual from an unhealthy behavior to one that is more appropriate for a healthy lifestyle. This course surveys the major health behavior theories used in health education and applications of the theories will be used in the class. Prerequisite: Must be a honors student, PBHL 3443 and Public Health Bachelor of Science (PBHLBS) major required. (Typically offered: Fall)

This course is equivalent to PBHL 4603.

PBHL 4613. Principles of Epidemiology. 3 Hours.
Distribution and patterns of disease or physiological conditions within populations; an examination of the nature of epidemiological research. (Typically offered: Fall)

PBHL 4613H. Honors Principles of Epidemiology. 3 Hours.
Distribution and patterns of disease or physiological conditions within populations; an examination of the nature of epidemiological research. Prerequisite: Honors standing. (Typically offered: Fall)

PBHL 4623. Human Diseases. 3 Hours.
An examination of the variety, behavior, distribution, and management of both infectious and noninfectious diseases in human populations. Prerequisite: BIOL 1603 (or BIOL 1543 and BIOL 1541L). (Typically offered: Irregular)

PBHL 4643. Multicultural Health. 3 Hours.
Through lecture, discussion, simulations, and case studies, students will develop an appreciation for the cultural traditions and practices of different groups. The importance and implications of these traditions on health outcomes and health status will be examined. Students will also develop skills of cultural competence that are essential for public health practitioners today. Prerequisite: Senior standing or consent. (Typically offered: Spring and Summer)

PBHL 4643H. Honors Multicultural Health. 3 Hours.
Through lecture, discussion, simulations, and case studies, students will develop an appreciation for the cultural traditions and practices of different groups. The importance and implications of these traditions on health outcomes and health status will be examined. Students will also develop skills of cultural competence that are essential for public health practitioners today. Prerequisite: Senior standing or consent. (Typically offered: Spring and Summer)

This course is equivalent to PBHL 4643.

PBHL 498VH. Honors Public Health Thesis/Project. 1-3 Hour.
Designed to provide facilitation of the Honors Thesis/Project. Students and faculty work 'one-on-one' to complete the honors thesis/project. Prerequisite: Honors candidacy, PBHLBS major, and PBHL 3901H. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

Recreation and Sport Management (RESM)
The program in recreation and sport management is designed to prepare candidates for a variety of career opportunities in the field of recreation and sport management. Career opportunities may include park and recreation directors for a city, college and professional sports management, fitness center managers, state and national park managers, camp administrators, or work in YMCAs, Boys and Girls Clubs, or other youth-serving agencies. Graduates of this program should be
well prepared to enter the recreation and sport workforce at an entry level position or pursue graduate studies in such areas as recreation management and sport management.

All students must complete the University Core requirements. In addition, all students must take the required general studies for the recreation and sport management core requirements listed. Recreation and sport management majors must obtain a 'C' or better in all courses beginning with the alpha code RESM. To enroll in RESM 440V, students must have a 2.50 GPA or better in RESM core and professional elective courses, have senior standing and have completed RESM 3873 and two RESM 2011 practicums.

There are several experiential requirements within the recreation and sport management core. Students are required to do three practicum experiences (RESM 2011). Each experience totals 45 hours. A more intense experience of an internship (RESM 440V) requires a minimum of 400 hours or work full time for 12-15 weeks in an agency with a qualified park, recreation, or sport management professional.

An undergraduate major in Recreation and Sport Management leads to the Bachelor of Science degree. The minimum requirements for all students in the college are listed under general studies.

### Requirements for B.S. in Recreation and Sport Management with Recreation Administration Concentration

#### Curriculum for a Major in Recreation and Sport Management

Students must complete 40 hours of 3000/4000 level courses to complete degree.

Recreation and Sport Management with Recreation Administration Concentration
Nine-Semester Plan

The Recreation Administration concentration in Recreation and Sport Management is exempt from eight-semester degree plans because students are recommended to register for RESM 440V Internship after the completion of their course work and recreation agencies have their busiest season in the summer. The following nine-semester plan, however, will guide students who wish to graduate in four years.

Recreation and Sport Management with Sports Administration Concentration

Nine-Semester Plan

The Sports Administration Concentration in Recreation and Sport Management is exempt from eight-semester degree plans because students are recommended to register for RESM 440V Internship after the completion of their course work and the sports management agencies have their busiest season in the summer. The following nine-semester plan, however, will guide students who wish to graduate in four years.

Total Hours: 9

1 Course MUST have 'C' or better to award degree credit.

2 If ECON 2013 and ECON 2023 are taken, reduce RESM-related electives by 3 hours to meet 120.
**Courses**

**RESM 1003. Professional Foundations of Recreation and Sport Management. 3 Hours.**

An analysis of the historical and philosophical development of recreation, sport and leisure. Theories of play, recreation, sport and leisure are studied. Economic, political, technical, and social forces are examined as these influence recreation, sport, parks, and leisure services is examined in context with diverse service delivery systems. Prerequisite: RESM major or RESM minor or instructor consent. (Typically offered: Fall, Spring and Summer)

**RESM 1023. Recreation and Natural Resources. 3 Hours.**

An examination of the use and management of natural resources for outdoor recreation with consideration of multiple use, environmental ethics, risk management, and other current considerations. Several field visits will be required as part of the class, including a weekend outing. Prerequisite: RESM major or RESM minor or by instructor consent. (Typically offered: Fall, Spring and Summer)

**RESM 2011. Recreation and Sport Practicum. 1 Hour.**

Students are assigned to assist in leisure-oriented programs for exposure to organizational structure, services, and programming of cooperating recreational and sport agencies. Students may take 1-3 hours per semester; each credit hour is a 45-hour experience. Students must complete 3 different experiences before internship. Prerequisite: RESM 1003 with a grade of C or better. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

**RESM 2063. Commercial Recreation and Sport. 3 Hours.**

Examination of the commercial recreation and sport industries. The operational requirement of a wide range of recreation businesses will be studied. Case study and field investigation methods will be emphasized. Prerequisite: RESM 1003 with a grade of C or better. (Typically offered: Fall and Spring)

**RESM 2813. Recreation and Sport Leadership. 3 Hours.**

Development of knowledge related to leadership theory, group dynamics, and face to face leadership techniques. Students gain an understanding of leadership theories as they are applied in a field setting. Pre- or Corequisite: COMM 1313. Prerequisite: RESM 1003 with a grade of C or better. (Typically offered: Fall and Spring)

**RESM 2853. Leisure and Society. 3 Hours.**

This course is an examination of leisure and its effect on society. Course content includes identification and exploration of motivating factors related to various traditional and contemporary leisure expressions as it occurs across diverse populations. (Typically offered: Fall and Spring)

**RESM 2853H. Honors Leisure and Society. 3 Hours.**

This course is an examination of leisure and its effect on society. Course content includes identification and exploration of motivating factors related to various traditional and contemporary leisure expressions as it occurs across diverse populations. (Typically offered: Fall and Spring)

This course is equivalent to RESM 2853.

---

1. If ECON 2013 and ECON 2023 are taken, reduce RESM-related electives by 3 hours to meet 120.
2. Course MUST have ‘C’ or better to award degree credit.

Dittmore, Stephen W., Ph.D. (University of Louisville), M.A., B.A. (Drake University), Professor, Department of Health, Human Performance and Recreation, 2008.
RESM 3023. Sport Management Fundamentals. 3 Hours.
This course is designed to present an overview of the fundamentals of sport management in professional and intercollegiate sport, as well as issues facing sport organizations and how management techniques can be applied to solve sport business problems. A description of career opportunities in sport will be presented with special interest in helping the student design a course of study that best meets his/her goals. Prerequisite: RESM 1003 with a grade of C or better. (Typically offered: Fall)

RESM 3093. Diversity and Inclusion in Recreation and Sport Management. 3 Hours.
An introduction to the basic concepts of inclusive and special recreation and sport services integrated with knowledge and skill sets required to provide accessible recreation and leisure programming for people with disabilities. Prerequisite: RESM 1003 with a grade of C or better. (Typically offered: Spring)

RESM 3833. Program Planning in Recreation and Sport. 3 Hours.
Development of the fundamentals of program planning using modern techniques of identifying and analyzing program activity areas and community needs. Includes program development and application with a variety of population groups and representative leisure service areas. Prerequisite: RESM 1003 with a grade of C or better. (Typically offered: Spring)

RESM 3843. Recreation and Sport Facilities. 3 Hours.
Planning concepts, design principles, and maintenance techniques are emphasized. Also, technical design concepts and firsthand experiences in maintenance of facilities are included. Prerequisite: RESM 1003 with a grade of C or better. (Typically offered: Spring)

RESM 3873. Sport and Recreation Risk Management. 3 Hours.
In-depth look at risk management and related legal issues affecting recreation and sport administration. Pre- or Corequisite: RESM major or RESM minor or by instructor consent. Prerequisite: Junior standing, and RESM 1003 with a grade of C or better. (Typically offered: Fall)

RESM 3883. Marketing and Promotion in Recreation and Sport Management. 3 Hours.
This course provides an overview of the principles and practices of promotions and marketing in the recreation and sport industry. Topics include sport marketing planning, market segmentation and identification of the target market, marketing mix, and sponsorship. Credits: three hours. Prerequisite: RESM 1003 with a grade of C or better, and ECON 2143 or ECON 2013 and ECON 2023. (Typically offered: Fall and Spring)

RESM 3901H. Honors Recreation and Sport Management Thesis Tutorial. 1 Hour.
Designed to provide the foundation for the Honors Thesis/Project. Students and faculty tutors work ‘one-on-one’ exploring a specific topic which has been agreed upon by the student and the professor. Prerequisite: Honors candidacy, RESMBS major, and RESM 1003 with a grade of C or better. (Typically offered: Fall and Summer)

RESM 391V. Special Topics in RESM. 1-3 Hour.
Designed to cover specialized topics not presented in recreation and sport management coursework. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

RESM 4003. Management in Recreation and Sport. 3 Hours.
Management techniques for recreation and sport programs and facilities. Prerequisite: RESM 1003 with a grade of C or better. (Typically offered: Fall and Spring)

RESM 4013. Contemporary Issues in Leisure and Sport. 3 Hours.
Discussion of selected topics and review of current literature in the recreation and sport field. Analysis of current trends and professional issues are emphasized. Certification at the instructor level or higher in at least 2 areas of expertise must be completed before a grade is assigned in this course. Prerequisite: Senior standing and RESM 1003 with a grade of C or better. (Typically offered: Fall and Spring)

RESM 4023. Outdoor Adventure Leadership. 3 Hours.
This course considers the values and scope of outdoor recreation programs, leadership and skill development with practical experience in a wilderness environment. The course will include a canoe trip through the wilderness, and skill training in such areas as orienteering and rock climbing; and leadership development in interpersonal and processing skills. The graduate portion of the class is geared toward leading and trip planning for taking college age and older students into remote areas. (Typically offered: Summer)

RESM 405V. Independent Study in Recreation and Sport. 1-3 Hour.
Provides student an opportunity to pursue special study of research problems. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

RESM 4083. Research in Recreation and Sport. 3 Hours.
An introduction to the applied methods and techniques of research and evaluation in recreation and sport services. General consideration given to research applications such as needs assessment, program evaluation, and marketing studies. Emphasis placed on the logic underlying the research process. Prerequisite: Senior standing and RESM 1003 with a grade of C or better. (Typically offered: Fall and Spring)

RESM 440V. Internship. 1-12 Hour.
This experiential based course requires 40 hours per week of work in an approved agency for a full semester. It is recommended that students register for the summer session after completion of their course work. Prerequisite: RESM 3873 and two hours of RESM 2011 with grades of C or better. (Typically offered: Fall, Spring and Summer)

RESM 4411. Pre-Internship Preparation. 1 Hour.
Enables student preparation for internship experiences and eventual employment. Course will assist students in preparation of resumes; provide opportunities for interview practice; the development of job search and application skills, as well as other requisites for entering the professional workforce. Prerequisite: Senior standing and RESM 1003 with a grade of C or better. (Typically offered: Fall)

RESM 480V. Workshop. 1-3 Hour.
Workshop. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.
Rehabilitation, Human Resources, and Communication Disorders (RHRC)

Michael Stephen Hevel
Interim Department Head
100 Graduate Education Building
479-575-4924
hevel@uark.edu (%20hevel@uark.edu)

The Department of Rehabilitation, Human Resources, and Communication Disorders offers two degree programs:

- B.S.E. in Human Resource and Workforce Development (p. 750)
- B.S.E. in Communication Sciences and Disorders (p. 702)

At the graduate level, the department also offers an M.S. with an emphasis in speech-language pathology, M.S. and Ed.D. in higher education (p. 1383), M.S. and Ed.D. in human resource and workforce development (p. 1400), M.S. and Ph.D. in counselor education (p. 1312).

Adams, Justin J., Ph.D. (University of South Carolina, M.Ed., B.A. (Winthrop University), Assistant Professor, 2018.

Baker, Barry, J.D. (University of Arkansas), Lecturer, 2019.

Biggs, Bobbie T., Ph.D. (Texas A&M University), M.S., B.S. (University of Arkansas), Professor, 1979.

Bilsard, Paul, Ed.D. (University of Arkansas), M.C., B.S., B.S. (Southwest Missouri State University), Clinical Assistant Professor, 2014.

Bowers, Andrew L., Ph.D. (University of Tennessee Health Science Center), M.A., B.A. (University of Tennessee), Associate Professor, 2012.

Bowers, Lisa Marie, Ph.D. (University of Tennessee Health Science Center), M.A., B.A. (Louisiana State University), Associate Professor, 2012.

Boykin, Allison, Ph.D. (University of North Carolina-Greensboro), Assistant Professor, 2019.

Camargo, Elsa, Ph.D. (Virginia Polytechnic Institute and State University), M.A., B.A. (University of Illinois at Chicago), Assistant Professor, 2018.

Cao, Chunhua, Ph.D. (University of South Florida-Tampa), Teaching Assistant Professor, 2019.

Christian, David, Ph.D., M.S. (University of North Texas), B.A. (University of Texas at Dallas), Assistant Professor, 2015.

Dieffenderfer, Vicki, Ph.D., M.S., B.S. (University of Tennessee), Clinical Assistant Professor, 2015.

Frazier, Kimberly Frances, Ph.D. (University of South Carolina-Columbia), M.S., B.S.E. (University of Arkansas), Associate Professor, 2007.

Gibson, Tracy, Ed.D. (University of Arkansas), Lecturer, 2019.

Gilbertson, Margie, Ph.D. (University of Memphis), M.S.E., B.A. (University of Central Arkansas), Clinical Instructor, 2016.

Glade, Rachel E., Ph.D. (University of Arkansas), M.S. (University of Arkansas for Medical Sciences), M.A. (University of Arkansas), B.S. (University of Arkansas at Little Rock), Assistant Professor, 2015.

Haghighi, Mohammad, Ph.D. (Ohio University), Assistant Professor, 2019.

Hagstrom, Fran W., Ph.D. (Clark University), M.S. (University of Texas Health Science Center-Houston), M.A. (St. Louis University), B.A. (Southwest Baptist University), Associate Professor, 2002.

Hevel, Michael Stephen, Ph.D. (University of Iowa), M.A. (Bowling Green State University), B.A. (University of Kansas), Associate Professor, 2012.

Higgins, Kristin Kay, Ph.D., M.S. (University of Arkansas), B.A. (Vanderbilt University), Associate Professor, 2006.

Holfield, Christine, Ed.D. (Pennsylvania State University), M.A. (University of Kansas), B.S. (Central Michigan University), Assistant Professor, 2017.

Holfield, Christine E., Ph.D. (Pennsylvania State University), M.A. (University of Kansas), B.S. (Central Michigan University), Assistant Professor, 2017.

Kacirek, Kit, Ed.D., M.Ed. (University of Arkansas), B.S. (University of Texas), Associate Professor, 1997.

Koch, Lynn C., Ph.D. (University of Wisconsin-Madison), M.S., B.S. (University of Arizona), Professor, 2006.

Liang, Xinya, Ph.D. (Florida State University), B.S. (Zhejiang Gongshang University, China), Assistant Professor, 2014.

Lo, Wen-Juo, Ph.D., M.A. (Arizona State University), B.S. (SooChow University), Associate Professor, 2008.

Maddox, Robert F., Ph.D. (University of Nebraska), Instructor, 2019.

Mamiseishvili, Ketevan, Ph.D., M.A. (University of Missouri-Columbia), B.A. (Akaki Tsereteli State University), Professor, 2008.

McCray, Suzanne, Ph.D. (University of Tennessee), M.A., B.A. (University of Arkansas), Associate Professor, 2010.

Miller, Michael T., Ed.D. (University of Nebraska), M.S., B.A. (Southern Illinois University), Professor, 2003.

Perry, Kim, M.S. (University of Arkansas), Instructor, 2007.

Perryman, Kristi Leann, Ph.D. (University of Arkansas), M.S., B.S. (Southwest Missouri State University), Assistant Professor, 2014.

Popejoy, Erin O., Ph.D. (University of Texas-San Antonio), M.A. (Texas State University), B.A. (Case Western Reserve University), Assistant Professor, 2015.

Ray, Teresa, Ph.D. (Capella University), Instructor, 2019.

Roessge, Kevin, Ph.D., M.S., B.A. (University of Wisconsin-Milwaukee), Associate Professor, 2016.

Sadeghi, Ali M., M.S. (University of Arkansas), Lecturer, 2019.

Shelton, Leslie Jo, Ph.D. (Michigan State University), M.Ed., B.A. (Ohio University), Assistant Professor, 2014.

Shoge, Kendra E., M.S. (Missouri State University), Lecturer, 2019.

Shull, Wanda, Ph.D. (University of Arkansas), Lecturer, 2019.

Turner, Ronna L., Ph.D. (University of Illinois-Urbana-Champaign), M.S.E. (Missouri State University), B.S.E. (Southwest Missouri State University), Professor, 1997.

Vajda, Anthony J., Ph.D. (Old Dominion University), M.S. (La Salle University), B.A. (University of Delaware), Assistant Professor, 2018.

Williams, Brent Thomas, Ph.D. (University of Illinois, Urbana-Champaign), M.S. (University of Texas Southwestern Medical School), B.A. (Austin College), Associate Professor, 2002.

Winkle, Allison P., M.S. (University of Arkansas), Lecturer, 2019.

Curriculum and Instruction Website (https://cied.uark.edu/)
The Department of Curriculum and Instruction offers a Bachelor of Arts in Teaching in Social Studies Education that leads to licensure for 7-12 instruction. The program focuses on developing reflective practitioners based on the constructivist perspective that teachers are life-long learners, reflective practitioners themselves, and scholar researchers. The coursework is designed to develop these attributes so that students graduate as effective teachers with the knowledge, skills, and dispositions to engage students with meaningful and authentic instruction. The Bachelor of Arts in Teaching degree will also prepare students in the humanities with the pedagogical skills, the content knowledge, and the dispositions for teaching and learning in 21st century classrooms.

B.A.T. in Social Studies Education
Stage I: Pre-Admission Social Studies Education
Complete all 46 hours of program pre-requisites for each content area.
1. Obtain a GPA of 3.0 or better on UA coursework.
2. Complete all content and pedagogy courses with a grade of 'C' or better.
3. Obtain a passing score on the Math, Reading, and Writing sections of the Praxis Core or ACT/SAT/GRE as defined by the Arkansas Department of Education.
4. Complete a background check.

Stage II: Admission to the B.A.T. program
Admission to the Bachelor of Arts in Teaching program (B.A.T.) occurs the semester after the candidate has completed all pre-B.A.T. requirements including the first three courses in education — CIED 1013, CIED 1003, and CIED 2173 — prior to a student's entering the individual programs of study the following fall term. The B.A.T. program is competitive, and meeting the minimum requirements does not guarantee admission to the program. Applications to the B.A.T. program must be submitted by January 30.

The application process includes:
1. Students must complete the application to teacher education (see the Teacher Education Application Fee (p. 72)) through the Teacher Education Office during spring semester of sophomore year. This includes completing and passing the criminal background check* and also passing Praxis Core academic subjects test or equivalent tests by meeting or exceeding the Arkansas Department of Education cut-off scores.
2. Submission of B.A.T. application.
3. Submission of writing sample to content area faculty.
4. Submission of transcripts for all coursework.

Stage III: Requirements for Program Continuation and Internship
1. Maintain a cumulative GPA of 3.0 or better.
2. All professional education courses and content courses must have a grade of 'C' or better (except SEED 3282 below). No teaching methods courses may be taken as self-paced (correspondence) courses.

Stage IV: Requirements for Internship Semester (spring, senior year) and Program Completion
All students in the BAT program must complete the following requirements prior to being admitted to the spring semester of their senior year.
1. Students must earn a 'B' or better in the fall semester, senior year SEED 3282 practicum course.
2. Earn a cumulative GPA of 3.0 or better by the end of the fall semester, senior year. Students are not permitted to intern in the spring if the GPA requirement is not met.
3. Students must have taken the appropriate Praxis II-Content Knowledge exam to be admitted to the spring semester, senior year.
4. Candidate must complete a successful internship admission interview with B.A.T. faculty. Note these interviews are scheduled with all senior students during the fall semester.
5. Satisfactorily complete the internship/student teaching experience that has been approved by the Director of Field Placement.

All students seeking licensure in the State of Arkansas are subject to a criminal background check. Background checks can take up to six months to process; therefore, students are advised to complete and submit the forms to the proper authorities at least six months in advance of graduation (or six months prior to applying for a teaching license). Arkansas will not grant a teaching license to anyone who has been convicted of a felony.

\(^1\) A minimum of 6 hours with international/non-U.S. focus must be taken among the combined 15 hours of 3000- and 4000-level Social Science electives.

\(^2\) Chosen from Social Studies Diversity core program list.

### Courses

**CIED 1003. Introduction to Technology in Education. 3 Hours.**

A study of computer technology as it relates to teacher education. This course introduces students interested in teacher education to the knowledge and skills required to demonstrate their proficiency in technology and learning. (Typically offered: Fall and Spring)

**CIED 1013. Introduction to Education. 3 Hours.**

Integrates psychological, sociological, and philosophical foundations of education with concurrent involvement in field experiences. Encourages prospective teachers to become reflective practitioners by emphasizing organization of school systems, planning and implementation of effective classroom environments, development of teaching styles, and new directions in education. An 18-hour early field experience designed to give prospective teachers opportunities to observe and participate in a variety of school settings is incorporated in this introductory course to education. (Typically offered: Fall and Spring)

**CIED 2173. Literacy in America. 3 Hours.**

A course that examines the myriad definitions of literacy (and illiteracy) and their connections to issues of social class, occupational status, economic and political structures, educational institutions, cultural organizations, and the media. (Typically offered: Fall and Spring)

This course is cross-listed with ENGL 2173.

**CIED 2943. Foundations of Language and Literacy. 3 Hours.**

A foundational study of language and literacy with an emphasis on content knowledge for teachers that is essential to the components and principles of science-based literacy. (Typically offered: Fall and Spring)

**CIED 3001. Early Childhood Education Practicum. 1 Hour.**

This practicum course provides opportunities for students to observe and practice providing instruction and guidance in preschool settings. Corequisite: CIED 3003. (Typically offered: Fall, Spring and Summer)

**CIED 3003. Early Childhood Education. 3 Hours.**

The study of kindergarten and preschool programs: social context of early childhood education, purposes, research basis, curriculum development, methods, and materials. Corequisite: CIED 3001. Prerequisite: CIED 1013. (Typically offered: Spring and Summer)

**CIED 3013. Development and Learning Theories in the K-6 Classroom. 3 Hours.**

This course allows students to cultivate an understanding of how elementary students develop, process information, and learn; studies educational applications pertaining to theories of development, intelligence, and thinking dispositions. Students study various learning theories, their implications for instruction, and their role in the K-6 classroom. Field experience required. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

**CIED 3013H. Honors Development and Learning Theories in the K-6 Classroom. 3 Hours.**

This course allows students to cultivate an understanding of how elementary students develop, process information, and learn; studies educational applications pertaining to theories of development, intelligence, and thinking dispositions. Students study various learning theories, their implications for instruction, and their role in the K-6 classroom. Field experience required. Prerequisite: CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)

This course is equivalent to CIED 3013.

**CIED 3023. Survey of Exceptionalities. 3 Hours.**

A survey of the characteristics of students with exceptional needs. Reviews the definitions of exceptionalities, learning and behavior characteristics of individuals with exceptionalities and the legal basis for the education of persons with exceptionalities in both elementary and secondary schools. Prerequisite: CIED 1013, or MUED 2012, or AGED 1123, or PSYC 2003. (Typically offered: Fall, Spring and Summer)

**CIED 3023H. Honors Survey of Exceptionalities. 3 Hours.**

A survey of the characteristics of students with exceptional needs. Reviews the definitions of exceptionalities, learning and behavior characteristics of individuals with exceptionalities and the legal basis for the education of persons with exceptionalities in both elementary and secondary schools. Prerequisite: Honors standing, CIED 1013, or MUED 2012, or AGED 1123, or PSYC 2003. (Typically offered: Fall, Spring and Summer)

**CIED 3033. Classroom Learning Theory. 3 Hours.**

A survey of the major theories of learning with special emphasis on human learning and implications for education. Field experience required. Prerequisite: CIED 1013; or MUED 2012; or PHED 1003; or AGED 1123; or PSYC 2003. (Typically offered: Fall, Spring and Summer)

**CIED 3033H. Honors Classroom Learning Theory. 3 Hours.**

A survey of the major theories of learning with special emphasis on human learning and implications for education. Field experience required. Prerequisite: Honors standing and (CIED 1013; or MUED 2012; or PHED 1003; or AGED 1123; or PSYC 2003). (Typically offered: Fall, Spring and Summer)
CIED 3053. The Emerging Adolescent. 3 Hours.
This course is a study of the developmental characteristics (social, emotional, physical, moral, and intellectual) of early adolescents (ages 10-15 years). The implications of these changes for motivation, instruction, learning, and classroom management in the classroom are emphasized. Course has field component. Prerequisite: CIED 1013. (Typically offered: Fall and Spring)

CIED 3083. Arts Integration in the Classroom. 3 Hours.
Content course in arts integration including the pedagogy, design, and implementation of lesson plans which teach skills through the visual and performing arts to students. (Typically offered: Fall)

CIED 3103. Children and Adolescent Literature. 3 Hours.
A survey of children's literary works, authors, and illustrators with emphasis on elementary grade and adolescent literature. Prerequisite: CHEDBS or ELELBS or HDFSBS BRKD or HDFSBS CDEV or PSPED major. (Typically offered: Fall and Spring)

CIED 3103H. Honors Children and Adolescent Literature. 3 Hours.
A survey of children's literary works, authors, and illustrators with emphasis on elementary grade and adolescent literature. Corequisite: CIED 3113. Prerequisite: CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring) This course is equivalent to CIED 3103.

CIED 3113. Emergent Literacy. 3 Hours.
An understanding of emergent literacy development through a study of science-based literacy pedagogy and practical field experiences. Prerequisite: ENGL 1013, ENGL 1023, CIED 2943 and CHEDBS or ELELBS or HDFSBS BRKD or HDFSBS CDEV or SPEDBS major. (Typically offered: Fall and Spring)

CIED 3113H. Honors Emergent Literacy. 3 Hours.
This course focuses on theories of children's emerging literacy and on the continuing development of literacy abilities in pre-kindergarten and early elementary years. Field experience required. Prerequisite: ENGL 1013, ENGL 1023, and CIED 3262, CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring) This course is equivalent to CIED 3113.

CIED 3123. Mathematics Methods in the K-6 Classroom. 3 Hours.
An examination of the content of elementary mathematics courses. Special emphasis given to methods of teaching the content as well as enrichment materials. Prerequisite: MATH 1203, MATH 2213, MATH 2223, STAT 2303, and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 3133. Integrated Social Studies for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' development in language arts and social studies. Integrates the curriculum and teaching strategies in language arts and social studies. Prerequisite: CHEDBS or ELELBS major, and PLSC 2003 and HIST 2003 and HIST 2013, and (HIST 1113 or HIST 1123), and (GEOS 1123 or ANTH 1023), and (ECON 3053 or ECON 2143), and ARHS 1003, and MLIT 1003. (Typically offered: Fall and Spring)

CIED 3143. Teaching Science in the Elementary Grades. 3 Hours.
Study of the methods and materials in teaching science. Classroom applications of teaching strategies with analysis of teacher effectiveness in seminar settings are emphasized. Prerequisite: (BIOL 1543 and BIOL 1541L), and (GEOS 1113 and GEOS 1111L), and (PHYS 1034 or ASTR 2003 and ASTR 2001L), and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 3262. Language Development for the Educator. 2 Hours.
Nature of speech-language development in preschool and school-aged children, including cognitive prerequisites, social contexts, and relationships between language acquisition and literacy. Language differences (dialectal, bilingual) and speech-language disorders are explored. The role of the educator in facilitating language acquisition is emphasized. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 3453. Developmental Literacy. 3 Hours.
A deep and comprehensive application of the development of literacy skills from decoding to fluent, comprehending readers. Field experience required. Prerequisite: CIED 2943, CIED 3113, and admission into ELELBS or CHEDBS programs. (Typically offered: Fall and Spring)

CIED 3453H. Honors Developmental Literacy. 3 Hours.
A deep and comprehensive application of the development of literacy skills from decoding to fluent, comprehending readers. Field experience required. Prerequisite: CIED 2943, CIED 3113, admission into ELELBS or CHEDBS programs, and honors standing. (Typically offered: Fall and Spring)

CIED 3901H. Honors Curriculum and Instruction Education Thesis Tutorial. 1 Hour.
Designed to provide the foundation for the Honors Thesis. Students and faculty tutors work 'one-on-one' exploring a specific topic which has been agreed upon by the student and the professor. Prerequisite: Honors candidacy and CATEBS, CHEDBS, EDSTBS, EGEDBA, ELELBS, FREDBA, GREDBA, SNEDBA, SPEDBS, or SSEDBA majors. (Typically offered: Fall, Spring and Summer)

CIED 4003. Elementary Seminar. 3 Hours.
This course is designed to synthesize the foundational content presented in the Bachelor of Science in Education, Elementary Education program. It focuses on refinement of generalized knowledge to accommodate specialized content relevant to elementary students. Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4013. Capstone Course for Foreign Language Licensure. 3 Hours.
This course is designed to identify and provide evidence of content language specific proficiencies in the four skills of reading, writing, listening, and speaking a foreign language. (Typically offered: Spring)

CIED 4023. Teaching in Inclusive Secondary Settings. 3 Hours.
This course is designed to prepare pre-service teachers to teach in inclusive classroom settings at the secondary level. Course content will focus on the ways in which exceptionally, specifically focused on high-incidence disabilities and culture, specifically focused on English language learners mediate the learning experiences of secondary level students. (Typically offered: Summer)

CIED 4083. Creativity in Daily Practice. 3 Hours.
Arts integration course including the ideas, design, and implementation of practices in the classroom, board room, and professional field that enrich the experiences of all stakeholders while building right-brain thinking skills for the new millennium. (Typically offered: Spring Even Years) May be repeated for up to 6 hours of degree credit.

CIED 4101. Practicum. 1 Hour.
Practicum. Corequisite: CIED 3133. (Typically offered: Spring)

CIED 4113. Integrated Communication Skills for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' literacy development. Emphasis is on the integration of the communication skills of reading, writing, speaking, and listening across the curriculum. Prerequisite: COMM 1313 or COMM 2323 and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4113H. Honors Integrated Communication Skills for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' literacy development. Emphasis is on the integration of the communication skills of reading, writing, speaking, and listening across the curriculum. Prerequisite: COMM 1313 or COMM 2323 and CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring) This course is equivalent to CIED 4113.
CIED 4123. Literacy Assessment and Interventions in the Elementary Classroom. 3 Hours.
An undergraduate course focusing on literacy assessment and intervention for prospective classroom teachers. Participants become familiar with assessment procedures and instruments for identifying student strengths and weaknesses in literacy, determining effective intervention strategies for literacy improvement, and principles of reporting assessment and intervention outcomes. Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4131. Practicum for Secondary and Multilevel Tracks in Education. 1 Hour.
This practicum is a requirement for entry into the EDUC MA, Master of Arts in Teaching program. Students will be involved in documented experiences with children for a minimum of 60 hours in grades K-12. Students enrolled in the multilevel track will be placed in a combination of elementary, middle, and high school settings. Students enrolled in the secondary track will be placed in a combination of middle and high school settings. Prerequisite: Cleared background check. (Typically offered: Spring and Summer)

CIED 4133. Measurement and Research in the K-6 Classroom. 3 Hours.
This course is designed to provide an introduction to educational assessment, research methods, and what research has to say about trends and topics in elementary education. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Summer)

CIED 4143. Curriculum Design and Applications of Instructional Practice. 3 Hours.
A course in the design and adaptation of curriculum for students in regular, elementary classrooms. Theoretical bases and curriculum models will be reviewed. Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Spring)

CIED 4153. Classroom Management in the Elementary Grades. 3 Hours.
This course focuses on a number of different management techniques for elementary classrooms that can be used in general education settings. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4163. Senior Project. 3 Hours.
This course is designed to provide students with the research skills necessary to complete their senior project. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Summer)

CIED 4173. Student Teaching. 3 Hours.
Full-time student teaching in grades K-6 to be repeated both fall and spring semesters. Students will practice and master instructional strategies under the supervision of qualified mentor teachers and university faculty members. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

CIED 4183. Instruction and Assessment of Writing. 3 Hours.
Develop knowledge, skills and dispositions about writing processes, genres, and pedagogy. Field experience required. Prerequisite: CIED 2943, CIED 3113, CIED 3483, and admission into CHEDBS or ELELBS programs. (Typically offered: Fall and Spring)

CIED 4286. Teaching Experience. 6 Hours.
The teaching experience is an essential component of the Bachelor of Arts in Teaching degree. The two semester experience allows Teacher Candidates (TC) to make further application of theoretical principles of teaching and learning. Teacher Candidates will be assigned placement in area schools for both fall and spring semesters. Teacher candidates are placed in K-12 or 7-12 levels depending on their content area for licensure. The fall semester consists of a field experience including observation, co-planning, and co-teaching. The spring semester consists of an immersion experience for teacher candidates to plan and teach independently. Prerequisite: Admission to the B.A.T. program. (Typically offered: Spring) May be repeated for up to 12 hours of degree credit.

CIED 4323. Instructional Design for Teachers. 3 Hours.
Study of the design of instruction for students with exceptionalities. Emphasis is placed on synthesizing a broad range of existing and emerging perspectives and methods of instruction and applying them to practical classroom practice. Prerequisite: CIED 3023 and CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4363. Disciplinary Literacy in the K-6 Classroom. 3 Hours.
Focuses on the methodology of extending K-6 learners' basic literacy development, as a foundation for intermediate and disciplinary literacy. Emphasis is on the engagement of students in the distinct reading, writing, speaking, and listening requirements of different disciplines. Prerequisite: CIED 3113 and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4403. Understanding Cultures in the Classroom. 3 Hours.
This course provides pre-and in-service teachers knowledge and skills necessary for educating ethnically and linguistically diverse classrooms. Students have the opportunity to understand positive relationships while removing stereotypes and prejudices. It addresses issues for social justice education through understanding ways that children learn and communicate in their homes and communities. Students will examine how topics in multicultural education inform instructional goals, curriculum planning/implementation, and teaching practices across content areas in public K-12 classrooms. Some sections of this course will contain a service learning component. (Typically offered: Fall)

CIED 4413. Acquiring a Second Language. 3 Hours.
The course gives an introduction to the basics in research and learning theories involved in the acquisition of second languages and cultures, particularly of English. (Typically offered: Spring)

CIED 4423. Teaching English as a Second Language. 3 Hours.
This course is designed to provide teacher candidates with the basic knowledge and teaching skills necessary to address the linguistic needs of English language learners (ELLs) in regular classrooms. The students in this class will learn about and use multiple strategies for promoting ELLs' reading, writing, listening, and speaking skills. Emphasis will be placed especially on differentiating early reading instruction for ELLs. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Spring)

CIED 4433. The Moral Mind in Action. 3 Hours.
The Moral Mind in Action explores how people reason through moral dilemmas and prepares students to more effectively recognize and resolve moral problems. Best practices of teachers and administrators of K-16 character education programs are discussed. (Typically offered: Fall)

CIED 4443. Moral Courage. 3 Hours.
Moral Courage explores the factors that support translating moral thinking into moral action. This course draws from the field of positive psychology to guide students as they leverage existing strengths and develop new strategies for acting with moral courage in their personal and professional lives. Best practices of teachers and administrators of K-16 character education programs are discussed. (Typically offered: Spring)

CIED 4463. Culture and Learning. 3 Hours.
Culture, its meanings, dimensions, and manifestations are explored in this course. How these cultural elements impact perceptions of students, classroom practices, and educational processes are explored in this course. A strength-based approach is employed to explore the issues associated with including all students within classrooms. (Typically offered: Fall, Spring and Summer)

CIED 4503H. Honors Charles Darwin and the Legacy of Evolution. 3 Hours.
This highly integrated honors class draws on various perspectives to examine the life of Charles Darwin and the legacy and impact of evolution. Topics and guest instructors change each semester, but the course will focus on evolution from the perspectives of biology, anthropology, the law, philosophy, history, culture and literature. (Typically offered: Spring Even Years)
CIED 4513. Teaching Children with Mild Disabilities. 3 Hours.
This course is a study of the characteristics of young students with disabilities and methods for teaching this group of students. The course will provide future teachers with an understanding of interventions useful in teaching individuals with special learning needs during grades P-4. (Typically offered: Fall and Spring)

CIED 4523H. Honors Teaching Children with Severe Disabilities. 3 Hours.
This course is a study of the characteristics of young students with severe disabilities and methods for teaching this group of students. The course will provide future teachers with an understanding of interventions useful in teaching individuals with special learning needs during grades P-4. (Typically offered: Spring and Summer)

CIED 4533. Reading Comprehension Through Children's and Adolescent Literature. 3 Hours.
An examination of the major genres of children and adolescent literature to develop and extend K-6 students' skills in reading comprehension. Field experience required. Prerequisite: CIED 2943, CIED 3113, CIED 3453, and admission into CHEDBS or EELBS programs. (Typically offered: Fall and Spring)

CIED 498VH. Curriculum and Instruction Honors Thesis/Project. 1-3 Hour.
Designed to provide facilitation of the Honors Thesis/Project. Students and faculty work 'one-on-one' to complete the honors thesis/project. Prerequisite: Honors candidacy, CIED 3901H, and CATEBS, CHEDBS, EDSTBS, EGEDBA, EELBS, FREDBA, GREDBA, SNAPEDB, SPDDBS, or SEEDBA major. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

CIED 499V. Special Topics in Curriculum and Instruction Education. 1-6 Hour.
Discussion and advanced studies on selected topics in curriculum and instruction. Special focus on recent and emerging topics in education. (Typically offered: Fall, Spring and Summer) May be repeated for up to 18 hours of degree credit.

CIED 499VH. Honors Special Topics in Curriculum and Instruction Education. 1-3 Hour.
Discussion and advanced studies on selected topics in curriculum and instruction. Special focus on recent and emerging topics in education. (Typically offered: Fall, Spring and Summer) This course is equivalent to CIED 499V.

Spanish Education (SNED)
Freddie Bowles
Program Coordinator
3066 Peabody Hall
479-575-3035
Email: fbowles@uark.edu
Curriculum and Instruction Website (https://cied.uark.edu/)

The Department of Curriculum and Instruction offers a Bachelor of Arts in Teaching in Spanish Education that leads to licensure for K-12 instruction. The program focuses on developing reflective practitioners based on the constructivist perspective that teachers are life-long learners, reflective practitioners themselves, and scholar researchers. The coursework is designed to develop these attributes so that students graduate as effective teachers with the knowledge, skills, and dispositions to engage students with meaningful and authentic instruction. The Bachelor of Arts in Teaching degree will also prepare students in the humanities with the pedagogical skills, the content knowledge, and the dispositions for teaching and learning in 21st century classrooms.

B.A.T. in Spanish Education
Stage I: Pre-Admission Spanish Education
Complete all 46 hours of program pre-requisites for each content area.

1. Obtain a GPA of 3.0 or better on UA coursework.
2. Complete all content and pedagogy courses with a grade of 'C' or better.
3. Obtain a passing score on the Math, Reading, and Writing sections of the Praxis Core or ACT/SAT/GRE as defined by the Arkansas Department of Education.
4. Complete a background check.

Stage II: Admission to the B.A.T. program
Admission to the Bachelor of Arts in Teaching program (B.A.T.) occurs the semester after the candidate has completed all pre-B.A.T. requirements including the first three courses in education — CIED 1013, CIED 1003, and CIED 2173 — prior to a student entering the individual programs of study the following fall term. The B.A.T. program is competitive, and meeting the minimum requirements does not guarantee admission to the program. Applications to the B.A.T. program must be submitted by January 30.

The application process includes:
1. Students must complete the application to teacher education (see the Teacher Education Application Fee (p. 72)) through the Teacher Education Office during spring semester of sophomore year. This includes completing and passing the criminal background check* and also passing Praxis Core academic subjects test or equivalent tests by meeting or exceeding the Arkansas Department of Education cut-off scores.
2. Submission of B.A.T. application.
3. Submission of writing sample to content area faculty.
4. Submission of transcripts for all coursework.
   * Another background check will be required prior to graduation in order to be eligible for licensure.

Stage III: Requirements for Program Continuation and Internship
1. Maintain a cumulative GPA of 3.0 or better.
2. All professional education courses and content courses must have a grade 'C' or better (except SEED 3282 below). No teaching methods courses may be taken as self-paced (correspondence) courses.

Stage IV: Requirements for Internship Semester (spring, senior year) and Program Completion
All students in the B.A.T. program must complete the following requirements prior to being admitted to the spring semester of their senior year.
1. Students must earn a 'B' or better in the fall semester, senior year SEED 3282 practicum course.
2. Earn a cumulative GPA of 3.0 or better by the end of the fall semester, senior year. Students are not permitted to intern in the spring if the GPA requirement is not met.
3. Students must have taken the appropriate Praxis II-Content Knowledge exam to be admitted to the spring semester, senior year.
4. Candidate must complete a successful 'internship admission interview' with B.A.T. faculty. Note these interviews are scheduled with all senior students during the fall semester.
5. Satisfactorily complete the internship/student teaching experience that has been approved by the Director of Field Placement.

All students seeking licensure in the State of Arkansas are subject to a criminal background check. Background checks can take up to six months to process; therefore, students are advised to complete and submit the forms to the proper authorities at least six months in advance of graduation (or six months prior to applying for a teaching license). Arkansas will not grant a teaching license to anyone who has been convicted of a felony.

1 Complete all content and pedagogy courses with a grade of 'C' or better, except SEED 3282, which requires a grade of 'B' or better.

**Spanish Education B.A.T. Eight-Semester Plan**

Because this program requires admission to progress, it does not qualify for the university's Eight-Semester Degree Program; however, students who qualify for admission to the program can finish a degree in four years by following the suggested order of classes below.

**First Year**

### Courses

**CIED 1003. Introduction to Technology in Education. 3 Hours.**  
A study of computer technology as it relates to teacher education. This course introduces students interested in teacher education to the knowledge and skills required to demonstrate their proficiency in technology and learning. (Typically offered: Fall, Spring and Summer)

**CIED 1013. Introduction to Education. 3 Hours.**  
Integrates psychological, sociological, and philosophical foundations of education with concurrent involvement in field experiences. Encourages prospective teachers to become reflective practitioners by emphasizing organization of school systems, planning and implementation of effective classroom environments, development of teaching styles, and new directions in education. An 18-hour early field experience designed to give prospective teachers opportunities to observe and participate in a variety of school settings is incorporated in this introductory course to education. (Typically offered: Fall and Spring)

**CIED 2173. Literacy in America. 3 Hours.**  
A course that examines the myriad definitions of literacy (and illiteracy) and their connections to issues of social class, occupational status, economic and political structures, educational institutions, cultural organizations, and the media. (Typically offered: Fall and Spring)  
This course is cross-listed with ENGL 2173.

**CIED 2943. Foundations of Language and Literacy. 3 Hours.**  
A foundational study of language and literacy with an emphasis on content knowledge for teachers that is essential to the components and principles of science-based literacy. (Typically offered: Fall and Spring)

**CIED 3001. Early Childhood Education Practicum. 1 Hour.**  
This practicum course provides opportunities for students to observe and practice providing instruction and guidance in preschool settings. Corequisite: CIED 3003. (Typically offered: Fall, Spring and Summer)

**CIED 3003. Early Childhood Education. 3 Hours.**  
The study of kindergarten and preschool programs: social context of early childhood education, purposes, research basis, curriculum development, methods, and materials. Corequisite: CIED 3001. Prerequisite: CIED 1013. (Typically offered: Spring and Summer)

**CIED 3013. Development and Learning Theories in the K-6 Classroom. 3 Hours.**  
This course allows students to cultivate an understanding of how elementary students develop, process information, and learn; studies educational applications pertaining to theories of development, intelligence, and thinking dispositions. Students study various learning theories, their implications for instruction, and their role in the K-6 classroom. Field experience required. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

**CIED 3013H. Honors Development and Learning Theories in the K-6 Classroom. 3 Hours.**  
This course allows students to cultivate an understanding of how elementary students develop, process information, and learn; studies educational applications pertaining to theories of development, intelligence, and thinking dispositions. Students study various learning theories, their implications for instruction, and their role in the K-6 classroom. Field experience required. Prerequisite: CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)  
This course is equivalent to CIED 3013.

**CIED 3023. Survey of Exceptionalities. 3 Hours.**  
A survey of the characteristics of students with exceptional needs. Reviews the definitions of exceptionalities, learning and behavior characteristics of individuals with exceptionalities and the legal basis for the education of persons with exceptionalities in both elementary and secondary schools. Prerequisite: CIED 1013, or MUED 2012, or AGED 1123, or PSYC 2003. (Typically offered: Fall, Spring and Summer)

**CIED 3023H. Honors Survey of Exceptionalities. 3 Hours.**  
A survey of the characteristics of students with exceptional needs. Reviews the definitions of exceptionalities, learning and behavior characteristics of individuals with exceptionalities and the legal basis for the education of persons with exceptionalities in both elementary and secondary schools. Prerequisite: Honors standing, CIED 1013, or MUED 2012, or AGED 1123, or PSYC 2003. (Typically offered: Fall, Spring and Summer)

**CIED 3033. Classroom Learning Theory. 3 Hours.**  
A survey of the major theories of learning with special emphasis on human learning and implications for education. Field experience required. Prerequisite: CIED 1013; or MUED 2012; or PHED 1003; or AGED 1123; or PSYC 2003. (Typically offered: Fall, Spring and Summer)

**CIED 3033H. Honors Classroom Learning Theory. 3 Hours.**  
A survey of the major theories of learning with special emphasis on human learning and implications for education. Field experience required. Prerequisite: Honors standing and (CIED 1013; or MUED 2012; or PHED 1003; or AGED 1123; or PSYC 2003). (Typically offered: Fall, Spring and Summer)

**CIED 3053. The Emerging Adolescent. 3 Hours.**  
This course is a study of the developmental characteristics (social, emotional, physical, moral, and intellectual) of early adolescents (ages 10-15 years). The implications of these changes for motivation, instruction, learning, and classroom management in the classroom are emphasized. Course has field component. Prerequisite: CIED 1013. (Typically offered: Fall and Spring)
CIED 3083. Arts Integration in the Classroom. 3 Hours.
Content course in arts integration including the pedagogy, design, and implementation of lesson plans which teach skills through the visual and performing arts to students. (Typically offered: Fall)

CIED 3103. Children and Adolescent Literature. 3 Hours.
A survey of children's literary works, authors, and illustrators with emphasis on elementary grade and adolescent literature. Prerequisite: CHEDBS or ELELBS or HDFSBS BRKD or HDFSBS CDEV or PSPED major. (Typically offered: Fall and Spring)

CIED 3103H. Honors Children and Adolescent Literature. 3 Hours.
A survey of children's literary works, authors, and illustrators with emphasis on elementary grade and adolescent literature. Corequisite: CIED 3113. Prerequisite: CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)
This course is equivalent to CIED 3103.

CIED 3113. Emergent Literacy. 3 Hours.
An understanding of emergent literacy development through a study of science-based literacy pedagogy and practical field experiences. Prerequisite: ENGL 1013, ENGL 1023, CIED 2943 and CHEDBS or ELELBS or HDFSBS BRKD or HDFSBS CDEV or SPEDES major. (Typically offered: Fall and Spring)

CIED 3113H. Honors Emergent Literacy. 3 Hours.
This course focuses on theories of children's emerging literacy and on the continuing development of literacy abilities in pre-kindergarten and early elementary years. Field experience required. Prerequisite: ENGL 1013, ENGL 1023, and CIED 3262, CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)
This course is equivalent to CIED 3113.

CIED 3123. Mathematics Methods in the K-6 Classroom. 3 Hours.
An examination of the content of elementary mathematics courses. Special emphasis given to methods of teaching the content as well as enrichment materials. Prerequisite: MATH 1203, MATH 2213, MATH 2223, STAT 2303, and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 3133. Integrated Social Studies for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' development in language arts and social studies. Integrates the curriculum and teaching strategies in language arts and social studies. Prerequisite: CHEDBS or ELELBS major, and PLSC 2003 and HIST 2033 and HIST 2013, and (HIST 1113 or HIST 1123), and (GEOG 1123 or ANTH 1023), and (ECON 3053 or ECON 2143), and ARHS 1003, and MLIT 1003. (Typically offered: Fall and Spring)

CIED 3143. Teaching Science in the Elementary Grades. 3 Hours.
Study of the methods and materials in teaching science. Classroom applications of teaching strategies with analysis of teacher effectiveness in seminar settings are emphasized. Prerequisite: (BIOL 1543 and BIOL 1541L), and (GEOG 1113 and GEOG 1111L), and (PHYS 1034 or ASTR 2003 and ASTR 2001L), and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 3262. Language Development for the Educator. 2 Hours.
Nature of speech-language development in preschool and school-aged children, including cognitive prerequisites, social contexts, and relationships between language acquisition and literacy. Language differences (dialectal, bilingual) and speech-language disorders are explored. The role of the educator in facilitating language acquisition is emphasized. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 3453. Developmental Literacy. 3 Hours.
A deep and comprehensive application of the development of literacy skills from decoding to fluent, comprehending readers. Field experience required. Prerequisite: CIED 2943, CIED 3113, and admission into ELELBS or CHEDBS programs. (Typically offered: Fall and Spring)

CIED 3453H. Honors Developmental Literacy. 3 Hours.
A deep and comprehensive application of the development of literacy skills from decoding to fluent, comprehending readers. Field experience required. Prerequisite: CIED 2943, CIED 3113, admission into ELELBS or CHEDBS programs, and honors standing. (Typically offered: Fall and Spring)

CIED 3901H. Honors Curriculum and Instruction Education Thesis Tutorial. 1 Hour.
Designed to provide the foundation for the Honors Thesis. Students and faculty tutors work 'one-on-one' exploring a specific topic which has been agreed upon by the student and the professor. Prerequisite: Honors candidacy and CATEBS, CHEDBS, EDSTBS, EGEDBA, ELELBS, FREDBA, GREDBA, SNEDBA, SPEDES, or SSEDBA majors. (Typically offered: Fall, Spring and Summer)

CIED 4003. Elementary Seminar. 3 Hours.
This course is designed to synthesize the foundational content presented in the Bachelor of Science in Education, Elementary Education program. It focuses on refinement of generalized knowledge to accommodate specialized content relevant to elementary students. Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4013. Capstone Course for Foreign Language Licensure. 3 Hours.
This course is designed to identify and provide evidence of content language specific proficiencies in the four skills of reading, writing, listening, and speaking a foreign language. (Typically offered: Spring)

CIED 4023. Teaching in Inclusive Secondary Settings. 3 Hours.
This course is designed to prepare pre-service teachers to teach in inclusive classroom settings at the secondary level. Course content will focus on the ways in which exceptionally, specifically focused on high-incidence disabilities and culture, specifically focused on English language learners mediate the learning experiences of secondary level students. (Typically offered: Summer)

CIED 4083. Creativity in Daily Practice. 3 Hours.
Arts integration course including the ideas, design, and implementation of practices in the classroom, board room, and professional field that enrich the experiences of all stakeholders while building right-brain thinking skills for the new millennium. (Typically offered: Spring Even Years) May be repeated for up to 6 hours of degree credit.

CIED 4101. Practicum. 1 Hour.
Practicum. Corequisite: CIED 3133. (Typically offered: Spring)

CIED 4113. Integrated Communication Skills for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students' literacy development. Emphasis is on the integration of the communication skills of reading, writing, speaking, and listening across the curriculum. Prerequisite: COMM 1313 or COMM 2323 and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4113H. Honors Integrated Communication Skills for the K-6 Classroom. 3 Hours.
Focuses on the methodology of facilitating elementary students? literacy development. Emphasis is on the integration of the communication skills of reading, writing, speaking, and listening across the curriculum. Prerequisite: COMM 1313 or COMM 2323 and CHEDBS or ELELBS major and honors. (Typically offered: Fall and Spring)
This course is equivalent to CIED 4113.

CIED 4123. Literacy Assessment and Interventions in the Elementary Classroom. 3 Hours.
An undergraduate course focusing on literacy assessment and intervention for prospective classroom teachers. Participants become familiar with assessment procedures and instruments for identifying student strengths and weaknesses in literacy, determining effective intervention strategies for literacy improvement, and principles of reporting assessment and intervention outcomes. Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall)
CIED 4131. Practicum for Secondary and Multilevel Tracks in Education. 1 Hour.
This practicum is a requirement for entry into the EDUC MA, Master of Arts in Teaching program. Students will be involved in documented experiences with children for a minimum of 80 hours in grades K-12. Students enrolled in the multilevel track will be placed in a combination of elementary, middle, and high school settings. Students enrolled in the secondary track will be placed in a combination of middle and high school settings. Prerequisite: Cleared background check. (Typically offered: Spring and Summer)

CIED 4133. Measurement and Research in the K-6 Classroom. 3 Hours.
This course is designed to provide an introduction to educational assessment, research methods, and what research has to say about trends and topics in elementary education. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Summer)

CIED 4143. Curriculum Design and Applications of Instructional Practice. 3 Hours.
A course in the design and adaptation of curriculum for students in regular, elementary classrooms. Theoretical bases and curriculum models will be reviewed. Corequisite: CIED 4173. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Spring)

CIED 4153. Classroom Management in the Elementary Grades. 3 Hours.
This course focuses on a number of different management techniques for elementary classrooms that can be used in general education settings. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4163. Senior Project. 3 Hours.
This course is designed to provide students with the research skills necessary to complete their senior project. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Summer)

CIED 4173. Student Teaching. 3 Hours.
Full-time student teaching in grades K-6 to be repeated both fall and spring semesters. Students will practice and master instructional strategies under the supervision of qualified mentor teachers and university faculty members. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

CIED 4183. Instruction and Assessment of Writing. 3 Hours.
Develop knowledge, skills and dispositions about writing processes, genres, and pedagogy. Field experience required. Prerequisite: CIED 2943, CIED 3113, CIED 3453, and admission into CHEDBS or ELELBS programs. (Typically offered: Fall and Spring)

CIED 4286. Teaching Experience. 6 Hours.
The teaching experience is an essential component of the Bachelor of Arts in Teaching degree. The two semester experience allows Teacher Candidates (TC) to make further application of theoretical principles of teaching and learning. Teacher Candidates will be assigned placement in area schools for both fall and spring semesters. Teacher candidates are placed in K-12 or 7-12 levels depending on their content area for licensure. The fall semester consists of a field experience including observation, co-planning, and co-teaching. The spring semester consists of an immersion experience for teacher candidates to plan and teach independently.Prerequisite: Admission to the B.A.T. program. (Typically offered: Spring) May be repeated for up to 12 hours of degree credit.

CIED 4323. Instructional Design for Teachers. 3 Hours.
Study of the design of instruction for students with exceptionalities. Emphasis is placed on synthesizing a broad range of existing and emerging perspectives and methods of instruction and applying them to practical classroom practice. Prerequisite: CIED 3023 and CHEDBS or ELELBS major. (Typically offered: Fall)

CIED 4363. Disciplinary Literacy in the K-6 Classroom. 3 Hours.
Focuses on the methodology of extending K-6 learners' basic literacy development, as a foundation for intermediate and disciplinary literacy. Emphasis is on the engagement of students in the distinct reading, writing, speaking, and listening requirements of different disciplines. Prerequisite: CIED 3113 and CHEDBS or ELELBS major. (Typically offered: Fall and Spring)

CIED 4403. Understanding Cultures in the Classroom. 3 Hours.
This course provides pre-and in-service teachers knowledge and skills necessary for educating ethnically and linguistically diverse classrooms. Students have the opportunity to understand positive relationships while removing stereotypes and prejudices. It addresses issues for social justice education through understanding ways that children learn and communicate in their homes and communities. Students will examine how topics in multicultural education inform instructional goals, curriculum planning/implementation, and teaching practices across content areas in public K-12 classrooms. Some sections of this course will contain a service learning component. (Typically offered: Fall)

CIED 4413. Acquiring a Second Language. 3 Hours.
The course gives an introduction to the basics in research and learning theories involved in the acquisition of second languages and cultures, particularly of English. (Typically offered: Spring)

CIED 4423. Teaching English as a Second Language. 3 Hours.
This course is designed to provide teacher candidates with the basic knowledge and teaching skills necessary to address the linguistic needs of English language learners (ELLs) in regular classrooms. The students in this class will learn about and use multiple strategies for promoting ELLs' reading, writing, listening, and speaking skills. Emphasis will be placed especially on differentiating early reading instruction for ELLs. Prerequisite: CHEDBS or ELELBS major. (Typically offered: Spring)

CIED 4433. The Moral Mind in Action. 3 Hours.
The Moral Mind in Action explores how people reason through moral dilemmas and prepares students to more effectively recognize and resolve moral problems. Best practices of teachers and administrators of K-16 character education programs are discussed. (Typically offered: Fall)

CIED 4443. Moral Courage. 3 Hours.
Moral Courage explores the factors that support translating moral thinking into moral action. This course draws from the field of positive psychology to guide students as they leverage existing strengths and develop new strategies for acting with moral courage in their personal and professional lives. Best practices of teachers and administrators of K-16 character education programs are discussed. (Typically offered: Spring)

CIED 4463. Culture and Learning. 3 Hours.
Culture, its meanings, dimensions, and manifestations are explored in this course. How these cultural elements impact perceptions of students, classroom practices, and educational processes are explored in this course. A strength-based approach is employed to explore the issues associated with including all students within classrooms. (Typically offered: Fall, Spring and Summer)

CIED 4503H. Honors Charles Darwin and the Legacy of Evolution. 3 Hours.
This highly integrated honors class draws on various perspectives to examine the life of Charles Darwin and the legacy and impact of evolution. Topics and guest instructors change each semester, but the course will focus on evolution from the perspectives of biology, anthropology, the law, philosophy, history, culture and literature. (Typically offered: Spring Even Years)

CIED 4513. Teaching Children with Mild Disabilities. 3 Hours.
This course is a study of the characteristics of young students with disabilities and methods for teaching this group of students. The course will provide future teachers with an understanding of interventions useful in teaching individuals with special learning needs during grades P-4. (Typically offered: Fall and Spring)
CIED 4523H. Honors Teaching Children with Severe Disabilities. 3 Hours.
This course is a study of the characteristics of young students with severe disabilities and methods for teaching this group of students. The course will provide future teachers with an understanding of interventions useful in teaching individuals with special learning needs during grades P-4. (Typically offered: Spring and Summer)

CIED 4533. Reading Comprehension Through Children's and Adolescent Literature. 3 Hours.
An examination of the major genres of children and adolescent literature to develop and extend K-6 students' skills in reading comprehension. Field experience required. Prerequisite: CIED 2943, CIED 3113, CIED 3453, and admission into CHEDBS or ELELBS programs. (Typically offered: Fall and Spring)

CIED 498VH. Curriculum and Instruction Honors Thesis/Project. 1-3 Hour.
Designed to provide facilitation of the Honors Thesis/Project. Students and faculty work 'one-on-one' to complete the honors thesis/project. Prerequisite: Honors candidacy, CIED 3901H, and CATEBS, CHEDBS, EDSTBS, EGEDBA, ELELBS, FREDBA, GRDBA, SNEDBA, SPEDBS, or SSEDBA major. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

CIED 499V. Special Topics in Curriculum and Instruction Education. 1-6 Hour.
Discussion and advanced studies on selected topics in curriculum and instruction. Special focus on recent and emerging topics in education. (Typically offered: Fall, Spring and Summer) May be repeated for up to 18 hours of degree credit.

CIED 499VH. Honors Special Topics in Curriculum and Instruction Education. 1-3 Hour.
Discussion and advanced studies on selected topics in curriculum and instruction. Special focus on recent and emerging topics in education. (Typically offered: Fall, Spring and Summer)
This course is equivalent to CIED 499V.

Special Education (SPED)
Suzanne Kucharczyk
Program Coordinator
ARKA 303
479-575-6210
suzannek@uark.edu

The Department of Curriculum and Instruction offers programs that prepare candidates for initial teacher licensure in Special Education. Graduates of the B.S.E. in Special Education will prepare candidates for initial teacher licensure in Special Education.

ADE Mandated Course 3

| COMM 1313  Public Speaking (ACTS Equivalency = SPCH 1003) |

Curricular Content Courses

Mathematics 6

| MATH 2213  Survey of Mathematical Structures I |
| MATH 2223  Survey of Mathematical Structures II |

Literacy 2-3

| CIED 3262  Language Development for the Educator |
| or CDIS 2253 Introduction to Communicative Disorders |

Professional Education Courses

General Education 9

| CIED 3023  Survey of Exceptionalities |
| CIED 3033  Classroom Learning Theory |
| SPED 4423  Technology for the Inclusive Classroom |

Special Education 27

| SPED 4173  Introduction to Dyslexia: Literacy Development and Structure of Language |
| SPED 4413  ABA and Classroom Management for Teachers |
| SPED 4433  Curriculum Development and Instructional Planning |
| SPED 4443  Career Development and Transition Planning for Students with Disabilities |
| SPED 4453  Assessment of Students with Disabilities |

General Requirements

1. Students must pass Praxis Core or ACT by meeting or exceeding the Arkansas Department of Education cut-off scores. This test should be taken after the student has completed 30 credit hours and upon completion of ENGL 1013, ENGL 1023, and MATH 1203. Enrollment for the spring semester, sophomore year is not permitted unless all three parts of Praxis Core are passed, and
2. All CIED courses must have a grade of 'C' or higher. All SPED courses must have a 'B' or higher prior to the student teaching semesters. No teaching methods courses may be taken by as self-paced (correspondence) courses.
3. Students must complete and successfully pass the criminal background check before beginning field experiences in the schools in the fall semester of the sophomore year and every year as needed.
4. Application to the Special Education Professional Course of Study is made through the Teacher Education Office (see the Teacher Education Application Fee (p. 72)) in the fall semester of the sophomore year after completing the first 30 hours on the program of study. A maximum number of special education candidates will be accepted each year. Thus, admission is competitive and meeting minimum requirements does not automatically result in admission to the program. Candidates will be ranked according to the following:
   • Praxis Core scores
   • Cumulative GPA
   • Criminal background check
   • Interview
5. Continuation to senior year Teaching Internship block is based on the following:
   • Praxis II: Special Education: Core Knowledge and Applications scores
   • Cumulative GPA
   • Criminal background check
6. Licensure requirements include the following.
   • Students must successfully complete the 2 semesters of Teaching Internship with a 'B' or higher.
   • Students must have a cumulative GPA of 3.0 or higher.
   • Students must pass Praxis II: Special Education: Core Knowledge and Applications by meeting or exceeding the Arkansas Department of Education cut-off scores.
SPED 4463  Teaching Students with Significant Disabilities
SPED 4473  Teaching Students with Disabilities in Math and Science
SPED 4483  Teaching Literacy Skills to Students with Disabilities
SPED 4493  Introduction to Students with High Incidence Disabilities

Year Total: 14  14

**Total Units in Sequence:** 120
Courses

SPED 3843. Introduction to Learning and Behavior Analysis. 3 Hours.
This course provides information on: (a) the philosophical assumptions and principles of behavior analysis; (b) systems, processes, and concepts of the experimental and applied behavior analysis; and (c) the ethical and legal issues in its use. (Typically offered: Fall)

SPED 3863. Applications of Behavior Change Procedures. 3 Hours.
Course content includes (a) information on behavior change procedures; (b) activities designed to acquire skill in developing and evaluating behavioral change programs; and (c) information and activities designed to acquire skills in providing and monitoring persons and systems providing support. Legal and ethical standards will be reviewed and applied to the course content. Prerequisite: SPED 3843. (Typically offered: Spring)

SPED 3893. Field Experience in Applied Behavior Analysis. 3 Hours.
Supervised field experience in program, schools, and other settings using the methodology of applied behavior analysis. Prerequisite: SPED 3843. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

SPED 411V. Mentoring Students with Special Needs. 1-6 Hour.
This course provides students an opportunity to mentor students with special needs. Students spend from 3 - 9 hours weekly providing academic and social supports to students with special needs. Prerequisite: Consent of instructor. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

SPED 4173. Introduction to Dyslexia: Literacy Development and Structure of Language. 3 Hours.
This course focuses on the assessment of students with disabilities, literacy development, skills & intervention. Students will utilize foundational concepts of oral and written language including the structure of language to assess student's difficulties and plan appropriate instruction. Techniques discussed include informal observation, miscue analysis, multisensory teaching, and portfolio assessment. Prerequisite: Admission to SPED program. (Typically offered: Fall, Spring and Summer)

SPED 4143. ABA and Classroom Management for Teachers. 3 Hours.
Students in this course will develop an understanding of the basic principles of Applied Behavior Analysis (ABA) and learn how to implement these principles across a Positive Behavior Support Model. Intervention plans include development of individual supports, classroom management supports, and whole school behavior supports. Field experience required. (Typically offered: Fall)

SPED 4423. Technology for the Inclusive Classroom. 3 Hours.
A study of the use of instructional and assistive/augmentative technology for students with learning differences and special learning needs. (Typically offered: Fall)

SPED 4433. Curriculum Development and Instructional Planning. 3 Hours.
Study of the research base for the design and adaptation of curriculum and instructional strategies for students with disabilities in general and special classrooms. (Typically offered: Fall)

SPED 4443. Career Development and Transition Planning for Students with Disabilities. 3 Hours.
A study of career development theory and the research-based strategies for evaluating, planning, and implementing transition programs for students with disabilities. (Typically offered: Fall)

SPED 4453. Assessment of Students with Disabilities. 3 Hours.
A study of the methods and techniques of the assessment of children in all areas of exceptionality with emphasis on diagnosis, classification, and tracking progress. Field experience required. (Typically offered: Fall)

SPED 4453H. Honors Assessment of Students with Disabilities. 3 Hours.
A study of the methods and techniques of the assessment of children in all areas of exceptionality with emphasis on diagnosis, classification, and tracking progress. Field experience required. (Typically offered: Fall)
This course is equivalent to SPED 4453.

SPED 4463. Teaching Students with Significant Disabilities. 3 Hours.
A study of methods and materials for teaching students (K-12) with severe disabilities, including severe mental retardation, serious emotional disturbance, other health impairments, multiple disabilities, and severe physical disabilities. (Typically offered: Spring)

SPED 4473. Teaching Students with Disabilities in Math and Science. 3 Hours.
A study of content, methods, and materials for teaching mathematics and science to students with diverse learning needs and how to adapt curriculum to meet diverse needs. Field experience required. (Typically offered: Spring)

SPED 4483. Teaching Literacy Skills to Students with Disabilities. 3 Hours.
This course will offer a detailed study of how to systematically and explicitly teach essential reading skills to students with disabilities or those at-risk for learning difficulties. Field experience required. (Typically offered: Spring)

SPED 4493. Introduction to Students with High Incidence Disabilities. 3 Hours.
The purpose of this course is to develop an understanding of high incidence disabilities, understand the unique characteristics as they apply to the context of the K-12 classroom, be able to design an appropriate classroom setting, and use evidence-based teaching practices for students with high incidence disabilities. (Typically offered: Spring)

SPED 4538. Special Education Internship - Kindergarten through 6th Grade. 8 Hours.
Provides the opportunity to focus demonstrating and refining teaching skills through a teaching internship in special education grades K-6 grades while simultaneously developing a professional portfolio. Must be taken concurrently with SPED 4543. Corequisite: SPED 4543. (Typically offered: Fall)

SPED 4543. Special Education Seminar - Kindergarten through 6th Grade. 3 Hours.
Provides the opportunity to focus on issues encountered in the teaching internship in special education grades kindergarten through sixth grades while simultaneously developing a professional portfolio. Must be taken concurrently with SPED 4538. Corequisite: SPED 4538. (Typically offered: Fall)

SPED 4553. Special Education Research - Kindergarten through 6th Grade. 3 Hours.
Designing, conducting and applying research to improve classroom instruction in special education (K-6). (Typically offered: Fall)

SPED 4568. Special Education Teaching Internship - 7th through 12th Grade. 8 Hours.
Provides the opportunity to focus demonstrating and refining teaching skills through a teaching internship in special education grades 7-12 grades while simultaneously developing a professional portfolio. Must be taken concurrently with SPED 4573. Corequisite: SPED 4573. (Typically offered: Spring)

SPED 4573. Special Education Seminar - 7th through 12th Grade. 3 Hours.
Provides the opportunity to focus on issues encountered in the teaching internship in special education grades seventh through twelfth grades while simultaneously developing a professional portfolio. Must be taken concurrently with SPED 4568. Corequisite: SPED 4568. (Typically offered: Spring)

SPED 4583. Special Education Research - 7th through 12th Grade. 3 Hours.
Designing, conducting and applying research to improve classroom instruction in special education (7-12). (Typically offered: Spring)
Teaching K-12 Physical Education and Health (PHED)

The major leading to a B.S.E. in Teaching K-12 Physical Education and Health provides students with the knowledge and skills to design quality physical education and health lessons and programs for K-12 school children. Graduates will learn to effectively work as a teacher or coach in the K-12 school environment and have the skills needed to establish a class environment that promotes learning and engages students.

The program leads to licensure in teaching of K-12 physical education and health.

Requirements for B.S.E. in Teaching K-12 Physical Education and Health

Teaching K-12 Physical Education and Health

Admission to K-12 Teaching Physical Education and Health, which prepares a student to teach in the public schools, requires the following:

- Must be admitted to the teacher education program in K-12 (see the Teacher Education Application Fee (p. 72)) after their sophomore year (45 hours of coursework).
- Passing scores on ACT, SAT, GRE or PRAXIS Core (see adviser)
- Successfully complete an Arkansas State Police and Arkansas Child Maltreatment Registry background check (Background checks must be current, there is a fee for this process.)
- Prior to taking the following pedagogical courses PHED 3003, PHED 3033, PHED 3043, students are required to have a cumulative grade point average of 2.5 or above
- Prior to taking the following pedagogical courses PHED 4703, PHED 4743, PHED 432V, students are required to have a cumulative grade point average of 2.7 or above.

To be eligible to enroll in the Senior Block Internship semester (PHED 4023, PHED 407V, PHED 4733), students are required to:

- Have a cumulative grade point average of 2.7
- Successfully complete an Arkansas State Police and Arkansas Child Maltreatment Registry background check if not completed at Stage II (Background checks must be current, there is a fee for this process.)
- Present scores for the Praxis II exams required by the Arkansas Department of Education licensure area of K-12 Physical Education, Wellness and Leisure

Students interested in obtaining an endorsement in coaching should contact the Director of Teacher Licensure in the Office of Teacher Education. (https://teacher-education.uark.edu/licensure/)

1 In addition to the three courses listed under State Minimum Core, students must also choose among other courses to fulfill the State Minimum Core (p. 96).
2 Students may also count completion of the Anatomy and Physiology I course at another Arkansas institution for this requirement.

All students seeking licensure in the state of Arkansas are subject to a criminal background check. Forms for this procedure may be obtained at the office of the Teacher Certification Officer, at the State Department, or any police station, including the campus police. These background
checks take up to six months to process; therefore, students are advised to complete and submit the forms to the proper authorities six months in advance of actually applying for a license. Arkansas will not certify anyone who has been convicted of a felony. Although not required for the Kinesiology concentration in Physical Education, Wellness and Leisure, students seeking coaching endorsement will need to take PHED 4001, take the appropriate standardized exams (ACT, SAT, GRE, or PRAXIS core) as designated by the Arkansas State Department of Education, and make a C' or better in all courses required by the University of Arkansas for the Coaching Endorsement. Please see the College of Education and Health Professions PDF (http://coehp.uark.edu/CoachingALP.pdf) for these specific course numbers.

Teaching K-12 Physical Education & Health
Eight-Semester Degree Program (PHEDBS)

The teacher education program for Teaching K-12 Physical Education & Health does not qualify for the eight semester degree plan due to standardized exams (ACT, SAT, GRE, or PRAXIS core) and cumulative GPA requirements for progression. However, the following 8-semester sample plan shows how a first-year student could select their courses.

Total Units in Sequence: 120

1 Core areas must be completed as outlined in State Minimum Core (p. 96).
2 EXSC 3153 has additional prerequisites not included in program of study.
3 Must have grade C’ or better to award degree credit.
4 Passing score on ACT, SAT, GRE, or PRAXIS core (see advisor)

Courses

PHED 1003. The Physical Education Profession: An Overview. 3 Hours.
An introduction to the teaching of physical education. (Typically offered: Fall and Spring) May be repeated for degree credit.

PHED 2023. Sport Skills. 3 Hours.
This course is designed to prepare the student to teach sport skills, primarily those taught in grades 5-8. Prerequisite: PHED 1003. (Typically offered: Fall and Spring)
PHED 2373. Elementary Physical Education. 3 Hours.
Program planning and techniques of teaching physical education activities to children; for early childhood, elementary and physical education teachers, supervisors, and principals. Prerequisite: PHED 1003. (Typically offered: Fall and Spring)

PHED 3003. Outdoor Education. 3 Hours.
This course is designed to provide opportunities for the student to acquire the skills, teaching and leadership techniques associated with outdoor and adventure activities. Prerequisite: PHED 1003, junior standing, a cumulative grade point average of 2.5, and passing scores on approved standardized assessments as listed by the COEHP Office of Teacher Education. (Typically offered: Fall)

PHED 3033. Educational Rhythms and Gymnastics. 3 Hours.
This course is designed to provide opportunities for the student to perform and teach a variety of rhythmical and gymnastic activities. Prerequisite: PHED 1003, junior standing, a cumulative grade point average of 2.5, and passing scores on approved standardized assessments as listed by the COEHP Office of Teacher Education. (Typically offered: Spring)

PHED 3043. Teaching Fitness. 3 Hours.
Instructional strategies for teaching public school students about fitness concepts. Prerequisite: PHED 1003, junior standing, a cumulative grade point average of 2.5, and passing scores on approved standardized assessments as listed by the COEHP Office of Teacher Education. (Typically offered: Spring)

PHED 3163. Exercise Physiology: Theory and Application. 3 Hours.
Examination of the changes during childhood and adolescence of physiological responses to exercise. The exploration includes the study of the maturation of the body's functional capacities as it relates to exercise. Designed for Physical Education Teacher Education majors. Prerequisite: BIOL 2443 and BIOL 2441L. (Typically offered: Fall and Spring)

PHED 3163H. Honors Exercise Physiology: Theory and Application. 3 Hours.
Examination of the changes during childhood and adolescence of physiological responses to exercise. The exploration includes the study of the maturation of the body's functional capacities as it relates to exercise. Designed for Physical Education Teacher Education majors. Prerequisite: BIOL 2443 and BIOL 2441L and P-12 or K-12 physical education major. Honors standing. (Typically offered: Fall and Summer)

This course is equivalent to PHED 3163.

PHED 3203. Principles and Problems of Coaching. 3 Hours.
A focus on the various aspects of coaching the athletes in contemporary society through an examination of research findings related to factors affecting performance. Attention to be given to principles, problems and understanding essential to the management of athletic contests. (Typically offered: Fall and Spring)

PHED 3223. Motor Development. 3 Hours.
An overview of contemporary motor development and movement theory, developmental hierarchies, and physiological aspects of development throughout the lifespan. (Typically offered: Fall and Spring)

PHED 3413. Administration in Physical Education. 3 Hours.
An examination of the administrative duties of the physical education teacher. (Typically offered: Spring)

PHED 3573. The School Health Program. 3 Hours.
Studies school health services, the health environment, and health education, as well as the teacher's potential role in each. Prerequisite: PBHL 1103. (Typically offered: Fall)

PHED 3623. Sport Sociology. 3 Hours.
An investigation of the impact of physical education and sport on society. (Typically offered: Spring)

PHED 3903. Physical Education for Special Populations. 3 Hours.
Provides fundamental concepts and skills essential to physical education programming for students with disabilities. Deals with definitions, disabling conditions, developmental and remedial activities, games, and sports. Prerequisite: Junior standing. (Typically offered: Fall)

PHED 3903H. Honors Physical Education for Special Populations. 3 Hours.
Provides fundamental concepts and skills essential to physical education programming for students with disabilities. Deals with definitions, disabling conditions, developmental and remedial activities, games, and sports. Prerequisite: Junior standing. (Typically offered: Fall)

PHED 391V. Special Topics in PHED. 1-3 Hour.
Designed to cover specialized topics not presented in physical education coursework. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

PHED 4001. Coaching Practicum. 1 Hour.
Designed for students who want to add the Coaching Endorsement to the state teaching license. Student serves as a coaching assistant with a local school, University or recreational sports team. Students who serves as a coaching assistant with a local school must successfully complete a criminal background check prior to beginning coaching practicum. Prerequisite: PHED 3203 and proof of current First Aid/CPR/AED certification submitted to instructor of record. (Typically offered: Fall and Spring)

PHED 4023. Class Management. 3 Hours.
This course is designed to provide opportunities for the student to acquire an understanding that emphasizes class management; and includes professional ethics, and school policies related to students, faculty, and programs. Corequisite: PHED 407V and PHED 4733. Prerequisite: Senior status in PHEDBS; a grade of 'C' or better in all KINS/PHED Teacher Education classes (PHED 1003, PHED 2023, PHED 3003, PHED 3043, PHED 3203, PHED 2373, PHED 4703, PHED 4743, PHED 3903, PHED 432V, PHED 3003, PHED 3623 and PHED 3413); a cumulative grade point average of 2.7; passing scores on approved standardized assessments as listed by the COEHP Office of Teacher Education; completion of the Praxis II content knowledge for Health and Physical Education exam, with scores presented to the university internship supervisor by December 1st. (Typically offered: Spring) May be repeated for degree credit.

PHED 407V. Physical Education Teaching Internship. 1-9 Hour.
This internship involves supervised teaching experience in a P-12 setting. Students will be placed under the guidance of a mentor teacher at specific school sites within NW Arkansas. Internship will be done at both the elementary and secondary levels. Successful completion of a criminal background check is required before beginning internship. Corequisite: PHED 4023 and PHED 4733. Prerequisite: Senior status in PHEDBS; a grade of 'C' or better in all KINS/PHED Teacher Education classes (PHED 1003, PHED 2023, PHED 3003, PHED 3043, PHED 3203, PHED 2373, PHED 4703, PHED 4743, PHED 3903, PHED 3413); a cumulative grade point average of 2.7; passing scores on approved standardized assessments as listed by the COEHP Office of Teacher Education; completion of the Praxis II content knowledge for Health and Physical Education exam, with scores presented to the university internship supervisor by December 1st. In addition, current Certification in CPR/AED/First Aid should be provided to internship instructor of record. (Typically offered: Spring)

PHED 432V. Teaching Practicum. 1-2 Hour.
K-12 Kinesiology majors serve as a teaching assistant with a local school physical education teacher. This course should be taken the semester before PHED 407V Internship. Prerequisite: PHEDBS majors, 2.7 cumulative GPA, and passing scores on approved standardized assessments as listed by the COEHP Office of Teacher Education. (Typically offered: Fall)
PHED 4703. Assessment in Physical Education. 3 Hours.
An examination of the assessment duties required of a physical education teacher.
The use of authentic assessment and various grading strategies will be investigated.
Prerequisite: PHED 1003, a cumulative grade point average of 2.7 or higher, and
passing scores on approved standardized assessments as listed by the COEHP
Office of Teacher Education. (Typically offered: Fall)

PHED 4733. Senior Seminar. 3 Hours.
This capstone class will cover special topics for the Kinesiology P-12 students
in preparation for entry into the profession. Resumes, cover letters, teaching
philosophy, references, and interview preparation will be included. Students will
also review contemporary issues relevant to the physical education teacher.
Corequisite: PHED 4023. Prerequisite: Senior status in PHEDBS, a grade of 'C'
or better in all KINS/PHED Teacher Education classes: PHED 1003, PHED 2023,
PHED 3033, PHED 3043, PHED 3203, PHED 2373, PHED 4703, PHED 4743,
PHED 3903, PHED 432V, PHED 3003, PHED 3623 and PHED 3413; a cumulative
grade point average of 2.7 or greater; and passing scores on approved standardized
assessments as listed by the COEHP Office of Teacher Education; and the
completed Praxis II content knowledge for Health and Physical Education exam with
scores presented to the university internship supervisor by December 1st. (Typically
offered: Spring)

PHED 4743. Secondary Physical Education. 3 Hours.
Strategies and curriculum for physical education, grades 7-12. Prerequisite:
PHED 1003, a cumulative grade point average of 2.7, and passing scores on
approved standardized assessments as listed by the COEHP Office of Teacher Education.
(Typically offered: Fall)

PHED 480V. Workshop. 3-6 Hour.
Physical education workshop. Prerequisite: Instructor consent. (Typically offered: Summer)

UAteach
UAteach Program

For initial teacher licensure in Computer Science, the following 47 hours of
courses are required:

Choose 3 hours from:

ARSC 1201 Inquiry Approaches to Teaching: UAteach Step I 1
ARSC 1221 Inquiry-Based Lesson Design: UAteach Step II 1
MATH 2903 Functions, Foundations and Models 3
BIOL 3273 UAteach Research Methods 3
or PHYS 3273 UAteach Research Methods 3
or CHEM 3273 UAteach Research Methods 3
STEM 4333 History and Philosophy of Science for Science Teachers 3

Choose 6-7 hours from:

CSCE 2214 Computer Organization
CSCE 3513 Software Engineering
CSCE 3613 Operating Systems
CSCE 4133 Algorithms
CSCE 4523 Database Management Systems
MATH 2564 Calculus II (ACTS Equivalency = MATH 2505)
MATH 2903 Functions, Foundations and Models 1,2
MATH 3773 Concepts of Geometry I

Total Hours 47
The College of Engineering focuses on research, teaching and outreach industry. Providing educational support services, and by attracting and creating new technology, by updating the existing technology within industrial circles, by vigorously in the growth and development of the state of Arkansas Technology Development and Job Creation formal education and keep abreast of new developments in technology. Engineers and others in the technical community to help them further their Continuing Education extending the state-of-the-art in their areas of expertise.

Undergraduate Education — Offer a high-quality and fully accredited course of instruction involving classroom, laboratory, and extracurricular activities that will result in professionals qualified to begin careers in the field of engineering and prepared to assume responsible places of leadership in society.

Graduate Education and Research — Offer state-of-the-art coursework and research experiences that result in all graduates being capable of independent analysis and design, and all Ph.D. graduates capable of extending the state-of-the-art in their areas of expertise.

Continuing Education — Provide local, regional, national, and international seminars, symposia, short courses, and credit courses to engineers and others in the technical community to help them further their formal education and keep abreast of new developments in technology.

Technology Development and Job Creation — Assist actively and vigorously in the growth and development of the state of Arkansas and the nation by performing research and developing innovative new technology, by updating the existing technology within industrial circles, by providing educational support services, and by attracting and creating new industry.

The College of Engineering focuses on research, teaching and outreach in the following areas:

- Health care and healthcare systems
- Cyber and Homeland Security
- Big Data and Data Analytics
- Sustainability and the built environment
- Electric power systems and advanced power electronics
- Electronics manufacturing
- Environmental and ecosystems analysis
- Mixed signal electric systems
- Materials and manufacturing

More information about the College of Engineering can be found at the College of Engineering website (http://www.engr.uark.edu/).

College of Engineering Strategic Plan “Preparing You for Your Tomorrow”

For more than 100 years, the College of Engineering has successfully fulfilled its primary mission: to provide an excellent engineering education to undergraduate and graduate students at the University of Arkansas.

The College of Engineering faculty, staff, alumni and students decided to accept the challenge to become one of the best. Specifically, the college’s collective goal is:

To become and be recognized as one of the top tier graduate and undergraduate engineering programs in the U.S.

The College’s strategic plan encompasses seven main goals. By successfully accomplishing these objectives, the College of Engineering will contribute to the University of Arkansas becoming a nationally competitive, student-centered research institution serving Arkansas and the world, effectively fulfilling its purpose.

Strategic Goals

1. Provide a student-centered educational experience that attracts diverse, high-quality students, helps them to realize their potential, inspires them to pursue excellence at all degree levels and grooms them to become leaders in their profession.

2. Create a supportive research environment that enhances and recognizes scholarship while stimulating entrepreneurship and economic development within Arkansas, the nation and world.

3. Recruit, mentor and retain high-quality and diverse faculty members who value and promote world-class scholarship.

4. Attract, develop and retain well-qualified, diverse and skilled staff members who are equipped to support the growth and potential of the College of Engineering.

5. Implement service and outreach to enhance the impact of the College of Engineering both within and outside the university through service and outreach.

6. Become a catalyst for economic development to achieve the long-term economic goals of Arkansas through entrepreneurship, research and collaboration with industry and government.

7. Cultivate corporate and alumni relationships to improve educational opportunities and assist in providing a high quality educational infrastructure.

College Admission Requirements

Undergraduate Students

Freshmen admitted to the University of Arkansas, Fayetteville, are eligible to enroll in the College of Engineering. The freshman curriculum stresses a basic foundation in mathematics, physics, and chemistry, which will be required in later years. The sophomore, junior, and senior years are spent in a strong concentration on the student’s chosen field, with emphasis on industrial applications of classroom and laboratory work. By the selection of electives, a student can concentrate in depth in a particular subject, have the flexibility to study several subjects, and minor in an area of interest. Provisions are made for electives in the humanities and social sciences as a means of providing a well-rounded education.
International Students
Before being admitted all computer engineering applicants must submit a Test of Spoken English (TSE) score of at least 5.0, or a 7.0 on the spoken section of the IELTS, and an ACT score of 25 (or SAT score of 1140(R)) or above, to be eligible for admission.

Transfer Students
In addition to the university policies controlling the granting of credit for coursework taken at other institutions, the College of Engineering specifies that advanced (3000- and 4000-level at the University of Arkansas) engineering courses may not normally be transferred from institutions that do not have engineering programs accredited by the Engineering Accreditation Commission or the Computing Accreditation Commission of ABET.

College Scholarships
The College of Engineering awards numerous scholarships, and most are based primarily on academic performance. However, scholarships may also be awarded on the basis of financial need and diversity. Scholarships are available from both the college and its individual departments. College scholarships are available to any engineering student, and departmental scholarships are available from both the college and its individual departments. College scholarships are available to any engineering student, and departmental scholarships are available to students enrolled in a particular discipline of engineering. College and departmental scholarships are not available for entering freshmen. Students must be admitted to the University of Arkansas and enrolled in the College of Engineering to qualify and receive either a college or departmental scholarship. The college has a one-step application process that allows a student to be considered for all college- and departmental scholarships.

For more information concerning scholarship and diversity opportunities, contact the Engineering Student Affairs Office at 575-3051 or e-mail engrdean@uark.edu.

Facilities and Resources

Instructional, Computer, and Laboratory Facilities
Undergraduate instruction in engineering takes place in Bell Engineering Center, John H. White Jr. Engineering Hall, J.B. Hunt Center for Academic Excellence, and the Mechanical Engineering building. These facilities contain state-of-the-art classrooms and instructional equipment. Undergraduate laboratories are located both on the main campus as well as at the Engineering Research Center. Laboratories offer students hands-on experience relating to the subject matter addressed in the classroom.

The College of Engineering utilizes a wide variety of computing equipment to assist in engineering education. Students have easy access to computers through general computer laboratories or computer facilities located in specialized laboratories within the college. The computers are networked so that all the computing power of the university, including the mainframe computers, can be accessed from the PCs or workstations provided for engineering students. Owning a personal computer is not required; however, it is beneficial.

Laboratory Fee
In order to maintain the college's state-of-the-art instructional and computer laboratories, each student enrolled in an engineering course is assessed a laboratory fee for that term. This fee is used only to purchase and maintain equipment and staff the engineering laboratories and classrooms to assist students.

Library
The books and references used by engineering students and faculty are housed principally in the University of Arkansas Mullins Library. This collection is the most useful and comprehensive engineering library in the state. Many publications pertinent to the engineering profession are being added continuously. Mullins Library is the depository for water resources papers, geological survey materials, and NASA publications, as well as other governmental and industrial series.

Engineering Research Center
The 178,000-square-foot Engineering Research Center is located approximately two miles south of the main campus. The center provides the facilities and support services for a wide variety of research activities. It houses the Engineering Experiment Station through which the research of individual departments in the college is administered. Centers and laboratories located at the Engineering Research Center include GENESIS, the High Density Electronics Center, the Center for Training Transportation Professionals, and the Chemical Hazards Research Center.

Distance Learning
A Master of Science in Engineering (M.S.E.) degree is available for students who wish to take a broad range of engineering courses. See the Graduate School Catalog for details.

Professional development and continuing education credits can be earned through the College of Engineering's Center for Distance Learning. These courses provide ongoing training on technical and engineering topics for professional engineers, land surveyors, and others in the technical and engineering professions.

The Master of Science in Operations Management (MSOM) degree program at the University of Arkansas offers students the philosophy, concepts, and techniques needed to manage available resources to achieve maximum efficiency and effectiveness in meeting operational goals. It provides the tools needed for successful management in industrial and/or military settings. Geared toward the working student, classes meet in the evenings in five 8-week terms per year. The program is offered at military installations at Little Rock Air Force Base (Arkano.),(Ark.), Naval Support Activity Mid-South (Millington, Tenn.), Hurlburt Field, Fla., and at in-state sites at Fayetteville, Bentonville, Camden, and Blytheville. Students in remote locations may also earn the MSOM degree by taking video courses. This is a non-engineering degree that is open to students from all undergraduate backgrounds. See the Graduate School catalog for details.

Student Organizations
The following are honor societies, social organizations and professional societies to which engineering students at the University of Arkansas may aspire:

• Alpha Chi Sigma (a professional chemistry fraternity)
• Alpha Epsilon (Biological/Agricultural Engineering)
• Alpha Pi Mu (Industrial Engineering)
• Chi Epsilon (Civil Engineering)
• Eta Kappa Nu (Electrical Engineering)
• Omega Chi Epsilon (Chemical Engineering)
• Order of the Engineer (professional engineering society)
• Phi Eta Sigma (freshmen)
• Phi Kappa Phi (juniors and seniors)
Courses that are incorporated into the curriculum at a level lower than the one at which the student is enrolled are not required for that student.

Eligibility
Only students enrolled in the College of Engineering or enrolled in programs in which curricula require engineering courses will be allowed to take engineering courses. Exceptions to this requirement must be approved by the dean of engineering. This does not apply to graduate students.

Code of Ethics
Students in the College of Engineering are obligated to comply with pertinent provisions of the Code of Ethics applicable to professional practice following graduation. The Code requires “honesty, impartiality, fairness, and equity,” and “adherence to the highest principles of ethical conduct.” Most particularly, it states that engineers shall:

1. Be objective and truthful in professional reports, statements, or testimony;
2. Not falsify or permit misrepresentation of their academic or professional qualifications;
3. Give credit for engineering work to those whom credit is due;
4. Not compete unfairly with other engineers by attempting to obtain employment or advancement by improper or questionable methods;
5. Avoid any act tending to promote their own interest at the expense of the dignity and integrity of the profession.

Degree Requirements
The basic requirement for a Bachelor of Science degree in engineering is 124-128 semester hours of academic work, depending on the career field chosen. Students coming from high school with adequate preparation will be able to satisfy this requirement in eight semesters; however, some students require preparatory courses, and others choose to enroll in slightly lighter loads and graduate in nine or ten semesters. Students enrolled in ROTC require an additional 19 semester hours to meet all graduation requirements and graduate in ten semesters (five years).

Engineering is a rapidly changing profession, and the departmental curricula are updated continuously to keep pace with these changes. Students entering under this catalog will be required to comply with such curriculum changes to earn their degree. However, the total number of semester hours required for the degree may not be increased, and all work completed in accordance with this catalog prior to the curriculum change will be applied toward the student’s degree requirements. Former students of the college must meet the curriculum requirements in effect at the time of their readmission.

Graduation Requirements
In addition to university requirements for enrollment and graduation, the College of Engineering has these additional requirements. Individual departments may have additional requirements.

1. Grade-Point Average – A candidate for a degree from the College of Engineering must have earned a grade-point average of no less than 2.00 on all courses in the student’s major area of study.
2. Courses That Do Not Count Toward a Degree – The following courses, which may be required, do not count toward degree credit for bachelor degrees in the College of Engineering: MATH 1203, MATH 1203C, MATH 1204, MATH 1213, GNEG 1514, GNEG 1514 and MATH 1284C or their equivalents.
3. “D” Rule – No student will be allowed to graduate if the student has “D” grades in more than 8 hours presented to meet the requirements for a degree.

4. Transfer of Courses – Advanced (3000- and 4000-level at the University of Arkansas) engineering courses may not normally be transferred from institutions that do not have programs accredited by the Engineering Accreditation Commission.

5. Resident Requirements – A candidate must earn a minimum of 20 credit hours at the 3000 level and above in the College of Engineering from the University of Arkansas.

6. University Core (State Minimum Core) – The University of Arkansas has adopted a University Core of 35 semester-credit-hours of general education courses that are required of all baccalaureate degree candidates. This is in compliance with Arkansas Act 98 of 1989 and the subsequent action of the Arkansas State Board of Higher Education. Beginning in the fall semester of 1991, all state institutions of higher education in Arkansas have a 35-hour minimum core requirement with specified hours in each of six academic areas. The university and the College of Engineering have identified those courses that meet the minimum requirement, and they are listed in the chart below.

### Specific University Core Requirements for Engineering Students

<table>

</table>

Select one of the following:

- Humanities
- Social Sciences

Total Hours: 36

* Must be selected from the university-approved list of lower level Humanities, Fine Arts and Social Science courses found in the main University Core (http://catalog.uark.edu/undergraduatecatalog/academicregulations/universitycore/) list.

### Minors in Other Colleges and Schools

Students in the College of Engineering may pursue an academic minor in other colleges. For example, a minor in business is popular among engineering students. For requirements regarding minors, check the catalog listing for the department offering the minor. Students must notify the College of Engineering dean’s office of their intent to pursue a minor.

### Requirements to Graduate with Honors

Students who have demonstrated exceptional academic performance in baccalaureate degree programs will be recognized at graduation by the honors designation of *cum laude*, *magna cum laude*, or *summa cum laude*. To earn this designation, the student must meet the following criteria:

1. Must have completed at least one-half of his or her degree work at the University of Arkansas;
2. Must have at least a 3.50 GPA on University of Arkansas course work, computed at graduation (students with grade-point averages lower than 3.50 do not receive honors designation at graduation);
3. Must successfully complete the Engineering Honors Program, which includes a minimum of 12 hours of honors courses (at least 6 of these hours in engineering), an undergraduate research experience and thesis, and any additional departmental requirements;
4. Research and thesis material shall be evaluated by each department;
5. For *cum laude*, the student must achieve a GPA of 3.50 or higher and have good or better performance on the undergraduate research and thesis;
6. For *magna cum laude*, the student must achieve a GPA of 3.75 or higher and have good or better performance on the undergraduate research and thesis;
7. For *summa cum laude*, the student must achieve a GPA of 3.90 or higher and have outstanding performance on the undergraduate research and thesis.

The criteria may be evaluated and changed periodically by the College of Engineering.

### Requirements to Graduate with Distinction

Students who have not completed the Engineering Honors Program but have demonstrated excellent academic performance in baccalaureate degree programs will be recognized at graduation by the designation of “with distinction,” “with high distinction,” or “with highest distinction.” To earn these designations, the student must meet the following criteria on his or her University of Arkansas course work:

1. Must have completed at least one-half of his or her degree work at the University of Arkansas;
2. For “with distinction,” the student must achieve a GPA of 3.60 or higher;
3. For “with high distinction,” the student must achieve a GPA of 3.75 or higher;
4. For “with highest distinction,” the student must achieve a GPA of 3.90 or higher.
The criteria may be evaluated and changed periodically by the College of Engineering.

Graduate Studies
The College of Engineering, in cooperation with the UA Graduate School, offers programs leading to the following graduate degrees:

- Master of Science in Biological Engineering (M.S.B.E.)
- Master of Science in Biomedical Engineering (M.S.Bm.E.)
- Master of Science in Chemical Engineering (M.S.Ch.E.)
- Master of Science in Civil Engineering (M.S.C.E.)
- Master of Science in Computer Engineering (M.S.Cmp.E.)
- Master of Science in Computer Science (M.S.)
- Master of Science in Electrical Engineering (M.S.E.E.)
- Master of Science in Engineering (M.S.E.)
- Master of Science in Environmental Engineering (M.S.En.E.)
- Master of Science in Industrial Engineering (M.S.I.E.)
- Master of Science in Mechanical Engineering (M.S.M.E.)
- Master of Science in Operations Management (M.S.O.M.)
- Doctor of Philosophy in Computer Science (Ph.D.)
- Doctor of Philosophy in Engineering (Ph.D.)

In addition, the College of Engineering supports the following interdisciplinary graduate programs:

- Master of Science in Cellular and Molecular Biology (M.S.)
- Master of Science in Microelectronics-Photonics (M.S.)
- Master of Science in Space and Planetary Sciences (M.S.)
- Doctor of Philosophy in Cellular and Molecular Biology (Ph.D.)
- Doctor of Philosophy in Microelectronics-Photonics (Ph.D.)
- Doctor of Philosophy in Space and Planetary Sciences (Ph.D.)

Further information concerning these programs may be found in the Graduate School Catalog or in the office of the dean of the Graduate School.

Accreditations
As the only comprehensive engineering program in Arkansas, the College of Engineering offers undergraduate, graduate, and doctoral degrees through eight academic departments. UA engineering programs have been continuously accredited by ABET since 1936.

The College of Engineering offers the following programs accredited by the Engineering Accreditation Commission of ABET. Visit http://www.abet.org.

- Bachelor of Science in Biological Engineering (B.S.B.E.)
- Bachelor of Science in Biomedical Engineering (B.S.Bm.E.)
- Bachelor of Science in Chemical Engineering (B.S.Ch.E.)
- Bachelor of Science in Civil Engineering (B.S.C.E.)
- Bachelor of Science in Computer Engineering (B.S.Cmp.E.)
- Bachelor of Science in Electrical Engineering (B.S.E.E.)
- Bachelor of Science in Industrial Engineering (B.S.I.E.)
- Bachelor of Science in Mechanical Engineering (B.S.M.E.)

The College Engineering offers the following program accredited by the Computing Accreditation Commission of ABET. Visit http://www.abet.org.

- Bachelor of Science in Computer Science (B.S.)

Degrees Offered
The College of Engineering offers programs leading to the following eight undergraduate degrees:

- Bachelor of Science in Biological Engineering (p. 787) (B.S.B.E.)
- Bachelor of Science in Biomedical Engineering (p. 793) (B.S.Bm.E.)
- Bachelor of Science in Chemical Engineering (p. 829) (B.S.Ch.E.)
- Bachelor of Science in Civil Engineering (p. 797) (B.S.C.E.)
- Bachelor of Science in Computer Engineering (p. 802) (B.S.Cmp.E.)
- Bachelor of Science in Computer Science (p. 802) (B.S.)
- Bachelor of Arts in Computer Science (p. 802) (B.A.)
- Bachelor of Science in Data Science (p. 108) (B.S.) (interdisciplinary program)
- Bachelor of Science in Electrical Engineering (p. 809) (B.S.E.E.)
- Bachelor of Science in Industrial Engineering (p. 816) (B.S.I.E.)
- Bachelor of Science in Mechanical Engineering (p. 822) (B.S.M.E.)

Minors
- Data Analytics (p. 809)

Other Programs

Off-Campus Programs
The College of Engineering at the University of Arkansas (UofA) is offering the Bachelor of Science degrees in Electrical Engineering and Mechanical Engineering at the University of Arkansas at Fort Smith (UAFS). Upper-division courses are taught in person or through distance-learning technology by UAF Faculty, and lower-division courses are taught by UAFS faculty. The degree is awarded by University of Arkansas (UofA), but all classes are offered at the UAFS campus.
Cooperative Education
Kelsey Lavigne
Career Development Center, College of Engineering, Bell 3158
(479) 575-6201, Fax: (479) 575-7744, klavigne@uark.edu

Cooperative education (co-op) is an academic program that allows students to gain practical work experience prior to graduation. Over the years thousands of engineering students have participated in the co-op program at the University of Arkansas, gaining experience related to their major locally, within the state, across the nation, and internationally. Students work either full- or part-time in paid, degree-related jobs, and the skills they acquire allow them to step into their first full-time positions ready to contribute in ways that other students cannot. The material below will give more information about the co-op program.

Forms of Cooperative Education: Alternating and Parallel

In an alternating plan, students alternate between semesters of on-campus study and semesters off-campus at their co-op work site. Students can take a maximum of 3 credit hours of course work during the off-campus co-op periods. In a parallel co-op, students work part-time for a local company (less than 25 hours each week) and attend school at least half-time (6 credit hours). In either plan the student is considered a full-time student.

By participating in Cooperative Education, students have the chance to:

• Gain hands-on experience in a real world setting
• Confirm the choice of their major
• Make valuable industry contacts
• Enhance their communication skills
• Make money while also taking classes
• Lay the foundations for a future full-time job

Requirements and Conditions

• GNEG 3801 (undergraduate students working part-time):
  • Must have completed 30 hours towards engineering degree.
  • Must have a minimum of 2.25 cumulative GPA.
  • Must be enrolled at least half-time and must be working part-time at co-op.
• GNEG 3811 (undergraduate students working full-time):
  • Must have completed 30 hours toward engineering degree.
  • Must have a minimum of a 2.25 cumulative GPA.
  • Must be working full-time and must not be enrolled in more than 3 credit hours.
  • Must have at least 12 hours of coursework in their major remaining upon return to campus.
• GNEG 5801 (graduate students working part-time):
  • Completed at least 6 hours towards engineering degree.
  • Have a minimum of a 3.0 cumulative GPA.
  • Must be enrolled at least half-time and must be working part-time at co-op.
  • Must have approval of their thesis/dissertation advisor prior to interviewing for co-op positions.
• GNEG 5811 (graduate students working full-time):
  • Completed at least 6 hours towards engineering degree.
  • Have a minimum of a 3.0 cumulative GPA.
  • Must be working full-time and must not be enrolled in more than 3 credit hours.
  • Must have at least 3 hours of non-thesis, dissertation, or research hours remaining upon return to campus.
  • Must have approval of their thesis/dissertation advisor prior to interviewing for co-op positions.
  • Students who are TA’s, GA’s, or RA’s in the term of their work experience are not eligible for this course.

Transfer Students

• Must have completed one semester of full-time study in the College of Engineering.
• Must meet all other co-op requirements.
• F-1 Students
  • Must have completed nine months of study in the United States.
  • Must meet all other co-op requirements.

Full-time co-op assignments consist of the following scenarios:

• One semester away from campus (Spring, Summer, or Fall).
• One summer and one semester away from campus (Spring OR Summer & Fall).
• Alternating Semesters between Spring, Summer, and Fall.

Students who are away from campus for 2 semesters in one year, are eligible for only one semester away the following year with no more than three co-op semesters in a 24-month period. (Exceptions to this must be approved in advance by their departmental co-op representative.) Students who are going to be away from campus for the Fall and Spring semester in the same academic must receive prior approval from their departmental co-op representative.

Study Abroad Programs

The College of Engineering actively encourages engineering students to obtain an international experience while pursuing an engineering degree. Students have several opportunities to join engineering faculty-led programs in India, Belize and Spain as well as opportunities within the Southeastern Conference Academic Consortium (SECAC). For more information on study abroad opportunities, contact the Assistant Dean for International Programs, 479-575-7236.

Dual-Degree Transfer Programs

The College of Engineering recognizes that a graduate engineer, to be of full service to community, must be educated in the social sciences and humanities as well as in technical subjects. The practice of industry to elevate engineers to managerial and administrative positions elevates the desirability of a broad educational background. Likewise, most universities within Arkansas do not offer a degree in engineering. Accordingly, the College of Engineering of the University of Arkansas has entered into a cooperative program with several Arkansas “partner” universities to provide for dual-degree programs that lead to a Bachelor of Science degree from the partner university and an engineering degree from the University of Arkansas. Typically, a student spends two to three years at the partner university and then completes an engineering curriculum in two to three years at the University of Arkansas. The student is awarded the Bachelor of Art/Bachelor of Science degree by the partner university and the Bachelor of Science in an engineering discipline by the University of Arkansas. More information is available at www.engr.uark.edu/transfer (http://www.engr.uark.edu/transfer.php)
Honors Program
The College of Engineering has established an honors program to challenge superior students with a more in-depth academic program and research experience and to provide a structure for working more closely with faculty members and other students in a team environment. An honors program is highly recommended for individuals planning academic or research related careers that require considerable critical and original independent thinking. Admission requirements for the college’s Honors Program are as follows: entering freshmen must have at least a 3.5 high school GPA and at least a 28 composite score on the ACT or SAT equivalent; entering transfer students must have at least a 3.5 GPA on their transfer work. Students not initially qualifying for the Engineering Honors Program are eligible if they earn a 3.500 cumulative GPA at the University of Arkansas.

Students must formally apply for admission to the Honors Program by completing the online application. The application is available at Honors College website (https://honors-application.uark.edu/). Once accepted into the program, Honors students take a minimum of 12 hours of Honors courses (a minimum of 6 of these 12 hours must be in engineering), participate in undergraduate research and write an undergraduate thesis, and must fulfill any additional departmental requirements. To receive Latin honors distinction at graduation, a student must hold a cumulative GPA of 3.500 or better (for all course work, computed at graduation).

Deadlines related to the Honors Program are as follows:
1. A Honors Advising Form is to be completed prior to a student earning 100 semester hours.
2. Honors College Graduation Certification is to be completed prior to one week before the last day of classes of the student’s last semester.

All freshman enrolling in the College of Engineering may participate in an Eight-Semester Degree Completion Program (p. 86).

All students who want to pursue an engineering degree or a Bachelor of Science in Computer Science should follow the plan below for the first two semesters, at the end of which they may finish an eight-semester plan in Computer Science (p. 802) (B.S.) or choose from among any of the engineering fields: Biological Engineering (p. 787), Biomedical Engineering (p. 793), Chemical Engineering (p. 829), Civil Engineering (p. 797), Computer Engineering (p. 802), Electrical Engineering (p. 809), Industrial Engineering (p. 816), or Mechanical Engineering (p. 822).

Biological and Agricultural Engineering Website (https://bio-ag-engineering.uark.edu/)

Healthy Planet, Healthy People: this is the aspiration for the Biological Engineering program at the University of Arkansas. We improve people’s lives today and help assure a prosperous world for tomorrow by designing sustainable water, food, and energy systems. Where challenges exist, we create solutions by optimizing the living systems of our world (the interactions of human, plant, animal, environment, food, and microbes) using the tools of engineering and biotechnology. Biological engineers contribute significantly to human health and prosperity by ensuring a safe and readily available water supply, a safe and nutritious food supply, and a healthy ecosystem upon which both water and food depend.

The faculty of the Biological Engineering program seeks to provide a challenging technical education in a safe, secure and inclusive learning environment.
environment that promotes a desire for service and prepares graduates to:

1. Successfully practice engineering involving the design and management of sustainable water, food, energy and related biological systems.
2. Make ethical, valuable and sustained contributions that benefit employers, communities, Arkansas and the world, and
3. Succeed in graduate education or continuing professional development, as needed for professional growth and licensure.

A Bachelor of Science degree in Biological Engineering is a job-ready degree with opportunities in a variety of industries, government agencies, and consulting firms. It is also excellent preparation for graduate studies (M.S. or Ph.D.) in engineering and related fields, as well as entry into other professional schools (e.g., medical, veterinary, dental, pharmacy, etc.).

The B.S. in Biological Engineering degree can lead immediately to careers in:

- Ecological engineering, such as water quality and watershed management, water resources and irrigation, low impact development in urban watersheds, stream and habitat restoration, and air quality remediation.
- Food and bio-product process engineering, such as food processing, forest products, biotechnology, biofuels, waste treatment and by-product utilization.
- Sustainable resource engineering, such as sustainable agriculture to expand the food supply for a growing population; renewable and bio-energy development; life cycle analysis to assess, design and manage complex biological systems; efficient utilization of organic residues and by-products; conservation of Earth’s finite resources.

Completion of degree requirements provides graduates with the following learning outcomes:

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- An ability to communicate effectively with a range of audiences
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Requirements for B.S. in Biological Engineering

The undergraduate program in biological engineering, leading to a Bachelor of Science degree in Biological Engineering, is accredited by the Engineering Accreditation Commission of ABET (http://www.abet.org). The B.S. in Biological Engineering degree is conferred by the College of Engineering and is granted after the successful completion of 128 hours of approved course work.

Diverse applications of biological engineering can be pursued through elective coursework. Each student is required to complete 12 semester hours of biological/engineering/technical electives that are relevant to their career goals. At least 3 hours must be selected from a list of acceptable biological electives. At least 3 hours must be engineering courses within BENG or other engineering programs. The remaining hours can be selected from engineering, math, biology, agriculture, sustainability, and other science/technical areas. A list of suggested electives is maintained by the department. Students may petition their adviser to seek approval of other electives that are not on this list. Courses must provide engineering or technical content that is value-added (i.e. not duplicating or remedial) and meets the career goals of the student.

Biological Engineering B.S.B.E. Eight-Semester Degree Program

The Bachelor of Science in Biological Engineering program is eligible for students who want to participate in an Eight Semester Degree Program. See the Eight-Semester Degree Policy (p. 86) for more details. The plan below lists a semester-by-semester sequence of courses to finish the degree in eight semesters. University core courses for engineering are listed at the bottom of this page. Students may submit a maximum of four (4) hours of “D” in BENG Courses for their degree.

Some courses are not offered every semester, so students who deviate from the suggested sequence must pay careful attention to course scheduling and course pre-requisites.

Costello, Thomas A., Ph.D. (Louisiana State University), M.S.Ag.E., B.S.Ag.E. (University of Missouri-Columbia), Associate Professor, 1986.
Haggard, Brian Edward, Ph.D. (Oklahoma State University), M.S. (University of Arkansas), B.S. (Missouri University of Science and Technology), Professor, 2006.
Henry, Christopher Garrett, Ph.D. (University of Nebraska-Lincoln), M.S., B.S. (Kansas State University), Associate Professor, 2011.
Kim, Jin-Woo, Ph.D. (Texas A&M University), M.S. (University of Wisconsin-La Crosse), B.S. (University of Iowa), Professor, 2001.
Le, Kieu Ngoc, Ph.D. (North Carolina Agricultural and Technical State University), M.S. (North Carolina Agricultural and Technical State University), B.E., B.S. (Cantho University, Vietnam), Instructor, 2017.
Li, Yanbin, Ph.D. (Pennsylvania State University), M.S. (University of Nebraska-Lincoln), B.S. (Shenyang Agricultural University), Distinguished Professor, 1989.
Liang, Yi, Ph.D. (University of Alberta, Canada), M.S., B.S. (China Agricultural University, Beijing, China), Associate Professor, 2007.
Loewer, Otto J., Ph.D. (Purdue University), M.S. (Michigan State University), B.S. (Louisiana State University), Professor, 1996.
Matlock, Marty D., Ph.D., M.S., B.S. (Oklahoma State University), Professor, 2001.
Osborn, G. Scott, Ph.D. (North Carolina State University), M.S., Ag.E., B.S. (University of Kentucky), Associate Professor, 2001.
Runkle, Benjamin R.K., Ph.D., M.S. (University of California–Berkeley), B.S. (Princeton University), Assistant Professor, 2014.
Sadaka, Sammy, Ph.D. (Dalhousie University, Canada, and Alexandria University, Egypt), M.S., B.S. (Alexandria University, Egypt), Associate Professor, 2007.
VanDevender, Karl, Ph.D. (University of Arkansas), M.S., B.S. (Mississippi State University), Professor, 1995.
Verma, Lalit R., Ph.D. (University of Nebraska-Lincoln), M.S. (University of Montana), B. Tech. (J.N. Agricultural University, Jabalpur, India), Professor, 2000.
Zhu, Jun, Ph.D. (University of Illinois at Urbana-Champaign), M.S., B.S. (Zhejiang University, Hangzhou, China), Professor, 2013.

Courses
BENG 2632. Biological Engineering Design Studio. 2 Hours.
Application of the engineering design process to projects involving living systems. Projects are team-based open-ended design with hands-on construction and testing of design prototypes. Emphasis is placed on understanding, quantifying and controlling complex interacting living systems involving humans, animals, plants and microbes with the goal of creating economically and ecologically sustainable systems. 4 hours of design studio per week. Pre- or Corequisite: PHYS 2054 and BIOL 1543 and BIOL 1541L, and (GNEG 1111 or GNEG 1103). (Typically offered: Fall)

BENG 2643. Biological Engineering Methods I. 3 Hours.

BENG 3113. Measurement and Control for Biological Systems. 3 Hours.
Principles of sensors, instruments, measurements, controls, and data acquisition systems, with emphasis on applications for biological systems; including basic circuit analysis, sensor calibration and hardware selection. Basic process monitoring and control methods, including hardware and software. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: PHYS 2074. (Typically offered: Spring)

BENG 3113H. Honors Measurement and Control for Biological Systems. 3 Hours.
Principles of sensors, instruments, measurements, controls, and data acquisition systems, with emphasis on applications for biological systems; including basic circuit analysis, sensor calibration and hardware selection. Basic process monitoring and control methods, including hardware and software. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: PHYS 2074 and honors candidacy. (Typically offered: Spring) This course is equivalent to BENG 3113.

BENG 3653. Global Bio-Energy Engineering. 3 Hours.
Global energy sources with a focus on renewable energy, solar and biomass derived fuels. Biomass energy production from crops and organic residues or waste products. Conversion of biomass to usable fuels. Utilization of renewable energy in society. Includes detailed systems analyses to examine inputs, efficiencies, usable outputs and by-products. Systems design to select and integrate components which meet client needs while maximizing sustainable global impacts. Three hours of lecture per week. Pre- or Corequisite: MEEG 2403 or CHEG 2313. (Typically offered: Fall)
BENG 3663. Biological Engineering Methods II. 3 Hours.
Modeling biological processes to predict system behavior as part of the design process. Development and use of spreadsheets and script programming code to represent biological phenomena and processes. Introduction to experimental design as applied to biological processes, including data collection and analysis, and elementary statistics. Use of engineering economics to aid comparisons of alternatives. Analysis of engineering designs and management practices to best meet the needs of society and the client in areas of sustainable water, food and energy systems. Lecture 2 hours and lab 3 hours per week. Corequisite: Lab component. Prerequisite: Lab component. (Typically offered: Fall)

BENG 3723. Unit Operations in Biological Engineering. 3 Hours.
Design of basic unit operations typical of biological engineering practice; unit operations include pump-pipe, fan-duct, moist air (psychrometric) processes (cool/heater/humidifier/dryer), air mixing, aeration, and refrigeration; unit operations design will account for unique constraints imposed by biological systems. Lecture 2 hours and lab 3 hours per week. Corequisite: Lab component. Prerequisite: (MEEG 2403 or CHEG 2313) and (CVEG 3213 or CHEG 2133 or MEEG 3503). (Typically offered: Spring)

BENG 3733. Transport Phenomena in Biological Systems. 3 Hours.
Basic principles governing transport of energy and mass. Estimating transfer of energy (heat) through solid bodies and liquid/gas boundary layers through conduction, convection, and radiation. Modeling the rates at which biological reactions occur (kinetics). Estimating the transfer of diffusing mass (gas or liquid) through solid bodies and liquid/gas boundary layers, including processes such as drying and oxygen diffusion. Three hours lecture per week. Pre- or Corequisite: (CVEG 3213 or MEEG 3503 or CHEG 2133) and MATH 2584. Prerequisite: (MEEG 2403 or CHEG 2313). (Typically offered: Fall)

BENG 4123. Biosensors & Bioinstrumentation. 3 Hours.
Principles of biologically based sensing elements and interfacing techniques. Design and analysis methods of biosensing and transducing components in bioinstrumentation. Applications of biosensors and bioinstrumentation in bioprocessing, bioenvironmental, biomechanical and biomedical engineering. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: BIOL 2013 or BIOL 2533 and BENG 3113. (Typically offered: Spring Odd Years)

BENG 450V. Special Problems. 1-4 Hour.
Selected problems in biological engineering are pursued in detail. Prerequisite: Senior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 4 hours of degree credit.

BENG 451VH. Honors Thesis. 1-6 Hour.
Honors thesis. Prerequisite: Honors candidacy. (Typically offered: Fall, Spring and Summer)

BENG 452V. Special Topics in Biological Engineering. 1-6 Hour.
Special topics in biological engineering not covered in other courses. Prerequisite: Engineering student. (Typically offered: Irregular) May be repeated for up to 8 hours of degree credit.

BENG 4663. Sustainable Biosystems Designs. 3 Hours.
Process and methodologies associated with measuring, assessing, and designing sustainable systems in water, energy and food. Quantitatively rigorous methodology for life cycle analysis (LCA) for inventory, assessment and impact analyses. Use of other systems analyses and process control theory to evaluate and design sustainable systems. Application of the methods to a project to gain experience in defining, quantifying and utilizing sustainable metrics. Three hours lecture per week. Prerequisite: BENG 3653. (Typically offered: Spring)

BENG 4743. Food and Bio-Product Systems Engineering. 3 Hours.
Sustainable bio-product engineering through biosystem design, analysis, modeling, control, and optimization. Life cycle phases for bio-products (food, fiber, feed, and fuel). System analysis of inputs and outputs of energy, water and mass for the purpose of producing and processing biomass for human uses. Advanced bio-process design topics to utilize enzymes, cells, tissues and organisms to create bio-products and methods for deactivating biological agents to preserve the quality and safety of food and other bio-products. Three hours lecture per week. Pre- or corequisite: BENG 3733. Prerequisite: BENG 3723. (Typically offered: Fall)

BENG 4753L. Nanotechnology Laboratory. 3 Hours.
Provides students with hands-on experience in several major areas of nanotechnology, including nanoscale imaging, synthesis of nanomaterials, nanostructure assembly and manipulation, device and system integration, and performance evaluation. Students can earn credit for only one of the following courses: MEEG 4323L, BENG 4753L, BMEG 4103L, CHEM 4153L, PHYS 4793L. Corequisite: Drill component, junior standing and instructor consent. Prerequisite: MATH 2564, PHYS 2074, and CHEM 1123. (Typically offered: Fall)
This course is cross-listed with MEEG 4323L, CHEM 4153L, PHYS 4793L.

BENG 4812. Senior Biological Engineering Design I. 2 Hours.
Introduction of comprehensive two-semester team-design projects to design processes, devices and systems to meet needs of clients in sustainable water, food and energy. Practice in following the design process, including the definition of design objectives and constraints, establishing functions and performance criteria, generating alternatives and evaluating alternatives through analysis, modeling and prototype testing; exploring relevant design considerations including performance, efficiency, costs, environmental impacts, sustainability and stewardship, safety and ethics. Developing analytic capability; and practicing design optimization to find best alternative for the client. Lecture 1 hour, laboratory 3 hours per week. Prerequisite: Instructor consent. Corequisite: Lab component. (Typically offered: Fall)

BENG 4823. Senior Biological Engineering Design II. 3 Hours.
Completion of comprehensive two-semester team-design projects to design processes, devices and systems to meet needs of clients in sustainable water, food and energy. Focus on building of prototypes or models, system optimization, evaluation and improvement. Final design details packaged to meet the needs of the client. Interaction with appropriate persons from other disciplines. Written and oral reporting. Communications with peers, supervisor, clients and the public. Lecture 1 hour per week, two 2-hour lab periods per week. Prerequisite: BENG 4812. Corequisite: Lab component. (Typically offered: Spring)

BENG 4831. Biological Engineering Professionalism. 1 Hour.
Preparation to be job-ready, employable and successful in transition to a professional career and further study in Biological Engineering. Introduction to job and graduate study searches. Professional and ethical responsibilities; professional registration. Conflict, change and project management. Effective communications and interactions with supervisors, peers, clients, and stakeholders. Two hour discussion section per week. Prerequisite: Senior standing. (Typically offered: Fall)

BENG 4933. Sustainable Watershed Engineering. 3 Hours.
Provides students with expertise in using advanced tools in watershed monitoring, assessment, and design. Builds on core competencies in hydrology and hydraulics to allow student to evaluate water used by sector in water management regions; evaluate and quantify water demands by sector with emphasis on irrigation; develop risk-based simulations of hydrologic processes, including precipitation, evaporation-transportation, infiltration, runoff, and stream flow; quantify and simulate constituent loading to watersheds using GIS-based models, and understand the applications of these methods in water resource management policy. Three hours lecture per week. Prerequisite: CVEG 3223. (Typically offered: Fall)
BENG 4963. Modeling Environmental Biophysics. 3 Hours.
Interactions between the biosphere and the atmosphere. Connecting the physical environment of solar energy, wind, soil, and hydrology to the biosphere through plant ecophysiology. Boundary layer meteorology, photosynthesis and boundary layer modeling strategies, and the soil-plant-atmosphere continuum. Instrumentation, measurement and modeling strategies for understanding leaf-, landscape- and regional behaviors; and, the transfer, kinetics, and balance of momentum, energy, water vapor, CO2, and other atmospheric trace gases between the landscape (vegetation and soil) and the atmosphere. Applications in sustainable agriculture, irrigation, land and water resources, and modeling plant water use and carbon uptake strategies. Three hours of lecture per week. Prerequisite: MATH 2564 and (BENG 4933 or CVEG 3223). (Typically offered: Spring Even Years)

BENG 4973. Practice in Water Quality Monitoring and Analysis. 3 Hours.
Application of water quality principles to a real world problem. Team project experience developing quality assurance project plans, designing monitoring systems, selecting chemical analysis methods, estimating loads, performing trend analysis, basic model calibration and validation, and technical report writing and oral presentations. Working with various clientele to analyze water quality data in the context of evaluating real-world problems and issues. Technical course intended for students in engineering, environmental sciences, agriculture and biology. Three hours of lecture per week. Prerequisite: CVEG 3213 or instructor's consent to allow interdisciplinary student teams. (Typically offered: Spring Odd Years)

Biomedical Engineering (BMEG)

Biomedical Engineering Website (http://biomedical-engineering.uark.edu/)

Biomedical engineering encompasses the creation, design, and operation, of processes / technology related to the broad field of human healthcare. The profession traditionally has focused on applications related to the development of instrumentation and diagnostic equipment, discovery of novel treatment options, production of new therapeutics, and the elucidation of underlying biophysical phenomena. Newer applications of bioengineering take advantage of the ever deepening understanding of human physiology and molecular genetics, as related to prevention, detection, and treatment of medical conditions. The program objectives of the Biomedical Engineering undergraduate program are to produce graduates who are capable of:

- Succeeding in practice at the interface between life science and engineering, in other professional activities, or in post-baccalaureate studies, and
- Utilizing their engineering education/experience in creating new knowledge or enabling technologies for improvement of human health and healthcare, and
- Conducting themselves with high standards of professional ethics and integrity, and
- Being aware of the limits of their knowledge and initiate self-directed learning to create future professional opportunities for themselves in biomedical engineering.

Completion of the degree requirements provides for the following educational outcomes and ability to:

- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- Communicate effectively with a range of audiences
- Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts
- Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusion
- Acquire and apply new knowledge as needed, using appropriate learning strategies.

These educational outcomes are experienced within the context of biology and physiology appropriate to solving problems at the interface of engineering and biology.

Requirements for B.S. in Biomedical Engineering
Technical Options in Biomedical Engineering
Each student in biomedical engineering is required to complete nine semester hours of biomedical engineering technical electives. Biomedical engineering technical elective courses must be selected from a faculty-approved list of courses found in the department’s Undergraduate Advising Handbook, which is available on the department’s website (http://biomedical-engineering.uark.edu/). Elective courses are chosen with the aid of an academic adviser to better prepare for employment or further study in areas such as:

- Bioengineering
- Pharmaceutical manufacturing or pharmacology
- Biomedical device design
- Medicine
- Business
- Law

Technical Elective Course
Each student in biomedical engineering is required to complete three semester hours of upper level science electives. Upper level (3000 and above) science electives will be chosen from courses in mathematics, engineering, and the sciences with the approval of their adviser. The department maintains a list of approved upper level science electives that may be found in the department's Undergraduate Advising Handbook, which is available on the department’s website (http://biomedical-engineering.uark.edu/).

Biomedical Engineering B.S.Bm.E. Eight-Semester Degree Program
The following section contains the list of courses required for the Bachelor of Science in Biomedical Engineering degree and a suggested sequence for students who enter the College through the Freshman Engineering Program. Not all courses are offered every semester, so students who deviate from the suggested sequence must pay careful attention to course scheduling and course prerequisites. Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree
Policy (p. 86) in the Academic Regulations chapter for university requirements of the program.

### Honors Program Requirements

Students enrolled in the Honors College who are to receive the Bachelor of Science in Biomedical Engineering must complete a minimum of 12 hours of honors credit. At least 6 hours must be completed within the Biomedical Engineering program including at least 3 hours resulting in an
Honors Thesis. The BMEG honors courses are acceptable as engineering electives and in some cases may be substituted for required courses.

Balachandran, Kartik, Ph.D., M.S. (Georgia Institute of Technology), B.S. (National University of Singapore), Associate Professor, 2012.
Eisaadany, Mostafa, Ph.D. (University of Toledo), Teaching Assistant Professor, 2019.
Jensen, Hanna Katarina, Ph.D. (University of Oulu, Finland), Research Assistant Professor, 2015.
Jensen, Morten O., Ph.D. (University of Aarhus, Denmark), M.Sc. (Georgia Institute of Technology), Associate Professor, 2014.
Kim, Myunghae Michelle, Ph.D., B.S. (University of Texas at Austin), Clinical Assistant Professor, 2013.
Muldoon, Timothy J., M.D. (Baylor College of Medicine), Ph.D. (Rice University), B.S. (Johns Hopkins University), Associate Professor, 2012.
Nelson, Christopher, Ph.D. (Vanderbilt University), Assistant Professor, 2019.
Puvanakrishnan, Priyaveena, Ph.D. (University of Texas at Austin), Instructor, 2015.
Qian, Xianghong, Ph.D., M.Phil. (George Washington University), B.S. (Nanjing University, P.R. China), Professor, 2011.
Quinn, Kyle P., Ph.D. (University of Pennsylvania), B.S. (University of Wisconsin), Assistant Professor, 2014.
Rajaram, Narasimhan, Ph.D. (University of Texas, Austin), B.E. (Anna University, India), Assistant Professor, 2014.
Rao, Raj R., Ph.D. (University of Georgia), M.S. (University of Texas, M.Sc., B.E. (Birla Institute of Technology and Sciences, India), Professor, 2016.
Song, Young Hye, Ph.D. (Cornell University), Assistant Professor, 2019.
Wolchok, Jeffrey Collins, Ph.D. (University of Utah), M.S., B.S. (University of California at Davis), Associate Professor, 2011.

Courses

BMEG 2614. Introduction to Biomedical Engineering. 4 Hours.
An introductory course for undergraduate biomedical engineering students. It covers topics such as recombinant DNA technologies, cell and tissue engineering, stem cell and organ regeneration, the biomechanics, bioinstrumentation, engineering of immunity, and bio- and medical imaging, etc. The application of nano-biotechnology in developing clinical products such as tissue engineered products, drug delivery systems, etc. will be emphasized in the course. Prerequisite: BMEG 1123 or BMEG 1124, or MATH 2574 or MATH 3083. (Typically offered: Fall and Summer)

BMEG 2813. Biomechanical Engineering. 3 Hours.
This course introduces basic concepts and principles of biomechanics to biomedical and other engineering students. The course topics include mechanics and materials, viscoelastic properties, bone, cartilage, ligament, tendon, muscle, cardiovascular dynamics, clinical gait analysis, etc. After taking this course, students are expected to understand the application of engineering kinetics to describe motions of human body and mechanic properties of tissues. MATLAB will be used to write and solve biomechanical static and dynamic equations. Lecture 3 hours per week. Prerequisite: BMEG 2614, CHEM 1123, MATH 2564, and PHYS 2074. (Typically offered: Spring)

BMEG 2904. Biomedical Instrumentation. 4 Hours.
This course is designed for biomedical engineering undergraduate students to learn both theoretical and practical concepts of bioinstrumentation and their applications in modern life science and medicine. Analytical experiments will be practiced in the laboratory along with the lecture section. This course covers basic topics in circuits such as charge current, voltage, resistance, power energy, linear network analysis, inductors, capacitors, operational amplifier, time-varying signals, active analog filters, bioinstrumentation design etc. The application of these principles and theories in bioinstrumentation design and development is particularly emphasized in this course. The lab section requires team work, planning, and data sharing. Corequisite: Lab component. Prerequisite: BMEG 2614, MATH 2564 and PHYS 2074. (Typically offered: Spring)

BMEG 3124. Biomedical Signals and Systems. 4 Hours.
This course will introduce students to the basics of signals - continuous and digital signals, and signal processing tools, such as filters, Laplace and Fourier transforms. The ‘systems’ aspect of the course will focus on physiological systems and methods to model such systems. The course will also focus on the biomedical applications of these methods through lab components. Prerequisite: BMEG 2904. (Typically offered: Fall)

BMEG 3634. Biomaterials. 4 Hours.
Introduction to the engineering properties of materials used in biomedical devices and applications. Topics include: atomic properties, structure-property-processing relationships, bulk engineering properties, surface and interfacial properties and applications of materials in biology and medicine. All topics will be reviewed in the context of specific biomedical devices and the engineering principles involved in their design. Corequisite: Lab component. Prerequisite: BMEG 2813, CHEM 1123, and BIOL 1543 and BIOL 1541L. (Typically offered: Fall)

BMEG 3653. Biomedical Modeling and Numerical Methods. 3 Hours.
Application of mathematical techniques to physiological systems. The emphasis will be on cellular physiology and cardiovascular system. Cellular physiology topics include models of cellular metabolism, membrane dynamics, membrane potential, excitability, wave propagation and cellular function regulation. Cardiovascular system topics include models of blood cells, oxygen transport, cardiac output, cardiac regulation, and circulation. Pre- or Corequisite: MATH 2584. Prerequisite: BMEG 2614, and (MATH 2574 or MATH 3083). (Typically offered: Spring)

BMEG 3653H. Honors Biomedical Modeling and Numerical Methods. 3 Hours.
Application of mathematical techniques to physiological systems. The emphasis will be on cellular physiology and cardiovascular system. Cellular physiology topics include models of cellular metabolism, membrane dynamics, membrane potential, excitability, wave propagation and cellular function regulation. Cardiovascular system topics include models of blood cells, oxygen transport, cardiac output, cardiac regulation, and circulation. Pre- or Corequisite: MATH 2584. Prerequisite: BMEG 2614, and (MATH 2574 or MATH 3083). (Typically offered: Spring)

This course is equivalent to BMEG 3653.

BMEG 3801. Clinical Observations and Needs Finding. 1 Hour.
This course involves the introduction of clinical procedures and biomedical devices and technology to biomedical engineering students. Students will tour medical facilities, clinics and hospitals and will participate in medical seminars, workshops and medical rounds. The course prepares students to successfully select and complete a project in the senior capstone course. Prerequisite: BMEG 2813 or BMEG 2904. (Typically offered: Fall and Spring)
BMEG 3824. Biomolecular Engineering. 4 Hours.
Biomolecular Engineering is to design and produce biomolecules, especially proteins, for uses ranging from pharmaceuticals, materials, sensors, transducers, to functional interfaces with conventional engineering materials. The course begins with an introduction to the tools and techniques of molecular biology that are used for protein engineering. Additional topics include recombinant DNA techniques, biochemical kinetics, cell growth reaction and kinetics, bioreactors, membrane processes, and bioprocess purification. There is an associated laboratory with exercises related to lecture topics. Corequisite: Lab component. Prerequisite: BMEG 3634, CHEM 1123, and BIOL 2533. (Typically offered: Spring)

BMEG 3824H. Honors Biomolecular Engineering. 4 Hours.
Biomolecular Engineering is to design and produce biomolecules, especially proteins, for uses ranging from pharmaceuticals, materials, sensors, transducers, to functional interfaces with conventional engineering materials. The course begins with an introduction to the tools and techniques of molecular biology that are used for protein engineering. Additional topics include recombinant DNA techniques, biochemical kinetics, cell growth reaction and kinetics, bioreactors, membrane processes, and bioprocess purification. There is an associated laboratory with exercises related to lecture topics. Corequisite: Lab component. Prerequisite: BMEG 3634, CHEM 1123, and BIOL 2533. (Typically offered: Spring)

This course is equivalent to BMEG 3824.

BMEG 3903. Entrepreneurial Bioengineering. 3 Hours.
The course introduces entrepreneurship, business model canvas, and lean start-up principles to the students with a focus on medical device customer discovery and technology commercialization. Prerequisite: BMEG 2904. (Typically offered: Irregular)

BMEG 4103L. Nanotechnology Laboratory. 3 Hours.
Provides students with hands-on experience in several major areas of nanotechnology, including nanoscale imaging, synthesis of nanomaterials, nanostructure assembly and manipulation, device and system integration, and performance evaluation. Students can earn credit for only one of the following courses: MEEG 4323L, BENG 4753L, BMEG 4103L, CHEM 4153L, PHYS 4793L. Corequisite: Drill component, junior standing and instructor consent. Prerequisite: MATH 2564, PHYS 2074, and CHEM 1123. (Typically offered: Fall)

This course is cross-listed with MEEG 4323L, CHEM 4153L, PHYS 4793L.

BMEG 4103M. Honors Nanotechnology Laboratory. 3 Hours.
Provides students with hands-on experience in several major areas of nanotechnology, including nanoscale imaging, synthesis of nanomaterials, nanostructure assembly and manipulation, device and system integration, and performance evaluation. Students can earn credit for only one of the following courses: MEEG 4323L, BENG 4753L, BMEG 4103L, CHEM 4153L, PHYS 4793L. Corequisite: Drill component, junior standing and instructor consent. Prerequisite: MATH 2564, PHYS 2074, CHEM 1123. (Typically offered: Fall)

This course is cross-listed with MEEG 4323L, CHEM 4153L, PHYS 4793L.

BMEG 4213. Tissue Mechanics. 3 Hours.
The purpose of this course is to introduce students to non-linear biomechanics of soft tissues such as skin, bladder, blood vessels, and the brain. Topics covered: Tissue mechanics: continuum biomechanics, tensor analysis, kinematics of continua, balance laws. Governing physics of mechanics as applied to soft tissues. Various constitutive relations will be discussed: linear elastic, hyperelastic, viscoelastic, poroelastic, and inelastic materials with internal variables. Cannot receive credit for both BMEG 4213 and BMEG 5213. Prerequisite: BMEG 2813, BMEG major and Senior standing. (Typically offered: Irregular)

BMEG 4243. Advanced Biomaterials and Biocompatibility. 3 Hours.
From Absorbable sutures to Zirconium alloy hip implants, biomaterials science influences nearly every aspect of medicine. This course focuses on the study of different classes of biomaterials and their interactions with human tissues. Topics include: biocompatibility; biofouling; hemocompatibility; wound healing response; foreign body response; design of orthopedic, dental and cardiovascular implants; ophthalmological and dermatological materials; degradable polymers for drug delivery; nanobiomaterials; smart biomaterials and the regulation of devices and materials by the FDA. Pre- or Corequisite: BMEG 4623. Prerequisite: BMEG 3634. (Typically offered: Irregular)

BMEG 4503. Biomedical Microscopy. 3 Hours.
An advanced course covering light microscopy techniques, conjugate image planes, principles of contrast, fluorescence imaging, confocal and multi-photon microscopy, electron microscopy, atomic force microscopy, image reconstruction and digital image processing with supporting units in tissue culture and histology. Prerequisite: BMEG 2904, PHYS 2074, BMEG major and Senior standing. (Typically offered: Irregular)

BMEG 4413. Tissue Engineering. 3 Hours.
This course introduces Tissue Engineering approaches at genetic and molecular, cellular, tissue, and organ levels. Topics include cell and tissue in vitro expansion, tissue organization, signaling molecules, stem cell and stem cell differentiation, organ regeneration, biomaterial and matrix for tissue engineering, bioreactor design for cell and tissue culture, dynamic and transportation in cell and tissue cultures, clinical implementation of tissue engineered products, and tissue-engineered devices. Corequisite: Lab component. Prerequisite: BMEG 3824 and BIOL 2533. (Typically offered: Irregular)

BMEG 450VH. Honors Thesis. 1-4 Hour.
Provides Biomedical Engineering students an opportunity to explore a topic in depth through an independent research or design project. Prerequisite: Honors standing. (Typically offered: Spring and Summer) May be repeated for degree credit.

BMEG 4513. Biomedical Optics and Imaging. 3 Hours.
This course will provide students with a fundamental understanding of various biomedical imaging modalities. Topics will include: Basics of light-tissue interaction - absorption, fluorescence, elastic and inelastic scattering; Computational and analytical models of light propagation to quantify tissue optical properties; Optical imaging techniques spectroscopy, tomography, and laser speckle with potential clinical applications; and Clinical imaging modalities and recent advances X-ray, Magnetic Resonance Imaging (MRI), Positron Emission Tomography (PET), Computed Tomography (CT), Ultrasound imaging, and Photacoustic imaging. At the end of this course, students should have a good understanding of optical imaging, spectroscopy, and non-optical imaging modalities, specific anatomical sites that they are best suited for, and the trade-offs between imaging depth and resolution. Students may not receive credit for both BMEG 4513 and BMEG 5513. Prerequisite: BMEG 2904 and senior standing. (Typically offered: Irregular)

BMEG 4523. Biomedical Data and Image Analysis. 3 Hours.
This course focuses on an introduction to image processing and analysis for applications in biomedical research. After a review of basic MATLAB usage, students will learn fundamental tools for processing and analyzing data from a variety of subdisciplines within biomedical engineering. Topics include: filtering, thresholding, segmentation, morphological processing, and image registration. Through exercises involving 1D, 2D, and 3D data, students will develop problem-solving skills and a knowledge base in MATLAB required for customized quantitative data analysis. Students may not receive credit for both BMEG 4523 and BMEG 5523. Prerequisite: BMEG 3124 and BMEG 3653. (Typically offered: Irregular)

BMEG 460V. Individual Study. 1-3 Hour.
Individual study and research of a topic mutually agreeable to the student and faculty member. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.
BMEG 460VH. Honors Individual Study. 1-3 Hour.
Individual study and research of a topic mutually agreeable to the student and faculty member. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit. This course is equivalent to BMEG 460V.

BMEG 4623. Biomedical Transport Phenomena. 3 Hours.
An introduction to the modeling of complex biological systems using principles of transport phenomena and biochemical kinetics. This course will cover molecular transport due to velocity, concentration and thermal gradients. Topics include the conservation relations; rheology of Newtonian and non-Newtonian physiological fluids; regulation of blood flow; steady and transient diffusion in reacting systems; dimensional analysis; transport processes in disease pathology. Prerequisite: BMEG 3653, CHEG 2133 or MEEG 3503, CHEG 2313 or MEEG 2403, and MATH 2584. (Typically offered: Fall)

BMEG 4623H. Honors Biomedical Transport Phenomena. 3 Hours.
An introduction to the modeling of complex biological systems using principles of transport phenomena and biochemical kinetics. This course will cover molecular transport due to velocity, concentration and thermal gradients. Topics include the conservation relations; rheology of Newtonian and non-Newtonian physiological fluids; regulation of blood flow; steady and transient diffusion in reacting systems; dimensional analysis; transport processes in disease pathology. Prerequisite: BMEG 3653, CHEG 2133 or MEEG 3503, CHEG 2313 or MEEG 2403, MATH 2574 and MATH 2584. (Typically offered: Fall) This course is equivalent to BMEG 4623.

BMEG 470V. Special Topics in Biomedical Engineering. 1-4 Hour.
Consideration of current biomedical engineering topics not covered in other courses. Prerequisite: Senior standing. (Typically offered: Irregular) May be repeated for degree credit.

BMEG 4713. Cardiovascular Physiology and Devices. 3 Hours.
Understanding etymology of disease while creating solutions and dedicated devices is the primary focus of biomedical engineering. This course describes an interdisciplinary approach of the clinical and engineering worlds to develop devices for treating cardiovascular disease. The first part of the course will be a thorough review of the relevant anatomic and physiological considerations important for developing devices. Understanding these considerations from an engineering perspective to inform device development will be the second part of the course. Students may not receive credit for both BMEG 4713 and BMEG 5713. Prerequisite: CHEG 2133 or MEEG 3503, and BIOL 2213. (Typically offered: Irregular)

BMEG 4813. Biomedical Engineering Design I. 3 Hours.
This is part one of a two-semester course that introduces students to the basic concepts of design from a biomedical engineering perspective. Groups are organized into teams of 4-5 members. The students put together a development plan and complete an initial prototype. Students will design what is to be fabricated and tested as a medical device or software following design process and product design specification guidelines. Corequisite: Lab component. Pre- or Corequisite: BMEG 4623 and BMEG 2904. (Typically offered: Fall)

BMEG 4823. Biomedical Engineering Design II. 3 Hours.
This is part two of a two-semester course that introduces students to the basic concepts of design from a biomedical engineering perspective. Groups are organized into teams of 4-5 members. The students put together a development plan and complete an initial prototype. Students will design what is to be fabricated and tested as a medical device or software following design process and product design specification guidelines. Corequisite: Lab component. Prerequisite: BMEG 4813. (Typically offered: Spring)

BMEG 4873. Bionanotechnology. 3 Hours.
This is an introductory course relevant to bionanotechnology. The topics covered in this course include nanobiomaterials, nanoparticles, nanowires, nanobiophips, nanobiosensors, and nanobiodevices. The applications of these nanomaterials and devices in clinical diagnostics, disease treatment, point-of-care test and/or point-of-care diagnostics, tele-medical cares, controlled and targeted drug delivery, etc. will be particularly emphasized in the lecture. Prerequisite: BMEG 2813, BMEG 3824, and CHEG 2133 or MEEG 3503. (Typically offered: Irregular)

BMEG 4973. Regenerative Medicine. 3 Hours.
This is an advanced course focusing on tissue engineering and regenerative medicine. Topics include stem cell tissue engineering, cell signaling, transport and kinetics, biomaterials and scaffolds, surface interactions, viral and nonviral-based gene delivery, tissue engineered organs, organ transplantation, nanomedicine, cell replacement therapy, and organ regenerative therapy. Technologies used to grow clinical relevant cells and tissues in lab will also be discussed in this course. Pre- or Corequisite: Senior standing. (Typically offered: Irregular)

BMEG 4983. Genome Engineering and Synthetic Biology. 3 Hours.
Genome Engineering and Synthetic Biology examines contemporary topics in genome engineering and synthetic biology and will be taught using a ‘journal club’-style lecture format. This course covers a broad range of topics in synthetic biology and genome engineering using recently published literature and publicly available data and software and includes an ethics discussion at course end. Prerequisite: BMEG 3653 or DASC 3213. (Typically offered: Fall and Spring)

Civil Engineering (CVEG)
Micah Hale
Head of the Department
4190 Bell Engineering Center
479-575-4954
Department of Civil Engineering Website (https://civil-engineering.uark.edu/)

Civil engineering is the oldest of all engineering fields, yet it is as contemporary as the need to provide solutions to today’s environmental, geotechnical, structural and transportation problems. The civil engineer plans, designs, builds, and operates projects for the advancement and well-being of society while coordinating and conserving human and natural resources. Civil engineering projects range from small to monumental and include public water systems, buildings, bridges, rail and highway networks, water and wastewater treatment plants, solid and hazardous waste disposal facilities, airports, and soil conservation and flood diversion controls.

The civil engineering profession offers a vast array of opportunities. Civil engineers may work in private employment or with public agencies. They may work indoors in activities such as planning and design, or outdoors in areas such as construction supervision. Employment is possible anywhere in the world.

The objective of the Civil Engineering undergraduate program is to produce graduates who are prepared to pursue:

• Careers in the broad field of civil engineering
• Licensure as a professional engineer
• Advanced education

To fulfill this objective, all students must take courses in geotechnical, environmental, transportation, and structural engineering. Courses are designed to present “real world” applications without sacrificing conceptual and theoretical basics. Students complete design problems
in each of these areas; and, as part of the senior year, they participate in two major design projects.

Completion of degree requirements provides graduates with the following learning outcomes:

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- An ability to communicate effectively with a range of audiences
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Requirements for B.S. in Civil Engineering Elective Courses

Students must select three 3-hour civil engineering elective courses in conference with their adviser. Normally, the civil engineering courses are selected from among the 4000-level elective CVEG courses. Exceptional students may be allowed to choose from the 5000 (graduate-level) course series.

Students must also choose one elective course in science, engineering, technology, or math (STEM) field.

Humanities and social science electives are selected from courses approved by the university which satisfy the University Core general education requirement. Lists of approved electives are on file in the department office.

Civil Engineering Design Electives

Students must complete two of the following four CVEG design project electives: CVEG 4812 Environmental Design Project, CVEG 4822 Geotechnical Design Project, CVEG 4832 Structural Design Project, and CVEG 4842 Transportation Design Project. Each design project elective is associated with a specific design-oriented course. The associated course must be taken at the same time as the design project elective. The associated courses may be taken alone but the design electives cannot.

STEM Electives

Students must also choose one elective course in science, engineering, technology, or math (STEM) from among the following:

GEOS 4533 Introduction to Petroleum Geophysics 3
MATH 3083 Linear Algebra 3
MATH 4363 Numerical Analysis 3
Any 3000-level or above science, technology, engineering or math course. (It is recommended that students consult with their adviser when making this selection.)

Civil Engineering B.S.C.E.

Eight-Semester Degree Program

The Civil Engineering B.S.C.E. program is eligible for freshman students who want to participate in an Eight-Semester Degree Program. See the Eight-Semester Degree Policy (p. 86) for details of the program.

The following section contains the list of courses required for the Bachelor of Science in Civil Engineering degree and a suggested sequence. Not all courses are offered every semester, so students who deviate from the suggested sequence must pay careful attention to course scheduling and course prerequisites.

See the list of university core courses (http://catalog.uark.edu/undergraduatetcatalog/academicregulations/universitycore/) available for engineering students.

## Honors Program Requirements

Students enrolled in the Honors College who are to receive the Bachelor of Science in Civil Engineering must complete a minimum of 12 hours of honors credit. At least 6 hours must be completed within the Civil Engineering program including at least 3 hours resulting in an Honors Thesis. The CVEG honors courses are acceptable as engineering electives and in some cases may be substituted for required courses. The following Civil Engineering courses are offered for honors credit: CVEG 491VH Honors Studies in Geotechnical Engineering, CVEG 492VH Honors Studies in Environmental Engineering, CVEG 493VH Honors Studies in Structural Engineering, CVEG 494VH Honors Studies in Transportation Engineering, and CVEG 4983H Honors Undergraduate Thesis.

Bernhardt-Barry, Michelle, Ph.D., M.S.C.E., B.S.C.E. (Texas A&M University), Associate Professor, 2013.
Braham, Andrew P., Ph.D. (University of Illinois-Urbana-Champaign), M.S., B.S. (University of Wisconsin-Madison), Associate Professor, 2010.
Coffman, Rick, Ph.D. (University of Missouri-Columbia), M.S. (University of Texas at Austin), B.S. (University of Wyoming), Associate Professor, 2009.
Dennis, Norman D., Ph.D. (University of Texas at Austin), M.B.A. (Boston University), M.S.C.E., B.S.C.E. (Missouri University of Science and Technology), University Professor, 1996.
Edwards, Findlay, Ph.D. (New Mexico State University), M.S. (University of New Mexico), M.S.C.E. (New Mexico State University), Associate Professor, 1999.
Fairey, Julian, Ph.D. (University of Texas at Austin), B.S.C.E. (University of Alberta, Canada), Associate Professor, 2008.
Fernstrom, Eric, Ph.D. (University of Arkansas), Instructor, 2014.
Gallis, J. L., Ph.D. (Texas A&M University), M.S.C.E. (University of Texas Arlington), B.S.C.E. (University of Arkansas), Professor, 1993.
Hale, Micah, Ph.D., M.S.C.E., B.S.C.E. (University of Oklahoma), Professor, 2002.
Hall, Kevin D., Ph.D. (University of Illinois-Urbana-Champaign), M.S.C.E., B.S.C.E. (University of Arkansas), Professor, 1993.
Hernandez, Sarah, Ph.D., M.S. (University of California, Irvine), B.S. (University of Florida), Assistant Professor, 2015.
Heymsfield, Ernie, Ph.D. (City University of New York), M.S.C.E. (Polytechnic University), Associate Professor, 2001.
Mitra, Suman, Ph.D. (University of California, Irvine), M.S., B.S. (Bangladesh University of Engineering and Technology), Assistant Professor, 2019.
Morrow, Tommy K., Ph.D. (University of Texas at Austin), Instructor, 2019.
Prinz, Gary S., Ph.D, M.S., B.S. (Brigham Young University), Associate Professor, 2014.
Selvam, R. Panneer, Ph.D. (Texas Tech University), M.S.C.E. (South Dakota School of Mines and Technology), M.E., B.E. (University of Madras, India), University Professor, 1986.

Williams, Rodney D., Ph.D., M.S., B.S.C.E. (University of Arkansas), Assistant Professor, 1998.

Williams, Stacy Goad, Ph.D., M.S.C.E., B.S.C.E. (University of Arkansas), Associate Professor, 1997.

Wood, Clinton M., Ph.D. (University of Texas at Austin), M.S.C.E., B.S.C.E. (University of Arkansas), Associate Professor, 2013.

Zhang, Wen, Ph.D. (Purdue University), M.S. (University of Kansas), Assistant Professor, 2011.

Courses
CVEG 2002. Introduction to Civil Engineering Plans and CADD. 2 Hours.
Development and preparation of design and construction plans; plan terminology and features; introduction to computer-aided drafting and design (CADD) software. Corequisite: Drill component. Prerequisite: Civil Engineering major or departmental consent. (Typically offered: Fall, Spring and Summer)

CVEG 2013. Civil Engineering Mechanics I. 3 Hours.
CVEG 2013 provides the student with a foundation in the theory and principles of statics for use in subsequent civil engineering courses. The course applies mathematics and physics to solve practical problems of structural systems. Corequisite: MATH 2574. Prerequisite: MATH 2564 and PHYS 2054. (Typically offered: Fall and Spring)

CVEG 2023 provides the student with a foundation in the theory and principles of mechanics of materials for use in subsequent civil engineering courses. This course applies mathematics and physics to solve problems in mechanics. Prerequisite: CVEG 2013 or MEEG 2003. (Typically offered: Fall and Spring)

CVEG 2051L. Surveying Systems Laboratory. 1 Hour.
Laboratory exercises demonstrating the principles and practices of surveying systems. Corequisite: CVEG 2053. (Typically offered: Fall and Spring)

CVEG 2053. Surveying Systems. 3 Hours.
Coordinate geometry, measurements, and total integrated surveying systems; total stations, electronic data collection, and reduction; error analysis; applications to civil engineering and surveying practice. Corequisite: CVEG 2051L. Prerequisite: MATH 2554 or MATH 2445. (Typically offered: Fall and Spring)

CVEG 2113. Structural Materials. 3 Hours.
Production, properties, behavior, and structural applications of concrete, steel, timber, masonry, and plastic. Statistical analysis methods for quality control are also covered. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: MEEG 2053 or CVEG 2013. Pre- or Corequisite: MEEG 3013 or CVEG 2002. (Typically offered: Fall and Spring)

CVEG 2851. Engineering Professional Practice Issues. 1 Hour.
Study of various issues related to the professional practice of engineering including ethics, professionalism, professional licensure, project procurement, social and political issues, globalization, and other legal issues. (Typically offered: Fall and Spring)

CVEG 3131L. Soil Mechanics Laboratory. 1 Hour.
Index, strength, and consolidation properties of soils; test methods and specifications for soil sampling and testing. Corequisite: CVEG 3132 (Formerly CVEG 3133). (Typically offered: Fall and Spring)

CVEG 3132. Soil Mechanics. 2 Hours.
Introduction to geotechnical engineering. Properties of soils related to foundations, retaining walls, earth structures, and highways. Lecture 2 hours, laboratory 3 hours per week. Corequisite: CVEG 3131L. Pre- or Corequisite: CVEG 3213 and MATH 2584. Prerequisite: (MEEG 3013 or CVEG 2003) and GEOS 1113 and CVEG 2002. (Typically offered: Fall and Spring)

CVEG 3213. Hydraulics. 3 Hours.
Study of incompressible fluids. Topics include fluid properties, fluid statics, continuity, energy and hydraulic gradients, fundamentals of flow in pipes and open channels. Hardy Cross analyses, measurement of flow of incompressible fluids, hydraulic similitude and dimensional analysis. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: CVEG 2013 or MEEG 2003. (Typically offered: Fall and Spring)

CVEG 3223. Hydrology. 3 Hours.
Flood routing procedures in storage reservoirs and channels. Hydrologic planning including storage reservoir design, frequency duration analysis, and related techniques. Prerequisite: (CVEG 2053 or BENG 2643), (CVEG 3213 or MEEG 3503 or CHEG 2133). (Typically offered: Fall and Spring)

CVEG 3243. Environmental Engineering. 3 Hours.
Introduction to theories and fundamentals of physical, chemical, and biological processes with emphasis on water supply and wastewater collection, transportation, and treatment. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: MATH 2584 and CHEM 1103. (Typically offered: Fall and Spring)

CVEG 3303. Structural Analysis. 3 Hours.
Truss analysis, influence lines for beams and frames, and effects of moving loads. Deformation of beams, frames, and trusses. Analysis of indeterminate structures by moment area, slope deflection, and moment distribution methods; approximate methods of analysis. Lecture 3 hours, drill 3 hours per week. Corequisite: Drill component. Prerequisite: MEEG 3013 or CVEG 2023. (Typically offered: Fall and Spring)

CVEG 3413. Transportation Systems Engineering. 3 Hours.
Transportation Systems Engineering: Introduction to transportation systems engineering and planning. Includes the following topics: transportation governance, financing, and the effect on the environment; traffic flow theory; safety; traffic operations and control; capacity; and travel demand modeling. Prerequisite: CVEG 2053 and (INEG 2313 or INEG 3313). (Typically offered: Fall)

CVEG 4053. Land Surveying. 3 Hours.

CVEG 4083. Control Surveys. 3 Hours.
Sun and Polaris observations for astronomic azimuth, solar access studies; control traversing, leveling, triangulation; state plane coordinate systems. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: CVEG 2053 and CVEG 2051L. (Typically offered: Irregular)

CVEG 4143. Foundation Engineering. 3 Hours.
Analysis and design of retaining walls, footings, sheet piles, and piles. Determination of foundation settlements in sand and clay. Prerequisite: CVEG 3132 and INEG 2413. (Typically offered: Fall and Spring)

CVEG 4203. Environmental Regulations and Permits. 3 Hours.
Topics include federal and state environmental regulations, the permitting process, permit requirements and related issues. Prerequisite: CVEG 3243 and senior standing. (Typically offered: Fall)
CVEG 4243. Environmental Engineering Design. 3 Hours.
Application of physical, biological, and chemical operations and processes to the
design of water supply and wastewater treatment systems. Prerequisite: CVEG 3243
and INEG 2413. (Typically offered: Fall and Spring)

CVEG 4263. Air Pollution Control. 3 Hours.
Fundamentals of air pollution causes, effects, and measurements; as well as, control
methods with application to current industrial problems. Prerequisite: CVEG 3213 or
MEEG 3503. (Typically offered: Spring)

CVEG 4273. Open Channel Flow. 3 Hours.
Open Channel Flow includes advanced open channel hydraulics, flow measurement
techniques, a hydrology review, culvert and storm drainage design, natural channel
classification (fluvial geomorphology) and rehabilitation, computer methods and
environmental issues. Prerequisite: CVEG 3213 and CVEG 3223. (Typically offered:
Spring)

CVEG 4303. Reinforced Concrete Design I. 3 Hours.
Design of reinforced concrete elements with emphasis on ultimate strength
design supplemented by working stress design for deflection and crack analysis.
Prerequisite: CVEG 2113 and CVEG 3303. (Typically offered: Fall and Spring)

CVEG 4313. Structural Steel Design I. 3 Hours.
Design of structural steel elements by elastic design the Load and Resistance Factor
Design method. Intensive treatment of tension members, beams, columns, and
connections. Pre- or Corequisite: CVEG 2113. Prerequisite: CVEG 3303. (Typically
offered: Fall and Spring)

CVEG 4323. Structural Loadings. 3 Hours.
Theoretical background to and practical code requirements for various structural
loadings. These include dead loads, occupancy loads, roof loads and ponding, snow
loads, granular loads, vehicular loads, wind loading, and seismic loads. Prerequisite:
CVEG 3303, INEG 2413 and (CVEG 4303 or CVEG 4313). (Typically offered:
Spring)

CVEG 4343. Reinforced Masonry Design. 3 Hours.
Properties of masonry materials and assemblages. Masonry workmanship and
quality control. Design of reinforced masonry elements against gravity and lateral
loads. Design of masonry connections and joints. Application to 1- and 2-story
buildings. Prerequisite: CVEG 4303. (Typically offered: Irregular)

CVEG 4353. Timber Design. 3 Hours.
Selection of timber beams, columns, and beam-columns. Physical properties of
wood, analysis and design of timber connections. Truss design, glulam members,
timber bridge design, treatment for decay, and fire protection. Pre- or Corequisite:
CVEG 2113. Prerequisite: CVEG 3303. (Typically offered: Irregular)

CVEG 4413. Pavement Evaluation and Rehabilitation. 3 Hours.
Introduction of concepts and procedures for pavement condition surveys; evaluation
by nondestructive and destructive testing; maintenance strategies; rehabilitation
of pavement systems for highway and airfields; pavement management systems.
Prerequisite: CVEG 4433. (Typically offered: Irregular)

CVEG 4423. Transportation Infrastructure. 3 Hours.
Transportation infrastructure includes discussion on the geometric design of
roadways, roadway drainage, roadway materials, roadway structural design, and
an economic analysis of roadways. This includes the design of horizontal and vertical
alignment, cross section, intersections, pavement materials, and structural capacity.
Prerequisite: CVEG 3413 and INEG 2413. (Typically offered: Fall and Spring)

CVEG 4433. Transportation Pavements and Materials. 3 Hours.
Study of the engineering properties and behavior of materials commonly used in
transportation facilities as they relate to the design and performance of flexible and
rigid pavement systems. Lecture 2 hours, laboratory 3 hours per week. Corequisite:
Lab component. Prerequisite: CVEG 3132, CVEG 3413, and INEG 2313. (Typically
offered: Irregular)

CVEG 4513. Construction Management. 3 Hours.
Introduction to methods and procedures for management of civil engineering
construction projects including organization, plans and specs, cost estimating and
bidding, project planning and finance, quality control/ assurance, construction
safety, cost management, labor issues, change orders, and subcontractor issues.
Prerequisite: Senior standing and Civil Engineering majors only. (Typically offered:
Fall and Spring)

CVEG 4812. Environmental Design Project. 2 Hours.
Comprehensive engineering design project primarily related to environmental issues.
Corequisite: CVEG 4243. (Typically offered: Spring)

CVEG 4822. Geotechnical Design Project. 2 Hours.
Comprehensive engineering design project primarily related to geotechnical issues.
Corequisite: CVEG 4143. Prerequisite: CVEG 4303. (Typically offered: Fall)

CVEG 4832. Structural Design Project. 2 Hours.
Comprehensive engineering design project primarily related to structural issues.
Corequisite: CVEG 4323. Prerequisite: CVEG 4303 and CVEG 4313. (Typically
offered: Spring)

CVEG 4842. Transportation Design Project. 2 Hours.
Comprehensive engineering design project primarily related to transportation issues.
Corequisite: CVEG 4423. Prerequisite: CVEG 4423. (Typically offered: Fall)

CVEG 4863. Sustainability in Civil Engineering. 3 Hours.
Qualify and quantify the economic, environmental, societal, and engineering drivers
behind sustainability in Civil Engineering. Justification of the feasibility and benefits
of sustainability in environmental, geotechnical, structural, and transportation
engineering through verbal and written communications. Prerequisite: Senior
standing. (Typically offered: Irregular)

CVEG 488V. Special Problems. 1-6 Hour.
Special problems. Prerequisite: Senior standing. (Typically offered: Irregular) May be
repeated for up to 6 hours of degree credit.

CVEG 488VH. Honors Special Problems. 1-6 Hour.
Service Learning in Belize. Prerequisite: Senior standing. (Typically offered:
Irregular)
This course is equivalent to CVEG 488V.

CVEG 4900. Fundamentals of Engineering Seminar. 0 Hours.
Preparation for students taking the Fundamentals of Engineering (FE) examination,
administered by the National Council of Examiners for Engineering and Surveying
(NCEES). Concept review and problem-solving drills for topics covered on the
FE-Civil examination. Prerequisite: Civil Engineering major and senior standing.
(Typically offered: Fall and Spring)

CVEG 491VH. Honors Studies in Geotechnical Engineering. 1-6 Hour.
The study of advanced topics in the geotechnical engineering field. May include
participation in geotechnical engineering courses normally available only to graduate
students. Prerequisite: CVEG 3132 with a grade of C or better. (Typically offered:
Irregular) May be repeated for up to 6 hours of degree credit.

CVEG 492VH. Honors Studies in Environmental Engineering. 1-6 Hour.
The study of advanced topics in the environmental engineering field. May include
participation in environmental engineering courses normally available only to
graduate students. Prerequisite: CVEG 3243 with a grade of C or better. (Typically
offered: Irregular) May be repeated for up to 6 hours of degree credit.

CVEG 493VH. Honors Studies in Structural Engineering. 1-6 Hour.
The study of advanced topics in the structural engineering field. May include
participation in structural engineering courses normally available only to graduate
students. Prerequisite: CVEG 3303 with a grade of C or better. (Typically offered:
Irregular) May be repeated for up to 6 hours of degree credit.
Computer Science and Computer Engineering (CSCE)

Xiaojing 'Frank' Liu
Head of the Department
504 J.B. Hunt Center for Academic Excellence
479-575-6197

Department of Computer Science and Computer Engineering Website
(https://computer-science-and-computer-engineering.uark.edu/)

The faculty of the Computer Science and Computer Engineering Department is engaged in multidisciplinary academic research, course offerings, and student projects in areas such as: networking, data security, low power chip design, Web search, embedded systems, and graphics.

The educational objectives of the department are to produce graduates who are recruited in a competitive market and make valuable contributions to a wide variety of industries, particularly in computer and information technology; succeed in graduate or professional studies; pursue life-long learning and continued professional development; and undertake leadership roles in their profession, in their communities, and in the global society.

Accreditations

The B.S. in Computer Engineering is accredited by the Engineering Accreditation Commission of ABET (www.ABET.org). The B.S. in Computer Science is accredited by the Computing Accreditation Commission of ABET (www.ABET.org (http://www.abet.org/))

Requirements for B.S. in Computer Engineering

The computer engineering degree has required sequences of courses in both hardware and software aspects of computer applications and design. Since almost all of today's complex systems encompass hardware and software elements, computer engineering graduates must acquire the skills required to design, build, and test complex digital systems. At the advanced level, students are exposed to hands-on experience with open-ended problems with opportunities for research and design.

Humanities and social science electives are selected from the state minimum core (p. 96) listed in the Catalog of Studies. To satisfy the state minimum core, all CSCE students are required to take the following 18 hours of humanities/social science courses:

<table>
<thead>
<tr>

<td><strong>18</strong></td>
</tr>
</tbody>
</table>

The Undergraduate Handbook has a list of approved basic science, mathematics, and technical electives. Any course not included in these lists requires faculty approval.

The Bachelor of Arts in Computer Science degree has the same educational objectives as the Bachelor of Science degree. However, the course requirements differ greatly to allow students to double major or pursue other interests.

Completion of degree requirements provides graduates with the following learning outcomes:

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- An ability to communicate effectively with a range of audiences
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Degree Program Changes

Students must meet all requirements of their degree programs and are expected to keep informed concerning current regulations, policies, and program requirements in their fields of study. Changes made in the curriculum at a level beyond that at which a student is enrolled might become graduation requirements for that student. Changes made in the curriculum at a level lower than the one at which a student is enrolled are not required of that student. Students should consult their departmental adviser for additional information.

Computer Engineering B.S.Cmp.E. Eight-Semester Degree Program

The following sections contain the list of courses required for the Bachelor of Science in Computer Engineering (B.S.Cmp.E.) with a suggested sequence below.

Not all courses are offered every semester, so students who deviate from the suggested sequence must pay careful attention to course scheduling and course prerequisites. Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 86) in the Academic Regulations chapter for university requirements of the program.

B.S.C.S. in Computer Science

A degree in computer science provides a wide variety of career choices. Computer science graduates can design, implement, or manage computer systems, as well as adapt computers to new applications.

Completion of the degree requirements provides graduates with the ability to:

- Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.

Requirements for B.S.C.S. in Computer Science

Computer science core courses include the fundamentals of programming concepts, data structures, operating systems, algorithms, formal languages, and database management systems.

The Bachelor of Science programs in Computer Engineering and Computer Science culminate in a capstone project completed in two consecutive semesters. In the first semester, students form teams and develop a project proposal. In the second semester, students develop, implement, and present the final project.

Humanities and social science electives are selected from the University Core Requirements listed in the Catalog of Studies. To satisfy the University Core, all CSCE students are required to take the following 18 hours of humanities/social science courses:

- PHIL 3103 Ethics and the Professions 3
- Fine Arts From Category “A” 3
- U.S. History or Government 3
- Social Science 9

The Undergraduate Handbook has a list of approved basic science, mathematics, and technical electives. Any course not included in these lists requires faculty approval.

Student Learning Outcomes

- Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program’s discipline.
• Communicate effectively in a variety of professional contexts.
• Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
• Function effectively as a member or leader of a team engaged in activities appropriate to the program’s discipline.

Degree Program Changes
Students must meet all requirements of their degree programs and are expected to keep informed concerning current regulations, policies, and program requirements in their fields of study. Changes made in the curriculum at a level beyond that at which a student is enrolled might become graduation requirements for that student. Changes made in the curriculum at a level lower than the one at which a student is enrolled are not required of that student. Students should consult their departmental adviser for additional information.

Computer Science B.S.C.S. Eight-Semester Degree Program
The following sections contain the list of courses required for the Bachelor of Science in Computer Science (B.S.C.S.) degree with a suggested sequence below.

Not all courses are offered every semester, so students who deviate from the suggested sequence must pay careful attention to course scheduling and course prerequisites. Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 86) in the Academic Regulations chapter for university requirements of the program.

**Requirements for Departmental Honors in Computer Science and Computer Engineering**

The Honors Program in Computer Science and Computer Engineering is designed for the superior student and is intended to help the student...
develop a more comprehensive view of Computer Science and Computer Engineering. The program provides a vehicle for the recognition of achievements beyond the usual course of study. Higher degree distinctions are recommended only in truly exceptional cases and are based upon the candidate’s whole program of honors studies. A minimum of 12 hours of honors coursework is required.

The following requirements are necessary for graduation with honors in either the Computer Engineering or Computer Science Bachelor of Science program:

1. The candidate must satisfy the requirements set forth by the College of Engineering.
2. The student must obtain at least a 3.50 grade-point average in required Computer Engineering and/or Computer Science courses.
3. The student must complete 6 hours of Honors credit in the major, which includes 3 hours of Honors Thesis taken as successive semesters of CSCE 491VH and 3 hours of CSCE coursework.

Zhang, Lu, Ph.D. (Nanyang Technological University, Singapore), Assistant Professor, 2018.

Courses

Introductory programming course for students majoring in computer science or computer engineering. Software development process: problem specification, program design, implementation, testing and documentation. Programming topics: data representation, conditional and iterative statements, functions, arrays, strings, file I/O and classes. Using C++ in a UNIX environment. Corequisite: Lab component. Prerequisite: MATH 2445 or MATH 2554 or MATH 2554C with a grade of C or better, a College of Engineering (ENGR) student, a Computer Science Minor (CSCE-M), or a math major (MATHBS or MATHBA). (Typically offered: Fall and Spring)

This course continues developing problem solving techniques by focusing on fundamental data structures and associated algorithms. Topics include: abstract data types, introduction to object-oriented programming, linked lists, stacks, queues, hash tables, binary trees, graphs, recursion, and searching and sorting algorithms. Using C++ in a UNIX environment. Corequisite: Lab component. Prerequisite: CSCE 2004 with a grade of C or better. (Typically offered: Fall and Spring)

CSCE 2023. Introduction to Programming in Java 3 Hours.
Introduction to programming in Java with emphasis on engineering applications. Programming techniques: data representation and expressions, conditional and iterative statements, arrays, lists, file I/O, methods. Object oriented programming: designing, implementing and using classes, collections and composite objects. Students will gain hands-on programming experience and exposure to classic engineering problem solving techniques. Prerequisite: MATH 2445 or MATH 2554 or MATH 2554C, each with a grade of C or higher. (Typically offered: Irregular)

CSCE 2114. Digital Design 4 Hours.
Introduction to the hardware aspects of digital computers, logic gates, flip-flops, reduction, finite state machines, sequential logic design, digital systems, software design tools, hardware description language (VHDL), and implementation technologies. Corequisite: Lab component. Prerequisite: MATH 2554 or MATH 2554C with a grade of C or better. (Typically offered: Fall and Spring)
This course is cross-listed with ELEG 2904.

CSCE 2214. Computer Organization 4 Hours.
Prerequisite: MATH 2445 or MATH 2554 or MATH 2554C, each with a grade of C or higher. (Typically offered: Irregular)

CSCE 3193. Programming Paradigms 3 Hours.
Programming in different paradigms with emphasis on object oriented programming and network programming. Survey of programming languages, event driven programming, and concurrency. Prerequisite: CSCE 2014 with a grade of C or better. (Typically offered: Fall and Spring)

CSCE 3193H. Honors Programming Paradigms 3 Hours.
Programming in different paradigms with emphasis on object oriented programming and network programming. Survey of programming languages, event driven programming, and concurrency. Prerequisite: CSCE 2014 with a grade of C or better. (Typically offered: Fall)
This course is equivalent to CSCE 3193.

CSCE 3213. Cluster Computing 3 Hours.
Cluster computing solves problems too large in terms of memory or run time for a single workstation. Common approaches to these problems combine the resources of multiple computers to collectively find the solution. High performance computing is quickly expanding to areas including: chemistry, physics, mathematics, engineering, bio-informatics, finance, logistics, etc. (Typically offered: Irregular)
CSCE 3513. Software Engineering. 3 Hours.
A modern approach to the current techniques used in software design and
development. This course emphasizes the use of modern software development
tools, multi-module programming, and team design and engineering. Prerequisite:
CSCE 3193 or CSCE 3193H with a grade of C or better. (Typically offered: Fall and
Spring)

CSCE 3613. Operating Systems. 3 Hours.
An introduction to operating systems including topics in system structures, process
management, storage management, files, distributed systems, and case studies. 
Prerequisite: CSCE 2014 and CSCE 2214, each with a grade of C or better. 
(Typically offered: Fall and Spring)

CSCE 3613H. Honors Operating Systems. 3 Hours.
An introduction to operating systems including topics in system structures, process
management, storage management, files, distributed systems, and case studies.
Prerequisite: CSCE 2014 and CSCE 2214, each with a grade of C or better. 
(Typically offered: Spring)

This course is equivalent to CSCE 3613.

CSCE 3953. System Synthesis and Modeling. 3 Hours.
This course instructs the students in the use of modern synthesis and modeling languages
and approaches for design automation. This course will teach students the
use of HDLs and modeling languages for representing and implementing digital
computer systems. Prerequisite: CSCE 2214 with a grade of C or better. (Typically
offered: Fall)

CSCE 4013. Special Topics. 3 Hours.
Consideration of computer science topics not covered in other courses. Prerequisite:
CSCE 3193 and CSCE 2214. (Typically offered: Irregular) May be repeated for up to
12 hours of degree credit.

CSCE 4043. RFID Information Systems Security. 3 Hours.
Radio frequency identification (RFID) information systems provide information to
users about objects with RFID tags. They require the application of information
systems security (INFOSEC) to protect the information from tampering, unauthorized
information disclosure, and denial of service to authorized users. This course
addresses security and privacy in an RFID system. Prerequisite: CSCE 2214 with a grade of C or better. (Typically
offered: Spring)

CSCE 4114. Embedded Systems. 4 Hours.
The architecture, software, and hardware of embedded systems. Involves a
mixture of hardware and software for the control of a system (including electrical,
electro-mechanical, and electro-chemical systems). They are found in a variety
of products including cars, VCRs, HDTVs, cell phones, pacemakers, spacecraft,
missile systems, and robots for factory automation. Corequisite: Lab component.
Prerequisite: CSCE 2214 with a grade of C or better. (Typically offered: Fall)

CSCE 4123. Programming Challenges. 3 Hours.
This course studies the principle methods used in the solution of programming
contest problems, e.g., data structures strings, sorting, machine arithmetic and
algebra, combinatorics, number theory, backtracking, graph traversal, graph
algorithms, dynamic programming, grids, and computational geometry. Prerequisite:
CSCE 2014. (Typically offered: Irregular)

CSCE 4133. Algorithms. 3 Hours.
Provides an introduction to formal techniques for analyzing the complexity of
algorithms. The course surveys important classes of algorithms used in
computer science and engineering. Prerequisite: CSCE 3193 and (MATH 2603 or
MATH 2803) or MATH 4423. (Typically offered: Fall)

CSCE 4143. Data Mining. 3 Hours.
The course focuses on the principles, theory, design, and implementation of data
mining algorithms for large-scale data. Topics include foundations of data mining;
preprocessing; mining frequent patterns, associations and correlations; supervised
learning including decision tree induction, naïve Bayesian classification, support
vector machine, logistic regression, Bayesian network, and K-nearest neighbor
learning; unsupervised learning including K-means clustering, hierarchical clustering,
density-based clustering, and grid-based clustering; outlier analysis; graph mining;
scalable and distributed data mining. Prerequisite: (CSCE 2014 and INEG 3313) or
(CSCE 2014 and INEG 2333 and INEG 2313). (Typically offered: Fall)

This course is cross-listed with INEG 4143.

CSCE 4213. Computer Architecture. 3 Hours.
The architecture of modern scalar and parallel computing systems. Techniques
for dynamic instruction scheduling, branch prediction, instruction level parallelism,
shared and distributed memory multiprocessor systems, array processors, and
memory hierarchies. Prerequisite: CSCE 2214 with a grade of C or better. (Typically
offered: Spring)

This course is cross-listed with ELEG 4983.

CSCE 4223. Low Power Digital Systems. 3 Hours.
The reduction of power consumption is rapidly becoming one of the key issues in
digital system design. Traditionally, digital system design has mainly focused on
performance and area trade-offs. This course will provide a thorough introduction
to digital design for lower consumption at the circuit, logic, and architectural level.
Prerequisite: CSCE 2214 with a grade of C or better. (Typically offered: Irregular)

CSCE 4253. Concurrent Computing. 3 Hours.
Programming concurrent processes; computer interconnection network topologies;
loosely coupled and tightly coupled parallelized computer architectures; designing
algorithms for concurrency; distributed computer architectures. Prerequisite:
CSCE 3193. (Typically offered: Irregular)

CSCE 4263. Advanced Data Structures. 3 Hours.
This course continues the study of data structures, algorithmic analysis for these
data structures, and their efficient implementation to support standard library in
programming languages. Topics include: AVL trees, Red-Black trees, Splay trees,
Optimal Binary Search trees, 2-3 tree, 2-3-4 tree, B-trees, Segment trees, Leftist
Heaps, Binomial Heaps, Fibonacci Heap, Disjoint Set, Hashing, and big integer
with hundreds to thousands of digits. Prerequisite: CSCE 3193. (Typically offered: Irregular)

CSCE 4323. Formal Languages and Computability. 3 Hours.
Finite Automata and regular languages, regular expressions, context-free
languages and pushdown automata, nondeterminism, grammars, and Turing
machines. Church's thesis, halting problem, time complexity, space complexity and
undecidability. Prerequisite: MATH 2603 and CSCE 3193. (Typically offered: Spring)

CSCE 4333. Introduction to Integrated Circuit Design. 3 Hours.
Design and layout of large scale digital integrated circuits using CMOS technology.
Topics include MOS devices and basic circuits, integrated circuit layout and
fabrication, dynamic logic, circuit design and layout strategies for large scale CMOS
circuits. Students may not receive credit for both CSCE 4333 and CSCE 5223.
Prerequisite: ELEG 3214 or ELEG 3933 and MATH 2584 (Typically offered: Fall)

CSCE 4353. CPLD/FPGA-Based System Design. 3 Hours.
Field Programmable Logic devices (FPGAs/CPLDs) have become extremely popular
as basic building blocks for digital systems. They offer a general architecture that
users can customize by inducing permanent or reversible physical changes. This
course will deal with the implementation of logic options using these devices.
Prerequisite: CSCE 2214 with a grade of C or better. (Typically offered: Irregular)

This course is cross-listed with ELEG 4983.
CSCE 4373. Electronic Design Automation. 3 Hours.
This course studies physical design, analysis and optimization of VLSI circuits and systems with emphasis on computational realizations and optimization. We start with some related topics such as graph algorithms and discuss various well-known algorithms and methodologies in the design process of VLSI circuits, including design partitioning, logic synthesis, floorplanning, routing, static timing analysis and performance-driven layout. It requires a basic knowledge of digital circuit design, data structure, and object-oriented programming. Students cannot receive credit for both CSCE 4373 and CSCE 5373. Prerequisite: CSCE 3953 and CSCE 3193, each with a C or higher. (Typically offered: Irregular)

CSCE 4423. Computer Systems Modeling. 3 Hours.
Basic concepts of problem analysis, model design, and simulation experiments. A simulation will be introduced and used in this course. Prerequisite: CSCE 2014 with a grade of C or better and INEG 2313. (Typically offered: Irregular)

CSCE 4433. Cryptography. 3 Hours.
This course provides a general introduction to modern cryptography. Topics include: stream ciphers, block ciphers, message authentication codes, public key encryption, key exchange, and signature schemes. Prerequisite: CSCE 2014 with a grade of C or better and (MATH 2603 or MATH 2803). (Typically offered: Irregular)

CSCE 4523. Database Management Systems. 3 Hours.
Introduction to database management systems, architecture, storage structures, indexing, relational data model, E-R diagrams, query languages, SQL, ODBC, transaction management, integrity, and security. Prerequisite: CSCE 3193 or CSCE 3193H with a C or better. (Typically offered: Spring)

CSCE 4543. Software Architecture. 3 Hours.
A study of software architecture through the use of case studies drawn from real systems designed to solve real problems from technical as well as managerial perspectives. Techniques for designing, building, and evaluating software architectures. Prerequisite: CSCE 4133 and CSCE 3513. (Typically offered: Irregular)

CSCE 4553. Information Retrieval. 3 Hours.
The objective of this course is to give students a hands-on introduction to information retrieval systems. Classical textual information retrieval systems are studied, including text preprocessing, file structures, term-weighting schemes, and web search engines. Students may not receive credit for both CSCE 4553 and CSCE 5533. Prerequisite: CSCE 3193. (Typically offered: Irregular)

CSCE 4561. Capstone I. 1 Hour.
CSCE students complete a comprehensive software capstone project during their final year of undergraduate studies. The project is done over 2 semesters in phases: concept, formal proposal, implementation, and presentation. The projects include and may require the integration of software and human factors and hardware elements and are developed to software engineering methodologies. Prerequisite: CSCE 3513 and (CSCE 3613 or CSCE 3613H) and completion of 96 credit hours. (Typically offered: Fall)

CSCE 4613. Artificial Intelligence. 3 Hours.
Introduction to intelligent agents, AI languages, search, first order logic, knowledge representation, ontologies, problem solving, natural language processing, machine vision, machine learning, and robotics. Prerequisite: CSCE 2014 with a grade of C or better. (Typically offered: Irregular)

CSCE 4623. Mobile Programming. 3 Hours.
An introduction to software development on mobile devices. The major topics covered in this course include underlying concepts and principles in mobile programming, as well as hands-on programming experience on mobile devices with an emphasis on smartphones. Prerequisite: CSCE 3193 or CSCE 3193H. (Typically offered: Irregular)

CSCE 4643. Graphics Processing Units Programming. 3 Hours.
This course provides an introduction to massively parallel programming using Graphics Processing Units (GPUs). Topics include basic programming model, GPU thread hierarchy, GPU memory architecture, and performance optimization techniques and parallel patterns needed to develop real-life applications. Prerequisite: CSCE 2014 with a grade of C or better. (Typically offered: Irregular)

CSCE 4753. Computer Networks. 3 Hours.
This course is an introductory course on computer networks. Using the Internet as a vehicle, this course introduces underlying concepts and principles of modern computer networks, with emphasis on protocols, architectures, and implementation issues. Prerequisite: INEG 2313. (Typically offered: Irregular)

CSCE 4783. Cloud Computing and Security. 3 Hours.
Cloud computing has entered the mainstream of information technology, providing highly elastic scalability in delivery of enterprise applications and services. In this course, we will focus on the architecture of today's cloud computing, the technologies used within them, application development using contemporary cloud computing tools, and the security risks and management in the cloud. Students cannot receive credit for both CSCE 4783 and CSCE 5783. Prerequisite: CSCE 3613. (Typically offered: Irregular)

CSCE 4813. Computer Graphics. 3 Hours.
Introduction to the theory and algorithms used in computer graphics systems and applications. Topics include: 2D and 3D geometric models (points, lines, polygons, surfaces), affine transformations (rotation, translation, scaling), viewpoint calculation (clipping, projection), lighting models (light-material interactions, illumination and shadow calculation). Students will implement their own graphics pipeline to demonstrate many of these techniques. Higher level computer graphics applications will be created using OpenGL. Prerequisite: CSCE 2014 with a grade of C or better. (Typically offered: Irregular)

CSCE 4853. Information Security. 3 Hours.
This course covers principles, mechanisms, and policies governing confidentiality, integrity, and availability of digital information. Topics to be covered include security concepts and mechanisms, security policies, multilevel security models, system vulnerability, threat and risk assessment, basic cryptography and its applications, intrusion detection systems. Prerequisite: CSCE 3193 or CSCE 3193H. (Typically offered: Irregular)

CSCE 490V. Individual Study. 1-3 Hour.
Individual study directed by faculty in current research topics, state of the art, or advanced methodology in one of the major computer science or computer engineering areas. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

CSCE 4914. Advanced Digital Design. 4 Hours.
To master advanced logic design concepts, including the design and testing of synchronous and asynchronous combinational and sequential circuits using state of the art CAD tools. Corequisite: Lab component. Prerequisite: CSCE 2114 or ELEG 2904. (Typically offered: Irregular)

CSCE 491VH. Honors Thesis. 1-3 Hour.
To provide honors students with experience in presenting their research accomplishments to their peers and faculty. Prerequisite: Honors standing. (Typically offered: Fall and Spring) May be repeated for up to 3 hours of degree credit.

CSCE 4963. Capstone II. 3 Hours.
CSCE students complete a comprehensive capstone project during their final year of undergraduate studies. The project is done over two consecutive semesters in phases: concepts, formal proposal, implementation, and presentation. The projects include and may require the integration of software, human factors, and hardware elements and are developed using software engineering methodologies. Prerequisite: CSCE 4561. (Typically offered: Spring)
**Data Analytics (DATA)**

A minor in Data Analytics is offered through the Department of Industrial Engineering in the College of Engineering.

Requirements for the minor in Data Analytics: The minor requires completion of 15-17 credits of coursework, including:

**Electrical Engineering (ELEG)**

Juan Carlos Balda  
Head of Department  
3217 Bell Engineering Center  
479-575-3009

Department of Electrical Engineering Website (http://electrical-engineering.uark.edu/)

Electrical engineering is a professional engineering discipline that in its broader sense covers the study and application of electricity, electronics and electromagnetism. Electrical engineers are in charge of designing and utilizing electrical and electronic components, integrated circuits and computer chips, and electronic assemblies to benefit mankind.

Fields of electrical engineering include analog and mixed-signal circuit design/test, biomedical, communications, computer hardware and digital circuit design, control systems, electronic packaging, embedded systems design, microwave and radar engineering, nanophotonics, nanotechnology/microelectronics/optoelectronics, pattern recognition and artificial intelligence, power electronics, and renewable energy/power.

The electrical engineering graduate is at the forefront of technologies leading to accelerated use of electric power, applications of real time embedded control systems for smart highways, smart vehicles and smart gadgets, global communications, the dominating influence of the computer and electronics on modern society, the use of electronic equipment for medical diagnosis, the use of wireless chemical and biological nanosensors for hazard detection, the miniaturization of electronics, microwave and optical technology for national defense, and a host of other developments. Therefore, the use of electrical and electronic equipment has spread into such diverse areas as agricultural production, automobiles, computer hardware and networks, health care, information technology, manufacturing, marketing, recreation, renewable energy resources, outer space and underwater exploration, transportation, and many others. As a result, electrical engineering is the largest of all scientific disciplines and assures a continuing demand for electrical engineering graduates throughout private industry and government.

**Undergraduate Program**

The department also actively participates in the Honors Program to challenge superior students with a more in-depth academic program and research experience. The Honors program enables students to work more closely with faculty members and other students in a team environment. Please see the requirements given below.

In line with all the opportunities of our graduates, the Electrical Engineering Department has the mission and educational objectives to produce graduates who:

1. Are recruited in a competitive market and valued as reliable and competent employees by a wide variety of industries; in particular, electrical engineering industries,
2. Succeed in graduate studies such as engineering, science, law, medicine, business, and other professions, should they choose to pursue those studies.
3. Understand the need for lifelong learning and continued professional development for a successful and rewarding career, and
4. Accept responsibility for leadership roles, in their profession, in their communities, and in the global society.

**Accreditation**

The Electrical Engineering Department offers undergraduate, graduate, and doctoral degrees. The Department has offered a BSEE degree for over 100 years, and has been continuously accredited by the Engineering Accreditation Commission of ABET. As part of the accreditation the Electrical Engineering Department maintains the following student learning outcomes as described by our ABET accreditation:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics,
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors,
3. an ability to communicate effectively with a range of audiences,
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgements, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts,
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks and meet objectives,
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions,
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.
Graduate Program in Electrical Engineering

The graduate program offers a Master of Science degree in Electrical Engineering (on campus and online) and a Doctor of Philosophy degree in Engineering. The graduate program provides additional instruction and hands-on experience beyond the undergraduate level, and produces graduates who are prepared to promptly address critical issues and assume advanced positions in the profession, including management, design, teaching, research and development.

The research mission of the department is conducted mainly through the graduate program. Internal and external funded research projects serve to:

1. Discover new knowledge, address technical problems, and develop new electrical/electronic technologies;
2. Provide the tools and resources which keep the faculty at the cutting edge of electrical engineering;
3. Provide financial support for graduate students and gifted undergraduate students; and
4. Improve the quality of life for citizens of Arkansas and the world.

The graduate program supports the undergraduate program by giving top undergraduate students access to research laboratories with state-of-the-art equipment and software. Topics covered in graduate courses often migrate into senior undergraduate technical elective courses and eventually into required undergraduate courses.

Departmental Service Mission

Faculty, administrators, and staff work to provide the education necessary to establish the best foundation for electrical engineering students at all degree levels, and prepare them to be competitive local and national leaders, skillful at undertaking the current and future challenges facing our world. Everyone is encouraged to provide services to both the community and the profession. Hence, they are active in local, state, national, and international professional and service organizations, as well as public and private schools involving grades K-12

Degree Program Changes

A student must meet all requirements of the degree program and is expected to stay informed concerning current regulations, policies, and program requirements in a chosen field of study. Changes made in the electrical engineering curriculum at a level beyond that at which a student is enrolled may become graduation requirements for that student. Changes made in the curriculum at a level lower than the one at which a student is enrolled are not normally required for that student. Students should consult their adviser for additional information.

Potential Minors

Although ELEG students can pursue any minor they desire, there are several minors that require a minimal number of extra courses, such as Computer Science, Mathematics, Microelectronics-Photonics, Physics, etc. Students are advised to review the specific rules pertaining to the minor of interest in the section of the UA Catalog of Studies corresponding to the department granting that minor.

Undergraduate Program in Electrical Engineering

The educational objectives for the undergraduate program, which leads to a Bachelor of Science degree in electrical engineering, are to produce graduates who:

1. Are recruited in a competitive market and valued as reliable and competent employees by a wide variety of industries, in particular, electrical and computer engineering industries;
2. Succeed, if pursued, in graduate studies such as engineering, science, law, medicine, business, and other professions;
3. Understand the need for life-long learning and continued professional development for a successful and rewarding career; and
4. Accept responsibility for leadership roles in their profession, in their communities, and in the global society.

Therefore, the electrical engineering curriculum is designed to provide students with knowledge of scientific principles and methods of engineering analysis to form a solid foundation for a career in design, research and development, manufacturing and processing, measurement and characterization, or management. Students progressively build their design experience throughout the curriculum and demonstrate this ability in the senior electrical engineering design laboratories. The curriculum also introduces students to subjects in the humanities, social sciences, and ethics so they may better understand the interaction of technology and society.

The electrical engineering curriculum is divided into three phases. The first year concentrates on the development of a sound understanding of basic sciences and mathematics. The second and third years further develop scientific principles and cover the basic core of electrical engineering. The fourth year is composed primarily of senior-level elective courses. At this time, the students in consultation with their advisers may choose classes related to one or more of the major areas of electrical engineering detailed (e.g., analog and mixed-signal circuit design/test, biomedical, communications, computer hardware and digital circuit design, control systems, electronic packaging, embedded systems design, microwave and radar engineering, nanophotonics, nanotechnology/microelectronics/optoelectronics, pattern recognition and artificial intelligence, power electronics, and renewable energy and power). This final year permits the student to tailor a program suited to her or his individual career objectives. The graduation requirement in electrical engineering is 125 semester hours as given below.

Recommended Technical Studies

Students in electrical engineering are required to complete 21 semester hours of technical electives of which a minimum of 9 semester hours must be 4000- or 5000-level electrical engineering elective courses. A student may select the remaining 12 semester hours from 4000- or 5000-level electrical engineering elective courses or upper-division technical courses in mathematics, engineering, and the sciences with the approval of an adviser. One of these courses may be approved Math/Science Elective and another may be an approved Engineering Science Elective. History and social science courses taught by Math and Science departments are not eligible for technical elective credit. Not more than 6 semester hours total of ELEG 488V and ELEG 400VH may be credited toward technical electives. Students who have taken full-time co-op experiences under GNEG 3811, and whose grades in these courses were A or B, may get credit for not more than three hours of non-ELEG technical electives if the work performed is of comparable quality to a technical elective; consult with the Department Co-op Coordinator. Descriptions of
all electrical engineering courses are in the Course Descriptions chapter of this Catalog of Studies. The schedule of technical electives offered in a given semester is determined the previous semester since the selection depends on a number of varying factors such as student interest in a particular topic, the importance of a particular technology for the student’s professional career, and teaching faculty availability.

**Electrical Engineering B.S.E.E. Eight-Semester Degree Program**

The following section contains the list of courses required for the Bachelor of Science in Electrical Engineering and a suggested eight-semester sequence. See the Eight-Semester Degree Policy (p. 86) for more details. Not all courses are offered every semester, so students who deviate from the suggested sequence must pay careful attention to course scheduling and course prerequisites.

**Total Units in Sequence:** 125

*Freshman Science Elective - CHEM 1123/CHEM 1121L University Chemistry II or PHYS 2074 University Physics II (ACTS Equivalency = PHYS 2044 Lecture)

**If CHEM 1123/CHEM 1121L University Chemistry II was taken for Freshman Science Elective, then PHYS 2074 University Physics II was taken for the Freshman Science Elective, then CHEM 1123/CHEM 1121 University Chemistry II or BIOL 1543/Biol 1541L Principles of Biology or BIOL 2213/Biol 2211L Human Physiology, PHYS 2094 University Physics III

****CSCE 4114, CSCE 4613, CSCE 4233 are approved ELEG Technical Electives for students pursuing a dual ELEG / CSCE undergraduate degree.
Students should become very familiar with the Academic Regulations chapter for university requirements that apply to the electrical engineering program as well as the College of Engineering requirements (in particular the "O rule" and the "Transfer of Credit" for courses taken at another institution). In addition to these graduation requirements, candidates for an electrical engineering degree must have earned a grade-point average of no less than 2.00 on all ELEG courses.

**Electrical Engineering Honors Program**

To graduate with Honors in electrical engineering, students must be a member of the Honors College, have a minimum cumulative GPA of 3.50, and complete a minimum of 12 hours of honors credit of which 6 hours must be Electrical Engineering Honors courses that include the following: ELEG 4063H Honors Electrical Engineering Design I, ELEG 4071H Honors Electrical Engineering Design II, and ELEG 400VH Honors Senior Thesis. Special problems credit hours (ELEG 488V) will not be counted in the requirement for graduation with Honors in Electrical Engineering.

**Electrical Engineering Honors Courses:**

- ELEG 3124H, ELEG 3143H, ELEG 3214H, ELEG 3224H, ELEG 3304H, ELEG 3704H, ELEG 3924H: Required ELEG junior courses with Honors section (all junior required courses include honors sections).
- ELEG 4061H Honors Electrical Engineering Design I (Sp, Fa)
- ELEG 4073H Honors Electrical Engineering Design II
- ELEG 400VH Honors Electrical Engineering Design II
- ELEG 4203H, ELEG 4233H, ELEG 4403H, ELEG 4503H, ELEG 4703H, ELEG 4783H, ELEG 4914H, ELEG 4963H: ELEG technical elective courses that have an Honors section (Please check the offering of these Honors Sections for a particular semester).
- ELEG 5000 or above: Any graduate level course.

**Courses**

**ELEG 2101L.** Electric Circuits I Laboratory. 1 Hour.
Experimental investigation of the steady-state behavior of resistive circuits excited by DC sources and transient behavior of simple R, L, and C circuits. Topics include fundamental laws of circuit theory applied to resistive networks and time response functions of R-L and R-C circuits. (Typically offered: Fall and Summer)

**ELEG 2104.** Electric Circuits I. 4 Hours.
Introduction to circuit variables, elements, and simple resistive circuits. Analysis techniques applied to resistive circuits. The concept of inductance, capacitance and mutual inductance. The natural and step responses of R-L, RC, and RLC circuits. Corequisite: Lab component. Pre- or Corequisite: MATH 2564 or MATH 2564C. (Typically offered: Fall and Summer)

**ELEG 2111L.** Electric Circuits II Laboratory. 1 Hour.
Experimental investigation of the steady-state behavior of circuits excited by sinusoidal sources. Topics include complex power, three-phase circuits, transformers, and resonance. (Typically offered: Spring and Summer)

**ELEG 2114.** Electric Circuits II. 4 Hours.
Introduction to complex numbers. Sinusoidal steady-state analysis of active circuits, active, reactive, apparent and complex power; balanced and unbalanced three-phase circuits; mutual inductance; the use of the Laplace transform for circuit analysis and two-port networks. Corequisite: Lab component. Pre- or Corequisite: MATH 2584. Prerequisite: ELEG 2104. (Typically offered: Spring and Summer)

**ELEG 287V.** Special Topics in Electrical Engineering. 1-4 Hour.
Consideration of current electrical engineering topics not covered in other courses. (Typically offered: Irregular) May be repeated for up to 4 hours of degree credit.

**ELEG 2904.** Digital Design. 4 Hours.
To introduce students to modern logic concepts, problem solving and design principles, and vocabulary and philosophy of the digital world. Corequisite: Lab component. Prerequisite: Engineering major. (Typically offered: Fall) This course is cross-listed with CSCE 2114.

**ELEG 3124.** System & Signal Analysis. 4 Hours.
Definition and description of signals and systems; analog, digital, continuous- and discrete-time and frequency analysis of systems, Z- and Fourier Transforms, sampling and signal reconstruction, filter design and engineering applications. Pre- or Corequisite: MATH 2584. Corequisite: Lab component. Prerequisite: ELEG 2104 or ELEG 3903 or BMEG 2904. (Typically offered: Fall)

**ELEG 3124H.** Honors System & Signal Analysis. 4 Hours.
Definition and description of signals and systems; analog, digital, continuous- and discrete-time and frequency analysis of systems, Z- and Fourier Transforms, sampling and signal reconstruction, filter design and engineering applications. Pre- or Corequisite: MATH 2584. Corequisite: Lab component. Prerequisite: ELEG 2104 or ELEG 3903 or BMEG 2904. (Typically offered: Fall) This course is equivalent to ELEG 3124.
ELEG 3143. Probability & Stochastic Processes. 3 Hours.
Review of system analysis, probability, random variables, stochastic processes, auto correlation, power spectral density, systems with random inputs in the time and frequency domain, and applications. Pre- or Corequisite: ELEG 3124. (Typically offered: Spring)

ELEG 3143H. Honors Probability & Stochastic Processes. 3 Hours.
Review of system analysis, probability, random variables, stochastic processes, auto correlation, power spectral density, systems with random inputs in the time and frequency domain, and applications. Pre- or Corequisite: ELEG 3124. (Typically offered: Spring)

This course is equivalent to ELEG 3143.

ELEG 3214. Electronics I. 4 Hours.
Introduction to electronic systems and signal processing, operational amplifiers, diodes, non-linear circuit applications, MOSFETS, and BJTs. Course has a lab component. Pre- or Corequisite: MATH 2574 and ELEG 2114. Corequisite: Lab component. Prerequisite: PHYS 2074. (Typically offered: Fall and Spring)

ELEG 3214H. Honors Electronics I. 4 Hours.
Introduction to electronic systems and signal processing, operational amplifiers, diodes, non-linear circuit applications, MOSFETS, and BJTs. Pre- or Corequisite: MATH 2574 and ELEG 2114. Corequisite: Lab component. Prerequisite: PHYS 2074. (Typically offered: Fall and Spring)

This course is equivalent to ELEG 3214.

ELEG 3224. Electronics II. 4 Hours.
Differential pair amplifier, current mirrors, active loads, multistage amplifiers, amplifier frequency response, bode plots, Millers theorem, short circuit and open circuit time constant methods, feedback amplifiers, and stability of feedback amplifiers. Corequisite: Lab component. Prerequisite: ELEG 3214 and MATH 2584. (Typically offered: Spring)

ELEG 3224H. Honors Electronics II. 4 Hours.
Differential pair amplifier, current mirrors, active loads, multistage amplifiers, amplifier frequency response, bode plots, Millers theorem, short circuit and open circuit time constant methods, feedback amplifiers, and stability of feedback amplifiers. Corequisite: Lab component. Prerequisite: ELEG 3214 and MATH 2584. (Typically offered: Spring)

This course is equivalent to ELEG 3224.

ELEG 3304. Energy Systems. 4 Hours.
Steady state analysis of DC machines, transformers, induction machines and synchronous machines. Introduction to speed control of electric machines using power electronics. Corequisite: Lab component. Prerequisite: ELEG 2114. (Typically offered: Spring)

ELEG 3304H. Honors Energy Systems. 4 Hours.
Steady state analysis of DC machines, transformers, induction machines and synchronous machines. Introduction to speed control of electric machines using power electronics. Corequisite: Lab component. Prerequisite: ELEG 2114. (Typically offered: Spring)

This course is equivalent to ELEG 3304.

ELEG 3704. Applied Electromagnetics. 4 Hours.
Analysis of transmission lines with sinusoidal and transient excitation. Development and use of the Smith Chart and methods of impedance matching. Vector analysis, static form of Maxwell's equations, electrostatics, and magnetostatics. Corequisite: Lab component. Pre- or Corequisite: PHYS 2074 and MATH 2574. Prerequisite: ELEG 2114. (Typically offered: Fall)

ELEG 3704H. Honors Applied Electromagnetics. 4 Hours.
Analysis of transmission lines with sinusoidal and transient excitation. Development and use of the Smith Chart and methods of impedance matching. Vector analysis, static form of Maxwell's equations, electrostatics, and magnetostatics. Corequisite: Lab component. Pre- or Corequisite: PHYS 2074 and MATH 2574. Prerequisite: ELEG 2114. (Typically offered: Fall)

This course is equivalent to ELEG 3704.

ELEG 387V. Special Topics in Electrical Engineering. 1-4 Hour.
Consideration of current electrical engineering topics not covered in other courses. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ELEG 3903. Electric Circuits and Machines. 3 Hours.
Basic electrical principles and circuits; Introduction to sinusoidal steady-state analysis of electric circuits, active, reactive, and complex power; balanced three-phase circuits; Steady-state analysis of electric machines and transformers. Introduction to power electronics for machine speed control and alternative energy sources. For engineering students other than those in electrical engineering. Prerequisite: MATH 2564 and PHYS 2074. (Typically offered: Fall and Spring)

ELEG 3924. Microprocessor Systems Design. 4 Hours.
Introduction to 8-bit microprocessors and their application. Microprocessor architecture and assembly language; interface devices; system design using microprocessors. Corequisite: Lab component. Pre- or Corequisite: ELEG 2904. (Typically offered: Fall)

ELEG 3924H. Honors Microprocessor Systems Design. 4 Hours.
Introduction to 8-bit microprocessors and their application. Microprocessor architecture and assembly language; interface devices; system design using microprocessors. Corequisite: Lab component. Prerequisite: ELEG 2904. (Typically offered: Fall)

This course is equivalent to ELEG 3924.

ELEG 3933. Circuits & Electronics. 3 Hours.
Basic principles of electric and electronic circuits and devices. For engineering students who are not pursuing a degree in electrical engineering. Prerequisite: MATH 2584 and PHYS 2074. (Typically offered: Spring)

ELEG 400VH. Honors Senior Thesis. 1-3 Hour.
Honors senior thesis. Prerequisite: Senior standing. (Typically offered: Fall, Spring and Summer)

ELEG 4063. Electrical Engineering Design I. 3 Hours.
Capstone design and application in electrical engineering. Prerequisite: ELEG 3224 and ELEG 3924. (Typically offered: Fall and Spring)

ELEG 4063H. Honors Electrical Engineering Design I. 3 Hours.
Design and application in electrical engineering. Prerequisite: ELEG 3224 and ELEG 3924. (Typically offered: Fall and Spring)

This course is equivalent to ELEG 4063.

ELEG 4071. Electrical Engineering Design II. 1 Hour.
Design and application in electrical engineering. Prerequisite: ELEG 4063. (Typically offered: Fall and Spring)

ELEG 4071H. Honors Electrical Engineering Design II. 1 Hour.
Design and application in electrical engineering. Prerequisite: ELEG 4063. (Typically offered: Fall and Spring)

This course is equivalent to ELEG 4071.

ELEG 4203. Semiconductor Devices. 3 Hours.
Crystal properties and growth of semiconductors, energy bands and charge carriers in semiconductors, excess carriers in semiconductors, analysis and design of p/n junctions, analysis and design of bipolar junction transistors, and analysis and design of field-effect transistors. Students may not receive credit for both ELEG 4203 and ELEG 5203. Prerequisite: MATH 2584 and ELEG 3214, or graduate standing. (Typically offered: Irregular)
ELEG 4203H. Honors Semiconductor Devices. 3 Hours.
Crystal properties and growth of semiconductors, energy bands and charge carriers in semiconductors, excess carriers in semiconductors, analysis and design of p/n junctions, analysis and design of bipolar junction transistors, and analysis and design of field-effect transistors. Students may not receive credit for both ELEG 4203 and ELEG 5203. Prerequisite: MATH 2584 and ELEG 3214, or graduate standing. (Typically offered: Irregular)
This course is equivalent to ELEG 4203.

ELEG 4233. Introduction to Integrated Circuit Design. 3 Hours.
Design and layout of large scale digital integrated circuits using CMOS technology. Topics include MOS devices and basic circuits, integrated circuit layout and fabrication, digital logic, circuit design, and layout strategies for large scale CMOS circuits. Students may not receive credit for both ELEG 4233 and ELEG 5923. Prerequisite: ELEG 3214 or ELEG 3933 and ELEG 2904 or equivalent. (Typically offered: Fall)

ELEG 4243. Analog Integrated Circuits. 3 Hours.
Theory and design techniques for linear and analog integrated circuits. Current mirrors, voltage to base emitter matching, active loads, compensation, level shifting, amplifier design techniques, circuit simulation using computer-assisted design programs. Prerequisite: ELEG 3224. (Typically offered: Irregular)

ELEG 4253L. Integrated Circuit Design Lab I. 3 Hours.
This course will cover digital VLSI design and integrated circuit design tools. The course is structured with lectures. This course is offered to both senior undergraduate and graduate students. Students cannot get credit for both the undergraduate and graduate version of the course. Students cannot receive credit for both ELEG 4253L and ELEG 5253L. Prerequisite: ELEG 4233 or ELEG 5923. (Typically offered: Spring)

ELEG 4283. Mixed Signal Test Engineering I. 3 Hours.
Overview of mixed signal testing, the test specification process, DC and parametric measurements, measurement accuracy, tester hardware, sampling theory, DSP-based testing, analog channel testing, digital channel testing. Prerequisite: Senior or graduate standing. (Typically offered: Irregular)

ELEG 4293. Mixed-Signal Modeling & Simulation. 3 Hours.
Study of basic analog, digital & mixed signal simulation solution methods. Modeling with hardware description languages. Use of state-of-the-art simulators and HDLs. Students may not receive credit for both ELEG 4293 and ELEG 4993. Prerequisite: ELEG 3224. (Typically offered: Irregular)

ELEG 4303. Introduction to Nanomaterials and Devices. 3 Hours.
This course provides the students with an introduction to nanomaterials and devices. The students will be introduced to the quantization of energy levels in nanomaterials, growth of nanomaterials, electrical and optical properties, and devices based on these nanomaterials, such as tunneling resonant diodes, transistors, detector, and emitters. Graduate students will be given additional or different assignments. Graduate students will be expected to explore and demonstrate an understanding of the material with a greater level of depth and breadth than the undergraduates. Each group of students will have different expectations and grading systems. The instructor will prepare and distribute two distinct syllabi. Corequisite: ELEG 4203. Prerequisite: ELEG 3214 and PHYS 2074. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ELEG 4343. Organic Electronics Technology. 3 Hours.
Students become familiar with recent developments in and process technology for organic material based devices and sensors in the classroom, but also gain hands on experience with fabrication processes using micro-fabrication tools in the lab. Students may not receive credit for both ELEG 4343 and ELEG 5343. (Typically offered: Irregular)

ELEG 4403. Control Systems. 3 Hours.
Mathematical modeling of dynamic systems, stability analysis, control system architectures and sensor technologies. Time-domain and frequency-domain design of feedback control systems: lead, lag, PID compensators. Special topics in microprocessor implementation. Students may not receive credit for both ELEG 4403 and ELEG 5403. Prerequisite: ELEG 3124. (Typically offered: Irregular)

ELEG 4403H. Honors Control Systems. 3 Hours.
Mathematical modeling of dynamic systems, stability analysis, control system architectures and sensor technologies. Time-domain and frequency-domain design of feedback control systems: lead, lag, PID compensators. Special topics in microprocessor implementation. Students may not receive credit for both ELEG 4403 and ELEG 5403. Prerequisite: ELEG 3124. (Typically offered: Irregular)

ELEG 4413. Advanced Control Systems. 3 Hours.
A second course in linear control systems. Emphasis on multiple-input and multiple-output systems: State-space analysis, similarity transformations, eigenvalue and eigenvector decomposition, stability in the sense of Lyapunov, controllability and observability, pole placement, quadratic optimization. Students may not receive credit for both ELEG 4413 and ELEG 5413. Prerequisite: ELEG 4403 or equivalent course. (Typically offered: Irregular)

ELEG 4423. Optimal Control. 3 Hours.
Introductory theory of optimizing dynamic systems: Formulation of performance objectives; calculus of variations; linear quadratic optimal control; discrete-time optimization; robustness and frequency domain techniques; reinforcement learning and optimal adaptive control. Prerequisite: ELEG 4403. (Typically offered: Irregular)

ELEG 4463L. Control Systems Laboratory. 3 Hours.
Experimental study of various control systems and components. The use of programmable logic controllers in the measurement of systems parameters, ladder logic applications, process-control applications, and electromechanical systems. Prerequisite: ELEG 3924 and ELEG 3124. (Typically offered: Irregular)

ELEG 4473. Power System Operation and Control. 3 Hours.
Study of the control and operation of electric power systems: Modeling, dynamics, and stability of three-phase power systems. Design and implementation of control systems related to generation and transmission. Overview of the related industry and government regulations for power system protection and reliability. Students may not receive credit for both ELEG 4473 and ELEG 5473. Prerequisite: ELEG 3124 and ELEG 3304. (Typically offered: Irregular)

ELEG 4503. Design of Advanced Electric Power Distribution Systems. 3 Hours.
Design considerations of electric power distribution systems, including distribution transformer usage, distribution system protection implementation, primary and secondary networks design, applications of advanced equipment based on power electronics, and use of capacitors and voltage regulation. Students may not receive credit for both ELEG 4503 and ELEG 5503. Prerequisite: ELEG 3304. (Typically offered: Irregular)

ELEG 4503H. Honors Design of Advanced Electric Power Distribution Systems. 3 Hours.
Design considerations of electric power distribution systems, including distribution transformer usage, distribution system protection implementation, primary and secondary networks design, applications of advanced equipment based on power electronics, and use of capacitors and voltage regulation. Students may not receive credit for both ELEG 4503H and ELEG 5503. Prerequisite: ELEG 3304. (Typically offered: Irregular)
This course is equivalent to ELEG 4503.

ELEG 4513. Power and Energy Systems Analysis. 3 Hours.
Modeling and analysis of electric power systems: Energy sources and conversion; load flow analysis; reference frame transformations; symmetrical and unsymmetrical fault conditions; load forecasting and economic dispatch. Students may not receive credit for both ELEG 4513 and ELEG 5513. Prerequisite: ELEG 2114. (Typically offered: Irregular)
ELEG 4523. Quality of Electric Power. 3 Hours.
This course addresses concepts related to the quality of electric power (in particular wiring and grounding, voltage sags and interruptions, harmonics, and transients), distributed generation and power electronic systems, power quality benchmarking, as well as instrumentation and PQ analyzers. Students may not receive credit for both ELEG 4523 and ELEG 5523. Prerequisite: ELEG 3304. (Typically offered: Irregular)

ELEG 4533. Power Electronics and Motor Drives. 3 Hours.
Characteristics of Insulated Gate Bipolar Transistors (IGBTs), Silicon Carbide (SiC) MOSFETs, Gallium Nitride (GaN) devices, Design of driver and snubber circuits for IGBTs and SiC MOSFETs, and an introduction to electric motor drives. Students may not receive credit for both ELEG 4533 and ELEG 5533. Prerequisite: ELEG 3304 and ELEG 3224. (Typically offered: Irregular)

ELEG 4543. Introduction to Power Electronics. 3 Hours.
Prepresents basics of emerging areas in power electronics and a broad range of topics such as power switching devices, electric power conversion techniques and analysis, as well as their applications. Students may not receive credit for both ELEG 5543 and ELEG 4543. Prerequisite: ELEG 2114 and ELEG 3214. (Typically offered: Irregular)

ELEG 4553. Switch Mode Power Conversion. 3 Hours.
Basic switching converter topologies: buck, boost, buck-boost, Cuk, flyback, resonant; pulse-width modulation; integrated circuit controllers; switching converter design case studies; SPICE analyses of switching converters; steady-state averaging and linearization; and switching converter transfer functions. Prerequisite: ELEG 3224 and ELEG 3124. (Typically offered: Irregular)

ELEG 4563. EMI in Power Electronics Converters: Generation, Propagation and Mitigation. 3 Hours.
Concepts of electro-magnetic-interference issues in power electronics converters. Basic concepts of EMI measurement, modeling and mitigation, with a focus on conducted EMI in power electronics converters. The course is structured with lectures and a lab session. Students cannot receive credit for both ELEG 4563 and ELEG 5563. Prerequisite: ELEG 2104 or equivalent and MATH 2574. (Typically offered: Irregular)

ELEG 4603. Deterministic Digital Signal Processing System Design. 3 Hours.
Design of Digital Signal Processing systems with deterministic inputs. Sampling, quantizing, oversampling, ADC trade-offs, distortion, equalizers, anti-aliasing, coherency, frequency domain design, audio and video compression. Prerequisite: ELEG 3124. (Typically offered: Irregular)

ELEG 4623. Communication Systems. 3 Hours.
Various modulation systems used in communications. AM and FM fundamentals, pulse modulation, signal to noise ratio, threshold in FM, the phase locked loop, matched filter detection, probability of error in PSK, FSK, and DPSK. The effects of quantization and thermal noise in digital systems. Information theory and coding. Students may not receive credit for both ELEG 4623 and ELEG 5663. Pre-or Corequisite: ELEG 3143. (Typically offered: Irregular)

ELEG 4703. Introduction to RF and Microwave Design. 3 Hours.
An introduction to microwave design principles. Transmission lines, passive devices, networks, impedance matching, filters, dividers, and hybrids will be discussed in detail. Active microwave devices will also be introduced. In addition, the applications of this technology as it relates to radar and communications systems will be reviewed. Prerequisite: ELEG 3704. (Typically offered: Irregular)

ELEG 4773. Electronic Response of Biological Tissues. 3 Hours.
Understand the electric and magnetic response of biological tissues with particular reference to neural and cardiovascular systems. Passive and active forms of electric signals in cell communication. We will develop the central electrical mechanisms from the membrane channel to the organ, building on those excitation, dielectrics models for tissue behavior, Debye, Cole-Cole models. Role of bound and free water on tissue properties. Magnetic response of tissues. Experimental methods to measure tissue response. Applications to Electrocardiography & Electroencephalography, Microwave Medical Imaging, RF Ablation will be discussed that are common to many electrically active cells in the body. Analysis of Nernst equation, Goldman equation, linear cable theory, and Hodgkin-Huxley Model of action potential generation and propagation. High frequency response of tissues to microwave. Prerequisite: ELEG 3704 or equivalent; MATH 2584 or equivalent; basic Biology. (Typically offered: Irregular)

ELEG 4783. Introduction to Antennas. 3 Hours.
Basic antenna types: small dipoles, half wave dipoles, image theory, monopoles, small loop antennas. Antenna arrays: array factor, uniformly excited equally spaced arrays, pattern multiplication principles, nonuniformly excited arrays, phased arrays. Use of MATLAB programming and mathematical techniques for antenna analysis and design. Emphasis will be on using simulation to visualize array antenna radiation patterns. Corequisite: Drill component. Prerequisite: ELEG 3704. (Typically offered: Irregular)

ELEG 4783H. Honors Introduction to Antennas. 3 Hours.
Basic antenna types: small dipoles, half wave dipoles, image theory, monopoles, small loop antennas. Antenna arrays: array factor, uniformly excited equally spaced arrays, pattern multiplication principles, nonuniformly excited arrays, phased arrays. Use of MATLAB programming and mathematical techniques for antenna analysis and design. Emphasis will be on using simulation to visualize array antenna radiation patterns. Corequisite: Drill component. Prerequisite: ELEG 3704. (Typically offered: Irregular)

This course is equivalent to ELEG 4783.

ELEG 487V. Special Topics in Electrical Engineering. 1-3 Hour.
Consideration of current electrical engineering topics not covered in other courses. Prerequisite: Senior standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ELEG 488V. Special Problems. 1-3 Hour.
Individual study and research on a topic mutually agreeable to the student and a faculty member. Prerequisite: Senior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

ELEG 488VH. Honors Special Problems. 1-3 Hour.
Individual study and research on a topic mutually agreeable to the student and a faculty member. Prerequisite: Senior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

ELEG 4914. Advanced Digital Design. 4 Hours.
To master advanced logic design concepts, including the design and testing of synchronous and asynchronous combinational and sequential circuits using state of the art CAD tools. Students may not receive credit for both ELEG 4914 and ELEG 5914. Corequisite: Lab component. Prerequisite: ELEG 2904 or CSCE 2114. (Typically offered: Irregular)

This course is cross-listed with CSCE 4914.

ELEG 4963. CPLD/FPGA Based System Design. 3 Hours.
Field Programmable logic devices (FPGAs/CPLDs) have become extremely popular as basic building blocks for digital systems. They offer a general architecture that users can customize by inducing permanent or reversible physical changes. This course will deal with the implementation of logic options using these devices. Corequisite: Lab component. Prerequisite: ELEG 4914. (Typically offered: Irregular)

This course is cross-listed with CSCE 4353.
**Industrial Engineering (INEG)**

Ed Pohl  
Head of the Department  
4207 Bell Engineering Center  
479-575-3156

Industrial Engineering Website (http://www.ineg.uark.edu/)  

The mission of the industrial engineering department at the University of Arkansas is to be a nationally competitive, student-centered industrial engineering program serving Arkansas and the world through undergraduate and graduate studies and leading-edge research programs.

Industrial engineers are concerned with improving organized activity. The physical arrangement of people, equipment, and material significantly influences the effectiveness of any organization—whether the organization is industrial, governmental, or commercial.

Today's industrial engineers develop applications of new processing automation and control technology; install data processing systems, performance measures and standards, job evaluation and wage and salary programs; research new products and product applications; devise ways to improve productivity through application of technology and human factors; select operating processes and methods to accomplish a given task using proper tools and equipment; design facilities, management systems, operations procedures, storage systems; improve allocation of resources, planning and control systems for distribution of goods and services, production, inventory, quality and plant maintenance; enhance plant environment and the quality of working life; evaluate reliability and quality performance; implement office systems, procedures, and policies; analyze complex business problems through operations research; conduct long-range organization studies, plant location surveys, system effectiveness studies; and study potential markets for goods and services, raw material sources, labor supply, energy resources, financing and taxes.

Industrial engineers integrate engineering skills with mathematics and computer science tools, providing systematic ways to maximize productivity and quality while minimizing time and cost.

Completion of the degree requirements provides graduates with the following learning outcomes:

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- An ability to communicate effectively with a range of audiences
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

The goal of the Industrial Engineering Undergraduate Program at the University of Arkansas is to prepare men and women for professional careers and graduate studies in Industrial Engineering. We provide a foundation in mathematics, science, humanities and social sciences, engineering science, and engineering design to produce Industrial Engineers with the intellectual, technical, and professional competence to develop, implement, and manage industrial engineering solutions to complex problems in industry, government, and society.

The program's objectives have been developed to address the needs of the industrial engineering constituencies and to be consistent with and supportive of the department's mission and programmatic goals. The IE program educational objectives represent and describe the expected accomplishments of graduates resulting from participation within the program within the first few years after graduation. The program's objectives have been developed to address the needs of departmental constituencies and to be consistent with and support the mission and programmatic goals.

Within 3-5 years of graduation, graduates of the U of A undergraduate program in industrial engineering will have:

1. Successfully applied core industrial engineering knowledge and skills for industrial or public sector organizations.
2. Successfully pursued advanced professional degrees, graduate studies in industrial engineering, professional training, or engineering certification.
3. Demonstrated professional and intellectual growth as managers and leaders in industrial engineering, society, and their communities.

**Requirements for B.S. in Industrial Engineering**

The total graduation requirement in industrial engineering is 126 hours. For further information please visit the departmental website (http://www.ineg.uark.edu/).

**Humanities/Social Science Electives**

Although any elective included on the approved University Core humanities/social science list may be selected, PSYC 2003 General Psychology (ACTS Equivalency = PSYC 1103) is recommended for industrial engineers.

**Science Electives**

The approved list of science electives is available in the industrial engineering departmental office.

**Technical Electives**

The purpose of technical electives is to provide students with the opportunity to expand their education within a particular area of interest. The approved list of technical electives is available in the industrial
engineering department. At least 12 hours must be selected from INEG courses.

Each student is responsible for his or her technical elective program. Students may seek specific advice on technical elective selections from their advisor. Courses satisfying technical elective requirements cannot fulfill more than one industrial engineering department requirement.

A minimum of 18 credit hours from the approved technical elective course list must be taken to satisfy technical elective requirements within the Industrial Engineering program. At least 12 of these 18 credit hours must be chosen from INEG courses. No more than 3 of these credits may be based in individual/independent study, no more than 4 of these credits may be based in honors thesis (honors thesis courses offered by our department include: INEG 400VH, INEG 3812H and INEG 4812H), and no more than 3 of these credits may be based in cooperative education.

Approved Technical Elective Course List

1. Any BENG, BIOL, BMENG, CHEG, CHEM, CVEG, CSCE, ELEG, GNEG, INEG, MATH, MEEG, and PHYS course that is at the 3000 level or above and not required for the B.S.I.E. is approved. Exceptions are:
   a. GNEG 3801 is not approved.
   b. GNEG 3811 is approved only if the student has completed at least three semesters of GNEG 3811.
   c. CVEG 4513 is not approved if the student is also seeking technical elective credit for INEG 4443.
   d. MATH 3013 and MATH 3133 are not approved.
   e. PHYS 3603, PHYS 4103, and PHYS 4203 are not approved.

2. Courses at the 3000 level or above that are explicitly listed (not part of a blanket statement like “… 3000-to-4000-level …”) in the Catalog of Studies under Minors for Non-Business Students (p. 674) are approved. Exceptions are:
   a. ISYS 3393 is not approved if the student is also seeking technical elective credit for INEG 4683.

3. Courses at the 3000 level or above that are explicitly listed on the Sustainability Minor Courses website under Natural, Managed, or Built Systems are approved.

4. Courses at the 3000 level or above from the Analytics group of the Data Analytics Minor page (p. 809).

5. Additional approved courses
   are CSCE 2014, EXSC 3153, EXSC 3353 and HNRC 4013H.

Industrial Engineering B.S.I.E.
Eight-Semester Degree Program

The following section contains the list of courses required for the Bachelor of Science in Industrial Engineering degree and a suggested sequence. Not all courses are offered every semester, so students who deviate from the suggested sequence must pay careful attention to course scheduling and course prerequisites. Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 86) in the Academic Regulations chapter for university requirements of the program.

At least 12 hours of technical electives must be selected from INEG courses.

Total Units in Sequence: 126

1. CHEM 1123/CHEM 1121L University Chemistry II or PHYS 2074 University Physics II
2. If the student selected CHEM 1123/CHEM 1121L as their freshman science elective then this course must be PHYS 2074 University Physics II; otherwise see the approved list of IE science electives.
3. The purpose of technical electives is to provide students with the opportunity to expand their education along lines of particular interest to them. The approved list of technical electives is available in the industrial engineering department. At least 12 hours must be selected from INEG courses.
4. Although any elective included on the humanities/social science list may be selected, PSYC 2003 General Psychology is recommended for industrial engineers.
5. The approved list of science electives is available in the industrial engineering departmental office.

**Minor in Data Analytics**

Requirements for the minor in Data Analytics: The minor requires completion of 15-17 credits of coursework, including:

One course from Applied Statistics and Math Modeling group
- INEG 2333 Applied Probability and Statistics for Engineers II
- ELEG 3143 Probability & Stochastic Processes
- STAT 2823 Biostatistics
- STAT 3013 Introduction to Probability

Two courses from Computing and Informatics group
- CSCE 2004 Programming Foundations I
- CSCE 2014 Programming Foundations II

Total Hours 15-17

*Chimka, Justin Robert*, Ph.D., M.S.I.E., B.S.I.E. (University of Pittsburgh), Associate Professor, 2002.

*Eksioglu, Burak*, Ph.D. (University of Florida), M.S.E.M. (University of Warwick), B.S.I.E. (Bogazici University), Professor, 2019.

*Eksioglu, Sandra*, Ph.D. (University of Florida), M.S.E.M.S. (Mediterranean Agronomic Institute of Chania), B.S.B.A. (University of Tirana), Professor, 2019.

*Liao, Haitao*, Ph.D., M.S., M.S.I.E. (Rutgers University), B.S.E.E. (Beijing Institute of Technology), Professor, 2015.

*Liu, Xiao*, Ph.D. (National University of Singapore), B.S.M.E. (Harbin Institute of Technology, China), Assistant Professor, 2017.

*Milburn, Ashlea R.*, Ph.D. (Georgia Institute of Technology), M.S.I.E. (Virginia Polytechnic Institute and State University), B.S.I.E. (University of Arkansas), Associate Professor, 2010.

*Nurre Pinkley, Sarah*, Ph.D., M.Eng., B.S. (Rensselaer Polytechnic Institute), Assistant Professor, 2015.

*Parnell, Gregory S.*, Ph.D. (Stanford University), M.S. (University of Southern California), M.E.I.S.E. (University of Florida), B.S. (University of New York at Buffalo), Professor of Practice, 2013.

*Pierson, Harry A.*, Ph.D. (The Ohio State University), M.S.E.M., B.S.E.M. (University of Missouri, Rolla), Assistant Professor, 2014.

*Pohl, Letitia*, Ph.D. (University of Arkansas), M.S.S.E. (Air Force Institute of Technology), B.S.E.M. (Tulane University), Teaching Assistant Professor, 2013.

*Rainwater, Chase E.*, Ph.D. (University of Florida), B.S.I.E. (University of Arkansas), Associate Professor, 2009.

*Rossetti, Manuel D.*, Ph.D., P.E., M.S.I.S. (The Ohio State University), B.S.I.E. (University of Cincinnati), Professor, 1999.

*Zhang, Shengfan*, Ph.D., M.I.E. (North Carolina State University), B.M. (Fudan University, Shanghai), Associate Professor, 2011.
Courses

INEG 2001. Industrial Engineering Seminar. 1 Hour.
Overview of the Department of Industrial Engineering: faculty and their backgrounds and interests, staff and the services they provide, facilities, curricular requirements, extracurricular opportunities, post-graduate opportunities. (Typically offered: Fall)

INEG 2103. Introduction to Industrial Engineering. 3 Hours.
Introduction to the technical content of industrial engineering and the use of computing in the solution of traditional industrial engineering problems. Computer tools include spreadsheets, programming, and mathematical analysis software. Corequisite: Lab component. Prerequisite: MATH 2445 or MATH 2514 or MATH 2554. (Typically offered: Fall)

INEG 2214. Computing Methods for Industrial Engineers I. 4 Hours.
Introduction to programming and computing methods within the context of traditional industrial engineering problem solving. Students will be exposed to classic industrial engineering problem scenarios. Basic techniques within object-oriented programming, including designing classes, using objects, creating methods, loop and decision constructs, arrays, and file handling, will be used to facilitate solving these problems. Pre- or Corequisite: MATH 2445 or MATH 2514 or MATH 2554. (Typically offered: Fall and Spring)

INEG 2223. Computing Methods for Industrial Engineers II. 3 Hours.
A continuation of INEG 2214. Review of fundamental computing methods and exposure to advanced use of computing libraries. Developing and implementing algorithms using computing methods to solve illustrative and practical problems of interest to industrial engineers. Students will use existing computing libraries, data structures, and programming interfaces to implement software using problem-based learning. Prerequisite: INEG 2214. (Typically offered: Fall and Spring)

INEG 2313. Applied Probability and Statistics for Engineers I. 3 Hours.
Applications to engineering problems of probability theory, discrete and continuous random variables, descriptive statistics, single-population point and interval estimation, single-population hypothesis testing, goodness-of-fit testing, and contingency table testing. INEG and DTSC students only. Corequisite: Drill component. Prerequisite: MATH 2564 and INEG or DTSC students only. (Typically offered: Fall and Spring)

INEG 2313H. Honors Applied Probability and Statistics for Engineers I. 3 Hours.
Applications to engineering problems of probability theory, discrete and continuous random variables, descriptive statistics, single-population point and interval estimation, single-population hypothesis testing, goodness-of-fit testing, and contingency table testing. Corequisite: Drill component. Prerequisite: MATH 2564. (Typically offered: Fall and Spring)

INEG 2333. Applied Probability and Statistics for Engineers II. 3 Hours.
Applications to engineering problems of two-population point and interval estimation, two-population hypothesis testing, linear regression, correlation, design of experiments, analysis of variance, and nonparametric statistics. Introduction to statistical quality control. Corequisite: Drill component. Prerequisite: INEG 2313. (Typically offered: Fall and Spring)

INEG 2403. Industrial Cost Analysis. 3 Hours.
Use of accounting information for planning and control with emphasis on the engineering viewpoint; introduction to general accounting procedures; principles of cost accounting and other aspects of production costs; budgeting, depreciation, taxes, distribution of profits, securities, sources of corporate capital, interpretation of financial statements, and other related topics. Laboratory required. Corequisite: Lab component. (Typically offered: Spring)

INEG 2413. Engineering Economic Analysis. 3 Hours.
Economic aspects of engineering, including current economic problems and the treatment of estimates when evaluating alternative courses of action. Methods of selection and replacement of equipment and break-even points of operation; desirability of new processes or projects where asset life, rate of return on investment, and first, fixed, differential, marginal, and sunk costs must be considered. Corequisite: Drill component. Prerequisite: MATH 2445 or MATH 2514 or MATH 2554. (Typically offered: Fall and Spring)

INEG 2812H. Honors Industrial Engineering Research Experience I. 2 Hours.
Introduction to the research of the faculty of the Department of Industrial Engineering for the purpose of matching students with an undergraduate research advisor. Development of skills in using electronic resources to conduct background research on individuals and topics in the industrial engineering academic community. Prerequisite: Instructor consent and honors standing. (Typically offered: Spring)

INEG 3313. Engineering Probability and Statistics. 3 Hours.
Applications to engineering problems of data summary and presentation, random variables and probability distributions, point and interval estimation, hypothesis testing, linear regression, and design of experiments. Not for credit toward the Bachelor of Science in Industrial Engineering. Corequisite: Drill component. Prerequisite: MATH 2564. (Typically offered: Fall, Spring and Summer)

INEG 3513. Manufacturing Processes. 3 Hours.
This course focuses on the manufacturing processes that impart geometry and properties to engineering materials including casting, metalworking, machining, joining, heat treatment, and polymer processes. Process selection and analysis, design-for-manufacturing principles, cost estimation, and selection of process parameters are covered. Lab component covers communication of manufacturing specifications via engineering drawings. Prerequisite: MEEG 2303. Corequisite: Lab component. (Typically offered: Spring)

INEG 3613. Introduction to Operations Research. 3 Hours.
Introduction to modeling and analysis of deterministic operations design and planning problems using formal optimization algorithms and software. Identification and formulation of appropriate applications, linear programming, sensitivity, network flows/transportation/assignment problems, shortest paths, and integer linear programming. Prerequisite: (INEG 2214 or CSCE 2004 or DASC 1204) and (MATH 2574 or DASC 2594). (Typically offered: Spring)

INEG 3623. Simulation. 3 Hours.
The development and use of discrete-event simulation models for the analysis and design of systems found in manufacturing, distribution, and service contexts. Coverage includes conceptual modeling, model translation to computer form, statistical input models, random number generation and Monte Carlo methods, experimentation and statistical output analysis, and queuing analysis. Includes the use of modern computer simulation languages. Corequisite: Drill component. Prerequisite: INEG 2223 or CSCE 2004 or DASC 1204. Pre- or Corequisite: INEG 2333 or STAT 3003. (Typically offered: Fall)

INEG 3623H. Honors Simulation. 3 Hours.
The development and use of discrete-event simulation models for the analysis and design of systems found in manufacturing, distribution, and service contexts. Coverage includes conceptual modeling, model translation to computer form, statistical input models, random number generation and Monte Carlo methods, experimentation and statistical output analysis, and queuing analysis. Includes the use of modern computer simulation languages. Corequisite: INEG 2333 and drill component. Prerequisite: INEG 2413 and CSCE 2004. (Typically offered: Fall)

This course is equivalent to INEG 3623.
INEG 3714. Work Methods and Ergonomics. 4 Hours.
Ways of designing jobs, machines, operations and work environments so they are compatible with human capacities and limitations. Work methods topics include methods analysis, time studies, work sampling and learning curves. Cognitive and physical capabilities and limitations of humans are addressed through the study of human information processing, motor control theory, anthropometry, biomechanics, work physiology and manual material handling. Design of controls and displays, hand tools and workstations, along with work related musculoskeletal disorders. Laboratory required. Prerequisite: Lab component. Pre- or Corequisite: INEG 2333. (Typically offered: Fall and Spring)

INEG 3812H. Honors Industrial Engineering Research Experience II. 2 Hours.
Development of an undergraduate research proposal. Introduction to the peer review process. Examination of conference travel, nationally-competitive award, and graduate fellowships. Emphasis on technical communication skills. Prerequisite: INEG 2812H and honors standing. (Typically offered: Fall)

INEG 400VH. Honors Thesis. 1-3 Hour.
For Honors College students majoring in Industrial Engineering only. Prerequisite: Honors college students only and instructor consent. (Typically offered: Fall, Spring and Summer)

INEG 410V. Special Topics in Industrial Engineering. 1-4 Hour.
Consideration of current industrial engineering topics not covered in other courses. Prerequisite: Senior standing. (Typically offered: Irregular) May be repeated for up to 4 hours of degree credit.

INEG 410VH. Honors Special Topics in Industrial Engineering. 1-3 Hour.
Consideration of current industrial engineering topics not covered in other courses. Prerequisite: Senior standing. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

This course is equivalent to INEG 410V.

INEG 411V. Individual Study in Industrial Engineering. 1-3 Hour.
Individual study and research on a topic mutually agreeable to the student and a faculty member. Prerequisite: Instructor consent. (Typically offered: Fall, Spring and Summer)

INEG 411VH. Honors Individual Study in Industrial Engineering. 1-3 Hour.
Individual study and research on a topic mutually agreeable to the student and a faculty member. Prerequisite: Instructor consent and honors candidacy. (Typically offered: Fall, Spring and Summer)

This course is equivalent to INEG 411V.

INEG 4123. Global Engineering and Innovation. 3 Hours.
This course provides engineering students a global perspective for design and innovation. Students explore various design thinking tools and techniques. Students apply engineering design and innovation techniques to create solutions that meet specified markets with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors. Students also have the opportunity to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which considers the impact of the engineering solution in the global, economic, environmental, and social contexts. Prerequisite: Senior standing or instructor consent. (Typically offered: Irregular)

INEG 4143. Data Mining. 3 Hours.
The course focuses on the principles, theory, design, and implementation of data mining algorithms for large-scale data. Topics include foundations of data mining; preprocessing; mining frequent patterns, associations and correlations; supervised learning including decision tree induction, naïve Bayesian classification, support vector machine, logistic regression, Bayesian network, and K-nearest neighbor learning; unsupervised learning including K-means clustering, hierarchical clustering, density-based clustering, and grid-based clustering; outlier analysis; graph mining; scalable and distributed data mining. Prerequisite: (INEG 2333 and INEG 2223) or (CSCE 2014 and INEG 3313). (Typically offered: Fall)

INEG 4163. Introduction to Modern Statistical Techniques for Industrial Applications. 3 Hours.
This application-oriented course is driven by real problems arising from industry and focuses on problem solving using both modern and classic statistical methods. For both senior undergraduate and graduate students, the main goal of this course is to provide a comprehensive introduction to those most popular statistical learning methods and tools (such as R and Apache Spark) which are widely used in industry today. Prerequisite: INEG 2333. (Typically offered: Spring)

INEG 4223. Occupational Safety and Health Standards. 3 Hours.
Survey of existing and proposed standards by examining fundamental physical, economic, and legal bases. Performance vs. specific standards. Enforceability and data collection. National consensus and promulgation process. Includes a computer-based design project. Prerequisite: INEG 2313. (Typically offered: Irregular)

INEG 4253. Leadership Principles and Practices. 3 Hours.
The course is designed to expose students to multiple approaches to leadership in a wide variety of settings. Leadership styles, the knowledge areas and competencies expected of today’s leaders, the challenges leaders face, the historical and philosophical foundations of leadership, the relationships among leadership theory, leadership practice, and the moral-ethical aspects of leadership are among the topics covered in the course. A number of respected regional, national, and international leaders share ‘lessons learned’ in their leadership journeys. Plus, a number of highly regarded leadership books and case studies on leadership are read and discussed. Students may not receive credit for INEG 4253 and INEG 5253/OMGT 5253. Prerequisite: Senior standing. (Typically offered: Fall)

INEG 4253H. Honors Leadership Principles and Practices. 3 Hours.
The course is designed to expose students to multiple approaches to leadership in a wide variety of settings. Leadership styles, the knowledge areas and competencies expected of today's leaders, the challenges leaders face, the historical and philosophical foundations of leadership, the relationships among leadership theory, leadership practice, and the moral-ethical aspects of leadership are among the topics covered in the course. A number of respected regional, national, and international leaders share ‘lessons learned’ in their leadership journeys. Plus, a number of highly regarded leadership books and case studies on leadership are read and discussed. Students may not receive credit for INEG 4253 and INEG 5253/OMGT 5253. Prerequisite: Honors standing and instructor consent. (Typically offered: Fall)

This course is equivalent to INEG 4253.

INEG 4323. Quality Engineering and Management. 3 Hours.
Provides the student with complete coverage of the functional area of ‘Quality Assurance’ ranging from the need for such a function, how it works, techniques utilized, and managerial approaches for insuring its effectiveness. Prerequisite: INEG 2333. (Typically offered: Irregular)

INEG 4343. Cognitive Ergonomics. 3 Hours.
Studies of human cognition in work settings in order to enhance performance of cognitive tasks through an understanding of cognitive processes (e.g., attention, perception errors, decision making, workload) required of operators in modern industries. Emphasis lies on how to (re)design human-machine interfaces and cognitive artifacts so that human well-being and system performance are optimized in work environments. Prerequisite: INEG 2223 or CSCE 2004. (Typically offered: Irregular)

INEG 4423. Advanced Engineering Economy. 3 Hours.
Preparation of feasibility studies, including cost estimation, risk and uncertainty, sensitivity analysis and decision making. Effects of taxes, depreciation and financing costs on cash flows. Prerequisite: INEG 2313 and INEG 2413. (Typically offered: Irregular)
INEG 4423H. Honors Advanced Engineering Economy. 3 Hours.
Preparation of feasibility studies, including cost estimation, risk and uncertainty, sensitivity analysis and decision making. Effects of taxes, depreciation and financing costs on cash flows. Prerequisite: INEG 2313 and INEG 2413. (Typically offered: Irregular)
This course is equivalent to INEG 4423.

INEG 4433. Systems Engineering and Management. 3 Hours.
Overview of the fundamental concepts underlying the management of engineering. Reviews the engineering decision process within the life cycle. Examines implementation of basic management functions in technical organizations and development of strategy tools within a complex organization. Prerequisite: INEG 2413. (Typically offered: Fall)

INEG 4433H. Honors Systems Engineering and Management. 3 Hours.
Overview of the fundamental concepts underlying the management of engineering. Reviews the engineering decision process within the life cycle. Examines implementation of basic management functions in technical organizations and development of strategy tools within a complex organization. Prerequisite: INEG 2413. (Typically offered: Fall)
This course is equivalent to INEG 4433.

INEG 4443. Project Management. 3 Hours.
Analysis of the strategic level of project management including planning, organizing, and staffing for successful project execution. Professional creativity, motivation, leadership, and ethics are also explored. At the tactical level, project selection, control, and systems management are analyzed. Systems development and decision support tools for project management are studied. Prerequisite: Senior standing. (Typically offered:Irregular)

INEG 4443H. Honors Project Management. 3 Hours.
Analysis of the strategic level of project management including planning, organizing, and staffing for successful project execution. Professional creativity, motivation, leadership, and ethics are also explored. At the tactical level, project selection, control, and systems management are analyzed. Systems development and decision support tools for project management are studied. Prerequisite: Senior standing. (Typically offered: Irregular)
This course is equivalent to INEG 4443.

INEG 4453. Productivity Improvement. 3 Hours.
Analysis of common productivity problems. Development of skills required to diagnose problems; measure productivity; develop improvement strategies; and provide for the implementation and maintenance of productivity measurement and improvement systems. Prerequisite: Senior standing. (Typically offered: Irregular)

INEG 4533. Application of Machine Vision. 3 Hours.
Automated machine vision applied to assembly and inspection tasks traditionally performed by human operators; development of application by acquiring image, processing image data, analyzing image and transmitting results; application analysis, selection and economics. Laboratory required. Corequisite: Lab component. Prerequisite: Senior standing. (Typically offered: Spring)

INEG 4543. Facility Logistics. 3 Hours.
The design and analysis of efficient logistics systems at the facility level, with an emphasis on distribution facilities. Unit load, break bulk, crossdock and order fulfillment centers and their component systems and software. Automated and manual systems. Corequisite: Lab component. Prerequisite: INEG 2413 and INEG 3613. (Typically offered: Irregular)

INEG 4553. Production Planning and Control. 3 Hours.
Strategy and competition, forecasting, aggregate planning, inventory control subject to known demand, inventory control subject to uncertain demand, supply chain management, push and pull production control systems, and operations scheduling. Pre or Corequisite: INEG 3613. Prerequisite: INEG 2333 or STAT 3003. (Typically offered: Fall)

INEG 4563. Industrial Robotics. 3 Hours.
An interdisciplinary treatment of: industrial robotics; manipulator anatomy, control, and programming; end-of arm tooling; sensors & sensing; system integration and safety; future trends. Significant out-of-class programming assignments to solve common industrial automation problems. Corequisite: Lab component. Prerequisite: (INEG 2214 or CSCE 2004) and (MATH 2445 or MATH 2514 or MATH 2554). (Typically offered: Fall)

INEG 4593. Manufacturing Systems. 3 Hours.
This course is designed to highlight the major topics in manufacturing systems. Different manufacturing models and metrics are emphasized. This course also introduces classification, general terminology, technical aspects, economics, and analysis of manufacturing systems. Corequisite: Lab component. Prerequisite: INEG 3513 or graduate standing. (Typically offered: Irregular)

INEG 4633. Transportation Logistics. 3 Hours.
Quantitative aspects of transportation and logistics involving analysis and optimization. Topics include: facility location analysis, network design, network flow and transportation modeling, vehicle routing, fleet sizing, driver assignment, and supply chain issues (logistics demand, role of inventory in the network, role of technology, etc.). Prerequisite: INEG 2333 and INEG 3613. (Typically offered: Irregular)

INEG 4683. Decision Support in Industrial Engineering. 3 Hours.
Reinforcing important computer programming methods using industrial engineering-based applications. Students will utilize Microsoft Excel and Visual Basic for Applications to develop custom solutions to challenging industrial engineering problems. Emphasis on computational proficiency and computing productivity in a spreadsheet-based setting. Prerequisite: (INEG 2214 or CSCE 2004) and INEG 2313. (Typically offered: Fall)

INEG 4733. Industrial Ergonomics. 3 Hours.
Gives background and experience in measurement and evaluation of human performance as it pertains to the working environment. The physical, physiological and psychological capabilities of the tasks they are to perform. Laboratory projects required. Prerequisite: INEG 2333 and INEG 3714. (Typically offered: Irregular)

INEG 4812H. Honors Industrial Engineering Research Experience I. 2 Hours.
Completion of an undergraduate research thesis. Introduction to the identification of outlets for dissemination of industrial engineering research. Introduction to the process of identifying opportunities for future extensions of completed research. Prerequisite: INEG 3812H and honors standing. (Typically offered: Fall)

INEG 4833. Introduction to Database Concepts for Industrial Engineers. 3 Hours.
An introduction to the basic principles of database modeling and technologies for industrial engineers. Coverage includes analyzing user requirements, representing data using conceptual modeling techniques (e.g., UML, ERD), converting conceptual models to relational implementations via database design methodologies, extracting data via structured query language processing, and understanding the role of database technology in industrial engineering application areas such as inventory systems, manufacturing control, etc. The application of a desktop database application such as Access will be emphasized. Prerequisite: INEG 2223 or CSCE 2004. (Typically offered: Irregular)

INEG 4911. Industrial Engineering Capstone Experience I. 1 Hour.
Develop a written and oral proposal for a comprehensive project for an industrial sponsor. Conduct background research, data collection, and preliminary analysis using industrial engineering tools; define objectives, performance measures, and deliverables; identify and schedule required tasks. INEG students only. Prerequisite: INEG major. Pre- or Corequisite: INEG 2001, INEG 3613, INEG 3623, INEG 3714, INEG 4433, and INEG 4553. (Typically offered: Fall)
INEG 4923. Industrial Engineering Capstone Experience II. 3 Hours.
Develop a written and oral report for a comprehensive project for an industrial sponsor. Complete identified tasks and measure success in achieving defined objectives using industrial engineering tools; create and document deliverables. Students must have successfully completed INEG 4911 in the immediately prior semester. Two hours lecture, One, three hour lab. Corequisite: Lab component. Pre- or Corequisite: INEG 3513. Prerequisite: INEG 3613, INEG 3623, and INEG 4911. (Typically offered: Spring)

Department of Mechanical Engineering Website (http://mechanical-engineering.uark.edu)

The mechanical engineering program is designed to offer a high-quality course of instruction involving classroom, laboratory, and extracurricular activities that results in graduates who are qualified and prepared to meet the demands of a professional career in the present and future work place and be able to assume a responsible place of leadership in a complex technological society.

The mission of the department is three-fold:

• Teaching — To provide a high-quality educational experience for undergraduate and graduate students that enables them to become leaders in their chosen professions.
• Research — To create, explore, and develop innovations in engineering and science through undergraduate and graduate research.
• Service — To provide beneficial service to the local, state, national, and international industries and communities via educational, technical, entrepreneurial, and professional activities.

The courses offered in mechanical engineering provide the student with a broad understanding of fundamental scientific principles that serve as a background for many fields of specialization. The undergraduate curriculum is designed to stress basic engineering principles and to assist in developing critical thinking. Emphasis is placed on the science and art of designing machines and systems, of converting energy into useful forms, and developing a basic understanding of engineering mechanics.

Completion of the degree requirements provides graduates with the following learning outcomes and ability to:

• Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
• Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
• Communicate effectively with a range of audiences
• Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
• Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
• Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
• Acquire and apply new knowledge as needed, using appropriate learning strategies.

The BSME Program Educational Objectives are to produce graduates who, within a few years of graduation, are expected to

1. Contribute to the economic development of Arkansas and the world through the practice of Mechanical Engineering;
2. Meet or exceed the needs and expectations of mechanical engineering employers in industry, government, and private practice;
3. Engage in professional activities that promote the mechanical engineering profession and provide continuing self-development; and
4. Succeed in graduate study and research, if pursued.

Requirements for B.S. in Mechanical Engineering
Requirements for the B.S.M.E.: The Bachelor of Science in Mechanical Engineering curriculum includes, in addition to the required 18 hours of history, government, fine arts/humanities/social science elective courses, a total of 12 hours of technical and science electives. A student must select all electives with the approval of his or her adviser. The fine arts/humanities/social science electives must be selected from the University Core (http://catalog.uark.edu/undergraduatecatalog/academicregulations/universitycore/) in the Academic Regulations chapter for university requirements for the program. It is expected that technical and science electives will be chosen to provide a coherent program within one or more areas of specialization or options available to mechanical engineers. Traditional areas of specialization are available in mechanical systems, materials, and energy systems. Other areas include pre-medical, management, and aerospace.

The first-year curriculum is essentially the same as prescribed for all engineering freshmen. Students entering the mechanical engineering program are required to take two, four hour laboratory based science electives. One of the four hour science electives must be PHYS 2074. The other four hour science elective must be chosen from one of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Equivalency</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASTR 2003 &amp; ASTR 2001L</td>
<td>Survey of the Universe (ACTS Equivalency = PHSC 1204 Lecture) and Survey of the Universe Laboratory (ACTS Equivalency = PHSC 1204 Lab)</td>
<td>4</td>
</tr>
<tr>

<td>Principles of Biology (ACTS Equivalency = BIOL 1014 Lecture) and Principles of Biology Laboratory (ACTS Equivalency = BIOL 1014 Lab)</td>
<td>4</td>
</tr>
</tbody>
</table>

categorized into three groups: Mechanical Engineering Electives, Other engineering electives are:

1. Mechanical Engineering Electives. All mechanical engineering courses at or above the 4000 level not already required in the BSME curriculum are acceptable. Special Project courses, MEEG 491V, are allowed as electives only after approval in advance by the department head.

2. Other Engineering Electives. The rules governing the selection of engineering electives are:

3. Science-Math Electives. The approved list of science and math courses accepted as technical-science electives is available in the Mechanical Engineering department office.

Mechanical Engineering B.S.M.E.
Eight-Semester Degree Program

The following section contains the list of courses required for the Bachelor of Science in Mechanical Engineering degree and a suggested sequence. Not all courses are offered every semester, so students who deviate from the suggested sequence must pay careful attention to course scheduling and course prerequisites. Students interested in obtaining a sequencing schedule of courses may contact the Mechanical Engineering office.

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 86) in the Academic Regulations chapter for university requirements of the program.

Either the science elective in the second semester of Year 1 or the science elective in the first semester of Year 2 must include PHYS 2074. Other science electives should be chosen from an approved list. See the mechanical engineering office.

### Fine Arts/Humanities/Social Science Electives

Students must follow the University Core curriculum in selecting their history, government, fine arts, humanities, and social science electives. Each student in the College of Engineering is required to complete 18 semester hours in the humanities and social sciences.

The courses taken must include:

- HIST 2003 History of the American People to 1877 (ACTS Equivalency = HIST 2113) 3
  - or HIST 2013 History of the American People, 1877 to Present (ACTS Equivalency = HIST 2123) 3
  - or PLSC 2003 American National Government (ACTS Equivalency = PLSC 2003) 3
- ECON 2143 Basic Economics: Theory and Practice (ACTS Equivalency = ECON 2103) 3
  - or ECON 2013 Principles of Macroeconomics (ACTS Equivalency = ECON 2103) 3
- PHIL 3103 Ethics and the Professions 3

The remaining three courses must be selected from an approved list. The humanities and social sciences chart from the University Core (http://catalog.uark.edu/undergraduatecatalog/academicregulations/universitycore/) page should be used as a guide for selecting these courses.

### Mechanical Engineering Concentration Electives

The purpose of technical/science electives is to provide students with the opportunity to expand their education along lines of particular interest to them.

As part of the mechanical engineering curriculum, students are required to complete 12 hours of technical/science electives. These electives can be categorized into three groups: Mechanical Engineering Electives, Other Engineering Electives, and Science-Math Electives.

1. Mechanical Engineering Electives. All mechanical engineering courses at or above the 4000 level not already required in the BSME curriculum are acceptable. Special Project courses, MEEG 491V, are allowed as electives only after approval in advance by the department head.

2. Other Engineering Electives. The rules governing the selection of engineering electives are:

### Engineering Electives, and Science-Math Electives.

The humanities and social sciences

B.S. in Mechanical Engineering with Aerospace Concentration

Requirements for the B.S.M.E.: The Bachelor of Science in Mechanical Engineering curriculum includes, in addition to the required 18 hours of history, government, fine arts/humanities/social science elective courses, a total of 12 hours of technical and science electives. A student must select all electives with the approval of his or her adviser. The fine arts/humanities/social science electives must be selected from the University Core (http://catalog.uark.edu/undergraduatecatalog/academicregulations/universitycore/) in the Academic Regulations chapter for university requirements for the program. It is expected that technical and science electives will be chosen to provide a coherent program within one or more areas of specialization or options available to mechanical engineers. Traditional areas of specialization are available in mechanical systems, materials, and energy systems. Other areas include pre-medical, management, and aerospace.

The first-year curriculum is essentially the same as prescribed for all engineering freshmen. Students entering the mechanical engineering program are required to take two, four hour laboratory based science electives. One of the four hour science electives must be PHYS 2074. The other four hour science elective must be chosen from one of the following:

- ASTR 2003 & ASTR 2001L Survey of the Universe (ACTS Equivalency = PHSC 1204 Lecture) and Survey of the Universe Laboratory (ACTS Equivalency = PHSC 1204 Lab)
- BIOL 1543 & BIOL 1541L Principles of Biology (ACTS Equivalency = BIOL 1014 Lecture) and Principles of Biology Laboratory (ACTS Equivalency = BIOL 1014 Lab)
- BIOL 2213 & BIOL 2211L Human Physiology (ACTS Equivalency = BIOL 2414 Lecture) and Human Physiology Laboratory (ACTS Equivalency = BIOL 2414 Lab)
- CHEM 1103 & CHEM 1101L University Chemistry I (ACTS Equivalency = CHEM 1414 Lecture) and University Chemistry I Laboratory (ACTS Equivalency = CHEM 1414 Lab)
- GEOS 1113 & GEOS 1111L Physical Geology (ACTS Equivalency = GEOL 1114 Lecture) and Physical Geology Laboratory (ACTS Equivalency = GEOL 1114 Lab)
- PHYS 2094 University Physics III 4
- PHYS 3544 Optics 4
- PHYS 3603 & PHYS 360VL Introduction to Modern Physics and Modern Physics Laboratory 4

**Fine Arts/Humanities/Social Science Electives**

Students must follow the University Core curriculum in selecting their history, government, fine arts, humanities, and social science electives. Each student in the College of Engineering is required to complete 18 semester hours in the humanities and social sciences.

The courses taken must include:

- HIST 2003 History of the American People to 1877 (ACTS Equivalency = HIST 2113) 3
- or HIST 2013 History of the American People, 1877 to Present (ACTS Equivalency = HIST 2123) 3
- or PLSC 2003 American National Government (ACTS Equivalency = PLSC 2003) 3
- ECON 2143 Basic Economics: Theory and Practice 3
PHIL 3103 Ethics and the Professions 3

The remaining three courses must be selected from an approved list. The humanities and social sciences chart from the University Core (http://catalog.uark.edu/undergraduatecatalog/academicregulations/universitycore/) page should be used as a guide for selecting these courses.

Requirements for Aerospace Concentration: The Aerospace Concentration in Mechanical Engineering provides students an opportunity to concentrate on engineering and scientific issues associated with aircraft, spacecraft, and space exploration. The Aerospace Concentration consists of the 112-credit hour Mechanical Engineering B.S. core and 12 hours of specified elective courses.

Choose at least two of the following courses: 6

Chen, Yue, Ph.D. (Vanderbilt University), M.S. (Hong Kong Polytechnic University), B.S. (Hunan University), Assistant Professor, 2017.
Couvillion, Rick J., Ph.D., M.S.M.E. (Georgia Institute of Technology), B.S.M.E. (University of Arkansas), Associate Professor, 1981.
Davis, James Allen, Ph.D., M.S.M.E., B.S.M.E. (University of Arkansas), Teaching Assistant Professor, 1997.
Hu, Han, Ph.D. (Drexel University), Assistant Professor, 2019.
Huang, Po-Hao Adam, Ph.D., M.S., B.S. (University of California-Los Angeles), Associate Professor, 2006.
Huitink, David, Ph.D., M.S.M.E., B.S.M.E. (Texas A&M University), Assistant Professor, 2016.
Jensen, David C., Ph.D., M.S., B.S. (Oregon A&M University), Assistant Professor, 2012.
Leylekk, Jim, Ph.D. (University of Illinois-Urbana-Champaign), M.S.S., B.S. (University of Illinois at Chicago), Professor, 2011.
Meng, Xiangbo, Ph.D. (University of Western Ontario), M.S.E.E. (China University of Petroleum), B.S.C.E. (Northwestern University), Assistant Professor, 2016.
Millett, Paul, Ph.D., M.S. (University of Arkansas), B.E. (Vanderbilt University), Associate Professor, 2013.
Nair, Arun, Ph.D. (Virginia Polytechnic State University), M.S. (Colorado State University), B.T. (Mahatma Gandhi University), Associate Professor, 2013.
Nutter, Darin W., Ph.D. (Texas A&M University), M.S.M.E., B.S.M.E. (Oklahoma State University), Professor, 1994.
Roberts, Monty, M.S., B.S. (University of Arkansas), Instructor, 2011.
Roe, Larry, Ph.D. (University of Florida), M.S., B.S.M.E. (University of Mississippi), Associate Professor, 1994.
Saxena, Ashok, Ph.D., M.S. (University of Cincinnati), B.S.M.E. (Indiana Institute of Technology), Distinguished Professor, 2003.
Sha, Zhenghui, Ph.D. (Purdue University), M.S.M.E. (Xi’an Jiaotong University), B.S.M.E. (Xi’an University of Technology), Assistant Professor, 2017.
Tung, Steve, Ph.D., M.S.M.E. (University of Houston), B.S.M.E. (National Taiwan University), Professor, 2000.
Wejinya, Uchechukwu C., Ph.D., M.S., B.S. (Michigan State University), Associate Professor, 2017.
Zhou, Wenchao, Ph.D. (Georgia Institute of Technology), M.S.M.E. (Xi’an Jiaotong University, Xi’an, China), B.S.M.E. (Huazhong University of Science and Technology, Wuhan, China), Assistant Professor, 2014.
Zou, Min, Ph.D., M.S.M.E. (Georgia Institute of Technology), M.S.A.E., B.S.A.E. (Northwestern Polytechnical University), Professor, 2003.

Courses

MEEG 2003. Equilibrium. 3 Hours.
Equilibrium and results of force systems in a plane and in space; analysis of structures, friction, centroids, moments of inertia, and virtual work method. Methods of analysis are emphasized. Corequisite: Drill component. Pre- or Corequisite: MATH 2574 or MATH 2574C. Prerequisite: PHYS 2054. (Typically offered: Fall, Spring and Summer)

MEEG 2003H. Honors Equilibrium. 3 Hours.
Equilibrium and results of force systems in a plane and in space; analysis of structures, friction, centroids, moments of inertia, and virtual work method. Methods of analysis are emphasized. Corequisite: Drill component. Pre- or Corequisite: MATH 2574 or MATH 2574C. Prerequisite: PHYS 2054 and honors standing. (Typically offered: Fall, Spring and Summer)

This course is equivalent to MEEG 2003.

MEEG 2013. Dynamics. 3 Hours.
Kinematics and kinetics of particle and of rigid bodies; work and energy; impulse and momentum, and special topics. Corequisite: Drill component. Prerequisite: MEEG 2003 and MATH 2574. (Typically offered: Fall, Spring and Summer)

MEEG 2101. Computer-aided Design. 1 Hour.
The concept and application of solid-modeling, based on SolidWorks Computer-Aided Design (CAD) software suite, are introduced in this course. They include sketches, parts modeling, assembly of parts, and drawing documentation. Prerequisite: GNEG 1121 or GNEG 1121H or GNEG 1103. (Typically offered: Fall and Spring)

MEEG 2103. Introduction to Machine Analysis. 3 Hours.
Introduction to kinematics and kinetics of mechanisms, static and dynamic forces, gears and cam design and analysis. Recitation three hours per week and drill one hour per week. Corequisite: Drill component. Pre- or Corequisite: MEEG 2103. Prerequisite: PHYS 2054 and MEEG 2101. (Typically offered: Spring and Summer)

MEEG 2303. Introduction to Materials. 3 Hours.
A study of chemical, physical, and electrical properties of materials using fundamental atomistic approach. The materials of interest are: metals, polymers, ceramics, and composites. The interactive relationship between structure, properties, and processing of materials will be emphasized. For various engineering applications. Corequisite: Drill component. Prerequisite: MATH 2554, PHYS 2054 and CHEM 1103. (Typically offered: Fall and Spring)
MEEG 2403. Thermodynamics. 3 Hours.
A study of the 1st and 2nd laws of thermodynamics. Availability of energy, properties of liquids, gases, and vapors; nonflow and flow processes. Recitation 3 hours, drill 2 hours per week. Corequisite: Drill component. Prerequisite: PHYS 2054 and MATH 2584. (Typically offered: Fall, Spring and Summer)

MEEG 2703. Computer Methods in Mechanical Engineering. 3 Hours.
Use of computers and programming for solving engineering problems. Basic numerical methods including errors, equation solution, matrices, optimization, regression, integration, and differential equations. Corequisite: Drill component. Pre- or Corequisite: MATH 2584. (Typically offered: Spring and Summer)

MEEG 3013. Mechanics of Materials. 3 Hours.
Stress and deformation of members in tension, compression, torsion, and bending, and the design of these members. Columns, statically indeterminate beams, and simple connections. Corequisite: Drill component. Prerequisite: MEEG 2003. (Typically offered: Fall, Spring and Summer)

MEEG 3013H. Honors Mechanics of Materials. 3 Hours.
Stress and deformation of members in tension, compression, torsion, and bending, and the design of these members. Columns, statically indeterminate beams, and simple connections. Corequisite: Drill component. Prerequisite: MEEG 2003 and honors standing. (Typically offered: Fall, Spring and Summer)

This course is equivalent to MEEG 3013.

MEEG 3113. Fundamentals of Vibrations. 3 Hours.
Time and frequency domain mathematical techniques for linear system vibrations are reviewed. Undamped system and viscously damped systems are analyzed. Equations of motion of single and multiple degrees-of-freedom systems are studied. Vibration of multi-degree-of-freedom systems are analyzed using modal analysis and modal summation methods. Eigenvalue problems as related vibrations are studied. Corequisite: Drill component. Prerequisite: MEEG 2103, MATH 2584 or MATH 2584C, MEEG 2703, and MEEG 2013. (Typically offered: Fall and Spring)

MEEG 3202L. Mechanical Engineering Laboratory I. 2 Hours.
Introduction to measurement, uncertainty, data acquisition, and instrumentation with an emphasis in materials and manufacturing. Corequisite: Drill component. Pre- or Corequisite: MEEG 3013 and ELEG 3903. Prerequisite: MEEG 2303 and PHYS 2074. (Typically offered: Fall and Spring)

MEEG 3212L. Mechanical Engineering Laboratory II. 2 Hours.
Design and implementation of measurements, fabrication processes, data acquisition, and data analysis with emphasis in mechanical and fluid systems. Corequisite: Drill component. Prerequisite: MEEG 3202L, MEEG 3503 and MEEG 3113. (Typically offered: Fall and Spring)

MEEG 3223. Introduction to Mechatronics. 3 Hours.
This course is an introduction to design and control the mechatronic system, which requires integration of the mechanical and electrical knowledge within a unified framework. The topics covered in this course include basic electronics, diodes, transistors, power amplifiers, digital logic, operation amplifier, motor design, encoder, and programming in Arduino. Prerequisite: MEEG 3202L. (Typically offered: Spring)

MEEG 3503. Mechanics of Fluids. 3 Hours.
A study of fluids including fluid properties, pressure, and flow fields utilizing conservation of mass, energy, and momentum principles. Prerequisite: MEEG 2403 or CHEG 2313. Pre- or Corequisite: MATH 2584. (Typically offered: Fall and Summer)

MEEG 4003. Intermediate Dynamics. 3 Hours.
Review of central-force motion of spacecraft, use of rotating reference frames, Coriolis acceleration. Kinematics of rigid bodies in 3-D space: velocities and accelerations in different moving reference frames, addition theorem of angular accelerations. Kinetics of rigid bodies in 3-D space: eigenvalues and eigenvectors of inertia matrices, momentum and kinetic energy of a rigid body in 3-D motion, Euler's equations of motion; precession, nutation, and spin of a gyroscope; forced steady precession, torque free steady precession, space cone, and body cone. Prerequisite: MEEG 2013. (Typically offered: Irregular)

MEEG 4023. Composite Materials: Analysis and Design. 3 Hours.
A study of fibrous composite materials with emphasis on mechanical behavior, synthesis, and application. Topics include macro- and micromechanical analysis lamina, lamina theory, failure analysis in design, and manufacturing techniques. Prerequisite: MEEG 3013. (Typically offered: Irregular)

MEEG 4103. Machine Design I. 3 Hours.
This course introduces the static failure theories and fatigue failure theories, and how each of the theories can be applied in practical engineering problems in supporting the selection and design of machine elements. This course also introduces key design concepts, design principles, design process, and design guidelines for four commonly-used machine elements: spring, gear, bearing and shaft. Pre- or Corequisite: MEEG 3113. Prerequisite: MEEG 3013. (Typically offered: Fall, Spring and Summer)

MEEG 4103H. Honors Machine Design I. 3 Hours.
This course introduces the static failure theories and fatigue failure theories, and how each of the theories can be applied in practical engineering problems in supporting the selection and design of machine elements. This course also introduces key design concepts, design principles, design process, and design guidelines for four commonly-used machine elements: spring, gear, bearing and shaft. Advanced project required of honors students. Advanced project required. (Typically offered: Fall, Spring and Summer)

This course is equivalent to MEEG 4103.

MEEG 4123. Finite Element Methods I. 3 Hours.
Introduction to the use of the finite element method in mechanical engineering analysis and design. Use of commercial software to solve thermal and mechanical problems. Pre- or Corequisite: MEEG 3013 and MEEG 4413. (Typically offered: Irregular)

MEEG 4132. Professional Engineering Practices. 2 Hours.
Design proposal preparation, design codes, professional ethics, engineering economics, and the role of the engineer in society. Pre- or Corequisite: MEEG 4103. Prerequisite: MEEG 4413 or MEEG 4483. (Typically offered: Fall and Spring)

MEEG 4143. Design for Safety. 3 Hours.
This course provides an overview of safety engineering and a framework from which the students can evaluate and develop mechanical and thermal systems from a safety perspective. Pre- or Corequisite: MEEG 4413. Prerequisite: MEEG 3013. (Typically offered: Irregular)

MEEG 4153. Fundamentals of Mechanical Design. 3 Hours.
This class is designed to provide engineering students with a head start in industry as design engineers or working in an engineering related function. The course contents cover machine design and analysis experiences as related to working in industry and performing consulting work. Major topics include the design process, design procedures, fasteners, general design and numerous consulting experiences. A concept design exercise and two special design projects will be assigned to the students as homework. Prerequisite: MEEG 4103. (Typically offered: Fall)
MEEG 4173. Model-Based Systems Design and Analysis. 3 Hours.
This course provides students with an introduction into the two main approaches to understanding and designing complex engineered systems. First, the course covers the unique technical challenge of systems engineering and design of systems. Second, the course covers concepts, methods and tools related to ‘model-based systems design.’ This covers formal modeling of the information content of complex systems. The third portion of the course will focus on modeling the complex behavior of the systems. This is often described as dynamical systems modeling. Students will utilize the methods and tools presented in class to model a complex engineered system of their choice (with instructor approval). The classes will alternate between presenting modeling methods to the students and students demonstrating their system to the class utilizing those methods. Students may not receive credit for both MEEG 4173 and MEEG 5173. Prerequisite: MEEG 4103 or Instructor consent. (Typically offered: Spring Even Years)

MEEG 4182. Creative Project Design I. 2 Hours.
Students will select a capstone design project, and each student group will prepare a formal written proposal on their project for presentation to a panel of judges. This group project will be carried to completion in MEEG 4192. Corequisite: MEEG 4483. Prerequisite: MEEG 4103. (Typically offered: Fall and Spring)

MEEG 4192. Creative Project Design II. 2 Hours.
Student groups will present their final capstone design proposal to a faculty panel and then carry out their project to completion. Each student group will make timely progress reports, complete their design project, and present their final report to a panel of judges. Prerequisite: MEEG 4182. (Typically offered: Fall and Spring)

MEEG 4202L. Mechanical Engineering Laboratory III. 2 Hours.
Application of measurement techniques to mechanical engineering problems which emphasize mechanical and thermal systems. Corequisite: Drill component. Pre- or corequisite: MEEG 4483. Prerequisite: MEEG 3212L and MEEG 4103. (Typically offered: Fall, Spring and Summer)

MEEG 4213. Control of Mechanical Systems. 3 Hours.
Mathematical modeling for feedback control of dynamic mechanical systems with design techniques using LaPlace transforms, state variables, root locus, frequency analysis, and criteria for performance and stability. Prerequisite: MEEG 3113. (Typically offered: Fall, Spring and Summer)

MEEG 4233. Microprocessors in Mechanical Engineering I: Electromechanical Systems. 3 Hours.
Microcomputer architectural, programming, and interfacing. Smart product design (microprocessor-based design). Control of DC and stepper motors and interfacing to sensors. Applications to robotics and real-time control. Mobile robot project. Digital and analog electronics are reviewed where required. Prerequisite: MEEG 3113. (Typically offered: Irregular)

MEEG 4253. Introduction to Tribology. 3 Hours.
A study of science and technology of interacting surfaces in relative motion. Topics include solid surface characterization, contact between solid surfaces, adhesion, friction, wear, lubrication, micro/nanotribology, friction and wear screening test methods, and tribological components and applications. Prerequisite: MEEG 3013 and MEEG 3503 or graduate standing. (Typically offered: Irregular)

MEEG 4232L. Nanotechnology Laboratory. 3 Hours.
Provides students with hands-on experience in several major areas of nanotechnology, including nanoscale imaging, synthesis of nanomaterials, nanostructure assembly and manipulation, device and system integration, and performance evaluation. Students can earn credit for only one of the following courses: MEEG 4323L, BENG 4753L, BMEG 4103L, CHEM 4153L, PHYS 4793L. Corequisite: Drill component, junior standing and instructor consent. Prerequisite: MATH 2564 and PHYS 2074. (Typically offered: Fall)
This course is cross-listed with CHEM 4153L, PHYS 4793L.

MEEG 4232M. Honors Nanotechnology Laboratory. 3 Hours.
Provides students with hands-on experience in several major areas of nanotechnology, including nanoscale imaging, synthesis of nanomaterials, nanostructure assembly and manipulation, device and system integration, and performance evaluation. Students can earn credit for only one of the following courses: MEEG 4323L, BENG 4753L, BMEG 4103L, CHEM 4153L, PHYS 4793L. Corequisite: Drill component, junior standing and instructor consent. Prerequisite: MATH 2564 and PHYS 2074. (Typically offered: Fall)

MEEG 4333. Hybrid Electric Vehicles. 3 Hours.
This course is intended to provide an introduction to basics of hybrid and pure electrical vehicles (mainly passenger cars), covering history, architecture, constituents, working mechanisms, and key technologies. The course focuses on fundamental concepts of different hybrid electrical vehicles (HEVs) and their technical features and highlights the successes of the state-of-the-art pure electrical vehicles (EVs). In addition, this course will introduce various battery technologies used for electrical vehicles, covering traditional batteries, lithium-ion batteries, and batteries beyond lithium-ions. It is appropriate for engineering and natural science students interested in obtaining basic knowledge of hybrid and pure electrical vehicles to prepare for a career in developing alternate energy sources. Prerequisite: ELEG 3903 or BENG 3113, and senior standing. (Typically offered: Spring)

MEEG 4413. Heat Transfer. 3 Hours.
Basic thermal energy transport processes; conduction, convection, and radiation; and the mathematical analysis of systems involving these processes in both steady and time-dependent cases. Prerequisite: MEEG 3503. (Typically offered: Spring and Summer)

MEEG 4423. Power Generation. 3 Hours.
Study of design and operational aspects of steam, gas, and combined cycle power plants. Brief study of Nuclear and Alternative energy systems. Prerequisite: MEEG 3503. (Typically offered: Irregular)

MEEG 4433. Aerospace Propulsion. 3 Hours.
Principles, operation, and characteristics of gas turbine and rocket engines. Brief study of novel spacecraft propulsion systems. Prerequisite: MEEG 3503. (Typically offered: Irregular)

MEEG 4453. Industrial Waste and Energy Management. 3 Hours.
Applications of thermodynamics, heat transfer, fluid mechanics, and electric machinery to the analysis of waste streams and energy consumption for industrial facilities. Current techniques and technologies for waste minimization and energy conservation including energy-consuming systems and processes, utility rate analysis, economic analysis and auditing are taught. Prerequisite: MEEG 4413. (Typically offered: Irregular)
Chemical Engineering (CHEG)

Ralph E. Martin Department of Chemical Engineering Website (https://chemical-engineering.uark.edu)

Chemical engineering deals with the creation, design, operation, and optimization of processes that derive practical benefits from chemical or physical changes principally involving chemical and biochemical reactions. The profession is quite broad and has traditionally provided the technology for: supplying energy and fuel; synthesizing materials such as plastics, chemicals, fertilizers, and pharmaceuticals; and managing environmental and safety concerns of physical and chemical processes. Some new applications of the principles of chemical engineering at nanoscales are being made in sustainable energy production and detection of gene mutations, protein configurations, and virus serotypes as well as thermal destruction of cancer cells.

Chemical engineers have a variety of traditional job opportunities in industries such as petroleum production and processing, chemical manufacturing, food processing, pharmaceutical production, and process equipment manufacturing. Job opportunities may involve research, development, design, manufacturing, sales, or teaching as professional activities. The chemical engineer can also move easily into environmental engineering, nuclear engineering, oceanography, biomedical engineering, pharmacology, law, medicine, or other multidisciplinary fields.

In chemical engineering, students obtain a broad foundation in chemistry, mathematics, physics, communication skills, economics, and the humanities. Courses in material and energy balances, thermodynamics, reaction kinetics, fluid mechanics, heat and mass transfer, process control, computer methods, safety, and design provide students with the background and learning skills required of the practicing chemical
engineer. The curriculum includes elective courses that enable a student to prepare for immediate employment or further study at the graduate level or the professional level, such as for medical school. The chemical engineering program also serves as an excellent preparation for dental, pharmacy, or law school.

The educational objective of the undergraduate program in the Ralph E. Martin Department of Chemical Engineering is to prepare students for careers and professional accomplishment after graduating, including:

- Successful practice as an engineer or in some other professional pursuit, including traditional or emerging fields of chemical engineering;
- Entrance and successful participation in a graduate or professional program that continues their career development.

The program prepares graduates to achieve these educational objectives through development of their skills as outlined in our educational outcomes and taught in our curriculum.

Completion of the degree requirements provides graduates with the following learning outcomes:

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- An ability to communicate effectively with a range of audiences
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Requirements for B.S. in Chemical Engineering

Each student in chemical engineering is required to complete 128 hours of coursework including the 35-hour University Core. To be eligible for graduation, all students must complete at least 30 hours of Chemical Engineering (CHEG) classes at the University of Arkansas, Fayetteville that are required for the degree. Each student in chemical engineering is also required to complete six semester hours of technical electives, three semester hours of Advanced Science electives, three semester hours of Chemical Engineering electives, and three semester hours of Advanced Science or Chemical Engineering electives. As discussed in the department's Undergraduate Advising Manual, students can select elective courses to better prepare for employment or further study in areas such as:

- Biotechnology
- Biomedical engineering

- Environmental engineering
- Food process engineering
- Materials engineering
- Microelectronics
- Nanotechnology
- Nuclear engineering
- Pre-medicine
- Simulation and optimization

Additional opportunities are available to enhance the educational experience of students in these areas. Students should consult their academic adviser for recommendations.

Chemical Engineering B.S.Ch.E. Eight-Semester Degree Program

The following section contains the list of courses required for the Bachelor of Science in Chemical Engineering degree. Not all courses are offered every semester, so students who deviate from the suggested sequence must pay careful attention to course scheduling and course prerequisites. Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 86) in the Academic Regulations chapter for university requirements of the program. Entering freshmen will be required to participate in selected Freshman Engineering Student Services.

Elective Options in Chemical Engineering
Each student in chemical engineering is required to complete six semester hours of technical electives and nine semester hours of Advanced Science electives. At least three semester hours must be taken from the list of Science Electives.

Technical Electives
In general, any upper level (3000-level or above) course in the sciences, math or engineering may serve as a technical elective, with prior approval by your academic adviser. BIOL 2013, BIOL 2213, BIOL 2323 and BIOL 2443 are 2000-level courses that can also serve as technical electives, and are also useful for students applying to medical school. INEG 2313, INEG 2333, INEG 2413 and INEG 3513 are statistics-oriented classes, and may be used for technical elective credit. Upper-level courses in non-technical areas such as business may also serve as technical electives with prior approval by your academic adviser. There is no specific list of approved technical electives.

Advanced Science and Chemical Engineering Electives
A list of the approved Advanced Science or Chemical Engineering courses is shown below. Once again, each student in chemical engineering is required to complete nine semester hours of Advanced Science electives. At least three semester hours must be taken from the list of Science electives. Courses not on the list may satisfy the requirement with student appeal and approval by the Chemical Engineering faculty.

Science Electives
CHEM 2261L Analytical Chemistry Laboratory 1
CHEM 2263 Analytical Chemistry Lecture 3
CHEM 3203 Forensic Chemistry 3
CHEM 3203H Honors Forensic Chemistry 3
CHEM 3451L Elements of Physical Chemistry Laboratory 1
CHEM 3453 Elements of Physical Chemistry 3
CHEM 3504 Physical Chemistry I 4
CHEM 3514 Physical Chemistry II 4
CHEM 4123 Advanced Inorganic Chemistry I 3
CHEM 4153L Nanotechnology Laboratory 3
CHEM 4211L Instrumental Analysis Laboratory 1
CHEM 4213 Instrumental Analysis 3
CHEM 4283 Energy Conversion and Storage 3
Honors College students in one of the following ways:

- in an Honors Thesis. Thesis credit in the department will be satisfied by

  M.S., B.S. (University of Melbourne, Australia), Professor, 2011.

Courses

CHEG 2113. Fluid Mechanics. 3 Hours.
Introduction to the field of chemical engineering. Industries, careers, and the
curriculum are discussed. Basic chemical engineering terms, concepts, and
calculations are presented. Mass balance calculations are performed and the
application of computers to chemical engineering problems is introduced. Pre- or
Corequisite: CHEM 1123 or CHEM 1223. (Typically offered: Fall and Spring)

CHEG 2133. Fluid Mechanics. 3 Hours.
Analysis and design of fluids handling equipment and systems. Application of
the principles of fluid statics, fluid dynamics, compressible flow, etc. Prerequisite:
MATH 2584 or MATH 2584C. Pre- or Corequisite: MATH 2574 or MATH 2574C and
(CHEG 2113 or BENG 2632 or BMEG 2614). (Typically offered: Fall, Spring and
Summer)

CHEG 2133H. Honors Fluid Mechanics. 3 Hours.
Analysis and design of fluids handling equipment and systems. Application of
the principles of fluid statics, fluid dynamics, compressible flow, etc. Prerequisite:
MATH 2584 or MATH 2584C. Pre- or Corequisite: MATH 2574 or MATH 2574C and
(CHEG 2113 or BENG 2632 or BMEG 2614). (Typically offered: Fall, Spring and
Summer)

This course is equivalent to CHEG 2133.
CHEG 2313. Thermodynamics of Single-Component Systems. 3 Hours.
A detailed study of the thermodynamic ‘state principles,’ energy and entropy balances, and their application to the solution of problems involving single-component physical systems and processes. Prerequisite: MATH 2584. Pre- or Corequisite: CHEG 2113 or BENG 2632 or BMEG 2614. (Typically offered: Fall, Spring and Summer)

CHEG 3144. Heat and Mass Transfer. 4 Hours.
Applications of the principles of conduction, convection and radiation to the analysis and design of chemical processing heat transfer equipment and systems. Fundamentals of chemical diffusional and convection processes. Pre- or Corequisite: CHEG 3323. Prerequisite: CHEG 2133 with a C or above, and MATH 2584. (Typically offered: Fall and Spring)

CHEG 3253. Chemical Engineering Computer Methods. 3 Hours.
Application of computer methods to chemical engineering problems including a review of structured programming principles. Corequisite: Drill component. Pre- or Corequisite: CHEG 3144 and CHEG 3323. Prerequisite: MATH 2584. (Typically offered: Fall and Spring)

CHEG 3323. Thermodynamics of Multi-Component Systems. 3 Hours.
The use of the state principle and energy and entropy balance developed in CHEG 2313 is extended to allow processes. Physical and chemical equilibrium processes are considered in detail. Prerequisite: CHEG 2133 with a C or above, and MATH 2574. (Typically offered: Fall and Spring)

CHEG 3333H. Honors Chemical Engineering Reactor Design. 3 Hours.
Principles of kinetics of homogeneous and heterogeneous reactions, catalysis, and reactor design with applications, drawn from industrial processes. Pre- or Corequisite: CHEG 3253. Prerequisite: CHEG 3323 with a C or above. (Typically offered: Fall and Spring)

CHEG 3333H. Honors Chemical Engineering Reactor Design. 3 Hours.
Principles of kinetics of homogeneous and heterogeneous reactions, catalysis, and reactor design with applications, drawn from industrial processes. Pre- or Corequisite: CHEG 3253. Prerequisite: Honors standing, and CHEG 3323 with a C or above. (Typically offered: Fall and Spring)

CHEG 3713. Chemical Engineering Materials Technology. 3 Hours.
Selection of metals, polymers and ceramics for service in process conditions (including corrosion). In addition to static strains on materials, specialized materials such as semiconductors, composites, and nano-materials are studied. The relationship between molecular structure and macroscopic properties is emphasized including processing and manufacture. Prerequisite: CHEG 3323 with a C or above, CHEM 3603, and PHYS 2054. (Typically offered: Spring)

CHEG 4163. Separation Processes. 3 Hours.
Applications of chemical engineering design to stagewise and continuous separations in systems approaching equilibrium. Prerequisite: CHEG 3144 with a C or above, and MATH 2584. (Typically offered: Fall and Spring)

CHEG 4413. Chemical Engineering Design I. 3 Hours.
Principles of cost estimation, profitability, economic analysis, and economic balances as practiced in the chemical process industries. Special emphasis on the solution of problems involving the combination of engineering principles and economics. Corequisite: Drill component. Pre- or Corequisite: CHEG 3333 and CHEG 4163. Prerequisite: CHEG 3323L with a C or above. (Typically offered: Fall and Spring)

CHEG 4423. Automatic Process Control. 3 Hours.
Application of mathematical modeling methods to the description of transient phenomena of interest to process engineers. Modes of control and principles of feedback control are introduced with applications to process engineering problems. Pre- or Corequisite: CHEG 4163. Prerequisite: CHEG 3253 with a C or above. (Typically offered: Spring)
CHEG 4423H. Honors Automatic Process Control. 3 Hours.
Application of mathematical modeling methods to the description of transient phenomena of interest to process engineers. Modes of control and principles of feedback control are introduced with applications to process engineering problems. Pre- or Corequisite: CHEG 4163. Prerequisite: Honors standing, and CHEG 3253 with a C or above. (Typically offered: Spring)
This course is equivalent to CHEG 4423.

CHEG 4443. Chemical Engineering Design II. 3 Hours.
Responsibility for decision making is placed on the students in the solution of a comprehensive, open ended problem based on an industrial process. Both formal oral and formal written presentation of results are required. Students are selected for participation in some sections of the course based on academic performance, honors standing and instructor recommendations. Corequisite: Drill component. Prerequisite: CHEG 4413 with a C or above. (Typically offered: Fall and Spring)

CHEG 4443H. Honors Chemical Engineering Design II. 3 Hours.
Responsibility for decision making is placed on the students in the solution of a comprehensive, open ended problem based on an industrial process. Both formal oral and formal written presentation of results are required. Students are selected for participation in some sections of the course based on academic performance, honors standing and instructor recommendations. Corequisite: Drill component. Prerequisite: CHEG 4413 with a C or above. (Typically offered: Fall and Spring)
This course is equivalent to CHEG 4443.

CHEG 4813. Chemical Process Safety, 3 Hours.
Application of chemical engineering principles to the study of safety, health, and loss prevention. Fires and explosions, hygiene, toxicology, hazard identification, and risk assessment in the chemical process industries. Corequisite: Drill component. Prerequisite: CHEG 3144 and CHEG 3323, both with a C or above. (Typically offered: Fall)

CHEG 4813H. Honors Chemical Process Safety. 3 Hours.
Application of chemical engineering principles to the study of safety, health, and loss prevention. Fires and explosions, hygiene, toxicology, hazard identification, and risk assessment in the chemical process industries. Corequisite: Drill component. Prerequisite: Honors standing, CHEG 3323 and CHEG 3144 both with a C or above. (Typically offered: Fall)
This course is equivalent to CHEG 4813.

CHEG 488V. Special Problems. 1-6 Hour.
Special problems. Prerequisite: Senior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.
School of Law

Welcome to the School of Law
The University of Arkansas School of Law is consistently ranked among the best values in legal education by the National Jurist Magazine and among the U.S. News & World Report’s top tier of public law schools. The Law School prepares students for success as lawyers and leaders. Located in the heart of the beautiful University of Arkansas campus, the law school offers challenging courses taught by nationally recognized faculty, unique service opportunities, and a close-knit community.

University Switchboard

| University Switchboard | 479-575-2000 |

J.D. Admissions and Courses

Priority application deadline is April 1, but the school will review all applications on a rolling basis after that date. The school does not charge an application fee. Admission is only for the fall of each year, and only a full-time program is offered.

The School of Law prefers that prospective students apply online. The school may request more information than is listed below, but please do not send additional materials unless requested. Each file will be reviewed when it is completed.

Prerequisites

Except for students in the 3/3 programs, applicants must have completed all requirements for a bachelor’s degree from an accredited institution prior to the date of enrolling in the School of Law.

CAS

Applicants must participate in the Credential Assembly Service (CAS) and be registered with CAS during the application year. Through CAS, you are required to send the Law School Admissions Council (LSAC) official transcripts from all higher education institutions you have attended.

LSAT

Applicants also must take the Law School Admission Test (LSAT) before the end of June of the year for which they seek admission. Applications to the School of Law may be submitted prior to taking the LSAT. Applicants must have taken the LSAT during the five years preceding the date of application. The school will use an applicant’s highest LSAT score in calculating the applicant’s prediction index.

The LSAT is given four times per year in Fayetteville and at other locations throughout Arkansas and in other states. Registration may be arranged online at www.lsac.org. Applicants for admission are urged to take the test at least nine months prior to expected entrance in the School of Law.

Prediction Index

The School of Law will grant index admission to non-residents who have a prediction index of 202 or above and to Arkansas residents who have a prediction index of 200 or above. If space permits, the school may offer index admissions to other applicants.

The prediction index is calculated as follows: (LSAT score) + (13.4 x UGPA) = Prediction Index. For example, if you have an LSAT score of 160 and a 3.00 UGPA, your prediction index would be 202.

Transfer Students

A law student who has completed one year of legal studies with satisfactory academic performance in a law school accredited by the American Bar Association is eligible to be considered for transfer to the University of Arkansas School of Law. The amount of transfer credit to be granted will depend on the quality of performance and the relation of completed courses to this school’s program. A maximum of 30 credits may be accepted for transfer credit. Credit or units only (not grades) are transferable. Credits will not be accepted for any course or other work in which a grade below 2.00 or equivalent is given at another law school. Failure to disclose attendance at another college or law school or expulsion or suspension is sufficient grounds to require withdrawal from the School of Law.

3/3 Program – Arts and Sciences

The School of Law and the Fulbright College of Arts & Sciences offer a program that enables outstanding students to enter the School of Law after their third year of college. Students in the Fulbright College are eligible to begin at the School of Law after the completion of at least 94 hours of college work if they have:

- Completed all university, college, and major course requirements for their undergraduate degree;
- Earned a cumulative GPA of at least 3.50; and
- Received an LSAT score of at least 159.

Such students will receive a Bachelor of Arts or Bachelor of Science degree after the completion of sufficient hours of School of Law work to meet the regular requirements of the Fulbright College. These students will then receive a J.D. degree after completing the required number of hours of School of Law coursework.

3/3 Program – Agriculture

Exceptional students in the pre-law concentration in the Dale Bumpers College of Agricultural, Food and Life Sciences may enroll in the School of Law in their fourth year provided that all requirements have been met. Students must have:

- Completed all university, college, and major course requirements for the pre-law concentration;
- Completed 12 hours in the specialization list for pre-law;
- Earned a cumulative GPA of at least 3.50 without grade renewal; and
- Received an LSAT score of at least 159.

A student admitted to this program may substitute School of Law coursework for the remaining total hours required for the bachelor’s degree in agricultural business.

It is a requirement of the School of Law’s accrediting standards that no student be admitted to the School of Law until they have completed at
Successful defense of their thesis satisfies this requirement.

J.D./M.A. Program

The Department of Political Science, the Graduate School, and the School of Law cooperate in offering a dual degree program that allows a student to pursue the M.A. in Political Science and the J.D. degrees concurrently.

The program described below requires 36 hours as follows: the student selects:

1. Seminars in political science or equivalent courses in other departments approved by the graduate adviser in political science (total of 24 hours including — 3 hours of methods and 21 hours other graduate seminars six hours of which may be thesis credit; and
2. Twelve hours of elective courses taken in the law school in an area of concentration approved by the director of the M.A. program.

Students must be admitted to the M.A. program and the School of Law. If a student seeks to enter the dual degree program after enrolling in either the law school or the M.A. program, he or she must obtain admission to the other degree program during the first year of study.

The School of Law accepts 9 semester hours of M.A. courses to satisfy requirements for the J.D. degree, which can be chosen from the following courses:

- PLSC 5203 Seminar in American Political Institutions 3
- PLSC 5213 Seminar in American Political Behavior 3
- PLSC 5253 Politics of Race and Ethnicity 3
- PLSC 5503 Comparative Political Analysis 3
- PLSC 5803 Seminar in International Politics 3
- PLSC 5833 International Political Economy 3

The Associate Dean for Academic Affairs of the School of Law may approve new or alternative courses proposed to satisfy the requirements of the program for J.D. credit.

Students admitted to the dual degree program may commence their studies in either the law school or the M.A. program but must complete first year course requirements before taking courses in the other degree program. If they do not maintain the academic or ethical standards of either degree program, students may be terminated from the dual degree program. If a student seeks to enter the dual-degree program after enrolling in either the School of Law or the M.P.A. program, he or she must obtain admission to the other degree program during the first year of study.

The School of Law accepts a maximum of nine hours of M.P.A. courses during the first year of study.

Students must be admitted to the M.P.A. program, the School of Law, and the dual program. If a student seeks to enter the dual-degree program after enrolling in either the School of Law or the M.P.A. program, he or she must obtain admission to the other degree program and the dual program during the first year of study.

The School of Law accepts a maximum of twelve hours of approved law core courses may be used as duplicate credit toward the M.B.A. degree. These 12 hours of law core courses shall be applied to the 12 hours of career track courses within the M.B.A. degree plan. Likewise, a maximum of 12 hours of approved M.B.A. core courses may be used as duplicate credit toward the J.D. degree, thus reducing the total time necessary for the completion of both degrees.

The M.B.A. must be approved by the Graduate School of Business and the School of Law. The M.B.A. degree plan and expected academic work products will be developed.

Students admitted to the dual degree program may commence their studies in either the School of Law or the M.B.A. program but must complete first-year course requirements before taking courses in the other degree program. If they do not maintain the academic or ethical standards of either degree program, students may be terminated from the dual degree program.

J.D./M.B.A. Program

For students interested in obtaining both the M.B.A. and J.D. (law) degrees, the M.B.A./J.D. dual degree program is available. This program allows the student to receive both the M.B.A. degree and the J.D. degree. The program requires separate application and admission to both the School of Law and the Graduate School of Business and the M.B.A. degree program. Interested students should obtain bulletins and applications from both the School of Law and the Graduate School of Business. If the student is accepted into both programs, a maximum of twelve hours of approved law core courses may be used as duplicate credit toward the M.B.A. degree. These 12 hours of law core courses shall be applied to the 12 hours of career track courses within the M.B.A. degree plan. Likewise, a maximum of 12 hours of approved M.B.A. core courses may be used as duplicate credit toward the J.D. degree, thus reducing the total time necessary for the completion of both degrees.

J.D./M.P.A. Program

The University of Arkansas department of political science, the Graduate School, and the School of Law cooperate in offering a dual-degree program that allows students to pursue the Master of Public Administration (M.P.A.) and J.D. degrees concurrently. Students must be admitted to the M.P.A. program, the School of Law, and the dual-degree program. If a student seeks to enter the dual-degree program after enrolling in either the School of Law or the M.P.A. program, he or she must obtain admission to the other degree program and the dual program during the first year of study.

The School of Law accepts a maximum of nine hours of M.P.A. courses to satisfy requirements for the J.D. degree. To qualify for J.D. credit, the M.P.A. courses must come from a set of core courses and must be approved by the School of Law. For purposes of the M.P.A. degree, 15 hours of elective courses may be taken in the School of Law, subject to approval by the director of the M.P.A. program. Students must earn a grade of B or higher in any M.P.A. courses offered for credit toward the J.D. degree.

Students admitted to the dual-degree program may commence studies in either the School of Law or the M.P.A. program but must complete first-year course requirements before taking courses in the other degree program. If they do not maintain the academic or ethical standards of either degree program, students may be terminated from the dual-degree program.

Students in good standing in one degree program but not the other may be allowed to continue in the program in which they have good standing.
The Juris Doctor/Master of Social Work dual degree is awarded after completion of a four-year integrated course of study. This eliminates approximately one year of study, while meeting all accreditation requirements of the American Bar Association and Council on Social Work Education.

Upon completion of the dual degree, students have earned a total of 135 credit hours (as opposed to 153 credit hours if the degrees are earned separately). A total of 12 hours credit earned in the M.S.W. program count toward completion of the J.D. degree. A total of 6 hours credit earned in the J.D. program count toward completion of the M.S.W. degree. In order to receive dual credit, minimum grade standards for each program must be met.

Students who do not maintain the academic or ethical standards of either degree program may be terminated from the dual degree program. Students in good standing in one degree program but not the other may be allowed to continue in the program in which they have good standing and must meet the degree requirements of that program. If for any reason a student admitted to the dual degree program does not complete the M.S.W. degree, the student cannot count the 12 hours of M.S.W. courses toward the J.D. degree. If for any reason a student admitted to the dual degree program does not complete the J.D. degree, the elective policy for the School of Social Work applies.

To be eligible for admission to the J.D./M.S.W. Dual Degree Program, students must apply separately and be admitted to the master’s program at the School of Social Work, to the juris doctor program at the School of Law, and to the joint program. As such, applicants must meet all of the requirements for admission to each program. Upon application to the J.D./M.S.W. dual degree, the applicant shall provide a statement of intent for admission that includes a brief explanation of the reasons for pursuing this dual degree program as well as goals upon completion of the program. Each degree will be conferred when the student has met all the requirements of that degree.

Should a student enter one program and later become aware of the availability of the joint program, the student must be admitted to both programs and to the joint program during his or her first year of class work in the program of original enrollment.

The first year at the School of Law consists of a rigorous course of study that you and all your classmates will follow. Starting at new student orientation and continuing throughout your first year, you will begin to learn, write, and think about the law.

The first-year courses are as follows:

**Required First-Year Courses**

<table>
<thead>

In addition, before graduation, each student is required to complete:

- a course for at least two credit hours that has been certified by the law faculty as an Upper Level Writing Course;
- a minimum of six credit hours of experiential learning courses as designated from time to time by the Dean; and
- a non-credit training session based on the Arkansas Mandatory Child Maltreatment Reporter law.

**Electives**

Most of the curriculum in the second and third year is composed of electives. This elective system allows students to choose courses that interest them and that will be useful in the types of careers they choose. Students are required to consult a faculty adviser before registering for upper-level courses.

Brief descriptions of the courses generally offered at the School of Law are set out below. Credit hours occasionally vary when a course is offered during the summer session.

The curriculum at any good law school is always in the process of being studied and revised. Experimentation in the educational program is necessary to meet the needs of the future. The following pages describe recently offered elective courses at the University of Arkansas School of Law. For the most accurate list of course offerings, please visit law.uark.edu.

LL.M. in Agricultural and Food Law

For more than 30 years, the University of Arkansas School of Law has led the nation in agricultural and food law education, research, and outreach. We were first to offer an advanced legal degree program in agricultural and food law, first to publish a specialized journal devoted to food law and...
Agricultural and Food Law at the University of Arkansas

Located where the agriculture of the West, Midwest, and South merge, Arkansas provides an ideal location for the study of agricultural and food law. Agriculture is the state's leading industry: Arkansas-based Riceland Foods is the world's largest miller and marketer of rice; Wal-Mart is the world's largest grocery retailer; and Tyson Foods leads the world in meat sales. The University of Arkansas is also a leader in agricultural sciences through the work of the Dale Bumpers College of Agricultural, Food and Life Sciences. Northwest Arkansas has a vibrant local foods community, with an extensive network of farmers' markets and local food venues, community organizations working to improve local food access, and strong support for sustainable agricultural production.

Recognizing the importance of agriculture to Arkansas and the surrounding region, the University of Arkansas School of Law founded the LL.M. Program in Agricultural Law in 1980 as the first specialized degree program for attorneys interested in the study of agricultural law. Understanding the inherent connection between agriculture and our food system, the program expanded to include food law in 2009. Graduates of the agricultural law program are uniquely prepared to shape agricultural and food law and policy in the 21st century.

LL.M. Admission Requirements

Applicants for admission to the LL.M. Program in Agricultural & Food Law must have earned a J.D. or LL.B. degree from a fully accredited school in the United States or be admitted to a bar. Attorneys who have graduated from a law school in another country may be admitted upon the approval of the Graduate Legal Studies Admissions Committee. Professional or Graduate level students may take courses on a non-degree basis.

All applicants should demonstrate academic excellence coupled with an interest in agricultural law or food law issues. A law school grade-point average of 2.50 or higher on a 4.00 scale is required; 3.00 or higher is preferred.

The following information is required for a complete application from a domestic applicant:

- A completed application form;
- An admission statement or letter explaining the reasons why the applicant seeks to be admitted and demonstrating an interest in agricultural and/or food law;
- Official copies of transcripts from all post-secondary educational institutions attended (these must be sent from the school, directly to the Director of the LL.M. program);
- At least one letter of recommendation (two in the case of international students) from an individual who can attest to the applicant’s academic and professional abilities (this should be sent directly to the Director of the LL.M. Program).

A writing sample is optional, but will be considered if submitted.

International candidates should refer to the application requirements as explained on the PDF of the application form (https://law.uark.edu/academics/llm-food-ag/LLMapplication-IntlStudents.pdf).

Non-degree seeking candidates should contact the program at llm@uark.edu for eligibility and application information.
The University of Arkansas School of Law’s Graduate Admissions Committee will make all admissions decisions and may in some cases place conditions on a candidate’s admission.

Applications for the 2017-2018 class will be accepted beginning Oct. 1, 2016. The program has a rolling admissions policy, and applications will continue to be accepted until all candidate positions are filled.

J.D. Electives in Agricultural and Food Law

J.D. students in good standing at the University of Arkansas School of Law have the opportunity to enroll in many of the specialized LL.M. courses as electives in the J.D. program. Food Law and Policy, Agriculture and the Environment, Global Issues in Food Law, and Agricultural Bankruptcy have all been popular choices for J.D. enrollment.

Nine-Hour J.D. Students

A School of Law student who is within nine hours of completing the total credit hours required to earn a J.D. degree may be admitted conditionally to the graduate law program. This allows students to begin their LL.M. coursework during their final semester of law school. Credits are assigned to either the J.D. program or the LL.M. program but cannot be counted toward both degrees. In order to be admitted to the nine-hour program, a J.D. student must:

1. Obtain advance approval from the Graduate Legal Studies Committee;
2. Obtain advance approval from the director of the graduate law program for credits to be applied toward the LL.M. degree; and
3. Earn a grade of 2.50 or higher in each course to be applied toward the LL.M. degree.

A student who satisfies these requirements and who is subsequently awarded a J.D. degree will be admitted to the graduate program as a degree candidate, unless the Graduate Legal Studies Committee determines that there are substantial grounds for revocation of the conditional admission.

Non-Degree Program

J.D. students, practicing attorneys, and graduate students in related disciplines may be allowed to enroll in our specialized agricultural and food law classes for non-degree credit.

A number of LL.M. courses are open to J.D. students in good standing. This includes law students enrolled at University of Arkansas School of Law as well as students at other accredited law schools. Students wishing to transfer credits must contact their Dean for approval prior to enrollment.

LL.M. alumni and other attorneys can take many of the LL.M. classes, and the class may qualify for CLE credit (subject to their state CLE rules).

Graduate students working in a related discipline may also be allowed to take LL.M. courses. This includes graduate students enrolled at University of Arkansas School of Law as well as students in other accredited graduate programs. Students wishing to transfer credits must contact their Dean for approval prior to enrollment.

Interested students and attorneys should contact the program administrator, Sarah Hiatt, at llm@uark.edu for the current class schedule and information about enrollment.

Degree Requirements

To receive an LL.M. degree in agricultural law, a candidate must:

1. Complete a total of 24-credit hours pursuant to a course of study approved by the director of the graduate law program;
2. Maintain a cumulative grade-point average of 2.50 or better (on a 4.00 scale); and
3. Conduct research in a specialized area of agricultural law and produce a written product for graded credit. The required written product can be of the sort that is published in a law journal or, with the permission of the director of the graduate law program, a less traditional product that demonstrates rigorous legal analysis, significant academic content, and quality legal writing skills.

Candidates may enroll on a full or part-time basis but may not enroll for more than 15 hours in any semester without the approval of the director of the graduate law program. All coursework, including completion of the research requirement must be completed within four years of matriculation.

All candidates are subject to the LL.M. Program Honor Code.

Dual Degree Program

The School of Law cooperates with the department of agricultural economics and agribusiness in the Dale Bumpers College of Agricultural, Food and Life Sciences to offer a dual-degree program leading to the LL.M. in agricultural law and Master of Science in agricultural economics degrees.

Each program applies its own admission standards. For further information on the master’s in agricultural economics, contact the graduate program adviser at 479-575-2256.

Course of Study

The LL.M. program offers 24 credits of specialized agricultural law courses. Most students take all of the specialized courses. However, with the approval of the director, a student may substitute courses offered in the J.D. program (if not taken previously as a J.D. student) or courses offered for graduate credit elsewhere within the University of Arkansas provided that they are substantially related to agricultural or food law. Given an increasingly globalized food system, some LL.M. students have taken international law classes offered in the J.D. curriculum. Graduate students may be allowed to earn up to six credits through alternative courses. An effort is made to accommodate each student’s particular areas of interest, and the director works closely with each student to develop their preferred curriculum. Credit may not be granted for courses taken at other law schools.

Costs and Funding

The LL.M. Program in Agricultural and Food Law is one of the most affordable LL.M. opportunities available.

The university provides an online calculator for tuition and fees information at the Treasurer’s website (http://treasurernet.uark.edu/Tuition.aspx?pagestate=Calculate).

The Graduate School at the University of Arkansas and the School of Law provide for Graduate Assistantships to be awarded to a limited number of LL.M. candidates. These assistantships provide for a full tuition waiver plus a stipend of $5,000 less withholding per semester in exchange for the...
candidate's work in a variety of legal and teaching capacities. Competition for the Graduate Assistantship positions is high, and the awards are primarily merit-based, although special consideration may also be given to particularly well qualified international candidates.

Graduate Assistantship awards are made by the Graduate Admissions Committee after a candidate has been admitted to the LL.M. Program.

**LL.M. Courses**

The courses offered as part of the LL.M. curriculum are specifically designed to address the most current legal issues involving the law of food and agriculture. The curriculum and the focus in each of the individual courses varies year to year as professors incorporate new issues.

Each year's curriculum is based on candidate interest, professor availability, and current events.

**Journal of Food Law & Policy**

The Journal of Food Law & Policy was established in July 2005 as the country's first student-edited legal journal devoted to the study of the relationships that exist among food, law, and society. It is credited with helping to foster the development of the emerging food law and policy discipline in law schools across the country. The journal is published twice a year. It features work by many prestigious authors, including renowned food law expert Peter Barton Hutt, agricultural law scholar Neil Hamilton, the director of UCLA's food law program, Michael Roberts, and many others. In the spring of 2015, the journal celebrated its 10th anniversary by hosting a symposium titled, The Past, Present and Future of Food Law & Policy. The event was hosted at the law school and live-streamed to a wide audience.

**Certificate in Business Law**

The School of Law business law certificate is designed for those students wishing to focus on business or transactional law to prepare themselves for a business law practice or to enhance their career prospects in the business field in general. The program provides a strong framework in the fundamentals of business and transactional law and skills through coursework and related activities. The program will prepare qualified J.D. degree and post-J.D. candidates for a wide variety of business and transactional law practices and, for non-law students, it will help provide a strong foundation for legal aspects of the business environment.

**Admission requirements:** The student must satisfy one of the following requirements:

1. Be currently enrolled in the J.D. program at the School of Law or be admitted as a visiting J.D. student at the School of Law;
2. Hold a J.D. degree from an accredited law school;
3. Be enrolled in the LL.M. program at the School of Law; or
4. Be admitted by the Associate Dean or that dean's designee (here in after the 'Associate Dean') as otherwise qualified to complete the certificate requirements successfully. The Associate Dean may limit the number of students eligible to pursue the certificate at any one time.

**Course requirements:**

The certificate program in Business Law requires 18 hours of coursework.

**Foundational Business Law Courses**

It is assumed that all students seeking the certificate will enter the program having already successfully completed, as part of their J.D. degree program or other qualifying studies, the following foundational business law courses (or equivalent):

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>LAWW 4024</td>
<td>Contracts</td>
</tr>
<tr>
<td>LAWW 4294</td>
<td>Business Organizations</td>
</tr>
<tr>
<td>LAWW 6233</td>
<td>Federal Income Tax of Individuals</td>
</tr>
</tbody>
</table>

**Required Course Categories**

In addition to completing all Foundational Business Law Courses, in order to be eligible for the Business Law Certificate a student must successfully complete at least 18 credit hours of business law coursework, including at least one course from each of the following three categories:

- (ULW-approved three courses are Business Drafting, Contract Drafting, and Corporate Practice.)

**Business Drafting Courses:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>LAWW 406V</td>
<td>Upper Level Writing</td>
</tr>
<tr>
<td>LAWW 4182</td>
<td>Upper Level Writing - Business Drafting</td>
</tr>
</tbody>
</table>

**Experiential Learning Business Courses:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>LAWW 5213</td>
<td>Business Lawyer's Skills</td>
</tr>
<tr>
<td>LAWW 686V</td>
<td>Corporate Counsel Externships</td>
</tr>
</tbody>
</table>

**Public Company Courses:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>LAWW 5662</td>
<td>Mergers and Acquisitions</td>
</tr>
<tr>
<td>LAWW 629V</td>
<td>Public Corporations</td>
</tr>
<tr>
<td>LAWW 536V</td>
<td>Securities Regulation</td>
</tr>
</tbody>
</table>

**Business Electives**

The following courses will count toward the 18 credit hours of business law coursework needed to complete the Business Law Certificate:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>LAWW 6133</td>
<td>Antitrust Law</td>
</tr>
<tr>
<td>LAWW 6253</td>
<td>Federal Income Taxation of Business Entities</td>
</tr>
<tr>
<td>LAWW 5391</td>
<td>Effective Corporate Compliance</td>
</tr>
<tr>
<td>LAWW 6393</td>
<td>Legal Clinic: Nonprofit</td>
</tr>
<tr>
<td>LAWW 5543</td>
<td>International Business Transactions</td>
</tr>
<tr>
<td>LAWW 567V</td>
<td>Nonprofit Organizations</td>
</tr>
<tr>
<td>LAWW 500V</td>
<td>Special Topics</td>
</tr>
</tbody>
</table>

Special Topics LAWW 500V Corporate Counsel Colloquium, Corporate Finance, and Representing Startups. Any courses listed in the Experiential Business, Business Drafting, or Public Company Course categories listed above.

**Extracurricular Course of Study**

Students must attend at least 250 minutes of extracurricular programming sponsored by the business law society or approved in advance by the Associate Dean.

**Substitutions**

The Associate Dean may designate a Special Topics or other course as a qualifying Business Elective, and in rare cases, with substantial justification, may allow substitution in the Experiential Business, Business Drafting, or Public Company course categories listed above.

**Other requirements:**

J.D. candidates
Our J.D. students must declare their intention to complete the program before the final semester of their J.D. studies by notifying the Associate Dean. The student must have a cumulative law school GPA of at least 2.75 and a GPA of 3.0 or above in certificate courses at the time he or she declares. In order to receive the certificate upon graduation, the student must successfully complete the required courses, earn a GPA of at least 3.2 in certificate courses, and have a cumulative GPA of 2.75 or above.

**J.D. visitors**

Those currently earning a J.D. at another ABA accredited law school but visiting here may earn the business law certificate. They must apply to the Associate Dean before their final semester of J.D. studies. These students can satisfy certificate course credits with courses taken at their own law school, but must take at least 12 credits in certificate courses here, and they must complete the corporate counsel externship program or other approved experiential capstone course here.

A visiting J.D. student must have a cumulative law school GPA of at least 2.75 and a GPA of 3.0 or above in certificate courses at the time he or she applies for the certificate program. In order to receive the certificate upon graduation, the student must successfully complete the required courses and earn a GPA of 3.2 or above in certificate courses, and have a cumulative GPA of 2.75 or above.

**Post-J.D. candidates**

Those who have already earned a J.D. degree from an accredited law school in the United States may also earn a certificate. They must apply to the Associate Dean before commencing the program.

For the purposes of this program, post-J.D. candidates can determine their GPA within the program based in part on courses completed elsewhere. All post-J.D. candidates must fulfill the requirements listed in §5-1505 of the Faculty Policies Manual, at least 12 credits of which must be taken here, and they must complete the corporate counsel externship program or other approved experiential capstone course here.

Post-J.D. candidates must have a cumulative GPA of at least 3.0 from the school that conferred their law degree. To complete the program, they must earn a GPA of 3.2 or above in certificate courses.

**LL.M. candidates**

Our LL.M. candidates must notify the Associate Dean one month before enrollment in the LL.M. program of their intention to complete the program and must have the approval of the director of the LL.M. program.

For the purposes of this program, LL.M. candidates can determine their GPA within the program based in part on courses completed elsewhere. LL.M. candidates must satisfy all the required courses, at least 12 credits of which must be taken here, and must take the corporate counsel externship or other approved experiential capstone course here.

To declare, an LL.M. candidate must have a cumulative GPA of at least 3.0 from the school that conferred their law degree. To complete the program, they must earn a GPA of at least 3.2 in certificate courses and have a cumulative GPA of 2.75 or above.

**General Requirements (Non-J.D./Non-LL.M. Candidates)**

Post-baccalaureate students who are not enrolled as J.D. or LL.M. students at the law school (and do not have a J.D. degree) may also earn a certificate. They must apply to the Associate Dean before commencing the program. If they have taken at least 12 credits of the required certificate courses at another ABA-accredited law school, their GPA in those courses must be at least 3.0 to apply. If they have not, their undergraduate cumulative GPA must be at least 3.5. For the purposes of this program, these students can determine their GPA within the program based in part on courses completed elsewhere.

To earn the certificate, these students must complete all the required courses, at least 12 credits of which must be taken here, and they must complete the approved experiential capstone course here. To complete the program, they must also earn a GPA of 3.2 or above in certificate courses.

**Learning Objectives**

Students who successfully complete the requirements for the Business Law Certificate will:

1. Demonstrate proficiency in explaining and analyzing the legal and regulatory implications of common business matters
2. Be able to draft documents relevant to typical business formations and basic transactions and
3. Demonstrate an understanding of the role of counsel to businesses, business owners, or business management, as well as an appreciation of the ethical implications of representing each discrete group.

**Certificate in Criminal Law**

The Law School offers a criminal law certificate to those students wishing to focus on criminal law during law school and prepare themselves for the practice of criminal law or policy. The program is available to J.D. candidates, LL.M. candidates, as well as other post-baccalaureate students as described below. The program requires students to develop litigation skills through at least one criminal law clinic (or other experiential capstone course approved as a substitute by the Associate Dean for Academic Affairs or that dean's designee), as well as skills courses while also providing a strong framework in the fundamentals of criminal law and procedure through coursework.

Many law schools and employers continue to seek ways to better prepare students for the practice of law immediately upon graduation, and this certificate seeks to make its graduates far more prepared to step into criminal law practice, whether at public agencies such as prosecution or public defender offices, or at firms or even in solo practice. The program seeks, through minimum requirements, to ensure qualified candidates graduate ready for a practice in criminal law. For non-law students, it will help provide a strong foundation for policy work or other criminal justice fields.

**Admission requirements:** The student must satisfy one of the following requirements:

1. Be currently enrolled in the J.D. program at the School of Law or be admitted as a visiting J.D. student at the School of Law.
2. Hold a J.D. degree from an accredited law school.
3. Be enrolled in the LL.M. program at the U of A School of Law.
4. Be admitted by the associate dean for academic affairs or that dean's designee as otherwise qualified to complete the certificate requirements successfully.

The associate dean for academic affairs, or designee, may limit the number of students eligible to pursue the certificate at any one time.
Course Requirements for the Certificate in Criminal Law

Students seeking the certificate generally will enter the program having already successfully completed as part of their J.D. degree program or other qualifying studies, the following basic law courses (or equivalents): LAWW 4074 Criminal Law (Irregular); LAWW 4173 Criminal Procedure I (Irregular); LAWW 6093 Basic Evidence (Irregular); and LAWW 5013 Professional Responsibility (Irregular). Students who have not already completed one or more of these courses before entering the program may, however, do so during the time they are also pursuing the certificate.

Other requirements:

J.D. Candidates: Our J.D. students must declare their intention to complete the program in the spring of their 2L year by notifying the Associate Dean.

The student must have a cumulative law school GPA of at least 2.75 and a GPA of 3.0 or above in certificate courses at the time the student declares. In order to receive the certificate upon graduation, the student must fulfill the requirements in §5-1408 in the Faculty Policies Manual, earn a GPA of 3.2 or above in certificate courses (including Criminal Certificate prerequisites), a cumulative GPA of at least 2.75, and a B+ or above in the criminal practice clinic, or other approved experiential capstone course (if graded).

J.D. Visitors: Those currently earning a J.D. at another ABA-accredited law school but visiting here may earn the criminal law certificate. They must apply to the Associate Dean by spring of their 2L year. These students can satisfy certificate course credits with courses taken at their own law school, but must take at least 12 credits in certificate courses here. Also, they must complete the criminal clinic program or other approved experiential capstone course here.

The student must have a cumulative law school GPA of at least 2.75 and a GPA of 3.0 or above in certificate courses at the time the student applies. In order to receive the certificate upon graduation, the student must fulfill the requirements in §5-1408 in the Faculty Policies Manual, earn a GPA of at least 3.2 in certificate courses (including Criminal Certificate prerequisites), and a B+ or above in the criminal practice clinic or other approved experiential capstone course (if graded).

Post-J.D. Candidates: Those who have already earned a J.D. degree from an accredited law school in the United States may also earn a certificate. They must apply to the Associate Dean before commencing the program.

For the purposes of this program, post-J.D. candidates can determine their GPA within the program based in part on courses completed elsewhere. All post-J.D. candidates must fulfill the requirements in §5-1408 in the Faculty Policies Manual, at least 12 credits of which must be taken here, and they must complete or have completed the criminal clinic program or other approved experiential capstone course.

Post-J.D. candidates must have at least a cumulative GPA of 3.0 from the school that conferred their law degree. To complete the program, they must earn a GPA of 3.2 or above in certificate courses (including Criminal Certificate prerequisites) and a B+ or above in the criminal practice clinic or other approved experiential capstone course (if graded).

LL.M. Candidates: Our LL.M. candidates must notify the Associate Dean no later than one month before enrollment in the LL.M. program of their intention to complete the program and must have the approval of the director of the LL.M. program.

For the purposes of this program, LL.M. candidates can determine their GPA within the program based in part on courses completed elsewhere. LL.M. candidates must satisfy all the requirements in §§-1408 in the Faculty Policies Manual, at least 12 credits of which must be taken here, and must take the criminal practice clinic or other approved experiential capstone course here.

To declare, an LL.M. candidate must have at least a cumulative GPA of 3.0 from the school that conferred their law degree. To complete the program, they must earn a GPA of 3.2 in certificate courses (including Criminal Certificate prerequisites), a cumulative GPA of at least 2.75, and a B+ or above in the criminal practice clinic or other approved experiential capstone course (if graded).

General Requirements (Non-J.D. and Non-LL.M. Candidates): Post-baccalaureate students who are not enrolled as J.D. or LL.M. students at the law school (and do not have a J.D. degree) may also earn a certificate. They must apply to the Associate Dean before commencing the program. If they have taken at least 12 credits of the required certificate courses listed in §§-1408 in the Faculty Policies Manual at another ABA accredited law school, their GPA in those courses must be at least 3.0 to apply. If they have not, their undergraduate cumulative GPA must be at least 3.5. For the purposes of this program, these students can determine their GPA within the program based in part on courses completed elsewhere.

To earn the certificate, these students must complete all the coursework as set forth in §§-1408 in the Faculty Policies Manual, at least 12 credits of which must be taken here, and they must complete the approved experiential capstone course here. To complete the program, they must also earn a GPA of at least 3.2 in certificate courses (including Criminal Certificate prerequisites) and a B+ or above in the approved experiential capstone course (if graded).

Certificate; Substitute Courses; Enrollment Limit: Each student completing the requirements will receive a certificate. If appropriate, the Associate Dean may approve any new electives proposed to satisfy the elective requirements of the program. The Associate Dean may limit the number of students eligible to pursue the certificate at any one time.
Costs and Financial Aid

The University of Arkansas School of Law’s tuition and financial aid packages are designed to help make the cost of pursuing a law school education reasonable regardless of a student’s financial circumstances.

Fee and Cost Estimates

Educational expenses will vary according to a student’s course of study, personal needs, and place of residence. Student progress or general course of action in pursuit of higher education at the University of Arkansas is determined during the application and acceptance process. At the conclusion of the application and acceptance process, the progress or general course of action for each student will be assigned a category, called a career.

The career categories at the University of Arkansas — in order of magnitude by the cost of tuition per credit hour — are Agricultural & Food Law, Law, Graduate, and Undergraduate. Students concurrently enrolled in multiple careers will be assigned one primary career for all tuition billing purposes, called a billing career, based on the order of magnitude listed above. The Office of the Registrar is responsible for assigning the appropriate billing career. Base tuition is assessed per credit hour of enrollment unless otherwise specified. Students enrolled in Fayetteville campus courses, off-campus courses offered at the Rogers location, the online degree program of Agricultural & Food Law LL.M., or any combination of these concurrently with online classes are charged base tuition per billing career and program plus non-resident tuition as determined by the student’s residency status for tuition billing purposes. All fees, charges, and costs quoted in this catalog are subject to change without notice. A survey tool for tuition and fee estimation is available at the Treasurer’s website (http://treasurer.uark.edu/Tuition.asp?pagestate=Estimate).

Financial obligations to the University of Arkansas must be satisfied by the established deadlines. Payment may be made at the University Cashier’s Office in the Arkansas Union, Room 214, by cash, personal check, money order or certified check. E-check (electronic check) and credit/debit payments are made online on UAConnect (https://uaconnect.uark.edu/). If you pay with a debit or credit card, there is a convenience fee charged of 1.8 percent.

Acceptance of payment for fees does not imply academic acceptance to the university.

* The standard law in-state tuition rate is $488.30 per credit hour. Students enrolled in Agricultural and Food Law are charged $610.38 per credit hour in-state tuition.
** University fees per year include the following student-initiated and student-approved fees:
  - Student Activity fee calculated at $2.64/credit hour — $79.20
  - Student Health fee, calculated at $7.25/credit hour — $217.50
  - Media fee, calculated at $0.90/credit hour — $27.00
  - Transit fee, calculated at $3.09/credit hour — $92.70
  - Network Infrastructure and Data Systems fee at $10.78/credit hour — $323.40
  - Facilities Fee, calculated at $18.85/credit hour — $565.50
  - Library Fee, calculated at $2.91/credit hour — $87.30
  - Law Fee, calculated at $18.74/credit hour — $562.20

*** Weighted average expenses for living in a residence hall, double occupancy, with an unlimited meal plan. Actual room and board fees vary.
**** Budget amounts were adjusted for rounding to accommodate UAConnect budgetary rules.

When paying tuition, room and board, and associated fees, anticipated financial aid for a current semester may be deducted when it is listed as anticipated aid on the student’s account. Students receiving financial aid are strongly encouraged to have sufficient personal funds available to purchase books and to meet necessary expenses for at least one month at the start of school as some aid funds may not be available for disbursement.

Tuition Fees

Students classified as “in-state” for fee payment purposes are assessed tuition. Students classified as “out-of-state” for fee payment purposes are assessed additional non-resident tuition.

Official policies of the University of Arkansas Board of Trustees provide the basis for classifying students as either “in-state” or “out-of-state” for purposes of paying student fees. Board policies relating to residency status for fee payment purposes are included at the end of this chapter of the catalog. Out-of-state students who question their residency classification are encouraged to contact the Registrar’s Office, 146 Silas H. Hunt Hall, for more information about residency classification review procedures.

Academic Year

Law students are assessed tuition of $488.30 per credit hour. Students with out-of-state residency status are assessed tuition of $1,176.15 per credit hour.

Law students enrolled in Agricultural and Food Law are charged tuition of $610.38 per credit hour in-state and $1,470.19 per credit hour for out-of-state students.

Distance Education Fees

Courses and exams taken online through the university’s Global Campus or via an extension service incur an additional fee:

<table>
<thead>
<tr>
<th>Program/Service</th>
<th>Specific Fees</th>
</tr>
</thead>
<tbody>
<tr>
<td>Extension Fee</td>
<td>$30.00</td>
</tr>
<tr>
<td>Global Campus Fee</td>
<td>$30.00</td>
</tr>
<tr>
<td>Premium Online Proctored Exam 'Take It Soon' Fee</td>
<td>$8.75</td>
</tr>
<tr>
<td>Premium Online Proctored Exam 'Take It Now' Fee</td>
<td>$5.00</td>
</tr>
</tbody>
</table>
Any student with an outstanding balance, to include registration-related fees and/or housing charges, by the last payment deadline will be assessed an additional late payment fee equal to the outstanding balance, not to exceed $75.00.

The late fee will not be waived because an invoice was not received.

**Disbursement of Refunds**

Disbursement of refunds due to overpayments by scholarships, loans, and/or grants will begin approximately five days prior to the start of classes.

The University of Arkansas has partnered with BankMobile to deliver financial aid and other school refunds to the University of Arkansas students. For more information visit the BankMobile refund page (http://bankmobiledisbursements.com/refundchoicesssos/).

**Addresses**

Students may create a check address, which will be used specifically for overpayment checks. This address may be created in addition to the local and permanent addresses. If a check address is not created, the default address will be the permanent address. The student may change their address in the Student Center section of UAConnect (https://uaconnect.uark.edu/).

**Students Called into Active Military Service**

When a student or student’s spouse is activated for full-time military service and is required to cease attending the University of Arkansas without completing and receiving a grade in one or more courses, they shall receive compensation for the resulting monetary loss as provided by Fayetteville Policy 504.2. The student must cease attendance because 1) the student is activated or deployed by the military or 2) the student’s spouse is activated or deployed by the military and the student or student’s spouse has dependent children residing in the household.

To be eligible for the compensation, the student must provide, prior to activation or deployment for military service, an original or official copy of the military activation or deployment orders to the University’s Veterans Resource and Information Center. A student whose spouse is a service member shall provide proof of registration with the Defense Enrollment Eligibility Reporting System (DEERS) of the Department of the Defense that establishes that dependent children reside in the household of the student and the service member.

Upon leaving the University of Arkansas because of active duty or deployment, the student may choose one of three compensatory options. The student may officially withdraw and receive full adjustment and refund of tuition and non-consumable fees for the term involved; the student can remain enrolled and arrange for a mark of “Incomplete” for each class and finish the courses 12 months after deactivation; or the student may receive free tuition and fees for one semester after deactivation. For more detailed information, read Fayetteville Policy 504.2 (http://vcfa.uark.edu/policies/fayetteville/avcf/5042.php).

**Academic Policies**

**Good Academic Standing**

While enrolled in the School of Law and working toward a J.D. degree, a student must maintain a cumulative grade-point average (GPA) of 2.00 or higher to remain in good academic standing. Rules on academic dismissal and readmission are as follows:
1. At the end of the first semester of the first year, any student who has a cumulative GPA of 1.49 or lower will be permanently dismissed from the School of Law for academic reasons.

2. At the end of the first year and any semester thereafter, any student who has a cumulative GPA of 1.79 or lower will be permanently dismissed from the School of Law for academic reasons.

3. At the end of the first year and any semester thereafter, any student who has a cumulative GPA of 1.80 to 1.99 will be dismissed from the School of Law for academic reasons. Any such student shall be allowed to petition for readmission, but the student may be readmitted only once. If a student is readmitted, he/she will have to raise his/her cumulative GPA to 2.00 or higher during the semester of readmission or that student will be permanently dismissed from the School of Law for academic reasons.

4. A student who is ineligible to continue at the School of Law but who is eligible to petition for readmission shall be readmitted only upon a decision by the School of Law Petitions Committee. The student shall initiate a petition for readmission by preparing a written petition addressed to the Petitions Committee and filing it with the chair. The petition should describe the student’s academic circumstances, present any facts of explanation and mitigation, and indicate how and why he/she expects to make sufficient improvement to achieve a cumulative GPA of 2.00 or higher. The student is entitled to make a personal appearance before the committee when it considers the petition in order to answer questions or to offer further argument on behalf of the petition. The committee shall readmit a student only if it determines that there were extraordinary circumstances that caused the academic deficiency and that there is a strong likelihood the student will successfully overcome his/her academic deficiency.

5. The committee’s decision to readmit shall be final. The committee’s decision not to readmit shall only be reviewed by the entire faculty upon a separate, written petition from the excluded student to the faculty, submitted to the Dean, seeking such review. The committee (or the full faculty on review of a decision not to readmit) may attach such conditions to its decision to readmit as it may deem in the best interests of the student and the School of Law under the circumstances involved. A majority vote of faculty in attendance, including the student representative to the faculty, will be necessary to readmit the petitioner upon review by the faculty. If a student’s petition for readmission is denied, either by the committee or upon faculty review thereof, no further petition will be heard without leave of the law faculty and before the passing of at least one year.

Requirements for Degree
The J.D. degree will be conferred upon a candidate who satisfies all university requirements and who satisfies all of the following law school requirements:

1. The candidate must successfully complete all applicable law school course requirements.
2. The candidate must earn at least 90 credits. At least 64 of the 90 credits must be in courses requiring attendance in regularly scheduled classroom sessions. Credit is given only for course work taken after matriculation as a law student.
3. At least 75 of the 90 credits required for graduation must be graded credits. Graded credits, for this purpose, include graded credits earned in courses at this law school, graded credits accepted as transfer credits from other ABA-approved law schools to the extent such credits would have been graded credits if earned in residence at this law school, and graded credits earned in ABA-approved study-abroad law programs to the extent the credits would qualify as graded credits if earned in residence at this law school. Ungraded credits include, but are not limited to, credits earned in other departments on campus, including such credits that are part of a dual-degree program, to the extent such credits are approved for law school credit.
4. The candidate must earn a cumulative GPA of at least 2.00 (on a 4.00 scale) for all graded credits at the law school.
5. If the candidate is a transfer student, he or she must satisfy any special requirements that may apply to transfer students. A transfer student should consult the School of Law Associate Dean for Students about any such special requirements.
6. The candidate must satisfy all requirements for the degree within five calendar years from the time the candidate first matriculates either at this or at another law school from which credit has been transferred and applied toward the degree.
7. No student may complete the course of study for the J.D. degree earlier than 24 months after the student has commenced study at the School of Law or a law school from which the School of Law has accepted transfer credit.
8. Subject to rules established by the School of Law faculty, students may be able to receive credit toward the J.D. degree for courses offered by colleges on the Fayetteville campus of the University of Arkansas other than the School of Law.

Application for graduation must be made to the registrar and fees paid during registration for the semester in which degree requirements will be completed and graduation effected. If a student fails to complete the degree, the application must be renewed and a renewal fee paid.

The course of study leading to the J.D. degree requires resident law study for three academic years. The curriculum is designed to occupy the full time of the student. In order to be considered a full-time student during the regular academic year, a student must be enrolled in a minimum of 12 credit hours. Students cannot enroll in more than 16 credit hours per semester without the permission of the School of Law Associate Dean for Students and, in no event, more than 18 credit hours per semester. Students cannot enroll in more than 6 credit hours in any summer session. In intersessions, except with the permission of the Dean, students cannot enroll in more than 1 credit hour.

Transfer Credits
Visiting Another Law School
Students enrolled in the University of Arkansas School of Law are generally required to complete all their course work in residence at this law school. It is our policy that no J.D. student may have visiting student status at another law school unless the student is in good standing at the UA School of Law and there are special, compelling, and unforeseen circumstances beyond the reasonable control of the student. The Associate Dean for Students has the authority to grant visiting status and must approve courses in advance, if visiting status is granted. All transfer credit rules apply to courses completed at other law schools.

No credit will be given for any course in which the student earns a grade lower than a C, or the equivalent of 2.00 on a 4.00 scale; no credit will be transferred for ungraded courses; credit transferred from another school will be reported on the student’s transcript as “CR”; and transfer credits will not be calculated in the student’s GPA.

The student must arrange for an official transcript to be sent to the Registrar at the School of Law at the conclusion of the semester in which the work is completed. Rules governing the number of hours students...
may take in any or all summer sessions at the UA School of Law apply to courses taken during summer sessions at other law schools.

Visiting Status at the University of Arkansas School of Law
A student enrolled in another ABA-approved law school may request permission to enroll in UA School of Law courses as a visiting student. Submitting the request is a two-step process. First, the student must arrange for the registrar at his or her current institution to submit a letter of good standing and official transcript to the School of Law. Second, the student must submit a written request for visiting status to the Associate Dean for Students. The request should include the academic term(s) for proposed enrollment, the name of the course(s) desired, and reasons for requesting visiting status. If the Associate Dean for Students approves the request for visiting student status, the student will contact the UA School of Law Registrar for registration and tuition and fee information. The student must abide by all applicable School of Law regulations and standards regarding student conduct, attendance, examinations, work load, and the like. Visiting students are not eligible to receive a degree from UA School of Law.

Grading System
For numerical evaluations, grades are assigned the following values:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
</tr>
<tr>
<td>C+</td>
<td>2.33</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>1.67</td>
</tr>
<tr>
<td>D+</td>
<td>1.33</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
</tr>
<tr>
<td>D-</td>
<td>0.67</td>
</tr>
<tr>
<td>F</td>
<td>0.00</td>
</tr>
</tbody>
</table>

Policies adopted by the faculty establish grade average ranges that apply to most courses (2.8 - 3.0 in most first-year courses and 3.0 - 3.2 in Legal Research & Writing I and II, and in most upper-level courses), subject to limited exceptions. The faculty has also adopted a policy that ordinarily, once a final grade (other than an ‘incomplete’) has been entered for a given class, that grade will be changed only because of mathematical or similar errors in the calculation of the grade.

Academic Advising
(a) The Law School has established a variety of avenues where a student can find advice. These avenues include a requirement that all students be individually advised by a member of the faculty before each registration period. Students may choose any member of the faculty, and advising materials, including an advising questionnaire, are provided to each student before each registration period in November and April. The selected faculty member shall provide the student with advice regarding the law school’s academic standards and graduation requirements, and guidance regarding course selection and sequencing. Except as provided below in subsection (c), all students must have their faculty adviser approve and sign their advising card.

(b) Academic Monitoring and Special Advising Program: Any student who earns more than 8 credit hours of grades lower than a “C,” or a cumulative GPA below a 2.50 in any given semester, shall be required to meet with the Associate Dean for Students and the Designated Academic Adviser, as soon as possible after the grades or cumulative GPA is earned. The student shall have the responsibility for scheduling the first meeting. The student will also be required to participate in the special advising program pursuant to which only the Associate Dean for Students will be authorized to approve and sign such student’s advising card during the period of academic monitoring. It is expressly intended that during this advising period the Designated Academic Adviser and the Associate Dean for Students shall have the authority to impose reasonable conditions on such student’s continued enrollment, including but not limited to the power:

1. to approve or reject any course schedule;
2. to limit the number of credit hours in which a student may enroll during any semester;
3. to require enrollment in, attendance at, or participation in one or more academic courses, lectures, programs, or tutorials;
4. to require the student refrain from or limit employment while enrolled as a student on a full-time basis.

Any student who fails to abide by any condition imposed by the Designated Academic Adviser or the Associate Dean for Students may receive administrative sanctions upon the recommendation of the associate Dean for Students and the faculty, such as administrative withdrawal from classes, ineligibility to take replacement classes, or other penalties up to and including dismissal from law school. The special advising and monitoring period under this subsection will end when the student earns a cumulative 2.5 GPA.

(c) Designated Academic Adviser: The Dean shall appoint the Designated Academic Adviser. The Designated Academic Adviser shall prepare and submit an evaluative report to the Academic Dean at the end of each spring semester regarding student progress related to subsection (b) above. Participating students’ confidentiality shall be observed in accordance with federal law.

Withdrawal
A student who leaves the University of Arkansas School of Law voluntarily before the end of a semester or summer term must first meet with the Associate Dean for Students and the School of Law Registrar. The registration-change deadlines for dropping courses apply to withdrawal as well. Students who fail to withdraw officially will receive grades of F in the classes for which they are registered but fail to complete.

University Policy on Auditing
When a student takes a course for audit, that student must obtain permission from the instructor and the Dean’s office, register for audit, pay the appropriate fees, and be admitted to the class on a space-available basis. The instructor shall notify the student of the requirements for receiving the mark of “AU” for the course. The instructor and the Dean may drop a student from a course being audited if the student is not satisfying the requirements specified by the instructor. The student is to be notified if this action is taken. The only grade or mark which can be given for a course for audit is “AU.”

Summer School
The School of Law operates a summer school, open to its students and to students at other accredited law schools who have completed at least one
year of study. Students from other law schools desiring to attend summer school at the University of Arkansas must satisfy the requirements of admission for students with advanced standing and should contact the School of Law Admissions Office, prior to the date of summer school registration.

**Code of Conduct**

Those who enter the legal profession must be persons of integrity, meriting at all times the trust of their clients, associates, and other members of the bar. The process of earning trust cannot await graduation but should begin while the student is pursuing a law degree. Conduct of law students is governed by the Student Code of Conduct. Examinations, for example, are not normally proctored by the professors, but each student is to abide by the Code of Conduct, which is representative of the ethical standards of the legal profession. If students or student organizations are cited by staff, faculty, or other students for a possible violation of local, state, and federal laws and/or School of Law policies, they may be subject to disciplinary action by the School of Law and/ or appropriate legal action. The code is available at law.uark.edu/ academics/academic-policies (https://law.uark.edu/academics/academic-policies.php).

**Sexual Harassment**

It is the policy of the School of Law to provide an educational and work environment in which individuals are free to realize their full potential and where their thought, creativity, and growth are stimulated. The School of Law should be a place of work and study for students, faculty, and staff, free of all forms of sexual intimidation and exploitation. The university prohibits sexual harassment of its students, faculty, administrators, and staff and makes every effort to eliminate sexual harassment at the university. Sexual harassment of students is a violation of Title IX of the Education Amendments of 1972. Title IX prohibits discrimination based on sex in education programs and activities. For the complete text of the Title IX policy, please refer to PDF of the School of Law Sexual Harrassment Policy (http://law.uark.edu/documents/SchoolOfLaw-SexualHarrassmentPolicy-Feb2016.pdf). For complaints against University of Arkansas School of Law students by non-student victims/complainants, please contact the Title IX Officer in the University of Arkansas Office of Equal Opportunity and Compliance.

**Non-Discrimination**

The University of Arkansas prohibits discrimination against and harassment of its students, faculty, and staff, or any applicant for employment. It is the policy of the University of Arkansas to provide an educational and work environment in which thought, creativity, and growth are stimulated, and in which individuals are free to realize their full potential through equal opportunity. The university should be a place of work and study for students, faculty, and staff, that is free of all forms of discrimination, sexual intimidation and exploitation. Therefore, the University of Arkansas is committed to providing equal opportunity for all students and applicants for admission and for all employees and applicants for employment regardless of race, age, gender, sex (including pregnancy), religion, national origin, marital or parental status, disability, veteran status, sexual orientation, gender identity or any other characteristic protected under applicable federal or state law. In addition, discrimination in employment on the basis of genetic information is prohibited. For the complete text of the non-discrimination policy, please refer to: Non-Discrimination Policy (http://vcfa.uark.edu/policies/fayetteville/oec/2141.php).

**Essential Academic and Professional Skills**

Students entering Law School are expected to understand that they must successfully complete all academic requirements for graduation, including meeting individual course requirements and expectations; to conform their conduct while in Law School to the professional standards required by the Law School Code of Conduct as well as other applicable conduct requirements for Law School activities; and to be able to satisfy requirements for admission to the Bar. In addition to a bar examination, there are character, fitness, and other qualifications for admission to the bar in every U.S. jurisdiction. Students should understand that it is their responsibility to determine the requirements for any jurisdiction in which they intend to seek admission by contacting that jurisdiction's licensing authority.

**School of Law Learning Outcomes**

The faculty has adopted the following learning outcomes for our J.D. program:

1. **Our graduates will have an understanding of their ethical responsibilities.**
   
   Graduates should demonstrate a fundamental understanding of the ethical responsibilities of an attorney as a client representative, officer of the court, and member of society.

2. **Our graduates will understand the law.**
   
   Graduates should demonstrate a fundamental understanding of the basic elements of substantive law, procedure, and legal theory.

3. **Our graduates will be able to communicate the law.**
   
   Graduates should demonstrate effective oral and written communication skills in the context of predictive, persuasive, and prescriptive application of the law.

4. **Our graduates will be able to use the law.**
   
   Graduates should demonstrate a reasonable array of legal practice skills, including the ability to conduct legal research, to engage in problem solving, to interact with clients, and to advocate on their behalf.

5. **Our graduates will be professionals.**
   
   Graduates should demonstrate professionalism by conducting themselves in a professional manner, including by participating in opportunities to increase their professional knowledge and skills.

**Professional Standards**

**Class Attendance**

Regular and timely class attendance is necessary to achieve the core values of legal education. Law students have an ethical obligation to their future clients that require they be diligent in attaining both a broad and detailed knowledge of substantive and procedural law, and proficiency in the fundamental skills of lawyering.

Reading the assigned materials and attending classes are not duplicative, and one may not be substituted for the other. Although class time may include reviewing, testing, and correcting student understanding of the assigned materials, there is no expectation that class lectures will cover all or even most information contained in assigned materials. Classroom presentations also add detail and nuance beyond that contained in assigned reading materials. Classroom discussions provide an opportunity to engage in civil discourse of disputed legal issues and to develop the intellectual and presentation skills necessary to effective representation.
Student Employment
A law student may not be employed more than 20 hours per week in any semester in which the student is enrolled in more than 12 class hours. It is a student’s responsibility to adhere to this requirement. In addition, it is strongly recommended that no student have outside employment during the first year of law school. The Career Services Office has adopted a policy informing employers who use School of Law students of this policy.

Graduation Honors
Each recipient of the J.D. degree who has met the following conditions shall receive the specified honor at the commencement exercise. Summa Cum Laude requires a cumulative grade point average of 3.75 or higher (on the 4.00 scale); Magna Cum Laude requires a cumulative grade point average of 3.50 through 3.74; Cum Laude requires a cumulative grade point average of 3.25 through 3.49. In all cases, if a student earns any credits outside the School of Law, a cumulative grade point will be computed separately for (1) the graded credits earned at the School of Law, and (2) the combined graded credits earned both at School of Law and elsewhere. The grade point requirements of the honors designations described above will not be considered satisfied unless the requirement is met with respect to each of the cumulative grade point averages calculated as described in both (1) and (2) of the preceding sentence.

Character and Fitness
A student who exhibits behavior that suggests or portends an inability to demonstrate character and fitness required to practice law may be required to participate in the Arkansas Judges & Lawyers Assistance Program (JLAP), Counseling and Psychological Services (CAPS), or report to the All University Conduct Board (the AUCB) that oversees student disciplinary matters. Behavior that may subject a student to JLAP or CAPS might include, but is not limited to: repeatedly disrupting the classroom environment through inappropriate behavior; inappropriately exhibiting anger or threatening behavior; and abusing substance(s) that substantially affects mental or physical status. If the conduct at issue is sufficiently serious to involve University action, the matter shall be reported to the AUCB. The same conduct that is covered by this provision may also be subject to the Student Code of Conduct. Matters involving character and fitness under this policy are subject to procedures adopted by the faculty.

Student Complaints
The purpose of this policy is to provide a procedure to allow any student in the School of Law to bring a complaint of any nature to the attention of the School of Law. The complaint may involve, but is not limited to, the following:

- Any significant problem that directly implicates the school’s program of legal education and its compliance with the American Bar Association’s Standards and Rules of Procedure for Approval of Law Schools (the “ABA Standards”);
- Adverse information proposed to be placed in a student’s permanent file that may be submitted to potential employers or to the character and fitness committee of any jurisdiction’s bar; or,
- Any action that adversely affects the good standing or graduation of the student.

This policy supplements, but does not supplant, all other procedures established by the School of Law for responding to student complaints and concerns. This policy does not create a right to challenge a grade in a specific course.

Any complaint under this policy must: (1) be in writing; (2) describe the incident, concern, or other matter in sufficient detail to disclose the pertinent facts and circumstances; (3) if applicable, identify the provision or provisions of the ABA Standards or of any established School of Law practices or policies involved and include a brief explanation of how the matter implicates the school’s program of legal education, its compliance with the ABA Standards, or any established practices or procedures; (4) give the student’s name and be signed by the student (manually or electronically); (5) be submitted in a timely fashion; and (6) be submitted to the Dean. Any faculty member, administrator, or staff member of the School of Law (other than the Dean) who receives a complaint from a student that he or she concludes should be handled under this policy may forward the complaint to the Dean. Complaints submitted under this policy are handled in accordance with procedures adopted by the faculty.

Before any adverse information is placed in the permanent file of a student, the registrar shall notify the student and provide him or her with a copy of the adverse information. The student may file a complaint pursuant to this policy objecting that the information should not be placed in his or her permanent file because it does not raise significant questions about the student’s character and fitness to practice law. However, the following items shall be placed in the file without notice to the student: academic probation, suspension, or dismissal by the law school; adverse findings of the Petitions Committee; adverse findings of the Honor Council; adverse findings of the Student Conduct Council or the University of Arkansas All University Conduct Board; criminal convictions (felony or misdemeanor); a finding of liability for fraud in a civil proceeding. Upon written request, a student may see any information contained in the permanent file, except for information as to which the student has waived the right.

Students with Disabilities
Determination of Disabilities
For purposes of ascertaining whether a student is eligible for accommodations, either in the manner that courses are conducted or scheduled or in the examination of competency in such classes, the determination of whether a student has a disability within the meaning of the Americans with Disabilities Act, 42 U.S.C. 12101-12213, and Section 504 of the Rehabilitation Act, 29 U.S.C. 794 (a), shall be made by the University’s Center for Educational Access (CEA).

Coordinator for Students with Disabilities
The Dean will select an appropriately qualified coordinator for students with disabilities. Such a coordinator will work with the Associate Dean for Students to develop and implement procedures to assure appropriate accommodations for law students with disabilities.

Academic Integrity
As a core part of its mission, the University of Arkansas provides students with the opportunity to further their educational goals through programs of study and research in an environment that promotes freedom of inquiry and academic responsibility. Accomplishing this mission is only possible when intellectual honesty and individual integrity prevail. Each University of Arkansas student is required to be familiar with and abide by the university’s Academic Integrity Policy (http://honesty.uark.edu/policy/) at honesty.uark.edu (http://honesty.uark.edu/). Students with questions about how these policies apply to a particular course or assignment should immediately contact their instructor.
Annual Notice of Student Rights Under the Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are as follows:

1. The right to inspect and review the student’s education records, with some exceptions under the Act, within 45 days of the day the university receives a request for access. Students should submit to the Office of the Registrar written requests that identify the record(s) they wish to inspect. The university official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the university official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading. Students should write the university official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. A sample form, which may be used in making this request, is contained in the appendix to UA Systemwide Policies and Procedures 515.1 (http://www.uasys.edu/policies/ua-system-policies/).

If the university decides not to amend the record as requested by the student, the university will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing and is also contained in UA Systemwide Policies and Procedures 515.1 (http://www.uasys.edu/policies/ua-system-policies/).

3. The right to withhold consent of disclosure of directory information, defined as the following information: the student’s name; date of birth; address; telephone number; email address; major field of study; classification by year; number of hours in which enrolled and number completed; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance including withdrawal dates; degrees, scholarships, honors, and awards received, including type and date granted; and photograph.

This information will be subject to public disclosure unless the student restricts such information through the appropriate settings in UAConnect, the student information system, or informs the Office of the Registrar in writing that he or she does not want this information designated as directory information.

4. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the university in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the university has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an educational record to fulfill his or her professional responsibility. Upon request, the university also discloses education records without consent to officials for another school in which a student seeks or intends to enroll.

Postsecondary institutions may also disclose personally identifiable information from education records, without consent, to appropriate parties, including parents of an eligible student, in connection with a health or safety emergency. Under this provision, colleges and universities may notify parents when there is a health or safety emergency involving their son or daughter, even if the parents do not claim the student as a dependent.

There are several other exceptions to FERPA's prohibition against non-consensual disclosure of personally identifiable information from education records, some of which are briefly mentioned below. Under certain conditions (specified in the FERPA regulations), a school may non-consensually disclose personally identifiable information from education records:

- to authorized representatives of the Comptroller General of the United States, the Attorney General of the United States, the U.S. Secretary of Education, and State and local educational authorities for audit or evaluation of Federal or State supported education programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs;
- to the National Student Clearinghouse for enrollment and degree reporting;
- to organizations conducting studies for or on behalf of the school making the disclosure for purposes related to administering predictive tests, administering student aid programs, or improving instruction;
- to officials of another school where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer;
- to comply with a judicial order or a lawfully issued subpoena;
- to the victim of an alleged perpetrator of a crime of violence or a non-forcible sex offense concerning the final results of a disciplinary hearing with respect to the alleged crime; and
- to any third party the final results of a disciplinary proceeding related to a crime of violence or non-forcible sex offense if the student who is the alleged perpetrator is found to have violated the school's rules or policies. The disclosure of the final results only includes: the name of the alleged perpetrator, the violation committed, and any sanction imposed against the alleged perpetrator. The disclosure must not include the name of any other student, including a victim or witness, without the written consent of that other student.

5. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the university to comply with the requirements of FERPA. The name and address of the office that administers FERPA is as follows:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington DC 20202-4605

6. UA System Policy and Procedure 515.1 (http://www.uasys.edu/policies/ua-system-policies/) serves as a supplement to the campus FERPA policy.
7. FERPA applies to students at the University of Arkansas at the point of their enrollment into courses.

Photographic and Video Images
The university is proud to publish and display photographic and video images of U of A students, their activities and accomplishments. Any student who does not wish to be represented in such photographic and video images by the university should choose to withhold photos on the FERPA option on the university’s student information system.

Professional Licensure Disclosure Policy
In compliance with federal regulation 34 CFR 668.43 (a) (5) (v) and 34 CFR 668.43 (c), the University will disclose to a student whether the student's declared degree or certificate program leads to the ability to obtain a professional license in the state of the student’s self-reported location. Disclosure will occur prior to the student making a financial commitment to the institution. To facilitate this timeline, notification will be made following the student’s initial enrollment in courses in a term to which the student has been admitted or readmitted to the university.

Once enrolled in a program, if the institution makes a later determination that the program does not meet educational requirements for licensure or certification in the state where the student is located, the University of Arkansas will provide notice directly to the student within 14 calendar days of making that determination.

General disclosures on professional licensure status in each state will be maintained on the University of Arkansas website.

For the purpose of this policy, the following definitions apply:

- **Location** means the state in which the student reports they will be physically located while completing the student’s program of study, also known as the reported “local” or “campus” address. Location will be designated in the first term of enrollment in coursework and will be updated upon receipt and processing of any formal notification by the student to the university of a change in location.

- **Financial commitment to the institution** means the payment of or agreement to pay registration related tuition, fees, and charges.

Students and Programs
Responding to the needs and interests of our students is at the heart of the School of Law’s mission. We have a long-standing tradition of respect, recognition, and strong interactions between faculty and students. Faculty and students work together on special projects, skills training, traveling, and competitions.

Diversity
The School of Law has a diverse student body. Each year, the School of Law offers a Wal-Mart Legal Diversity Scholarship to a first-year law student whose presence adds to the diversity of the law school. The scholarship was established in 2004 through collaboration between the late Dean Richard B. Atkinson and Thomas Mars, ’85, then senior vice president and general counsel for Walmart Stores Inc.

Student Organizations
Student organizations are vital to the School of Law. Whether the Black Law Student Association, the Women’s Law Student Association, the Student Bar Association, or any of the myriads of other organizations, incoming and upper level students will find a group that suits their interests.

Publications

**Arkansas Law Review**
The *Arkansas Law Review* is a legal periodical published quarterly by the students of the School of Law, in cooperation with the Arkansas Bar Association. Candidates for the *Arkansas Law Review* are selected from second-year law classes by the *Arkansas Law Review* editorial board on the basis of academic qualifications and writing ability.

The *Arkansas Law Review* offers an excellent opportunity to students with the ability and industry to do legal research and writing. All material published in the *Arkansas Law Review* is edited by a student board of editors, and some is written by students.

*Arkansas Law Review* articles and student notes and comments have been relied on by Arkansas courts, courts in other jurisdictions, and legal scholars. Previous issues of the *Arkansas Law Review* include contributions from by former President Bill Clinton, (then) U.S. Sen. Hillary Rodham Clinton, and Justice Antonin Scalia.

**Journal of Food Law & Policy**
The first issue of the *Journal of Food Law & Policy* was published in July 2005 and signaled the inauguration of the country’s first student-edited legal journal devoted to the study of relationships that exist among food, law, and society. The first issue featured articles by several prestigious authors, including renowned food law expert Peter Barton Hutt. Other issues have featured articles on a variety of topics, such as the Fourth Amendment and the FDA’s authority to take photographs under FDCA, a comparison of the American and European approaches to beef regulation, and the legal effects of food technology. In October 2006, the *Journal of Food Law & Policy* was recognized by the American Agricultural Law Association for the best scholarly article published on agricultural law.

**Arkansas Law Notes**
*Arkansas Law Notes* is a student-edited online publication that strives to publish practice-oriented and shorter scholarly works that will have an immediate and lasting impact on the Arkansas legal community. *Arkansas Law Notes* emphasizes timely publication on cutting edge legal issues, thereby enabling authors to reach a broader audience more quickly than a traditional print publication.

*Arkansas Law Notes* encourages submissions from local practitioners, law professors, judges, and law students. Submissions are published on a rolling basis, and may include shorter pieces than traditional law review articles. Completed works receive an individual cite and are published on the Arkansas Law Notes website.

Experiential Learning
Students are required to earn a minimum of six credit hours of experiential learning coursework. Experiential Learning courses include clinics, externships, and simulation courses.

Legal Clinic
The University of Arkansas Law School Legal Clinic was founded by then-professor Hillary Rodham Clinton in 1975 to give students hands-on skills training by representing real clients in real life legal situations, and to provide a much needed service to the Northwest Arkansas community.
The Legal Clinic includes the Civil Litigation and Advocacy Clinic, Criminal Practice Clinic, Federal Practice Clinic, Human Trafficking Clinic, Immigration Clinic and Transactional Clinic.

Externships
The University of Arkansas School of Law (School) Externship program provides an opportunity for students to actively participate in a field of interest to them while earning academic credit. Elective externships are available to second and third year law students who have successfully completed two semesters of law school, are in good standing, and (preferably) have completed or are concurrently enrolled in Professional Responsibility. Some externships demand more specific requirements intended to enhance the externship experience.

Externships are available in the areas of Capstone, Corporate Counsel, Criminal Defense, Criminal Prosecution, Government, International, Judicial, and Public Interest.

Simulation Courses
A Simulation Course is a course that complies with the requirements for simulation courses under § 304 of Chapter 3 of the American Bar Association’s Standards and Rules of Procedure for Approval of Law Schools. Simulation courses include the following: Arbitration; Business Lawyering Skills; Child Welfare Practice; Civil Litigation Discovery; Conflict Resolution; Construction Law Practice; Crime & the Supreme Court; Interviewing, Counseling and Negotiating; Mediation in Practice; and Trial Advocacy.

Pro Bono Programs
Law Students will have the opportunity to volunteer their time, and gain valuable experience, by providing pro bono work under the proper supervision of an attorney. The program is characterized by a referral system, which is designed to match students with law-related pro bono opportunities in the community.

Each year, within the United States, four out of five low-income people in need of legal assistance are denied service. Many eligible clients do not receive help because of a language barrier, disability, or lack of literacy. Many others are turned away because of overwhelming caseloads at legal services offices. In the United States, there is an average of one legal aid attorney for every 6,861 low-income people. With help from attorneys and student attorneys, we can help decrease this number.

Rule 6.1 of the Model Rules of Professional Conduct recognizes an attorney’s obligation to provide legal service to the community. Ideally, every attorney should perform a minimum of 50 pro bono public hours annually. This service is not mandatory but is an aspiration. By giving back to the community in which they live and work, law students and lawyers contribute to the advancement of their community, give assistance to the poor, and develop true professionalism in the practice of law.

Board of Advocates
The School of Law hosts three internal competitions that lead to the selection of moot court, trial, and client advocacy competition teams that travel to regional and national competitions. Both second- and third-year students are eligible to apply for positions on traveling competition teams, in moot court, trial, and client advocacy. Its activities are governed by a detailed set of bylaws.

1L students are eligible to compete in an internal client advocacy competition in the spring of their first year and to participate as witnesses, timekeepers, and clients in all law-school hosted competitions. The final rounds of each of these competitions features distinguished jurists and alumni — the public is invited to attend these final rounds.

During the fall, the Board of Advocates and the School of Law sponsor the William H. Sutton Barrister’s Union Trial Competition (open to 2L and 3L students). From this competition, top competitors are invited to try out for two inter-school teams: one sponsored by the American Board of Trial Advocates and the Texas Young Lawyers Association, and sponsored by the AAJ (formerly STAC).

During the winter and spring, upper level students are invited to participate in the Ben J. Altheimer Spring Moot Court competition, in which competitors form two-person teams, write a brief, and argue both sides of a case before panels of moot court judges. From this competition, outstanding advocates are selected to represent the School of Law in the National Moot Court Competition, sponsored by the Bar of the City of New York (regional rounds in November; final rounds in January in New York City) and the American Bar Association National Appellate Advocacy Competition (regional rounds in February and final rounds in April, in Chicago).

Late in the spring semester, all students (first year, second year, third year) are invited to participate in the law school’s client advocacy competitions. Outstanding advocates from this competition may be selected to compete in one of the ABA’s client advocacy competitions: either in negotiations or in client counseling.

Periodically, the Board of Advocates also supports the fielding of ad hoc competition teams, through an application process that begins with the faculty advisor to the Board of Advocates. Applications are reviewed by the executive committee of the Board, and by the law school administration. Review of such proposals focuses on the applicant’s participation in the internal Client Advocacy, Trial, and Moot Court competitions, as well as other specialized knowledge and/or preparation required by the proposed competition.

Young Law Library
The Robert A. and Vivian Young Law Library collection contains roughly two hundred thousand volumes, including cases, statutes, digests, law reviews, and treatises, and provides access to legal materials from every American and many foreign jurisdictions.

The Young Law Library is a depository for federal documents, and it is Arkansas’ only United Nations documents depository library. The Law Library is responsive to the changing needs of students and faculty of the School of Law and strives to collect materials to support their curriculum and research requirements. Our growing collections of Native American law and agricultural law materials are excellent examples.

Students research legal problems using both print and electronic resources. Our computer lab is available for faculty classes and student research. Wireless network access is available to all students, faculty, and staff within the law school. Reference librarians, reference assistants, and our computer services team are also available during library hours to answer any questions.

While primarily designed for the use of law school students and faculty, the Young Law Library also serves the research needs of the Arkansas bench and bar as well as the university community and the public. The Young Law Library provides an attractive and comfortable atmosphere.
for study and research, including Arsaga's Espresso Cafe, which serves drinks, pastries, and sandwiches.

In addition, the main campus library, Mullins Library, is located near the Young Law Library and provides access to a variety of paper and electronic materials that support a wide variety of research.

For more information about the Young Law Library, visit the library’s website (http://law.uark.edu/library/).

International Programs
Cambridge Study Abroad Program
The Cambridge Study Abroad Program is a fully ABA-accredited program, jointly sponsored by Downing College of Cambridge University and the University of Mississippi School of Law, in consortium with the University of Arkansas School of Law, the University of Tennessee College of Law, and the University of Nebraska College of Law. The program lasts six weeks and includes courses in international and comparative law. For more information, visit the Cambridge Study Abroad website (http://law.olemiss.edu/academics-programs/cambridge-study-abroad-program/).

Other International Opportunities
In addition to the more traditional study abroad programs, which typically last 4-6 weeks, the Law School frequently sponsors shorter international opportunities where classroom components of the courses are completed in the Law School followed by a short trip abroad to interact with the legal community in a given country. In recent years, students have traveled to Moldova, St. Petersburg, and Rome.

Courses of Instruction
The School of Law offers a wide variety of graduate-level Law (LAWW) courses (p. 853) for students enrolled in the school. The Sam M. Walton College of Business also offers Business Law (BLAW) courses (p. 853).

Business Law (BLAW)

Courses
BLAW 2013. The Legal Environment of Business (ACTS Equivalency = BLAW 2003), 3 Hours.
Introduction to the legal and ethical environment in which business operates. Topics covered in this survey course include: introduction to the legal system and the judicial resolution of disputes, constitutional law, administrative law, criminal law, torts, contracts, property law, advertising and marketing law, bankruptcy and credit transactions, business organizations, antitrust, employment law and ethics.
(Typically offered: Fall, Spring and Summer)

BLAW 2013H. Honors The Legal Environment of Business, 3 Hours.
Introduction to the legal and ethical environment in which business operates. Topics covered in this survey course include: introduction to the legal system and the judicial resolution of disputes, constitutional law, administrative law, criminal law, torts, contracts, property law, advertising and marketing law, bankruptcy and credit transactions, business organizations, antitrust, employment law and ethics.
(Typically offered: Fall, Spring and Summer)
This course is equivalent to BLAW 2013.

BLAW 3033. Commercial Law, 3 Hours.
A study of the laws applicable to commercial transactions. Topics covered include the common law of contracts, Articles Two (Sales) and Three (Commercial Paper) of the Uniform Commercial Code, secured transactions, suretyship, and bankruptcy.
(Typically offered: Spring)

BLAW 5003. Commercial Transactions, 3 Hours.
A study of laws applicable to business. Topics covered include the law of Contracts and UCC Sales, Payment Systems (checking accounts and E-payments), Bankruptcy, Intellectual Property, Principal-Agency Relationships, Business Entities, Data Security, Federal Securities Law, and Accountant’s Legal Liability. Prerequisite: Graduate standing. (Typically offered: Irregular)

Law (LAWW)

Courses
LAWW 400V. Entertainment Law, 1-6 Hour.
Examines the legal principles and relationships of the entertainment industry, with a primary emphasis on the music industry; provides an introduction to the practice of entertainment law and the negotiation of entertainment contracts; highlights a variety of legal and practical issues that arise when representing clients in the entertainment industry. (Typically offered: Irregular)

LAWW 4013. Legal Research & Writing I, 3 Hours.
An introduction to the special problems posed by the legal analysis and the expression of the results of that process. The primary emphasis will be on basic legal analysis techniques, basic legal writing skills, and proper citation form. Students will complete a series of writing assignments. (Typically offered: Fall)

LAWW 4024. Contracts, 4 Hours.
Formation and enforcement by litigation and commercial arbitration of commercial and family agreements. Mutual assent or consideration; third-party beneficiaries; assignments; joint obligation; performance; anticipatory breach; discharge of contractual duties; and the Statute of Frauds. (Typically offered: Irregular)

LAWW 4054. Property, 4 Hours.
This course deals with the creation and transfer of rights over property. The primary emphasis will be on entitlements in land. Subject to variations among professors, topics will include the rights of landowners to exclude others, estates in land, co-ownership, landlord-tenant law, real estate and personal property transactions, and servitudes. (Typically offered: Irregular)

LAWW 406V. Upper Level Writing, 1-3 Hour.
Second year students must take at least one 2 or 3-hour course in upper level research and writing which has been certified by the faculty as an Upper Level Writing course. The course, which is constructed around a special topic or specific area of the law, focuses on writing or drafting. Writing component accounts for at least 2/3 of the final grade. Prerequisite: LAWW 4013 and LAWW 4113. (Typically offered: Fall, Spring and Summer) May be repeated for up to 10 hours of degree credit.

LAWW 4074. Criminal Law, 4 Hours.
Deals with the questions of what conduct society punishes through a criminal code and of the appropriate punishment for the forbidden conduct. In this context the course includes an analysis of the theories of punishment, the definitions of various crimes, the defenses available to one charged with criminal conduct, and the limitations placed by the Constitution on governmental power in the criminal law area. Throughout the course, special emphasis is placed on the legislature’s role in creating statutes alongside the judiciary’s corresponding role in interpreting those statutes. (Typically offered: Irregular)

LAWW 4104. Civil Procedure, 4 Hours.
Study of the process of civil litigation from preliminary matters such as court selection and jurisdiction, through joinder of parties and discovery techniques, to disposition of cases and finality of judgments. Some attempt is made to cover the antecedents of modern procedure; where appropriate, suggestions for reform are developed in class discussion. Emphasis is on the Federal Rules of Civil Procedure. (Typically offered: Fall)
LAWW 4113. Legal Research & Writing II. 3 Hours.
An introduction to persuasive writing techniques and intermediate computer research. Student will write a full appellate brief and deliver an oral argument. Prerequisite: LAWW 4013. (Typically offered: Spring)

LAWW 413V. ULW: Gender-Based Violence & Human Rights Policies & Procedures. 2-3 Hour.
The course explores various forms of gender-based violence in public and private spheres and the relationship between this violence and discourse on human rights in both the legal and policy arenas. Also considers additional solutions to the prevention of sexual violence including the economic empowerment of women, the education of girls, and others. Meets the Upper Level Writing Requirement. (Typically offered: Irregular)

LAWW 4144. Torts. 4 Hours.
An introduction to basic principles of liability for harm to persons and property. The course analyzes various categories of tortious conduct, defenses and immunity, damages, and underlying principles and policies justifying liability. (Typically offered: Irregular)

LAWW 4173. Criminal Procedure: Investigations. 3 Hours.
Generally this course focuses on: (1) criminal investigation practices, more precisely, contacts between the police and persons suspected or accused of crime, at the time of or shortly before and after arrest; (2) the federal constitutional rights of suspects in their contacts with the police or, stated another way, the federal constitutional restrictions (or lack of restrictions) on the police, based on the 4th, 5th, 6th, and 14th amendments; (3) the exclusionary rule, which limits the admissibility of evidence obtained by the police from suspects in violation of their federal constitutional rights; and (4) United States Supreme Court jurisprudence. (Typically offered: Irregular)

LAWW 4182. Upper Level Writing - Business Drafting. 2 Hours.
ULW-Business Drafting is an advanced writing course that takes students through a number of writing assignments. It is geared at teaching students to produce prescriptive writing, as oppose to predicting how the law would apply or persuading a reader about how the law should apply. This class therefore requires students to use information that they have gained in other classes, notably Business Organizations, and use it in drafting appropriate documents ranging from organizational forms, to documents describing how a business is to be operated, to commercial contracts. Students will also work on professionally communicating with various constituents such as clients and other attorneys about the contents of and rationale behind drafting choices in these documents. Prerequisite: LAWW 4294. (Typically offered: Irregular)

LAWW 4212. Upper Level Writing: Police Discretion. 2 Hours.
This course will analyze the role of police discretion in the criminal justice system particularly in the context of traffic stops, interrogations, and suppression hearings. Although there are no prerequisites, students have ideally already taken Criminal Procedure and Criminal Procedure II. (Typically offered: Irregular)

LAWW 4233. Upper Level Writing: Crime and the Supreme Court. 3 Hours.
This course critically examines criminal law and procedure cases currently pending before the Supreme Court. Students will construct hypothetical Supreme Court, argue selected cases, take a vote, and then produce an actual series of judicial opinions, and make an appellate argument. Prerequisite: LAWW 4013 and LAWW 4113. (Typically offered: Irregular)

LAWW 4294. Business Organizations. 4 Hours.
This is an introductory, survey course focusing primarily on the law applicable to closely held businesses, including agency rules and the law applicable to general and limited partnerships, LLPs and LLLPs, limited liability companies, and corporations. (Typically offered: Irregular)

LAWW 4442. Law & Accounting. 2 Hours.
Study of basic accounting principles and their importance to attorneys engaged in business related activities. Topics covered include the fundamental accounting equation, the nature of accrual accounting, understanding financial statements, and accounting for assets and liabilities. Also a review of basic principles associated with financial statement analysis and valuation principles, including the time value of money. Intended for students with little or no business training, and may not be taken for credit by students who have previously earned 3 or more hours of undergraduate or graduate credit in accounting courses. (Typically offered: Irregular)

LAWW 445V. Mastering Legal Analysis. 1-2 Hour.
In this course students will revisit and expand upon the core principles of legal analysis. This course will be based on an active-learning model with a focus on practicing legal analysis under time-pressured conditions. The professor will provide extensive individualized feedback on exercises. The materials for this course will largely be drawn from the written portions of the bar exam (both Arkansas and UBE). (Typically offered: Irregular)

LAWW 500V. Special Topics. 1-18 Hour.
Included under this heading will be a variety of variable credit law courses taught by law faculty on topics that are not included elsewhere in the curriculum. (Typically offered: Irregular) May be repeated for up to 18 hours of degree credit.

LAWW 5013. Professional Responsibility. 3 Hours.
Role of the lawyer as counselor, advocate, and public servant; obligation to society of the individual lawyer and the profession as a whole; ethical problems of the profession; representation of the unpopular cause and the desirable client, lawyers' obligation to law reform; lawyer and the press; the lawyer in public service; the aspects of law office management. (Typically offered: Irregular)

LAWW 502V. Remedies. 3-4 Hour.
Covers equity (jurisdiction and powers of courts of equity, injunctions, including adequacy of legal remedies, balancing of equities, interests protected, and defenses), damages (compensatory, exemplary, and nominal damages; direct and consequential damages; mitigation; special application in contract and tort actions) and restitution (relief afforded by the judicial process, to prevent unjust retention of benefits). (Typically offered: Irregular)

LAWW 5031. Basic Title Examination. 1 Hour.
Basic Title Examination is a course designed to teach students how to examine abstracts of title and other compilations of public real estate records to determine ownership and marketability of surface title. The course utilizes the theoretical understanding gained from traditional substantive law courses including Property and Decedents? Estates but teaches applied practical skills not usually taught in those courses. (Typically offered: Fall)

LAWW 5041. Oil and Gas Title Examination. 1 Hour.
Oil and Gas Title Examination is a course designed to teach students who have successfully completed Basic Title Examination how to use abstracts of title and other compilations of public real estate records to determine ownership and marketability of minerals, including oil and gas, and oil and gas leasehold, royalty, overriding royalty and other similar interests. The course utilizes the theoretical understanding gained from traditional real property and oil and gas law courses, but teach practical skills not currently taught in the usual classroom setting. Pre- or Corequisite: LAWW 5031. (Typically offered: Fall)

LAWW 5053. Energy Law. 3 Hours.
Energy law governs the life cycle of energy resources, from resource development and generation of electricity to the end use in homes, businesses, and cars. In this growing area of practice, energy lawyers represent energy companies, public utilities, government agencies, and non-profit organizations. The course provides a survey of how different sources of energy - hydropower, oil and natural gas, coal, nuclear energy, and renewables - are regulated. Through this survey, we will consider important policy issues such as public utility regulation and the role of markets; the federal-state balance; and environmental impacts and the future of clean energy. (Typically offered: Irregular)
LAWW 5073. Family Law. 3 Hours.
Devoted primarily to the problems generated by family relationships. There is a large section on formation and dissolution of marriage. Substantial time is also given to paternity and legitimacy, obligations toward and of children, custody, adoption, guardianship, general property law as it is affected by family relationships, and divorce and custody in the federal system (focusing primarily on enforceability of decrees in one state by courts sitting in another state). (Typically offered: Irregular)

LAWW 5083. First Amendment. 3 Hours.
An intensive examination of the legal issues arising under the First Amendment to the United States Constitution, with an emphasis on basic free speech doctrines and the dilemmas posed by interplay between the free exercise and establishment clauses. Prerequisite: LAWW 5114. (Typically offered: Irregular)

LAWW 5092. Banking & Creditors' Rights Litigation. 2 Hours.
Students in this course will learn how to protect and enforce the creditors' rights through litigation by drafting demand letters, petitions, motions, settlement agreement, proposed judgments, and other filings before and after bankruptcy. Students will simulate the representation of a creditor with a defaulted loan and will be expected to enforce the applicable instruments within the Model Rules of Professional Conduct as well as the strictures of the Bankruptcy Code. Through the simulated filings and oral arguments, students will be introduced to enforcement and bankruptcy concepts and will be better prepared to practice in the creditors' rights realm. (Typically offered: Fall and Spring)

LAWW 510v. Law: Study Abroad. 1-6 Hour.
Open to law students studying abroad in officially sanctioned programs. (Typically offered: Irregular)

LAWW 5114. Constitutional Law. 4 Hours.
An introduction to the basic principles of constitutional law and to current constitutional doctrines and problems. The primary focus will be on the structure of the federal system and on the rights of individuals under the Due Process and Equal Protection clauses of the Fifth and Fourteenth Amendments. (Typically offered: Spring)

LAWW 5122. ABOTA Trial Practice Lecture Series. 2 Hours.
Lecture series by experienced and prominent Arkansas trial attorneys, lecturing on case evaluation, jury instructions, witness preparation, scheduling orders, courtroom civility, voir dire, opening statement, direct and cross-examination, objections, and closing arguments. (Typically offered: Spring)

LAWW 5133. Real Estate Transactions. 3 Hours.
Focuses on real estate transfer, real estate finance and real estate development. Issues relating to the sale of land and conveyances of real property, mortgages and the planning, financing, constructing and marketing of modern real estate developments are treated. (Typically offered: Irregular)

LAWW 5163. Administrative Law. 3 Hours.
Course is constructed around Federal materials, but with some state references. Considers the origin and constitutional basis for the administrative process; executive and legislative controls with particular emphasis upon the judicial 'control' of the administrative process (delegations, procedural and substantive due process, judicial assistance and enforcement and review of administrative decisions). (Typically offered: Irregular)

LAWW 5172. Disability Law. 2 Hours.
This study of U.S. disability law begins by defining ‘disability’ under the Constitution, federal statutes, and court decisions. The ADA, the Rehab Act, and other federal/state disability laws will be studied and applied to employment issues, public accommodations, governmental services/programs, education, housing and independent living, and health care. Concepts like discrimination, disparate treatment/impact, reasonable accommodations, physical/mental impairments, undue hardships, architectural barriers, harassment, retaliation, licensing, and many others will be examined. In addition, the Social Security Act's Disability Insurance Benefits (DIB) and Supplemental Security Insurance. (Typically offered: Irregular)

LAWW 518V. Banking Law. 2-3 Hour.
This class is designed to provide students with a detailed overview of banking law. Subjects we will cover include the history of banking regulation, the business of banking, banking regulation, bank assets, consumer lending, bank liabilities and capital, supervision, expansion and mergers, trust and fiduciary standards, capital markets, derivatives, and international banking. (Typically offered: Irregular)

LAWW 5191. Deposition Practice. 1 Hour.
The focus of this class is to teach how to take, defend and use depositions in civil cases. There will be extensive study of Rules 26-32 of the Arkansas and Federal Rules of Civil Procedure. Additionally, the State and Federal cases applicable to depositions will be discussed and reviewed. Discussion on the practicality of a deposition such as the timing, scheduling and expenses in depositions. Students will observe parts of several video depositions followed by a discussion. (Typically offered: Irregular)

LAWW 5213. Business Lawyering Skills. 3 Hours.
Provides practical skills instruction through exercises that simulate business client interviews, negotiations, mediation, and arbitration. Multiple written projects are also involved. Prerequisite: LAWW 4294. (Typically offered: Irregular)

LAWW 5252. International Commercial Arbitration. 2 Hours.
This course will survey the history, purposes, and processes of international commercial arbitration. (Typically offered: Irregular)

LAWW 527V. Law and Economics. 2-3 Hour.
Law and Economics examines legal and policy issues by critically analyzing whether legal rules provide the greatest good to the greatest number of people. The class offers an introduction to basic economic principles, while providing a useful review of many core law school and bar exam subjects. (Typically offered: Irregular)

LAWW 5293. Cyber Crime. 3 Hours.
This course examines the law governing computer crime and the limits on law enforcement surveillance. We consider substantive crimes such as hacking, identity theft, economic espionage, and online threats before we examine the Fourth Amendment, the Wiretap Act, and other limits on law enforcement. (Typically offered: Irregular)

LAWW 5303. International and Domestic Sales and Leasing. 3 Hours.

LAWW 5313. Payment Systems. 3 Hours.
This course summarizes and explains the fundamental law applicable to a broad variety of current payment systems. Coverage includes issues of liability, transfer, holder in due course status, and check collection applicable to negotiable instruments (checks, notes, drafts) governed by UCC Articles 3 and 4, as well as letters of credit and documents of title governed by UCC Articles 5 and 7. The course further examines the rights, obligations, and federal protection applicable to credit and debit cards. Finally, it addresses recent legal developments in regard to a variety of electronic fund transfers, prepaid cards and digital currencies. (Typically offered: Irregular)
LAWW 5333. Health Policy. 3 Hours.
The focus will be on policy issues facing the American health care system. We will
discuss health policy, policy making, and the law. The American health care
delivery system will be studied -- including its funding mechanisms (like Medicare,
Medicaid, and health insurance) -- and compared to other countries. Public health
institutions and systems will be explored. The Affordable Care Act will be reviewed
in depth. Social health determinants will be examined, along with ways attorneys
can intervene to 'treat' important social issues affecting health. Individual rights
to health care in the U.S. will be discussed, as well as specific rights related to
gender, abortion, genetic research, suicide, and end-of-life issues. Discrimination
in health care will be examined. Medical malpractice reform will be debated. Public
health issues like FDA drug regulation, obesity, opioid abuse, vaccinations, and
medical marijuana will be surveyed. Health care quality policy and the law will be
reviewed. Additional topics will be added as time allows and as current events
dictate. (Typically offered: Irregular)

LAWW 535V. Arkansas Constitutional Law. 1-2 Hour.
This course covers provisions of the Arkansas Constitution, including the Declaration
of Rights, the separation of powers, the power of the executive and legislative
branches, sovereign immunity, independent commissions, gambling and morality
provisions, elections and term limits, taxation and exemptions, taxpayer lawsuits,
and other topics. (Typically offered: Irregular)

LAWW 536V. Securities Regulation. 2-3 Hour.
This course explores the federal regulation of securities, with emphasis on the
Securities Act of 1933 and the Securities Exchange Act of 1934. Topics examined
include: the definition of a securities, public company disclosures, enforcement
issues, antifraud rules, and insider trading liability, public offering mechanics, and
exempt offerings. Prerequisite: LAWW 4294. (Typically offered: Irregular)

LAWW 5372. Immigration Law. 2 Hours.
A study of the immigration, nationality, and naturalization laws of the United States;
discussion of policy issues relating to migration, refugees, asylum, deportation,
and citizenship issues. The Course will also explore pop culture references to
immigration issues and examine the truths and fallacies of what is presented for
entertainment purposes. (Typically offered: Irregular)

LAWW 5382. Employment Discrimination. 2 Hours.
This course focuses on the study of the significant cases and statutes that protect
employees from discrimination based on race, color, religion, sex, national origin,
age, and disability, with emphasis on Title VII of the Civil Rights Act of 1964, the Age
Discrimination in Employment Act, and the Americans with Disabilities Act. Final
exam will be a take-home exam. (Typically offered: Irregular)

LAWW 5391. Effective Corporate Compliance. 1 Hour.
This course provides a high-level overview of the importance and structure of an
effective compliance program within a business, with the purpose of mitigating
legal risk. The Federal Sentencing Guidelines specify the elements of an effective
compliance program, and some federal agencies like have interpreted these or
implemented them through regulation. Corporations are facing an ever-changing
regulatory environment in a multitude of sectors, and this course prepares students
with a foundational level of how compliance professionals build effective compliance
programs, using a relevant fact pattern to bring the course material to life. Students
who choose to work for a corporation (even in the legal department) will need
to be familiar with how that corporation implements the elements of an effective
compliance program, so as to effectively defend or advise the corporation. (Typically
offered: Irregular)

LAWW 5402. Legislation. 2 Hours.
Law in the United States increasingly comes from written texts -- statutes,
ordeances, and administrative regulations. This course will introduce the primary
tools that lawyers use when interpreting these texts. It will begin with an overview of
various theories and methodological approaches to interpretation. Then it will turn
to the ways that lawyers and courts discern the meaning of legal texts (including
through canons of interpretation) and construe those texts in light of external sources
of authority (including legislative history and other texts). At various points during
the course, students will apply these tools to hypothetical and real-world problems.
(Typically offered: Irregular)

LAWW 5413. Natural Resources Law. 3 Hours.
This course examines the laws and policies governing the use of natural resources.
Natural resources include forests, water, and wildlife, as well as hard rock minerals,
coil, oil, and natural gas. We will discuss who owns these resources, how they are
used or managed, and how their use is regulated. The course will also consider the
laws governing management of public lands, such as national parks, monuments,
and wilderness areas. Throughout the course, we will examine the values at stake
in natural resource use and protection, the conflicts between public and private use,
and the challenges inherent in natural resource management. (Typically offered:
Irregular)

LAWW 5431. Jury Trial Strategies. 1 Hour.
The goal of this class is to introduce students to the evaluation, preparation and
prosecution of a jury trial. The class emphasizes properly evaluating the merits of a
case early on and investigating the facts, parties and witnesses. The students will
be asked to draft a complaint and an answer based on vignettes provided. Unlike
other substantive law classes; this is very much a hands-on, how-to class. We
will discuss in detail several 'how to' procedures such as: Propounding discovery
requests, making proper objections, making motions for directed verdict, preparing
exhibits, proffering testimony, preparing jury instructions, making opening statements
and closing arguments and how to make a proper record for appeal. All of these
procedures will be supplemented with current precedent from the Arkansas Supreme
Court and Court of Appeals and each step will be discussed within the confines of the
Arkansas Rules of Professional Conduct. (Typically offered: Irregular)

LAWW 544V. Legal Operations. 2-3 Hour.
In this course students will learn about the operations principles 21st century legal
entities are utilizing - and to which they are being held accountable. Topics will
include: Strategic Planning, Financial Management, Vendor Management, Data
Analytics, Technology, Change Management, Artificial Intelligence, Outside Counsel
Selection and Management, as well as others. (Typically offered: Irregular)

LAWW 5451. Environmental Torts. 1 Hour.
The focus of this class is common law environmental torts resulting in property
damage, including negligence, trespass, strict liability, and nuisance. Presented are
the elements of those causes of action and a review of common environmental tort
fact patterns. Also discussed are issues associated with environmental torts, such
as imputed liability, and defenses. Review remedies for damage to property and
individuals. (Typically offered: Irregular)

LAWW 547V. State and Local Government. 2-3 Hour.
As citizens, much of our interaction with the law is local. Local governments
determine the location of our nearest grocery store, how high (or low) property
taxes will be, whether to maintain a public library, how late bars can serve alcohol,
and even whether it is lawful to keep a pet python. Local government activity is
significant, immediate, and pervasive. Despite the importance of local government
law and institutions, most law school courses focus only on federal and state
sources of law with little or no mention of local government. This course aims to
address this void by providing a useful overview of core legal doctrines affecting the
structure, authority, financing, and liabilities of local government in the United States.
The course also covers the theoretical and empirical research underlying those
doctrines, and is structured to provide a broad understanding of local government
relevant to most United States jurisdictions. (Typically offered: Irregular)
LAWW 548V. Privacy Law. 1-3 Hour.
Information Privacy and Security Law will explore the principles underlying the emerging law of informational privacy in the context of significant U.S. data privacy legislation with relevant comparisons to certain international data privacy regimes. Topics include the role of the FTC and state and federal laws. Regulations specific to children, healthcare, telemarketing, email, data breach and financial services will be addressed and discussion will touch on data analytics, facial recognition and other new technologies. (Typically offered: Irregular)

LAWW 550V. Wills, Trusts, and Estates. 1-4 Hour.
This is the study of the traditional areas of wills and trusts (intestate and testament succession). The trusts area includes both the private trust and the charitable trust. Taxation problems are not covered in depth but are instead reserved for the Federal Estate & Gift Taxation course. (Typically offered: Irregular)

LAWW 5513. Labor Law. 3 Hours.
The right to organize; organization of labor unions; strikes; picketing; boycotts; collective bargaining; collective labor agreements and their enforcement; unfair labor practices by employers and by unions; the union member and his union; state labor relations legislation; the National Labor Relations Act and the Labor Management Relations Act. Not offered every year. (Typically offered: Irregular)

LAWW 5523. General Practice Capstone I. 3 Hours.
General Practice Capstone I is designed to provide students with practical information to help them transition from law school to a general practice. Experienced practitioners will present a series of workshops on discrete practice areas like criminal defense, family law, personal injury, depositions, estate planning and probate, legal ethics, and small business advisement. Includes access to practice checklists, pleadings, forms, and law practice aids. (Typically offered: Fall)

LAWW 5533. General Practice Capstone II. 3 Hours.
General Practice Capstone II complements Capstone I, and moves the focus topically to practical lawyering in common administrative law areas. The spring workshop series focuses on administrative proceedings in criminal law (probation, parole, drug court, habeas corpus), in-house details on employment law (employee manuals and termination policies); termination and unemployment including Workers Compensation, Social Security Disability, Veterans Benefits, Nursing Home Administration, Medicare and Medicaid. (Typically offered: Spring)

LAWW 5543. International Business Transactions. 3 Hours.
This class is designed as an introductory overview of the body of laws that govern international business transactions. Subjects we will cover include international intellectual property treaties, import and export regulations, international commercial agreements, international payment mechanics and terms, antitrust and countervailing measures, competition (antitrust) law in international business, international corporation formation, acquisition, reorganization, and regulation of operations, international trade and project finance, regulation of global corruption, international tax planning, and planning international commercial arbitration. (Typically offered: Irregular)

LAWW 5500. Law Research Assistant. 0 Hours.
Law Research Assistant is a zero-credit course available to students who work with or under the supervision of a faculty member on a research project that contributes significantly to faculty research, course preparation or presentation, or other scholarly work for or under the direction of a faculty member. Except as otherwise approved by the supervising faculty member with the concurrence of the Associate Dean for Academic Affairs, only students who have successfully completed or are currently registered for Law 5622 Essential Legal Research may enroll. Students who are working on research with or under the direction of a faculty member must have the written pre-approval of the supervising faculty to be registered and must obtain from the Law School Registrar and complete and submit to the Registrar the course request form. (Typically offered: Fall, Spring and Summer)

LAWW 5622. Essential Legal Research. 2 Hours.
This course covers the strategies, techniques, books, and databases essential to perform cost-effective legal research necessary for the practice of law and to assist faculty members as research assistants. (Typically offered: Fall and Spring)

LAWW 5643. International Criminal Law. 3 Hours.
This course will survey important topics in international criminal law such as genocide, war crimes, and crimes against humanity. It will trace the use of international tribunals from the Nuremberg and Tokyo tribunals to the International Criminal Court to enforce these international criminal laws. (Typically offered: Irregular)

LAWW 5662. Mergers and Acquisitions. 2 Hours.
This course examines the legal and business considerations involved in the purchase and sale of a business, including an in-depth look at various transactional structures and the implications for shareholder voting, appraisal rights, along with an extensive review of director duties at all stages of the deal. Pre- or Corequisite: LAWW 4294. (Typically offered: Irregular)

LAWW 567V. Nonprofit Organizations. 2-3 Hour.
This course examines issues relating to the organization, operation, governance, and dissolution of various nonprofit entities, including charitable and public benefit corporations. Topics covered include the regulation of charitable contributions and their solicitation, obtaining and protecting tax-exempt status, and political and business activities of nonprofit organizations. (Typically offered: Irregular)

LAWW 5692. Rule of Law Colloquium. 2 Hours.
Course is about inquiry and exploration. Course covers the Foreign Corrupt Practices Act, the UK Bribery Act, and other anti-corruption initiatives. The context of why corruption exists and ways to address it, including through means other than legal prohibitions. (Typically offered: Irregular)

LAWW 5701. Baseball and the Law. 1 Hour.
This course includes cases on the power of the commissioner; the taxes of a Dodger shortstop; antitrust law and Curt Flood; ownership of Barry Bond's home run ball #73; negligence at Wrigley Field; removal jurisdiction and Pete Rose; publicity rights to the Babe; criminal law and the Black Sox; trademark law. (Typically offered: Irregular)

LAWW 5881. Arkansas Landlord Tenant Law. 1 Hour.
The course will explore Arkansas landlord tenant law along with proposals for revision of the law. Topics covered will be the forcible entry and detainer statute, the security deposit statute, the failure to vacate statute, the residential landlord tenant act, and Arkansas's limitation on tort liability for landlords. Discussion on the federal laws governing HUD tenancies and the greater rights afforded in those tenancies. The course will discuss both theory and practice. (Typically offered: Irregular)

LAWW 599V. Debtor-Creditor Relations. 3-4 Hour.
Study of Article 9 of the Uniform Commercial Code and of the remedies of unsecured creditors. (Typically offered: Irregular)

LAWW 602V. Independent Legal Research. 1-3 Hour.
Independent legal research conducted under the supervision of faculty members. Ordinarily a student may not accumulate more than two semester hours of credit for Independent Legal Research. This cumulative maximum may be exceeded only by special permission of the dean, who in exceptional circumstances may approve a cumulative maximum credit of three semester hours of credit for Independent Legal Research. (Typically offered: Fall, Spring and Summer)

LAWW 603V. Federal Courts. 1-3 Hour.
Focus is on essential aspects of federal court procedure, the scope and limits of federal judicial power, and the underlying principles of federalism and separation of powers. Topics will include federal court jurisdiction, the power of Congress to limit that jurisdiction, Supreme Court review of state court judgments, and abstention and justiciability doctrines. (Typically offered: Irregular)
LAWW 607V. Conflict of Laws. 2-3 Hour.
Study of the legal principles involved in problems which have connections with two or more states requiring a choice-of-law, choice-of-law in federal courts, and jurisdiction in multi-state situations. (Typically offered: Irregular)

LAWW 6082. Arkansas Civil Practice. 2 Hours.
This course will focus in depth on the intricacies of Arkansas civil litigation, including the long arm statute, venue, service of process, pleadings, motion practice, class actions, discovery, default judgments, summary judgments, directed verdicts, the right to a jury trial, new trials, appellate practice, and prior adjudication. (Typically offered: Irregular)

LAWW 6093. Evidence. 3 Hours.
Study of the rules of evidence under which trials are conducted; the methods by which items of evidence and admitted or excluded; relevancy, real evidence, testimonial proof, and hearsay and its exceptions. (Typically offered: Irregular)

LAWW 611V. Interschool Competition Team. 1-2 Hour.
Interschool Competition Team provides an avenue for outstanding student advocates to register their completion of a rigorous interschool competition for purposes of academic credit. Students may register for this credit after satisfying the standards for approval of non-graded credit for Interschool Competition Credit, as outlined in the University of Arkansas School of Law Board of Advocates Bylaws and relevant Bylaw and Academic Standards provisions, as promulgated by the Faculty. (Typically offered: Fall and Spring)

LAWW 6122. Private Equity Investing. 2 Hours.
Will focus on the central issues related to private equity investing -- both from the view of the company seeking private equity investment as well as from the view of the private equity investor. The overarching general objective of the course is to teach students the skills and tools used in the private equity arena. More specifically, this is a 'what, why and how' course that will require students to apply legal and analytical skills to advising clients on actual issues in transactions. (Typically offered: Irregular)

LAWW 6133. Antitrust Law. 3 Hours.
Federal anti-trust laws and their relationship to concentrations of economic power in the contexts of monopoly mergers, price fixing, economic boycotts and discrimination, re-sale price maintenance, dealer franchises, and exclusive dealing. Comparative analysis of free enterprise market and government regulated industries. Recommended for second- and third-year students interested in business practice or government service, as well as social welfare, or students with an interest in the subject. (Typically offered: Irregular)

LAWW 6143. Oil and Gas. 3 Hours.
Study of the law of oil and gas with emphasis on the interests that may be created in oil and gas, the rights of the landowner, provisions in the oil and gas lease, the rights of assignees, and legislation dealing with production and conservation. (Typically offered: Irregular)

LAWW 614V. Board of Advocates Credit. 1-4 Hour.
Members of the Board of Advocates may receive ungraded academic credit, to be awarded in the spring semester of the member's third year in law school, upon completion of duties for the fall and spring semesters. (Typically offered: Fall, Spring and Summer)

LAWW 615V. Elder Law. 1-2 Hour.
Course covers the unique legal issues of the elderly including physical and mental characteristics of the elderly and how to adequately represent their needs; unique housing issues that progress from help at home to nursing home placement and how to pay for services with Medicaid and VA benefits; Medicaid and VA rules and planning for benefits; and the need for specific documents dealing with their impending incapacity, eventual death and passing with dignity. (Typically offered: Irregular)

LAWW 616V. Law Review Credit. 1-4 Hour.
Law review credit. (Typically offered: Fall, Spring and Summer)

LAWW 6173. Introduction to Intellectual Property Law. 3 Hours.
This is an overview course covering the basics of intellectual property law (IP law). Thus, this course focuses on the protection of proprietary rights in inventions, writings, creative expression, software, trade secrets, trade designations, and other intangible intellectual products by federal patent, copyright, trademark and unfair competition law, and by state trade secrecy and unfair competition law. The course aims to give students entering a general business or civil litigation practice an overview of the various intellectual property doctrines. The course is designed both for those who are interested in pursuing IP as a career, and those who are looking only for a basic knowledge of the subject. There are no prerequisites, and a scientific background is not required. J.D. students and non-law students are welcomed. (Typically offered: Irregular)

LAWW 618V. Journal of Food Law & Policy Credit. 1-5 Hour.
Students receive credit for completion of duties on the Law School's publication of The Journal of Food Law & Policy. (Typically offered: Irregular)

LAWW 6192. Workers’ Compensation. 2 Hours.
Study of state legislation providing remedies for workers injured in the course of their employment. Not offered every year. (Typically offered: Irregular)

LAWW 6193. Workplace Legislation. 3 Hours.
An in-depth look at workplace statutes and the interpretive regulations along with significant and recent case law. Emphasis on wage and hour law, the Family Medical Leave Act, Occupational Safety and Health law and Arkansas Unemployment Compensation law. (Typically offered: Irregular)

LAWW 6203. Trial Advocacy. 3 Hours.
An introduction to actual trial work and trial techniques through simulated exercises and the conduct of a mock trial. This course will satisfy the skills requirement. Pre- or Corequisite: LAWW 6093. (Typically offered: Fall and Spring)

LAWW 621V. Products Liability. 2-3 Hour.
An intensive study of the area including a review of the theories of liability; the concepts of product and defect; potential defendants; defenses; problems of proof and causation. (Typically offered: Irregular)

LAWW 6233. Federal Income Tax of Individuals. 3 Hours.
Fundamentals of the federal income taxation of individuals. Topics covered include gross income, deductions, assignments of income, basis, taxation of property transactions, and tax accounting. (Typically offered: Irregular)

LAWW 6253. Federal Income Taxation of Business Entities. 3 Hours.
Focus on tax issues in business formation, operation, distributions, and liquidations. Prerequisite: LAWW 6233. (Typically offered: Irregular)

LAWW 6262. Estate Planning. 2 Hours.
Study of the role of lawyers (including ethical considerations) in fact gathering and analysis of data; testamentary and nonprobate transfers; planning for incapacity; Medicaid, income tax, and transfer tax considerations in small and large estates; gift techniques; planning for the surviving spouse; revocable and irrevocable trusts; life insurance; disposition of business interests; and post-mortem tax planning. Students are strongly encouraged to take either Wills, Trust and Estates or Federal Estate and Gift Taxation prior to taking the course. (Typically offered: Irregular)

LAWW 6282. Multistate Substance and Strategies. 2 Hours.
In this class, students will review via videotaped lecture the seven subjects tested on the Multistate Bar Exam (MBE): Civil Procedure, Constitutional Law, Contracts, Criminal Law & Procedure, Evidence, Property, and Torts. For each subject, students will complete assessment quizzes and practice multiple choice questions. The final exam will consist of 100 MBE-style questions covering all subjects. (Typically offered: Spring)
LAWW 629V. Public Corporations. 2-3 Hour.
A survey of topics applicable to publicly owned corporations, including: corporate governance; shareholder communication and proxy regulation; introduction to corporate finance and dividend policies; mergers and acquisitions; tender offer regulation; aspects of securities regulation; and insider trading. Prerequisite: LAWW 4294. (Typically offered: Irregular)

LAWW 631V. Interschool Competition Team. 1-2 Hour.
Interschool Competition Team provides an avenue for outstanding student advocates to register their completion of a rigorous interschool competition for purposes of academic credit. Students may register for this credit after satisfying the standards for approval of non-graded credit for Interschool Competition Credit, as outlined in the University of Arkansas School of Law Board of Advocates Bylaws and relevant Bylaw and Academic Standards provisions, as promulgated by the Faculty. (Typically offered: Fall and Spring)

LAWW 6323. Poverty Law: Theory and Practice. 3 Hours.
Considers the implications of statutory and constitutional provisions that relate to several substantive areas of poverty law practice including public benefits, employment, consumer, health and family law. Prerequisite: LAWW 5114. (Typically offered: Irregular)

LAWW 633V. Intellectual Property. 2-3 Hour.
This course involves an introductory survey of topics in intellectual property, including copyright, trademark, patent, and unfair competition issues. If time permits, the course may also cover certain aspects of e-commerce. (Typically offered: Irregular)

LAWW 6343. Conflict Resolution. 3 Hours.
Explores methods utilized in the legal profession for resolving disputes. Students develop skills by participating in simulation exercises designed to identify and apply processes. Class readings/discussion on theory and practice will be followed by student simulations. (Typically offered: Irregular)

LAWW 635V. Arkansas Law Notes Credit. 1-4 Hour.
Arkansas Law Notes is published online as a student-run law journal by the University of Arkansas School of Law to members of the bar and the law school community at arkansaslawnotes.com. The publication features articles and current research, including student works. Law Notes is a tradition of the School of Law, dedicated to providing timely and insightful research on a variety of subjects to members of the bar. Law Notes is produced under the guidance of Professors Lonnie Beard, Uche Ewelukwa, and Brian Gallini. A mark of ‘CR’ will be given. (Typically offered: Irregular)

LAWW 6364. Legal Clinic: Immigration. 4 Hours.
Immigration Clinic will provide opportunities for students preparing for a career in immigration law or general practice by developing skills that are critical in legal practice through an experiential learning model. Working under the supervision of a clinical faculty member, students will represent sectors of the immigrant population for graded credit. Criminal Procedure and Professional Responsibility are prerequisites, as well as the completion of at least forty-eight credit hours prior to enrollment. Prerequisite: LAWW 5013. (Typically offered: Irregular)

LAWW 6374. Legal Clinic: Bankruptcy. 4 Hours.
In this experiential course students are closely supervised in the preparation and filing of consumer Chapter 7 bankruptcy cases for individuals and spouses from intake interview through discharge. The skill set taught includes information and fact gathering during a series of taped interviews, ethically handling trust account monies, drafting and filing the bankruptcy petition using document assembly software, appearance before the U.S. Trustee at the First Meeting of Creditors, and negotiating with bankruptcy trustees, creditors and other interested parties. The basic course is for 4 credit hours, and the Advanced course is available for an additional 2 credit hours. The expected learning outcome is to have students gain competence in providing representation in Chapter 7 consumer bankruptcies. (Typically offered: Irregular)

LAWW 6393. Legal Clinic: Nonprofit. 3 Hours.
Rule 15 certification requires completion of 48 hours, including all first year classes and Professional Responsibility. Students receive clinical legal experience counseling and representing non-profit organizations serving Northwest Arkansas in a wide range of non-litigation business law matters. Services include startup, incorporation, obtaining federal and state tax exemptions, change of business form, purchase and lease of real and personal property, employment and labor law issues, and general contract negotiation, drafting and execution. In addition, students prepare and participate as presenters in a workshop on matters of general interest to non-profit organizations. Legal Clinic Faculty supervise and review the student attorney’s work, and provide personal feedback to the individual student attorneys. Prerequisite: LAWW 5013. (Typically offered: Irregular)

LAWW 6403. Land Use. 3 Hours.
Covers public land use controls such as zoning, subdivision regulations, and eminent domain (including private property rights, takings, and inverse condemnation). Heavy emphasis is placed on planning at state and local levels. (Typically offered: Irregular)

LAWW 6413. Legal Clinic: Advanced Criminal Practice. 3 Hours.
The Advanced Criminal Practice Clinic is a 3-credit course offered after a student has successfully completed Criminal Practice Clinic. Students who wish to continue work on existing cases or work on more complicated criminal matters, may apply to enroll in the Advanced Criminal Practice Clinic. Professor approval is required for enrollment. Prerequisite: LAWW 6424. (Typically offered: Irregular)

LAWW 6424. Legal Clinic: Criminal Practice Clinic. 4 Hours.
The Criminal Practice Clinic represents clients charged with misdemeanor and simple felony charges primarily in Washington County. Under close faculty supervision, students develop their ability to effectively and ethically practice law while providing much-needed legal assistance. In addition to client representation, and court appearances, students participate in a weekly seminar. Qualification for Rule XVI practice. Prerequisite: LAWW 6093, LAWW 4173, and LAWW 5013. (Typically offered: Irregular)

LAWW 645V. American Legal History. 2-3 Hour.
An examination of major themes in American legal history, with an emphasis on the origins and meaning of the United States Constitution. Various topics will be explored in the light of the original understandings, developments over time, and current interpretations by the courts and the body politic. Course can and will be offered in either a two or three credit hour version. The latter would allow both an increase in the number of topics covered and greater depth of coverage for selected issues. (Typically offered: Irregular)
LAWW 646V. Student Coordinating Attorney. 1-3 Hour.
The School of Law recognizes the educational value of placements under the supervision of licensed, experienced attorneys, and offers students the possibility of public service learning opportunity serving as a student coordinating attorney for 2-3 credits of ungraded credit if approved by the designated Faculty Supervisor. This option shall be available only to a student with a cumulative GPA of at least 2.0 who has successfully completed 30 hours of Law School classes including Professional Responsibility, and who has obtained and submitted at least one recommendation from a faculty member who has had that student in at least one class in the past 12 months. A student coordinating attorney is a pro-bono position involving exposure to real world situations, involving some aspect of public service, where a lawyer's expertise and insights will be called for and can be observed. Placement is restricted to the courses offered in the all of the clinics offered at the law school. This position covers an entire semester (15 weeks during the spring and fall, and 10-12 weeks during the summer). For a two-credit student coordinating attorney position, the average work load must be no less than 8 hours per week in the fall and spring, or 10 hours per week in the summer. For a three-credit student coordinating attorney position, the average work load would be no less than 12 hours per week in the fall and spring, or 15 hours per week in the summer. Application required and must be completed in writing and delivered to the Faculty Supervisor no later than October 15 of the preceding semester for a spring semester student coordinating attorney position, no later than March 15 for a summer or fall semester student coordinating attorney position. (Typically offered: Fall and Spring)

LAWW 648V. Special Topics (Skills). 1-3 Hour.
Special Topics (Skills) is a course where 'class names' allow for a menu of course titles that provide substantial instruction in professional skills related to the responsibilities which lawyers are called upon to meet such as trial and appellate advocacy, alternative methods of dispute resolution, counseling, interviewing, negotiating, problem solving, factual investigation, organization and management of legal work, drafting, and analytical processes for applying those skills in ethical fashion. (Typically offered: Fall, Spring and Summer) May be repeated for up to 15 hours of degree credit.

LAWW 6493. Law and Psychology. 3 Hours.
This course covers key aspects of the relationship between law and psychology. Examples include: the regulatory effect on clinical practice of statutes, administrative regulations, and court decisions; and the influence of psychological expertise on legal decision-making through expert testimony in trial courts and amici briefs in appellate courts, testimony before legislative and administrative bodies, publication of research results, and provision of clinical services to correctional populations and public service occupations. (Typically offered: Irregular)

LAWW 6513. Immigration Law and Policy. 3 Hours.
Study of immigration and nationality, including exclusion and deportation; political asylum and refugee status; visa allocation and distribution; labor certification; and naturalization and citizenship. It is recommended that Administrative Law be taken first. (Typically offered: Fall, Spring and Summer) May be repeated for up to 15 hours of degree credit.

LAWW 6523. Employment Law. 3 Hours.
An overview of the law governing various aspects of the employment relationship, both statutory and common law. Covers the establishment and parameters of employment, the security of the worker, employer's rights, and terminations. (Typically offered: Irregular)

LAWW 654V. Public Interest Externship. 1-3 Hour.
Public Interest Externships are experiences available to students having completed 30 hours toward the JD degree. Students work part-time -- 12 hours/week over 14 weeks (variable in summer) -- serving an underprivileged population in traditional and non-traditional public service and public interest sectors. By participating in/ observing various tasks, students develop legal and professional skills appropriate to various areas and types of law. There is a Field and an Academic Component to this course. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

LAWW 6553. Arbitration Skills. 3 Hours.
This course explores the practical as well as the legal problems presented by the use of alternative dispute resolution (ADR) to resolve disputes, with an emphasis on employment. While other areas of ADR will be touched upon, such as mediation and peer-review, the primary focus of the course will be on arbitration as the means to resolve problems in the workplace and commercial context generally. The course provides instruction and practice (through a variety of simulations) assessing all aspects of arbitration, including when/whether to arbitrate, selecting the arbitrator, conducting an arbitration, and post-hearing issues. Students will become familiar with the most common techniques and strategies that lawyers use in employment arbitration, and should be better prepared to represent your client's interests in that proceeding. (Typically offered: Irregular)

LAWW 6562. Legal Clinic: Advanced Immigration. 2 Hours.
The Advanced Immigration Law Clinic allows students to obtain an additional 2 credits of experience. Only students who have completed the Immigration Law Clinic may take the Advanced course in a subsequent semester. The Clinic provides opportunities for students preparing for a career in immigration law by developing skills that are critical in legal practice through an experiential learning model. The Clinic allows for continuity in cases, as well as opportunities to handle more advanced and diverse cases. The Clinic is offered to 2-3 students per semester. Each will receive 2 credits. Students are expected to work approximately 4 hours per credit hour, per week, including work done for class preparation, group work, individual meetings, and representation. Students are chosen through an application process including a brief statement on interest in Immigration Law and goals for study in the Advanced Clinic. Prerequisite: LAWW 6364. (Typically offered: Fall and Spring)

LAWW 660V. Government Externship. 1-3 Hour.
Government Externships are experiences available to students having completed 30 hours toward the JD degree. Students work part-time -- 12 hours/week over 14 weeks (variable in summer) -- alongside government attorneys, exposing students to legal issues and practice in government agencies. By participating in/ observing various tasks, students develop legal and professional skills appropriate to government work. There is a Field and an Academic Component to this course. (Typically offered: Fall and Spring) May be repeated for up to 12 hours of degree credit.

LAWW 661V. Bankruptcy. 2-3 Hour.
Study of the philosophy behind and practical application of federal bankruptcy law. (Typically offered: Irregular)

LAWW 6633. Criminal Procedure: Adjudication. 3 Hours.
This course focuses on prosecuting crime. Principal topics include: the prosecutor's decision to charge, the role of defense counsel, initial appearance, bail and pretrial release, grand juries and preliminary hearings, discovery, guilty pleas and plea bargaining, speedy trial, double jeopardy, trials and pretrial motions, sentencing and post-conviction remedies. (Typically offered: Irregular)

LAWW 6702. Copyright Law. 2 Hours.
The nature of the rights, acquisition and enforcement, and property and contract interests in copyrights. (Typically offered: Fall, Spring and Summer)

LAWW 671V. Judicial Externship. 1-3 Hour.
Judicial Externships are experiences available to students having completed 30 hours toward the JD degree. Students work part-time - 12 hours/week over 14 weeks (variable in summer) - in judicial chambers, exposing students to the court system and the adjudication of cases from the judge's perspective. By observing proceedings/engaging in research/judicial writing, students develop legal and professional skills appropriate to litigation. There is a Field and an Academic Component to this course. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.
LAWW 673V. Criminal Defense Externship. 1-3 Hour.
Criminal Defense Externships are experiences available to students having completed 30 hours toward the JD degree. Students work part-time -- 12 hours/week over 14 weeks (variable in summer) -- alongside Public Defenders, exposing students to criminal law and strategy from the defense perspective. By participating in/observing various tasks, students develop legal and professional skills appropriate to criminal defense world. There is a Field and an Academic Component to this course. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

LAWW 676V. Capstone Externship. 1-12 Hour.
Capstone Externships are experiences available to students having completed 60 hours toward the JD degree. These full-time externships place students alongside working attorneys in any one of the externships below -- 35-40 hours/week over 15 weeks (10-12 weeks in summer) -- exposing students to greater responsibility and more in-depth projects. There is a Field and an Academic Component to this course. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

LAWW 681V. Legislative Externship. 1-2 Hour.
The Legislative Externship exposes students to the role of the legislator and the legislative process. It is available for three credits (at least 168 hours on-site) to students who have completed 30 hours of law school credits, and who will serve the externship in a legislative office in Washington D.C., or in a state capital during a legislative session. By observing/participating in various tasks, students develop legal and professional skills necessary to both the legislative and general practice of law. The course has a field and an academic component. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

LAWW 6822. Patent Law. 2 Hours.
Study of the patent system of the United States, including conditions for a valid patent, procedures of the patent office, and litigation relating to patents. Not offered every year. (Typically offered: Irregular)

LAWW 683V. Criminal Prosecution Externship. 1-3 Hour.
Criminal Prosecution Externships are experiences available to students having completed 30 hours toward the JD degree. Students work part-time -- 12 hours/week over 14 weeks (variable in summer) -- alongside prosecutors, exposing students to criminal law and strategy from the prosecutorial perspective. By participating in/ observing various tasks, students develop legal and professional skills appropriate to criminal prosecution. There is a Field and an Academic Component to this course. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

LAWW 6843. Legal Clinic: Advanced Civil Litigation and Advocacy Clinic. 3 Hours.
Students in the Advanced Civil Litigation & Advocacy Clinic (CLAC) continue their representation of low-income clients seeking to enforce their rights in civil matters. While the Clinic docket varies, it usually consists primarily of unpaid wage cases as well as other civil matters. Under close faculty supervision, you will further develop your ability to effectively and ethically practice law while providing much-needed legal services. As an advanced clinic student, you will exercise increased independence and take on more complex matters. Prerequisite: LAWW 6924. (Typically offered: Irregular)

LAWW 686V. Corporate Counsel Externships. 1-4 Hour.
Corporate Counsel Externships are experiences available to students having completed 30 hours toward the JD degree. Students work part-time -- 16 hours/week over 14 weeks (variable in summer) -- alongside attorneys in traditional legal departments/non-traditional business-compliance areas, exposing students to legal issues facing these attorneys daily. By observing/participating in various tasks, students develop legal and professional skills appropriate to corporations. There is a Field and an Academic component to this course. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

LAWW 6873. Legal Clinic: Advanced Nonprofit Clinic. 3 Hours.
Students who have successfully completed the Transactional Clinic in the fall or spring semester may enroll for 3 hours of graded credit in the Advanced Transactional Clinic in any subsequent semester. Students will be assigned a normal client load during both semesters. In the summer students may enroll in Transactional Clinic and Advanced Transactional Clinic during the same term. Students will be assigned to provide legal representation to qualified nonprofit organizations under the supervision of a faculty member. Students will have the opportunity interview and counsel nonprofit entities and perform a number of transactional legal services for corporate clients including: drafting bylaws, preparing and filing articles of incorporation, completing and submitting applications for tax exempt status with state and federal tax agencies; and preparing and filing articles of dissolution. Admission to Advanced Clinic in connection with any of the eligible clinic courses is limited and by approval of the faculty member. Prerequisite: Qualification for Rule XV practice. (Typically offered: Irregular)

LAWW 6913. Environmental Law. 3 Hours.
Devoted primarily to the legal problems related to the environment. Included is consideration of environmental impact in public and private decision making. (Typically offered: Irregular)

LAWW 6924. Legal Clinic: Civil Litigation and Advocacy Clinic. 4 Hours.
Students will represent low-income clients seeking to enforce their rights in civil matters. Under close faculty supervision, students will develop and refine their ability to effectively and ethically practice law. Students will handle all aspects of client representation, including interviewing and counseling, fact investigation and discovery, negotiation, and court appearances. Students will also participate in a weekly seminar and may have the opportunity to engage in other forms of advocacy. Cumulative GPA of 2.00, successful completion of 48 semester hours, including Civil Procedure I and II, Criminal Procedure, Evidence, and Professional Responsibility, and qualifying for Rule XV practice. Prerequisite: LAW 4173, LAW 5013 and LAW 6093. (Typically offered: Fall and Spring)

LAWW 6933. Legal Clinic: Human Trafficking. 3 Hours.
Students complete advocacy projects for organizations that confront and prevent human trafficking. Students may employ a range of public interest practice strategies including report writing, legislative drafting, and community education. During the seminar, students develop skills related to their advocacy projects. Students also study the human trafficking problem and anti-trafficking laws and evaluate anti-trafficking strategies. Students learn interviewing and counseling skills, and how to work with survivors of trauma and across cultural and language difference. (Typically offered: Fall and Spring)

LAWW 6943. Public International Law. 3 Hours.
Principles of international law involving relations among government. The function of international tribunals and organizations. (Typically offered: Irregular)

LAWW 697V. Legal Clinic: Advanced Bankruptcy. 2-3 Hour.
Legal Clinic: Advanced Federal Practice provides opportunities for students preparing for a career in consumer bankruptcy law by developing skills that are critical in legal practice through an experiential learning model. The Advanced Federal Practice Clinic will allow for continuity in cases, as well as opportunities to handle more advanced and diverse cases. Offered to 2-3 students each semester, students enrolled in this course must have taken Federal Practice Clinic, gaining basic knowledge of bankruptcy law and procedure. Students are expected to work approximately 4 hours per credit hour, per week, including work done for class preparation, group work, individual meetings, and representation. Students are chosen through the application process. Prerequisite: LAWW 6374. (Typically offered: Fall and Spring)

LAWW 7031. Regulation of Livestock Marketing and Sales. 1 Hour.
Study of the regulation of livestock and poultry sales under the Packers and Stockyards Act, with a particular focus on production contracting, mandatory price reporting, industry concentration, and antitrust issues. (Typically offered: Spring)
LAWW 704V. Federal Regulation of Food Labeling and Safety. 1-4 Hour.
Welcome to Federal Regulation of Food Labeling & Food Safety. This course will
explore the federal law that applies to the labeling of food products by examining
discrete topics, including the labeling of genetically engineered ingredients, food
fraud, organic labeling, and the new restaurant menu regulations. It will also explore
the federal regulation of food safety, examining food recalls, the food code, and
traceability. The law, the role of government, the perspective of industry and the
interest consumers will all be examined. (Typically offered: Fall)

LAWW 706V. Sports Law. 2-3 Hour.
The major topics covered include significant contract issues, tort liability involving
participants, institutions, physicians and equipment manufacturers, criminal liability,
drug testing, constitutional and related issues dealing with sports associations
and Title 9 and gender equity issues. Other relevant topics may also be covered if
possible. (Typically offered: Irregular)

LAWW 707I. Agricultural Cooperatives and Local Food Systems. 1 Hour.
Introduction to the legal structure of a cooperative and examination of the recent use
of the cooperative model in encouraging local and regional food systems. (Typically
offered: Irregular)

LAWW 7073. Mediation in Practice. 3 Hours.
This three credit course is an introduction to the process of mediation and focuses
on mediation theory and practice. The course provides a comprehensive overview
of the mediation process, including the role of the mediator, litigants, attorneys, the
courts and other relevant participants. Students are taught the basic skills needed
to participate in a mediation as a mediator or as an advocate, and introduced to the
ways in which mediation is used in various settings such as state and federal courts,
and government agencies. Because this is skills class, it includes a lot of interactive
work, including simulated mediations. All students are required to actively participate
in the simulated mediations. (Typically offered: Irregular)

LAWW 708V. Selected Issues in Agricultural and Food Law. 1-3 Hour.
Specialized study of one or more current issues in agricultural and food law,
regulation, and policy. (Typically offered: Irregular)

LAWW 709V. Agricultural Bankruptcy. 1-2 Hour.
Examination of bankruptcy law as applied to agricultural operations, including
Chapter 12 - Family Farmer Reorganization. No prior knowledge of bankruptcy is
required. (Typically offered: Spring)

LAWW 710V. Agricultural Biotechnology. 1-2 Hour.
Study of the regulation of agricultural biotechnology, including the approval process
for new technologies, the patenting of new products and technologies, and the
restrictions associated with their use. (Typically offered: Irregular)

LAWW 711I. Introduction to Agricultural Taxation. 1 Hour.
Overview of federal income tax law as applied to agricultural operations. (Typically
offered: Irregular)

LAWW 713V. Agricultural Water Law. 1-2 Hour.
Study of the basic legal principles applicable to water rights through consideration
of water rights for agricultural use. (Typically offered: Spring)

LAWW 714V. The Right to Food. 1-3 Hour.
Is the right to adequate food recognized as a human right under international law?
Should the right to adequate food be recognized as a human rights? How is the
human right to adequate food defined & implemented? What are the core elements
of the right to adequate food? What is the scope of this right? What are the present
and future threats to the right to food? How are individuals & communities whose
right to food are compromised fighting back? This course introduces the principle
& concept of the human right to adequate food and its practical application and
implications. (Typically offered: Irregular)

LAWW 721I. Energy Policy and Agriculture. 1 Hour.
Survey of the legal dimensions of various energy issues occurring on agricultural
lands and in rural areas, including wind power, solar power, ethanol production,
power line transmission, and fracking. (Typically offered: Irregular)

LAWW 723I. Specialized Legal Research and Writing. 1 Hour.
Legal writing skill development, including training in plain-English legal writing,
electronic research training, and publication strategies. (Typically offered: Fall)

LAWW 7243. Health Law. 3 Hours.
An examination of the role of the law in determining access to and regulation of the
quality of services provided by the health care industry. (Typically offered: Irregular)

LAWW 726V. Farmed Animal Welfare Law and Policy. 1-2 Hour.
Examination of the legal issues involved in determining welfare standards for
animals raised for food. In addition to introducing federal animal welfare and humane
slaughter laws, state referenda, state law standards, and so-called ‘ag gag’ laws are
studied. (Typically offered: Irregular)

LAWW 727V. Food Safety Litigation. 1-2 Hour.
Examination of food borne illness litigation with an initial introduction to food product
liability followed by the study of actual cases brought against food manufacturers.
(Typically offered: Fall)

LAWW 7312. Agricultural Perspectives. 2 Hours.
Agriculture has a rich and varied history, and today’s issues are often best understood in the context of this history. This course examines a wide range of
social and economic issues, considering their origin and how history is reflected in today’s policies. The course includes a series of documentaries. (Typically offered: Spring)

LAWW 7321. Agricultural Policy and the Federal Budget. 1 Hour.
Study of the impact of the Office of Management and Budget and the cost scoring system on federal agricultural policy making in Washington, D.C. Current farm policy
issues are discussed within the context of budgetary constraints and pressures.
(Typically offered: Fall)

LAWW 740V. Federal Farm Programs and Crop Insurance. 1-2 Hour.
Survey of the complex network of federal farm programs and federal crop insurance
programs that are available to U.S. producers. (Typically offered: Fall)

LAWW 741V. Food, Farming and Sustainability. 1-3 Hour.
Survey of the complex legal topics that make up the body of agricultural and food law focusing on current issues of significance. (Typically offered: Fall)

LAWW 742V. Global Food Security. 1-2 Hour.
Survey of the role of law and policy in affecting problems of global food security in the face of increasing population, changing diets, environmental pressures, and
climate change. (Typically offered: Irregular)

LAWW 744V. Selected Issues in International Food and Agriculture. 1-3 Hour.
Specialized study of one or more selected legal/policy issues related to international
agriculture and food systems. (Typically offered: Spring)

LAWW 751I. Introduction to the Law of Food and Agriculture. 1 Hour.
Orientation course that provides an overview of the legal and policy issues presented by the production of food and fiber, including a discussion of structural
changes in agriculture, sustainability issues, and trends in consumer interest.
(Typically offered: Fall)

LAWW 7612. Advanced Consumer Bankruptcy. 2 Hours.
Study of recent developments in the law of bankruptcy as it applies to consumer and non-consumer transactions. (Typically offered: Irregular)

LAWW 762V. Legal Issues: Indigenous Food and Agriculture. 1-2 Hour.
Overview of the legal, historic, social, and economic issues important to sustainable
food and agriculture development in Indian Country. It features in-depth discussion of historic and emerging issues including land use challenges, tribal food and
agriculture code development, and barriers to effective agriculture development.
(Typically offered: Irregular)
LAWW 763V. Regulated Markets in Agriculture. 1-2 Hour.
Study of the economic regulation of specific sectors of the agricultural industry focusing on perishable agricultural commodities (fruits and vegetables), and dairy products. Included is the study of formal and informal administrative review. (Typically offered: Spring)

LAWW 764V. Practicum in Agricultural & Food Law. 1-4 Hour.
This experiential course provides LL.M. candidates with an opportunity to work with agencies, advocacy organizations, businesses, and others engaged in agricultural & food law practice and policy throughout the country. Work can be performed on-site or via distance. Prerequisite: Only available to students admitted to the LL.M. Program. (Typically offered: Fall, Spring and Summer)

LAWW 765V. Intellectual Property Issues in the Food & Agricultural Sector. 1-3 Hour.
This course offers an overview of the key IP issues in food and agriculture. The focus is on five types of IP - Trademarks, Trade Secrets, Geographical Indicators (GIs), Copyrights, and Patents. The course will introduce students to IP law (domestic, regional and global) and will look at the expansion of IPRs in food and agriculture. (Typically offered: Irregular)

LAWW 7662. American Indian Law. 2 Hours.
Study of the domestic federal law of the United States as it applies to Native Americans and their tribes. The general concept of tribal self-determination is the unifying theme of the course. Particular topics include tribal sovereignty and government; American Indian civil rights; administration of justice on and off the reservation; American Indian land claims; land, hunting, and fishing rights; water rights; American Indian health, education, and welfare; Bureau of Indian Affairs; state taxation; individual and tribal treaty rights; federal Indian policy; and zoning and environmental controls. (Typically offered: Irregular)

LAWW 770V. Advanced Writing in Agricultural and Food Law. 1-4 Hour.
Research in a specialized area of agricultural or food law and development of a paper that demonstrates rigorous legal analysis and quality legal writing. (Typically offered: Spring) May be repeated for degree credit.

LAWW 771V. Independent Research in Agricultural and Food Law. 1-2 Hour.
Independent research in agricultural and food law conducted under the supervision of a faculty member. (Typically offered: Fall, Spring and Summer)

LAWW 7721. Administrative Process and Practice in Agricultural and Food Law. 1 Hour.
Study of administrative law and practice in the specialized areas of agricultural and food law. Relevant regulatory agencies are introduced. Rulemaking, adjudication, and judicial review are covered. (Typically offered: Fall)

LAWW 774V. Urban Agriculture: Law and Policy. 1-2 Hour.
Study of the legal issues raised by the rising interest in urban agricultural activities. Topics of study include land use and zoning issues, farmers market issues, and legal issues associated with community sponsored agriculture. (Typically offered: Irregular)

LAWW 776V. Agricultural Finance and Credit. 1-3 Hour.
Study of the legal issues surrounding the financing of agricultural operations, including credit availability, agricultural security issues under the Uniform Commercial Code, and debt restructuring opportunities. Special focus is on lending options offered by the Farm Service Agency and the Farm Credit System. (Typically offered: Irregular)

LAWW 7773. Water Law. 3 Hours.
Study of real property principles governing ownership rights in water and the federal and state statutes controlling the use of water. (Typically offered: Irregular)

LAWW 778V. Agricultural Labor Law. 1-2 Hour.
Study of the legal, social, and economic issues that arise from the extensive use of migrant labor in U.S. agricultural operations. Topics include agricultural exemptions from labor laws, the Migrant & Seasonal Agricultural Worker Protection Act, and agriculture’s reliance on undocumented alien workers. (Typically offered: Spring)

LAWW 781V. Local-Regional Food Systems and the Law. 1-2 Hour.
This course examines recent efforts to re-establish local and regional food systems and explores the attendant legal and policy issues. (Typically offered: Irregular)

LAWW 782V. Food Security, Social Justice, & the Law. 1-2 Hour.
Survey of the legal and policy issues raised by the food justice movement. Topics covered include food insecurity and poverty, public health concerns such as obesity, the economics of healthy eating, food deserts, and food waste. Each will be considered in light of the legal and governmental policy issues raised. (Typically offered: Fall Odd Years)

LAWW 785V. Federal Nutrition Law and Policy. 1-2 Hour.
Study of federal nutrition policy, including the development of the federal nutrition standards, the framework for the food assistance programs, the federal school lunch program, and the government’s efforts to encourage healthy eating. Prerequisite: LAWW 786V. (Typically offered: Irregular)

LAWW 786V. Food Law and Policy. 1-3 Hour.
An introduction to the network of laws that govern our food system. An overview of regulation by both the Food & Drug Administration and the USDA is provided. Policy considerations are discussed in light of current issues. (Typically offered: Irregular)

LAWW 790. Environmental Law and Policy. 2 Hours.
Study of the legal issues associated with environmental protection and sustainable development. (Typically offered: Fall Odd Years)

LAWW 7932. Environmental Regulation of Agriculture. 2 Hours.
This course examines the major federal environmental statutes applicable to agricultural operations with attention to current cases and controversies under those laws. It also explores the regulatory authority and enforcement practices of the EPA and other agencies. (Typically offered: Spring)

LAWW 794V. Business Human Rights, & Corporate Social Responsibility. 1-3 Hour.
Business has helped lift people around the world out of poverty. However, businesses can have a serious impact on human rights. This is true for businesses in the food and agricultural sector. Around the globe companies in all sectors are contributing to human rights abuses. With globalization, the proliferation of multinational corporations, and increase in the scale and volume of foreign direct investment, the situation appears to be getting worse. The course explores the business-human rights nexus with a particular focus on the food and agricultural sector and on case studies from around the world. (Typically offered: Irregular)

LAWW 796V. Agriculture and the Environment. 1-3 Hour.
Agriculture is increasingly criticized for its impact on the environment. This course examines the tensions between the desire to produce food and fiber efficiently and concern for sustainability and the protection of natural resources. (Typically offered: Fall)

Glossary

Academic Dismissal. An academic status ([http://catalog.uark.edu/undergraduatecatalog/academicregulations/academicprobationsuspensionanddismissal/](http://catalog.uark.edu/undergraduatecatalog/academicregulations/academicprobationsuspensionanddismissal/) resulting from unsatisfactory grades in which students are not permitted to enroll at the university until approved through an appeal process.

Academic Probation. An academic status (p. 81) resulting from unsatisfactory grades.

Academic Suspension. An academic status (p. 81) for unsatisfactory grades in which students are not permitted to register for courses for a specified time period.

Act 1052/467. Section 21 of Arkansas Act 467 of 1989 specifies that all first-time entering freshmen who are enrolled in a bachelor’s degree program will be placed in either college-level credit courses in English and mathematics or developmental courses in English composition, reading, and mathematics on the basis of their scores on specified tests. Find out more in the Registration (p. 67) section of the catalog.
Activity Course. Course devoted to participation in, knowledge of, or performance of some form of physical activity.

Add. See Drop/Add below.

Advance Registration. A period of time scheduled during a regular (fall or spring) semester that allows currently enrolled students to register for the next regular semester. In addition, advance registration for the summer sessions is scheduled during the spring semester.

Applied Instruction. A course that integrates both the teaching and hands-on application of knowledge or information; attends to the practical and utilitarian function of the subject (distinguished from theoretical). Examples may include: livestock judging team, music and art courses, cooperative education, and experiential learning.

Apprenticeship/Externship. Experiential learning opportunity to give students practical exposure and training in a career field. This is generally off-campus, supervised, and designed to prepare students for the transition from school to career.

Area Studies. Interdisciplinary study of geographical or cultural areas. Topics include the history, geography, politics, culture, language, and literature of the area. Generally, an area study is a minor or a second major. Examples of area studies include African and African American studies, Latin American and Latino studies, and Middle East studies.

Audit. To take a course without credit.

Adviser. A faculty or staff member assigned to a student to advise that student on academic matters that include degree requirements and selection of courses.

Certification/Licensure Requirements. The set of course, hour, and other academic requirements that must be completed to receive certification/licensure such as certification to teach in the public schools.

Class Schedule. List of courses and sections for a specific semester, including names of instructors; day, hour, and place of class meetings; and detailed registration procedures. The class schedule is available online.

Clinical Rotation/Instruction. Course that takes place in a clinical setting, including practice labs, hospitals, and other agencies; students apply methods and principles of a clinical discipline.

College or School. One of ten major divisions within the university that offers specialized curricula.

Combined Major. A combination of subsets of two primary discipline specific requirements (each of which is typically 15 to 24 hours and less than the number required for a major) which together constitute the major in a program of study leading to one bachelor’s degree with a combined major in two disciplines. For example, a Bachelor of Arts degree with a combined major in English and journalism.

Concentration. A subset of requirements within the discipline-specific (field of study or major) requirements in a program of study leading to a graduate or bachelor’s degree. Examples are the Doctor of Philosophy degree with physics as the field of study and a concentration in neuroscience or a Bachelor of Music degree with a major in music and a concentration in jazz studies. Concentrations will print on the transcript.

Consent. A prerequisite that requires the student to obtain approval from the instructor or the department before he or she will be allowed to register for the course.

Core. Core is a set of required coursework specified for students at the college/school, department, or program/area level. Core is what is required for all students at that level or in that program. Hours will vary depending on the major. Core and major requirements are usually stated in terms of specific courses or lists of courses from which any course chosen will meet the requirement. The “list” may actually be a defined set such as lower-level courses or upper-level courses; courses in the department, in the program, or in the college; or courses identified by one or more course, program, or department codes.

Elective courses may involve a greater or lesser degree of student choice. A general elective course could be one that is needed to complete the number of hours required for the degree when no other requirements remain to be met. A free elective course may be one that is not needed to complete either course requirements or hour requirements.

Corequisite. A course that must be taken at the same time as the course described.

Correspondence. See Self-Paced (Correspondence) below.

Course. A unit of academic instruction.

Course Deficiencies. Lacking required units of study in high school. Find out more in the Placement and Proficiency portion (p. 58) of the Enrollment Services section of the catalog.

Course Load. The number of semester credit hours a student may schedule in a given term.

Credit Hour. See Academic Policy 1200.40 (https://provost.uark.edu/policies/120040.php) for university’s credit hour definition.

Cumulative Grade-Point Average. An average computed by dividing the total number of grade points earned by the total number of credit hours attempted in all courses for which grades (rather than marks) are given.

Curriculum. A program of courses comprising the formal requirements for a degree in a particular field of study.

Degree Program. The program of study defined by sets of academic requirements that lead to a degree that the university is authorized to offer. Undergraduate degree requirements are typically stated in terms of numbers of credit hours and specific courses at university, college/school, and discipline levels. Graduate degree requirements are typically stated in terms of numbers of credit hours and specific courses at discipline levels. Examples are a Bachelor of Science degree program, which typically has a minimum of 120 hours; a Master of Arts degree program, which typically has a minimum of 30 hours; and a Doctor of Philosophy degree program, which typically has a minimum of 60 hours although hours vary.

Department. Division of faculty or instruction within a college, such as Department of Accounting within the Sam M. Walton College of Business.

Dependent Major. See Second Major below.

Dissertation/Thesis Research. Research conducted and submitted in support of candidacy for a degree or professional qualification; a formal treatise presenting the results of study submitted in partial fulfillment of the requirements of an advanced degree; process requires intensive interaction between student and professor.
Double Degree Program. A program of study that includes one set of university requirements and two sets of college or school and primary discipline-specific requirements and leads to two different bachelor’s degrees with two different majors. Such a program could, for example, lead to a Bachelor of Science degree with a major in chemistry and a Bachelor of Science in Chemical Engineering degree. Such programs are comparatively rare, and hours required to complete them vary, depending upon overlap in requirements.

Double Major. The two complete sets of primary discipline-specific requirements (typically consisting of a minimum of 30 hours each) constituting the two majors within a program of study leading to one bachelor’s degree with two complete majors. For example, a Bachelor of Arts degree with a double major in Spanish and French.

Drill. Supplemental instruction or practice using repetition or discussion.

Drop/Add. Dropping or adding of select courses while still remaining enrolled in the university. This can only be done during specified times as published in the academic calendar (http://registrar.uark.edu/academic-dates/academic-semester-calendar/). See also Withdrawal below.

Eight-Semester Degree Completion Program. Most majors offered by the University of Arkansas can be completed in eight semesters, and the university provides plans that show students which classes to take each semester in order to finish in eight semesters. A few undergraduate majors either require a summer internship or fieldwork or are five-year professional programs, and may therefore not qualify for the eight-semester degree completion program.

Elective. Elective courses may involve a greater or lesser degree of student choice. A general elective course could be one that is needed to complete the number of hours required for the degree when no other requirements remain to be met. A free elective course may be one that is not needed to complete either course requirements or hour requirements.

Equivalent. A course allowed in place of a similar course in the same academic discipline. May require approval by an academic dean.

Externship. See Apprenticeship/Externship above.

Fees. Charges, additional to tuition, that cover specific university services, programs, facilities and/or events. Find out more in the undergraduate Fee and Cost Estimates (p. 70) section or the graduate Fee and Cost Estimates (p. 1637) section.

Field of Study. The primary discipline-specific (or multidisciplinary or interdisciplinary) set of requirements in a graduate program of study. The field of study typically consists of a minimum of 30 hours at the master’s degree level, of 30 hours beyond the master’s degree at the educational specialist level, and of 56 hours for the doctor of education degree. Field of study hour requirements vary more widely for the doctor of philosophy degree, but 60 hours is typical. For example, a Master of Arts degree in history, a Master of Arts in Teaching degree in teacher education, an Education Specialist degree in curriculum and instruction, a Doctor of Education degree in higher education, a Doctor of Philosophy degree in business administration.

Field Studies. Hands-on study undertaken outside the laboratory or place of learning, usually in a natural environment or among the general public. Examples may include archeological and geological field studies.

Focused Studies. A set of courses that a student may elect to take as part of the major requirements that provides focus in a particular area related to the major. Completing a focused study is not required for the major, but serves as a guide for students who want to further specialize their studies. Focused studies do not need ADHE approval and do not appear on the transcript.

Grade Points. Points per semester hour assigned to a grade (not a mark), indicating numerical value of the grade. The grade-point average indicates overall performance and is computed by dividing the total number of grade points earned by the number of semester hours attempted.

Grade Sanction(s). A penalty for academic dishonesty. Grade sanctions may consist of either a grade of zero or a failing grade on part or all of a submitted assignment or examination or the lowering of a course grade, or a failing grade of XF to denote failure by academic dishonesty.

Hazing. Any activity that is required of an individual that may cause mental or physical stress and/or embarrassment when in the process of joining or belonging to any organization.

Independent Study. Project collaboratively designed by the instructor and student to pursue an area of study not covered by the established curriculum; typically completed without class attendance but through formal supervision by an instructor.

Internship. A formal program that provides practical experience in an occupation or profession; applied, monitored, and supervised, field-based learning experience for which the student may or may not be paid; may include field work/experience, supervised courses, student teaching, and cooperative education; provides opportunities for students to gain experience in a career field.

Intersession. A two-week mini-session that is held at the beginning of the regular fall, spring, and summer terms. Coursework during an intersession is very concentrated and intensive. Intersession classes are not available to new freshmen.

Laboratory. Course meeting in a defined physical setting for the hands-on application of methods and principles of a discipline; credit-bearing section which requires a registration separate from the lecture component of the course.

Lecture. A class session in which an instructor speaks on a specific topic.

Lecture/laboratory. Lecture course which integrates a lab component as part of the same course registration.

Major. The primary discipline-specific (or multidisciplinary or interdisciplinary) set of requirements in an undergraduate program of study. The major typically consists of a minimum of 30 hours and identifies by name a specific degree area. For example, a Bachelor of Arts degree with a major in English or a Bachelor of Science in Business Administration degree with a major in accounting.

Minor. The lesser set of discipline-specific (or multidisciplinary or interdisciplinary) requirements in an undergraduate program of study. The minor typically consists of a minimum of 15 hours or more in a designated discipline.

Noncredit Course. A course for which no credit is given. (Some credit courses will not count toward degrees.)

Overload. A course load of more semester hours than a student is normally permitted to schedule in a given period.
Practicum. Involves supervised activities emphasizing practical application of theory, especially one in which a student gains exposure to a field of study; generally required as part of the program curriculum.

Pre-Professional Requirements. The set of course, hour, and other academic requirements that must be completed before entry into a school, a program of study, or an advanced level of a program of study, either at the U of A or at another institution.

Prerequisite. A course or requirement that must be completed before the term when the described course is taken.

Private Study. Involves individual instruction with regular meetings; one-to-one demonstration, performance critique, music, fine arts or performing arts are examples.

Readings. A course where the instructor assigns readings and facilitates discussion at regular class meetings.

Registration. Enrollment at the beginning or prior to the beginning of a semester, including selection of classes and payment of fees and tuition.

Research. Research conducted that is independent of that done for a dissertation or thesis.

Sanction(s). The penalty for noncompliance to a policy. Usually a response that will redirect the individual or group’s inappropriate behavior, encourage responsible judgment and ethical reasoning, protect the community’s property and rights, and affirm the integrity of the institution’s conduct standards.

Section. A division of a course for instruction. A course may be taught in one or more sections or classes or at different times, depending on enrollment in the course.

Second/Dependent Major. A second complete set of primary discipline-specific requirements in a discipline in which only a second or dependent major may be earned. A second major must be earned in a degree program in which the first major is one authorized to be given independently. Typically, a minimum of 30 hours is earned in each major area or discipline. Examples of second major areas are African and African American studies, Middle East studies, and Latin American and Latino Studies. An example of a degree with a second major is a Bachelor of Arts degree with a major in political science and a second major in Middle East studies. The second major is always listed second on the transcript.

Self-Paced (Correspondence). Course in which instruction is web-based and students are physically separated from the instructor. Interaction between instructor and student is not regular or substantive, and is primarily initiated by the student. These courses are self-paced and are not distance education. Students are not required to be admitted to the University of Arkansas to take a self-paced course.

Semester Credit Hour. Unit of measure of college work. One semester credit hour is normally equivalent to one hour of class work or from two to six hours of laboratory work per week for a semester.

Seminar. Involves a small group of students engaged in advanced study and original research under a member of the faculty and meeting regularly to exchange information and hold discussions; highly focused and topical course; may include student presentations and discussions of reports based on literature, practices, problems, or research.

Special Problems. Individualized investigation of topics or case studies in a specific field under the supervision of an instructor for the purpose of enhancing or illuminating the regular curriculum.

Special Topics. An organized course devoted to a particular issue in a specific field; course content is not necessarily included in the regular curriculum for the major.

State Minimum Core. See University Core below.

Student Number. A number given to each student as a permanent identification number for use at the university.

Studio Course. Involves the application of design and theory in a defined physical setting; students explore and experiment under the guidance of an instructor.

Summer Sessions. Periods of time during the summer when course work is offered. (Go to the Academic Calendar (p. 14) for specific times and dates.)

Syllabus. An outline or summary of the main points of a course of study, lecture, or text.

Telecommunications. Course that utilizes technology in conveying teaching material. This only includes courses that use technology as the primary delivery method of course content, not courses that simply use technology to support another delivery method. These are distant education courses that generally: Uses one or more of the following technologies to deliver instruction to students who are separated from the instructor and to support regular and substantive interaction between the students and the instructor, synchronously or asynchronously. The technologies used may include:

- The Internet;
- One-way and two-way transmissions through open broadcast, closed circuit, cable, microwave, broadband lines, fiber optics, satellite, or wireless communications devices;
- Audio-conferencing, etc.; or
- Videocassettes, DVDs, and CD-Roms, if the videocassettes, DVDs, or CD-Roms are used in conjunction with any of the technologies listed in the first three options

Track. A subdivision of a concentration that a student must select and fulfill to complete the requirements of the concentration. Examples are the portfolio and thesis tracks within the specialist concentration in the Master of Arts in English degree. Tracks will print on the transcript.

Transcript. A complete record of the student’s enrollment and academic history at the University of Arkansas, including all undergraduate, graduate, and law courses.

Tuition. The charge for university enrollment and registration, calculated per credit hour each semester. Tuition rates may vary depending on a student’s resident status, undergraduate or graduate standing, and college affiliation. Tuition does not include cost of room and board. Additional charges will apply depending on student status. See the entry for Fees above.

UAConnect (https://uaconnect.uark.edu/). The online database that maintains student, faculty and staff records and class schedules.
Air Force ROTC consists of four years of Aerospace Studies classes: through normal course registration processes. Air Force while simultaneously attending college. Students can register allows students to pursue commissions as officers in the United States Detachment 030, ThunderHawgs, part of a nationwide program that The University of Arkansas hosts the award-winning Air Force ROTC Website 319 Memorial Hall, 479-575-3651 Professor of Aerospace Studies Professor of Aerospace Studies (more in the Academic Regulations section. Withdrawal. Official withdrawal from all courses during a semester at the university. 1 In establishing the official count of degrees awarded by the U of A, the Arkansas Department of Higher Education will count only one degree (major) for each student who completes a degree with double or combined majors. U of A staff may note in which major the degree is counted. Two degrees are counted only if the student completes two separate degree programs, a Master of Arts and a Master of Science, for instance. Reserve Officers’ Training Corps Reserve Officers’ Training Corps (ROTC) programs at the University of Arkansas provide physical and mental challenges that are not offered anywhere else on campus. The ROTC programs prepare young men and women for careers as professional military officers. In addition to academic studies, each service requires that all students attend a weekly leadership laboratory. The freshman and sophomore courses are electives offered to male and female students who may earn four hours of academic credit in Aerospace Studies or up to six hours in Military Science. Absolutely no military obligation is incurred by non-scholarship students as a result of their enrollment in or completion of any or all of their freshman or sophomore ROTC courses. And a corresponding Leadership Laboratory for each year, at which students apply leadership skills, demonstrate command and effective communication, develop physical fitness, and practice military customs and courtesies.

College students enrolled in the Air Force ROTC program (known as “cadets”) who successfully complete both Air Force ROTC training and college degree requirements will graduate and simultaneously commission as Second Lieutenants in the Active Duty Air Force. Additional information about Air Force ROTC can be found on the web at www.afrotc.com (http://www.afrotc.com/).

Courses

AERO 1011. Heritage and Values of the United States Air Force I. 1 Hour. A survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, and organization of the Air Force. Leadership LAB mandatory for cadets. Corequisite: Lab component. (Typically offered: Fall)

AERO 1021. Heritage and Values of the United States Air Force II. 1 Hour. A survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, and organization of the Air Force. Leadership LAB mandatory for cadets. Corequisite: Lab component. (Typically offered: Spring)

AERO 2011. Team and Leadership Fundamentals I. 1 Hour. This course focuses on laying the foundation for teams and leadership. The topics include skills that will allow cadets to improve their leadership on a personal level and within a team. The course will prepare cadets for their field training experience where they will be able to put the concepts learned into practice. The purpose is to instill a leadership mindset and to motivate sophomore students to transition from AFROTC cadet to AFROTC officer candidate. Corequisite: Lab component. (Typically offered: Fall)

AERO 2021. Team and Leadership Fundamentals II. 1 Hour. This course focuses on laying the foundation for teams and leadership. The topics include skills that will allow cadets to improve their leadership on a personal level and within a team. The course will prepare cadets for their field training experience where they will be able to put the concepts learned into practice. The purpose is to instill a leadership mindset and to motivate sophomore students to transition from AFROTC cadet to AFROTC officer candidate. Corequisite: Lab component. (Typically offered: Spring)

AERO 3011. Leading People and Effective Communication I. 3 Hours. This course teaches cadets advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and communication. Cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors. Corequisite: Lab component. (Typically offered: Fall)

AERO 3021. Leading People and Effective Communication II. 3 Hours. This course teaches cadets advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and communication. Cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors. Corequisite: Lab component. (Typically offered: Spring)
AERO 4013. National Security Affairs and Preparation for Active Duty I. 3 Hours.
This course is designed for college seniors and gives them the foundation to understand their role as military officers in American society. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. The final semester provides information that will prepare the cadets for Active Duty. Corequisite: Lab component. (Typically offered: Fall)

AERO 4023. National Security Affairs and Preparation for Active Duty II. 3 Hours.
This course is designed for college seniors and gives them the foundation to understand their role as military officers in American society. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. The final semester provides information that will prepare the cadets for Active Duty. Corequisite: Lab component. (Typically offered: Spring)

Army ROTC Website (http://armyrotc.uark.edu/)

Army ROTC teaches you how to lead. It is one of the best leadership courses in the country and you can make it a part of your academic curriculum here at the University of Arkansas. Army ROTC is an elective curriculum you take along with your required college courses that gives you the tools, training and experiences that will help you succeed in any competitive environment. Participation in the Army ROTC program while pursuing your academic degree offers you the opportunity to earn a commission as a second lieutenant and serve on active duty or in the National Guard or Army Reserve upon graduation.

The traditional four-year Army ROTC Program is divided into a two-year basic course (1000- and 2000-level Military Science classes) and a two-year advanced course (3000- and 4000-level Military Science classes). Students may enroll in the basic course without incurring any military service obligation.

Basic Course Requirements
The first two years of instruction introduce the student to fundamental military and leadership subjects. Students normally take the basic course sequence over four successive semesters, but the basic courses can be completed in as few as two semesters. Students should discuss available options with the Recruitment and Operations Officer before registering for courses if they have fewer than four semesters to complete the basic course.

The regular curriculum consists of a lecture and lab each semester. Freshmen are encouraged to take MILS 1001 Introduction to the Army in the fall and MILS 1011 Foundations of Agile and Adaptive Leadership in the spring. Both classes are 1 credit hour classes that have 1 hour of classroom instruction and 2 hours of lab per week. Sophomores are encouraged to take MILS 2002 Leadership and Decision Making in the fall and MILS 2012 Army Doctrine and Team Development in the spring. Both of the 2000-level classes are 2 credit hour classes that have 2 hours of classroom instruction and 3 hours of lab per week. Labs provide the opportunity for the practical application of leadership concepts and tactical military skills training such as map reading, land navigation, field training, and rifle/pistol marksmanship.

Advanced Course Requirements
Students who have completed the basic course sequence or an equivalency (see Two-Year Program), have met all enrollment eligibility criteria continue into the advanced course. To enroll in the advanced course, students must meet eligibility and age requirements, be physically qualified, have two academic years to complete before graduation or reception of a graduate degree, have a minimum grade point average of 2.0, be accepted by the professor of military science, and be a U.S. citizen. This advanced course curriculum consists of the following courses that include corresponding leadership labs, physical fitness training sessions, and a four-week summer camp (Advanced Camp) at Fort Knox, Kentucky.

During labs and physical training sessions students receive practical leadership opportunities to prepare them for summer camp and their future military careers. Students normally attend Advanced Camp in the summer between their junior and senior years. Students must complete all of the courses listed above and satisfactorily complete Advanced Camp to earn a commission.

Army ROTC students who receive an Army ROTC scholarship or enter the Army ROTC Advanced Course must agree to complete a period of service with the U.S. Army. You can serve full time in the Army for three years (four years for scholarship winners). Selected cadets may choose to serve part time in the U.S. Army Reserve or Army National Guard while pursuing a civilian career.

Two-Year Program
Students who are veterans, members of the Army National Guard/Army Reserve, or who have participated in the Junior Reserve Officers’ Training Corps Program in high school may qualify for direct entry into the advanced course with the approval of the Professor of Military Science. Students who did not complete the ROTC basic course curriculum (see above) but have two years of academic study remaining may be eligible to attend Basic Camp to satisfy the basic course requirements. Basic Camp, held at Fort Knox, Kentucky, during the summer, introduces the student to the Army and covers the requirements for the basic course in 28 days. Students who believe they qualify for this program should consult with the Scholarship and Enrollment Officer for more information.

Scholarships
Qualified students may compete for Army ROTC scholarships ranging from two to four years in duration. The Army provides scholarships for those who desire to serve on Active Duty, in the National Guard, or in the Army Reserve. Students must be enrolled and participating in Army ROTC to be eligible for scholarships. Scholarships are merit based and pay full tuition and fees (both in and out-of-state) or room and board (capped at $5,000/semester) but not both, $600 per semester for textbooks and laboratory expenses, and a tax fee subsistence stipend of $300–$500 for each month of the regular school year depending on Military Science level. Interested students should consult with
the Scholarship and Enrollment Officer for more detailed information concerning the scholarship eligibility requirements. For additional information about Army ROTC, students may contact Mr. Oscar Rayford in the Department of Military Science, 479-575-5853, orrayford@uark.edu.

Courses

MILS 1001. Introduction to the Army. 1 Hour.
This course focuses on small group leadership and introducing the student to the Army as an organization. Students learn time management, drill and ceremony, military customs and courtesies, basic map reading, water safety and first aid. Introduction to the organization, values, ethics, personal development and the role of the Army. Classroom 1 hour per week. Lab 2 hours per week. Corequisite: Lab component. (Typically offered: Fall)

MILS 1011. Foundations of Agile and Adaptive Leadership. 1 Hour.
Continuation of MILS 1001. Topics include the Army Profession and what it means to be a professional in the U.S. Army, the Army Leadership Requirements Model, intermediate map reading/orienteering, and basic field craft. Classroom 1 hour per week. Lab 2 hours per week. Corequisite: Lab component. (Typically offered: Spring)

MILS 1101. Basic Marksmanship. 1 Hour.
Introduction to safe use of a rifle and practical application of rifle marksmanship. This course includes weapons safety, mechanics, capabilities, and fundamentals of marksmanship. Includes visit to fire at a local indoor rifle range. Materials and equipment furnished by Department of Military Science. (Typically offered: Fall)

This course focuses on basic Army leadership doctrine and develops the student’s skills by introducing them to small unit tactics. Students learn to apply critical thinking and problem solving by using Troop Leading Procedures (TLP). Additional topics include the value of diversity, understanding the officer’s role in leading change, management skills, and the fundamentals of the Army as a profession. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: MILS 1001 and MILS 1011 or departmental consent. (Typically offered: Fall)

MILS 2101. Advanced Rifle Marksmanship. 1 Hour.
Course to teach students the fundamentals of Advanced Rifle Marksmanship. Class is conducted once a week with topics including: Air rifle, small bore firing, advanced practical exercises of different shooting positions and marksmanship competition with other universities. Prerequisite: MILS 1101. (Typically offered: Spring)

MILS 3004. Applied Leadership I. 1-4 Hours.
This course focuses on the development of managerial and leadership abilities and the practical application of these skills during ‘hands-on’ training. Students learn advanced infantry tactics and demonstrate their leadership potential using this medium. Students are required to lead in drill and ceremony, physical training, and tactical situations. This course prepares the student to excel at the ROTC Advanced Camp normally attended during the summer between the junior and senior year. One 48 hour weekend field training exercise is required per semester. Lecture 2 hours, laboratory 3 hours, physical training 3 hours (conducted Tuesday - Thursday) per week. Corequisite: Lab component. Prerequisite: Departmental consent and (MILS 1001, MILS 1011, MILS 2002, and MILS 2012; or completion of Army ROTC Basic Camp; or completion of basic training with any component of the U.S. Armed Forces). (Typically offered: Fall)

MILS 3014. Applied Leadership II. 4 Hours.
Continuation of MILS 3004. This course prepares the student to excel at the ROTC Advanced Camp (normally attended during the summer between the junior and senior year). Requirements include one 48 hour weekend field training exercise per semester. Lecture 2 hours, laboratory 3 hours, physical training 3 hours (conducted Tuesday - Thursday) per week. Corequisite: Lab component. Prerequisite: Departmental consent and MILS 1001, MILS 1011, MILS 2002, MILS 2012 and MILS 3004; or completion of Army ROTC Basic Camp; or completion of basic training with any component of the U.S. Armed Forces. (Typically offered: Spring)

MILS 4001. Advanced Military Issues. 1 Hour.
Individual study for advanced undergraduates. Students will research, write a paper, and give an oral presentation of a current military issue. Prerequisite: PMS approval. (Typically offered: Fall and Spring)

MILS 4004. Advanced Leadership I. 4 Hours.
This course focuses on the study of various military organizations and their role in military operations. Discussion of command and staff management in military organizations, executive responsibility of Army commissioned officers, service customs, courtesies, and traditions. The senior year includes the study of personnel management, professional ethics, the military justice system, and the Army’s training and maintenance management system. This course prepares students to assume responsibilities as a commissioned officer upon graduation. One 48 hour weekend field training exercise is required per semester. Lecture 2 hours, laboratory 3 hours, physical training 3 hours (conducted Tuesday - Thursday) per week. Corequisite: Lab component. Prerequisite: Departmental consent and MILS 3004 and MILS 3014. (Typically offered: Fall)

MILS 4011. Advanced Military Correspondence. 1 Hour.
Practicum for advanced undergraduates. Students submit prepared military correspondence projects written in the military style using military forms and formats. Prerequisite: PMS approval. (Typically offered: Fall and Spring)

MILS 4014. Advanced Leadership II. 4 Hours.
Continuation of MILS 4004. This course prepares students to assume responsibilities as a commissioned officer upon graduation. One 48 hour weekend field training exercise is required per semester. Lecture 2 hours, laboratory 3 hours, physical training 3 hours (conducted Tuesday - Thursday) per week. Corequisite: Lab component. Prerequisite: Departmental consent and MILS 3004, MILS 3014 and MILS 4004. (Typically offered: Spring)

The Service Learning Initiative

The Service Learning Initiative is a joint initiative between the University of Arkansas Provost Office, the Honors College, and the Division of Student
Affairs. Service learning builds critical thinking skills while engaging in academic courses that promote experiential, community-based activities. Formulated service learning courses must meet the committee-approved service learning definition and criteria, and be approved for designation by the Service Learning Committee.

Service Learning Definition

Service learning is a credit-bearing, faculty-directed, teaching-learning experience that is course specific. Service Learning strengthens academic content knowledge and sense of civic responsibility. Students build critical thinking skills as they engage in experiential, community-based activities that are aligned with and integral to academic course work. At the same time, the community (real people in real situations) benefits from assistance that would otherwise not be available.

Courses Page

Students can visit the Service Learning program course page (https://servicelearning.uark.edu/courses/) to find courses that have been designated with service-learning components. Faculty can find criteria (http://servicelearning.uark.edu/) to develop courses that will be considered for designation as service learning courses.

Service Learning Steering Committee

- Alison Turner, Fay Jones School of Architecture and Design
- Casey Kayser, Fulbright College of Arts and Sciences
- Fran Hagstrom, College of Education and Health Professions
- Sarah Hernandez, College of Engineering
- Lisa Wood, Dale Bumpers College of Agricultural, Food and Life Sciences
- Molly Jensen, Department of Marketing, Sam M. Walton College of Business
- Veronica Mobley, Office of Study Abroad
- Chelsea Hodge and Katie Wilson, Honors College
- Angela M. Doss, School of Law
- Lora Lennertz, University Libraries
- Lori Holyfield and Jack Kern, Teaching and Faculty Support Center

Undergraduate Faculty

Faculty and instructional staff are listed in alphabetical order. The first date after the listing of each name indicates the year of first appointment at the University of Arkansas; the second date indicates the year of appointment to present faculty rank. Where they coincide, only one date is given.

A

Abrahams, Daniel, Ph.D. (Oakland University), M.M. (University of Nebraska at Omaha), B.M.E. (Temple University), Assistant Professor, Department of Music, 2016.

Ackerson, Michael D., Ph.D. (University of Arkansas), M.S.Ch.E., B.S.Ch.E. (University of Missouri-Rolla), Associate Professor, Ralph E. Martin Department of Chemical Engineering, 1986.

Acree, Cash, Ph.D., M.B.A. (University of Arkansas), B.A. (University of Arkansas at Little Rock), Clinical Assistant Professor, Department of Finance, 2013.

Adam, Thomas, Ph.D., M.A. (University of Leipzig), Associate Professor, Department of Political Science, 2020.

Adams, Douglas James, Ph.D., M.A. (University of Arizona), Associate Professor, Department of Sociology and Criminology, 1995.

Adams, Justin J., Ph.D. (University of South Carolina, M.Ed., B.A. (Winthrop University), Assistant Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2018.

Adams, Paul D., Ph.D. (Case Western Reserve University), B.S. (Louisiana State University), Associate Professor, Department of Chemistry and Biochemistry, 2006.

Adler, Jacob, Ph.D., A.B. (Harvard University), Associate Professor, Department of Philosophy, 1984.

Agana, Carol E., M.N.Sc. (University of Arkansas for Medical Sciences), B.S.E. (University of Arkansas), Instructor, Eleanor Mann School of Nursing, 1998.

Ahrendsen, Bruce L., Ph.D., M.S. (North Carolina State University), B.S. (Iowa State University), Professor, Department of Agricultural Economics and Agribusiness, 1990.

Akeroyd, John R., Ph.D., M.A. (Indiana University at Bloomington), B.A. (University of Louisville), Professor, Department of Mathematical Sciences, 1986.

Al Faouri, Radwan A., Ph.D. (University of Arkansas), Research Assistant Professor, Nanotechnology, 2015.

Alam, M. Sarwar, Ph.D. (University of Arkansas), M.S. (Pittsburg State University), M.S. (University of Chittagong), Bangladesh, B.A. (University of Chittagong), Instructor, Middle East Studies, 2010.

Alescusan, Melanie, M.B.A. (John Brown University), Instructor, Department of Accounting, 2014.

Allbright, Sara, M.S.W (University of Arkansas), B.S. (John Brown University), Lecturer, School of Social Work, 2018.

Allee, Kristian, Ph.D., M.B.A. (Indiana University), B.S. (Brigham Young University), Associate Professor, Department of Accounting, 2016.

Allen, Bradley, Ph.D. (University of Texas at San Antonio), B.S. (Brigham Young University), Assistant Professor, Department of Marketing, 2017.

Allen, Jeremy L., D.M.A. (Cleveland Institute of Music), M.M. (University of Kentucky), B.S. (John Brown University), Lecturer, Department of Music, 2018.

Allen, Myria, Ph.D., M.A., B.A. (University of Kentucky), Professor, Department of Communication, 1993.

Allison, Kayla, M.A. (University of Arkansas), B.A. (Indiana University-Bloomington), Instructor, Department of Sociology and Criminology, 2020.

Allison, Neil T., Ph.D. (University of Florida), B.S. (Georgia College), Associate Professor, Department of Chemistry and Biochemistry, 1980.

Almenara, Erika, Ph.D. (University of Michigan), M.A. (University of Wisconsin-Milwaukee), B.A. (Feminine University of the Sacred Heart), Assistant Professor, Department of World Languages, Literatures and Cultures, 2015.

Almodovar Montanez, Jorge L., Ph.D. (Colorado State University), Assistant Professor, Ralph E. Martin Department of Chemical Engineering, 2018.

Aloia, Lindsey S., Ph.D. (Pennsylvania State University), M.A. (University of Delaware), B.A. (College of New Jersey), Associate Professor, Department of Communication, 2017.

Aloysius, John, Ph.D. (Temple University), B.S. (University of Colombo, Sri Lanka), Professor, Department of Supply Chain Management, 1995.

Alrubaye, Adnan A., Ph.D., M.Ed. (University of Arkansas), M.Sc. (University of Baghdad), Research Assistant Professor, Department of Poultry Science, Department of Biological Sciences, 2013.

Altom, Carol, M.B.A. (San Diego State University), B.S. (United States Naval Academy), Instructor, Operations Management Program, 2012.

Alverson, Andrew James, Ph.D. (University of Texas at Austin), M.S. (Iowa State University), B.S. (Grand Valley State University), Associate Professor, Department of Biological Sciences, 2012.
Alwood, Nancy D., Ph.D., M.S. (University of Arkansas), Instructor, Department of Psychological Science, 2012.
Aly, Mohamed H., Ph.D. (Texas A&M), M.S., B.S. (Zagazig University), Assistant Professor, Department of Geosciences, 2013.
Amason, Trisha, Ph.D. (Purdue University), M.A. (University of Kentucky), B.S.E. (University of Arkansas), Associate Professor, Department of Communication, 1994.
Anand, Abhijith, Ph.D. (University of Waikato), M.S. (University of Wollongong), B.E. (K.S. Institute of Technology), Assistant Professor, Department of Information Systems, 2017.
Anand, Vikas, Ph.D. (Arizona State University), M.B.A. (Indian Institute of Foreign Trade), M.Sc. (Birla Institute of Technology), Professor, Department of Management, 1999.
Anderson, John D., Ph.D. (Oklahoma State University), M.S. (Arkansas State University), B.S. (College of the Ozarks), Professor, Department of Agricultural Economics and Agribusiness, 2020.
Anderson, Paula, M.S., B.S. (University of Arkansas), Instructor, Department of Geosciences, 2014.
Andree, David, M.F.A. (State University of New York), B.F.A. (Minneapolis College of Art and Design), Assistant Professor, School of Art, 2015.
Andree, Kara M., M.F.A. (State University of New York at Buffalo), B.F.A. (Minneapolis College of Art and Design), Instructor, School of Art, 2016.
Andrews, David, Ph.D. (Syracuse University), M.S., B.S.E.E. (University of Missouri-Columbia), Professor, Department of Computer Science and Computer Engineering, 2008.
Ang, Simon S., Ph.D. (Southern Methodist University), M.S.E.E. (Georgia Institute of Technology), B.S.E.E. (University of Arkansas), Professor, Department of Electrical Engineering, 1988.
Angel, Christopher C., M.A. (University of Arkansas), B.A. (Arkansas Tech University), Instructor, Middle East Studies, 2015.
Antov, Nikolay Atanasov, Ph.D. (University of Chicago), M.A. (Bilkent University, Turkey), B.A. (American University in Bulgaria), Associate Professor, Department of History, 2011.
Apple, Laurie Marie McAllister, Ph.D. (Oklahoma State University), M.S., B.S. (University of Arkansas), Associate Professor, School of Human Environmental Sciences, 2000.
Arellano, Betina, M.A. (University of Arkansas), B.A. (Universidad Nacional del Sur, Argentina), Instructor, Department of World Languages, Literatures and Cultures, 2016.
Arenberg, Nancy M., Ph.D. (University of Arizona), M.A. (University of Illinois, Champaign-Urbana), B.A. (Grinnell College), Associate Professor, Department of World Languages, Literatures and Cultures, 1996.
Arnold, Mark E., Ph.D., B.S. (Northern Illinois University), A.S. (Rock Valley College), Associate Professor, Department of Mathematical Sciences, 1993.
Ashour, Samad, Ph.D. (University of Texas at Arlington), M.B.A. (Tanta University), B.S.B.A. (Tanta University), Clinical Assistant Professor, Department of Finance, 2017.
Ashton, Dub, Ph.D. (University of Georgia), M.B.A., B.S.B.A. (Memphis State University), Associate Professor, Department of Marketing, 1981.
Aslin, Larry W., M.A., B.A. (University of Missouri-Columbia), Instructor, Department of Rehabilitation, Human Resource and Communication Disorders, 1975.
Atungulu, Griffiths Odhiambo, Ph.D., M.S. (Iwate University, Japan), B.S. (Jomo Kenyatta University of Agriculture and Technology, Kenya), Associate Professor, Department of Food Science, 2013.

Banton, Caree A., Ph.D. (Vanderbilt University), M.A. (University of Ghana), M.A. (University of New Orleans), B.A./B.P.A. (Gambling State University), Associate Professor, Department of History, 2013.
Baptist, Najja K., Ph.D. (Howard University), M.A. (Jackson State University), B.A. (North Carolina Central University), Assistant Professor, Department of Political Science, 2020.
Baranello, Micaela, Ph.D., M.A. (Princeton University), B.A. (Swarthmore College), Assistant Professor, Department of Music, 2017.
Barber, Thomas, Ph.D., M.S., B.S. (University of Arkansas), Professor, Department of Crop, Soil and Environmental Sciences, 2007.
Barnett, Tracey, PhD. (University of Texas at Arlington), M.S.W. (University of Alabama), Assistant Professor, School of Social Work, 2018.
Barnum, Anthony Justin, Ph.D. (Howard University), M.A. (University of Arkansas), B.A. (Hendrix College), Visiting Assistant Professor, Department of Sociology and Criminology, 2016.
Barraza-Lopez, Salvador, Ph.D. (University of Illinois-Urbana-Champaign), B.S. (Instituto Politecnico Nacional de Mexico), Associate Professor, Department of Physics, 2011.
Barrett, David A., Ph.D., M.A. (University of Arkansas), B.A. (Hendrix College), Instructor, Department of Philosophy, 2006.
Barta, Kathleen M., Ed.D. (University of Arkansas), M.S. (Boston College), B.S. (Marquette University), Associate Professor, 1984.

Barth, Daniel, Ph.D., M.A. (Claremont Graduate University), B.S. (Eureka College), Assistant Professor, Department of Curriculum and Instruction, 2014.

Barton, Ariel, Ph.D., M.S. (University of Chicago), B.S. (Harvey Mudd College), Assistant Professor, Department of Mathematical Sciences, 2016.

Bateman, Nick, Ph.D. (Mississippi State University), B.S. (University of Arkansas-Monticello), Assistant Professor, Department of Entomology and Plant Pathology, 2016.

Baum, Jamie I., Ph.D., B.S. (University of Illinois-Urbana-Champaign), Associate Professor, Department of Food Science, 2011.

Bavon, Al, Ph.D., M.S. (Florida State University), Professor, Clinton School of Public Service, 2008.

Bayram, A. Burcu, Ph.D. (Ohio State University), M.S. (North Carolina State University), B.A. (Middle East Technical University), Assistant Professor, Department of Political Science, 2016.

Beam, Caroline, Ph.D., M.S. (University of California), B.S. (Princeton University), Teaching Assistant Professor, Operations Management Program, 2013.

Beard, Lonnie Ray, LL.M. (New York University), J.D. (University of Arkansas), B.A. (Arkansas State University), Professor, School of Law, 1983.

Beasley, Jennifer G., Ed.D. (University of Virginia), M.A. (Wichita State University), B.A. (Kansas State University), Clinical Associate Professor, Department of Curriculum and Instruction, 2009.

Beauchemin, Faythe, Ph.D. (Ohio State University), M.Ed. (Boston College), B.S. (Lesley University), Associate Professor, Department of Curriculum and Instruction, 2019.

Beaulieu, Jeremy M., Ph.D. (Yale University), M.S., B.S. (California Polytechnic State University), Assistant Professor, Department of Biological Sciences, 2016.

Beaupre, Andrew, Ph.D. (William and Mary), Research Assistant Professor, Department of Anthropology, 2019.

Beaupre, Steven J., Ph.D. (University of Pennsylvania), M.S., B.S. (University of Wisconsin), Professor, Department of Biological Sciences, 1995.

Bechtel, Don, B.A. (Lebanon Valley College), Instructor, Department of Supply Chain Management, 2006.

Beck, Dennis E., Ph.D. (University of Florida), B.S. (Pennsylvania State University), Associate Professor, Department of Curriculum and Instruction, 2010.

Becknell, Natalie K., M.S.C.E., B.S.C.E. (University of Arkansas), Instructor, Department of Civil Engineering, 2012.

Becnel, Jennifer N., Ph.D. (Arizona State University), M.A. (University of California-San Francisco), B.A. (San Diego State University), Assistant Professor, School of Human Environmental Sciences, 2014.

Behrend, Douglas A., Ph.D. (University of Minnesota), B.A. (Kalamazoo College), Professor, Department of Psychological Science, 1989.

Beike, Denise R., Ph.D., B.A. (Indiana University), Professor, Department of Psychological Science, 1995.

Beitle, Robert R., Ph.D., M.S.Ch.E., B.S.Ch.E. (University of Pittsburgh), Professor, Ralph E. Martin Department of Chemical Engineering, 1993.

Bell, Carmen V., Ed.D. (Indiana Wesleyan University), Clinical Instructor, Department of Curriculum and Instruction, 2015.

Bell, Kathryn M., Ph.D. (University of Pittsburgh), Lecturer, Department of Curriculum and Instruction, 2019.

Bell, Steven M., Ph.D. (University of Kansas), M.A. (University of Kentucky), B.A. (University of Kansas), Associate Professor, Department of World Languages, Literatures and Cultures, 1992.

Bellaiche, Laurent, Ph.D., M.S., B.S. (University of Paris VI, France), Distinguished Professor, Department of Physics, 1999.

Benamara, Mourad, Ph.D., M.S. (University of Toulouse III, France), Assistant Professor, Nanotechnology, 2007.

Bengtson, Ed, Ph.D. (University of Georgia), Ed.D. (George Washington University), M.A. (California State University-Sacramento), B.S. (Pennsylvania State University), Associate Professor, Department of Curriculum and Instruction, 2010.

Benton, Hilda Morayma, M.A. (University of Arkansas), B.A. (Foreign Institution), Instructor, Department of World Languages, Literatures and Cultures, 2009.

Bergman-Lanier, Leyah, Ph.D. (Claremont Graduate University), Instructor, English Language and Cultural Studies, 2014.

Berkovich, Nadja, Ph.D. (University of Illinois), B.A. (Boston College), B.A. (St. Petersburg Pedagogical Herzen University), Clinical Assistant Professor, Department of World Languages, Literatures and Cultures, 2015.

Bernhardt-Barry, Michelle, Ph.D., M.S.C.E., B.S.C.E. (Texas A&M University), Associate Professor, Department of Civil Engineering, 2013.

Bhattacharya, Puja, Ph.D., M.A. (Ohio State University), M.S. (Indian Statistical Institute), B.S. (Presidency College), Assistant Professor, Department of Economics, 2019.

Biehle, Scott, M.L.A. (University of Texas at Austin), B.A. (St. Olaf College), Clinical Assistant Professor, Department of Landscape Architecture, 2012.

Biggs, Bobbie T., Ph.D. (Texas A&M University), M.S., B.S. (University of Arkansas), Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 1979.

Billig, Noah Scott, Ph.D. (Clemson University), M.Ur.P., M.L.A., B.A. (University of Minnesota), Associate Professor, Department of Landscape Architecture, 2011.

Bills, Ken, Ph.D. (University of Oklahoma), M.A., B.A. (Southern Utah University), Associate Professor, Department of Accounting, 2015.

Bingham, D. James, M.B.A. (Northwestern University), B.S. (Brigham Young University), Instructor, Operations Management Program, 2013.

Blackwell, Marlon, M.Arch. (Syracuse University), B.Arch. (Auburn University), Distinguished Professor, Department of Architecture, 1992.

Blair, Alissa, Ph.D. (University of Wisconsin-Madison), M.E.D. (University of Notre Dame), B.A. (Saint Mary’s College), Assistant Professor, Department of Curriculum and Instruction, 2020.

Blalock, Lydia, Ph.D., M.S. B.G.S (Louisiana State University), Instructor, School of Human Environmental Sciences, 2016.

Blissard, Paul, Ed.D. (University of Arkansas), M.C., B.S., B.S. (Southwest Missouri State University), Clinical Assistant Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2014.

Bluhm, Burt H., Ph.D., M.S. (Purdue University), B.S. (University of Oklahoma), Associate Professor, Department of Entomology and Plant Pathology, 2008.

Boelkins, Jonathan, M.Arch. (Washington University in St. Louis), B.Arch. (University of Arkansas), Instructor, Department of Architecture, 2017.

Bonacci, Jeff, D.A. (Middle Tennessee State University), M.S. (West Virginia University), B.S. (University of Akron), Clinical Associate
Breen, Gina Marie, Ph.D. (Louisiana State University), M.A., B.A. (Southern Illinois University, Carbondale), Instructor, Department of World Languages, Literatures and Cultures, 2016.

Bresnick, Terry A., M.S. (Stanford University), M.B.A. (George Mason University), B.S. (United States Military Academy), Instructor, Operations Management Program, 2014.

Brewer, Dennis W., Ph.D., M.A. (University of Wisconsin), B.A. (Sterling College), Professor, Department of Mathematical Sciences, 1975.

Brewer, Lorraine C., M.S. (University of Wisconsin-Madison), Instructor, Department of Chemistry and Biochemistry, 1997.

Bridges, Ana Julia, Ph.D. (University of Rhode Island), M.S. (Illinois State University), B.S. (University of Illinois-Urbana-Champaign), Professor, Department of Psychological Science, 2007.

Bright, Brittany Michelle, M.I.S. (University of Arkansas), B.S. (University of Arkansas, Fort Smith), Instructor, Department of Information Systems, 2010.

Brill, Howard W., J.D. (University of Florida), LL.M. (University of Illinois at Chicago), B.A. (Duke University), University Professor, School of Law, 1975.

Brito, Edvan P., Ph.D., M.S. (Georgetown University), M.A. (Howard University), B.A. (Universidade de São Paulo, Brazil), Assistant Professor, Department of World Languages, Literatures and Cultures, 2016.

Brogi, Alessandro, Ph.D. (Ohio University), Ph.D. (University of Florence, Italy), M.A. (Ohio University), B.A. (University of Florence, Italy), Professor, Department of History, 2002.

Brown, Kendrick, Ph.D., (Jackson State University), M.S. ( Meharry Medical College), B.S. (Southern Illinois University), Instructor, Operations Management Program, 2017.

Brown, Lucy M., Ph.D., M.A. (University of Texas, Austin), M.S. (Pratt Institute), Dip.G.A. (Edna Manley School for the Visual Arts, Jamaica), Clinical Assistant Professor, School of Journalism and Strategic Media, 2013.

Brownback, Andrew P., Ph.D. (University of California, San Diego), B.A. (Kansas State University), Assistant Professor, Department of Economics, 2015.

Brubaker, Robert P., Ph.D. (University of Michigan-Ann Arbor), M.S. (University of Wisconsin-Milwaukee), B.A. (Grinnell College), Instructor, Department of History, 2009.

Bruce, David E., M.I.S. (University of Arkansas), Lecturer, Department of Information Systems, 1999.

Brye, Kristofor R., Ph.D., M.S. (University of Wisconsin-Madison), B.S. (University of Wisconsin–Stevens Point), University Professor, Department of Crop, Soil and Environmental Sciences, 2001.

Bryson, Sarah J., M.S.W. (Colorado State University), Lecturer, School of Social Work, 2014.

Buckley, Nancy, M.S., B.S. (University of Arkansas), Instructor, School of Environmental Sciences, 2014.

Buege, David, M.A. (Princeton University), Professor, Department of Architecture, 2009.

Burk, James, M.B.A. (Golden Gate University), B.S. (University of Arkansas), Instructor, Operations Management Program, 2012.

Burgin, Stephen, Ph.D., Ed.S., M.Ed., B.S. (University of Florida), Assistant Professor, Department of Curriculum and Instruction, 2014.
Burgos, Nilda Roma, Ph.D., M.S. (University of Arkansas), B.S. (Visayas State College of Agriculture-Philippines), Professor, Department of Crop, Soil and Environmental Sciences, 1998.

Burks, Lizette Anita, Ed.D. (University of Kansas), Instructor, Department of Curriculum and Instruction, 2019.

Burris, Sidney J., Ph.D., M.A. (University of Virginia), B.A. (Duke University), Professor, Department of English, 1986.

Burrow, Jason E., M.M. (Ohio University), B.M. (University of Arkansas), Assistant Professor, Department of Theatre, 2015.

Burson, Claudia, Lecturer, 1998.

Burton, Scot, Ph.D. (University of Houston), M.B.A., B.S.B.A. (University of Texas), Distinguished Professor, Department of Marketing, 1993.

Bustamante, Juan Jose, Ph.D. (Michigan State University), M.S., B.A. (University of Texas Pan American), Associate Professor, Department of Sociology and Criminology, 2012.

Butcher, Margaret, Ph.D. (University of Missouri), M.A., B.S. (Arkansas State University), Teaching Assistant Professor, Department of Communication, 2015.

Butler, Kaitlyn, M.A., B.A. (University of Arkansas), Instructor, Department of World Languages, Literatures and Cultures, 2017.

Butts, Thomas R., Ph.D. (University of Nebraska-Lincoln), Assistant Professor, Department of Crop, Soil and Environmental Sciences, 2019.

Byrd, Stefani, M.F.A. (University of California, San Diego), Visiting Assistant Professor, School of Art, 2019.

Calabretta-Sajder, Ryan C., Ph.D. (Middlebury College), M.A. (Indiana University-Bloomington), B.A. (Dominican University), Assistant Professor, Department of World Languages, Literatures and Cultures, 2013.

Caldwell, David J., Ph.D., M.S., and B.S. (Texas A&M University), Professor, Department of Poultry Science, 2019.

Caldwell, Stephen E., D.M.A. (Rutgers State University-New Brunswick), M.M. (Temple University), B.M.E. (University of Northern Colorado), Assistant Professor, Department of Music, 2012.

Callander, Adrienne, M.F.A. (Rutgers University), B.A. (Reed College), Visiting Assistant Professor, School of Art, 2017.

Callander, Neil, M.F.A. (Rutgers University), B.F.A. (Indiana University at Bloomington), Assistant Professor, School of Art, 2017.

Calleja, Paul C., Ph.D., M.S. (University of Arkansas), B.S. (San Jose State University), Clinical Professor, Department of Health, Human Performance and Recreation, 2003.

Camargo, Elsa, Ph.D. (Virginia Polytechnic Institute and State University), M.A. (University of Illinois at Chicago), Assistant Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2018.

Candido, Joseph D., Ph.D. (Indiana University at Bloomington), M.A. (University of New Hampshire), B.A. (Colby College), Professor, Department of English, 1979.

Cao, Chunhua, Ph.D. (University of South Florida-Tampa), Teaching Assistant Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2019.

Cao, Yube, Ph.D. (South Dakota State University), Research Assistant Professor, Ralph E. Martin Department of Chemical Engineering, 2019.

Carpenter, Dale, M.A. (Emory University), B.A. (Vanderbilt University), Professor, School of Journalism and Strategic Media, 1994.

Carter, Vinson R., Ph.D., M.A.T., B.S. (University of Arkansas), Associate Professor, Department of Curriculum and Instruction, 2008.

Cartwright, Richard D., Ph.D. (University of California at Davis), M.S., B.S. (University of Arkansas), Extension Professor, Department of Entomology and Plant Pathology, 1993.

Cassady, Richard, Ph.D., M.S.I.S.E., B.S.I.S.E. (Virginia Polytechnic Institute and State University), University Professor, Department of Industrial Engineering, 2000.

Cassell, Cory A., Ph.D. (Texas A&M University), M.S., B.S. (Trinity University), Associate Professor, Department of Accounting, 2009.

Cassiano Alvarez, Renata, M.F.A. (University of Massachusetts-Dartmouth), Instructor, School of Art, 2019.

Castro Salas, Raquel, M.A. (University of Arkansas), B.A. (John Brown University), Instructor, Department of World Languages, Literatures and Cultures, 2014.

Catanzaro, Donald G., Ph.D. (University of Arkansas), A.B. (University of California, Los Angeles), Research Assistant Professor, Department of Biological Sciences, 2014.

Cato, Aaron J., Ph.D. (University of Arkansas), M.S. (Kansas State University), B.S. (Arkansas State University), Assistant Professor, Department of Horticulture, 2019.

Catron-Ping, Peggy Lee, Ed.D. (University of Arkansas), M.A. (Missouri State University), Instructor, Department of Communication, 2004.

Cavell, Timothy A., Ph.D. (Louisiana State University), M.S. (Texas A&M University), B.A. (Louisiana State University), Professor, Department of Psychological Science, 2002.

Cawthon, W. Michael, M.S. (University of Chicago), Lecturer, Department of Economics, 2019.

Ceballos, Ruben M., Ph.D. (University of Montana), M.A. (University of Alabama-Birmingham), B.S. (University of Alabama-Huntsville), Assistant Professor, Department of Biological Sciences, 2016.

Chaffin, David J., Ph.D. (University of Tennessee), Assistant Professor, High-Performance Computing Center, 2009.

Chakraborty, Avishek, Ph.D. (Duke University), M.S., B.S. (Indian Statistical Institute), Assistant Professor, Department of Mathematical Sciences, 2014.

Chapman, Kate M., Ph.D., M.S. (Penn State University), B.A. (New Florida College), Teaching Assistant Professor, Department of Psychological Science, 2016.

Chen, Jiale, Ph.D. (Cornell University), B.A. (Shanghai University of Finance and Economics), Assistant Professor, Department of Marketing, 2018.

Chen, Jingyi, Ph.D. (University of Washington), M.A. (State University College at Buffalo), B.S. (Zhongshan University), Professor, Department of Chemistry and Biochemistry, 2010.

Chen, Yue, Ph.D. (Vanderbilt University), M.S. (Hong Kong Polytechnic University), B.S. (Hunan University), Assistant Professor, Department of Mechanical Engineering, 2017.

Chen, Zhong, Ph.D. (North Carolina State University), M.Eng. (National University of Singapore), B.S. (Zhejiang University), Assistant Professor, Department of Electrical Engineering, 2015.

Cheng, Albert, Ph.D. (University of Arkansas), M.A. (Biola University), B.A. (University of California-Berkeley), Assistant Professor, Department of Education Reform, 2018.

Cheng, Linyin, Ph.D. (University of California, Irvine), M.S. (Clarkson University), B.S. (Sichuan University), Assistant Professor, Department of Geosciences, 2018.

Cheramie, Lance M., Ph.D., M.S. (University of Arkansas), B.S. (Nicholls State University), Instructor, School of Human Environmental Sciences, 2002.

Chevrier, Vincent Francois, Ph.D. (CEREGE, Aix-en-Provence, France), M.E.S. (University Paris VII), B.S. (Academy of Versaille, France), Research Associate Professor, Department of Chemistry and Biochemistry, 2005.
Chick, Cathy, M.L.S. (Louisiana State University at Shreveport), B.A. (Louisiana Tech University), Associate Librarian, University Libraries, 1983.

Chimka, Justin Robert, Ph.D., M.S.I.E., B.S.I.E. (University of Pittsburgh), Associate Professor, Department of Industrial Engineering, 2002.

Chioffi, David Charles, M.A. (Wesleyan University), B.F.A. (The Rochester Institute of Technology), Professor, School of Art, 2013.

Cho, Eunjoo, B.A. (University of Chicago), Lecturer, Department of World Languages, Literatures and Cultures, 1990.

Christy, Kameri, Ph.D., M.S.W. (University of Kansas), Assistant Professor, School of Social Work, 2003.

Chung, Jee-Young, Ph.D. (University of Missouri-Kansas City), Professor, School of Architecture, 2011.

Clay, Matt, Ph.D. (University of North Carolina, Chapel Hill), B.A. (The Ohio State University), Distinguished Professor, School of Environmental Engineering and Science, 1997.

Colangelo, Jessica L., M.Arch. (Princeton University), B.Arch. (Rice University), Assistant Professor, Department of Architecture, 2018.

Coleman, James S., Ph.D., M.S., M.Phil (Yale University), B.S. (University of Maine), Professor, Department of Biological Sciences, 2017.

Collet, Vicki S., Ph.D. (State University of New York at Buffalo), M.A. (University of Northern Colorado), B.A. (University of Utah), Associate Professor, Department of Curriculum and Instruction, 2012.

Collie, Sara J., M.S.W. (University of Arkansas at Little Rock), B.A. (University of Arkansas), Associate Professor, School of Social Work, 2011.

Collins, Jamie, Ph.D. (University of New Mexico-Albuquerque), Instructor, Department of Curriculum and Instruction, 2019.

Collins, Kathleen, Ph.D., M.A., B.A. (University of California-Santa Barbara), Professor, Department of Curriculum and Instruction, 2002.

Comfort, Kathy, Ph.D. (University of Kansas), M.A., B.A. (Illinois State University), Associate Professor, Department of World Languages, Literatures and Cultures, 2001.

Condray, Kathleen, Ph.D., M.A. (University of Illinois-Urbana-Champaign), B.A. (University of Arkansas), Associate Professor, Department of World Languages, Literatures and Cultures, 1999.

Conway, Daniel, Ph.D. (Indiana University), Teaching Professor, Department of Information Systems, .

Coon, Craig N., Ph.D., M.S., B.S. (Texas A&M University), Professor, Department of Poultry Science, 1997.

Coon, Lynda L., Ph.D., M.A. (University of Virginia), B.A. (James Madison University), Professor, Department of History, 1990.

Corbett, Benjamin, M.F.A. (University of Pittsburgh), B.A. (University of Dallas), Assistant Professor, Department of Theatre, 2019.

Coridan, Robert, Ph.D., M.S. (University of Illinois-Urbana-Champaign), B.S. (The Ohio State University), Assistant Professor, Department of Chemistry and Biochemistry, 2015.

Correll, Jim, Ph.D., M.S. (University of California-Berkeley), B.S. (Pennsylvania State University), Distinguished Professor, Department of Entomology and Plant Pathology, 1989.

Corrigan, Lisa, Ph.D., M.A. (University of Maryland-College Park), B.A. (University of Pittsburgh), Professor, Department of Communication, 2007.

Costello, Thomas A., Ph.D. (Louisiana State University), M.S.Ag.E., B.S.Ag.E. (University of Missouri-Columbia), Associate Professor, Department of Biological and Agricultural Engineering, 1986.

Coston, Corey, M.A., B.S.B.A. (University of Arkansas), Instructor, Department of Accounting, 2010.

Costrell, Robert M., Ph.D. (Harvard University), B.A. (University of Michigan), Professor, Department of Education Reform, 2006.

Cothren, Jackson David, Ph.D., M.S. (The Ohio State University), B.S. (United States Air Force Academy), Associate Professor, Department of Geosciences, 2004.
Council, Julie, M.S.W (University of Arkansas at Little Rock), B.A. (University of Arkansas), Lecturer, School of Social Work, 2012.

Couvillion, Rick J., Ph.D., M.S.M.E. (Georgia Institute of Technology), B.S.M.E. (University of Arkansas), Associate Professor, Department of Mechanical Engineering, 1981.

Covey, Joe, M.A., B.A. (University of Arkansas), Instructor, Department of World Languages, Literatures and Cultures, 2015.

Covington, Matthew D., Ph.D. (University of California-Santa Cruz), B.A. (University of Arkansas), Associate Professor, Department of Geosciences, 2012.

Cox, Casandra Kay, M.S., B.S. (University of Arkansas), Instructor, Department of Agricultural Education, Communications and Technology, 2003.

Cox, Nicole R., M.B.A. (University of Arkansas), B.S. (College of the Ozarks), Instructor, Department of Marketing, 2003.

Crandall, Philip G., Ph.D., M.S. (Purdue University), B.S. (Kansas State University), Professor, Department of Food Science, 1989.

Crawford, Corey, J.D. (University of Arkansas), Lecturer, Department of Political Science, 2019.

Crawley, Michael, Ph.D. (University of Texas at Austin), M.B.A., B.S. (Indiana University), Assistant Professor, Department of Accounting, 2016.

Crimmins, Thomas D., M.O.A.S. (Air Command and Staff College), Instructor, Operations Management Program, 2019.

Cronan, Timothy P., Ph.D. (Louisiana Tech University), M.S. (South Dakota State University), B.S. (University of Southwestern Louisiana), Professor, Department of Information Systems, 1979.

Culhane, Michelle, M.A. (New York University), B.S. (University of Louisiana, Instructor, Department of Theatre, 2018.

Cummings, Michael, Ph.D. (University of Minnesota), J.D. and M.P.A. (Brigham Young University), B.S. (Utah Valley), Assistant Professor, Department of Management, 2017.

D

D’Alisera, JoAnn, Ph.D., A.M. (University of Illinois-Urbana-Champaign), B.A. (State University of New York at New Paltz), Associate Professor, Department of Anthropology, 1999.

D’Eugenio, Daniela, Ph.D. (City University of New York), M.A. (University of Padua), M.A. (University of Florence), B.A. (University of Chieti), Assistant Professor, Department of World Languages, Literatures and Cultures, 2020.

Daily, Cynthia, D.B.A. (Louisiana Tech University), M.B.A., B.B.A. (Henderson State University), Clinical Associate Professor, Department of Accounting, 2016.

Daniels, Donna E., M.L.S., B.A. (Western Michigan University), Associate Librarian, University Libraries, 1982.

Daniels, Michael B., Ph.D., M.S. (University of Arkansas), B.S. (Pennsylvania State University), Professor, Department of Crop, Soil and Environmental Sciences, 1996.

Datta, Jyotishka, Ph.D. (Purdue University), M.Stat., B.Stat. (Indian Statistical Institute, Kolkata, India), Assistant Professor, Department of Mathematical Sciences, 2016.

Daugherty, Michael, Ed.D., M.S., B.S. (Oklahoma State University), Professor, Department of Curriculum and Instruction, 2005.

Davidson, Fiona M., Ph.D., M.A. (University of Nebraska-Lincoln), B.A. (Newcastle Upon Tyne Polytechnic), Associate Professor, Department of Geosciences, 1992.

Davies, David G., M.P.A., B.A. (University of Arkansas), Associate Professor, Vice Provost for Student Affairs, 2010.
Dickson, Ernestine, M.S.W. (Florida State University), B.S.W. (University of Florida), Lecturer, School of Social Work, 2020.

Dickson, Ryan W., Ph.D., B.S. (University of Florida), Assistant Professor, 2018.

Dieffenderfer, Vicki, Ph.D., M.S., B.S. (University of Tennessee), Clinical Assistant Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2015.

Dingman, Shannon Wayne, Ph.D., M.S. (University of Missouri-Columbia), M.S. (Pittsburg State University), Associate Professor, Department of Mathematical Sciences, 2007.

DiPippa, Nikolai Shiro, B.S. (Hendrix College), Instructor, Clinton School of Public Service, 2006.

Dittmore, Stephen W., Ph.D. (University of Louisville), M.A., B.A. (Drake University), Professor, Department of Health, Human Performance and Recreation, 2008.

Ditzfeld, Christopher, M.S. (University of Oklahoma), Instructor, Department of Psychological Science, 2011.

Dix, Jeffrey, Ph.D., M.S., B.S.E.E., (University of Tennessee, Knoxville), Assistant Professor, Department of Electrical Engineering, 2018.

Dixon, Bruce Lawrence, Ph.D., M.S. (University of California-Davis), B.A. (University of California-Santa Barbara), Professor, Department of Agricultural Economics and Agribusiness, 1984.

Dobbs, Page, Ph.D., M.S., B.S. (University of Arkansas), Assistant Professor, Department of Health, Human Performance and Recreation, 2020.

Dobrzynowski, David, Ph.D. (University of Toledo), Associate Professor, Department of Supply Chain Management, 2019.

Dominick, John Andrew, Ph.D., M.S. (University of Alabama), B.S.B.A. (Louisiana Polytechnic Institute), Professor, Department of Finance, 1970.

Dominguez, Freddy C., Ph.D., M.A. (Princeton University), B.A. (Brown University), Assistant Professor, Department of History, 2014.

Donohue, Annie, Ph.D. (F. Edward Herbert School of Medicine), M.S. (Texas A&M University), B.S. (San Diego State University), Research Professor, Department of Poultry Science, 2000.

Dopp, Alex R., Ph.D., M.A. (University of Missouri), B.A. (University of Michigan), Assistant Professor, Department of Psychological Science, 2016.

Dorjee, Thupten, Ph.D. (Foreign Institution), Instructor, Humanities, 2008.

Dorogan, Vitaliy, Ph.D. (University of Arkansas), Assistant Professor, Nanotechnology, 2011.

Doucet, Annie, Ph.D., M.A. (Tulane University), B.A. (Southeastern Louisiana University), Assistant Professor, Department of World Languages, Literatures and Cultures, 2020.

Dougals, David, Ph.D., M.S.I.E., B.S.I.E. (University of Arkansas), University Professor, Department of Information Systems, 1975.

Douglas, Marlis R., Ph.D., M.S., B.S. (University of Zurich), Professor, Department of Biological Sciences, 2012.

Douglas, Michael Edward, Ph.D. (University of Georgia), M.S., B.S. (University of Louisville), Professor, Department of Biological Sciences, 2011.

Dowdle, Andrew J., Ph.D. (Miami University), M.A. (University of Iowa), B.A. (University of Tennessee), Professor, Department of Political Science, 2003.

Dowdy, Gary, M.B.A. (Purdue University), B.S. (University of Arkansas), Instructor, Department of Management, 2014.

Dowling, Ashley Patrick Gregg, Ph.D. (University of Michigan-Ann Arbor), B.S. (University of Arizona), Professor, Department of Entomology and Plant Pathology, 2008.

Doyle, Allen P., Ph.D. (Princeton University), Visiting Assistant Professor, School of Art, 2019.

Drawve, Grant R., Ph.D. (University of Arkansas at Little Rock), M.A., B.A. (Southern Illinois University), Assistant Professor, Department of Sociology and Criminology, 2016.

Dridi, Sami, Ph.D., M.S. (National Polytechnic Institute of Lorraine, France), B.S. (Superior Institute of Mateur, Tunisia), Professor, Department of Poultry Science, 2013.

Driver, Nelson G., B.S. (University of Arkansas), Instructor, Department of Finance, 1997.

Drolen, Rebecca, M.F.A., B.A. (Indiana University, Bloomington), Assistant Professor, School of Art, 2015.

Du, Yuchun, Ph.D. (Kagoshima University, Japan), B.S. (Shaanxi University of Technology, China), Associate Professor, Department of Biological Sciences, 2007.

Dumond, Gregory, Ph.D. (University of Massachusetts), M.S. (Texas Tech University), B.S. (University of Texas El Paso), Associate Professor, Department of Geosciences, 2010.

Dunavant, Kristen, M.S.W. (Augustus College), B.S.W. (St. Olaf College), Lecturer, School of Social Work, 2017.

Dunbar, Diana, M.S.N. (University of Central Arkansas), B.S.N. (University of Central Oklahoma), Instructor, Eleanor Mann School of Nursing, 2015.

Duncan, Jamal, D.M.A., B.M. (University of Michigan), Instructor, Department of Music, 2013.

Duncan, James M., Ph.D. (Florida State University), M.S. (University of Arkansas), Instructor, School of Human Environmental Sciences, 2017.

Durand-Morat, Alvaro, Ph.D., M.S. (University of Arkansas), B.S.E. (National University of Entre Rios), Assistant Professor, Department of Agricultural Economics and Agribusiness, 2016.

DuRant, Sarah Elizabeth, Ph.D. (Virginia Polytechnic Institute and State University), B.S. (University of South Carolina), Assistant Professor, Department of Biological Sciences, 2017.

Durlik, Jeannine M., Ph.D. (Johns Hopkins University), B.S. (Purdue University), Professor, Department of Biological Sciences, 1994.

Dwyer, Mavourneen, M.F.A. (University of Texas at Austin), B.A. (University of Montreal), Instructor, Department of Theatre, 1998.

Diaz Montemayor, Gabriel, M.L.A. (Auburn University), B.Arch. (Universidad Autónoma de Chihuahua), Assistant Professor, Department of Landscape Architecture, 2019.

E

Edmonston, Craig, M.S. (University of Kansas), B.S. (Kansas State University), Instructor, Department of Health, Human Performance and Recreation, 2016.

Edwards, Findlay, Ph.D. (New Mexico State University), M.S. (University of New Mexico), M.S.C.E. (New Mexico State University), Associate Professor, Department of Civil Engineering, 1999.

Egan, Martin J., Ph.D., B.Sc. (University of Exeter, United Kingdom), Assistant Professor, Department of Entomology and Plant Pathology, 2016.

Ehrhardt, Joseph, M.I.S. (University of Arkansas), Instructor, Department of Information Systems, 2014.

Eichler, Jeanne, Ed.D. (St. Louis University), Assistant Professor, Department of Occupational Therapy, 2019.
Eidelman, Scott H., Ph.D. (University of Kansas), B.A. (University of Wisconsin-Madison), Associate Professor, Department of Psychological Science, 2008.

eillers, Linda Hale, Ph.D. (Louisiana State University at Shreveport), M.Ed., B.S.E. (University of Arkansas at Little Rock), Clinical Associate Professor, Department of Curriculum and Instruction, 2001.

Eksioglu, Burak, Ph.D. (University of Florida), M.S.E.B.M. (University of Warwick), B.S.I.E. (Bogazici University), Professor, Department of Industrial Engineering, 2019.

Eksioglu, Sandra, Ph.D. (University of Florida), M.S.E.M.S. (Mediterranean Agronomic Institute of Chania), B.S.B.A. (University of Tirana), Professor, Department of Industrial Engineering, 2001.

El-Ghazaly, Samir M., Ph.D. (University of Texas at Austin), M.S., B.S. (Cairo University), Distinguished Professor, Department of Electrical Engineering, 2007.

El-Shenawee, Magda O., Ph.D. (University of Nebraska-Lincoln), M.S., B.S. (Assiu University, Egypt), Professor, Department of Electrical Engineering, 2001.

Elbin, R. J., Ph.D. (Michigan State University), M.A., B.A. (University of New Orleans), Associate Professor, Department of Health, Human Performance and Recreation, 2013.

Elkin, Daniel, M.A., B.A. (University of San Diego), Instructor, Department of History, 2018.

Elliot, Jonathan, M.S.W. (University of Texas at Austin), B.S.W. (University of Alabama), Lecturer, School of Social Work, 2019.

Ellstrand, Alan E., Ph.D. (Indiana University at Bloomington), M.B.A. (North Illinois University), B.S. (University of Illinois-Urbana), Professor, Department of Management, 2000.

Elssaadany, Mostafa, Ph.D. (University of Toledo), Teaching Assistant Professor, Department of Biomedical Engineering, 2019.

Elsass, Angela Carlton, Ed.D., Ed.S. (University of Arkansas), M.Ed. (Harding University), B.S.E. (University of Central Arkansas), Clinical Associate Professor, Department of Curriculum and Instruction, 2010.

Embaye, Abel, Ph.D. (Georgia State University), M.A. (Tilburg University), B.A. (University of Asmara), Clinical Assistant Professor, Department of Economics, 2010.

Emory, DeAnna Jan, Ph.D. (University of Arkansas), M.S., B.S.N. (University of Oklahoma Health Sciences Center), Associate Professor, Eleanor Mann School of Nursing, 2012.

Endacott, Jason L., Ph.D., M.S. (University of Kansas), B.S. (Kansas State University), Associate Professor, Department of Curriculum and Instruction, 2011.

Engen, Mindy Sue, Ph.D., M.A. (Pennsylvania State University), B.S. (Georgia State University), Professor, Department of Sociology and Criminology, 2005.

Engen, Rodney L., Ph.D. (University of Washington), M.S., B.S. (University of Wisconsin-Milwaukee), Associate Professor, Department of Sociology and Criminology, 2009.

English, John R., Ph.D. (Oklahoma State University) P.E., M.S.O.R., B.S.E.E. (University of Arkansas), Professor, Department of Industrial Engineering, 1991.

Erdman, Kimball Douglas, M.L.A. (University of Oregon), B.L.A. (Utah State University), Associate Professor, Department of Landscape Architecture, 2009.

Erf, Gisela F., Ph.D. (Cornell University), M.S., B.S. (University of Guelph, Canada), Professor, Department of Poultry Science, 1994.

Ericsson, Kirstin C., Ph.D., M.A. (University of Wisconsin-Madison), B.A. (St. Olaf College), Associate Professor, Department of Anthropology, 2001.

Eschitch, Paolo, M.M. (Brooklyn College), Lecturer, Department of Music, 2012.

Esper, Terry L., Ph.D., M.B.A. (University of Arkansas), B.A. (Phillander Smith College), Associate Professor, Department of Supply Chain Management, 2013.

Espinoza, Leonel A., Ph.D., M.S. (University of Florida), B.S. (Iowa State University), Associate Professor, Department of Crop, Soil and Environmental Sciences, 2003.

Estepp, Chris, Ph.D. (University of Florida), M.Ed., B.S. (Texas A&M University), Associate Professor, 2019.

Este, Hanna, M.S., B.S. (University of Arkansas), Instructor, Department of Agricultural Education, Communications and Technology, 2014.

Etges, William J., Ph.D. (University of Rochester), M.S. (University of Georgia), B.S. (North Carolina State University), Professor, Department of Biological Sciences, 1987.

Evans, Timothy A., Ph.D. (Indiana University), B.S. (Slippery Rock University), Associate Professor, Department of Biological Sciences, 2013.

Evans-White, Michelle Allayne, Ph.D. (University of Notre Dame), M.S., B.S. (Kansas State University), Professor, Department of Biological Sciences, 2008.

Ewelukwa, Uche U., S.J.D., LL.M. (Harvard University), LL.M. (University College, London), J.D. equivalent (University of Nigeria), Professor, School of Law, 2001.

F

Fairey, Julian, Ph.D., M.S.C.E. (University of Texas at Austin), B.S.C.E. (University of Alberta, Canada), Associate Professor, Department of Civil Engineering, 2008.

Fan, Chenguang, Ph.D. (Iowa State University), B.S. (Nanjing University), Assistant Professor, Department of Chemistry and Biochemistry, 2016.

Fang, Di, Ph.D., W.P. (Arizona State University), B.A. (Nankai University), Assistant Professor, Department of Agricultural Economics and Agribusiness, 2015.

Farmer, Amy Lynn, Ph.D., M.A. (Duke University), B.S. (Purdue University), University Professor, Department of Economics, 1999.

Faske, Travis, Ph.D. (Texas A&M University), M.S. (Oklahoma State University), B.S. (Tarleton State University), Associate Professor, Department of Entomology and Plant Pathology, 2015.

Feldman, William A., Ph.D. (Queen’s University), M.S. (Northwestern University), B.S. (Tufts University), Professor, Department of Mathematical Sciences, 1971.

Feldner, Matthew T., Ph.D. (University of Vermont), M.A. (West Virginia University), B.S. (University of Wisconsin-Stevens Point), Professor, Department of Psychological Science, 2005.

Feng, Song, Ph.D., M.S. (Chinese Academy of Sciences), B.S. (Yunnan University), Associate Professor, Department of Geosciences, 2013.

Ferguson, Alshia Juanelle, Ph.D., M.S., B.A. (University of Texas Arlington), Clinical Assistant Professor, School of Social Work, 2008.

Fernstrom, Eric, Ph.D. (University of Arkansas), Instructor, Department of Civil Engineering, 2014.

Ferrier, Gary D., Ph.D. (University of North Carolina—Chapel Hill), B.A. (University of Wisconsin-Madison), University Professor, Department of Economics, 1993.

Fitzpatrick, Ellen Therese, Ph.D. (Michigan State University), Professor, Clinton School of Public Service, 2012.
Fitzpatrick, Kevin M., Ph.D. (State University of New York at Albany), M.A. (University of South Carolina at Columbia), B.A. (Susquehanna University), University Professor, Department of Sociology and Criminology, 2005.

Fitzpatrick, Lynn, M.Arch. (Rice University), B.S. (Cornell University), Assistant Professor, Department of Architecture, 1999.

Flaccus, Janet A., LL.M. (University of Illinois-Urbana-Champaign), J.D., M.A. (University of California-Davis), Professor, School of Law, 1984.

Fleck, Mary, Ph.D., Instructor, Department of Civil Engineering, 2007.

Foley, Larry D., M.S. (University of Central Arkansas), B.A. (University of Arkansas), Professor, School of Journalism and Strategic Media, 1993.

Foote, Rebecca K., Ph.D. (University of Illinois at Urbana-Champaign), M.A. (Rice University), B.A. (University of Houston), Assistant Professor, Department of World Languages, Literatures and Cultures, 2017.

Forbes, Kristian M., Ph.D. (University of Jyväskylä), M.P.H. (Latrobe University), B.Sc. (Latrobe University), Assistant Professor, Department of Biological Sciences, 2018.

Forbes, Janet B., M.Ed. (University of Florida), B.S.E. (Georgia Southern College), Instructor, Department of Health, Human Performance and Recreation, 1978.

Ford, David M., Ph.D., M.S., B.S.Ch.E. (University of Pennsylvania), Professor, Ralph E. Martin Department of Chemical Engineering, 2017.

Forscher, Patrick, Ph.D. (University of Wisconsin), B.A. (Macalester College), Assistant Professor, Department of Psychological Science, 2017.

Foster, Bobbie, M.A., B.A. (University of Arkansas), Instructor, School of Journalism and Strategic Media, 2015.

Foster, Sharon Elaine, Ph.D., LL.M. (University of Edinburgh, Scotland), J.D. (Loyola Marymount University), B.A. (University of California-Los Angeles), Associate Professor, School of Law, 2000.

Foster, William, LL.M. (New York University), J.D. (University of Arkansas), B.S. (University of Central Arkansas), Assistant Professor, School of Law, 2014.

Fosu, Ignatius, Ph.D., M.A. (University of Alabama), B.A. (University of Ghana, Accra), Associate Professor, School of Journalism and Strategic Media, 2005.

Fowler, Jason, M.B.A. (John Brown University), B.S.B.A. (University of Arkansas), Instructor, Department of Accounting, 2015.

Frank, Kate L., M.F.A. (University of Arkansas), B.F.A. (California State University-Los Angeles), Lecturer, Department of Theatre, 2006.

Franklin, Carly T.S., M.S.W. (University of Arkansas), Clinical Assistant Professor, School of Social Work, 2014.

Franks, Lisa, M.S.N., B.S.N. (University of Arkansas), Instructor, Eleanor Mann School of Nursing, 2014.

Frazier, Kimberly Frances, Ph.D. (University of South Carolina–Columbia), M.S., B.S.E. (University of Arkansas), Associate Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2007.

Fredrick, David Charles, Ph.D. (University of Southern California), M.A., B.A. (University of Kansas), Associate Professor, Department of World Languages, Literatures and Cultures, 1991.

Freeman, Katherine, M.S.W. (University of Georgia), B.A. (University of Arkansas), Lecturer, School of Social Work, 2017.

Freeze, Ron, Ph.D. (Arizona State University), M.B.A. (University of Missouri–Kansas City), B.S. (General Motors Institute), Clinical Associate Professor, Department of Information Systems, 2015.

French, Mandy, B.B.A. (University of Oklahoma), Instructor, Department of Accounting, 2015.

Fritsch, Ingrid, Ph.D. (University of Illinois-Urbana-Champaign), B.S. (University of Utah), Professor, Department of Chemistry and Biochemistry, 1992.

Fritz, Angela I., Ph.D. (Loyola University), M.A. (University of Wisconsin-Madison), B.A. (University of Iowa), Associate Librarian, University Libraries, 2014.

Fu, Huaxiang, Ph.D., M.S. (Fudan University), B.S. (University of Science and Technology of China), Professor, Department of Physics, 2002.

Fugate, Brian, Ph.D., M.B.A., B.S. (University of Tennessee), Professor, Department of Supply Chain Management, 2015.

Fukushima, Tatsuya, Ph.D., M.A. (Oklahoma State University), B.A. (Kanto Gakuin University, Japan), Associate Professor, Department of World Languages, Literatures and Cultures, 2000.

Fuller, Serena M., Ph.D. (University of California, Davis), Associate Professor, School of Human Environmental Sciences, 2014.

Funkhouser, Eric M., Ph.D. (Syracuse University), M.A., B.A. (University of Nebraska-Lincoln), Professor, Department of Philosophy, 2002.

Furlong, Kimberley J., M.Arch. (U. Texas at Austin), B.F.A. (Pratt Institute), Associate Professor, Department of Interior Design, 2013.

G

Gadberry, M. Shane, Ph.D., M.S., B.S. (University of Arkansas), Professor, Department of Animal Science, 2006.

Gaduh, Arya, Ph.D. (University of Southern California), M.Phil. (Cambridge University), B.A. (University of California-Berkeley), Associate Professor, Department of Economics, 2013.

Gage, Justin, Ph.D., M.A., B.A. (University of Arkansas), Instructor, Department of History, 2016.

Gallagher, John M., Ph.D., M.S.W. (Arizona State University), B.A. (State University of New York at Plattsburgh), Assistant Professor, School of Social Work, 2016.

Gallagher, Kaitlin, Ph.D., B.Sc. (University of Waterloo, Canada), Assistant Professor, Department of Health, Human Performance and Recreation, 2015.

Gallini, Brian R., J.D. (University of Michigan-Ann Arbor), LL.M. (Temple University), B.A. (College of the Holy Cross), Professor, School of Law, 2008.

Ganio, Matthew Stueck, Ph.D. (University of Connecticut), M.B.S. (University of Georgia), Professor, Department of Health, Human Performance and Recreation, 2011.

Ganson, Judy, M.P.A. (University of California-Riverside), M.S. (University of Illinois-Urbana-Champaign), B.A. (Purdue University), Associate Librarian, University Libraries, 2001.

Garcia, M. Elena, Ph.D., M.S. (University of Arkansas), B.A. (University of Arkansas at Little Rock), Professor, Department of Horticulture, 2005.

Garcia-Dastugue, Sebastian, Ph.D., M.A. (The Ohio State University), M.B.A. (Instituto de Altos Estudios, Universidad Austral), Clinical Assistant Professor, Department of Supply Chain Management, 2015.

Garrett, B. J., M.S.N. (Angelo State University), Instructor, Eleanor Mann School of Nursing, 2018.

Garrison, Mary Elizabeth, Ph.D., M.S. (Iowa State University), B.S. (Benedictine College), Professor, School of Human Environmental Sciences, 2014.
Gattis, J. L., Ph.D. (Texas A&M University), M.S.C.E. (University of Texas Arlington), B.S.C.E. (University of Arkansas), Professor, Department of Civil Engineering, 1993.

Gauch, John Michael, Ph.D. (University of North Carolina at Chapel Hill), M.Sc., B.Sc. (Queen’s University, Canada), Professor, Department of Computer Science and Computer Engineering, 2008.

Gauch, Susan E., Ph.D. (University of North Carolina at Chapel Hill), M.Sc., B.Sc. (Queen’s University, Canada), Professor, Department of Computer Science and Computer Engineering, 2007.

Gauri, Dinesh K., Ph.D., M.A. (State University of New York-Buffalo), M.S. (Indian Institute of Technology, New Delhi), Professor, Department of Marketing, 2016.

Gb bur, Edward E., Ph.D., M.S. (The Ohio State University), B.S. (Saint Francis University), Professor, Department of Crop, Soil and Environmental Sciences, 1987.

Gea-Banacloche, Julio R., Ph.D. (University of New Mexico), Licenciado en Ciencias Fisicas (Universidad Autonoma de Madrid), Professor, Department of Physics, 1989.

Geng, Difei, Ph.D. (Vanderbilt University), M.A. (Southern Methodist University), M.A. (Nankai University), B.A. (Tianjin University of Finance and Economics), Assistant Professor, Department of Economics, 2016.

Gergerich, Erika M., Ph.D. (University of Arkansas), Lecturer, School of Social Work, 2019.

Gethers, Katchia, Ed.D. (John Hopkins University), Lecturer, Department of Curriculum and Instruction, 2019.

Ghadbian, Najib, Ph.D. (City University of New York), M.A. (Rutgers University), M.A. (City University of New York), B.Sc. (United Arab Emirates University), Associate Professor, Department of Political Science, 1999.

Gibeault, Michelle J., M.S. (University of North Carolina), B.A. (University of California, Berkeley), Assistant Librarian, University Libraries, 2013.

Gibson, Kristen Elizabeth, Ph.D. (Johns Hopkins University), B.S. (University of Central Florida), Associate Professor, Department of Food Science, 2012.

Gibson, Tess, M.A. (University of South Dakota), M.L.S. (Emporia State University), B.A. (Baker University), Associate Librarian, University Libraries, 2005.

Gibson, Tracy, Ed.D. (University of Arkansas), Lecturer, Department of Rehabilitation, Human Resource and Communication Disorders, 2019.

Gigantino, Jim, Ph.D. (University of Georgia), B.A. (University of Richmond), Professor, Department of History, 2010.

Gilbertson, Margie, Ph.D. (University of Memphis), M.S.E., B.A. (University of Central Arkansas), Clinical Instructor, Department of Rehabilitation, Human Resource and Communication Disorders, 2016.

Gilchrist, Ellen Louise, B.A. (Millsaps College), Clinical Professor, Department of English, 2002.

Gilmet, Kelsey, Ph.D. (University of Illinois-Chicago), M.S.N. (University of Minnesota), B.A. (Kalamazoo College), Instructor, Eleanor Mann School of Nursing, 2016.

Girshner, Joshua M., M.A., B.A. (University of Arkansas), Instructor, Department of Mathematical Sciences, 2012.

Glade, Rachel E., Ph.D. (University of Arkansas), M.S. (University of Arkansas for Medical Sciences), M.A. (University of Arkansas), B.S. (University of Arkansas at Little Rock), Assistant Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2015.

Goering, Christian Z., Ph.D., M.S. (Kansas State University), B.A. (Washburn University), Professor, Department of Curriculum and Instruction, 2007.

Goforth, Carol Rose, J.D., B.A. (University of Arkansas), University Professor, School of Law, 1993.

Goggin, Fiona, Ph.D. (University of California-Davis), B.S. (Cornell University), Professor, Department of Entomology and Plant Pathology, 2001.

Goodman-Strauss, Chaim, Ph.D., B.S. (University of Texas at Austin), Professor, Department of Mathematical Sciences, 1994.

Goo dstein-Murphree, Ethel S., Ph.D. (University of Michigan-Ann Arbor), B.Arch., B.S. (City University of New York), Professor, Department of Architecture, 1992.

Gordon, Joel Samuel, Ph.D. (University of Michigan-Ann Arbor), B.A. (University of Illinois), Professor, Department of History, 1999.

Gordon, Ronald J., Ph.D. (University of Arkansas), Instructor, Department of History, 2014.

Gorman, Dean Richard, Ph.D. (University of Kansas), M.S., B.A. (Arizona State University), Professor, Department of Health, Human Performance and Recreation, 1979.

Gosman, Alan R., Ph.D. (Harvard University), Associate Professor, Department of Music, 2014.

Gosman, Sara, J.D., M.P.A. (Harvard University), A.B. (Princeton University), Assistant Professor, School of Law, 2014.

Gould, Kara, Ph.D. (University of Utah), M.A. (Wheaton College), B.A. (Wheaton College), Assistant Professor, School of Journalism and Strategic Media, 2016.

Goussevskaia, Anna, Ph.D. (University of Warwick, United Kingdom), B.Sc. (Federal University of Minas, Brazil), Clinical Assistant Professor, Department of Management, 2013.

Graham, Donna Lucas, Ph.D. (University of Maryland-College Park), M.Ed., B.S. (University of Arkansas), University Professor, Department of Agricultural Education, Communications and Technology, 1985.

Grant, Alphonso W., Ph.D. (Pennsylvania State University), Assistant Professor, School of Art, 2017.

Gray, Michelle, Ph.D. (University of Arkansas), M.S. (Ball State University), B.S. (University of Tennessee, Chattanooga), Associate Professor, Department of Health, Human Performance and Recreation, 2010.

Greathouse, Denise A., Ph.D. (University of Arkansas), Research Associate Professor, Department of Chemistry and Biochemistry, 1997.

Greene, Aleza R.S., Ph.D., M.A. (Brandeis University), B.A. (Tufts University), Clinical Assistant Professor, Department of Curriculum and Instruction, 2006.

Greene, Jay Phillip, Ph.D., A.M. (Harvard University), B.A. (Tufts University), Distinguished Professor, Department of Education Reform, 2005.

Greene, Nicholas P., Ph.D. (Texas A&M University), M.S., B.S. (University of South Carolina), Associate Professor, Department of Health, Human Performance and Recreation, 2013.

Greenhaw, William Karl, J.D. (University of Arkansas), B.A. (Westminster College), Instructor, Department of Accounting, 2001.

Greenlee, Lauren F., Ph.D., M.S. (University of Texas at Austin), BSChE (University of Michigan), Associate Professor, Ralph E. Martin Department of Chemical Engineering, 2015.
Griffith, Lauren Miller, Ph.D., M.A. (Indiana University), B.A. (Texas A&M University), Visiting Assistant Professor, Department of Anthropology, 2013.

Grover, Varun, Ph.D. (University of Pittsburgh), M.B.A. (Southern Illinois University), B.S. (Indian Institute of Technology), Distinguished Professor, Department of Information Systems, 2017.

Gruenwald, Jeffrey A., Ph.D. (Michigan State University), Associate Professor, Department of Sociology and Criminology, 2019.

Gu, Jingping, Ph.D. (Texas A&M University), M.A. (Peking University), B.A. (Renmin University of China, Beijing), Associate Professor, Department of Economics, 2008.

Guan, Mengfei, Ph.D. (University of Georgia), M.A. (University of Alabama), B.A. (Ocean University of China), Assistant Professor, Department of Communication, 2019.

Guhman, Betty A., M.S.W., B.S.W. (University of Arkansas), Lecturer, School of Social Work, 2019.

Gupta, Nina, Ph.D., A.M. (University of Michigan-Ann Arbor), M.A., B.A. (University of Allahabad), Distinguished Professor, Department of Management, 1984.

H

Hackstadt, Angela, M.L.I.S. (University of Alabama), B.A. (University of Arkansas), Assistant Professor, University Libraries, 2013.

Haggard, Brian Edward, Ph.D. (Oklahoma State University), M.S. (University of Arkansas), B.S. (Missouri University of Science and Technology), Professor, Department of Biological and Agricultural Engineering, 2006.

Haghighi, Mohammad, Ph.D. (Ohio University), Assistant Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2019.

Hagstrom, Fran W., Ph.D. (Clark University), M.S. (University of Texas Health Science Center-Houston), M.A. (St. Louis University), B.A. (Southwest Baptist University), Associate Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2002.

Hale, Cathy J., M.S.N. (University of Arkansas), M.S. (University of Central Arkansas), B.S.N. (Arkansas Tech University), Clinical Instructor, Eleanor Mann School of Nursing, 2013.

Hale, Micah, Ph.D., M.S.C.E., B.S.C.E. (University of Oklahoma), Professor, Department of Civil Engineering, 2002.

Hall, Kevin D., Ph.D. (University of Illinois-Urbana-Champaign), M.S.C.E., B.S.C.E. (University of Arkansas), Professor, Department of Civil Engineering, 1993.

Hallett, LewEllyn, M.F.A. (Bowling Green State University), B.A. (University of New Mexico), Instructor, Department of English, 2013.

Halvorsen-Ganepola, Marie, M.B.A. (University of Notre Dame), Instructor, Department of Management, 2018.

Ham, Garret Richard, M.Div. (Yale University, J.D. (University of Arkansas), B.A.C.S. (Ouachita Baptist University), Instructor, Operations Management Program, 2019.

Ham-Holm, Lindsay S., Ph.D., M.A., B.A. (University of Nebraska-Lincoln), Associate Professor, Department of Psychological Science, 2007.

Hamilton, John H., M.S., B.S. (University of Arkansas), Instructor, Department of Mechanical Engineering, 2002.

Hamm, Cora, M.S. (New York University), Instructor, School of Human Environmental Sciences, 2016.

Hammel, Alice, D.M.A. (Shenandoah University), M.M. (Florida State University), B.M. (Shenandoah University), Instructor, Department of Music, 2016.

Hammig, Bart, Ph.D. (University of Kansas), M.P.H. (University of Kansas Medical Center), B.S. (University of Kansas), Professor, Department of Health, Human Performance and Recreation, 2008.

Hammond, Kelly, Ph.D. (Georgetown University), M.A. (Simon Frazier University), B.A. (Bishop’s University), Assistant Professor, Department of History, 2015.

Hanning, Casey Owens, Ph.D., M.S., B.S. (Texas A&M University), Professor, Department of Poultry Science, 2000.

Hanson, Alexander J., M.F.A. (University of Iowa), Instructor, School of Art, 2015.

Hapgood, Thomas Layley, M.F.A., B.A. (University of Arizona), Associate Professor, School of Art, 2005.

Harding, Lorna, M.S. (University of Alberta, Canada), B.A. (University of Western Ontario, Canada), Instructor, School of Human Environmental Sciences, 2004.

Hardke, Jarrod T., Ph.D. (Louisiana State University), B.S.A. (University of Arkansas), Professor, Department of Crop, Soil and Environmental Sciences, 2013.

Hare, Laurence, Ph.D., M.A. (University of North Carolina at Chapel Hill), B.A. (University of Tennessee at Chattanooga), Associate Professor, Department of History, 2010.

Hargis, Billy M., Ph.D., D.V.M. (University of Minnesota-Twin Cities), M.S. (University of Georgia), B.S. (University of Minnesota), Distinguished Professor, Department of Poultry Science, 2009.

Harper, Misti, Ph.D., (University of Arkansas), M.A. (University of Central Arkansas), B.A. (University of the Ozarks), Instructor, Department of History, 2017.

Harrington, Phil, Ph.D., M.S. (University of Notre Dame), B.S. (Whitworth College), Professor, Department of Mathematical Sciences, 2009.

Harris, Anna B., O.T.D. (University of Kansas), M.O.T (Rockhurst University), Clinical Assistant Professor, Department of Occupational Therapy, 2019.

Harris, Casey Taggart, Ph.D., M.A. (Pennsylvania State University), B.S. (Texas A&M University), Associate Professor, Department of Sociology and Criminology, 2011.

Harriss, Edmund O., Ph.D. (Imperial College, London), M.M. (University of Warwick), Clinical Assistant Professor, Department of Mathematical Sciences, 2010.

Harter, William G., Ph.D. (University of California-Irvine), B.S. (Hiram College), Professor, Department of Physics, 1986.

Hason, Alexander, M.F.A., M.A. (University of Iowa), B.F.A. (University of Minnesota, Duluth), Instructor, School of Art, 2015.

Hatfield, Joe, Ph.D. (University of Colorado Bounder), M.A. (Syracuse University), B.A. University of North Texas, Assistant Professor, Department of Communication, 2020.

Haydar, Adnan Fuad, Ph.D. (University of California-San Diego), M.A., B.A. (American University of Beirut), Professor, Department of World Languages, Literatures and Cultures, 1993.

Haydar, Paula Marie, Ph.D., M.F.A. (University of Arkansas), M.Ed., B.S. (University of Massachusetts), Clinical Assistant Professor, Department of World Languages, Literatures and Cultures, 2006.

Hayes, David, M.S. (Murray State University), B.S. (University of Arkansas), Instructor, Department of Chemistry and Biochemistry, 2007.
Hays, Thomas P., Ph.D. (University of North Texas), M.Acc. (University of Missouri), B.A. (Westminster College), Clinical Assistant Professor, Department of Accounting, 2019.

Hays, Phillipp D., Ph.D., M.S. (Texas A&M University), B.S. (University of Arkansas), Research Professor, Department of Geosciences, 2000.

He, Maggie, Ph.D. (ETH Zürich), M.S. (University of Pennsylvania), B.S. (City College of New York), Assistant Professor, Department of Chemistry and Biochemistry, 2019.

Hearne, Brittany Nicole, Ph.D., M.A., (Vanderbilt University), B.S. (Texas A&M), Assistant Professor, Department of Sociology and Criminology, 2018.

Heffernan, Michael Joseph, Ph.D., M.A. (University of Massachusetts), A.B. (University of Detroit), Professor, Department of English, 1986.

Henderson, Kristin Jaye, Ph.D. (University of Arkansas), M.S.N., B.S.N. (Arkansas Tech University), Clinical Instructor, Eleanor Mann School of Nursing, 2013.

Henry, Christopher Garrett, Ph.D. (University of Nebraska-Lincoln), M.S., B.S. (Kansas State University), Associate Professor, Department of Biological and Agricultural Engineering, 2011.

Henry, Erin E., Ph.D. (University of Connecticut), Visting Assistant Professor, Department of Accounting, 2019.

Henry, Leah Jean, Ph.D. (Texas Woman's University), M.A. (Michigan State University), B.S. (Texas A&M University), Associate Professor, Department of Health, Human Performance and Recreation, 2008.

Henry, Ralph Leroy, Ph.D., M.S. (Kansas State University), B.S.E. (University of Kansas), Distinguished Professor, Department of Biological Sciences, 1996.

Hentzen, Jane, M.S.N.(University of Texas at Austin), B.S.N.(University of Nebraska), Clinical Instructor, Eleanor Mann School of Nursing, 2017.

Hereth, Stephen Blake, Ph.D. (University of Washington), Visiting Assistant Professor, Department of Philosophy, 2019.

Herman, Greg, M.Arch. (Rice University), B.Arch. (University of Cincinnati), Associate Professor, Department of Architecture, 1991.

Hermanson, Kari, M.F.A. (University of South Dakota), B.A. (Dana College), Instructor, Department of Theatre, 2018.

Hernandez, Sarah, Ph.D., M.S. (University of California, Irvine), B.S. (University of Florida), Assistant Professor, Department of Civil Engineering, 2015.

Hernandez-Miranda, Michael, Ph.D., M.A. (Texas A&M University), B.A. (University of Oriente), Instructor, Department of World Languages, Literatures and Cultures, 2015.

Herold, Laura K., Ph.D., M.A. (University of Michigan), B.A. (Oberlin College), Teaching Assistant Professor, School of Human Environmental Sciences, 2015.

Herold, Warren, Ph.D. (University of Michigan), Assistant Professor, Department of Philosophy, 2014.

Hershberger, Margaret, Ph.D., M.S. (University of Chicago), B.S. (The Ohio State University), Instructor, Department of Chemistry and Biochemistry, 2015.

Herzberg, Amy, M.F.A. (California Institute of the Arts), B.A. (Arizona State University), Distinguished Professor, Department of Theatre, 1989.

Herzog, Jacob, M.M. (Manhattan School of Music), B.M. (Berklee College of Music), Instructor, Department of Music, 2016.

Hestekin, Christa, Ph.D. (Northwestern University), B.S.Ch.E. (University of Kentucky), Associate Professor, Ralph E. Martin Department of Chemical Engineering, 2006.

Hestekin, Jamie A., Ph.D. (University of Kentucky), B.S.Ch.E. (University of Minnesota-Duluth), Professor, Ralph E. Martin Department of Chemical Engineering, 2006.

Hettiarachchy, Navam S., Ph.D. (University of Hull, England), M.S. (Edinburgh University, Scotland), B.S. (University of Madras, India), University Professor, Department of Food Science, 1992.

Hevel, Michael Stephen, Ph.D. (University of Iowa), M.A. (Bowling Green State University), B.A. (University of Kansas), Associate Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2012.

Heyes, Colin David, Ph.D. (Georgia Institute of Technology), B.S. (Loughborough University), Associate Professor, Department of Chemistry and Biochemistry, 2008.

Heymsfield, Ernie, Ph.D. (City University of New York), M.S.C.E. (Polytechnic University), Associate Professor, Department of Civil Engineering, 2001.

Hicks, Morgan, M.F.A. (University of Arkansas), M.A. (Missouri State University), B.F.A. (Arkansas State University), Teaching Assistant Professor, Department of Theatre, 2007.

Higginbottom, Julianne, M.S.W., B.S.W. (University of Arkansas), Lecturer, School of Social Work, 2019.

Higgins, Kristin Kay, Ph.D., M.S. (University of Arkansas), B.A. (Vanderbilt University), Associate Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2006.

Hinds, Heather Rae, M.A. (University of Arkansas), B.S. (University of Central Missouri), Instructor, Department of World Languages, Literatures and Cultures, 2008.

Hinrichsen, Lisa, Ph.D., M.A. (Boston University), B.A. (Wellesley College), Associate Professor, Department of English, 2008.

Hintz, Rashauna, M.A., B.A. (University of Arkansas), Instructor, Department of Geosciences, 2011.

Hodges, Amy M., B.A. (Louisiana Tech College Acadian Campus), Instructor, 2005.

Hodges, Karen L., Ph.D. (University of Arkansas), Lecturer, Graduate School and International Education, 2019.

Hoehe, Hartmut, Ph.D., B.Com. (Victoria University of Wellington), Associate Professor, Department of Information Systems, 2013.

Hofer, Christian, Ph.D. (University of Maryland University College), B.A. (European School of Business), Associate Professor, Department of Supply Chain Management, 2007.

Hoffpaur, Susan Annette, Ph.D. (University of Michigan-Ann Arbor), Distinguished Professor, Clinton School of Public Service, 2011.

Hogan, Adam S., M.A. M.F.A (Washington University in St. Louis), Assistant Professor, School of Art, 2014.

Holford, Christine, Ph.D. (Pennsylvania State University), M.A. (University of Kansas), B.S. (Central Michigan University), Assistant Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2017.

Holland, Beth, Ed.D. (John Hopkins University), Lecturer, Department of Curriculum and Instruction, 2019.

Holland, Brian, M.Arch., (University of Pennsylvania), B.Arch., (California State Polytechnic University, Pomona), Assistant Professor, Department of Architecture, 2018.

Holland, Edward C., Ph.D., M.A. (University of Colorado, Boulder), B.A. (Princeton University), Assistant Professor, Department of Geosciences, 2016.

Holloway, Ginger L., M.S.N. (Walden University), B.S.N. (Northeastern State University), Instructor, Eleanor Mann School of Nursing, 2013.

Holm, Jeremy, M.A., B.S. (University of Nebraska), Instructor, Department of Psychological Science, 2008.
Holyfield, Christine E., Ph.D. (Pennsylvania State University), M.A. (University of Kansas), B.S. (Central Michigan University), Assistant Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2017.

Holyfield, Lori C., Ph.D. (University of Georgia), M.A., B.S.E. (University of Arkansas), Professor, Department of Sociology and Criminology, 1995.

Hood, Shanda, Ph.D.M.S. (University of Arkansas), B.S. (University of Arkansas-Fort Smith), Teaching Assistant Professor, Department of Mathematical Sciences, 2013.

Hori, Yoko, M.A. (University of Kansas), B.A. (William Jewell College), Instructor, Department of World Languages, Literatures and Cultures, 2017.

Horowitz, Andrew W., Ph.D., M.S. (University of Wisconsin-Madison), B.S. (University of Maryland), Professor, Department of Economics, 1998.

Horton, Elizabeth T., Ph.D. (Washington University, St. Louis), Research Assistant Professor, Department of Anthropology, 2019.

Houin, Cameron B., Ph.D. (University of Arkansas), Lecturer, Department of Human Resource and Workforce Development Education, .

Howard, Luke R., Ph.D., M.S. (University of Arkansas), B.S. (Purdue University), Professor, Department of Food Science, 2002.

Howie, Erin, Ph.D. (University of South Carolina), B.S. (University of Maryland), Assistant Professor, Department of Health, Human Performance and Recreation, 2016.

Hoyer, Jennifer M., Ph.D., M.A. (University of Minnesota-Twin Cities), B.A. (University of Tulsa), Associate Professor, Department of World Languages, Literatures and Cultures, 2007.

Hsu, Hung-Chia Scott, Ph.D. (University of North Carolina-Chapel Hill), M.A. (University of Southern California), B.A. (National Taiwan University), Assistant Professor, Department of Finance, 2015.

Hu, Han, Ph.D. (Drexel University), Assistant Professor, Department of Mechanical Engineering, 2019.

Hu, Jin, Ph.D. (Tulane University), B.S. (University of Science and Technology of China), Assistant Professor, Department of Physics, 2017.

Huang, Miaqing, Ph.D. (George Washington University), B.S. (Fudan University), Associate Professor, Department of Computer Science and Computer Engineering, 2010.

Huang, Po-Hao Adam, Ph.D., M.S., B.S. (University of California-Los Angeles), Associate Professor, Department of Mechanical Engineering, 2006.

Huang, Quiqiong, Ph.D. (University of California-Davis), B.S. (Remin University of China), Professor, Department of Agricultural Economics and Agribusiness, 2013.

Huang, Yan, Ph.D. (University of Wyoming), M.S. (Dankook University), B.S. (China Agricultural University), Assistant Professor, Department of Animal Science, 2015.

Hubert, Stephanie K., M.S. (University of Arkansas), B.S. (Kansas State University), Instructor, School of Human Environmental Sciences, 2015.

Hughes, Claretha, Ph.D. (Virginia Polytechnic Institute and State University), M.S. (North Carolina State University), M.B.A. (University of Arkansas), B.A. (Clemson University), Professor, Department of Human Resource and Workforce Development Education, 2004.

Huittink, David, Ph.D., M.S.M.E., B.S.M.E., (Texas A&M University), Assistant Professor, Department of Mechanical Engineering, 2016.

Hulen, Jeannie, M.F.A. (Louisiana State University), B.F.A. (Kansas City Art Institute), Professor, School of Art, 2002.

Hunt, Valerie H., Ph.D., J.D., B.A. (University of Arkansas), Associate Professor, Department of Political Science, 2005.

Hunter, Justin R., Ph.D. (University of Hawai’i at Manoa), M.M., B.A. (University of Arkansas), Lecturer, Department of Music, 2017.

Hurt, Bryan M., Ph.D. (University of Southern California), B.A. (Ohio State University), Assistant Professor, Department of English, 2019.

Hutchins, Rhett J., Ph.D. (University of Georgia), M.Ed., B.S. (Clemson University), Clinical Assistant Professor, Department of Curriculum and Instruction, 2014.

Hyatt, David Graham, M.B.A., B.S.B.A. (University of Arkansas), Research Associate Professor, Department of Supply Chain Management, 2011.

Hyman, Jeremy S., C.Phil. (University of California, Los Angeles), M.A. (Princeton University), B.A. (University of Michigan), Instructor, Department of Philosophy, 2013.

Imbeau, Marcia B., Ph.D. (University of Connecticut), M.Ed. (University of Arkansas at Little Rock), B.A. (Hendrix College), Professor, Department of Curriculum and Instruction, 1991.

Irish, Shawn D., M.F.A. (University of Arkansas), B.A. (Missouri Southern State University), Assistant Professor, Department of Theatre, 2013.

Irungu, David M., M.A (University of Nairobi, Kenya), Instructor, Department of World Languages, Literatures and Cultures, 2016.

Ivey, Mack, Ph.D., B.S. (University of Georgia), Associate Professor, Department of Biological Sciences, 1992.

Iyer, Shilpa, Ph.D. (University of Georgia), M.Sc., B.Sc. (University of Pune, India), Assistant Professor, Department of Biological Sciences, 2016.

Jacobs, Lynn Frances, Ph.D., M.A. (New York University), B.A. (Princeton University), Distinguished Professor, School of Art, 1989.

Jacobus, Frank R., M.Arch. (University of Texas at Austin), Associate Professor, Department of Architecture, 2012.

Jaduh, Arva, Ph.D. (University of Southern California), M.Phil. (Cambridge University), B.A. (University of California, Berkeley), Assistant Professor, Department of Economics, 2013.

Jandik, Dobrina, Ph.D. (University of Arkansas), M.Sc.Eng. (University of Chemical Technology), M.B.A. (University of Montana), Clinical Associate Professor, Department of Finance, 2017.

Jandik, Tomas, Ph.D. (University of Pittsburgh), M.S., B.S. (Czech Technical University), Professor, Department of Finance, 2000.

Jarnagin, Robyn, LL.M. (New York University), J.D., B.S. (University of Montana), Clinical Assistant Professor, Department of Accounting, 2016.

Jarrett, Anna Lee, Ph.D., M.S.N. (University of Missouri-Columbia), B.S.N. (Missouri Southern State College), Associate Professor, Eleanor Mann School of Nursing, 2012.

Jefferis, Neal, M.S.Ed. (Old Dominion University), B.E.S. (University of Missouri), Instructor, Operations Management Program, 2017.

Jennings, Freddie, Ph.D. (University of Missouri), M.A., B.A. (University of Arkansas), Visiting Assistant Professor, Department of Communication, 2018.

Jennings, John A., Ph.D. (University of Missouri), M.S. (University of Arkansas), B.S. (Southwest Missouri State University), Professor, Department of Animal Science, 1998.

Jennings, Tameka A., Ph.D. (University of Arkansas), B.S. (University of Arkansas-Pine Bluff), Clinical Assistant Professor, Department of Biological Sciences, 2017.

Jensen, David C., Ph.D., M.S., B.S. (Oregon State University), Associate Professor, Department of Mechanical Engineering, 2012.
Jensen, Hanna Katarina, Ph.D. (University of Oulu, Finland), Research Assistant Professor, Department of Biomedical Engineering, 2015.

Jensen, Molly R., Ph.D., M.A. (University of Arkansas), B.S. (Southwest Missouri State University), Clinical Associate Professor, Department of Marketing, 2003.

Jensen, Morten O., Ph.D. (University of Aarhus, Denmark), M.Sc. (Georgia Institute of Technology), Associate Professor, Department of Biomedical Engineering, 2014.

Jensen, Thomas D., Ph.D., M.A., B.A. (University of Arkansas), Professor, Department of Marketing, 1982.

Jensen, Toni, Ph.D. (Texas Tech University), M.A., B.A. (University of South Dakota), Associate Professor, Department of English, 2014.

Jilka, Elizabeth C., M.F.A., B.A. (University of Arkansas), Lecturer, Department of Theatre, 2017.

Joffe Minor, Tacy Marie, Ph.D. (Northwestern University), M.A., B.S. (University of Arkansas), Teaching Assistant Professor, Department of Physics, 2011.

Jogan, Kathleen, Ed.D., M.S. (University of Arkansas), B.S. (Ursinus College), Instructor, Department of Animal Science, 2015.

Johnson, Donald M., Ph.D. (University of Missouri-Columbia), M.A., B.S. (Western Kentucky University), Professor, Department of Agricultural Education, Communications and Technology, 1993.

Johnson, Jon, Ph.D. (Indiana University at Bloomington), M.B.A., B.S. (University of Arkansas), Professor, Department of Management, 1996.

Johnson, Kelly Vowell, Ed.D. (University of Arkansas), Assistant Professor, Eleanor Mann School of Nursing, 2019.

Johnson, Mark, Ph.D. (Michigan State University), M.S. (Purdue University), B.S. (City University of New York, Brooklyn College), Professor, Department of Mathematical Sciences, 1995.

Johnson, Michael, M.S.C.E. (University of Pittsburgh), B.S.C.E. (University of Minnesota), B.A. (Chapman College), Professor, Department of Civil Engineering, 2010.

Johnson, Michele, M.A., B.A. (Sam Houston State University), Instructor, Department of History, 2018.

Johnson-Carter, Charlene M., Ph.D. (Emory University), M.B.A. (Atlanta University), M.Ed., B.A. (University of Cincinnati), Associate Professor, Department of Curriculum and Instruction, 1992.

Jones, Ches, Ph.D. (University of Alabama at Birmingham), B.S.E. (Pittsburgh State University), Professor, Department of Health, Human Performance and Recreation, 1994.

Jones, Clinton G., Ed.D. (Arkansas Tech University), Ed.S. (Harding University), Assistant Professor, Department of Curriculum and Instruction, 2019.

Jones, Linda Carol, Ph.D. (University of New Mexico), M.A. (University of Arkansas), M.A. (University of Arizona), B.A. (Northeast Louisiana University), Associate Professor, Department of World Languages, Literatures and Cultures, 1988.

Jones, Richard E., M.F.A. (Miami University), Assistant Professor, Department of Communication, 2020.

Joffe Minor, Tacy Marie, Ph.D. (Northwestern University), M.A., B.S. (University of Arkansas), Teaching Assistant Professor, Department of Physics, 2011.

Johnson, Jon, Ph.D. (Indiana University at Bloomington), M.B.A., B.S. (University of Arkansas), Professor, Department of Management, 1996.

Johnson, Kelly Vowell, Ed.D. (University of Arkansas), Assistant Professor, Eleanor Mann School of Nursing, 2019.

Johnson, Mark, Ph.D. (Michigan State University), M.S. (Purdue University), B.S. (City University of New York, Brooklyn College), Professor, Department of Mathematical Sciences, 1995.

Johnson, Michael, M.S.C.E. (University of Pittsburgh), B.S.C.E. (University of Minnesota), B.A. (Chapman College), Professor, Department of Civil Engineering, 2010.

Johnson, Michele, M.A., B.A. (Sam Houston State University), Instructor, Department of History, 2018.

Johnson-Carter, Charlene M., Ph.D. (Emory University), M.B.A. (Atlanta University), M.Ed., B.A. (University of Cincinnati), Associate Professor, Department of Curriculum and Instruction, 1992.

Jones, Ches, Ph.D. (University of Alabama at Birmingham), B.S.E. (Pittsburgh State University), Professor, Department of Health, Human Performance and Recreation, 1994.

Jones, Clinton G., Ed.D. (Arkansas Tech University), Ed.S. (Harding University), Assistant Professor, Department of Curriculum and Instruction, 2019.

Jones, Linda Carol, Ph.D. (University of New Mexico), M.A. (University of Arkansas), M.A. (University of Arizona), B.A. (Northeast Louisiana University), Associate Professor, Department of World Languages, Literatures and Cultures, 1988.

Jones, Richard E., M.F.A. (Miami University), Assistant Professor, Department of Communication, 2020.
Kelley, Christopher Rowand, LL.M. (University of Arkansas), J.D. (Howard University), B.A. (Louisiana State University at Shreveport), Associate Professor, School of Law, 1998.

Kelley, Donald R., Ph.D. (Indiana University at Bloomington), M.A., B.A. (University of Pittsburgh), Professor, Department of Political Science, 1980.

Kelley, Jason, Ph.D., M.S. (Oklahoma State University), B.S. (Kansas State University), Professor, Department of Crop, Soil and Environmental Sciences, 2003.

Kemper, Nathan, Ph.D., M.S. (University of Arkansas), B.S. (Missouri State University), Clinical Professor, Department of Agricultural Economics and Agribusiness, 2014.

Kennefick, Daniel John, Ph.D., M.A. (California Institute of Technology), B.S. (University College Cork, Ireland), Associate Professor, Department of Physics, 2004.

Kennefick, Julia Dusk, Ph.D. (California Institute of Technology), B.S. (University of Arkansas), Associate Professor, Department of Physics, 2003.

Kennemer, Jerilyn Laura, M.A., B.S. (Oklahoma State University), Instructor, Department of Communication, 2013.

Kent, John, Ph.D. (University of Tennessee), M.B.A. (University of Dallas), B.S. (Henderson State University), Clinical Associate Professor, Department of Supply Chain Management, 2014.

Kent, Laura B., Ph.D. (University of Wisconsin-Madison), M.S. (Purdue University Calumet), B.S. (Purdue University), Associate Professor, Department of Curriculum and Instruction, 2006.

Kern, Jack C., Ph.D. (Texas Woman's University), M.Ed. (Texas State University-San Marcos), B.S. (University of Wisconsin-LaCrosse), Clinical Professor, Department of Health, Human Performance and Recreation, 1996.

Kerr, Brinck, Ph.D. (Texas A&M University), B.A. (University of Texas at Austin), Professor, Department of Political Science, 1994.

Kerr, Grace R., M.A. (Texas A&M University), B.A. (Sam Houston State University), Clinical Instructor, Department of Curriculum and Instruction, 2006.

Keskek, Sami, Ph.D. (Texas A&M University), M.S. (Fatih University), B.S. (Bogazici University), Assistant Professor, Department of Accounting, 2011.

Kidd, Michael T., Ph.D. (North Carolina State University), M.S., B.S.A. (University of Arkansas), Professor, Department of Poultry Science, 2010.

Killean Beck, Ann Mallatt, Ph.D. (University of Michigan-Ann Arbor), J.D. (University of Nebraska-Lincoln), Associate Professor, School of Law, 2003.

Killean Beck, Mark R., J.D. (University of Nebraska-Lincoln), B.A. (Boston College), Distinguished Professor, School of Law, 1988.

Killian, Timothy Scott, Ph.D. (University of Missouri-Columbia), M.A. (Wheaton College), B.A. (Central Bible College), Associate Professor, School of Human Environmental Sciences, 2001.

Kilmer, Michele, D.N.P. (University of Alabama), M.S.N (Texas Tech University), B.S.N. (Harding University), Assistant Professor, Eleanor Mann School of Nursing, 2017.

Kilyanek, Stefan M., Ph.D., M.S. (University of Chicago), B.S. (Grand Valley State University), Associate Professor, Department of Chemistry and Biochemistry, 2014.

Kim, Hyun, Ph.D., D.M.A. (University of Colorado), M.M. (University of Cincinnati), M.M. (Sung-Shin Women's University), B.M. (Chung-Ang University), Visiting Assistant Professor, Department of Music, 2018.

Kim, Jin-Woo, Ph.D. (Texas A&M University), M.S. (University of Wisconsin-La Crosse), B.S. (University of Iowa), Professor, Department of Biological and Agricultural Engineering, 2001.

Kim, Myunghee Michelle, Ph.D., B.S. (University of Texas at Austin), Clinical Assistant Professor, Department of Biomedical Engineering, 2013.

Kimbrough, Chelsey, Ph.D. (Texas Tech), M.S. (University of Arkansas), Associate Professor, Department of Animal Science, 2015.

Kimbrough, Hannah A.D., Ph.D. (University of Houston), M.S.W. (University of Arkansas), Lecturer, School of Social Work, 2014.

Kindy, Phillip D., M.I.S. (University of Arkansas), B.S. ( DeVry Institute of Technology), Instructor, Department of Information Systems, 2012.

King, Bonnie, M.A.T., B.S.E. (University of Arkansas), Clinical Instructor, Department of Curriculum and Instruction, 2015.

King, Leldon Dale, B.S. (University of Central Oklahoma), Instructor, 2010.

King, Sam, M.F.A. (Indiana University at Bloomington), B.F.A. (University of Tulsa), Assistant Professor, School of Art, 2011.

King, Tiffany, M.A. (University of Arkansas), B.J. (University of Missouri), Instructor, School of Journalism and Strategic Media, 2014.

Kippenbrock, Thomas A., Ed.D. (Indiana University at Bloomington), M.S. (Indiana University-Purdue University-Indianapolis), B.S.N. (Indiana State University), Professor, Eleanor Mann School of Nursing, 2003.

Kirkwood, Patricia Elaine, M.S. (University of Illinois-Urbana-Champaign), B.S. (Pacific Lutheran University), Associate Librarian, University Libraries, 2004.

Kish-Gephart, Jennifer, Ph.D. (Pennsylvania State University), M.B.A., B.S. (Drexel University), Associate Professor, Department of Management, 2010.

Kighten, Chris, D.M.A., M.M. (University of Colorado), B.M. (Baylor University), Associate Professor, Department of Music, 2009.

Kighten, Janet Whitman, M.M., B.M. (East Carolina University), Assistant Professor, Department of Music, 2009.

Koch, Lynn C., Ph.D. (University of Wisconsin-Madison), M.S., B.S. (University of Arizona), Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2006.

Koch, Mark, O.T.D. (Saint Louis University), Clinical Assistant Professor, Department of Occupational Therapy, 2018.

Kopepe, Roger E., Ph.D. (California Institute of Technology), A.B. (Haverford College), Distinguished Professor, Department of Chemistry and Biochemistry, 1979.

Koh, Dongy, Ph.D. (Washington University-St. Louis), M.A. (Boston University), B.A. (Keio University), Assistant Professor, Department of Economics, 2014.

Kong, Byungwhi, Ph.D., M.S. (University of Minnesota-Twin Cities), B.S. (Korea University), Associate Professor, Department of Poultry Science, 2006.

Kopp, Steven W., Ph.D. (Michigan State University), M.B.A. (University of Southern Mississippi), B.S. (University of Missouri-Rolla), Associate Professor, Department of Marketing, 1992.

Korth, Deborah, Ed.D. (University of Arkansas), M.Ed. (North Carolina State University), B.S. (University of Nebraska-Lincoln), Clinical Associate Professor, J. William Fulbright College of Arts and Sciences, 2004.

Korth, Ken L., Ph.D. (North Carolina State University), B.S. (University of Nebraska), Professor, Department of Entomology and Plant Pathology, 1999.

Koski, Patricia, B.A., M.A., Ph.D. (Washington State University), Associate Professor, Department of Sociology and Criminology, 1984.

Kovacs, Kent F., Ph.D. (University of California-Davis), B.A. (Vassar College), Associate Professor, Department of Agricultural Economics and Agribusiness, 2012.

Kowalski, Jessica Anne, Ph.D. (University of Alabama), Research Assistant Professor, Department of Anthropology, 2019.

Kral, Timothy Alan, Ph.D. (University of Florida), B.S. (John Carroll University), Professor, Department of Biological Sciences, 1981.
Kristian, Allee, Ph.D., M.B.A. (Indiana University), B.S. (Brigham Young University), Associate Professor, Department of Accounting, 2016.
Kucharczyk, Suzanne, Ed.D. (Columbia University Teacher’s College), M.Ed., B.S. (University of Illinois-Urbana-Champaign), Assistant Professor, Department of Curriculum and Instruction, 2014.
Kuenzel, Wayne J., Ph.D. (University of Georgia), M.S., B.S. (Bucknell University), Professor, Department of Poultry Science, 2000.
Kumar, Pradeep, Ph.D. (Boston University), M.Sc. (Indian Institute of Technology, Mumbai, India), Associate Professor, Department of Physics, 2013.
Kutz, Bryan Richard, M.S. (Western Kentucky University), B.S. (Oklahoma State University), A.S. (Northern Oklahoma College), Instructor, Department of Animal Science, 1997.
Kvamee, Kenneth L., Ph.D. (University of California-Santa Barbara), M.A., B.A. (Colorado State University), Professor, Department of Anthropology, 1999.
Kwon, Young Min, Ph.D. (Texas A&M University), M.S., B.S. (Seoul National University), Associate Professor, Department of Poultry Science, 2002.

L
LaCitey, Mary, Ph.D. (University of Houston), B.S.B.A. (Pennsylvania State University), Professor, Department of Information Systems, 2018.
Laincz, Jozef, Ph.D. (University of Arkansas), Magister, B.S. (Comenius University Bratislava), Assistant Librarian, University Libraries, 2015.
Lamb, Andrew P., Ph.D. (Boise State University), M.S. (Florida Institute of Technology), B.S. (University of Dallas, Trinity), Assistant Professor, Department of Geosciences, 2017.
Lamm, Connie, Ph.D., M.A. (University of Toronto, Canada), B.A. (University of Waterloo), Assistant Professor, Department of Psychological Science, 2016.
Lampinen, James Michael, Ph.D., M.S. (Northwestern University), B.S. (Elmhurst College), Distinguished Professor, Department of Psychological Science, 1998.
Landman, Michael, M.F.A. (Columbia University), B.A. (State University of New York at Binghamton), Associate Professor, Department of Theatre, 2004.
Lan, Marty Maxwell, M.G.D. (North Carolina State University), B.F.A. (University of Illinois at Chicago), Associate Professor, School of Art, 2014.
Langsner, Steve, Ph.D. (Indiana University at Bloomington), M.S. (University of Baltimore), B.S. (Springfield College), Associate Professor, Department of Health, Human Performance and Recreation, 1989.
LaPorte, Angela M., Ph.D. (Pennsylvania State University), M.A. (Arizona State University), B.S. (La Roche College), Professor, School of Art, 1998.
Larsen, Josquin, Diplome (Conservatoire A Rayonnemenet Regional Jean-Philippe Rameau), M.M. (Boston Conservatory), B.A. (University of Northern Colorado), Lecturer, Department of Music, 2018.
Lasater, Kara A., Ed.D. (University of Arkansas), Ed.S., M.S. (Pittsburg State University), B.A. (Drury University), Assistant Professor, Department of Curriculum and Instruction, 2014.
Lattanzi, Paula, J.D. (University of Arkansas), M.S. (West Virginia University), Instructor, Operations Management Program, 2008.
Lau, Wing, Ph.D. (University of Oregon), M.M. (Indiana University), Lecturer, Department of Music, 2016.
Lauder, John, M.A. (University of Missouri), B.A. (Westminster College), Instructor, Department of Management, 2011.

Lavery, Richard J., B.A. (University of South Florida), Assistant Professor, Air Force ROTC, 2016.
Lay, Jackson, Ph.D. (University of Nebraska-Lincoln), Professor, Department of Chemistry and Biochemistry, 2002.
Layiwola, Adepeju, Ph.D. (University of Ibadan, Nigeria), Visiting Professor, School of Art, 2019.
Le, Kieu Ngoc, Ph.D. (North Carolina Agricultural and Technical State University), M.S. (North Carolina Agricultural and Technical State University), B.E., B.S. (Cantho University, Vietnam), Instructor, Department of Biological and Agricultural Engineering, 2017.
Le, Thi Hoang Nga, Ph.D. (Carnegie Mellon University), M.S., B.S. (University of Natural Sciences, Ho Chi Minh City, Vietnam), Assistant Professor, Department of Computer Science and Computer Engineering, 2019.
Lee, Christine, Ph.D. (Arizona State University), Assistant Professor, Department of Anthropology, 2012.
Lee, Dou Young, B.A., B.S. (Korea University), Visiting Instructor, Department of Economics, 2016.
Lee, Jacquelyn A., Ph.D., M.S. (University of Arkansas), B.S. (Arkansas Technical University), Associate Professor, Department of Horticulture, 2016.
Lee, Jung Ae, Ph.D., M.S. (University of Georgia), M.A., B.A., (Ewha Woman's University), Assistant Professor, Department of Crop, Soil and Environmental Sciences, 2016.
Lee, Oh Mee, M.A. (University of Oregon), Visiting Assistant Professor, School of Art, 2019.
Lee, Peggy B., Ed.D. (University of Arkansas), M.S. (University of Southern Mississippi), B.S.N. (Mississippi College), Clinical Assistant Professor, Eleanor Mann School of Nursing, 2009.
Lee, Richard N., Ph.D. (Stanford University), B.A. (Luther College), Associate Professor, Department of Philosophy, 1982.
Lee, Sun-Ok, Ph.D., M.S. (Iowa State University), M.S., B.S. (Dongduk Women's University, South Korea), Associate Professor, Department of Food Science, 2008.
Lee, Wayne Y., Ph.D. (University of California-Los Angeles), M.B.A. (Santa Clara University), B.S.M.E. (De La Salle College, Philippines), Professor, Department of Finance, 1998.
Lee, Yi-Jung, Ph.D. (University of Georgia), M.S. (National Taiwan Normal University), B.Ed. (National Taitung University), Assistant Professor, Department of Curriculum and Instruction, 2019.
Leeds, Stacy, L.L.M. (University of Wisconsin-Madison), J.D. (University of Tulsa), M.B.A. (University of Tennessee), B.A. (Washington University in St. Louis), Professor, School of Law, 2011.
Leen-Feldner, Ellen Winifred, Ph.D. (University of Vermont), M.A. (West Virginia University), B.A. (University of Notre Dame), Professor, Department of Psychological Science, 2005.
Leflar, Charles Joseph, Ph.D., M.A. (University of Missouri-Columbia), B.S.B.A. (University of Arkansas), Clinical Professor, Department of Accounting, 1993.
Leflar, Rob, M.P.H., J.D., A.B. (Harvard University), Professor, School of Law, 1982.
Lehmann, Michael Herbert, Ph.D., Diploma in Biology (Philips University of Marburg, Germany), Professor, Department of Biological Sciences, 2002.
Lehmer, Bret Darby, Ph.D. (Pennsylvania State University), B.S. (University of Iowa), Assistant Professor, Department of Physics, 2015.
Lamp, Joshua, J.D. (University of Iowa), B.A. (University of Northern Iowa), Clinical Assistant Professor, Department of Health, Human Performance and Recreation, 2018.

Leong, Josiah, Ph.D. (Stanford University), B.A. (University of California, Berkeley), Assistant Professor, Department of Psychological Science, 2020.

Lessner, Daniel J., Ph.D. (University of Iowa), B.S. (University of Wisconsin-Stevens Point), Associate Professor, Department of Biological Sciences, 2008.

Lessner, Faith H., Ph.D. (University of Iowa), B.S. (Cornell University), Teaching Assistant Professor, Department of Biological Sciences, 2016.

Levenson, Abra, Ph.D., M.A. (Princeton), B.A. (University of California, Berkeley), Assistant Professor, School of Art, 2018.

Levine, Daniel, Ph.D. (University of Cincinnati), B.A. (University of Minnesota), University Professor, Department of World Languages, Literatures and Cultures, 1980.

Levine, William H., Ph.D., M.S. (State University of New York at Binghamton), B.S. (DePaul University), Associate Professor, Department of Psychological Science, 2001.

Lewis, Jeffrey A., Ph.D. (University of Wisconsin-Madison), B.S. (University of California-Santa Barbara), Assistant Professor, Department of Biological Sciences, 2013.

Leylek, Jim, Ph.D. (University of Illinois-Urbana-Champaign), M.S., B.S. (University of Illinois at Chicago), Professor, Department of Mechanical Engineering, 2011.

Li, Jiadi, Ph.D., M.S. (City University of New York-City College), M.S. (University of Science and Technology of China), B.S. (Hei Long Jiang University), Professor, Department of Physics, 2002.

Li, Jing, Ph.D. (University of Tennessee), Assistant Professor, Department of Economics, 2017.

Li, Qinghua, Ph.D. (Pennsylvania State University), M.S. (Tsinghua University), B.E. (Xi'an Jiaotong University), Associate Professor, Department of Computer Science and Computer Engineering, 2013.

Li, Wing Ning, Ph.D., M.S. (University of Minnesota-Twin Cities), B.S. (University of Iowa), Professor, Department of Computer Science and Computer Engineering, 1989.

Li, Xi, Ph.D. (Vanderbilt University), M.A. (Tulane University), B.S. (Hunan University), Associate Professor, Department of Finance, 2018.

Li, Xin 'Sherry', Ph.D. (University of Michigan), M.A. (Syracuse University), M.A., B.A. (Renmin People's University of China), Professor, Department of Economics, 2018.

Li, Yanbin, Ph.D. (Pennsylvania State University), M.S. (University of Nebraska-Lincoln), B.S. (Shenyang Agricultural University), Distinguished Professor, Department of Biological and Agricultural Engineering, 1989.

Liang, Xinya, Ph.D. (Florida State University), B.S. (Zhejiang Gongshang University, China), Assistant Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2014.

Liang, Yi, Ph.D. (University of Alberta, Canada), M.S., B.S. (China Agricultural University, Beijing, China), Associate Professor, Department of Biological and Agricultural Engineering, 2007.

Liao, Haitao, Ph.D., M.S., M.S.I.S.E. (Rutgers University), B.S.E.E. (Beijing Institute of Technology), Professor, Department of Industrial Engineering, 2015.

Limp, Fred, Ph.D., M.A., B.A. (Indiana University at Bloomington), University Professor, Department of Geosciences, 1979.

Lin, Christopher L., Ph.D. (Colorado School of Mines), M.S. (University of Tulsa), B.S. (University of Arkansas), Professor, Department of Geosciences, 2012.

Lirg, Cathy D., Ph.D. (Michigan State University), M.S. (Indiana State University), B.A. (Muskogee College), Professor, Department of Health, Human Performance and Recreation, 1991.

Littlejohn, Brittni P., Ph.D. (Texas A&M University), Assistant Professor, Department of Animal Science, 2019.

Liu, Pu, Ph.D., M.B.A. (Indiana University at Bloomington), B.S. (National Cheng Kung University), Professor, Department of Finance, 1984.

Liu, Tingting, Ph.D. (Emory University), Assistant Professor, Eleanor Mann School of Nursing, 2018.

Liu, Xiaofeng, Ph.D. (National University of Singapore), B.S.M.E. (Harbin Institute of Technology, China), Assistant Professor, Department of Industrial Engineering, 2017.

Liu, Xiaoping, Ph.D. (Texas A&M University), M.S. (Southeast University, China), B.S. (National University of Defense Technology, China), Professor, Department of Computer Science and Computer Engineering, 2015.

Lo, Wen-Juo, Ph.D., M.A. (Arizona State University), B.S. (SooChow University), Associate Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2008.

Loewer, Otto J., Ph.D. (Purdue University), M.S. (Michigan State University), B.S. (Louisiana State University), Professor, Department of Biological and Agricultural Engineering, 1996.

Loftin, Kelly M., Ph.D. (New Mexico State University), M.S. (University of Arkansas), B.S. (Arkansas Tech), Associate Professor, Department of Entomology and Plant Pathology, 2002.

Lofton, Annette L., M.S.N. (University of Arkansas), B.S.N. (University of Arkansas), Clinical Instructor, Eleanor Mann School of Nursing, 2013.

Long, Mary Beth, Ph.D., M.A. (University of Massachusetts, Amherst), B.A. (Quaichart Baptist University), Assistant Professor, Department of English, 2014.

Looney, Charles R., Ph.D. (Louisiana State University), Professor, Department of Animal Science, 2019.

Looney, Nathan C., J.D. (University of Arkansas at Little Rock), M.P.S. (University of Arkansas Clinton School of Public Service), B.A. (University of Arkansas), Lecturer, Department of Political Science, 2012.

Looper, Michael L., Ph.D. (Oklahoma State University), M.S., B.S. (University of Arkansas), Professor, Department of Animal Science, 2011.

Lorah, Elizabeth R., Ph.D., M.S.Ed., B.A. (Temple University), Associate Professor, Department of Curriculum and Instruction, 2013.

Lorenz, Gus M., Ph.D., B.S.A., M.S. (University of Arkansas), Distinguished Professor, Department of Entomology and Plant Pathology, 1997.

Lorenzo, Benjamin, D.M.A., M.M. (University of Texas), B.M. (Florida International University), Assistant Professor, Department of Music, 2015.

Lorenzo, Violeta, Ph.D. (University of Toronto), M.A., B.A. (University of Florida), Assistant Professor, Department of World Languages, Literatures and Cultures, 2014.

Lorince, Tammy, M.A., B.S. (University of Arkansas), Instructor, Department of Biological Sciences, 2000.

Luckstead, Jeff A., Ph.D. (Washington State University), M.S., B.S. (University of Idaho), Associate Professor, Department of Agricultural Economics and Agribusiness, 2013.

Luccking, Daniel H., Ph.D., M.S., B.A. (University of Illinois-Urbana-Champaign), Professor, Department of Mathematical Sciences, 1981.

Lueke, Sarah B., Ph.D. (University of Akron), Clinical Assistant Professor, Department of Management, 2019.
Luo, Fang, Ph.D. (Huazhong University of Science and Technology), Assistant Professor, Department of Electrical Engineering, 2017.

Luoni, Stephen D., M.Arch. (Yale University), B.S.Arch. (Ohio State University), Professor, Department of Architecture, 2003.

Luu, Khoa, Ph.D. (Concordia University), Assistant Professor, Department of Computer Science and Computer Engineering, 2018.

Ma, Weiyi, Ph.D. M.A. (University of Delaware), B.A. (China West Normal University), Assistant Professor, School of Human Environmental Sciences, 2017.

Ma, Xiao, Ph.D. (University of Wisconsin), M.A. (Syracuse University), B.A. (Nanjing University), Assistant Professor, Department of Information Systems, 2014.

Mackay, Wayne A., Ph.D. (University of Maryland), M.S. (University of Delaware), B.S. (Virginia Polytechnic Institute and State University), Professor, Department of Horticulture, 2014.

MacKeith, Peter, M.Arch. (Yale University), B.A. (University of Virginia), Professor, Department of Architecture, 2014.

MacRae, Christopher, D.M.A. (Boston University), Instructor, Department of Music, 2015.

Maddox, Robert F., Ph.D. (University of Nebraska), Instructor, Department of Rehabilitation, Human Resource and Communication Disorders, 2019.

Madison, Karen, Ph.D., M.A., B.A. (University of Arkansas), Instructor, Department of English, 2008.

Magnetti, Brenda Monica, M.A. (University of Arkansas), B.A. (Ouachita Baptist University), Instructor, Department of World Languages, Literatures and Cultures, 2007.

Magoulick, Daniel, Ph.D. (University of Pittsburgh), M.S. (Eastern Michigan University), B.S. (Michigan State University), Research Professor, Department of Biological Sciences, 2000.

Mahmoud, Rania, Ph.D. (University of Washington), M.A. (Old Dominion University), B.A. (University of Alexandria, Egypt), Assistant Professor, Department of World Languages, Literatures and Cultures, 2017.

Mains, Ronda M., D.M.A. (University of Oregon), M.A., B.M. (Boise State University), Professor, Department of Music, 1987.

Makanova, Anastasia, Ph.D. (Florida State University), B.A. (Hendrix College), Assistant Professor, Department of Psychological Science, 2019.

Malakhor, Alexey, Ph.D. (Northwestern University), Ph.D. (University of North Carolina at Charlotte), M.S. (Moscow State University), Associate Professor, Department of Finance, 2006.

Malis, David, M.M. (University of Cincinnati), Assistant Professor, Department of Music, 2013.

Malladi, Suresh, Ph.D. (University of Michigan), M.S. (Carnegie Mellon University), M.B.A. (National Institute of Technology), B.E. (Osmania University), Assistant Professor, Department of Information Systems, 2014.

Mamiseishvili, Ketevan, Ph.D., M.A. (University of Missouri-Columbia), B.A. (Akaki Tsereteli State University), Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2008.

Manasreh, Bothina H., Ph.D., M.Sc. (University of Jordan), Research Assistant Professor, Department of Physics, 2017.

Manasreh, Omar, Ph.D. (University of Arkansas), M.S. (University of Puerto Rico-Rio Piedras), B.S. (University of Jordan), Professor, Department of Electrical Engineering, 2003.

Manero, Paolo, Ph.D. (Purdue University), M.Sc., B.Sc. (University of Genova, Italy), Assistant Professor, Department of Mathematical Sciences, 2015.

Mantooth, Alan, Ph.D. (Georgia Institute of Technology), M.S., B.S. (University of Arkansas), Distinguished Professor, Department of Electrical Engineering, 1998.

Maranto, Robert Anthony, Ph.D. (University of Minnesota), B.S. (University of Maryland), Professor, Department of Education Reform, 2008.

Marce, John A., Ph.D., M.S. (Iowa State), B.S. (University of Tennessee), Extension Professor, Department of Poultry Science, 1993.

Margaret, Hershberger, Ph.D., M.S. (University of Chicago), B.S. (The Ohio State University), Instructor, Department of Chemistry and Biochemistry, 2015.

Margulis, Elizabeth Hellmuth, Ph.D., M.A., M.Phil. (Columbia University), B.M. (Peabody Conservatory), Professor, Department of Music, 2006.

Margulis, Jura, Graduate Performance Diploma (Peabody Conservatory of Music, Johns Hopkins University) M.M. (Musikhochschule Freiburg, Germany), B.M. (Musikhochschule Freiburg, Germany), Professor, Department of Music, 1999.

Marion, Jonathan S., Ph.D., M.A. (University of California-San Diego), B.A. (University of Redlands), Associate Professor, Department of Anthropology, 2012.

Markham, Elizabeth Jane, Ph.D. (Cambridge University), B.A. (University of Otago, New Zealand), Professor, Department of History, 2000.

Marren, Susan M., Ph.D., M.A. (University of Michigan-Ann Arbor), B.A. (Cornell University), Associate Professor, Department of English, 1995.

Marshall, Jill A., Ph.D. (University of Oregon), M.S. (San Francisco State University), B.S. (California State University, Hayward), Assistant Professor, Department of Geosciences, 2017.

Marshfield, Jonathan, LL.M (New York University), J.D. (Rutgers University-Camden), B.A. (Cedarville University), Associate Professor, School of Law, 2013.

Martin, Kim I., M.A., B.S.Ed. (University of Arkansas), Instructor, School of Journalism and Strategic Media, 1997.

Martin, Terry W., Ph.D., M.S.E.E., B.S.E.E. (University of Arkansas), Professor, Department of Electrical Engineering, 1990.

Martinez, Dylan, Ph.D., M.S., B.S. (University of Arkansas), Instructor, School of Human Environmental Sciences, 2019.

Marzolf, Steven, M.F.A. (University of San Diego), B.A. (University of Wisconsin–Green Bay), Lecturer, Department of Theatre, 2015.

Mason, Richard Esten, Ph.D., B.A. (Texas A&M University), Associate Professor, Department of Crop, Soil and Environmental Sciences, 2010.

Matlock, Marty D., Ph.D., M.S., B.S. (Oklahoma State University), Professor, Department of Biological and Agricultural Engineering, 2001.

Matthews, Carl W., M.S. (Pratt Institute), Professor, Department of Interior Design, 2012.

Matthews, Mary Beth, J.D., B.S.E. (University of Arkansas), Professor, School of Law, 1981.

Maurooustakos, Andy, Ph.D., M.S. (Oklahoma State University), B.S. (Oral Roberts University), Professor, Department of Crop, Soil and Environmental Sciences, 1989.

Maxwell, Angie, Ph.D., M.A. (University of Texas at Austin), B.A. (University of Arkansas), Associate Professor, Department of Political Science, 2008.

Maxwell, Charles, Ph.D. (University of Wisconsin-Madison), M.S., B.S. (University of Georgia), Professor, Department of Animal Science, 1996.
Mayes, Eric, Ph.D. (Howard University), Associate Professor, Department of Curriculum and Instruction, 2019.
Mazur, Yuriy, Ph.D. (Institute of General Physics, Moscow), M.S. (Moscow Institute of Physics and Engineering, Russia), Professor, Nanotechnology, 2001.
Mazzanti, Christopher L., Ph.D., M.S. (University of Arkansas), B.S. (University of Arkansas at Monticello), Instructor, Department of Chemistry and Biochemistry, 2012.
McCaffrey, Raymond, Ph.D. (University of Maryland), M.A. (University of Colorado), M.A. (Columbia University), B.A. (Fairfield University), Assistant Professor, School of Journalism and Strategic Media, 2014.
McCann, Roy A., Ph.D. (University of Dayton), M.S.E.E., B.S.E.E. (University of Illinois), Professor, Department of Electrical Engineering, 2003.
McCartney, Nancy Glover, Ph.D., M.A., B.A. (University of Wisconsin-Madison), Assistant Curator, Assistant Professor, University Museum, 1974.
McComas, Kim Krusen, Ph.D. (University of Arkansas), M.A. (West Chester University of Pennsylvania), B.A. (University of Arizona), Teaching Assistant Professor, Department of Curriculum and Instruction, 2012.
McComas, William, Ph.D. (University of Iowa), M.S. (West Chester University of Pennsylvania), B.S. (Lock Haven University of Pennsylvania), Distinguished Professor, Department of Curriculum and Instruction, 2006.
McConnell, Mathew S., M.F.A. (University of Colorado-Boulder), B.F.A. (Valdosta State University), Associate Professor, School of Art, 2011.
McCown, Ken, M.Arch. (University of Illinois at Urbana Champaign), Professor, Department of Landscape Architecture, 2019.
McCray, Suzanne, Ph.D. (University of Tennessee), M.A., B.A. (University of Arkansas), Associate Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2010.
McDermott, Brendon P., Ph.D. (University of Connecticut), M.S. (Indiana University at Bloomington), B.S. (Northeastern University), Associate Professor, Department of Health, Human Performance and Recreation, 2012.
McDonald, Garry Vernon, Ph.D., M.S., B.S.A. (Texas A&M University), Clinical Assistant Professor, Department of Horticulture, 2016.
McGee, Joshua B., Ph.D., M.S., B.S. (University of Arkansas), Research Assistant Professor, Department of Education Reform, 2019.
McGee, Peter J., Ph.D. (Ohio State University), B.S. (Tulane University), Associate Professor, Department of Economics, 2014.
McIntosh, Matt, Ph.D. (Pennsylvania State University), B.A. (Virginia Tech), Professor, Department of Chemistry and Biochemistry, 1996.
McKenzie, Andrew Malcolm, Ph.D. (North Carolina State University), M.Sc. (Stirling University), B.Admin. (University of Dundee), Professor, Department of Agricultural Economics and Agribusiness, 1998.
McKenzie, Sarah C., Ph.D. (University of Arkansas), M.A. (Mills College), B.A. (Claremont McKenna College), Research Assistant Professor, Department of Education Reform, 2018.
McKnight, Rebecca, M.B.A. (University of Arkansas), Instructor, Department of Management, 2016.
McMahon, Bree, M.A., B.A. (North Carolina State University), Assistant Professor, School of Art, 2018.
McMullen, Amanda, Ph.D. (University of Miami), B.A. (Stetson University), Assistant Professor, Department of Philosophy, 2019.
McNabb, David S., Ph.D. (Louisiana State University Health Sciences Center), B.S. (University of Texas at Arlington), Associate Professor, Department of Biological Sciences, 2000.
McNally, Shelley Ann, Ph.D. (University of Toledo), M.S., B.S. (Ohio University), Professional Practice Assistant Professor, School of Human Environmental Sciences, 2016.
McWhirt, Amanda L., Ph.D. (North Carolina State University), M.S. (Louisiana State University), B.S. (Tarleton State University), Assistant Professor, Department of Horticulture, 2016.
Meares, Ian, M.F.A (Penn State), M.F.A (University of California at Irvine), Instructor, School of Art, 2017.
Mears, Derrick, Ph.D. (University of Arkansas), M.S., B.S. (University of Central Missouri), Teaching Associate Professor, Department of Curriculum and Instruction, 2014.
Medina Vidal, D. Xavier, Ph.D. (University of California-Riverside), M.A., B.A. (University of New Mexico), Associate Professor, Department of Political Science, 2015.
Meltin, Kerry D., Ph.D. (Oklahoma State University), M.S., B.S. (University of Arkansas), Instructor, Operations Management Program, 2013.
Meng, Xiangbo, Ph.D. (University of Western Ontario), M.S.E.E. (China University of Petroleum), B.S.C.E. (Northwestern University), Assistant Professor, Department of Mechanical Engineering, 2016.
Menta, Prasanna K., Ph.D. (University of Maryland University College), Instructor, Operations Management Program, 2019.
Messadi, Tahar, Ed.D., M.Arch. (University of Michigan-Ann Arbor), B.Arch. (Universite de Constantine, Algeria), Associate Professor, Department of Architecture, 2003.
Meulinenet, Jean-François, Ph.D. (University of Georgia), M.S. (National Superior School of Agronomy and Food Science, Nancy, France), Professor, Department of Food Science, 1996.
Micheel, Tyler, M.F.A., B.F.A. (Dakota State University), Instructor, Department of Theatre, 2016.
Mihalka, Matthew W., Ph.D. (University of Minnesota), M.A. (University of Minnesota-Duluth), M.A. (University of Minnesota-Twin Cities), Instructor, Department of Music, 2011.
Milburn, Ashlea R., Ph.D. (Georgia Institute of Technology), M.S.I.E. (Virginia Polytechnic Institute and State University), B.S.I.E. (University of Arkansas), Associate Professor, Department of Industrial Engineering, 2010.
Miles, Rebecca S., Ph.D. (Oklahoma Christian University), M.Ed. (Central State University), B.S. (Oklahoma Christian College), Clinical Assistant Professor, Department of Marketing, 2007.
Miller, Bettie Gale, M.S.N. (University of Phoenix), M.S., B.S.E., B.S.N. (University of Arkansas), Instructor, Eleanor Mann School of Nursing, 2003.
Miller, David M., Ph.D. (University of Georgia), M.S., B.S. (Purdue University), Professor, Department of Crop, Soil and Environmental Sciences, 1988.
Miller, Douglas James, M.A. (University of Arkansas), B.A. (Johns Hopkins University), Instructor, Department of World Languages, Literatures and Cultures, 1999.
Miller, Jefferson Davis, Ph.D., M.A. (Oklahoma State University), B.A. (Northeastern State University), Professor, Department of Agricultural Education, Communications and Technology, 2001.

Miller, Lance E., Ph.D. (University of Connecticut), M.S. (New Mexico State University), Associate Professor, Department of Mathematical Sciences, 2013.

Miller, Michael T., Ed.D. (University of Nebraska), M.S., B.A. (Southern Illinois University), Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2003.

Miller, Wayne P., Ph.D. (University of Wisconsin), M.S. (University of Illinois), B.S. (Purdue University), Extension Professor, Department of Agricultural Economics and Agribusiness, 1992.

Millett, Francis, Ph.D. (Columbia University), B.S. (University of Wisconsin), Distinguished Professor, Department of Chemistry and Biochemistry, 1972.

Millett, Joseph D., M.F.A. (University of Southern California), B.A. (Union College), Visiting Assistant Professor, Department of Theatre, 2015.

Millett, Paul, Ph.D., M.S. (University of Arkansas), B.E. (Vanderbilt University), Associate Professor, Department of Mechanical Engineering, 2013.

Mills, Jonathan, Ph.D. (University of Arkansas), M.A., B.S. (University of Missouri-Columbia), Research Associate, Department of Education Reform, 2018.

Minar, Edward H., Ph.D., A.M., A.B. (Harvard University), Professor, Department of Philosophy, 1994.

Minor, Ray, M.A. (Northwestern University), B.A. (University of Arkansas), Instructor, School of Journalism and Strategic Media, 2012.

Misenhelter, Dale D., Ph.D. (Florida State University), M.A. (University of Wyoming), B.M. (Florida State University), Professor, Department of Music, 2002.

Mitchell, Joshua Lee, Ph.D. (Southern Illinois University), M.P.A., B.S. (Murray State University), Associate Professor, Department of Political Science, 2010.

Mitchell, Marc E., M.F.A. (Boston University), Associate Professor, School of Art, 2014.

Mitra, Suman, Ph.D. (University of California, Irvine), M.S., B.S. (Bangladesh University of Engineering and Technology), Assistant Professor, Department of Civil Engineering, 2019.

Mixdorf, Cory, D.M.A., M.M. (Indiana University), B.A. (University of Northern Iowa), Assistant Professor, Department of Music, 2013.

Miakar, Paul Francis, M.B.A. (University of Arkansas), Instructor, Department of Management, 2019.

Moiseichik, Merry Lynn, J.D. (University of Arkansas), R.Ed. (Indiana University at Bloomington), M.S., B.S.E. (State University of New York at Cortland), Professor, Department of Health, Human Performance and Recreation, 1989.

Montejo Pizarro, Marsha, Ph.D. (Texas A&M University), B.A. (Universidad de La Habana, Cuba), Instructor, Department of World Languages, Literatures and Cultures, 2015.

Montgomery, Mike, D.M.A. (University of Miami), M.M., B.M. (University of Southern Mississippi), Lecturer, Department of Music, 2017.

Moore, Brian, M.S.W. B.S.W (University of Arkansas), Lecturer, School of Social Work, 2004.

Moradi, Mahmoud, Ph.D. (North Carolina State University), M.S., B.S. (Sharif University of Technology), Assistant Professor, Department of Chemistry and Biochemistry, 2015.

Morawicki, Ruben O., Ph.D. (Pennsylvania State University), M.Eng. (State University of New York-Buffalo), B.S. (Universidad Nacional de Misiones, Argentina), Associate Professor, Department of Food Science, 2006.

Morimoto, Shauna, Ph.D., M.S. (University of Wisconsin-Madison), B.A. (University of Pittsburgh), Associate Professor, Department of Sociology and Criminology, 2008.

Morris, Noel, B.A. (Arkansas Tech University), Instructor, Department of Finance, 2007.

Morrisey, Sean P., M.F.A. (University of Nebraska-Lincoln), B.F.A. (Bowling Green State University), Assistant Professor, School of Art, 2014.

Morrow, Tommy K., Ph.D. (University of Texas at Austin), Instructor, Department of Civil Engineering, 2019.

Mortensen, Jennifer, Ph.D. (Tufts University), M.S. (Villanova University), Teaching Assistant Professor, Department of Biological Sciences, 2019.

Moxley, Jacquelyn Dee, Ph.D. (Texas Tech University), M.S. (Arizona State University), B.A. (University of Northern Iowa), Associate Professor, School of Human Environmental Sciences, 2010.

Mounts, Denise Ann, Ed.D. (Saint Louis University), B.S.E. (Northwest Missouri State University), Clinical Associate Professor, Department of Curriculum and Instruction, 2005.

Moustafa, Rida, Ph.D., M.S. (George Mason University), B.S. (Zagazig University, Egypt), Visiting Lecturer, Department of Computer Science and Computer Engineering, 2015.

Moxley, Shari Coleman, Ph.D. (University of North Carolina), Instructor, School of Human Environmental Sciences, 2013.

Moyer, Rachael M., Ph.D., M.S., M.A. (University of Arkansas), B.A. (University of Missouri-St. Louis), Lecturer, Department of Political Science, 2020.

Mozaffari, Morteza, Ph.D. (University of Delaware), M.S., B.S. (University of Massachusetts), Assistant Professor, Department of Crop, Soil and Environmental Sciences, 2002.

Mozzoni, Leandro, Ph.D. (University of Arkansas), M.S. B.S. (Rosario National University), Associate Professor, Department of Crop, Soil and Environmental Sciences, 2017.

Muir, Sherry, Ph.D. (Walden University), M.O.T. (Texas Women’s University), Associate Professor, Department of Occupational Therapy, 2017.

Muldoon, Timothy J., M.D. (Baylor College of Medicine), Ph.D. (Rice University), B.S. (Johns Hopkins University), Associate Professor, Department of Biomedical Engineering, 2012.

Mullins, Jeff, M.A., B.S. (University of Arkansas), Assistant Professor, Department of Information Systems, 2006.

Muntz, Charles E., Ph.D. (Duke University), B.A. (Swarthmore College), Associate Professor, Department of History, 2008.

Murdock, Jeffrey A., Ph.D. (University of Memphis), M.M., B.M. (University of Southern Mississippi), Assistant Professor, Department of Music, 2015.

Muff, Zora J., M.F.A. (University of Nebraska), Assistant Professor, School of Art, 2018.

Murphy, William C., M.S. (National Defense University), M.A. (George Washington University), Instructor, Department of Supply Chain Management, 2014.

Murphy, Cheryl Ann, Ed.D., M.A., B.A. (West Virginia University), Professor, Department of Curriculum and Instruction, 1996.
Murphy, Tiffany, J.D., B.A. (University of Michigan), Associate Professor, School of Law, 2014.
Murray, Jeff B., Ph.D. (Virginia Polytechnic Institute and State University), M.A., B.A. (University of Northern Colorado), Professor, Department of Marketing, 1989.
Murray, Lori M., D.N.P. (University of Kansas Medical Center), M.S., B.S.N. (University of Oklahoma Health Sciences Center), Clinical Assistant Professor, Eleanor Mann School of Nursing, 2015.
Musgnug, Kristin Ann, M.F.A. (Indiana University at Bloomington), B.A. (Williams College), Associate Professor, School of Art, 1991.

N
Na, Dominic K., D.M.A. (University of North Texas), A.D. (Southern Methodist University), Instructor, Department of Music, 2016.
Nachtmann, Heather, Ph.D., M.S.I.E., B.S.I.E. (University of Pittsburgh), Professor, Department of Industrial Engineering, 2000.
Nair, Arun, Ph.D. (Virginia Polytechnic State University), M.S. (Colorado State University), B.T. (Mahatma Gandhi University), Associate Professor, Department of Mechanical Engineering, 2013.
Nairi, Humayun, Ph.D. (University of Montreal), M.Sc. (University of British Columbia), Assistant Professor, Department of Physics, 2019.
Nakahara, Nagayasu, Ph.D. (University of California, Los Angeles), B.S. (University of California, San Diego), Assistant Professor, Department of Biological Sciences, 2017.
Nakamura, Hiroyuki, Ph.D., M.S., B.S. (University of Tokyo), Assistant Professor, Department of Physics, 2019.
Nakanishi, Nagayasu, Ph.D. (University of California, Los Angeles), B.S. (University of California, San Diego), Assistant Professor, Department of Biological Sciences, 2017.
Nalley, Lawton Lani, Ph.D. (Kansas State University), M.S. (Mississippi State University), B.S. (The Ohio State University), Professor, Department of Agricultural Economics and Agribusiness, 2008.
Namakushi, Nara, Ph.D., M.Ed. (Texas State University), B.S. (Angelo State University), Teaching Assistant Professor, Department of Mathematical Sciences, 2016.
Nance, Cynthia, M.A., J.D. (University of Iowa), B.S. (Chicago State University), Professor, School of Law, 1994.
Naseem, Hameed A., Ph.D., M.S. (Virginia Polytechnic University), M.Sc. (Panjab University), University Professor, Department of Electrical Engineering, 1985.
Natarajan, Venkatesan Ram, Ph.D., M.A. (New York University), B.A. (Johns Hopkins University), Assistant Professor, Department of Anthropology, 2015.
Nayga, Rodolfo, Ph.D. (Texas A&M University), M.S. (University of Delaware), B.S. (Foreign Institution), Distinguished Professor, Department of Agricultural Economics and Agribusiness, 2009.
Naylor, Zoe E., J.D., M.A. (University of Arkansas), B.A. (Glelaced University), Instructor, Department of Political Science, 2000.
Needy, Kim LaScola, Ph.D. (Wichita State University), P.E., M.S.I.E., B.S.I.E. (University of Pittsburgh), Professor, Department of Industrial Engineering, 2008.
Nelms, Carrie, M.A. (University of Arkansas), Instructor, Department of Supply Chain Management, 2019.
Nelson, Alexander H., Ph.D. (University of Maryland), M.S., B.S. (University of Arkansas), Assistant Professor, Department of Computer Science and Computer Engineering, 2017.
Nelson, Christopher, Ph.D. (Vanderbilt University), Assistant Professor, Department of Biomedical Engineering, 2019.
Neville-Shipard, Meredith D., Ph.D. (University of Kansas), M.A. (University of Kansas), B.A. (Furman University), Teaching Assistant Professor, Department of Communication, 2016.
Neville-Shipard, Ryan M., Ph.D. (University of Kansas), M.A. (University of Kansas), B.A. (Bates College), Assistant Professor, Department of Communication, 2016.
Nickol, Benjamin T., B.A. (University of Notre Dame), Instructor, 2007.
Ni, Wenbo, Ph.D. (University of Illinois at Chicago), M.S., B.S. (Fudan University, China), Assistant Professor, Department of Mathematical Sciences, 2015.
Niño, Michael D., Ph.D. (University of North Texas), M.A., B.S. (West Texas A&M University), Assistant Professor, Department of Sociology and Criminology, 2020.
Nolan, Justin Murphy, Ph.D., M.A. (University of Missouri-Columbia), B.A. (Westminster College), Associate Professor, Department of Anthropology, 2002.
Norman, Mya A., Ph.D. (University of Colorado-Boulder), M.S., B.S. (University of Arkansas), Instructor, Department of Chemistry and Biochemistry, 2006.
Norris, Greg, Ph.D. (University of New Hampshire), M.S. (Indiana University-Purdue University-Indianapolis), B.S. (Massachusetts Institute of Technology), Professor, Walton College of Business, 2009.
Norwaring, Jason Keith, Ph.D., M.S. (University of Arkansas), B.S. (Louisiana Tech University), Distinguished Professor, Department of Crop, Soil and Environmental Sciences, 2006.
Norvell, Phillip E., J.D. (University of Oklahoma), B.A. (University of Oklahoma), Professor, School of Law, 1975.
Norwood, Demeka L., Ph.D. (University of Missouri), Lecturer, Department of Curriculum and Instruction, 2019.
Norwood, John Martel, J.D. (Tulane University), M.B.A., B.A. (Louisiana State University), Professor, Department of Accounting, 1981.
Nurre Pinkley, Sarah, Ph.D., M.Eng., B.S. (Rensselaer Polytechnic Institute), Assistant Professor, Department of Industrial Engineering, 2015.
Nutter, Darin W., Ph.D. (Texas A&M University), M.S.M.E., B.S.M.E. (Oklahoma State University), Professor, Department of Mechanical Engineering, 1994.

O
O'Brien, Catherine, Ph.D. (University of Illinois, Chicago), M.P.H. (San Diego State University), M.A. (University of California, San Diego), B.S.Ed. (University of Wisconsin, Madison), Instructor, School of Human Environmental Sciences; 2016.
O'Leary-Kelly, Anne M., Ph.D. (Michigan State University), B.A. (University of Michigan), Professor, Department of Management, 1997.
O'Loughlin, J. Brian, Ph.D. (University of Alabama), M.A. (Syracuse University), B.S. (Boston College), Visiting Assistant Professor, Department of Communication, 2016.
Ogilvie, Christine R., Ph.D. (University of Central Florida), Lecturer, Department of Curriculum and Instruction, 2019.
Oliver, William, Ph.D., M.S. (University of Colorado-Boulder), B.S. (University of Arizona), Associate Professor, Department of Physics, 1992.
Olmedo Gobante, Manuel, Ph.D. (University of Chicago), M.A. (University of Chicago), B.A. (King’s College), Assistant Professor, Department of World Languages, Literatures and Cultures, 2020.

Omura, Mafumi, M.A. (University of Iowa), B.A. (Kansai Gaidai University), Instructor, Department of World Languages, Literatures and Cultures, 2016.

Orlowski, Sara K., Ph.D., M.S. (University of Arkansas), B.S. (Cornell University), Assistant Professor, Department of Poultry Science, 2019.

Orr, Betsy, Ed.D., M.Ed. (University of Arkansas), B.A. (University of Arkansas at Monticello), Associate Professor, Department of Curriculum and Instruction, 1989.

Ortega, Catalina, M.M. (University of Arkansas), B.A. (Pontificia Universidad Javeriana, Colombia), Instructor, Department of Music, 2014.

Ortega, Jason, M.S. (University of Texas-Pan American), B.S. (Cornell University), Instructor, Department of Biological Sciences, 2019.

Osborn, G. Scott, Ph.D. (North Carolina State University), M.S., Ag.E., B.S. (University of Kentucky), Associate Professor, Department of Biological and Agricultural Engineering, 2001.

Osborne, Cara, Sc.D., M.S. (Harvard University), M.S.N. (Vanderbilt University, Assistant Professor, Eleanor Mann School of Nursing, 2018.

Overby, Theresa, B.A. (University of Arkansas, Little Rock), Instructor, School of Human Environmental Sciences, 2020.

Owen, Donna S., M.S., B.S., B.A. (University of Arkansas), Clinical Instructor, Department of Curriculum and Instruction, 2005.

P

Padilla, Yajaira, Ph.D. (University of California, San Diego), B.A. (University of California, Santa Cruz), Associate Professor, Department of English, 2013.

Paez, Rocio Alejandra, Ph.D., M.A., B.A. (University of Arkansas at Little Rock), Visiting Assistant Professor, Department of Sociology and Criminology, 2018.

Page, Patricia, J.D. (University of Arkansas at Little Rock), M.S.W. (Florida State University), B.S.W. (University of Arkansas), Lecturer, School of Social Work, 2014.

Panayotova, Miroslava Saifur, Ph.D. (University of Arizona), Instructor, Department of Music, 2014.

Panda, Brajendra Nath, Ph.D. (North Dakota St. University), M.S. (Utkal University, India), Professor, Department of Computer Science and Computer Engineering, 2001.

Paradise, Thomas R., Ph.D. (Arizona State University), M.A. (Georgia State University), F.G.A., G.G. (Gemological Institute of America), B.S. (University of Nevada), University Professor, Department of Geosciences, 2000.

Pare, Adam C., Ph.D. (University of California, San Diego), B.S. (Cornell University), Assistant Professor, Department of Biological Sciences, 2019.

Park, Doyoung, Ph.D. (University of Colorado), Assistant Professor, Department of Economics, 2019.

Park, Joon, Ph.D. (University of Oregon), M.A., B.M. (Eastman School of Music), Assistant Professor, Department of Music, 2016.

Park, Kiwoong, Ph.D. (University of Albany), Assistant Professor, Department of Sociology and Criminology, 2019.

Park, Moon, D.M.A. (University of Cincinnati), M.M. (Staatliche Hochschule fur Musik in Freiburg), B.M. (University of Seoul National), Assistant Professor, Department of Music, 2012.

Parker, Betty, M.S.W., B.S.W. (University of Arkansas), Lecturer, School of Social Work, 2013.

Parkerson, Pat, Ph.D., B.S. (University of Arkansas), Associate Professor, Department of Computer Science and Computer Engineering, 1990.

Parks, Nathan A., Ph.D., M.S. (Georgia Institute of Technology), B.A. (University of Virginia), Assistant Professor, Department of Psychological Science, 2012.

Parnell, Gregory S., Ph.D. (Stanford University), M.S. (University of Southern California), M.E.I.S.E. (University of Florida), B.S. (University of New York at Buffalo), Professor of Practice, Department of Industrial Engineering, 2013.

Parry, Janine A., Ph.D., M.A. (Washington State University), B.A. (Western Washington University), Professor, Department of Political Science, 1998.

Paré, Adam C., Ph.D. (University of California, San Diego), B.S. (Cornell University), Assistant Professor, Department of Biological Sciences, 2019.

Patitz, Matthew J., Ph.D., M.S., B.S. (Iowa State University), Associate Professor, Department of Computer Science and Computer Engineering, 2012.

Patton, Susan Kane, Ph.D., M.S.N. (University of Arkansas), M.H.S.A. (University of Arkansas at Little Rock), B.S.N. (University of Arkansas for Medical Sciences), Assistant Professor, Eleanor Mann School of Nursing, 2010.

Paul, Kathleen, Ph.D., M.A. (Arizona State University), B.A. (New York University), Assistant Professor, Department of Anthropology, 2019.

Payne, Whitney, M.S.W (University of Arkansas), B.S.W (University of Alaska–Anchorage), Clinical Assistant Professor, School of Social Work, 2012.

Peng, Yarui, Ph.D., M.S. (Georgia Institute of Technology), B.S. (Tsinghua University), Assistant Professor, Department of Computer Science and Computer Engineering, 2017.

Penner-Williams, Janet, Ed.D., M.Ed., B.S.E. (University of Houston), Associate Professor, Department of Curriculum and Instruction, 2005.

Peptone, Lauren, Ph.D., M.A. (Johns Hopkins University), B.A., Vassar University, Assistant Professor, Department of History, 2016.

Pereira, Andy, Ph.D. (Iowa State University), M.S. (Indian Agricultural Research Institute, India), B.Sc.Ag. (Govind Ballabh Pant University of Agriculture and Technology, India), Professor, Department of Crop, Soil and Environmental Sciences, 2011.

Perry, Kim, M.S. (University of Arkansas), Instructor, Department of Rehabilitation, Human Resource and Communication Disorders, 2007.

Perryman, Kristi Leann, Ph.D. (University of Arkansas), M.S., B.S. (Southwest Missouri State University), Assistant Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2014.

Peters, Gary F., Ph.D. (University of Oregon), M.S. (University of Missouri-Columbia), B.S. (Arkansas Tech University), Professor, Department of Accounting, 2003.

Petretic, Patricia Anne Louise, Ph.D., M.A. (Bowling Green State University), B.A. (Youngstown State University), Associate Professor, Department of Psychological Science, 1990.

Petris, Giovanni, Ph.D., M.S. (Duke University), B.S. (Università degli Studi di Milano, Italy), Professor, Department of Mathematical Sciences, 1999.

Petrone, Kim, J.D. (Northwestern University), B.A. (Southern Methodist University), Instructor, Department of Accounting, 2012.

Philipp, Dirk, Ph.D. (Texas Tech University), M.S., B.S. (University of Leizig, Germany), Associate Professor, Department of Animal Science, 2007.
Phillips, Jared, Ph.D., M.A., B.A. (University of Arkansas), Clinical Assistant Professor, International and Global Studies, 2017.

Pierce, Lisa, M.S. (University of Georgia), B.S. (University of Tennessee), Instructor, Department of Information Systems, 2014.

Pierce, Michael C., Ph.D., M.A. (The Ohio State University), B.A. (Kenyon College), Associate Professor, Department of History, 2001.

Pierson, Harry A., Ph.D. (The Ohio State University), M.S.E.M., B.S.M.E. (University of Missouri, Rolla), Assistant Professor, Department of Industrial Engineering, 2014.

Pijanowski, John C., Ph.D., M.S. (Cornell University), B.A. (Brown University), Professor, Department of Curriculum and Instruction, 2007.

Pinto, Ines, Ph.D. (Louisiana State University Health Sciences Center), M.S., B.S. (University of Chile), Associate Professor, Department of Biological Sciences, 2000.

Pittman, Harrison Mauzy, LL.M. (University of Arkansas), J.D., B.A. (University of Arkansas at Little Rock), Assistant Professor, National Agricultural Law Center, 2001.

Place, Alison L., M.F.A (Miami University), Assistant Professor, School of Art, 2017.

Plassmeyer, Mark P., Ph.D. (University of Denver), M.S.W. (University of Pittsburgh), B.A (Fort Lewis College), Assistant Professor, School of Social Work, 2019.

Plevcan, Joseph M., Ph.D., B.A. (Duke University), Professor, Department of Anthropology, 2001.

Pohl, Edward A., Ph.D., M.S.R.E. (University of Arizona), M.S.S.E. (Air Force Institute of Technology), M.S.E.M. (University of Dayton), B.S.E.E. (Boston University), Professor, Department of Industrial Engineering, 2004.

Pohl, Letitia, Ph.D. (University of Arkansas), M.S.S.E. (Air Force Institute of Technology), B.S.M.E. (Tulane University), Teaching Assistant Professor, Department of Industrial Engineering, 2013.

Pohiman, Fred W., Ph.D. (Kansas State University), M.S. (University of Tennessee), B.S. (University of Missouri-Columbia), Professor, Department of Animal Science, 1997.

Pollock, Chad Aaron, M.A. (University of Missouri-Columbia), M.Div. (Baylor University), B.A. (Ouachita Baptist University), Assistant Librarian, University Libraries, 2011.

Pope, Adam, Ph.D. (Purdue University), M.A. (University of Arkansas), B.A. (Freed-Hardeman University), Assistant Professor, Department of English, 2013.

Popejoy, Erin O., Ph.D. (University of Texas–San Antonio), M.A. (Texas State University), B.A. (Case Western Reserve University), Assistant Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2015.

Popp, Jennie Sheerin, Ph.D., M.S. (Colorado State University), B.S. (University of Scranton), Professor, Department of Agricultural Economics and Agribusiness, 1998.

Popp, Michael P., Ph.D. (Colorado State University), M.B.A. (University of Colorado-Boulder), B.Comm. (University of Manitoba), Professor, Department of Agricultural Economics and Agribusiness, 1998.

Porter, Errol, M.S.E.E., B.S.E.E. (University of Arkansas), Research Associate, Microelectronics-Photonics, 1997.

Posnak, Adam, M.F.A (Louisiana State University and A&M College), Instructor, School of Art, 2010.

Post, Rana, M.B.A. (William Woods University), B.S. (University of Missouri, Columbia), Instructor, School of Human Environmental Sciences, 2008.

Potra, Adriana, Ph.D. (Florida International University), M.S., B.S. (University of Babes-Bolyai, Romania), Associate Professor, Department of Geosciences, 2012.

Powell, Jeremy G., Ph.D. (University of Arkansas), D.V.M. (Oklahoma State University), B.S. (University of Arkansas), Professor, Department of Animal Science, 2009.

Powell, Rob, M.S., B.S. (Louisiana State University), Instructor, School of Human Environmental Sciences, 2020.

Power, Michael, M.A. (Clemson University), B.A. (University of Florida), Instructor, Department of History, 2018.

Prinz, Gary S., Ph.D. M.S., B.S. (Brigham Young University), Associate Professor, Department of Civil Engineering, 2014.

Prosanadeev, Sergey, Ph.D., M.S. (Rostov State University), Research Professor, Department of Physics, 2005.

Pryor, Jessica A., M.S.W. (Missouri State University), Lecturer, School of Social Work, 2019.

Pryor, Jessie M.S.W. (Missouri State University), B.S.W (College of the Ozarks), Lecturer, School of Social Work, 2019.

Puckett, Latisha, Ph.D., B.S. (University of Arkansas), Instructor, Department of Chemistry and Biochemistry, 2015.

Pulido Rull, Ana, Ph.D., M.A. (Harvard University), B.A. (National Autonomous University of Mexico), Associate Professor, School of Art, 2012.

Pullen, Brian K., M.B.A. (University of Arkansas), B.S. (Arkansas Tech University), Instructor, Department of Management, 2000.

Purcell, Larry C., Ph.D. (University of Florida), M.S., B.S. (University of Georgia), Distinguished Professor, Department of Crop, Soil and Environmental Sciences, 1993.

Puvanakrishnan, Priyaveena, Ph.D. (University of Texas at Austin), Instructor, Department of Biomedical Engineering, 2015.

Pérez Arroyo, Elkin Javier, M.A. (University of Arkansas), B.A. (Universidad de Córdoba, Montería, Colombia), Instructor, Department of World Languages, Literatures and Cultures, 2017.

Q

Qian, Xianghong, Ph.D., M.Phil. (George Washington University), B.S. (Nanjing University, P.R. China), Professor, Department of Biomedical Engineering, 2011.

Quetsch, Lauren, Ph.D., M.A. (West Virginia University), B.A. (University of Missouri), Assistant Professor, Department of Psychological Science, 2019.

Quinn, Elizabeth Hart, M.F.A. (Virginia Commonwealth University), B.A. (Sewanee University), Instructor, 2011.

Quinn, Kyle P., Ph.D. (University of Pennsylvania), B.S. (University of Wisconsin), Assistant Professor, Department of Biomedical Engineering, 2014.

Quinn, William A., Ph.D., M.A. (The Ohio State University), B.A. (Xavier University), Distinguished Professor, Department of English, 1979.

R

Radan, Nikola, M.M., B.M. (University of Belgrade), Lecturer, Department of Music, 2018.

Ragsdale, Chal, M.M. (East Carolina University), B.S. (Auburn University), University Professor, Department of Music, 1975.

Rahman, Muhammad, Ph.D. (Indiana University), M.S., B.S. (University of Dhaka), Clinical Assistant Professor, Department of Economics, 2014.

Raich, Andrew Seth, Ph.D., M.A. (University of Wisconsin-Madison), B.A. (Williams College), Professor, Department of Mathematical Sciences, 2008.

Raines, Anne, M.A., B.A. (University of Arkansas, Instructor, Department of English, 2019.
Rainey, Daniel V., Ph.D., M.S. (Purdue University), B.S.A. (University of Arkansas), Associate Professor, Department of Agricultural Economics and Agribusiness, 2000.

Rainey, Ronald L., Ph.D., M.S., B.S.A. (University of Arkansas), Professor, Department of Agricultural Economics and Agribusiness, 1993.

Rainwater, Candace Auburn, Ph.D. (University of Florida), Instructor, Engineering, 2012.

Rainwater, Chase E., Ph.D. (University of Florida), B.S.I.E. (University of Arkansas), Associate Professor, Department of Industrial Engineering, 2009.

Rajaram, Narasimhan, Ph.D. (University of Texas, Austin), B.E. (Anna University, India), Assistant Professor, Department of Biomedical Engineering, 2014.

Ralph, Christy, M.A. (University of Arkansas), Instructor, Department of Health, Human Performance and Recreation, 2019.

Ralston, Christine R., Ph.D. (Purdue University), M.Ed., B.S. (Indiana Wesleyan University), Clinical Assistant Professor, Department of Curriculum and Instruction, 2015.

Ramirez, Kasey, M.F.A. (Indiana University, Bloomington), B.F.A. (Rhode Island School of Design), Assistant Professor, School of Art, 2015.

Rao, Raj R., Ph.D. (University of Georgia), M.S. (University of Texas), M.Sc., B.E. (Birla Institute of Technology and Sciences, India), Professor, Department of Biomedical Engineering, 2016.

Rapert, Molly, Ph.D. (University of Memphis), M.B.A., B.S.B.A. (University of Arkansas), Associate Professor, Department of Marketing, 1991.

Rath, Narayan C., Ph.D., M.S. (University of Delhi-India), B.S. (Utkal University-India), Research Professor, Department of Poultry Science, 1992.

Rauth, Cynthia A., M.A. (University of Washington), Instructor, English Language and Cultural Studies, 2014.

Rawson, Caleb, Ph.D. (University of Colorado at Boulder), B.S. (Colorado Christian University), Assistant Professor, Department of Accounting, 2018.

Rawwagah, Fuad, Ph.D., M.A. (University of Arkansas), B.S. (Yarmouk University), Assistant Professor, Department of Physics, 2010.

Ray, Teresa, Ph.D. (Capella University), Instructor, Department of Rehabilitation, Human Resource and Communication Disorders, 2019.

Raynor, James, M.S. (University of Arkansas), B.S. (Texas A & M University), Instructor, Operations Management Program, 2014.

Reeb, Joy Elisabeth, Ph.D., M.A. (University of Wisconsin-Madison), B.A. (University of North Carolina), Instructor, Department of World Languages, Literatures and Cultures, 2012.

Reece, Brian, Ph.D. (University of Toronto), M.St. (University of Oxford), M.A. (University of Oklahoma), B.A. (Oklahoma Baptist University), Assistant Professor, Department of Philosophy, 2020.

Reeves, Carol, Ph.D. (University of Georgia), M.A. (University of South Carolina), B.S. (Georgia Southern College), Professor, Department of Management, 1990.

Reid, Margaret F., Ph.D. (University of Oklahoma), M.B.A. (Central State University), M.P.A. (University of Oklahoma), M.A. (University of Bonn), B.A. (University of Marburg, West Germany), Professor, Department of Political Science, 1993.

Ren, Wei, Ph.D. (University of Hong Kong), B.S. (Shanxi University), Assistant Professor, Department of Physics, 2008.

Rennie, Craig, Ph.D. (University of Oregon), M.B.A. (Dalhousie University), B.A. (University of Toronto), Associate Professor, Department of Finance, 2001.

Restrepo, Luis Fernando, Ph.D., M.A. (University of Maryland-College Park), B.A. (Universidad Pontificia Bolivariana), University Professor, Department of World Languages, Literatures and Cultures, 1995.

Rhoads, Douglas Duane, Ph.D. (Kansas State University), M.A., B.A. (Wichita State University), University Professor, Department of Biological Sciences, 1990.

Rice, Lanny, M.S. (University of Arkansas), Instructor, Department of Agricultural Education, Communications and Technology, 2012.

Richardson, Mike, Ph.D. (University of Georgia), M.S. (Louisiana State University), B.S. (Louisiana Tech University), Professor, Department of Horticulture, 1998.

Richardson, Vernon J., Ph.D. (University of Illinois-Urbana-Champaign), M.B.A., B.S. (Brigham Young University), Distinguished Professor, Department of Accounting, 2005.

Ricke, Steven C., Ph.D. (University of Wisconsin-Madison), M.S., B.S. (University of Illinois), Professor, Department of Food Science, 2005.

Ridge, Jason, Ph.D., M.A., B.A. (Oklahoma State University), Associate Professor, Department of Management, 2015.

Rieck, Yo'av, Ph.D. (University of Texas at Austin), B.A. (Israel Institute of Technology), Professor, Department of Mathematical Sciences, 2000.

Rhia, Michael, M.F.A. (Indiana University at Bloomington), B.F.A (University of Wisconsin), Professor, Department of Theatre, 1992.

Riley, Nastassja, M.M. (Florida State University), Lecturer, Department of Music, 2014.

Riley, Timothy B., Ph.D., M.B.A., B.S.S. (University of Kentucky), Assistant Professor, Department of Finance, 2016.

Rinehart, Claire, M.S.W., B.S.W. (University of Arkansas), Lecturer, School of Social Work, 2019.

Risk, Mark E., M.B.A., B.S.B.A. (University of Arkansas), Instructor, Department of Finance, 1981.

Riva, Fernando, Ph.D. (Yale University), Visiting Assistant Professor, Department of World Languages, Literatures and Cultures, 2017.

Robbins, James A., Ph.D. (University of California-Davis), M.S. (University of Georgia), B.S. (University of Wisconsin), Professor, Department of Horticulture, 1998.

Roberts, Monty, M.S., B.S. (University of Arkansas), Instructor, Department of Mechanical Engineering, 2011.

Roberts, Robin, Ph.D., M.A. (University of Pennsylvania), B.A. (Mount Holyoke College), Professor, Department of English, 2011.

Roberts, Trenton L., Ph.D. (University of Arkansas), M.S. (University of Arizona), B.S. (Oklahoma State University), Associate Professor, Department of Crop, Soil and Environmental Sciences, 2010.

Robertson, Bill, Ph.D., M.S. (Texas A&M University), B.S. (Texas State University), Professor, Department of Crop, Soil and Environmental Sciences, 2014.

Robertson, Lena, Ed.D. (Indiana University, Bloomington), M.S., B.S. (Florida State University), Professor, School of Human Environmental Sciences, 2006.

Robinson, Charles F., Ph.D. (University of Houston), M.A. (Rice University), B.A. (University of Houston), Professor, Department of History, 1999.

Robinson, Samantha, Ph.D., M.S., B.S. (University of Arkansas), Teaching Assistant Professor, Department of Mathematical Sciences, 2015.

Rochell, Samuel J., Ph.D. (University of Illinois at Urbana-Campaign), M.S., B.S. (Auburn University), Assistant Professor, Department of Poultry Science, 2016.
Rodeffer, Carolyn, M.B.A. (University of Chicago), B.A. (University of Maryland), Instructor, Department of Management, 2015.

Rodriguez, Sarah, Ph.D., B.A. (University of Pennsylvania), Assistant Professor, Department of History, 2016.

Roe, Larry, Ph.D. (University of Florida), M.S., B.S.M.E. (University of Mississippi), Associate Professor, Department of Mechanical Engineering, 1994.

Roeossger, Kevin, Ph.D., M.S., B.A. (University of Wisconsin-Milwaukee), Associate Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2016.

Rojas, Alejandro, Ph.D. (Michigan State University), M.S., B.S. (Los Andes University), Assistant Professor, Department of Entomology and Plant Pathology, 2018.

Rojas, Clemencia, Ph.D. (Cornell University), M.S. (Purdue University), B.S. (Universidad de Los Andes, Colombia), Assistant Professor, Department of Entomology and Plant Pathology, 2015.

Rom, Curt R., Ph.D., M.S. (The Ohio State University), B.S. (University of Arkansas), University Professor, Department of Horticulture, 1989.

Rorie, Rick, Ph.D. (Louisiana State University), M.S., B.S. (University of Arkansas), Professor, Department of Animal Science, 1989.

Rosa, Ananda, M.S.W. (University of Arkansas at Little Rock), B.A. (University of Arkansas), Assistant Professor, School of Social Work, 2010.

Rosal, Steven, Ph.D. (University of California-Irvine), B.A. (University of California-San Diego), Associate Professor, Department of History, 2013.

Rose, Jerry, Ph.D., M.A. (University of Massachusetts), B.A. (University of Colorado), University Professor, Department of Anthropology, 1976.

Rosen, Chris, Ph.D. (University of Akron), M.A. (Appalachian State University), B.A. (Washington and Lee University), Professor, Department of Management, 2006.

Ross, Jeremy, Ph.D. M.S., B.S. (University of Arkansas), Professor, Department of Crop, Soil and Environmental Sciences, 1996.

Rossetti, Manuel D., Ph.D., P.E., M.S.I.S. (The Ohio State University), B.S.I.E. (University of Cincinnati), Professor, Department of Industrial Engineering, 1999.

Rossetter-Hofer, Adriana, Ph.D. (University of Maryland-College Park), M.S. (Federal University of Rio de Janeiro, Brazil), B.S. (Federal University of Pernambuco, Brazil), Associate Professor, Department of Supply Chain Management, 2008.

Rostek, Thomas, Ph.D. (University of Wisconsin-Madison), M.A. (Brown University), A.B. (Washington University), Associate Professor, Department of Communication, 1990.

Rotolo, Chuck, M.Arch. (Washington University in St. Louis), B.Arch. (Louisiana State University), Assistant Professor, Department of Architecture, 2005.

Rowe, Stephen, Ph.D. (University of Illinois), M.S. (Loyola University Chicago), B.A. (Covenant College), Assistant Professor, Department of Accounting, 2016.

Rozier, Louise L., D.M.L. (Middlebury College), M.A. (University of Arkansas), B.A. (Licence es Lettres, Université de Besançon, France), Associate Professor, Department of World Languages, Literatures and Cultures, 1991.

Rucker, Kathryn Jill, Ph.D., M.B.A., B.S. (Oklahoma State University), Associate Professor, Department of Agricultural Education, Communications and Technology, 2013.

Rudzinski, Russell D., M.A. (Washington University in St. Louis), B.Arch. (Syracuse University), Assistant Professor, Department of Architecture, 2000.

Ruiz, M. Reina, Ph.D. (Washington University in St. Louis), M.A. (Kansas State University), B.A. (University of Leon, Spain), Associate Professor, Department of World Languages, Literatures and Cultures, 2001.

Ruiz-Blanco, Angel, Ph.D. (University of California, Davis), Clinical Assistant Professor, Department of World Languages, Literatures and Cultures, 2019.

Rumley, Elizabeth Rebecca, LL.M. (University of Arkansas), J.D. (University of Toledo), B.A. (Michigan State University), Research Assistant Professor, Department of Agricultural Economics and Agribusiness, 2008.

Rumley, Rusty W., J.D. (University of Oklahoma), Research Assistant Professor, Department of Agricultural Economics and Agribusiness, 2009.

Runkle, Benjamin R.K., Ph.D., M.S. (University of California–Berkeley), B.S. (Princeton University), Assistant Professor, Department of Biological and Agricultural Engineering, 2014.

Runkles, Henry S., M.M. (University of Arkansas), Lecturer, Department of Music, 2002.

Rupe, John C., Ph.D., M.S. (University of Kentucky), B.S. (Colorado State University), University Professor, Department of Entomology and Plant Pathology, 1984.

Russell, Alex, Ph.D. (Texas A & M University), M.A. (University of Houston), B.S. (University of Houston), Assistant Professor, Department of Health, Human Performance and Recreation, 2020.

Russell, Mark, Ed.D. (Texas Tech University), M.S., B.S. (Colorado State University), Assistant Professor, Department of Animal Science, 2010.

Ryan, Jeffrey J., Ph.D., M.A. (Rice University), B.A. (Colorado State University), Associate Professor, Department of Political Science, 1990.

Ryan, John, Ph.D. (University of York), M.Sc. (University of Warwick), B.A. (University of York, Britain), Distinguished Professor, Department of Mathematical Sciences, 1990.

S

Sabatini, Lindsey Rachel, D.N.P., M.S., B.S.N., B.S. (University of Arkansas), Instructor, Eleanor Mann School of Nursing, 2012.

Sabherwal, Rajiv, Ph.D. (University of Pittsburgh), P.G.D.M. (Indian Institute of Management), B.S.E.E. (Regional Engineering College, India), Distinguished Professor, Department of Information Systems, 2011.

Sabo, George, Ph.D., M.A., B.S. (Michigan State University), Professor, Department of Anthropology, 1980.

Sabon, Lauren, Ph.D. (University of Tennessee-Knoxville), M.S/M.A. (Marshall University), B.S., B.A. (West Virginia University), Clinical Assistant Professor, Department of Sociology and Criminology, 2014.

Sacharoff, Laurent A., J.D. (Columbia University), B.A. (Princeton University), Assistant Professor, School of Law, 2010.

Sadak, Sammy, Ph.D. (Dalhousie University, Canada, and Alexandria University, Egypt), M.S., B.S. (Alexandria University, Egypt), Associate Professor, Department of Biological and Agricultural Engineering, 2007.

Sadeghi, Ali M., M.S. (University of Arkansas), Lecturer, Department of Rehabilitation, Human Resource and Communication Disorders, 2019.

Saeidi, Shirin, Ph.D. (University of Cambridge, United Kingdom), M.A. (George Mason University), B.A. (University of Maryland-College Park), Assistant Professor, Department of Political Science, 2018.
Sakon, Joshua, Ph.D. (University of Wisconsin-Madison), B.S. (Southern Oregon University), Professor, Department of Chemistry and Biochemistry, 1997.
Salamo, Gregory J., Ph.D. (City University of New York), M.S. (Indiana University-Purdue University-Indianapolis), B.S. (City University of New York, Brooklyn College), Distinguished Professor, Department of Physics, 1975.
Salmon, Jessica Ruth, M.B.A. (Penn State University), Instructor, Department of Supply Chain Management, 2019.
Salonen, Rick, Ed.D., M.M. (University of Arkansas), B.M. (Central Michigan University), Instructor, Department of Music, 2008.
Salter, Kandy S.L., O.T.H. (University of Kansas), M.S. (University of Central Arkansas), Clinical Assistant Professor, Department of Occupational Therapy, 2018.
Samuels, Mandel G., M.B.A. (University of Arkansas), B.A. (Oklahoma State University), Clinical Assistant Professor, Department of Human Resource and Workforce Development Education, 2012.
Sargent, Anthony, M.A. (San Francisco State University), B.A. (San José State University), Instructor, Department of World Languages, Literatures and Cultures, 2016.
Saunders, Robert F., M.S.E.E., M.S. (University of Arkansas), Instructor, Department of Electrical Engineering, 2012.
Savin, Mary Cathleen, Ph.D., M.S. (University of Notre Dame), Professor, Department of Crop, Soil and Environmental Sciences, 2002.
Saxena, Ashok, Ph.D., M.S. (University of Cincinnati), B.S.M.E. (Indiana Institute of Technology), Distinguished Professor, Department of Mechanical Engineering, 2003.
Schafer-Whitby, Peggy, Ph.D. (University of Central Florida), M.A. (University of Houston-Clear Lake), B.A. (St. Cloud State University), Associate Professor, Department of Curriculum and Instruction, 2012.
Scheide, Frank Milo, Ph.D. (University of Wisconsin-Madison), M.A. (New York University), B.S. (University of Wisconsin-River Falls), Professor, Department of Communication, 1977.
Schulterman, Heath A., Ph.D., B.S. (University of Arkansas), Instructor, Engineering, 2009.
Schmitt, Abigail, Ph.D. (University of Florida), M.S. (University of Northern Colorado), B.S. (University of North Carolina), Assistant Professor, Department of Health, Human Performance and Recreation, 2020.
Schmitt, Craig, Ph.D. (University of Northern Colorado), MBA (University of Central Florida), B.S. (University of Florida), Clinical Assistant Professor, Department of Health, Human Performance and Recreation, 2020.
Schneider, Susan, LL.M. (University of Arkansas), J.D. (University of Minnesota-Twin Cities), B.A. (College of Saint Catherine), Professor, School of Law, 1998.
Schott, Elizabeth W., Ph.D., M.S. (New Mexico State University), M.S.I.E. (Georgia Institute of Technology), Instructor, Operations Management Program, 2017.
Schreckhise, William D., Ph.D., M.A., B.A. (Washington State University), Professor, Department of Political Science, 1998.
Schuetz, Sebastian, Ph.D. (City University of Hong Kong), M.S., B.S. (University of Manheim), Assistant Professor, Department of Information Systems, 2017.
Schulte, Bret J., M.F.A. (George Mason University), B.A. (University of Nebraska-Lincoln), Associate Professor, School of Journalism and Strategic Media, 2008.
Schulte, Christopher M., Ph.D. (Pennsylvania State University), Associate Professor, School of Art, 2019.
Schulte, Stephanie Ricker, Ph.D., M.A. (George Washington University), B.A. (University of Arkansas), Associate Professor, Department of Communication, 2008.
Schwab, Bill, Ph.D., M.A. (The Ohio State University), M.A. (University of Akron), B.A. (Miami University), University Professor, Department of Sociology and Criminology, 1976.
Scott, Adrienne R., M.S.W. (University of Texas, Arlington), B.A. (University of Arkansas), Lecturer, School of Social Work, 2014.
Scott, Allison L., D.N.P. (University of Missouri-Kansas City), M.S.N., B.S.N. (University of Arkansas for Medical Sciences), Assistant Professor, Eleanor Mann School of Nursing, 2006.
Scott, Marc, Ph.D. (North Dakota State University), M.S., B.S. (South Carolina State University), Clinical Assistant Professor, Department of Supply Chain Management, 2016.
Scott, Robert C., Ph.D. (Mississippi State University), M.S., B.S. (Oklahoma State University), Professor, Department of Crop, Soil and Environmental Sciences, 2002.
Sembros, Karen Denice, Ph.D., M.A. (University of Arkansas), B.S. (Campbell College), B.S. (Boggs State University), Assistant Professor, Department of Political Science, 2011.
Selvam, R. Panneer, Ph.D. (Texas Tech University), M.S.C.E. (South Dakota School of Mines and Technology), M.E., B.E. (University of Madras, India), University Professor, Department of Civil Engineering, 1986.
Senior, Thomas D., Ph.D., M.A. (University of Arizona), B.S. (University of Oregon), Professor, Department of Philosophy, 1989.
Seo, Han-Seok, Dr.rer.Medic. (Technische Universität Dresden, Germany), Ph.D., M.Sc. (Seoul National University, South Korea), B.S. (Korea University, Seoul, South Korea), Associate Professor, Department of Food Science, 2012.
Serrano, Christina, Ph.D. (University of Georgia), B.B.A. (Armstrong Atlantic State University), Assistant Professor, Department of Information Systems, 2011.
Servoss, Shannon, Ph.D. (Northwestern University), B.S.Ch.E. (University of Michigan-Ann Arbor), Associate Professor, Ralph E. Martin Department of Chemical Engineering, 2007.
Setia, Pankaj, Ph.D. (Michigan State University), M.B.A. (Management Development Institute), B.S. (University of Delhi, India), Associate Professor, Department of Information Systems, 2008.
Sexton, Kim, Ph.D., M.A., M.Phil. (Yale University), B.A. (State University of New York at Binghampton), Associate Professor, Department of Architecture, 1999.
Sha, Xueyan, Ph.D. (Louisiana State University), Professor, Department of Crop, Soil and Environmental Sciences, 2012.
Sha, Zhenghui, Ph.D. (Purdue University), B.S.M.E. (Xi’an Jiaotong University), B.S.M.E. (Xi’an University of Technology), Assistant Professor, Department of Mechanical Engineering, 2017.
Shadwick, John D.L., M.S. (University of Arkansas), B.S. (University of Central Arkansas), Instructor, Department of Biological Sciences, 2011.
Shakiba, Ehsan, Ph.D., M.S. (University of Arkansas), M.S., B.S. (Azad University, Iran), Assistant Professor, Department of Crop, Soil and Environmental Sciences, 2015.
Shannon, Graham F., M.Arch. (Rice University), B.Arch., B.A. (University of Arkansas), Professor, Department of Architecture, 1979.
Sharman, Glenn R., Ph.D. (Stanford University), B.S. (Wheaton College), Associate Professor, Department of Geosciences, 2017.
Sharpley, Andrew N., Ph.D. (Massey University, New Zealand), B.S. (University College of North Wales), Distinguished Professor, Department of Crop, Soil and Environmental Sciences, 2006.
Shaulis, Barry J., Ph.D., M.S., B.S. (University of Houston), B.B.A. (University of Georgia), Research Associate, Department of Geosciences, 2016.

Shaw, John B., Ph.D. (University of Texas at Austin), B.A. (Oberlin College), Associate Professor, Department of Geosciences, 2014.

Sheets, Ryan, Ph.D. (University of Illinois at Urbana-Champaign), Instructor, Department of Economics, 2019.

Shelton, Gina, B.A. (Mississippi State University), Instructor, School of Journalism and Strategic Media, 2013.

Shelton, Leslie Jo, Ph.D. (Michigan State University), M.Ed., B.A. (Ohio University), Assistant Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2014.

Shew, Woodrow L., Ph.D. (University of Maryland-College Park), B.A. (College of Wooster), Associate Professor, Department of Physics, 2012.

Shi, Aijing, Ph.D. (North Carolina State University), M.S. (Graduate School of Chinese Academy of Agricultural Sciences), B.S. (Zhejiang University), Assistant Professor, Department of Horticulture, 2013.

Shi, Wei, Ph.D. (University of Alberta), M.S. (East China University of Science and Technology), B.S. (Shanghai Jiao Tong University), Assistant Professor, Department of Chemistry and Biochemistry, 2012.

Shields, Christopher A., Ph.D., J.D., M.A., B.A. (University of Arkansas), Clinical Assistant Professor, Department of Sociology and Criminology, 2003.

Shields, Grant, Ph.D., M.A. (University of California, Davis), B.A. (Simpson College), Assistant Professor, Department of Psychological Science, 2020.

Shields, Todd G., Ph.D., M.A. (University of Kentucky), B.A. (Miami University), Professor, Department of Political Science, 1994.

Shipman, Jonathan, Ph.D. (University of Tennessee), B.S. (University of Central Arkansas), Associate Professor, Department of Accounting, 2015.

Shobe, Marcia A., Ph.D. (University of Kansas), M.S.W. (University of Hawaii at Manoa), B.A. (State University of New York at Plattsburgh), Professor, School of Social Work, 2007.

Shoge, Kendra E., M.S. (Missouri State University), Lecturer, Department of Human Resource and Communication Disorders, 2019.

Shook, Carol, M.S.B.A., B.S.B.A. (University of Arkansas), Instructor, Department of Supply Chain Management, 1999.

Shore, Jordan T., M.S. (Missouri State University), Instructor, Department of Animal Science, 2019.

Shoulders, Kate, Ph.D. (University of Florida), M.S., M.A. (Murray State University), Associate Professor, Department of Agricultural Education, Communications and Technology, 2012.

Shreve, Marilou D., D.N.P., M.S.N. (University of Missouri-Kansas City), B.S.N. (University of Arkansas), Assistant Professor, Eleanor Mann School of Nursing, 2013.

Shuler, Kimberly M., M.S.W. (University of Arkansas at Little Rock), B.S.W. (University of Arkansas), Instructor, School of Social Work, 2015.

Shull, Wanda, Ph.D. (University of Arkansas), Lecturer, Department of Rehabilitation, Human Resource and Communication Disorders, 2019.

Shuman, S. Michael, M.M. (University of Arkansas), M.M. (University of Nebraska at Omaha), B.M. (Delta State University), Lecturer, Department of Music, 2006.

Siahmakoun, Lobat, M.S. (University of Arkansas), B.S. (Missouri Southern State University), Instructor, School of Human Environmental Sciences, 2015.

Sichel, Jennifer A., Ph.D. (University of Chicago), Visiting Assistant Professor, School of Art, 2019.

Siebenmorgen, Terrence J., Ph.D. (University of Nebraska-Lincoln), M.S.Ag.E. (Purdue University), B.S.Ag.E. (University of Arkansas), Distinguished Professor, Department of Food Science, 1984.

Siebrits, Helene, M.F.A. (University of California, Los Angeles), B.A. (University of California, Los Angeles), Associate Professor, Department of Theatre, 2020.

Siepleski, Adam M., Ph.D. (University of Wyoming-Laramie), M.S. (New Mexico State University), B.S. (Pennsylvania State University-University Park), Associate Professor, Department of Biological Sciences, 2015.

Simon, Lauren, Ph.D., B.S.B.A., B.S. (University of Florida), Associate Professor, Department of Management, 2016.

Singh, Surendra P., Ph.D., M.A. (University of Rochester), M.Sc., B.Sc. (Banaras Hindu University, India), University Professor, Department of Physics, 1982.

Sirmans, Corbitt Stace, Ph.D., B.S. (Florida State University), Assistant Professor, Department of Finance, 2014.

Sites, Joanna, M.S.W., B.A. (University of Arkansas), Lecturer, School of Social Work, 2016.

Skinner, Jerral V., Ph.D. (University of Arkansas), Lecturer, Department of Crop, Soil and Environmental Sciences, 1990.

Skinner, Stephen R., M.S., B.S. (University of Arkansas), Instructor, Department of Physics, 1998.

Slaton, Nathan A., Ph.D., M.S. (University of Arkansas), B.S. (Murray State University), Professor, Department of Crop, Soil and Environmental Sciences, 2001.

Slattery, Patrick Joseph, Ph.D. (Indiana University at Bloomington), A.B. (College of the Holy Cross), Associate Professor, Department of English, 1991.

Slay, Christy Melhart, Ph.D. (University of Arkansas), Research Associate, Department of Supply Chain Management, 2019.

Sloan, Kathryn Ann, Ph.D., M.A., M.B.A. (University of Kansas), B.A. (Kansas State University), Professor, Department of History, 2004.

Slocum, Megan M., Ed.D. (Harding University), Lecturer, Department of Curriculum and Instruction, 2019.

Slone, Ryan B., B.F.A (University of Arkansas), Instructor, School of Art, 2001.

Smith, Annie B., LL.M. (George Washington University), J.D. (University of Wisconsin-Madison), Associate Professor, School of Law, 2012.

Smith, Benjamin C., M.F.A. (University of Pittsburgh), B.A. (University of Dallas), Assistant Professor, Department of Theatre, 2019.

Smith, Carl Alan, Ph.D., M.A. (University of Sheffield), B.Sc. (University of Lancaster), Associate Professor, Department of Landscape Architecture, 2008.

Smith, Christopher, Ph.D. (University of Virginia), M.S. (University of Missouri-Rolla), M.S. (University of Texas at Austin), B.S. (U.S. Military Academy), Instructor, Operations Management Program, 2015.

Smith, Christy L., Ed.D., Ed.S., M.S.E., B.S.E. (University of Arkansas), Clinical Assistant Professor, Department of Curriculum and Instruction, 2019.

Smith, Joshua Byron, Ph.D., M.A. (Northwestern University), B.A. (University of Illinois at Chicago), Associate Professor, Department of English, 2011.

Smith, Kathy, Ed.D., M.S. (University of Arkansas), B.S. (The Ohio State University), Clinical Associate Professor, School of Human Environmental Sciences, 1999.

Smith, Martin, B.S. (Oklahoma State University), Assistant Professor, Air Force ROTC, 2018.

Smith, Ronn J., Ph.D. (Washington State University), M.S., B.S. (Montana State University), Associate Professor, Department of Marketing, 2006.

Smith, Tom E.C., Ed.D. (Texas Tech University), M.Ed., B.S.E. (University of Mississippi), University Professor, Department of Curriculum and Instruction, 2002.

Smith-Nix, Angela, Ph.D. (University of Arkansas), M.Ed., B.S.E. (Arkansas State University), Clinical Assistant Professor, Department of Health, Human Performance and Recreation, 1989.

Snyder, Gerry, M.A. (New York University), B.F.A. (University of Oregon), Distinguished Professor, School of Art, 2019.

Snyder, Tamara D., M.S. (University of Arkansas), B.S. (University of California-Los Angeles), Clinical Assistant Professor, Department of Physics, 2004.

Sodero, Annibal Camara, Ph.D. (Arizona State University), M.S.C. (Warkwick University), B.S.C. (UFMG-Brazil), Assistant Professor, Department of Supply Chain Management, 2013.

Song, Geoboo, Ph.D. (University of Oklahoma), B.A. (Korea University), B.A. (Hanyang University), Associate Professor, Department of Political Science, 2012.

Song, Young Hye, Ph.D. (Cornell University), Assistant Professor, Department of Biomedical Engineering, 2019.

Sonnenberg, Anthony, M.F.A, M.A (University of Washington), B.F.A (University of Texas at Austin), Assistant Professor, 2009.

Southward, Cheryl Leigh, Ph.D., M.S., B.S. (University of Tennessee), Associate Professor, School of Human Environmental Sciences, 2008.

Souto Melgra, Nacacha, Ph.D. (University of Puerto Rico, Mayaguez), Clinical Assistant Professor, Ralph E. Martin Department of Chemical Engineering, 2018.

Soyosal, Gonca, Ph.D. (Northwestern University), M.S. (Northwestern University), M.E. (University of Florida), B.S. (Middle East Technical University), Assistant Professor, Department of Marketing, 2017.

Sparks, Leigh Pryor, Ph.D. (University of Arkansas), M.A., B.A. (Stanford University), Teaching Assistant Professor, Department of English, 2009.

Spears, Kari R., M.S.W., B.A. (University of Arkansas), Instructor, School of Social Work, 2016.

Speight, Dana Renee, Ph.D. (University of Arkansas), Research Associate, Department of Curriculum and Instruction, 2019.

Spialek, Matthew L., Ph.D. (University of Missouri), Assistant Professor, Department of Communication, 2017.

Spicer, Tom O., Ph.D., M.S.Ch.E., B.S.Ch.E. (University of Arkansas), Professor, Ralph E. Martin Department of Chemical Engineering, 1981.

Spiegel, Frederick W., Ph.D. (University of North Carolina at Chapel Hill), B.A. (Drew University), Distinguished Professor, Department of Biological Sciences, 1982.

Spiegel, Sarah E., M.S. (University of Illinois-Urbana-Champaign), B.A. (Bryn Mawr College), Assistant Librarian, University Libraries, 2007.

Spieshoefler, Silke, Ph.D., M.S.E.E., B.S.Ch.E. (University of Arkansas), Clinical Assistant Professor, Department of Electrical Engineering, 2014.

Spradley, J. Ples, M.S. (University of Arkansas), B.S. (Hendrix College), Extension Associate Professor, Department of Entomology and Plant Pathology, 1984.

Sprandel, Heather, Ed.D., M.Ed. (University of Arkansas), B.A. (DePaul University), Instructor, Walton College of Business, 1999.

Springer, Bethany Lynn, M.F.A. (University of Georgia), B.A. (Virginia Polytechnic Institute and State University), Associate Professor, School of Art, 2006.

Spurlock, Terry, Ph.D. (University of Arkansas), Extension Associate Professor, Department of Entomology and Plant Pathology, 2015.

Srivastava, Vibha, Ph.D. (Jawaharlal Nehru University, New Delhi), M.S. (Govind Ballabh Pant University of Agriculture and Technology), B.S. (D.E.I. University), Professor, Department of Crop, Soil and Environmental Sciences, 2001.

Stahle, David William, Ph.D. (Arizona State University), M.A. (University of Arkansas), B.A. (University of Arizona), Distinguished Professor, Department of Geosciences, 1982.

Stallings, Melinda, M.A. (University of Houston–Clear Lake), B.S. (Louisiana State University), Instructor, School of Human Environmental Sciences, 2019.

Standerfer, Christina Corrado, Ph.D. (University of Colorado-Boulder), M.A., B.A. (University of Arkansas at Little Rock), Professor, Clinton School of Public Service, 2007.

Stapp, Robert Bruce, Ph.D., M.S. (Oklahoma State University), B.S.B.A. (Oklahoma City University), Clinical Professor, Department of Economics, 1995.

Starks, Trish, Ph.D., M.A. (The Ohio State University), B.A. (University of Missouri), Professor, Department of History, 2000.

Starling-Ledbetter, Robyn M., M.A. (University of Arkansas), Instructor, School of Journalism and Strategic Media, 2007.

Stassen, Robert E., Ph.D., M.B.A. (University of Nebraska-Lincoln), B.S. (University of Minnesota), Associate Professor, Department of Marketing, 1989.

Stauss, Kim, Ph.D. (University of Utah), M.S.W. (California State University at Sacramento), B.S. (Stephen F. Austin State University), Associate Professor, School of Social Work, 2006.

Steelman, Zachary R., Ph.D., M.I.S. (University of Arkansas), B.B.A. (Northeastern State University), Assistant Professor, Department of Information Systems, 2017.

Steinmetz, Joseph E., Ph.D. (Ohio University), M.A., B.S. (Central Michigan University), Distinguished Professor of Psychological and Brain Science, Department of Psychological Science, 2016.

Stenken, Julie A., Ph.D. (University of Kansas), Professor, Department of Chemistry and Biochemistry, 2007.

Steffens, Dorothy Anne, Ph.D. (University of California-Berkeley), M.A. (University of Illinois-Chicago), B.A. (Northwestern University), Professor, Department of English, 1992.

Stephens, Mary Paige, M.S.W., B.A. (University of Missouri–Columbia), Lecturer, School of Social Work, 2013.

Stephenson, Barbara C., M.S. (West Virginia University), Instructor, Department of Mathematical Sciences, 2004.

Stephenson, Steven Lee, Ph.D., M.S. (Virginia Polytechnic Institute and State University), B.S. (Lynchburg College), Research Professor, Department of Biological Sciences, 2003.

Sterling, Brett E., Ph.D., M.A. (Vanderbilt University), B.A. (University of Arkansas), Assistant Professor, Department of World Languages, Literatures and Cultures, 2013.

Stevens, Christopher W., Ph.D. (University of Maryland College Park), M.A. (City University of New York-The Graduate Center), B.A. (Humboldt State University), Instructor, Department of Philosophy, 2015.

Stewart, Angela, D.N.P. (University of Arkansas), M.N.Sc., B.S.N. (University of Arkansas for Medical Sciences), Assistant Professor, Eleanor Mann School of Nursing, 2015.

Stewart, Patrick A., Ph.D., (Northern Illinois University), M.A., B.A. (University of Central Florida), Associate Professor, Department of Political Science, 2008.
SITES, Wesley, Ph.D. (Massachusetts Institute of Technology), M.A., B.A. (Johns Hopkins University), Professor, Department of Chemistry and Biochemistry, 1991.

STOCKDELL, Rick, M.A. (Kansas State University), B.S. (Northwest Missouri State University), Associate Professor, School of Journalism and Strategic Media, 1980.

STONER, Wesley, Ph.D., M.A. (University of Kentucky), B.A. (Pennsylvania State University), Assistant Professor, Department of Anthropology, 2014.

STOVERINK, Adam, Ph.D., (Texas A&M University), M.B.A. (St. Louis University), B.S.B.A. (University of Missouri), Assistant Professor, Department of Management, 2017.

STREETER, Lora, Ph.D., M.S. (University of Arkansas, Fayetteville), Teaching Assistant Professor, Department of Computer Science and Computer Engineering, 2019.

STRIEGLER, Susanne, Ph.D., M.S., B.S. (Ulm University, Germany), Professor, Department of Chemistry and Biochemistry, 2012.

STUDEBAKER, Glenn, Ph.D., M.S. (University of Arkansas), B.S. (Missouri Southern State University), Associate Professor, Department of Entomology and Plant Pathology, 1993.

SU, Danjie, Ph.D. (University of California, Los Angeles), M.A., B.A. (Sun Yatsen University, China), Assistant Professor, Department of World Languages, Literatures and Cultures, 2017.

SUAREZ, Celina A., Ph.D. (University of Kansas), M.S. (Temple University), B.S. (Trinity University), Associate Professor, Department of Geosciences, 2012.

SUBBIAH, Jeyamkondan, Ph.D. (Oklahoma State University), M.S. (University of Manitoba, Canada), B.E. (Tamil Nadu Agricultural University, India), Professor, Department of Food Science, 2019.

SUDE, Yujie, Ph.D., M.A. (University of Arkansas), M.Ed. (Beijing Normal University), LL.B. (Peking University), Clinical Assistant Professor, Department of Economics, 2018.

SUI, Daniel, Ph.D. (University of Georgia), M.S., B.S. (Peking University), Distinguished Professor, Department of Geosciences, 2018.

SULLIVAN, Amanda Lynn, Ph.D., M.A.T., B.S.E. (University of Arkansas), Clinical Associate Professor, Department of Health, Human Performance and Recreation, 2010.

SULLIVAN, Kelly M., Ph.D. (University of Florida), M.S.I.E., B.S.E. (University of Arkansas), Associate Professor, Department of Industrial Engineering, 2012.

SULLIVAN, W. Curt, M.A. (University of Arkansas), B.A. (Harding University), Lecturer, Department of Political Science, 2015.

SUN, Xiaolin, Ph.D., M.S. (Virginia Polytech Institute and State University), B.S. (Southern China Agricultural University), Assistant Professor, Department of Poultry Science, 2016.

SUTHERLAND, Daniel E., Ph.D., M.A., B.A. (Wayne State University), Distinguished Professor, Department of History, 1989.

SUTTON, James M., M.S. (Southern Methodist University), B.S. (University of West Florida), B.M. (University of Southern Mississippi), Instructor, Operations Management Program, 2017.

SWEDEBURG, Ted R., Ph.D., M.A., (University of Texas at Austin), B.A. (University of Beirut), Professor, Department of Anthropology, 1996.

SYKES, Tracy Ann, Ph.D. (University of Arkansas), B.S. (University of Maryland-College Park), Associate Professor, Department of Information Systems, 2011.

SYLER, Rhonda A., Ph.D. (Auburn University), M.B.A. (Columbus State University), M.S. (Kansas State University), B.S. (Middle Tennessee State University), Clinical Assistant Professor, Department of Information Systems, 2016.

SYSTMA, Janine A., Ph.D. (University of Wisconsin-Madison), M.A. (University of Denver), B.A. (Arizona State University), Assistant Professor, School of Art, 2016.

SZAKASITS, Monika, J.D. (Baylor University), B.A. (Sam Houston State University), Associate Librarian, University Libraries, 2004.

Szlanski, Allen Lawrence, Ph.D. (University of Nebraska-Lincoln), M.S. (Kansas State University), B.S. (University of Manitoba), Professor, Department of Entomology and Plant Pathology, 2001.

Szywldky-Davis, Lisnette Lopez, Ph.D., M.A. (Penn State University), B.A. (University of Miami), Associate Professor, Department of English, 2013.

T

TAOKA, Loring, M.F.A (University of North Texas), Instructor, School of Art, 2012.

TARVIN, Tim, J.D. (University of Arkansas), B.A. (Hendrix College), Associate Professor, School of Law, 1993.

TAYLOR, Jennifer, Ph.D. (University of Missouri-Kansas City), M.A. (University of Northern Iowa), B.A. (University of Kentucky), Research Professor, Department of Marketing, 2014.

TEAL, Kimberly Hannon, Ph.D., M.M. (Eastman School of Music), B.A. (University of Oregon), Assistant Professor, Department of Music, 2016.

TEAL, Tabatha, M.S.N. (University of Arkansas), B.S.N. (Arkansas Tech University), Instructor, Eleanor Mann School of Nursing, 2014.

Tellez-Isaias, Guillermo, Ph.D. (Texas A&M University), Visiting Professor, Department of Poultry Science, 2002.

TEN HAAF, Rachel E., Ph.D. (University of Michigan), M.A. (University of Illinois, Urbana-Champaign), Assistant Professor, Department of World Languages, Literatures and Cultures, 2016.

THERUNE, Claire E., Ph.D., M.A. (Arizona State University), B.A., B.S. (College of Charleston), Assistant Professor, Department of Anthropology, 2013.

TERRELL, Joyce E., Ph.D. (University of Arkansas), Instructor, Department of Curriculum and Instruction, 2019.

TERRELL, Katie, M.B.A. (University of Arkansas), B.A. (University of Central Arkansas), Instructor, Department of Accounting, 2012.

TERRY, Laura, M.F.A. (Savannah State University), B.S. (Auburn University), Associate Professor, Department of Architecture, 1998.

TEUTON, Sean Kicummah, Ph.D., M.A. (Cornell University), B.A. (University of Colorado-Boulder), Professor, Department of English, 2013.

THALLAPURANAM, Suresh, Ph.D. (Osmania University), Professor, Department of Chemistry and Biochemistry, 2003.

THEIN, Ricky, M.A. (Southern Illinois University), B.A. (University of Central Florida), Clinical Assistant Professor, School of Journalism and Strategic Media, 2013.

THIBADO, Paul M., Ph.D. (University of Pennsylvania), B.S. (San Diego State University), Professor, Department of Physics, 1996.

THOMA, Greg, Ph.D. (Louisiana State University), M.S.Ch.E., B.S.Ch.E. (University of Arkansas), Professor, Ralph E. Martin Department of Chemical Engineering, 1993.

THOMAS, JaLynn D., B.S. (Louisiana Tech College Ruston Campus), Instructor, Department of Accounting, 2011.

THOMAS, Johanna, Ph.D., M.S.W. (Louisiana State University), B.A. (University of Akron), Assistant Professor, School of Social Work, 2015.

THOMAS, Lauren, D.V.M. (Oklahoma State University), B.S. (University of Arkansas), Teaching Assistant Professor, Department of Animal Science, 2016.

THOMAS, Rodney W., Ph.D., M.B.A. (University of Tennessee), B.S.B.A. (Greensboro College), Associate Professor, Department of Supply Chain Management, 2017.
Thomas, Shaun A., Ph.D., M.A. (Louisiana State University), B.A. (University of Akron), Associate Professor, Department of Sociology and Criminology, 2015.

Thomas, Stephanie, M.S.W. (University of Maryland at Baltimore), B.S. (Old Dominion University), Lecturer, School of Social Work, 2017.

Thomas, Stephanie, Ph.D. (Georgia Southern University), M.B.A., B.A. (University of Tennessee), Clinical Assistant Professor, Department of Supply Chain Management, 2018.

Thompson, Audie K., Ph.D (University of Mississippi Medical Center), Assistant Professor, Ralph E. Martin Department of Chemical Engineering, 2018.

Thompson, Dale R., Ph.D. (North Carolina State University), M.S., B.S. (Mississippi State University), Associate Professor, Department of Computer Science and Computer Engineering, 2000.

Thompson, Randy, J.D. (University of Illinois-Urbana-Champaign), M.L.S., B.A. (Indiana University), Associate Professor, School of Law, 2008.

Thompson, Timothy F., D.M.A., M.M. (University of Wisconsin-Madison), Professor, Department of Music, 1979.

Thomsen, Michael R., Ph.D. (University of Minnesota-Morris), M.S., B.S. (Utah State University), Professor, Department of Agricultural Economics and Agribusiness, 1998.

Thrash, Ben, Assistant Professor, Department of Entomology and Plant Pathology, 2018.

Thurston, Colleen, M.F.A. (Montana State University), Assistant Professor, School of Journalism and Strategic Media, 2019.

Tian, Ryan, Ph.D. (University of Connecticut), B.S. (Fudan University, Shanghai), Associate Professor, Department of Chemistry and Biochemistry, 2004.

Tipsmark, Christian K., Ph.D., M.S. (University of Southern Denmark), Associate Professor, Department of Biological Sciences, 2010.

Tjani, Maria, Ph.D. (Michigan State University), M.S. (Purdue University), B.S. (University of Ioannina, Greece), Associate Professor, Department of Mathematical Sciences, 2003.

Tomkins, Chris, J.D. (Vanderbilt University), B.S. (U.S. Naval Academy), Instructor, Department of Finance, 2011.

Tonmony, Susan, M.S.W. (University of Arkansas at Little Rock), B.S.W. (Arkansas State University), Instructor, School of Social Work, 2014.

Torres, Maria, M.S.W., B.S.W. (University of Arkansas), Lecturer, School of Social Work, 2020.

Torres Mesa, Nelson Augusto, M.A. (University of Arkansas), B.A. (University of Antioquia), Instructor, Department of World Languages, Literatures and Cultures, 2010.

Trammell, Breanne M., M.F.A. (Rhode Island School of Design), Assistant Professor, School of Art, 2019.

Trivitt, Julie R., Ph.D., M.A. (University of Arkansas), M.A. (Southwest Missouri State University), Clinical Associate Professor, 2012.

Trudo, Sabrina P., Ph.D. (University of Washington), B.S. (Brigham Young University), Associate Professor, School of Human Environmental Sciences, 2015.

Tullis, Jason A., Ph.D., M.S. (University of South Carolina at Columbia), B.S. (Brigham Young University), Professor, Department of Geosciences, 2004.

Tumilson, Creed, Ph.D., M.A. (University of Arkansas), B.S. (Arkansas State University), Visiting Assistant Professor, Department of Political Science, 2020.

Tung, Steve, Ph.D., M.S.M.E. (University of Houston), B.S.M.E. (National Taiwan University), Professor, Department of Mechanical Engineering, 2000.

Turner, Aaron, M.F.A (Rutgers State University), B.A (University of Memphis), Research Associate, School of Art, 2016.

Turner, Alison, M.A. (Parsons School of Design), B.A. (Kentucky State University), Assistant Professor, Department of Architecture, 2008.

Turner, Henry L., Ph.D., M.S. (University of Arkansas), B.S. (University of Oregon), Instructor, Department of Geosciences, 2008.

Turner, Ronna L., Ph.D. (University of Illinois-Urbana-Champaign), M.S.E. (Missouri State University), B.S.E. (Southwest Missouri State University), Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 1997.

Tyuchiev, Hayot A., M.A. (University of Arkansas), B.A. (Tashkent State University of Economics), Instructor, School of Journalism and Strategic Media, 2010.

Tyler, Susan, M.S.W., B.S.W (University of Arkansas), Lecturer, School of Social Work, 2018.

Tzanetakis, Ioannis E., Ph.D. (Oregon State University), M.S., B.S. (Agricultural University of Athens, Greece), Professor, Department of Entomology and Plant Pathology, 2008.

U

Ungar, Peter S., Ph.D., M.A. (State University of New York at Stony Brook), B.A. (State University of New York, Binghampton), Distinguished Professor, Department of Anthropology, 1995.

Uribe, Lia, D.M.A. (University of Kansas), M.M. (University of Arkansas), B.M. (Universidad Nacional de Colombia, Bogotá), Assistant Professor, Department of Music, 2013.

V

Vajda, Anthony J., Ph.D. (Old Dominion University), M.S. (La Salle University), B.A. (University of Delaware), Assistant Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2018.

Valandra, Ph.D., M.S.W. (University of Minnesota), M.B.A., B.S. (University of Nebraska at Omaha), Associate Professor, School of Social Work, 2013.

Valencia, Fernando, M.M. (University of Arkansas), B.M. (Universidad Javeriana), Instructor, Department of Music, 2014.

Van Hoek, Remko, Ph.D. (University of Utrecht), M.B.A.(London School of Economics), B.S.B.A. (Vanderbilt University), Clinical Professor, Department of Supply Chain Management, 2018.

Van Horn-Morris, Jeremy, Ph.D. (University of Texas at Austin), B.S. (University of Oregon), Associate Professor, Department of Mathematical Sciences, 2012.

Van Winkle, Holly M., M.S.N., B.S. (University of Arkansas), Instructor, Eleanor Mann School of Nursing, 2013.

Vandemark, Lesley, Ph.D., M.S. (University of Connecticut), B.S. (California University of Pennsylvania), Clinical Assistant Professor, Department of Health, Human Performance and Recreation, 2016.

VanDevender, Karl, Ph.D. (University of Arkansas), M.S., B.S. (Mississippi State University), Professor, Department of Biological and Agricultural Engineering, 1995.

Vargas, Ivan, Ph.D. (University of Michigan), B.S. (Notre Dame University), Assistant Professor, Department of Psychological Science, 2019.

Vega, Jose L., Ph.D. (University of Arkansas), Instructor, Ralph E. Martin Department of Chemical Engineering, 2020.

Veilleux, Jennifer Celene, Ph.D., M.A. (University of Illinois at Chicago), B.A. (Macalaster College), Associate Professor, Department of Psychological Science, 2011.

Velliquette, Anne M., Ph.D. (University of Arkansas), M.A.B., B.S. (Southwest Missouri State University), Clinical Assistant Professor, Department of Marketing, 2014.
Venkatesh, Viswanath, Ph.D. (University of Minnesota-Twin Cities), B.E. (Bharathiar University, India), Distinguished Professor, Department of Information Systems, 2004.

Vennarucci, Rhodora, Ph.D., M.A. (State University of New York at Buffalo), B.A. (University of Michigan), Assistant Professor, Department of World Languages, Literatures and Cultures, 2013.

Verma, Lalit R., Ph.D. (University of Nebraska-Lincoln), M.S. (University of Montana), B. Tech. (J.N. Agricultural University, Jabalpur, India), Professor, Department of Biological and Agricultural Engineering, 2000.

Vilató, Claudia, M.A. (Penn State University), B.A. (University of Miami), Instructor, Department of English, 2015.

Villanova, Daniel, Ph.D. (Virginia Tech University), B.S.B.A. (Appalachian State University), Assistant Professor, Department of Marketing, 2018.

Villaseñor, Amelia, Ph.D. (George Washington University), B.A. (Arizona State University), Assistant Professor, Department of Anthropology, 2014.

Vining, Benjamin, Ph.D., M.A. (Boston University), B.A. Colgate University, Assistant Professor, Department of Anthropology, 2016.

Viswanathan, Padma, M.F.A. (University of Arizona), M.A. (Johns Hopkins University), B.A. (University of Alberta), Associate Professor, Department of English, 2010.

Vitale, Davide, M.Arch. (Harvard University), Diploma in Architecture (University of Rome), Professor, Department of Architecture, 1985.

Vowell-Johnson, Kelly, Ed.D. (University of Arkansas), M.N.Sc. (University of Arkansas for Medical Sciences), B.S.N. (Arkansas Tech University), Assistant Professor, Eleanor Mann School of Nursing, 2011.

Vyas, Reeta, Ph.D. (State University of New York at Buffalo), M.S., B.S. (Banaras Hindu University), Professor, Department of Physics, 1984.

Wade, Les, Ph.D. (University of California-Santa Barbara), M.F.A. (University of Georgia), M.A. (Duke University), B.A. (Tulane University), Professor, Department of Theatre, 2011.

Wai, Jonathan, Ph.D., M.S. (Vanderbilt University), M.A. (Claremont Graduate University), B.A. (Claremont McKenna College), Assistant Professor, Department of Education Reform, 2018.

Walch, John S., M.F.A. (University of Texas at Austin), B.A. (Colorado College), Assistant Professor, Department of Theatre, 2016.

Walker, Heather L., Ph.D., M.S.Ch.E., B.S.Ch.E. (University of Arkansas), Clinical Assistant Professor, Ralph E. Martin Department of Chemical Engineering, 2008.

Walker, James M., Ph.D. (University of Colorado-Boulder), M.S., B.S. (Louisiana Polytechnic Institute), Professor, Department of Biological Sciences, 1965.

Walker, Kate Ireton, M.S. (University of Arkansas), B.S. (Kansas State University), Instructor, Department of Biological Sciences, 2014.

Walker, Matthew A., Ph.D., M.S. (Pennsylvania State University), B.S. (University of Missouri–Columbia), Professor, Department of Supply Chain Management, 2002.

Walsh, Lora, Ph.D. (Northwestern University), M.Sc. (University of Edinburgh), B.A. (Pepperdine University), Visiting Assistant Professor, Department of English, 2014.

Wamishe, Yeshi Andenow, Ph.D. (University of Arkansas) M.S., B.S. (Addis Ababa University, Ethiopia), Associate Professor, Department of Entomology and Plant Pathology, 2011.

Wang, Feng, Ph.D. (University of Pittsburgh), Ph.D. (Kutztown University of Pennsylvania), Associate Professor, Department of Chemistry and Biochemistry, 2012.

Wang, Ya-Jane, Ph.D. (Iowa State University), M.S. (University of Minnesota-Twin Cities), B.S. (National Taiwan University), Professor, Department of Food Science, 1999.

Wang, Yao-Chin, Ph.D. (Oklahoma State University), M.B.A., B.Ec. (National Chung Cheng University), Assistant Professor, School of Human Environmental Sciences, 2017.

Wang, Yong, Ph.D., M.S. (University of California, Los Angeles), B.S. (University of Science and Technology of China), Assistant Professor, Department of Physics, 2016.

Ward, Barry M., Ph.D. (Rutgers State University-New Brunswick), M.Sc., B.A.Mod. (Trinity College, Dublin), Associate Professor, Department of Philosophy, 2002.

Ward, Heidi, Ph.D. (University of Oklahoma), D.V.M. (Oklahoma State University), B.S. (University of Oklahoma), Assistant Professor, Department of Animal Science, 2015.

Ward, Peggy, Ph.D. (University of Arkansas), M.S. (Texas A&M University), B.S.Ed. (Southern Arkansas University), Clinical Assistant Professor, Department of Curriculum and Instruction, 2010.

Warlow, George W., Ph.D. (The Ohio State University), M.Ed., B.S. (University of Missouri-Columbia), Professor, Department of Agricultural Education, Communications and Technology, 1992.

Ware, Morgan, Ph.D. (North Carolina State University), B.S. (Florida State University), Assistant Professor, Department of Electrical Engineering, 2005.

Warren, Ron, Ph.D. (Indiana University), M.A. (Colorado State University), B.A. (Michigan State University), Associate Professor, Department of Communication, 1997.

Warren, W. Dale, M.M. (University of Kentucky), B.S. (Austin Peay State University), Professor, Department of Music, 1991.

Washington, Tyrone A., Ph.D., B.S. (University of South Carolina at Columbia), Associate Professor, Department of Health, Human Performance and Recreation, 2011.

Watkins, Kenton Bradley, Ph.D. (Oklahoma State University), M.S., B.A. (University of Arkansas), Professor, Department of Agricultural Economics and Agribusiness, 2002.

Watkins, Patsy, Ph.D. (University of Iowa), M.A., B.A. (University of Texas, Austin), Associate Professor, School of Journalism and Strategic Media, 1983.

Watson, Angela R., Ph.D. (University of Arkansas), Lecturer, Department of Curriculum and Instruction, 2019.

Way, Kelly Ann, Ph.D., M.S., B.S. (Oklahoma State University), Associate Professor, School of Human Environmental Sciences, 2006.

Weatherby, Danielle, J.D. (University of Florida), B.A. (Franklin and Marshall College), Associate Professor, School of Law, 2013.

Webb, Jennifer D., Ph.D. (Oklahoma State University), M.S., B.S. (University of Tennessee), Associate Professor, Department of Interior Design, 1999.

Webster, Jim, Ph.D. (Arizona State University), M.B.A. (University of Arkansas), B.S.C.E. (Indiana University-Purdue University-Indianapolis), Instructor, Department of Finance, 2007.

Wejinya, Uchechukwu C., Ph.D., M.S., B.S. (Michigan State University), Assistant Professor, School of Architecture, 2011.

Welcher, Richard, M.S.C.E., B.S.C.E. (University of Arkansas), Instructor, Department of Civil Engineering, 2011.

Wells, Michael, M.S. (Florida State University), B.S. (East Stroudsburg University), Instructor, Operations Management Program, 2011.

Wells, Rob, Ph.D. (University of Maryland), M.A. (St. John's College), Assistant Professor, School of Journalism and Strategic Media, 2016.
Weng, Qin, Ph.D. (University of Pittsburg), M.S. (Virginia Commonwealth University), B.A. (Beijing Foreign Studies University), Assistant Professor, Department of Information Systems, 2018.

West, Elliott, Ph.D., M.A. (University of Colorado-Boulder), B.A. (University of Texas, Austin), Alumni Distinguished Professor, Department of History, 1979.

Westerman, Erica L., Ph.D. (Yale University), M.Sc. (University of New Hampshire), B.S. (Yale University), Assistant Professor, Department of Biological Sciences, 2016.

Whayne, Jeannie, Ph.D., M.A., B.A. (University of California-San Diego), University Professor, Department of History, 1990.

White, Calvin, Ph.D. (University of Mississippi), M.A., B.A. (University of Central Arkansas), Associate Professor, Department of History, 2007.

Whitehead, Isabel M., M.S. (University of Arkansas), B.S. (Sul Ross State University), Instructor, Department of Agricultural Education, Communications and Technology, 2018.

Wickramasinghe, Ranil, Ph.D. (University of Minnesota-Twin Cities), M.S., B.S. (University of Melbourne, Australia), Professor, Ralph E. Martin Department of Chemical Engineering, 2011.

Wicks, Jan L., Ph.D., M.A. (Michigan State University), B.A. (University of Southwest Louisiana), Professor, School of Journalism and Strategic Media, 1994.

Wicks, Robert Howard, Ph.D. (Michigan State University), M.A. (University of Missouri-Columbia), B.A. (American University), Professor, Department of Communication, 1994.

Wideman, Robert F., Ph.D. (University of Connecticut), B.A. (University of Delaware), Professor, Department of Poultry Science, 1993.

Wiebe, Zac, M.A. (University of Kansas), B.S. (University of Saskatchewan), B.A. (North Carolina State University), Assistant Professor, Department of Accounting, 2018.

Wilkerson, Weston, M.F.A. (University of Tennessee), B.A. (Texas A&M University), Assistant Professor, Department of Theatre, 2014.

Wilkins, Charles L., Ph.D. (University of Oregon), B.S. (Chapman College), Distinguished Professor, Department of Chemistry and Biochemistry, 1998.

Williams, Amanda, Ph.D., M.S., B.S. (Oklahoma State University), Assistant Professor, School of Human Environmental Sciences, 2017.

Williams, Brent Thomas, Ph.D. (University of Illinois, Urbana-Champaign), M.S. (University of Texas Southwestern Medical School), B.A. (Austin College), Associate Professor, Department of Rehabilitation, Human Resource and Communication Disorders, 2002.

Williams, Brent D., Ph.D., M.S. (University of Arkansas), B.A. (Lyon College), Associate Professor, Department of Supply Chain Management, 2011.

Williams, Charlotte Lewellen, Ph.D., M.S. (University of Arkansas for Medical Sciences), B.S. (Howard University), Professor, Clinton School of Public Service, 2007.

Williams, Colleen C., J.D. (Washington University in St. Louis), B.A. (Western Washington University), Associate Librarian, University Libraries, 2006.

Williams, Donnie F., Ph.D. (Georgia Southern University), Clinical Assistant Professor, Department of Supply Chain Management, 2019.

Williams, Patrick George, Ph.D., M.A. (Columbia University), B.A. (University of Texas at Austin), Professor, Department of History, 1998.

Williams, Rodney D., Ph.D., M.S., B.S.C.E. (University of Arkansas), Assistant Professor, Department of Civil Engineering, 1998.

Williams, Stacy Goad, Ph.D., M.S.C.E., B.S.C.E. (University of Arkansas), Associate Professor, Department of Civil Engineering, 1997.

Willson, John David, Ph.D. (University of Georgia), B.S. (Davidson College), Associate Professor, Department of Biological Sciences, 2012.

Wilson, Charles E., Ph.D., M.S. (University of Arkansas), B.S. (Arkansas State University), Professor, Department of Crop, Soil and Environmental Sciences, 2011.

Winkle, Allison P., M.S. (University of Arkansas), Lecturer, Department of Rehabilitation, Human Resource and Communication Disorders, 2019.

Wise, Rick, Ph.D., M.S. (Southern Methodist University), B.S. (University of Arkansas), Research Professor, Department of Physics, 2014.

Wissehr, Cathy, Ed.D. (University of Missouri-Columbia), M.S., B.S. (Southeast Missouri State University), Clinical Associate Professor, Department of Curriculum and Instruction, 2009.

Wolchok, Jeffrey Collins, Ph.D. (University of Utah), M.S., B.S. (University of California at Davis), Associate Professor, Department of Biomedical Engineering, 2011.

Wolf, Patrick J., Ph.D., M.A. (Harvard University), B.A. (University of Saint Thomas), Distinguished Professor, Department of Education Reform, 2006.

Wolfe, Marc E., M.S.A. (Central Michigan University), B.S. (Harding University), Professor, Air Force ROTC, 2016.

Wood, Clinton M., Ph.D. (University of Texas at Austin), M.S.C.E., B.S.C.E. (University of Arkansas), Associate Professor, Department of Civil Engineering, 2013.

Wood, Lisa S., Ph.D., M.S., B.S. (University of Arkansas), Clinical Associate Professor, Department of Crop, Soil and Environmental Sciences, 2012.

Woodland, Janet C., Ph.D., M.A. (State University of New York at Stony Brook), B.A. (King’s College), Teaching Assistant Professor, Department of Mathematical Sciences, 1993.

Woods, Jordan Blair, Ph.D., M.Phil (University of Cambridge), J.D. (University of California, Los Angeles), Assistant Professor, School of Law, 2016.

Woods, Randall B., Ph.D., M.A. (University of Texas at Austin), Distinguished Professor, Department of History, 1971.

Worden, Steven K., Ph.D. (University of Texas at Austin), M.A., B.A. (Portland State University), Associate Professor, Department of Sociology and Criminology, 1986.

Worrell, Dan, Ph.D., M.S., B.S. (Louisiana State University), Professor, Department of Management, 2005.

Worthington, Margaret L., Ph.D. (North Carolina State University), M.S. (University of California-Davis), B.S. (Duke University), Assistant Professor, Department of Horticulture, 2016.

Wu, Jingxian, Ph.D. (University of Missouri-Columbia), M.S. (Tsinghua University), B.S. (Beijing University of Aeronautics and Astronautics), Associate Professor, Department of Electrical Engineering, 2008.

Wu, Xintao, Ph.D. (George Mason University), M.E. (Chinese Academy of Space Technology), B.S. (University of Science and Technology of China), Professor, Department of Computer Science and Computer Engineering, 2014.

Xiao, Min, Ph.D. (University of Texas at Austin), B.S. (Nanjing University), Distinguished Professor, Department of Physics, 1990.
Xinya, Liang, Ph.D. (Florida State University), B.S. (Zhejiang Gongshang University, China), Assistant Professor, ESMR, 2014.

Xu, Jenny, M.A. (University of Texas at Austin), Clinical Associate Professor, Department of World Languages, Literatures and Cultures, 1992.

Y

Yancy-Taylor, Pamela N., Ed.D. (Freed-Hardeman University), Instructor, Department of Curriculum and Instruction, 2019.

Yandell, Kay, Ph.D., M.A. (Cornell University), B.A. (University of Arkansas), Associate Professor, Department of English, 2013.

Yang, Li, M.A. (Brandeis University and Beijing Language and Culture University), B.A. (Beijing Language and Culture University), Instructor, Department of World Languages, Literatures and Cultures, 2014.

Yang, Song, Ph.D., M.S. (University of Minnesota-Twin Cities), M.A. (Nankai University, China), B.A. (Branch College of Nankai, China), Professor, Department of Sociology and Criminology, 2002.

Yates, Michael, M.B.A. (Harvard University), M.S. (Naval Postgraduate School), B.A. (University of California), Instructor, Department of Management, 1999.

Yazwinski, Tom, Ph.D. (North Carolina State University), M.S. (University of Maine), B.S. (University of Vermont), University Professor, Department of Animal Science, 1977.

Yeager, Mickey, M.S. (University of Arkansas), M.A. (Liberty Baptist Theological Seminary), B.S. (University of Southern Mississippi), Instructor, Operations Management Program, 1989.

Yeager, Timothy J., Ph.D., M.A. (Washington University in St. Louis), Professor, Department of Finance, 2006.

Yoon, InJeong, Ph.D. (University of Arizona), Assistant Professor, School of Art, 2017.

Young, Amber, Ph.D. (University of Oklahoma), B.M.A. (Oklahoma Christian University), B.S.Ed. (University of Oklahoma), Assistant Professor, Department of Information Systems, 2018.

Young, Chase R., M.F.A. (University of Arkansas), Instructor, School of Art, 2019.

Young, Christopher, M.S.N. (University of Oklahoma), B.S.N. (Southern Arkansas State University), Instructor, Eleanor Mann School of Nursing, 2018.

Young, Elizabeth Lee, J.D. (George Washington University), B.A. (Hendrix College), Associate Professor, School of Law, 2008.

Young, Heather D., Ph.D. (University of Arkansas), M.S. (University of Tennessee), B.S. (Arkansas Tech University), Associate Professor, Department of Curriculum and Instruction, 2007.

Young, Kelly, D.N.P. (University of South Alabama), M.S. (University of Oklahoma), B.S.N. (Southwestern Oklahoma State University), B.A. (Grinnell College), Assistant Professor, Eleanor Mann School of Nursing, 2018.

Young, Rana N., M.F.A. (University of Nebraska), Visiting Assistant Professor, School of Art, 2019.

Youngblood, Joshua Cobbs, M.A. (Florida State University), B.A. (University of Louisiana at Monroe), Assistant Librarian, University Libraries, 2011.

Yu, Fisher, Ph.D. (Arizona State University), M.S., B.S. (Peking University), Associate Professor, Department of Electrical Engineering, 2008.

Z

Zabelina, Darya, Ph.D. (Northwestern University), Assistant Professor, Department of Psychological Science, 2017.

Zajac, Mark, Ph.D., M.Sc. (University of Notre Dame), B.Sc. (McMaster University, Hamilton Ontario, Canada), Visiting Assistant Professor, Department of Physics, 2013.

Zajicek, Anna, Ph.D. (Virginia Polytechnic Institute and State University), M.S., B.S. (University of Silesia, Poland), Professor, Department of Sociology and Criminology, 1994.

Zamarro Rodriguez, Gema, Ph.D., M.S. (Centro de Estudios Monetarios y Financieros, Spain), B.A. (Universidad Carlos III de Madrid, Spain), Professor, Department of Education Reform, 2014.

Zamboanga, Byron L., Ph.D., M.A. (University of Nebraska), B.A. (University of California, Berkeley), Professor, Department of Psychological Science, 2020.

Zeng, Ka, Ph.D. (University of Virginia), M.A. (Virginia Polytech Institute and State University), B.A. (Foreign Affairs College, Beijing), Professor, Department of Political Science, 2000.

Zhan, Justin, Ph.D. (University of Ottawa, Canada), M.S. (Syracuse University), Professor, Department of Computer Science and Computer Engineering, 2019.

Zhang, Lu, Ph.D. (Nanyang Technological University, Singapore), Assistant Professor, Department of Computer Science and Computer Engineering, 2018.

Zhang, Qingyang, Ph.D. (Northwestern University), M.S. (Loyola University–Chicago), B.S. (Beijing Normal University), Assistant Professor, Department of Mathematical Sciences, 2015.

Zhang, Shengfan, Ph.D., M.I.E. (North Carolina State University), B.M. (Fudan University, Shanghai), Associate Professor, Department of Industrial Engineering, 2011.

Zhang, Wen, Ph.D. (Purdue University), M.S. (University of Kansas), Assistant Professor, Department of Civil Engineering, 2011.

Zhao, Jiangchao, Ph.D. (University of Wisconsin-Madison), M.S., B.S. (China Agricultural University), Associate Professor, Department of Animal Science, 2015.

Zhao, Yue, Ph.D. (University of Nebraska-Lincoln), B.S. (Beijing University), Assistant Professor, Department of Electrical Engineering, 2015.

Zheng, Nan, Ph.D. (University of Michigan-Ann Arbor), M.S. (University of Rochester), B.S. (University of Science and Technology of China), Associate Professor, Department of Chemistry and Biochemistry, 2008.

Zhou, Wenchao, Ph.D. (Georgia Institute of Technology), M.S.M.E. (Xi’an Jiaotong University, Xi’an, China), B.S.M.E. (Huazhong University of Science and Technology, Wuhan, China), Assistant Professor, Department of Mechanical Engineering, 2014.

Zhu, Jun, Ph.D. (University of Illinois at Urbana-Champaign), M.S., B.S. (Zhejiang University, Hangzhou, China), Professor, Department of Biological and Agricultural Engineering, 2013.

Zhu, Yaguang, M.F.A. (University of Nebraska), Assistant Professor, Department of Communication, 2019.

Zies, Brenda June, Ph.D., M.A. (University of Arkansas), B.S. (East Texas State University), Teaching Assistant Professor, Department of Psychological Science, 2005.

Zou, Min, Ph.D. (University of Nebraska), B.A. (University of California), Professor, Department of Information Systems, 2014.

Zou, Tim Jiping, Ph.D., M.S. (University of Illinois-Urbana-Champaign), B.A. (Shandong University), Librarian, University Libraries, 2004.

Courses of Instruction

Courses listed in this section describe all courses approved for offering by the University of Arkansas. The courses are listed alphabetically by subject with the subject code in parenthesis following. The word “course” refers to a unit of academic instruction, while the word “class” refers to a
course that has been scheduled during a semester or summer session with a certain number of prescribed meetings each week. Many courses are offered as classes every semester while many others are offered less frequently. Successful completion of a class usually earns a specified number of semester hours of credit toward a degree.

To see a Schedule of Classes, which lists classes available in a specific semester, along with the instructor of record, time and place the class is being held, go to UACoMe (https://uacomm.uark.edu/).

**How to Read a Course Description**

Courses listed in this section describe all courses approved for offering by the University of Arkansas. The word "course" refers to a unit of academic instruction, while the word "class" refers to a course scheduled during a semester or summer session with a certain number of prescribed meetings each week. Successful completion of a class usually earns a specified number of semester hours of credit toward a degree.

The Schedule of Classes lists classes available in a specific semester, along with the instructor of record, time and place the class is being held.

**Course Description Explanations**

A course listing comprises the following elements, in order:

- **Course Prefix**: This alpha descriptor is the first identifying part of a course. This four-letter code represents the course prefix name. Usually the course prefix will be the same as the department offering the course, but occasionally the prefix is one of many different courses offered in a single department. For example, ARAB refers to Arabic courses, which are offered through the Department of World Languages, Literatures and Cultures; HIST refers to History courses.

- **Course Number**: Each course is designated by a four-digit number. The first digit identifies the level of the course: 1, freshman level; 2, sophomore level; 3 and 4, junior-senior level; 5, 6, and 7, graduate level. Any exceptions to this practice are stated in the course descriptions.

- **Course Title**: The title of the course is printed in bold letters. Course descriptions include a notation of the course type (lecture, laboratory, etc.). Course descriptions also include a notation of the course type (lecture, laboratory, etc.).

- **Course Description**: A brief description of the course content and its major emphasis are stated. The course is typically offered. Consult the Schedule of Classes to verify that a course is being offered for a given term.

- **Course Semester Offering**: Course descriptions include a notation of the semester in which the course is typically offered. Consult the Schedule of Classes to verify that a course is being offered for a given term.

- **Course Description**: A brief description of the course content and its major emphasis are stated. If the course is cross-listed (also offered under another subject) a statement to that effect will be included in the description. Likewise, if the course is equivalent to another course (such as an honors and non-honors offering) a statement to that effect will also be included. If the course is eligible to be repeated for degree credit more than once, a statement will appear to indicate the total hours or times a course may be repeated. If no repeat statement is listed, the course may be used for degree credit only once.

- **Requisites**: Requisites are requirements that must be fulfilled either before a course may be taken or at the same time a course is taken. It is the student's responsibility to make sure the proper prerequisites have been completed before enrolling in any class. Prerequisites are courses or requirements that must be completed prior to enrolling in a certain course. Courses may have prerequisites from inside and outside the department. It is the student's responsibility to make sure he/she has completed the proper prerequisites before enrolling in any class. Courses listed as corequisite are to be taken in the same semester as the course desired.

- **Course Format**: A course listed as a pre- or corequisite to another course means that it must be taken during the same semester as that course, unless it has been completed in a previous term.

- **Students**: Students may not enroll in courses for which they do not have the necessary requisites. Students who are in doubt concerning their eligibility to enroll in specific courses should consult with their academic adviser. Students may be dropped from courses for which they do not have the necessary requisites.

**Courses of Instruction**

- **By Subject**
  - Accounting (ACCT) (p. 908)
  - Adult and Lifelong Learning (ADLL) (p. 910)
  - Advertising/Public Relations (ADPR) (http://catalog.uark.edu/undergraduatecatalog/coursesofinstruction/adpr/)
  - African and African American Studies (AAST) (p. 912)
  - Agricultural Communications (ACOM) (http://catalog.uark.edu/undergraduatecatalog/coursesofinstruction/acom/)
  - Agricultural Economics (AGEC) (p. 915)
  - Agricultural Education (AGED) (p. 919)
  - Agricultural Leadership (AGLE) (http://catalog.uark.edu/undergraduatecatalog/coursesofinstruction/agle/)
  - Agricultural Statistics (AGST) (p. 921)
  - Agricultural Systems Technology Management (ASTM) (http://catalog.uark.edu/undergraduatecatalog/coursesofinstruction/astm/)
  - Agriculture, Food and Life Sciences (AFLS) (p. 921)
Air Force ROTC (AERO) (p. 922)
Animal Science (ANSC) (p. 922)
Anthropology (ANTH) (p. 927)
Apparel Merchandising and Product Development (AMPD) (p. 932)
Applied Music (Class) (MUAC) (p. 935)
Applied Music (Private Instruction) (MUAP) (p. 936)
Arabic (ARAB) (p. 937)
Architecture (ARCH) (p. 937)
Army ROTC (MILS) (p. 941)
Art (ARTS) (p. 942)
Art Education (ARED) (p. 947)
Art History (ARHS) (p. 949)
Arts and Sciences (ARSC) (p. 953)
Asian Studies (AIST) (p. 953)
Astronomy (ASTR) (p. 954)
Athletic Training (ATTR) (p. 954)
Biological Engineering (BENG) (p. 955)
Biography (BIOH) (p. 958)
Biomedical Engineering (BMEG) (p. 966)
Business Law (BLAW) (p. 970)
Career and Technical Education (CATE) (p. 970)
Cell and Molecular Biology (CEMB) (p. 971)
Chemical Engineering (CHEG) (p. 971)
Chemistry and Biochemistry (CHEM) (p. 974)
Chinese (CHIN) (p. 979)
Civil Engineering (CVEG) (p. 979)
Classical Studies (CLST) (p. 984)
Communication (COMM) (p. 984)
Communication Sciences and Disorders (CDIS) (p. 989)
Community College Leadership (CACLE) (http://catalog.uark.edu/undergraduatecatalog/coursesofinstruction/cacle/)
Community Health Promotion (CHLP) (p. 993)
Computer Science and Computer Engineering (CSCE) (p. 993)
Counselor Education (CNED) (p. 999)
Criminology (CRIM) (p. 1001)
Crop, Soil and Environmental Sciences (CSES) (p. 1003)
Curriculum and Instruction (CIED) (p. 1005)
Dance (DANC) (p. 1012)
Data Science (DASC) (http://catalog.uark.edu/undergraduatecatalog/coursesofinstruction/dasc/)
Economics (ECON) (p. 1013)
Education (EDPH) (p. 1016)
Education Reform (EDRE) (p. 1016)
Educational Foundations (EDFD) (p. 1018)
Educational Leadership (EDLE) (p. 1018)
Educational Statistics and Research Methods (ESRM) (p. 1019)
Educational Studies (EDST) (p. 1020)
Educational Technology (ETEC) (p. 1022)
Electrical Engineering (ELEG) (p. 1022)
Engineering (ENGR) (p. 1029)
English (ENGL) (p. 1029)
English Language and Cultural Studies (ELAC) (p. 1035)
Entomology (ENTO) (p. 1036)
Environmental Dynamics (ENDY) (p. 1038)
Environmental Science (ENSC) (p. 1038)
Ethnomusicology (MUSY) (p. 1040)
Exercise Science (EXSC) (p. 1040)
Extension Education (EXED) (p. 1042)
Fay Jones Architecture and Design (FJAD) (http://catalog.uark.edu/undergraduatecatalog/coursesofinstruction/fjad/)
Finance (FINN) (p. 1042)
Food Science (FDSC) (p. 1045)
French (FREN) (p. 1048)
Gender Studies (GNST) (p. 1049)
General Engineering (GNEG) (p. 1050)
Geosciences (GEOS) (p. 1051)
German (GERM) (p. 1060)
Graduate Education Courses (GRSD) (p. 1061)
Graphic Design (GDES) (http://catalog.uark.edu/undergraduatecatalog/coursesofinstruction/gdes/)
Greek (GREK) (p. 1061)
Health, Human Performance and Recreation (HHPR) (p. 1063)
Higher Education (HIED) (p. 1063)
History (HIST) (p. 1064)
Honors College (HRED) (p. 1076)
Horticulture (HORT) (p. 1077)
Hospitality Management (HOSP) (p. 1081)
Human Development and Family Sciences (HDFS) (p. 1082)
Human Environmental Sciences (HESC) (p. 1086)
Human Resource and Workforce Development Education (HRWD) (p. 1086)
Humanities (HUMN) (p. 1089)
Industrial Engineering (INENG) (p. 1089)
Information Systems (ISYS) (p. 1095)
Interdisciplinary Studies (IDST) (p. 1098)
Interior Design (IDES) (p. 1098)
International and Global Studies (INST) (p. 1099)

Mechanical Engineering (MEENG) (p. 1131)
Medieval and Renaissance Studies (MRST) (p. 1136)
Courses

MSEN 488V. Materials Science and Engineering Undergraduate Research. 1-3 Hour.
Special research topics associated with undergraduates enrolled in the Materials Science and Engineering minor program, or by special permission of the MSEN Director to undergraduate students engaged in research with MSEN faculty members. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

MSEN 5253. Emerging Technologies in Industry. 3 Hours.
Business leaders present technologies used by their companies. Focusing on Arkansas-based companies, technology needs for the industry and innovative ideas for solutions or advancements are discussed. Students work to develop solutions to address company needs or further develop a company's current technology. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

MSEN 5313. Fundamentals of Materials Science. 3 Hours.
Fundamentals of Materials Science provides an overview of materials science and engineering and is foundational for graduate study in the field. The structures of materials at the atomic scale, nanoscale, microscale, and macroscale are studied and the impact of this organization of matter on its physical and chemical properties are examined. Principles for measurement and characterization of material structure and properties are introduced. Emphasis is placed on materials important for use for electronic, photonic, energy, and biological applications. Advances in nanoscale materials as established fundamentals of macroscale structural materials are covered. Prerequisite: Graduate standing or consent of the instructor. (Typically offered: Fall)

MSEN 5322. Materials Characterization. 2 Hours.
Lecture and hands-on experience for using characterization tools to study the properties of materials. Techniques covered will include x-ray diffraction, x-ray photoelectron spectroscopy, scanning electron microscope, transmission electron microscope, and others. Use of these techniques for studies of material failure and reliability will also be examined. Corequisite: Lab component. Prerequisite: MSEN 5313 or instructor consent. (Typically offered: Fall)

MSEN 5383. Research Commercialization and Product Development. 3 Hours.
This course examines research commercialization through analysis of IP, technology space, market space, manufacturability, financials, and business plans. Entrepreneurial behaviors and product development within large companies are also discussed. A case study using a current UA faculty member's research commercialization effort will be developed. Prerequisite: Graduate Standing. (Typically offered: Spring)

MSEN 5393. Product Development Process. 3 Hours.
Demonstration of a student's technical and management knowledge integration by creating a commercially viable product development process to meet a new societal need, with the technical solution based on micro to nanoscale technology. Final grade based on a detailed written report and oral presentation to a panel. Non-thesis students only. Pre- or Corequisite: MSEN 5383. Prerequisite: Instructor permission. (Typically offered: Spring)

MSEN 5513. Applied Research in External Technical Organizations. 3 Hours.
A one semester narrow focus graduate research effort while working at an external technical organization's site. Requires a final report of style and quality suitable for journal submission. This course available only to Professional Path M.S. MSEN students, and may substitute for an MSEN 588V External Internship. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.
MSEN 5523. Applied On-Campus Collaborative Research with External Technical Organizations. 3 Hours.
A one semester narrow focus graduate level on-campus research effort performed in collaboration with an external technical organization. Requires a final report of style and quality suitable for journal submission. This course available only to Professional Path M.S. MSEN students. Prerequisite: Instructor consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

MSEN 555V. Internship in External Technical Organization. 1-3 Hour.
Used to document a MSEN grad student internship experience in an external technical organization for a minimum duration of six weeks (6-9 weeks=one hour, 10-12 weeks=two hours, and 13-15 weeks=three hours). It may not be used to meet the research requirements of a M.S. degree. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

MSEN 5611. Research Communication Seminar of MS Students. 1 Hour.
This course serves as a forum for MS students to develop oral presentation skills and to exchange research ideas. Research presentations will be on various topics in the area of micro to nanoscale materials, processing, and devices, with research management and planning also being addressed. Prerequisite: Graduate standing. (Typically offered: Fall and Spring)

MSEN 5713. Advanced Nanomaterials Chemistry. 3 Hours.
Science and engineering graduates are using more nanomaterials, and modern industry demands that its scientists and engineers have materials chemistry knowledge. Materials from the micro to nanoscale will be examined in this course from the perspective of fundamental chemistry principles to build a picture of tomorrow's materials. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

MSEN 5733L. Fabrication at the Nanoscale. 3 Hours.
This hands-on lab course will cover the disciplines needed to make active electronic and photonics devices utilizing nanoscale structures and fabrication techniques presently used in research and industry. Prerequisite: Graduate standing and permission of the instructor. (Typically offered: Fall and Spring)

MSEN 5811. 1st Year Operations Seminar - Infrastructure Management. 1 Hour.
Weekly seminar for 1st year Materials Science and Engineering graduate students to discuss issues that increase professional performance in technology-centered organizations. The discussions will focus on issues that affect organizational infrastructure, career planning, organizational structures, and may include examples from current events. Prerequisite: Graduate standing. (Typically offered: Fall)

MSEN 5821. Ethics for Scientists and Engineers. 1 Hour.
This course will introduce methods useful in the practice of ethical decision making in the high technology academic and industrial work place. An emphasis will be placed on applying the methods discussed in the text to student and instructor past professional experiences. Prerequisite: Graduate standing. (Typically offered: Summer)

MSEN 587V. Special Topics in Materials Science and Engineering. 1-4 Hour.
Consideration of current materials science and engineering topics not covered in other courses. One section will be created for each topic only after a syllabus is submitted to the MSEN office by the faculty member teaching the course. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

MSEN 588V. Special Problems in Materials Science and Engineering. 1-3 Hour.
Opportunity for individual study of advanced subjects related to a graduate degree in Materials Science and Engineering to suit individual requirements. One section will be created for each student only after a syllabus is submitted to the MSEN office by the supervising faculty member. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

MSEN 5911. 1st Year Operations Seminar - Personnel Management. 1 Hour.
Weekly seminar for 1st year Materials Science and Engineering graduate students to discuss issues that increase professional performance in technology-centered organizations. The discussions will focus on issues that affect personnel management, team building and structures, and may include examples from current events. Prerequisite: Graduate standing. (Typically offered: Spring)

MSEN 600V. Master's Thesis. 1-6 Hour.
Master's Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

MSEN 626V. Emerging Technologies in Industry Practicum. 1-3 Hour.
Students engage in demand-driven research projects inspired by Arkansas companies as part of the interdisciplinary IGNITE (Industry Generating New Ideas and Technology through Education) program. These projects, which often result from interactions with companies during MSEN 5253, include visiting company locations; developing project goals, budgets, and timelines; and performing research. (Typically offered: Fall, Spring and Summer) May be repeated for up to 9 hours of degree credit.

MSEN 6313. Advanced Materials Science and Engineering. 3 Hours.
This course will introduce students to the core principles of the design, nature and processing of advanced materials and the mechanisms of failure of materials. The course also integrates materials behavior and materials processing relevant to a wide range of industrial sectors while it covers traditional structural materials, functional materials, nanomaterials and biomaterials. Students learn to achieve enhanced functionality through convergence and integration of biological, organic, electronic, and structural materials; self-assembly creation of new materials; and tailoring of interfaces to produce nanocomposites. In this way, it will provide students with a depth of core knowledge and skills allowing students to make informed choices concerning applications, selection and design of advanced materials. Prerequisite: MSEN 5313 or permission of the Instructor. (Typically offered: Spring)

MSEN 6323. Materials Engineering Design. 3 Hours.
This course will provide concrete training on the generation of a sound prototype design and R&D plan, in addition to the generation of a quality proposal based on specific federal solicitation criteria. Finally, each student will pick a topic/prototype for which they will prepare a full preliminary design, R&D plan and federal grant proposal from a list of real, suitable topics. The students will be required to follow the specific topic/solicitation instructions provided by the federal agency supporting the research. Prerequisite: Graduate standing or consent of the instructor. (Typically offered: Fall)

MSEN 6611. Research Communication Seminar of PhD Students. 1 Hour.
This course serves as a forum for Ph.D. students to develop oral presentation skills and to exchange research ideas. Research presentations will be on various topics in the area of materials, processing, and devices, with research management and planning also being addressed. Prerequisite: Graduate standing. (Typically offered: Fall and Spring)

MSEN 6611. 2nd Year Operations Seminar - Management and Leadership. 1 Hour.
Weekly seminar for 2nd year Materials Science and Engineering graduate students to discuss issues that increase professional performance in technology-centered organizations. The discussions will focus on issues that affect management and leadership effectiveness and efficiency, and may include examples from current events. Prerequisite: Graduate standing. (Typically offered: Fall)

MSEN 6611. 2nd Year Operations Seminar - Advanced Management and Leadership. 1 Hour.
Weekly seminar for 2nd year Materials Science and Engineering graduate students to discuss advanced issues that increase professional performance in technology-centered organizations. The discussions will focus on the complex issues that affect management and leadership effectiveness and efficiency, and may include examples from current events. Prerequisite: Graduate standing. (Typically offered: Spring)
MSEN 700V. Doctoral Dissertation. 1-21 Hour.
Doctoral dissertation. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Accounting (ACCT) Courses

ACCT 2013. Accounting Principles. 3 Hours.
Introduction of accounting as an information system with emphasis on processing and presenting information in the form of financial statements for use in decision making. The course emphasizes business processes and double entry accounting. Prerequisite: (Non-business majors: (ISYS 1120 or (ISYS 1123 with a grade of C or better)) and MATH 2043 or higher with a grade of C or better), or (Business majors: (ISYS 1120 or (ISYS 1123 with a grade of C or better)), WCOB 1111, and (MATH 2053 or MATH 2554 with a grade of C or better)). (Typically offered: Fall, Spring and Summer)

ACCT 2013H. Honors Accounting Principles. 3 Hours.
Introduction of accounting as an information system with emphasis on processing and presenting information in the form of financial statements for use in decision making. This course is equivalent to ACCT 2013. Prerequisite: (Non-business majors: Honors Standing, (ISYS 1120 or (ISYS 1123 with a grade of C or better)), and MATH 2043 or higher with a grade of C or better) or (Business majors: Honors standing, (ISYS 1120 or (ISYS 1123 with a grade of C or better)), WCOB 1111 and (MATH 2053 or MATH 2554 with a grade of C or better)). (Typically offered: Spring) This course is equivalent to ACCT 2013.

ACCT 2023. Accounting Principles II. 3 Hours.
In this course we study managerial accounting concepts and their use in business decisions. We will examine the development and analysis of cost information for management use in decision-making, income determination, and performance evaluation. Prerequisite: ACCT 2013 with a grade of C or better. (Typically offered: Fall, Spring and Summer)

ACCT 310V. Accounting Internship. 1-3 Hour.
This class is designed to give students an internship opportunity to combine their formal academic preparation with an exposure to the accounting profession. Prerequisite: Department consent and ACCT 3723 with a grade of C or better. (Typically offered: Spring) May be repeated for up to 3 hours of degree credit.

ACCT 310VH. Honors Accounting Internship. 1-3 Hour.
This class is designed to give students an internship opportunity to combine their formal academic preparation with an exposure to the accounting profession. Prerequisite: Honors standing, Department consent and ACCT 3723 with a grade of C or better. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit. This course is equivalent to ACCT 310V.

ACCT 3533. Accounting Technology. 3 Hours.
This course provides an overview of accounting information systems and illustrates the importance of technology to accountants. Students are exposed to a variety of information technologies including manual, file-oriented, and database systems. The relative advantages and disadvantages of each type of system are highlighted and discussed. Prerequisite: ACCT 2013 with a grade of B or better. (Typically offered: Fall and Spring)

ACCT 3543. Accounting Analytics. 3 Hours.
This course provides students with an overview of the data analytics process in accounting: asking appropriate accounting questions, finding and mastering appropriate accounting data to address those questions, performing test analysis and communicating the results of the data through data visualizations. Extensive hands-on, experiential learning using short Excel and Tableau labs is a key part of the course. Basic knowledge of excel is recommended. Prerequisite: (Non-business majors: (ACCT 2013 with a grade of B or better) and (INEG 2313 or STAT 3013 with a grade of B or better)) or (Business majors: (ACCT 2013 with a grade of B or better) and (WCOB 1033 with a grade of B or better)). (Typically offered: Fall and Spring)

ACCT 3723. Intermediate Accounting I. 3 Hours.
This course is designed to study the theoretical basis for financial accounting concepts and principles related to financial reporting. This course emphasizes researching technical accounting pronouncements for application to external financial reporting issues. Prerequisite: ACCT 2013 with a grade of B or better. (Typically offered: Fall and Spring)

ACCT 3753. Intermediate Accounting II. 3 Hours.
This is the second financial accounting course designed to continue study of financial accounting concepts and principles. This course emphasizes research of technical accounting pronouncements for application to external financial reporting issues. Prerequisite: ACCT 3723 with a grade of C or better. (Typically offered: Fall and Spring)

ACCT 3843. Fundamentals of Taxation I. 3 Hours.
Introduction to federal income taxation with a focus on individuals, including basic tax concepts, income tax principles applicable to individual taxpayers, primary tax law authorities, tax research techniques, and tax planning strategies. Prerequisite: ACCT 2013 with a grade of B or better. (Typically offered: Fall and Spring)

ACCT 4003H. Honors Accounting Colloquium. 3 Hours.
Explores events, concepts and/or new developments in the field of accounting. Prerequisite: Honors standing, Senior standing and ACCT 3723 with a grade of C or better. (Typically offered: Fall)

ACCT 410V. Special Topics in Accounting. 1-3 Hour.
Explore current events, concepts and new developments relevant to Accounting not available in other courses. Prerequisite: Department consent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ACCT 4123H. Professional Ethics and Corporate Governance. 3 Hours.
An examination of various aspects of accounting and business ethics including ethical theories; ethical reasoning; ethical values - including integrity, objectivity, auditor independence, and other values relevant for accountants; and ethics codes. The course provides students with a framework of ethical reasoning, professional values and attitudes for exercising professional skepticism and other behavior that is in the best interest of the public and accounting profession. Aspects of corporate governance related to establishing an ethical corporate culture will also be addressed. Prerequisite: Senior standing, Honors standing, and ACCT 3723 with a grade of C or better. (Typically offered: Spring)

ACCT 4203. Fundamentals of Taxation II. 3 Hours.
Study of federal income taxation with a focus on entities other than individuals (C corporations, S corporations, partnerships, estates, and trusts) as well as an introduction to federal transfer taxes, state and local taxes, and multinational tax issues, including applicable tax principles and continued development of tax research techniques, and tax planning strategies. Prerequisite: ACCT 3723 and ACCT 3843 each with a grade of C or better. (Typically offered: Fall and Spring)

ACCT 4673. Product, Project and Service Costing. 3 Hours.
Cost systems with emphasis on information generation for cost management of products, projects and services. The course includes spreadsheet and other computer program analysis. Prerequisite: ACCT 2023 and ACCT 3723 each with grades of C or better. (Typically offered: Fall)
ACCT 4703. Governmental/Nonprofit Accounting. 3 Hours.
Governmental and non-profit accounting, financial statement and internal controls compliance, and auditing for government and other non-profit organizations. Industry specific issues in accounting for health care organizations and colleges and universities; and federal governmental accounting. Prerequisite: ACCT 2013 and ACCT 2023 each with a grade of C or better. (Typically offered: Irregular)

ACCT 4883. Energy Accounting. 3 Hours.
This course covers the basic issues of accounting and financial reporting for energy issues including hydrocarbon production, processing and sales as well as accounting for wind, solar and other alternative energy sources. Covers national and international energy policy, relevant public policy, environmental and geological issues, and considers environmental law, climate and economic topics relevant to energy topics. Prerequisite: ACCT 3723 and ACCT 3753 each with a grade of C or better. (Typically offered: Irregular)

ACCT 4963. Audit and Assurance Services. 3 Hours.
Professional standards and procedures as applied to external and internal assurance engagements. Including coverage of the economic role of assurance providers, engagement planning, risk assessment, evidence gathering, and reporting. Prerequisite: ACCT 3723 with a grade of C or better. (Typically offered: Fall and Spring)

ACCT 510V. Special Topics in Accounting. 1-3 Hour.
(Formerly ACCT 410V.) Explore current events, concepts and new developments relevant to Accounting not available in other courses. Graduate degree credit will not be given for both ACCT 410V and ACCT 510V. Prerequisite: ACCT 3723 with a grade of C or better. (Typically offered: Irregular) May be repeated for degree credit.

ACCT 5123. Corporate Governance and Professionalism. 3 Hours.
Aspects of corporate governance related to establishing an ethical corporate culture are addressed. The course examines various aspects of accounting and business ethics including frameworks for ethical reasoning; professional values - including integrity, objectivity, accounting independence, and professional skepticism; and other core values relevant for accountants. Accounting professional ethics codes and rules are also addressed. Corporate governance structures are examined. Prerequisite: Graduate standing in the Masters of Accountancy program. (Typically offered: Irregular)

ACCT 5223. MBA Accounting Analysis. 3 Hours.
Highlights the role played by accounting information in managing supply chains and retail operations. Provides tools for managing cost flows, including activity-based costing, retail accounting, and operational budgeting. Focuses on improving decision making processes, and linking the impact of retail/supply chain decisions to financial statements and shareholder value. (Typically offered: Fall and Spring)

ACCT 5263. Financial Statement Analysis for Executives. 3 Hours.
This course provides a framework for understanding the intersection between business strategy, accounting, economics, and finance. Using historical financial statements as the primary information input, you will employ tools that enable you to better understand the drivers of current performance and risk, forecast future performance, and construct a value estimate. These tools can be applied in a number of contexts including equity valuation, project selection, and managerial evaluation. Not eligible for MAcc program students. Prerequisite: MBA Director consent. (Typically offered: Summer)

ACCT 535V. Professional Accounting Internship. 1-3 Hour.
This course allows a student to experience an internship within a business and benefit from the applied experience. The internship may be designed to offer a wide range of professional accounting experiences in Industry or Public Accounting. The internship must be supervised by a faculty member as well as a member of the firm. MAcc Director approval required. Prerequisite: MAcc Director consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ACCT 5413. Advanced Financial Accounting. 3 Hours.
Integrated course which examines the financial reporting, tax, managerial, systems and auditing aspects of major corporate restructurings arising from events such as mergers, acquisitions, spinoffs, reorganizations and downsizing. Prerequisite: ACCT 3753 or equivalent with a grade of C or better or MAcc Director consent. (Typically offered: Spring)

ACCT 5433. Fraud Prevention and Detection. 3 Hours.
An examination of various aspects of fraud prevention and detection, including the sociology of fraud, elements of fraud, types of fraud involving accounting information, costs of fraud, use of controls to prevent fraud, and methods of fraud detection. (Typically offered: Irregular)

ACCT 5443. Asset Management. 3 Hours.
Managing assets to achieve corporate strategy. Included are issues such as strategy formulation, acquisition processes, internal controls, system requirements, accounting measurements, inventory models, re-engineering, capital budgeting, tax issues, and discussion of current business events that have ethical implications. (Typically offered: Irregular)

ACCT 5463. Financial Statement Analysis. 3 Hours.
This course provides a framework for understanding the current economic position and future prospects of firms using corporate financial statements. Specifically, the student will study financial statements and their related footnotes in order to understand the drivers of current performance and risk, forecast future performance, and estimate the intrinsic value implied by those forecasts. These tools can be applied in a number of contexts including equity valuation, project selection, managerial evaluation, and corporate financial statement audits. Prerequisite: ACCT 3723 or equivalent with a grade of C or better. (Typically offered: Irregular)

ACCT 5483. Financial Accounting Research and Theory. 3 Hours.
This course explores our contemporary understanding of financial reporting incentives and outcomes. The course draws upon existing research on the determinants and consequences of financial reporting and examines the roles of various constituents including investors, lenders, financial analysts, managers, regulators, and auditors within the financial reporting environment. Prerequisite: Graduate standing and MAcc Director consent. (Typically offered: Irregular)

ACCT 549V. Special Topics in Accounting. 1-3 Hour.
Seminar in current topics not covered in other courses. Students may enroll in one or more units. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

ACCT 5523. Advanced Accounting Information Systems. 3 Hours.
This course describes accounting systems in technologically advanced environments. Controls and other technical design considerations are described for the input, processing, storage, and reporting of accounting information. Special topics, such as expert systems and artificial intelligence applications in financial accounting, auditing, and tax also receive considerable attention. Prerequisite: MAcc Director consent. (Typically offered: Irregular)

ACCT 5673. Product, Project and Service Costing. 3 Hours.
(Formerly ACCT 4673.) Cost systems with emphasis on information generation for cost management of products, projects and services. The course includes spreadsheet and other computer program analysis. Graduate degree credit will not be given for both ACCT 4673 and ACCT 5673. Prerequisite: ACCT 2023 and ACCT 3723 each with grades of C or better. (Typically offered: Fall)
ACCT 5703. Governmental/Nonprofit Accounting. 3 Hours.
The course will critically examine current issues in governmental and non-profit accounting, financial statement compliance and control for governmental and non-profit entities, and auditing for government and other non-profit organizations. Topics will include examination of state and local government accounting and reporting; sources and applications of taxes and program resources; not-for-profit organization accounting including taxation, regulatory, performance, and compliance issues; industry specific issues in accounting for health care organizations and colleges and universities; and federal governmental accounting. The course will also examine the application processes and compliance procedures for not-for-profit organizations and grants, and will provide a brief introduction to urban planning and economics. Prerequisite: MAcc Director consent. (Typically offered: Irregular)

ACCT 5853. State and Local Taxation. 3 Hours.
This course provides an overview of the basic principles of state and local taxation and the federal constitutional limits for state and local taxing authorities. Emphasis will be on the impact on individuals and multistate entities of income tax, sales tax, property taxes and hybrid tax systems. Prerequisite: ACCT 4203 or graduate standing. (Typically offered: Spring)

ACCT 5863. Taxation of Flow-Through Entities. 3 Hours.
In-depth coverage of the federal tax treatment of pass-through entities and their owners, including Partnerships, LLCs, and S Corporations. Prerequisite: Graduate Standing and MACC Director Consent, including completion of ACCT 4203. (Typically offered: Spring)

ACCT 5873. Advanced Taxation. 3 Hours.
In-depth coverage of the tax treatment of corporations including advanced tax issues. Introduction to tax research including the organization and authority of tax law; accessing and using the tax law; and, applying tax law to taxpayer scenarios. Prerequisite: ACCT 4203 or equivalent with a grade of C or better. (Typically offered: Fall)

ACCT 5883. Tax Planning. 3 Hours.
In-depth coverage of the tax treatment of passthrough business entities including advanced tax issues. Overview of the income tax treatment of estates and trusts. Overview of the essentials of estate and gift taxation. Prerequisite: ACCT 3843 or equivalent with a grade of C or better. (Typically offered: Spring)

ACCT 5893. Multi-jurisdictional Tax Issues. 3 Hours.
This course provides an in-depth examination of multi-jurisdictional tax issues including U.S. federal income taxation of inbound and outbound transactions, state and local taxation, and multi-jurisdictional tax policy issues. Pre- or Corequisite: ACCT 5873. (Typically offered: Spring)

ACCT 5953. Auditing Standards. 3 Hours.
Professional aspects of financial statement auditing and registered auditors. Including ethics and legal responsibilities; internal control testing; critical evaluation of evidence; application of sampling; and reporting problems. Prerequisite: ACCT 4963 or equivalent with a grade of C or better. (Typically offered: Fall)

ACCT 5963. Audit and Assurance Services. 3 Hours.
(Formerly ACCT 4963.) Professional standards and procedures as applied to external and internal assurance engagements. Including coverage of the economic role of assurance providers, engagement planning, risk assessment, evidence gathering, and reporting. Graduate degree credit will not be given for both ACCT 4963 and ACCT 5963. Prerequisite: ACCT 3723 with a grade of C or better. (Typically offered: Fall and Spring)

ACCT 5993. Energy Accounting. 3 Hours.
(Formerly ACCT 4883.) This course covers the basics of accounting and financial reporting for energy issues including hydrocarbon production, processing and sales as well as accounting for wind, solar and other alternative energy sources. Covers national and international energy policy, relevant public policy, environmental and geological issues, and considers environmental law, climate and economic topics relevant to energy topics. Graduate degree credit will not be given for both ACCT 4883 and ACCT 5993. Prerequisite: ACCT 3723 and ACCT 3753 each with a grade of B or better, and admission to the MAcc program. (Typically offered: Irregular)

ACCT 6013. Graduate Colloquium. 3 Hours.
Presentation and critique of research papers and proposals. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ACCT 6033. Accounting Research Seminar I. 3 Hours.
First course in the accounting research seminar sequence which explores and evaluates current accounting literature. Course content reflects recent developments in the literature and specific interests of participants. Examples of potential topics include research methods in accounting, managerial accounting and behavioral accounting. (Typically offered: Irregular)

ACCT 6133. Accounting Research Seminar II. 3 Hours.
Second course in the accounting research seminar sequence which explores and evaluates current accounting literature. Course content reflects recent developments in the literature and specific interests of participants. Examples of potential topics include research methods in accounting, financial accounting, managerial accounting, behavioral accounting, tax, audit, international accounting, and education. Prerequisite: ACCT 6033. (Typically offered: Irregular)

ACCT 6233. Accounting Research Seminar III. 3 Hours.
Third course in the accounting research seminar sequence which explores and evaluates current accounting literature. Course content reflects recent developments in the literature and specific interests of participants. Examples of potential topics include research methods in accounting, financial accounting, managerial accounting, behavioral accounting, tax, audit, international accounting, and education. Prerequisite: ACCT 6033. (Typically offered: Irregular)

ACCT 636V. Special Problems in Accounting. 1-6 Hour.
Special research project under supervision of a graduate faculty member. (Typically offered: Fall and Spring)

ACCT 6633. Accounting Research Seminar V. 3 Hours.
Fifth course in the accounting research seminar sequence which explores and evaluates current accounting literature. Course content reflects recent developments in the literature and specific interests of participants. Examples of potential topics include research methods in accounting, financial accounting, managerial accounting, behavioral accounting, tax, audit, international accounting, and education. Prerequisite: ACCT 6033. (Typically offered: Irregular)

ACCT 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral dissertation. Prerequisite: Candidacy. (Typically offered: Fall and Spring) May be repeated for degree credit.

Adult and Lifelong Learning (ADLL)

Courses

ADLL 5113. Perspectives in Adult Education. 3 Hours.
Historical overview of the evolving field of adult education and lifelong learning in responsibilities of adult education providers and reviews the expansion of adult and lifelong learning opportunities associated with societal and demographic shifts. (Typically offered: Fall and Spring)
ADLL 5123. Principles and Practices of Adult Learning. 3 Hours.
Overview of the adult learner including characteristics, motivation for participating in learning, and strategies for developing educational programs for diverse adult populations. (Typically offered: Fall and Summer)

ADLL 5133. Curriculum Development in ABE and ASE. 3 Hours.
Curriculum development in Adult Basic Education (ABE) and Adult Secondary Education (ASE) settings including the various educational functioning levels, measures to assess student levels, selection of teaching materials, and development of curriculum utilizing instructional standards for ABE and ASE programs. (Typically offered: Fall)

ADLL 5143. Instructional Strategies and Assessment in Adult Education. 3 Hours.
Selection and utilization of materials and instructional methods for use in adult learning settings. Evaluative strategies to develop or select appropriate tools and techniques predicated upon the needs and goals of adult learners. (Typically offered: Spring)

ADLL 5153. Organization and Administration of Adult and Lifelong Learning Programs. 3 Hours.
Legal, ethical, staffing, and financial considerations for the development and implementation of programs for adult and lifelong learners in various programs including literacy centers, GED centers, community education, lifelong/leisure learning, and postsecondary education. (Typically offered: Spring)

ADLL 5163. Managing Change in Adult and Lifelong Learning. 3 Hours.
Strategies for planning, organizing, and facilitating change in programs that serve adult learners from diverse populations, across varied developmental stages and geographic locations. Discussion of social change that has impacted adult education and analysis of change models relevant to individuals, groups and organizations. (Typically offered: Fall and Summer)

ADLL 5173. Program Planning. 3 Hours.
Program development process for adult and lifelong learners. Overview of assessment, developing program objectives, identifying resources, and designing program plans. (Typically offered: Summer)

ADLL 5183. Technology and Innovation in Adult Learning. 3 Hours.
Techniques for designing, developing, implementing, and assessing technology-mediated adult and lifelong learning programs. Discussion of issues relevant to the use of innovative strategies for delivering instruction via emerging technologies and their potential impact on content and learning outcomes. (Typically offered: Summer)

ADLL 5193. Seminar in Adult and Lifelong Learning. 3 Hours.
Seminars focused on topics related to adult and lifelong learning. (Typically offered: Summer and Spring)

ADLL 5213. Adult and Lifelong Learning Internship. 3 Hours.
Internship in adult and lifelong learning settings. (Typically offered: Fall and Spring)

ADLL 5223. Adult and Lifelong Learning Applied Project. 3 Hours.
Development and Implementation of a project focused on adult and lifelong learning. Consent of advisor/instructor required. (Typically offered: Fall, Spring and Summer) May be repeated for up to 9 hours of degree credit.

ADLL 5233. Independent Study. 3 Hours.
Provides students with an opportunity to pursue special study in adult and lifelong learning. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ADLL 6113. Advanced Adult Learning Theory. 3 Hours.
Advanced study of theories and models of adult and lifelong learning with an emphasis on current trends, recent research, and issues affecting the field. Issues covered will include critical theory and advancements in neuroscience and cognition as they relate to adult learning and lifespan development. (Typically offered: Irregular)

ADLL 6123. Leadership and Ethics in Adult and Lifelong Learning. 3 Hours.
This doctoral course focuses on leadership principles and ethical considerations that are critical to developing and sustaining adult education programs that benefit individuals, organizations, and communities. Course content will include case study analysis and lectures from scholar-practitioners from the field. (Typically offered: Irregular)

ADLL 6133. Analysis of International Adult and Lifelong Programs. 3 Hours.
Survey of the historical and philosophical events which have shaped adult and lifelong learning worldwide. Discussion of issues affecting adult education and lifelong learning including globalization, educational access, and variance in national policies. (Typically offered: Irregular)

ADLL 6143. Instructional Adaptation and Innovation in Adult and Lifelong Learning. 3 Hours.
An overview of teaching and learning methods, styles, and techniques which are applicable when facilitating adult learners across diverse settings. Content to include teaching and learning style assessment, accommodating learning styles, physical and learning disabilities, language differences and cultural norms. (Typically offered: Irregular)

ADLL 6153. Policy and Public Governance of Adult and Lifelong Learning Programs. 3 Hours.
Policy analysis and public governance issues in adult and lifelong learning with emphasis on state and federal programs. Discussions of how to evaluate, design, and implement policy focused on promoting adult and lifelong learning activities in a myriad of organizations. Overview of trends and current issues related to policy and public governance of adult and lifelong learning. (Typically offered: Irregular)

ADLL 6173. Current Issues. 3 Hours.
Exploration and discussion of current issues relative to adult education and lifelong learning. Focus on the review and application of current research as it relates to practice. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ADLL 6183. Organization Development, Learning, and Change. 3 Hours.
Using a system perspective, this course examines the theories and practices associated with organization development, learning and change to understand the dynamic nature of organizational life. This course examines the structural frame, the human resource frame, the political frame, and the symbolic frame that influences organizational behavior and learning. The course investigates strategies and best practices for managing and leveraging this dynamism to build organizational capacity and improve performance. (Typically offered: Fall and Spring)

ADLL 6213. Signature Pedagogy: Teaching and Learning in Community Colleges. 3 Hours.
Using a learning-centered change model, this course examines how community colleges can shift from a traditional teaching-centered paradigm to one that is learning-centered. This course examines the context of the learning college, strategic planning for a learning-outcomes approach to governance, the role of student development and technology in the learning college, and implementing and assessing learning-centered strategies. (Typically offered: Irregular)

ADLL 6223. Workforce and Community Development. 3 Hours.
This course provides an overview of how community colleges influence workforce, economic, and community development through their education missions. The course will examine the community college's expanding role in economic and community development through workforce development programs. Emphasis will be placed on program structure, best practices in program development, and partnerships and collaboration with various stakeholders. (Typically offered: Irregular)
ADLL 6233. Survey and Significance of the American Community College. 3 Hours.
A comprehensive overview of the American community college, its history, its ever-evolving purpose and the challenges it faces. Course content will focus on the administrators and faculty who lead, the students they serve, and components such as developmental education, integrative education and transfer education. Discussion will include occupational and community education and issues related to accountability. Special attention will be paid to how this unique and complex institution remains relevant and significant to the community. (Typically offered: Irregular)

ADLL 6243. Current Trends in Community Colleges. 3 Hours.
This course examines environmental factors that influence the organization and administration of community colleges. Trends related to funding, policy, staffing, and workforce development are examined and contextualized to the evolving community college mission. (Typically offered: Irregular)

ADLL 6253. Professional Development in Adult and Lifelong Learning. 3 Hours.
This course examines career planning and development, performance management, and professional development in various settings. The focus of the course will be on concepts associated with Human Resource Development (HRD) and developing employees within an organization, as well as leading adults in transition in the community and in educational settings through the process of making career decisions. (Typically offered: Irregular)

ADLL 6313. Independent Study. 3 Hours.
Independent study of topics in adult and lifelong learning. (Typically offered: Irregular)

ADLL 6403. Quantitative Reasoning I for Adult Educators. 3 Hours.
Introduction to quantitative reasoning for educators and researchers in adult education. Topics include applying the hypothetico-deductive research process, describing data using statistical terminology, building statistical models, presenting data meaningfully, and using SPSS to analyze data from practical research problems. This course meets in-person three to five times during the semester. Class dates are announced to ADLL students the preceding semester. Classes are held on campus on Saturdays from 9AM to 5PM. Participation is mandatory. (Typically offered: Fall and Spring)

ADLL 6413. Quantitative Reasoning II in Adult and Lifelong Learning. 3 Hours.
Methodologies for designing descriptive, correlational, and experimental studies. Development of research questions, definition of variables, selection or development of instruments, data collection, analysis, interpretation and reporting of research results. This course meets in-person three to five times during the semester. Class dates are announced to ADLL students the preceding semester. Classes are held on campus on Saturdays from 9AM to 5PM. Participation is mandatory. Prerequisite: ADLL 6403 or ESRM 6403 or ADLL 6413 or ADLL 6423 or ADLL 6433, or equivalent. (Typically offered: Fall)

ADLL 6423. Qualitative Reasoning in Adult and Lifelong Learning. 3 Hours.
Methodologies for designing qualitative research studies in adult and lifelong learning settings. Selection of the appropriate qualitative tradition, selection of research subjects, development of data collection protocols, field work strategies, data analysis, data interpretation and presentation of data results. This course meets in-person three to five times during the semester. Class dates are announced to ADLL students the preceding semester. Classes are held on campus on Saturdays from 9AM to 5PM. Participation is mandatory. (Typically offered: Spring)

ADLL 6433. Program Evaluation. 3 Hours.
Overview of evaluation strategies in adult and lifelong learning programs that include: development of evaluation questions, selection or development of instrumentation, data collection methods, data analysis, and reporting of evaluation results. Emphasis on practical and ethical issues associated with evaluation processes. This course meets in-person three to five times during the semester. Class dates are announced to ADLL students the preceding semester. Classes are held on campus on Saturdays from 9AM to 5PM. Participation is mandatory. Prerequisite: ADLL 6403 or ESRM 6403 or ADLL 6413 or ADLL 6423, or equivalent. (Typically offered: Spring)

ADLL 6443. Adult and Lifelong Learning Dissertation Seminar. 3 Hours.
Development of dissertation proposal. Formation of research question, selection of methodologies, development of problem statement, research questions, and identification of research variables, constructs of phenomena. Identification of data collection and data analysis procedures. This course meets in-person three to five times during the semester. Class dates are announced to ADLL students the preceding semester. Classes are held on campus on Saturdays from 9AM to 5PM. Participation is mandatory. Prerequisite: ADLL 6403 or ESRM 6403 or ADLL 6413 or ADLL 6423 or ADLL 6433, or equivalent. (Typically offered: Spring)

ADLL 6463. Advanced Qualitative Reasoning in Adult and Lifelong Learning. 3 Hours.
This qualitative methods course provides students with advanced instruction in qualitative data collection, field observations, records research, data analysis, and data display. In addition to reviewing various research studies that demonstrate different qualitative research approaches, students will practice some of the activities associated with executing a qualitative research study. Prerequisite: ADLL 6423 or instructor consent. (Typically offered: Irregular)

ADLL 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

African and African American Studies (AAST)

Courses

AAST 1003. Introduction to African and African American Studies. 3 Hours.
This course is an introduction to the interdisciplinary study of Africa and African Americans and their impact on the world order and society with an emphasis on that impact's manifestations in the United States of America. (Typically offered: Fall and Spring)

AAST 2003. Diversity, Pedagogy, & Visual Culture. 3 Hours.
Supports critical reflective thinking, which will provide students with foundational tools to address the issues of diversity within visual culture and their relationship to societal, curricular, and pedagogical practices. (Typically offered: Fall, Spring and Summer)

This course is cross-listed with ARED 2003.

AAST 2023. The African American Experience. 3 Hours.
Examines various facets of African American culture that collectively construct the African American experience including art, literature, drama, migration, film, and education. Covers issues facing African Americans through a cultural and socio-political context to understand and appreciate African American impacts on the United States. (Typically offered: Fall, Spring and Summer)

AAST 3023. African Americans in Sport. 3 Hours.
Historical, sociological, and political issues and debate surrounding African Americans in sport. Contemporary issues facing African American athletes and sports figures. (Typically offered: Fall, Spring and Summer)
AAST 3033. The African American Experience in Business. 3 Hours.
This course is designed to provide the student with a comprehensive and critical analysis of the history of the African American experience as a member of the business sector of the United States economics. The course will review information that includes and demonstrates activities prior to slavery, during, and after slavery. (Typically offered: Irregular)
This course is cross-listed with WCOB 3033.

AAST 3123. African American Students in Higher Education. 3 Hours.
Examines the impact of college environments on African American students. Focuses on the following topics regarding African American students: retention, student demographics, student characteristics, current trends, issues and problems, student success, sub-populations, student values, and implications for higher education. (Typically offered: Irregular)

AAST 3133. History of Sports in Africa. 3 Hours.
This course considers the ways that Africans have strategically employed sports to confront and overcome both domestic and external challenges and how these approaches and the range of constituent strategies have changed over time. (Typically offered: Irregular)
This course is cross-listed with HIST 3133.

AAST 3193. The Making of the Modern Caribbean. 3 Hours.
History of the Caribbean from pre-Columbian to present times focusing in particular on indigenous origins, colonialism, slavery, rebellion, independence, nationalism, and political integration in the making of the modern Caribbean region. (Typically offered: Fall)
This course is cross-listed with HIST 3193.

AAST 3233. African American History to 1877. 3 Hours.
History of the African American experience in North America emphasizing economic, social, and cultural perspectives. Topics include the African slave trade, the creation of race and racism, the institution of slavery, free community formation in North, and the impact of the Civil War and Reconstruction on African Americans. (Typically offered: Fall and Spring)
This course is cross-listed with HIST 3233.

AAST 3243. African American History Since 1877. 3 Hours.
The course will study the major social, political, and economical issues relating to the African American experience beginning with the late post-Reconstruction period and will include all of the major personalities and influences in the Civil Rights Movement, from 1877 to the present. (Typically offered: Fall and Spring)
This course is cross-listed with HIST 3243.

AAST 3253. The History of Sub-Saharan Africa. 3 Hours.
Sub-Saharan African history from the 18th century to the present, with emphasis on the impact of the slave trade, colonization, Independence, and contemporary issues of the post-colonial period. Examination of the ways Africans experienced change in terms of culture, society, economics, gender, religion, politics, and labor. (Typically offered: Fall)

AAST 3263. African Americans in Film. 3 Hours.
A survey of the history of images of African Americans in film, especially as these images are examined in the context of stereotypical renditions and/or realistic representations of African American experiences. Issues of African American history, culture, and socio-political context will be addressed in the analyses of these films. Prerequisite: ENGL 1023 and junior or senior standing. (Typically offered: Irregular)
This course is cross-listed with ENGL 3263, JOUR 3263, COMM 3263.

AAST 3273. African Americans in Documentary Film. 3 Hours.
Exploration of the African-American image and experience in the context of time, historical record and varying production viewpoints from diverse documentarians. African-American history, culture and socio-political context are addressed in the analyses of these documentary films from the perspectives of mainstream media, independent filmmakers and minority documentarians. Prerequisite: Junior or senior standing. (Typically offered: Spring)
This course is cross-listed with JOUR 3273, COMM 3273.

AAST 3293. African American Politics. 3 Hours.
This is a survey course designed to provide students with a comprehensive overview of African American political participation in the United States. In addition to analyzing important events in African American Politics, the course attempts to explain evolving patterns of political participation in Black America. (Typically offered: Irregular)
This course is cross-listed with PLSC 3293.

AAST 3393. Civil Rights Policy and Politics. 3 Hours.
This course will draw from linkages between the protest phase of the civil rights and American political institutions. The course explores the institutional impact of the civil rights movement on the presidency, congress, the courts, administrative regulatory agencies, and civil rights advisory organizations. (Typically offered: Spring)
This course is cross-listed with PLSC 3393.

AAST 3653. Topics in African-American Literature and Culture. 3 Hours.
The study of works of African-American literature, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.
This course is cross-listed with ENGL 3653.

AAST 3923H. Honors Colloquium. 3 Hours.
Treats a special topic or issue, offered as part of the honors program. Prerequisite: Honors candidacy (not restricted to candidacy in AAST). (Typically offered: Irregular) May be repeated for degree credit.

AAST 3973. South Africa: The Long, Ongoing Walk to Freedom. 3 Hours.
Examines the country's complex history and also the ways that this past is both remembered and memorialized. Closely examines the initial motivations for the colonization of South Africa, the experiences of Africans under colonial and, subsequently, apartheid rule and the ongoing legacies of these periods in contemporary South Africa. (Typically offered: Irregular)

AAST 3983. Black Movements and Messiahs. 3 Hours.
Focuses on black movements and leaders across global African history since the Age of Revolutions to the present including political, economic, social, cultural, religious and artistic movements throughout Africa and the diaspora. (Typically offered: Irregular)

AAST 399VH. Honors African & African American Studies Thesis. 1-6 Hour.
Independent thesis research and writing under the direction of an AAST faculty member. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

AAST 4003. African & African American Studies Study Abroad. 3 Hours.
Examination of selected topics in conjunction with student participation in the bi-annual African & African American Studies Study Abroad program to Ghana. Topic variable, chosen by instructor. (Typically offered: Summer Even Years) May be repeated for up to 6 hours of degree credit.

AAST 4083. African Popular Culture. 3 Hours.
This class explores popular cultural expression across Africa. Topics range from hip hop and film, to second-hand clothing fashions and the media. We will consider how popular culture, while often inspired by global trends, is rooted in local circumstances and often reflects attempts to grapple with important issues. (Typically offered: Irregular)
AAST 4093. The History of African Americans and Social Justice. 3 Hours.
Explores how the United States has extended social justice to African Americans during the nation's history. Examines social justice for blacks and the impact of historic policies and practices on black life today. (Typically offered: Irregular)
This course is cross-listed with HIST 4093.

AAST 4123. Africa and the Trans-Atlantic Slave Trade. 3 Hours.
Examines the trans-Atlantic slave trade with a primary focus on the role of Africa and Africans in creating the unique economy and culture of the trans-Atlantic world. (Typically offered: Irregular)
This course is cross-listed with HIST 4123.

AAST 4153. Race and Society. 3 Hours.
Introduction to the sociological study of race and ethnicity within the United States, with emphasis on understanding how race and ethnicity operate within contemporary social institutions. Prerequisite: SOCI 2013 or AAST 1003 or AAST 2023. (Typically offered: Fall)
This course is cross-listed with SOCI 4153.

AAST 4163. African American Perspectives of Trauma, Loss, and Recovery. 3 Hours.
Explores dimensions of trauma, loss, and recovery within the lived experiences of African American individuals, families, and communities in the United States. Prerequisite: Junior standing or instructor consent. (Typically offered: Fall)

AAST 4173. Social Work with African American Families. 3 Hours.
An overview of historical and contemporary issues of African American families using culturally competent and strengths based frameworks. Focuses on the Black family as a social institution. Covers current trends affecting Black families, historical influences, evaluation of social policies, and programs of today. Prerequisite: Junior standing or instructor consent. (Typically offered: Fall and Spring)
This course is cross-listed with SCWK 4173.

AAST 4263. Modern Africa. 3 Hours.
Examines the last half-century of Africa's history, focusing on the last few decades. Introduction of Africa's colonial past, revolutions and struggles for independence. Review of African development in the post-colonial and contemporary era, successes and failures of independent Africa, and the challenges the continent faces today. (Typically offered: Irregular)
This course is cross-listed with HIST 4263.

AAST 4273. Comparative Slavery. 3 Hours.
Explores the meaning of slavery around the world, both in ancient and modern times. This examination of how slavery differed in various cultures over time will allow students to explore the complexity of that labor relationship and gain a better understanding of how slavery was an integral part of world history. (Typically offered: Irregular)
This course is cross-listed with HIST 4273.

AAST 4323. Racial Identity, Politics, and Public Policy. 3 Hours.
Examines how race and perceived racial differences affect political discourse, mobilization, representation, and political outcomes. Prerequisite: PLSC 3293 or AAST 1063 or Junior standing. (Typically offered: Spring Even Years)
This course is cross-listed with PLSC 4323.

AAST 4383. The American Civil Rights Movement. 3 Hours.
Introduction to the history and development of the civil rights movement in the United States. (Typically offered: Irregular)
This course is cross-listed with HIST 4383.

AAST 4463. African American Theatre History - 1950 to Present. 3 Hours.
A chronological examination of African-American theatre history from 1950 to the present through the study of African-American plays and political/social conditions. Upon completion of this course, the student should be familiar with the major works of African-American theatre and have a deeper understanding of American history. (Typically offered: Spring)
AAST 4473. Account Planning. 3 Hours.
An introduction to applied advertising research and account planning. Integrate consumers' perspectives into creative strategy to developing brand stories for clients. Write creative briefs, positioning statements and prepare copy-testing research instruments to evaluate messages. Utilize consumer research for creating messages for diverse cultures. Corequisite: Lab component. Prerequisite: Minimum 90 hours completed, no in-progress hours or coursework accepted, 2.5 overall GPA, JOUR 1033 with a grade of C or better, and ADPR 3723 and ADPR 3743, with a grade of B or better. (Typically offered: Fall and Spring)
This course is cross-listed with ADPR 4473.

AAST 4483. African American Biographies. 3 Hours.
Introduction to the history and intellectual development of famous and not-so-famous African Americans. (Typically offered: Irregular)
This course is cross-listed with HIST 4483.

AAST 4563. Cultures of Africa. 3 Hours.
An exploration of the people and places of Africa from a variety of anthropological perspectives. Classic and contemporary works will be studied in order to underscore the unity and diversity of African cultures, as well as the importance African societies have played in helping us understand culture/society throughout the world. (Typically offered: Fall)
This course is cross-listed with HIST 4563.

AAST 4583. Cultures of Africa. 3 Hours.
Explores the diverse experiences of slaves and free Blacks in colonial Spanish and Portuguese America from 1500 to around 1888, demonstrating that bondage and the practice of African slavery was a pillar of political authority in colonial Latin America. (Typically offered: Irregular)
This course is cross-listed with HIST 4813.

AAST 4823. Black Freedom in the Age of Emancipation. 3 Hours.
Comparative study of Atlantic World freedom movements from the perspective of the African Diaspora. Focuses on the histories, meanings, and legacies of the various types of black emancipation in the Atlantic World and the cultural technologies that enabled them. (Typically offered: Spring)

AAST 4833. Black Freedom in the Age of Emancipation. 3 Hours.
A comparative study of Atlantic World freedom movements from the perspective of the African Diaspora. It focuses on the histories, meanings, legacies of the various types of black emancipation in the Atlantic World and the cultural technologies that enabled them. (Typically offered: Spring)

AAST 4853. Studies in African American Literature and Culture. 3 Hours.
The study of works of African American literature, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. At least one major research paper will be required. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit. This course is cross-listed with ENGL 4853.

AAST 489V. African & African American Independent Study. 1-6 Hour.
An exploration of African & African American Studies topics independently with a faculty member. Topic variable with permission of faculty member. (Typically offered: Irregular)
May be repeated for up to 9 hours of degree credit.

AAST 4923. History of the Black Press. 3 Hours.
Covers the historic context of contributions and innovations to U.S. newspapers by African Americans. Also investigates the role of the black press from its beginnings in 1827 through the civil rights movement. Prerequisite: Junior standing. (Typically offered: Spring Even Years)
This course is cross-listed with JOUR 4923.
Agricultural Economics (AGEC) Courses

AGEC 1103. Principles of Agricultural Microeconomics. 3 Hours.
Introduction to agricultural economics, including a survey of the role and characteristics of agriculture businesses in our economic system. Basic economic concepts concerning price determination, profit maximization, and resource use are emphasized. The use of economic principles as applied to the production and marketing decisions made by managers of agricultural firms is demonstrated. Credit will be allowed for only one of AGEC 1103 or ECON 2023 or ECON 2023H. Pre- or Corequisite: MATH 1203. (Typically offered: Fall and Spring) This course is cross-listed with ECON 2023.

AGEC 2103. Principles of Agricultural Macroeconomics. 3 Hours.
Applications of economics principles to problems of agricultural production, distribution, and income; including a study of the interrelationship between agriculture and other segments of the economy; and the dynamic forces in the economy which affect agriculture. Credit will be allowed for only one of AGEC 2103 or AGEC 2103H or ECON 2013 or ECON 2013H. Pre- or Corequisite: MATH 1203. (Typically offered: Fall and Spring) This course is cross-listed with ECON 2013.

AGEC 2103H. Honors Principles of Agricultural Macroeconomics. 3 Hours.
Applications of economics principles to problems of agricultural production, distribution, and income; including a study of the interrelationship between agriculture and other segments of the economy; and the dynamic forces in the economy which affect agriculture. Credit will be allowed for only one of AGEC 2103 or AGEC 2103H or ECON 2013 or ECON 2013H. Pre- or Corequisite: MATH 1203. Prerequisite: Honors standing. (Typically offered: Fall and Spring) This course is cross-listed with ECON 2013.

AGEC 2141L. Agribusiness Financial Records Lab. 1 Hour.
A computer lab section for the AGEC 2142 Agribusiness Financial Records class is required to teach students accounting software and spreadsheet applications related to financial record keeping. Corequisite: AGEC 2142. Prerequisite: ASTM 2903 or ISYS 1120 or ISYS 1123 and AGEC 1103 or ECON 2023 or ECON 2143. (Typically offered: Fall and Spring)

AGEC 2142. Agribusiness Financial Records. 2 Hours.
Principles of small agricultural business management accounting practices are taught to allow students to gain hands-on experience with financial record keeping for a business. Resulting financial statements are analyzed to determine opportunities for enhancing financial efficiency. Corequisite: AGEC 2141L. Prerequisite: ASTM 2903 or ISYS 1120 or ISYS 1123 and AGEC 1103 or ECON 2023 or ECON 2143. (Typically offered: Fall and Spring)

AGEC 2303. Introduction to Agribusiness. 3 Hours.
Introduction to agribusiness issues as they relate to the food processing, wholesale and retail sectors of the agricultural industry. Coverage of methods and tools agribusiness managers use to evaluate business opportunities. Case studies serve to communicate concepts of product distribution, design, promotion and pricing in the development of a marketing plan. Prerequisite: AGEC 1103 or ECON 2023. (Typically offered: Fall, Spring and Summer)
AGEC 2403. Quantitative Tools for Agribusiness. 3 Hours.
Introduction to quantitative methods used in agricultural economics and agribusiness with an emphasis on skills and techniques that will enhance the ability of students to perform in upper division coursework. Provides an overview of statistical and optimization methods used in research problems, economic theory, and applied decision making activities. Prerequisite: (AGEC 1103 or ECON 2023 or ECON 2143) and MATH 2043 (or higher MATH course from the University Core excluding MATH 2183). (Typically offered: Fall)

AGEC 3303. Food and Agricultural Marketing. 3 Hours.
Surveys consumer trends in food markets and the marketing activities of the food and fiber system. Emphasizes marketing concepts for both commodities and differentiated food products. Topics include applied consumer and price theory; marketing management; structure and performance of the food system; and current agricultural marketing topics. Prerequisite: AGEC 1103 or ECON 2023 or ECON 2143. (Typically offered: Fall, Spring and Summer)

AGEC 3313. Agribusiness Sales. 3 Hours.
Principles of professional sales and sales management techniques used in food and agricultural firms; develop a professional sales presentation; study current agribusiness industry professional sales persons and sales practices and techniques. Corequisite: Drill. Prerequisite: AGEC 1103 or AGEC 2103 or ECON 2013 or ECON 2023 or ECON 2143 or equivalent. (Typically offered: Spring)

AGEC 3373. Futures and Options Markets. 3 Hours.
Theory and mechanics of commodity futures and options markets including trading, margin, fees, etc. Price relationships between cash, futures and options. Fundamental and technical price analysis. Price risk management strategies for producers and users of agricultural commodity marketing plan. Speculative and hedging simulation exercises. Prerequisite: AGEC 1103 or ECON 2023. (Typically offered: Fall)

AGEC 3403. Farm Business Management. 3 Hours.
Application of economic principles for the profitable organization and operation of the farm business. Focuses upon agricultural production management decision-making tools: budgeting techniques (enterprise, partial, cash flow), balance sheet, income statement, cash flow, investment analysis and risk management. Recommended: AGEC 1103 (or ECON 2023), AGEC 2142, and ASTM 2903. (Typically offered: Fall and Spring)

AGEC 3413. Principles of Environmental Economics. 3 Hours.
An introductory, issues-oriented course in the economics of the environment. The course will focus on what is involved in how society makes decisions about environmental quality. The environmental issues important to the State of Arkansas and the United States will be emphasized. Prerequisite: AGEC 1103 or ECON 2023. (Typically offered: Spring)
This course is cross-listed with ENSC 3413.

AGEC 3413H. Honors Principles of Environmental Economics. 3 Hours.
An introductory, issues-oriented course in the economics of the environment. The course will focus on what is involved in how society makes decisions about environmental quality. The environmental issues important to the State of Arkansas and the United States will be emphasized. Corequisite: Drill component. Prerequisite: AGEC 1103 or ECON 2023. (Typically offered: Spring)
This course is cross-listed with AGEC 3413, ENSC 3413.

AGEC 3503. Agricultural Law I. 3 Hours.
Examination of those areas of law especially applicable to agriculture. Fundamentals of contract law, torts law, and property law will accompany discussion of major areas of agricultural law; acquisition and disposal of farmland; farm tenancies; rights and limitations in the use and ownership of farmland; water law; environmental protection; protection of the productivity of agricultural land; and the law of sales and secured transactions in an agricultural context. (Typically offered: Fall)

AGEC 3523. Environmental and Natural Resources Law. 3 Hours.
Principles of environmental and natural resources law relevant to agriculture, food and the environmental sciences; legal principles relating to regulation of water, air, hazardous substances, land, wildlife, livestock, and water rights. Principles of civil and criminal liabilities and other developing legal and regulatory issues relating to agriculture and natural resources. (Typically offered: Spring Even Years)

AGEC 400V. Special Problems. 1-6 Hour.
Special studies and readings conducted under the direct supervision of staff members to satisfy the requirements of individual students. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

AGEC 401V. Internship in Agribusiness. 1-6 Hour.
A supervised practical work experience in an agribusiness firm or a governmental or industrial organization having direct impact on agriculture in order to gain professional competence and insight to employment opportunities. Prerequisite: junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 8 hours of degree credit.

AGEC 402V. Special Topics. 1-3 Hour.
Studies of selected topics in agricultural economics not available in other courses. (Typically offered: Irregular) May be repeated for degree credit.

AGEC 4041. Agribusiness Capstone. 1 Hour.
The purpose of this course is to provide students with an opportunity to apply and integrate knowledge from previous coursework in general education and agribusiness. This course is designed for students to demonstrate mastery of a number of subjects within the agribusiness discipline. Students will provide evidence of integrated knowledge through a variety of means including oral presentations, creation of a 1250-word reflective essay, and applying problem solving and critical thinking skills. Prerequisite: Senior standing. (Typically offered: Fall and Spring)

AGEC 4113. Agricultural Prices and Forecasting. 3 Hours.
Price theory and techniques for predicting price behavior of general economy and price behavior of individual agricultural products will be analyzed. Provides practice in the application of economics and statistics to agricultural price analysis. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: (AGEC 1103 or ECON 2023) and (AGEC 2403 or STAT 2303 or WCOB 1033) and (MATH 2043 or higher (MATH 2043C, MATH 2053, MATH 2053C, or MATH 2213, excluding MATH 2183)). (Typically offered: Spring)

AGEC 4123. Legal Issues in Animal Agriculture. 3 Hours.
An issues-oriented course focusing on the legal issues involved in the production of poultry, swine and livestock. Emphasis will center on the laws, regulations and policy arguments involved in animal confinement, antibiotic use, humane slaughter and veterinary medicine, along with other related issues. The wide range of regulation from local to state to federal, depending on the issue will be studied and discussed. (Typically offered: Spring Odd Years)
This course is cross-listed with ANSC 4123, POSC 4123.

AGEC 4143. Agricultural Finance. 3 Hours.
Methods and procedures whereby agricultural firms acquire and utilize funds required for their successful operation. Emphasis is placed upon role of finance and financial planning and consideration is given to an understanding of financial firms serving agriculture. Prerequisite: (AGEC 1103 or ECON 2023) and (AGEC 2103 or ECON 2013) and (AGEC 2142 or ACCT 213). (Typically offered: Fall)

AGEC 4163. Agricultural and Rural Development. 3 Hours.
Examination of agricultural and rural development issues in less developed countries. Alternative agricultural production systems are compared, development theories examined, and consideration given to the planning and implementation of development programs. Prerequisite: AGEC 1103 (or ECON 2023). (Typically offered: Fall)
AGEC 4163H. Honors Agricultural and Rural Development. 3 Hours.
Examination of agricultural and rural development issues in less developed
countries. Alternative agricultural production systems are compared, development
theories examined, and consideration given to the planning and implementation
of development programs. Prerequisite: AGEC 1103 (or ECON 2023) and honors
standing. (Typically offered: Fall)
This course is equivalent to AGEC 4163.

AGEC 4243. Agribusiness Strategy. 3 Hours.
Addresses problems of strategy formulation in agribusiness emphasizing current
problems and cases in agriculture. Surveys modern and classic perspectives on
strategy with applications to agribusiness. Examines the development of firm level
strategies within the structure and competitive environment of agricultural firms
and industries. Prerequisite: MATH 2043 and (AGEC 1103 or ECON 2023 or
ECON 2143) and (AGEC 3403 or (AGEC 2142 and AGEC 2141L) or ACCT 2013).
(Typically offered: Spring)

AGEC 4303. Agribusiness Marketing Management. 3 Hours.
Marketing concepts will be developed and applied to the global food and fiber
system. The course will use both commodity and product marketing principles and
economic theory to analyze varied marketing situations. Case studies will be used
to demonstrate the role that demand analysis and consumer behavior play in market
management. Prerequisite: AGEC 2303 and AGEC 3303. (Typically offered: Spring)

AGEC 4313. Agricultural Business Management. 3 Hours.
The planning, organizing, leading and controlling functions of management as
they relate to agricultural business firms. Marketing of value-added products,
budgeting, organizational structure, cost control, financial statements, capital
budgeting and employee supervision and motivation. Case studies are used to
teach communication and decision-making skills. Senior standing recommended.
Prerequisite: ((AGEC 2142 and AGEC 2141L) or (ACCT 2013)) and AGEC 2303.
(Typically offered: Fall)

AGEC 4323. AgriBusiness Entrepreneuship. 3 Hours.
Agribusiness entrepreneurship is the process of bringing food or rural-based
products and services from conceptualization to market. The course presents the
opportunities, problems and constraints facing individuals and firms operating in rural
or isolated markets while emphasizing the steps in conceptualization, development,
marketing, and delivery-selling of agribusiness rural products. Prerequisite:
AGEC 1103 or equivalent. (Typically offered: Spring)

This course provides students an opportunity to gain a detailed working knowledge
of how basis trading concepts and practices are applied to agricultural markets and
to develop a skill set that can be put immediately into practice in any basis trading
operation. Prerequisite: AGEC 3373 or consent of instructor. (Typically offered:
Spring and Summer)

AGEC 4383. Basis Trading: Case Study. 3 Hours.
This course provides an opportunity to apply principles learned in AGEC 4373 to
grain merchandising using the case study approach. The course will involve in-class
meetings supplemented with faculty-directed group-based learning experiences
involving professional grain merchandisers. Group activities will follow the traditional
case study method. Prerequisite: AGEC 4373. (Typically offered: Fall)

AGEC 4403. Advanced Farm Business Management. 3 Hours.
Principles and procedures of decision making as applied to the allocation of
resources in the farm business for profit maximization. Emphasis is placed on use
of principles of economics and their application to the decision making process.
Includes exercises on the application of principles to specific farm management
problems. Senior standing recommended. Prerequisite: AGEC 3403 and
(ASTM 2903 or equivalent) and (AGEC 2142 and AGEC 2141L) or ACCT 2013).
(Typically offered: Fall)

AGEC 4603. Food Economics and Health. 3 Hours.
This course provides an advanced overview of selected topics in food economics,
food and nutrition policy and the interface between nutrition programs and health
policy. Students will develop an understanding of economic and policy concepts
of food, nutrition, and health. The course emphasizes analytical tools that can
be applied to study issues in food, nutrition, and health facing the US and world
populations. Prerequisite: (AGEC 1103 or ECON 2023) and (AGEC 2403 or
WOCB 1033 or STAT 2303 or MATH 2043 or MATH 3083 or MATH 3013).
(Typically offered: Spring)

AGEC 4613. Political Economy of Agriculture and Food. 3 Hours.
Agricultural and food policies are studied from domestic and international
perspectives. Laws, regulations, decisions and actions by governments and
other institutions are examined in terms of rationale, content, and consequences.
Economic and political frameworks are used to assess policies in terms competitive
structure, operation, and performance of farming and food systems. Prerequisite:
(AGEC 1103 or ECON 2023) and (AGEC 2103 or ECON 2013) and (PSYC 2003 or
SOCI 2013 or HDFS 2603). (Typically offered: Fall)

AGEC 4623. International Agricultural Trade and Commercial Policy. 3 Hours.
Analysis of agricultural market competition and performance in a global economy.
The impact of domestic and international agricultural policies on domestic and
international markets and welfare. Economic principles applied to the interaction
of economic events in the world food economy. Prerequisite: (AGEC 1103 or
ECON 2023) and (AGEC 2103 or ECON 2013). (Typically offered: Spring)

AGEC 500V. Special Problems. 1-3 Hour.
Individual reading and investigation of a special problem in agricultural economics
not available under regular courses, under the supervision of the graduate faculty.
Prerequisite: Graduate standing. (Typically offered: Fall and Spring)

AGEC 5011. Seminar. 1 Hour.
Presentation and discussion of graduate student research. Formal presentations are
made by all graduate students. Consideration given to research design, procedures,
and presentation of results. Prerequisite: Graduate standing. (Typically offered: Fall
and Spring)

AGEC 502V. Special Topics. 1-3 Hour.
Advanced studies of selected topics in agricultural economics not available in other
courses. Prerequisite: Graduate standing. (Typically offered: Irregular) May be
repeated for degree credit.

AGEC 503V. Internship in Agricultural Economics. 1-3 Hour.
On-the-job application of skills developed in the M.S. program. (Typically offered:
Fall, Spring and Summer)

AGEC 5043. Agricultural Finance. 3 Hours.
(Formerly AGEC 4143.) Methods and procedures whereby agricultural firms acquire
and utilize funds required for their successful operation. Emphasis is placed upon
role of finance and financial planning and consideration is given to an understanding
of financial firms serving agriculture. Graduate degree credit will not be given for
both AGEC 4143 and AGEC 5043. Prerequisite: (AGEC 1103 or ECON 2023) and
(AGEC 2103 or ECON 2013) and (AGEC 2142 or ACCT 2013). (Typically offered: Fall)

AGEC 5053. Advanced Farm Business Management. 3 Hours.
(Formerly AGEC 4403.) Principles and procedures of decision making as applied to
the allocation of resources in the farm business for profit maximization. Emphasis
is placed on use of principles of economics and their application to the decision
making process. Includes exercises on the application of principles to specific
farm management problems. Graduate degree credit will not be given for both
AGEC 4403 and AGEC 5053. Prerequisite: AGEC 3403 and ASTM 2903 or
equivalent. (Typically offered: Fall)
AGEC 5063. Agricultural and Rural Development. 3 Hours.
(Formerly AGEC 4163.) Examination of agricultural and rural development issues in less developed countries. Alternative agricultural production systems are compared, development theories examined, and consideration given to the planning and implementation of development programs. Graduate degree credit will not be given for both AGEC 4163 and AGEC 5063. Prerequisite: AGEC 1103 (or ECON 2023). (Typically offered: Fall)

(Formerly AGEC 4373.) This course provides students an opportunity to gain a detailed working knowledge of how basis trading concepts and practices are applied to agricultural markets and to develop a skill set that can be put immediately into practice in any basis trading operation. Graduate degree credit will not be given for both AGEC 4373 and AGEC 5073. Prerequisite: AGEC 3373 or consent of instructor. (Typically offered: Spring and Summer)

AGEC 5083. Basis Trading: Case Study. 3 Hours.
(Formerly AGEC 4383.) This course provides an opportunity to apply principles learned in AGEC 4373 to grain merchandising using the case study approach. The course will involve in-class meetings supplemented with faculty-directed group-based learning experiences involving professional grain merchandisers. Group activities will follow the traditional case study method. Graduate degree credit will not be given for both AGEC 4383 and AGEC 5083. Prerequisite: AGEC 4373 or AGEC 5073 (formerly AGEC 4373). (Typically offered: Fall)

AGEC 5103. Agricultural Microeconomics. 3 Hours.
Masters-level training in agricultural microeconomic theory and its application to food, agriculture, and the environment. The course covers behavior of firms, households and markets, in more depth and rigor than encountered in undergraduate courses. Theories are explained and then applied to relevant food, agricultural, environment and resource issues. (Typically offered: Fall)

AGEC 5113. Agricultural Prices and Forecasting. 3 Hours.
(Formerly AGEC 4113.) Price theory and techniques for predicting price behavior of general economy and price behavior of individual agricultural products will be analyzed. Provides practice in the application of economics and statistics to agricultural price analysis. Lecture 2 hours, laboratory 2 hours per week. Graduate degree credit will not be given for both AGEC 4113 and AGEC 5113. Prerequisite: (AGEC 1103 or ECON 2023), AGEC 2403, (STAT 2303 or WCOB 1033) and MATH 2053. (Typically offered: Spring)

AGEC 5123. AgriBusiness Entrepreneurship. 3 Hours.
(Formerly AGEC 4323.) Agribusiness entrepreneurship is the process of bringing food or rural-based products and services from conceptualization to market. The course presents the opportunities, problems and constraints facing individuals and firms operating in rural or isolated markets while emphasizing the steps in conceptualization, development, marketing, and delivery-selling of agribusiness rural products. Graduate degree credit will not be given for both AGEC 4323 and AGEC 5123. Prerequisite: AGEC 1103 or equivalent. (Typically offered: Spring)

AGEC 5133. Agricultural and Environmental Resource Economics. 3 Hours.
An economic approach to problems of evaluating private and social benefits and costs of altering the environment. Emphasis given to the interaction of individuals, institutions, and technology in problems of establishing and maintaining an acceptable level of environmental quality. Prerequisite: Minimum of 3 hours Agricultural Economics or Economics at 3000 level or higher or PhD standing. (Typically offered: Spring)

AGEC 5143. Financial Management in Agriculture. 3 Hours.
Covers advanced topics in agricultural finance. The general focus of the course is the financial management of non-corporate firms. Covers the basic tools of financial analysis including financial arithmetic, asset evaluation under risk, and financial analysis and planning using econometric models. Such topics covered include management of current assets, capital budgeting, capital structure, and institutions involved in agricultural finance. Prerequisite: Graduate standing. (Typically offered: Fall)

AGEC 5153. The Economics of Public Policy. 3 Hours.
This class will examine the impact of public policy on agricultural and other business sectors as well as households and individuals, particular in rural areas. Emphasis will also be placed on analyzing the potential impact of future policy changes. The course will focus on the application of welfare criteria and economic analyses to the problems and policies affecting resource adjustments in agriculture and rural communities. Prerequisite: Graduate standing. (Typically offered: Spring)

AGEC 5203. Agribusiness Marketing Management. 3 Hours.
(Formerly AGEC 4303.) Marketing concepts will be developed and applied to the global food and fiber system. The course will use both commodity and product marketing principles and economic theory to analyze varied marketing situations. Case studies will be used to demonstrate the role that demand analysis and consumer behavior play in market management. Graduate degree credit will not be given for both AGEC 4303 and AGEC 5203. Prerequisite: AGEC 2303 and AGEC 3303. (Typically offered: Spring)

AGEC 5213. Agricultural Business Management. 3 Hours.
(Formerly AGEC 4313.) The planning, organizing, leading and controlling functions of management as they relate to agricultural business firms. Marketing of value-added products, budgeting, organizational structure, cost control, financial statements, capital budgeting and employee supervision and motivation. Case studies are used to teach communication and decision-making skills. Graduate degree credit will not be given for both AGEC 4313 and AGEC 5213. Prerequisite: (AGEC 2142 and AGEC 2141L) or (ACCT 2013 and AGEC 2303 or equivalent). (Typically offered: Fall)

AGEC 5223. International Agricultural Trade and Commercial Policy. 3 Hours.
(Formerly AGEC 4623.) Analysis of agricultural market competition and performance in a global economy. The impact of domestic and international agricultural policies on domestic and international markets and welfare. Economic principles applied to the interaction of economic events in the world food economy. Graduate degree credit will not be given for both AGEC 4623 and AGEC 5223. Prerequisite: (AGEC 1103 or ECON 2023) and (AGEC 2103 or ECON 2013). (Typically offered: Spring)

AGEC 5233. Political Economy of Agriculture and Food. 3 Hours.
(Formerly AGEC 4613.) Agricultural and food policies are studied from domestic and international perspectives. Laws, regulations, decisions and actions by governments and other institutions are examined in terms of rationale, content, and consequences. Economic and political frameworks are used to assess policies in terms competitive structure, operation, and performance of farming and food systems. Graduate degree credit will not be given for both AGEC 4613 and AGEC 5233. Prerequisite: (AGEC 1103 or ECON 2023) and (AGEC 2103 or ECON 2013) and (PSYC 2003 or SOCI 2013 or HDFS 2603). (Typically offered: Fall)

AGEC 5303. Agricultural Marketing Theory. 3 Hours.
Survey of the structure of agricultural product and factor markets including a critique of theoretical analyses of industry structure, conduct and performance; and a review of market structure research in agricultural industries. Prerequisite: Graduate standing. (Typically offered: Fall)

AGEC 5403. Quantitative Methods for Agribusiness. 3 Hours.
Application of quantitative techniques used to support managerial decision-making and resource allocation in agricultural firms. Provides exposure to mathematical and statistical tools (regression analysis, mathematical programming, simulation) used in economic analysis in agriculture. Emphasis is placed on computer applications with conceptual linkage to economic theory. Prerequisite: Graduate standing. (Typically offered: Fall)
AGEC 5413. Agribusiness Strategy. 3 Hours.
Addresses problems of strategy formulation in agribusiness emphasizing current problems and cases in agriculture. Surveys modern and classic perspectives on strategy with applications to agribusiness. Examines the development of firm level strategies within the structure and competitive environment of agricultural firms and industries. Prerequisite: Graduate standing. (Typically offered: Spring)

AGEC 5603. Food Economics and Health. 3 Hours.
This course provides an advanced overview of selected topics in food economics, food and nutrition policy and the interface between nutrition programs and health policy. Students will develop an understanding of economic and policy concepts of food, nutrition, and health. The course emphasizes analytical tools that can be applied to study issues in food, nutrition, and health facing the US and world populations. Prerequisite: Graduate standing. (Typically offered: Spring)

AGEC 5613. Econometrics. 3 Hours.
Use of economic theory and statistical methods to estimate economic models. The single equation model is examined emphasizing multicollinearity, autocorrelation, heteroskedasticity, binary variables and distributed lags and model specification. Prerequisite: MATH 2043 and knowledge of matrix methods, (which may be acquired as a corequisite), and (AGED 1103 or ECON 2023) and (AGED 2403 or STAT 2303 or WCOB 1033). (Typically offered: Spring)

AGEC 5623. Quantitative Food and Agricultural Policy Analysis. 3 Hours.
Introduction to applied analysis of domestic and international food and agricultural policies using quantitative tools. This course will provide hands-on experience with simulation modeling in microeconomics. An emphasis is placed on policy analysis through computer applications with theoretical underpinnings. Corequisite: Lab component. Prerequisite: (AGED 5103 and AGEC 5403) or instructor consent. (Typically offered: Spring)

AGEC 5713. Food Safety Law. 3 Hours.
This course provides students with an introduction to food law and policy, history of food regulation, the organization of federal food law and regulatory agencies, government inspection and enforcement powers, food safety standards, food labeling, food advertising and product liability. Web-based course. (Typically offered: Irregular)

AGEC 600V. Master’s Thesis. 1-6 Hour.
Master’s Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

AGEC 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Agricultural Education (AGED) Courses

AGED 1031. Introduction to Early Field Experience. 1 Hour.
A thirty hour field experience designed to give prospective agricultural education teachers an opportunity to observe and participate in a variety of school settings. Corequisite: AGED 1123. (Typically offered: Fall)

AGED 1123. Foundations of Agricultural Education. 3 Hours.
A preparatory course evaluating the historical foundations of agricultural education with an introduction to the psychological, sociological and philosophical foundations of education. This course will encourage reflective practice through understanding of educational trends, classroom environment creation and utilization, and effective program planning. (Typically offered: Fall)

AGED 1133. Lifelong Agricultural Advocacy. 3 Hours.
This course will supply students with the necessary information and skills to evaluate and seek out opportunities and methods for advocating for agricultural industries. This course will equip students with the knowledge and skills to become active agricultural leaders serving at the intersection of policy, consumer engagement, and best agricultural practice. (Typically offered: Fall)

AGED 3111. Student Management. 1 Hour.
To guide students in the development of realistic, proactive classroom management strategies that establish a safe culture of student learning and academic success. Prerequisite: Instructor Consent. (Typically offered: Spring)

AGED 3133. Instructional and Presentation Strategies. 3 Hours.
Methods and techniques in teaching agriculture at the secondary level. Lecture/ laboratory 4 hours per week. Corequisite: Lab component. (Typically offered: Fall)

AGED 3161L. Curriculum Development and Assessment Techniques in Career and Technical Education Laboratory. 1 Hour.
To supply students with opportunities to apply skills in creating curricula, lesson plans, and assessment strategies for courses in career and technical education. Materials created as a result of this course will apply principles learned in AGED 3162, and will align with anticipated courses to be taught by the student during his/her teaching internship. Pre- or Corequisite: AGED 3162. (Typically offered: Fall)

AGED 3162. Curriculum Development and Assessment Techniques in AGED. 2 Hours.
To supply students with the necessary information and skills to select and apply appropriate teaching techniques, curricula, resources, and assessment strategies when designing a course in career and technical education. (Typically offered: Spring)

AGED 3173. Research Methods in the Social Sciences. 3 Hours.
This course offers undergraduate students the basics and explanation for appropriate research procedures, data collection, analysis, and reporting. Course objectives to include identifying appropriate components of research works, evaluation of research in social science and creation of research projects. The purpose of the course is to prepare undergraduate students to be better producers and consumers of research in the social sciences. (Typically offered: Summer)

AGED 3173H. Honors Research Methods in the Social Sciences. 3 Hours.
This course offers undergraduate students the basics and explanation for appropriate research procedures, data collection, analysis, and reporting. Course objectives to include identifying appropriate components of research works, evaluation of research in social science and creation of research projects. The purpose of the course is to prepare undergraduate students to be better producers and consumers of research in the social sciences. (Typically offered: Summer)

This course is equivalent to AGED 3173.

AGED 4003. Issues in Agriculture. 3 Hours.
Lecture and discussion on local, regional, national and international issues related to agricultural policy, ethics, environment, society, and science. Designed for students with at least six hours of upper division agricultural science courses. Prerequisite: Junior standing. (Typically offered: Fall)

AGED 400V. Special Problems in Agricultural and Extension Education. 1-6 Hour.
Individual study or research for advanced undergraduates in the field of agricultural and extension education. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

AGED 401V. Special Topics. 1-3 Hour.
Studies of selected topics in agricultural or extension education not covered in other courses. (Typically offered: Irregular) May be repeated for up to 4 hours of degree credit.
AGED 4113. Undergraduate Researchers Improving Student Experience. 3 Hours.
To engage students in the social sciences in action research that serves to solve a problem or answer a question within the student's academic field through scientific inquiry. All students will work with professionals, commonly outside of the university, within their discipline to conduct their action research in order to solve a problem experienced by that professional. Students may work in teams or individually to complete the overall purpose of the course. (Typically offered: Spring)

AGED 4211. Teachers as Professionals. 1 Hour.
To expose students to the roles and responsibilities of professional teachers. Students will understand the characteristics common to professionals and apply these to the teaching setting. Real-world examples of 'grey-area' situations will allow students to evaluate issues holistically and determine appropriate solutions following the ethical and professional guidelines of the teaching discipline. Additionally, students will prepare resumes and engage in mock interviews to enhance their professional dispositions as they consider employment opportunities. Prerequisite: Instructor consent. (Typically offered: Fall)

AGED 4231. Program Development. 1 Hour.
Principles and concepts of leadership, program organization, supervised agricultural experience, and advisory committees. This course is a portion of pre-professional studies required for certification in agricultural education. Prerequisite: AGED 3133 and instructor consent. (Typically offered: Spring)

AGED 4443. Principles of Technological Change. 3 Hours.
This course introduces a structured approach for dealing with the organizational and human aspects of technology transition, including the key concepts of resistance and change management, organizational change, communications, and processes by which professional change agents influence the introduction, adoption, and diffusion of technological change. This course may be offered as a web-based course. Prerequisite: Junior standing. (Typically offered: Fall Odd Years)

AGED 4632. Teaching Diverse Populations in Agricultural and Extension Education. 2 Hours.
This course is designed to provide pre-service teachers of agriculture with an understanding of teaching diverse populations as applied to problems of practice in agricultural and extension education. (Typically offered: Spring)

AGED 475V. Internship in Agricultural Education. 1-6 Hour.
Scheduled practical field experiences under the supervision of a professional practitioner in off-campus secondary school systems. Emphasis includes classroom preparation, teaching, and student evaluation. Successful completion of a criminal background check required before a student can begin internship. Prerequisite: Admission into Clinical Practice. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

AGED 4843L. Methods in Agricultural Laboratories. 3 Hours.
Methods and management techniques in all types of agricultural laboratories that may be in a secondary agricultural science program. Emphasis on management of students and facilities, equipment, and materials. Laboratory 6 hours per week. (Typically offered: Spring)

AGED 5001. Seminar. 1 Hour.
Presentations and discussion of graduate student research as well as review of current literature and topics of current interest by students and faculty. All graduate students will make at least one formal presentation. Prerequisite: Graduate standing. (Typically offered: Fall and Spring) May be repeated for up to 3 hours of degree credit.

AGED 5013. Advanced Methods in Agricultural Mechanics. 3 Hours.
Emphasis on shop organization and management, courses of study, unit shop instruction, and development of skills in agricultural mechanics. (Typically offered: Summer Odd Years)

AGED 5053. Philosophy of Agricultural and Extension Education. 3 Hours.
An examination and analysis of social and economic events leading to the establishment and maintenance of federal, state, county, and local agricultural education programs. Lecture 3 hours per week. Prerequisite: Graduate standing. (Typically offered: Spring)

AGED 510V. Special Problems. 1-6 Hour.
Individual investigation of a special problem in agricultural education which is not available through regular courses. These will be directed by a member of the graduate faculty. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

AGED 5113. Undergraduate Researchers Improving Student Experiences. 3 Hours.
To engage students in the social sciences in action research that serves to solve a problem or answer a question within the student's academic field through scientific inquiry. All students will work with professionals, commonly outside of the university, within their discipline to conduct their action research in order to solve a problem experienced by that professional. Students may work in teams or individually to complete the overall purpose of the course. Prerequisite: AGED 5463 or HESC 5463 or other instructor approved Research Methods course. (Typically offered: Spring)

AGED 520V. Special Topics in Agricultural and Extension Education. 1-4 Hour.
Topics not covered in other courses or a more intensive study of specific topics in agriculture education. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for degree credit.

AGED 5443. Principles of Technological Change. 3 Hours.
(Formerly AGED 4443.) This course introduces a structured approach for dealing with the organizational and human aspects of technology transition, including the key concepts of resistance and change management, organizational change, communications, and processes by which professional change agents influence the introduction, adoption, and diffusion of technological change. This course may be offered as a web-based course. Graduate degree credit will not be given for both AGED 4443 and AGED 5443. (Typically offered: Fall Odd Years)

AGED 5463. Research Methodology in the Social Sciences. 3 Hours.
Logical structure and the method of science. Basic elements of research design; observation, measurement, analytic method, interpretation, verification, presentation of results. Applications to research in economic or sociological problems of agriculture and human environmental sciences. Prerequisite: Graduate standing. (Typically offered: Fall)

This course is cross-listed with HESC 5463.

AGED 5473. Interpreting Social Data in Agriculture. 3 Hours.
The development of competencies in analyzing, interpreting and reporting the results of analyses of social science data in agriculturally related professions. Students will select appropriate analysis techniques and procedures for various problems, analyze data, and interpret and report the results of statistical analyses in narrative and tabular form. (Typically offered: Fall)

AGED 5483. Technical Communication in the Social Sciences. 3 Hours.
This course will provide students with the basic principles and techniques in communicating social science information relevant to human subject research in agriculture, natural resources, and life sciences to the general public. Communication processes covered in the course include audience identification, writing, editing, and production of social science-based materials for popular and refereed publications. Focus will also be placed on thesis preparation and writing and research manuscript development and dissemination of social science research. Web delivered course. Prerequisite: Graduate standing. (Typically offered: Spring)
AGED 5493. Survey Design and Scale Development. 3 Hours.
This course is designed to provide the expertise required to design and conduct survey research. Students will understand the instruments (scales/questionnaire) used in data collection processes and acquire the statistical skills necessary to develop and test these survey instruments. This course uses both theory and practice. Hands-on training will be provided via SPSS package for data analyses, and Qualtrics will be used for web-based surveys. Prerequisite: 3 hours of graduate level statistics coursework and HESC 5463 or AGED 5463 or instructor consent.
(Typically offered: Summer)
This course is cross-listed with HESC 5053.

AGED 5563. Thesis Proposal Development. 3 Hours.
The purpose of this course is to assist graduate students in the preparation of their thesis research proposal. Students will produce the first three chapters of their thesis by the end of the course. Prerequisite: AGED 5463 or HESC 5463. (Typically offered: Fall)

AGED 5632. Teaching Diverse Populations in Agricultural and Extension Education. 2 Hours.
(Formerly AGED 4632.) This course is designed to provide pre-service teachers of agriculture with an understanding of teaching diverse populations as applied to problems of practice in agricultural and extension education. Graduate degree credit will not be given for both AGED 4632 and AGED 5632. (Typically offered: Spring)

AGED 575V. Internship in Agricultural Education. 1-6 Hour.
Scheduled practical field experiences under supervision of a professional practitioner in off-campus secondary school systems. Emphasis includes classroom preparation, teaching, and student evaluation. (Typically offered: Fall, Spring and Summer)

AGED 5993. Global Horticulture and Human Nutrition to Enhance Community Resilience and Food Security. 3 Hours.
This course covers three broad areas (Global Horticulture, Sustainable International Development, Human Health and Nutrition) and experts on three campuses created the instruction. The course is intended to be multi-disciplinary, and students should use their contextual knowledge to add to weekly discussions. Prerequisite: Graduate standing. (Typically offered: Spring)
This course is cross-listed with FDSC 5993, HORT 5993.

AGED 600V. Master's Thesis. 1-6 Hour.
Master's Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Agricultural Statistics (AGST) Courses

AGST 500V. Special Problems. 1-6 Hour.
Individual investigation of a special problem in some area of statistics applicable to the agricultural, food, environmental, and life sciences not available under existing courses. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

AGST 5014. Experimental Design. 4 Hours.
Types of experimental designs, their analysis and application to agricultural research. Lecture 3 hours and laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: (AGST 5031 and AGST 5023) or STAT 5003. (Typically offered: Spring)

AGST 5023. Principles of Experimentation. 3 Hours.
Fundamental concepts of experimental and statistical methods as applied to agricultural research. Lecture 3 hours per week. (Typically offered: Fall, Spring and Summer)
AFLS 401VH. Honors Special Topics. 1-6 Hour.
Studies of selected topics not covered in other courses. Must be in the Honors program to register for this course. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit. This course is equivalent to AFLS 401V.

AFLS 403V. Special Problems. 1-6 Hour.
Individual study or research for advanced undergraduates. Corequisite: Instructor consent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

AFLS 403VH. Honors Special Problems. 1-6 Hour.
Individual study or research for advanced undergraduates. Corequisite: Instructor consent and honors standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

AFLS 4600. Undergraduate Research Assistant. 0 Hours.
Undergraduate research. (Typically offered: Fall, Spring and Summer)

AFLS 501V. Special Topics. 1-3 Hour.
Studies of selected topics not covered in other courses. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

Air Force ROTC (AERO)

Courses

AERO 1011. Heritage and Values of the United States Air Force I. 1 Hour.
A survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, and organization of the Air Force. Leadership LAB mandatory for cadets. Corequisite: Lab component. (Typically offered: Fall)

AERO 1021. Heritage and Values of the United States Air Force II. 1 Hour.
A survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, and organization of the Air Force. Leadership LAB mandatory for cadets. Corequisite: Lab component. (Typically offered: Spring)

AERO 2011. Team and Leadership Fundamentals I. 1 Hour.
This course focuses on laying the foundation for teams and leadership. The topics include skills that will allow cadets to improve their leadership on a personal level and within a team. The course will prepare cadets for their field training experience where they will be able to put the concepts learned into practice. The purpose is to instill a leadership mindset and to motivate sophomore students to transition from AFROTC cadet to AFROTC officer candidate. Corequisite: Lab component. (Typically offered: Fall)

AERO 2021. Team and Leadership Fundamentals II. 1 Hour.
This course focuses on laying the foundation for teams and leadership. The topics include skills that will allow cadets to improve their leadership on a personal level and within a team. The course will prepare cadets for their field training experience where they will be able to put the concepts learned into practice. The purpose is to instill a leadership mindset and to motivate sophomore students to transition from AFROTC cadet to AFROTC officer candidate. Prerequisite: AERO 2011. Corequisite: Lab component. (Typically offered: Spring)

AERO 3013. Leading People and Effective Communication I. 3 Hours.
This course teaches cadets advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and communication. Cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors. Corequisite: Lab component. (Typically offered: Fall)

AERO 3023. Leading People and Effective Communication II. 3 Hours.
This course teaches cadets advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and communication. Cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors. Corequisite: Lab component. (Typically offered: Spring)

AERO 4013. National Security Affairs and Preparation for Active Duty I. 3 Hours.
This course is designed for college seniors and gives them the foundation to understand their role as military officers in American society. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. The final semester provides information that will prepare the cadets for Active Duty. Corequisite: Lab component. (Typically offered: Fall)

AERO 4023. National Security Affairs and Preparation for Active Duty II. 3 Hours.
This course is designed for college seniors and gives them the foundation to understand their role as military officers in American society. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. The final semester provides information that will prepare the cadets for Active Duty. Corequisite: Lab component. (Typically offered: Spring)

Animal Science (ANSC)

Courses

ANSC 1001L. Introductory to Animal Sciences Laboratory. 1 Hour.
Study of facilities used in production, processing, and management in animal agriculture. Identification, selection evaluation and testing of livestock, meat, and milk. Laboratory 3 hours per week. (Typically offered: Fall and Spring)

ANSC 1033. Introductory Animal Sciences. 3 Hours.
Students will be introduced to biological sciences associated with modern systems of care and management of livestock. Foundation sciences include topics in genetics, nutrition, reproduction, and animal health. The importance of livestock, equine, and companion animals and their allied industries will also be discussed. (Typically offered: Fall and Spring)

ANSC 1033H. Honors Introductory Animal Sciences. 3 Hours.
Students will be introduced to biological sciences associated with modern systems of care and management of livestock. Foundation sciences include topics in genetics, nutrition, reproduction, and animal health. The importance of livestock, equine, and companion animals and their allied industries will also be discussed. Prerequisite: Honors standing. (Typically offered: Fall and Spring) This course is equivalent to ANSC 1033.

ANSC 1062. Sustainable Integrated Small Animal Farming. 2 Hours.
Practical information on small scale animal production, including practical strategies for farm planning, issues of economic and environmental sustainability, best management practices, biosecurity, disease prevention, and farm safety will be presented. (Typically offered: Spring)

ANSC 1781. Career Preparation and Development. 1 Hour.
Course will cover concepts necessary for preparing for a career in the animal sciences and allied industries. Concepts of goal setting, effective written and verbal communications, interpersonal skills, professional behaviors, presentation skills, portfolio and resume development will be presented. (Typically offered: Fall)
ANSC 2003. Introduction to Equine Industry. 3 Hours.
Examination of careers and business opportunities in the equine industry. Students will gain the opportunity to identify high quality horses through evaluation of conformation and locomotion. Students will also gain skill at oral presentation and be knowledgeable of costs and responsibilities associated with horse ownership. (Typically offered: Spring)

ANSC 2111L. Introduction To Animal Evaluation and Handling Lab. 1 Hour.
Laboratory component stressing fundamental concepts of animal structure, composition, and behavior, and animal handling as they relate to animal production, safety, well-being, and handler safety. One 3-hour lab weekly. Corequisite: ANSC 2113. Pre- or Corequisite: ANSC 1033. (Typically offered: Spring)

ANSC 2113. INTRODUCTION TO ANIMAL EVALUATION and HANDLING. 3 Hours.
Fundamental concepts of the interrelationship of animal growth, structure, function, and animal handling as they relate to animal production, safety, well-being, and handler safety. Corequisite: ANSC 2111L. Pre- or Corequisite: ANSC 1033. (Typically offered: Fall and Spring)

ANSC 2252L. Introduction to Livestock and Meat Evaluation. 2 Hours.
Develop an understanding between live animal evaluation and carcass composition. Comparative judging including meat evaluation, classification and selection of beef cattle, sheep and swine. (Typically offered: Spring)

ANSC 2303L. Introduction to Horsemanship. 3 Hours.
A study of modern horsemanship training techniques involving the psychology and ethology (reason for the behavior) of equine social behavior and how it pertains to learning patterns; application of fundamental behavioral concepts in training of horses, and modification of desirable and undesirable behavioral patterns. Prerequisite: Instructor consent. (Typically offered: Fall and Spring)

ANSC 2333. Introduction to Animal Health. 3 Hours.
This course will cover the fundamental principles of animal health and disease prevention. Course discussion will include sanitation, disinfection, immunization, nutrition, housing and husbandry, causes of diseases, parasitism, clinical signs of disease, prevention and treatment options for diseases. Prerequisite: BIOL 1543. (Typically offered: Fall)

ANSC 3003. Applied Animal Parasitology. 3 Hours.
The economically important parasites of domestic animals with emphasis on their host relationships and management considerations. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. (Typically offered: Fall and Spring)

ANSC 3013. Parasitisms of Domesticated Non-Herbivores. 3 Hours.
Course will provide applied instruction and appreciation for the parasitisms of our domesticated swine, chickens, turkeys, dogs and cats. (Typically offered: Fall; Spring Odd Years)

ANSC 3033. Animal Physiology. 3 Hours.
Fundamental aspects of central nervous, musculoskeletal, reproductive, digestive, immune, cardiovascular, respiratory and renal systems will be covered. The normal structure and function of these systems will be emphasized. Lecture 3 hours per week. Prerequisite: BIOL 1543 and (CHEM 1123 or CHEM 1073). (Typically offered: Fall)

This course is cross-listed with POSC 3033.

ANSC 3033H. Honors Animal Physiology. 3 Hours.
Fundamental aspects of central nervous, musculoskeletal, reproductive, digestive, immune, cardiovascular, respiratory and renal systems will be covered. The normal structure and function of these systems will be emphasized. Lecture 3 hours per week. Prerequisite: BIOL 1543 and (CHEM 1123 or CHEM 1073). (Typically offered: Fall)

ANSC 3072. Equine Selection and Evaluation. 2 Hours.
Students will learn criteria for evaluation and selection of breeding and show animals and will gain expertise in the evaluation of breed types and show ring characteristics. Includes field trips to various breed operations. Students in this class will be well prepared to participate in equine judging team activities. Prerequisite: Instructor consent. (Typically offered: Spring)

ANSC 3123. Principles of Genetics. 3 Hours.
Fundamentals of heredity, with special emphasis on the improvement of farm animals. Lecture 3 hours per week. Prerequisite: BIOL 1543 and MATH 1203 or higher. (Typically offered: Fall)
This course is cross-listed with POSC 3123.

ANSC 3133. Animal Breeding and Genetics. 3 Hours.
Application of the principles of genetics to the breeding of farm animals. Lecture 3 hours per week. Corequisite: Drill component. Prerequisite: MATH 1203 or higher. (Typically offered: Spring)

ANSC 3141L. Animal Nutrition Laboratory. 1 Hour.
Animal Nutrition Laboratory (FA) Practical and quantitative approach to animal nutrition; use of various methods of feedstuff evaluation including ration balancing for domestic animals. Laboratory 2 hours per week. Corequisite: ANSC 3143. Prerequisite: MATH 1203. (Typically offered: Fall)

ANSC 3143. Principles of Animal Nutrition. 3 Hours.
Scientific approach to animal nutrition involving the mechanisms through which feed nutrients are utilized by farm animals. Lecture 3 hours per week. Prerequisite: ANSC 1033. (Typically offered: Spring)

ANSC 3152. Applied Animal Nutrition. 2 Hours.
Practical approach to animal nutrition; physical and chemical composition of feedstuffs, feed processing and preparation, nutrient interactions, and application of nutritional principles to feeding domestic animals. Lecture 2 hours per week. Corequisite: ANSC 3141L. Prerequisite: ANSC 3143 and MATH 1203. (Typically offered: Fall)

ANSC 3213. Behavior of Domestic Animals. 3 Hours.
Behavior associated with domestication. Effects of selective breeding, physical and social environments, and developmental stage on social organization, aggressive behavior, sexual behavior, productivity, and training of domestic animals. (Typically offered: Fall)

ANSC 3282. Livestock Judging and Selection. 2 Hours.
Comparative judging, including grading, classification, and selection of beef cattle, swine, sheep and horses. Oral and written discussion. Laboratory 6 hours per week. Prerequisite: ANSC 1033 or ANSC 2252L. (Typically offered: Fall)

ANSC 3291. Livestock Junior Judging Team Activity. 1 Hour.
Training for membership on judging teams, through participation. (Typically offered: Spring)

ANSC 3333. Diseases of Livestock. 3 Hours.
Introductory study of the diseases of farm animals with emphasis on fundamental principles of disease, body defense mechanisms, hygiene, and sanitation. Prerequisite: BIOL 1543. (Typically offered: Spring)

ANSC 3433. Fundamentals of Reproductive Physiology. 3 Hours.
Principles of mammalian reproductive physiology with emphasis on farm animals. Lecture 3 hours per week. Pre- or Corequisite: (CHEM 1073 and CHEM 1071L) or (CHEM 1123 and CHEM 1121L) or (CHEM 2613 and CHEM 2611L) or (CHEM 3603 and CHEM 3601L) and ANSC 2252L and BIOL 2013 and BIOL 2011L. Prerequisite: BIOL 1543. (Typically offered: Fall)
ANSC 3491L. Artificial Insemination in Cattle. 1 Hour.
Experience with artificial insemination technique in cattle including estrus detection, semen storage and handling, insemination equipment maintenance and technique. Laboratory 4 hours per week. The course is offered the second 8 weeks of the spring semester. Prerequisite: ANSC 3433 or instructor consent. (Typically offered: Spring)

ANSC 3513. Current Approaches in Agricultural Laboratory Research. 3 Hours.
A laboratory course to introduce students to current laboratory research techniques used in agricultural and life sciences. Hands-on laboratory exercises will emphasize current cellular and molecular research techniques, laboratory notebook keeping, data interpretation, and presentation of results. Prerequisite: BIOL 1543. (Typically offered: Spring Even Years)
This course is cross-listed with POSC 3513.

ANSC 3513H. Honors Current Approaches in Agricultural Laboratory Research. 3 Hours.
A laboratory course to introduce students to current laboratory research techniques used in agricultural and life sciences. Hands-on laboratory exercises will emphasize current cellular and molecular research techniques, laboratory notebook keeping, data interpretation, and presentation of results. Prerequisite: BIOL 1543 and honors standing. (Typically offered: Spring Even Years)
This course is cross-listed with POSC 3513, ANSC 3513.

ANSC 3613. Meat Science. 3 Hours.
The study of meat science and muscle biology. Topics will include animal tissue growth and development and the relationship to meat quality. Meat processing, preservation, and meat safety concerns will also be considered. Lecture 3 hours per week. Prerequisite: CHEM 2613 or CHEM 3603. (Typically offered: Fall)

ANSC 3723. Horse and Livestock Merchandising. 3 Hours.
Various types of merchandising programs for specific livestock enterprises will be presented. Students will evaluate the effectiveness of merchandising programs including how to organize, advertise, and manage a purebred auction sale of livestock. (Typically offered: Fall)

ANSC 3753. Equine Assisted Activities and Therapies. 3 Hours.
Animal Science 3753 introduces students to the field of equine assisted activities and therapies. A variety of approaches, therapeutic settings and client populations will be addressed with an emphasis on equine behavior. Students will gain experience in the practical application of an equine assisted therapy program. (Typically offered: Fall)

ANSC 400V. Special Problems. 1-6 Hour.
Special problems in the animal sciences for advanced undergraduate students. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ANSC 401V. Internship in Animal Sciences. 1-6 Hour.
Supervised work experience with private or government organizations Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ANSC 4072. Advanced Equine Selection and Evaluation. 2 Hours.
Advanced evaluation and selection of breeding and show animals, evaluation of breed types and show characteristics. Field trips to breeding operations. Competitive judging team members come from this course and participation in competitive events will be required. Prior equine evaluation is not necessary, but instructor consent is required. Some Saturday activities. Prerequisite: ANSC 3072 or instructor consent. (Typically offered: Fall)

ANSC 410V. Special Topics in Animal Sciences. 1-4 Hour.
Topics not covered in other courses or a more intensive study of specific topics in animal sciences. (Typically offered: Irregular) May be repeated for degree credit.

ANSC 410VH. Honors Special Topics in Animal Sciences. 1-4 Hour.
Topics not covered in other courses or a more intensive study of specific topics in animal sciences. Prerequisite: Honors standing. (Typically offered: Irregular) May be repeated for degree credit.

ANSC 4123. Legal Issues in Animal Agriculture. 3 Hours.
An issues-oriented course focusing on the legal issues involved in the production of poultry, swine and livestock. Emphasis will center on the laws, regulations and policy arguments involved in animal confinement, antibiotic use, humane slaughter and veterinary medicine, along with other related issues. The wide range of regulation-from local to state to federal, depending on the issue- will be studied and discussed. (Typically offered: Spring Odd Years)
This course is cross-listed with AGEC 4123, POSC 4123.

ANSC 4142. Advanced Animal Handling Techniques. 2 Hours.
This course is designed to familiarize students with handling techniques of a variety of animals, including cattle, sheep, horses, pigs, dogs, and others. Students will learn and practice handling, restraint, and common husbandry procedures with a variety of domestic species. The course will provide valuable preparation for careers in livestock management, vet medicine, animal-based research, and other fields in animal science. Prerequisite: Junior standing or consent. (Typically offered: Fall and Spring)

ANSC 4143. Companion Animal Nutrition. 3 Hours.
This course is designed to focus on the digestive anatomy, physiology, and nutrient metabolism of non-herbivorous companion animals, primarily dogs and cats. Topics discussed will also include an overview of the pet food industry, its regulations and commonly utilized ingredients. Students will gain a deeper understanding of nutrition as it relates to life stages and various disease states that can affect both dogs and cats. This course will require a Saturday trip to one or two off campus facilities. Prerequisite: ANSC 3143 or POSC 4343. (Typically offered: Spring)
This course is cross-listed with POSC 4163.

ANSC 4173. Thoroughbred Horse Industry. 3 Hours.
This course is designed to give you an overview of the Thoroughbred breed and industry. Students will gain an understanding of the Thoroughbred industry, its history, and modern practices. Students will also gain an understanding of career potential in the Thoroughbred industry. Prerequisite: Instructor consent and Junior or Senior standing. (Typically offered: Spring Odd Years)

ANSC 4181. Kentucky Thoroughbred Tour. 1 Hour.
An overview of the Thoroughbred industry in central Kentucky through visiting major racetracks, world-class Thoroughbred breeding facilities, major equine veterinary practices, world class equine sales facilities, equine rehabilitation and retirement facilities, equine nutritional research facilities, and visit with horse trainers, veterinarians and farm managers. Successful completion of all course requirements and the tours will enable students to obtain 1 credit in animal science, network in the equine industry and critically assess potential careers. Prerequisite: Instructor consent. (Typically offered: Summer Odd Years)

ANSC 4252. Cow-Calf Management. 2 Hours.
Systems of cow-calf management including the practical application of the principles of breeding, feeding, and management to commercial and purebred beef cattle under Arkansas conditions. Prerequisite: Must be a student in the Bumpers College of Agricultural, Food and Life Sciences, ANSC 1033 and Junior standing or higher. (Typically offered: Fall)

ANSC 4262. Swine Production. 2 Hours.
Methods in producing purebred and commercial swine with specific emphasis on the management programs needed for profitable pork production in Arkansas. Prerequisite: Must be a student in Bumpers College of Agricultural, Food and Life Sciences, ANSC 1033 and Junior standing or higher. (Typically offered: Fall Even Years)
ANSC 4272. Sheep Production. 2 Hours.
Purebred and commercial sheep management emphasizing the programs of major importance in lamb and wool production in Arkansas. Prerequisite: Must be a student in Bumpers College of Agricultural, Food and Life Sciences, ANSC 1033 and Junior standing or higher. (Typically offered: Spring Odd Years)

ANSC 4282. Horse Production. 2 Hours.
Production, use and care of horses and ponies including breeding, feeding, handling, and management. Lecture 1 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: Junior standing or higher. (Typically offered: Spring)

ANSC 4291. Livestock Senior Judging Team Activity. 1 Hour.
Training for membership on judging teams, through participation. (Typically offered: Fall)

ANSC 4303. Comparative Veterinary Anatomy. 3 Hours.
Study of structures and principles of anatomy of major domestic species. The dog, horse, and cow will be used as models for anatomical structures and the application of anatomical knowledge in animal science; focus on veterinary applications. 3 hours of lecture each week. Spring semesters. Corequisite: Lab component. Prerequisite: ANSC 1033 or BIOL 1543, Junior standing or instructor consent. (Typically offered: Spring)

ANSC 4452. Milk Production. 2 Hours.
Principles of breeding, feeding, and management of dairy cattle will be studied. Prerequisite: Must be a student in the Bumpers College of Agricultural, Food and Life Sciences, ANSC 1033 and Junior standing or higher. (Typically offered: Spring)

ANSC 4482. Companion Animal Management. 2 Hours.
The study and application of principles of domestication, nutrition, reproduction, parasitology, diseases, behavior, and husbandry management to companion animals. Dogs, cats, and exotic animals will be the species of primary interest. Practical problems of care and management of these species will be solved. Prerequisite: BIOL 1543 or equivalent or consent of instructor. (Typically offered: Fall)

ANSC 4552. Forage-Ruminant Relations. 2 Hours.
Chemical, physical, and botanical characteristics of forage plants, the dynamics of grazing, intake, digestion, behavior, and nutrient cycling at the plant-animal interface. CSES 1203 recommended. Prerequisite: ANSC 3143. (Typically offered: Spring Odd Years)

ANSC 4652. Stocker-Feedlot Cattle Management. 2 Hours.
Production and management systems for stocker and feed-lot cattle including practical applications of forage systems, feeding, health management and economics of production of these livestock. Prerequisite: Must be a student in the Bumpers College of Agricultural, Food and Life Sciences, ANSC 1033 and Junior standing or higher. (Typically offered: Spring)

ANSC 4923. Brain & Behavior. 3 Hours.
Covers cellular through neural systems, major brain functions and comparative neuroanatomy. Topics include ion channels and action potentials, synaptic integration, neurotransmitters, major brain regions of mammals and birds, sensory systems and the autonomic nervous systems, neuroendocrine system, and control by the brain of critical functions and behavior. Lecture 3 hours per week. Prerequisite: ANSC 3033 or POSC 3033 or PSYC 2003 or BIOL 2213 or BIOL 2443 or BIOL 2533. (Typically offered: Fall)
This course is cross-listed with POSC 4923.

ANSC 4993. Animal Science Capstone. 3 Hours.
The purpose of this course is to provide students with an opportunity to apply and integrate knowledge from previous coursework in general education and animal science. This course is a multiple experience/ exercise capstone course and is designed for students to demonstrate mastery of a particular subject within Animal Science. Students will provide evidence of integrated knowledge through a variety of means including oral presentations, creation of a 1250-word reflective essay, writing a research abstract and applying problem solving and critical thinking skills. Prerequisite: Senior standing. (Typically offered: Fall and Spring)

ANSC 500V. Special Problems. 1-6 Hour.
Work in special problems of animal industry. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ANSC 5013. Domestic Animal Energetics. 3 Hours.
Physical, physiological and biochemical aspects of energy metabolism of domestic animals and their applications to livestock production. Lecture 3 hours per week. Prerequisite: Graduate standing. (Typically offered: Spring Odd Years)

ANSC 5023. Legal Issues in Animal Agriculture. 3 Hours.
(Formerly ANSC 4123.) An issues-oriented course focusing on the legal issues involved in the production of poultry, swine and livestock. Emphasis will center on the laws, regulations and policy arguments involved in animal confinement, antibiotic use, humane slaughter and veterinary medicine, along with other related issues. The wide range of regulation-from local to state to federal, depending on the issue-will be studied and discussed. Graduate degree credit will not be given for both ANSC 4123 and ANSC 5023. (Typically offered: Spring Odd Years)

ANSC 5052. Cow-Calf Management. 2 Hours.
(Formerly ANSC 4252.) Systems of cow-calf management including the practical application of the principles of breeding, feeding, and management to commercial and purebred beef cattle under Arkansas conditions. Graduate degree credit will not be given for both ANSC 4252 and ANSC 5052. (Typically offered: Fall)

ANSC 510V. Special Topics in Animal Sciences. 1-4 Hour.
Topics not covered in other courses or a more intensive study of specific topics in animal sciences. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for degree credit.

ANSC 5123. Advanced Animal Genetics. 3 Hours.
Specialized study of animal genetics. Lecture 3 hours per week. Prerequisite: ANSC 3123. (Typically offered: Fall Even Years)
This course is cross-listed with POSC 5123.

ANSC 5143. Biochemical Nutrition. 3 Hours.
Interrelationship of nutrition and physiological chemistry; structure and metabolism of physiological significant carbohydrates, lipids, and proteins; integration of metabolism with provision of tissue fuels; specie differences in regulatory control of tissue and whole body metabolism of nutrients. Prerequisite: CHEM 3813. (Typically offered: Fall Even Years)
This course is cross-listed with POSC 5143.

ANSC 5152. Protein and Amino Acid Nutrition. 2 Hours.
Students will be introduced to the basic processes of protein digestion, amino acid absorption, transport, metabolism, and utilization along with how biochemical function of proteins and their dynamic state affect nutritional status for animals and man. Prerequisite: CHEM 3813. (Typically offered: Spring Even Years)
This course is cross-listed with POSC 5152.
ANSC 5163. Companion Animal Nutrition. 3 Hours.  
This course is designed to focus on the digestive anatomy, physiology, and nutrient metabolism of non-herbivorous companion animals, primarily dogs and cats. Topics discussed will also include an overview of the pet food industry, its regulations and commonly utilized ingredients. Students will gain a deeper understanding of nutrition as it relates to life stages and various disease states that can affect both dogs and cats. This course will require a Saturday trip to one or two off campus facilities. Prerequisite: ANSC 3143 or POSC 4343. (Typically offered: Spring)  
This course is cross-listed with POSC 5163.

ANSC 5253. Advanced Livestock Production. 3 Hours.  
Comprehensive review of recent advances in research relative to the various phases of livestock production. (Typically offered: Irregular)

ANSC 5262. Swine Production. 2 Hours.  
(Formerly ANSC 4262.) Methods in producing purebred and commercial swine with specific emphasis on the management programs needed for profitable pork production in Arkansas. Graduate degree credit will not be given for both ANSC 4262 and ANSC 5262. (Typically offered: Fall Even Years)

ANSC 5272. Sheep Production. 2 Hours.  
(Formerly ANSC 4272.) Purebred and commercial sheep management emphasizing the programs of major importance in lamb and wool production in Arkansas. Graduate degree credit will not be given for both ANSC 4272 and ANSC 5272. (Typically offered: Spring Odd Years)

ANSC 5283. Horse Production. 3 Hours.  
(Formerly ANSC 4283.) Production, use and care of horses and ponies including breeding, feeding, handling, and management. Lecture 2 hours, laboratory 3 hours per week. Graduate degree credit will not be given for both ANSC 4282 and ANSC 5283. Corequisite: Lab component. (Typically offered: Spring)

ANSC 5452. Milk Production. 2 Hours.  
(Formerly ANSC 4452.) Principles of breeding, feeding, and management of dairy cattle will be studied. Graduate degree credit will not be given for both ANSC 4452 and ANSC 5452. (Typically offered: Spring)

ANSC 5482. Companion Animal Management. 2 Hours.  
(Formerly ANSC 4482.) The study and application of principles of domestication, nutrition, reproduction, parasitology, diseases, behavior, and husbandry management to companion animals. Dogs, cats, and exotic animals will be the species of primary interest. Practical problems of care and management of these species will be covered. Graduate degree credit will not be given for both ANSC 4482 and ANSC 5482. Prerequisite: BIOL 1543 or equivalent or consent of instructor. (Typically offered: Fall)

ANSC 5553. Forage-Ruminant Relations. 3 Hours.  
Advanced chemical, physical, and botanical characteristics of forage plants, the dynamics of grazing, intake and digestion, and techniques of measuring forage utilization and systems analysis at the plant-animal interface. Lecture 3 hours per week. CSES 1203 recommended. Corequisite: Lab component. Prerequisite: ANSC 3143. (Typically offered: Spring Odd Years)  
This course is cross-listed with CSES 5553.

ANSC 5652. Stocker-Feedlot Cattle Management. 2 Hours.  
(Formerly ANSC 4652.) Production and management systems for stocker and feed-lot cattle including practical applications of forage systems, feeding, health management and economics of production of these livestock. Graduate degree credit will not be given for both ANSC 4652 and ANSC 5652. (Typically offered: Spring)

An experiential-learning course with an embedded trip to Panama designed to give students an overview of the agricultural industry and the impact of Panamanian history, culture and geography on agriculture and how this contrasts with practices in the US. Students will participate in a study tour to Panama where they will engage in learning experiences that explore the agriculture, history, and culture of this country. They will have the opportunity to visit and learn from successful producers of livestock and agricultural staples as well as tour the Panama canal and learn about Panamanian culture and history. Prerequisite: Instructor consent and approval from Study Abroad office. (Typically offered: Spring)

ANSC 5743L. Advanced Analytical Methods in Animal Sciences Laboratory. 3 Hours.  
Introduction into theory and application of current advanced analytical techniques used in animal research. Two 3-hour laboratory periods per week. (Typically offered: Fall)  
This course is cross-listed with POSC 5743L.

ANSC 5853. Advanced Meats Technology. 3 Hours.  
An intensive study of processed meats, relating the science, technology, and quality of further processed meat and poultry products. Product development, sensory and chemical analysis, microbiology, nutritional aspects, and product labeling are covered. Prerequisite: POSC 4314 or ANSC 3613. (Typically offered: Spring Even Years)

ANSC 5901. Seminar. 1 Hour.  
Critical review of the current scientific literature pertaining to the field of animal science. Oral reports. Lecture 1 hour per week. Prerequisite: Senior standing. (Typically offered: Fall)

ANSC 5923. Brain & Behavior. 3 Hours.  
Covers cellular through neural systems, major brain functions and comparative neuroanatomy. Topics include ion channels, membrane and action potentials, synaptic integration, neurotransmitters, major brain regions of mammals and birds, sensory systems and the autonomic nervous system, neuroendocrine system, and control by the brain of critical functions and behavior. Lecture 3 hours per week. Prerequisite: (ANSC 3033 or POSC 3033) or PSYC 2003 or BIOL 2213 or BIOL 2443 or BIOL 2533. (Typically offered: Fall)  
This course is cross-listed with POSC 5923.

ANSC 5932. Cardiovascular Physiology of Domestic Animals. 2 Hours.  
Cardiovascular physiology, including mechanisms of heart function and excitation, and blood vessel mechanisms associated with the circulatory system in domestic animals and poultry. Lecture 3 hours; drill 1 hour per week (for second 8 weeks of semester). Pre- or Corequisite: CHEM 3813. Corequisite: Drill component. Prerequisite: POSC 3033 or ANSC 3033. (Typically offered: Fall)  
This course is cross-listed with POSC 5932.

ANSC 5942. Endocrine Physiology of Domestic Animals. 2 Hours.  
Endocrine physiology, including mechanisms of hormone secretion, function, and regulation. Mechanisms associated with the endocrine system will be discussed for domestic animals and poultry. Lecture 3 hours; drill 1 hour per week (or first 8 weeks of semester). Pre- or Corequisite: CHEM 3813. Corequisite: Drill component. Prerequisite: POSC 3033 or ANSC 3033. (Typically offered: Fall)  
This course is cross-listed with POSC 5942.

ANSC 5952. Respiratory Physiology of Domestic Animals. 2 Hours.  
Respiratory physiology, including mechanisms of lung function and gas exchange. Mechanisms associated with the interaction of the respiratory system with other bodily systems in domestic animals and poultry will be discussed. Lecture 3 hours; drill 1 hour per week for first 8 weeks of semester. Pre- or Corequisite: CHEM 3813. Corequisite: Drill component. Prerequisite: POSC 3033 or ANSC 3033. (Typically offered: Spring)  
This course is cross-listed with POSC 5952.
ANTH 1013. Introduction to Biological Anthropology. 3 Hours.
An introduction to the field of biological anthropology using evolution and human variation as unifying concepts. Areas include human genetics, race, speciation, primate and human evolution, and human variation and adaptation. Corequisite: ANTH 1011L. (Typically offered: Spring and Summer)

ANTH 1013H. Honors Introduction to Biological Anthropology. 3 Hours.
An introduction to the field of biological anthropology using evolution and human variation as unifying concepts. Areas include human genetics, race, speciation, primate and human evolution, and human variation and adaptation. Corequisite: ANTH 1011M. (Typically offered: Fall and Spring)
This course is equivalent to ANTH 1013.

ANTH 1023. Introduction to Cultural Anthropology (ACTS Equivalency = ANTH 2013). 3 Hours.
Introduction to the nature of culture and its influence on human behavior and personality: comparative study of custom, social organization, and processes of change and integration of culture. Corequisite: Drill component. (Typically offered: Fall, Spring and Summer)

ANTH 1023H. Honors Introduction to Cultural Anthropology. 3 Hours.
Introduction to the nature of culture and its influence on human behavior and personality: comparative study of custom, social organization, and processes of change and integration of culture. (Typically offered: Fall and Spring)
This course is equivalent to ANTH 1023.

ANTH 1033. Introduction to Archaeology. 3 Hours.
Archaeology studies the human past through contextual analysis of artifacts, archaeological sites, and landscapes. This course introduces archaeological methods and theories, significant discoveries and current debates in the discipline. Corequisite: Lab component. (Typically offered: Fall and Spring)

ANTH 2013. Introduction to Latin American Studies. 3 Hours.
This course provides an interdisciplinary introduction to Latin America. Drawing on Latin American literature, history, sociology, and political science, the course examines the broad forces that have shaped the region. (Typically offered: Fall and Spring)

ANTH 3003. World Prehistory. 3 Hours.
Survey of the prehistoric and early historic cultures of the Americas, Asia, and Africa. (Typically offered: Fall and Spring)

ANTH 3023. Approaches to Archaeology. 3 Hours.
Study of the field of archeology including method, theory, analysis and interpretation with substantive worldwide examples. Prerequisite: ANTH 1033. (Typically offered: Fall and Spring)

ANTH 3043. Bones, Bodies, and Brains in Evolutionary Perspective. 3 Hours.
This course will review the anatomy of the human body, comparing this anatomy with primates, mammals, and vertebrates, and it will consider how the major features of the human body emerged throughout evolution. (Typically offered: Fall and Spring)

ANTH 3123. The Anthropology of Religion. 3 Hours.
An exploration of rituals, symbols, and rules that shape religious life. Religion is viewed broadly, considering activities that invoke powers beyond the reach of ordinary senses. Examining a variety of cultures, we explore what people say and do as they participate in activities such as magic, healing, pilgrimage, and contemporary religious movements. (Typically offered: Spring)

ANTH 3163. Male and Female: A Cultural and Biological Overview. 3 Hours.
A comparative study of male and female roles in culture in relation to human biology and socialization. (Typically offered: Fall)
ANTH 3213. Indigenous Peoples of North America: Anthropological Perspectives. 3 Hours.
An exploration of indigenous societies and cultures of North America from an anthropological perspective. Using examples from diverse Native Nations from the time of European contact to the present, we will examine colonialism and resistance, indigenous cosmologies, memory culture and oral tradition, and the politics of representation. (Typically offered: Irregular)

ANTH 3263. Indians of Arkansas and the South. 3 Hours.
Study of the traditional lifeways and prehistoric backgrounds of Indians living in the Southern United States, including Arkansas. (Typically offered: Spring Odd Years)

ANTH 3421L. Human Osteology Laboratory. 1 Hour.
Laboratory exercises illustrating concepts of human osteology. Corequisite: ANTH 3423. (Typically offered: Spring)

ANTH 3423. Human Osteology. 3 Hours.

ANTH 3423H. Honors Colloquium. 3 Hours.
Covers a special topic or issue, offered as part of the honors program. Prerequisite: Honors candidacy (not restricted to candidacy in anthropology). (Typically offered: Irregular) May be repeated for degree credit.

ANTH 3923H. Honors Thesis. 1-6 Hour.
Honors thesis. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

ANTH 4013. History of Anthropological Thought. 3 Hours.
Detailed consideration of anthropological theory through study of its historical development. The research paper in this course fulfills the Fulbright College research paper requirement for anthropology majors. Prerequisite: ANTH 1023. (Typically offered: Fall)

ANTH 4033. Popular Culture. 3 Hours.
Study of national and international varieties of popular culture, including music, dance, fashion, and the media. Emphasis will be given to both ethnographic approaches, which focus on the investigation of production and consumption of cultural forms and to cultural studies approaches, which see culture as a terrain of struggle. (Typically offered: Irregular)

ANTH 4093. The Archeology of Death. 3 Hours.
Study of the analysis and interpretation of archeological mortuary remains and sites. Key archeological and anthropological sources that have influenced major theoretical developments are reviewed. (Typically offered: Irregular)

ANTH 4133. Settlement Archaeology. 3 Hours.
Focuses on the historical development of settlement archeology, the methods of site survey and discovery within regions, ecological and social theories that underlie patterns of human land use and distribution, methods of site location analysis, and descriptive and predictive site location modeling. Prerequisite: ANTH 3023. (Typically offered: Irregular)

ANTH 4143. Ecological Anthropology. 3 Hours.
Anthropological perspectives on the study of relationships among human populations and their ecosystems. (Typically offered: Irregular)

ANTH 4243. Archeology of the Midsouth. 3 Hours.
Survey of prehistoric and protohistoric cultures of the lower Mississippi Valley and adjacent regions. Prerequisite: Junior standing. (Typically offered: Irregular)

ANTH 4256. Archeological Field Session. 6 Hours.
Practical field and laboratory experiences in archeological research. (Typically offered: Summer) May be repeated for up to 12 hours of degree credit.

ANTH 4263. Identity and Culture in the U.S.-Mexico Borderlands. 3 Hours.
An exploration of the interplay between Latina/o, Mexican, Anglo, and Native American identities and cultures along the U.S.-Mexico border. Course examines identity formation, hybridity, social tension, marginalization, race and gender, from an anthropological perspective, paying special attention to the border as theoretical construct as well as material reality. (Typically offered: Irregular)

ANTH 4273. Photography for Fieldwork. 3 Hours.
This class explores the use of photographic images as both data and representational tools in anthropological research, emphasizing the ethical, theoretical, and methodological issues involved. (Typically offered: Irregular)

ANTH 4283. Survey in Ethnographic Film. 3 Hours.
Survey of the development and evolution of ethnographic film, based on class screenings to build familiarity, vocabulary, and literacy with this branch of visual anthropology. (Typically offered: Irregular)

ANTH 4353. Laboratory Methods in Archeology. 3 Hours.
Detailed consideration of anthropological theory through study of its historical development. The research paper in this course fulfills the Fulbright College research paper requirement for anthropology majors. Prerequisite: ANTH 1023. (Typically offered: Fall)

ANTH 4355. Religion in Latin America. 3 Hours.
Examines contemporary implications of Latin America’s unique religious heritage. An exploration of multiple Latin American religious traditions, with sustained focus on key theoretical concerns: conversion, vernacular vs. orthodox expressions, the blending of indigenous and European cosmologies, devotion and ritual, and the articulation of ethnic, gendered, and religious identities. (Typically offered: Irregular)

ANTH 4356. Culture and Medicine. 3 Hours.
Study of health and medicine within cultural contexts, including attention to cross-cultural healers and healing systems. Special emphasis on biomedicine as a cultural system. (Typically offered: Irregular)

ANTH 4357. Ballroom Culture and Performance in the West. 3 Hours.
This course focuses on competitive ballroom dancing in the West, highlighting issues of spectacle, sport, art, festival, ritual, dress, performance, identity, and gender construction. (Typically offered: Irregular)

ANTH 4358. Body and Identity. 3 Hours.
This course explores personal, social and cultural constructions and performances of the body and identity, highlighting key intersections of embodiment including gender, race, sexuality and abilities. (Typically offered: Irregular) This course is cross-listed with GNST 3583.

ANTH 4393V. Honors Seminar. 3 Hours.
Covers a special topic or issue, offered as part of the honors program. Prerequisite: Honors candidacy (not restricted to candidacy in anthropology). (Typically offered: Irregular) May be repeated for degree credit.

ANTH 499VH. Honors Thesis. 1-6 Hour.
Honors thesis. Prerequisite: Senior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.
ANTH 4363. Museums, Material Culture, and Popular Imagination. 3 Hours. Museums as ideological sites and thus as sites of potential contestation produce cultural and moral systems that legitimate existing social orders. This course will focus on strategies of representation and the continuous process of negotiating social and cultural hierarchies with and through objects that are displayed. (Typically offered: Fall)

ANTH 4443. Cultural Resource Management I. 3 Hours. Concentrated discussion of management problems relative to cultural resources, including review and interpretation of relevant federal legislation, research vs. planning needs, public involvement and sponsor planning, and assessment of resources relative to scientific needs. No field training involved; discussion will deal only with administrative, legal and scientific management problems. (Typically offered: Spring) May be repeated for degree credit.

ANTH 448V. Individual Study of Anthropology. 1-6 Hour. Reading course for advanced students with special interests in anthropology. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ANTH 4513. African Religions: Gods, Witches, Ancestors. 3 Hours. An exploration of African religions from a variety of anthropological perspectives, exploring how religious experience is perceived and interpreted by adherents, highlighting the way in which individual and group identities are constructed, maintained and contested within religious contexts. Readings reflect the vast diversity of religious life in Africa. (Typically offered: Irregular)

ANTH 4523. Dental Science. 3 Hours. Introduction to the study of the human dentition including its anatomy, morphology, growth and development, and histology. (Typically offered: Fall)

ANTH 4533. Middle East Cultures. 3 Hours. Study of the peoples and cultures of the Middle East; ecology, ethnicity, economics, social organizations, gender, politics, religion, and patterns of social change. (Typically offered: Spring) May be repeated for up to 9 hours of degree credit.

ANTH 4553. Introduction to Raster GIS. 3 Hours. Theory, data structures, algorithms, and techniques behind raster-based geographical information systems. Through laboratory exercises and lectures multidisciplinary applications are examined in database creation, remotely sensed data handling, elevation models, and resource models using boolean, map algebra, and other methods. (Typically offered: Fall) This course is cross-listed with GEOS 4553.

ANTH 4563. Vector GIS. 3 Hours. Introduction to geographic information systems (GIS) applications in marketing, transportation, real estate, demographics, urban and regional planning, and related areas. Lectures focus on development of principles, paralleled by workstation-based laboratory exercises using mainstream GIS software and relational databases. Prerequisite: GEOS 3023 or GEOS 3543. (Typically offered: Spring) This course is cross-listed with GEOS 4563.

ANTH 4583. Cultures of Africa. 3 Hours. An exploration of the people and places of Africa from a variety of anthropological perspectives. Classic and contemporary works will be studied in order to underscore the unity and diversity of African cultures, as well as the importance African societies have played in helping us understand culture/society throughout the world. (Typically offered: Fall) This course is cross-listed with AAST 4583.

ANTH 4593. Introduction to Global Positioning Systems and Global Navigation Satellite Systems. 3 Hours. Introduction to navigation, georeferencing, and digital data collection using GPS and GNSS receivers, data loggers, and laser technology. Components of NavStar GLONASS, Beidou and other global positioning system are used in integration of digital information into various GIS platforms with emphasis on practical applications. Prerequisite: GEOS 3543 or ANTH 3543. (Typically offered: Spring) This course is cross-listed with GEOS 4593.

ANTH 4603. Landscape Archaeology. 3 Hours. This course provides an introduction to the methods and theories of landscape archaeology. Topics include archaeological survey techniques, environmental and social processes recorded in the archaeological landscape, and analysis of ancient settlement and land use data to reveal changes in population, resource utilization, and environmental relationships. (Typically offered: Fall)

ANTH 4613. Primate Adaptation and Evolution. 3 Hours. Introduction to the biology of the order of Primates. This course considers the comparative anatomy, behavioral ecology and paleontology of our nearest living relatives. Prerequisite: ANTH 1013 (or BIOL 1543 and BIOL 1541L). (Typically offered: Spring)

ANTH 4633. Archeological Prospecting and Remote Sensing. 3 Hours. Ground-based geophysical, aerial, and other remote sensing methods are examined for detecting, mapping, and understanding archeological and other deposits. These methods include magnetometry, resistivity, conductivity, radar, aerial photography, thermography, and multispectral scanning. Requires computer skills, field trips, and use of instruments. (Typically offered: Irregular)

ANTH 4653. GIS Analysis and Modeling. 3 Hours. Unlike conventional GIS courses that focus on studying ‘where’, this course will teach students to address beyond ‘where’ using various GIS analysis and modeling techniques to explore ‘why’ and ‘how’. The course will provide theoretical and methodological reviews of the principles of cartographic modeling and multi-criteria decision-making. (Typically offered: Spring) This course is cross-listed with GEOS 4653.

ANTH 4703. Mammalian Evolution and Osteology. 3 Hours. This course will focus on describing the evolutionary history of mammals, a group of vertebrates that include over 5,000 species in 29 orders, and will provide an overview of living species and their identifying features. Prerequisite: ANTH 1013 and ANTH 1011L or BIOL 1543 and BIOL 1541L or instructor consent. (Typically offered: Irregular)

ANTH 4803. Historical Archeology. 3 Hours. Review of the development of historical archeology and discussion of contemporary theory, methods, and substantive issues. Lab sessions on historic artifact identification and analysis. (Typically offered: Irregular)

ANTH 4813. Ethnographic Approaches to the Past. 3 Hours. Review of the uses of ethnographic data in the reconstruction and interpretation of past cultures and cultural processes, with particular emphasis on the relationships between modern theories of culture and archeological interpretation. (Typically offered: Irregular)

ANTH 482V. Applied Visual Research. 1-6 Hour. This class provides hands-on skill and training conducting visually informed fieldwork designed to help represent unique cultural settings, experience, and heritage. Pre- or Corequisite: ANTH 4273 or ANTH 4283. (Typically offered: Irregular)
ANTH 4863. Quantitative Anthropology. 3 Hours.
Introductory statistics course for anthropology students examines probability theory, nature of anthropological data, data graphics, descriptive statistics, probability distributions, test for means and variances, categorical and rank methods, ANOVA, correlation and regression. Lectures focus on theory methods; utilize anthropological data and a statistical software laboratory. (Typically offered: Irregular)
This course is cross-listed with GEOS 4863.

ANTH 4903. Seminar in Anthropology. 3 Hours.
Research, discussion, and projects focusing on a variety of topics. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ANTH 4913. Topics of the Middle East. 3 Hours.
Covers a special topic or issue. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ANTH 500V. Advanced Problems in Anthropology. 1-18 Hour.
Individual research at graduate level on clearly defined problems or problem areas. (Typically offered: Fall, Spring and Summer) May be repeated for up to 18 hours of degree credit.

ANTH 5053. Quaternary Environments. 3 Hours.
An interdisciplinary study of the Quaternary Period including dating methods, deposits, soils, climates, tectonics, and human adaptation. Lecture 2 hours, laboratory 2 hours per week. (Typically offered: Fall) This course is cross-listed with ENDY 5053, GEOS 5053.

ANTH 5063. Popular Culture. 3 Hours.
(Formerly ANTH 4033.) Study of national and international varieties of popular culture, including music, dance, fashion, and the media. Emphasis will be given to both ethnographic approaches, which focus on the investigation of production and consumption of cultural forms and to cultural studies approaches, which see culture as a terrain of struggle. Graduate degree credit will not be given for both ANTH 4033 and ANTH 5063. (Typically offered: Irregular)

ANTH 5093. The Archeology of Death. 3 Hours.
(Formerly ANTH 4093.) Study of the analysis and interpretation of archeological mortuary remains and sites. Key archeological and anthropological sources that have influenced major theoretical developments are reviewed. Graduate degree credit will not be given for both ANTH 4093 and ANTH 5093. (Typically offered: Irregular)

ANTH 5103. Applications of Cultural Method and Theory. 3 Hours.
Review of the nature and history of cultural anthropology; recent theories and practical implications and applications of various methods of acquiring, analyzing and interpreting cultural anthropological data. (Typically offered: Fall)

ANTH 5113. Anthropology of the City. 3 Hours.
Examines cities as both products of culture, and sites where culture is made and received. Explores the implications of several pivotal urban and cultural trends and the way in which representations of the city have informed dominant ideas about city space, function, and feel. (Typically offered: Irregular)

ANTH 5133. Settlement Archaeology. 3 Hours.
(Formerly ANTH 4133.) Focuses on the historical development of settlement archeology, the methods of site survey and discovery within regions, ecological and social theories that underlie patterns of human land use and distribution, methods of site location analysis, and descriptive and predictive site location modeling. Graduate degree credit will not be given for both ANTH 4133 and ANTH 5133. (Typically offered: Irregular)

ANTH 5143. Ecological Anthropology. 3 Hours.
(Formerly ANTH 4143.) Anthropological perspectives on the study of relationships among human populations and their ecosystems. Graduate degree credit will not be given for both ANTH 4143 and ANTH 5143. (Typically offered: Irregular)

ANTH 5153. Topics in Anthropology. 3 Hours.
Graduate level seminar with varied emphasis on topics relating to cultural anthropology. (Typically offered: Irregular) May be repeated for degree credit.

ANTH 5203. Applications of Archeological Method and Theory. 3 Hours.
Review of the nature and history of archeology; recent theories and practical implications and applications of various methods of acquiring, analyzing, and interpreting archeological data. (Typically offered: Fall)

ANTH 5243. Archeology of the Midsouth. 3 Hours.
(Formerly ANTH 4243.) Survey of prehistoric and protohistoric cultures of the lower Mississippi Valley and adjacent regions. Graduate degree credit will not be given for both ANTH 4243 and ANTH 5243. (Typically offered: Irregular)

ANTH 5256. Archeological Field Session. 6 Hours.
(Formerly ANTH 4256.) Practical field and laboratory experiences in archeological research. Graduate degree credit will not be given for both ANTH 4256 and ANTH 5256. (Typically offered: Summer)

ANTH 5263. Indians of Arkansas and the South. 3 Hours.
Study of the traditional lifeways and prehistoric backgrounds of Indians living in the southern United States, including Arkansas. (Typically offered: Spring Odd Years)

ANTH 5273. Photography for Fieldwork. 3 Hours.
(Formerly ANTH 4273.) This class explores the use of photographic images as both data and representational tools in anthropological research, emphasizing the ethical, theoretical, and methodological issues involved. Graduate degree credit will not be given for both ANTH 4273 and ANTH 5273. (Typically offered: Irregular)

ANTH 5283. Survey in Ethnographic Film. 3 Hours.
(Formerly ANTH 4283.) Survey of the development and evolution of ethnographic film, based on class screenings to build familiarity, vocabulary, and literacy with this branch of visual anthropology. Graduate degree credit will not be given for both ANTH 4283 and ANTH 5283. (Typically offered: Irregular)

ANTH 5293. Identity and Culture in the U.S.-Mexico Borderlands. 3 Hours.
(Formerly ANTH 4293.) An exploration of the interplay between Latino/a, Mexican, Anglo, and Native American identities and cultures along the U.S.-Mexico border. Course examines identity formation, hybridity, social tension, marginalization, race and gender, from an anthropological perspective, paying special attention to the border as theoretical construct as well as material reality. Graduate degree credit will not be given for both ANTH 4293 and ANTH 5293. (Typically offered: Irregular)

ANTH 5303. Applications of Method and Theory in Biological Anthropology. 3 Hours.
Review of the nature and history of biological anthropology; recent theories and the practical implications and applications of various methods of acquiring, analyzing, and interpreting data. (Typically offered: Irregular)

ANTH 5313. Laboratory Methods in Archeology. 3 Hours.
(Formerly ANTH 4353.) Theory and practice of describing, analyzing, and Reporting upon archeological materials. Graduate degree credit will not be given for both ANTH 4353 and ANTH 5313. (Typically offered: Irregular)

ANTH 5353. Museums, Material Culture, and Popular Imagination. 3 Hours.
(Formerly ANTH 4363.) Museums as ideological sites and thus as sites of potential contestation produce cultural and moral systems that legitimate existing social orders. This course will focus on strategies of representation and the continuous process of negotiating social and cultural hierarchies with and through objects that are displayed. Graduate degree credit will not be given for both ANTH 4363 and ANTH 5363. (Typically offered: Fall)

ANTH 5413. Bioarcheology Seminar. 3 Hours.
Intensive coverage of bioarcheological method and theory with the context of both academic and cultural resources management research. (Typically offered: Spring Odd Years)
ANTH 5443. Cultural Resource Management I. 3 Hours.
Concentrated discussion of management problems relative to cultural resources, including review and interpretation of relevant federal legislation, research vs. planning needs, public involvement and sponsor planning, and assessment of resources relative to scientific needs. No field training involved; discussion will deal only with administrative, legal, and scientific management problems. (Typically offered: Irregular)

ANTH 5473. Descriptive Linguistics. 3 Hours.
A scientific study of language with primary emphasis on modern linguistic theory and analysis. Topics include phonology, morphology, syntax, semantics, language acquisition, and historical development of world languages. (Typically offered: Fall)
This course is cross-listed with WLLC 5463, ENGL 5463.

ANTH 548V. Individual Study of Anthropology. 1-6 Hour.
(Formerly ANTH 448V.) Reading course for advanced students with special interests in anthropology. Graduate degree credit will not be given for both ANTH 448V and ANTH 548V. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ANTH 5513. African Religions: Gods, Witches, Ancestors. 3 Hours.
(Formerly ANTH 4513.) An exploration of African religions from a variety of anthropological perspectives, exploring how religious experience is perceived and interpreted by adherents, highlighting the way in which individual and group identities are constructed, maintained and contested within religious contexts. Readings reflect the vast diversity of religious life in Africa. Graduate degree credit will not be given for both ANTH 4513 and ANTH 5513. (Typically offered: Irregular)

ANTH 5523. Dental Science. 3 Hours.
(Formerly ANTH 4523.) Introduction to the study of the human dentition including its anatomy, morphology, growth and development, and histology. Graduate degree credit will not be given for both ANTH 4523 and ANTH 5523. (Typically offered: Fall)

ANTH 5553. Introduction to Raster GIS. 3 Hours.
(Formerly ANTH 4553.) Theory, data structures, algorithms, and techniques behind raster-based geographical information systems. Through laboratory exercises and lectures multidisciplinary applications are examined in database creation, remotely sensed data handling, elevation models, and resource models using boolean map algebra, and other methods. Credit will not be given for both ANTH 4553 and ANTH 5553. (Typically offered: Fall)
This course is cross-listed with GEOIS 5453.

ANTH 5563. Vector GIS. 3 Hours.
(Formerly ANTH 4563.) Introduction to geographic information systems (GIS) applications in marketing, transportation, real estate, demographics, urban and regional planning, and related areas. Lectures focus on development of principles, paralleled by workstation-based laboratory exercises using mainstream GIS software and relational databases. Credit will not be given for both ANTH 4563 and ANTH 5563. (Typically offered: Spring)
This course is cross-listed with GEOIS 5563.

ANTH 5583. Cultures of Africa. 3 Hours.
An exploration of the people and places of Africa from a variety of anthropological perspectives. Classic and contemporary works will be studied in order to underscore the unity and diversity of African cultures, as well as the importance African societies have played in helping us understand culture/society throughout the world. (Typically offered: Fall)

ANTH 5593. Introduction to Global Positioning Systems and Global Navigation Satellite Systems. 3 Hours.
(Formerly ANTH 4593.) Introduction to navigation, georeferencing, and digital data collection using GPS and GNSS receivers, data loggers, and laser technology. Components of NavStar GLONASS, Beidou and other global positioning system are used in integration of digital information into various GIS platforms with emphasis on practical applications. Credit will not be given for both ANTH 4593 and ANTH 5593. (Typically offered: Spring)
This course is cross-listed with GEOS 5293.

ANTH 5603. Landscape Archaeology. 3 Hours.
(Formerly ANTH 4603.) This course provides an introduction to the methods and theories of landscape archaeology. Topics include archaeological survey techniques, environmental and social processes recorded in the archaeological landscape, and analysis of ancient settlement and land use data to reveal changes in population, resource utilization, and environmental relationships. Credit will not be given for both ANTH 4603 and ANTH 5603. (Typically offered: Fall)

ANTH 561V. Field Research in Archaeology. 1-6 Hour.
Directed graduate level archeological fieldwork. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ANTH 5623. Primate Adaptation and Evolution. 3 Hours.
(Formerly ANTH 4613.) Introduction to the biology of the order of Primates. This course considers the comparative anatomy, behavioral ecology and paleontology of our nearest living relatives. Credit will not be given for both ANTH 4613 and ANTH 5623. (Typically offered: Spring)
This course is cross-listed with BIOL 5613.

ANTH 5633. Archeological Prospecting & Remote Sensing. 3 Hours.
(Formerly ANTH 4633.) Ground-based geophysical, aerial, and other remote sensing methods are examined for detecting, mapping, and understanding archeological and other deposits. These methods include magnetometry, resistivity, conductivity, radar, aerial photography, thermography, and multispectral scanning. Requires computer skills, field trips, and use of instruments. Credit will not be given for both ANTH 4633 and ANTH 5633. (Typically offered: Irregular)

ANTH 5653. GIS Analysis and Modeling. 3 Hours.
(Formerly ANTH 4653.) Unlike conventional GIS courses that focus on studying 'where', this course will teach students to address beyond 'where' using various GIS analysis and modeling techniques to explore 'why' and 'how'. The course will provide theoretical and methodological reviews of the principles of cartographic modeling and multi-criteria decision-making. Credit will not be given for both ANTH 4653 and ANTH 5653. (Typically offered: Spring)
This course is cross-listed with GEOIS 5653, ENDY 5043.

ANTH 5703. Mammalian Evolution and Osteology. 3 Hours.
(Formerly ANTH 4703.) This course will focus on describing the evolutionary history of mammals, a group of vertebrates that include over 5,000 species in 29 orders, and will provide an overview of living species and their identifying features. Credit will not be given for both ANTH 4703 and ANTH 5703. Prerequisite: ANTH 1013 and ANTH 1011L, BIOL 1543 and BIOL 1541L, or instructor consent. (Typically offered: Irregular)
This course is cross-listed with BIOL 5883.

ANTH 5803. Historical Archeology. 3 Hours.
(Formerly ANTH 4803.) Review of the development of historical archeology and discussion of contemporary theory, methods, and substantive issues. Lab sessions on historic artifact identification and analysis. Graduate degree credit will not be given for both ANTH 4803 and ANTH 5803. (Typically offered: Irregular)
ANTH 5813. Ethnographic Approaches to the Past. 3 Hours. (Formerly ANTH 4813.) Review of the uses of ethnographic data in the reconstruction and interpretation of past cultures and cultural processes, with particular emphasis on the relationships between modern theories of culture and archeological interpretation. Credit will not be given for both ANTH 4813 and ANTH 5813. (Typically offered: Irregular)

ANTH 582V. Applied Visual Research. 1-6 Hour. (Formerly ANTH 482V.) This class provides hands-on skill and training conducting visually informed fieldwork designed to help represent unique cultural settings, experience, and heritage. Credit will not be given for both ANTH 482V and ANTH 582V. (Typically offered: Irregular)

ANTH 5863. Quantitative Anthropology. 3 Hours. (Formerly ANTH 4863.) Introductory statistics course for anthropology students examines probability theory, nature of anthropological data, data graphics, descriptive statistics, probability distributions, test for means and variances, categorical and rank methods, ANOVA, correlation and regression. Lectures focus on theory methods; utilize anthropological data and a statistical software laboratory. Credit will not be given for both ANTH 4863 and ANTH 5863. (Typically offered: Irregular)

This course is cross-listed with GEOS 5863.

ANTH 5903. Seminar in Anthropology. 3 Hours. (Formerly ANTH 4903.) Research, discussion, and projects focusing on a variety of topics. Credit will not be given for both ANTH 4903 and ANTH 5903. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ANTH 5913. Topics of the Middle East. 3 Hours. (Formerly ANTH 4913.) Covers a special topic or issue. Credit will not be given for both ANTH 4913 and ANTH 5913. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ANTH 600V. Master's Thesis. 1-6 Hour. Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

ANTH 6033. Society and Environment. 3 Hours. This course examines the complex interrelationships between human societies and the natural environment. Drawing on diverse and interdisciplinary perspectives in archaeology, ethnography, history, geography, and palaeo-environmental studies, readings and discussion will explore the co-production of social and environmental systems over time. (Typically offered: Spring) May be repeated for up to 9 hours of degree credit.

ANTH 610V. Internship. 1-18 Hour. Internship. (Typically offered: Fall, Spring and Summer) May be repeated for up to 18 hours of degree credit.

ANTH 6813. Seminar: Cultural Anthropology. 3 Hours. Variable topics in Anthropology will be explored in depth. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ANTH 6823. Seminar: Archeology. 3 Hours. Various topics in Archeology will be explored in depth. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ANTH 6833. Seminar: Biological Anthropology. 3 Hours. Various topics in Biological Anthropology will be explored in depth. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ANTH 700V. Doctoral Dissertation. 1-18 Hour. Doctoral Dissertation. (Typically offered: Fall and Spring) May be repeated for degree credit.

Apparel Merchandising and Product Development (AMPD) Courses

AMPD 1013. Introduction to Clothing Concepts. 3 Hours. Origin of dress, the evolution of fashion as an economic power, the sociological and psychological aspects of clothing in various cultures, aesthetics of dress, selection and consumption of clothing. Lecture 3 hours per week. (Typically offered: Fall and Spring)

AMPD 1013H. Honors Introduction to Clothing Concepts. 3 Hours. Origin of dress, the evolution of fashion as an economic power, the sociological and psychological aspects of clothing in various cultures, aesthetics of dress, selection and consumption of clothing. Lecture 3 hours per week. Prerequisite: Honors standing. (Typically offered: Fall and Spring)

This course is equivalent to AMPD 1013.

AMPD 1023. Introduction to Apparel Production. 3 Hours. Course focuses on basic principles of apparel production and analysis of garment components of mass produced apparel. Students utilize computer generated designs in the production process. Laboratory 6 hours per week. Prerequisite: HESC or AMPD students only. (Typically offered: Fall and Spring)

AMPD 2013. Fashion, Buying and Promotion in a Global Market. 3 Hours. Fashion components, marketing theories and practices as they specifically relate to apparel, home goods, and other design driven products in the global market. Focus on principles and techniques on how fashion marketers develop and apply marketing strategies that meet consumer needs at a profit. International buying and promotional aspects of the apparel industry are emphasized. Lecture 3 hours per week. Prerequisite: AMPD major and AMPD 1013. (Typically offered: Fall and Spring)

AMPD 2013H. Honors Fashion, Buying and Promotion in a Global Market. 3 Hours. Fashion components, marketing theories and practices as they specifically relate to apparel, home goods, and other design driven products in the global market. Focus on principles and techniques on how fashion marketers develop and apply marketing strategies that meet consumer needs at a profit. International buying and promotional aspects of the apparel industry are emphasized. Lecture 3 hours per week. Prerequisite: AMPD major, AMPD 1013 and honors standing. (Typically offered: Fall and Spring)

This course is equivalent to AMPD 2013.

AMPD 2033. Computer Based Methods for Apparel. 3 Hours. This course is designed to give students basic experience with CAD (computer aided design) apparel industry software in a computer laboratory environment. Prerequisite: AMPD majors only, AMPD 1013, AMPD 1023 and ASTM 2903 or ISYS 1123 or equivalent. (Typically offered: Fall and Spring)

AMPD 2053. Introduction to Textile Science. 3 Hours. Textile fibers and fabrics, their structure, properties, manufacture, wearing qualities and methods of laundering, finishing, and dyeing. Artistic and economic selection of materials for clothing and household furnishings. Lecture 3 hours per week. Prerequisite: HESC, AMPD or FCSE students only. (Typically offered: Fall and Spring)

AMPD 2063. Quality Assessment of Apparel. 3 Hours. Study of apparel from the perspective of structure, aesthetics, cost and expected performance of the finished product. Lecture 2 hours per week, lab 2 hours per week. Prerequisite: AMPD 1023 and AMPD 2053. (Typically offered: Fall and Spring)

AMPD 3003. Apparel Production. 3 Hours. A study of product development and production through flat pattern manipulation and the related vocabulary necessary to communicate professionally within the industry. Pre- or Corequisite: AMPD 2063. (Typically offered: Fall and Spring)
AMPD 3033. Merchandising Math for the Apparel Industry. 3 Hours.
Exploration of activities associated with the procurement of fashion apparel. A fashion analysis is directed toward apparel demands and the creation of a fashion statement by the use of specific quantitative skills. Course follows fashion item from the designer to the store. Lecture 3 hours per week. Prerequisite: MATH 1203 or MATH 1204 or three credit hours of STAT and AMPD 2013. (Typically offered: Fall and Spring)

AMPD 3043. Fashion Brand Management. 3 Hours.
This course focuses on the fundamental elements of brand, the concept of brand equity, brand relationships with consumers, and the implications of technologies on the branding process in the fashion industry. The course topics include branding basics, the concept of brand equity, brand image, brand positioning, brand communications, the role of emotional and sensory experiences in fashion branding, luxury fashion brands, sustainable fashion branding management, and technology driven branding. Prerequisite: AMPD 2013. (Typically offered: Fall and Spring)

AMPD 3071. Apparel Merchandising and Product Development Pre-Internship. 1 Hour.
A study of job descriptions, responsibilities at the management level, structural operations, work procedures, job performance evaluations, job application, the resume, and portfolio development in preparation for AMPD 4083, AMPD Internship. Lecture 1 hour per week. Prerequisite: AMPD majors only. (Typically offered: Spring)

AMPD 4011. History of Apparel Through Film to 1900. 1 Hour.
This course uses historic costume films to trace the evolution of clothing from ancient Egypt to the Twentieth Century. Emphasis is placed on societal aspects such as politics, religion, economy, technology, education, sports, class structure, and gender roles, and how they affect and change dress. Web-based course. (Typically offered: Fall and Spring)

AMPD 4023. Merchandising Application for the Apparel Industry. 3 Hours.
Application of merchandising theory, principles and practices in a capstone class. An in depth study of innovative apparel business concepts as applied to manufacturers and retailers of apparel including apparel classification, seasonal cycles, stock emphasis, assortment strategies, target customers, and apparel trends. Includes an overview of marketing communication including advertising, personal selling, and sales promotion. Prerequisite: AMPD 3033 and AMPD 3043 and senior standing or instructor consent. (Typically offered: Fall and Spring)

AMPD 4033L. Computer Aided Textile Design. 3 Hours.
This course is designed to give students advanced skills in textile design using industry based computer aided design (CAD) software. Lab 4 hours per week. Prerequisite: AMPD 2033, AMPD 2053 and senior standing or instructor consent. (Typically offered: Fall and Spring)

AMPD 4053. Historic and Contemporary Apparel. 3 Hours.
This course traces the evolution of clothing from ancient times to the twentieth century with emphasis upon Western civilization and includes the study of contemporary fashion as a social force including the origin, scope, theory, and history of the fashion business, the materials of fashion, the fashion producers, auxiliary fashion enterprises, designers, fashion leaders, and leading market. Cultural and economic factors affecting dress, adornment and customs associated dress will be stressed. The Lecture 3 hours per week. Prerequisite: Senior standing or instructor consent. (Typically offered: Fall and Spring)

AMPD 4063. Advanced Apparel Production. 3 Hours.
An advanced study of product development incorporating technology used in the industry for a career in fashion merchandising and/or product development in a computer laboratory environment. Laboratory 6 hours per week. Prerequisite: AMPD 2063 and AMPD 3003. (Typically offered: Fall and Spring)

AMPD 4063H. Honors Advanced Apparel Production. 3 Hours.
An advanced study of product development incorporating technology used in the industry for a career in fashion merchandising and/or product development in a computer laboratory environment. Laboratory 6 hours per week. Prerequisite: AMPD 2033, AMPD 2063 and AMPD 3003 and honors candidacy. (Typically offered: Fall and Spring)
This course is equivalent to AMPD 4063.

AMPD 4083. Apparel Merchandising and Product Development Internship. 3 Hours.
A practical experience in a retail store or in a work situation related to the apparel industry to gain insight into the field of apparel merchandising and operations. Prerequisite: Junior standing and 2.50 cum GPA and AMPD 2013, AMPD 3033, AMPD 2063, AMPD 3003, AMPD 3043, AMPD 3071, COMM 1313 and instructor consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

AMPD 4093. Apparel Merchandise Planning and Inventory Control. 3 Hours.
Describes today's challenges for both apparel manufacturers and retailers in meeting the consumer's demands for the right products at the right prices - and at the right times. Follows the evolution of the merchandising function with emphasis on production efficiency, highlighting the philosophies of industry executives and the effective integration of the merchandising, store design, marketing, the apparel supply chain and manufacturing functions along the way. Prerequisite: ECON 2143 and AMPD 3033 and senior standing or instructor consent. (Typically offered: Fall and Spring)

AMPD 4103. Evolution of Fashion and Society Through Television Media. 3 Hours.
This course uses television programming from its early beginnings in the 1930s through to the twenty-first century to trace major events, societal changes, and the associated evolution of fashion. The course examines television both as an innovator and diffuser of fashion trends. (Typically offered: Fall and Spring)

AMPD 4111. History of Apparel Through Film from 1900 to Present. 1 Hour.
This course uses historic costume films to trace the evolution of clothing from 1900 to Present. Emphasis is placed on societal aspects such as politics, religion, economy, technology, education, sports, class structure, and gender roles, and how they affect and change dress. Web based course. (Typically offered: Fall and Spring)

AMPD 4901. AMPD Pre-Study Tour. 1 Hour.
A study of specific regional and international fashion markets for apparel studies in preparation for AMPD 491V AMPD Study Tour. The course examines the design, production, distribution and retailing of fashion goods from couture fashion to mass markets. AMPD 4901 is content specific to each AMPD 491V study tour and must be repeated for each study tour destination. A grade of ‘C’ or better is required to participate in AMPD 491V. Prerequisite: 2.0 minimum GPA. AMPD majors with minimum 30 hours, or consent. (Typically offered: Spring and Summer) May be repeated for up to 4 hours of degree credit.

AMPD 4901H. Honors AMPD Pre-Study Tour. 1 Hour.
A study of specific regional and international fashion markets for apparel studies in preparation for AMPD 491V AMPD Study Tour. The course examines the design, production, distribution and retailing of fashion goods from couture fashion to mass markets. AMPD 4901 is content specific to each AMPD 491V study tour and must be repeated for each study tour destination. A grade of ‘C’ or better is required to participate in AMPD 491V. Prerequisite: 2.0 minimum GPA. AMPD majors with minimum 30 hours, or consent. (Typically offered: Spring and Summer) May be repeated for up to 4 hours of degree credit.
This course is equivalent to AMPD 4901.
AMPD 491V. AMPD Study Tour. 2-6 Hour.
An on-site study of specific regional and international fashion markets for apparel merchandising and product development. Course further examines the design, production, distribution and retailing of fashion goods from couture fashion to mass markets as outlined in AMPD 4901. Course includes study trip; length based upon destination. Additional fees required. Course will also be offered each May and August Intersession. Prerequisite: AMPD 4901 (with a C or better), 2.0 min. GPA, AMPD major with min. 30 hours, and instructor consent. Corequisite: AMPD 4901 (with a C or better, if corequisite, must have C or better at time of trip), 2.0 min. GPA, AMPD major with min. 30 hours, and instructor consent. (Typically offered: Summer) May be repeated for up to 24 hours of degree credit.

AMPD 491VH. Honors AMPD Study Tour. 2-6 Hour.
An on-site study of specific regional and international fashion markets for apparel merchandising and product development. Course further examines the design, production, distribution and retailing of fashion goods from couture fashion to mass markets as outlined in AMPD 4901. Course includes study trip; length based upon destination. Additional fees required. Course will also be offered each May and August Intersession. Prerequisite: AMPD 4901 (with a C or better), 2.0 min. GPA, AMPD major with min. 30 hours, and instructor consent. Corequisite: AMPD 4901 (with a C or better, if corequisite, must have C or better at time of trip), 2.0 min. GPA, AMPD major with min. 30 hours, and instructor consent. (Typically offered: Summer) May be repeated for up to 24 hours of degree credit.

AMPD 5003. Apparel Sourcing and Merchandising Systems in the Global Economy. 3 Hours.
Evaluation of key issues facing textiles and apparel supply chain businesses in the global economy considering economic, political, and social perspectives and professional implications. Lecture 3 hours. (Typically offered: Fall Odd Years)

AMPD 5023. Social, Psychological and Cultural Aspects of Dress. 3 Hours.
Integration of social, psychological and cultural theories as they apply to appearance and clothing behavior. Lecture 3 hours. (Typically offered: Fall Odd Years)

AMPD 5033. Issues and Trends in Textile Studies. 3 Hours.
Studies of advances in textile science and recent developments in the textile industry. Lecture 3 hours. (Typically offered: Spring Odd Years)

AMPD 5043. Theories and Practices in Apparel Merchandising. 3 Hours.
Theoretical perspectives, concepts and current practices that influence apparel merchandising. Lecture 3 hours. (Typically offered: Spring Odd Years)

AMPD 5063. Advanced Apparel Production. 3 Hours.
(Formerly AMPD 4063.) An advanced study of product development incorporating technology used in the industry for a career in fashion merchandising and/or product development in a computer laboratory environment. Laboratory 6 hours per week. Graduate degree credit will not be given for both AMPD 4063 and AMPD 5063. Prerequisite: AMPD 2033, AMPD 2063 and AMPD 3003. (Typically offered: Fall and Spring)

AMPD 5093. Apparel Merchandise Planning and Inventory Control. 3 Hours.
(Formerly AMPD 4093.) Describes today's challenges for both apparel manufacturers and retailers in meeting the consumer's demands for the right products at the right prices - and at the right times. Follows the evolution of the merchandising function with emphasis on production efficiency, highlighting the philosophies of industry executives and the effective integration of the merchandising, store design, marketing, the apparel supply chain and manufacturing functions along the way. Graduate degree credit will not be given for both AMPD 4093 and AMPD 5093. Prerequisite: AMPD 3033. (Typically offered: Fall and Spring)

AMPD 5103. Evolution of Fashion and Society Through Television Media. 3 Hours.
(Formerly AMPD 4103.) This course uses television programming from its early beginnings in the 1930s through to the twenty-first century to trace major events, societal changes, and the associated evolution of fashion. The course examines television both as an innovator and diffuser of fashion trends. Graduate degree credit will not be given for both AMPD 4103 and AMPD 5103. (Typically offered: Fall and Spring)

AMPD 5111. History of Apparel Through Film from 1900 to Present. 1 Hour.
(Formerly AMPD 4111.) This course uses historic costume films to trace the evolution of clothing from 1900 to Present. Emphasis is placed on societal aspects such as politics, religion, economy, technology, education, sports, class structure, and gender roles, and how they affect and change dress. Web based course. Graduate degree credit will not be given for both AMPD 4111 and AMPD 5111. (Typically offered: Fall and Spring)

AMPD 5211. History of Apparel Through Film to 1900. 1 Hour.
(Formerly AMPD 4011.) This course uses historic costume films to trace the evolution of clothing from ancient Egypt to the Twentieth Century. Emphasis is placed on societal aspects such as politics, religion, economy, technology, education, sports, class structure, and gender roles, and how they affect and change dress. Web-based course. Graduate degree credit will not be given for both AMPD 4011 and AMPD 5211. (Typically offered: Fall and Spring)

AMPD 5223. Merchandising Application for the Apparel Industry. 3 Hours.
(Formerly AMPD 4023.) Application of merchandising theory, principles and practices in a capstone class. An in depth study of innovative apparel business concepts as applied to manufacturers and retailers of apparel including apparel classification, seasonal cycles, stock emphasis, assortment strategies, target customers, and apparel trends. Includes an overview of marketing communication including advertising, personal selling, and sales promotion. Graduate degree credit will not be given for both AMPD 4023 and AMPD 5223. Prerequisite: AMPD 3033 and AMPD 3043. (Typically offered: Fall and Spring)

AMPD 5233L. Computer Aided Textile Design. 3 Hours.
(Formerly AMPD 4033.) This course is designed to give students advanced skills in textile design using industry based computer aided design (CAD) software. Lab 4 hours per week. Graduate degree credit will not be given for both AMPD 4033L and AMPD 5233L. Prerequisite: AMPD 2033 and AMPD 2053. (Typically offered: Fall and Spring)

AMPD 5253. Historic and Contemporary Apparel. 3 Hours.
(Formerly AMPD 4053.) This course traces the evolution of clothing from ancient times to the twentieth century with emphasis upon Western civilization and includes the study of contemporary fashion as a social force including the origin, scope, theory, and history of the fashion business, the materials of fashion, the fashion producers, auxiliary fashion enterprises, designers, fashion leaders, and leading market. Cultural and economic factors affecting dress, adornment and customs associated dress will be stressed. The Lecture 3 hours per week. Graduate degree credit will not be given for both AMPD 4053 and AMPD 5253. (Typically offered: Fall and Spring)

AMPD 5901. AMPD Pre-Study Tour. 1 Hour.
(Formerly AMPD 4901.) A study of specific regional and international fashion markets for apparel studies in preparation for AMPD 591V AMPD Study Tour. The course examines the design, production, distribution and retailing of fashion goods from couture fashion to mass markets. AMPD 5901 is content specific to each AMPD 591V study tour and must be repeated for each study tour destination. A grade of 'C' or better is required to participate in AMPD 591V. Graduate degree credit will not be given for both AMPD 4901 and AMPD 5901. Prerequisite: 2.0 minimum GPA, AMPD majors with minimum 30 hours, or consent. (Typically offered: Spring and Summer) May be repeated for up to 4 hours of degree credit.
AMPD 591V. AMPD Study Tour. 2-6 Hour.
(Formerly AMPD 491V.) An on-site study of specific regional and international fashion markets for apparel merchandising and product development. Course further examines the design, production, distribution and retailing of fashion goods from couture fashion to mass markets as outlined in AMPD 4901. Course includes study trip; length based upon destination. Additional fees required. Course will also be offered each May and August Intersession. Graduate degree credit will not be given for both AMPD 491V and AMPD 591V. Prerequisite: AMPD 4901 (with a C or better), 2.0 min. GPA, AMPD major with min. 30 hours, and instructor consent. Corequisite: AMPD 4901 (with a C or better, if corequisite, must have C or better at time of trip), 2.0 min. GPA, AMPD major with min. 30 hours, and instructor consent. (Typically offered: Summer) May be repeated for up to 24 hours of degree credit.

Applied Music (Class) (MUAC)

Courses
MUAC 1121. English and Italian Diction for Singers. 1 Hour.
Training in proper pronunciation and inflections of English and Italian as applied to singers. Two meetings per week. (Typically offered: Fall)

MUAC 1141. German and French Diction for Singers. 1 Hour.
Training in proper pronunciation and inflection of German and French as applied to singing. Two meetings per week. Prerequisite: MUAC 1121. (Typically offered: Spring)

MUAC 1161. Class Instruction in Piano for Non-Music Majors. 1 Hour.
Beginning instruction in piano. Does not fulfill the class piano requirement for music majors. (Typically offered: Fall, Spring and Summer)

MUAC 1221. Piano Class for Music Majors I. 1 Hour.
Training in functional piano skills for music majors. Two meetings per week. Prerequisite: Music major and MUTH 1003. (Typically offered: Spring)

MUAC 1231. Piano Class for Music Majors II. 1 Hour.
A continuation of MUAC 1221. Two meetings per week. Upon successful completion of MUAC 1231 with a grade of B or better, credit for MUAC 1221 will also be given. Prerequisite: MUAC 1221 and a music major pursuing a degree of Bachelor of Arts or Honors Bachelor of Music or Honors Bachelor of Music. (Typically offered: Fall)

MUAC 2221. Piano Class for Music Majors III. 1 Hour.
A continuation of MUAC 1231. Two meetings per week. Upon successful completion of MUAC 2221 with a grade of B or better, credit for MUAC 1221 and MUAC 1231 will also be given. Prerequisite: MUAC 1231 and a music major pursuing a degree of Bachelor of Arts or Honors Bachelor of Arts or Bachelor of Music or Honors Bachelor of Music. (Typically offered: Spring)

MUAC 2231. Piano Class for Music Major IV. 1 Hour.
A continuation of MUAC 2221. Two meetings per week. Upon successful completion of MUAC 2231 with a grade of B or better, credit for MUAC 1221, MUAC 1231, and MUAC 2221 will also be given. Prerequisite: MUAC 2221 and a music major pursuing a degree of Bachelor of Arts or Honors Bachelor of Arts or Bachelor of Music or Honors Bachelor of Music. (Typically offered: Fall)

MUAC 3401. Jazz Improvisation I. 1 Hour.
This course is the first in a four-semester sequence on the study of jazz improvisation with a linguistic approach. The class will cover the vocabulary and grammar of jazz, as well as rhetoric, story-telling and emotional performance. Each week students will be expected to be proficient in technical drills, harmonic and rhythmic vocabulary, and repertoire related to the four fundamental forms encompassed by the course. Transcriptions and writing assignments will also be given, and students will work with the Contrast Method of Improvisational Concepts, self-listening and analysis, performing the topics in class, group performance, and artistic development. (Typically offered: Fall)

MUAC 3411. Jazz Improvisation II. 1 Hour.
This course is the second in a four-semester sequence on the study of jazz improvisation with a linguistic approach. The class will cover the vocabulary and grammar of jazz, as well as rhetoric, story-telling and emotional performance. Each week students will be expected to be proficient in technical drills, harmonic and rhythmic vocabulary, and repertoire related to the four fundamental forms encompassed by the course. Transcriptions and writing assignments will also be given, and students will work with the Contrast Method of Improvisational Concepts, self-listening and analysis, performing the topics in class, group performance, and artistic development. (Typically offered: Spring)

MUAC 3421. Advanced Studies in Improvisation. 1 Hour.
Extends the techniques built in the improvisation course sequence (MUAC 3401, MUAC 3411, MUAC 4401, MUAC 4411) with specialized topics in a variety of improvisatory traditions. Sections may include ’Free Jazz’, ’Coltrane and Chromaticism’ ’atonal Improvisation’, ’BARoque Improvisation’ and ’World Music Improvisation’. Prerequisite: MUAC 4411 or instructor consent. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.
MUAC 3571. Teaching the High School Percussionist. 1 Hour.
(Formerly MUAC 4371.) A study of solo literature and small and large ensemble literature appropriate for the high school percussionist. Emphasis on advanced snare drum and marimba lit., timpani and the broad range of percussionist instruments. Includes study of high school band, orchestra and percussion ensemble scores. Graduate degree credit will not be given for both MUAC 4371 and MUAC 3571. Prerequisite: MUAC 3411, MUAC 4401, MUAC 4411] with specialized topics in a variety of improvisatory traditions. Sections may include 'Free Jazz', 'Coltrane and Chromaticism' 'Atonal Improvisation', 'Baroque Improvisation' and 'World Music Improvisation'. Prerequisite: Instructor consent. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

Applied Music (Private Instruction) (MUAP)

Courses

Private study of secondary voice/instrument. Prerequisite: Instructor consent. (Typically offered: Fall and Spring) May be repeated for up to 4 hours of degree credit.

MUAP 110V. Applied Major Voice/Instrument I. 1-4 Hour.
Private study of the primary voice/instrument for music majors. Admission to MUAP 110V requires the successful completion of audition for the instructor. Prerequisite: Music major. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

MUAP 130V. Applied Skills Voice/Instrument I. 1-4 Hour.
Private study of the primary voice/instrument for music majors. Continued development of fundamental musical and technical skills introduced in MUAP 110V. Prerequisite: Music major; recommendation of instructor. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

Continued private study of secondary voice/instrument. Instructor permission required to enroll. Prerequisite: Two semesters of MUAP 100V and recommendation of the instructor. (Typically offered: Fall and Spring) May be repeated for up to 4 hours of degree credit.

MUAP 210V. Applied Major Voice/Instrument II. 1-4 Hour.
Continued private study of the primary voice/instrument for music majors. Prerequisite: Two semesters of MUAP 110V with grades of B or better or MUAP 130V with a grade of B or better. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

MUAP 230V. Applied Skills Voice/Instrument II. 1-4 Hour.
Private study of the primary voice/instrument for music majors. Continued development of fundamental musical and technical skills introduced in MUAP 210V. Prerequisite: Two semesters of MUAP 210V and recommendation of instructor. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

Advanced private study of secondary voice/instrument. Prerequisite: Two semesters of MUAP 200V and recommendation of the instructor. (Typically offered: Fall and Spring) May be repeated for up to 4 hours of degree credit.

MUAP 310V. Applied Major Voice/Instrument III. 1-4 Hour.
Continuation of MUAP 210V. Private study of the primary instrument/voice for music majors at the advanced level. Admission requires approval of the faculty committee of the area of study (voice, piano, woodwind, brass, percussion). Mastery of fundamental/technical skills sufficient to prepare for a recital must be observable by the committee. Prerequisite: Two semesters of MUAP 210V with grades of B or better or MUAP 230V with a grade of B or better. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

MUAP 310VH. Honors Applied Major Voice/Instrument III. 1-4 Hour.
Continuation of MUAP 210V. Private study of the primary voice/instrument for honors music majors at the advanced level. Admission requires approval of faculty committee of the area of study (voice, piano, woodwind, brass, percussion). Mastery of fundamental/technical skills sufficient to prepare for a recital must be observable by the committee. Prerequisite: Two semesters of MUAP 210V with grades of B or better or MUAP 230V with a grade of B or better; honors standing. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

MUAP 320V. Applied Recital I. 1 Hour.
Preparation and performance of a public recital of a minimum of 50 minutes of music. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUAP 3201H. Honors Applied Recital I. 1 Hour.
Preparation and performance of a public recital of a minimum of 50 minutes of music. Corequisite: MUAP 310VH. (Typically offered: Fall and Spring) May be repeated for degree credit.

Private study of the primary voice/instrument for music majors. Continued study of musical and technical skills introduced in MUAP 310V. Prerequisite: Two semesters of MUAP 310V and recommendation of instructor. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

Continued advanced private study of secondary voice/instrument. Instructor permission required to enroll. Prerequisite: Two semesters of MUAP 300V and recommendation of the instructor. (Typically offered: Fall and Spring) May be repeated for up to 4 hours of degree credit.

MUAP 350V. Applied Major Voice/Instrument IV. 1-4 Hour.
Continuation of MUAP 310V. Private study of the primary voice/instrument for music majors at the advanced level. Prerequisite: Two semesters of MUAP 310V with grades of B or better or MUAP 330V with a grade of B or better. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

MUAP 360V. Applied Skills Voice/Instrument IV. 1-4 Hour.
Continuation of MUAP 330V. Private study of the primary voice/instrument for honors music majors at the advanced level. Prerequisite: Two semesters of MUAP 330V and recommendation of instructor. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

MUAP 370V. Applied Major Voice/Instrument V. 1-4 Hour.
Continuation of MUAP 350V. Prerequisite: Two semesters of MUAP 350V with grades of B or better or MUAP 360V with a grade of B or better; honors standing. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

MUAP 380V. Applied Skills Voice/Instrument V. 1-4 Hour.
Continuation of MUAP 360V. Private study of the primary voice/instrument for honors music majors at the advanced level. Prerequisite: Two semesters of MUAP 360V with recommendation of instructor and honors standing. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

MUAP 390V. Applied Major Voice/Instrument VI. 1-4 Hour.
Continuation of MUAP 370V. Prerequisite: Two semesters of MUAP 370V with grades of B or better or MUAP 380V with a grade of B or better; honors standing. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

Continued advanced private study of secondary voice/instrument. Instructor permission required to enroll. Prerequisite: Two semesters of MUAP 300V and recommendation of the instructor. (Typically offered: Fall and Spring) May be repeated for up to 4 hours of degree credit.

MUAP 410V. Applied Major Voice/Instrument IV. 1-4 Hour.
Continuation of MUAP 310V. Private study of the primary voice/instrument for music majors at the advanced level. Prerequisite: Two semesters of MUAP 310V with grades of B or better or MUAP 330V with a grade of B or better. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

MUAP 410VH. Honors Applied Major Voice/Instrument IV. 1-4 Hour.
Continuation of MUAP 310V. Private study of the primary voice/instrument for honors music majors at the advanced level. Prerequisite: Two semesters of MUAP 310VH with recommendation of instructor and honors standing. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

MUAP 415V. Applied Skills Voice/Instrument IV. 1-4 Hour.
Private study of the primary voice/instrument for music majors at the advanced level in preparation for recital. Continued development of musical and technical skills introduced in MUAP 410V. Prerequisite: Two semesters of MUAP 410V and recommendation of instructor. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

MUAP 4201. Applied Recital II. 1 Hour.
Preparation and performance of a public recital of a minimum of 50 minutes of music. Prerequisite: MUAP 3201. (Typically offered: Fall and Spring) May be repeated for degree credit.
MUAP 4201H. Honors Applied Recital II. 1 Hour.
Preparation and performance of a public recital of a minimum of 50 minutes of music. Corequisite: MUAP 410VH. (Typically offered: Fall and Spring) May be repeated for degree credit.
This course is equivalent to MUAP 4201.

MUAP 4301. Composition Recital. 1 Hour.
Preparation and performance of a public recital of a minimum of 50 minutes consisting of original musical compositions. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUAP 4301H. Honors Composition Recital. 1 Hour.
Preparation and performance of a public recital of a minimum of 50 minutes consisting of original musical compositions. Prerequisite: Honors standing. (Typically offered: Fall and Spring) May be repeated for degree credit.
This course is equivalent to MUAP 4301.

Private study at the graduate secondary level. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUAP 510V. Applied Voice/Instrument. 1-5 Hour.
Private study at the graduate level. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUAP 5201. Graduate Recital I. 1 Hour.
Preparation and performance of a public recital of a minimum of 50 minutes of music. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUAP 5211. Graduate Recital II. 1 Hour.
Preparation and performance of a public recital of a minimum of 50 minutes of music. (Typically offered: Fall and Spring) May be repeated for degree credit.

Arabic (ARAB)

Courses

ARAB 1003. Elementary Arabic I. 3 Hours.
Stresses correct pronunciation, aural comprehension, simple speaking ability. Basic grammar is taught inductively through oral and written skills. (Typically offered: Spring)

ARAB 1013. Elementary Arabic II. 3 Hours.
Continues to stress correct pronunciation, aural comprehension, simple speaking ability. Continued presentation of grammar with special attention to basic morphology. Prerequisite: ARAB 1003 or equivalent. (Typically offered: Fall)

ARAB 1016. Intensive Arabic I. 6 Hours.
Equivalent to ARAB 1003 and ARAB 1013. Stresses correct pronunciation, aural comprehension, and simple speaking ability. Basic grammar is taught inductively through oral and written skills. (Typically offered: Fall)

Leads to greater oral comprehension and speaking ability and develops the more advanced reading and writing skills. Prerequisite: ARAB 1013 or ARAB 1016 or equivalent. (Typically offered: Spring)

ARAB 2016. Intensive Arabic II. 6 Hours.
Leads to greater oral comprehension and speaking ability and develops the more advanced reading and writing skills. Emphasizes morphology and syntax. (Typically offered: Spring)

ARAB 2016H. Honors Intensive Arabic II. 6 Hours.
Leads to greater oral comprehension and speaking ability and develops the more advanced reading and writing skills. Emphasizes morphology and syntax. Prerequisite: Honors standing. (Typically offered: Spring)
This course is equivalent to ARAB 2016.

ARAB 3016. Intensive Arabic III. 6 Hours.
Leads to greater facility in the spoken language and continues to develop reading and writing skills. Continued emphasis on morphology and syntax. Prerequisite: ARAB 2016. (Typically offered: Fall)

ARAB 3016H. Honors Intensive Arabic III. 6 Hours.
Leads to greater facility in the spoken language and continues to develop reading and writing skills. Continued emphasis on morphology and syntax. Prerequisite: ARAB 2016. (Typically offered: Fall)
This course is equivalent to ARAB 3016.

ARAB 3033. Colloquial Arabic. 3 Hours.
Development of aural comprehension and speaking skills in one of the major Arabic dialects. Prerequisite: ARAB 2016 or equivalent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ARAB 4016. Intensive Arabic IV. 6 Hours.
Continued development of speaking, comprehension, reading, writing. Reading assignments introduce a variety of styles ranging from classical to modern in both prose and verse. (Typically offered: Spring)

ARAB 4016H. Honors Intensive Arabic IV. 6 Hours.
Continued development of speaking, comprehension, reading, writing. Reading assignments introduce a variety of styles ranging from classical to modern in both prose and verse. Prerequisite: Honors standing. (Typically offered: Spring)
This course is equivalent to ARAB 4016.

ARAB 4023. Advanced Arabic I. 3 Hours.
Development of advanced speaking and writing skills. Extensive reading and writing assignments and translating exercises from English into Arabic. Prerequisite: ARAB 4016. (Typically offered: Irregular)

ARAB 4033. Advanced Arabic II. 3 Hours.
Continued advanced speaking, reading, and writing skills. Prerequisite: ARAB 4023. (Typically offered: Irregular)

ARAB 4053. Arabic Readings. 3 Hours.
Develops skill in description, analysis, and argumentation through weekly reading and writing assignments within a workshop atmosphere. Selected readings from various styles of standard Arabic, ranging from newspapers to literary texts. Prerequisite: ARAB 4023 or equivalent. (Typically offered: Irregular)

ARAB 4113. Modern Arabic Literature. 3 Hours.
Selected readings from Arabic fiction and poetry from the 20th century to the present. Prerequisite: ARAB 4023 or equivalent. (Typically offered: Irregular)

ARAB 4213. Introduction to Arab Culture. 3 Hours.
Selected readings from Arab history, literature, the Islamic Tradition, and the Holy Qur'an. Prerequisite: ARAB 4023 or equivalent. (Typically offered: Irregular)

ARAB 470V. Special Topics. 1-6 Hour.
May be offered in a topic not specifically covered by courses otherwise listed. (Typically offered: Irregular) May be repeated for degree credit.

ARAB 570V. Special Topics. 1-6 Hour.
May be offered in a topic not specifically covered by courses otherwise listed. Graduate degree credit will not be given for both ARAB 470V and ARAB 570V. (Typically offered: Irregular) May be repeated for degree credit.

Architecture (ARCH)

Courses

ARCH 1003. Basic Course in the Arts: Architecture Lecture. 3 Hours.
A general introduction to architecture, exploring the designed environment, including cities and buildings and their histories, technologies and users, in a holistic manner. May not be presented towards satisfaction of major requirements in either the B.Arch or B.A. in architectural studies degrees. (Typically offered: Fall and Spring)
ARCH 1003H. Honors Basic Course in the Arts: Architecture Lecture. 3 Hours.
A general introduction to architecture, exploring the designed environment, including cities and buildings and their histories, technologies, and users, in a holistic manner. May not be presented towards satisfaction of major requirements in either the B.Arch or B.A. in architectural studies degrees. Prerequisite: Honors candidacy. (Typically offered: Fall)
This course is equivalent to ARCH 1003.

ARCH 1013. Diversity and Design. 3 Hours.
Explores the reciprocal relationship between diversity and design in America, investigating how race, gender, religion, ability, age, class, and location affect and are affected by the design of media, products, architecture, and cities/regions. Positive and negative effects of diversity and design are discussed. (Typically offered: Summer)

ARCH 1013H. Honors Diversity and Design. 3 Hours.
Explores the reciprocal relationship between diversity and design in America, investigating how race, gender, religion, ability, age, class, and location affect and are affected by the design of media, products, architecture, and cities/regions. Positive and negative effects of diversity and design are discussed. Prerequisite: Honors candidacy. (Typically offered: Summer)
This course is equivalent to ARCH 1013.

ARCH 1015. Fundamental Design Skills. 5 Hours.
Fundamental design skills; development of visual and verbal communication skills including observation skills, design technologies, analysis and representation in both 2-dimensions and 3-dimensions through analog and digital tools; creative and critical thinking skills. (Typically offered: Fall and Spring)

ARCH 1025. Fundamental Design Methodology. 5 Hours.
Fundamental design skills; use of precedents for understanding principles of design and natural and formal ordering systems; design development using both iterative and alternative methods of exploration in both 2-dimensions and 3-dimensions using analog and digital tools; continued development of visual and verbal communication skills. Prerequisite: ARCH 1015. (Typically offered: Summer)

ARCH 1212. Design Thinking I: Foundations in Technology. 2 Hours.
This course will raise pertinent questions about the role of architectural technology in design through studying the important theories about technology from Vitruvius to contemporary practice and understanding how they have been manifested in built form. (Typically offered: Fall and Summer)

ARCH 1222. Design Thinking II: Foundations in History. 2 Hours.
Explores the role of architectural history in design thinking, introducing divergent canons and traditions in a global context and emphasizing understanding of the relationships among buildings, spaces and places and the social, political and technological circumstances in which the work was theorized, produced, and lived. Prerequisite: ARCH 1212. (Typically offered: Spring and Summer)

ARCH 1600. Undergraduate Research Assistant. 0 Hours.
Undergraduate research. (Typically offered: Fall, Spring and Summer)

ARCH 2016. Architectural Design III. 5 Hours.
Introduction of formal principles and strategies used in space making, focusing on the development of plans and sections. Precedents and the understanding of them through analysis and syntheses are used as a means of examining the past and the present while providing a framework from which personal design sensibilities can evolve. Corequisite: ARCH 2113 and ARCH 2132 and ARCH 2233. Prerequisite: ARCH 1025 and ARCH 1222. (Typically offered: Fall)

ARCH 2026. Architectural Design IV. 6 Hours.
An elaboration of space-making, addressing three-dimensional aspects of form-making, including the influence of structural systems, articulation of the vertical section, and exterior expression; the role of site as a generator of form; and the overarching importance of tehnics, including the materiality of space, structure, and light. Corequisite: ARCH 2123 and ARCH 2243. Prerequisite: ARCH 2016 and ARCH 2113 and ARCH 2132 and ARCH 2233. (Typically offered: Spring)
ARCH 2243. History of Architecture II. 3 Hours.
Critical study and analysis of world architecture from the fifteenth to the mid-nineteenth centuries. Encompasses early modern Europe (Renaissance, Baroque, and Neoclassical) as well as two or more of the following: colonial New Spain, early modern Japan, and/or early modern Islamic empires in Africa, the Middle East, and Asia. Vernacular American building is surveyed as well as architecture in the nineteenth-century, including Beaux-Arts design and the introduction of industrial materials. Prerequisite for architecture majors only: ARCH 2233. (Typically offered: Spring)

ARCH 2243H. Honors History of Architecture II. 3 Hours.
Critical study and analysis of world architecture from the fifteenth to the mid-nineteenth centuries. Encompasses early modern Europe (Renaissance, Baroque, and Neoclassical) as well as two or more of the following: colonial New Spain, early modern Japan, and/or early modern Islamic empires in Africa, the Middle East, and Asia. Vernacular American building is surveyed as well as architecture in the nineteenth-century, including Beaux-Arts design and the introduction of industrial materials. Prerequisite: Architecture majors only. Corequisite: ARCH 2233 and honors candidacy. (Typically offered: Spring)

This course is equivalent to ARCH 2243.

ARCH 2600. Undergraduate Research Assistant. 0 Hours.
Undergraduate research. (Typically offered: Fall, Spring and Summer)

ARCH 2993. Art and Culture in Italy. 3 Hours.
The evolution of culture and aesthetics and their immediate relationship with the creation of Italy’s masterpieces in art and architecture. Includes site visits and lectures. Offered in the Rome study abroad semester. (Typically offered: Fall and Spring)

ARCH 3016. Architectural Design V. 6 Hours.
Emphasis on issues of design process, exploration of internal and external determinants of form and the integration of appropriate technologies in design solutions. Corequisite: ARCH 4433. Prerequisite: ARCH 2026 and ARCH 2123 and ARCH 2243. (Typically offered: Fall)

ARCH 3026. Architectural Design VI. 6 Hours.
Studio-based analysis and design of structural and enclosure systems for buildings with particular emphasis on systems interface and application within the context of design exercises. Investigations of the appropriate use of materials and assemblies for varied programmatic and environmental criteria. Twelve hours of studio each week. Corequisite: ARCH 4523. Prerequisite: ARCH 3016 and ARCH 3143. (Typically offered: Spring)

ARCH 303V. Special Projects. 1-6 Hour.
Individual or group investigation in research, visual communication, history, or design concerning special interests of student or faculty. (Typically offered: Irregular) May be repeated for degree credit.

ARCH 303VH. Honors Special Projects. 1-6 Hour.
Individual or group investigation in research, visual communication, history, or design concerning special interests of student or faculty. Prerequisite: Honors candidacy. (Typically offered: Irregular) May be repeated for degree credit. This course is equivalent to ARCH 303V.

ARCH 3143. Building Materials and Assemblies. 3 Hours.
Introduction and comprehensive survey of primary building materials and methods of assembly: their history, properties, use and configuration - both traditional and contemporary, in the service of building construction; their impact on the form, expression and performance of building structures and envelopes. Prerequisite: ARCH 2132, ARCH 2113 and ARCH 2123. (Typically offered: Fall)

ARCH 3253. Environmental Technology II. 3 Hours.
Covers theoretical foundations and applications of building environmental systems: HVAC with duct layout and controls, indoor air quality, electric lighting, power, acoustics, fire safety and egress, and water and waste. The important role of such systems in the design of buildings is examined through a series of small projects assignments. Prerequisite: ARCH 3016 and ARCH 3143. (Typically offered: Spring)

ARCH 3253H. Honors Environmental Technology II. 3 Hours.
Covers theoretical foundations and applications of building environmental systems: HVAC with duct layout and controls, indoor air quality, electric lighting, power, acoustics, fire safety and egress, and water and waste. The important role of such systems in the design of buildings is examined through a series of small projects assignments. Prerequisite: ARCH 2016 and ARCH 3143. (Typically offered: Spring)

This course is equivalent to ARCH 3253.

ARCH 3600. Undergraduate Research Assistant. 0 Hours.
Undergraduate research. (Typically offered: Fall, Spring and Summer)

ARCH 3743. Furniture Design. 3 Hours.
Design concepts and techniques to acquaint the student with the design of furniture; analysis of function, development of design and construction of small pieces of furniture. (Typically offered: Irregular)

ARCH 4016. Comprehensive Studio. 6 Hours.
Emphasis on issues of typology, context and technological suitability as sources of theoretical and developmental responses. Corequisite: ARCH 4152. Prerequisite: ARCH 3026. (Typically offered: Fall)

ARCH 4023. Advanced Architectural Studies. 3 Hours.
Advanced seminars in subjects to special interest to students and faculty. (Typically offered: Fall and Spring) May be repeated for degree credit.

ARCH 4023H. Honors Advanced Architectural Studies. 3 Hours.
Advanced seminars in subjects to special interest to students and faculty. Prerequisite: Honors candidacy. (Typically offered: Fall and Spring) May be repeated for degree credit. This course is equivalent to ARCH 4023.

ARCH 4026. Comprehensive Studio. 6 Hours.
Continuation of Architectural Design VII. Corequisite: ARCH 4152. Prerequisite: ARCH 4016 or ARCH 4116 or ARCH 4126. (Typically offered: Spring)

ARCH 4116. Architectural Design - Rome. 6 Hours.
Investigation of complex design problems in the context of the city of Rome, utilizing advanced issues in architectural design and planning. Prerequisite: ARCH 3026 or ARCH 4016. (Typically offered: Fall and Spring)

ARCH 4126. Architectural Design Latin America. 6 Hours.
Introduces a complex social and physical urban condition through a process of formal analysis and design executed in a designated country augmented by an intense graphic investigation of urban form encountered through related field trips to the distinct cultural and geographic regions. Prerequisite: ARCH 3026 or ARCH 4016 or ARCH 4026. (Typically offered: Summer)

ARCH 4152. Building Systems Integration. 2 Hours.
Promotes the synthesis of building technologies, systems selection and integration in the resolution of a building design. Specifically, the student demonstrates knowledge in the ability to generate digital and analog graphic resolutions highlighting the design response of material, structural and environmental systems in a building. Corequisite: ARCH 4016 or ARCH 4026. Prerequisite: ARCH 2113 and ARCH 2123 and ARCH 2132 and ARCH 3143 and ARCH 3253. (Typically offered: Fall and Spring)
ARCH 4152H. Honors Building Systems Integration. 2 Hours.
Promotes the synthesis of building technologies, systems selection and integration in the resolution of a building design. Specifically, the student demonstrates knowledge in the ability to generate digital and analog graphic resolutions highlighting the design response of material, structural and environmental systems in a building. Corequisite: ARCH 4016 or ARCH 4026. Prerequisite: ARCH 2113 and ARCH 2123 and ARCH 2132 and ARCH 3143 and ARCH 3253. (Typically offered: Fall and Spring)
This course is equivalent to ARCH 4152.

ARCH 4433. History of Architecture III. 3 Hours.
Critical study and analysis of the history and theories of modern architecture from the mid-nineteenth century to the present. Prerequisite: ARCH 2233 and ARCH 2243 or IDES 2883. (Typically offered: Fall)

ARCH 4433H. Honors History of Architecture III. 3 Hours.
Critical study and analysis of the history and theories of modern architecture from the mid-nineteenth century to the present. Prerequisite: ARCH 2233, ARCH 2243 and honors candidacy. (Typically offered: Fall)
This course is equivalent to ARCH 4433.

ARCH 4523. Architectural Theory. 3 Hours.
Introduction to the lexicon of architecture and the ideas and ideologies that provide the conceptual and critical infrastructure for the discipline. Reading and discussion of representative theory texts. Emphasis on twentieth century modernism and postmodernism, including contemporary speculations on possible and emerging forms of practice after theory. Prerequisite: ARCH 2233, ARCH 2243, and ARCH 4433. (Typically offered: Spring)

ARCH 4523H. Honors Architectural Theory. 3 Hours.
Introduction to architectural theories and their relationship to modern historiography. Case studies are employed for the critical evaluation of significant texts and the discernment of concepts embedded in textual structures. Reading theory through established historical categories establishes critical insight to the original deployment, negation and resurfacing of architectural theories. Prerequisite: ARCH 2233, ARCH 2243, and ARCH 4433. (Typically offered: Spring)
This course is equivalent to ARCH 4523.

ARCH 4533. Modern Architecture in Mexico. 3 Hours.
Overview of the emergence, growth and trends that define the ongoing evolution of modern architecture in Mexico from the first decades of the 20th century to contemporary practice. Offered in the Mexico study abroad semester. (Typically offered: Summer)

ARCH 4600. Undergraduate Research Assistant. 0 Hours.
Undergraduate research. (Typically offered: Fall, Spring and Summer)

ARCH 4653. Architecture of the City. 3 Hours.
Analysis of Rome's urban form and historical and theoretical information in support of the students' experience. Includes site visits and lectures. Offered in the Rome study abroad semester. (Typically offered: Fall and Spring)

ARCH 4673. Modern and Contemporary Rome. 3 Hours.
Explores different local conditions that determine main architectural changes that have taken place in Rome during the last century of its urban history. Important works, leading figures and major concepts in contemporary European architecture will be described to introduce examples of modern and contemporary architecture in Rome. (Typically offered: Fall and Spring)

ARCH 4723. Architectural Research Methods. 3 Hours.
Investigation into the practical, theoretical, and methodological strategies necessary for embarking upon architectural inquiry and discourse at a sophisticated level, for instance, in the form of a year-long thesis or independent project. Practical issues of method, such as research skills, literature review, and argument analysis are examined. The classic range of tools for interpreting architecture are surveyed from single-cause explanations (e.g., formalism) to more recent multi-causal theories (e.g., Semiotics, Deconstruction, Post-colonial theory, etc.) for architectural design. Prerequisite: ARCH 2233, ARCH 2243, and ARCH 4433. (Typically offered: Fall)

ARCH 4843. Medieval Architecture. 3 Hours.
This course traces the history of architecture in Western Europe from c. 300 - 1400. Sites studied include: the early Christian basilicas in Rome, the towered churches of Carolingian emperors, synagogues and mosques of Al-Andalus (Spain), Romanesque monasteries, and Gothic cathedrals. Prerequisite: ARCH 4433. (Typically offered: Irregular)
This course is equivalent to ARHS 4743.

ARCH 4843H. Honors Medieval Architecture. 3 Hours.
This course traces the history of architecture in Western Europe from c. 300 - 1400. Sites studied include: the early Christian basilicas in Rome, the towered churches of Carolingian emperors, synagogues and mosques of Al-Andalus (Spain), Romanesque monasteries, and Gothic cathedrals. Prerequisite: ARCH 4433. (Typically offered: Irregular)
This course is equivalent to ARHS 4743.

ARCH 4853. Renaissance and Baroque Architecture. 3 Hours.
Study of Renaissance and Baroque architecture in Europe and the New World from 1400 to 1700. With reference to an array of texts, drawings, and the edifices themselves, this course charts the evolution of a commanding Western architectural tradition. Renaissance and Baroque -- with close attention to the social, humanistic, and religious contexts that produced it. Prerequisite: ARCH 4433. (Typically offered: Irregular)
This course is equivalent to ARHS 4753.

ARCH 4853H. Honors Renaissance and Baroque Architecture. 3 Hours.
Study of Renaissance and Baroque architecture in Europe and the New World from 1400 to 1700. With reference to an array of texts, drawings, and the edifices themselves, this course charts the evolution of a commanding Western architectural tradition. Renaissance and Baroque -- with close attention to the social, humanistic, and religious contexts that produced it. Prerequisite: ARCH 4433. (Typically offered: Irregular)
This course is equivalent to ARHS 4753.

ARCH 4863. Saint Peter's and the Vatican. 3 Hours.
Examines art and the architectural history of St. Peter's Basilica in Rome from antiquity to present. Emphasis on the Renaissance/Baroque church and its early Christian predecessor. Students consider the impact of devotional practices and papal politics on the church, the Vatican Palace, and its renown artworks including the Sistine ceiling. Prerequisite: ARCH 2233 or ARCH 2233H and ARCH 2243 or ARCH 2243H and ARCH 4433 or ARCH 4433H. (Typically offered: Irregular)

ARCH 4863H. Honors St. Peter's and the Vatican. 3 Hours.
Examines art and architectural history of St. Peter's Basilica in Rome from antiquity to present. Emphasis on the Renaissance/Baroque church and its early Christian predecessor. Students consider the impact of devotional practices and papal politics on the church, the Vatican Palace, and its renown artworks including the Sistine ceiling. Prerequisite: ARCH 2233 or ARCH 2233H, and ARCH 2243 or ARCH 2243H and ARCH 4433 or ARCH 4433H. (Typically offered: Irregular)
This course is equivalent to ARCH 4863.
ARCH 4933. Introduction to Historic Preservation. 3 Hours.
Introduces theoretical, methodological and practical issues of architectural preservation in Europe and, more specifically, in Italy. Addresses history and theory of restoration, basic principles of architectural preservation and methodology in the study and praxis of preservation applied to architecture and the issues posed by the preservation of modern architecture. (Typically offered: Fall and Spring)

ARCH 4943. Perspectives on Historic Preservation. 3 Hours.
Introduction of history, theory, and praxis of preservation design, emphasizing development and implementation of preservation projects in the practices of architecture, landscape architecture and interior design. Central themes include: preservation as a form of design; principles, rationales, and ideologies associated with preservation practice; and sustainable strategies for preservation design. Prerequisite: ARCH 2233 and ARCH 2243 or LARC 3413 and LARC 4413 or IDES 2883. (Typically offered: Fall)
This course is cross-listed with LARC 4943, IDES 4943.

ARCH 4943H. Honors Perspectives on Historic Preservation. 3 Hours.
Introduction of history, theory, and praxis of preservation design, emphasizing development and implementation of preservation projects in the practices of architecture, landscape architecture and interior design. Central themes include: preservation as a form of design; principles, rationales, and ideologies associated with preservation practice; and sustainable strategies for preservation design. Prerequisite: ARCH 2233 and ARCH 2243 or LARC 3413 and LARC 4413 or IDES 2883. (Typically offered: Fall)
This course is cross-listed with LARC 4943, IDES 4943, ARCH 4943.

ARCH 5016. Option Studio I. 6 Hours.
Project development dependent upon the synthesis of knowledge and application of critical thinking addressing architectural issues at multiple scales. Prerequisite: ARCH 4016, or ARCH 4026, or ARCH 4116, or ARCH 4126. (Typically offered: Fall) May be repeated for degree credit.

ARCH 5016H. Honors Thesis Project I. 6 Hours.
Degree project development dependent upon the synthesis of knowledge and application of critical thinking addressing architectural issues at multiple scales. Prerequisite: Honors candidacy. (Typically offered: Fall)
This course is equivalent to ARCH 5016.

ARCH 5026. Option Studio II. 6 Hours.
Project resolution including demonstrated skill in generating design ideas supported by clear understanding of issues resulting in comprehensive development and presentation of architectural issues at multiple scales. (Typically offered: Spring) May be repeated for degree credit.

ARCH 5026H. Honors Thesis Project II. 6 Hours.
Degree project resolution including demonstrated skill in generating design ideas supported by clear understanding of issues resulting in comprehensive development and presentation of architectural issues at multiple scales. Prerequisite: Honors candidacy. (Typically offered: Spring)
This course is equivalent to ARCH 5026.

ARCH 5314. Architectural Professional Practice. 4 Hours.
Study of role and responsibility of the architect, owner, and contractor relationships; professional ethics; organization of the architect's office; contracts and other documents; risk management strategies; and the preparation of the technical specifications and bidding documents of the Project Manual. Prerequisite: ARCH 4026 or ARCH 4116 or ARCH 4126. (Typically offered: Fall)

ARCH 5493. History of Urban Form. 3 Hours.
The study of pre-industrial urban and architectural design strategies in cities from the Classical through the Baroque eras and their rediscovery in the late 20th century, providing the student with a designer's understanding of a broad range of exemplary urban spaces and the buildings that shape them. Prerequisite: ARCH 2233 and ARCH 2243 and ARCH 4433. (Typically offered: Irregular)

ARCH 5493H. Honors History of Urban Form. 3 Hours.
The study of pre-industrial urban and architectural design strategies in cities from the Classical through the Baroque eras and their rediscovery in the late 20th century, providing the student with a designer's understanding of a broad range of exemplary urban spaces and the buildings that shape them. Prerequisite: ARCH 2233 and ARCH 2243 and ARCH 4433. (Typically offered: Irregular)
This course is equivalent to ARCH 5493.

ARCH 5943. Preservation Design Technology. 3 Hours.
This course prepares students to work with historic structures by providing an introduction to the history and principles of historic and traditional construction systems, including: concepts and techniques for building conservation, historic materials and technologies, identification of treatments, recordation and research, material properties and behavior, and building forensics. Prerequisite: ARCH 4943 or instructor consent. (Typically offered: Irregular)

ARCH 5953. Preservation Practice Field Trip. 3 Hours.
Intensive field study of a domestic or foreign site of significant or precedent-setting preservation activity, through a field trip and a course of pre-travel lectures. (Intersessions) Prerequisite: ARCH 4943 or instructor consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

Army ROTC (MILS) Courses

MILS 1001. Introduction to the Army. 1 Hour.
This course focuses on small group leadership and introducing the student to the Army as an organization. Students learn time management, drill and ceremony, military customs and courtesies, basic map reading, water safety and first aid. Introduction to the organization, values, ethics, personal development and the role of the Army. Classroom 1 hour per week. Lab 2 hours per week. Corequisite: Lab component. (Typically offered: Fall)

MILS 1011. Foundations of Agile and Adaptive Leadership. 1 Hour.
Continuation of MILS 1001. Topics include the Army Profession and what it means to be a professional in the U.S. Army, the Army Leadership Requirements Model, intermediate map reading/orienteering, and basic field craft. Classroom 1 hour per week. Lab 2 hours per week. Corequisite: Lab component. (Typically offered: Spring)

MILS 1101. Basic Marksmanship. 1 Hour.
Introduction to safe use of a rifle and practical application of rifle marksmanship. Course includes weapons safety, mechanics, capabilities, and fundamentals of marksmanship. Includes visit to fire at a local indoor rifle range. Materials and equipment furnished by Department of Military Science. (Typically offered: Fall)

This course focuses on basic Army leadership doctrine and develops the student's skills by introducing them to small unit tactics. Students learn to apply critical thinking and problem solving by using Troop Leading Procedures (TLP). Additional topics include the value of diversity, understanding the officer's role in leading change, management skills, and the fundamentals of the Army as a profession. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: MILS 1001 and MILS 1011 or departmental consent. (Typically offered: Fall)

MILS 2012. Army Doctrine and Team Development. 2 Hours.
Continuation of MILS 2002. Topics include Troop Leading Procedures (TLP), time management, military writing, and basic tactics. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: MILS 1001, MILS 1011, and MILS 2002 or departmental consent. (Typically offered: Spring)

MILS 2101. Advanced Rifle Marksmanship. 1 Hour.
Course to teach students the fundamentals of Advanced Rifle Marksmanship. Class is conducted once a week with topics including: Air rifle, small bore firing, advanced practical exercises of different shooting positions and marksmanship competition with other universities. Prerequisite: MILS 1101. (Typically offered: Spring)
MILS 4004. Applied Leadership I. 4 Hours.
This course focuses on the development of managerial and leadership abilities and the practical application of these skills during hands-on training. Students learn advanced infantry tactics and demonstrate their leadership potential using this medium. Students are required to lead in drill and ceremony, physical training, and tactical situations. This course prepares the student to excel at the ROTC Advanced Camp (normally attended during the summer between the junior and senior year). One 48 hour weekend field training exercise is required per semester. Lecture 2 hours, laboratory 3 hours, physical training 3 hours (conducted Tuesday - Thursday) per week. Corequisite: Lab component. Prerequisite: Departmental consent and MILS 1001, MILS 1011, MILS 2002, and MILS 2012; or completion of Army ROTC Basic Camp; or completion of basic training with any component of the U.S. Armed Forces. (Typically offered: Fall)

MILS 3014. Applied Leadership II. 4 Hours.
Continuation of MILS 4004. This course prepares the student to excel at the ROTC Advanced Camp (normally attended during the summer between the junior and senior year). Requirements include one 48 hour weekend field training exercise per semester. Lecture 2 hours, laboratory 3 hours, physical training 3 hours (conducted Tuesday - Thursday) per week. Corequisite: Lab component. Prerequisite: MILS 1001, MILS 1011, MILS 2002, MILS 2012 and MILS 3004; or completion of Army ROTC Basic Camp; or completion of basic training with any component of the U.S. Armed Forces. (Typically offered: Spring)

MILS 4001. Advanced Military Issues. 1 Hour.
Individual study for advanced undergraduates. Students will research, write a paper, and give an oral presentation of a current military issue. Prerequisite: MILS 3004 and MILS 3014. (Typically offered: Fall and Spring)

MILS 4004. Advanced Leadership I. 4 Hours.
This course focuses on the study of various military organizations and their role in military operations. Discussion of command and staff management in military organizations, executive responsibility of Army commissioned officers, service customs, courtesies, and traditions. The senior year includes the study of personnel management, professional ethics, the military justice system, and the Army's training and maintenance management system. This course prepares students to assume responsibilities as a commissioned officer upon graduation. One 48 hour weekend field training exercise is required per semester. Lecture 2 hours, laboratory 3 hours, physical training 3 hours (conducted Tuesday - Thursday) per week. Corequisite: Lab component. Prerequisite: Departmental consent and MILS 1001, MILS 1011, MILS 2002, MILS 2012 and MILS 3004; or completion of Army ROTC Basic Camp; or completion of basic training with any component of the U.S. Armed Forces. (Typically offered: Fall)

MILS 4011. Advanced Military Correspondence. 1 Hour.
Practicum for advanced undergraduates. Students submit prepared military correspondence projects written in the military style using military forms and formats. Prerequisite: MILS 3004 and MILS 3014. (Typically offered: Fall and Spring)

MILS 4014. Advanced Leadership II. 4 Hours.
Continuation of MILS 4004. This course prepares students to assume responsibilities as a commissioned officer upon graduation. One 48 hour weekend field training exercise is required per semester. Lecture 2 hours, laboratory 3 hours, physical training 3 hours (conducted Tuesday - Thursday) per week. Corequisite: Lab component. Prerequisite: Departmental consent and MILS 3004, MILS 3014 and MILS 4004. (Typically offered: Spring)

MILS 6004. Advanced Leadership I Graduate. 4 Hours.
This course focuses on the study of various military organizations and their role in military operations. Discussion of command and staff management in military organizations, executive responsibility of Army commissioned officers, service customs, courtesies, and traditions. This year includes the study of personnel management, professional ethics, the military justice system, and the Army’s training and maintenance management system. This course prepares students to assume responsibilities as a commissioned officer upon graduation. One 48 hour weekend field training exercise is required per semester. Lecture 2 hours, laboratory 3 hours, physical training 3 hours (conducted Tuesday - Thursday) per week. Corequisite: Graduate standing, departmental consent, and MILS 3004 and MILS 3014. Corequisite: Lab component. (Typically offered: Fall)

Art (ARTS)

Courses

ARTS 1013. Introduction to Drawing from Observation. 3 Hours.
Problems dealing with materials and techniques of drawing, including basic concepts of line, perspective, and value. (Typically offered: Summer)

ARTS 1313. Two-Dimensional Design. 3 Hours.
Studio problems in the use of line, shape, texture, value, and color and their relationships. (Typically offered: Fall and Spring)

ARTS 1323. Three-Dimensional Design. 3 Hours.
Studio problems with the elements of three-dimensional design: structure, space, form, surface, and their relationship. (Typically offered: Fall and Spring)

ARTS 1803. Photography for Non-Majors. 3 Hours.
Addresses photography's currency within visual culture by investigating its relationship to both society and art, considering its evolution as an art form. Using a variety of tools and techniques, projects will emphasize composition, digital manipulation, and the role of intention in creating art. (Typically offered: Fall and Spring)

ARTS 1919C. Studio Foundation I. 9 Hours.
Intensive, studio-format coursework in a variety of two-dimensional, three-dimensional, and time-based media provides an introduction to fundamentals of art and design with emphasis on components of the creative process; research and critical thinking; investigation of materials; and instruction in software and fabrication techniques. 9 credit hours. Corequisite: Drill component. (Typically offered: Fall and Spring)

ARTS 1929C. Studio Foundation II. 9 Hours.
Continuation of Studio Foundation I. Intensive intermediate studio projects in a variety of two-dimensional, three-dimensional, and time-based mediums; instruction in software and fabrication techniques; and the introduction of professional practices, including the assemblage and maintenance of a foundational portfolio; required attendance at weekly seminar. Corequisite: Drill component. Prerequisite: ARTS 1919C (Typically offered: Fall and Spring)

ARTS 3003. Intermediate Drawing. 3 Hours.
Continued training in fundamental drawing skills. Builds upon observational drawing skills with analytic approaches, including the spatial logic of translating three dimensions to two, constructing global value relationships, and making meaningful compositions by linking formal decisions to conceptual intent. Prerequisite: ARTS 1919C and ARTS 1929C; or ARTS 1013 and instructor consent. (Typically offered: Fall and Spring)

ARTS 3013. Figure Drawing I. 3 Hours.
Investigation of the human form through drawing, with special emphasis on gestural modes of working. Careful analysis of human anatomy, including internal and externally visible structures, position and movement of joints, as well as anatomical proportions and their variations among different individuals. Prerequisite: ARTS 3003. (Typically offered: Spring)
ARTS 3023. Drawing: Advanced Form and Content. 3 Hours.
This course will provide a technical and conceptual basis for independent exploration in the medium of drawing. A variety of approaches and starting points will be explored, including abstract/non-representational drawing, conceptual drawing, process-based drawing, and interpretive representational drawing. Experimental methods and media will be encouraged. Prerequisite: ARTS 3003 and junior or senior standing. (Typically offered: Irregular)

ARTS 3033. Drawing With Color. 3 Hours.
Color issues pertaining to drawing. Projects will challenge students to accurately perceive and recreate color relationships by building optical mixtures of colored marks to create a continuous world of color from a limited set of starting colors. Prerequisite: ARTS 3003. (Typically offered: Irregular)

ARTS 3043. Illustration: Communicating With Drawing. 3 Hours.
How to create images that carry specific, unambiguous meanings - to speak with pictures. Projects will explore various modes of visual communication and relationships to texts, including narrative, editorial and sequential illustrations. Prerequisite: ARTS 3003 or instructor consent. (Typically offered: Irregular)

ARTS 3053. Drawing in the Expanded Field. 3 Hours.
A philosophical examination of the discipline of drawing through experimental works. Initial projects will question the essential aspects of drawing-ness, pushing beyond the typical materials and processes to make drawings with unusual properties. In the second half of the course, students will take on a sustained individual exploration. Prerequisite: ARTS 3003 or instructor consent. (Typically offered: Irregular)

ARTS 3103. Painting I. 3 Hours.
An introduction to oil painting, focusing on painting from direct observation. Topics to be covered include: materials, palette, understanding perceptual color and color theory, and development of the painting through use of layers, value, marking, composition, light, and space. Prerequisite: ARTS 1313 and ARTS 3013; or ARTS 1919C and ARTS 1929C. (Typically offered: Fall and Spring)

ARTS 3123. Painting: Water Media. 3 Hours.
Introduction to materials and techniques of watercolor and acrylic painting. Form, composition, and content to be studied through observation and imagination. Traditional techniques as well as experimentation and personal expression are to be explored. Prerequisite: ARTS 3103 or ARTS 3003. (Typically offered: Irregular)

ARTS 3133. Figure Painting. 3 Hours.
Introduction to representational and interpretive figure painting and to contemporary issues in figurative painting. The model as well as other visual sources will be used as a basis for observation, interpretation and invention. Prerequisite: ARTS 3013, ARTS 3103. (Typically offered: Irregular)

ARTS 3153. Painting Perception Into Abstraction. 3 Hours.
Investigation of the abstraction of visual phenomena. Various starting points and approaches will be studied. Emphasis on the analysis of form, the creation of pictorial structure, and the conceptual basis of perceptual abstraction. Prerequisite: ARTS 3103. (Typically offered: Irregular)

ARTS 3163. Abstract Painting. 3 Hours.
An introduction to the material, formal, and conceptual aspects of abstract painting. Projects will explore a variety of starting points for the invention of form in painting. Examines the construction of meaning in modern and contemporary abstract painting through studio work, discussion, writing assignments and lectures. Prerequisite: ARTS 3103. (Typically offered: Irregular)

ARTS 3173. Contemporary Representational Painting. 3 Hours.
Contemporary approaches to the use of imagery in painting. Projects emphasize the systematic alteration of color, form and space through strategies of reduction, omission, distortion and compositing. Prerequisite: ARTS 3103. (Typically offered: Irregular)

ARTS 3203. Beginning Sculpture: Fundamentals of Modeling, Mold Making & Casting. 3 Hours.
An introduction to fundamental additive and subtractive sculpture techniques and methods of seeing and working that give expression to material form. Beginning techniques in modeling, carving, mold making, and basic casting are demonstrated. Lectures, readings, and critiques will develop student awareness of traditional building techniques which inform contemporary sculpture practices. Prerequisite: ARTS 1323; or ARTS 1919C and ARTS 1929C. (Typically offered: Spring and Summer)

ARTS 3213. Beginning Sculpture: Construction Methods I. 3 Hours.
A focus on material sensitivity through thoughtful and skillful additive approaches. Woodworking and metalworking are introduced as methods to examine structural and spatial possibilities. Through examining and questioning the interplay of form, material, technique, and content, students will develop their knowledge of traditional fabrication processes, which inform contemporary sculpture. Prerequisite: ARTS 1323; or ARTS 1919C and ARTS 1929C. (Typically offered: Fall and Summer)

ARTS 3223. Beginning Sculpture: Critical Issues I. 3 Hours.
An experimental lab focused on critical issues in contemporary sculpture. Students will be challenged to dissect their process of making, to question the nature of sculpture and art-making in the 21st century, and the context in which art is created, shown, and distributed. Prerequisite: ARTS 1323 or (ARTS 1919C and ARTS 1929C). (Typically offered: Fall, Spring and Summer)

ARTS 3403. Printmaking: Introduction. 3 Hours.
Introduction to the technical, formal, conceptual, and historical aspects of printmaking through methods of relief, intaglio (etching), monoprint, serigraphic (screenprinting), and lithographic printing techniques. Prerequisite: ARTS 1919C and ARTS 1929C; or ARCH 1025. (Typically offered: Fall and Spring)

ARTS 3413. Printmaking: Etching. 3 Hours.
Exploration in the technical, formal, conceptual, and historical aspects of intaglio printmaking through traditional and current methods of metal plate etching, aquatint, color inking and printing, collagraph, photo processes, and other techniques. Prerequisite: ARTS 1919C and ARTS 1929C; or ARCH 1025; or IDES 1045; or LARC 1325. (Typically offered: Spring)

ARTS 3423. Printmaking: Lithography. 3 Hours.
Introduction to lithographic printmaking processes including wet and dry media on stone and plate, photo processes, and various inking methods. Prerequisite: ARTS 1919C and ARTS 1929C; or ARTS 3403; or ARCH 1025; or IDES 1045; or LARC 1325. (Typically offered: Spring)

ARTS 3433. Printmaking: Relief. 3 Hours.
Exploration in the technical, formal, conceptual, and historical aspects of relief printmaking through traditional and current methods of woodcut, wood engraving, linoleum, CNC routing, digital technologies, moku hanga, and other methods. Prerequisite: ARTS 1919C and ARTS 1929C; or ARTS 3403; or ARCH 1025; or IDES 1045; or LARC 1325. (Typically offered: Spring)

ARTS 3443. Printmaking: Screenprinting. 3 Hours.
Introduction to serigraphic techniques, including cut stencils, photosensitive stencils, resist methods, additive and reductive printing, and other processes. Prerequisite: ARTS 1919C and ARTS 1929C; or ARTS 3403; or ARCH 1025; or IDES 1045; or LARC 1325. (Typically offered: Fall and Summer)

ARTS 3453. Printmaking: Monoprint & Monotype. 3 Hours.
Exploration in the technical, formal, conceptual, and historical aspects of monotype and monoprint printmaking through a variety of traditional and current methods to create singular works on paper. Prerequisite: ARTS 1919C and ARTS 1929C; or ARTS 3403; or ARCH 1025; or IDES 1045; or LARC 1325. (Typically offered: Irregular)
ARTS 3463. Printmaking: Digital Inquiries. 3 Hours.
Exploration of the technical, formal, and conceptual aspects of both traditional printmaking techniques and contemporary digital media and their application to contemporary art and visual culture. Prerequisite: ARTS 3403 or ARTS 3443. (Typically offered: Irregular)

ARTS 3473. Printmaking: Book & Letterpress. 3 Hours.
In the exploration, technical, formal, conceptual, and historical aspects of book arts through traditional and current Eastern and Western methods of various book forms, book construction, binding, design, content, letterpress printing, and conceptual considerations. Prerequisite: ARTS 1919C and ARTS 1929C; or ARTS 3403; or ARCH 1025; or IDES 1045; or LARC 1325. (Typically offered: Irregular)

ARTS 3503. Ceramics: Handbuilding I. 3 Hours.
This introductory course investigates the techniques, materials, and themes common to hand-built ceramics. Students will also be introduced to ceramic studio processes, including clay and glaze mixing, low temperature gas and electric firing, and studio safety procedures. Prerequisite: ARTS 1013 and ARTS 1313 and ARTS 1323; or ARTS 1919C and ARTS 1929C. (Typically offered: Fall and Summer)

ARTS 3523. Ceramics: Wheelthrowing I. 3 Hours.
This introductory course investigates the techniques, materials, and themes common in wheel-thrown ceramics. Students will also be introduced to ceramic studio processes, including clay and glaze mixing, low temperature gas and electric firing, and studio safety procedures. Prerequisite: ARTS 1013 and ARTS 1313 and ARTS 1323; or ARTS 1919C and ARTS 1929C. (Typically offered: Spring and Summer)

ARTS 3533. Ceramics: Wheelthrowing II. 3 Hours.
This concept-driven intermediate-level course focuses on expanding the students’ skills and knowledge of wheel-thrown and hand-built forms. Additional emphasis will be placed on clay and glaze testing, and understanding the processes of firing in electric, gas, salt/soda, and wood-firing kilns. Prerequisite: ARTS 3523. (Typically offered: Irregular)

ARTS 3543. Ceramics: Slip-Casting. 3 Hours.
This concept-driven intermediate-level course focuses on the techniques and approaches common to ceramic slip-casting. Plaster mold-making, model development and preparation, slip mixing, and slip-casting are emphasized. Students will utilize low and high temperature gas and electric firings. Prerequisite: ARTS 3503. (Typically offered: Spring)

ARTS 3723. Experiments in Moving Image I. 3 Hours.
An introduction to experimental video art, providing a theoretical and practical foundation for creating video for installation, performance or screen, set within a context of historical and contemporary video art and experimental film. Students will complete assignments creating new, original moving image works. Prerequisite: ARTS 1919C and ARTS 1929C. (Typically offered: Fall and Spring)

ARTS 3733. Experiments in Sound. 3 Hours.
An introduction to experimental sound art, providing a theoretical and practical foundation for creating sound for installation, performance or composition, set within a context of historical and contemporary sound art and electroacoustic composing. Students will complete assignments creating new, original sound works. Prerequisite: ARTS 1919C and ARTS 1929C. (Typically offered: Fall)

ARTS 3803. Photo I: Darkroom. 3 Hours.
Photography I: Darkroom is an introduction to the basics of camera operation and exposure, analog black and white film and print processing, and photographic technique and theory. An emphasis on how to communicate through photographs is pursued in assignments, critiques, slide lectures, and demonstrations. Prerequisite: ARTS 1313; or ARTS 1919C and ARTS 1929C. (Typically offered: Fall and Spring)

ARTS 3813. Photo I: Digital. 3 Hours.
Photo I: Digital starts with and expands upon the basics of digital SLR photography, editing in Adobe Lightroom, basic digital file management, and printing. This includes an introduction to the applications of composition, light, and color in photography. The course also delves into image interpretation and photographic seeing. There will be emphasis placed on communicating ideas effectively through photography as well as the ability to speak about photography analytically, formally, and conceptually. Prerequisite: ARTS 1313; or ARTS 1919C and ARTS 1929C. (Typically offered: Fall and Spring)

ARTS 3903. Arts Entrepreneurship. 3 Hours.
Explores vehicles for socially conscious, arts-based, entrepreneurial action to gain an understanding of the innovative role that the creative process plays. With a bias toward action and collaboration, students will explore creative content, viability, and social, environmental, and cultural accountability. (Typically offered: Fall)

ARTS 3913. Social Justice and the Arts. 3 Hours.
Takes a critical look at historic and contemporary models of collaborative and interdisciplinary practices in the visual arts. Examines art as a catalyst for community impact, develops strategies for addressing the needs and goals of a specific partner, and implements support for those strategies. Service learning course. Prerequisite: ARTS 3903 or permission of the instructor. (Typically offered: Spring)

ARTS 3933. Color Studies. 3 Hours.
Investigation of color qualities and relationships through research and studio problems. Prerequisite: ARTS 1313 and ARTS 1323 and ARTS 3013; or ARTS 1919C and ARTS 1929C. (Typically offered: Fall)

ARTS 4003. Drawing Projects. 3 Hours.
Individual studio projects in Drawing. Each student will propose a project to pursue over the course of the semester. Prerequisite: Senior standing as a Studio Art BA or BFA concentrating in drawing. (Typically offered: Spring)

ARTS 4023. Figure Drawing II. 3 Hours.
Advanced study of the figure with emphasis on figure structure and its relationship to pictorial form in drawing. Prerequisite: ARTS 3013. (Typically offered: Irregular)

ARTS 404V. Special Problems in Drawing. 1-6 Hour.
Individual projects in drawing arranged with the instructor. Prerequisite: ARTS 3003. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ARTS 4133. Landscape Painting. 3 Hours.
Exploration of perceptual and conceptual approaches to painting the landscape. Both traditional and experimental techniques of oil painting will be studied. Includes outdoor on-site painting. Prerequisite: ARTS 3103. (Typically offered: Irregular)

ARTS 4153. Topics in Advanced Painting. 3 Hours.
Topics in advanced and experimental painting. Prerequisite: 6 hours of painting. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ARTS 417V. Special Problems in Painting. 1-6 Hour.
Individual technique and subject matter projects to be arranged with the instructor. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

ARTS 4183. Contemporary Issues in Painting. 3 Hours.
Examination of concepts and themes relevant to the contemporary practice of painting, accompanied by the production of an individually determined body of work. Emphasis on studio work supplemented by research, critique, reading and writing. Pre-or Corequisite: Three hours of painting from ARTS 3123, ARTS 3133, ARTS 3153, ARTS 3163, ARTS 3173, ARTS 4133, or ARTS 4153. Prerequisite: ARTS 3103. (Typically offered: Fall) May be repeated for up to 6 hours of degree credit.
ARTS 4193. Advanced Painting. 3 Hours.
Intensive course for those art majors concentrating in painting. Extended, individually
determined projects will emphasize production of a well researched, conceptually
grounded and cohesive body of work. Supplemented by reading, writing and
discussion of contemporary issues in painting. Pre- or Corequisite: Three hours of
painting from ARTS 3123, ARTS 3133, ARTS 3153, ARTS 3163, ARTS 3173,
ARTS 4133, or ARTS 4153. (Typically offered: Spring) May be repeated for up to 6
hours of degree credit.

ARTS 4203. Intermediate Sculpture: Modeling, Moldmaking, & Casting II. 3
Hours.
Merging historical methodology and advanced technology from lost-wax metal
casting to digital fabrication, a combination of additive and subtractive techniques
in modeling, carving, moldmaking, and casting. Specific problems utilizing various
media are preceded by readings, lectures, and demonstrations. Prerequisite:
ARTS 3203. (Typically offered: Fall and Summer)

ARTS 4213. Intermediate Sculpture: Mixed Media & Spatial Context. 3 Hours.
An exploration in assemblage, installation, environmental art, light, and kinetics as
they apply to contemporary sculptural language. Specific problems utilizing various
media are preceded by readings, lectures, and demonstrations. Pre- or Corequisite:
ARTS 3213. (Typically offered: Fall)

ARTS 4223. Advanced Sculpture: Critical Issues II. 3 Hours.
A directed analysis of form and its relationship to content based on the development
of work in students' medium of choice. Students will acquire the technical skills
needed to meet personal vision through guidance of the instructor. Research
evidenced in work, discussions, and critiques is emphasized. Prerequisite: 6 hours of
intermediate level sculpture courses; Choose from ARTS 4203, ARTS 4213, and
ARTS 4243. (Typically offered: Spring)

ARTS 423V. Special Problems in Sculpture. 1-6 Hour.
Individual projects in sculpture with emphasis on materials exploration. Prerequisite:
ARTS 4223. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of
degree credit.

ARTS 4243. Intermediate Sculpture: Construction Methods II. 3 Hours.
A deeper investigation into construction techniques to further examine structural
and spatial possibilities and question the relationship between traditional and
contemporary sculptural materials. Through a more profound and critical analysis
of form, material, process, content, and context, construction methodology will
be established as a foundation for individual practice. Prerequisite: ARTS 3213.
(Typically offered: Spring)

ARTS 4413. Printmaking: Intermediate. 3 Hours.
Continued study in various printmaking media with emphasis on individual technical
research, development of personal imagery, and refinement of skills. Two 3000-level
printmaking courses required. Prerequisite: ARTS 3403 and ARTS 3443. (Typically offered: Fall and Spring)

ARTS 4483. Printmaking: Advanced. 3 Hours.
Continued advanced study in various printmaking media with emphasis on individual
technical research, development of personal imagery, and refinement of skills.
Prerequisite: ARTS 4413. (Typically offered: Fall and Spring)

ARTS 449V. Special Problems in Prints. 1-6 Hour.
Advanced individual study of one or more printmaking processes with emphasis on
individual technical research, development of personal imagery, and refinement of
skills. Prerequisite: ARTS 3403. (Typically offered: Fall and Spring) May be repeated
for up to 6 hours of degree credit.

ARTS 4503. Intermediate Ceramics. 3 Hours.
Focuses on discovering and developing a personal approach to the creation of
ceramic objects. Students will explore and test clay bodies, surface treatments,
and firing methods while simultaneously exploring ideas, formats, contexts, and
interpretations to their work. Any or all ceramic processes may be used. Pre- or
corequisite: ARTS 3503 or ARTS 3523 or ARTS 3543. (Typically offered: Fall)

ARTS 4513. Technical Ceramics. 3 Hours.
Advanced study of ceramic materials and processes. Clay composition, clay body
formulation and analysis, glaze composition and formulation, firing methods (low,
mid, and high-temperature gas, electric and atmospheric firings), and kiln design will
be covered in depth. Prerequisite: ARTS 4503. (Typically offered: Irregular)

ARTS 4573. Advanced Ceramics. 3 Hours.
This course focuses on the generation and development of ideas and objects to form
a cohesive body of work. Students will lead their own explorations, technically and
conceptually, while working toward a professional-level standard of output. Any or
all ceramic processes may be used. Prerequisite: ARTS 3503 and ARTS 3523 and
ARTS 3543 and ARTS 4503. (Typically offered: Fall and Spring) May be repeated
for up to 6 hours of degree credit.

ARTS 458V. Special Problems in Ceramics. 1-3 Hour.
Individual projects in ceramic techniques. Prerequisite: ARTS 3503 or ARTS 3523.
(Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree
credit.

ARTS 459V. Individual Instruction. 1-6 Hour.
Special projects on an arranged basis for advanced students in any area of art in
which the catalog sequence of courses has been completed. (Typically offered: Fall
and Spring) May be repeated for up to 6 hours of degree credit.

ARTS 4743. Experiments in Moving Image II. 3 Hours.
Further exploration of experimental video art, pushing the theoretical and practical
foundation students build in 'Experiments in Moving Image I'. Expands on creating
video for installation, performance or screen, set within a context of historical
and contemporary video art and experimental film. Prerequisite: ARTS 1919C,
ARTS 1929C and ARTS 3723. (Typically offered: Fall and Spring)

ARTS 4783. Critical Issues in Experimental Media Art. 3 Hours.
This course serves as a special topics course for Experimental Media Art. Students
will explore a variety of contemporary critical issues and methodologies, all while
building a deeper theoretical and practical understanding of creating for the twenty-
first century. Prerequisite: (ARTS 1919C or ARTS 1929C) and (ARTS 3723 or
ARTS 3733). (Typically offered: Irregular) May be repeated for up to 9 hours of
degree credit.

ARTS 4813. Alternative Photographic Methods. 3 Hours.
Alternative Photographic Methods focuses on the study and practice of
alternative and historic photographic processes with a special interest in how
materiality influences the content of a photograph. A heavy influence is placed
on experimentation as the course explores the hybridization of analog chemical
processes with digital technology and contemporary content. Prerequisite:
ARTS 3803 and ARTS 3813. (Typically offered: Irregular)

ARTS 4823. Advanced Digital: The Constructed Image. 3 Hours.
Advanced Digital: The Constructed Image explores processes and concepts
related to creating photographs that are staged, manipulated, or constructed
in some manner both through digital processing and fabricating images for the
camera. Emphasis will be placed on a questioning of photographic truth and how to
communicate effectively through a series of photographs. Prerequisite: ARTS 3803
and ARTS 3813. (Typically offered: Irregular)

ARTS 4833. Large Format Photography. 3 Hours.
Large Format Photography introduces students to the 4x5 view camera and the
technical processes of larger film formats. Advanced darkroom work and digital
process are combined to explore professional printmaking. Projects allow students
to explore concepts in depth and relate the large format camera to contemporary
photographic practice. Prerequisite: ARTS 3803 and ARTS 3813. (Typically offered: Irregular)
ARTS 484V. Special Problems in Photography. 1-6 Hour.
Individual instruction for advanced undergraduates and graduate students. Special projects in photography designated by students in collaboration with faculty. Prerequisite: ARTS 3803 and (ARTS 3813 or ARTS 4823 or ARTS 4833). (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

ARTS 4853. Documentary Photography. 3 Hours.
This course introduces students to a variety of methods used in the area of documentary photography in order to build the conceptual and technical skills necessary to create extended projects that focus on documenting and visually exploring subjects in an in-depth manner. Discussion of Photography's tricky relationship with objectivity is explored throughout the semester. Prerequisite: ARTS 3803 and ARTS 3813. (Typically offered: Irregular)

ARTS 4863. Studio Light. 3 Hours.
Explores the technical, creative, and professional possibilities within making photographs using controlled light in both the studio setting and on location. Emphasizes how the studio setting has been used by photographers throughout history as well as its vital role in contemporary photography. Prerequisite: ARTS 3803 and ARTS 3813. (Typically offered: Irregular)

ARTS 4883. The Photobook. 3 Hours.
This course is based on the both the historic and contemporary relevance of the photobook as an art object. Students will learn about all aspects of producing a photobook from generating content, designing a structure, case-binding methods, fine art inkjet printing, and book construction. Special attention will be paid to sequencing photographs to convey conceptual thought and critique of those ideas. Prerequisite: ARTS 3803 and ARTS 3813. (Typically offered: Irregular)

ARTS 4893. Advanced Projects in Photography. 3 Hours.
Emphasizes diverse aspects of recognizing and fostering individualized creative processes, critical thinking, and problem-solving skills in order to create a sustainable and professional studio practice. Prerequisite: ARTS 3803 and ARTS 3813 and Junior or Senior level standing. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

ARTS 490VH. Honors Thesis in Studio Art. 1-6 Hour.
Special problems in studio art. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 12 hours of degree credit.

ARTS 491V. Internships in Art. 1-3 Hour.
Credit for practical experience gained through internships in studio art, gallery practices and/or art education. Report required from intern and field supervisor on significant accomplishments and/or progress. Prerequisite: Junior standing and art major. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ARTS 4923. Professional Development. 3 Hours.
The creation and presentation of a portfolio of work in the student's area of concentration, accompanied by creation of relevant materials for successful professional practice. Art Education students may choose ARED 476V, Student Teaching, (12 credit hours) as a substitution. Prerequisite: Art majors only. Requires junior, senior or graduate standing. (Typically offered: Fall and Spring)

ARTS 493V. Fine Arts Gallery Internship. 1-3 Hour.
Study all aspects of operating the Fine Arts Gallery. Research and preparation for exhibitions, organize and install exhibits, care of art works, create and distribute publicity, arrange interviews with newspapers, and other media. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ARTS 495V. Special Topics. 1-6 Hour.
May be offered in a subject not specifically covered by the courses otherwise listed. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ARTS 5023. Figure Drawing II. 3 Hours.
(Formerly ARTS 4023.) Advanced study of the figure with emphasis on figure structure and its relationship to pictorial form in drawing. Graduate degree credit will not be given for both ARTS 4023 and ARTS 5023. (Typically offered: Irregular)

ARTS 5513. Technical Ceramics. 3 Hours.
(Formerly ARTS 4513.) Advanced study of ceramic materials and processes. Clay composition, clay body formulation and analysis, glaze composition and formulation, firing methods (low, mid, and high-temperature gas, electric and atmospheric firings), and kiln design will be covered in depth. Graduate degree credit will not be given for both ARTS 4513 and ARTS 5513. Prerequisite: ARTS 4503. (Typically offered: Irregular)

ARTS 5723. Experiments in Moving Image I. 3 Hours.
An introduction to experimental video art, providing a theoretical and practical foundation for creating video for installation, performance or screen, set within a context of historical and contemporary video art and experimental film. Students will complete assignments creating new, original moving image works. (Typically offered: Fall and Spring)

ARTS 5783. Critical Issues in Experimental Media Art. 3 Hours.
Explores a variety of contemporary critical issues and methodologies in Experimental Media Art, while building a deeper theoretical and practical understanding of creating for the twenty-first century. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ARTS 5813. Digital Photography. 3 Hours.
(Formerly ARTS 4813.) Introduction to digital photography production, techniques and theory. Digital input from scanning (flatbed & slide/negative), digital cameras, video and internet sources. Computer assisted manipulation of imagery for correction and abstraction. Output to a digital printing systems, analog systems (film recorder), servers and Internet. Graduate degree credit will not be given for both ARTS 4813 and ARTS 5813. Prerequisite: ARTS 3803. (Typically offered: Fall and Spring)

ARTS 5833. Advanced Black and White Photography. 3 Hours.
(Formerly ARTS 4833.) Advanced black and white theory, practice and techniques including: Zone System, large format camera and studio lighting. Graduate degree credit will not be given for both ARTS 4833 and ARTS 5833. Prerequisite: ARTS 3803. (Typically offered: Irregular)

ARTS 584V. Special Problems in Photography. 1-6 Hour.
(Formerly ARTS 484V.) Individual instruction for advanced undergraduates and graduate students. Special projects in photography designated by students in collaboration with faculty. Graduate degree credit will not be given for both ARTS 484V and ARTS 584V. Prerequisite: ARTS 3803 and (ARTS 3813 or ARTS 4823 or ARTS 4833). (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

ARTS 5883. Bookmaking. 3 Hours.
(Formerly ARTS 5883.) Introduction to the creation of unique, limited edition artist's bookworks -- with emphasis on technical knowledge and conceptual understanding of the book form as a means of artistic expression. Graduate degree credit will not be given for both ARTS 4883 and ARTS 5883. (Typically offered: Irregular) This course is equivalent to ARTS 4883.

ARTS 5913. Graduate Seminar in Studio Art. 3 Hours.
Special seminars at the graduate level in Studio Art. Subject matter changes depending on student interest and faculty expertise. Prerequisite: Admission to MFA program. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ARTS 5923. MFA First Year Seminar. 3 Hours.
Introduction to graduate level study in art, including pedagogy related to teaching art at the college level. Topics to be covered include: development of research interests, critical thinking within studio practice, situating work in the contemporary context, expectations at the graduate level, and an introduction to techniques and theories of studio art education. Prerequisite: Admission to MFA program. (Typically offered: Fall)
ARTS 5933. MFA Second Year Seminar. 3 Hours.
Preparation for a professional art practice. Examination of theoretical and practical aspects of career development for contemporary artists. Prerequisite: ARTS 5923. (Typically offered: Fall)

ARTS 596V. Fine Arts Gallery Internship. 1-3 Hour.
(Formerly ARTS 493V.) Study all aspects of operating the Fine Arts Gallery. Research and preparation for exhibitions, organize and install exhibits, care of art works, create and distribute publicity, arrange interviews with newspapers, and other media. Graduate degree credit will not be given for both ARTS 493V and ARTS 596V. (Typically offered: Fall, Spring and Summer)

ARTS 601V. Master of Fine Arts Exhibition. 1-6 Hour.
Production and presentation of a one person exhibition of art work. The M.F.A. candidate will be responsible for making three acceptable slide sets of the exhibition and exhibition statements. Prerequisite: M.F.A. candidacy. (Typically offered: Fall, Spring and Summer)

ARTS 602V. Graduate Drawing. 1-6 Hour.
Individual problems in drawing techniques. Prerequisite: Graduate standing. (Typically offered: Fall and Spring) May be repeated for degree credit.

ARTS 6033. Graduate Drawing Studio. 3 Hours.
Intensive studio practice in drawing combined with reading, writing, and discussion of relevant contemporary issues in the fields of painting and drawing. Includes regular critiques, both with the group and in individual consultations with the instructor. Prerequisite: Admission to MFA program in Studio Art. (Typically offered: Fall and Spring) May be repeated for up to 18 hours of degree credit.

ARTS 612V. Graduate Painting. 1-6 Hour.
Individual problems in painting techniques. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

ARTS 6133. Graduate Painting Studio. 3 Hours.
Intensive studio practice in painting combined with reading, writing, and discussion of relevant contemporary issues in the fields of painting and drawing. Includes regular critiques, both with the group and in individual consultations with the instructor. Prerequisite: Admission to MFA program in Studio Art. (Typically offered: Fall and Spring) May be repeated for up to 18 hours of degree credit.

ARTS 622V. Graduate Sculpture. 1-6 Hour.
Individual problems in sculpture techniques. Prerequisite: Graduate standing. (Typically offered: Fall and Spring) May be repeated for degree credit.

ARTS 6233. Graduate Sculpture Studio. 3 Hours.
Intensive studio practice in sculpture combined with reading, writing, and discussion of relevant contemporary issues in the field of sculpture and new media. Includes regular critiques, both with the group and in individual consultations with the instructor. Prerequisite: Admission to MFA program in Studio Art. (Typically offered: Fall and Spring) May be repeated for up to 18 hours of degree credit.

ARTS 642V. Graduate Printmaking. 1-6 Hour.
Individual problems in printmaking techniques. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

ARTS 6433. Graduate Printmaking Studio. 3 Hours.
Intensive studio practice in printmaking combined with reading, writing, and discussion of relevant contemporary issues in the fields of printmaking. Includes regular critiques, both with the group and in individual consultations with the instructor. Prerequisite: Admission to MFA program in Studio Art. (Typically offered: Fall, Spring and Summer) May be repeated for up to 18 hours of degree credit.

ARTS 652V. Graduate Ceramics. 1-6 Hour.
Individual problems in ceramic techniques. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

ARTS 6533. Graduate Ceramics Studio. 3 Hours.
Discussion of contemporary ceramics issues in tandem with the development of a cohesive body of work. Students lead their own explorations, technically and conceptually, while working toward a professional standard of output. Includes regular critiques, with the class and individually with the instructor. Any ceramic processes may be used. Prerequisite: MFA Studio Art Graduate Standing. (Typically offered: Fall and Spring) May be repeated for up to 18 hours of degree credit.

ARTS 682V. Graduate Photography. 1-6 Hour.
Individual problems in photography. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

ARTS 6833. Graduate Photography Studio. 3 Hours.
Intensive studio practice with reading and discussion of contemporary issues in photography for MFA students. Prerequisite: Admission to MFA program in Art. (Typically offered: Fall and Spring) May be repeated for up to 18 hours of degree credit.

ARTS 695V. Special Topics. 1-6 Hour.
Subject matter not covered in other courses. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

Art Education (ARED) Courses
ARED 1003. Introduction to Art Education. 3 Hours.
Covers foundational theories in art education, educational psychology, and philosophy. An 18-hour early field experience includes observation and participation in art classes in public schools and community settings. (Typically offered: Fall and Spring)

ARED 2003. Diversity, Pedagogy, & Visual Culture. 3 Hours.
Supports critical reflective thinking, which will provide students with foundational tools to address the issues of diversity within visual culture and their relationship to societal, curricular, and pedagogical practices. (Typically offered: Fall, Spring and Summer)

This course is cross-listed with AAST 2003.

ARED 3003. Curriculum Design & Teaching Practices in Art Education. 3 Hours.
Covers contemporary art education theories and their implication to curriculum design. Students will discuss sociocultural learning theories in relation to the art-making process. (Typically offered: Fall and Spring)

ARED 3013. Inclusive Art Pedagogy. 3 Hours.
This course provides future art educators with the current issues and practices necessary for teaching disabled students in an inclusive art class through inverse inclusion (rotating roles as teacher, assistant, student, and observer). It will involve readings, observations, reflections, discussion, and extensive experience applying curriculum and contemporary pedagogy to inclusive art education practice in a community-based setting. (Typically offered: Irregular)

ARED 3013H. Honors Inclusive Art Pedagogy. 3 Hours.
Provides future art educators with the current issues and practices necessary for teaching art to students with disabilities through inverse inclusion and rotating roles as teacher, assistant, student, and observer. Focuses on contemporary pedagogy to art classroom inclusion practice in a community-based setting with service learning. Prerequisite: Honors standing. (Typically offered: Irregular)

This course is equivalent to ARED 3013.

ARED 3613. Public School Art I. 3 Hours.
Selection, preparation and use of instructional materials in elementary and secondary schools. For students seeking teaching certification in art. Prerequisite: ARTS 1013 and ARTS 1313 and ARTS 1323 and ARTS 3013. (Typically offered: Irregular)
ARED 3643. Teaching Art in Elementary Schools. 3 Hours.
Methods and materials used in teaching elementary school art. Prerequisite: ARED 3613. (Typically offered: Fall)

ARED 3643H. Honors Teaching Art in Elementary Schools. 3 Hours.
Methods and materials used in teaching elementary school art. Prerequisite: ARED 3613. (Typically offered: Fall)
This course is equivalent to ARED 3643.

ARED 3653. Teaching Art in Secondary Schools. 3 Hours.
Methods and materials used in teaching secondary school art. Prerequisite: ARED 3613. (Typically offered: Spring)

ARED 3653H. Honors Teaching Art in Secondary Schools. 3 Hours.
Methods and materials used in teaching secondary school art. Prerequisite: ARED 3613. (Typically offered: Spring)
This course is equivalent to ARED 3653.

ARED 4003. Community Art. 3 Hours.
Covers community-based art theories, classroom learning theories, and instructional strategies. It is also a teaching practicum course for community outreach; thus, students will design curriculum, implement lesson plans, and organize a final exhibition. Includes at least 24 hours of community teaching experience. Prerequisite: ARED 3003. (Typically offered: Spring)

ARED 4003H. Honors Community Art. 3 Hours.
Covers community-based art theories, classroom learning theories, and instructional strategies. It is also a teaching practicum course for community outreach; thus, students will design curriculum, implement lesson plans, and organize a final exhibition. Includes at least 24 hours of community teaching experience. Prerequisite: ARED 3003 and honors standing. (Typically offered: Spring)
This course is equivalent to ARED 4003.

ARED 4633. Individual Research in Art Education. 3 Hours.
Independent study in specific areas of art education. Prerequisite: 6 hours of art education. (Typically offered: Fall and Spring)

ARED 476V. Student Teaching in Art. 6-12 Hour.
A minimum of 6 weeks will be spent in an off-campus school. During this time the student teacher will have an opportunity under supervision to observe, to teach and participate in other activities involving the school and community. Successful completion of a criminal background check required before student can begin student teaching. Prerequisite: ARTBFA major. (Typically offered: Fall and Spring)

ARED 4773. Professional Development in Art Education. 3 Hours.
Students will reflect on their art education experiences and the roles of art educators in various educational settings. This capstone course prepares students for their professional careers in K-12 schools and community settings through journaling, discussions, and teaching portfolio review. (Typically offered: Fall and Spring)

ARED 486V. Internship in Art Education. 1-3 Hour.
Offers credit for practical experience gained through internships in community-based art education including museums and/or other organizations. A report is required from the intern and field supervisor on significant accomplishments and/or progress. Prerequisite: ARED 1003. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ARED 486VH. Honors Internship in Art Education. 1-3 Hour.
Offers credit for practical experience gained through internships in community-based art education including museums and/or other organizations. A report is required from the intern and field supervisor on significant accomplishments and/or progress. Prerequisite: ARED 1003 and honors standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.
This course is equivalent to ARED 486V.

ARED 490VH. Honors Thesis in Art Education. 1-6 Hour.
Special problems in Art Education. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 12 hours of degree credit.

ARED 4953. Special Topics in Art Education. 3 Hours.
Art education topics not included in regularly offered courses. Pre- or Corequisite: ARED 3613. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ARED 4953H. Honors Special Topics in Art Education. 3 Hours.
Art education topics not included in regularly offered courses. Pre- or Corequisite: ARED 3613. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.
This course is equivalent to ARED 4953.

ARED 5003. Research Methodologies in Art Education. 3 Hours.
An overview of mixed research methodologies employed in the field of art education. Covers foundational knowledge and skills necessary for conducting research in education and related fields. (Typically offered: Fall)

ARED 5013. (Dis)Mantling Diversity & Pedagogy. 3 Hours.
Covers teaching strategies that deconstruct disabling, systemic, social constructions and explore how people are using comics, films, and other popular media to discuss/ expose issues of race, class, gender, sexuality, and gender identity, trauma, disease, and disability. (Typically offered: Spring)

ARED 5953. Special Topics in Art Education. 3 Hours.
(Formerly ARED 4953.) Art education topics not included in regularly offered courses. Graduate degree credit will not be given for both ARED 4953 and ARED 5953. Pre- or Corequisite: ARED 3613. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ARED 6003. Foundations and Histories of Art Education. 3 Hours.
Examines classic theories in art education and their relevance to current developments in the field. Develop and conduct historical research projects, respond to writings on histories of art education, and explore how art education histories are represented. (Typically offered: Fall)

ARED 6013. Community-Based Art Education. 3 Hours.
Provides an overview of current and historical art education programs in the community. Introduces foundational knowledge and skills necessary for funding support, development, and implementation. Focuses on intergenerational and collaborative cross-disciplinary programs, their significance, and implications. (Typically offered: Irregular)

ARED 6023. Destabilizing Queer Theory. 3 Hours.
Highlights constricted and racialized ways in which people generally visualize class, gender, race, and sexualities. Students will discuss the criticality of complex dynamics of visual politics in class, gender, race, and sexualities, and theoretical issues posed and negotiated by queer theory. (Typically offered: Irregular)
This course is cross-listed with AAST 6023.

ARED 6033. Transnational Feminist Perspectives in Art and Education. 3 Hours.
Explores transnational feminist frameworks aimed at investigating and women's activism. Focuses on how artists, educators, activists, and makers employ various artistic interventions to build transnational solidarities against global injustices. (Typically offered: Irregular)

ARED 6043. Art, Play, and Aesthetics in Childhood. 3 Hours.
Provides a comprehensive review of research and theory related to the study and practice of art, play and aesthetics in childhood, with specific attention given to contemporary research that extends, critiques, and exists alongside earlier understandings of how and why these practices matter to childhood. (Typically offered: Irregular)

ARED 6053. Disability Studies in Art Education. 3 Hours.
Provides a comprehensive review of research and theory related to disability studies and application in art education. Involves readings, observations, reflections, discussion, and extensive experience applying art curriculum and contemporary pedagogy to inclusive art education practice with disabled adults 18 years and older in a community-based setting. (Typically offered: Irregular)
ARED 6063. Curriculum Theories: Art Education. 3 Hours.
Examines, explores, and applies theory and research to curriculum and pedagogy. These curricular theories are situated both in general education and in art education in order to provide multiple frameworks for theorizing curricular change. (Typically offered: Fall and Spring)

ARED 6393. Independent Study - Art Education. 3 Hours.
Independent study with varied emphasis on topics relating to Art Education and Visual Culture Studies. (Typically offered: Irregular) May be repeated for up to 18 hours of degree credit.

ARED 686V. Internship in Art Education. 3-6 Hour.
Provides off-campus experiential learning opportunities that will allow students to apply theories into their professional practices. Course content is individualized with a student’s internship advisor (an art education faculty member) and a field supervisor. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ARED 695V. Special Topics in Art Education. 1-6 Hour.
Subject matter not covered in regularly offered courses, and relating to art education. May be repeated for different topics. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ARED 6963. Visualizing Critical Race Theory. 3 Hours.
An examination of critical theoretical approaches to the concepts of race and ethnicity. Students will examine the ways in which these constructs perform a critical function in the construction of race(s) and the relevance of visual culture. (Typically offered: Fall and Spring)
This course is cross-listed with PLSC 6963, AAST 6963.

ARED 698V. Master’s Thesis in Art Education. 1-6 Hour.
Master’s thesis in art education. Prerequisite: ARED 5003, ARED 5013, and ARED 6003. (Typically offered: Fall and Spring) May be repeated for up to 150 hours of degree credit.

Art History (ARHS)

Courses
ARHS 1003. Basic Course in the Arts: Art Lecture (ACTS Equivalency = ARTA 1003). 3 Hours.
A general introduction to the visual arts. Lectures on theory and criticism, demonstrations, films, and slides. Three hours a week plus attendance at specified programs and exhibits. May not be presented toward satisfaction of the B.A. fine arts requirement by art majors. (Typically offered: Fall, Spring and Summer)

ARHS 1003H. Honors Basic Course in the Arts: Art Lecture. 3 Hours.
A general introduction to the visual arts. Lectures on theory and criticism, demonstrations, films, slides. Three hours a week plus attendance at specified programs and exhibits. May not be presented toward satisfaction of the B.A. fine arts requirement by art majors. (Typically offered: Irregular)
This course is equivalent to ARHS 1003.

ARHS 2913. Art History Survey I (ACTS Equivalency = ARTA 2003). 3 Hours.
Survey of art works from Stone Age through Medieval. Completion of ARHS 2913 and ARHS 2923 satisfies the content covered in ARHS 1003 for fulfillment of the fine arts university/state core. (Typically offered: Fall and Spring)

ARHS 2923. Art History Survey II (ACTS Equivalency = ARTA 2103). 3 Hours.
Survey of art works from Renaissance to the present. Completion of ARHS 2913 and ARHS 2923 satisfies the content covered in ARHS 1003 for fulfillment of the fine arts university/state core. (Typically offered: Fall and Spring)

ARHS 3923H. Honors Colloquium. 3 Hours.
Covers a special topic or issue. Offered as a part of the honors program. Prerequisite: honors candidacy (not restricted to candidacy in art). (Typically offered: Irregular)

ARHS 4013. Case Studies in Art History. 3 Hours.
Provides in-depth studies of selected artists, themes, or specific groups of art works. Only offered during intersession. Prerequisite: 6 hours of ARHS courses. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ARHS 4013H. Honors Case Studies in Art History. 3 Hours.
Provides in-depth studies of selected artists, themes, or specific groups of art works. Only offered during intersession. Prerequisite: 6 hours of ARHS courses and honors standing. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.
This course is equivalent to ARHS 4013.

ARHS 4413. Greek Art and Archaeology. 3 Hours.
Greek Art and Archaeology focuses on how visual and material culture shaped and were shaped by Greek society (religion, politics, military, economy, gender, etc.) from the Bronze Age through the Hellenistic period. Masterpieces of Greek art are analyzed alongside the material remains of everyday Greek in civic and domestic spaces. Prerequisite: ARHS 2913. (Typically offered: Spring and Summer Odd Years)
This course is cross-listed with CLST 4413.

ARHS 4413H. Honors Greek Art and Archaeology. 3 Hours.
Greek Art and Archaeology focuses on how visual and material culture shaped and were shaped by Greek society (religion, politics, military, economy, gender, etc.) from the Bronze Age through the Hellenistic period. Masterpieces of Greek art are analyzed alongside the material remains of everyday Greeks in civic and domestic spaces. Prerequisite: ARHS 2913 and honors standing. (Typically offered: Spring and Summer Odd Years)
This course is cross-listed with CLST 4413, ARHS 4413.

ARHS 4423. Roman Art and Archaeology. 3 Hours.
Roman Art and Archaeology focuses on how visual and material culture shaped and were shaped by Roman society (religion, politics, economy, gender, ethnicity, etc.) from the Iron Age through the Late Antique period. We encounter famous masterpieces, but also the material remains of everyday Romans in civic and domestic spaces. Prerequisite: ARHS 2913. (Typically offered: Spring and Summer Even Years)
This course is cross-listed with CLST 4423, ARHS 4423.

ARHS 4423H. Honors Roman Art and Archaeology. 3 Hours.
Roman Art and Archaeology focuses on how visual and material culture shaped and were shaped by Roman society (religion, politics, economy, gender, ethnicity, etc.) from the Iron Age through the Late Antique period. We encounter famous masterpieces, but also the material remains of everyday Romans in civic and domestic spaces. Prerequisite: ARHS 2913 and honors standing. (Typically offered: Spring and Summer Even Years)
This course is cross-listed with CLST 4423, ARHS 4423.

ARHS 451V. Internship in Art History. 1-3 Hour.
Credit for practical experience gained through an internship in art history. Report required from intern and field supervisor on significant accomplishments and/or progress. Prerequisite: 9 hours of ARHS courses. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ARHS 4563. Pre-Columbian Art. 3 Hours.
An introduction to pre-Columbian art from Mexico (3000 BC-1521 AD) through a survey of works of art from different media: sculpture, architecture, and mural painting. Topics examined include: sacred images, political uses of sculpture, architecture and cosmogony, as well as the relationship between the material and content. (Typically offered: Irregular)
ARHS 4563H. Honors Pre-Columbian Art. 3 Hours.
An introduction to pre-Columbian art from Mexico (3000 BC-1521 AD) through a survey of works of art from different media: sculpture, architecture, and mural painting. Topics examined include: sacred images, political uses of sculpture, architecture and cosmogony, as well as the relationship between the material and content. (Typically offered: Irregular)
This course is equivalent to ARHS 4563.

ARHS 4573. Artists of New Spain. 3 Hours.
An overview of colonial art in colonial New Spain. Focused on native agency, social function of art, and cross-cultural communication. Topics include indigenous materials and techniques, the use of images in legal contexts, and ritual liturgy. Some consideration will be given to artworks from the viceroyalty of Peru. (Typically offered: Irregular)

ARHS 4573H. Honors Artists of New Spain. 3 Hours.
An overview of colonial art in colonial New Spain. Focused on native agency, social function of art, and cross-cultural communication. Topics include indigenous materials and techniques, the use of images in legal contexts, and ritual liturgy. Some consideration will be given to artworks from the viceroyalty of Peru. (Typically offered: Irregular)
This course is equivalent to ARHS 4573.

ARHS 4613. African Art and Society. 3 Hours.
Situates the artistic production of modern Africa (1800-present) within a socio-cultural framework, taking into consideration the role of the artist, the methods of production, the relationship between form and function, and the impact of geopolitical shifts (including intercontinental trade, colonialization, and globalization) on the artistic practice. Prerequisite: ARHS 2923. (Typically offered: Irregular)

ARHS 4613H. Honors African Art and Society. 3 Hours.
Situates the artistic production of modern Africa (1800-present) within a socio-cultural framework, taking into consideration the role of the artist, the methods of production, the relationship between form and function, and the impact of geopolitical shifts (including intercontinental trade, colonialization, and globalization) on the artistic practice. Prerequisite: ARHS 2923 and honors standing. (Typically offered: Irregular)
This course is equivalent to ARHS 4613.

ARHS 4623. African American Art History. 3 Hours.
Surveys African American art from the seventeenth century to the present. It begins with a discussion of the transatlantic slave trade and it examines art produced in what Pratt terms the ‘contact zones.’ It then follows developments in African American art from the Antebellum Period to the present. Prerequisite: ARHS 2923. (Typically offered: Irregular)

ARHS 4623H. Honors African American Art History. 3 Hours.
Surveys African American art from the seventeenth century to the present. It begins with a discussion of the transatlantic slave trade and it examines art produced in what Pratt terms the ‘contact zones.’ It then follows developments in African American art from the Antebellum Period to the present. Prerequisite: ARHS 2923 and honors standing. (Typically offered: Irregular)
This course is equivalent to ARHS 4623.

ARHS 4633. Contemporary African Art. 3 Hours.
Serves as a forum for the study of contemporary African art. It situates African art from the 1980s to the present within a historic context, addressing the impact of geopolitical ruptures on artistic practices, and it examines how the work operates across different intellectual, political, and geographical spheres. Prerequisite: ARHS 2923. (Typically offered: Irregular)

ARHS 4633H. Honors Contemporary African Art. 3 Hours.
Serves as a forum for the study of contemporary African art. It situates African art from the 1980s to the present within a historic context, addressing the impact of geopolitical ruptures on artistic practices, and it examines how the work operates across different intellectual, political, and geographical spheres. Prerequisite: ARHS 2923 and honors standing. (Typically offered: Irregular)
This course is equivalent to ARHS 4633.

ARHS 4733. Honors Saint Peter’s and the Vatican. 3 Hours.
Examines art and the architectural history of St. Peter’s Basilica in Rome from antiquity to present. Emphasis on the Renaissance/Baroque church and its early Christian predecessor. Students consider the impact of devotional practices and papal politics on the church, the Vatican Palace, and its renown artworks including the Sistine ceiling. Prerequisite: ARHS 2913 and ARHS 2923 and honors standing. (Typically offered: Irregular)
This course is equivalent to ARCH 4863.

ARHS 4743. Medieval Architecture. 3 Hours.
Traces the history of architecture in Western Europe from c. 300 - 1400. Focus is predominantly, though not exclusively, on the history of Christian architecture. Major architectural sites studied include: the early Christian basilicas in Rome, the towered churches of Carolingian emperors, Romanesque monasteries, and Gothic cathedrals. Prerequisite: ARHS 2913 or ARCH 4433 (Typically offered: Irregular)

ARHS 4753. Renaissance and Baroque Architecture. 3 Hours.
Study of Renaissance and Baroque architecture in Europe and the New World from 1400 to 1700. With reference to an array of texts, drawings, and edifices, this course charts the evolution of a commanding Western architectural tradition with close attention to social, humanistic, and religious contexts. Prerequisite: ARHS 2923 or ARCH 4433. (Typically offered: Irregular)

ARHS 4763. Seminar in Critical Theory. 3 Hours.
Study of critical theory as it relates to problems in modern and contemporary art. Prerequisite: Nine credit hours of ARHS coursework. (Typically offered: Spring)

ARHS 4763H. Honors Seminar in Critical Theory. 3 Hours.
Study of critical theory as it relates to problems in modern and contemporary art. Prerequisite: Nine credit hours of ARHS coursework. (Typically offered: Spring)
This course is equivalent to ARHS 4763.

ARHS 4773. History of New Media Art. 3 Hours.
Examines the history of ‘new media’ art in relation to larger shifts in technology, philosophy and politics. Beginning in the 19th century, the course explores the development of photography, film, video, performance, sound and digital art through the 20th century. Culminates with an examination of contemporary practice. Prerequisite: ARHS 2923 and 3 hours of 3000 level and above art history coursework. (Typically offered: Irregular)

ARHS 4773H. Honors History of New Media Art. 3 Hours.
Examines the history of ‘new media’ art in relation to larger shifts in technology, philosophy and politics. Beginning in the 19th century, the course explores the development of photography, film, video, performance, sound and digital art through the 20th century. Culminates with an examination of contemporary practice. Prerequisite: ARHS 2923, honors standing and 3 hours of 3000 level and above art history coursework. (Typically offered: Irregular)
This course is equivalent to ARHS 4773.

ARHS 4783. Special Topics in Contemporary Art. 3 Hours.
Examines specialized topics within the field of contemporary art, with special attention to cutting-edge issues confronting artists today. Prerequisite: ARHS 2923. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.
ARHS 4783H. Honors Special Topics in Contemporary Art. 3 Hours.
Examines specialized topics within the field of contemporary art, with special
text to cutting-edge issues confronting artists today. Prerequisite: ARHS 2923
and honors standing. (Typically offered: Irregular) May be repeated for up to 9 hours
of degree credit.
This course is equivalent to ARHS 4783.

ARHS 4793. Making the Museum: History, Theory and Practice. 3 Hours.
Presents a broad overview of the institutional history and the contemporary
professional practice of the museum world. Features numerous visiting lectures
from a working professionals from the local area and nationwide institutions.
Prerequisite: Any 3 credit hour, 3000 level or higher art history course. (Typically
offered: Irregular)

ARHS 4813. The History of Photography. 3 Hours.
Survey of photography from 1685 to present. (Typically offered: Irregular)

ARHS 4823. History of Graphic Design. 3 Hours.
Survey of graphic design history from 1850 to the present. Prerequisite: ARHS 2923.
(Typically offered: Spring)

ARHS 4823H. Honors History of Graphic Design. 3 Hours.
Survey of graphic design history from 1850 to the present. Prerequisite: Honors
standing and ARHS 2923. (Typically offered: Spring)
This course is equivalent to ARHS 4823.

ARHS 4833. Ancient Art. 3 Hours.
Study of selections from the visual arts of Mesopotamia, Egypt, Greece, or Rome.
Prerequisite: ARHS 2913. (Typically offered: Irregular)

ARHS 4833H. Honors Ancient Art. 3 Hours.
Study of selections from the visual arts of Mesopotamia, Egypt, Greece, or Rome.
Prerequisite: ARHS 2913. (Typically offered: Irregular)
This course is equivalent to ARHS 4833.

ARHS 4843. Medieval Art. 3 Hours.
Study of Early Christian, Byzantine, Early Medieval, Romanesque, and Gothic styles.
Prerequisite: ARHS 2913. (Typically offered: Irregular)

ARHS 4843H. Honors Medieval Art. 3 Hours.
Study of Early Christian, Byzantine, Early Medieval, Romanesque, and Gothic styles.
Prerequisite: ARHS 2913. (Typically offered: Irregular)
This course is equivalent to ARHS 4843.

ARHS 4853. Italian Renaissance Art. 3 Hours.
Study of Proto-Renaissance, Early, High Renaissance, and Manierist styles in Italy.
Prerequisite: ARHS 2923. (Typically offered: Irregular)

ARHS 4853H. Honors Italian Renaissance Art. 3 Hours.
Study of Proto-Renaissance, Early, High Renaissance, and Manierist styles in Italy.
Prerequisite: ARHS 2923. (Typically offered: Irregular)
This course is equivalent to ARHS 4853.

ARHS 4863. Northern Renaissance Art. 3 Hours.
Study of Late Gothic and Renaissance styles in the Netherlands, Germany, and
France. Prerequisite: ARHS 2923. (Typically offered: Irregular)

ARHS 4863H. Honors Northern Renaissance Art. 3 Hours.
Study of Late Gothic and Renaissance styles in the Netherlands, Germany, and
France. Prerequisite: ARHS 2923. (Typically offered: Irregular)
This course is equivalent to ARHS 4863.

ARHS 4873. Baroque Art. 3 Hours.
Study of art styles of the 17th century, primarily in Italy, Spain, France, Flanders, and
the Netherlands. Prerequisite: ARHS 2923. (Typically offered: Irregular)

ARHS 4873H. Honors Baroque Art. 3 Hours.
Study of art styles of the 17th century, primarily in Italy, Spain, France, Flanders, and
the Netherlands. Prerequisite: ARHS 2923. (Typically offered: Irregular)
This course is equivalent to ARHS 4873.

ARHS 4883. 18th and 19th Century European Art. 3 Hours.
Study of eighteenth- and nineteenth-century art and architecture in Europe.
Prerequisite: ARHS 2923. (Typically offered: Irregular)

ARHS 4883H. Honors 18th and 19th Century European Art. 3 Hours.
Study of eighteenth and nineteenth century art and architecture in Europe.
Prerequisite: ARHS 2923. (Typically offered: Irregular)
This course is equivalent to ARHS 4883.

ARHS 4893. 20th Century European Art. 3 Hours.
Study of the major styles and movements of the century, including Cubism, Fauvism,
German Expressionism, and Surrealism. Prerequisite: ARHS 2923. (Typically
offered: Irregular)

ARHS 490VH. Honors Thesis in Art History. 1-6 Hour.
Special problems in art history. Prerequisite: Junior standing. (Typically offered: Fall,
Spring and Summer) May be repeated for up to 12 hours of degree credit.

ARHS 4913. American Art to 1860. 3 Hours.
The visual arts in the United States from Colonial times through 1860. Prerequisite:
ARHS 2923. (Typically offered: Irregular)

ARHS 4913H. Honors American Art to 1860. 3 Hours.
The visual arts in the United States from Colonial times through 1860. Prerequisite:
ARHS 2923. (Typically offered: Irregular)
This course is equivalent to ARHS 4913.

ARHS 4923. American Art 1860-1960. 3 Hours.
The visual arts in the United States from the onset of the American Civil War through
the Cold War Era. Prerequisite: ARHS 2923. (Typically offered: Irregular)

ARHS 4923H. Honors American Art 1860 - 1960. 3 Hours.
The visual arts in the United States from the onset of the American Civil War through
the Cold War Era. Prerequisite: ARHS 2923. (Typically offered: Irregular)
This course is equivalent to ARHS 4923.

ARHS 4933. Contemporary Art. 3 Hours.
Study of styles and major trends in the visual arts since 1960. Prerequisite:
ARHS 2923. (Typically offered: Fall)

ARHS 4933H. Honors Contemporary Art. 3 Hours.
Study of styles and major trends in the visual arts since 1960. Prerequisite:
ARHS 2923 and ARHS 4923. (Typically offered: Fall)
This course is equivalent to ARHS 4933.

ARHS 4953. Art Museum Studies. 3 Hours.
A survey of the history and function of the art museum and an introduction
to museum work. Investigation of collections and collections management,
conservation, exhibitions, education and public programs, museum management,
and contemporary issues which effect the museum profession. Prerequisite:
ARHS 2913 and ARHS 2923, or graduate Art MFA standing. (Typically offered:
Irregular)

ARHS 4963. Individual Research in Art History. 3 Hours.
Independent study in specific areas of art history and criticism. Prerequisite: 12
hours of Art History and permission of instructor. (Typically offered: Fall and Spring)

ARHS 4963H. Honors Individual Research in Art History. 3 Hours.
Independent study in specific areas of art history and criticism. Prerequisite: 12
hours of Art History and permission of instructor. (Typically offered: Fall and Spring)
This course is equivalent to ARHS 4963.

ARHS 4973. Seminar in Art History. 3 Hours.
Special studies of periods and styles of art. Prerequisite: 9 hours of Art History.
(Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.
ARHS 4983. Special Topics in Art History. 3 Hours.
Subject matter not covered in regularly offered courses, and relating to the history of art before the nineteenth century. May be repeated for different topics. Prerequisite: ARHS 2913 or ARHS 2923. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ARHS 4983H. Honors Special Topics in Art History. 3 Hours.
Subject matter not covered in regularly offered courses, and relating to the history of art before the nineteenth century. May be repeated for different topics. Prerequisite: ARHS 2913 or ARHS 2923. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

This course is equivalent to ARHS 4983.

ARHS 4993. Special Topics in Modern Art. 3 Hours.
Subject matter not covered in regularly offered courses, and relating to the history of art from the nineteenth century to the present. May be repeated for different topics. Prerequisite: ARHS 2923. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ARHS 5013. Case Studies in Art History. 3 Hours.
This class provides in-depth studies of selected artists, themes, or specific groups of art works. This course is only offered during intersession. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ARHS 5563. Pre-Columbian Art. 3 Hours.
An introduction to pre-Columbian art from Mexico (3000 BC- 1521 AD) through a survey of works of art from different media: sculpture, architecture, and mural painting. Topics examined include: sacred images, political uses of sculpture, architecture and cosmogony, as well as the relationship between the material and content. (Typically offered: Irregular)

Some consideration will be given to artworks from the viceroyalty of Peru. (Typically offered: Irregular)

ARHS 5763. Seminar in Critical Theory. 3 Hours.
(Formerly ARHS 4763.) Study of critical theory as it relates to problems in modern and contemporary art. Graduate degree credit will not be given for both ARHS 4763 and ARHS 5763. (Typically offered: Spring)

ARHS 5773. History of New Media Art. 3 Hours.
(Formerly ARHS 4773.) Examines the history of ‘new media’ art in relation to larger shifts in technology, philosophy and politics. Beginning in the 19th century, the course explores the development of photography, film, video, performance, sound and digital art through the 20th century. Culminates with an examination of contemporary practice. Graduate degree credit will not be given for both ARHS 4773 and ARHS 5773. (Typically offered: Irregular)

ARHS 5833. Ancient Art. 3 Hours.
(Formerly ARHS 4833.) Study of selections from the visual arts of Mesopotamia, Egypt, Greece, or Rome. Graduate degree credit will not be given for both ARHS 4833 and ARHS 5833. (Typically offered: Irregular)

ARHS 5843. Medieval Art. 3 Hours.
(Formerly ARHS 4843.) Study of Early Christian, Byzantine, Early Medieval, Romanesque, and Gothic styles. Graduate degree credit will not be given for both ARHS 4843 and ARHS 5843. (Typically offered: Irregular)

ARHS 5853. Italian Renaissance Art. 3 Hours.
(Formerly ARHS 4853.) Study of Proto-Renaissance, Early, High Renaissance, and Mannerist styles in Italy. Graduate degree credit will not be given for both ARHS 4853 and ARHS 5853. (Typically offered: Irregular)

ARHS 5863. Northern Renaissance Art. 3 Hours.
(Formerly ARHS 4863.) Study of Late Gothic and Renaissance styles in the Netherlands, Germany, and France. Graduate degree credit will not be given for both ARHS 4863 and ARHS 5863. (Typically offered: Irregular)

ARHS 5873. Baroque Art. 3 Hours.
(Formerly ARHS 4873.) Study of art styles of the 17th century, primarily in Italy, Spain, France, Flanders, and the Netherlands. Graduate degree credit will not be given for both ARHS 4873 and ARHS 5873. (Typically offered: Irregular)

ARHS 5883. 18th and 19th Century European Art. 3 Hours.
(Formerly ARHS 4883.) Study of eighteenth- and nineteenth-century art and architecture in Europe. Graduate degree credit will not be given for both ARHS 4883 and ARHS 5883. (Typically offered: Irregular)

ARHS 5893. 20th Century European Art. 3 Hours.
(Formerly ARHS 4893.) Study of the major styles and movements of the century, including Cubism, Fauvism, German Expressionism, and Surrealism. Graduate degree credit will not be given for both ARHS 4893 and ARHS 5893. (Typically offered: Irregular)

ARHS 5913. American Art to 1860. 3 Hours.
(Formerly ARHS 4913.) The visual arts in the United States from Colonial times through 1860. Graduate degree credit will not be given for both ARHS 4913 and ARHS 5913. (Typically offered: Irregular)

ARHS 5923. American Art 1860-1960. 3 Hours.
(Formerly ARHS 4923.) The visual arts in the United States from the onset of the American Civil War through the Cold War Era. Graduate degree credit will not be given for both ARHS 4923 and ARHS 5923. (Typically offered: Irregular)

ARHS 5933. Contemporary Art. 3 Hours.
(Formerly ARHS 4933.) Study of styles and major trends in the visual arts since 1960. Graduate degree credit will not be given for both ARHS 4933 and ARHS 5933. (Typically offered: Fall)

ARHS 5953. Art Museum Studies. 3 Hours.
(Formerly ARHS 4953.) A survey of the history and function of the art museum and an introduction to museum work. Investigation of collections and collections management, conservation, exhibitions, education and public programs, museum management, and contemporary issues which effect the museum profession. Graduate degree credit will not be given for both ARHS 4953 and ARHS 5953. Prerequisite: ARHS 2913 and ARHS 2923, or graduate Art MFA standing. (Typically offered: Fall)

ARHS 5973. Seminar in Art History. 3 Hours.
(Formerly ARHS 4973.) Special studies of periods and styles of art. Graduate degree credit will not be given for both ARHS 4973 and ARHS 5973. Prerequisite: 9 hours of Art History. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.
ARHS 5983. Special Topics in Art History. 3 Hours.  
(Formerly ARHS 4983.) Subject matter not covered in regularly offered courses, and relating to the history of art before the nineteenth century. May be repeated for different topics. Graduate degree credit will not be given for both ARHS 4983 and ARHS 5983. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ARHS 5993. Special Topics in Modern Art. 3 Hours.  
(Formerly ARHS 4993.) Subject matter not covered in regularly offered courses, and relating to the history of art from the nineteenth century to the present. May be repeated for different topics. Graduate degree credit will not be given for both ARHS 4993 and ARHS 5993. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ARHS 6413. Greek Art and Archaeology. 3 Hours.  
Greek Art and Archaeology focuses on how visual and material culture shaped and were shaped by Greek society (religion, politics, military, economy, gender, etc.) from the Bronze Age through the Hellenistic period. Masterpieces of Greek art are analyzed alongside the material remains of everyday Greeks in civic and domestic spaces. (Typically offered: Spring Odd Years)

ARHS 6423. Roman Art and Archaeology. 3 Hours.  
Roman Art and Archaeology focuses on how visual and material culture shaped and were shaped by Roman society (religion, politics, economy, gender, ethnicity, etc.) from the Iron Age through the Late Antiquity period. We encounter famous masterpieces, but also the material remains of everyday Romans in civic and domestic spaces. (Typically offered: Spring Even Years)

ARHS 6613. African Art and Society. 3 Hours.  
Situates the artistic production of modern Africa (1800-present) within a socio-cultural framework, taking into consideration the role of the artist, the methods of production, the relationship between form and function, and the impact of geopolitical shifts (including intercontinental trade, colonization, and globalization) on the artistic practice. (Typically offered: Irregular)

ARHS 6623. African American Art History. 3 Hours.  
Surveys African American art from the seventeenth century to the present. It begins with a discussion of the transatlantic slave trade and it examines art produced in what Pratt terms the 'contact zones'. It then follows developments in African American art from the Antebellum Period to the present. (Typically offered: Irregular)

ARHS 6633. Contemporary African Art. 3 Hours.  
Serves as a forum for the study of contemporary African art. It situates African art from the 1980s to the present within a historic context, addressing the impact of geopolitical ruptures on artistic practices, and it examines how the work operates across different intellectual, political, and geographical spheres. (Typically offered: Irregular)

ARHS 6783. Special Topics in Contemporary Art. 3 Hours.  
Examines specialized topics within the field of contemporary art, with special attention to cutting-edge issues confronting artists today. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ARHS 6933. Graduate Research in Art History. 3 Hours.  
Independent study in specific areas of art history and criticism. (Typically offered: Irregular)

Arts and Sciences (ARSC) Courses

ARSC 1201. Inquiry Approaches to Teaching: UAteach Step I. 1 Hour.  
For students exploring teaching as a career. Following an introduction to the theory and practice behind inquiry-based science and mathematics instruction, students teach lessons in elementary classrooms to obtain firsthand experience in planning and implementation. (Typically offered: Fall and Spring)

ARSC 1221. Inquiry-Based Lesson Design: UAteach Step II. 1 Hour.  
For students exploring teaching as a career. Following an introduction to the theory and practice behind inquiry-based science and mathematics instruction, students teach lessons in elementary classrooms to obtain firsthand experience in planning and implementation. Prerequisite: ARSC 1201. (Typically offered: Fall and Spring)

ARSC 1600. Undergraduate Research Assistant. 0 Hours.  
Undergraduate research. (Typically offered: Fall, Spring and Summer)

ARSC 2600. Undergraduate Research Assistant. 0 Hours.  
Undergraduate research. (Typically offered: Fall, Spring and Summer)

ARSC 3013. Fulbright College Career Connections. 3 Hours.  
This course teaches students how to capitalize on their strengths, skills, experience, professional connections, and academic discipline. Key components of this course are guest lectures from on-campus and off-campus professionals, interactive group activities to practice professional skills, and the creation of an online portfolio. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring)

ARSC 310V. Fulbright College Elective Internship. 1-3 Hour.  
Available to students completing an internship that aligns with their career goals and/or their area of study. Credit-only course that may be repeated for up to 6 hours of elective degree credit. Prerequisite: Instructor consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ARSC 3600. Undergraduate Research Assistant. 0 Hours.  
Undergraduate research. (Typically offered: Fall, Spring and Summer)

ARSC 4600. Undergraduate Research Assistant. 0 Hours.  
Undergraduate research. (Typically offered: Fall, Spring and Summer)

Asian Studies (AIST) Courses

AIST 3103. Chinese Culture through Film. 3 Hours.  
Explores Chinese culture through the lens of Chinese films with an emphasis on contemporary communicative culture. Designed to give students analytical insights into Chinese culture, especially how its language, history, philosophy, society, education, customs, family values, and gender roles shape contemporary culture and people’s communication. (Typically offered: Fall and Spring) This course is cross-listed with CHIN 3103.

AIST 3273. Sociology of China. 3 Hours.  
This class offers a sociological account of China, including both its social ethos and the experience of Chinese Americans in the United States. (Typically offered: Fall) This course is cross-listed with SOCI 3273.

AIST 3503. Government and Politics of East Asia. 3 Hours.  
Comparative analysis of structures, processes, and problems of the political systems of the Democratic Republic of Vietnam, Japan, and the Peoples Republic of China. Prerequisite: PLSC 2013. (Typically offered: Fall and Spring) This course is cross-listed with PLSC 3503.

AIST 3533. World War II. 3 Hours.  
This course explores broad themes such as imperialism, colonialism, nationalism, transnationalism, and racism by placing WWII in the context of the build-up of tensions between China, the Japanese Empire, and the United States starting in the nineteenth century. (Typically offered: Spring) This course is cross-listed with HIST 3533.

AIST 3633. Modern Japan. 3 Hours.  
This course exposes students to the rapid transformations in Japan from the mid-nineteenth century through to their rise into an important player in global politics. Students will be familiarized with the narrative history of the Japanese home islands as well as the place of Japan in the context of world events and global currents. (Typically offered: Fall) This course is cross-listed with HIST 3633.
Astronomy (ASTR)

**Courses**

**ASTR 2001L. Survey of the Universe Laboratory (ACTS Equivalency = PHSC 1204 Lab).** 1 Hour.
Daytime and nighttime observing with telescopes and indoor exercises on selected topics. Pre- or Corequisite: ASTR 2001. (Typically offered: Fall, Spring and Summer)

**ASTR 2003. Survey of the Universe (ACTS Equivalency = PHSC 1204 Lecture).** 3 Hours.
An introduction to the content and fundamental properties of the cosmos. Topics include planets and other objects of the solar system, the Sun, normal stars and interstellar medium, birth and death of stars, neutron stars, pulsars, black holes, the Galaxy, clusters of galaxies, and cosmology. Corequisite: ASTR 2001L or ASTR 2001M. (Typically offered: Fall, Spring and Summer)

**ASTR 2003H. Honors Survey of the Universe.** 3 Hours.
An introduction to the content and fundamental properties of the cosmos. Topics include planets and other objects of the solar system, the Sun, normal stars and interstellar medium, birth and death of stars, neutron stars, pulsars, black holes, the Galaxy, clusters of galaxies, and cosmology. Corequisite: ASTR 2001M. (Typically offered: Fall)
This course is equivalent to ASTR 2003.

**ASTR 4033. Astrophysics I: Stars and Planetary Systems.** 3 Hours.
An introduction to astrophysics covering stellar structure and evolution, the properties of the solar system, and extrasolar planetary systems. Pre-requisite: PHYS 3613 or CHEM 3504. (Typically offered: Fall Odd Years)

**ASTR 4043. Astrophysics II: Galaxies and the Large-Scale Universe.** 3 Hours.
An introduction to astrophysics covering the interstellar medium, the Milky Way galaxy, extragalactic astronomy, and introduction to cosmology. Prerequisite: ASTR 4033. (Typically offered: Spring Even Years)

**ASTR 4073. Cosmology.** 3 Hours.
An introduction to modern Big Bang cosmology. The course covers the origin, evolution, and structure of the Universe, based on the Theory of Relativity. Pre-requisite: PHYS 3613 or CHEM 3504. (Typically offered: Spring Odd Years)

**ASTR 4083. Data Analysis and Computing in Astronomy.** 3 Hours.
Study of the statistical analysis of large data sets that are prevalent in the physical sciences with an emphasis on astronomical data and problems. Includes computational lab 1 hour per week. Corequisite: Lab component. Pre-requisite: PHYS 3613. (Typically offered: Fall Even Years)

**ASTR 5033. Astrophysics I: Stars and Planetary Systems.** 3 Hours.
An introduction to astrophysics covering stellar structure and evolution, the properties of the solar system, and extrasolar planetary systems. (Typically offered: Fall Odd Years)
This course is cross-listed with SPAC 5033.

**ASTR 5043. Astrophysics II: Galaxies and the Large-Scale Universe.** 3 Hours.
An introduction to astrophysics covering the interstellar medium, the Milky Way galaxy, extragalactic astronomy, and introduction to cosmology. Prerequisite: ASTR 5033 or SPAC 5033. (Typically offered: Spring Even Years)

**ASTR 5073. Cosmology.** 3 Hours.
An introduction to modern physical cosmology covering the origin, evolution, and structure of the Universe, based on the Theory of Relativity. (Typically offered: Spring Odd Years)

**ASTR 5083. Data Analysis and Computing in Astronomy.** 3 Hours.
Study of the statistical analysis of large data sets that are prevalent in the physical sciences with an emphasis on astronomical data and problems. Includes computational lab 1 hour per week. Corequisite: Lab component. (Typically offered: Fall Even Years)

**ASTR 5523. Theory of Relativity.** 3 Hours.
Conceptual and mathematical structure of the special and general theories of relativity with selected applications. Critical analysis of Newtonian mechanics; relativistic mechanics and electrodynamics; tensor analysis; continuous media; and gravitational theory. (Typically offered: Fall Even Years)
ATTR 5223. Athletic Training Clinical II - Emergency Procedures. 3 Hours.
This course will serve as a process for monitoring student's progression of athletic training competencies, acquire clinical hours under the direct supervision of a certified athletic trainer, and reinforce and instruct new emergency procedures. Corequisite: ATTR 5213. (Typically offered: Summer)

ATTR 5232. Athletic Training Clinical III - Lower Extremity Evaluation. 2 Hours.
This course will serve as a process for monitoring student's progression of athletic training competencies, acquire clinical hours under the direct supervision of a certified athletic trainer, and reinforce the evaluation skills of gait, lower extremity, and spine/pelvis. Prerequisite: ATTR 5223. (Typically offered: Fall)

ATTR 5242. Athletic Training Clinical IV - Evaluation of Upper Extremity. 2 Hours.
This course will serve as a process for monitoring student's progression of athletic training competencies, acquire clinical hours under the direct supervision of a certified athletic trainer, and reinforce the evaluation skills of the upper extremities, head, neck, and posture. Prerequisite: ATTR 5232. (Typically offered: Spring)

ATTR 5253. Professionalism in Athletic Training. 3 Hours.
This course has dual purposes: to educate students on athletic training educational competencies related to professionalism and professional responsibility in the field of athletic training; and to provide an immersive clinical experience under the direct supervision of a preceptor as required by the accrediting body. Students will engage with content about professionalism in both the course material and the clinical experience. (Typically offered: Summer)

ATTR 5262. Athletic Training Clinical V - Rehabilitation Lab. 2 Hours.
This course will serve as a process for monitoring student's progression of athletic training competencies, acquire clinical hours under the direct supervision of a certified athletic trainer, and reinforce techniques and applications of therapeutic exercise and rehabilitation. (Typically offered: Fall)

ATTR 5272. Athletic Training Clinical VI - Athletic Training Seminar. 2 Hours.
This course will serve as a process for monitoring student's progression of athletic training competencies, acquire clinical hours under the direct supervision of a certified athletic trainer, and serve as a capstone course validating the athletic training clinical proficiencies and prepare students for the NATABOC certification exam and future employment. Prerequisite: ATTR 5262. (Typically offered: Spring)

ATTR 5313. Clinical Anatomy for Athletic Trainers. 3 Hours.
Instruction of human anatomy for the athletic training professional using lecture, diagrams, textbook readings, and demonstrations. Focus will be placed on anatomy of structures related to athletic injuries; and can be used in the evaluation, treatment, and rehabilitation of injuries in a variety of athletic training settings. Prerequisite: Acceptance into the graduate athletic training program or instructor consent. (Typically offered: Summer)

ATTR 5363. Evaluation Techniques of Athletic Injuries - Upper Extremity. 3 Hours.
Use of scientific assessment methods to recognize and evaluate the nature and severity of athletic injuries to the upper extremities, trunk, and head. Prerequisite: Admission to graduate athletic training program. (Typically offered: Spring)

ATTR 5373. Evaluation Techniques of Athletic Injuries - Lower Extremity. 3 Hours.
Use of scientific assessment methods to recognize and evaluate the nature and severity of athletic injuries to the hip and lower extremities. Prerequisite: Admission to graduate athletic training program. (Typically offered: Fall)

ATTR 5403. Pathophysiology and Treatment I. 3 Hours.
This course will provide knowledge, skills, and values that the entry-level athletic trainer must possess to prevent, recognize, treat, advise on medications for and, when appropriate, refer general medical conditions and disabilities of physically active individuals. Prerequisite: Admission to the athletic training program. (Typically offered: Spring)

ATTR 5413. Pathophysiology and Treatment II. 3 Hours.
This course will provide knowledge, skills, and values that the entry-level athletic trainer must possess to prevent, recognize, treat, advise on medications for and, when appropriate, refer general medical conditions and disabilities of physically active individuals. Prerequisite: ATTR 5403. (Typically offered: Fall)

ATTR 5453. Therapeutic Modalities in Athletic Training. 3 Hours.
Contemporary therapeutic modalities used in managing athletic injuries. Modalities covered are classified as thermal agents, electrical agents, or mechanical agents. Emphasis is placed on their physiological effects, therapeutic indications (and contraindications), and clinical application. Prerequisite: Admission to graduate athletic training program. (Typically offered: Fall)

ATTR 5463. Therapeutic Exercise and Rehabilitation of Athletic Injuries. 3 Hours.
A systematic approach to exercise program development, techniques, indications and contraindications of exercise, and progression as related to athletic injury, prevention, and return to play guidelines. Prerequisite: Admission to graduate athletic training program. (Typically offered: Fall)

ATTR 5473. Administration in Athletic Training. 3 Hours.
Administrative components of athletic training. Basic concepts of legal liability, leadership and management principles, financial management, day to day scheduling and supervision, maintenance, and general administration. Prerequisite: Admission to graduate athletic training program. (Typically offered: Summer)

ATTR 5483. Medical Conditions in Athletic Training. 3 Hours.
This course will provide a collection of knowledge, skills, and values that the entry-level certified athletic trainer must possess to recognize, treat, and refer, when appropriate, the general medical conditions and disabilities of athletes and others involved in physical activity. Prerequisite: Admission to the graduate athletic training program or permission of instructor. (Typically offered: Fall)

ATTR 5493. Evidence-Based Practice in Athletic Training. 3 Hours.
In-depth analysis of current literature, research, case studies, and musculoskeletal evaluation and rehabilitation directed toward musculoskeletal injuries of the physically active. Prerequisite: Admission into the Athletic Training Education Program. (Typically offered: Summer)

**Biological Engineering (BENG) Courses**

BENG 2632. Biological Engineering Design Studio. 2 Hours.
Application of the engineering design process to projects involving living systems. Projects are team-based open-ended design with hands-on construction and testing of design prototypes. Emphasis is placed on understanding, quantifying and controlling complex interacting living systems involving humans, animals, plants and microbes with the goal of creating economically and ecologically sustainable systems. 4 hours of design studio per week. Pre- or Corequisite: PHYS 2054 and BIOL 1543 and BIOL 1541L, and (GNEG 1111 or GNEG 1103). (Typically offered: Fall)

BENG 2643. Biological Engineering Methods I. 3 Hours.
BENG 3113. Measurement and Control for Biological Systems. 3 Hours.
Principles of sensors, instruments, measurements, controls, and data acquisition systems, with emphasis on applications for biological systems; including basic circuit analysis, sensor calibration and hardware selection. Basic process monitoring and control methods, including hardware and software. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: PHYS 2074. (Typically offered: Spring)

BENG 3113H. Honors Measurement and Control for Biological Systems. 3 Hours.
Principles of sensors, instruments, measurements, controls, and data acquisition systems, with emphasis on applications for biological systems; including basic circuit analysis, sensor calibration and hardware selection. Basic process monitoring and control methods, including hardware and software. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: PHYS 2074 and honors candidacy. (Typically offered: Spring)

This course is equivalent to BENG 3113.

BENG 3653. Global Bio-Energy Engineering. 3 Hours.
Global energy sources with a focus on renewable energy, solar and biomass derived fuels. Biomass energy production from crops and organic residues or waste products. Conversion of biomass to usable fuels. Utilization of renewable energy in society. Includes detailed systems analyses to examine inputs, efficiencies, usable outputs and by-products. Systems design to select and integrate components which meet client needs while maximizing sustainable global impacts. Three hours of lecture per week. Pre- or Corequisite: MEEG 2403 or CHEG 2313. (Typically offered: Fall)

BENG 3663. Biological Engineering Methods II. 3 Hours.
Modeling biological processes to predict system behavior as part of the design process. Development and use of spreadsheets and script programming code to represent biological phenomena and processes. Introduction to experimental design as applied to biological processes, including data collection and analysis, and elementary statistics. Use of engineering economics to aid comparisons of alternatives. Analysis of engineering designs and management practices to best meet the needs of society and the client in areas of sustainable water, food and energy systems. Lecture 2 hours and lab 3 hours per week. Corequisite: Lab component. Prerequisite: MEEG 2403 or CHEG 2313. (Typically offered: Fall)

BENG 3723. Unit Operations in Biological Engineering. 3 Hours.
Design of basic unit operations typical of biological engineering practice; unit operations include pump-pipe, fan-duct, moist air (psychrometric) processes (cool/heater/humidifier/dryer), air mixing, aeration, and refrigeration; unit operations design will account for unique constraints imposed by biological systems. Lecture 2 hours and lab 3 hours per week. Corequisite: Lab component. Prerequisite: (MEEG 2403 or CHEG 2313) and (CVEG 3213 or CHEG 2133 or MEEG 3503). (Typically offered: Spring)

BENG 3733. Transport Phenomena in Biological Systems. 3 Hours.
Basic principles governing transport of energy and mass. Estimating transfer of energy (heat) through solid bodies and liquid/gas boundary layers through convection, conduction, and radiation. Modeling the rates at which biological reactions occur (kinetics). Estimating the transfer of diffusing mass (gas or liquid) through solid bodies and liquid/gas boundary layers, including processes such as drying and oxygen diffusion. Three hours lecture per week. Pre- or Corequisite: (CVEG 3213 or MEEG 3503 or CHEG 2133) and MATH 2584. Prerequisite: (MEEG 2403 or CHEG 2313). (Typically offered: Fall)

BENG 4123. Biosensors & Bioinstrumentation. 3 Hours.
Principles of biologically based sensing elements and interfacing techniques. Design and analysis methods of biosensing and transducing components in bioinstrumentation. Applications of biosensors and bioinstrumentation in bioprocessing, bioenvironmental, biomechanical and biomedical engineering. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: BIOL 2013 or BIOL 2533 and BENG 3113. (Typically offered: Spring Odd Years)

BENG 450V. Special Problems. 1-4 Hour.
Selected problems in biological engineering are pursued in detail. Prerequisite: Senior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 4 hours of degree credit.

BENG 451VH. Honors Thesis. 1-6 Hour.
Honors thesis. Prerequisite: Honors candidacy. (Typically offered: Fall, Spring and Summer)

BENG 452V. Special Topics in Biological Engineering. 1-6 Hour.
Special topics in biological engineering not covered in other courses. Prerequisite: Engineering student. (Typically offered: Irregular) May be repeated for up to 8 hours of degree credit.

BENG 4663. Sustainable Biosystems Designs. 3 Hours.
Process and methodologies associated with measuring, assessing, and designing sustainable systems in water, energy and food. Quantitatively rigorous methodology for life cycle analysis (LCA) for inventory, assessment and impact analyses. Use of other systems analyses and process control theory to evaluate and design sustainable systems. Application of the methods to a project to gain experience in defining, quantifying and utilizing sustainable metrics. Three hours of lecture per week. Prerequisite: BENG 3653. (Typically offered: Spring)

BENG 4743. Food and Bio-Product Systems Engineering. 3 Hours.
Sustainable bio-product engineering through biosystem design, analysis, modeling, control, and optimization. Life cycle phases for bio-products (food, fiber, feed, and fuel). System analysis of inputs and outputs of energy, water and mass for the purpose of producing and processing biomass for human uses. Advanced bio-process design topics to utilize enzymes, cells, tissues and organisms to create bio-products and methods for deactivating biological agents to preserve the quality and safety of food and other bio-products. Three hours lecture per week. Pre- or corequisite: BENG 3733. Prerequisite: BENG 3723. (Typically offered: Fall)

BENG 4753L. Nanotechnology Laboratory. 3 Hours.
Provides students with hands-on experience in several major areas of nanotechnology, including nanoscale imaging, synthesis of nanomaterials, nanostructure assembly and manipulation, device and system integration, and performance evaluation. Students can earn credit for only one of the following courses: MEEG 4323L, BENG 4753L, BMEG 4103L, CHEM 4153L, PHYS 4793L. Corequisite: Drill component, junior standing and instructor consent. Prerequisite: MATH 2564, PHYS 2074, and CHEM 1123. (Typically offered: Fall) This course is cross-listed with MEEG 4323L, CHEM 4153L, PHYS 4793L.

BENG 4812. Senior Biological Engineering Design I. 2 Hours.
Initiation of comprehensive two-semester team-design projects to design processes, devices and systems to meet needs of clients in sustainable water, food and energy. Practice in following the design process, including the definition of design objectives and constraints, establishing functions and performance criteria, generating alternatives and evaluating alternatives through analysis, modeling and prototype testing; exploring relevant design considerations including performance, efficiency, costs, environmental impacts, sustainability and stewardship, safety and ethics. Developing analytic capability; and practicing design optimization to find best alternative for the client. Lecture 1 hour, laboratory 3 hours per week. Prerequisite: Instructor consent. Corequisite: Lab component. (Typically offered: Fall)
BENG 4823. Senior Biological Engineering Design II. 3 Hours.
Completion of comprehensive two-semester team-design projects to design processes, devices and systems to meet needs of clients in sustainable water, food and energy. Focus on building of prototypes or models, system optimization, evaluation and improvement. Final design details packaged to meet the needs of the client. Interaction with appropriate persons from other disciplines. Written and oral reporting. Communications with peers, supervisor, clients and the public. Lecture 1 hour per week, two 2-hour lab periods per week. Prerequisite: BENG 4812. Corequisite: Lab component. (Typically offered: Spring)

BENG 4831. Biological Engineering Professionalism. 1 Hour.
Preparation to be job-ready, employable and successful in transition to a professional career and further study in Biological Engineering. Introduction to job and graduate study searches. Professional and ethical responsibilities; professional registration. Conflict, change and project management. Effective communications and interactions with supervisors, peers, clients, and stakeholders. Two hour discussion section per week. Prerequisite: Senior standing. (Typically offered: Fall)

BENG 4933. Sustainable Watershed Engineering. 3 Hours.
Provides students with expertise in using advanced tools in watershed monitoring, assessment, and design. Builds on core competencies in hydrology and hydraulics to allow student to evaluate water used by sector in water management regions; evaluate and quantify water demands by sector with emphasis on irrigation; develop risk-based simulations of hydrologic processes, including precipitation, evapotranspiration, infiltration, runoff, and stream flow; quantify and simulate constituent loading to watersheds using GIS-based models, and understand the applications of these methods in water resource management policy. Three hours lecture per week. Prerequisite: CVEG 3223. (Typically offered: Fall)

BENG 4963. Modeling Environmental Biophysics. 3 Hours.
Interactions between the biosphere and the atmosphere. Connecting the physical environment of solar energy, wind, soil, and hydrology to the biosphere through plant ecophysiology. Boundary layer meteorology, photosynthesis and boundary layer modeling strategies, and the soil-plant-atmosphere continuum. Instrumentation, measurement and modeling strategies for understanding leaf-, landscape- and regional behaviors; and, the transfer, kinetics, and balance of momentum, energy, water vapor, CO2, and other atmospheric trace gases between the landscape (vegetation and soil) and the atmosphere. Applications in sustainable agriculture, irrigation, land and water resources, and modeling plant water use and carbon uptake strategies. Three hours of lecture per week. Prerequisite: MATH 2564 and (BENG 4933 or CVEG 3223). (Typically offered: Spring Even Years)

BENG 4973. Practice in Water Quality Monitoring and Analysis. 3 Hours.
Application of water quality principles to a real world problem. Team project experience developing quality assurance project plans, designing monitoring systems, selecting chemical analysis methods, estimating loads, performing trend analysis, basic model calibration and validation, and technical report writing and oral presentations. Working with various clientele to analyze water quality data in the context of evaluating real-world problems and issues. Technical course intended for students in engineering, environmental sciences, agriculture and biology. Three hours of lecture per week. Prerequisite: CVEG 3213 or instructor's consent to allow interdisciplinary student teams. (Typically offered: Spring Odd Years)

BENG 500V. Advanced Topics in Biological Engineering. 1-6 Hour.
Special problems in fundamental and applied research. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

BENG 5103. Advanced Instrumentation in Biological Engineering. 3 Hours.
Applications of advanced instrumentation in biological systems. Emphasis on updated sensing and transducing technologies, data acquisition and analytical instruments. Lecture 2 hours, lab 3 hours per week. Corequisite: Lab component. Prerequisite: BENG 3113. (Typically offered: Spring Even Years)

BENG 5253. Bio-Mems. 3 Hours.
Topics include the fundamental principles of microfluidics, Navier-Stokes Equation, bio/abio interfacing technology, bio/abio hybrid integration of microfabrication technology, and various biomedical and biological problems that can be addressed with microfabrication technology and the engineering challenges associated with it. Lecture 3 hour per week. Prerequisite: MEEG 3503 or CVEG 3213 or CHEG 2133. (Typically offered: Irregular)
This course is cross-listed with MEEG 5253.

BENG 5613. Simulation Modeling of Biological Systems. 3 Hours.
Application of computer modeling and simulation of discrete-event and continuous-time systems to solve biological and agricultural engineering problems. Philosophy and ethics of representing complex processes in simplified form. Deterministic and stochastic modeling of complex systems, algorithm development, application limits, and simulation interpretation. Emphasis on calibration, validation and testing of biological systems models for the purposes of system optimization, resource allocation, real-time control and/or conceptual understanding. Prerequisite: AGST 5023 or (STAT 3003 or STAT 5003) or INEG 2313. (Typically offered: Irregular)

BENG 5623. Life Cycle Assessment. 3 Hours.
This course will examine the process and methodologies associated with life cycle analysis (LCA). The course will explore the quantitatively rigorous methodology for life cycle inventory (LCI), LCA and life cycle impact assessment (LCIA). This course is offered on-line. The principal instructor will be a UA faculty member. (Typically offered: Spring)

BENG 5633. Linkages Among Technology, Economics and Societal Values. 3 Hours.
Addresses how macro-level change is influenced by the linkages among technology, economics and societal values. Three major course initiatives: 1) Developing a conceptual model for understanding how macro-level change has occurred over history; 2) Examining recorded history in order to develop a contextual appreciation for Society's current situation; and 3) Using statistical data to identify six overriding world trends that are likely to greatly impact society's goal of achieving sustainable prosperity and well-being in the foreseeable future. Prerequisite: Graduate standing or instructor permission. (Typically offered: Fall and Spring)
This course is cross-listed with OMTG 5633.

BENG 5703. Design and Analysis of Experiments for Engineering Research. 3 Hours.
Principles of planning and design of experiments for engineering research. Propagation of experimental error. Improving precision of experiments. Analysis of experimental data for optimal design and control of engineering systems using computer techniques. Students must have an introductory background in statistics. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. (Typically offered: Irregular)

BENG 5801. Graduate Seminar. 1 Hour.
Reports presented by graduate students on topics dealing with current research in biological engineering. Prerequisite: Graduate standing. (Typically offered: Spring)

BENG 5923. Nonpoint Source Pollution Control and Modeling. 3 Hours.
Control of hydrologic, meteorologic, and land use factors on nonpoint source (NPS) pollution in urban and agricultural watersheds. Discussion of water quality models to develop NPS pollution control plans and total maximum daily loads (TMDLs), with consideration of model calibration, validation, and uncertainty analysis. Prerequisite: CVEG 3223. (Typically offered: Irregular)
BENG 5933. Environmental and Ecological Risk Assessment. 3 Hours.
Process and methodologies associated with human-environmental and ecological risk assessments. Environmental risk assessments based on human receptors as endpoints, addressing predominantly abiotic processes. Ecological risk assessments based on non-human receptors as endpoints. Approach using hazard definition, effects assessment, risk estimation, and risk management. Application of methods to student projects to gain experience in defining and quantifying uncertainty associated with human perturbation, management and restoration of environmental and ecological processes. (Typically offered: Spring)

BENG 5963. Modeling Environmental Biophysics. 3 Hours.
Interactions between the biosphere and the atmosphere. Connecting the physical environment of solar energy, wind, soil, and hydrology to the biosphere through plant ecophysiology, Boundary layer meteorology, photosynthesis and boundary layer modeling strategies, and the soil-plant-atmosphere continuum. Instrumentation, measurement and modeling strategies for understanding leaf-, landscape- and regional behaviors; and, the transfer, kinetics, and balance of momentum, energy, water vapor, CO2, and other atmospheric trace gases between the landscape (vegetation and soil) and the atmosphere. Applications in sustainable agriculture, irrigation, land and water resources, and modeling plant water use and carbon uptake strategies. A working knowledge of calculus and a discipline related to the course is expected. Three hours of lecture per week. Students may not earn degree credit for both BENG 4963 and BENG 5963. Prerequisite: Instructor consent. (Typically offered: Spring Even Years)

BENG 5973. Advanced Practice in Water Quality Monitoring and Analysis. 3 Hours.
Application of water quality principles to a real world problem. Team project experience leading and developing quality assurance project plans, designing monitoring systems, selecting chemical analysis methods, estimating loads, performing trend analysis, basic model calibration and validation, team management, and technical report writing and oral presentations. Working with various clientele to analyze water quality data in the context of evaluating real-world problems and issues. Three hours of lecture per week. Prerequisite: Graduate standing. (Typically offered: Spring Odd Years)

BENG 600V. Master's Thesis. 1-6 Hour.
Graduate standing required for enrollment. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

BENG 700V. Doctoral Dissertation. 1-18 Hour.
Candidacy is required for enrollment. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Biology (BIOL)

Courses

Integrated lecture and laboratory focusing on the overriding principles of Biology. Designed to convey biological reasoning to non-science majors. May not count as prerequisite for advanced courses in BIOL. Corequisite: Lab component. (Typically offered: Fall, Spring and Summer)

BIOL 1541L. Principles of Biology Laboratory (ACTS Equivalency = BIOL 1014 Lab). 1 Hour.
Experimental and observational techniques used in biology with emphasis on the acquisition and interpretation of results that illustrate major biological principles. Corequisite: BIOL 1543. (Typically offered: Fall, Spring and Summer)

BIOL 1541M. Honors Principles of Biology Laboratory. 1 Hour.
This course is designed for the well prepared student in the Honors program. It focuses on teaching students experimental and observational techniques used in the science of biology. It emphasizes the acquisition and interpretation of results that illustrate the major principles of biology. Corequisite: BIOL 1543H or BIOL 1543. (Typically offered: Fall and Spring)
This course is equivalent to BIOL 1541L.

BIOL 1543. Principles of Biology (ACTS Equivalency = BIOL 1014 Lecture). 3 Hours.
Principles that unify biology with emphasis on scientific study that demonstrates how all organisms are the product of evolution and are parts of interacting systems from the molecular to the ecosystem level. Corequisite: BIOL 1541L. (Typically offered: Fall, Spring and Summer)

BIOL 1543H. Honors Principles of Biology. 3 Hours.
This course is designed for the well prepared student in Honors program. It focuses on the principles that unify the science of biology. Students will be exposed to how scientific principles have been used to demonstrate that all organisms are the products of evolution and are parts of interacting systems from the molecular to the ecosystem level. Corequisite: BIOL 1541M or BIOL 1541L. (Typically offered: Fall and Spring)
This course is equivalent to BIOL 1543.

BIOL 1584. Biology for Majors (ACTS Equivalency = BIOL 1014 Lecture). 4 Hours.
Integrated lecture and laboratory course designed to prepare Biology Majors to enter the rest of the Biology Core of Cell Biology, General Genetics, Evolutionary Biology, and General Ecology. Pre- or Corequisite: CHEM 1103 or CHEM 1203. (Typically offered: Fall and Spring)

BIOL 1584H. Honors Biology for Majors. 4 Hours.
Integrated lecture and laboratory course designed to prepare Biology Majors to enter the rest of the Biology Core of Cell Biology, General Genetics, Evolutionary Biology, and General Ecology. Pre or Corequisite: CHEM 1103 or CHEM 1203. (Typically offered: Fall and Spring)
This course is equivalent to BIOL 1584.

BIOL 1601L. Principles of Zoology Laboratory (ACTS Equivalency = BIOL 1054 Lab). 1 Hour.
Laboratory exercises illustrating animal structure, physiology, genetics, and ecology. Corequisite: BIOL 1603. (Typically offered: Fall and Summer)

Introduction to zoological principles relating to cells, organ systems, development, genetics, ecology, and animal phyla. Corequisite: BIOL 1601L. Prerequisite: BIOL 1584 or BIOL 1543 and BIOL 1541L. (Typically offered: Fall and Summer)

BIOL 1611L. Plant Biology Laboratory (ACTS Equivalency = BIOL 1034 Lab). 1 Hour.
Plant biology lab. Pre- or Corequisite: BIOL 1613. (Typically offered: Spring and Summer)

BIOL 1613. Plant Biology (ACTS Equivalency = BIOL 1034 Lecture). 3 Hours.
Consideration of basic flowering plant structure, growth, development, physiology, genetics, ecology, and a brief survey of other plant groups. Lecture 3 hours per week. BIOL 1611L is recommended as a corequisite and both are required for partial fulfillment of the Fulbright College natural sciences requirement. Prerequisite: BIOL 1584 or BIOL 1543 and BIOL 1541L. (Typically offered: Spring and Summer)

BIOL 1693. Biology Bridges. 3 Hours.
Prepares students for advanced biology courses including genetics, cell biology, ecology, and evolutionary biology, among others. Synthesizes sub-disciplines within biology using the underlying concepts of evolutionary theory found in scientific literature. Prerequisite: BIOL 1543 or BIOL 1584. (Typically offered: Spring)
BIOL 2011L. General Microbiology Laboratory (ACTS Equivalency = BIOL 2004 Lab). 1 Hour.
Techniques for handling microorganisms. Does not count toward BS in Biology.
Corequisite: BIOL 2011. (Typically offered: Fall, Spring and Summer)

BIOL 2011M. Honors General Microbiology Laboratory. 1 Hour.
Techniques for handling microorganisms. Does not count toward BS in Biology.
Corequisite: BIOL 2011. (Typically offered: Fall, Spring and Summer)
This course is equivalent to BIOL 2011L.

Basic concepts of microbiology including diversity, genetics, metabolism, growth, control of growth, pathogenesis, and immunology. Does not count towards BS in Biology. Corequisite: BIOL 2011L. Prerequisite: (BIOL 1543 and BIOL 1541L) or BIOL 1584) and (CHEM 1073 and CHEM 1071L or CHEM 1103 or CHEM 1123 and CHEM 1121L or CHEM 1203 and CHEM 1201L). (Typically offered: Fall, Spring and Summer)

BIOL 2211L. Human Physiology Laboratory (ACTS Equivalency = BIOL 2414 Lab). 1 Hour.
Exercises include experiments on osmosis, reflexes, senses, muscle, cardiovascular system, ventilation, metabolism, renal function, etc. Data collection, analysis, and report writing. Does not satisfy the Fulbright College writing requirement. Does not count toward BS in Biology. Corequisite: BIOL 2213. (Typically offered: Fall and Spring)

BIOL 2213. Human Physiology (ACTS Equivalency = BIOL 2414 Lecture). 3 Hours.
Fundamental concepts of physiology with emphasis in the human. Does not count toward BS in Biology. Corequisite: BIOL 2211L. Prerequisite: (CHEM 1073 and CHEM 1071L) or (CHEM 1103) or (CHEM 1123 and CHEM 1121L) and MATH 1203. (Typically offered: Fall and Spring)

BIOL 2321L. General Genetics Laboratory. 1 Hour.
Analysis of genetic problems and experiments with emphasis on 'hands-on' experience with a variety of organisms. May require time outside laboratory period. Laboratory 3 hours per week. Pre- or Corequisite: BIOL 2323. (Typically offered: Fall and Spring)

BIOL 2323. General Genetics. 3 Hours.
Surveys of Mendelian, molecular, and population mechanisms of inheritance and gene expression in prokaryotes and eukaryotes. Lecture 3 hours per week. Prerequisite: (BIOL 1584 or BIOL 1543 and BIOL 1541L) and (CHEM 1103 or CHEM 1203) and (MATH 1203 or higher or STAT 2823 or STAT 2303 or equivalent). (Typically offered: Fall and Spring)

BIOL 2441L. Human Anatomy Laboratory (ACTS Equivalency = BIOL 2404 Lab). 1 Hour.
Laboratory 3 hours exercises in mammalian anatomy. Cannot be taken without prior credit in BIOL 2443 or concurrent enrollment in BIOL 2443. Does not count toward BS in Biology. Corequisite: BIOL 2443. (Typically offered: Fall, Spring and Summer)

BIOL 2443. Human Anatomy (ACTS Equivalency = BIOL 2404 Lecture). 3 Hours.
Description of human body as a series of organ systems and their interrelationships. Does not count towards BS in Biology. Corequisite: BIOL 2441L. Prerequisite: Four hours of biological sciences. (Typically offered: Fall, Spring and Summer)

BIOL 2531L. Cell Biology Laboratory. 1 Hour.
Introduction to methods and techniques used in Cell Biology research. Laboratory experiences to highlight topics covered in BIOL 2533. Pre- or Corequisite: BIOL 2533. (Typically offered: Fall and Spring)

BIOL 2533. Cell Biology. 3 Hours.
Introduction to cell structure, cell processes, biological polymers, energetics, and diversity. An introduction to biochemistry and cell chemistry. Recommended: (CHEM 1123 and CHEM 1121L) or (CHEM 1223 and CHEM 1221L) or equivalent. Prerequisite: BIOL 1584, or BIOL 1543 and BIOL 1541L. (Typically offered: Fall and Spring)

BIOL 2723L. Microbial Fermentation Laboratory. 3 Hours.
An inquiry-based introductory lab course that explores the biology and chemistry of brewing, with a focus on brewing microbiology. Laboratory 6 hours per week. Students must be 21 years of age or older on the first day of class. Prerequisite: BIOL 1543 or BIOL 1584. Pre- or Corequisite: FDSC 2723. (Typically offered: Fall)

BIOL 3001L. Principles of Plant Pathology Lab. 1 Hour.
Lab course in examination of the causes and symptoms of plant disease and the genetics of plant disease. Physiology, and ecology of host-pathogen interactions. Spread of disease and principles of disease control. Pre- or Corequisite: PLPA 3003 or BIOL 3003. (Typically offered: Fall)
This course is cross-listed with PLPA 3001L.

BIOL 3003. Principles of Plant Pathology. 3 Hours.
Examination of the causes and symptoms of plant disease and the genetics of plant disease. Physiology, and ecology of host-pathogen interactions. Spread of disease and principles of disease control. (Typically offered: Fall)
This course is cross-listed with PLPA 3003.

BIOL 3011L. Introduction to Insect Identification Lab. 1 Hour.
Introductory lab course on insect identification, collection, and curation techniques, primarily designed as an intensive add-on to BIOL 3013 for students wanting a more in-depth examination of insect diversity. Insect collection required. Course includes field trips. Students are encouraged to contact instructor before enrolling. Pre- or corequisite: BIOL 3013. (Typically offered: Fall)
This course is cross-listed with ENTO 3011L.

BIOL 3013. Introduction to Entomology. 3 Hours.
Fundamentals of insect biology including structure and function, development, ecology, behavior, plant feeding and disease transmission. Lecture 3 hours/week. Students interested in a more intensive examination of insects, including collection, curation, and identification techniques, should sign up for the separate one credit lab BIOL 3011L. Students are strongly encouraged to take BIOL 1543 before registering for this course. (Typically offered: Fall)
This course is cross-listed with ENTO 3013.

BIOL 3023. Evolutionary Biology. 3 Hours.
An introduction to the mechanisms and patterns of evolutionary change. Seeks to develop logical, scientific skills and to apply them in understanding how life has changed during the history of the earth. Corequisite: Drill component. Prerequisite: (BIOL 1584 or BIOL 1543, BIOL 1541L). (Typically offered: Fall and Spring)

BIOL 3043. Bones, Bodies, and Brains in Evolutionary Perspective. 3 Hours.
Reviews the anatomy of the human body, comparing this anatomy with primates, mammals, and vertebrates, and it will consider how the major features of the human body emerged throughout evolution. (Typically offered: Spring)

BIOL 3123. Prokaryote Biology. 3 Hours.
An in-depth coverage of prokaryote diversity, genetics, metabolism, growth, structures and functions. Prerequisite: BIOL 2533. (Typically offered: Spring)

BIOL 3123H. Honors Prokaryote Biology. 3 Hours.
An in-depth coverage of prokaryote diversity, genetics, metabolism, growth, structures and functions. Prerequisite: BIOL 2533. (Typically offered: Spring)
This course is equivalent to BIOL 3123.
Biology (BIOL)

BIOL 3273. UAt Teach Research Methods. 3 Hours.
A project-based course for prospective science and mathematics teachers utilizing scientific research methods and inquiry to solve research problems. Prerequisite: ARSC 1201 and ARSC 1221. (Typically offered: Spring)
This course is cross-listed with PHYS 3273, CHEM 3273.

BIOL 3273H. Honors UAt Teach Research Methods. 3 Hours.
A project-based course for prospective science and mathematics teachers utilizing scientific research methods and inquiry to solve research problems. Corequisite: Lab component. Prerequisite: ARSC 1201 and ARSC 1221, junior standing and honors. (Typically offered: Spring)
This course is cross-listed with PHYS 3273, CHEM 3273, BIOL 3273.

BIOL 3404. Comparative Vertebrate Morphology. 4 Hours.
Anatomy of selected vertebrate animals with emphasis upon homologous structures in various animal groups. The recommended anatomy course for Biology BS majors. Lecture 2 or 3 hours, laboratory 4 or 6 hours per week. Corequisite: Lab component. Prerequisite: BIOL 1584 or BIOL 1543 and BIOL 1541L. (Typically offered: Fall and Spring)

BIOL 3861L. General Ecology Laboratory. 1 Hour.
General ecology lab. Pre-or Corequisite: BIOL 3863. (Typically offered: Fall)

BIOL 3863. General Ecology. 3 Hours.
Ecological principles and concepts; environmental factors and interactions that determine distribution and abundance of organisms. Prerequisite: 7 hours of biological science. (Typically offered: Fall and Spring)

BIOL 3923H. Honors Colloquium. 3 Hours.
Covers a special topic or issue, offered as part of the honors program. Prerequisite: honors candidacy (not restricted to candidacy in biological sciences). (Typically offered: Irregular) May be repeated for degree credit.

BIOL 4003L. Laboratory in Prokaryote Biology. 3 Hours.
Laboratory techniques in prokaryote culture, identification, physiology, metabolism, and genetics. Laboratory 6 hours per week. Corequisite: BIOL 3123. (Typically offered: Fall and Spring)
This course is cross-listed with ENT 4013.

BIOL 4013. Insect Behavior and Chemical Ecology. 3 Hours.
Basic concepts in insect senses and patterns of behavioral responses to various environmental stimuli. Previous knowledge of basic entomology is helpful, but not required. Lecture 2 hours, laboratory/discussion 2 hours per week. Corequisite: Lab component. (Typically offered: Spring Even Years)
This course is cross-listed with ENT 4013.

BIOL 4024. Insect Diversity and Taxonomy. 4 Hours.
Principles and practices of insect classification and identification with emphasis on adult insects. Corequisite: Lab component. Prerequisite: ENT 3013. (Typically offered: Fall Even Years)
This course is cross-listed with ENT 4024.

BIOL 4053. Insect Ecology. 3 Hours.
To develop understanding of important ecological concepts through study of dynamic relationships among insects and their environment. To become familiar with the literature of insect ecology, and interpretation and critique of ecological research. Previous knowledge of basic entomology and/or ecology will be assumed. Corequisite: Lab component. (Typically offered: Fall Even Years)
This course is cross-listed with ENT 4053.

BIOL 4104. Taxonomy of Flowering Plants. 4 Hours.
Identifying, naming, and classifying of wildflowers, weeds, trees, and other flowering plants. Emphasis is on the practical aspects of plant identification. Lecture 3 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: BIOL 1613 and BIOL 1611L and BIOL 2323 and BIOL 3023. (Typically offered: Spring)

BIOL 4114. Dendrology. 4 Hours.
Morphology, classification, geographic distribution, and ecology of woody plants. Lecture 3 hours, laboratory 3 hours per week, and fieldtrips. Corequisite: Lab component. Prerequisite: BIOL 3863. (Typically offered: Fall)

BIOL 4122. Food Microbiology. 2 Hours.
The study of food microbiology including classification/taxonomy, contamination, preservation and spoilage of different kinds of foods, pathogenic microorganisms, food poisoning, sanitation, control and inspection and beneficial uses of microorganisms. Prerequisite: BIOL 2013 and BIOL 2011L or BIOL 2533. (Typically offered: Fall)
This course is cross-listed with FDSC 4122.

BIOL 4133. Plant Disease Control. 3 Hours.
Principles, methods and mechanics of plant disease control. Emphasis is given to the integration of control measures and epidemiology of plant diseases. Lecture 3 hours per week. Prerequisite: PLPA 3003. (Typically offered: Fall)
This course is cross-listed with PLPA 4223.

BIOL 4153. Biology of Global Change. 3 Hours.
Covers impact of global change on sustainability and adaptability of biological systems. Corequisite: BIOL 4252. Prerequisite: BIOL 1543 and BIOL 1541L or BIOL 1584 and BIOL 1584H. (Typically offered: Spring)

BIOL 4163. Dynamic Models in Biology. 3 Hours.
Mathematical and computational techniques for developing, executing, and analyzing dynamic models arising in the biological sciences. Both discrete and continuous time models are studied. Applications include population dynamics, cellular dynamics, and the spread of infectious diseases. Prerequisite: MATH 2554. (Typically offered: Irregular)
This course is cross-listed with MATH 4163.

BIOL 4174. Conservation Genetics. 4 Hours.
Covers concepts of biodiversity identification and illustrates how genetic data are generated and analyzed to conserve and restore biological diversity. Corequisite: Lab component and drill. Prerequisite: BIOL 3023, BIOL 3863 and STAT 2823 (or equivalent), and Junior standing. (Typically offered: Spring)

BIOL 4213. Biological Regulation and Subcellular Communication. 3 Hours.
Combines lectures, review of primary literature, student presentations, and small group discussions to explore a diversity of topics related to mechanisms of biological regulation and subcellular communication. Prerequisite: BIOL 2323 and BIOL 2533. (Typically offered: Irregular)

BIOL 4223. Bacterial Lifestyles. 3 Hours.
Introduces students to bacteria as prokaryotic organisms, different from eukaryotes such as plants and animals. Model microbial systems will be studied to identify unique strategies that bacteria employ to thrive in their respective environments or develop special adaptations to harsh environments. Prerequisite: BIOL 2013 and BIOL 2011L or BIOL 3123. (Typically offered: Spring Odd Years)
This course is cross-listed with PLPA 4123.

BIOL 4233. Genomics and Bioinformatics. 3 Hours.
Principles of molecular and computational analyses of genomes. Prerequisite: BIOL 2533 and BIOL 2323. (Typically offered: Spring)

BIOL 4233H. Honors Genomics and Bioinformatics. 3 Hours.
Principles of molecular and computational analyses of genomes. Prerequisite: BIOL 2533 and BIOL 2323. (Typically offered: Spring)
This course is equivalent to BIOL 4233.

BIOL 4234. Comparative Physiology. 4 Hours.
Comparison of fundamental physiological mechanisms in various animal groups. Adaptations to environmental factors at both the organismal and cellular levels are emphasized. Lecture 3 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: BIOL 2533 and CHEM 3613 and (CHEM 3611L or CHEM 3612M). (Typically offered: Fall)
BIOL 4241L. Ichthyology Laboratory. 1 Hour.
Practical application of fish identification based on anatomy, fish sampling methods, and curation of fish specimen. Laboratory component of BIOL 4241. Corequisite: BIOL 4241. (Typically offered: Spring Odd Years)

BIOL 4241M. Honors Ichthyology Laboratory. 1 Hour.
Practical application of fish identification based on anatomy, fish sampling methods, and curation of fish specimen. Laboratory component of BIOL 4241H. Prerequisite: Honors standing. Corequisite: BIOL 4241H. (Typically offered: Spring Odd Years)

This course is equivalent to BIOL 4241L.

BIOL 4243. Ichthyology. 3 Hours.
Comprehensive overview of the diversity of fishes. Covers anatomy, physiology, evolution, taxonomy, ecology, behavior, zoogeography and conservation of marine and freshwater fishes. Lecture 3 hours per week. Prerequisite: Eight credits in Biology. Corequisite: BIOL 4241L. (Typically offered: Spring Odd Years)

This course is equivalent to BIOL 4243.

BIOL 4252. Biology of Global Change Seminar. 2 Hours.
Readings, essays, and group discussions that parallel the 27 lectures in BIOL 4153 and which dissect the resulting impacts of global change on sustainability and adaptability of biological systems. Corequisite: BIOL 4153. Prerequisite: BIOL 1584 or BIOL 1543 and BIOL 1541L. (Typically offered: Spring)

BIOL 4252H. Honors Biology of Global Change Seminar. 2 Hours.
Readings, essays, and group discussions that parallel the 27 lectures in BIOL 4153 and which dissect the resulting impacts of global change on sustainability and adaptability of biological systems. Corequisite: BIOL 4153. Prerequisite: BIOL 1584 or BIOL 1543 and BIOL 1541L. (Typically offered: Spring)

This course is equivalent to BIOL 4252.

BIOL 4263. Cell Physiology. 3 Hours.
In-depth molecular coverage of cellular processes involved in growth, metabolism, transport, excitation, signalling and motility, with emphasis on function and regulation in eukaryotes, primarily animals. Prerequisite: BIOL 2533 and BIOL 2323 and CHEM 3813 and PHYS 2033. (Typically offered: Fall)

BIOL 4263H. Honors Cell Physiology. 3 Hours.
In-depth molecular coverage of cellular processes involved in growth, metabolism, transport, excitation, signalling and motility, with emphasis on function and regulation in eukaryotes, primarily animals. Prerequisite: BIOL 2533 and BIOL 2323 and CHEM 3813 and PHYS 2033. (Typically offered: Fall)

This course is equivalent to BIOL 4263.

BIOL 4273. Endocrinology. 3 Hours.
In endocrinology we study hormonal integration of living processes as all levels from molecule to organism. We will work with the mechanisms of hormone action, the endocrine control axes and hormones physiological role. The course will include paper discussions and student presentations on topics of special interest. Prerequisite: BIOL 2533 or equivalent. (Typically offered: Spring)

BIOL 4303. Plant Physiology. 3 Hours.
An introductory course in plant physiology focusing on cellular processes that support the metabolic, developmental, and reproductive needs of plants. Prerequisite: BIOL 2533 or CHEM 3813 or CHEM 5843. (Typically offered: Fall)

BIOL 4313. Molecular Cell Biology. 3 Hours.
In-depth molecular coverage of transcription, cell cycle, translation, and protein processing in eukaryotes and prokaryotes. Prerequisite: BIOL 2533 and BIOL 2323 and CHEM 3603 and CHEM 3601L and CHEM 3613 and CHEM 3611L. (Typically offered: Spring)

BIOL 4313H. Honors Molecular Cell Biology. 3 Hours.
In-depth molecular coverage of transcription, cell cycle, translation, and protein processing in eukaryotes and prokaryotes. Prerequisite: BIOL 2533 and BIOL 2323 and CHEM 3603 and CHEM 3601L and CHEM 3613 and CHEM 3611L. (Typically offered: Spring)

This course is equivalent to BIOL 4313.

BIOL 4323. Comparative Neurobiology. 3 Hours.
Exploration of modern research approaches to understanding the development and function of animal nervous systems, with emphasis on molecular and cellular approaches in non-human animal models commonly used in biomedical research. Format combines lectures, group discussions, and student presentations using examples from the primary neurobiology literature. Prerequisite: BIOL 2323 and BIOL 2533 or equivalents. (Typically offered: Irregular)

BIOL 4333. Biotechnology in Agriculture. 3 Hours.
Discussion of the techniques, applications, and issues of biotechnology as it is being used in modern agriculture. Coverage includes the basics of molecular biology, production of transgenic plants and animals, and new applications in the agricultural, food, and medical marketplace. Lecture and discussion, 3 hours per week. (Typically offered: Fall)

This course is cross-listed with PLPA 4333.

BIOL 4353. Ecological Genetics/Genomics. 3 Hours.
Analysis of the genetics of natural and laboratory populations with emphasis on the ecological bases of evolutionary change. Prerequisite: BIOL 2323 and BIOL 2321L and MATH 2554 and STAT 2823 or equivalents. (Typically offered: Fall Odd Years)

BIOL 4404. Comparative Botany. 4 Hours.
A comparative approach to organisms classically considered to be plants with emphasis on morphology, life history, development, and phylogeny. Three hours lecture, 4 hours lab per week. Corequisite: Lab component. Prerequisite: BIOL 2323 and BIOL 2533. (Typically offered: Spring)

BIOL 4424. Mycology. 4 Hours.
Form and function of the fungi. Lecture 2 hours, laboratory 4 hours per week. Corequisite: Lab component. Prerequisite: BIOL 2323 and BIOL 2533. (Typically offered: Irregular)

BIOL 4433. Principles of Evolution. 3 Hours.
Advanced survey of the mechanisms of evolutionary change with special emphasis on advances since the Modern Synthesis. Historical, theoretical, and population genetics approaches are discussed. Recommended BIOL 3023 and BIOL 2321L and BIOL 3861L. Prerequisite: BIOL 2323 and BIOL 3863. (Typically offered: Fall Even Years)

BIOL 4463. Physiological Ecology. 3 Hours.
Interactions between environment, physiology, and properties of individuals and populations on both evolutionary and ecological scales. Prerequisite: BIOL 3863 and BIOL 4234 and its lab component. (Typically offered: Spring Odd Years)

BIOL 4511L. Population Ecology Laboratory. 1 Hour.
Population Ecology Lab Pre- or Corequisite: BIOL 4513. (Typically offered: Fall Even Years)

BIOL 4513. Population Ecology. 3 Hours.
Survey of theoretical and applied aspects of population processes stressing models of growth, interspecific interactions, and adaptation to physical and biotic environments. Prerequisite: BIOL 3863. (Typically offered: Fall Even Years)

BIOL 4523. Plant Ecology. 3 Hours.
To develop understanding of important ecological concepts through study of dynamics relationships among plants and their environment. To become familiar with the literature of plant ecology, and interpretation and critique of ecological research. Prerequisite: BIOL 3863. (Typically offered: Spring Even Years)
BIOL 4543. Developmental Biology. 3 Hours.
An analysis of the principles and mechanisms of development emphasizing the embryonic and postembryonic development of animals. Prerequisite: BIOL 2533 and BIOL 2323. (Typically offered: Irregular)

BIOL 4554. Developmental Biology with Laboratory. 4 Hours.
An analysis of the concepts of mechanisms of development emphasizing the experimental approach. Lecture 3 hours, laboratory 3 hours per week. Students may not receive degree credit for both BIOL 4543 and BIOL 4554. Corequisite: Lab component. Prerequisite: BIOL 2533 and BIOL 2323 or graduate standing. (Typically offered: Fall)

BIOL 4563. Cancer Biology. 3 Hours.
An introduction to the fundamentals of cancer biology. Prerequisite: BIOL 2533. (Typically offered: Fall)

BIOL 4613. Primate Adaptation and Evolution. 3 Hours.
Introduction to the biology of the order Primates. This course considers the comparative anatomy, behavioral ecology and paleontology of our nearest living relatives. Prerequisite: BIOL 3023 or ANTH 1013. (Typically offered: Spring)
This course is cross-listed with ANTH 4613.

BIOL 4634. Wetlands Ecology and Management. 4 Hours.
To familiarize students with the ecology and management of wetlands. Students will be exposed to the characteristics of wetlands, the environmental factors that produce wetland types, and the management techniques used to meet desired wetland goals. Primary lecture topics will include: wetland definition, wetlands of the world, wetland status, trends, laws, wetland hydrology, wetland soils, wetland plants, wetland plant adaptations, wetland wildlife, wetland wildlife adaptations, wetland ecosystem development, and wetland management. Lecture 2 hours, Laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: BIOL 3863. (Typically offered: Irregular)

BIOL 4693. Forest Ecology. 3 Hours.
Introduction to the various biological, ecological and historical aspects of forest communities, with particular emphasis on the forests of the central and southeastern United States. Prerequisite: BIOL 3863. (Typically offered: Irregular)

BIOL 4703. Mechanisms of Pathogenesis. 3 Hours.
A survey of the events causing human disease at the molecular, cellular and genetic levels. Seeks to develop an appreciation that both the tricks pathogens use and the body’s own defenses contribute to pathology. Prerequisite: BIOL 2533. (Typically offered: Fall)

BIOL 4711L. Basic Immunology Laboratory. 1 Hour.
Basic immunology laboratory. Corequisite: BIOL 4713. (Typically offered: Spring)

BIOL 4713. Basic Immunology. 3 Hours.
(Formerly MBIO 4714) A general overview of immunity with emphasis on the underlying cellular, molecular, and genetic events, and discussions of more specialized issues in immunology, such as disease states involving the immune system, and other interesting problems in modern immunology. Lecture 2 hours, laboratory 4 hours per week. Prerequisite: BIOL 2323 and BIOL 2533. (Typically offered: Spring)

BIOL 4713H. Honors Basic Immunology. 3 Hours.
A general overview of Immunity with emphasis on the underlying cellular, molecular, and genetic events, and discussions of more specialized issues in Immunology, such as disease states involving the Immune system, and other interesting problems in modern Immunology. Prerequisite: BIOL 2323 and BIOL 2533. (Typically offered: Spring)
This course is equivalent to BIOL 4713.

BIOL 4724. Protistology. 4 Hours.
The biology of eukaryotes other than animals, land plants, and fungi with emphasis on morphology and modern approaches to phylogenetic systematics. Three hours lecture, four hours lab/week. Involves writing term papers. Corequisite: Lab component. Prerequisite: BIOL 2533 and BIOL 2323. (Typically offered: Irregular)

BIOL 4734. Wildlife Management Techniques. 4 Hours.
To familiarize students with techniques used in the management of wildlife populations. Students will be exposed to field methods, approaches to data analysis, experimental design, and how to write a scientific paper. Management applications will be emphasized. Lecture 3 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: BIOL 3863. (Typically offered: Irregular)

BIOL 4744. Fish Biology. 4 Hours.
Morphology, classification, life history, population dynamics, and natural history of fishes and fish-like vertebrates. Lecture 3 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: 12 hours of biological science. (Typically offered: Spring Odd Years)

BIOL 4753. General Virology. 3 Hours.
An introduction to viral life-cycles, structure, and host cell interactions. Emphasis placed on molecular and biochemical aspects of virology. Two hour lecture and one hour discussion. Prerequisite: BIOL 2533 and BIOL 2323. (Typically offered: Spring)

BIOL 4763. Ornithology. 3 Hours.
Taxonomy, morphology, physiology, behavior, and ecology of birds. Lecture, laboratory, and field work. Corequisite: Lab component. Prerequisite: BIOL 3863 (Typically offered: Spring Even Years)

BIOL 4774. Biometry. 4 Hours.
Students learn biological statistics and experimental design by actually designing experiments and analyzing data, as well as through lecture, discussion, reading, writing, and problem solving. Lecture 3 hours, laboratory 3 hours each week. Corequisite: Lab component. Prerequisite: (STAT 2823 or STAT 2303 or equivalent) and BIOL 3863. (Typically offered: Spring Even Years)

BIOL 4783. Mammalogy. 3 Hours.
Lectures and laboratory dealing with classification, morphology, distribution, ecology, behavior, and physiology of mammals. Two hours lecture, 4 hours laboratory. Corequisite: Lab component. Prerequisite: 10 hours Biological Sciences. (Typically offered: Fall Even Years)

BIOL 4793. Introduction to Neurobiology. 3 Hours.
Exploration of the neurological underpinnings of perception, action, and experience including: how sense receptors convert information in the world into electricity, how information flows through the nervous systems, how neural wiring makes vision possible, how the nervous system changes with experience, and how the system develops. Prerequisite: BIOL 2533. (Typically offered: Spring)

BIOL 480V. Special Topics in Biological Sciences. 1-6 Hour.
Consideration of new areas of biological sciences not yet treated adequately in other courses. Prerequisite: 8 hours of biological sciences. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

BIOL 480VH. Honors Special Topics in Biological Sciences. 1-6 Hour.
Consideration of new areas of biological sciences not yet treated adequately in other courses. Prerequisite: 8 hours of biological sciences. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.
This course is equivalent to BIOL 480V.

BIOL 4833. Animal Behavior. 3 Hours.
Organization, regulation, and phylogeny of animal behavior, emphasizing vertebrates. Lecture, laboratory, and field work. Corequisite: Lab component. (Typically offered: Fall Odd Years)

BIOL 4844. Community and Ecosystem Ecology. 4 Hours.
Survey of theoretical and applied aspects of community processes stressing structure, trophic dynamics, community interactions, and major community types. Corequisite: Lab component. Prerequisite: BIOL 3863. (Typically offered: Fall Odd Years)
BIOL 4863. Analysis of Animal Populations. 3 Hours.
Basic principles of design and analysis for population studies of fish and wildlife species. Students will be instructed in the use of the latest software for estimating population parameters. Focus will be on both concepts and applications. Management applications of estimated parameters will be emphasized. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: BIOL 3863. (Typically offered: Spring Even Years)

BIOL 4873. Microbial Molecular Genetics and Informatics. 3 Hours.
Fundamentals of microbial genomics and bioinformatics. Course covers microbial genetics, genetic structure, genome organization, proteome organization, approaches for the analysis of DNA, RNA, and proteins, cellular metabolic pathways, genetic regulation, small RNA molecules, functional genomics, metagenomics, and bioinformatics approaches for analysis of microbial genomes. Prerequisite: BIOL 2323 or BIOL 2533. (Typically offered: Fall)

BIOL 4873H. Honors Microbial Molecular Genetics and Informatics. 3 Hours.
Fundamentals of microbial genomics and bioinformatics. Course covers microbial genetics, genetic structure, genome organization, proteome organization, approaches for the analysis of DNA, RNA, and proteins, cellular metabolic pathways, genetic regulation, small RNA molecules, functional genomics, metagenomics, and bioinformatics approaches for analysis of microbial genomes. Prerequisite: BIOL 2323 or BIOL 2533. (Typically offered: Fall)

This course is equivalent to BIOL 4873.

BIOL 4883. Mammalian Evolution and Osteology. 3 Hours.
Focuses on describing the evolutionary history of mammals, a group of vertebrates that include over 5,000 species in 29 orders, and will provide an overview of living species and their identifying features. Prerequisite: ANTH 1013 and ANTH 1011L, or BIOL 1543 and BIOL 1541L, or instructor consent. (Typically offered: Fall Even Years)

This course is equivalent to ANTH 4703.

BIOL 496V. Culture and Environment: Field Studies. 1-6 Hour.
May be taken by students participating in overseas study programs or other domestic field study programs approved by the department. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

BIOL 496VH. Honors Culture and Environment: Field Studies. 1-6 Hour.
May be taken by students participating in overseas study programs or other domestic field study programs approved by the department. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

This course is equivalent to BIOL 496V.

BIOL 498V. Senior Thesis. 1-6 Hour.
Senior thesis. (Typically offered: Fall, Spring and Summer)

BIOL 499V. Research In Biological Sciences. 1-4 Hour.
Research. Prerequisite: Senior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 8 hours of degree credit.

BIOL 499VH. Honors Research In Biological Sciences. 1-4 Hour.
Honors research. Prerequisite: Senior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 8 hours of degree credit.

This course is equivalent to BIOL 499V.

BIOL 5001. Seminar in Biology. 1 Hour.
Discussion of selected topics and review of current literature in any area of the biological sciences. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

This course is cross-listed with CEMB 5911.

BIOL 5003L. Laboratory In Prokaryote Biology. 3 Hours.
Laboratory techniques in prokaryote culture, identification, physiology, metabolism, and genetics. Laboratory 6 hours per week. Prerequisite: BIOL 3123. (Typically offered: Fall and Spring)

BIOL 5024. Insect Diversity and Taxonomy. 4 Hours.
(Formerly BIOL 4024.) Principles and practices of insect classification and identification with emphasis on adult insects. 2.5 hours lecture, 4 hours lab. Previous knowledge of basic entomology is necessary. Graduate degree credit will not be given for both BIOL 4024 and BIOL 5024. Prerequisite: Instructor consent. Corequisite: Lab component. (Typically offered: Fall)

This course is cross-listed with ENTO 5024.

BIOL 5034. Wildlife Management Techniques. 4 Hours.
(Formerly BIOL 4734.) To familiarize students with techniques used in the management of wildlife populations. Students will be exposed to field methods, approaches to data analysis, experimental design, and how to write a scientific paper. Management applications will be emphasized. Lecture 3 hours, laboratory 3 hours per week. Graduate degree credit will not be given for both BIOL 4734 and BIOL 5034. Corequisite: Lab component. Prerequisite: BIOL 3863. (Typically offered: Irregular)

This course is cross-listed with ENTO 5034.

BIOL 5053. Insect Ecology. 3 Hours.
(Formerly BIOL 4053.) Teaches important ecological concepts through study of dynamic relationships among insects and their environment. Introduces literature of insect ecology, and interpretation and critique of ecological research. Previous knowledge of basic entomology and/or ecology will be assumed. 2 hours lecture/2 hours lab. Graduate degree credit will not be given for both BIOL 4053 and BIOL 5053. Prerequisite: Instructor consent. Corequisite: Lab component. (Typically offered: Fall Even Years)

This course is cross-listed with ENTO 5053.

BIOL 5104. Taxonomy of Flowering Plants. 4 Hours.
(Formerly BIOL 4104.) Identifying, naming, and classifying of wildflowers, weeds, trees, and other flowering plants. Emphasis is on the practical aspects of plant identification. Lecture 3 hours, laboratory 3 hours per week. Graduate degree credit will not be given for both BIOL 4104 and BIOL 5104. Corequisite: Lab component. Prerequisite: BIOL 1613 and BIOL 1611L and BIOL 2323 and BIOL 3023. (Typically offered: Spring)

BIOL 5113. Insect Behavior and Chemical Ecology. 3 Hours.
Basic concepts in insect senses and patterns of behavioral responses to various environmental stimuli. Previous knowledge of basic entomology is helpful, but not required. Prerequisite: Instructor consent. Corequisite: Lab component. (Typically offered: Spring Even Years)

This course is cross-listed with ENTO 5113.

BIOL 5122. Food Microbiology. 2 Hours.
(Formerly BIOL 4122.) The study of food microbiology including classification, taxonomy, contamination, preservation and spoilage of different kinds of foods, pathogenic microorganisms, food poisoning, sanitation, control and inspection and beneficial uses of microorganisms. Graduate degree credit will not be given for both BIOL 4122 and BIOL 5122. Prerequisite: BIOL 2013 and BIOL 2011L or BIOL 2533. (Typically offered: Fall)

This course is cross-listed with FDSC 5122.

BIOL 5124. Dendrology. 4 Hours.
(Formerly BIOL 4114.) Morphology, classification, geographic distribution, and ecology of woody plants. Lecture 3 hours, laboratory 3 hours per week, and fieldtrips. Graduate degree credit will not be given for both BIOL 4114 and BIOL 5124. Prerequisite: BIOL 3863. (Typically offered: Fall)

BIOL 5133. Insect Molecular Genetics. 3 Hours.
A hands on course in insect molecular genetic techniques including molecular diagnostics and population genetics. Students will learn how to apply advanced molecular genetic methodologies and Internet database resources to insects that they are using for their graduate research. (Typically offered: Spring Even Years)

This course is cross-listed with ENTO 5133.
BIOL 5153. Practical Programming for Biologists. 3 Hours.
Hands-on instruction in the fundamentals of biological computing. Students learn how to set up a Unix work station, work from the command line, install software, build databases, and program in Python, a popular scripting language for biological applications. Most examples focus on the analysis of genomic data. (Typically offered: Spring)

BIOL 5163. Dynamic Models in Biology. 3 Hours.
(Formerly BIOL 4163.) Mathematical and computational techniques for developing, executing, and analyzing dynamic models arising in the biological sciences. Both discrete and continuous time models are studied. Applications include population dynamics, cellular dynamics, and the spread of infectious diseases. Graduate degree credit will not be given for both BIOL 4163 and BIOL 5163. Prerequisite: MATH 2554. (Typically offered: Irregular)

BIOL 5174. Conservation Genetics. 4 Hours.
Covers concepts of biodiversity identification and illustrates how genetic data are generated and analyzed to conserve and restore biological diversity. Corequisite: Lab component. Prerequisite: BIOL 3023, BIOL 3863 and STAT 2823 (or equivalent) and graduate standing. (Typically offered: Spring)

BIOL 5213. Biological Regulation and Subcellular Communication. 3 Hours.
Combines lectures, review of primary literature, student presentations, and small group discussions to explore a diversity of topics related to mechanisms of biological regulation and subcellular communication. Prerequisite: Graduate standing. (Typically offered: Irregular)

BIOL 5223. Bacterial Lifestyles. 3 Hours.
The course will introduce students to bacteria as prokaryotic organisms, different from eukaryotes such as plants and animals. Model microbial systems will be studied in more detail to identify unique strategies that bacteria employ to thrive in their respective environment, whether they are causing diseases or establishing beneficial interactions with animal or plants or coexisting with other microorganisms in diverse ecological environments. The course will also cover special adaptations that bacteria have evolved to adapt to harsh environments and how these adaptations can be harnessed to control pollution. Prerequisite: (BIOL 2013 and BIOL 2011L) or BIOL 3123. (Typically offered: Spring Odd Years)
This course is cross-listed with PLPA 5123.

BIOL 5233. Genomics and Bioinformatics. 3 Hours.
Principles of molecular and computational analyses of genomes. Prerequisite: BIOL 2533 or BIOL 2323. (Typically offered: Spring)

BIOL 5241L. Ichthyology Laboratory. 1 Hour.
Practical application of fish identification based on anatomy, fish sampling methods, and curation of fish specimen. Laboratory component of BIOL 5243. Corequisite: BIOL 5243. (Typically offered: Spring Odd Years)

BIOL 5243. Ichthyology. 3 Hours.
Comprehensive overview of the diversity of fishes. Covers anatomy, physiology, evolution, taxonomy, ecology, behavior, zoogeography and conservation of marine and freshwater fishes. Lecture 3 hours per week. Corequisite: BIOL 5241L. (Typically offered: Spring Odd Years)

BIOL 5254. Comparative Physiology. 4 Hours.
(Formerly BIOL 4234.) Comparison of fundamental physiological mechanisms in various animal groups. Adaptations to environmental factors at both the organismal and cellular levels are emphasized. Lecture 3 hours, laboratory 3 hours per week. Graduate degree credit will not be given for both BIOL 4234 and BIOL 5254. Prerequisite: BIOL 2533 and CHEM 3613 and (CHEM 3611L or CHEM 3612M). (Typically offered: Fall)

BIOL 5263. Cell Physiology. 3 Hours.
In-depth molecular coverage of cellular processes involved in growth, metabolism, transport, excitation, signaling and motility, with emphasis on function and regulation in eukaryotes, primarily animals. Prerequisite: BIOL 2323, BIOL 2533, BIOL 2531L, CHEM 3813, and PHYS 2033. (Typically offered: Fall)

BIOL 5273. Endocrinology. 3 Hours.
In endocrinology we study hormonal integration of living processes at all levels from molecule to organism. We will work with the mechanisms of hormone action, the endocrine control axes and hormones physiological role. The course will include paper discussions and student presentations on topics of special interest. (Typically offered: Spring)

BIOL 5303. Plant Physiology. 3 Hours.
Introductory course in plant physiology focusing on cellular processes that support the metabolic, developmental, and reproductive needs of plants. Prerequisite: 3 hours of cell biology or biochemistry. (Typically offered: Fall)

BIOL 5313. Molecular Cell Biology. 3 Hours.
In-depth molecular coverage of transcription, cell cycle, translation, and protein processing in eukaryotes and prokaryotes. Prerequisite: BIOL 2533 and BIOL 2323 and CHEM 3603 and CHEM 3613 and CHEM 3611L. (Typically offered: Spring)

BIOL 5323. Comparative Neurobiology. 3 Hours.
Exploration of modern research approaches to understanding the development and function of animal nervous systems, with emphasis on molecular and cellular approaches in non-human animal models commonly used in biomedical research. Format combines lectures, group discussions, and student presentations using examples from the primary neurobiology literature. Prerequisite: Graduate standing. (Typically offered: Irregular)

BIOL 5343. Advanced Immunology. 3 Hours.
Aspects of innate, cell-mediated, and humoral immunity in mammalian and avian species. Molecular mechanisms underlying the function of the immune system are emphasized. A course in Basic Immunology prior to enrollment in Advanced Immunology is recommended but not required. Lecture 3 hours per week. (Typically offered: Spring)
This course is cross-listed with POSC 5343.

BIOL 5352L. Immunology in the Laboratory. 2 Hours.
Laboratory course on immune-diagnostic laboratory techniques and uses of antibodies as a research tool. Included are cell isolation and characterization procedures, immunochemistry, flow cytometry, ELISA and cell culture assay systems. Laboratory 6 hours per week. Prerequisite: POSC 5343 or BIOL 5343. (Typically offered: Spring)
This course is cross-listed with POSC 5352L.

BIOL 5353. Ecological Genetics/genomics. 3 Hours.
Analysis of the genetics of natural and laboratory populations with emphasis on the ecological bases of evolutionary change. Prerequisite: BIOL 2323 and BIOL 2321L, BIOL 3023 and MATH 2554 and STAT 2823 or equivalents. (Typically offered: Fall Odd Years)

BIOL 5404. Comparative Botany. 4 Hours.
A comparative approach to organisms classically considered to be plants with emphasis on morphology, life history, development, and phylogeny. Three hours lecture, 4 hours lab per week. Corequisite: Lab component. Prerequisite: Graduate standing. (Typically offered: Fall Odd Years)

BIOL 5414. Mycology. 4 Hours.
Form and function of the fungi. Lecture 2 hours, laboratory 4 hours per week. Corequisite: Laboratory component. (Typically offered: Irregular)

BIOL 5433. Principles of Evolution. 3 Hours.
Advanced survey of the mechanisms of evolutionary change with special emphasis on advances since the Modern Synthesis. Historical, theoretical, and population genetics approaches are discussed. Recommended: BIOL 3023 and BIOL 2321L and BIOL 3861L. Prerequisite: BIOL 2323 and BIOL 3863. (Typically offered: Fall Even Years)
BIOL 5463. Physiological Ecology. 3 Hours.  
Interactions between environment, physiology, and properties of individuals and populations on both evolutionary and ecological scales. Prerequisite: BIOL 3863 and BIOL 4234. (Typically offered: Spring Odd Years)

BIOL 5511L. Population Ecology Laboratory. 1 Hour.  
Demonstration of the models and concepts from BIOL 5513. Pre- or Corequisite: BIOL 5513. (Typically offered: Fall Even Years)

BIOL 5513. Population Ecology. 3 Hours.  
Survey of theoretical and applied aspects of populations processes stressing models of growth, interspecific interactions, and adaptation to physical and biotic environments. Corequisite: BIOL 5511L. Prerequisite: BIOL 3863. (Typically offered: Fall Even Years)

BIOL 5523. Plant Ecology. 3 Hours.  
To develop understanding of important ecological concepts through study of dynamics relationships among plants and their environment. To become familiar with the literature of plant ecology, and interpretation and critique of ecological research. Prerequisite: BIOL 3863. (Typically offered: Spring)

BIOL 5524. Developmental Biology with Laboratory. 4 Hours.  
An analysis of the concepts and mechanisms of development emphasizing the experimental approach. Students may not receive degree credit for both BIOL 5543 Developmental Biology and BIOL 5524 Developmental Biology with Laboratory. Corequisite: Lab component. (Typically offered: Fall)

BIOL 5534. Biochemical Genetics. 4 Hours.  
Lectures and laboratories based on modern molecular genetic techniques for analyses of eukaryotes and manipulation of prokaryotes. A hands-on course in recombinant DNA techniques: laboratory practices in gene identification, cloning, and characterization. Lecture 2 hours, laboratory 6 hours per week. Corequisite: Lab component. Prerequisite: BIOL 2323 (or equivalent) and CHEM 3813 (or equivalent). (Typically offered: Spring)

BIOL 5543. Developmental Biology. 3 Hours.  
An analysis of the principles and mechanisms of development emphasizing the embryonic and postembryonic development of animals. Degree credit will not be allowed for both BIOL 5543 and BIOL 5524. (Typically offered: Irregular)

BIOL 5553. Astrobiology. 3 Hours.  
Discuss the scientific basis for the possible existence of extraterrestrial life. Includes the origin and evolution of life on Earth, possibility of life elsewhere in the solar system (including Mars), and the possibility of life on planets around other stars. Prerequisite: Instructor consent. (Typically offered: Irregular)  
This course is cross-listed with SPAC 5553.

BIOL 5563. Cancer Biology. 3 Hours.  
An introduction to the fundamentals of cancer biology. Prerequisite: BIOL 2533. (Typically offered: Fall)

BIOL 5613. Primate Adaptation and Evolution. 3 Hours.  
(Formerly BIOL 4613.) Introduction to the biology of the order Primates. This course considers the comparative anatomy, behavioral ecology and paleontology of our nearest living relatives. Graduate degree credit will not be given for both BIOL 4613 and BIOL 5613. Prerequisite: BIOL 3023 or ANTH 1013. (Typically offered: Spring)  
This course is cross-listed with ANTH 5623.

BIOL 5634. Eukaryote Phylogeny. 3 Hours.  
Molecular analysis of the eukaryotic tree of life, phylogenetic tree reconstruction, and eukaryote diversity and evolutionary relationships. (Typically offered: Spring Odd Years)

BIOL 5693. Forest Ecology. 3 Hours.  
(Formerly BIOL 4693.) Introduction to the various biological, ecological and historical aspects of forest communities, with particular emphasis on the forests of the central and southeastern United States. Graduate degree credit will not be given for both BIOL 4693 and BIOL 5693. Prerequisite: BIOL 3863. (Typically offered: Irregular)

BIOL 5703. Mechanisms of Pathogenesis. 3 Hours.  
A survey of events causing human disease at the molecular, cellular and genetic levels. Seeks to develop an appreciation that both the tricks pathogens use and the body’s own defenses contribute to pathology. (Typically offered: Fall)

BIOL 5711L. Basic Immunology Laboratory. 1 Hour.  
(Formerly BIOL 4711L.) Basic immunology laboratory. Graduate degree credit will not be given for both BIOL 4711L and BIOL 5711L. Corequisite: BIOL 5713. (Typically offered: Spring)

BIOL 5721. Basic Immunology. 3 Hours.  
A general overview of immunity with emphasis on the underlying cellular, molecular and genetic events controlling immune reactions. Reading of the primary literature on disease states involving the immune system. (Typically offered: Spring)

BIOL 5723. Fish Biology. 3 Hours.  
Morphology, classification, life histories, population dynamics, and natural history of fishes and fish-like vertebrates. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: 12 hours of biological sciences. (Typically offered: Spring Odd Years)

BIOL 5734. Protistology. 4 Hours.  
The biology of eukaryotes other than animals, land plants, and fungi with emphasis on morphology and modern approaches to phylogenetic systematics. Three hours lecture, four hours lab/week. Involves writing term papers. Corequisite: Lab component. (Typically offered: Irregular)

BIOL 5743. Herpetology. 3 Hours.  
Morphology, classification and ecology of amphibians and reptiles. Lecture 2 hours, laboratory 1 hour per week. Corequisite: Lab component. (Typically offered: Spring Even Years)

BIOL 5753. General Virology. 4 Hours.  
An introduction to viral life-cycles, structure, and host cell interactions. Emphasis placed on molecular and biochemical aspects of virology. Two hour lecture and one hour discussion. Prerequisite: BIOL 2533 and BIOL 2323. (Typically offered: Spring)

BIOL 5763. Ornithology. 3 Hours.  
Taxonomy, morphology, physiology, behavior, and ecology of birds. Lecture, laboratory, and field work. Corequisite: Lab component. Prerequisite: 10 hours of biological sciences. (Typically offered: Spring Even Years)

BIOL 5774. Biometry. 4 Hours.  
(Formerly BIOL 4774.) Students learn biological statistics and experimental design by actually designing experiments and analyzing data, as well as through lecture, discussion, reading, writing, and problem solving. Lecture 3 hours, laboratory 3 hours each week. Graduate degree credit will not be given for both BIOL 4774 and BIOL 5774. Corequisite: Lab component. Prerequisite: STAT 2823 or equivalent, BIOL 3863. (Typically offered: Spring Even Years)

BIOL 5783. Mammalogy. 3 Hours.  
Lectures and laboratory dealing with classification, morphology, distribution, ecology, behavior, and physiology of mammals. Two hours lecture, 4 hours laboratory. Corequisite: Lab component. (Typically offered: Fall)
BIOL 5793. Introduction to Neurobiology. 3 Hours.
(Formerly BIOL 4793.) Exploration of the neurological underpinnings of perception, action, and experience including: how sense receptors convert information in the world into electricity, how information flows through the nervous systems, how neural wiring makes vision possible, how the nervous system changes with experience, and how the system develops. Graduate degree credit will not be given for both BIOL 4793 and BIOL 5793. Prerequisite: BIOL 2533. (Typically offered: Spring)

BIOL 5800V. Special Topics in Biological Sciences. 1-6 Hour.
Consideration of new areas of biological sciences not yet treated adequately in other courses. Prerequisite: 8 hours of biological sciences. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

BIOL 5833. Animal Behavior. 3 Hours.
Organization, regulation, and phylogeny of animal behavior, emphasizing vertebrates. Lecture, laboratory, and field work. Corequisite: Lab component. (Typically offered: Fall Odd Years)

BIOL 5843. Conservation Biology. 3 Hours.
The study of direct and indirect factors by which biodiversity is impacted by human activity. It is a synthetic field of study that incorporates principles of ecology, biogeography, population genetics, economics, sociology, anthropology, philosophy, geology, and geography. Prerequisite: BIOL 3863. (Typically offered: Irregular)

BIOL 5844. Community Ecology. 4 Hours.
Survey of theoretical and applied aspects of community processes stressing structure, trophic dynamics, community interactions, and major community types. Corequisite: Lab component. Prerequisite: BIOL 3863. (Typically offered: Fall Odd Years)

BIOL 5863. Analysis of Animal Populations. 3 Hours.
(Formerly BIOL 4863.) Basic principles of design and analysis for population studies of fish and wildlife species. Students will be instructed in the use of the latest software for estimating population parameters. Focus will be on both concepts and applications. Management applications of estimated parameters will be emphasized. Lecture 2 hours, laboratory 3 hours per week. Graduate degree credit will not be given for both BIOL 4863 and BIOL 5863. Corequisite: Lab component. Prerequisite: BIOL 3863. (Typically offered: Spring Even Years)

BIOL 5873. Microbial Molecular Genetics and Informatics. 3 Hours.
Fundamentals of microbial genomics and bioinformatics. Course covers microbial genetics, genetic structure, genome organization, proteome organization, approaches for the analysis of DNA, RNA, and proteins, cellular metabolic pathways, genetic regulation, small RNA molecules, functional genomics, metagenomics, and bioinformatics approaches for analysis of microbial genomes. Prerequisite: Graduate status. (Typically offered: Fall)

BIOL 5883. Mammalian Evolution and Osteology. 3 Hours.
Focuses on describing the evolutionary history of mammals, a group of vertebrates that include over 5,000 species in 29 orders, and will provide an overview of living species and their identifying features. Credit will not be given for both ANTH 4703 and ANTH 5703. Prerequisite: Instructor consent. (Typically offered: Fall Even Years)
This course is cross-listed with ANTH 5703.

BIOL 5914. Stream Ecology. 4 Hours.
Current concepts and research in lotic ecosystem dynamics. Lecture, laboratory, field work and individual research projects required. Corequisite: Lab component. Prerequisite: 3 hours of ecology-related coursework. (Typically offered: Fall Even Years)

BIOL 5933. Global Biogeochemistry: Elemental Cycles and Environmental Change. 3 Hours.
This course explores the chemical, biological, and geological processes occurring within ecosystems. An understanding of these processes is used to investigate how they form the global biogeochemical cycles that provide energy and nutrients necessary for life. Class discussions focus on global change and the effects of more recent anthropogenic influences. Prerequisite: 3 hours of chemistry or biochemistry and ecology. (Typically offered: Spring Odd Years)

BIOL 596V. Culture and Environment: Field Studies. 1-6 Hour.
(Formerly BIOL 496V.) May be taken by students participating in overseas study programs or other domestic field study programs approved by the department. Graduate degree credit will not be given for both BIOL 496V and BIOL 596V. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

BIOL 600V. Master’s Thesis. 1-6 Hour.
Master’s Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

BIOL 6113. Insect Physiology. 3 Hours.
General and comparative physiology of insects. Previous knowledge of basic entomology is helpful, but not required. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. (Typically offered: Spring Even Years)
This course is cross-listed with ENTO 6113.

BIOL 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Biomedical Engineering (BMEG) Courses

BMEG 2614. Introduction to Biomedical Engineering. 4 Hours.
An introductory course for undergraduate biomedical engineering students. It covers topics such as recombinant DNA technologies, cell and tissue engineering, stem cell and organ regeneration, the biomechanics, bioinstrumentation, engineering of immunity, and bio- and medical imaging, etc. The application of nano-biotechnology in developing clinical products such as tissue engineered products, drug delivery systems, etc. will be emphasized in the course. Prerequisite: (GNEG 1321H, or GNEG 1121, or GNEG 1103), and CHEM 1103, with a grade of C or better, MATH 2554 and PHYS 2054. (Typically offered: Fall and Summer)

BMEG 2813. Biomechanical Engineering. 3 Hours.
This course introduces basic concepts and principles of biomechanics to biomedical and other engineering students. The course topics include mechanics and materials, viscoelastic properties, bone, cartilage, ligament, tendon, muscle, cardiovascular dynamics, clinical gait analysis, etc. After taking this course, students are expected to understand the application of engineering kinetics to describe motions of human body and mechanic properties of tissues. MATLAB will be used to write and solve biomechanical static and dynamic equations. Lecture 3 hours per week. Prerequisite: BMEG 2614, CHEM 1123, MATH 2564, and PHYS 2074. (Typically offered: Fall and Summer)

BMEG 2904. Biomedical Instrumentation. 4 Hours.
This course is designed for biomedical engineering undergraduate students to learn both theoretical and practical concepts of bioinstrumentation and their applications in modern life science and medicine. Analytical experiments will be practiced in the laboratory along with the lecture section. This course covers basic topics in circuits such as charge current, voltage, resistance, power energy, linear network analysis, inductors, capacitors, operational amplifier, time-varying signals, active analog filters, bioinstrumentation design etc. The application of these principles and theories in bioinstrumentation design and development is particularly emphasized in this course. The lab section requires team work, planning, and data sharing. Corequisite: Lab component. Prerequisite: BMEG 2614, MATH 2564 and PHYS 2074. (Typically offered: Spring)
BMEG 3124. Biomedical Signals and Systems. 4 Hours.
This course will introduce students to the basics of signals - continuous and digital signals, and signal processing tools, such as filters, Laplace and Fourier transforms. The 'systems' aspect of the course will focus on physiological systems and methods to model such systems. The course will also focus on the biomedical applications of these methods through lab components. Prerequisite: BMEG 2904. (Typically offered: Fall)

BMEG 3634. Biomaterials. 4 Hours.
Introduction to the engineering properties of materials used in biomedical devices and applications. Topics include: atomic properties, structure-property-processing relationships, bulk engineering properties, surface and interfacial properties and applications of materials in biology and medicine. All topics will be reviewed in the context of specific biomedical devices and the engineering principles involved in their design. Corequisite: Lab component. Prerequisite: BMEG 2813, CHEM 1123, and BIOL 1543 and BIOL 1541L. (Typically offered: Fall)

BMEG 3653. Biomedical Modeling and Numerical Methods. 3 Hours.
Application of mathematical techniques to physiological systems. The emphasis will be on cellular physiology and cardiovascular system. Cellular physiology topics include models of cellular metabolism, membrane dynamics, membrane potential, excitability, wave propagation and cellular function regulation. Cardiovascular system topics include models of blood cells, oxygen transport, cardiac output, cardiac regulation, and circulation. Pre- or Corequisite: MATH 2584. Prerequisite: BMEG 2614, and (MATH 2574 or MATH 3083). (Typically offered: Spring)

BMEG 3653H. Honors Biomedical Modeling and Numerical Methods. 3 Hours.
Application of mathematical techniques to physiological systems. The emphasis will be on cellular physiology and cardiovascular system. Cellular physiology topics include models of cellular metabolism, membrane dynamics, membrane potential, excitability, wave propagation and cellular function regulation. Cardiovascular system topics include models of blood cells, oxygen transport, cardiac output, cardiac regulation, and circulation. Pre- or Corequisite: MATH 2584. Prerequisite: BMEG 2614, and (MATH 2574 or MATH 3083). (Typically offered: Spring)
This course is equivalent to BMEG 3653.

BMEG 3801. Clinical Observations and Needs Finding. 1 Hour.
This course involves the introduction of clinical procedures and biomedical devices and technology to biomedical engineering students. Students will tour medical facilities, clinics and hospitals and will participate in medical seminars, workshops and medical rounds. The course prepares students to successfully select and complete a project in the senior capstone course. Prerequisite: BMEG 2813 or BMEG 2904. (Typically offered: Fall and Spring)

BMEG 3824. Biomolecular Engineering. 4 Hours.
Biomolecular Engineering is to design and produce biomolecules, especially proteins, for uses ranging from pharmaceuticals, materials, sensors, transducers, to functional interfaces with conventional engineering materials. The course begins with an introduction to the tools and techniques of molecular biology that are used for protein engineering. Additional topics include recombinant DNA techniques, biochemical kinetics, cell growth reaction and kinetics, bioreactors, membrane processes, and bioproduct purification. There is an associated laboratory with exercises related to lecture topics. Corequisite: Lab component. Prerequisite: BMEG 3634, CHEM 1123, and BIOL 2533. (Typically offered: Spring)

BMEG 3824H. Honors Biomolecular Engineering. 4 Hours.
Biomolecular Engineering is to design and produce biomolecules, especially proteins, for uses ranging from pharmaceuticals, materials, sensors, transducers, to functional interfaces with conventional engineering materials. The course begins with an introduction to the tools and techniques of molecular biology that are used for protein engineering. Additional topics include recombinant DNA techniques, biochemical kinetics, cell growth reaction and kinetics, bioreactors, membrane processes, and bioproduct purification. There is an associated laboratory with exercises related to lecture topics. Corequisite: Lab component. Prerequisite: BMEG 3634, CHEM 1123, and BIOL 2533. (Typically offered: Spring)
This course is equivalent to BMEG 3824.

BMEG 3903. Entrepreneurial Bioengineering. 3 Hours.
The course introduces entrepreneurship, business model canvas, and lean start-up principles to the students with a focus on medical device customer discovery and technology commercialization. Prerequisite: BMEG 2904. (Typically offered: Irregular)

BMEG 4103L. Nanotechnology Laboratory. 3 Hours.
Provides students with hands-on experience in several major areas of nanotechnology, including nanoscale imaging, synthesis of nanomaterials, nanostructure assembly and manipulation, device and system integration, and performance evaluation. Students can earn credit for only one of the following courses: MEEG 4323L, BENG 4753L, BMEG 4103L, CHEM 4153L, PHYS 4793L. Corequisite: Drill component, junior standing and instructor consent. Prerequisite: MATH 2564, PHYS 2074, and CHEM 1123. (Typically offered: Fall)
This course is cross-listed with MEEG 4323L, CHEM 4153L, PHYS 4793L.

BMEG 4103M. Honors Nanotechnology Laboratory. 3 Hours.
Provides students with hands-on experience in several major areas of nanotechnology, including nanoscale imaging, synthesis of nanomaterials, nanostructure assembly and manipulation, device and system integration, and performance evaluation. Students can earn credit for only one of the following courses: MEEG 4323L, BENG 4753L, BMEG 4103L, CHEM 4153L, PHYS 4793L. Corequisite: Drill component, junior standing and instructor consent. Prerequisite: MATH 2564, PHYS 2074, CHEM 1123. (Typically offered: Fall)
This course is cross-listed with MEEG 4323L, CHEM 4153L, PHYS 4793L.

BMEG 4213. Tissue Mechanics. 3 Hours.
The purpose of this course is to introduce students to non-linear biomechanics of soft tissues such as skin, bladder, blood vessels, and the brain. Topics covered: Tissue mechanics: continuum biomechanics, tensor analysis, kinematics of continua, balance laws. Governing physics of mechanics as applied to soft tissues. Various constitutive relations will be discussed: linear elastic, hyperelastic, viscoelastic, poroelastic, and inelastic materials with internal variables. Cannot receive credit for both BMEG 4213 and BMEG 5213. Prerequisite: BMEG 2813, BMEG major and Senior standing. (Typically offered: Irregular)

BMEG 4243. Advanced Biomaterials and Biocompatibility. 3 Hours.
From Absorbable sutures to Zirconium alloy hip implants, biomaterials science influences nearly every aspect of medicine. This course focuses on the study of different classes of biomaterials and their interactions with human tissues. Topics include: biocompatibility; biofouling; hemocompatibility; wound healing response; foreign body response; design of orthopedic, dental and cardiovascular implants; ophthalmological and dermatological materials; degradable polymers for drug delivery; nanobiomaterials; smart biomaterials and the regulation of devices and materials by the FDA. Pre- or Corequisite: BMEG 4623. Prerequisite: BMEG 3634. (Typically offered: Irregular)
BMEG 4403. Biomedical Microscopy. 3 Hours.
An advanced course covering light microscopy techniques, conjugate image planes, principles of contrast, fluorescence imaging, confocal and multi-photon microscopy, electron microscopy, atomic force microscopy, image reconstruction and digital image processing with supporting units in tissue culture and histology. Prerequisite: BMEG 2904, PHYS 2074, BMEG major and Senior standing. (Typically offered: Irregular)

BMEG 4413. Tissue Engineering. 3 Hours.
This course introduces Tissue Engineering approaches at genetic and molecular, cellular, tissue, and organ levels. Topics include cell and tissue in vitro expansion, tissue organization, signaling molecules, stem cell and stem cell differentiation, organ regeneration, biobased and matrix for tissue engineering, bioreactor design for cell and tissue culture, dynamic and transportation in cell and tissue cultures, clinical implementation of tissue engineered products, and tissue-engineered devices. Corequisite: Lab component. Prerequisite: BMEG 3824 and BIOL 2533. (Typically offered: Spring and Summer) May be repeated for degree credit.

BMEG 4513. Biomedical Optics and Imaging. 3 Hours.
This course will provide students with a fundamental understanding of various biomedical imaging modalities. Topics will include: Basics of light-tissue interaction - absorption, fluorescence, elastic and inelastic scattering; Computational and analytical models of light propagation to quantify tissue optical properties; Optical imaging techniques spectroscopy, tomography, and laser speckle with potential clinical applications; and Clinical imaging modalities and recent advances X-ray, Magnetic Resonance Imaging (MRI), Positron Emission Tomography (PET), Computed Tomography (CT), Ultrasound imaging, and Photoacoustic imaging. At the end of this course, students should have a good understanding of optical imaging, spectroscopy, and non-optical imaging modalities, specific anatomical sites that they are best suited for, and the trade-offs between imaging depth and resolution. Students may not receive credit for both BMEG 4513 and BMEG 5513. Prerequisite: BMEG 2904 and senior standing. (Typically offered: Irregular)

BMEG 4523. Biomedical Data and Image Analysis. 3 Hours.
This course focuses on an introduction to image processing and analysis for applications in biomedical research. After a review of basic MATLAB usage, students will learn fundamental tools for processing and analyzing data from a variety of subdisciplines within biomedical engineering. Topics include: filtering, thresholding, segmentation, morphological processing, and image registration. Through exercises involving 1D, 2D, and 3D data, students will develop problem-solving skills and a knowledge base in MATLAB required for customized quantitative data analysis. Students may not receive credit for both BMEG 4523 and BMEG 5523. Prerequisite: BMEG 3124 and BMEG 3653. (Typically offered: Irregular)

BMEG 460V. Individual Study. 1-3 Hour.
Individual study and research of a topic mutually agreeable to the student and faculty member. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

BMEG 460VH. Honors Individual Study. 1-3 Hour.
Individual study and research of a topic mutually agreeable to the student and faculty member. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

This course is equivalent to BMEG 460V.

BMEG 4623. Biomedical Transport Phenomena. 3 Hours.
An introduction to the modeling of complex biological systems using principles of transport phenomena and biochemical kinetics. This course will cover molecular transport due to velocity, concentration and thermal gradients. Topics include the conservation relations; rheology of Newtonian and non-Newtonian physiological fluids; regulation of blood flow; steady and transient diffusion in reacting systems; dimensional analysis; transport processes in disease pathology. Prerequisite: BMEG 3653, CHEG 2133 or MEEG 3503, CHEG 2313 or MEEG 2403, and MATH 2584. (Typically offered: Fall)

BMEG 4623H. Honors Biomedical Transport Phenomena. 3 Hours.
An introduction to the modeling of complex biological systems using principles of transport phenomena and biochemical kinetics. This course will cover molecular transport due to velocity, concentration and thermal gradients. Topics include the conservation relations; rheology of Newtonian and non-Newtonian physiological fluids; regulation of blood flow; steady and transient diffusion in reacting systems; dimensional analysis; transport processes in disease pathology. Prerequisite: BMEG 3653, CHEG 2133 or MEEG 3503, CHEG 2313 or MEEG 2403, and MATH 2584. (Typically offered: Fall)

This course is equivalent to BMEG 4623.

BMEG 470V. Special Topics in Biomedical Engineering. 1-4 Hour.
Consideration of current biomedical engineering topics not covered in other courses. Prerequisite: Senior standing. (Typically offered: Irregular) May be repeated for degree credit.

BMEG 4713. Cardiovascular Physiology and Devices. 3 Hours.
Understanding etymology of disease while creating solutions and dedicated devices is the primary focus of biomedical engineering. This course describes an interdisciplinary approach of the clinical and engineering worlds to develop devices for treating cardiovascular disease. The first part of the course will be a thorough review of the relevant anatomic and physiological considerations important for developing devices. Understanding these considerations from an engineering perspective to inform device development will be the second part of the course. Students may not receive credit for both BMEG 4713 and BMEG 5713. Prerequisite: CHEG 2133 or MEEG 3503, and BIOL 2213. (Typically offered: Irregular)

BMEG 4813. Biomedical Engineering Design I. 3 Hours.
This is part one of a two-semester course that introduces students to the basic concepts of design from a biomedical engineering perspective. Groups are organized into teams of 4-5 members. The students put together a development plan and complete an initial prototype. Students will design what is to be fabricated and tested as a medical device or software following design process and product design specification guidelines. Corequisite: Lab component. Prerequisite: CHEG 2133 or MEEG 3503, and BIOL 2213. (Typically offered: Fall)

BMEG 4823. Biomedical Engineering Design II. 3 Hours.
This is part two of a two-semester course that introduces students to the basic concepts of design from a biomedical engineering perspective. Groups are organized into teams of 4-5 members. The students put together a development plan and complete an initial prototype. Students will design what is to be fabricated and tested as a medical device or software following design process and product design specification guidelines. Corequisite: Lab component. Prerequisite: BMEG 4813. (Typically offered: Spring)

BMEG 4873. Bionanotechnology. 3 Hours.
This is an introductory course relevant to bionanotechnology. The topics covered in this course include nanobiomaterials, nanoparticles, nanowires, nanobiochips, nanobiosensors, and nanobiodevices. The applications of these nanomaterials and devices in clinical diagnostics, disease treatment, point-of-care test and/or point-of-care diagnostics, tele-medical cares, controlled and targeted drug delivery, etc. will be particularly emphasized in the lecture. Prerequisite: BMEG 2813, BMEG 3824, and CHEG 2133 or MEEG 3503. (Typically offered: Irregular)
BMEG 4973. Regenerative Medicine. 3 Hours.
This is an advanced course focusing on tissue engineering and regenerative medicine. Topics include stem cell tissue engineering, cell signaling, transport and kinetics, biomaterials and scaffolds, surface interactions, viral and nonviral-based gene delivery, tissue engineered organs, organ transplantation, nanomedicine, cell replacement therapy, and organ regenerative therapy. Technologies used to grow clinical relevant cells and tissues in lab will also be discussed in this course. Prereq- or Corequisite: Senior standing. (Typically offered: Irregular)

BMEG 4983. Genome Engineering and Synthetic Biology. 3 Hours.
Genome Engineering and Synthetic Biology examines contemporary topics in genome engineering and synthetic biology and will be taught using a 'journal club' style lecture format. This course covers a broad range of topics in synthetic biology and genome engineering using recently published literature and publicly available data and software and includes an ethics discussion at course end. Prerequisite: BMEG 3653 or DASC 3213. (Typically offered: Fall and Spring)

BMEG 5103. Design and Analysis of Experiments in Biomedical Research. 3 Hours.
An advanced course covering sample size estimation with power calculations, protection of vertebrate animals and human subjects, factorial design, multivariate analysis of variance, parametric and non-parametrics data analysis, Kaplan-meier analysis, and post-test correction of multiple comparisons as related to biomedical data. Prerequisite: MATH 2584 and BMEG 3653 or equivalents. (Typically offered: Irregular)

BMEG 5203. Mathematical Modeling of Physiological Systems. 3 Hours.
Application of numerical methods and mathematical techniques to physiological systems. Cellular physiology topics include models of cellular metabolism, diffusion, membrane potential, excitability, calcium dynamics and intercellular signalling. Cardiovascular system topics include models of blood cells, oxygen transport, cardiac output, cardiac regulation, and circulation. Other physiology topics include respiration, muscle, vision, hearing, voice, and speech. Prerequisite: MATH 2584 or BMEG 3653 or BMEG 4623 or equivalents. (Typically offered: Irregular)

BMEG 5213. Tissue Mechanics. 3 Hours.
The purpose of this course is to introduce students to non-linear biomechanics of soft tissues such as skin, bladder, blood vessels, and the brain. Topics covered: Tissue mechanics: continuum biomechanics, tensor analysis, kinematics of continua, balance laws. Governing physics of mechanics as applied to soft tissues. Various constitutive relations will be discussed: linear elastic, hyperelastic, viscoelastic, poroelastic, and inelastic materials with internal variables. Cannot receive credit for both BMEG 4213 and BMEG 5213. Prerequisite: BMEG 2813 and BMEG 4623 or equivalents. (Typically offered: Irregular)

BMEG 5313. Advanced Biomaterials and Biocompatibility. 3 Hours.
From Absorbable sutures to Zirconium alloy hip implants, biomaterials science influences nearly every aspect of medicine. This course focuses on the study of different classes of biomaterials and their interactions with human tissues. Prerequisite: BMEG 3634 and BMEG 4623 or equivalents. (Typically offered: Irregular)

BMEG 5423. Regenerative Medicine. 3 Hours.
The course covers five broad areas: Biological and molecular basis for regenerative medicine, tissue development, regenerative medicine and innovative technologies, clinical applications of regenerative medicine, and regulation and ethics. Prerequisite: BIOL 2533 and BMEG 3824 or equivalents. (Typically offered: Irregular)

BMEG 5513. Biomedical Optics and Imaging. 3 Hours.
This course will provide students with a fundamental understanding of various biomedical imaging modalities. Topics will include: Basics of light-tissue interaction - absorption, fluorescence, elastic and inelastic scattering; Computation and analytical models of light propagation to quantify tissue optical properties; Optical imaging techniques - spectroscopy, tomography, and laser speckle with potential clinical applications; and Clinical imaging modalities and recent advances - X-ray, Magnetic Resonance Imaging (MRI), Positron Emission Tomography (PET), Computed Tomography (CT), Ultrasound imaging, and Photacoustic imaging. At the end of this course, students should have a good understanding of optical imaging, spectroscopy, and non-optical imaging modalities, specific anatomical sites that they are best suited for, and the trade-offs between imaging depth and resolution. Students may not receive credit for both BMEG 4513 and BMEG 5513. (Typically offered: Irregular)

BMEG 5523. Biomedical Data and Image Analysis. 3 Hours.
This course focuses on an introduction to image processing and analysis for applications in biomedical research. After a review of basic MATLAB usage, students will learn fundamental tools for processing and analyzing data from a variety of subspecialties within biomedical engineering. Topics include: filtering, thresholding, segmentation, morphological processing, and image registration. Through exercises involving 1D, 2D, and 3D data, students will develop problem-solving skills and a knowledge base in MATLAB required for customized quantitative data analysis. Students may not receive credit for both BMEG 4523 and BMEG 5523. Prerequisite: Graduate standing. (Typically offered: Irregular)

BMEG 560V. Advanced Individual Study. 1-6 Hour.
Individual study and research of a topic mutually agreeable to the student and faculty member. Prerequisite: Graduate standing. (Typically offered: Irregular)

BMEG 570V. Advanced Special Topics. 1-6 Hour.
Consideration of current biomedical engineering topics not covered in other courses. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 15 hours of degree credit.

BMEG 5713. Cardiovascular Physiology and Devices. 3 Hours.
Understanding etymology of disease while creating solutions and dedicated devices is the primary focus of biomedical engineering. This course describes an interdisciplinary approach of the clinical and engineering worlds to develop devices for treating cardiovascular disease. The first part of the course will be a thorough review of the relevant anatomic and physiological considerations important for developing devices. Understanding these considerations from an engineering perspective to inform device development will be the second part of the course. Students may not receive credit for both BMEG 4713 and BMEG 5713. Prerequisite: Graduate standing. (Typically offered: Irregular)

BMEG 5800. Graduate Seminar I. 0 Hours.
A weekly seminar series comprised of presentations by invited speakers and graduate students as well as didactic instruction in relevant topics including research ethics, authorship, biosafety and the use of animals in biomedical research. Prerequisite: BMEG 5801. (Typically offered: Fall) May be repeated for up to 0 hours of degree credit.

BMEG 5801. Graduate Seminar I. 1 Hour.
A weekly seminar series comprised of presentations by invited speakers and graduate students as well as didactic instruction in relevant topics including research ethics, authorship, biosafety and the use of animals in biomedical research. (Typically offered: Fall) May be repeated for up to 2 hours of degree credit.

BMEG 5810. Graduate Seminar II. 0 Hours.
A weekly seminar series comprised of presentations by invited speakers and graduate students as well as didactic instruction in relevant topics including professional development, career options, effective communication, technology transfer, clinical translation and intellectual property. Prerequisite: BMEG 5811. (Typically offered: Spring) May be repeated for up to 0 hours of degree credit.
BMEG 5811. Graduate Seminar II. 1 Hour.
A weekly seminar series comprised of presentations by invited speakers and graduate students as well as didactic instruction in relevant topics including professional development, career options, effective communication, technology transfer, clinical translation and intellectual property. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

BMEG 5953. Fundamentals of Fracture and Fatigue in Structures. 3 Hours.
The course will cover the concepts of linear-elastic, elastic-plastic and time-dependent Fracture Mechanics as applied to fracture in a variety of materials, structures, and operating conditions. The examples will include fracture in large components such as aircraft, bridges and pressure vessels and also in bones and in soft materials and human tissue. Prerequisite: Graduate standing in Civil, Mechanical or Biomedical Engineering or consent of the instructor. (Typically offered: Fall and Spring)
This course is cross-listed with MEEG 5953, CVEG 5953.

BMEG 600V. Master's Thesis. 1-6 Hour.
Master's Thesis. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for degree credit.

BMEG 700V. Doctoral Dissertation. 1-6 Hour.
Doctoral Dissertation. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for degree credit.

Business Law (BLAW)

Courses
Introduction to the legal and ethical environment in which business operates. Topics covered in this survey course include: introduction to the legal system and the judicial resolution of disputes, constitutional law, administrative law, criminal law, torts, contracts, property law, advertising and marketing law, bankruptcy and credit transactions, business organizations, antitrust, employment law and ethics. (Typically offered: Fall, Spring and Summer)

BLAW 2013H. Honors The Legal Environment of Business. 3 Hours.
Introduction to the legal and ethical environment in which business operates. Topics covered in this survey course include: introduction to the legal system and the judicial resolution of disputes, constitutional law, administrative law, criminal law, torts, contracts, property law, advertising and marketing law, bankruptcy and credit transactions, business organizations, antitrust, employment law and ethics. (Typically offered: Fall, Spring and Summer)
This course is equivalent to BLAW 2013.

BLAW 3033. Commercial Law. 3 Hours.
A study of the laws applicable to commercial transactions. Topics covered include the common law of contracts, Articles Two (Sales) and Three (Commercial Paper) of the Uniform Commercial Code, secured transactions, suretyship, and bankruptcy. (Typically offered: Spring)

BLAW 5003. Commercial Transactions. 3 Hours.
A study of laws applicable to business. Topics covered include the law of Contracts and UCC Sales, Payment Systems (checking accounts and E-payments), Bankruptcy, Intellectual Property, Principal-Agency Relationships, Business Entities, Data Security, Federal Securities Law, and Accountant's Legal Liability. Prerequisite: Graduate standing. (Typically offered: Irregular)

Career and Technical Education (CATE)

Courses
CATE 3003. Teaching Housing and Interior Design to Secondary Students. 3 Hours.
This course prepares students to teach housing and interior design concepts to students in secondary school settings. Topics to be covered include housing needs and decisions, architectural design and construction, furnishings, safety and security, and careers related to the housing industry. Problem-based and project-based learning will provide the foundation for content delivery in this course. (Typically offered: Fall)

CATE 3103. Introduction to Professionalism. 3 Hours.
Studying and developing educational concepts in career and technical education with accepted principles of professionalism in secondary education settings. Prerequisite: Career and Technical Education (CATE) students only. (Typically offered: Fall)

CATE 3103H. Honors Introduction to Professionalism. 3 Hours.
Studying and developing professional concepts in vocational education with accepted principles of professionalism applied to career and technical education settings. (Typically offered: Fall)
This course is equivalent to CATE 3103.

CATE 4013. Teaching Strategies. 3 Hours.
Methods and techniques in the preparation and delivery of teaching. Prerequisite: CATE 3103. (Typically offered: Fall)

CATE 4023. Classroom Management. 3 Hours.
Theory and techniques in classroom management, including professional ethics and school policies related to students, faculty and programs. Prerequisite: CATE 3103. (Typically offered: Fall)

CATE 4033. Assessment / Program Evaluation. 3 Hours.
An introduction to constructing, evaluating and interpreting tests; descriptive and inferential statistics; state competency testing; and guidelines for state program valuations. Prerequisite: CATE 3103. (Typically offered: Fall)

CATE 4052. Seminar Teaching Internship. 2 Hours.
Site-based field experiences are integrated with the course content to provide continuity between theory and practice. Classroom management, ethics and diversity are emphasized. Corequisite: CATE 406X. (Typically offered: Spring)

CATE 406X. Teaching Internship. 12 Hours.
A minimum of 15 weeks will be spent in an off-campus school, at which time the student will have an opportunity to observe, teach and participate in other activities involving the school and the community. Successful completion of a criminal background check required before student can begin internship. Prerequisite: Senior status, CATE 3103, CATE 4013, CATE 4023, CATE 4033, CIED 3023 or CIED 4023 and CIED 3033. (Typically offered: Spring)

CATE 4073. Introduction to Teaching Programming in the Secondary Schools. 3 Hours.
This course provides an introduction to the foundations of teaching methods for computer programming in the secondary schools. Methods of computer programming instruction will include teaching strategies in coding, developing computational thinking, problem-solving skills, and applying key programming concepts. This is an introductory level course. No prerequisites are required. Corequisite: Lab component. (Typically offered: Irregular)

CATE 4803. Problems in Career & Technical Education. 3 Hours.
Problems and issues relating to instruction in career and technical education. You must have approval by the instructor of this course to enroll. (Typically offered: Fall, Spring and Summer)
CATE 5003. Introduction to Professionalism. 3 Hours.
This course examines the principles and concepts of professionalism in the teaching profession, with an emphasis on developing professional concepts in the profession. Added emphasis is on career and technical education organizations. Prerequisite: Admission to the CATE teacher education program. (Typically offered: Fall)

CATE 5013. Teaching Strategies. 3 Hours.
This course is designed to offer a variety of ideas and experiences concerning methods of teaching, planning and presenting instruction. (Typically offered: Fall)

CATE 5016. Cohort Teaching Internship. 6 Hours.
A minimum of 12 weeks will be spent in an off-campus school, at which time the intern will have an opportunity under supervision to observe, to teach, and to participate in other activities involving the school and the community. Prerequisite: Admission to the College of Education and Health Professions Teacher Education and CATE Master's program. (Typically offered: Spring)

CATE 5023. Classroom Management. 3 Hours.
(Formerly CATE 4023.) Theory and techniques in classroom management, including professional ethics and school policies related to students, faculty and programs. Graduate degree credit will not be given for both CATE 4023 and CATE 5023. Prerequisite: CATE 3103. (Typically offered: Fall)

CATE 5033. Assessment/Program Evaluation. 3 Hours.
An introduction to constructing, evaluating, and interpreting tests; descriptive and inferential statistics; state competency testing; and guidelines for state program evaluations. Prerequisite: Graduate standing. (Typically offered: Fall)

CATE 5073. Introduction to Teaching Programming in the Secondary Schools. 3 Hours.
(Formerly CATE 4073.) This course provides an introduction to the foundations of teaching methods for computer programming in the secondary schools. Methods of computer programming instruction will include teaching strategies in coding, developing computational thinking, problem-solving skills, and applying key programming concepts. This is an introductory level course. No prerequisites are required. Graduate degree credit will not be given for both CATE 4073 and CATE 5073. Corequisite: Lab component. (Typically offered: Irregular)

CATE 5443. Teaching Career Development in Public Schools. 3 Hours.
This course provides a study of curricula, methods, and techniques involved in teaching career development as related to the 16 occupational clusters. Successful completion of this course is required for licensed teachers to earn their 418 Career Development endorsement. Corequisite: Lab component. (Typically offered: Summer)

CATE 5463. Applications in Career Orientation. 3 Hours.
Student is introduced to various teaching methods and techniques of managing hands-on activities in career orientation class setting. (Typically offered: Summer)

CATE 5503. Trends and Issues in Technology Education. 3 Hours.
A comprehensive technology education methods course pertaining to the teaching of standards-based curriculum materials. (Typically offered: Fall and Summer)

CATE 5543. Technology for Teaching and Learning. 3 Hours.
A study of computer technology as it relates to teacher education. This course concentrates on knowledge and performance and includes hands-on technology activities that can be incorporated in an educational setting. Students interact with the instructor and other students via BlackBoard and engage in weekly discussions and acquire hands-on computer technology experience. (Typically offered: Fall and Summer)

CATE 5803. Teaching Apparel Production to Secondary Students. 3 Hours.
This course prepares students to teach apparel production concepts to students in secondary school settings. Topics to be covered include clothing selection, textiles, clothing care and laundry, clothing construction, and careers and technology. Problem- and project-based learning will provide the foundation for content delivery in this course. The focus on this course is on preparing preservice teachers in secondary schools to teach apparel production utilizing a variety of teaching methods. Corequisite: Lab component. (Typically offered: Spring)

Cell and Molecular Biology (CEMB) Courses

CEMB 590V. Special Topics in Cell and Molecular Biology. 1-6 Hour.
Consideration of new areas in Cell and Molecular Biology not yet treated adequately in textbooks or in other courses. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

CEMB 5911. Seminar in Cell and Molecular Biology. 1 Hour.
Discussion of current topics in Cell and Molecular Biology. All graduate students in the Cell and Molecular Biology degree program must enroll every fall and spring semester in this course or an approved alternate seminar course. Prerequisite: Graduate standing. (Typically offered: Fall and Spring) May be repeated for degree credit.

This course is cross-listed with BIOL 5001.

CEMB 600V. Master's Thesis. 1-6 Hour.
Master's thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

CEMB 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral dissertation. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Chemical Engineering (CHEG) Courses

CHEG 2113. Introduction to Chemical Engineering I. 3 Hours.
Introduction to the field of chemical engineering. Industries, careers, and the curriculum are discussed. Basic chemical engineering terms, concepts, and calculations are presented. Mass balance calculations are performed and the application of computers to chemical engineering problems is introduced. Pre- or Corequisite: CHEM 1123 or CHEM 1223. (Typically offered: Fall and Spring)

CHEG 2133. Fluid Mechanics. 3 Hours.
Analysis and design of fluids handling equipment and systems. Application of the principles of fluid statics, fluid dynamics, compressible flow, etc. Prerequisite: MATH 2584 or MATH 2584C. Pre- or Corequisite: MATH 2574 or MATH 2574C and (CHEG 2113 or BENG 2632 or BMEG 2614). (Typically offered: Fall, Spring and Summer)

CHEG 2133H. Honors Fluid Mechanics. 3 Hours.
Analysis and design of fluids handling equipment and systems. Application of the principles of fluid statics, fluid dynamics, compressible flow, etc. Prerequisite: MATH 2584 or MATH 2584C. Pre- or Corequisite: MATH 2574 or MATH 2574C and (CHEG 2113 or BENG 2632 or BMEG 2614). (Typically offered: Fall, Spring and Summer)

This course is equivalent to CHEG 2133.

CHEG 2313. Thermodynamics of Single-Component Systems. 3 Hours.
A detailed study of the thermodynamic 'state principles,' energy and entropy balances, and their application to the solution of problems involving single-component physical systems and processes. Prerequisite: MATH 2584. Pre- or Corequisite: CHEG 2113 or BENG 2632 or BMEG 2614. (Typically offered: Fall, Spring and Summer)
CHEG 2313H. Honors Thermodynamics of Single-Component Systems. 3 Hours.
A detailed study of the thermodynamic 'state principles,' energy and entropy balances, and their application to the solution of problems involving single-component physical systems and processes. Prerequisite: MATH 2584. Pre- or Corequisite: CHEG 2113 or BENG 2632 or BMEG 2614. (Typically offered: Fall, Spring and Summer)
This course is equivalent to CHEG 2313.

CHEG 3144. Heat and Mass Transfer. 4 Hours.
Applications of the principles of conduction, convection and radiation to the analysis and design of chemical processing heat transfer equipment and systems.
Fundamentals of chemical diffusional and convection processes. Pre- or Corequisite: CHEG 3323. Prerequisite: CHEG 2133 with a C or above, and MATH 2584. (Typically offered: Fall and Spring)

CHEG 3144H. Honors Heat and Mass Transfer. 4 Hours.
Applications of the principles of conduction, convection and radiation to the analysis and design of chemical processing heat transfer equipment and systems.
Fundamentals of chemical diffusional and convection processes. Pre- or Corequisite: CHEG 3323. Prerequisite: CHEG 2133 with a C or above, and MATH 2584. (Typically offered: Fall and Spring)
This course is equivalent to CHEG 3144.

CHEG 3233L. Chemical Engineering Laboratory I. 3 Hours.
Experimental measurements of various physical properties and comparison with published values and theoretical predictions. Experimental investigation of fluid flow and thermodynamics. Interpretation of results using graphical, numerical and statistical tools, and presentation of results in written technical reports and oral briefings. Identification and quantification of sources of experimental error. Identification of relevant experimental parameters to achieve an objective. Pre- or Corequisite: CHEG 3144. Corequisite: Drill component. Prerequisite: CHEG 2133 and CHEG 2313, both with a C or above. (Typically offered: Fall and Spring)

CHEG 3253. Chemical Engineering Computer Methods. 3 Hours.
Application of computer methods to chemical engineering problems including a review of structured programming principles. Corequisite: Drill component. Pre- or Corequisite: CHEG 3144 and CHEG 3323. Prerequisite: MATH 2584. (Typically offered: Fall and Spring)

CHEG 3323. Thermodynamics of Multi-Component Systems. 3 Hours.
The use of the state principle and energy and entropy balance developed in CHEG 2313 is extended to allow processes. Physical and chemical equilibrium processes are considered in detail. Prerequisite: CHEG 2313 with a C or above, and MATH 2574. (Typically offered: Fall and Spring)

CHEG 3323H. Honors Thermodynamics of Multi-Component Systems. 3 Hours.
The use of the state principle and energy and entropy balance developed in CHEG 2313 is extended to allow processes. Physical and chemical equilibrium processes are considered in detail. Prerequisite: Honors standing, CHEG 2313 with a C or above, and MATH 2574. (Typically offered: Fall and Spring)
This course is equivalent to CHEG 3323.

CHEG 3333. Chemical Engineering Reactor Design. 3 Hours.
Principles of kinetics of homogeneous and heterogeneous reactions, catalysis, and reactor design with applications, drawn from industrial processes. Pre- or Corequisite: CHEG 3253. Prerequisite: CHEG 3323, with a C or above. (Typically offered: Fall and Spring)

CHEG 3333H. Honors Chemical Engineering Reactor Design. 3 Hours.
Principles of kinetics of homogeneous and heterogeneous reactions, catalysis, and reactor design with applications, drawn from industrial processes. Pre- or Corequisite: CHEG 3253. Prerequisite: Honors standing, and CHEG 3323 with a C or above. (Typically offered: Fall and Spring)
This course is equivalent to CHEG 3333.

CHEG 3713. Chemical Engineering Materials Technology. 3 Hours.
Selection of metals, polymers and ceramics for service in process conditions (including corrosion). In addition to static strains on materials, specialized materials such as semiconductors, composites, and nano-materials are studied. The relationship between molecular structure and macroscopic properties is emphasized including processing and manufacture. Prerequisite: CHEG 3323 with a C or above, CHEM 3603, and PHYS 2054. (Typically offered: Spring)

CHEG 4163. Separation Processes. 3 Hours.
Applications of chemical engineering design to stagewise and continuous separations in systems approaching equilibrium. Prerequisite: CHEG 3144 with a C or above. (Typically offered: Fall and Spring)

CHEG 4163H. Honors Separation Processes. 3 Hours.
Applications of chemical engineering design to stagewise and continuous separations in systems approaching equilibrium. Prerequisite: Honors standing and CHEG 3144 with a C or above. (Typically offered: Fall and Spring)
This course is equivalent to CHEG 4163.

CHEG 4273. Corrosion Control. 3 Hours.
Qualitative and quantitative introduction to corrosion and its control. Application of the fundamentals of corrosion control in the process industries is emphasized. Prerequisite: CHEG 2313. (Typically offered: Spring)

CHEG 4332L. Chemical Engineering Laboratory II. 2 Hours.
Experimental investigations of mass transfer and kinetics/reactor design. Special attention to attaining a high order of accuracy and to presenting results in complete written reports, with emphasis on quality rather than quantity work performed. Pre- or Corequisite: CHEG 3333 and CHEG 4163. Corequisite: Drill component. Prerequisite: CHEG 3233L with a C or above. (Typically offered: Fall and Spring)

CHEG 4413. Chemical Engineering Design I. 3 Hours.
Principles of cost estimation, profitability, economic analysis, and economic balances as practiced in the chemical process industries. Special emphasis on the solution of problems involving the combination of engineering principles and economics. Corequisite: Drill component. Pre- or Corequisite: CHEG 4163. Prerequisite: CHEG 3144 with a C or above, CHEG 3333 with a C or above, and (ECON 2013 or ECON 2143). (Typically offered: Fall and Spring)

CHEG 4413H. Honors Chemical Engineering Design I. 3 Hours.
Principles of cost estimation, profitability, economic analysis, and economic balances as practiced in the chemical process industries. Special emphasis on the solution of problems involving the combination of engineering principles and economics. Corequisite: Drill component. Pre- or Corequisite: CHEG 4163. Prerequisite: Honors standing, CHEG 3144 with a C or above, CHEG 3333 with a C or above, and (ECON 2013 or ECON 2143). (Typically offered: Fall and Spring)
This course is equivalent to CHEG 4413.

CHEG 4423. Automatic Process Control. 3 Hours.
Application of mathematical modeling methods to the description of transient phenomena of interest to process engineers. Modes of control and principles of feedback control are introduced with applications to process engineering problems. Pre- or Corequisite: CHEG 4163. Prerequisite: CHEG 3253 with a C or above. (Typically offered: Spring)

CHEG 4423H. Honors Automatic Process Control. 3 Hours.
Application of mathematical modeling methods to the description of transient phenomena of interest to process engineers. Modes of control and principles of feedback control are introduced with applications to process engineering problems. Pre- or Corequisite: CHEG 4163. Prerequisite: Honors standing, and CHEG 3253 with a C or above. (Typically offered: Spring)
This course is equivalent to CHEG 4423.
CHEG 4443. Chemical Engineering Design II. 3 Hours.
Responsibility for decision making is placed on the students in the solution of a comprehensive, open ended problem based on an industrial process. Both formal oral and formal written presentation of results are required. Students are selected for participation in some sections of the course based on academic performance, honors standing and instructor recommendations. Corequisite: Drill component. Prerequisite: CHEG 4413 with a C or above. (Typically offered: Fall and Spring)

CHEG 4443H. Honors Chemical Engineering Design II. 3 Hours.
Responsibility for decision making is placed on the students in the solution of a comprehensive, open ended problem based on an industrial process. Both formal oral and formal written presentation of results are required. Students are selected for participation in some sections of the course based on academic performance, honors standing and instructor recommendations. Corequisite: Drill component. Prerequisite: CHEG 4413 with a C or above. (Typically offered: Fall and Spring)

This course is equivalent to CHEG 4443.

CHEG 4813. Chemical Process Safety. 3 Hours.
Application of chemical engineering principles to the study of safety, health, and loss prevention. Fires and explosions, hygiene, toxicology, hazard identification, and risk assessment in the chemical process industries. Corequisite: Drill component. Prerequisite: CHEG 3144 and CHEG 3323, both with a C or above. (Typically offered: Fall)

CHEG 4813H. Honors Chemical Process Safety. 3 Hours.
Application of chemical engineering principles to the study of safety, health, and loss prevention. Fires and explosions, hygiene, toxicology, hazard identification, and risk assessment in the chemical process industries. Corequisite: Drill component. Prerequisite: Honors standing, CHEG 3323 and CHEG 3144 both with a C or above. (Typically offered: Fall)

This course is equivalent to CHEG 4813.

CHEG 488V. Special Problems. 1-6 Hour.
Special problems. Prerequisite: Senior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

CHEG 5013. Membrane Separation and System Design. 3 Hours.
Theory and system design of cross flow membrane process--reverse osmosis, nanofiltration, ultrafiltration, and microfiltration--and applications for pollution control, water treatment, food and pharmaceutical processing. (Typically offered: Irregular)

CHEG 5043. Colloid and Interface Science. 3 Hours.
This course aims to provide essential knowledge about surface, interface, and molecular self-organization. At the end of this course students should understand (i) basic concepts to describe phenomena at surfaces, (ii) molecular self-organization, and (iii) basic techniques for characterization of surfaces and interfaces. (Typically offered: Spring Odd Years)

CHEG 5113. Transport Processes I. 3 Hours.
Fundamental concepts and laws governing the transfer of momentum, mass, and heat. (Typically offered: Fall)

CHEG 5133. Advanced Reactor Design. 3 Hours.
Applied reaction kinetics with emphasis on the design of heterogeneous reacting systems including solid surface catalysis, enzyme catalysis, and transport phenomena effects. Various types of industrial reactors, such as packed bed, fluidized beds, and other non-ideal flow systems are considered. (Typically offered: Spring)

CHEG 5273. Corrosion Control. 3 Hours.
Qualitative and quantitative introduction to corrosion and its control. Application of the fundamentals of corrosion control in the process industries is emphasized. (Typically offered: Spring)

CHEG 5333. Advanced Thermodynamics. 3 Hours.
Methods of statistical thermodynamics, the correlation of classical and statistical thermodynamics, and the theory of thermodynamics of continuous systems (non-equilibrium thermodynamics). (Typically offered: Fall)

CHEG 5353. Advanced Separations. 3 Hours.
Phase equilibrium in non-ideal and multicomponent systems, digital and other methods of computation are included to cover the fundamentals of distillation, absorption, and extraction. (Typically offered: Irregular)

CHEG 5443. Chemical Engineering Design II. 3 Hours.
A capstone design class designed for graduate students who do not have an engineering degree. Responsibility for decision making is placed on the students in the solution of a comprehensive, open ended problem based on an industrial process. Both formal oral and formal written presentation of results are required. Students may not receive credit for both CHEG 4443 and CHEG 5443. Prerequisite: Graduate standing. (Typically offered: Fall and Spring)

CHEG 5513. Biochemical Engineering Fundamentals. 3 Hours.
An introduction to bioprocessing with an emphasis on modern biochemical engineering techniques and biotechnology. Topics include: basic metabolism (procaryote and eucaryote), biochemical pathways, enzyme kinetics (including immobilized processes), separation processes (e.g. chromatography) and recombinant DNA methods. Material is covered within the context of mathematical descriptions (calculus, linear algebra) of biochemical phenomenon. (Typically offered: Spring Even Years)

CHEG 5733. Polymer Theory and Practice. 3 Hours.
Theories and methods for converting monomers into polymers are presented. Topics include principles of polymer science, commercial processes, rheology, and fabrication. (Typically offered: Irregular)

CHEG 5773. Medical Applications of Membranes Theory, Current Uses, and Development Areas. 3 Hours.
The course will cover most present-day medical products, treatments, and surgical equipment that rely on membrane transport and/or separation to function effectively. Membranes or membrane devices are used when certain human organs stop working or lose some degree of effectiveness. Those that will be covered in this course include the kidney, the pancreas, the lungs, the skin, and the eye. Localized, controlled-release of medications is also an area where membranes are used in medicine and this area will be described also. Along with dialysis, other external membrane treatment processes such as membrane plasmapheresis (a process whereby a membrane is used to separate blood cells from plasma and thereby opening the door for more effectively treating the cells or plasma separately outside of the body) will be discussed. (Typically offered: Irregular)

CHEG 5801. Graduate Seminar. 1 Hour.
Students hear and present oral presentations on innovations in a variety of chemical engineering subjects with special emphasis on new developments. Prerequisite: Graduate standing. (Typically offered: Fall and Spring) May be repeated for up to 12 hours of degree credit.

CHEG 588V. Special Problems. 1-6 Hour.
Opportunity for individual study of an advanced chemical engineering problem not sufficiently comprehensive to be a thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

CHEG 600V. Master’s Thesis. 1-6 Hour.
Master’s Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

CHEG 6123. Transport Processes II. 3 Hours.
Continuation of CHEG 5113. Prerequisite: CHEG 5113. (Typically offered: Spring)

CHEG 668V. Special Topics in Chemical Engineering. 1-3 Hour.
Advanced study of current Chemical Engineering topics not covered in other courses. Prerequisite: Doctoral students only. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.
CHEG 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Chemistry and Biochemistry (CHEM)

Courses

CHEM 1051L. Chemistry in the Modern World Laboratory (ACTS Equivalency = CHEM 1004 Lab). 1 Hour.
Basic laboratory exercises involving measurements of mass and volume, acids and bases, hardness of water, energy content in fuel, sugar content in drinks, and radioactivity. Meets 2 hours per week. Corequisite: CHEM 1053. (Typically offered: Fall and Spring)

The impact of chemical developments upon contemporary society. Chemical problems of ecological, environmental, nutritional, economic, and sociological concern. Designed for non-science majors. Lecture 3 hours per week. Corequisite: CHEM 1051L. (Typically offered: Fall and Spring)

CHEM 1071L. Fundamentals of Chemistry Laboratory (ACTS Equivalency = CHEM 1214 Lab). 1 Hour.
Laboratory exercises in principles and practices of Fundamental Chemistry. Corequisite: CHEM 1073. (Typically offered: Fall)

CHEM 1073. Fundamentals of Chemistry (ACTS Equivalency = CHEM 1214 Lecture). 3 Hours.
One-semester introductory-level general chemistry course introducing select fundamental concepts and related problem-solving for atomic and molecular structures, nomenclature, dimensional analysis, chemical reactions, chemical bonding, intermolecular forces, states of matter, solutions, acid-base reactions, redox reactions, kinetics, thermochmeistry, and chemical equilibrium. Corequisite: CHEM 1071L and related course component drill section for CHEM 1073. (Typically offered: Fall and Summer)

CHEM 1101L. University Chemistry I Laboratory (ACTS Equivalency = CHEM 1414 Lab). 1 Hour.
Laboratory exercises involving density, types of chemical reactions separations and chromatography, solubility, waters of hydration, freezing point depression, gas laws, and data interpretation. Meets 3 hours per week for 1 hour credit. Pre- or Corequisite: CHEM 1103. (Typically offered: Fall, Spring and Summer)

CHEM 1103. University Chemistry I (ACTS Equivalency = CHEM 1414 Lecture). 3 Hours.
An introductory course for science, engineering or agriculture majors. Atomic structure, electron configurations and periodic properties, nomenclature and bonding in compounds, Lewis structure and resonance forms, molecular geometries and polarity, stoichiometry, solution chemistry and aqueous reactions, thermochemistry, gas laws and kinetic molecular theory. Corequisite: Drill component. Prerequisite: MATH 1203 or higher, or AP Calculus AB 3C or higher, or AP Calculus BC 4C or higher, or College Algebra CLEP 54 or higher. (Typically offered: Fall, Spring and Summer)

CHEM 1121L. University Chemistry II Laboratory (ACTS Equivalency = CHEM 1424 Lab). 1 Hour.
Quantitative laboratory with data interpretation and exercises covering the topics of stoichiometry, thermodynamics, kinetics, chemical equilibrium, pH, and descriptive inorganic chemistry. Laboratory exercises involving measurements of mass and volume, acids and bases, hardness of water, energy content in fuel, sugar content in drinks, and radioactivity. Meets 2 hours per week. Corequisite: CHEM 1123 and related course component drill section for CHEM 1123. (Typically offered: Fall, Spring and Summer)

CHEM 1121M. Honors University Chemistry II Laboratory. 1 Hour.
Qualitative and quantitative laboratory with data interpretation and exercises covering the topics of stoichiometry, thermodynamics, kinetics, chemical equilibrium, pH, and descriptive inorganic chemistry. Laboratory notebooks are required as part of every experiment. Designed for students in the honors programs. Laboratory 3 hours per week. Corequisite: CHEM 1123H and related course component drill for CHEM 1123H. (Typically offered: Fall and Spring)

CHEM 1123. University Chemistry II (ACTS Equivalency = CHEM 1424 Lecture). 3 Hours.
Introductory course for science, engineering or agriculture majors. Liquids, solids, intermolecular forces, phase diagrams, solution chemistry, solubility, colligative properties, chemical kinetics, chemical equilibria, acid-base equilibria, aqueous ionic equilibria, titrations, buffers, solubility equilibria, thermodynamics, electrochemistry, and nuclear chemistry. Lecture 3 hours per week. Corequisite: CHEM 1121L and related course component drill section for CHEM 1123. Prerequisite: CHEM 1103 (or CHEM 1203, or satisfactory performance on the chemistry proficiency exam) and MATH 1203 or higher, or AP Calculus AB 3C or higher, or AP Calculus BC 4C or higher, or College Algebra CLEP 54 or higher. (Typically offered: Fall, Spring and Summer)

CHEM 1123H. Honors University Chemistry II. 3 Hours.
Provides the topics of periodicity, bonding, stoichiometry, thermodynamics, kinetics, and chemical equilibrium in detail. Lecture 3 hours per week. Students with satisfactory performance on the proficiency exam who complete CHEM 1123H on the UAF campus with a grade of 'C' or better can request credit for CHEM 1103. Pre- or Corequisite: MATH 1284C or higher. Corequisite: CHEM 1121M and related course component drill section for CHEM 1123H. Prerequisite: Honors candidacy and CHEM 1103 (or CHEM 1203, or satisfactory performance on the chemistry proficiency exam). (Typically offered: Fall, Spring and Summer)

CHEM 1201. Chemistry for Majors I Laboratory. 1 Hour.
Laboratory exercises involving density, types of chemical reactions separations and chromatography, solubility, waters of hydration, freezing point depression, gas laws, and data interpretation. Laboratory notebooks are required as part of every experiment. Laboratory 3 hours per week. Students may not receive credit for both CHEM 1201L and CHEM 1101L. Corequisite: CHEM 1203 and related course component drill for CHEM 1203. (Typically offered: Fall)

CHEM 1203. Chemistry for Majors I. 3 Hours.
The first half of a two-semester course designed especially for students planning to major in chemistry or biochemistry. Students may not receive credit for both CHEM 1203 and CHEM 1103. Corequisite: CHEM 1201L and related course component drill section for CHEM 1203. Prerequisite: MATH 1203 or higher, or AP Calculus AB 3C or higher, AP Calculus BC 4C or higher, or College Algebra CLEP 54 or higher. (Typically offered: Fall)

CHEM 1221L. Chemistry for Majors II Laboratory. 1 Hour.
Qualitative and quantitative laboratory with data interpretation and exercises covering the topics of stoichiometry, thermodynamics, kinetics, chemical equilibrium, pH, and descriptive inorganic chemistry. Laboratory notebooks are required as part of every experiment. Laboratory 3 hours per week. Students may not receive credit for both CHEM 1221L and CHEM 1121L. Corequisite: CHEM 1223 and related course component drill for CHEM 1223. (Typically offered: Spring)

This course is equivalent to CHEM 1121L.
CHEM 1223. Chemistry for Majors II. 3 Hours.
The second half of a two-semester course designed specifically for students planning to major in chemistry or biochemistry. Students may not receive credit for both CHEM 1223 and CHEM 1123. Pre- or Corequisite: MATH 1284C or higher. Corequisite: CHEM 1221L and related course component drill section for CHEM 1223. Prerequisite: CHEM 1203 and CHEM 1201L (or CHEM 1103 and CHEM 1101L). (Typically offered: Spring)
This course is equivalent to CHEM 1123.

CHEM 2261L. Analytical Chemistry Laboratory. 1 Hour.
Covers techniques of classical and instrumental methods of chemical separation and analysis. Laboratory 4 hours per week. Chemistry Majors/Minors must take analytical lecture and lab prior to any physical chemistry course. Chemistry Majors/Minors should take analytical lecture and lab together. Pre- or Corequisite: CHEM 2263. Prerequisite: (CHEM 1123 and CHEM 1121L) or (CHEM 1123H and CHEM 1121M) or (CHEM 1223 and CHEM 1221L) or (CHEM 1073 and CHEM 1071L) and MATH 1203 or higher, or AP Calculus AB 3C or higher, or AP Calculus BC 4C or higher, or CLEP College Algebra 54 or higher. (Typically offered: Fall and Spring)

CHEM 2263. Analytical Chemistry Lecture. 3 Hours.
Principles of chemical separations, analysis by classical and instrumental methods, and chemical equilibrium in physical and biological systems. Lecture 3 hours per week. Chemistry Majors/Minors must take analytical lecture and lab prior to any physical chemistry course. Chemistry Majors/Minors should take analytical lecture and lab together. Prerequisite: CHEM 1123 and CHEM 1121L or (CHEM 1123H and CHEM 1121M) or (CHEM 1223 and CHEM 1221L) or (CHEM 1073 and CHEM 1071L) and MATH 1203 or higher, or AP Calculus AB 3C or higher, or AP Calculus BC 4C or higher, or CLEP College Algebra 54 or higher. (Typically offered: Fall and Spring)

CHEM 2611L. Organic Physiological Chemistry Laboratory (ACTS Equivalency = CHEM 1224 Lab). 1 Hour.
A focus on properties of organic compounds as well as reactions of organic compounds with an emphasis on functional groups along with some classifications of certain types of compounds. Laboratory 3 hours per week. Corequisite: CHEM 2613 and related course component drill for CHEM 2613. (Typically offered: Fall, Spring and Summer)

CHEM 2613. Organic Physiological Chemistry (ACTS Equivalency = CHEM 1224 Lecture). 3 Hours.
One semester survey of organic chemistry necessary for understanding of biological systems, with some related physiological chemistry, Lecture 3 hours per week. Corequisite: CHEM 2611L and related course component drill section for CHEM 2613. Prerequisite: (CHEM 1073 and CHEM 1071L) or (CHEM 1123 and CHEM 1121L) or (CHEM 1123H and CHEM 1121M) or (CHEM 1223 and CHEM 1221L). (Typically offered: Fall, Spring and Summer)

CHEM 3203. Forensic Chemistry. 3 Hours.
Survey of chemistry used in criminal investigations. Topics may include detection and identification of drugs, alcohol, toxins, explosives and gun powder residue. Chemical analysis of paint, ink, paper, soil, glass and fibers. Chemical detection of blood and fingerprints. Extraction of DNA from evidence, DNA fingerprinting. Prerequisite: CHEM 2613, or CHEM 3613 (recommended), or CHEM 3613H, or CHEM 3713. (Typically offered: Irregular)

CHEM 3203H. Honors Forensic Chemistry. 3 Hours.
Survey of chemistry used in criminal investigations. Topics may include detection and identification of drugs, alcohol, toxins, explosives and gun powder residue. Chemical analysis of paint, ink, paper, soil, glass and fibers. Chemical detection of blood and fingerprints. Extraction of DNA from evidence, DNA fingerprinting. As a requirement of honors designation additional honors-level work is required of students enrolled in this section. Prerequisite: CHEM 2613, or CHEM 3613 (recommended), or CHEM 3613H, or CHEM 3713. (Typically offered: Irregular)
This course is equivalent to CHEM 3203.

CHEM 3273. UTeach Research Methods. 3 Hours.
A project-based course for prospective science and mathematics teachers utilizing scientific research methods and inquiry to solve research problems. Corequisite: Drill component. Prerequisite: ARSC 1201 and ARSC 1221. (Typically offered: Spring)
This course is cross-listed with PHYS 3273, BIOL 3273.

CHEM 3451L. Elements of Physical Chemistry Laboratory. 1 Hour.
Experimental measurements of the physical properties, chemical systems, error analysis and report writing. Experiments cover topics in thermochemistry, heat capacity, chemical kinetics, spectroscopy, and phase/chemical equilibrium using a variety of physical chemistry techniques. Laboratory 4 hours per week. Corequisite: Chemistry majors and chemistry minors must enroll in CHEM 3453 concurrently. Prerequisite: CHEM 2261L and PHYS 2031L (or PHYS 2074). (Typically offered: Fall)

CHEM 3453. Elements of Physical Chemistry. 3 Hours.
One semester accelerated course in physical chemistry primarily for students majoring/minoring in chemistry or biochemistry options, or pre-professional and agriculture students. Topics include thermodynamics, phase & chemical equilibrium, chemical kinetics, quantum chemistry and spectroscopy. Presented at the same level as the 2-semester course with some recourse to calculus, although covering fewer topics in quantum chemistry. Lecture 3 hours per week. Students cannot earn credit for both CHEM 3453 and CHEM 3514. Corequisite: Chemistry majors and chemistry minors must enroll in CHEM 3451L concurrently. Prerequisite: CHEM 2263 and PHYS 2033 (or PHYS 2074), and MATH 2554 (or MATH 2043). (Typically offered: Fall)

CHEM 3504. Physical Chemistry I. 4 Hours.
First semester of a 2-semester course in physical chemistry designed for chemistry majors and chemistry minors with topics covering wave-particle duality, quantum chemistry, atomic and molecular structure, bonding, spectroscopy and elementary statistical mechanics. Lecture and recitation 4 hours per week. Pre- or Corequisite: MATH 2564. Prerequisite: CHEM 2263 and PHYS 2074. (Typically offered: Fall)

CHEM 3512L. Physical Chemistry Laboratory. 2 Hours.
Experimental studies of molecular structure, thermochemistry, and chemical kinetics, and the determination of other physicochemical properties of matter. Laboratory 8 hours per week. Students cannot earn credit for both CHEM 3451L and CHEM 3512L. Corequisite: Chemistry majors and chemistry minors must take CHEM 3514 concurrently. Prerequisite: CHEM 2261L and PHYS 2031L (or PHYS 2074). (Typically offered: Spring)

CHEM 3514. Physical Chemistry II. 4 Hours.
Second semester of a 2-semester course in physical chemistry aimed for B.S. chemistry majors/minors with topics covering the laws of thermodynamics, phase & chemical equilibrium; structure and properties of solutions, chemical potential, and chemical kinetics. Lecture and recitation 4 hours per week. Students cannot earn credit for both CHEM 3453 and CHEM 3514. Corequisite: Chemistry majors and chemistry minors must enroll in CHEM 3512L concurrently. Prerequisite: CHEM 3504. (Typically offered: Spring)

CHEM 3601L. Organic Chemistry I Laboratory. 1 Hour.
Introduction to basic techniques for separation, purification, and identification of organic compounds. Laboratory exercises in organic chemistry. Meets 3 hours per week. Corequisite: CHEM 3603 and related course component drill for CHEM 3603. (Typically offered: Fall and Summer)

CHEM 3602M. Honors Organic Chemistry I Laboratory. 2 Hours.
Introduction to basic techniques for separation, purification, and identification of organic compounds. Drill lecture-discussion (1hr/wk) and laboratory (4hr/wk). Writing component. Required drill. Corequisite: CHEM 3603H and related course component drill sections for CHEM 3603H and CHEM 3602M. Prerequisite: Honors candidacy. (Typically offered: Fall and Summer)
This course is equivalent to CHEM 3601L.
CHEM 3603. Organic Chemistry I. 3 Hours.
Introduction to organic compounds including alkanes, haloalkanes, alkenes and alkynes; properties including basic stereochemistry and reactions including nucleophilic substitution, elimination, and electrophilic addition reactions. Lecture 3 hours per week. Corequisite: CHEM 3601L and related course component drill section for CHEM 3603. Prerequisite: (CHEM 1123 and CHEM 1121L) or (CHEM 1123H and CHEM 1121M) or (CHEM 1223 and CHEM 1221L). (Typically offered: Fall and Summer)

CHEM 3603H. Honors Organic Chemistry I. 3 Hours.
In-depth introduction to organic compounds; properties and reactions. Including alkanes, haloalkanes, alkenes and alkynes; nucleophilic substitution, elimination, and electrophilic addition reactions. Lecture 3 hours per week. Corequisite: CHEM 3602M and related course component drill sections for CHEM 3603H and CHEM 3602M. Prerequisite: Honors candidacy and ((CHEM 1123 and CHEM 1121L) or (CHEM 1123H and CHEM 1121M) or (CHEM 1223 and CHEM 1221L)). (Typically offered: Fall and Summer)

This course is equivalent to CHEM 3603.

CHEM 3611L. Organic Chemistry II Laboratory. 1 Hour.
Continuation of CHEM 3601L and introduction to basic techniques of synthesis, isolation, and determination of structure and reactivity of organic compounds. Laboratory exercises in organic chemistry. Meets 3 hours per week. Corequisite: CHEM 3613 and related course component drill for CHEM 3613. Prerequisite: CHEM 3601L. (Typically offered: Spring and Summer)

CHEM 3612M. Honors Organic Chemistry II Laboratory. 2 Hours.
Continuation of CHEM 3602M and introduction to basic techniques of synthesis, isolation, and determination of structure and reactivity of organic compounds. Drill lecture-discussion (1 hour/wk) and laboratory (4 hours/wk). Writing component. Drill required. Corequisite: CHEM 3613H and related course component drill sections for CHEM 3612M and CHEM 3613H. Prerequisite: Honors candidacy and CHEM 3602M. (Typically offered: Spring and Summer)

This course is equivalent to CHEM 3611L.

CHEM 3613. Organic Chemistry II. 3 Hours.
Basic chemistry of aromatic and carbonyl compounds: properties and reactions. Lecture 3 hours per week. Corequisite: CHEM 3611L and related course component drill section for CHEM 3613. Prerequisite: (CHEM 3603 and CHEM 3601L) or (CHEM 3603H and CHEM 3602M) or (CHEM 3703 and CHEM 3702L). (Typically offered: Spring and Summer)

CHEM 3613H. Honors Organic Chemistry II. 3 Hours.
In-depth coverage of the basic chemistry of aromatic and carbonyl compounds; properties and reactions. Lecture 3 hours per week. Corequisite: CHEM 3612M and related course component drill sections for CHEM 3613H and CHEM 3612M. Prerequisite: Honors candidacy and CHEM 3603H and CHEM 3602M. (Typically offered: Spring and Summer)

This course is equivalent to CHEM 3613.

CHEM 3702L. Organic Chemistry I Lab for Chemistry Majors. 2 Hours.
Introduction to basic techniques for separation, purification, and identification of organic compounds. Drill lecture-discussion (1 hr/wk) and laboratory (4 hr/wk). Writing component. Required drill. Corequisite: CHEM 3703 and related course component drill sections for CHEM 3703 and CHEM 3702L. Prerequisite: Chemistry major or minor. (Typically offered: Fall)

CHEM 3703. Organic Chemistry I Lecture for Chemistry Majors. 3 Hours.
In-depth introduction to organic compounds including alkanes, haloalkanes, alkenes and alkynes; properties including basic stereochemistry and reactions including nucleophilic substitution, elimination, and electrophilic addition. Lecture 3 hours per week. Corequisite: CHEM 3702L and related course component drill sections for CHEM 3703 and CHEM 3702L. Prerequisite: Chemistry major or minor and (CHEM 1123 and CHEM 1121L) or (CHEM 1123H and CHEM 1121M) or (CHEM 1223 and CHEM 1221L). (Typically offered: Fall)

This course is equivalent to CHEM 3603.

CHEM 3712L. Organic Chemistry II Lab for Chemistry Majors. 2 Hours.
Continuation of CHEM 3702L and introduction to basic techniques of synthesis, isolation, and determination of structure and reactivity of organic compounds. Drill lecture-discussion (1 hour/wk) and laboratory (4 hours/wk). Writing component. Drill required. Corequisite: CHEM 3713 and related course component drill sections for CHEM 3713 and CHEM 3712L. Prerequisite: Chemistry major or minor and CHEM 3702L. (Typically offered: Spring)

CHEM 3713. Organic Chemistry II Lecture for Chemistry Majors. 3 Hours.
Continuation of in-depth coverage of the basic chemistry of the compounds of carbon. Properties and reactions of aromatic and carbonyl functional groups. Lecture 3 hours per week. Corequisite: CHEM 3712L and related course component drill sections for CHEM 3713 and CHEM 3712L. Prerequisite: Chemistry major or minor and CHEM 3703 and CHEM 3702L. (Typically offered: Spring)

This course is equivalent to CHEM 3613.

CHEM 3813. Elements of Biochemistry. 3 Hours.
One semester survey course of the fundamentals of biochemistry. Structures, properties, and reactions of major classes of biomolecules. Basics of enzyme catalysis. Overview of metabolism. Credit for both CHEM 3813 and CHEM 4813H may not be counted toward a chemistry degree. Lecture 3 hours per week. Prerequisite: (CHEM 3613 and CHEM 3611L) or (CHEM 3613H and CHEM 3612M) or (CHEM 3713 and CHEM 3712L) or (CHEM 2613 and CHEM 2611L). (Typically offered: Fall, Spring and Summer)

CHEM 3923H. Honors Colloquium. 3 Hours.
Covers a special topic or issue. Offered as a part of the honors program. Prerequisite: Honors candidacy. (Typically offered: Fall, Spring and Summer)

CHEM 400V. Chemistry Research. 1-4 Hour.
Research problems. Students need to enroll in their supervising faculty mentor's section. CHBC students conducting research under a faculty mentor outside of CHBC must enroll in the CHBC chair's section. Additionally, honors students need the approval of the CHBC department honors advisor. Honors students must complete thesis in senior year. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

CHEM 400VH. Honors Chemistry Research. 1-4 Hour.
Research problems. Students need to enroll in their supervising faculty mentor's section. CHBC students conducting research under a faculty mentor outside of CHBC must enroll in the CHBC chair's section. Additionally, honors students need the approval of the CHBC department honors advisor. Honors students must complete thesis in senior year. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

This course is equivalent to CHEM 400V.

CHEM 4011H. Honors Seminar. 1 Hour.
Research seminar for chemistry majors enrolled in the honors program. Enrollment is required the spring semester of the junior and senior years for honors students. Senior honors students must make one research presentation to graduate with honors. Prerequisite: Honors candidacy, chemistry major and junior or senior standing. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

CHEM 405V. Special Topics in Chemistry. 1-4 Hour.
Potential topics include: advanced spectroscopic methods, bioanalytical chemistry, bioorganic chemistry, biogeochemical chemistry, chemical sensors, drug discovery and design, nanomaterials, pharmaceutical chemistry, process analytical chemistry, and protein folding and design. (Typically offered: Irregular)

CHEM 4123. Advanced Inorganic Chemistry I. 3 Hours.
Reactions and properties of inorganic compounds from the standpoint of electronic structure and the periodic table. Emphasis on recent developments. Prerequisite: CHEM 3453 or CHEM 3514. (Typically offered: Fall)
CHEM 4153L. Nanotechnology Laboratory. 3 Hours.
Provides students with hands-on experience in several major areas of nanotechnology, including nanoscale imaging, synthesis of nanomaterials, nanostructure assembly and manipulation, device and system integration, and performance evaluation. Students can earn credit for only one of the following courses: MEEG 4323L, BENG 4753L, BMEG 4103L, CHEM 4153L, PHYS 4793L.
Corequisite: Drill component, junior standing and instructor consent. Prerequisite: MATH 2564, PHYS 2074, and CHEM 1123. (Typically offered: Fall)
This course is cross-listed with MEEG 4323L, PHYS 4793L.
CHEM 4211L. Instrumental Analysis Laboratory. 1 Hour.
Provides laboratory experience in parallel with the lecture material in CHEM 4213. Laboratory 3 hours per week. Corequisite: CHEM 4213. (Typically offered: Spring)

CHEM 4213. Instrumental Analysis. 3 Hours.
Provides students, especially those in the agricultural, biological, and physical sciences, with an understanding of modern instrumental techniques of analysis.
Lecture 3 hours per week. Corequisite: CHEM 4211L. Prerequisite: (CHEM 2263 and CHEM 2261L) and ((CHEM 3613 and CHEM 3611L) or (CHEM 3613H and CHEM 3612M) or (CHEM 3713 and CHEM 3712L)). (Typically offered: Spring)

CHEM 4283. Energy Conversion and Storage. 3 Hours.
Fundamental and applied concepts of energy storage and conversion, with sustainability implications. Chemical reactions (kinetics, thermodynamics, mass transfer), emphasizing oxidation-reduction, electrochemical, and interfacial processes, and impact on performance of fuel and biofuel cells, batteries, supercapacitors, and photochemical conversion. Prerequisite: CHEM 1123 and PHYS 2074. (Typically offered: Fall Even Years)

CHEM 4443. Physical Chemistry of Materials. 3 Hours.
Physical and chemical characteristics of materials and discussion of the science behind materials engineering and performance. Topics include theory, principles of characterization methods, modeling, and applications in the context of materials.
Pre- or Corequisite: CHEM 3514. Prerequisite: CHEM 3453 or CHEM 3713 or MEEG 2403. (Typically offered: Spring Odd Years)

CHEM 4723. Experimental Methods in Organic Chemistry. 3 Hours.
Introduction to the application of synthetic and spectroscopic methods in organic chemistry, including mass spectrometry, infrared spectroscopy, and nuclear magnetic resonance spectrometry. Other laboratory techniques applicable to chemical research will be included. Lecture 3 hours and laboratory 3 hours per week. Lecture only meets the first half of the term. Laboratory meets the entire term. Corequisite: Lab component. Prerequisite: CHEM 3613 and CHEM 3611L, or CHEM 3613H or CHEM 3612M, or (CHEM 3713 and CHEM 3712L). (Typically offered: Fall)

CHEM 4813H. Honors Biochemistry I. 3 Hours.
The first of a two-course series covering biochemistry for undergraduate students in biology, agriculture, and chemistry. Topics covered include protein structure and function, enzyme kinetics, enzyme mechanisms, and nucleic acid and carbohydrate structures. Credit cannot be earned in both CHEM 3813 and CHEM 4813H.
Additional honors-level work required in this section. Prerequisite: Honors candidacy and CHEM 4813H. (Typically offered: Spring)

CHEM 4843H. Honors Biochemistry II. 3 Hours.
A continuation of CHEM 4813H covering topics including biological membranes and bioenergetics, photosynthesis, lipids and lipid metabolism, nucleic acid structure, structure and synthesis, and molecular biology. Credit cannot be earned in both CHEM 3813 and CHEM 4843H.
Additional honors-level work required in this section. Prerequisite: Honors candidacy and CHEM 4813H. (Typically offered: Spring)

CHEM 4853. Biochemical Techniques. 3 Hours.
Techniques for handling, purifying and analyzing enzymes, structural proteins, and nucleic acids. Lecture 1 hour, laboratory 6 hours per week. Corequisite: Lab component. Pre or Corequisite: CHEM 3813 or CHEM 4843H. (Typically offered: Spring)

CHEM 505V. Special Topics in Chemistry. 1-4 Hour.
(Formerly CHEM 405V.) Potential topics include: advanced spectroscopic methods, bioanalytical chemistry, bioinorganic chemistry, bioorganic chemistry, biophysical chemistry, chemical sensors, drug discovery and design, nanomaterials, pharmaceutical chemistry, process analytical chemistry, and protein folding and design. Graduate degree credit will not be given for both CHEM 405V and CHEM 505V. Prerequisite: Instructor consent. (Typically offered: Irregular)

CHEM 5101. Introduction to Research. 1 Hour.
This eight week course introduces new graduate students to research opportunities and skills in chemistry and biochemistry. Meets 2 hours per week in the first half of the semester. Safety and ethics in research and scholarship are discussed. Students learn about research programs in the department to aid in choosing an advisor. (Typically offered: Fall)

CHEM 5123. Advanced Inorganic Chemistry. 3 Hours.
Reactions and properties of inorganic compounds from the standpoint of electronic structure and the periodic table. Emphasis on recent developments. Knowledge comparable to material in CHEM 3453 is recommended. (Typically offered: Fall)

CHEM 5143. Advanced Inorganic Chemistry II. 3 Hours.
Chemistry of metallic and non-metallic elements emphasizing molecular structure, bonding and the classification of reactions. Knowledge of inorganic chemistry comparable to material in CHEM 4123 and CHEM 5123 is recommended. (Typically offered: Irregular)

CHEM 5153. Structural Chemistry. 3 Hours.
Determination of molecular structure by diffraction, spectroscopic, and other techniques. Illustrative examples will be chosen from inorganic chemistry and biochemistry. (Typically offered: Irregular)

CHEM 5213. Instrumental Analysis. 3 Hours.
Provides students, especially those in the physical, agricultural, and biological sciences, with an understanding of the theory and practice of modern instrumental techniques of analysis. Lecture 3 hours per week. Knowledge comparable to material in CHEM 2263 and CHEM 3603 is recommended. (Typically offered: Spring)

CHEM 5233. Chemical Separations. 3 Hours.
Modern separation methods including liquid chromatography (adsorption, liquid-liquid partition, ion exchange, exclusion) and gas chromatography. Theory and instrumentation is discussed with emphasis on practical aspects of separation science. Prerequisite: CHEM 4213. (Typically offered: Fall Even Years)

CHEM 5243. Electrochemical Methods of Analysis. 3 Hours.
Topics will include diffusion, electron transfer kinetics, and reversible and irreversible electrode processes followed by a discussion of chronoanpamperometry, chronocoulometry, polarography, voltammetry, and chronopotentiometry. Knowledge of analytical chemistry comparable to material in CHEM 4213 is recommended. (Typically offered: Spring Even Years)

CHEM 5253. Spectrochemical Methods of Analysis. 3 Hours.
Principles and methods of modern spectroscopic analysis. Optics and instrumentation necessary for spectroscopy is also discussed. Topics include atomic and molecular absorption and emission techniques in the ultraviolet, visible, and infrared spectral regions. Knowledge of analytical chemistry comparable to material in CHEM 4213 is recommended. (Typically offered: Fall Odd Years)
CHEM 5283. Energy Conversion and Storage. 3 Hours.
Fundamental and applied concepts of energy storage and conversion with sustainability implications. Chemical reactions (kinetics, thermodynamics, mass transfer), emphasizing oxidation-reduction, electrochemical, and interfacial processes, and impact on performance of fuel and biofuel cells, batteries, supercapacitors, and photochemical conversion. (Typically offered: Fall Even Years)

CHEM 5383. Chemometrics. 3 Hours.
Chemometrics is the process of extracting relevant information from chemical data by mathematical and statistical tools. These tools allow for designing optimal experimental procedures, extracting important information from complex chemical systems, and better understanding of complex chemical systems. (Typically offered: Spring Even Years)

CHEM 5443. Physical Chemistry of Materials. 3 Hours.
Physical and chemical characteristics of materials and discussion of the science behind materials engineering and performance. Topics include theory, principles of characterization methods, modeling, and applications in the context of materials. Knowledge comparable to material in CHEM 3514 and CHEM 3504 or CHEM 3453 or CHEG 3713 or MEEG 2403 is recommended. (Typically offered: Irregular)

CHEM 5453. Quantum Chemistry I. 3 Hours.
Fundamental quantum theory: Hamiltonian formalism in classical mechanics, Schrödinger equation, operators, angular momentum, harmonic oscillator, barrier problems, rigid rotor, hydrogen atom, and interaction of matter with radiation. Knowledge of physical chemistry comparable to material in CHEM 3504 is recommended. (Typically offered: Spring Odd Years)

CHEM 5473. Chemical Kinetics. 3 Hours.
Theory and applications of the principles of kinetics to reactions between substances, both in the gaseous state and in solution. Knowledge of physical chemistry comparable to material in CHEM 3514 is recommended. (Typically offered: Spring)

CHEM 5573. Statistical Thermodynamics. 3 Hours.
Covers fundamentals in thermodynamics, molecular dynamics, Monte Carlo, phase transitions, behavior of gases and liquids and basic concepts in chemical kinetics and physical kinetics. Knowledge comparable to physical chemistry materials in CHEM 3514 is recommended. (Typically offered: Irregular)

CHEM 5603. Physical Organic Chemistry. 3 Hours.
Introduction to the theoretical interpretation of reactivity, reaction mechanisms, and molecular structure of organic compounds. Application of theories of electronic structure; emphasis on recent developments. Knowledge of material comparable to CHEM 3613, CHEM 3613H, CHEM 3713 and CHEM 3514 is recommended. (Typically offered: Fall)

CHEM 5633. Organic Reactions. 3 Hours.
The more important types of organic reactions and their applications to various classes of compounds. Knowledge of organic chemistry comparable to material in CHEM 3603 is recommended. (Typically offered: Irregular)

CHEM 5723. Experimental Methods in Organic Chemistry. 3 Hours.
Introduction to the application of synthetic and spectroscopic methods in organic chemistry, including mass spectrometry, infrared spectroscopy, and nuclear magnetic resonance spectrometry. Lecture 3 hours per week. Knowledge comparable to material in CHEM 3613 is recommended. (Typically offered: Fall)

CHEM 5753. Methods of Organic Analysis. 3 Hours.
Interpretation of physical measurements of organic compounds in terms of molecular structure. Emphasis on spectroscopic methods (infrared, ultraviolet, magnet resonance, and mass spectra). Knowledge of organic chemistry comparable to material in CHEM 3603 is recommended. (Typically offered: Fall)

CHEM 5813. Biochemistry I. 3 Hours.
The first of a two-course series covering biochemistry for graduate students in biology, agriculture, and chemistry. Topics covered include protein structure and function, enzyme kinetics, enzyme mechanisms, and nucleic acid and carbohydrate structures. Knowledge of organic chemistry comparable to material in CHEM 3613 is recommended. (Typically offered: Fall)

CHEM 5843. Biochemistry II. 3 Hours.
A continuation of CHEM 5813 covering topics including biological membranes and bioenergetics, photosynthesis, lipids and lipid metabolism, nucleic acid and amino acid metabolism, and molecular biology. Knowledge of organic chemistry comparable to material in CHEM 3613 is recommended. Prerequisite: CHEM 5813. (Typically offered: Spring)

CHEM 600V. Master's Thesis. 1-6 Hour.
Master's Thesis. Chemistry graduate students enroll in this course as needed until all CUMES are passed and the student is officially a doctoral candidate. Prerequisite: Chemistry graduate student. (Typically offered: Fall and Spring) May be repeated for degree credit.

CHEM 6011. Chemistry Seminar. 1 Hour.
Weekly discussion of current chemical research. Departmental and divisional seminars in analytical chemistry, biochemistry, inorganic, organic, and physical chemistry are held weekly. Seminar credit does not count toward the minimum hourly requirements for any chemistry graduate degree. (Typically offered: Fall and Spring) May be repeated for degree credit.

CHEM 619V. Special Topics in Inorganic Chemistry. 1-3 Hour.
Topics which have been covered in the past include: technique and theory of x-ray diffraction, electronic structure of transition metal complexes, inorganic reaction mechanisms, and physical methods in inorganic chemistry. (Typically offered: Irregular) May be repeated for degree credit.

CHEM 6283. Mass Spectrometry. 3 Hours.
This course is devoted to the fundamental principles and applications of analytical mass spectrometry. Interactions of ions with magnetic and electric fields and the implications with respect to mass spectrometer design are considered, as are the various types of mass spectrometer sources. Representative applications of mass spectrometry in chemical analysis are also discussed. Prerequisite: Graduate standing. (Typically offered: Spring Odd Years)

CHEM 629V. Special Topics in Analytical Chemistry. 1-3 Hour.
Topics that have been presented in the past include: electroanalytical techniques, kinetics of crystal growth, studies of electrode processes, lasers in chemical analysis, nucleosynthesis and isotopic properties of meteorites, thermoluminescence of geological materials, early solar system chemistry and analytical cosmochemistry. (Typically offered: Irregular) May be repeated for degree credit.

CHEM 649V. Special Topics in Physical Chemistry. 1-3 Hour.
Topics which have been covered in the past include advanced kinetics, solution chemistry, molecular spectra, nuclear magnetic resonance spectroscopy, and methods of theoretical chemistry. (Typically offered: Irregular) May be repeated for degree credit.

CHEM 6643. Organometallic Chemistry. 3 Hours.
Theories and principles of organometallic chemistry. Concepts include bonding, stereochemistry, structure and reactivity, stereochemical principles, conformational, steric and stereoelectronic effects. Transition metal catalysis of organic reactions will also be described. Knowledge of material comparable to CHEM 3713 and CHEM 3514 is recommended. (Typically offered: Irregular)
CHEM 689V. Special Topics in Organic Chemistry. 1-3 Hour.
Topics which have been presented in the past include heterogeneous catalysis, isotope effect studies of organic reaction mechanisms, organometallic chemistry, stereochemistry, photochemistry, and carbon ion chemistry. (Typically offered: Irregular) May be repeated for degree credit.

CHEM 6823. Physical Biochemistry. 3 Hours.
Physical chemistry of proteins, nucleic acids, and biological membranes. Ultracentrifugation, absorption and fluorescent spectrophotometry, nuclear magnetic resonance spectroscopy, x-ray diffraction, and other techniques. Prerequisite: CHEM 5813. (Typically offered: Fall Even Years)

CHEM 6863. Enzymes. 3 Hours.
Isolation, characterization, and general chemical and biochemical properties of enzymes. Kinetics, mechanisms, and control of enzyme reactions. Prerequisite: CHEM 5813 and CHEM 5843. (Typically offered: Fall Odd Years)

CHEM 6873. Molecular Biochemistry. 3 Hours.
Nucleic acid chemistry in vitro and in vivo, synthesis of DNA and RNA, genetic diseases, cancer biochemistry and genetic engineering. Prerequisite: CHEM 5813 and CHEM 5843. (Typically offered: Spring Even Years)

CHEM 6883. Bioenergetics and Biomembranes. 3 Hours.
Cellular energy metabolism, photosynthesis, membrane transport, properties of membrane proteins, and the application of thermodynamics to biological systems. Prerequisite: CHEM 5813 and CHEM 5843. (Typically offered: Spring Even Years)

CHEM 700V. Doctoral Dissertation. 1-12 Hour.
Doctoral Dissertation. For chemistry graduate students who have passed all CUMES and have officially been admitted to doctoral candidacy. Prerequisite: Chemistry graduate student. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Chinese (CHIN)

Courses

CHIN 1003. Elementary Chinese I. 3 Hours.
Elementary Chinese. (Typically offered: Fall)

CHIN 1013. Elementary Chinese II. 3 Hours.
Elementary courses stress correct pronunciation, Aural comprehension, and simple speaking ability, and lead to active mastery of basic grammar and limited reading ability. (Typically offered: Spring)

Intermediate courses lead to greater facility in spoken language and to more advanced reading skills. (Typically offered: Fall)

CHIN 2013. Intermediate Chinese II. 3 Hours.
Continued development of basic speaking comprehension and writing skills and intensive development of reading skills. (Typically offered: Spring)

CHIN 3003. Advanced Chinese. 3 Hours.
Continues to develop speaking, listening, reading and writing skills and presents more complex forms and structures of the language as well as additional characters. Prerequisite: CHIN 2013 (Typically offered: Fall)

CHIN 3033. Conversation. 3 Hours.
Guided conversation practice for the post-intermediate student. Prerequisite: CHIN 2013 or equivalent. (Typically offered: Spring)

CHIN 3103. Chinese Culture through Film. 3 Hours.
This course explores Chinese culture through the lens of Chinese films and with an emphasis on contemporary Chinese communicative culture. The course is designed to give students analytical insights into Chinese culture, especially how Chinese history, philosophy, society, language, education, customs, and economic developments shape contemporary Chinese culture and Chinese people's communication. This course is taught in English; no knowledge of the Chinese language is required. (Typically offered: Fall) May be repeated for up to 6 hours of degree credit.

This course is cross-listed with AIST 3103.

CHIN 3983. Special Studies. 3 Hours.
May be offered in subject not specifically covered by courses otherwise listed. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

CHIN 4313. Culture and Society in China. 3 Hours.
Introduction of key principles, customs, and behaviors in Chinese society to help students understand the Chinese business context. This course is taught in English. (Typically offered: Spring)

This course is cross-listed with AIST 4323.

CHIN 4333. Business Chinese Language in Speaking and Writing. 3 Hours.
Introduction of Chinese vocabulary, formats, and expressions in business environments, such as company structures, management, banking and accounting, as well as how to read and write contracts, letters, and other business documents. Prerequisite: CHIN 3003 or equivalent Chinese proficiency. (Typically offered: Fall)

Civil Engineering (CVEG)

Courses

CVEG 2002. Introduction to Civil Engineering Plans and CADD. 2 Hours.
Development and preparation of design and construction plans; plan terminology and features; introduction to computer-aided drafting and design (CADD) software. Corequisite: Drill component. Prerequisite: Civil Engineering major or departmental consent. (Typically offered: Fall, Spring and Summer)

CVEG 2013. Civil Engineering Mechanics I. 3 Hours.
CVEG 2013 provides the student with a foundation in the theory and principles of statics for use in subsequent civil engineering courses. The course applies mathematics and physics to solve practical problems of structural systems. Corequisite: MATH 2574. Prerequisite: MATH 2564 and PHYS 2054. (Typically offered: Fall and Spring)

CVEG 2023 provides the student with a foundation in the theory and principles of mechanics of materials for use in subsequent civil engineering courses. This course applies mathematics and physics to solve problems in mechanics. Prerequisite: CVEG 2013 or MEEG 2003. (Typically offered: Fall and Spring)

CVEG 2051L. Surveying Systems Laboratory. 1 Hour.
Laboratory exercises demonstrating the principles and practices of surveying systems. Corequisite: CVEG 2053. (Typically offered: Fall and Spring)

CVEG 2053. Surveying Systems. 3 Hours.
Coordinate geometry, measurements, and total integrated surveying systems; total stations, electronic data collection, and reduction; error analysis; applications to civil engineering and surveying practice. Corequisite: CVEG 2051L. Prerequisite: MATH 2554 or MATH 2445. (Typically offered: Fall and Spring)

CVEG 2113. Structural Materials. 3 Hours.
Production, properties, behavior, and structural applications of concrete, steel, timber, masonry, and plastic. Statistical analysis methods for quality control are also covered. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: MEEG 2003 or CVEG 2013. Pre- or Corequisite: MEEG 3013 or CVEG 2023. (Typically offered: Fall and Spring)
Civil Engineering (CVEG)

CVEG 2851. Engineering Professional Practice Issues. 1 Hour.
Study of various issues related to the professional practice of engineering including ethics, professionalism, professional licensure, project procurement, social and political issues, globalization, and other legal issues. (Typically offered: Irregular)

CVEG 3131L. Soil Mechanics Laboratory. 1 Hour.
Index, strength, and consolidation properties of soils; test methods and specifications for soil sampling and testing. Corequisite: CVEG 3132 (Formerly CVEG 3133). (Typically offered: Fall and Spring)

CVEG 3132. Soil Mechanics. 2 Hours.
Introduction to geotechnical engineering. Properties of soils related to foundations, retaining walls, earth structures, and highways. Lecture 2 hours, laboratory 3 hours per week. Corequisite: CVEG 3131L. Pre- or Corequisite: CVEG 3213 and MATH 2584. Prerequisite: (MEEG 3013 or CVEG 2023) and GEOS 1113 and CVEG 2002. (Typically offered: Fall and Spring)

CVEG 3213. Hydraulics. 3 Hours.
Study of incompressible fluids. Topics include fluid properties, fluid statics, continuity, energy and hydraulic gradients, fundamentals of flow in pipes and open channels. Hardy Cross analyses, measurement of flow of incompressible fluids, hydraulic similitude and dimensional analysis. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: CVEG 2013 or MEEG 2003. (Typically offered: Fall and Spring)

CVEG 3223. Hydrology. 3 Hours.
Flood routing procedures in storage reservoirs and channels. Hydrologic planning including storage reservoir design, frequency duration analysis, and related techniques. Prerequisite: (CVEG 2053 or BENG 2643), (CVEG 3213 or MEEG 3503 or CHEG 2133). (Typically offered: Fall and Spring)

CVEG 3243. Environmental Engineering. 3 Hours.
Introduction to theories and fundamentals of physical, chemical, and biological processes with emphasis on water supply and wastewater collection, transportation, and treatment. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: MATH 2584 and CHEM 1103. (Typically offered: Fall and Spring)

CVEG 3303. Structural Analysis. 3 Hours.
Truss analysis, influence lines for beams and frames, and effects of moving loads. Deformation of beams, frames, and trusses. Analysis of indeterminate structures by moment area, slope deflection, and moment distribution methods; approximate methods of analysis. Lecture 3 hours, drill 3 hours per week. Corequisite: Drill component. Prerequisite: MEEG 3013 or CVEG 2023. (Typically offered: Fall and Spring)

CVEG 3413. Transportation Systems Engineering. 3 Hours.
Transportation Systems Engineering: Introduction to transportation systems engineering and planning. Includes the following topics: transportation governance, financing, and the effect on the environment; traffic flow theory; safety; traffic operations and control; capacity; and travel demand modeling. Prerequisite: CVEG 2053 and (INEG 2313 or INEG 3313). (Typically offered: Fall)

CVEG 4053. Land Surveying. 3 Hours.

CVEG 4083. Control Surveys. 3 Hours.
Sun and Polaris observations for astronomic azimuth, solar access studies; control traversing, leveling, triangulation; state plane coordinate systems. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: CVEG 2053 and CVEG 2051L. (Typically offered: Irregular)

CVEG 4143. Foundation Engineering. 3 Hours.
Analysis and design of retaining walls, footings, sheet piles, and piles. Determination of foundation settlements in sand and clay. Prerequisite: CVEG 3132 and INEG 2413. (Typically offered: Fall and Spring)

CVEG 4203. Environmental Regulations and Permits. 3 Hours.
Topics include federal and state environmental regulations, the permitting process, permit requirements and related issues. Prerequisite: CVEG 3243 and senior standing. (Typically offered: Fall)

CVEG 4243. Environmental Engineering Design. 3 Hours.
Application of physical, biological, and chemical operations and processes to the design of water supply and wastewater treatment systems. Prerequisite: CVEG 3243 and INEG 2413. (Typically offered: Fall and Spring)

CVEG 4263. Air Pollution Control. 3 Hours.
Fundamentals of air pollution causes, effects, and measurements; as well as, control methods with application to current industrial problems. Prerequisite: CVEG 3213 or MEEG 3503. (Typically offered: Spring)

CVEG 4273. Open Channel Flow. 3 Hours.
Open Channel Flow includes advanced open channel hydraulics, flow measurement techniques, a hydrology review, culvert and storm drainage design, natural channel classification (fluvial geomorphology) and rehabilitation, computer methods and environmental issues. Prerequisite: CVEG 3213 and CVEG 3223. (Typically offered: Spring)

CVEG 4303. Reinforced Concrete Design I. 3 Hours.
Design of reinforced concrete elements with emphasis on ultimate strength design supplemented by working stress design for deflection and crack analysis. Prerequisite: CVEG 2113 and CVEG 3303. (Typically offered: Fall and Spring)

CVEG 4313. Structural Steel Design I. 3 Hours.
Design of structural steel elements by elastic design the Load and Resistance Factor Design method. Intensive treatment of tension members, beams, columns, and connections. Pre- or Corequisite: CVEG 2113. Prerequisite: CVEG 3303. (Typically offered: Fall and Spring)

CVEG 4323. Structural Loadings. 3 Hours.
Theoretical background to and practical code requirements for various structural loadings. These include dead loads, occupancy loads, roof loads and ponding, snow loads, granular loads, vehicular loads, wind loading, and seismic loads. Prerequisite: CVEG 3303, INEG 2413 and (CVEG 4303 or CVEG 4313). (Typically offered: Spring)

CVEG 4334. Reinforced Masonry Design. 3 Hours.

CVEG 4353. Timber Design. 3 Hours.
Selection of timber beams, columns, and beam-columns. Physical properties of wood, analysis and design of timber connections. Truss design, glulam members, timber bridge design, treatment for decay, and fire protection. Pre- or Corequisite: CVEG 2113. Prerequisite: CVEG 3303. (Typically offered: Irregular)

CVEG 4413. Pavement Evaluation and Rehabilitation. 3 Hours.
Introduction of concepts and procedures for pavement condition surveys; evaluation by nondestructive and destructive testing; maintenance strategies; rehabilitation of pavement systems for highway and airfields; pavement management systems. Prerequisite: CVEG 4433. (Typically offered: Irregular)
CVEG 4423. Transportation Infrastructure. 3 Hours.
Transportation infrastructure includes discussion on the geometric design of
roadways, roadway drainage, roadway materials, roadway structural design, and an
economic analysis of roadways. This includes the design of horizontal and vertical
alignment, cross section, intersections, pavement materials, and structural capacity.
Prerequisite: CVEG 3413 and INEG 2413. (Typically offered: Fall and Spring)

CVEG 4433. Transportation Pavements and Materials. 3 Hours.
Study of the engineering properties and behavior of materials commonly used in
transportation facilities as they relate to the design and performance of flexible and
rigid pavement systems. Lecture 2 hours, laboratory 3 hours per week. Corequisite:
Lab component. Prerequisite: CVEG 3132, CVEG 3413, and INEG 2313. (Typically
offered: Irregular)

CVEG 4513. Construction Management. 3 Hours.
Introduction to methods and procedures for management of civil engineering
construction projects including organization, plans and specs, cost estimating and
bidding, project planning and finance, quality control/ assurance, construction
safety, cost management, labor issues, change orders, and subcontractor issues.
Prerequisite: Senior standing and Civil Engineering majors only. (Typically offered:
Fall and Spring)

CVEG 4812. Environmental Design Project. 2 Hours.
Comprehensive engineering design project primarily related to environmental issues.
Corequisite: CVEG 4243. (Typically offered: Spring)

CVEG 4822. Geotechnical Design Project. 2 Hours.
Comprehensive engineering design project primarily related to geotechnical issues.
Corequisite: CVEG 4143. Prerequisite: CVEG 4303. (Typically offered: Fall)

CVEG 4832. Structural Design Project. 2 Hours.
Comprehensive engineering design project primarily related to structural issues.
Corequisite: CVEG 4323. Prerequisite: CVEG 4303 and CVEG 4313. (Typically
offered: Spring)

CVEG 4842. Transportation Design Project. 2 Hours.
Comprehensive engineering design project primarily related to transportation issues.
Corequisite: CVEG 4423. Prerequisite: CVEG 2002. (Typically offered: Fall)

CVEG 4863. Sustainability in Civil Engineering. 3 Hours.
Quality and quantify the economic, environmental, societal, and engineering drivers
behind sustainability in Civil Engineering. Justification of the feasibility and benefits
of sustainability in environmental, geotechnical, structural, and transportation
engineering through verbal and written communications. Prerequisite: Senior
standing. (Typically offered: Irregular)

CVEG 488V. Special Problems. 1-6 Hour.
Special problems. Prerequisite: Senior standing. (Typically offered: Irregular) May be
repeated for up to 6 hours of degree credit.

CVEG 488VH. Honors Special Problems. 1-6 Hour.
Service Learning in Belize. Prerequisite: Senior standing. (Typically offered:
Irregular)
This course is equivalent to CVEG 488V.

CVEG 4890. Fundamentals of Engineering Seminar. 0 Hours.
Preparation for students taking the Fundamentals of Engineering (FE) examination,
administered by the National Council of Examiners for Engineering and Surveying
(NCEES). Concept review and problem-solving drills for topics covered on the
FE-Civil examination. Prerequisite: Civil Engineering major and senior standing.
(Typically offered: Fall and Spring)

CVEG 491VH. Honors Studies in Geotechnical Engineering. 1-6 Hour.
The study of advanced topics in the geotechnical engineering field. May include
participation in geotechnical engineering courses normally available only to graduate
students. Prerequisite: CVEG 3132 with a grade of C or better. (Typically offered:
Irregular) May be repeated for up to 6 hours of degree credit.

CVEG 492VH. Honors Studies in Environmental Engineering. 1-6 Hour.
The study of advanced topics in the environmental engineering field. May include
participation in environmental engineering courses normally available only to

CVEG 493VH. Honors Studies in Structural Engineering. 1-6 Hour.
The study of advanced topics in the structural engineering field. May include
participation in structural engineering courses normally available only to graduate
students. Prerequisite: CVEG 3303 with a grade of C or better. (Typically offered:
Irregular) May be repeated for up to 6 hours of degree credit.

CVEG 494VH. Honors Studies in Transportation Engineering. 1-6 Hour.
The study of advanced topics in the transportation engineering field. May include
participation in transportation engineering courses normally available only to graduate
students. Prerequisite: CVEG 3413 with a grade of C or better. (Typically offered:
Irregular) May be repeated for up to 6 hours of degree credit.

CVEG 4983H. Honors Undergraduate Thesis. 3 Hours.
Thesis research for civil engineering students enrolled in the honors college.
Prerequisite: Honors College. (Typically offered: Irregular)

CVEG 5000. Graduate Seminar in Civil Engineering. 0 Hours.
A weekly seminar devoted to civil engineering research topics. Appropriate grade to
be 'S'. (Typically offered: Fall and Spring)

CVEG 5103. Geosynthetic Applications in Civil Engineering. 3 Hours.
Geosynthetic Applications in Civil Engineering: The functional properties of various
geosynthetic materials are defined as they relate to; reinforcement, separation,
filtration, and drainage applications. Design procedures are developed for the use
of geosynthetics in transportation, environmental and geotechnical applications.
Prerequisite: CVEG 3132 and CVEG 3131L or equivalent. (Typically offered:
Irregular)

CVEG 5113. Soil Dynamics. 3 Hours.
This course covers propagation of stress waves in elastic and inelastic materials,
dynamic loading of soils, and stiffness and damping properties of soils. Use of field
and laboratory techniques to determine shear wave velocity of soils. Also includes
applications of dynamic soil properties in site stiffness characterization, geotechnical
earthquake engineering, evaluation of ground improvement, and design of machine
foundations. Prerequisite: CVEG 4143 or graduate standing. (Typically offered:
Irregular)

CVEG 5123. Measurement of Soil Properties. 3 Hours.
Consideration of basic principles involved in measuring properties of soils. Detailed
analysis of standard and specialized soil testing procedures and equipment. Lecture
2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite:
CVEG 4143 or graduate standing. (Typically offered: Irregular)

CVEG 5133. Geotechnical Site Characterization. 3 Hours.
One of primary tasks of geotechnical engineers is to perform in-situ site
classification for engineering design of foundations, retaining structures, roads,
bridges and other infrastructure. This course will focus on in-situ investigations
performed for the purpose of collecting detailed site characterization data for direct
and/or indirect use in geotechnical design. Specifically, we will study various static
(e.g., SPT, CPT, VST, DMT, PMT) and dynamic (e.g., CHT, DHT, SW, GPR) in-
situ tests used to obtain estimates of stratigraphy, density, strength, stress history,
modulus, and permeability of geotechnical materials. We will predominantly focus on
site characterization of soil sites, but will mention rock testing and design methods
when appropriate. Prerequisite: CVEG 4143 or the equivalent. (Typically offered:
Irregular)
CVEG 5143. Transportation Soils Engineering. 3 Hours.
Advanced study of the properties of surficial soils; soil classification systems; pedology; soil occurrence and variability; subgrade evaluation procedures; repeated load behavior of soils; soil compaction and field control; soil stabilization; soil traffability and subgrade stability for transportation facilities. Prerequisite: CVEG 3132. (Typically offered: Irregular)

CVEG 5153. Earth Retaining Structures. 3 Hours.
This course will focus on the analysis and design of earth retaining structures. Specifically, we will discuss soil and rock property design parameter selection, lateral earth pressures for wall system design, and load and resistance factor design (LRFD) for retaining walls. Wall types discussed include gravity and semi-gravity walls, modular gravity walls, MSE walls, non-gravity cantilever walls and anchored walls, and in-situ reinforced walls. Information on wall system feasibility and selection, construction materials and methods, cost information, and design and performance information will be discussed. Prerequisite: CVEG 4143 or equivalent. (Typically offered: Irregular)

CVEG 5163. Seepage and Consolidation. 3 Hours.
Investigation of the flow of water through soils and the time rate of compression of soils. Characterization of the hydraulic conductivity of soils in the field, seepage through earth dams, excavation cut-off walls, and other seepage control systems. Analytical and experimental investigations of soil volume change under hydraulic and mechanical loading. Design of earth and rock dams, well pumping, and vertical and radial consolidation in embankments. Prerequisite: CVEG 4143 or graduate standing. (Typically offered: Irregular)

CVEG 5173. Advanced Foundations. 3 Hours.
Study of soil-supported structures. Topics include drilled piers, slope stability, pile groups, negative skin friction, foundation design from the standard penetration test and Dutch cone, and other specialized foundation design topics. Prerequisite: CVEG 4143 or graduate standing. (Typically offered: Irregular)

CVEG 5183. Geo-Environmental Engineering. 3 Hours.
Study of the geotechnical aspects of waste containment systems and contaminant remediation applications. Analysis and measurement of flow of water and contaminants through saturated and unsaturated soils, clay mineralogy and soil-chemical compatibility, and mechanical and hydraulic behavior of geomembranes, geotextiles, and geosynthetic clay liners. Design and construction aspects of compacted clay and composite landfill liners, drainage systems, and landfill covers. Prerequisite: CVEG 3132 or graduate standing. (Typically offered: Irregular)

CVEG 5193. Geotechnical Earthquake Engineering. 3 Hours.
This course covers stress wave propagation in soil and rock; influence of soil conditions on seismic ground motion characteristics; evaluation of site response using wave propagation techniques; liquefaction of soils; seismic response of earth structures and slopes. Prerequisite: CVEG 4143 or graduate standing. (Typically offered: Irregular)

CVEG 5203. Water Chemistry. 3 Hours.
This course provides a basis for applying principles of physical chemistry to understanding the composition of natural waters and to the engineering of water and wastewater treatment processes. Topics covered include chemical equilibrium (algebraic, graphical, and computer-aided solution techniques); acid-base equilibria and buffering; oxidation and reduction reactions; and solid precipitation and dissolution. Prerequisite: Graduate standing or CVEG 3243 and instructor approval. (Typically offered: Spring)

CVEG 5213. Advanced Water Treatment Design. 3 Hours.
Design of industrial and municipal water treatment plants. Discussion of raw and treated water requirements for several uses. Prerequisite: CVEG 3243. (Typically offered: Spring)

CVEG 5224. Advanced Wastewater Treatment Design. 4 Hours.
Application of advanced techniques for the analysis of wastewater treatment facilities. Physical, chemical, and biological processes for removing suspended solids, organics, nitrogen, and phosphorus. Laboratory treatability studies will be used to develop design relationships. Lecture 3 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: CVEG 4243 or graduate standing. (Typically offered: Fall)

CVEG 5233. Microbiology for Environmental Engineers. 3 Hours.
Fundamental and applied aspects of microbiology and biochemistry relating to water quality control, wastewater treatment, and stream pollution. Prerequisite: CVEG 3243. (Typically offered: Irregular)

CVEG 5243. Groundwater Hydrology. 3 Hours.
Detailed analysis of groundwater movement, well hydraulics, groundwater pollution and artificial recharge. Surface and subsurface investigations of groundwater and groundwater management, saline intrusion and groundwater modeling will be addressed. Prerequisite: CVEG 3233. (Typically offered: Irregular)

CVEG 5253. Physical-Chemical Processes for Water and Wastewater Treatment. 3 Hours.
This course provides a fundamental understanding of physical and chemical processes used in the treatment of drinking water and wastewater. Principals of mass balance are applied to understand the impact of reactor hydraulics (ideal and non-ideal flow) and reaction kinetics on process performance and identify important process variables. Chemical processes covered include disinfection, gas transfer, adsorption, and ion exchange; physical processes covered include coagulation, flocculation, sedimentation, filtration, and membranes. Prerequisite: Graduate standing and instructor consent. (Typically offered: Fall Odd Years)

CVEG 5273. Open Channel Flow. 3 Hours.
Open Channel Flow includes advanced open channel hydraulics, flow measurement techniques, a hydrology review, culvert and storm drainage facility design, natural channel classification (fluvial geomorphology) and rehabilitation, computer methods and environmental issues. Prerequisite: CVEG 3123 and CVEG 3223. (Typically offered: Irregular)

CVEG 5283. Water Reuse. 3 Hours.
CVEG 5283 is a graduate-level course that discusses topics related to water reclamation and reuse. Topics include past and current practices of water reuse, health and environmental issues related to water reuse, water technologies and systems for water reuse, and water reuse applications. Prerequisite: CVEG 3243 or equivalent course. (Typically offered: Spring Even Years)

CVEG 5303. Theory of Stability. 3 Hours.
Study of structural members subjected to compression. Analysis of compression members considering support conditions and within frame configurations. Analysis of beams considering lateral torsional bucking. AISC Steel Manual strength equations related to columns and beams are derived and discussed. Prerequisite: Graduate standing. (Typically offered: Irregular)

CVEG 5313. Matrix Analysis of Structures. 3 Hours.
Energy and digital computer techniques of structural analysis as applied to conventional forms, space trusses, and frames. Prerequisite: CVEG 3303 or graduate standing. (Typically offered: Irregular)

CVEG 5323. Structural Dynamics. 3 Hours.
Dynamics response of single and multidegree of freedom systems. Modal analysis. Response spectra. Computer programs for dynamic analysis. Design considerations for structures subjected to time-varying forces including earthquake, wind, and blast loads. Prerequisite: CVEG 3303. (Typically offered: Irregular)

CVEG 5333. Concrete Materials. 3 Hours.
Topics include portland cement production, supplementary cementing materials, fresh and hardened concrete properties, mixture proportioning, chemical admixtures, curing, and specially concretes. Corequisite: Lab component. Prerequisite: CVEG 4303. (Typically offered: Irregular)
CVEG 5343. Highway Bridges. 3 Hours.
Economics of spans, current design and construction specifications, comparative designs. Possible refinements in design techniques and improved utilization of materials. Prerequisite: CVEG 4313 and CVEG 4303. (Typically offered: Irregular)

CVEG 5353. Prestressed Concrete Design. 3 Hours.
Analysis and design of prestressed concrete beams. Topics include flexural analysis, prestress bond, draping and debonding, allowable stresses, shear analysis and design, camber prediction, and prestress losses. Prerequisite: CVEG 4303. (Typically offered: Irregular)

CVEG 5363. Advanced Topics in Reinforced Concrete. 3 Hours.
Analysis and design of reinforced concrete members. Topics include slender columns, one-way and two-way slab design, strut and tie design, and torsion. Prerequisite: CVEG 4303 or graduate standing. (Typically offered: Irregular)

CVEG 5373. Advanced Structural Steel Design. 3 Hours.
Design of structural steel components using the Load and Resistance Factor Design method. Intensive treatment of simple and eccentric connections, composite construction, plate girders, and plastic analysis and design. Prerequisite: CVEG 4313 or graduate standing. (Typically offered: Irregular)

CVEG 5383. Finite Element Methods in Civil Engineering. 3 Hours.
An understanding of the fundamentals of the finite element method and its application to structural configurations too complicated to be analyzed without computer applications. Application to other areas of civil engineering analysis and design such as soil mechanics, foundations, fluid flow, and flow through porous media. Prerequisite: Graduate standing. (Typically offered: Irregular)

CVEG 5393. Advanced Strength of Materials. 3 Hours.
The course will continue from the basic material addressed in the undergraduate course and investigate in more detail stress analysis as it pertains to civil engineering type problems. Topics addressed in the course will include stress analysis (two-dimensional), constitutive relationships, solutions for two-dimensional problems, flexure, torsion, beams on elastic foundations, and energy methods. Prerequisite: CVEG 2023 or MEEG 3013. (Typically offered: Irregular)

CVEG 5413. Transportation and Land Development. 3 Hours.
Study of interaction between land development and the transportation network. Application of planning, design, and operational techniques to manage land development impacts upon the transportation system, and to integrate land layout with transportation network layout. Prerequisite: Graduate standing. (Typically offered: Irregular)

CVEG 5423. Structural Design of Pavement Systems. 3 Hours.
An introduction to the structural design of pavement systems including: survey of current design procedures; study of rigid pavement jointing and reinforcement practices; examination of the behavioral characteristics of pavement materials and of rigid and flexible pavement systems; introduction to structural analysis theories and to pavement management concepts. Prerequisite: CVEG 4433. (Typically offered: Irregular)

CVEG 5433. Traffic Engineering. 3 Hours.
A study of both the underlying theory and the use of traffic control devices (signs, traffic signals, pavement markings), and relationships to improved traffic flow and safety, driver and vehicle characteristics, geometric design, and societal concerns. Also includes methods to collect, analyze, and use traffic data. Prerequisite: CVEG 3413 or graduate standing. (Typically offered: Irregular)

CVEG 5463. Transportation Modeling. 3 Hours.
The use of mathematical techniques and/or computer software to model significant transportation system attributes. May compare model results with actual measured traffic attributes, using existing data sources and/or collecting and analyzing field data. Prerequisite: Lab component. Prerequisite: Graduate standing. (Typically offered: Irregular)

CVEG 5503. Construction Safety. 3 Hours.
Construction industry safety management systems, practices, and research to prevent injuries on work sites. Roles, responsibilities, and interaction of construction industry participants in safety management. OSHA organization, regulation framework, and resources. Safety program procedures and practices associated with positive safety performance outcomes. Total cost of injuries to include personal, direct/indirect costs, and workers compensation insurance. Prerequisite: Graduate Standing. (Typically offered: Fall, Spring and Summer)

CVEG 5513. Construction Scheduling. 3 Hours.
Develop an understanding of modern scheduling techniques used for the management of construction projects. Learn the underlying logical principles, calculation methods, and presentation formats for PDM, the most prevalent technique. Load schedules with resources and costs to enable leveling, smoothing, and earned value analysis. Learn to update schedules for actual progress, identify problems, and compress or crash activities. Prerequisite: Graduate Standing. (Typically offered: Fall, Spring and Summer)

CVEG 5523. Construction Productivity. 3 Hours.
This course introduces the student to construction industry productivity measurement, management practices, planning processes, and work methods to improve labor productivity on project sites. Factors that influence labor productivity such as resource supply chain, rework, changes, craft labor motivation, and the workforce environment are included. Roles, responsibilities, and interaction of construction industry participants in productivity management will be examined. Participants will learn construction productivity improvement program tools associated with improved productivity performance including work sampling and activity analysis. Prerequisite: Graduate Standing. (Typically offered: Fall, Spring and Summer)

CVEG 5533. Legal Aspects of Construction. 3 Hours.
Students will identify legal issues in the course of a construction project and learn to determine when and where they or their employers or clients need legal advice. The course covers the most common legal considerations and disputes that arise in the construction and design industries from the perspectives of different industry participants, and it explores the most important contractual terms commonly used in construction industry agreements. The individual lessons address basic aspects of the legal system, liability for negligence and professional malpractice, and a full range of legal risk allocation and risk management strategies, relating to: bidding and proposal practices; project delivery systems; contracting practices; insurance; surety bonds; pricing, scheduling, and payment disputes; contract administration; legal remedies; and alternative dispute resolution methods. Prerequisite: Graduate Standing. (Typically offered: Fall, Spring and Summer)

CVEG 5543. Sustainability in Construction Management. 3 Hours.
Sustainability in Construction Management will explore traditional concepts of construction management through the lens of sustainability. Topics covered will include elements of sustainable design and construction, sustainable project requirements and management, choosing materials and production, sustainability design and construction economics, understanding specifications, community participation, waste management, regulatory agencies, and worker safety and roles. These topics will be viewed through the lens of the three pillars of sustainability: economics, environmental, and social. Prerequisite: Graduate Standing. (Typically offered: Fall, Spring and Summer)

CVEG 5553. Risk and Financial Management in Construction. 3 Hours.
This course prepares students to understand the differences between financial management in a construction company versus financial management in other industries. The course will also teach students how to account for a construction company’s financial resources. The students will then learn how to quantitatively analyze financial decisions. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)
CVEG 5563. Building Information Modeling (BIM) for Design and Construction. 3 Hours.
This course provides students with a comprehensive overview of building information modeling (BIM) within the context of multiple project delivery methods and from the different perspectives of owners, architects/engineers and contractors/subcontractors. The course includes 'hands-on' experiences using BIM software (Autodesk Revit) and will provide students with a basic working knowledge of the software. The curriculum also covers a systems perspective of how BIM works in different contractual relationships and workflows. Finally, the course will provide students with an understanding of how to implement BIM for companies that have not already done so. The course culminates with a student-modeled project in BIM, in conjunction with a real-world example in how your company can implement BIM. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

CVEG 562V. Research. 1-6 Hour.
Fundamental and applied research. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

CVEG 563V. Special Problems. 1-6 Hour.
Special problems in CVEG. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

CVEG 5863. Fundamentals of Sustainability in Civil Engineering. 3 Hours.
Qualify and quantify the economic, environmental, societal and engineering drivers behind sustainability in Civil Engineering. Justification of the feasibility and benefits of sustainability in environmental, geotechnical, structural and transportation through verbal and written communications. Students cannot receive credit for both CVEG 4863 and CVEG 5863. Prerequisite: Graduate standing or instructor consent. (Typically offered: Irregular)

CVEG 5953. Fundamentals of Fracture and Fatigue in Structures. 3 Hours.
The course will cover the concepts of linear-elastic, elastic-plastic and time-dependent Fracture Mechanics as applied to fracture in a variety of materials, structures, and operating conditions. The examples will include fracture in large components such as aircraft, bridges and pressure vessels and also in bones and in soft materials and human tissue. Prerequisite: Graduate standing in Civil, Mechanical or Biomedical Engineering or consent of the instructor. (Typically offered: Fall)
This course is cross-listed with BMEG 5953, MEEG 5953.

CVEG 600V. Master's Thesis. 1-6 Hour.
Master's Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

CVEG 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Classical Studies (CLST) Courses

CLST 1003. Introduction to Classical Studies: Greece. 3 Hours.
An introduction to the world of Ancient Greece, from the Trojan War to Alexander the Great. Progresses chronologically, focusing on the literary, artistic, political, and philosophical ideas of the Greeks. Who were they and how are we like them? (Typically offered: Fall Odd Years)

CLST 1003H. Honors Introduction to Classical Studies: Greece. 3 Hours.
Honors. Prerequisite: Honors candidacy. (Typically offered: Fall Odd Years)
This course is equivalent to CLST 1003.

CLST 1013. Introduction to Classical Studies: Rome. 3 Hours.
A multi-faceted introduction to Roman culture, focusing on the literature, philosophy, architecture, history, art and archeology. Source material to be read in English. Lectures liberally illustrated with slides. (Typically offered: Spring Even Years)

CLST 1013H. Honors Introduction to Classical Studies: Rome. 3 Hours.
Honors introduction to Classical Studies: Rome. (Typically offered: Spring Even Years)
This course is equivalent to CLST 1013.

CLST 2323. Greek and Roman Mythology. 3 Hours.
A study of the stories, figures, and motifs in the mythology of Greece and Rome.
Prerequisite: ENGL 1013 and ENGL 1023. (Typically offered: Irregular)

CLST 3003. Special Topics in Classical Studies. 3 Hours.
Close examination of subject matter not presented in regularly offered CLST courses. May be repeated for different topics. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

CLST 3003H. Honors Special Topics in Classical Studies. 3 Hours.
Close examination of subject matter not presented in regularly offered CLST courses. May be repeated for different topics. Prerequisite: Honors standing. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit. This course is equivalent to CLST 3003.

CLST 399VH. Honors Course Classical Studies. 1-6 Hour.
CLST honors thesis projects or CLST honors study abroad programs. Prerequisite: Junior standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

CLST 4003H. Honors Classical Studies Colloquium. 3 Hours.
Covers a special topic or issue in classical studies. Appropriate for honors program students and students pursuing classical studies. May be repeated when the content is changed. Prerequisite: Junior standing. (Typically offered: Spring) May be repeated for up to 9 hours of degree credit.

CLST 4413. Greek Art and Archaeology. 3 Hours.
Greek Art and Archaeology focuses on how visual and material culture shaped and were shaped by Greek society (religion, politics, military, economy, gender, etc.) from the Bronze Age through the Hellenistic period. Masterpieces of Greek art are analyzed alongside the material remains of everyday Greeks in civic and domestic spaces. (Typically offered: Spring; Summer Odd Years)
This course is cross-listed with ARHS 4413.

CLST 4413H. Honors Greek Art and Archaeology. 3 Hours.
Greek Art and Archaeology focuses on how visual and material culture shaped and were shaped by Greek society (religion, politics, military, economy, gender, etc.) from the Bronze Age through the Hellenistic period. Masterpieces of Greek art are analyzed alongside the material remains of everyday Greeks in civic and domestic spaces. (Typically offered: Spring; Summer Odd Years)
This course is cross-listed with CLST 4413, ARHS 4413.

CLST 4423. Roman Art and Archaeology. 3 Hours.
Roman Art and Archaeology focuses on how visual and material culture shaped and were shaped by Roman society (religion, politics, economy, gender, ethnicity, etc.) from the Iron Age through the Late Antique period. We encounter famous masterpieces, but also the material remains of everyday Romans in civic and domestic spaces. (Typically offered: Spring and Summer Even Years)
This course is cross-listed with ARHS 4423.

Communication (COMM) Courses

COMM 1003. Basic Course in the Arts: Film Lecture. 3 Hours.
Introduction to film as entertainment and art. How to look at film through a study of composition, lighting, editing, sound and acting. Lectures and viewing time. (Typically offered: Fall, Spring and Summer)
COMM 1003H. Honors Basic Course in the Arts: Film Lecture. 3 Hours.
Introduction of film as entertainment and art. How to look at a film through a study of composition, lighting, editing, sound and acting. Lectures and viewing time.
Corequisite: Drill component. (Typically offered: Fall)
This course is equivalent to COMM 1003.

COMM 1023. Communication in a Diverse World. 3 Hours.
Introductory course that focuses on the skills and understandings associated with competent communication in a diverse society within interpersonal, group, organizational and intercultural communication contexts. (Typically offered: Fall and Spring)

COMM 1023H. Honors Communication in a Diverse World. 3 Hours.
Introductory course that focuses on the skills and understandings associated with competent communication in a diverse society within interpersonal, group, organizational and intercultural communication contexts. Prerequisite: Honors standing. (Typically offered: Fall and Spring)
This course is equivalent to COMM 1023.

COMM 1233. Media, Community and Citizenship. 3 Hours.
Examines theory and research on how messages are processed, meanings constructed, communities formed and maintained through interaction with the media. Focus is on critical citizenship and media literacy in the context of the cognitive, social, cultural, political, and economic consequences of increasingly networked media systems. (Typically offered: Fall and Spring)

COMM 1233H. Honors Media, Community and Citizenship. 3 Hours.
Examines theory and research on how messages are processed, meanings constructed, communities formed and maintained through interaction with the media. Focus is on critical citizenship and media literacy in the context of the cognitive, social, cultural, political, and economic consequences of increasingly networked media systems. Prerequisite: Honors standing. (Typically offered: Spring)
This course is equivalent to COMM 1233.

COMM 1313. Public Speaking (ACTS Equivalency = SPCH 1003). 3 Hours.
Application of the communication techniques needed to organize and deliver oral messages in a public setting. Emphasis given to theory and practice of message strategies and preparation, audience analysis, presentational skills including multimedia support, speech criticism, and the listening process. (Typically offered: Fall, Spring and Summer)

COMM 1313H. Honors Public Speaking. 3 Hours.
Application of the communication techniques needed to organize and deliver oral messages in a public setting. Emphasis given to theory and practice of message strategies and preparation, audience analysis, presentational skills including multimedia support, speech criticism, and the listening process. (Typically offered: Fall, Spring and Summer)
This course is equivalent to COMM 1313.

COMM 2103. Interviewing. 3 Hours.
A study in the theory and practice of methods in selected interview settings, with an emphasis on interviewing through research, journalism, employment, and historical perspectives. (Typically offered: Fall)

COMM 2303. Advanced Public Speaking. 3 Hours.
Continuing study of the invention and adaptation or oral discourse to the needs of listeners. Consideration of the problems of communication in platform presentation. Prerequisite: COMM 1313. (Typically offered: Fall, Spring and Summer)

COMM 2323. Interpersonal Communication. 3 Hours.
Personal and interpersonal factors affecting communication in everyday life. Emphasis upon ways in which interpersonal perception, physical environment, semantic choices, and nonverbal cues affect communication primarily in the context of work, family, and other personal experiences. (Typically offered: Fall, Spring and Summer)

COMM 2333. Introduction to Communication Research. 3 Hours.
Introduction to the basic assumptions underlying communication inquiry; resources for and methods of data collection in communication research; and techniques for organization, interpretation, reporting, and evaluation of communication research. (Typically offered: Fall and Spring)

COMM 2343. Introduction to Small-Group Communication. 3 Hours.
An introduction to procedures used in exchanging information, solving problems, determining policies, and resolving differences in committees and other small groups. Prerequisite: COMM 1313. (Typically offered: Fall, Spring and Summer)

COMM 2353. Argumentation and Advocacy. 3 Hours.
An introduction to argumentation theory and practice, with concern for analyzing and producing logical, effective, and ethical public discourse. Examines contemporary models for analyzing argument, covers the common types of arguments and ways to evaluate their strengths and weaknesses, and introduces ways to test arguments for validity and fallacies. Prerequisite: COMM major or minor, or instructor consent. (Typically offered: Fall and Spring)

COMM 2513. Nonverbal Communication. 3 Hours.
Creates an understanding of the functions of nonverbal cues operating in human communication processes and develops familiarity with recent research in the field of nonverbal communication. (Typically offered: Irregular)

COMM 2813. Introduction to Mediated Communication. 3 Hours.
Introduction to media and media industries, particularly the social and cultural impact of their economic and regulatory structures. Emphasis on the historical development of media, business practices of media organizations, critical analysis of media messages, and cultural functions of the media. (Typically offered: Fall and Spring)

COMM 289Y. Topics in Communication. 1-3 Hour.
Topics in communication not represented in other lower division courses. Prerequisite: Completion of at least 3 hours of COMM coursework. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

COMM 3173. Introduction to Linguistics. 3 Hours.
Introduction to language study with stress upon modern linguistic theory and analysis. Data drawn from various languages reveal linguistic universals as well as phonological, syntactic, and semantic systems of individual languages. Related topics: language history, dialectology, language and its relation to culture and society, and the history of linguistic scholarship. Prerequisite: Junior standing, COMM 1313 and COMM 2333. (Typically offered: Irregular)
This course is cross-listed with ENGL 3173, WLLC 3173.

COMM 3263. African Americans in Film. 3 Hours.
A survey of the history of images of African Americans in film, especially as these images are examined in the context of stereotypical renditions and/or realistic representations of African American experiences. Issues of African American history, culture, and socio-political context will be addressed in the analyses of these films. Prerequisite: COMM 1003. (Typically offered: Irregular)
This course is cross-listed with AAST 3263, ENGL 3263, JOUR 3263.

COMM 3273. African Americans in Documentary Film. 3 Hours.
Exploration of the African-American image and experience in the context of time, historical record and varying production viewpoints from diverse documentarians. African-American history, culture and socio-political context are addressed in the analyses of these documentary films from the perspectives of mainstream media, independent filmmakers and minority documentarians Prerequisite: Junior or senior standing. (Typically offered: Spring)
This course is cross-listed with JOUR 3273, AAST 3273.

COMM 3343. Contemporary Communication Theory. 3 Hours.
Study of the nature of the communication process as it is reflected in the individual, in interpersonal settings, in one-to-many situations, and in the mass media. Prerequisite: COMM 1023 or COMM 2323. (Typically offered: Spring)
COMM 3353. Argumentation: Reason in Communication. 3 Hours.
Concepts characterizing rational discourse, with a concern for examining validity and fallacy. Consider traditional and contemporary models for analyzing argument, including an examination of the philosophy of argument and a practical inquiry into the uses of argument in contemporary rhetorical discourse. Prerequisite: COMM 1313 or COMM 2353. (Typically offered: Fall)

COMM 3373. Leadership Communication. 3 Hours.
An analysis of leadership as a discursive process, focusing on how leadership emerges and is enacted on a daily basis through communication-related behaviors. Prerequisite: COMM 1023 or COMM 2343 or permission of instructor. (Typically offered: Irregular)

COMM 3383. Persuasion. 3 Hours.
Introduction to theories of persuasion with emphasis on application and effect. Prerequisite: COMM 1313 and COMM 2333, or instructor permission. (Typically offered: Fall, Spring and Summer)

COMM 3423. Science Fiction Film. 3 Hours.
This class concentrates on how science fiction in various communication media influences and is, in turn, influenced by broad features of cultural life. The class considers the impact of science fiction on science fact, the military, space travel, religion, race, gender, social class, education, politics, technology, and fashion styles. Prerequisite: COMM 1003. (Typically offered: Fall and Spring)

COMM 3433. Family Communication. 3 Hours.
Study of the nature, functions, and management of communication patterns in the family. Focus is on understanding routine interpersonal interactions, conflict patterns, authority structures, and decision-making processes within the context of the contemporary family. Prerequisite: COMM 1023 or COMM 2323. (Typically offered: Fall)

COMM 3443. Introduction to Rhetorical Theory. 3 Hours.
Interpretive-critical study of rhetoric in public contexts. Prerequisite: COMM 1313 or COMM 2353. (Typically offered: Fall)

COMM 3503. Popular Communication and Culture. 3 Hours.
This course is an introduction to basic theories and topics of Popular Communication and Culture studies. The course will emphasize popular media communication forms. Prerequisite: COMM 1233 or COMM 2813. (Typically offered: Summer)

COMM 3673. Mediated Communication. 3 Hours.
Focuses on media messages and their social/cultural effects. Includes a critical examination of media institutions and the ways they vie for audiences. Other topics include the ways people construct meaning from messages, media's influence on attitudes, media's role in cultural life, and audiences as critical consumers of media. Prerequisite: COMM 1233 or COMM 2813. (Typically offered: Fall)

COMM 3703. Organizational Communication. 3 Hours.
An introduction to the theory, processes, and management of communication in organizations, with opportunities for simulated application. Prerequisite: COMM 1023 or COMM 2343. (Typically offered: Fall)

COMM 3763. Health Communication. 3 Hours.
Examines communication within health care organizations and teams. Issues may include patient-provider communication, communication among health care professionals, negative consequences of poor communication in health care delivery, and the use of technology in health-related information dissemination and campaigns. Prerequisite: COMM 1313 and COMM 2333. (Typically offered: Fall)

COMM 3803. Survey of Social Media. 3 Hours.
Surveys research on social media, focusing on the potential cognitive, social, cultural, political, and/or economic consequences of social media and on strategies for engaging with and through social media to promote personal, social and civic goals. Pr- or Corequisite: COMM 1233 or COMM 2813. (Typically offered: Spring Odd Years)

COMM 3883. Rhetoric of Social Movements. 3 Hours.
Study of the functions of rhetoric as it appears in the context of social movements such as American independence, women's equality, civil rights, populism, and new conservatism. Prerequisite: COMM 1313 or COMM 2353. (Typically offered: Irregular)

COMM 3923H. Honors Colloquium. 3 Hours.
Treats a special topic or issue, offered as part of the honors program. Prerequisite: Honors candidacy (not restricted to candidacy in communication). (Typically offered: Irregular) May be repeated for degree credit.

COMM 3983. Special Topics. 3 Hours.
Communication topics which are not usually presented in depth in regular courses. Prerequisite: COMM 1313 and COMM 2333. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

COMM 3983H. Honors Special Topics. 3 Hours.
Communication topics which are not usually presented in depth in regular courses. Prerequisite: COMM 1313, COMM 2333 and honors standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit. This course is equivalent to COMM 3983.

COMM 3991H. Honors Course in Communication Research. 1 Hour.
The Honors Course in Communication is the student's first step toward developing an honors thesis project. The course is designed to facilitate the exploration of potential thesis topics, selection of a viable study for the thesis, and the conceptualization of that study. Prerequisite: Honors candidacy. (Typically offered: Fall and Spring)

COMM 4113. Legal Communication. 3 Hours.
Examines communication processes in the legal environment and focuses on communication skills and behaviors among judges, attorneys, litigants, and jurors. Particular attention will be given to verbal strategies and nonverbal messages related to interviews, negotiation, mediation, and litigation and to the rhetorical functions of legal pleadings and judicial opinions. Prerequisite: COMM 1313 or COMM 2353. (Typically offered: Irregular)

COMM 4133. Media and the Family. 3 Hours.
This course is designed to examine our culture's images, definitions, and ideas regarding family and domestic life. This examination involves a critical analysis of media messages regarding families, as well as an in-depth exploration of media's roles in daily domestic life. Prerequisite: COMM 1233 or COMM 2813. (Typically offered: Irregular)

COMM 4143. American Film Survey. 3 Hours.
A survey of major American film genres, major directors and films that have influenced the development of motion pictures. Prerequisite: COMM 1003 or permission of instructor. (Typically offered: Fall) This course is cross-listed with ENGL 4143.

COMM 4283. Communication in Contemporary Society. 3 Hours.
An examination of research and theory on the process and effects of communication in modern society. Prerequisite: COMM 1313 and COMM 2333 or permission of instructor. (Typically offered: Irregular)

COMM 4323. Communication and Conflict. 3 Hours.
Study of the processes, effects, and management of communicative conflict, including a consideration of conflict styles, power, goals, tactics, assessment, self-intervention and third-party intervention. Prerequisite: COMM 1023 or COMM 2323 or permission of instructor. (Typically offered: Fall)

COMM 4333. Communication and Gender. 3 Hours.
Study of the nature, construction, functions, and effects of gender and gender-role stereotypes related to verbal and nonverbal communication, small-group and organizational interaction, and mass mediated images in contemporary culture. Prerequisite: COMM 1023 or COMM 2323 or permission of instructor. (Typically offered: Fall)
**COMM 4343. Intercultural Communication. 3 Hours.**
Study of intercultural communication skills, intercultural issues and their impact at home and abroad, and cross-cultural comparisons of communication phenomena from a variety of theoretical perspectives. Prerequisite: COMM 1023 or COMM 2323. (Typically offered: Spring)

**COMM 4353. American Public Address. 3 Hours.**
Historical and critical study of the leading American speakers, their speeches, the issues with which they were identified. Lectures, discussion, reports, and critical papers. Prerequisite: COMM 1313 or COMM 2353 or instructor permission. (Typically offered: Irregular)

**COMM 4363. Gender, Race and Power. 3 Hours.**
Examines how communication shapes gender, race, sexuality, and power. Rather than focusing exclusively on interpersonal communication, this course looks at theories of power that shape institutional macro communication. Prerequisite: COMM 2353. (Typically offered: Irregular)
This course is cross-listed with GNST 4363.

**COMM 4373. Political Communication. 3 Hours.**
Study of the nature and function of the communication process as it operates in the political environment. Prerequisite: COMM 1313 and COMM 2333. (Typically offered: Spring Even Years)
This course is cross-listed with PLSC 4373.

**COMM 4383. Rhetoric of the Modern American Presidency. 3 Hours.**
A study of the increasing reliance of contemporary presidents on public persuasion through rhetorical discourse. Prerequisite: COMM 1313 or COMM 2353. (Typically offered: Irregular)

**COMM 4393. Freedom of Speech: Cases & Issues. 3 Hours.**
Study of philosophy, cases, and issues relevant to the first amendment right to the free expression, with focus on issues relevant to internal security, obscenity, pornography, slander, and the regulation of communication. Prerequisite: COMM 1313 and COMM 2333. (Typically offered: Irregular)

**COMM 4423. Disaster and Risk Communication. 3 Hours.**
Examines the role of public communication efforts across all phases of a disaster with an emphasis on the use of risk communication theory to inform disaster preparedness campaign message design and response to media inquiries immediately following disasters. Prerequisite: COMM 2343 or instructor consent. (Typically offered: Fall and Spring)

**COMM 4433. Community Resilience. 3 Hours.**
Explores communication systems, community relationships, and strategic communication processes that constitute community resilience. Introduces various methodological approaches to assessing community resilience in order to develop communication-based interventions that promote belonging, transformative potential, and social capital. Prerequisite: COMM 1023 or COMM 2343 or instructor permission. (Typically offered: Fall)

**COMM 4613. Rhetoric of American Women. 3 Hours.**
Examines the social and cultural assumptions that have limited the role of women in public communication. Focus is on the rhetorical biographies of selected women and their arguments on important social and political issues. Prerequisite: COMM 1313 or COMM 2353. (Typically offered: Fall)

**COMM 4633. History and Development of International Film I. 3 Hours.**
A critical survey of international film as a distinctive art form and as a medium of expression and communication with attention given to films and cinema from its origins to 1975. Prerequisite: COMM 1003. (Typically offered: Irregular)

**COMM 4643. Environmental Communication. 3 Hours.**
Explores how communication is used by individuals, corporations, and governments to shape public debates about environmental issues. Topics include rhetorical strategies, the public's right to information and input, dispute resolution techniques, advocacy campaigns, and green marketing. Prerequisite: COMM 1313 and COMM 2333 or permission of instructor. (Typically offered: Spring)

**COMM 4653. International Film II. 3 Hours.**
A critical survey of international film as a distinctive art form as a medium of expression and communication with attention given to films and cinema from 1976 to the present. Prerequisite: COMM 1003. (Typically offered: Irregular)

**COMM 4683. Documentary Film. 3 Hours.**
A study and analysis of the documentary film as a discrete film form and as an important contribution to the international cinematic scene. Prerequisite: Advanced standing. Prerequisite: COMM 1003. (Typically offered: Fall)

**COMM 4733. Reel Women. 3 Hours.**
An examination of films made for, about, and/or by women with the aim of better understanding and centralizing issues pertinent to women's daily lives. Prerequisite: COMM 1003. (Typically offered: Fall)
This course is cross-listed with GNST 4733.

**COMM 4743. Representational Issues in Film. 3 Hours.**
An examination of the varying ways that race and ethnicity, gender, sexual orientation, gender identity, class, (dis)ability, and age are represented in and by film - both historically and culturally. Prerequisite: COMM 1003. (Typically offered: Spring)
This course is cross-listed with GNST 4743.

**COMM 4763. Health Communication Campaigns. 3 Hours.**
Canvasses the theoretical frameworks used in the conceptualization of communication campaigns focused on health information dissemination and the purposes these campaigns serve. Students participate in a service learning project by defining campaign goals; identifying, segmenting, and assessing target audiences; and designing messages for multi-mediated health campaigns. Prerequisite: COMM 1023. (Typically offered: Spring Odd Years)

**COMM 4773. Treatment of Native Americans in Film. 3 Hours.**
This course compares the treatment of Native Americans in film with how representatives of this group identify themselves. Particular attention is paid to how motion pictures focusing on Native Americans produced by indigenous filmmakers compare to treatments of this people produced by Hollywood and others. Prerequisite: COMM 1003 or instructor consent. (Typically offered: Irregular)

**COMM 4803. Seminar in Social Media. 3 Hours.**
This class encourages in depth examination of contemporary theory and research on the potential effects of social media on cognitive, social, cultural, political, affective, and economic structures. Focus is on critical thinking and contextualization of social media. Pre- or Corequisite: COMM 1233 or COMM 2813. (Typically offered: Spring Even Years)

**COMM 4823. Children and Media. 3 Hours.**
An in-depth examination of children's use of media and the effects of media content on child and adolescent development. Topics may include violence and sex in media, commercialism, and new media. Prerequisite: COMM 1233 or COMM 2813. (Typically offered: Spring Odd Years)

**COMM 4843. Computer-Mediated Communication. 3 Hours.**
Provides an in depth consideration of the nature of computer-mediated communication by examining its use and effects in interpersonal, work, educational, and societal contexts. Prerequisite: COMM 1233 or COMM 2813 or instructor permission. (Typically offered: Spring)

**COMM 4863. Seminar in Media. 3 Hours.**
Research/discussion of contemporary issues in media. Emphasis on the economic and social impact of advertising, news, censorship, programs directed toward children, portrayals of women and minorities, future trends in media technologies, and analysis of the changing media landscape. Prerequisite: COMM 1233 or COMM 2813 or instructor permission. (Typically offered: Spring)
COMM 4873. International Communication and Globalization. 3 Hours.
Examines aspects of international communication and the impact of globalization on the production, dissemination, and consumption of media technology and messages. Prerequisite: COMM 1313 and COMM 2333. (Typically offered: Irregular)
This course is cross-listed with INST 4873.

COMM 4883. Television and American Culture. 3 Hours.
Historical and critical study of how television shapes American culture and is shaped by it. Attention will be given to the study of television history, programs and audiences; particularly how race and gender shape content and reception of programming. Prerequisite: COMM 1233 or COMM 2813. (Typically offered: Fall)

COMM 490V. Special Problems. 1-6 Hour.
Credit arranged. Prerequisite: COMM 2333 and at least 9 hours of COMM coursework. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

COMM 4913. Internship in Communication. 3 Hours.
Internship in applied communication within public and private organizations. Prerequisite: COMM 1313 and COMM 2333. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

COMM 499VH. Honors Thesis. 1-3 Hour.
Honors thesis under the direction of a faculty member in the Department of Communication. Pre- or Corequisite: COMM 3991H. Prerequisite: Honors standing. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

COMM 5111. Colloquium in Communication Research. 1 Hour.
Presentation, evaluation, and discussion of research proposals or on-going research projects. Graduate students are required to register for this course each semester of residence. (Typically offered: Fall and Spring) May be repeated for degree credit.

COMM 5123. Quantitative Research Methods in Communication. 3 Hours.
Emphasizes the assumptions and procedures of social scientific research methods in communication. (Typically offered: Fall)

COMM 5133. Media Processes & Effects. 3 Hours.
Introduction to scholarly research and theory in media processes and effects. Particular attention will be devoted to the impact of media messages on individuals and societies. Emphasis will be placed on the construction and development of theory. (Typically offered: Fall)

COMM 5163. Introduction to Communication Paradigms. 3 Hours.
Introduces the variety of modes of inquiry used in communication. Reviews the field's history and boundaries. Explores contemporary communication research. (Typically offered: Fall)

COMM 5173. Qualitative Methods in Communication. 3 Hours.
Emphasizes the assumptions and procedures of qualitative research methods in the examination of human communication behavior. (Typically offered: Spring)

COMM 5183. Interpretive Research Methods in Communication. 3 Hours.
Examines various perspectives used to analyze and critique various texts (e.g., media programming, speeches). (Typically offered: Spring)

COMM 5193. Seminar in Communication. 3 Hours.
Research, discussion, and papers focus on one of a variety of communication topics including symbolic processes in communication, philosophy of rhetoric, communication education, criticism of contemporary communication, interpersonal communication, organizational communication, and contemporary applications of rhetoric. Maximum credit is 9 semester hours. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 9 hours of degree credit.

COMM 5323. Seminar in Persuasion. 3 Hours.
Focus is on comparing theoretical accounts of persuasion and research evidence concerning the effects of various factors on persuasion. (Typically offered: Fall)

COMM 5333. Interpersonal Communication Theory. 3 Hours.
Survey of the theoretical orientations in interpersonal communication with primary focus on conceptual, philosophical and research issues. (Typically offered: Fall Even Years)

COMM 5343. Interpersonal Communication. 3 Hours.
Theory and research concerning the exchange of information and the mutual influencing of behavior among people. Prerequisite: Graduate standing. (Typically offered: Fall)

COMM 5353. Rhetorical Criticism. 3 Hours.
A seminar in rhetorical criticism. A study of the development of standards of rhetorical appraisal from the foundations of the art of speaking to the modern period; examination of contemporary approaches to rhetorical appraisal and practice in critical analysis of contemporary address. (Typically offered: Irregular)

COMM 5373. Content Analysis. 3 Hours.
Techniques for observing and analyzing the overt communication behavior of selected communicators. Prerequisite: Graduate standing. (Typically offered: Irregular)

COMM 5383. Seminar in Political Communication. 3 Hours.
Research seminar focusing on selected topics such as candidate imagery, diffusion of political information, or political symbolism. Prerequisite: Graduate standing. (Typically offered: Irregular)
This course is cross-listed with PLSC 5383.

COMM 5403. Organizational Communication Theory. 3 Hours.
A seminar on the historical development of theory and research into communication processes occurring within an organizational setting. Lecture, discussion, oral and written reports. Prerequisite: Graduate standing. (Typically offered: Irregular)

COMM 5463. Descriptive Linguistics. 3 Hours.
A scientific study of language with primary emphasis on modern linguistic theory and analysis. Topics include phonology, morphology, syntax, semantics, language acquisition, and historical development of world languages. (Typically offered: Fall)
This course is cross-listed with WLLC 5463, ANTH 5473, ENGL 5483.

COMM 5473. Treatment of Native Americans in Film. 3 Hours.
Examines the treatment of Native Americans in film with a focus on how representatives of this group identify themselves. Will also focus on motion picture relating to Native Americans produced by indigenous filmmakers. (Typically offered: Irregular)

COMM 5503. Communication and Cultural Studies. 3 Hours.
Examinations of the role of communication in modern culture. Emphasis is upon the production and circulation of meanings with society, and special attention is given to the role of popular and mass media in this process. Prerequisite: Graduate standing. (Typically offered: Fall)

COMM 5513. Sustainability and Communication. 3 Hours.
Communication's role in creating and conveying an organization's environmental sustainability philosophy and initiatives. Discusses internal communication when establishing and communicating sustainability goals and initiatives. Covers communicating sustainability to external groups through websites, sustainability reports, and advocacy initiatives. For profit, nonprofit, governmental, NGOs, and/or advocacy organizations discussed. (Typically offered: Fall Even Years)

COMM 5533. Family Communication. 3 Hours.
An exploration of the major theories and lines of research that examine family communication in contemporary American life. (Typically offered: Fall Even Years)

COMM 569V. Seminar in Film Studies. 1-3 Hour.
Research, discussion; papers on a variety of film genres and areas including the new American film, the science-fiction film, directors, film comedy, the experimental film, criticism, and the film musical. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.
COMM 5763. Health Communication. 3 Hours.
Examines the difficulties of effective communication between health care providers and recipients including the following: issues of social support, conveying bad news, cultural issues, and identifying relevant communication skills associated with effective health care provision. Explores medical education models for training in effective patient-provider communication. (Typically offered: Irregular)

COMM 5823. Political Communication. 3 Hours.
Covers contemporary political communication theory and applies them to understand modern political campaigns. Topics covered include the rhetoric of politics, political advertising, the role of the media and public opinion, the impact of new technology, campaign speech genres, political debates, and the role of social identity in presidential campaigns. (Typically offered: Irregular)

COMM 5833. The Rhetoric of the Modern American Presidency. 3 Hours.
Study contemporary presidents’ reliance on public persuasion, especially in efforts to bypass Congress and accomplish complicated political goals. Explore the origins of the concept of the ‘rhetorical presidency,’ specifically how it developed and changed the nature of the executive branch of government. Examine major genres of modern presidential rhetoric illustrating that trend. (Typically offered: Irregular)

COMM 5843. Legal Communication. 3 Hours.
Examines communication processes in the legal environment and focuses on communication skills and behaviors among judges, attorneys, litigants, and jurors. Particular attention will be given to verbal strategies and nonverbal messages related to interviews, negotiation, mediation, and litigation and to the rhetorical functions of legal pleadings and judicial opinions. (Typically offered: Irregular)

COMM 5853. American Film Survey. 3 Hours.
A survey of major American film genres, major directors and films that have influenced the development of motion pictures. (Typically offered: Fall and Summer)

COMM 5863. History and Development of International Film I. 3 Hours.
A critical survey of international film as a distinctive art form and as a medium of expression and communication with attention given to films and cinema from its origins to 1975. (Typically offered: Irregular)

COMM 5873. History and Development of International Film II. 3 Hours.
A critical survey of international film as a distinctive art form and as a medium of expression and communication with attention given to films and cinema from 1975 to the present. (Typically offered: Irregular)

COMM 590V. Special Problems. 1-6 Hour.
Credit by arrangement. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

COMM 5913. Internship in Communication. 3 Hours.
Internship in applied communication within public and private organizations. Prerequisite: 15 hours graduate level communication in residence. (Typically offered: Fall, Spring and Summer)

COMM 5923. Capstone Course in Communication. 3 Hours.
Students organize and synthesize knowledge developed throughout their graduate coursework into a tangible capstone product which becomes part of their professional portfolio. (Typically offered: Fall, Spring and Summer)

COMM 5993. Readings In Cultural Studies. 3 Hours.
Classic and current theoretical approaches to cultural studies. Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular)

COMM 600V. Master’s Thesis. 1-6 Hour.
Master’s Thesis. Prerequisite: Graduate standing. (Typically offered: Fall and Spring) May be repeated for degree credit.

Communication Sciences and Disorders (CDIS) Courses

CDIS 2253. Introduction to Communicative Disorders. 3 Hours.
An introductory course which surveys the professional interests of speech-language pathology and audiology with specific attention to the general recognition and classification of disorders of speech, language, and hearing, and general trends in rehabilitation. Consideration given to the classroom teacher's involvement in communication disorders. (Typically offered: Fall and Spring)

CDIS 2903H. Honors Introduction to Research in Communication Sciences and Disorders. 3 Hours.
This course introduces students to the research process in the field of communication sciences and disorders. Prerequisite: Acceptance into the COEHP Honors Program and instructor consent. (Typically offered: Spring)

CDIS 3103. Introduction to Audiology. 3 Hours.
Introduction to the basic concepts for administering and interpreting hearing tests, including the anatomy and physiology of the auditory system, disorders of the ear, and techniques for administering and interpreting basic pure tone threshold tests. Corequisite: PHYS 1023 and PHYS 1021L, PHYS 2013 and PHYS 2011L or CHEM 1073 and CHEM 1071L. Prerequisite: CDISBS major or departmental consent. (Typically offered: Fall and Spring)

CDIS 3103H. Honors Introduction to Audiology. 3 Hours.
Introduction to the basic concepts for administering and interpreting hearing tests, including the anatomy and physiology of the auditory system, disorders of the ear, and techniques for administering and interpreting basic pure tone threshold tests. Corequisite: PHYS 1023 and PHYS 1021L, PHYS 2013 and PHYS 2011L or CHEM 1073 and CHEM 1071L. Prerequisite: CDISBS major and honors standing, or departmental consent. (Typically offered: Fall and Spring)

This course is equivalent to CDIS 3103.

CDIS 3124. Normal Phonology and Articulatory Process. 4 Hours.
Analysis of the English speech sounds as a basis for speech improvement; physiological positions and movements; acoustic qualities and transcription in the international phonetic alphabet. Corequisite: Lab component. Prerequisite: CDISBS major or departmental consent. (Typically offered: Fall)

CDIS 3203. Articulation Disorders. 3 Hours.
A study of the definition, etiology, pathology, and treatment procedures of problems of articulation. Prerequisite: CDIS 3214, CDIS 3213 and CDISBS major or departmental consent. (Typically offered: Fall)

CDIS 3213. Anatomy of Physiology of the Speech and Hearing Mechanisms. 3 Hours.
Structure and function of the organic mechanisms responsible for speech, language, and audition. Pre or Corequisite: BIOL 1543 and BIOL 1541L or higher. Prerequisite: CDISBS major or departmental consent. (Typically offered: Fall)

CDIS 3223. Language Development in Children. 3 Hours.
Study of typical development of speech and language functions for communicative purposes in children from infancy to early school-age years, including the major components of language as well as the social, cognitive, biological and cultural factors related to language acquisition. Pre- or Corequisite: PSYC 2003. Prerequisite: CDISBS major or departmental consent. (Typically offered: Fall)

CDIS 3223H. Honors Language Development in Children. 3 Hours.
Study of typical development of speech and language functions for communicative purposes in children from infancy to early school-age years, including the major components of language as well as the social, cognitive, biological, and cultural factors related to language acquisition. Pre- or Corequisite: PSYC 2003. Prerequisite: Honors candidacy and CDISBS major or departmental consent. (Typically offered: Fall)

This course is equivalent to CDIS 3223.
CDIS 3233. Introduction to Clinical Practice. 3 Hours.
An introduction to the various aspects of clinical operations including technical and interpersonal relationship skills necessary for case management and a survey of professional standards. Pre- or Corequisite: COMM 1313. Prerequisite: CDISBS major or departmental consent. (Typically offered: Fall and Spring)

CDIS 3233H. Honors Introduction to Clinical Practice. 3 Hours.
An introduction to the various aspects of clinical operations including technical and interpersonal relationship skills necessary for case management and a survey of professional standards. Pre- or Corequisite: COMM 1313. Prerequisite: Honors standing and CDISBS major or departmental consent. (Typically offered: Fall and Spring)

CDIS 3235. Cultural Diversity in Communication Disorders. 3 Hours.
An introduction to various cultures, customs, and professional standards in health-related fields that helps to develop intercultural communication skills necessary to manage the increasingly diverse caseloads of health-related professionals. Pre- or Corequisite: COMM 1313. Prerequisite: CDISBS major or departmental consent. (Typically offered: Fall and Spring)

CDIS 3901H. Honors Communication Disorders Thesis Tutorial. 1 Hour.
Designed to provide the foundation for the Honors Thesis/Project. Students and faculty tutors work 'one-on-one' exploring a specific topic which has been agreed upon by the student and the professor. Prerequisite: Honors candidacy and CDISBS major. (Typically offered: Fall, Spring and Summer)

CDIS 3923H. Honors Colloquium. 3 Hours.
Treats a special topic or issue, offered as part of the honors program. Prerequisite: Honors candidacy (not restricted to candidacy in speech or dramatic art). (Typically offered: Irregular) May be repeated for degree credit.

CDIS 399VH. Honors Course. 1-6 Hours.
Honors course. Prerequisite: Junior standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

CDIS 4003. Clinical Practicum Undergrad. 3 Hours.
Enter-level training in speech-language clinical practicum activities. This course is taken for satisfactory or unsatisfactory credit. Prerequisite: Admitted to the Communication Sciences and Disorders (CDISBS) major, CDIS 3213, CDIS 3223 and CDIS 3233, plus satisfactory completion of specific program requirements for admission to clinical practice. (Typically offered: Fall and Spring)

CDIS 4003H. Honors Clinical Practicum Undergrad. 3 Hours.
Enter-level training in speech-language clinical practicum activities. This course is taken for satisfactory or unsatisfactory credit. Prerequisite: Honors standing, admitted to the Communication Sciences and Disorders (CDISBS) major, CDIS 3213, CDIS 3223 and CDIS 3233, plus satisfactory completion of specific program requirements for admission to clinical practice. (Typically offered: Fall and Spring)

This course is equivalent to CDIS 4003.

CDIS 4103. Sign Language and Deafness. 3 Hours.
An introduction to American Sign Language (ASL) and the Deaf Community that uses it. This class will study expressive and sign language skills using ASL vocabulary, structure and grammar. The Deaf Community will be studied through videotapes and readings. Issues in Deaf Education will also be introduced. (Typically offered: Fall, Spring and Summer)

CDIS 4133. Introduction to Aural Rehabilitation. 3 Hours.
Study of the technique used in the rehabilitation of speech and language problems of the hearing impaired including the role of amplification, auditory training, and speech reading in rehabilitation. Prerequisite: CDIS 3103. (Typically offered: Spring)

CDIS 4183. Clinical Assessment of Speech and Language Disorders. 3 Hours.
Study of the basic diagnostic procedures used in speech-language pathology. Emphasis is placed on the clinical processes of assessment, including criteria for test selection, techniques in test administration, and interpretation of test. Pre- or Corequisite: Prior coursework in CDIS and ANTH 1023. Prerequisite: CDISBS major or departmental consent. (Typically offered: Spring)

CDIS 4213. Introduction to Speech and Hearing Science. 3 Hours.
Study of the acoustic structure of oral speech and the auditory skills underlying speech perception. Prerequisite: CDIS 3203, CDIS 3213, CDIS 3124 and its lab component and CDISBS major or departmental consent. Pre- or Corequisite: MATH 1203 or higher. (Typically offered: Spring)

CDIS 4223. Language Disorders in Children. 3 Hours.
Study of disorders of language acquisition and usage in children and adolescents, with emphasis upon the nature, assessment, and treatment of such disorders. Prerequisite: CDIS 3223 and CDISBS major or departmental consent. (Typically offered: Spring)

CDIS 4223H. Honors Language Disorders in Children. 3 Hours.
Study of disorders of language acquisition and usage in children and adolescents, with emphasis upon the nature, assessment, and treatment of such disorders. Prerequisite: CDIS 3223 and CDISBS major and honors standing or departmental consent. (Typically offered: Spring)

This course is equivalent to CDIS 4223.

CDIS 4253. Neurological Bases of Communication. 3 Hours.
A study of the structures and functions of the central and peripheral nervous systems as they relate to human speech, language, and cognition. Prerequisite: CDIS 3213 and CDISBS major or departmental consent. (Typically offered: Fall)

CDIS 4253H. Honors Neurological Bases of Communication. 3 Hours.
A study of the structures and functions of the central and peripheral nervous systems as they relate to human speech, language, and cognition. Prerequisite: CDIS 3213, honors standing, and CDISBS major or departmental consent. (Typically offered: Fall)

This course is equivalent to CDIS 4253.

CDIS 4263. Advanced Audiology. 3 Hours.
Study of the basic techniques used in audiological assessment of children and adults, including pure tone audiometry, speech audiometry, and special tests of hearing function. Prerequisite: CDIS 3103. (Typically offered: Fall)

CDIS 4273. Communication Behavior and Aging. 3 Hours.
Study of the effects upon communication of normal aspects of the aging process, from early adulthood throughout the lifespan. Changes in speech, language, and hearing functioning are identified; common alterations in communicative disorders commonly associated with advanced age are discussed. Prerequisite: CDISBS major or departmental consent. (Typically offered: Fall)

This course is equivalent to CDIS 4273.

CDIS 4273H. Honors Communication Behavior and Aging. 3 Hours.
Study of the effects upon communication of normal aspects of the aging process, from early adulthood throughout the lifespan. Changes in speech, language, and hearing functioning are identified; common alterations in communicative disorders commonly associated with advanced age are discussed. Prerequisite: CDISBS major and honors standing, or departmental consent. (Typically offered: Fall)

This course is equivalent to CDIS 4273.

CDIS 490V. Special Problems. 1-3 Hours.
Special problems. Prerequisite: Advanced standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

CDIS 498VH. Honors Communication Disorders Thesis/Project. 1-3 Hour.
Designed to provide facilitation of the Honors Thesis/Project. Students and faculty work 'one-on-one' to complete the honors thesis/project. Prerequisite: Honors candidacy, CDISBS major, and CDIS 3901H. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.
CDIS 5103. Research Methodology in Communication Disorders. 3 Hours.
An examination of methods of research in speech-language pathology and audiology and of the use of bibliographic tools. Focuses on purposes and problems of various forms of communication disorders research, procedures and instruments employed, and reporting of research. Prerequisite: Graduate standing. (Typically offered: Fall)

CDIS 5113. Seminar in Early Intervention. 3 Hours.
Study of a family-centered, transdisciplinary approach to early intervention with infants and toddlers at-risk for communication disorders. Topics include early communication development, service delivery in a family context, coordination with other disciplines, legislation mandating services, and providing services to children with multiple disabilities. Prerequisite: CDIS 3223 or equivalent, and graduate standing. (Typically offered: Fall)

CDIS 5121L. Feeding and Swallowing Disorders Lab. 1 Hour.
Observation and interpretation of techniques used for assessment and remediation of feeding and swallowing disorders in children and adults. Prerequisite: Enrollment in CDISMS program or Instructor Consent. (Typically offered: Fall)

CDIS 5122. Feeding and Swallowing Disorders. 2 Hours.
Study of the etiology, assessment, and remediation of feeding and swallowing disorders in children and adults. Prerequisite: Enrollment in CDISMS program or Instructor Consent. (Typically offered: Fall)

CDIS 5143. Cognitive-Communication Development and Disorders. 3 Hours.
Study of normal cognitive development, the role of communication in this development, and shifts that may occur in conjunction with various speech, language and/or hearing disorders. Prerequisite: CDIS 3223. (Typically offered: Fall)

CDIS 5153. TBI and Right-Hemisphere Disorders. 3 Hours.
Study of the speech and language disorders commonly resulting from traumatic brain injury and right hemisphere disorders. Prerequisite: Enrollment in CDISMS program or instructor consent. (Typically offered: Spring)

CDIS 5173. Sign Language and Deafness. 3 Hours.
(Formerly CDIS 4103.) An introduction to American Sign Language (ASL) and the Deaf Community that uses it. This class will study expressive and sign language skills using ASL vocabulary, structure and grammar. The Deaf Community will be studies through videotapes and readings. Issues in Deaf Education will also be introduced. Graduate degree credit will not be given for both CDIS 4103 and CDIS 5173. (Typically offered: Fall, Spring and Summer)

CDIS 5183. Advanced Clinical Practicum I. 3 Hours.
Practicum activities in speech-language assessment and intervention. Prerequisite: Graduate standing. (Typically offered: Fall)

CDIS 5203. Introduction to Aural Rehabilitation. 3 Hours.
(Formerly CDIS 4133.) Study of the technique used in the rehabilitation of speech and language problems of the hearing impaired including the role of amplification, auditory training, and speech reading in rehabilitation. Graduate degree credit will not be given for both CDIS 4133 and CDIS 5203. Prerequisite: CDIS 3103. (Typically offered: Spring)

CDIS 5213. Voice and Resonance Disorders. 3 Hours.
Study of disorders of phonation and resonation, including etiologies, diagnosis, and intervention strategies. Prerequisite: Graduate standing. (Typically offered: Fall)

CDIS 5223. Fluency Disorders. 3 Hours.
An examination of fluency disorders including theory, etiological factors, and development. In addition, the course is designed to address assessment and management of fluency disorders consistent with evidence-based practice for prospective speech-language pathologists. Prerequisite: Graduate standing. (Typically offered: Fall)

CDIS 5233. Speech Sound Disorders. 3 Hours.
Assessment and treatment of disorders in speech articulation. Prerequisite: Graduate standing. (Typically offered: Summer)

CDIS 5243. Language Disorders in Adults. 3 Hours.
Cognitive and communicative breakdown due to neurological trauma, including etiology, characteristics, assessment and treatment for aphasia, traumatic brain injury, and right hemisphere disorders. Prerequisite: Graduate standing. (Typically offered: Spring)

CDIS 5253. Motor Speech Disorders. 3 Hours.
Study of motor speech production disorders related to damage to central or peripheral nervous system motor centers and pathways. Cerebral palsy, adult dysarthria, apraxia, and dysphagia are emphasized. Both theoretical and treatment considerations are addressed. Prerequisite: Enrollment in the Communication Sciences and Disorders Master of Science (CDISMS) program or instructor consent. (Typically offered: Spring)

CDIS 5263. Advanced Audiology. 3 Hours.
(Formerly CDIS 4263.) Study of the basic techniques used in audiological assessment of children and adults, including pure tone audiometry, speech audiometry, and special tests of hearing function. Graduate degree credit will not be given for both CDIS 4263 and CDIS 5263. Prerequisite: CDIS 3103. (Typically offered: Fall)

CDIS 5273. Language, Learning and Literacy. 3 Hours.
An examination of language-based literacy skills, including consideration of development, disorders, assessment and intervention. Prerequisite: Enrollment in CDISMS program or instructor consent. (Typically offered: Summer)

CDIS 5283. Advanced Clinical Practicum II. 3 Hours.
Practicum activities in speech-language assessment and intervention. Prerequisite: Graduate standing and CDIS 5183. (Typically offered: Spring)

CDIS 5293. Augmentative and Alternative Communication. 3 Hours.
Approaches to communication management with the severely and profoundly handicapped child or adult, with primary emphasis on augmentative and alternative communication assessment and intervention. Prerequisite: Graduate standing. (Typically offered: Fall)

CDIS 5303. Clinical Assessment of Speech and Language Disorders. 3 Hours.
(Formerly CDIS 4183.) Study of the basic diagnostic procedures used in speech-language pathology. Emphasis is placed on the clinical processes of assessment, including criteria for test selection, techniques in test administration, and interpretation of test. Graduate degree credit will not be given for both CDIS 4183 and CDIS 5303. Pre- or Corequisite: Prior coursework in CDIS and ANTH 1023. (Typically offered: Spring)

CDIS 5313. Introduction to Speech and Hearing Science. 3 Hours.
(Formerly CDIS 4213.) Study of the acoustic structure of oral speech and the auditory skills underlying speech perception. Graduate degree credit will not be given for both CDIS 4213 and CDIS 5313. Prerequisite: CDIS 3203, CDIS 3213, CDIS 3124 and its lab component. Pre- or Corequisite: MATH 1203 or higher. (Typically offered: Spring)

CDIS 5323. Language Disorders in Children. 3 Hours.
(Formerly CDIS 4223.) Study of disorders of language acquisition and usage in children and adolescents, with emphasis upon the nature, assessment, and treatment of such disorders. Graduate degree credit will not be given for both CDIS 4223 and CDIS 5323. Prerequisite: CDIS 3223. (Typically offered: Spring)

CDIS 5353. Neurological Bases of Communication. 3 Hours.
(Formerly CDIS 4253.) A study of the structures and functions of the central and peripheral nervous systems as they relate to human speech, language, and cognition. Graduate degree credit will not be given for both CDIS 4253 and CDIS 5353. Prerequisite: Enrollment in the Communication Sciences and Disorders Master of Science (CDISMS) program or Instructor Consent. (Typically offered: Fall)
CDIS 5373. Communication Behavior and Aging. 3 Hours.
(Formerly CDIS 4273.) Study of the effects upon communication of normal aspects of the aging process, from early adulthood throughout the lifespan. Changes in speech, language, and hearing functioning are identified; common alterations in communicative disorders commonly associated with advanced age are discussed. Graduate degree credit will not be given for both CDIS 4273 and CDIS 5373. (Typically offered: Fall)

CDIS 5383. Advanced Clinical Practicum III. 3 Hours.
Practicum activities in speech-language assessment and intervention. Prerequisite: Graduate standing and CDIS 5283. (Typically offered: Summer)

CDIS 5391. Clinical Practicum: Hearing Disorders. 1 Hour.
Practicum in audiology. (Typically offered: Fall, Spring and Summer)

CDIS 5443. Advanced Clinical Practicum IV. 3 Hours.
Practicum activities in speech-language assessment and intervention. Prerequisite: Graduate standing, CDIS 5183, CDIS 5283, and CDIS 5383. (Typically offered: Fall)

CDIS 548V. Off-Campus Practicum: Public School Site. 1-6 Hour.
Practicum activities in speech-language disorders in a public school setting. Prerequisite: Graduate standing. (Typically offered: Fall and Spring)

CDIS 5511. Professional Issues I. 1 Hour.
Discussion of pertinent topics and issues in the discipline of communication sciences and disorders. Prerequisite: Graduate standing in communication disorders. (Typically offered: Fall)

CDIS 5521. Professional Issues II. 1 Hour.
Discussion of pertinent topics and issues in the discipline of communication sciences and disorders. Prerequisite: Graduate standing in communication disorders. (Typically offered: Spring)

CDIS 5531. Professional Issues III. 1 Hour.
Discussion of pertinent topics and issues in the discipline of communication sciences and disorders. Prerequisite: Graduate standing in communication disorders. (Typically offered: Fall)

CDIS 558V. Internship: Clinical Site. 3-6 Hour.
Field placement in approved clinical setting for clock hours in speech-language pathology assessment and treatment. Students in the master's program must enroll in a minimum of 3 credit hours of CDIS 558V or CDIS 578V during their last semester of graduate studies. Prerequisite: Graduate standing; Completion of one semester of either CDIS 548V or CDIS 568V. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

CDIS 5663. Advanced Clinical Practicum V. 3 Hours.
Practicum activities in speech-language assessment and intervention. Prerequisite: Graduate standing. (Typically offered: Spring)

CDIS 568V. Off-Campus Practicum: Clinical Site. 1-6 Hour.
Practicum activities in speech-language disorders in an off-campus clinical site. Prerequisite: Graduate standing, CDIS 5183, CDIS 5283, and CDIS 5383. (Typically offered: Fall, Spring and Summer)

CDIS 578V. Internship: Public School Site. 3-6 Hour.
Field placement in approved public school setting for clock hours in speech-language pathology assessment and treatment. Students in the Master's program must enroll in a minimum of 3 credit hours of CDIS 578V or CDIS 558V during their last semester of graduate studies. Prerequisite: Graduate standing; Completion of one semester of either CDIS 548V or CDIS 568V. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

CDIS 5813. Advanced Auditory (Re)Habilitation. 3 Hours.
This course provides students with an in-depth knowledge of hearing anatomy and physiology as well as current hearing and hearing assistive technologies. The development of auditory skills across the lifespan will be discussed as well as intervention techniques to facilitate auditory, speech, and spoken language skills across the lifespan. Prerequisite: Graduate standing. (Typically offered: Fall)

CDIS 5823. Language Learning with Multiple Disabilities. 3 Hours.
Approaches to services (assessment and intervention) for individuals who, as a result of multiple disabilities, are in the beginning stages of language development including the preintentional and presymbolic stages. Prerequisite: Graduate standing. (Typically offered: Fall)

CDIS 5843. Communication and Swallowing in Dementia. 3 Hours.
This course provides an in-depth examination of the communication and feeding/swallowing factors demonstrated by patients with dementia. Etiologies, symptoms, progression, evaluation, and appropriate interventions for the most common forms of dementia are addressed. Prerequisite: Graduate standing. (Typically offered: Summer)

CDIS 5883. Policies & Procedures in Educational Speech-Language Pathology. 3 Hours.
Educational Speech Pathology is designed to familiarize the student with the factors related to functioning as an SLP in an educational setting, including state and federal regulations/standards, service delivery considerations, eligibility criteria, and documentation. Prerequisite: Graduate Standing. (Typically offered: Summer)

CDIS 590V. Special Problems. 1-6 Hour.
Special problems. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

CDIS 599V. Seminar in Professional Issues. 1-3 Hour.
Selected topics in professional issues in speech-language pathology and audiology. (Typically offered: Fall and Spring) May be repeated for up to 3 hours of degree credit.

CDIS 600V. Master's Thesis. 1-6 Hour.
Master's Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

CDIS 6103. Literacy for Learning in Educational Settings. 3 Hours.
An examination of language-based literacy skills, including consideration of development, disorders, assessment, and intervention. Prerequisite: Graduate standing. (Typically offered: Fall)

CDIS 6203. Advanced Assessment and Intervention for Fluency Disorders. 3 Hours.
An examination of fluency disorders including theory, etiological factors, and development. In addition, the course is designed to address assessment and management of fluency disorders consistent with evidence-based practice for prospective speech-language pathologists. Prerequisite: Graduate standing. (Typically offered: Fall)

CDIS 6303. Effective Augmentative and Alternative Communication Services in Schools. 3 Hours.
This course will support current speech-language pathologists in becoming more effective speech-language pathologists as it relates to the provision of augmentative and alternative services in schools. Throughout this course, students will (a) identify a barrier they wish to address relevant to their current service provision or their current caseload, (b) discover strategies for addressing that barrier, and (c) develop a plan for improving their augmentative and alternative service provision through the implementation of those strategies in their own professional work. Prerequisite: Graduate standing. (Typically offered: Spring)

CDIS 6403. Advanced Pediatric Feeding and Swallowing Assessment & Intervention. 3 Hours.
Study of the etiology, assessment, and remediation of feeding and swallowing disorders in children. Prerequisite: Graduate standing. (Typically offered: Irregular)
CDIS 6503. Behavioral Management in Educational Settings. 3 Hours.
The course provides an introduction to behavioral management across a variety of settings highlighting best practices from organizing time, materials, and room space. Strategies for managing individual and large group student behaviors, transitions, and other arrangements will be presented in addition to basic federal and state laws as they pertain to the legal procedures for all professionals, including educators of students with disabilities and students who use English as a Second Language (ESL). Prerequisite: Graduate standing. (Typically offered: Spring)

CDIS 699V. Seminar in Communication Sciences and Disorders. 1-6 Hour.
Discussion of pertinent topics and issues in the discipline of communication sciences and disorders. Prerequisite: Advanced graduate standing. (Typically offered: Irregular) May be repeated for up to 18 hours of degree credit.

Community Health Promotion (CHLP)

Courses

CHLP 310V. Health Coaches I. 1-3 Hour.
This course, designed for students whose career goals are focused on community/healthcare service, is a study of key issues concerning community health care, aimed at developing practical approaches to supporting patients. Students study the medical, social, cultural, and economic challenges as well as opportunities that exist within evolving health care systems, and consider how these forces, in addition to behavioral and psychological factors, affect health outcomes of individual patients. Obstacles to effective health care as well as strategies for enabling at-risk patients to play more active roles in promoting their health and well-being are key issues. This course provides students with the academic foundation for the field-based Health Coaches sequence. Health Coaches I is the field-based first course in the three-course Health Coaches sequence. Health Coaches will become engaged in the processes of educating and motivating identified at risk patients to take an active and meaningful role in their health and well-being. Students are required to make scheduled visits to their assigned patients’ homes, potentially attend doctor appointments with the patient, engage in phone interactions with patients and the healthcare team as needed, and meet face-to-face weekly with the care coordination healthcare team to discuss patient experiences and strategies for optimizing healthcare outcomes for individual patients. Prerequisite: CHLP 310V. (Typically offered: Fall and Spring) May be repeated for up to 3 hours of degree credit.

CHLP 320V. Health Coaches II. 1-3 Hour.
Health Coaches II is the field-based second course in the three-course Health Coaches sequence. Health Coaches will become engaged in the processes of educating and motivating identified at risk patients to take an active and meaningful role in their health and well-being through scheduled visits to their assigned patients’ homes or by phone, potentially attending doctor appointments with the patient, and participating in face-to-face weekly with the care coordination healthcare team to discuss patient experiences and strategies for optimizing healthcare outcomes for individual patients. In addition, students at this level will provide leadership within student care teams and provide community outreach under the direction of the professional healthcare team. Prerequisite: CHLP 310V and CHLP 320V. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

CHLP 330V. Health Coaches III. 1-3 Hour.
Health Coaches III is the field-based third course in the three-course Health Coaches sequence. Health Coaches will continue to be engaged in the processes of educating and motivating identified at risk patients to take an active and meaningful role in their health and well-being through scheduled visits to their assigned patients’ homes or by phone, potentially attending doctor appointments with the patient, and participating in face-to-face weekly with the care coordination healthcare team to discuss patient experiences and strategies for optimizing healthcare outcomes for individual patients. In addition, students at this level will provide leadership within student care teams and provide community outreach under the direction of the professional healthcare team. Prerequisite: CHLP 310V and CHLP 320V. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

Computer Science and Computer Engineering (CSCE)

Courses

Introductory programming course for students majoring in computer science or computer engineering. Software development process: problem specification, program design, implementation, testing and documentation. Programming topics: data representation, conditional and iterative statements, functions, arrays, strings, file I/O and classes. Using C++ in a UNIX environment. Corequisite: Lab component. Prerequisite: MATH 2445 or MATH 2554 or MATH 2554C with a grade of C or better, a College of Engineering (ENGR) student, a Computer Science Minor (CSCE-M), or a math major (MATHBS or MATHBA). (Typically offered: Fall and Spring)

This course continues developing problem solving techniques by focusing on fundamental data structures and associated algorithms. Topics include: abstract data types, introduction to object-oriented programming, linked lists, stacks, queues, hash tables, binary trees, graphs, recursion, and searching and sorting algorithms. Using C++ in a UNIX environment. Corequisite: Lab component. Prerequisite: CSCE 2004 with a grade of C or better. (Typically offered: Fall and Spring)

CSCE 2023. Introduction to Programming in Java. 3 Hours.
Introduction to programming in Java with emphasis on engineering applications. Programming techniques: data representation and expressions, conditional and iterative statements, arrays, lists, file I/O, methods. Object oriented programming: designing, implementing and using classes, collections and composite objects. Students will gain hands-on programming experience and exposure to classic engineering problem solving techniques. Prerequisite: MATH 2445 or MATH 2554 or MATH 2554C, each with a grade of C or higher. (Typically offered: Irregular)

CSCE 2114. Digital Design. 4 Hours.
Introduction to the hardware aspects of digital computers, logic gates, flip-flops, reduction, finite state machines, sequential logic design, digital systems, software design tools, hardware description language (VHDL), and implementation technologies. Corequisite: Lab component. Prerequisite: MATH 2554 or MATH 2554C with a grade of C or better. (Typically offered: Fall and Spring) This course is cross-listed with ELEG 2904.

CSCE 2214. Computer Organization. 4 Hours.
Presents the relationship between computing hardware and software with a focus on the concepts for current computers. CPU design topics are covered including various techniques for microprocessor design and performance evaluation. Corequisite: Lab component. Prerequisite: CSCE 2114 with a grade of C or better. (Typically offered: Fall and Spring)

CSCE 3193. Programming Paradigms. 3 Hours.
Programming in different paradigms with emphasis on object oriented programming and network programming. Survey of programming languages, event driven programming, and concurrency. Prerequisite: CSCE 2014 with a grade of C or better. (Typically offered: Fall and Spring)

CSCE 3193H. Honors Programming Paradigms. 3 Hours.
Programming in different paradigms with emphasis on object oriented programming and network programming. Survey of programming languages, event driven programming, and concurrency. Prerequisite: CSCE 2014 with a grade of C or better. (Typically offered: Fall) This course is equivalent to CSCE 3193.
CSCE 3213. Cluster Computing. 3 Hours.
Cluster computing solves problems too large in terms of memory or run time for a single workstation. Common approaches to these problems combine the resources of multiple computers to collectively find the solution. High performance computing is quickly expanding to areas including: chemistry, physics, mathematics, engineering, bio-informatics, finance, logistics, etc. (Typically offered: Irregular)

CSCE 3513. Software Engineering. 3 Hours.
A modern approach to the current techniques used in software design and development. This course emphasizes the use of modern software development tools, multi-module programming, and team design and engineering. Prerequisite: CSCE 3193 or CSCE 3193H with a grade of C or better. (Typically offered: Fall and Spring)

CSCE 3613. Operating Systems. 3 Hours.
An introduction to operating systems including topics in system structures, process management, storage management, files, distributed systems, and case studies. Prerequisite: CSCE 2014 and CSCE 2214, each with a grade of C or better. (Typically offered: Fall and Spring)

CSCE 3613H. Honors Operating Systems. 3 Hours.
An introduction to operating systems including topics in system structures, process management, storage management, files, distributed systems, and case studies. Prerequisite: CSCE 2014 and CSCE 2214, each with a grade of C or better. (Typically offered: Spring)

This course is equivalent to CSCE 3613.

CSCE 3953. System Synthesis and Modeling. 3 Hours.
This course instructs the students in the use of modern synthesis and modeling languages and approaches for design automation. This course will teach students the use of HDLs and modeling languages for representing and implementing digital computer systems. Prerequisite: CSCE 2214 with a grade of C or better. (Typically offered: Fall)

CSCE 4013. Special Topics. 3 Hours.
Consideration of computer science topics not covered in other courses. Prerequisite: CSCE 3193 and CSCE 2214. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

CSCE 4043. RFID Information Systems Security. 3 Hours.
Radio frequency identification (RFID) information systems provide information to users about objects with RFID tags. They require the application of information systems security (INFOSEC) to protect the information from tampering, unauthorized information disclosure, and denial of service to authorized users. This course addresses security and privacy in an RFID system. Prerequisite: INEG 2313. (Typically offered: Irregular)

CSCE 4114. Embedded Systems. 4 Hours.
The architecture, software, and hardware of embedded systems. Involves a mixture of hardware and software for the control of a system (including electrical, electro-mechanical, and electro-chemical systems). They are found in a variety of products including cars, VCRs, HDTVs, cell phones, pacemakers, spacecraft, missile systems, and robots for factory automation. Corequisite: Lab component. Prerequisite: CSCE 2214 with a grade of C or better. (Typically offered: Fall)

CSCE 4123. Programming Challenges. 3 Hours.
This course studies the principle methods used in the solution of programming contest problems, e.g., data structures strings, sorting, machine arithemtic and algebra, combinatorics, number theory, backtracking, graph traversal, graph algorithms, dynamic programming, grids, and computational geometry. Prerequisite: CSCE 2014. (Typically offered: Irregular)

CSCE 4133. Algorithms. 3 Hours.
Provides an introduction to formal techniques for analyzing the complexity of algorithms. The course surveys important classes of algorithms used in computer science and engineering. Prerequisite: CSCE 3193 and (MATH 2603 or MATH 2803) or MATH 4423. (Typically offered: Fall)

CSCE 4143. Data Mining. 3 Hours.
The course focuses on the principles, theory, design, and implementation of data mining algorithms for large-scale data. Topics include foundations of data mining; preprocessing; mining frequent patterns, associations and correlations; supervised learning including decision tree induction, naive Bayesian classification, support vector machine, logistic regression, Bayesian network, and K-nearest neighbor learning; unsupervised learning including K-means clustering, hierarchical clustering, density-based clustering, and grid-based clustering; outlier analysis; graph mining; scalable and distributed data mining. Prerequisite: (CSCE 2014 and INEG 3313) or (CSCE 2014 and INEG 2333 and INEG 2313). (Typically offered: Fall)

This course is cross-listed with INEG 4143.

CSCE 4213. Computer Architecture. 3 Hours.
The architecture of modern scalar and parallel computing systems. Techniques for dynamic instruction scheduling, branch prediction, instruction level parallelism, shared and distributed memory multiprocessor systems, array processors, and memory hierarchies. Prerequisite: CSCE 2214 with a grade of C or better. (Typically offered: Spring)

This course is cross-listed with ELEG 4983.

CSCE 4233. Low Power Digital Systems. 3 Hours.
The reduction of power consumption is rapidly becoming one of the key issues in digital system design. Traditionally, digital system design has mainly focused on performance and area trade-offs. This course will provide a thorough introduction to digital design for lower consumption at the circuit, logic, and architectural level. Prerequisite: CSCE 2214 with a grade of C or better. (Typically offered: Irregular)

CSCE 4253. Concurrent Computing. 3 Hours.
Programming concurrent processes; computer interconnection network topologies; loosely coupled and tightly coupled parallelised computer architectures; designing algorithms for concurrency; distributed computer architectures. Prerequisite: CSCE 3193. (Typically offered: Irregular)

CSCE 4263. Advanced Data Structures. 3 Hours.
This course continues the study of data structures, algorithmic analysis for these data structures, and their efficient implementation to support standard library in programming languages. Topics include: AVL trees, Red-Black trees, Splay trees, Optimal Binary Search trees, 2-3 tree, 2-3-4 tree, B-trees, Segment trees, Leftist Heaps, Binomial Heaps, Fibonacci Heap, Disjoint Set, Hashing, and big integer with hundreds to thousands of digits. Prerequisite: CSCE 3193. (Typically offered: Irregular)

CSCE 4323. Formal Languages and Computability. 3 Hours.
Finite Automata and regular languages, regular expressions, context-free languages and pushdown automata, nondeterminism, grammars, and Turing machines. Church's thesis, halting problem, time complexity, space complexity and undecidability. Prerequisite: MATH 2603 and CSCE 3193. (Typically offered: Spring)

CSCE 4333. Introduction to Integrated Circuit Design. 3 Hours.
Design and layout of large scale digital integrated circuits using CMOS technology. Topics include MOS devices and basic circuits, integrated circuit layout and fabrication, dynamic logic, circuit design and layout strategies for large scale CMOS circuits. Students may not receive credit for both CSCE 4333 and CSCE 5223. Prerequisite: ELEG 3214 or ELEG 3933 and MATH 2584 (Typically offered: Fall)

CSCE 4353. CPLD/FPGA-Based System Design. 3 Hours.
Field Programmable Logic devices (FPGAs/CPLDs) have become extremely popular as basic building blocks for digital systems. They offer a general architecture that users can customize by inducing permanent or reversible physical changes. This course will deal with the implementation of logic options using these devices. Prerequisite: CSCE 2214 with a grade of C or better. (Typically offered: Irregular)

This course is cross-listed with ELEG 4963.
CSCE 4373. Electronic Design Automation. 3 Hours.
This course studies physical design, analysis and optimization of VLSI circuits and systems with emphasis on computational realizations and optimization. We start with some related topics such as graph algorithms and discuss various well-known algorithms and methodologies in the design process of VLSI circuits, including design partitioning, logic synthesis, floorplanning, routing, static timing analysis and performance-driven layout. It requires a basic knowledge of digital circuit design, data structure, and object-oriented programming. Students cannot receive credit for both CSCE 4373 and CSCE 5373. Prerequisite: CSCE 3953 and CSCE 3193, each with a C or higher. (Typically offered: Irregular)

CSCE 4423. Computer Systems Modeling. 3 Hours.
Basic concepts of problem analysis, model design, and simulation experiments. A simulation will be introduced and used in this course. Prerequisite: CSCE 2014 with a grade of C or better and INEG 2313. (Typically offered: Irregular)

CSCE 4433. Cryptography. 3 Hours.
This course provides a general introduction to modern cryptography. Topics include: stream ciphers, block ciphers, message authentication codes, public key encryption, key exchange, and signature schemes. Prerequisite: CSCE 2014 with a grade of C or better and (MATH 2603 or MATH 2803). (Typically offered: Irregular)

CSCE 4523. Database Management Systems. 3 Hours.
Introduction to database management systems, architecture, storage structures, indexing, relational data model, E-R diagrams, query languages, SQL, ODBC, transaction management, integrity, and security. Prerequisite: CSCE 3193 or CSCE 3193H with a C or better. (Typically offered: Spring)

CSCE 4543. Software Architecture. 3 Hours.
A study of software architecture through the use of case studies drawn from real systems designed to solve real problems from technical as well as managerial perspectives. Techniques for designing, building, and evaluating software architectures. Prerequisite: CSCE 4133 and CSCE 3513. (Typically offered: Irregular)

CSCE 4553. Information Retrieval. 3 Hours.
The objective of this course is to give students a hands-on introduction to information retrieval systems. Classical textual information retrieval systems are studied, including text preprocessing, file structures, term-weighting schemes, and web search engines. Students may not receive credit for both CSCE 4553 and CSCE 5533. Prerequisite: CSCE 3193. (Typically offered: Irregular)

CSCE 4561. Capstone I. 1 Hour.
CSCE students complete a comprehensive software capstone project during their final year of undergraduate studies. The project is done over 2 semesters in phases: concept, formal proposal, implementation, and presentation. The projects include and may require the integration of software and human factors and hardware elements and are developed to software engineering methodologies. Prerequisite: CSCE 3513 and (CSCE 3613 or CSCE 3613H) and completion of 96 credit hours. (Typically offered: Fall)

CSCE 4613. Artificial Intelligence. 3 Hours.
Introduction to intelligent agents, AI languages, search, first order logic, knowledge representation, ontologies, problem solving, natural language processing, machine vision, machine learning, and robotics. Prerequisite: CSCE 2014 with a grade of C or better. (Typically offered: Irregular)

CSCE 4623. Mobile Programming. 3 Hours.
An introduction to software development on mobile devices. The major topics covered in this course include underlying concepts and principles in mobile programming, as well as hands-on programming experience on mobile devices with an emphasis on smartphones. Prerequisite: CSCE 3193 or CSCE 3193H. (Typically offered: Irregular)

CSCE 4643. Graphics Processing Units Programming. 3 Hours.
This course provides an introduction to massively parallel programming using Graphics Processing Units (GPUs). Topics include basic programming model, GPU thread hierarchy, GPU memory architecture, and performance optimization techniques and parallel patterns needed to develop real-life applications. Prerequisite: CSCE 2014 with a grade of C or better. (Typically offered: Irregular)

CSCE 4753. Computer Networks. 3 Hours.
This course is an introductory course on computer networks. Using the Internet as a vehicle, this course introduces underlying concepts and principles of modern computer networks, with emphasis on protocols, architectures, and implementation issues. Prerequisite: INEG 2313. (Typically offered: Irregular)

CSCE 4783. Cloud Computing and Security. 3 Hours.
Cloud computing has entered the mainstream of information technology, providing highly elastic scalability in delivery of enterprise applications and services. In this course, we will focus on the architecture of today's cloud computing, the technologies used within them, application development using contemporary cloud computing tools, and the security risks and management in the cloud. Students cannot receive credit for both CSCE 4783 and CSCE 5783. Prerequisite: CSCE 3613. (Typically offered: Irregular)

CSCE 4813. Computer Graphics. 3 Hours.
Introduction to the theory and algorithms used in computer graphics systems and applications. Topics include: 2D and 3D geometric models (points, lines, polygons, surfaces), affine transformations (rotation, translation, scaling), viewpoint calculation (clipping, projection), lighting models (light-material interactions, illumination and shadow calculation). Students will implement their own graphics pipeline to demonstrate many of these techniques. Higher level computer graphics applications will be created using OpenGL. Prerequisite: CSCE 2014 with a grade of C or better. (Typically offered: Irregular)

CSCE 4853. Information Security. 3 Hours.
This course covers principles, mechanisms, and policies governing confidentiality, integrity, and availability of digital information. Topics to be covered include security concepts and mechanisms, security policies, multilevel security models, system vulnerability, threat and risk assessment, basic cryptography and its applications, intrusion detection systems. Prerequisite: CSCE 3193 or CSCE 3193H. (Typically offered: Irregular)

CSCE 490V. Individual Study. 1-3 Hour.
Individual study directed by faculty in current research topics, state of the art, or advanced methodology in one of the major computer science or computer engineering areas. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

CSCE 4914. Advanced Digital Design. 4 Hours.
To master advanced logic design concepts, including the design and testing of synchronous and asynchronous combinational and sequential circuits using state of the art CAD tools. Corequisite: Lab component. Prerequisite: CSCE 2114 or ELEG 2904. (Typically offered: Irregular)

This course is cross-listed with ELEG 4914.

CSCE 491VH. Honors Thesis. 1-3 Hour.
To provide honors students with experience in presenting their research accomplishments to their peers and faculty. Prerequisite: Honors standing. (Typically offered: Fall and Spring) May be repeated for up to 3 hours of degree credit.

CSCE 4963. Capstone II. 3 Hours.
CSCE students complete a comprehensive capstone project during their final year of undergraduate studies. The project is done over two consecutive semesters in phases: concepts, formal proposal, implementation, and presentation. The projects include and may require the integration of software, human factors, and hardware elements and are developed using software engineering methodologies. Prerequisite: CSCE 4561. (Typically offered: Spring)
CSCE 5013. Advanced Special Topics in Computer Science or Computer Engineering. 3 Hours.
Consideration of current computer engineering or computer science topics not covered in other courses. Prerequisite: Graduate standing in Computer Science Computer Engineering. (Typically offered: Irregular) May be repeated for up to 18 hours of degree credit.

CSCE 5033. Advanced Algorithms. 3 Hours.
Design of computer algorithms, with primary emphasis on the development of efficient implementation. Prerequisite: Graduate standing in Computer Science Computer Engineering. (Typically offered: Irregular)

CSCE 5043. Advanced Artificial Intelligence. 3 Hours.
In-depth introduction to AI. Topics include: philosophical foundations, cognition, intelligent agents, AI languages, search, genetic algorithms, first order and modal logic, inference, resolution, knowledge representation, ontologies, problem solving, planning, expert systems, uncertainty, probabilistic reasoning, fuzzy logic, machine learning, natural language processing, machine vision, and robotics. Prerequisite: CSCE 4613 or Computer Science Computer Engineering(CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5053. Advanced Virtual Worlds. 3 Hours.
In depth study of 3D multi-user virtual worlds covering application domains like retail and healthcare logistics, simulations, training, and gaming as well as platform architectures. Students will apply their knowledge of programming and data structures while using synthetic worlds to explore, model and script future smart worlds where computing is pervasive. Prerequisite: Computer Science Computer Engineering(CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5063. Machine Learning. 3 Hours.
An introduction to machine learning, with particular emphasis on neural network techniques. This course presents the basic principles underlying algorithms that improve with experience, and covers using them effectively for modeling data and making predictions. Prerequisite: Computer Science Computer Engineering(CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5073. Data Mining. 3 Hours.
This course surveys the most common methods used in data mining and machine learning. It involves several projects in which students will implement tools that are useful for mining knowledge from data and making predictions. The course will study both heuristic algorithms and statistical techniques. Prerequisite: CSCE 3193 and (INEG 2313 or STAT 3013) or Computer Science Computer Engineering(CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5114. Embedded Systems. 4 Hours.
(Formerly CSCE 4114.) The architecture, software, and hardware of embedded systems. Involves a mixture of hardware and software for the control of a system (including electrical, electro-mechanical, and electro-chemical systems). They are found in a variety of products including cars, VCRs, HDTVs, cell phones, pacemakers, spacecraft, missile systems, and robots for factory automation. Graduate degree credit will not be given for both CSCE 4114 and CSCE 5114. Corequisite: Lab component. Prerequisite: CSCE 2214 with a grade of C or better or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Fall)

CSCE 5133. Algorithms. 3 Hours.
(Formerly CSCE 4133.) Provides an introduction to formal techniques for analyzing the complexity of algorithms. The course surveys important classes of algorithms used in computer science and engineering. Graduate degree credit will not be given for both CSCE 4133 and CSCE 5133. Prerequisite: ((CSCE 3193 and (MATH 2603 or MATH 2803)) or (MATH 4423)) or (Computer Science/Computer Engineering(CS/CE) graduate standing). (Typically offered: Fall)

CSCE 5173. Formal Languages and Computability. 3 Hours.
(Formerly CSCE 4323.) Finite Automata and regular languages, regular expressions, context-free languages and pushdown automata, nondeterminism, grammars, and Turing machines. Church's thesis, halting problem, and undecidability. Graduate degree credit will not be given for both CSCE 4323 and CSCE 5173. Prerequisite: CSCE 4133 or CSCE 5133 (formerly CSCE 4133). (Typically offered: Spring)

CSCE 5183. Advanced Data Structures. 3 Hours.
(Formerly CSCE 4263.) This course continues the study of data structures, algorithmic analysis for these data structures, and their efficient implementation to support standard library in programming languages. Topics include: AVL trees, Red-Black trees, Splay trees, Optimal Binary Search trees, 2-3 tree, 2-3-4 tree, B-trees, Segment trees, Leftist Heaps, Binomial Heaps, Fibonacci Heap, Disjoint Set, Hashing, and big integer with hundreds to thousands of digits. Graduate degree credit will not be given for both CSCE 4263 and CSCE 5183. Prerequisite: CSCE 3193 or Computer Science Computer Engineering(CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5193. Concurrent Computing. 3 Hours.
(Formerly CSCE 4253.) Programming concurrent processes; computer interconnection network topologies; loosely coupled and tightly coupled parallel computer architectures; designing algorithms for concurrency; distributed computer architectures. Graduate degree credit will not be given for both CSCE 4253 and CSCE 5193. Prerequisite: CSCE 3193 or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5203. Advanced Database Systems. 3 Hours.
Topics include: object databases, distributed databases, XML query, data warehouses, network as database systems, peer-peer data sharing architectures, data grids, data mining, logic foundations, semantic databases, spatial and temporal databases, and knowledge bases. Prerequisite: CSCE 4523 or CSCE 5523. (Typically offered: Irregular)

CSCE 5213. Bioinformatics. 3 Hours.
Application of algorithmic techniques to the analysis and solution of biological problems. Topics include an introduction to molecular biology and recombinant DNA technology, biological sequence comparison, and phylogenetics, as well as topics of current interest. Prerequisite: Instructor consent or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5223. Introduction to Integrated Circuit Design. 3 Hours.
Design and layout of large scale digital integrated circuits using CMOS technology. Topics include MOS devices and basic circuits, integrated circuit layout and fabrication, dynamic logic, circuit design, and layout strategies for large scale CMOS circuits. Students may not receive credit for both CSCE 4333 and CSCE 5223. Prerequisite: ELEG 3214 or ELEG 3933 and MATH 2584. (Typically offered: Fall)

CSCE 5233. Low Power Digital Systems. 3 Hours.
(Formerly CSCE 4233.) The reduction of power consumption is rapidly becoming one of the key issues in digital system design. Traditionally, digital system design has mainly focused on performance and area trade-offs. This course will provide a thorough introduction to digital design for lower consumption at the circuit, logic, and architectural level. Graduate degree credit will not be given for both CSCE 4233 and CSCE 5233. Prerequisite: CSCE 2214 with a grade of C or better. (Typically offered: Irregular)

CSCE 5253L. Integrated Circuit Design Laboratory I. 3 Hours.
Design and layout of large scale digital integrated circuits. Students design, check and simulate digital integrated circuits which will be fabricated, and tested in I.C. Design Laboratory II. Topics include computer aided design, circuit timing, and wire delay. Prerequisite: CSCE 4333. (Typically offered: Irregular)

This course is cross-listed with ELEG 5253L.
CSCE 5263. Computational Complexity. 3 Hours.
Turing machines, recursion theory and computability, complexity measures, NP-completeness, analysis on NP-complete problems, pseudo-polynomial and approximation. Prerequisite: Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5273. Big Data Analytics and Management. 3 Hours.
Topics include principles of distributed data computing and management, design and implementation of non-relational data systems, crowd sourcing and human computation, big data analytics and scalable machine learning, real-time streaming data analysis, and social aware computing. Prerequisite: CSCE 3193 and INEG 2313 or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5283. Graph and Combinatorial Algorithms. 3 Hours.
A study of algorithms for graphs and combinatorics with special attention to computer implementation and runtime efficiency. Prerequisite: Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5293. Computer Architecture. 3 Hours.
(Formerly CSCE 4213.) The architecture of modern scalar and parallel computing systems. Techniques for dynamic instruction scheduling, branch prediction, instruction level parallelism, shared and distributed memory multiprocessor systems, array processors, and memory hierarchies. Graduate degree credit will not be given for both CSCE 4213 and CSCE 5293. Prerequisite: CSCE 2214 with a grade of C or better. (Typically offered: Spring)

CSCE 5313. Advanced Operating Systems. 3 Hours.
Concurrent processes and process communication; mutual exclusion and synchronization principles; kernel philosophy; resource allocation and deadlock; and case studies of specific operating systems. Prerequisite: CSCE 3613 or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5323. Computer Security. 3 Hours.
Study of a broad selection of contemporary issues in computer security. Topics include access control, security policies, authentication methods, secure system design, and information assurance. Prerequisite: CSCE 3613 or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5333. Computer Forensics. 3 Hours.
Various methods for identification, preservation, and extraction of electronic evidence at a computer crime scene. Specific topics include auditing and investigation of network and host intrusions, computer forensics tools, resources for system administrators and information security officers, legal issues related to computer and network forensics. Prerequisite: CSCE 5323. (Typically offered: Irregular)

CSCE 5343. Advanced Software Engineering. 3 Hours.
This course is about software metrics and models. It will focus on quantitative methods and techniques for management of software projects, design of software systems, and improvement of software quality. The material covered will be metrics and models used in the software lifecycle, such as software requirements metrics, design metrics, implementation metrics, testing metrics, effort estimation model. Prerequisite: CSCE 3513 or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5353. CPLD/FPGA-Based System Design. 3 Hours.
(Formerly CSCE 4353.) Field Programmable Logic devices (FPGAs/CPLDs) have become extremely popular as basic building blocks for digital systems. They offer a general architecture that users can customize by inducing permanent or reversible physical changes. This course will deal with the implementation of logic options using these devices. Graduate degree credit will not be given for both CSCE 4353 and CSCE 5353. Prerequisite: CSCE 2214 with a grade of C or better or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5373. Electronic Design Automation. 3 Hours.
This course studies physical design, analysis and optimization of VLSI circuits and systems with emphasis on computational realizations and optimization. We start with some related topics such as graph algorithms and discuss various well-known algorithms and methodologies in the design process of VLSI circuits, including design partitioning, logic synthesis, floorplanning, routing, static timing analysis and performance-driven layout. It requires a basic knowledge of digital circuit design, data structure, and object-oriented programming. Students cannot receive credit for both CSCE 4373 and CSCE 5373. Prerequisite: Graduate standing in Computer Engineering, Computer Science, or Electrical Engineering. (Typically offered: Irregular)

CSCE 5423. Cryptography. 3 Hours.
(Formerly CSCE 4433.) This course provides a general introduction to modern cryptography. Topics include: stream ciphers, block ciphers, message authentication codes, public key encryption, key exchange, and signature schemes. Graduate degree credit will not be given for both CSCE 4433 and CSCE 5423. Prerequisite: CSCE 2014 with a grade of C or better and (MATH 2603 or MATH 2803) or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5543. Advanced Cryptography. 3 Hours.
This course provides an in-depth look into some facet of either cryptographic theory or the implementation of cryptography. Topics may include: the discrete logarithm problem, integer factorization, information theory, elliptic curves, lattices, pseudorandom number generators, zero-knowledge proofs, and quantum cryptography. Prerequisite: CSCE 4433 or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5523. Database Management Systems. 3 Hours.
(Formerly CSCE 4523.) Introduction to database management systems, architecture, storage structures, indexing, relational data model, E-R diagrams, query languages, SQL, ODBC, transaction management, integrity, and security. Graduate degree credit will not be given for both CSCE 4523 and CSCE 5523. Prerequisite: CSCE 3193 with a C or better or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Spring)

CSCE 5533. Advanced Information Retrieval. 3 Hours.
Study of the architecture, implementation, and evaluation of current information retrieval systems. Students will apply their knowledge of programming and data structures to implement a large system with an emphasis on efficiency and scalability. They will study current research in the field and implement individual or group projects on advanced topics. Prerequisite: Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5543. Statistical Natural Language Processing. 3 Hours.
Introduction to statistical natural language processing (NLP). Covers the theory and algorithms needed for building NLP tools, provides broad coverage of mathematical and linguistic foundations, and detailed discussion of statistical methods for text mining and information extraction. Current research and applications of statistical NLP will be discussed. Prerequisite: CSCE 2014 and (STAT 3013 or INEG 2313) or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5553. Software Architecture. 3 Hours.
(Formerly CSCE 4543.) A study of software architecture through the use of case studies drawn from real systems designed to solve real problems from technical as well as managerial perspectives. Techniques for designing, building, and evaluating software architectures. Graduate degree credit will not be given for both CSCE 4543 and CSCE 5553. Prerequisite: CSCE 4133 or CSCE 5133 (formerly CSCE 4133) and CSCE 3513. (Typically offered: Irregular)
CSCE 5613. Artificial Intelligence. 3 Hours.
(Formerly CSCE 4613.) Introduction to intelligent agents, AI languages, search, first order logic, knowledge representation, ontologies, problem solving, natural language processing, machine vision, machine learning, and robotics. Graduate degree credit will not be given for both CSCE 4613 and CSCE 5613. Prerequisite: CSCE 2014 with a grade of C or better or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5623. Secure Digital System Design. 3 Hours.
This course is to give graduate students an insight of contemporary security-related issues in modern digital systems. In addition to lectures, students will be practicing secure digital system design during a project. (Typically offered: Irregular)

CSCE 5643. Computer Communications Networks. 3 Hours.
A study of computer communication networks, including the data link layer, routing, flow-control, local area networks, TCP/IP, ATM, B-ISDN, queuing analysis, and recent developments in computer communications. Prerequisite: Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5653. Network Security. 3 Hours.
This course introduces security and secrecy in a networked environment. It is intended to familiarize students with the elements of secure communication, and how they inter-relate to provide secure networks in public and private settings. Prerequisite: Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5663. Database Security. 3 Hours.
This is an advanced course covering security issues in database systems. Topics to be covered include discretionary and mandatory access control policies, multilevel secure database systems, auditing, data recovery, database intrusion detection, database insider threat, etc. Prerequisite: CSCE 4523 or CSCE 5523. (Typically offered: Irregular)

CSCE 5673. Mobile Programming. 3 Hours.
(Formerly CSCE 4623.) An introduction to software development on mobile devices. The major topics covered in this course include underlying concepts and principles in mobile programming, as well as hands-on programming experience on mobile devices with an emphasis on smartphones. Graduate degree credit will not be given for both CSCE 4623 and CSCE 5673. Prerequisite: CSCE 3193 or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5683. Image Processing. 3 Hours.
The objective of this class is to give students a hands-on introduction to the fundamentals of image processing. A variety of image processing techniques and applications will be discussed including image enhancement, noise removal, spatial domain and frequency domain filtering, image restoration, color image processing, image compression, edge detection and image segmentation. Prerequisite: CSCE 3193 or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5693. Graphics Processing Units Programming. 3 Hours.
(Formerly CSCE 4643.) This course provides an introduction to massively parallel programming using Graphics Processing Units (GPUs). Topics include basic programming model, GPU thread hierarchy, GPU memory architecture, and performance optimization techniques and parallel patterns needed to develop real-life applications. Graduate degree credit will not be given for both CSCE 4643 and CSCE 5693. Prerequisite: CSCE 2014 with a grade of C or better or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5703. Computer Vision. 3 Hours.
The objective of this course is to give students a hands-on introduction to the fundamentals of computer vision. Topics include image formation, object modeling, image processing, feature and edge detection, image segmentation, motion estimation, depth from stereo, shape description and object recognition. Prerequisite: CSCE 3193 and CSCE 4613 or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5753. Wireless Systems Security. 3 Hours.
Wireless systems such as wireless local area networks, cellular and mobile networks, and sensor networks are vulnerable to attacks. The goal of the class is for students to understand how to design secure wireless systems. Security topics include confidentiality, integrity, availability, privacy, and control of fraudulent usage of networks. Issues addressed include basic wireless theory, cryptography, threat modeling, risks, and mitigation techniques. Prerequisite: Graduate standing in Computer Science Computer Engineering (CSCE). (Typically offered: Irregular)

CSCE 5763. Privacy Enhancing Technologies. 3 Hours.
This course introduces privacy enhancing technologies and hot privacy topics in modern computing systems. Students will be exposed to many interesting privacy problems, study privacy enhancing technologies, and apply their knowledge to explore an open research problem in a research-oriented project. After completing this course, students will gain broad knowledge of the state-of-the-art privacy enhancing technologies and open research problems. They will also develop skills and enhance potentials to do research on privacy and security. Prerequisite: Must be a graduate student in Computer Science Computer Engineering (CSCE). (Typically offered: Irregular)

CSCE 5773. Computer Networks. 3 Hours.
(Formerly CSCE 4753.) This course is an introductory course on computer networks. Using the Internet as a vehicle, this course introduces underlying concepts and principles of modern computer networks, with emphasis on protocols, architectures, and implementation issues. Graduate degree credit will not be given for both CSCE 4753 and CSCE 5773. Prerequisite: INEG 2313 or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5783. Cloud Computing and Security. 3 Hours.
Cloud computing has entered the mainstream of information technology, providing highly elastic scalability in delivery of enterprise applications and services. In this course, we will focus on the architecture of today’s cloud computing, the technologies used within them, application development using contemporary cloud computing tools, and the security risks and management in the cloud. Graduate degree credit will not be given for both CSCE 4783 and CSCE 5783. Prerequisite: CSCE 3613 or graduate standing in Computer Science Computer Engineering (CSCE). (Typically offered: Irregular)

CSCE 5813. Computer Graphics. 3 Hours.
(Formerly CSCE 4813.) Introduction to the theory and algorithms used in computer graphics systems and applications. Topics include: 2D and 3D geometric models (points, lines, polygons, surfaces), affine transformations (rotation, translation, scaling), viewpoint calculation (clipping, projection), lighting models (light-material interactions, illumination and shadow calculation). Students will implement their own graphics pipeline to demonstrate many of these techniques. Higher level computer graphics applications will be created using OpenGL. Graduate degree credit will not be given for both CSCE 4813 and CSCE 5813. Prerequisite: CSCE 2014 with a grade of C or better or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5823. Multiprocessor Systems on Chip. 3 Hours.
This course covers the latest trends in advanced computer architecture for multiprocessor systems on chip for embedded and real time systems. Topics covered include multicore architectures, modeling abstractions, run time systems, and MIMD/SIMD heterogeneous architectures, Hw/Sw co-design techniques. Prerequisite: CSCE 3613 and CSCE 4213. (Typically offered: Irregular)
CSCE 5833. Computer Architecture Security. 3 Hours.
This course will cover fundamental principles and emerging implementation strategies to reason about, design and construct architecture level security capabilities in the manycore era. Coverage includes formal security models, new and emerging considerations for heterogeneous multiprocessor system on chip architectures, hardware and software implementation methods, operating systems for run time security enforcement. Prerequisite: CSCE 4213 or graduate standing in Computer Science Computer Engineering (CSCE). (Typically offered: Irregular)

CSCE 5843. Reconfigurable Computing. 3 Hours.
This course will cover emerging and proposed techniques and issues in Reconfigurable Computing. Topics will include FPGA technologies, CAD/CAE tools, Hw/Sw co-design, system level synthesis, programming models and abstractions. Prerequisite: CSCE 4213 and CSCE 3613. (Typically offered: Irregular)

CSCE 5853. Information Security. 3 Hours.
(Formerly CSCE 4853.) This course covers principles, mechanisms, and policies governing confidentiality, integrity, and availability of digital information. Topics to be covered include security concepts and mechanisms, security policies, multilevel security models, system vulnerability, threat and risk assessment, basic cryptography and its applications, intrusion detection systems. Graduate degree credit will not be given for both CSCE 4853 and CSCE 5853. Prerequisite: CSCE 3193 or Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 590V. Advanced Individual Study. 1-3 Hour.
Advanced graduate level individual study directed by faculty in current research topics, state of the art, or advanced methodology in one of the major computer science or computer engineering areas. (Typically offered: Irregular)

CSCE 5914. Advanced Digital Design. 4 Hours.
To master advanced logic design concepts, including the design and testing of synchronous and asynchronous combinational and sequential circuits using state of the art CAD tools. Graduate degree credit will not be given for both CSCE 5914 and CSCE 4914 or CENG 4914 and CENG 5914. Corequisite: Lab component. Prerequisite: Graduate students majoring in Computer Engineering, Computer Science, or Electrical Engineering. (Typically offered: Irregular)
This course is cross-listed with ELEG 5914.

CSCE 5943. Computer Arithmetic Circuits. 3 Hours.
Examination of fundamental principles of algorithms for performing arithmetic operations in computers. This course provides sufficient theoretical and practical information to prepare the digital design engineer with an understanding of basic techniques for the realization of arithmetic circuits. Prerequisite: Computer Science Computer Engineering (CSCE) graduate standing. (Typically offered: Irregular)

CSCE 5983. Application Specific Integrated Circuit Design. 3 Hours.
ASIC design is taught with emphasis on industrial preparation. Topics include ASIC technologies, design entry, simulation, and synthesis. Advanced design methods and techniques are studied for cell based and gate array ASICs. Prerequisite: CSCE 4213. (Typically offered: Irregular)

CSCE 610V. Master's Thesis. 1-6 Hour.
Master's thesis. (Typically offered: Fall and Spring) May be repeated for degree credit.

CSCE 620V. Post-Master's Research. 1-18 Hour.
Post-master's research. (Typically offered: Fall and Spring)

CSCE 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Counselor Education (CNED)

Counselor Education (CNED) Courses

CNED 3053. The Helping Relationship. 3 Hours.
Development of an understanding of the helping relationship. Topics include establishing a working alliance, problem recognition and referral to appropriate resources. Prerequisite: PSYC 2003. (Typically offered: Fall and Spring)
