Basic electrical principles and circuits; Introduction to sinusoidal steady-state analysis of electric circuits, active, reactive, and complex power; balanced three-phase circuits; Steady-state analysis of electric machines and transformers. Introduction to power electronics for machine speed control and alternative energy sources. For engineering students other than those in electrical engineering. Prerequisite: MATH 2564 and PHYS 2074. (Typically offered: Fall and Spring)

ELEG 3924. Microprocessor Systems Design. 4 Hours.
Introduction to 8-bit microprocessors and their application. Microprocessor architecture and assembly language; interface devices; system design using microprocessors. Corequisite: Lab component. Prerequisite: ELEG 2904. (Typically offered: Fall)

ELEG 3924H. Honors Microprocessor Systems Design. 4 Hours.
Introduction to 8-bit microprocessors and their application. Microprocessor architecture and assembly language; interface devices; system design using microprocessors. Corequisite: Lab component. Prerequisite: ELEG 2904. (Typically offered: Fall)
This course is equivalent to ELEG 3924.

ELEG 3933. Circuits & Electronics. 3 Hours.
Basic principles of electric and electronic circuits and devices. For engineering students who are not pursuing a degree in electrical engineering. Prerequisite: MATH 2584 and PHYS 2074. (Typically offered: Spring)

ELEG 400VH. Honors Senior Thesis. 1-3 Hour.
Honors senior thesis. Prerequisite: Senior standing. (Typically offered: Fall, Spring and Summer)

ELEG 4063. Electrical Engineering Design I. 3 Hours.
Capstone design and application in electrical engineering. Prerequisite: ELEG 3224 and ELEG 3924. (Typically offered: Fall and Spring)

ELEG 4063H. Honors Electrical Engineering Design I. 3 Hours.
Design and application in electrical engineering. Prerequisite: ELEG 3224 and ELEG 3924. (Typically offered: Fall and Spring)
This course is equivalent to ELEG 4063.

ELEG 4071. Electrical Engineering Design II. 1 Hour.
Design and application in electrical engineering. Prerequisite: ELEG 4063. (Typically offered: Fall and Spring)

ELEG 4071H. Honors Electrical Engineering Design II. 1 Hour.
Design and application in electrical engineering. Prerequisite: ELEG 4063. (Typically offered: Fall and Spring)
This course is equivalent to ELEG 4071.
ELEG 4203. Semiconductor Devices. 3 Hours.
Crystal properties and growth of semiconductors, energy bands and charge carriers in semiconductors, excess carriers in semiconductors, analysis and design of p/n junctions, analysis and design of bipolar junction transistors, and analysis and design of field-effect transistors. Students may not receive credit for both ELEG 4203 and ELEG 5203. Prerequisite: MATH 2584 and ELEG 3214, or graduate standing. (Typically offered: Irregular)

ELEG 4203H. Honors Semiconductor Devices. 3 Hours.
Crystal properties and growth of semiconductors, energy bands and charge carriers in semiconductors, excess carriers in semiconductors, analysis and design of p/n junctions, analysis and design of bipolar junction transistors, and analysis and design of field-effect transistors. Students may not receive credit for both ELEG 4203 and ELEG 5203. Prerequisite: MATH 2584 and ELEG 3214, or graduate standing. (Typically offered: Irregular)
This course is equivalent to ELEG 4203.

ELEG 4233. Introduction to Integrated Circuit Design. 3 Hours.
Design and layout of large scale digital integrated circuits using CMOS technology. Topics include MOS devices and basic circuits, integrated circuit layout and fabrication, dynamic logic, circuit design, and layout strategies for large scale CMOS circuits. Students may not receive credit for both ELEG 4233 and ELEG 5923. Prerequisite: ELEG 3214 or ELEG 3933 and ELEG 2904 or equivalent. (Typically offered: Fall)

ELEG 4243. Analog Integrated Circuits. 3 Hours.
Theory and design techniques for linear and analog integrated circuits. Current mirrors, voltage to base emitter matching, active loads, compensation, level shifting, amplifier design techniques, circuit simulation using computer-assisted design programs. Prerequisite: ELEG 3224. (Typically offered: Irregular)

ELEG 4253L. Integrated Circuit Design Lab I. 3 Hours.
This course will cover digital VLSI design and integrated circuit design tools. The course is structured with lectures. This course is offered to both senior undergraduate and graduate students. Students cannot get credit for both the undergraduate and graduate version of the course. Students cannot receive credit for both ELEG 4253L and ELEG 5253L. Prerequisite: ELEG 4233 or ELEG 5923.

ELEG 4283. Mixed Signal Test Engineering I. 3 Hours.
Overview of mixed signal testing, the test specification process, DC and parametric measurements, measurement accuracy, tester hardware, sampling theory, DSP-based testing, analog channel testing, digital channel testing. Prerequisite: Senior or graduate standing. (Typically offered: Irregular)

ELEG 4293. Mixed-Signal Modeling & Simulation. 3 Hours.
Study of basic analog, digital & mixed signal simulation solution methods. Modeling with hardware description languages. Use of state-of-the-art simulators and HDLs. Students may not receive credit for both ELEG 4293 and ELEG 5993. Prerequisite: ELEG 3224. (Typically offered: Irregular)

ELEG 4303. Introduction to Nanomaterials and Devices. 3 Hours.
This course provides the students with an introduction to nanomaterials and devices. The students will be introduced to the quantization of energy levels in nanomaterials, growth of nanomaterials, electrical and optical properties, and devices based on these nanomaterials, such as tunneling resonant diodes, transistors, detector, and emitters. Graduate students will be given additional or different assignments. Graduate students will be expected to explore and demonstrate an understanding of the material with a greater level of depth and breadth than the undergraduates. Each group of students will have different expectations and grading systems. The instructor will prepare and distribute two distinct syllabi. Corequisite: ELEG 4203. Prerequisite: ELEG 3214 and PHYS 2074. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ELEG 4343. Organic Electronics Technology. 3 Hours.
Students become familiar with recent developments in and process technology for organic material based devices and sensors in the classroom, but also gain hands on experience with fabrication processes using micro-fabrication tools in the lab. Students may not receive credit for both ELEG 4343 and ELEG 5343. (Typically offered: Irregular)

ELEG 4403. Control Systems. 3 Hours.
Mathematical modeling of dynamic systems, stability analysis, control system architectures and sensor technologies. Time-domain and frequency-domain design of feedback control systems: lead, lag, PID compensators. Special topics in microprocessor implementation. Students may not receive credit for both ELEG 4403 and ELEG 5403. Prerequisite: ELEG 3124. (Typically offered: Irregular)

ELEG 4403H. Honors Control Systems. 3 Hours.
Mathematical modeling of dynamic systems, stability analysis, control system architectures and sensor technologies. Time-domain and frequency-domain design of feedback control systems: lead, lag, PID compensators. Special topics in microprocessor implementation. Students may not receive credit for both ELEG 4403 and ELEG 5403. Prerequisite: ELEG 3124. (Typically offered: Irregular)

ELEG 4413. Advanced Control Systems. 3 Hours.
A second course in linear control systems. Emphasis on multiple-input and multiple-output systems: State-space analysis, similarity transformations, eigenvalue and eigenvector decomposition, stability in the sense of Lyapunov, controllability and observability, pole placement, quadratic optimization. Students may not receive credit for both ELEG 4413 and ELEG 5413. Prerequisite: ELEG 4403 or equivalent course. (Typically offered: Irregular)

ELEG 4423. Optimal Control. 3 Hours.
Introductory theory of optimizing dynamic systems: Formulation of performance objectives; calculus of variations; linear quadratic optimal control; discrete-time optimization; robustness and frequency domain techniques; reinforcement learning and optimal adaptive control. Prerequisite: ELEG 4403. (Typically offered: Irregular)

ELEG 4463L. Control Systems Laboratory. 3 Hours.
Experimental study of various control systems and components. The use of programmable logic controllers in the measurement of systems parameters, ladder-logic applications, process-control applications, and electromechanical systems. Prerequisite: ELEG 3924 and ELEG 3124. (Typically offered: Irregular)

ELEG 4473. Power System Operation and Control. 3 Hours.
Study of the control and operation of electric power systems: Modeling, dynamics, and stability of three-phase power systems. Design and implementation of control systems related to generation and transmission. Overview of the related industry and government regulations for power system protection and reliability. Students may not receive credit for both ELEG 4473 and ELEG 5473. Prerequisite: ELEG 3124 and ELEG 3304. (Typically offered: Irregular)

ELEG 4503. Design of Advanced Electric Power Distribution Systems. 3 Hours.
Design considerations of electric power distribution systems, including distribution transformer usage, distribution system protection implementation, primary and secondary networks design, applications of advanced equipment based on power electronics, and use of capacitors and voltage regulation. Students may not receive credit for both ELEG 4503 and ELEG 5503. Prerequisite: ELEG 3304. (Typically offered: Irregular)

ELEG 4503H. Honors Design of Advanced Electric Power Distribution Systems. 3 Hours.
Design considerations of electric power distribution systems, including distribution transformer usage, distribution system protection implementation, primary and secondary networks design, applications of advanced equipment based on power electronics, and use of capacitors and voltage regulation. Students may not receive credit for both ELEG 4503H and ELEG 5503. Prerequisite: ELEG 3304. (Typically offered: Irregular)
This course is equivalent to ELEG 4503.
ELEG 4513. Power and Energy Systems Analysis. 3 Hours.
Modeling and analysis of electric power systems: Energy sources and conversion; load flow analysis; reference frame transformations; symmetrical and unsymmetrical fault conditions; load forecasting and economic dispatch. Students may not receive credit for both ELEG 4513 and ELEG 5513. Prerequisite: ELEG 2114. (Typically offered: Irregular)

ELEG 4523. Quality of Electric Power. 3 Hours.
This course addresses concepts related to the quality of electric power (in particular wiring and grounding, voltage sags and interruptions, harmonics, and transients), distributed generation and power electronic systems, power quality benchmarking, as well as instrumentation and PQ analyzers. Students may not receive credit for both ELEG 4523 and ELEG 5523. Prerequisite: ELEG 3304. (Typically offered: Irregular)

ELEG 4533. Power Electronics and Motor Drives. 3 Hours.
Characteristics of Insulated Gate Bipolar Transistors (IGBTs), Silicon Carbide (SiC) MOSFETs, Gallium Nitride (GaN) devices, Design of driver and snubber circuits for IGBTs and SiC MOSFETs, and an introduction to electric motor drives. Students may not receive credit for both ELEG 4533 and ELEG 5533. Prerequisite: ELEG 3304 and ELEG 3224. (Typically offered: Irregular)

ELEG 4543. Introduction to Power Electronics. 3 Hours.
Presents basics of emerging areas in power electronics and a broad range of topics such as power switching devices, electric power conversion techniques and analysis, as well as their applications. Students may not receive credit for both ELEG 5543 and ELEG 4543. Prerequisite: ELEG 2114 and ELEG 3214. (Typically offered: Irregular)

ELEG 4553. Switch Mode Power Conversion. 3 Hours.
Basic switching converter topologies: buck, boost, buck-boost, Cuk, flyback, resonant; pulse-width modulation; integrated circuit controllers; switching converter design case studies; SPICE analyses of switching converters; state-space averaging and linearization; and switching converter transfer functions. Prerequisite: ELEG 3224 and ELEG 3124. (Typically offered: Irregular)

ELEG 4563. EMI in Power Electronics Converters: Generation, Propagation and Mitigation. 3 Hours.
Concepts of electro-magnetic-interference issues in power electronics converters. Basic concepts of EMI measurement, modeling and mitigation, with a focus on conducted EMI in power electronics converters. The course is structured with lectures and a lab session. Students cannot receive credit for both ELEG 4563 and ELEG 5563. Prerequisite: ELEG 2104 or equivalent and MATH 2574. (Typically offered: Irregular)

ELEG 4603. Deterministic Digital Signal Processing System Design. 3 Hours.
Design of Digital Signal Processing systems with deterministic inputs. Sampling, quantizing, oversampling, ADC trade-offs, distortion, equalizers, anti-aliasing, coherency, frequency domain design, audio and video compression. Prerequisite: ELEG 3124. (Typically offered: Irregular)

ELEG 4623. Communication Systems. 3 Hours.
Various modulation systems used in communications. AM and FM fundamentals, pulse modulation, signal to noise ratio, threshold in FM, the phase locked loop, matched filter detection, probability of error in PSK, FKS, and DPK. The effects of quantization and thermal noise in digital systems. Information theory and coding. Students may not receive credit for both ELEG 4623 and ELEG 5663. Prerequisite: Lab component. Prerequisite: ELEG 3413. (Typically offered: Irregular)

ELEG 4703. Introduction to RF and Microwave Design. 3 Hours.
An introduction to microwave design principles. Transmission lines, passive devices, networks, impedance matching, filters, dividers, and hybrids will be discussed in detail. Active microwave devices will also be introduced. In addition, the applications of this technology as it relates to radar and communications systems will be reviewed. Prerequisite: ELEG 3704. (Typically offered: Irregular)

ELEG 4773. Electronic Response of Biological Tissues. 3 Hours.
Understand the electric and magnetic response of biological tissues with particular reference to neural and cardiovascular systems. Passive and active forms of electric signals in cell communication. We will develop the central electrical mechanisms from the membrane channel to the organ, building on those excitation, dielectric models for tissue behavior, Debye, Cole-Cole models. Role of bound and free water on tissue properties. Magnetic response of tissues. Experimental methods to measure tissue response. Applications to Electrocardiography & Electroencephalography, Microwave Medical Imaging, RF Ablation will be discussed that are common to many electrically active cells in the body. Analysis of Nemst equation, Goldman equation, linear cable theory, and Hodgkin-Huxley Model of action potential generation and propagation. High frequency response of tissues to microwave. Prerequisite: ELEG 3704 or equivalent; MATH 2584 or equivalent; basic Biology. (Typically offered: Irregular)

ELEG 4783. Introduction to Antennas. 3 Hours.
Basic antenna types: small dipoles, half wave dipoles, image theory, monopoles, small loop antennas. Antenna arrays: array factor, uniformly excited equally spaced arrays, pattern multiplication principles, nonuniformly excited arrays, phased arrays. Use of MATLAB programming and mathematical techniques for antenna analysis and design. Emphasis will be on using simulation to visualize variety of antenna radiation patterns. Corequisite: Drill component. Prerequisite: ELEG 3704. (Typically offered: Irregular)

ELEG 4783H. Honors Introduction to Antennas. 3 Hours.
Basic antenna types: small dipoles, half wave dipoles, image theory, monopoles, small loop antennas. Antenna arrays: array factor, uniformly excited equally spaced arrays, pattern multiplication principles, nonuniformly excited arrays, phased arrays. Use of MATLAB programming and mathematical techniques for antenna analysis and design. Emphasis will be on using simulation to visualize variety of antenna radiation patterns. Corequisite: Drill component. Prerequisite: ELEG 3704. (Typically offered: Irregular)

This course is equivalent to ELEG 4783.

ELEG 487V. Special Topics in Electrical Engineering. 1-3 Hour.
Consideration of current electrical engineering topics not covered in other courses. Prerequisite: Senior standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ELEG 488V. Special Problems. 1-3 Hour.
Individual study and research on a topic mutually agreeable to the student and a faculty member. Prerequisite: Senior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ELEG 488VH. Honors Special Problems. 1-3 Hour.
Individual study and research on a topic mutually agreeable to the student and a faculty member. Prerequisite: Senior standing. (Typically offered: Irregular)

This course is equivalent to ELEG 488V.

ELEG 4914. Advanced Digital Design. 4 Hours.
To master advanced logic design concepts, including the design and testing of synchronous and asynchronous combinational and sequential circuits using state of the art CAD tools. Students may not receive credit for both ELEG 4914 and ELEG 5914. Corequisite: Lab component. Prerequisite: ELEG 2904 or CSCE 2114. (Typically offered: Irregular)

This course is cross-listed with CSCE 4914.

ELEG 4963. CPLD/FPGA Based System Design. 3 Hours.
Field Programmable logic devices (FPGAs/CPLDs) have become extremely popular as basic building blocks for digital systems. They offer a general architecture that users can customize by inducing permanent or reversible physical changes. This course will deal with the implementation of logic options using these devices. Corequisite: Lab component. Prerequisite: ELEG 4914. (Typically offered: Irregular)

This course is cross-listed with CSCE 4353.
ELEG 4983. Computer Architecture. 3 Hours.
Design of a single board computer including basic computer organization, memory
subsystem design, peripheral interfacing, DMA control, interrupt control, and bus
organization. Prerequisite: ELEG 3924. (Typically offered: Irregular)
This course is cross-listed with CSCE 4213.

ELEG 5173L. Digital Signal Processing Laboratory. 3 Hours.
Use of DSP integrated circuits. Lectures, demonstrations, and projects. DSP IC
architectures and instruction sets. Assembly language programming. Development
tools. Implementation of elementary DSP operations, difference equations,
transforms and filters. Prerequisite: ELEG 3124. (Typically offered: Irregular)

ELEG 5203. Semiconductor Devices. 3 Hours.
Crystal properties and growth of semiconductors, energy bands and charge carriers
in semiconductors, excess carriers in semiconductors, analysis and design of p/
n junctions, analysis and design of bipolar junction transistors, and analysis and
design of field-effect transistors. Students may not receive credit for both ELEG 4203
and ELEG 5203. Prerequisite: Graduate standing. (Typically offered: Irregular)

ELEG 5213. Integrated Circuit Fabrication Technology. 3 Hours.
Theory and techniques of integrated circuit fabrication technology; crystal
growth, chemical vapor deposition, impurity diffusion, oxidation, ion implantation,
photolithography and medulization. Design and analysis of device fabrication using
SUPREM and SEDAN. In-process analysis techniques. Student review papers and
presentations on state of the art fabrication and device technology. Prerequisite:
ELEG 4203 or ELEG 5203. (Typically offered: Irregular)

ELEG 5223. Design and Fabrication of Solar Cells. 3 Hours.
Solar insolation and its spectral distribution/ p-n junction solar cells in dark and
under illumination; solar cell parameters efficiency limits and losses; standard
cell technology; energy accounting; design of silicon solar cells using simulation;
fabrication of designed devices in the lab and their measurements. Students cannot
receive credit for both ELEG 4223 and ELEG 5223. Prerequisite: ELEG 4203 or
ELEG 5203. (Typically offered: Irregular)

ELEG 5243L. Microelectronic Fabrication Techniques and Procedures. 3 Hours.
The Thin-Film Fabrication course is designed to prepare students to use the thin-
film equipment and processes available at the Engineering Research Center’s
thin-film cleanroom. The process modules to be trained on include lithography,
metal deposition and etching, oxide deposition, growth and etching, reactive dry
etching, tantalum anodization, photodefined spin-on dielectric and electroplating.
The related metrology modules include microscope inspection, spectrophotometric
measurement of oxide, profilometry and four-point probe measurements.
Prerequisite: ELEG 5273. (Typically offered: Irregular)

ELEG 5253L. Integrated Circuit Design Laboratory I. 3 Hours.
Design and layout of large scale digital integrated circuits. Students design, check,
and simulate digital integrated circuits which will be fabricated and tested in I.C.
Design Laboratory II. Topics include computer-aided design, more in-depth coverage
of topics from ELEG 4233, and design of very large scale chips. Prerequisite:
ELEG 4233 or ELEG 5253. (Typically offered: Irregular)
This course is cross-listed with CSCE 5253L.

ELEG 5273. Electronic Packaging. 3 Hours.
An introductory treatment of electronic packaging, from single chip to multichip,
including materials, substrates, electrical design, thermal design, mechanical design,
package modeling and simulation, and processing considerations. Prerequisite:
Graduate standing. (Typically offered: Irregular)

ELEG 5293L. Integrated Circuits Fabrication Laboratory. 3 Hours.
Experimental studies of silicon oxidation, solid-state diffusion, photolithographical
materials and techniques, bonding and encapsulation. Fabrication and testing of PN
diodes, NPN transistors and MOS transistors. Prerequisite: ELEG 5213. (Typically
offered: Irregular)

ELEG 5303. Introduction to Nanomaterials and Devices. 3 Hours.
(Formerly ELEG 4303.) This course provides the students with an introduction to
nanomaterials and devices. The students will be introduced to the quantization
of energy levels in nanomaterials, growth of nanomaterials, electrical and optical
properties, and devices based on these nanomaterials, such as tunneling resonant
diodes, transistors, detector, and emitters. Graduate students will be given additional
or different assignments. Graduate students will be expected to explore and
demonstrate an understanding of the material with a greater level of depth and
breadth than the undergraduates. Each group of students will have different
expectations and grading systems. The instructor will prepare and distribute two
distinct syllabi. Corequisite: ELEG 4203. Prerequisite: ELEG 3214 and PHYS 2074.
(Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ELEG 5313. Power Semiconductor Devices. 3 Hours.
Carrier transport physics; breakdown phenomenon in semiconductor devices;
power bipolar transistors, thyristors, power junction field-effect transistors, power
field-controlled diodes, power metal-oxide-semiconductor field-effect transistors,
and power MOS-bipolar devices. Prerequisite: ELEG 4203 or graduate standing.
(Typically offered: Irregular)

ELEG 5323. Semiconductor Nanostructures I. 3 Hours.
This course is focused on the basic theoretical and experimental analyses of
low dimensional systems encountered in semiconductor heterojunctions and
nanostructures with the emphasis on device applications and innovations.
Prerequisite: ELEG 4203 or instructor permission. (Typically offered: Irregular)

ELEG 5333. Semiconductor Nanostructures II. 3 Hours.
This course is a continuation of ELEG 5323 Semiconductors Nanostructures I. It
is focused on the transport properties, growth, electrical and optical properties of
semiconductor nanostructures, and optoelectronic devices. Prerequisite: ELEG 5323
or instructor permission. (Typically offered: Irregular)

ELEG 5343. Organic Electronics Technology. 3 Hours.
Students become familiar with recent developments in and process technology for
organic material based devices and sensors in the classroom, but also gain hands
on experience with fabrication processes using micro-fabrication tools in the lab.
(Typically offered: Irregular)

ELEG 5353. Semiconductor Optoelectronic Devices. 3 Hours.
This course will provide graduate students a detailed background in semiconductor
optoelectronic devices such as light emitting diodes and lasers, photodetectors,
solar cells, modulators. The applications of these devices will also be discussed.
Prerequisite: ELEG 4203 or ELEG 5203. (Typically offered: Spring Odd Years)

ELEG 5363. Semiconductor Material and Device Characterization. 3 Hours.
This course provides an overview of semiconductor characterization techniques
in industry: Electrical measurements, Optical measurements, Electron and ion
beam measurements, X-ray and probe measurements. Prerequisite: ELEG 4203 or
ELEG 5203 and instructor consent. (Typically offered: Irregular)

ELEG 5383. Introduction of Integrated Photonics. 3 Hours.
This course is designed to provide junior and senior graduate students detailed
knowledge of integrated photonics by using silicon photonics as an example. The
course covers a cycle of design, fabrication, and testing of photonic devices by
using analytic and numerical methods. The course will focus on designing an
interferometer, which is widely used in communication and sensing applications.
Students will be exposed to use the state-of-art design simulation tool, Lumerical,
to design the photonic circuits and to evaluate the performances. In the course project,
students will extend the design rules to design a set of components to be used for
integrated microwave photonics based on Ge on Si, SiGeSn, or Si3N4 on sapphire
platform. Prerequisite: ELEG 4203 and ELEG 5353. (Typically offered: Irregular)
ELEG 5533. Power Electronics and Motor Drives. 3 Hours.
Fundamentals of power electronics, diode bridge rectifiers, inverters, general concepts on motor drives, induction motor drives, synchronous motor drives, and dc motor drives. Students may not receive credit for both ELEG 4533 and ELEG 5533. Prerequisite: Graduate standing or ELEG 3224 and ELEG 3304. (Typically offered: Irregular)

ELEG 5543. Introduction to Power Electronics. 3 Hours.
Presents basics of emerging areas in power electronics and a broad range of topics such as power switching devices, electric power conversion techniques and analysis, as well as their applications. Students may not receive credit for both ELEG 5543 and ELEG 4543. Prerequisite: ELEG 2114 and ELEG 3214, or graduate standing. (Typically offered: Irregular)

ELEG 5553. Switch Mode Power Conversion. 3 Hours.
Basic switching converter topologies, control scheme of switching converters, simulation of switching converters, resonant converters, isolated converters, dynamic analysis of switching converters. Students will not receive graduate credit for both ELEG 4553 and ELEG 5553. Prerequisite: Graduate standing. (Typically offered: Irregular)

ELEG 5563. EMI in Power Electronics Converters: Generation, Propagation and Mitigation. 3 Hours.
Concepts of electro-magnetic-interference issues in power electronics converters. Basic concepts of EMI measurement, modeling and mitigation, with a focus on conducted EMI in power electronics converters. The course is structured with lectures and a lab session. Students can not receive credit for both ELEG 4563 and ELEG 5563. Prerequisite: Graduate standing. (Typically offered: Irregular)

ELEG 5623. Information Theory. 3 Hours.
Continuous and discrete source and channel models, measure of information, channel capacity, noisy-channel coding theorem, coding and decoding techniques. Prerequisite: ELEG 3143 or ELEG 4623 or graduate standing. (Typically offered: Irregular)

ELEG 5633. Detection and Estimation. 3 Hours.
Binary and multiple decisions for single and multiple observations; sequential, composite, and non-parametric decision theory; estimation theory; sequential, non-linear, and state estimation; optimum receiver principles. Prerequisite: Graduate standing. (Typically offered: Irregular)

ELEG 5663. Communication Theory. 3 Hours.
Principles of communications. Channels and digital modulation. Optimum receivers and algorithms in the AWGN and fading channels. Coherent, non-coherent detectors and matched filters. Bounds on the performance of communications, and comparison of communications systems. Background in stochastic processes and probabilities, communication systems is desirable. Students may not receive credit for both ELEG 4623 and ELEG 5663. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for degree credit.

ELEG 5693. Wireless Communications. 3 Hours.
Comprehensive course in fast developing field of wireless mobile/cellular personal telecommunications. Topics include cellular system structures, mobile radio propagation channels, etc. Prerequisite: Graduate standing. (Typically offered: Irregular)

ELEG 5703. RF & Microwave Design. 3 Hours.
An introduction to microwave design principles. Transmission lines, passive devices, networks, impedance matching, filters, dividers, and hybrids will be discussed in detail. Active microwave devices will also be introduced. In addition, the applications of this technology as it relates to radar and communications systems will be reviewed. Selected topics for device fabrication and measurements will be covered. Students may not receive credit for both ELEG 4703 and ELEG 5703. Prerequisite: ELEG 3704. (Typically offered: Irregular)
ELEG 5723. Advanced Microwave Design. 3 Hours.
This course is an advanced course in microwave design building on the introduction to microwave design course. A detailed discussion of active devices, biasing networks, mixers, detectors, Microwave Monolithic Integrated Circuits (MMIC), and wideband matching networks will be provided. In addition, a number of advanced circuits will be analyzed. Prerequisite: ELEG 3704 and ELEG 4703 or ELEG 5703. (Typically offered: Irregular)

ELEG 5763. Advanced Electromagnetic Scattering & Transmission. 3 Hours.
Reflection and transmission of electromagnetic waves from a flat interface, the Poynting theorem, the complex and average power, the rectangular wave guides, TE and TM modes, radiation from antennas in free space and introduction to computational electromagnetics. Prerequisite: ELEG 3704. (Typically offered: Irregular)

ELEG 5773. Electronic Response of Biological Tissues. 3 Hours.
Understand the electric and magnetic response of biological tissues with particular reference to neural and cardiovascular systems. Passive and active forms of electric signals in cell communication. We will develop the central electrical mechanisms from the membrane channel to the organ, building on those that are common to many electrically active cells in the body. Analysis of Nernst equation, Goldman equation, linear cable theory, and Hodgkin-Huxley Model of action potential generation and propagation. High frequency response of tissues to microwave excitation, dielectric models for tissue behavior, Debye, Cole-Cole models. Role of bound and free water on tissue properties. Magnetic response of tissues. Experimental methods to measure tissue response. Applications to Electrocardiography & Electroencephalography, Microwave Medical Imaging. Prerequisite: MatLab and ELEG 5773. Prerequisite: MATH 2584, ELEG 3704 or ELEG 4703 or equivalent. (Typically offered: Irregular)

ELEG 5783. Introduction to Antennas. 3 Hours.
Basic antenna types: small dipoles, half wave dipoles, image theory, monopoles, small loop antennas. Antenna arrays: array factor, uniformly excited equally spaced arrays, pattern multiplication principles, nonuniformly excited arrays, phased arrays. Use of MATLAB programming and mathematical techniques for antenna analysis and design. Emphasis will be on using simulation to visualize variety of antenna radiation patterns. Students cannot get credit for both ELEG 4783 and ELEG 5783. Prerequisite: ELEG 3704. (Typically offered: Irregular)

ELEG 587V. Special Topics in Electrical Engineering. 1-3 Hour.
Consideration of current electrical engineering topics not covered in other courses. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

ELEG 588V. Special Problems. 1-6 Hour.
Opportunity for individual study of advanced subjects related to a graduate electrical engineering program to suit individual requirements. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ELEG 5903. Engineering Technical Writing. 3 Hours.
In this course, advanced graduate students (PhD candidates and selected MS students) will be trained in rephrasing and preparing technical papers, including scientific reports. Illustrations step by step will be explained. Each student is required to prepare technical papers based on their own research results and will be guided from selecting a title to a finished product. The emphasis will be placed on the structures of the articles including figures and table preparation, abstract writing, citations and references, and acknowledgments. The students will also be trained to prepare letters to the journals' editors and how to respond to reviewers' comments. Prerequisite: Graduate standing. (Typically offered: Fall)

ELEG 5914. Advanced Digital Design. 4 Hours.
To master advanced logic design concepts, including the design and testing of synchronous and asynchronous combinational and sequential circuits using state of the art CAD tools. Students may not receive credit for both ELEG 5914 and ELEG 4914 or CSCE 4914 and CSCE 5914, Corequisite: Lab component. Prerequisite: ELEG 2904 or CSCE 2114. (Typically offered: Irregular)
This course is cross-listed with CSCE 5914.

ELEG 5923. Introduction to Integrated Circuit Design. 3 Hours.
Design and layout of large scale digital integrated circuits using CMOS technology. Topics include MOS devices and basic circuits, integrated circuit layout and fabrication, dynamic logic, circuit design, and layout strategies for large scale CMOS circuits. Students may not receive credit for both ELEG 4233 and ELEG 5923. Prerequisite: ELEG 3214 or ELEG 3933 and MATH 2584. (Typically offered: Fall)

ELEG 5953. Semiconductor Device and IC ESD Reliability. 3 Hours.
This course will cover semiconductor device and IC ESD design. The course is structured with lecture sessions and is offered to graduate students. The objective of this course is for students to understand semiconductor device and IC ESD design. Students will be able to demonstrate understanding of the basic concepts of ESD on-chip and off-chip protection for ICs and the future trends in ESD protections for advanced and emerging ICs. Prerequisite: ELEG 5923. (Typically offered: Irregular)

ELEG 5983. Computer Architecture. 3 Hours.
(Formerly ELEG 4983.) Design of a single board computer including basic computer organization, memory subsystem design, peripheral interfacing, DMA control, interrupt control, and bus organization. Prerequisite: ELEG 3924. (Typically offered: Irregular)

ELEG 5993. Mixed-signal Modeling and Simulation. 3 Hours.
Study of basic analog, digital & mixed signal simulation solution methods. Modeling with hardware description languages. Use of state-of-the-art simulators and HDLs. Students may not receive credit for both ELEG 4293 and ELEG 5993. Prerequisite: ELEG 3224 or graduate standing. (Typically offered: Irregular)

ELEG 600V. Master's Thesis. 1-6 Hour.
Master's Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ELEG 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Engineering (ENGR)

Courses
ENGR 1600. Undergraduate Research Assistant. 0 Hours.
Undergraduate research. (Typically offered: Fall, Spring and Summer)
ENGR 2600. Undergraduate Research Assistant. 0 Hours.
Undergraduate research. (Typically offered: Fall, Spring and Summer)
ENGR 3600. Undergraduate Research Assistant. 0 Hours.
Undergraduate research. (Typically offered: Fall, Spring and Summer)
ENGR 4600. Undergraduate Research Assistant. 0 Hours.
Undergraduate research. (Typically offered: Fall, Spring and Summer)

English (ENGL)

Courses
ENGL 0002. Writing Lab. 2 Hours.
Required corequisite course with ENGL 1013 for students with scores below 19 in ACT English or below 470 in SAT Verbal. Writing labs, practice in study skills and time management, and mentorship from instructor. Credit not applied to hours required for degree. Corequisite: ENGL 1013. (Typically offered: Fall and Spring)
ENGL 1013. Composition I (ACTS Equivalency = ENGL 1013). 3 Hours.
Teaches writing strategies for varied contexts, methods of research and integrating sources, and processes for drafting and revision. Pre- or Corequisite: ENGL 0002 or 19 or above on ACT English; or 490 or above on SAT Evidence-Based Reading and Writing; or 80 or above on Compass Writing Skills; or 83 or above on Accuplacer Sentence Skills; or above 255 on Accuplacer Next Generation Writing. (Typically offered: Fall, Spring and Summer)

ENGL 1013H. Honors Composition I. 3 Hours.
Composition I offered at an Honors level, with the same textbooks and major assignments. Prerequisite: ACT English scores of 28 or above or SAT Evidence-Based Reading and Writing scores of 630 or above and honors student. (Typically offered: Fall)
This course is equivalent to ENGL 1013.

ENGL 1023. Composition II (ACTS Equivalency = ENGL 1023). 3 Hours.
Builds on the skills, tools, and concepts presented in ENGL 1013 Composition I. Students will gain a rhetorical understanding of writing and composing genres in order to respond to different audience needs, contexts, and purposes. Prerequisite: ENGL 1013 or the equivalent. (Typically offered: Fall, Spring and Summer)
This course is cross-listed with ENGL 1023H, ENGL 1033.

ENGL 1023H. Honors Composition II. 3 Hours.
Composition II offered at an Honors level, with the same textbooks and major assignments. Prerequisite: ENGL 1013 or the equivalent, ACT English scores of 28 or above or SAT Evidence-Based Reading and Writing scores of 630 or above and honors student. (Typically offered: Fall and Spring)
This course is cross-listed with ENGL 1023, ENGL 1033H.

ENGL 1033. Technical Composition II (ACTS Equivalency = ENGL 1023). 3 Hours.
Composition II for Engineering and Business students, or any other students who are interested. Focuses on learning technical writing conventions and genres, such as definitions, instructions, correspondence, and proposals. Fulfills Core Curriculum requirement for ENGL 1023 Composition II. Prerequisite: ENGL 1013 or the equivalent. (Typically offered: Fall and Spring)
This course is cross-listed with ENGL 1023, ENGL 1033H.

ENGL 1033H. Honors Technical Composition II. 3 Hours.
Technical Composition II offered to Engineering and Business students, or any other students who are interested, at an Honors level, with the same textbooks and major assignments. Prerequisite: ENGL 1013 or the equivalent, ACT English scores of 28 or above or SAT Evidence-Based Reading and Writing scores of 630 or above and honors student. (Typically offered: Irregular)
This course is cross-listed with ENGL 1023, ENGL 1023H, ENGL 1033H.

ENGL 1103. Reading Literature. 3 Hours.
Introduces students to close-reading strategies for analyzing texts with scholarly care and attention. Readings will vary based on instructor expertise and interest. (Typically offered: Fall and Spring)

ENGL 1213. Introduction to Literature. 3 Hours.
Approaches to reading and writing about fiction, drama, and poetry at the college level. (Typically offered: Fall and Spring)

ENGL 1213H. Honors Introduction to Literature. 3 Hours.
Approaches to reading and writing about fiction, drama, and poetry at the college level. Prerequisite: Honors standing. (Typically offered: Fall and Spring)
This course is equivalent to ENGL 1213.

ENGL 2003. Advanced Composition. 3 Hours.
Review course in English composition. Exemption for this course may be granted for certain majors that require it by a grade of at least a "B" in ENGL 1013 and ENGL 1023 (or equivalent courses from an accredited institution), by achieving a score of 4 or 5 on the AP Language and Composition Examination and the AP Literature and Composition Examination, or by achieving a 6 HL or 7 HL on the IB Examination in English. Cannot be counted toward a major in English. Prerequisite: ENGL 1013 and ENGL 1023. (Typically offered: Fall, Spring and Summer)

ENGL 2013. Essay Writing. 3 Hours.
Through assignments in Creative Nonfiction, from memoir to personal journalism, students will learn how form affects content, and develop their personal voice and their ability to use rhetorical techniques and strategies in all forms of writing. Prerequisite: ENGL 1013 and (ENGL 1023 or ENGL 1033 or equivalent). (Typically offered: Fall and Spring)

ENGL 2023. Creative Writing I (ACTS Equivalency = ENGL 2013). 3 Hours.
Beginning level workshop course in which students write original poems and stories. Reading and detailed discussion of poems and stories in anthologies is required. Designed to teach the student the fundamental techniques of fiction and poetry. Prerequisite: ENGL 1013 and ENGL 1023. (Typically offered: Fall and Spring)

ENGL 2043. Rethinking Literature. 3 Hours.
Introduces students to groupings of texts that are not usually discussed in traditional English classes, asking why some texts are considered Literature while others are not. Readings will vary based on instructor expertise and interest. Prerequisite: ENGL 1023. (Typically offered: Fall and Spring)

ENGL 2053. Transatlantic Literature from Beginnings to 1640. 3 Hours.
A critical and historical survey of transatlantic literature from its beginnings to 1640, with attention to identifying cultural and/or historical trends of the period. Readings will vary based on instructor expertise and interest. Prerequisite: ENGL 1023. (Typically offered: Fall and Spring)

ENGL 2063. Transatlantic Literature from 1640 to 1865. 3 Hours.
A critical and historical survey of the development of transatlantic literature from 1640 to 1865, with attention to identifying cultural and/or historical trends of the period. Readings will vary based on instructor expertise and interest. Prerequisite: ENGL 1023. (Typically offered: Fall and Spring)

ENGL 2073. Transatlantic Literature from 1865 to 1945. 3 Hours.
A critical and historical survey of the development of transatlantic literature from 1865 to 1945, with attention to identifying cultural and/or historical trends of the period. Readings will vary based on instructor expertise and interest. Prerequisite: ENGL 1023. (Typically offered: Fall and Spring)

ENGL 2083. Transatlantic Literature from 1945 to Present. 3 Hours.
A critical and historical survey of the development of transatlantic literature from 1945 to the present, with attention to identifying cultural and/or historical trends of the period. Readings will vary based on instructor expertise and interest. Prerequisite: ENGL 1023. (Typically offered: Fall and Spring)

ENGL 2003. English Literature from the Beginning through the 17th Century (ACTS = ENGL 2673). 3 Hours.
A critical and historical survey of the development of literature in the British Isles from its beginnings to the end of the seventeenth century. Prerequisite: ENGL 1013 and ENGL 1023. (Typically offered: Fall and Spring)
ENGL 2303C. English Literature from the Beginning through the 17th Century (ACTS = ENGL 2673). 3 Hours.
A critical and historical survey of the development of literature in the British Isles from its beginnings to the end of the seventeenth century. Lecture and drill.
Prerequisite: ENGL 1013 and ENGL 1023. (Typically offered: Fall)

ENGL 2313. Survey of English Literature from 1700 to 1900 (ACTS Equivalency = ENGL 2683). 3 Hours.
A critical and historical survey of the development of literature in the British Isles from 1700 to 1900. Prerequisite: ENGL 1013 and ENGL 1023. (Typically offered: Fall and Spring)

ENGL 2323. Survey of Modern and Contemporary British, Irish, and Postcolonial Literature. 3 Hours.
A survey of modern and contemporary literature in English written in Great Britain, Ireland, Africa, Asia, and the Caribbean. Prerequisite: ENGL 1013 and ENGL 1023. (Typically offered: Fall and Spring)

ENGL 2343. Survey of American Lit from the Colonial Period through Naturalism (ACTS Equiv=ENGL 2653). 3 Hours.
A survey of major American writers from the colonial period to 1900. Prerequisite: ENGL 1013 and ENGL 1023. (Typically offered: Fall and Spring)

ENGL 2353. Survey of Modern and Contemporary American Literature (ACTS Equivalency = ENGL 2663). 3 Hours.
A survey of American writers after 1900. Prerequisite: ENGL 1013 and ENGL 1023. (Typically offered: Fall and Spring)

ENGL 2413. Introductory Topics in English. 3 Hours.
Students will understand concepts and issues of theme, form, and motif in literary works about the designated topic. Students will improve their abilities to read literary works carefully and critically and to write about literature correctly and cogently. Topics and content will vary from semester to semester. (Typically offered: Irregular)

ENGL 3013. Creative Writing II. 3 Hours.
Laboratory course for students who wish to attempt original work in the various literary forms. Prerequisite: ENGL 2023 or equivalent. (Typically offered: Fall and Spring)

ENGL 3053. Technical and Professional Writing (ACTS Equivalency = ENGL 2023). 3 Hours.
Intensive practice in such types of writing as processes, descriptions of mechanism, abstracts, and laboratory and research reports. The criteria for effective written exposition in the scientific areas, including agriculture and engineering. Prerequisite: ENGL 1013 and ENGL 1023 or equivalent. (Typically offered: Fall and Spring)

ENGL 3083. Professional Topics. 3 Hours.
Specialized topics related to professional issues in the humanities, e.g. academic and alternative-academic job searches, publication workshops, public humanities, and/or teaching of humanities disciplines at various levels. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.
This course is cross-listed with HUMN 3083.

ENGL 3103. Approaches to Critical Thinking About Literature and Culture. 3 Hours.
Introduces students to a selection of critical methods for studying literature and culture, emphasizing careful reflection on methodological choices. Readings will vary based on instructor expertise and interest. (Typically offered: Fall and Spring)

ENGL 3113. Folklore. 3 Hours.
Popular literature (ballads, folktales, etc.). Prerequisite: Junior standing. (Typically offered: Irregular)

ENGL 3123. Folk and Popular Music Traditions. 3 Hours.
Introduction to folk and popular music studies. Emphasis on American traditions. (Typically offered: Irregular)

ENGL 3173. Introduction to Linguistics. 3 Hours.
Introduction to language study with stress upon modern linguistic theory and analysis. Data drawn from various languages reveal linguistic universals as well as phonological, syntactic, and semantic systems of individual languages. Related topics: language history, dialectology, language and its relation to culture and society, the history of linguistic scholarship. Prerequisite: Junior standing. (Typically offered: Irregular)
This course is cross-listed with COMM 3173, WLLC 3173.

ENGL 3203. Poetry. 3 Hours.
A critical introduction to the genre. (Typically offered: Fall and Spring)

ENGL 3213. Fiction. 3 Hours.
A critical introduction to the genre. (Typically offered: Fall and Spring)

ENGL 3223. Drama. 3 Hours.
The companion course of Theatre in London Study Abroad which immerses scholars in the world of theatre and culture in Britain. Students spend four weeks in London with excursions to Stratford-upon-Avon, Oxford and Bath. Literature, performance, design and history are all explored through lectures, field trips and writing prompts. (Typically offered: Summer)

ENGL 3263. African Americans in Film. 3 Hours.
A survey of the history of images of African Americans in film, especially as these images are examined in the context of stereotypical renditions and/or realistic representations of African American experiences. Issues of African American history, culture, and socio-political context will be addressed in the analyses of these films. Prerequisite: ENGL 1023 and advanced standing. (Typically offered: Irregular)
This course is cross-listed with AAST 3263, JOUR 3263, COMM 3263.

ENGL 3283. Topics in Popular Culture and Popular Genres. 3 Hours.
Survey of a broad topical area in popular culture and popular genres, such as science fiction or detective fiction. Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 3433. Introduction to Chaucer. 3 Hours.
Course designed primarily for undergraduates. Extensive reading in Chaucer's major works. (Typically offered: Irregular)

ENGL 3443. Topics in Literature, Medicine, and Science. 3 Hours.
Examines the intersections between medical and scientific topics and literature, with attention to specific theories, themes, genres, authors, historical moments, literary movements, or other organizing principles. Prerequisite: ENGL 1013 and ENGL 1023, or equivalent in both. (Typically offered: Spring Odd Years) May be repeated for up to 9 hours of degree credit.

ENGL 3543. Topics in U.S. Latino/Latina Literature and Culture. 3 Hours.
The study of works of U.S. Latino/Latina literature, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 3553. Topics in Native American Literature and Culture. 3 Hours.
The study of works of Native American literature, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 3573. Special Topics in Diversity. 3 Hours.
The study of literature and culture with specific focus on issues of diversity, inclusion, and equality. Courses may be organized around specific theories, themes, genres, authors, historical moments, artistic movements, comparative and intersectional approaches, or other organizing principles. Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.
ENGL 3583. Topics in Arab American Literature and Culture. 3 Hours.
The study of works of Arab American literature, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. No knowledge of Arabic necessary. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 3593. Topics in Gender, Sexuality, and Literature. 3 Hours.
The study of gender or sexuality and literature, with attention to specific theories, themes, genres, authors, historical moments, literary movements, or other organizing principles. Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 3603. Topics in Rhetoric and Composition. 3 Hours.
The study of special topics in the field of Rhetoric and Composition. Content will vary. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 3623. The Bible as Literature. 3 Hours.
The several translations of the Bible; its qualities as great literature; its influence upon literature in English; types of literary forms. (Typically offered: Irregular) This course is cross-listed with WLIT 3623.

ENGL 3633. Writing on Social Issues. 3 Hours.
The study and application of writing on a range of social issues. Content will vary. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 3713. Topics in Medieval Literature and Culture. 3 Hours.
Study of the languages, literature, and civilization of the British Isles from approximately 500 to1500 CE (including Old English, Middle English, Celtic, Anglo-Norman, and Scandinavian). Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 3723. Topics in Renaissance Literature and Culture. 3 Hours.
The study of literary works of the English Renaissance, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Course content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 3723H. Honors Topics in Renaissance Literature and Culture. 3 Hours.
The study of literary works of the English Renaissance, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Course content varies. Prerequisite: Honors standing. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit. This course is equivalent to ENGL 3723.

ENGL 3733. Topics in Restoration and Eighteenth-Century Literature and Culture. 3 Hours.
The study of Restoration and eighteenth-century literature, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 3743. Topics in Nineteenth-Century British Literature and Culture. 3 Hours.
The study of literature of the 19th century, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Course content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 3753. Topics in Modern and Contemporary British Literature and Culture. 3 Hours.
The study of a special topic in the field of modern and contemporary British literature and culture. Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 3763. Topics in Postcolonial Literature and Culture. 3 Hours.
Survey of a broad topical area related to postcolonial literature and culture. Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 3833. Topics in American Literature and Culture to 1900. 3 Hours.
The study of American literature and culture to 1900, with attention to particular themes, genres, authors, or other organizing principles. Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 3843. Topics in Modern and Contemporary American Literature and Culture. 3 Hours.
The study of a special topic in the field of modern and contemporary American literature and culture. Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 3853. Topics in African-American Literature and Culture. 3 Hours.
The study of works of African American literature, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit. This course is cross-listed with AAST 3853.

ENGL 3863. Topics in Literature and Culture of the American South. 3 Hours.
The study of works of literature of the American South, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 3873. Medical Humanities Colloquium. 3 Hours.
Combines literary and critical texts that lead students to consider the ways in which literature and the humanities enrich and inform medical education and practice. Students will practice critical analysis and reflection to instill in them a commitment to compassionate, community responsive, and culturally competent medical care. (Typically offered: Spring)

ENGL 3873H. Honors Medical Humanities Colloquium. 3 Hours.
Combines literary and critical texts that lead students to consider the ways in which literature and the humanities enrich and inform medical education and practice. Students will practice critical analysis and reflection to instill in them a commitment to compassionate, community responsive, and culturally competent medical care. (Typically offered: Spring) This course is equivalent to ENGL 3873.

ENGL 3903. Special Topics. 3 Hours.
Survey of a broad topical area related to literature and culture but not otherwise encompassed by the curriculum. Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 3923H. Honors Colloquium. 3 Hours.
Covers a special topic or issue. Offered as part of the honors program. Prerequisite: honor candidacy (not restricted to candidacy in English). (Typically offered: Irregular) May be repeated for degree credit.

ENGL 4003. Style and Grammar for Professional Writers. 3 Hours.
Study of English style and grammar at an advanced level for students who plan to teach writing or practice as professional or technical writers. (Typically offered: Fall Odd Years)

ENGL 4013. Undergraduate Poetry Workshop. 3 Hours.
Gives close attention to individual manuscripts in a workshop environment. Prerequisite: ENGL 3013 or equivalent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ENGL 4023. Undergraduate Fiction Workshop. 3 Hours.
Gives close attention to individual manuscripts in a workshop environment. Prerequisite: ENGL 3013 or equivalent. (Typically offered: Irregular)

ENGL 4113. Undergraduate Independent Study. 3 Hours.
Undergraduate original research and writing. Prerequisite: “B” average and two-thirds (21 hours) of regular requirements for English major completed. Departmental approval and instructor approval required. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.
ENGL 4133. Writing Nature. 3 Hours.
Study of writings about nature, both scientific and literary. Examination of the basis of each author's relationship with (and definition of) the natural world while examining the literary/aesthetic aspects of that experience. Prerequisite: ENGL 1023. (Typically offered: Spring) May be repeated for up to 9 hours of degree credit.

ENGL 4133H. Honors Writing Nature. 3 Hours.
Study of writings about nature, both scientific and literary. Examination of the basis of each author's relationship with (and definition of) the natural world while examining the literary/aesthetic aspects of that experience. Prerequisite: ENGL 1023. (Typically offered: Spring) May be repeated for up to 9 hours of degree credit.
This course is equivalent to ENGL 4133.

ENGL 4143. American Film Survey. 3 Hours.
A survey of major American genres, major directors, and films that have influenced the development of motion pictures. (Typically offered: Irregular) This course is cross-listed with COMM 4143.

ENGL 4303. Introduction to Shakespeare. 3 Hours.
Extensive reading in Shakespeare's comedies, histories, tragedies, and nondramatic poetry. (Typically offered: Fall)

ENGL 4503. Introduction to Literary Theory. 3 Hours.
A historical survey of literary theory from Plato onwards. (Typically offered: Irregular)

ENGL 4513. Studies in Literary Criticism and Theory. 3 Hours.
A survey of contemporary trends in literary criticism. Emphasis will be placed on engaging the practices of a particular theory. Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 4523. Studies in U.S. Latino/Latina Literature and Culture. 3 Hours.
The study of works of U.S. Latino/a literature, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. At least one major research paper will be required. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 4533. Studies in Native American Literature and Culture. 3 Hours.
The study of works of Native American literature, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. At least one major research paper will be required. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 4543. Studies in Major Authors. 3 Hours.
The concentrated study of works by one or more major authors. At least one major paper will be required. Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 4573. Studies in Major Literary Movements. 3 Hours.
This course focuses on the literature either of a major literary movement such as Romanticism or Modernism or of a more specific topic such as Utopianism in twentieth-century writing. Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 4583. Studies in Arab American Literature and Culture. 3 Hours.
The study of works of Arab American literature, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. Research paper required. No knowledge of Arabic necessary. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 4593. Studies in Gender, Sexuality, and Literature. 3 Hours.
The study of gender or sexuality and literature, with attention to specific theories, themes, genres, authors, historical moments, literary movements, or other organizing principles. Content varies. At least one major research paper will be required. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 4603. Special Studies. 3 Hours.
Concentrated study of a specific topical area related to literature and culture but not otherwise encompassed by the curriculum. Content varies. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

ENGL 4603H. Honors Special Studies. 3 Hours.
Concentrated study of a specific topical area related to literature and culture but not otherwise encompassed by the curriculum. Content varies. (Typically offered: Irregular) May be repeated for degree credit.
This course is equivalent to ENGL 4603.

ENGL 4673. Special Studies in Diversity. 3 Hours.
The study of literature and culture with specific focus on issues of diversity and inclusion. May be organized around specific theories, themes, genres, authors, or other organizing principles. At least one major research paper will be required. Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 4713. Studies in Medieval Literature and Culture. 3 Hours.
Study of the languages, literature, and civilization of the British Isles from approximately 500 to 1500 CE (including Old English, Middle English, Celtic, Anglo-Norman, and Scandinavian). Content varies. At least one major research paper will be required. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 4723. Studies in Renaissance Literature and Culture. 3 Hours.
The study of literary works of the English Renaissance, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Course content varies. At least one major research paper will be required. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 4733. Studies in Restoration and Eighteenth-Century Literature. 3 Hours.
The study of Restoration and eighteenth-century literature, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. At least one major research paper will be required. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 4743. Studies in Nineteenth-Century British Literature and Culture. 3 Hours.
The study of literature of the nineteenth century, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Course content varies. At least one major research paper will be required. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 4753. Studies in Modern and Contemporary British Literature and Culture. 3 Hours.
The study of modern and contemporary British literature and culture. Content varies. At least one major research paper will be required. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 4763. Studies in Postcolonial Literature and Culture. 3 Hours.
The study of postcolonial literature and culture. Content varies. At least one major research paper will be required. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 4773. Studies in Contemporary Literature and Culture. 3 Hours.
The study of contemporary literature and culture. Content varies. At least one major research paper will be required. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 4833. Studies in American Literature and Culture to 1900. 3 Hours.
The study of American literature and culture to 1900, with attention to particular themes, genres, authors, or other organizing principles. Content varies. At least one major research paper will be required. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.
ENGL 4843. Studies in Modern and Contemporary American Literature and Culture. 3 Hours.
The study of modern and contemporary American literature and culture, with attention to particular themes, genres, authors, or other organizing principles. Content varies. At least one major research paper will be required. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 4853. Studies in African American Literature and Culture. 3 Hours.
The study of works of African American literature, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. At least one major research paper will be required. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit. This course is cross-listed with AAST 4853.

ENGL 4863. Studies in Literature and Culture of the American South. 3 Hours.
The study of works of literature of the American South, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. At least one major research paper will be required. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 4903. Studies in Rhetoric and Composition. 3 Hours.
Concentrated study of a specific topical area related to Rhetoric and Composition. Content varies. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 4933. Studies in Popular Culture and Popular Genres. 3 Hours.
The study of a focused topical area in popular culture and popular genres, such as science fiction or detective fiction. Content varies. At least one major research paper will be required. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ENGL 498V. Senior Thesis. 1-6 Hour.
Honors thesis under the direction of a faculty member in the Department of English. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ENGL 5003. Composition Pedagogy. 3 Hours.
Introduction to teaching college composition. Designed for graduate assistants at the University of Arkansas. (Typically offered: Fall)

ENGL 5023. Writing Workshop: Fiction. 3 Hours.
Fiction writing workshop. Prerequisite: Creative Writing MFA students only. (Typically offered: Irregular) May be repeated for up to 24 hours of degree credit.

ENGL 5033. Writing Workshop: Poetry. 3 Hours.
Poetry writing workshop. Prerequisite: Creative Writing MFA students only. (Typically offered: Irregular) May be repeated for up to 24 hours of degree credit.

ENGL 5043. Translation Workshop. 3 Hours.
Problems of translation and the role of the translator as both scholar and creative writer; involves primarily the discussion in workshop of the translations of poetry, drama, and fiction done by the students, some emphasis upon comparative studies of existing translations of well-known works. Primary material will vary. Prerequisite: Reading knowledge of a foreign language and Creative Writing MFA students only. (Typically offered: Irregular) May be repeated for up to 24 hours of degree credit. This course is cross-listed with WLLC 504V.

ENGL 5063. English Language and Composition for Teachers. 3 Hours.
Subject matter and methods of approach for the teaching of composition in high school. (Typically offered: Fall and Spring)

ENGL 507V. Creative Non-Fiction Workshop. 1-3 Hour.
The theory and practice of the "New Journalism" with a study of its antecedents and special attention to the use of "fictional" techniques and narrator point of view to make more vivid the account of real people and real events. (Typically offered: Irregular)

ENGL 5083. Professional Topics. 3 Hours.
Specialized topics related to professional issues in the humanities, e.g. academic and alternative-academic job searches, publication workshops, public humanities, and/or teaching of humanities disciplines at various levels. (Typically offered: Irregular)
This course is cross-listed with HUMN 5083.

ENGL 5093. Research Methods in Rhetoric and Composition. 3 Hours.
Covers an array of research methods to support scholarly work in the fields of Rhetoric and Composition. Focus will vary depending on instructor interest. (Typically offered: Spring Even Years)

ENGL 510V. Readings in English and American Literature. 1-6 Hour.
Open to Honors candidates and graduate students. Prerequisite: Departmental approval and instructor approval required. (Typically offered: Irregular) May be repeated for degree credit.

ENGL 5173. Advanced Studies in Medieval Literature and Culture. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 5183. The Structure of Present English. 3 Hours.
Structural analysis of the language. (Typically offered: Spring)

ENGL 5193. Graduate Internship in English. 3 Hours.
Internship changes depending on availability and student interest. Departmental consent required. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ENGL 5203. Introduction to Graduate Studies. 3 Hours.
Develop knowledge and strategies for successfully negotiating graduate work and the profession. Topics covered include, but are not limited to, scholarly habits and practices, writing and publishing skills, scholarly associations, journals, conferences, university structures, and career paths. Emphasis on the development of individual academic and professional goals. (Typically offered: Irregular)

ENGL 5213. Portfolio Workshop. 3 Hours.
Workshop designed for students in the M.A. Program in English who are using the Portfolio Option to complete the program. Instructor consent required. (Typically offered: Spring)

ENGL 5223. Advanced Studies in Renaissance Literature and Culture. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 5233. Craft of Translation: I. 3 Hours.
An examination of the principal challenges that confront translators of literature, including the recreation of style, dialect, ambiguities, and formal poetry; vertical translation; translation where multiple manuscripts exist; and the question of how literal a translation should be. (Typically offered: Irregular)

ENGL 5243. Special Topics. 3 Hours.
Designed to cover subject matter not offered in other courses. (Typically offered: Irregular) May be repeated for degree credit.

ENGL 5263. Craft of Fiction: I. 3 Hours.
Such aspects of the genre as scene, transition, character, and conflict. Discussion is limited to the novel. (Typically offered: Irregular)

ENGL 5273. Craft of Poetry: I. 3 Hours.
An examination of perception, diction, form, irony, resolution, and the critical theories of the major writers on poetry, such as Dryden, Coleridge, and Arnold. (Typically offered: Irregular)

ENGL 5283. Craft of Fiction: II. 3 Hours.
Second part of the study of the techniques of fiction. Discussion is limited to the short story. Prerequisite: ENGL 5263. (Typically offered: Irregular) May be repeated for degree credit.
ENGL 5293. Craft of Poetry: II. 3 Hours.
Second part of the study of the techniques of poetry; independent study of a poet or a problem in writing or criticism of poetry. (Typically offered: Irregular) May be repeated for up to 15 hours of degree credit.

ENGL 5313. Introduction to Literary Theory. 3 Hours.
An advanced introductory survey of a number of theoretical approaches to literature. (Typically offered: Irregular)

ENGL 5383. Histories of Rhetoric and Composition. 3 Hours.
Surveys contextualized histories of the field of Rhetoric and Composition. Focus and readings will vary depending on instructor interest. (Typically offered: Spring Even Years)

ENGL 5403. Advanced Studies in Nineteenth-Century British Literature and Culture. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 5413. Advanced Studies in Modern and Contemporary British Literature and Culture. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 5453. Technical Writing in Healthcare Settings. 3 Hours.
Focuses on the work of technical writing across a variety of healthcare settings. Prepares healthcare professionals and healthcare-adjacent professionals to use technical writing theory and skills in their workplace. (Typically offered: Summer)

ENGL 5463. Descriptive Linguistics. 3 Hours.
A scientific study of language with primary emphasis on modern linguistic theory and analysis. Topics include phonology, morphology, syntax, semantics, language acquisition, and historical development of world languages. (Typically offered: Fall) This course is cross-listed with WLLC 5463, ANTH 5473.

ENGL 5513. Document Design for Technical Writers. 3 Hours.
Focuses on the role of document design in technical and professional writing. Covers industry standard software and theories of rhetorically-centered document design. Special emphasis on creating print-ready technical documents such as manuals, catalogs, and infographics. (Typically offered: Fall Odd Years)

ENGL 5523. Technical Writing for Online Audiences. 3 Hours.
Investigates the medium-specific challenges of preparing technical documents for online audiences. Covers user-centered theory, strategies, and skills for online writing, HTML, CSS, and web standards. Specific focus on creating organizational websites with editorial workflows geared towards technical writers. (Typically offered: Fall Even Years)

ENGL 5533. Technical Writing Praxis. 3 Hours.
Focuses on the process of applying theory to situated practice in technical writing. The first portion of the course will lay out the fundamentals of technical writing theory, with the second half situating that theory within genre-specific practice. Second-half topics will vary by instructor interest and expertise. (Typically offered: Summer) May be repeated for up to 9 hours of degree credit.

ENGL 5543. Advanced Studies in U.S. Latino/Latina Literature and Culture. 3 Hours.
The study of works of U.S. Latino/a literature and literary criticism, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 5563. Advanced Studies in Native American Literature and Culture. 3 Hours.
The study of works of Native American literature, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 5583. Advanced Studies in Arab American Literature and Culture. 3 Hours.
The study of works of Arab American literature and criticism, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. Research paper required. No knowledge of Arabic necessary. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 5593. Advanced Studies in Gender, Sexuality, and Literature. 3 Hours.
The study of gender or sexuality and literature, with attention to specific theories, themes, genres, authors, historical moments, literary movements, or other organizing principles. Content varies. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 5623. The Bible as Literature. 3 Hours.
The several translations of the Bible; its qualities as great literature; its influence upon literature in English; types of literary forms. (Typically offered: Irregular) This course is cross-listed with WLIT 5623.

ENGL 5653. Shakespeare: Plays and Poems. 3 Hours.
An introduction to a broad selection of Shakespeare's work. (Typically offered: Irregular)

ENGL 5703. Advanced Studies in American Literature and Culture Before 1900. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 5723. Advanced Studies in Literature and Culture of the American South. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 5753. Advanced Studies in Postcolonial Literature and Culture. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 5803. Advanced Studies in Modern and Contemporary American Literature and Culture. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 5863. Advanced Studies in African American Literature and Culture. 3 Hours.
The study of works of African American literature and literary criticism, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 5923. Advanced Studies in Film and Media. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 5933. Advanced Studies in Popular Culture and Popular Genres. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 5943. Advanced Studies in Criticism and Literary Theory. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 5953. Advanced Studies in Literary History. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.
ENGL 5963. Advanced Studies in Technical Writing and Public Rhetorics. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. Course will cover various topics relevant to students working in Technical Writing and Public Rhetorics. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ENGL 5973. Advanced Studies in Rhetoric and Composition. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 6113. Seminar in Medieval Literature and Culture. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 6193. The Development of English. 3 Hours.
Intensive course in the fundamentals of linguistic study and their application to the history of English from prehistoric times to the present. (Typically offered: Fall)

ENGL 6203. Seminar in Renaissance Literature and Culture. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 6243. Seminar in Special Topics. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 6443. Seminar in Nineteenth-Century British Literature and Culture. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 6513. Seminar in Medieval Literature and Culture. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 6543. Seminar in U.S. Latino/Latina Literature and Culture. 3 Hours.
The study of works of U.S. Latino/a literature and literary criticism, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. At least one major research paper, suitable for presentation or publication, will be required. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 6553. Seminar in Native American Literature and Culture. 3 Hours.
The study of works of Native American literature, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. At least one major research paper, suitable for presentation or publication, will be required. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 6583. Seminar in Arab American Literature and Culture. 3 Hours.
The study of works of Arab American literature and criticism, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. Research paper required. No knowledge of Arabic necessary. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 6593. Seminar in Gender, Sexuality, and Literature. 3 Hours.
The study of gender or sexuality and literature, with attention to specific theories, themes, genres, authors, historical moments, literary movements, or other organizing principles. Content varies. At least one major research paper, suitable for presentation or publication, will be required. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 6723. Seminar in American Literature and Culture Before 1900. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 6733. Seminar in Literature and Culture of the American South. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 6763. Seminar in Postcolonial Literature and Culture. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. At least one major research paper, suitable for presentation or publication, will be required. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 6803. Seminar in Modern and Contemporary American Literature and Culture. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 6853. Seminar in African American Literature and Culture. 3 Hours.
The study of works of African American literature and literary criticism, with attention to particular themes, genres, authors, literary movements, historical moments, or other organizing principles. Content varies. At least one major research paper, suitable for presentation or publication, will be required. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 6923. Seminar in Film and Media. 3 Hours.
Extensive research into, and discussion of, a focused topic in film studies, with emphasis upon film as text. Extended project required. Course topic varies. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 6933. Seminar in Popular Culture and Popular Genres. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 6943. Seminar in Criticism and Literary Theory. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 6973. Seminar in Rhetoric and Composition. 3 Hours.
Subject matter changes depending on student interest and faculty expertise. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

ENGL 698V. Master’s Thesis. 1-6 Hour.
Master’s thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

ENGL 699V. Master of Fine Arts Thesis. 1-6 Hour.
Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

ENGL 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

English Language and Cultural Studies (ELAC)

Courses
ELAC 0011. Writing Workshop: Grammar through Editing. 1 Hour.
This class is designed to assist upper-intermediate to advanced non-native speakers of English improve their academic writing at the sentence level. Students’ writing is analyzed for grammatical accuracy; students develop strategies for editing their writing more independently and learn to produce clearer, more grammatically correct writing. Not for degree credit. Prerequisite: Placement through TOEFL iBT Writing / TOEFL TWE / IELTS writing / UofA ELPT (writing) / TOEFL Alternative. (Typically offered: Fall and Spring)
ELAC 0023. Introduction to Academic Writing. 3 Hours.
To enhance reading comprehension and academic writing skills of non-native speakers of English at the upper-intermediate level. Through extended readings, students improve their ability to recognize main ideas, distinguish support, respond to content & build vocabulary. Students improve their writing at the paragraph and essay level. Not for degree credit. Prerequisite: Placement through TOEFL iBT Writing / TOEFL TWE / IELTS writing / UofA ELPT (writing) / TOEFL Alternative. (Typically offered: Fall and Spring)

ELAC 1023. Academic Writing Across Disciplines. 3 Hours.
The class is designed to improve the academic writing and critical thinking skills for non-native speakers of English in all fields. Through focused instruction and extensive practice, students will improve their academic lexicon, grammatical accuracy, discourse organization and fluency in formal academic writing. Not for degree credit in the Fulbright College of Arts and Sciences. Prerequisite: Placement through TOEFL iBT Writing / TOEFL TWE / IELTS writing / UofA ELPT (writing) / TOEFL Alternative. (Typically offered: Fall and Spring)

ELAC 1033. English Language through Mass Media. 3 Hours.
Students expand their communicative language skills through the study of news and media. By analyzing the messages and methods used in a variety of sources, students improve their listening, speaking, reading and writing skills. Students develop critical thinking skills as they evaluate and synthesize ideas from the texts. Not for degree credit in the Fulbright College of Arts and Sciences. Prerequisite: Placement through TOEFL iBT Writing / TOEFL TWE / IELTS writing / UofA ELPT (writing) / TOEFL Alternative. (Typically offered: Fall and Spring)

ELAC 2012. English Phonology for Non-Native Speakers. 2 Hours.
In this course students study the basic principles of phonetics and phonology of English in order to develop their ability to produce the standard American accents. Not for degree credit in the Fulbright College of Arts and Sciences. (Typically offered: Fall and Spring)

ELAC 2023. Business English Communications. 3 Hours.
This is a course for non-native English speakers to develop their oral communication skills for professional business settings. From informal dialogues to formal business presentations, students learn appropriate verbal and non-verbal communication strategies and develop confidence to communicate effectively and comprehensively. Not for degree credit in the Fulbright College of Arts and Sciences. Prerequisite: Placement through TOEFL iBT Writing / TOEFL TWE / IELTS writing / UofA ELPT (writing) / TOEFL Alternative. (Typically offered: Fall and Spring)

ELAC 2043. Seminar in United States Culture, Communication, and Institutions. 3 Hours.
Through an in-depth study of American life, culture, communicative style and institutions, non-native speakers of English improve their oral and written communication skills. Not for degree credit in the Fulbright College of Arts and Sciences. Prerequisite: Placement through TOEFL iBT Writing / TOEFL TWE / IELTS writing / UofA ELPT (writing) / TOEFL Alternative. (Typically offered: Fall and Spring)

ELAC 2053. Academic Presentations. 3 Hours.
For advanced non-native speakers of English to build skills and strategies for delivering effective, clear presentations in academic and professional settings. Students learn about organization, best use of visual aids, connecting with an audience, facilitating questions and answers, and intercultural issues that affect perception and comprehensibility. Not for degree credit in the Fulbright College of Arts and Sciences. Prerequisite: Placement through TOEFL iBT Writing / TOEFL TWE / IELTS writing / UofA ELPT (writing) / GRE Analytical Writing / GMAT Analytical Writing / TOEFL Alternative. (Typically offered: Fall and Spring)

ELAC 3033. Research Writing for the Social Sciences and Education. 3 Hours.
This research-focused writing class will help non-native English speakers in the social sciences and education communicate their understanding of course material and research more accurately and effectively. Students will focus on the genres specific to their fields. They will also improve their ability to orally present their ideas. Prerequisite: Language assessment required. (Typically offered: Fall, Spring and Summer)

ELAC 4033. Research Writing in the STEM Fields. 3 Hours.
A research-based writing class for non-native speakers of English that focuses on the demands of writing in the STEM fields. Students will develop their ability to accurately and effectively use the conventions of scientific writing. Students will improve their ability to orally present their research. Prerequisite: Language assessment required. (Typically offered: Fall, Spring and Summer)

ELAC 5033. Research Writing for the Social Sciences and Education. 3 Hours.
This research-focused writing class will help graduate-level non-native English speakers in the social sciences and education communicate their understanding of course material and research more accurately and effectively. Students will focus on the genres specific to their fields. They will also improve their ability to orally present their ideas. Prerequisite: Placement through TOEFL iBT Writing / TOEFL TWE / IELTS writing / U of A ELPT (writing) / GRE Analytical Writing / GMAT Analytical Writing / TOEFL Alternative. (Typically offered: Fall and Spring)

ELAC 5043. Research Writing in the STEM Fields. 3 Hours.
A research-based writing class for graduate-level non-native speakers of English that focuses on the demands of writing in the STEM fields. Students will develop their ability to accurately and effectively use the conventions of scientific writing. Students will improve their ability to orally present their research. Prerequisite: Placement through TOEFL iBT Writing / TOEFL TWE / IELTS writing / U of A ELPT (writing) / GRE Analytical Writing / GMAT Analytical Writing / TOEFL Alternative. (Typically offered: Fall and Spring)

ELAC 5050. International Graduate Teaching Assistant Training. 0 Hours.
To prepare international graduate assistants to assist or teach in U.S. university classes. The course focuses on enhancing teaching and communication skills, and cultural knowledge. Students are non-native speakers of English who currently have a teaching assistantship or plan to obtain one in the following semester. Not for degree credit. Prerequisite: Language assessment required. (Typically offered: Fall and Spring)

ELAC 5060. Intensive Training for International Graduate Teaching Assistants. 0 Hours.
This is a three-week intensive training course to prepare international graduate assistants to assist or teach in university classes. The course content focuses on enhancing teaching and communication skills, and cultural knowledge. Not for degree credit. Pre- or Corequisite: This course is for students that have already been awarded a teaching assistantship. Prerequisite: At the request of an instructor or self-placement or through TOEFL (iBT) exam, spoken portion of the International English Language Testing System (IELTS), or the University of Arkansas Spoken Language Proficiency Test (SLPT). (Typically offered: Summer)

Entomology (ENTO)

Courses
ENTO 1021L. Insects in Science, the Arts, and Human History Laboratory. 1 Hour.
To educate students on the importance of insects in biology and science, human and animal medicine, ecosystems, agriculture, pollination, genetic research, the arts, and human culture and history. The lab will be a hands-on approach to reinforcing entomological concepts addressed in lecture. Corequisite: ENTO 1023. (Typically offered: Spring)
ENTO 1023. Insects, Science and Society. 3 Hours.
To educate students on the importance of insects in biology and science, human and animal medicine, ecosystems, agriculture, pollination, genetic research, the arts, and human culture and history. Corequisite: ENTO 1021L. (Typically offered: Spring)

ENTO 3011L. Introduction to Insect Identification Lab. 1 Hour.
Introductory lab course on insect identification, collection, and curation techniques, primarily designed as an intensive add-on to ENTO 3013 for students wanting a more in-depth examination of insect diversity. Insect collection required. Course includes field trips. Students are encouraged to contact instructor before enrolling. Pre- or Corequisite: ENTO 3013. (Typically offered: Fall)
This course is cross-listed with BIOL 3011L.

ENTO 3013. Introduction to Entomology. 3 Hours.
Fundamentals of insect biology including structure and function, development, ecology, behavior, plant feeding and disease transmission. Lecture 3 hours/week. Students interested in a more intensive examination of insects, including collection, curation, and identification techniques, should sign up for the separate one credit lab ENTO 3011L. Students are strongly encouraged to take BIOL 1543 before registering for this course. (Typically offered: Fall)
This course is cross-listed with BIOL 3013.

ENTO 400V. Special Problems. 1-4 Hour.
Special problems. (Typically offered: Fall, Spring and Summer)

ENTO 4013. Insect Behavior and Chemical Ecology. 3 Hours.
Basic concepts in insect senses and patterns of behavioral responses to various environmental stimuli. Previous knowledge of basic entomology is helpful, but not required. Lecture 2 hours, laboratory/discussion 2 hours per week. Corequisite: Lab component (Typically offered: Spring Even Years)
This course is cross-listed with BIOL 4013.

ENTO 4024. Insect Diversity and Taxonomy. 4 Hours.
Principles and practices of insect classification and identification with emphasis on adult insects. Corequisite: Lab component. Prerequisite: ENTO 3013. (Typically offered: Fall Even Years)
This course is cross-listed with BIOL 4024.

ENTO 4043. Honey Bee Biology and Beekeeping. 3 Hours.
Review of social behavior of insects and its exemplification in Honeybees. Previous knowledge of basic entomology is helpful but not required. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. (Typically offered: Spring Odd Years)

ENTO 4053. Insect Ecology. 3 Hours.
To develop understanding of important ecological concepts through study of dynamic relationships among insects and their environment. To become familiar with the literature of insect ecology, and interpretation and critique of ecological research. Previous knowledge of basic entomology and/or ecology will be assumed. Corequisite: Lab component. (Typically offered: Fall Even Years)
This course is cross-listed with BIOL 4053.

ENTO 410V. Special Topics. 1-3 Hour.
Topics not covered in other courses or a more intensive study of specific topics in entomology. (Typically offered: Irregular) May be repeated for degree credit.

ENTO 4123. Insect Pest Management. 3 Hours.
Study of principles and concept of insect pest management. Areas covered include survey of arthropod pests and damage, population dynamics, damage thresholds, physiological units, prediction models, surveillance, arthropod sampling, strategies and tactics utilized to maintain pest populations below economic injury levels. Prerequisite: ENTO 3013. (Typically offered: Spring Odd Years)

ENTO 4133. Advanced Applied Entomology. 3 Hours.
Biology and ecology of major arthropod pests as model applied management systems. Activities include independent study, literature review and group discussions. Knowledge of general entomology and pest management is required. Self-learning modules are available. Lecture 2 hours/week and direct self-study laboratory 2 hours/week. Corequisite: Lab component. Prerequisite: ENTO 3013. (Typically offered: Spring Even Years)

ENTO 500V. Special Problems. 1-4 Hour.
Special problems. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 4 hours of degree credit.

ENTO 5013. Morphology of Insects. 3 Hours.
Origin, evolution, and functional significance of external insect structure. Structure and function of major internal systems. Previous knowledge of basic entomology is helpful, but not required. Lecture 2 hours, laboratory 4 hours per week. Corequisite: Lab component. (Typically offered: Fall Odd Years)

ENTO 5024. Insect Diversity and Taxonomy. 4 Hours.
Principles and practices of insect classification and identification with emphasis on adult insects. 2.5 hours lecture, 4 hours lab. Prerequisite: ENTO 3013 or instructor consent. Corequisite: Lab component. (Typically offered: Fall)
This course is cross-listed with BIOL 5024.

ENTO 5043. Honey Bee Biology and Beekeeping. 3 Hours.
To acquaint the student with social insects in general and honey bees in particular, to promote an interest in beekeeping as a hobby, occupation, and/or science, to give the students the basic knowledge of how to keep honey bees, and to increase awareness of the contribution that pollinating insects make to agriculture, natural ecosystems, and human life. (Typically offered: Spring)

ENTO 5053. Insect Ecology. 3 Hours.
To develop an understanding of important ecological concepts through study of dynamic relationships among insects and their environment. To become familiar with the literature of insect ecology, and interpretation and critique of ecological research. Previous knowledge of basic entomology and/or ecology will be assumed. 2 hours lecture/2 hours lab. Prerequisite: Instructor consent. Corequisite: Lab component. (Typically offered: Fall Even Years)
This course is cross-listed with BIOL 5053.

ENTO 510V. Special Topics. 1-3 Hour.
Topics not covered in other courses or a more intensive study of specific topics in entomology. (Typically offered: Irregular) May be repeated for degree credit.

ENTO 5113. Insect Behavior and Chemical Ecology. 3 Hours.
Basic concepts in insect senses and patterns of behavioral responses to various environmental stimuli. Previous knowledge of basic entomology is helpful, but not required. Prerequisite: Instructor consent. Corequisite: Lab component. (Typically offered: Spring Even Years)
This course is cross-listed with BIOL 5113.

ENTO 5123. Biological Control. 3 Hours.
Theoretical and practical basis for biological control of arthropod pests and weeds via parasites, predators, and pathogens. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. (Typically offered: Fall Odd Years)

ENTO 5133. Insect Molecular Genetics. 3 Hours.
A hands on course in insect molecular genetic techniques including molecular diagnostics and population genetics. Students will learn how to apply advanced molecular genetic methodologies and Internet database resources to insects that they are using for their graduate research. (Typically offered: Spring Even Years)
This course is cross-listed with BIOL 5133.
ENTO 5153. Insect Pest Management. 3 Hours.
Study of principles and concept of insect pest management. Areas covered include a survey of arthropod pests and damage, population dynamics, damage thresholds, physiological units, prediction models, surveillance, arthropod sampling, strategies and tactics utilized to maintain pest populations below economic injury levels. Prerequisite: Instructor consent. (Typically offered: Spring Odd Years)

ENTO 5163. Advanced Applied Entomology. 3 Hours.
Topics will include the integration of tactics, integration of disciplines and specific case histories in insect management, or use of insects to manage weeds. Prerequisite: Instructor consent. (Typically offered: Spring Even Years)

ENTO 600V. Master's Thesis. 1-6 Hour.
Master's Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

ENTO 6013. Environmental Dynamics. 3 Hours.
This course examines the complex interrelationships between human societies and the natural environment. Drawing on diverse and interdisciplinary perspectives in archaeology, ethnography, history, geography, and palaeo-environmental studies, readings and discussion will explore the co-production of social and environmental systems over time. (Typically offered: Spring)

ENTO 602V. Current Topics Seminar. 1-2 Hour.
Subject matter will change each semester addressing current environmental issues and research. Seminars will be one or two hours credit. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ENTO 6033. Society and Environment. 3 Hours.
This course examines the complex interrelationships between human societies and the natural environment. Drawing on diverse and interdisciplinary perspectives in archaeology, ethnography, history, geography, and palaeo-environmental studies, readings and discussion will explore the co-production of social and environmental systems over time. (Typically offered: Spring)

ENTO 6043. GIS Analysis and Modeling. 3 Hours.
Unlike conventional GIS courses that focus on studying "where", this course will teach students to address beyond "where" using various GIS analysis and modeling techniques to explore "why" and "how". The course will provide theoretical and methodological reviews of the principles of cartographic modeling and multi-criteria decision-making. (Typically offered: Spring)

ENTO 6053. Quaternary Environments. 3 Hours.
An interdisciplinary study of the Quaternary Period including dating methods, deposits soils, climates, tectonics and human adaptations. (Typically offered: Fall)

ENTO 6113. Insect Physiology and Molecular Biology. 3 Hours.
Overview of insect physiology and modern molecular techniques to study physiological processes. Previous knowledge of basic entomology is helpful, but not required. Two lectures per week (1 hour 20 minutes each). (Typically offered: Spring Even Years)

ENTO 6700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Environmental Dynamics (ENDY) Courses

ENDY 5043. GIS Analysis and Modeling. 3 Hours.
Unlike conventional GIS courses that focus on studying "where", this course will teach students to address beyond "where" using various GIS analysis and modeling techniques to explore "why" and "how". The course will provide theoretical and methodological reviews of the principles of cartographic modeling and multi-criteria decision-making. (Typically offered: Spring)

ENDY 5053. Quaternary Environments. 3 Hours.
An interdisciplinary study of the Quaternary Period including dating methods, deposits soils, climates, tectonics and human adaptations. (Typically offered: Fall)

ENDY 5113. Global Change. 3 Hours.
Examines the interacting natural and anthropogenic factors involved in global change, concentrating on climate variability and change. Prerequisite: Graduate standing or instructor's approval. (Typically offered: Spring)

ENDY 5153. Environmental Site Assessment. 3 Hours.
Principles, problems, and methods related to conducting an environmental site assessment. An applied course covering field site assessment, regulatory documentation, and report preparation. Prerequisite: GEOS 4033 or GEOS 5263 (formerly GEOS 4033). (Typically offered: Irregular)

ENDY 5853. Environmental Isotope Geochemistry. 3 Hours.
Introduction to principles of isotope fractionation and distribution in geological environments isotopic analytical methods, and extraction of isotope samples; application of isotopes in characterization of geologic processes and interaction with hydrologic, surficial, and biologic attenuation, paleothermometry soil and biochemical processes. (Typically offered: Spring)

ENDY 600V. ENDY Thesis Research. 1-6 Hour.
Master's Thesis. May be repeated for degree credit. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ENDY 6013. Environmental Dynamics. 3 Hours.
Required course for ENDY doctoral candidates. Overview of Earth Systems: Lithosphere; Hydrosphere, Atmosphere, Biosphere, Cryosphere, and human interaction across Earth systems. Emphasis on understanding of processes within Earth systems and interactions across Earth Systems as they pertain to global self-regulation, secular variation, climate stability, development and sustainability of human societies. Prerequisite: Graduate standing. (Typically offered: Fall)

ENDY 602V. Current Topics Seminar. 1-2 Hour.
Various aspects of the environment will be explored through topic specific seminars. Subject matter will change each semester addressing current environmental issues and research. Seminars will be one or two hours credit. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ENDY 6033. Society and Environment. 3 Hours.
This course examines the complex interrelationships between human societies and the natural environment. Drawing on diverse and interdisciplinary perspectives in archaeology, ethnography, history, geography, and palaeo-environmental studies, readings and discussion will explore the co-production of social and environmental systems over time. (Typically offered: Spring)

ENDY 6043. GIS Analysis and Modeling. 3 Hours.
Unlike conventional GIS courses that focus on studying "where", this course will teach students to address beyond "where" using various GIS analysis and modeling techniques to explore "why" and "how". The course will provide theoretical and methodological reviews of the principles of cartographic modeling and multi-criteria decision-making. (Typically offered: Spring)

ENDY 6053. Quaternary Environments. 3 Hours.
An interdisciplinary study of the Quaternary Period including dating methods, deposits soils, climates, tectonics and human adaptations. (Typically offered: Fall)

ENDY 6113. Insect Physiology and Molecular Biology. 3 Hours.
Overview of insect physiology and modern molecular techniques to study physiological processes. Previous knowledge of basic entomology is helpful, but not required. Two lectures per week (1 hour 20 minutes each). (Typically offered: Spring Even Years)

ENDY 6700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Environmental Science (ENSC) Courses

ENSC 1001L. Environmental Science Laboratory. 1 Hour.
Laboratory, field trip, and discussion sessions covering the concepts and information allowing students to critically evaluate environmental issues. Topics will include: laboratory safety, recycling, composting, geographic information systems, soil testing, water quality, hazardous wastes, waste disposal, wetlands, wastewater treatment, and sustainable food systems. Laboratory 2 hours/week. Corequisite: ENSC 1003. (Typically offered: Fall and Spring)
ENSC 1003H. Honors Environmental Science. 3 Hours.
Series of lectures and discussions introducing the topic of environmental science including factors related to water, soil, and air quality. (Typically offered: Fall Even Years)

ENSC 3103. Plants and Environmental Restoration. 3 Hours.
Selection, establishment, and use of plants to promote soil stabilization, water quality, and wildlife habitat. Principles and practices of managing plants for soil remediation, nutrient and sediment trapping, and restoration of plant communities. Prerequisite: CSES 1203 or HORT 2003 or BIOL 1613. (Typically offered: Fall Even Years)

ENSC 3103H. Honors Plants and Environmental Restoration. 3 Hours.
Selection, establishment, and use of plants to promote soil stabilization, water quality, and wildlife habitat. Principles and practices of managing plants for soil remediation, nutrient and sediment trapping, and restoration of plant communities. Prerequisite: CSES 1203 or HORT 2003 or BIOL 1613 and honors standing. (Typically offered: Fall)

ENSC 3603. GIS for Environmental Science. 3 Hours.
Provide instruction on the uses of GIS techniques in solving practical environmental and agricultural land use problems. Areas include: 1) an introduction to spatial variability in soils with an emphasis on the application of GIS techniques to map and understand spatial parameters important to different land uses, and 2) development of individual experience in the use of GIS in solving environmental and agricultural problems using an oral and written term project. Prerequisite: CSES 2203. (Typically offered: Spring Odd Years)

ENSC 3933. Environmental Ethics. 3 Hours.
The course addresses ethical questions about nature and the natural environment. Topics of discussion include anthropocentric and biocentric ethics, population control, obligations to future generations, animal rights, moral considerability, Leopold's land ethic, deep ecology, and ecofeminism. Lecture/discussions 3 hours per week. Prerequisite: ENSC 1003 or PHIL 2003 or PHIL 2103. (Typically offered: Spring)

This course is cross-listed with PHIL 3113.

ENSC 400V. Special Problems. 1-3 Hour.
Work on special problems in environmental science or related fields. (Typically offered: Irregular) May be repeated for up to 8 hours of degree credit.

ENSC 400VH. Honors Special Problems. 1-3 Hour.
Work on special problems in environmental science or related fields. Prerequisite: Honors Standing. (Typically offered: Irregular) May be repeated for up to 8 hours of degree credit.

This course is equivalent to ENSC 400V.

ENSC 4021L. Water Quality Laboratory. 1 Hour.
Field and laboratory experience in physical, chemical, and biological characteristics of natural waters (rain, river, lake, soil, ground, etc.). Laboratory experiments in water sampling, measurement of water quality parameters such as pH, alkalinity and acidity, redox, hardness, BOD, TSS, etc., and instrumentation. Prerequisite or Corequisite: ENSC 4023 (Typically offered: Fall)

ENSC 4023. Water Quality. 3 Hours.
Physical, chemical, and biological characteristics of natural waters (rain, river, lake, soil, ground, etc.). Discussion of water quality parameters such as pH, alkalinity and acidity, redox, hardness, BOD, TSS, etc. Aquatic processes of pollutants and principles of modeling. Prerequisite: CHEM 1123 and CHEM 1121L and BIOL 1543 and BIOL 1541L. (Typically offered: Fall)

ENSC 4033. Analysis of Environmental Contaminants. 3 Hours.
Methods of analysis for inorganic and organic contaminants, and microorganisms in soil and water. Quality assurance and quality control, sampling protocols, sample handling, instrumentation and data analysis. Lecture 3 hours per week. Pre- or Corequisite: CHEM 2613 and CHEM 2611L or CHEM 3603 and CHEM 3601L. (Typically offered: Spring Even Years)

ENSC 4263. Environmental Soil Science. 3 Hours.
Study of the behavior of pesticides, toxic organic compounds, metals, nutrients, and pathogenic microorganisms in the soil/plant/water continuum. Lecture 3 hours per week. Pre- or Corequisite: PHYS 2013 and PHYS 2011L. Prerequisite: CSES 3214. (Typically offered: Spring Even Years)

ENSC 4401. Professional Certification Preparation. 1 Hour.
This class is meant to reinforce concepts and skills already learned in other soil and environmental science and related courses and to provide the opportunity to prepare to take a national certification examination. If so chosen, students may pursue certification as soil or environmental science professionals. Prerequisite: Senior standing. (Typically offered: Spring)
Exercise Science (EXSC) Courses

EXSC 2663. Terminology for the Health Professions. 3 Hours.
Emphasis is on word roots and combined forms of words describing various facets of health and disease. Descriptive definitions with application of practical significance included for the health professional. (Typically offered: Irregular)
This course is cross-listed with PBHL 2663.

EXSC 2733. Introduction to Exercise Science. 3 Hours.
This class will cover introductory topics for the Exercise Science students in preparation for entry into the profession. In addition to specific topics, students will prepare their resumes and make a formal presentation. Prerequisite: EXSC major or instructor consent. (Typically offered: Fall and Spring)
This course is equivalent to EXSC 2733.

EXSC 3013. Functional Anatomy for Exercise Science. 3 Hours.
This course will include the study of functional human anatomy with emphasis on musculoskeletal and neurological systems. There will be an introduction to the clinical application and location of anatomical structures with some common injuries from a health professions perspective. Prerequisite: BIOL 2443 and BIOL 2441L.
(Typically offered: Spring)

EXSC 3153. Exercise Physiology. 3 Hours.
Examination of effects of exercise on the physiology of the systems of the body. The exploration includes effects during, immediately after, and as long term results of work and exercise. Prerequisite: BIOL 2213 and BIOL 2211L and (BIOL 2443 and BIOL 2441L). (Typically offered: Fall and Spring)

EXSC 3233. Exercise Physiology Lab. 1 Hour.
This course is cross-listed with PBHL 2663.

EXSC 3333. Mechanics of Human Movement. 3 Hours.
An introduction to basic analysis of motor skills. No credit given toward major in Zoology. Prerequisite: BIOL 2213 and BIOL 2211L, (BIOL 2443 and BIOL 2441L), and KINSBS or EXSCBS or PHEDBS majors or by instructor consent. (Typically offered: Fall and Spring)

EXSC 3393. Prevention and Care of Athletic Injuries. 3 Hours.
Introduction to the prevention and care of athletic related injuries. Includes athletic injury recognition and management. Prerequisite: BIOL 2443 and BIOL 2441L.
(Typically offered: Winter)

EXSC 3421L. Principles and Theories of Strength and Conditioning Laboratory. 1 Hour.
This course will provide the practical skills necessary to design and implement strength and conditioning programs. Students will put principles of cardiovascular, speed, agility, and strength training into practice as they relate to sport team training. Special emphasis is placed on the ability to evaluate exercise movements, prescribe appropriate exercise programs, administer tests, and support program prescription with a sound knowledge of anatomical and physiological adaptations to exercise. Students will learn various skills such as how to set up and run speed, agility, and quickness drills, how to select and administer the appropriate tests for specific athletic performance, and how to evaluate Olympic lifting technique. Corequisite: EXSC 3423.
(Typically offered: Spring)

Ethnomusicology (MUSY) Courses

MUSY 2003. Music in World Cultures. 3 Hours.
Provides an overview of music from around the world. Examines the role of music in different social and cultural contexts. A variety of indigenous, folk, religious, popular, and art music traditions will be explored, along with the people and cultures that create them. (Typically offered: Fall and Spring)

MUSY 2003H. Honors Music in World Cultures. 3 Hours.
Provides an overview of music from around the world. Examines the role of music in different social and cultural contexts. A variety of indigenous, folk, religious, popular, and art music traditions will be explored, along with the people and cultures that create them. (Typically offered: Fall and Spring)
This course is equivalent to MUSY 2003.

MUSY 4113. Pro-Seminar: Ethnomusicology. 3 Hours.
An introduction to ethnomusicological study, with readings and discussion of seminal writings in the field and practical experience in ethnomusicological analysis and description. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

MUSY 5113. Proseminar: Ethnomusicology. 3 Hours.
An introduction to ethnomusicological study, with readings and discussion of seminal writings in the field and practical experience in ethnomusicological analysis and description. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

MUSY 5323. Seminar: Topics in Asian and Middle Eastern Poetry and Music. 3 Hours.
Reading seminars on selected topics, such as Poetry and Music in Persian, Arabic and Turkish Cultures of the Islamic World; and Poetry and Song in Early East Asia. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

MUSY 5323H. Honors Seminar: Topics in Asian and Middle Eastern Poetry and Music. 3 Hours.
Reading seminars on selected topics, such as Poetry and Music in Persian, Arabic and Turkish Cultures of the Islamic World; and Poetry and Song in Early East Asia. (Typically offered: Spring)
EXSC 3423. Principles and Theories of Strength and Conditioning. 3 Hours. This course will provide the practical skills necessary to design strength and conditioning programs. Special emphasis is placed on the ability to evaluate exercise movements, prescribe appropriate exercise programs, administer tests, and support program prescription with a sound knowledge of anatomical and physiological adaptation to exercise. The course will include laboratory experiences integrated with didactic learning. The laboratory experiences will in teach students various skills such as how to set up and run speed, agility, and quickness drills, how to select and administer the appropriate tests for athletic performance, and how to evaluate Olympic lifting technique. Everyone must participate in the labs as subjects. Come to lab prepared to exercise. When students are finished with this course, they will be well prepared to take the CSCS exam given by the National Strength and Conditioning Association. Corequisite: EXSC 3421L. Prerequisite: (BIOL 2443 and BIOL 2441L) and (BIOL 2213 and BIOL 2211L). (Typically offered: Spring)

EXSC 3533. Laboratory Techniques. 3 Hours. Practical experience in testing physical fitness in both the laboratory and non-laboratory settings. Pre- or Corequisite: EXSC 3153. (Typically offered: Fall, Spring and Summer)

EXSC 3723. Research Methods in Exercise Science. 3 Hours. This course will provide an overview of research methods for experimental research designs in an exercise science setting. The students will learn facets of research including: developing a research idea, getting funding for research, obtaining IRB/IAUC approval, data collection, data input, statistical analyses, and preparing manuscripts for publication. Designed for exercise science honor students in spring of their junior year or the summer prior to their senior year to prepare them for their honor’s thesis. (Typically offered: Spring)

EXSC 3723H. Honors Research Methods in Exercise Science. 3 Hours. This course will provide an overview of research methods for experimental research designs in an exercise science setting. The students will learn facets of research including: developing a research idea, getting funding for research, obtaining IRB/IAUC approval, data collection, data input, statistical analyses, and preparing manuscripts for publication. Designed for exercise science honor students in spring of their junior year of the summer prior to their senior year to prepare them for their honor’s thesis. Prerequisite: Honors standing. (Typically offered: Spring) This course is equivalent to EXSC 3723.

EXSC 391V. Special Topics in EXSC. 1-3 Hour. Designed to cover specialized topics not presented in exercise science coursework. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

EXSC 4013. Clinical Exercise Physiology. 3 Hours. The course is designed to build upon prior knowledge of Exercise Physiology and Exercise Testing. We will examine the physiological impacts of exercise and exercise training with specific emphasis on how they relate to clinical outcomes and clinical testing. At the end of the course students should have developed competencies congruent with the objectives of the American College of Sports Medicine’s (ACSM) certification for Clinical Exercise Physiologist. Prerequisite: EXSC 3153 and EXSC 3533. (Typically offered: Fall)

EXSC 405V. Independent Study. 1-3 Hour. Provides students an opportunity to pursue special study of research problems. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

EXSC 405VH. Honors Independent Study. 1-4 Hour. Provides students an opportunity to pursue special study of research problems. Prerequisite: Instructor consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 4 hours of degree credit. This course is equivalent to EXSC 405V.

EXSC 4232. Exercise Prescription. 3 Hours. This course is designed to provide knowledge and application of sound exercise prescription principles and design of exercise programs in cardiorespiratory fitness, muscular fitness, body composition, flexibility, and balance. Prerequisite: EXSC 3533. Pre-requisite: EXSC 3153. (Typically offered: Fall and Spring)

EXSC 4232H. Honors Exercise Prescription. 3 Hours. This course is designed to provide knowledge and application of sound exercise prescription principles and design of exercise programs in cardiorespiratory fitness, muscular fitness, body composition, flexibility, and balance. Pre- or corequisite: EXSC 3533. Prerequisite: EXSC 3153. (Typically offered: Fall and Spring) This course is equivalent to EXSC 4323.

EXSC 4353. Advanced Mechanics of Human Movement. 3 Hours. Students will build upon their foundation in qualitative biomechanics to quantitatively analyze human movement. Biomechanics of the musculoskeletal system will be covered in the first half of the course, and fundamental laws and principles of mechanics will be covered in the second course half of the course. Examples will be provided throughout the course to demonstrate how biomechanics can be used to enhance and maintain human health, fitness, and performance. Prerequisite: EXSC 3533 and PHYS 2013. (Typically offered: Irregular)

EXSC 4643. Psychology of Sports Injury and Rehabilitation. 3 Hours. The purpose of this course is to explore and discuss factors related to the psychological aspects of athletic injuries. These factors include the sociocultural, mental, emotional, and physical dimensions of injury rehabilitation. (Typically offered: Irregular)

EXSC 4773. Performance and Drugs. 3 Hours. The pharmacological and physiological effects of ergogenic aids upon the athlete and performance coupled with the ethical and moralistic viewpoints of drug taking. Practical laboratory experiences are provided with pertinent statistical surveys of athletes; their drug taking habits and relevant psychological impact on performance. Prerequisite: EXSC 3153. (Typically offered: Fall and Spring)

EXSC 4773H. Honors Performance and Drugs. 3 Hours. The pharmacological and physiological effects of ergogenic aids upon the athlete and performance coupled with the ethical and moralistic viewpoints of drug taking. Practical laboratory experiences are provided with pertinent statistical surveys of athletes; their drug taking habits and relevant psychological impact on performance. Prerequisite: EXSC 3153 and honors standing. (Typically offered: Fall and Spring) This course is equivalent to EXSC 4773.

EXSC 4783. Sport and Exercise Psychology. 3 Hours. This course examines how individuals behave in physical activity, exercise, and sport settings. Psychological antecedents and consequences of primary and secondary involvement in exercise, sport, and related physical activities will be introduced. Prerequisite: PSYC 2003. (Typically offered: Fall and Summer)

EXSC 4783H. Honors Sport and Exercise Psychology. 3 Hours. This course examines how individuals behave in physical activity, exercise, and sport settings. Psychological antecedents and consequences of primary and secondary involvement in exercise, sport, and related physical activities will be introduced. (Typically offered: Fall) This course is equivalent to EXSC 4783.

EXSC 4833. Exercise Applications for Special Populations. 3 Hours. The study of the effects of exercise, exercise training, and other stressors in special groups. A detailed study of the biomechanical and physiological effects of exercise on the elderly, the diabetic, the post-coronary, and the individual with functional limitations. Prerequisite: EXSC 3353, EXSC 3153, and EXSC 3533. (Typically offered: Fall and Spring)
EXSC 4833H. Honors Exercise Applications for Special Populations. 3 Hours.
The study of the effects of exercise, exercise training, and other stressors in special
groups. A detailed study of the biomechanical and physiological effects of exercise
on the elderly, the diabetic, the post-coronary, and the individual with functional
limitations. Prerequisite: EXSC 3353, EXSC 3153, EXSC 3533 and honors standing.
(Typically offered: Fall and Spring)
This course is equivalent to EXSC 4833.

EXSC 4903. Internship in Exercise Science. 3 Hours.
Provides opportunities for students in Exercise Science to gain experience in
clinics, hospitals, fitness centers, athletic training facilities or related settings. Pre-
or Corequisite: EXSC 3533. Prerequisite: EXSC 3353 and EXSC 3153. (Typically
offered: Fall, Spring and Summer)

EXSC 5023. Advanced Teaching in Exercise Science. 3 Hours.
Examination and practical exposure to the principles and practices of undergraduate
teaching in exercise science. Includes course planning, teaching techniques,
assessment strategies, and supervised practice. (Typically offered: Fall, Spring and
Summer) May be repeated for up to 6 hours of degree credit.

EXSC 5323. Biomechanics I. 3 Hours.
Intended to serve as an introduction to biomechanics and focuses on scientific
principles involved in understanding and analyzing human motion. (Typically offered:
Fall)

EXSC 5333. Instrumentation in Biomechanics. 3 Hours.
The application of knowledge and skills necessary for data collection for sports
analysis. Provides valuable information on instrumentation used specifically in
biomechanics. Prerequisite: EXSC 5323. (Typically offered: Irregular)

EXSC 5353. Exercise Psychology. 3 Hours.
Exercise Psychology is a lecture and discussion format for students interested in
learning about theoretical and research information related to exercise adherence.
(Typically offered: Fall)

EXSC 5443. Seminar in Brain Injury and Behavior. 3 Hours.
The Brain Injury and Behavior Seminar will immerse you in specific topics pertaining
to the study of human brain-behavior relationships. Emphasis will be placed on
traumatic brain injury (TBI), including moderate-to-severe injuries, as well as mild
TBI or concussion. The first half of the course will focus on research related to how
individuals sustain and recover from TBI. The second half of the course will focus on
sports-related concussion in youth, collegiate, and professional athletes, with an
emphasis on how athletes sustain concussions, how concussions are assessed,
treated, and managed, and how return-to-play decision are made. This course will
introduce you to research in a variety of fields that include physiology, neurology,
and neuropsychology through primary source material in the form of book chapters
and journal articles. (Typically offered: Irregular)

EXSC 5453. Physical Activity and Health. 3 Hours.
The course is designed to give graduate students from a variety of disciplines a
broad introduction to the role of physical activity and how it affects the public's
health across the lifespan. Throughout the semester, we will cover topics such as the
current recommendations for physical activity, the beneficial effects of physical
activity on various health-related outcomes, determinants of physical activity, how to
measure physical activity at both the individual and population levels, and strategies
used to promote physical activity. Graduate students within all areas of exercise
science, public health and disciplines outside of public health (e.g., education,
healthcare, social work, and psychology) could benefit from this course at the
Masters or Doctoral level. Students will complete a physical activity research project
in their field of study and review both historical and current literature. (Typically
offered:Irregular)

EXSC 5513. Physiology Exercise I. 3 Hours.
A study of the foundation literature in exercise physiology. Emphasis is placed on the
muscular, cardiovascular, and respiratory systems. (Typically offered: Fall)

EXSC 5523. Muscle Metabolism in Exercise. 3 Hours.
A study of the metabolic changes that occur in muscle as a result of exercise,
exercise training, and other stressors. Prerequisite: EXSC 5513 or equivalent.
(Typically offered: Spring)

EXSC 5533. Cardiac Rehabilitation Program. 3 Hours.
An examination of the concepts, design, and implementation of cardiac rehabilitation
programs. Emphasis on exercise programs but reference to nutrition, psychology,
or other lifestyle interventions. (Typically offered: Spring Even Years)

EXSC 5543. Cardiovascular Function in Exercise. 3 Hours.
Study of the effects of exercise training and other stressors on the cardiovascular
system. Detailed study of the components of the cardiovascular system and the
responses and adaptations of those components to selected stimuli. Corequisite:
EXSC 5513 or equivalent. (Typically offered: Fall Even Years)

EXSC 5593. Practicum in Laboratory Instrumentation. 3 Hours.
Practical experience in testing physical fitness utilizing laboratory equipment.
Objective is to quantify physiological parameters, leading to the individualized
exercise prescription. (Typically offered: Fall and Summer)

EXSC 5613. Physical Dimensions of Aging. 3 Hours.
This course will focus on the physiological changes with healthy aging,
p athophysiology of age-related diseases, testing issues, exercise interventions, and
the psychosocial aspects of aging. Prerequisite: EXSC 5513. (Typically offered:
Spring Odd Years)

EXSC 5643. Advanced Psychology of Sports Injury and Rehabilitation. 3
Hours.
The purpose of this course is to explore and discuss factors related to the
psychological aspects of athletic injuries. These factors include the sociocultural,
mental, emotional, and physical dimensions of injury rehabilitation. (Typically offered:
Spring)

EXSC 5773. Performance and Drugs. 3 Hours.
The pharmacological and physiological effects of ergogenic aids upon the athlete
and performance coupled with the ethical and moralistic viewpoints of drug taking.
Practical laboratory experiences are provided with pertinent statistical surveys of
athletes; their drug taking habits and relevant psychological impact on performance.
(Typically offered: Spring)

EXSC 6313. Muscle Physiology. 3 Hours.
To expand the student's knowledge of the skeletal muscle form and function.
Specifically, how muscle is formed to how it can adapt as a post-mitotic tissue. This
course will focus on the morphological, physiological, cellular, and molecular factors
that affect skeletal muscle form and function. (Typically offered: Fall Even Years)

EXSC 6323. Biomechanics II. 3 Hours.
Analysis of human movement with emphasis on sports skills by application of
principles of anatomy, kinesiology, and cinematographical analysis. Prerequisite:
EXSC 5323. (Typically offered: Irregular)

EXSC 6343. Physiology of Exercise II. 3 Hours.
Detailed study of the body systems affected by exercise, the functions of these
systems during exercise, the effects of age, sex, body type, and nutrition on capacity
for exercise, the techniques of assessing work capacity, and a critical analysis of
research literature in this area. (Typically offered: Irregular)

EXSC 6443. Thermoregulation and Fluid Balance. 3 Hours.
Comprehensive overview of human thermoregulatory responses to exercise in heat
and cold. (Typically offered: Spring Even Years)
**Extension Education (EXED) Courses**

**EXED 4183. Management of Volunteer Programs. 3 Hours.**
Recruiting, training, management, evaluation, and recognition of volunteers in agricultural-related agencies, non-profit organizations, community groups, and advisory committees. Prerequisite: Junior standing. (Typically offered: Irregular)

**EXED 475V. Internship in Extension. 1-6 Hour.**
A supervised practical work experience in Cooperative Extension which is designed to give the student an insight into the role of Extension employees and an opportunity to gain professional competence in this area. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit. This course is cross-listed with ACOM 475V, AGLE 475V, ASTM 475V.

**EXED 5183. Management of Volunteer Programs. 3 Hours.**
(Formerly EXED 4183.) Recruiting, training, management, evaluation, and recognition of volunteers in agricultural-related agencies, non-profit organizations, community groups, and advisory committees. Graduate degree credit will not be given for both EXED 4183 and EXED 5183. (Typically offered: Irregular)

**Finance (FINN) Courses**

**FINN 1003. Your Money and Credit. 3 Hours.**
Introduction to personal finance. Topics include building wealth, do's and don'ts of credit, car and home ownership. Lectures on theory and concepts; 'learning from the masters' video on best practices; financial simulations and case exercises. (Typically offered: Fall, Spring and Summer)

**FINN 3003. Personal Financial Management. 3 Hours.**
Topics covered include budgeting, financial planning, managing credit, taxes, insurance, investments, and retirement planning. (Typically offered: Fall and Spring)

**FINN 3013. Financial Analysis. 3 Hours.**
Focuses on how information contained in financial statements can be used in financial decision-making; in particular, to assess financial performance, evaluate credit and default risk, forecast future funds needs, weigh the risk-reward of debt vs. equity financing, and develop estimates of intrinsic value using relative valuation metrics and discounted cash flow methods. Prerequisite: FINN 3043. (Typically offered: Fall, Spring and Summer)

**FINN 3043. Principles of Finance. 3 Hours.**
Introduction to the financial system and financial management. Addresses the role and functions of financial intermediaries and markets for fixed income and equity securities; understand how interest rates are determined and assets valued; learn how firms effectively manage financial resources and create value through investment and financing decisions. Prerequisite: ACCT 2013, ECON 2013, ECON 2023, WCOB 1033, and (ACCT 2023 or MGMT 2053), each with a grade of C or better. (Typically offered: Spring)

**FINN 3043H. Honors Principles of Finance. 3 Hours.**
Introduction to the financial system and financial management. Addresses the role and functions of financial intermediaries and markets for fixed income and equity securities; understand how interest rates are determined and assets valued; learn how firms effectively manage financial resources and create value through investment and financing decisions. Prerequisite: ACCT 2013, ECON 2013, ECON 2023, WCOB 1033 and (ACCT 2023 or MGMT 2053), each with a grade of C or better. (Typically offered: Spring)
This course is equivalent to FINN 3043.

**FINN 3053. Financial Markets and Institutions. 3 Hours.**
Role and operations of financial markets and institutions in the economy. Supply of, demand for, funds, interest rates and flow of funds analysis. Financial policies, practices of bank and nonbank financial institutions. Prerequisite: (ECON 2013 and ECON 2023) or ECON 2143. (Typically offered: Fall, Spring and Summer)

**FINN 3063. Investments. 3 Hours.**
Introduction to basic investment concepts including: risk-return and mean-variance efficient frontiers, diversification and the pricing of risk, security valuation. Corequisite: FINN 3013. Prerequisite: FINN 3043. (Typically offered: Fall, Spring and Summer)

**FINN 3103. Financial Modeling. 3 Hours.**
Develop strong computer skills in financial analysis by integrating conceptual material with spreadsheet-based numerical solution and simulation techniques. Prerequisite: FINN 3043. (Typically offered: Fall, Spring and Summer)

**FINN 3133. Commercial Banking. 3 Hours.**
Commercial bank administration, management; loans; bond portfolios; credit analysis; public relations; analysis and interpretations of Federal Reserve regulations and publications. Prerequisite: FINN 3043. (Typically offered: Fall and Spring)

**FINN 3163. Fixed Income Securities I. 3 Hours.**
The markets and institutional settings of fixed income securities; valuation and risk analysis of money market and capital market instruments; strategies and management of bond portfolios; taxable and tax-exempt securities; U.S. and non-U.S. fixed income securities; term structure of interest rate; and interest rate derivatives as hedging tools. Corequisite: FINN 3103 and FINN 3063. Prerequisite: Departmental consent. (Typically offered: Fall)

**FINN 3173. Fixed Income Securities II. 3 Hours.**
Continuation of FINN 3163. The markets and institutional settings of fixed income securities; valuation, and risk analysis of money market and capital market instruments; strategies and management of bond portfolios; taxable and tax-exempt securities; U.S. and non-U.S. fixed income securities; term structure of interest rate; and interest rate derivatives as hedging tools. Prerequisite: FINN 3163. (Typically offered: Spring)

**FINN 330V. Finance Study Abroad. 1-3 Hour.**
Providing a balance of theory and practical application, this course provides students with study abroad experiences in finance addressing strategic and operational processes within the global context by understanding international financial systems, culture, geography, history, and politics of other countries. Prerequisite: Departmental consent, completion of 30 hours, ENGL 1013, (MATH 2053 or MATH 2554), ECON 2013, ECON 2023, (ISYS 1120 or ISYS 1123), WCOB 1111 and ACCT 2013. (Typically offered: Summer)

**FINN 330VH. Honors Finance Study Abroad. 1-3 Hour.**
Providing a balance of theory and practical application, this course provides students with study abroad experiences in finance addressing strategic and operational processes within the global context by understanding international financial systems, culture, geography, history, and politics of other countries. Prerequisite: Departmental consent, completion of 30 hours, ENGL 1013, (MATH 2053 or MATH 2554), ECON 2013, ECON 2023, (ISYS 1120 or ISYS 1123), WCOB 1111, ACCT 2013 and honors standing. (Typically offered: Summer)
This course is equivalent to FINN 330V.

**FINN 3603. Corporate Finance. 3 Hours.**
Develop analytical competencies in financial planning, cost of capital estimation, application of discounted cash flow approach to valuation and capital allocation, lease analysis, evaluation of merger and organizational restructuring strategies. Prerequisite: FINN 3043 and FINN 3013. (Typically offered: Fall, Spring and Summer)

**FINN 3623. Risk Management. 3 Hours.**
A survey of the extent and types of risk in business; ways of dealing with business risk; use of security and commodity exchanges; survey of insurance for risk bearing purposes. (Typically offered: Fall and Spring)

**FINN 3703. International Finance. 3 Hours.**
Introduction to international financial markets, exchange rates and exchange rate determination, balance of trade measures, and vehicles for foreign trade financing. (Typically offered: Fall, Spring and Summer)
FINN 3933. Real Estate Principles. 3 Hours.
Comprehensive, covering economics of real estate, real estate value, real estate finance, rights in real property and their transfer, public programs, policies relating to real property. (Typically offered: Fall and Spring)

FINN 4003H. Honors Finance Colloquium. 3 Hours.
Exploring important concepts, significant events and/or new developments in the field of Finance. Prerequisite: Senior standing. (Typically offered: Fall)

FINN 4013. Seminar in Personal Financial Planning. 3 Hours.
Explores financial planning function, including contact, data acquisition, plan development and implementation; covers all areas of personal financial planning including investments, insurance, taxes, and estate planning; addresses planning techniques and financial planning ethical issues; emphasis on case studies. Pre- or Corequisite: FINN 4733. Prerequisite: FINN 3003, FINN 3063, FINN 3623, and ACCT 3843. (Typically offered: Spring)

FINN 410V. Special Topics in Finance. 1-6 Hour.
Explore current events, new developments and special topics in Finance not covered in other courses. Prerequisite: FINN 3043. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

FINN 4123. Valuing New Ventures. 3 Hours.
Valuation methods of entrepreneurial, early-stage, and R&D finance, including term sheets, valuing full and partial stakes, preferred and convertible preferred stock, options, round investment, complex structures, R&D finance, Monte Carlo simulation, real options, binomial trees, and game theory. Prerequisite: Junior Standing. (Typically offered: Fall, Spring and Summer)

FINN 4133. Advanced Investments. 3 Hours.
Sound training in the principles of security analysis and portfolio management and certain advanced techniques of financial management. Modern portfolio theory and its application to portfolio management practices will be emphasized. Prerequisite: FINN 3063. (Typically offered: Fall and Spring)

FINN 4143. Portfolio Management I. 3 Hours.
This course applies modern investment theory to the practical management of the Rebsamen Trust. Students prepare a statement of investment objectives, recommend an asset allocation strategy based on a quantitative analysis of asset class returns, and select securities using fundamental analysis. Classes are organized as management meetings and visits to investment firms are an important part of the class. Application, interview and instructor approval are required. Corequisite: FINN 3063 and ACCT 3723. Prerequisite: Departmental consent. (Typically offered: Fall)

FINN 4153. Portfolio Management II. 3 Hours.
This course is a continuation of FINN 4143. Topics covered include technical analysis, dynamic asset allocation and derivative strategies. Visits to major investments firms and organized exchanges in New York City or other locations are generally planned. Selection is by invitation. Prerequisite: FINN 4143 and by invitation only. (Typically offered: Spring)

FINN 4163. Advanced Financial Modeling. 3 Hours.
The course applies Business Intelligence (BI), Cloud, Artificial Intelligent (AI) tools to business data for financial analysis and modeling. Data handling and modeling make use of the latest BI platforms such as Microsoft Power BI and Tableau. Corequisite: FINN 3103. (Typically offered: Fall, Spring and Summer)

FINN 4173. Energy Finance. 3 Hours.
This course is as a comprehensive introduction to the field of Energy Finance, i.e., the application of Finance principles to energy, energy-service, and related industries. Topics covered include: (1) physical fossil fuel markets; (2) physical electricity markets; (3) financially traded energy products; and (4) credit, counterparty, and country risk. Pre- or Corequisite: ACCT 3723. Prerequisite: FINN 3013 and FINN 3043. (Typically offered: Fall and Spring)

FINN 4233. Advanced Corporate Finance. 3 Hours.
Address complex and multifaceted issues and problems in financial decision-making. Prerequisite: FINN 3603. (Typically offered: Irregular)

FINN 4243. New Venture Finance. 3 Hours.
Explores early-stage funding sources and the startup ecosystem, due diligence when seeking funding, and the issues that arise about governance and control when seeking funding, including a deep dive into term sheets and capitalization tables. Prerequisite: Junior Standing. (Typically offered: Fall, Spring and Summer)

FINN 4313. Advanced Commercial Banking. 3 Hours.
Problems and cases emphasizing application of analytical tools and techniques in commercial bank risk measurement and management. Evaluation of small business credit risk; analysis of liquidity, capital, and interest rate risk; stress testing; hedging risk with derivatives. Prerequisite: FINN 3133. (Typically offered: Spring)

FINN 4323. Financial Data Analytics I. 3 Hours.
This course provides students with a broad understanding of: the general principles and techniques of advanced programming languages; familiarity with its applications to financial data warehousing and extraction; competency and proficiency in its use in processing, analyzing, and visualization of data; and the development, implementation, and evaluation of algorithmic strategies. Corequisite: FINN 3063. Prerequisite: FINN 3013. (Typically offered: Fall, Spring and Summer)

FINN 4333. Financial Data Analytics II. 3 Hours.
This course provides an in-depth study of financial data analysis and emphasizes popular financial models and trading strategies. We will particularly emphasize the use of quantitative methods and data-driven approaches in backtesting and analyzing the risk/return tradeoff of financial models and trading strategies. Prerequisite: FINN 4323. (Typically offered: Fall, Spring and Summer)

FINN 4413. Real Estate Appraisal. 3 Hours.
Valuation theories applied to real estate. Characteristics which affect value are studied and valuation methodologies are learned and performed by the students. Focus is on residential real estate but all types of real estate are addressed. Students prepare in actual residential appraisal report. Prerequisite: FINN 3933. (Typically offered: Fall)

FINN 4433. Real Estate Finance and Investment. 3 Hours.
Consideration of professional aspects of the real estate field. Emphasis is placed upon finance techniques and investment analysis. The focus is on commercial real estate. Brokerage, property management, appraisal, property development and current problems are also addressed. Students prepare a feasibility study on a commercial development project. Prerequisite: FINN 3933. (Typically offered: Spring)

FINN 450V. Independent Study. 1-3 Hour.
Permits students on an individual basis to explore selected topics in finance, with the consent of instructor. (Typically offered: Irregular)

FINN 4733. Life and Health Insurance I. 3 Hours.
Basic principles, functions, uses of life and health insurance; types of policy contracts; calculation of premiums, reserves; organizations, management, supervision, of companies. (Typically offered: Fall)

FINN 4833. Property and Casualty Insurance I. 3 Hours.
Forms and functions of fire, marine, inland marine, automobile title, miscellaneous types insurance and bonds for business, personal use. (Typically offered: Spring)
FINN 510V. Special Topics in Finance. 1-3 Hour.
This course focuses on advanced energy risk management strategies and tactics commonly applied by regional, national, and multi-national energy firms, including upstream, midstream, and downstream oil and gas companies, and by firms and other participants in the electricity industry. Contemporary issues related to energy, fracking, conflict, technological innovation, and the future of the energy industry will be covered. Topics include financial statement analysis and valuation of energy companies, commodity trading and risk management, forwards, futures, options, and swaps, and hedging. Fundamental credit risk analysis and risk exposure, counterparty risk, risk mitigation techniques, and country risk are also covered. Prerequisite: Graduate standing. (Typically offered: Fall and Spring)

FINN 5113. Corporate Financial Management. 3 Hours.
Financial analysis, planning and control; decision making and modeling for financial managers; and financial policies for management. (Typically offered: Spring)

FINN 5123. Valuing New Ventures. 3 Hours.
This course is for students who wish to begin careers in valuing new ventures with VCs and Angel funds, for investors interested in new ventures as an asset class, for members of startup teams who focus on acquiring and managing capital, and for R&D and innovation teams within existing large firms. The course will also add valuable techniques to those performing private equity valuations of growing firms or firms facing large strategic options, even if those firms are not technically startups. (Typically offered: Fall and Spring)

FINN 5133. Advanced Investments. 3 Hours.
(Formerly FINN 4133.) Sound training in the principles of security analysis and portfolio management and certain advanced techniques of financial management. Modern portfolio theory and its application to portfolio management practices will be emphasized. Graduate degree credit will not be given for both FINN 4133 and FINN 5133. Prerequisite: FINN 3063. (Typically offered: Fall and Spring)

FINN 5173. Energy Finance and Risk Management. 3 Hours.
This course provides an advanced introduction to energy finance, defined as the application of finance principles to energy, energy service, and related industries, concerning all aspects of the energy value chain. Topics include: (1) physical fossil fuel markets; (2) physical electricity markets; (3) financially traded energy products; and (4) credit, counterpart, country, and enterprise risk. It also introduces students to business valuation and investment banking applications in the energy industry vertical. Prerequisite: FINN 5113 or FINN 5223. (Typically offered: Fall)

FINN 5223. Financial Markets & Valuation. 3 Hours.
Analysis of financial information by capital markets in the determination of security values with specific applications to retail and logistics companies. This course views these and other companies from the point of view of the capital markets. (Typically offered: Fall) May be repeated for degree credit.

FINN 5233. Advanced Corporate Finance. 3 Hours.
(Formerly FINN 4233.) Addresses complex and multifaceted issues and problems in financial decision-making. Graduate degree credit will not be given for both FINN 4233 and FINN 5233. Prerequisite: FINN 3603. (Typically offered: Spring)

FINN 5303. Advanced Corporate Financial Management. 3 Hours.
Focus on financial policy issues using real situational cases. Topics include cost of capital, capital budgeting and long-term planning, value-based management, real options, as well as project financing and valuation. Prerequisite: FINN 5223. (Typically offered: Spring)

FINN 5313. Advanced Commercial Banking. 3 Hours.
This course focuses on advanced risk management strategies commonly implemented at regional and large commercial banks. Topics include financial statement analysis of banks and holding companies, credit analysis of global cash flow, Basel III capital requirements and stress testing, interest rate risk measurement and management, and interest rate hedging with derivatives. (Typically offered: Fall and Spring)

FINN 5323. Financial Data Analytics I. 3 Hours.
This course introduces programming for financial data analysis, data representation and visualization using a modern programming language. The objective is to provide students a broad understanding of (1) the general principles and techniques of programming, (2) familiar with financial data and manipulation, (3) financial data processing, analyzing and visualization and (4) the computational applications of financial data. The course concludes with a project in which students apply their knowledge to implement and evaluate an algorithmic trading strategy. (Typically offered: Fall and Spring)

FINN 5333. Investment Theory and Management. 3 Hours.
Integration of theory, practice of investments with solution of individual and institutional portfolio management problems; Institute of Chartered Financial Analysts’ Problems; variable annuity in estate planning. Prerequisite: FINN 5223. (Typically offered: Fall)

FINN 541V. Shollmier Investment Project. 1-3 Hour.
Provide students with the opportunity to design and apply complex investment strategies used in institutional portfolio management on the Shollmier MBA Fund that can involve fixed income and equity securities as well as derivatives. Students will use top down asset allocation models, bottom up security selection, and hedge fund strategies. Prerequisite: FINN 5223 and FINN 5333. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

FINN 5433. Real Estate Finance and Investment. 3 Hours.
(Formerly FINN 4433.) Consideration of professional aspects of the real estate field. Emphasis is placed upon finance techniques and investment analysis. The focus is on commercial real estate. Brokerage, property management, appraisal, property development and current problems are also addressed. Students prepare a feasibility study on a commercial development project. Graduate degree credit will not be given for both FINN 4433 and FINN 5433. Prerequisite: FINN 3933. (Typically offered: Spring)

FINN 5453. Advanced Financial Modeling. 3 Hours.
The course applies Business Intelligence (BI), Cloud, Artificial Intelligent (AI) tools to business data for financial analysis and modeling. Data handling and modeling make use of the latest BI platforms such as Microsoft Power BI and Tableau. (Typically offered: Fall and Spring)

FINN 550V. Independent Study. 1-3 Hour.
(Formerly FINN 450V.) Permits students on an individual basis to explore selected topics in finance, with the consent of instructor. Graduate degree credit will not be given for both FINN 450V and FINN 550V. (Typically offered: Irregular)

FINN 6043. Finance Theory. 3 Hours.
Provides a conceptual understanding of key theoretical developments in the field of financial economics, including firm decisions under risk within a world of uncertainty. (Typically offered: Irregular)

FINN 6133. Seminar in Investment Theory. 3 Hours.
Study advanced literature in field investments, with special reference to theory of random walks, stock valuation models, portfolio management. (Typically offered: Fall and Spring)

FINN 6233. Seminar in Financial Management. 3 Hours.
Financial management of firm with emphasis on financial theory or firm, quantitative methods used in financial analysis, planning. (Typically offered: Irregular)

FINN 6333. Empirical Research in Finance. 3 Hours.
A study of recent empirically based research in finance. (Typically offered: Irregular)

FINN 6733. Seminar in Financial Markets and Institutions. 3 Hours.
Recent developments in the literature of financial markets and institutions. Participants will be involved in the extensive study of existing theories and empirical tests of the theories. (Typically offered: Irregular)
FINN 683V. Contemporary Issues in Doctoral Colloquium. 1-3 Hour.
To explore and evaluate contemporary research issues in finance. Course content to reflect the most recent developments in theory and empirical research methodologies. Prerequisite: Doctoral student status and instructor consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 18 hours of degree credit.

FINN 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall and Spring) May be repeated for degree credit.

Food Science (FDSC) Courses

FDSC 1011. Exploring Topics in Food Science. 1 Hour.
Introduces the depth and scope of Food Science as a profession. This course emphasizes the importance of science in processing and preservation of food and discusses current topics and issues. Practical information on food processing, composition, additives, labeling, environmental issues, regulations, safety, sensory analysis, and health benefits will be provided. Curriculum offerings in Food Science will be related to job responsibilities as a Food Scientist. Lecture/discussions, 2 hours per week for 8 weeks. (Typically offered: Fall)

FDSC 1103. Introduction to Food Science. 3 Hours.
This course is designed to provide students with a general application and understanding of current issues associated with food products and food ingredients. Discussions will focus on controversial subjects involving food products, food additives, food safety and preservation techniques based on scientific principles and popular belief. Lecture/discussions/demonstrations, 3 hours per week. (Typically offered: Spring)

FDSC 2111. Math Elements for Food Science and Technology. 1 Hour.
Basic data interpretation and analysis, problem interpretation and equation formulation, manipulation of algebraic functions representing applications in food science and technology, predictive models and curve fittings to determine model constants applied in food science and processing. Pre- or Corequisite: MATH 2043 or MATH 2554. (Typically offered: Spring)

FDSC 2201. The Science of Chocolate. 1 Hour.
The objective of this course is to introduce you to the science and technology of chocolate production. You will learn the history, chemistry, and physics of chocolate. This course will provide you with an understanding of chocolate production steps, including cacao bean harvesting, fermentation, drying, roasting, grinding, and manufacturing, and how these unit operations affect chocolate texture and flavor. Special focus will be given to fat and sugar crystallization, sensory evaluation, and sustainability of chocolate production. (Typically offered: Spring)

FDSC 2401. Uncorked: Vines to Wines. 1 Hour.
This introductory course is designed to provide students with an understanding of the basic concepts of growing grapes and winemaking, including history, grape growing, cultivars, chemistry, wine microorganisms, fermentation, winery operations, wine marketing, and the sensory and appreciation of wine. Coursework is expected to integrate lecture and guest presenters with supplement reading assignments. This course will not include wine tasting, therefore there are no age restrictions for enrollment. (Typically offered: Fall)

FDSC 2401H. Honors Uncorked: Vines to Wines. 1 Hour.
This introductory course is designed to provide students with an understanding of the basic concepts of growing grapes and winemaking, including history, grape growing, cultivars, chemistry, wine microorganisms, fermentation, winery operations, wine marketing, and the sensory and appreciation of wine. Coursework is expected to integrate lecture and guest presenters with supplement reading assignments. This course will not include wine tasting, therefore there are no age restrictions for enrollment. Prerequisite: Honors standing. (Typically offered: Fall)

This course is equivalent to FDSC 2401.

FDSC 2523. Sanitation and Safety in Food Processing Operations. 3 Hours.
Topics covered will provide an understanding of the control of microbial, chemical, and physical food hazards as well as emerging food safety issues. Course will include a discussion of sanitation, cleaners and sanitizers, sanitation equipment and facility designs, and microbial growth and control in food processing operations. Lecture/discussion. (Typically offered: Spring)

FDSC 2603. The Science of Cooking. 3 Hours.
In recent years science has found its way into the kitchen and cooking into laboratories and food processing plants. This course is designed to integrate science and cooking to help students appreciate the chemical and physical properties of foods and understand how the processes used when handling, preparing, and storing foods affect these properties. (Typically offered: Fall)

FDSC 2701. Food for Health. 1 Hour.
The course is designed for students interested in how foods affect one's health. This course provides students with a background of functional food that will enable them to understand, discuss, and evaluate functionality of food in relation to health. This class is designed to appeal to students studying food science, nutrition, biology, chemistry, nursing, and health and human performance. (Typically offered: Spring)

FDSC 2723. Introduction to Brewing Science. 3 Hours.
An introduction to the biology and chemistry of fermentation, with an emphasis on beer brewing. Styles, flavors, and quality characteristics of beer will be discussed. The history, legal aspects, and economic impacts of homebrewing as well as craft and industrial brewing will be covered. Coursework is expected to integrate lectures and guest presenters with supplemental reading assignments. This course will not include beer tasting, therefore there are no age restrictions for enrollment. Prerequisite: (CHEM 1123 or CHEM 1073) and (BIOL 1543 or BIOL 1584). (Typically offered: Spring)

FDSC 3103. Principles of Food Processing. 3 Hours.
The course is designed as an overview of the unit; food processing operations common to all types of food processing plants. Examples will be drawn from international food processing operations processing fruits and vegetables, poultry and meats, and oil seeds and cereal grains. Emphasis on oral communication and critical thinking skills. Corequisite: Lab component. Prerequisite: CHEM 1123 and CHEM 1121L and (MATH 2043 or MATH 2554). (Typically offered: Fall)

FDSC 3202. Introduction to Food Law. 2 Hours.
Discussion of government laws and regulations affecting the manufacture of food. Emphasis is on federal regulations relating to food safety, labeling, and the FDA. Discussion relates to practical use of food law. Lecture 2 hours per week. (Typically offered: Spring)

FDSC 3202H. Honors Introduction to Food Law. 2 Hours.
Discussion of government laws and regulations affecting the manufacture of food. Emphasis is on federal regulations relating to food safety, labeling, and the FDA. Discussion relates to practical use of food law. Prerequisite: Honors standing. (Typically offered: Spring)

FDSC 400V. Special Problems. 1-4 Hour.
Investigation of assigned problems in food science. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer)

FDSC 4111L. Food Analysis Lab. 1 Hour.
Laboratory exercises providing students with experience of analytical techniques and instrumentation used in food analysis. Laboratory 3 hours per week. Corequisite: FDSC 4113. Prerequisite: FDSC 4304 and CHEM 1123 and CHEM 1121L and CHEM 2613 and CHEM 2611L or (CHEM 3603 and CHEM 3601L). (Typically offered: Spring)
FDSC 4113. Food Analysis. 3 Hours.
Methods of analysis, instrumentation, and laboratory techniques for measuring the chemical composition of raw and value-added products. Lecture 3 hours. Corequisite: FDSC 4111L. Prerequisite: FDSC 4304 and CHEM 1123 and CHEM 1121L and CHEM 2613 and CHEM 2611L or (CHEM 3603 and CHEM 3601L). (Typically offered: Spring)

FDSC 4121L. Food Microbiology Lab. 1 Hour.
A hands-on laboratory course designed to teach students microbiological techniques and certain enumeration and plating techniques of specific food spoilage and pathogenic bacteria. Prerequisite: BIOL 2013 and BIOL 2011L. Pre- or Corequisite: FDSC 4122. (Typically offered: Fall)

FDSC 4122. Food Microbiology. 2 Hours.
The study of food microbiology including classification/ taxonomy, contamination, preservation and spoilage of different kinds of foods, pathogenic microorganisms, food poisoning, sanitation, control and inspection and beneficial uses of microorganisms. Prerequisite: BIOL 2013 and BIOL 2011L or BIOL 2533. (Typically offered: Fall)
This course is cross-listed with BIOL 4122.

FDSC 4304. Food Chemistry. 4 Hours.
Water, carbohydrates, lipids, proteins, vitamins, and minerals in foods; biochemical and functional properties, enzymes, food additives (emulsifiers, pigments, colors, flavors, preservatives, and sweeteners) and texture as related to properties in food systems and during processing. Lecture 3 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: CHEM 1123 and CHEM 1121L and CHEM 2613 and CHEM 2611L or (CHEM 3603 and CHEM 3601L). (Typically offered: Fall)

FDSC 431V. Internship in Food Science. 1-4 Hour.
The Food Science Internship is a supervised practical work experience with a food industry, research program or governmental agency to gain professional experience and insight into career opportunities. Prerequisite: Junior standing and consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

FDSC 4413. Sensory Evaluation of Food. 3 Hours.
Principles and procedures for sensory evaluation of food. Appropriate uses of specific tests are discussed, along with physiological, psychological, and environmental factors affecting sensory verdicts. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: STAT 2303 or WCOB 1033 or STAT 2823 or PSYC 2013. (Typically offered: Fall)

FDSC 4713. Product Innovation for the Food Scientist. 3 Hours.
This is a capstone course integrating knowledge developed in Food Science to the development of new food products. This course will take an integrated multidisciplinary approach to developing innovative food products and will provide learning experiences in new product development and Research & Development. Topics include product formulation, ingredient interactions, sensory analysis, packaging, labeling, food safety and food law. Corequisite: Lab component. Pre- or Corequisite: FDSC 4113 and FDSC 4111L. Prerequisite: Senior standing, FDSC 4304, FDSC 3103, and FDSC 4413. (Typically offered: Spring)

FDSC 472V. Special Topics in Food Science. 1-4 Hour.
Discussion focused on selected topics of particular fields of raw product physiology, food processing, chemistry, physiology, microbiology, evaluation, sensory analysis, and preservation. (Typically offered: Irregular) May be repeated for up to 4 hours of degree credit.

FDSC 4754. Engineering Principles of Food Processing. 4 Hours.
Basic mechanics of refrigeration, temperature controls, materials handling and mechanical problems as applied to foods and food processing. Lecture 3 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: MATH 1213, PHYS 2013, and PHYS 2011L. (Typically offered: Spring Even Years)

FDSC 5001. Seminar. 1 Hour.
Presentation and discussion of graduate student research. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 2 hours of degree credit.

FDSC 509V. Special Problems Research. 1-6 Hour.
Original investigation on assigned problems in food science. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

FDSC 5111L. Food Analysis Lab. 1 Hour.
(Formerly FDSC 4111L) Laboratory exercises providing students with experience of analytical techniques and instrumentation used in food analysis. Laboratory 3 hours per week. Graduate degree credit will not be given for both FDSC 4111L and CHEM 1121L. Corequisite: FDSC 4113 or FDSC 5113 (formerly FDSC 4113). Prerequisite: FDSC 4304 or FDSC 5304 (formerly FDSC 4304) and CHEM 1123 and CHEM 2613 and CHEM 2611L or (CHEM 3603 and CHEM 3601L). (Typically offered: Spring)

FDSC 5113. Food Analysis. 3 Hours.
(Formerly FDSC 4113.) Methods of analysis, instrumentation, and laboratory techniques for measuring the chemical composition of raw and value-added products. Lecture 3 hours. Graduate degree credit will not be given for both FDSC 4113 and FDSC 5113. Corequisite: FDSC 4111L or FDSC 5111L (formerly FDSC 4111L). Prerequisite: FDSC 4304 or FDSC 5304 (formerly FDSC 4304) and CHEM 1123 and CHEM 2611L and CHEM 2611L or (CHEM 3603 and CHEM 3601L). (Typically offered: Spring)

FDSC 5121L. Food Microbiology Lab. 1 Hour.
(Formerly FDSC 4121L) A hands-on laboratory course designed to teach students microbiological techniques and certain enumeration and plating techniques of specific food spoilage and pathogenic bacteria. Graduate degree credit will not be given for both FDSC 4121L and FDSC 5121L. Prerequisite: BIOL 2013 and BIOL 2011L. Pre- or Corequisite: FDSC 4122 or FDSC 5122 (formerly FDSC 4122). (Typically offered: Fall)

FDSC 5122. Food Microbiology. 2 Hours.
(Formerly FDSC 4122.) The study of food microbiology including classification/ taxonomy, contamination, preservation and spoilage of different kinds of foods, pathogenic microorganisms, food poisoning, sanitation, control and inspection and beneficial uses of microorganisms. Graduate degree credit will not be given for both FDSC 4122 and FDSC 5122. Prerequisite: BIOL 2013 and BIOL 2011L or BIOL 2533. (Typically offered: Fall)

FDSC 5223. Food Biosecurity. 3 Hours.
This course is the study of the security of agricultural products and the protection of our food supply from intentional and accidental, domestic and international contamination. Prerequisite: Graduate standing. (Typically offered: Fall Even Years)

FDSC 5304. Food Chemistry. 4 Hours.
(Formerly FDSC 4304.) Water, carbohydrates, lipids, proteins, vitamins, and minerals in foods; biochemical and functional properties, enzymes, food additives (emulsifiers, pigments, colors, flavors, preservatives, and sweeteners) and texture as related to properties in food systems and during processing. Lecture 3 hours, laboratory 3 hours per week. Graduate degree credit will not be given for both FDSC 4304 and FDSC 5304. Corequisite: Lab component. Prerequisite: CHEM 1123 and CHEM 1121L and CHEM 2613 and CHEM 2611L or (CHEM 3603 and CHEM 3601L). (Typically offered: Fall)

FDSC 531V. Internship in Food Science. 1-4 Hour.
(Formerly FDSC 431V.) The Food Science Internship is a supervised practical work experience with a food industry, research program or governmental agency to gain professional experience and insight into career opportunities. Graduate degree credit will not be given for both FDSC 431V and FDSC 531V. Prerequisite: Completion of first year of graduate studies and instructor consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 4 hours of degree credit.
FDSC 5413. Sensory Evaluation of Food. 3 Hours.  
(Formerly FDSC 4413.) Principles and procedures for sensory evaluation of food. Appropriate uses of specific tests are discussed, along with physiological, psychological, and environmental factors affecting sensory verdicts. Lecture 2 hours, laboratory 2 hours per week. Graduate degree credit will not be given for both FDSC 4413 and FDSC 5413. Corequisite: Lab component. Prerequisite: STAT 2303 or WCOB 1033 or AGST 5023 or STAT 2823 or PSYC 2013. (Typically offered: Fall)

FDSC 5423. Foodborne Diseases. 3 Hours.  
This course will introduce students to the major pathogens associated with foodborne diseases, their epidemiology, and approaches to outbreak investigation and control of foodborne illness. An emphasis will be placed on understanding the relationships between the host, the etiologic agent, and the environment as they relate to disease causation. The student will gain knowledge through lectures, case studies, readings, and an individual project. An understanding of basic biology principles is expected for this course. (Typically offered: Summer Odd Years)

FDSC 5503. Safety and Sanitation for the Food Industry. 3 Hours.  
This web-based course will provide an appreciation of the need for sanitation in food processing and increase the students' knowledge of sanitary techniques. Topics will include contamination sources, plant and equipment design, cleaners and sanitizers, HACCP, and food biosecurity. Also covered will be considerations in selecting, establishing and maintaining a sanitation program. An understanding of general microbiology and chemistry principles is expected for this course. (Typically offered: Summer Even Years)

FDSC 5713. Product Innovation for the Food Scientist. 3 Hours.  
(Formerly FDSC 4713.) This is a capstone course integrating knowledge developed in Food Science to the development of new food products. This course will take an integrated multidisciplinary approach to developing innovative food products and will provide learning experiences in new product development and Research & Development. Topics include product formulation, ingredient interactions, sensory analysis, packaging, labeling, food safety and food law. Graduate degree credit will not be given for both FDSC 4713 and FDSC 5713. Corequisite: Lab component. Pre- or Corequisite: FDSC 4113 or FDSC 5113 (formerly FDSC 4113) and FDSC 4111L or FDSC 5111L (formerly FDSC 4111L). Prerequisite: FDSC 4304 or FDSC 5304 (formerly FDSC 4304), FDSC 3103, and FDSC 4413 or FDSC 5413 (formerly FDSC 4413). (Typically offered: Spring)

FDSC 5754. Engineering Principles of Food Processing. 4 Hours.  
(Formerly FDSC 4754.) Basic mechanics of refrigeration, temperature controls, materials handling and mechanical problems as applied to foods and food processing. Lecture 3 hours, laboratory 3 hours per week. Graduate degree credit will not be given for both FDSC 4754 and FDSC 5754. Corequisite: Lab component. Prerequisite: MATH 1213, PHYS 2013, and PHYS 2011L. (Typically offered: Spring Even Years)

FDSC 5823. Principles of Food Microbiology. 3 Hours.  
This web-based course is a study of the fundamentals of food microbiology to include its history, classifications, spores and their importance, and the most common and serious pathogenic food microorganisms. Fermentation, spoilage microorganisms and control methodology are also discussed. (Typically offered: Fall Even Years)

FDSC 5993. Global Horticulture and Human Nutrition to Enhance Community Resilience and Food Security. 3 Hours.  
This course covers three broad areas (Global Horticulture, Sustainable International Development, Human Health and Nutrition) and experts on three campuses created the instruction. The course is intended to be multi-disciplinary, and students should use their contextual knowledge to add to weekly discussions. Prerequisite: Graduate standing. (Typically offered: Spring Even Years)

This course is cross-listed with AGED 5993, HORT 5993.

FDSC 600V. Master's Thesis. 1-6 Hours.  
Master's Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

FDSC 602V. Special Topics. 1-3 Hour.  
Discussions focused on selected topics of particular fields of raw product physiology and food processing. chemistry, physiology, microbiology, evaluation, sensory analysis and preservation. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for degree credit.

FDSC 6033. Food Biochemistry. 3 Hours.  
Biochemical characteristics, functions, regulation and impact of components in raw and processed foods of plant origin. Lecture/discussion 3 hours per week. Prerequisite: CHEM 3813. (Typically offered: Fall Odd Years)

FDSC 6123. Food Carbohydrate Chemistry. 3 Hours.  
Focus is on carbohydrate chemistry including molecular structures and physical properties, production and food applications, analytical methods for food carbohydrates, and interactions among food polysaccharides. Prerequisite: FDSC 4304 or FDSC 5304 (formerly FDSC 4304). (Typically offered: Fall Even Years)

FDSC 6143. Advanced Food Processing and Packaging and their Environmental Impact. 3 Hours.  
The course is directed to graduate students in food science and related fields. Students will learn advanced food processing technologies and packaging as well as the environmental issues associated to food production, processing, and distribution. An understanding of basic food processing/food engineering principles and knowledge of food processing operations is expected for this course. (Typically offered: Spring Even Years)

FDSC 6323. Nutraceuticals and Functional Foods. 3 Hours.  
Course will include past, present and future of nutraceuticals and functional foods, chemistry, mechanism, novel technologies, nutrigenomics, processing, healthy lifestyle, regulation, safety, marketing, international aspects, and industry project. Prerequisite: CHEM 2613 (or CHEM 3603) and CHEM 3813 and FDSC 4304 or instructor consent. (Typically offered: Spring Even Years)

FDSC 6333. Food Protein Chemistry and Functionality. 3 Hours.  
This course is a study in advanced food protein chemistry, including molecular structures, characterization, physicochemical bases of food protein functionality, structure-function relationship, processing technologies to improve functionality, as well as hands-on experiences with timely, practical projects related to food proteins. Lecture and problem solving projects for 3 hours per week. Pre- or Corequisite: FDSC 4304 or FDSC 5304 (formerly FDSC 4304). (Typically offered: Spring Odd Years)

FDSC 6403. Epidemiologic Principles in Food Safety and Public Health. 3 Hours.  
This course will provide an introduction to epidemiologic methods used in foodborne disease outbreak investigations. The importance of surveillance systems in detecting outbreaks and in the development of effective disease prevention and control strategies will also be presented. An emphasis will be placed on understanding the relationships between the host, the etiologic agent, and the environment as they relate to disease causation. In addition, molecular methods utilized for the identification of etiologic agents will be discussed. Selected important foodborne diseases will be discussed in detail to clarify the role of epidemiology in understanding the pathogenesis of infectious processes in individuals and communities. Prerequisite: FDSC 4122 or FDSC 5122 (formerly FDSC 4122) or equivalent. (Typically offered: Fall Even Years)

FDSC 6443. Metabolism of Xenobiotics. 3 Hours.  
This course is designed to provide in-depth knowledge of the integration of molecular, cellular, and physiologic aspects of xenobiotics (e.g phytochemicals)/micronutrients and metabolism. This course will also discuss the current understanding of the mechanism and regulation of gene expression by xenobiotics/micronutrients. Examination of current research literature to understand how xenobiotics/micronutrients and physiological states metabolize and influence gene expression, as well as the research methodology used to address these relations. Prerequisite: CHEM 3813. (Typically offered: Fall Even Years)
FDSC 6513. Cereal Processing Technology. 3 Hours.
Fundamental concepts of heat and mass transport in grains; cereal/grain structure, property and composition; cereal/grain processing systems and technology; cereal/grain co-product processing technology and value recovery; cereal/grain quality metrics, grading standards and food safety assurance. Prerequisite: FDSC 3103 or FDSC 4754 or instructor permission. (Typically offered: Spring Odd Years)

FDSC 6603. Chemosensory Perception and Measurement. 3 Hours.
This course is designed to address advanced techniques and current issues in sensory and consumer sciences, with a focus on chemosensory perception. This course consists of two main modules: I) anatomy and physiology of the chemosensory senses and II) measurement/analysis of chemosensory responses. This course includes both individual and group projects with an emphasis on four aspects of "C": *Concept,* *Creativity,* *Critical thinking skills,* and *Communication.* Prerequisite: FDSC 4413 or FDSC 5413. (Typically offered: Fall Odd Years)

FDSC 700V. Doctoral Dissertation. 1-18 Hour.
The doctoral program in food science is an interdepartmental program offered by the departments of Food Science, Animal and Poultry Sciences, and Human Environmental Sciences. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

French (FREN)

Courses

FREN 1003. Elementary French I (ACTS Equivalency = FREN 1013). 3 Hours.
Elementary French I. (Typically offered: Fall and Spring)

FREN 1013. Elementary French II (ACTS Equivalency = FREN 1023). 3 Hours.
Elementary courses stress correct pronunciation, aural comprehension, and simple speaking ability, and lead to mastery of basic grammar and limited reading ability. (Typically offered: Fall and Spring)

Intermediate courses lead to greater facility in spoken language and to more advanced reading skills. (Typically offered: Fall and Spring)

Continued development of basic speaking comprehension and writing skills and intensive development of reading skills. (Typically offered: Fall and Spring)

FREN 3003. Advanced French. 3 Hours.
Further intensive practice for the purpose of strengthening written and oral expression. Includes a review of the essentials of French grammar. Prerequisite: FREN 2013 or equivalent. (Typically offered: Fall, Spring and Summer)

FREN 3063. Ph.D. Reading Requirement I. 3 Hours.
Ph.D. reading requirement I. (Typically offered: Summer)

FREN 3103. Cultural Readings. 3 Hours.
A course designed to build vocabulary and to strengthen reading skills and oral expression through extensive practice with culturally authentic materials. Prerequisite: FREN 2013. (Typically offered: Spring)

FREN 3113. Introduction to Literature. 3 Hours.
Further development of reading skills and introduction to literary commentary and analysis. Prerequisite: FREN 3003 or FREN 3103. (Typically offered: Spring)

FREN 3123. French Phonetics. 3 Hours.
Improves students' pronunciation of French while they acquire the basic rules of standardized spoken French. The course takes into account the major contrastive features of the sounds of French and English and addresses the particular challenges the native speaker of American English faces when learning to pronounce French. Prerequisite: FREN 3003. (Typically offered: Fall Even Years)

FREN 399VH. Honors French Course. 1-6 Hour.
Honors French. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 12 hours of degree credit.

FREN 4003. French Grammar and Composition. 3 Hours.
French grammar and composition. Prerequisite: FREN 3003 or FREN 3103. (Typically offered: Fall)

FREN 4033. French for Oral Proficiency. 3 Hours.
Three hours per week of conversation practice for the advanced undergraduate. Prerequisite: FREN 3003 or FREN 3103. (Typically offered: Fall and Spring)

FREN 4113. Special Themes in French. 3 Hours.
Topics not normally covered in period courses. Sample topics: "The Comic Tradition in French Literature," "French Cinema." Topics announced one semester in advance. Prerequisite: FREN 3113. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

FREN 4213. French Civilization. 3 Hours.
French civilization. Prerequisite: FREN 3113. (Typically offered: Spring)

FREN 4223. Survey of French Literature I. 3 Hours.
A survey of French literature, its forms and themes from the medieval period through the 18th century. Prerequisite: FREN 3113. (Typically offered: Irregular)

FREN 4233. Survey of French Literature II. 3 Hours.
A survey of French literature, its forms and themes from the 19th and 20th centuries. Prerequisite: FREN 3113. (Typically offered: Irregular)

FREN 4333. Introduction to Business French. 3 Hours.
Introduction and orientation to the French world of business and commerce through the study of vocabulary, forms, and formulas and expression used in commercial correspondence. Prerequisite: FREN 3113 or FREN 3103. (Typically offered: Irregular)

FREN 4433. Studies in Francophone Literature. 3 Hours.
Introduction to seminal writers from Francophone cultures, mainly Quebec, the Maghreb, and West Africa. Exploration of national identity, morality, religion, exile, and socio-political and cultural problems, while discovering recent trends in the globalization of Francophone literature. Prerequisite: FREN 3113. (Typically offered: Irregular)

FREN 4433. Business Culture and Practices. 3 Hours.
A practical application of French to the business world focusing on the cultural challenges faced by Americans doing business in France and francophone countries. Case studies and translations of authentic documents from French to English and English to French reinforce the specialized vocabulary of the business world. Prerequisite: FREN 3103 or FREN 3113. (Typically offered: Irregular)

FREN 4663. French Short Story. 3 Hours.
Introduces the genre of the French Short Story, focusing on close readings and providing an overview of the most important literary movements from the Middle Ages to the twentieth century. Prerequisite: FREN 3113. (Typically offered: Irregular)

FREN 475V. Special Investigations. 1-6 Hour.
Special investigations. (Typically offered: Fall and Spring) May be repeated for degree credit.

FREN 5003. French Grammar and Phonetics. 3 Hours.
Systematic review of principles of French grammar and syntax; comprehensive presentation of French phonetics. (Typically offered: Irregular)

FREN 5033. Advanced French Conversation. 3 Hours.
This course will provide a small discussion environment in which graduate students will improve their command of spoken French in an interactive setting. Discussion will concentrate on current cultural issues in the French speaking world. (Typically offered: Irregular)
FREN 5333. Old French Literature. 3 Hours.
An intensive study of French Medieval Literature from the Chansons de Geste to Villon, including an in-depth analysis of the genres and their evolution, and of the major authors of the times. (Typically offered: Irregular)

FREN 5353. Survey of French Poetry. 3 Hours.
A comprehensive study of French poetry from the Middle Ages to the twentieth century, focusing on close readings of individual poems. This course will cover literary movements and trends of the periods and presents the terminology required to do explication de texte. (Typically offered: Irregular)

FREN 5433. French 16th-Century Literature. 3 Hours.
A survey of representative writers of the sixteenth century. (Typically offered: Irregular)

FREN 5543. French 17th-Century Literature. 3 Hours.
A survey of representative writers of the seventeenth century. (Typically offered: Irregular)

FREN 5673. French 18th-Century Literature. 3 Hours.
French 18th-Century literature. (Typically offered: Irregular)

FREN 5703. Special Topics. 3 Hours.
May be offered in a subject not specifically covered by the courses otherwise listed. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

FREN 575V. Special Investigations. 1-6 Hour.
Special investigations. (Typically offered: Irregular) May be repeated for degree credit.

FREN 5773. Survey of Francophone Literature. 3 Hours.
A survey of representative texts in the field of sub-Saharan and North African literature concentrating on postcolonial novels using contemporary critical approaches. (Typically offered: Irregular)

FREN 5783. The French Nineteenth-Century Novel. 3 Hours.
The French Nineteenth-Century novel. (Typically offered: Irregular)

FREN 5833. French 20th-Century Novel. 3 Hours.
French 20th-Century novel. (Typically offered: Irregular)

Gender Studies (GNST) Courses

GNST 2003. Introduction to Gender Studies. 3 Hours.
This course explores cultural constructions of gender and sexuality using a variety of media, including literature, film, and architecture. (Typically offered: Fall and Spring)

GNST 2003H. Honors Introduction to Gender Studies. 3 Hours.
This course explores cultural constructions of gender and sexuality using a variety of media, including literature, film, and architecture. (Typically offered: Fall and Spring)
This course is equivalent to GNST 2003.

GNST 3583. Body and Identity. 3 Hours.
This course explores personal, social and cultural constructions and performances of the body and identity, highlighting key intersections of embodiment including gender, race, sexuality and abilities. (Typically offered: Irregular)
This course is cross-listed with ANTH 3583.

GNST 4363. Gender, Race, and Power. 3 Hours.
Examines how communication shapes gender, race, sexuality, and power. Rather than focusing exclusively on interpersonal communication, this course looks at theories of power that shape institutional macro communication. (Typically offered: Irregular)
This course is cross-listed with COMM 4363.

GNST 4443. Queer Theor(ies). 3 Hours.
Introduction to the complex history and evolution of Queer Theory into Queer Theor(ies) from Foucault to the Present. (Typically offered: Irregular)
This course is equivalent to WLIT 4443.

GNST 4733. Reel Women. 3 Hours.
An examination of films made for, about, and/or by women with the aim of better understanding and centralizing issues pertinent to women's daily lives. Prerequisite: COMM 1003. (Typically offered: Irregular)
This course is cross-listed with COMM 4733.

GNST 4743. Representational Issues in Film. 3 Hours.
An examination of the varying ways that race and ethnicity, gender, sexual orientation, gender identity, class, (dis)ability, and age are represented in and by film - both historically and culturally. Prerequisite: COMM 1003. (Typically offered: Irregular)
This course is cross-listed with COMM 4743.

GNST 490V. Independent Study. 1-6 Hour.
An exploration of gender studies topics studied independently with the supervision of a faculty member. Credit arranged with instructor. Prerequisite: GNST 2003 or GNST 2003H or instructor consent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

GNST 490VH. Honors Independent Study. 1-6 Hour.
An exploration of gender studies topics studied independently with the supervision of a faculty member. Credit arranged with instructor. Prerequisite: GNST 2003 or GNST 2003H or instructor consent and honors standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

GNST 4913. Internship in Gender Studies. 3 Hours.
Internship in applied gender work within public and private organizations. Prerequisite: 3 hours of GNST coursework and instructor consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

GNST 4973. Black and White Sexualities. 3 Hours.
Explores how dichotomies (binary thinking) shape our understanding of the diversity of human sexuality e.g., Black vs. White, male vs. female, heterosexual vs. homosexual. Develops a more complex and nuanced understanding of sexuality by deconstructing the discourses surrounding sexuality. (Typically offered: Fall and Summer)

GNST 4983. Special Topics in Gender Studies. 3 Hours.
This course covers gender topics that are not usually offered in-depth in regularly offered courses. Prerequisite: GNST 2003 or GNST 2003H. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

GNST 5443. Queer Theor(ies). 3 Hours.
Introduction to the complex history and evolution of Queer Theory into Queer Theor(ies) from Foucault to the Present. (Typically offered: Irregular)
This course is cross-listed with WLIT 5443.

General Engineering (GNEG) Courses

GNEG 1103. Introduction to Engineering. 3 Hours.
This introductory course for first year engineering students introduces them to the fields of engineering and many of the modeling and problem solving techniques used by engineers. It also introduces the students to the engineering profession and some of the computer tools necessary for pursuing a degree in engineering. This course is designed for current and future transfer students. Freshman engineering students on campus should select GNEG 1201 or GNEG 1111 as appropriate.
Pre- or Corequisite: MATH 1203 or MATH 1204 or MATH 1213 or MATH 1284C or MATH 2445 or MATH 2554 or MATH 2564 or MATH 2574 or MATH 2584 or MATH 3083 or MATH 2603. Corequisite: Engineering major. (Typically offered: Fall, Spring and Summer)
GNEG 1111. Introduction to Engineering I. 1 Hour.
Fundamentals of engineering problem-solving including skills from mathematics, science, and computing. Introduction to the engineering design process through team-based activities. Study of the contemporary engineering profession and the disciplines within the College of Engineering. Corequisite: Drill component and MATH 1284C or MATH 2445 or MATH 2554 or MATH 2564 or MATH 2574 or MATH 2584 or MATH 3083 or MATH 2603 or GNEG 1514. Prerequisite: Engineering First Year majors only. (Typically offered: Fall and Spring)

GNEG 1111H. Honors Introduction to Engineering I. 1 Hour.
Fundamentals of engineering problem-solving including skills from mathematics, science, and computing. Introduction to the engineering design process through team-based activities. Study of the contemporary engineering profession and the disciplines within the College of Engineering. Corequisite: Drill component and MATH 1284C or MATH 2445 or MATH 2554 or MATH 2564 or MATH 2574 or MATH 2584 or MATH 3083 or MATH 2603 or GNEG 1514. Prerequisite: Engineering First Year majors only and Honors College students only. (Typically offered: Fall and Spring)

This course is equivalent to GNEG 1111.

GNEG 1121. Introduction to Engineering II. 1 Hour.
Further study of engineering problem-solving including skills from mathematics, science, and computing. Experience with the engineering design process through a major, team-based project. Selecting a major within the College of Engineering. Corequisite: Drill component and MATH 2445 or MATH 2554 or MATH 2564 or MATH 2574 or MATH 2584 or MATH 3083 or MATH 2603. Prerequisite: GNEG 1111 or GNEG 1111H or GNEG 1514 and Engineering First Year majors only. (Typically offered: Fall and Spring)

GNEG 1121H. Honors Introduction to Engineering II. 1 Hour.
Further study of engineering problem-solving including skills from mathematics, science, and computing. Experience with the engineering design process through a major, team-based project. Selecting a major within the College of Engineering. Corequisite: Drill component and MATH 2445 or MATH 2554 or MATH 2564 or MATH 2574 or MATH 2584 or MATH 3083 or MATH 2603. Prerequisite: GNEG 1111H or GNEG 1111 or GNEG 1514 and Engineering First Year majors only. (Typically offered: Fall and Spring)

This course is equivalent to GNEG 1121.

GNEG 1201. Fundamentals of Success in Engineering Study. 1 Hour.
Assisting Engineering First Year students in developing skills for successful completion of engineering course work. Building a supportive learning community, assisting students in developing positive attitudes and productive behaviors resulting in both academic and personal success, and informing students of the resources available for maintaining their academic and personal wellness. Corequisite: Drill component and MATH 1204 or MATH 1203 or MATH 1284C. Prerequisite: Engineering First Year student only. (Typically offered: Fall and Spring)

GNEG 1311H. Honors Research Experience I. 1 Hour.
An initial undergraduate research experience for a select group of Engineering First Year students enrolled in the Honors College. Corequisite: GNEG 1111H and MATH 2564 or MATH 2574 or MATH 2584 or MATH 3083 or MATH 2603. (Typically offered: Fall)

GNEG 1321H. Honors Research Experience II. 1 Hour.
Continuation of GNEG 1311H culminating with the annual Freshman Engineering Program Honors Research Symposium. Pre- or Corequisite: MATH 2564. Prerequisite: GNEG 1311H. (Typically offered: Spring)

GNEG 1411H. Honors Innovation Experience I. 1 Hour.
An initial undergraduate innovation experience for a select group of Engineering First Year students enrolled in the Honors College. Corequisite: GNEG 1111H and MATH 2564 or MATH 2574 or MATH 2584 or MATH 3083 or MATH 2603. (Typically offered: Fall)

GNEG 1421H. Honors Innovation Experience II. 1 Hour.
Continuation of GNEG 1411H. Pre- or Corequisite: MATH 2564. Prerequisite: GNEG 1411H and honors standing. (Typically offered: Spring)

GNEG 1503. Pre-Engineering Applications of Mathematics. 3 Hours.
Overview of the basic algebra and trigonometry skills used in engineering. All topics are motivated by engineering applications. Prerequisite: Departmental consent. (Typically offered: Irregular)

GNEG 1514. Engineering Applications of Mathematics. 4 Hours.
Overview of the mathematics topics heavily used in sophomore-level engineering courses. Topics include algebraic analysis, trigonometry, vectors and complex numbers, sinusoids and harmonic signals, systems of equations and matrices, differentiation, integration, and differential equations. All topics motivated by engineering applications. Usage of mathematical analysis software is emphasized. Prerequisite: (MATH 1203 or MATH 1204) or at least 46 on the Math Placement Test or a score of at least 23 on the math component of the ACT or a score of at least 540 on the math component of the old SAT or 570 on the new SAT. (Typically offered: Fall and Spring)

GNEG 190V. Special Topics. 1-5 Hour.
Consideration of current engineering topics not covered in other courses. Prerequisite: Instructor's consent. (Typically offered: Irregular)

GNEG 290V. Special Topics. 1-5 Hour.
Consideration of current engineering topics not covered in other courses. Prerequisite: Instructor's consent. (Typically offered: Irregular)

GNEG 3103H. Honors Globalization and Innovation. 3 Hours.
Integration of engineering in the globalized business environment. Innovation and integration models. Global survival skills. International organizational value-chain. Conducting business with emerging nations. Case studies; field trips; guest lectures. Experiential learning design component. Taken by students participating in departmental approved study abroad programs. (Typically offered: Irregular)

GNEG 3113. Special Topics-Study Abroad. 3 Hours.
Students travel abroad to gain a global perspective on a particular facet of the engineering discipline. Students are required to complete pre-travel investigative or background assignments, participate in all activities of the actual trip and will produce a post travel reflective or comparative product relative to the special topic. Prerequisite: Instructor consent. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

GNEG 3712H. Honors Research Experience I. 2 Hours.
Introduction to the research of the faculty of the College of Engineering for the purpose of matching students with an undergraduate research advisor. Development of skills in using electronic resources to conduct background research on individuals and topics in the engineering academic community. Development of an undergraduate research white paper with a corresponding presentation. Prerequisite: Honors College and ENGR students only, and instructor consent. (Typically offered: Spring)

GNEG 3801. Parallel Cooperative Education. 1 Hour.
Part time supervised experience in industry where students apply classroom skills to problems specific to their discipline in a professional workplace setting. Credit may not be applicable to degree programs in engineering. Prerequisite: Instructor permission. (Typically offered: Fall, Spring and Summer)

GNEG 3811. Alternating Cooperative Education. 1 Hour.
Full time supervised experience in industry where students apply classroom skills to problems specific to their discipline in a professional workplace setting. Application of credit to a degree program is at the discretion of the department owning the degree program. Prerequisite: Instructor consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.
GNeg 390v. Special Topics. 1-4 Hour.
Consideration of current engineering topics not covered in other courses.
Prerequisite: Instructor's consent. (Typically offered: Irregular) May be repeated for up to 4 hours of degree credit.

GNeg 390vH. Honors Special Topics. 1-4 Hour.
Consideration of current engineering topics not covered in other courses.
Prerequisite: Instructor's consent. (Typically offered: Irregular) May be repeated for up to 4 hours of degree credit.
This course is equivalent to GNeg 390v.

GNeg 490v. Special Topics. 1-4 Hour.
Consideration of current engineering topics not covered in other courses.
Prerequisite: Instructor's consent. (Typically offered: Irregular) May be repeated for up to 4 hours of degree credit.

GNeg 490vH. Honors Special Topics. 1-4 Hour.
Consideration of current engineering topics not covered in other courses.
Prerequisite: Instructor's consent. (Typically offered: Irregular) May be repeated for up to 4 hours of degree credit.
This course is equivalent to GNeg 490v.

Gneg 5103. Globalization and Innovation. 3 Hours.
Integration of engineering in the globalized business environment. Innovation and integration models. Global survival skills. International organizational value-chain. Conducting business with emerging nations. Case studies; field trips; guest lectures. Experiential learning design component. Taken by students participating in departmental approved study abroad programs. (Typically offered: Irregular)

GNeg 550v. Master's Research Project. 1-3 Hour.
Required course for MSE students who wish to complete a Master's research project as part of their degree program. Prerequisite: Instructor permission. (Typically offered: Irregular)

GNeg 5801. Parallel Cooperative Education. 1 Hour.
Part time supervised experience in industry where students apply focused, discipline specific, classroom and research skills to problems directly related to their area of study in a professional work place setting. May be repeated for up to 3 hours of non-degree credit. Prerequisite: Instructor permission. (Typically offered: Fall, Spring and Summer)

GNeg 5811. Alternating Cooperative Education. 1 Hour.
Full time supervised experience in industry where students apply focused, discipline specific, classroom and research skills to problems directly related to their area of study in a professional work place setting. May be repeated for up to 3 hours of non-degree credit. Prerequisite: Instructor permission. (Typically offered: Fall, Spring and Summer)

GNeg 590v. Special Topics. 1-4 Hour.
Consideration of current engineering topics not covered in other courses.
Prerequisite: Instructor's consent. (Typically offered: Irregular) May be repeated for up to 16 hours of degree credit.

Geosciences (GEOS)
Courses
GEOS 1111L. Physical Geology Laboratory (ACTS Equivalency = GEOL 1114 Lab). 1 Hour.
Laboratory exercises concerning the identification of rocks and minerals, use of aerial photographs and topographic maps, and several field trips. Pre- or Corequisite: GEOS 1113. (Typically offered: Fall, Spring and Summer)

GEOS 1111M. Honors Physical Geology Laboratory. 1 Hour.
Survey of geological processes and products and their relationships to landforms, natural resources, living environments, and human beings. Lecture 3 hours, laboratory 2 hours per week. Corequisite: GEOS 1113H. (Typically offered: Fall) This course is equivalent to GEOS 1111L.

GEOS 1113. Physical Geology (ACTS Equivalency = GEOL 1114 Lecture). 3 Hours.
Survey of geological processes and products, and their relationships to landforms, natural resources, living environments and human beings. Corequisite: GEOS 1111L. (Typically offered: Fall, Spring and Summer)

GEOS 1113H. Honors Physical Geology. 3 Hours.
Survey of geological processes and products and their relationships to landforms, natural resources, living environments, and human beings. Lecture 3 hours, laboratory 2 hours per week. Corequisite: GEOS 1111L. (Typically offered: Fall) This course is equivalent to GEOS 1113.

GEOS 1123. Human Geography (ACTS Equivalency = GEOG 1113). 3 Hours.
Basic course in human geography stressing the interrelationships between the natural factors of the environment and man's activities, especially the role of geography in the understanding of social problems and economic and political activities. (Typically offered: Fall and Spring)

GEOS 1123H. Honors Human Geography. 3 Hours.
Basic course in human geography stressing the interrelationships between the natural factors of the environment and man's activities, especially the role of geography in the understanding of social problems and economic and political activities. Prerequisite: Honors candidacy. (Typically offered: Fall and Spring) This course is equivalent to GEOS 1123.

GEOS 1131L. Earth Science Laboratory (ACTS Equivalency = GEOL 1124 Lab). 1 Hour.
Laboratory exercises concerning human interactions with the physical environment including the study of earthquakes, volcanoes, flooding, erosion, mass wasting, water supply and contamination, and waste disposal. (Typically offered: Fall and Spring)

GEOS 1133. Earth Science (ACTS Equivalency = GEOG 1124 Lecture). 3 Hours.
The application of earth science principles and knowledge of problems created by human occupancy and exploitation of the physical environment. (Typically offered: Fall and Spring)

Survey of problems, development potential, and physical and human resources of the developing and developed world. (Typically offered: Fall and Spring)

GEOS 2003H. Honors World Regional Geography. 3 Hours.
Survey of problems, development potential, and physical and human resources of the developing and developed world. Prerequisite: Honors candidacy. (Typically offered: Fall and Spring) This course is equivalent to GEOS 2003.

GEOS 2313. Mineralogy. 3 Hours.
General principles of mineralogy, study and identification of common minerals, igneous & metamorphic rocks using hand samples. Prerequisite: GEOS 1113 and CHEM 1103. Corequisite: Lab component. (Typically offered: Fall)

GEOS 2813. Digital Earth. 3 Hours.
This course introduces the fundamental concepts and practical geospatial techniques of the digital earth initiative. Students will learn how digital geographical information is produced (also referred to as geospatial data) and utilized in a variety of economic, environmental, and scientific applications. The class will concentrate on how digital geospatial data are produced, integrated and applied in daily life and will review a variety of environmental and socioeconomic applications. (Typically offered: Fall)
GEOS 2813H. Honors Digital Earth. 3 Hours.
This course introduces the fundamental concepts and practical geospatial techniques of the digital earth initiative. Students will learn how digital geographical information is produced (also referred to as geospatial data) and utilized in a variety of economic, environmental, and scientific applications. The class will concentrate on how digital geospatial data are produced, integrated and applied in daily life and will review a variety of environmental and socioeconomic applications. Prerequisite: Honors standing. (Typically offered: Fall)
This course is equivalent to GEOS 2813.

GEOS 3013. Foundations of Geospatial Data Analysis. 3 Hours.
Basic mathematical tools applied in geospatial technology, including trigonometry in mapping, linear algebra in remote sensing, optimization in spatial decision support, and graph theory in routing. Course develops the framework for spatial data analysis and decision support. Students may receive credit for the course through testing. Prerequisite: GEOS 3543. (Typically offered: Fall and Spring)

GEOS 3023. Introduction to Cartography. 3 Hours.
Students learn basic principles of map design, cartographic theory and field surveying to produce a variety of computer-generated maps. An introductory course designed for students in a variety of different disciplines using AutoCad software and various new technologies. Field trips may be required. (Typically offered: Fall)

GEOS 3033. Building Materials Field Studies. 3 Hours.
Study of durable building materials, their availability, strength, deterioration, limitation and utility. Historic construction techniques, identification of architectural materials, architectural elements assessment, causes and mechanisms of deterioration, conservation and treatment of architectural materials, preservation philosophies and standards and creation of a practical field identification kit will also be covered. Corequisite: Lab component. (Typically offered: Irregular)

GEOS 3043. Sustaining Earth. 3 Hours.
Theory and growth of conservation and sustainability, the wise use of the major natural resources of the United States. This course meets the requirement in conservation and sustainability for teachers. Prerequisite: Junior standing. (Typically offered: Fall)

GEOS 3043H. Honors Sustaining Earth. 3 Hours.
Theory and growth of conservation and the wise use of the major natural resources of the United States. This course meets the requirement in conservation for teachers. Prerequisite: Junior standing. (Typically offered: Fall)
This course is equivalent to GEOS 3043.

GEOS 3063. Geology of Arkansas. 3 Hours.
A survey of the distribution, genesis, and age of the rocks, fossils, structures, landforms and geological processes of Arkansas. Equivalent to two hours of lecture per week. Field trips required. Prerequisite: GEOS 1113 or GEOS 1113H. (Typically offered: Spring)

GEOS 3103. Geospatial Technologies Computational Toolkit. 3 Hours.
Basic computational tools and processes applied in geospatial software, related computer hardware components, systems and applications software, and spatial database fundamentals. Python, including SciPy and NumPy, geospatial implementations will be emphasized. No programming experience is required. Students may receive credit for the course through testing. Prerequisite: GEOS 3543. (Typically offered: Fall and Spring)

GEOS 3114. Paleontology. 4 Hours.
Survey of the phyla commonly preserved as fossils emphasizing their physical and biological characteristics. Lecture 3 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: GEOS 1133 or (BIOL 1543 and BIOL 1541L) or equivalent. (Typically offered: Spring)

GEOS 3213. Principles of Remote Sensing. 3 Hours.
Fundamental concepts of remote sensing of the environment. Optical, infrared, microwave, LiDAR, and in situ sensor systems are introduced. Remote sensing of vegetation, water, urban landscapes, soils, minerals, and geomorphology is discussed. The course includes laboratory exercises in GIS software and field spectroscopy. (Typically offered: Fall)

GEOS 3313. Igneous and Metamorphic Petrology. 3 Hours.
Megascopic study and classification of igneous and metamorphic rocks. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: GEOS 2133. (Typically offered: Spring)

GEOS 3333. Oceanography. 3 Hours.
The sea, its landforms; its winds and currents as related to the atmosphere, world climates, and world trade; its basin as avenues for continental drift; its waters as habitat for plant and animal life; its marine and submarine resources as presently and potentially useful to man. Offered as physical science. Prerequisite: Junior standing. (Typically offered: Fall)

GEOS 3413. Sedimentary Geology. 3 Hours.
An introductory study of sedimentary rocks from the standpoint of classification, field and laboratory description, genesis, and preservation. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: GEOS 2133. (Typically offered: Spring)

GEOS 3514. Structural Geology. 4 Hours.
Survey of deformational features and their geological significance in the crust of the earth. Lecture 3 hours per week. Corequisite: Lab component. Prerequisite: GEOS 1113. (Typically offered: Spring)

GEOS 3543. Geospatial Applications and Information Science. 3 Hours.
An introduction to the methods and theory underlying the full range of geographic information science and collateral areas - including GNSS, remote sensing, cadastral, spatial demographics and others. (Typically offered: Fall and Spring)
This course is cross-listed with ANTH 3543.

GEOS 3553. Spatial Analysis Using ArcGIS. 3 Hours.
Applications of analysis of spatial data using ArcGIS tools in map design, on-line mapping, creating geodatabases, accessing geospatial data, geo-processing, digitizing, geocoding, spatial analysis including basic spatial statistics, analysis of spatial distributions and patterning and 3D application using ArcGIS 3D Analyst. Prerequisite: GEOS 3543. (Typically offered: Fall and Spring)

GEOS 3563. Geospatial Data Mining. 3 Hours.
Basic tools for analyzing, summarizing and visualizing geospatial data. Exploratory data and spatial data analysis, probability distributions and application, single and multivariate analysis and hypothesis testing, and spatial smoothing and interpolation. Emphasis will be on problem solving in geospatial settings using the R statistical language. Prerequisite: GEOS 3543 and (GEOS 3013 or MATH 2554 or MATH 2043 or DASC 2594) and (GEOS 3103 or DASC 1104 or DASC 2113). (Typically offered: Fall and Spring)

GEOS 3593. Introduction to Geodatabases. 3 Hours.
Fundamental concepts and applications of geospatial databases. Schema development and spatial data models for geodata. Spatial and attribute query and optimization, properties and structures of relational and object-oriented geodatabases. Spatial extensions of SQL, spatial indexing, measurement, and geometry. Prerequisite: GEOS 3543 and (GEOS 3013 or MATH 2554 or MATH 2043 or DASC 2594) and (GEOS 3103 or DASC 1104 or DASC 2113). (Typically offered: Fall and Spring)

GEOS 360V. Undergraduate Special Problems. 1-6 Hour.
Library, laboratory, or field research in different phases of geology. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.
GEOS 3873. Geological Data Analysis. 3 Hours.
Quantitative methods and techniques for analysis and interpretation of geological data. Corequisite: Lab component; Pre- or corequisite: MATH 2564. (Typically offered: Spring)

GEOS 3901. Junior Honors Course. 1 Hour.
Special honors research in geology. One hour credit each semester. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer)

GEOS 3911. Junior Honors Course. 1 Hour.
Special honors research in geology. One hour credit each semester. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer)

GEOS 3923H. Honors Colloquium. 3 Hours.
Covers a special topic or issue, offered as part of the honors program. Prerequisite: Honors candidacy (not restricted to candidacy in geology or geography). (Typically offered: Irregular) May be repeated for degree credit.

GEOS 399VH. Honors Course. 1-6 Hour.
Honors course. Prerequisite: Junior standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

GEOS 4033. Hydrogeology. 3 Hours.
Occurrence, movement, and interaction of water with geologic and cultural features. Lecture 3 hours per week. Corequisite: Lab component. Prerequisite: MATH 2043 or MATH 2554, and GEOS 3514. (Typically offered: Spring)

GEOS 4043. Geography of the Middle East. 3 Hours.
Physical and cultural landscapes, natural and cultural resources, art and architecture, land use, political history, OPEC, and current problems of North Africa and the Middle East region west of Afghanistan are discussed. Class participation, discussions, slides and films, and student presentations will round out the class. Prerequisite: Junior standing. (Typically offered: Fall)

GEOS 4043H. Honors Geography of the Middle East. 3 Hours.
Physical and cultural landscapes, natural and cultural resources, art and architecture, land use, political history, OPEC, and current problems of North Africa and the Middle East region west of Afghanistan are discussed. Class participation, discussions, slides and films, and student presentations will round out the class. Prerequisite: Junior standing. (Typically offered: Irregular)
This course is equivalent to GEOS 4043.

GEOS 4053. Geomorphology. 3 Hours.
A quantitative, mechanistic overview of surface processes and landscape evolution. Lecture 2 hours, laboratory 3 hours per week. One to two field trips on weekends (2 day total) are required during the semester. Corequisite: Lab component. Prerequisite: GEOS 3873 or instructor consent. (Typically offered: Spring)

GEOS 4063. Principles of Geochemistry. 3 Hours.
Introduction to fundamental principles of geochemistry from historic development to modern concepts. Prerequisite: CHEM 1121L, CHEM 1123 and GEOS 2313. (Typically offered: Fall)

GEOS 4073. Urban Geography. 3 Hours.
Areal patterns of modern urban regions and the focus shaping these patterns. Emphasis is placed on American urban areas and their evolution and functional areas. Field work. Prerequisite: Junior standing. (Typically offered: Spring)

GEOS 4083. Economic Geology. 3 Hours.
Introduction to mineral deposits used as economic resources. Covers basic geology and geochemistry of mineral deposit formations and the formation of major classes of deposits. Examines the relationship between the distribution of ores, oil, gas, coal, and Plate Tectonics. Explores environmental issues associated with the extraction of earth resources. Prerequisite: GEOS 2313. (Typically offered: Irregular)

GEOS 4093. History and Philosophy of Geography. 3 Hours.
This course familiarizes students with the history of geography, the contributions of geographers to scientific thought and theory, and research techniques that are used in geography. Emphasis is given to the integration of statistical and spatial analysis, and their applications in field research. The course includes short field-based projects in and around Northwest Arkansas. (Typically offered: Spring Even Years)

GEOS 410V. Special Problems in Geosciences. 1-6 Hours.
Designed to meet the needs of students who wish to study one particular geographic topic in some detail. Prerequisite: Junior standing. (Typically offered: Fall) May be repeated for up to 6 hours of degree credit.

GEOS 410VH. Honors Special Problems in Geosciences. 1-6 Hour.
Designed to meet the needs of students who wish to study one particular geographic topic in some detail. Prerequisite: Junior standing. (Typically offered: Fall) May be repeated for up to 6 hours of degree credit.
This course is equivalent to GEOS 410V.

GEOS 4113. Global Change. 3 Hours.
Examines central issues of global change including natural and human induced climate change, air pollution, deforestation, desertification, wetland loss urbanization, and the biodiversity crisis. The U.S. Global Change Research Program is also examined. (Typically offered: Spring)

GEOS 4113H. Honors Global Change. 3 Hours.
Examines central issues of global change including natural and human induced climate change, air pollution, deforestation, desertification, wetland loss urbanization, and the biodiversity crisis. The U.S. Global Change Research Program is also examined. Prerequisite: Honors candidacy. (Typically offered: Spring)
This course is equivalent to GEOS 4113.

GEOS 4133. Radar Remote Sensing. 3 Hours.
Introduction to radar remote sensing and its applications in geology, geography, archeology, engineering, and agriculture. Focuses on Synthetic Aperture Radar (SAR) and advanced techniques including radar stereo, polarimetry, and interferometry. Covers Interferometric SAR (InSAR) for mapping topography and modeling Earth's surface motions due to earthquakes, volcanic eruptions, landslides, and subsidence. Prerequisite: GEOS 3023 or equivalent. (Typically offered: Spring)

GEOS 4153. Karst Hydrogeology. 3 Hours.
Assessment of ground water resources in carbonate rock terrains; relation of ground water and surface water hydrology to karst; quantification of extreme variability in karst environments; data collection rationale. Field trips required. Prerequisite: GEOS 4033. (Typically offered: Irregular)

GEOS 4223. Stratigraphy and Sedimentation. 3 Hours.
Introductory investigation of stratigraphic and sedimentologic factors important to the study of sedimentary rocks. Lecture 2 hours, laboratory 3 hours per week. A required weekend, two-day field trip will be conducted during the semester. Corequisite: Lab component. Prerequisite: GEOS 3413. (Typically offered: Fall)

GEOS 4233. Geography of Religion & Sacratity. 3 Hours.
Explores the spatial nature of the World's major faiths and religious institutions, focusing on the distribution and origins of these religions. Examines the religious beliefs, rituals, architecture, demographics, and art in different societies, cultures, and countries. Considers the tenets and practices of what is sacred and/or spiritual, held in common by a group or community. Prerequisite: Junior or senior standing. (Typically offered: Irregular)

GEOS 4243. Political Geography. 3 Hours.
Contemporary world political problems in their geographic context. Development of the principles of political geography with emphasis upon the problems of Eastern Europe, Africa, and Southeast Asia. Prerequisite: Junior standing. (Typically offered: Fall Odd Years)
GEOS 4253. Petroleum Geology. 3 Hours.
Distribution and origin of petroleum. Lecture 2 hours, laboratory 2 hours per week.
Corequisite: Lab component. Prerequisite: Geology major and senior standing.
(Typically offered: Fall)

GEOS 4263. Geospatial Data Science - Sources and Characteristics. 3 Hours.
Covers the wide range of geospatial data sources and characteristics with emphasis
on data science applications through hands-on experience recognizing the unique
requirements of major sources. Techniques for the integration of disparate,
heterogeneous data sets will be covered. Corequisite: GEOS 3563. Prerequisite:
GEOS 3543. (Typically offered: Fall)

GEOS 430V. Internship in Physical Geography. 3-6 Hour.
Supervised experience in municipal, county, state or private natural resource
management agency, or any other such organization approved by instructor.
(Typically offered: Fall, Spring and Summer)

GEOS 4353. Meteorology. 3 Hours.
Examination of the atmospheric processes that result in multifarious weather
systems. Offered as physical science. Prerequisite: Junior standing. (Typically
offered: Fall)

GEOS 4363. Climatology. 3 Hours.
Fundamentals of topical climatology followed by a study of regional climatology.
Offered as physical science. Prerequisite: GEOS 1133 or GEOS 4353. (Typically
offered: Spring)

GEOS 437V. Geology Field Trip. 1-2 Hour.
Camping field trip to areas of geologic interest, usually conducted during Spring
Break. (Typically offered: Spring) May be repeated for up to 4 hours of degree credit.

GEOS 4383. Hazard & Disaster Assessment, Mitigation, Risk & Policy. 3 Hours.
Comprehensive introduction to interdisciplinary approaches to natural and
environmental hazards and risk. Hazards and disaster assessment, mitigation, and
policy are the focus of the class. Prerequisite: Junior or senior standing. (Typically
offered: Spring) May be repeated for up to 6 hours of degree credit.

GEOS 4383H. Honors Hazard & Disaster Assessment, Mitigation, Risk & Policy. 3 Hours.
Comprehensive introduction to interdisciplinary approaches to natural and
environmental hazards and risk. Hazards and disaster assessment, mitigation, and
policy are the focus of the class. Prerequisite: Junior or senior standing. (Typically
offered: Spring)

This course is equivalent to GEOS 4383.

GEOS 4393. American Public Lands & Policy. 3 Hours.
The course examines the role of American federal public lands in 19th-21st century
geography, history, policy, and art. It investigates the growth of conservation,
preservation, and management movements in the US by looking at America's
national parks, forests, dams, wildlife refuges, wilderness areas, managed and
agricultural lands. Prerequisite: Junior or senior standing. (Typically offered: Fall)

GEOS 4393H. Honors American Public Lands & Policy. 3 Hours.
The course examines the role of American federal public lands in 19th-21st century
geography, history, policy, and art. It investigates the growth of conservation,
preservation, and management movements in the US by looking at America's
national parks, forests, dams, wildlife refuges, wilderness areas, managed and
agricultural lands. Prerequisite: Honors standing and Junior or senior standing.
(Typically offered: Irregular)

This course is equivalent to GEOS 4393.

GEOS 440V. Internship in GIS & Cartography. 3-6 Hour.
Supervised experience in GIS and/or cartographic applications with municipal,
county, state, or private enterprises. (Typically offered: Fall, Spring and
Summer) May be repeated for up to 6 hours of degree credit.

GEOS 4433. Geophysics. 3 Hours.
Derivation from physical principles, of the geophysical methods for mapping
the Earth. Computational methods of converting gravity, magnetic, radiometric,
electrical, and seismic data into geologic information. Lecture 3 hours, laboratory
2 hours per week. Corequisite: Lab component. Prerequisite: MATH 2564 and
PHYS 2033 and PHYS 2031L and GEOS 3514. (Typically offered: Irregular)

GEOS 4443. The Solid Earth: Structure, Composition and Evolution. 3 Hours.
Modern views for the origin of the solid Earth and its structure, composition,
and evolution through geologic time. Topics will include examination of relevant
geophysical and geochemical constraints used to develop global models for the
Earth. Prerequisite: CHEM 1123, MATH 2564, PHYS 2074 or instructor consent.
(Typically offered: Regular)

GEOS 4463. 3D Seismic Exploration. 3 Hours.
Interpretation of the spatial component of three-dimensional seismic data in geologic
structure and stratigraphy with emphasis on hydrocarbon exploration. Prerequisite:
GEOS 3514 or instructor consent. (Typically offered: Spring)

GEOS 4473. Applied Climatology. 3 Hours.
Applied climatology involves the use of climatic data to solve a variety of social,
economic and environmental problems, such as for clients in agriculture, water and
energy management. The basic purpose of applied climatology is to help society,
at all scales and levels, to achieve a better adjustment to the climatic environment.
(Typically offered: Fall)

GEOS 4473H. Honors Applied Climatology. 3 Hours.
Applied climatology involves the use of climatic data to solve a variety of social,
economic and environmental problems, such as for clients in agriculture, water and
energy management. The basic purpose of applied climatology is to help society,
at all scales and levels, to achieve a better adjustment to the climatic environment.
(Typically offered: Fall)

This course is equivalent to GEOS 4473.

GEOS 4483. Severe Weather. 3 Hours.
Focuses on the formation and impact of weather phenomena such as blizzards,
floods, tornadoes, thunderstorms, hurricanes and droughts. Covers the mechanisms
and physics that control severe weather, advanced terminology, physical concepts
and scientific methods used in meteorology, and the analysis and interpretation of
meteorological data. Prerequisite: GEOS 1133 and GEOS 1133L. (Typically offered: Spring)

GEOS 4493. Geography of Political Violence. 3 Hours.
This seminar focuses on the rise of civil conflict in the post-World War II world.
We are particularly interested in understanding the institutional challenges facing
countries that experience such conflict. The class will develop a contextually-
trained understanding of the international system and how it is shaped by civil war.
Prerequisite: Junior or senior standing. (Typically offered: Fall Even Years)
This course is cross-listed with INST 4103.

GEOS 4493H. Honors Geography of Political Violence. 3 Hours.
This seminar focuses on the rise of civil conflict in the post-World War II world.
We are particularly interested in understanding the institutional challenges facing
countries that experience such conflict. The class will develop a contextually-
trained understanding of the international system and how it is shaped by civil war.
Pre- or Corequisite: INST 2013. Prerequisite: Junior or senior standing and honors
standing. (Typically offered: Fall Even Years)
This course is cross-listed with GEOS 4493, INST 4103.

GEOS 4503. Advanced Cartographic Techniques & Production. 3 Hours.
Covers advanced production and techniques in cartography, including animation,
geospatial visualization, pochade, and advanced visualization. Emphasizes client
relationships in creating and producing cartographic materials. Prerequisite:
GEOS 4523. (Typically offered: Irregular)
GEOS 4513. Introduction to GIS Programming. 3 Hours.
This course introduces fundamentals of GIS software engineering and offers hands-on tutorials in customized applications using ArcGIS through programming ArcObjects in VBA / VA.net environment. Topics covered include ArcObjects, different programming syntax and styles, and fundamental routines and functions in ArcGIS. After completing the course, students will have the capability to develop customized ArcGIS applications. (Typically offered: Fall)

GEOS 4523. Cartographic Design and Production. 3 Hours.
This course addresses advanced cartographic concepts (i.e. visual hierarchy, aesthetics, image cognition) and production techniques as they relate to computer-assisted mapping. Students produce a variety of maps using Adobe Illustrator (CS 4-6) software to build a map portfolio. Field trips may be required. Prerequisite: GEOS 3023. (Typically offered: Spring)

GEOS 4533. Introduction to Petroleum Geophysics. 3 Hours.
Introduction to seismic wave propagation and petroleum seismology with particular emphasis on seismic events, elastic waves, and seismic survey design. Prerequisite: MATH 2564, (PHYS 2033 or PHYS 2074), and GEOS 3514 or instructor consent. (Typically offered: Fall)

GEOS 4533H. Honors Introduction to Petroleum Geophysics. 3 Hours.
Introduction to seismic wave propagation and petroleum seismology with particular emphasis on seismic events, elastic waves, and seismic survey design. Prerequisite: MATH 2564, (PHYS 2033 or PHYS 2074), and GEOS 3514 or instructor consent. (Typically offered: Fall)
This course is equivalent to GEOS 4533.

GEOS 4553. Introduction to Raster GIS. 3 Hours.
Theory, data structure, algorithms, and techniques behind raster-based geographical information systems. Through laboratory exercises and lectures multidisciplinary applications are examined in database creation, remotely sensed data handling, elevation models, and resource models using boolean, map algebra, and other methods. Prerequisite: GEOS 3543 or ANTH 3543. (Typically offered: Fall)
This course is cross-listed with ANTH 4553.

GEOS 4563. Geology of Our National Parks. 3 Hours.
This course examines the underlying geology responsible for selected parks, and explores the interplay of geology, biology, climate, topography, and humans to evaluate the value of the parks, and to anticipate the problems they will face in the near and long-term. Prerequisite: GEOS 1113. (Typically offered: Fall)

GEOS 4583. Enterprise and Multiuser GIS. 3 Hours.
GIS practice that's typical of collaborative team-based geospatial organizations. Solve real-world problems through end-to-end GIS design and implementation using ArcGIS Enterprise, extensive federal, state, and local repositories, and high quality software documentation. Includes relevant training in geospatial provenance and metadata, and in enterprise and multiuser GIS administration. (Typically offered: Spring)

GEOS 4593. Introduction to Global Positioning Systems and Global Navigation Satellite Systems. 3 Hours.
Fundamentals of navigation, mapping, and high-precision positioning using the Navstar Global Positioning System. Topics include datum definition and transformation, map projections, autonomous and differential positioning using both code and carrier processing, and analysis of errors. Prerequisite: GEOS 3543 or GEOS 5543. (Typically offered: Fall)
This course is cross-listed with ANTH 4593.

GEOS 4653. GIS Analysis and Modeling. 3 Hours.
Unlike conventional GIS courses that focus on studying "where", this course will teach students to address beyond "where" using various GIS analysis and modeling techniques to explore "why" and "how". The course will provide theoretical and methodological reviews of the principles of cartographic modeling and multi-criteria decision-making. (Typically offered: Spring)
This course is cross-listed with ANTH 4653.

GEOS 4653H. Honors GIS Analysis and Modeling. 3 Hours.
Unlike conventional GIS courses that focus on studying "where", this course will teach students to address beyond "where" using various GIS analysis and modeling techniques to explore "why" and "how". The course will provide theoretical and methodological reviews of the principles of cartographic modeling and multi-criteria decision-making. (Typically offered: Spring)
This course is cross-listed with GEOS 4653, ANTH 4653.

GEOS 4663. Low-Temperature Geochemistry of Natural Waters. 3 Hours.
Covers the low-temperature geochemistry of waters and their associated minerals at Earth's surface. Examines the controls on the chemical composition of natural waters and the minerals precipitated from them. Topics covered will include water-rock interactions, pH, redox, the carbonate-water system, clay minerals and exchange, heavy metals, and a brief introduction to stable isotopes and geomicrobiology. Prerequisite: CHEM 1121L, CHEM 1123, GEOS 1113, and GEOS 1111L. (Typically offered: Fall)

GEOS 4673. Volcanology. 3 Hours.
A broad introduction to volcanic processes and their associated hazards. Emphasis will be placed on applying basic physical and chemical principles to understanding volcanic systems. Prerequisite: GEOS 2313. (Typically offered: Irregular)

GEOS 4686. Geology Field Camp. 6 Hours.
A professional course taught off campus emphasizing occurrence, description, mapping, and interpretation of major rock types. May not be taken for graduate credit. Prerequisite: GEOS 3413 and GEOS 3514. (Typically offered: Summer)

GEOS 4693. Environmental Justice. 3 Hours.
This course deals with the ethical, environmental, legal, economic, and social implications of society's treatment of the poor, the disenfranchised, and minorities who live in the less desirable, deteriorating neighborhoods, communities, and niches of our country. The class integrates science with philosophy, politics, economics, policy, and law, drawing on award-winning films, current news, and case studies. (Typically offered: Spring)

GEOS 4693H. Honors Environmental Justice. 3 Hours.
This course deals with the ethical, environmental, legal, economic, and social implications of society's treatment of the poor, the disenfranchised, and minorities who live in the less desirable, deteriorating neighborhoods, communities, and niches of our country. The class integrates science with philosophy, politics, economics, policy, and law, drawing on award-winning films, current news, and case studies. (Typically offered: Spring)
This course is equivalent to GEOS 4693.

GEOS 4783. Geography of Europe. 3 Hours.
Geographic regions of the area with emphasis on their present development. Prerequisite: Junior standing. (Typically offered: Irregular)

GEOS 4793. Geospatial Unmanned Aircraft Systems. 3 Hours.
Geospatial unmanned aircraft systems (UAS) are becoming key technologies in a number of disciplines. This course will introduce safe and legal operation of UAS in aerial photography, multispectral, thermal and LIDAR applications, geodetic control, photogrammetric and computer vision processing, and the creation of accurate 2D and 3D digital information products. Pre- or Corequisite: GEOS 3213 or GEOS 4593 or equivalent. (Typically offered: Fall)

GEOS 4793H. Honors Geospatial Unmanned Aircraft Systems. 3 Hours.
Geospatial unmanned aircraft systems (UAS) are becoming key technologies in a number of disciplines. This course will introduce safe and legal operation of UAS in aerial photography, multispectral, thermal and LIDAR applications, geodetic control, photogrammetric and computer vision processing, and the creation of accurate 2D and 3D digital information products. Pre- or Corequisite: Honors standing and GEOS 4593 or equivalent. (Typically offered: Fall)
This course is equivalent to GEOS 4793.
GEOS 4813. Geography of Eurasia. 3 Hours.
Introduction to the culture, society, and politics of Eurasia using the organizing concept of empire from the moment of its consolidation in 1945 to its dissolution in 1991. Focuses on places that have emerged from this order and emphasizes experience and memory at each of these different times and places. Prerequisite: Junior standing. (Typically offered: Spring Even Years)

GEOS 4863. Quantitative Techniques in Geosciences. 3 Hours.
An introduction to the application of standard quantitative and spatial statistical techniques to geoscientific analysis. Students will use both micro and large system computers in the course. (Typically offered: Spring)
This course is cross-listed with ANTH 4863.

GEOS 4924. Earth System History (ACTS Equivalency = PHSC 1104). 4 Hours.
Physical and biological events that form the history of the earth from its formation to the beginning of the historical era. Corequisite: Lab component. Prerequisite: GEOS 3413 and (GEOS 4223 or GEOS 3313) and GEOS 3514. (Typically offered: Spring)

GEOS 4933. Ancient Forest Science and Sustainability. 3 Hours.
Ancient forests preserve beautiful habitat with high ecological integrity. This course will examine the development, spatial distribution, and ongoing destruction of ancient forests worldwide, and how science can contribute to the understanding and sustainable management of these valuable resources. (Typically offered: Spring)

GEOS 4972H. Senior Honors Course I. 2 Hours.
Special honors research in geology. Two hours of credit each semester. Prerequisite: Junior honors. (Typically offered: Fall, Spring and Summer)

GEOS 4982H. Senior Honors Course II. 2 Hours.
Special honors research in geology. Two hours of credit each semester. Prerequisite: Junior honors. (Typically offered: Fall, Spring and Summer)

GEOS 4993. Dynamics of Sediment Transport. 3 Hours.
This is a course focused on how fluids transport sediment and construct stratigraphy. Lectures will develop environmental fluid mechanics and sediment transport from first principles so they can be used to evaluate sedimentological and stratigraphic problems. This framework will be applied to a sedimentological problem using original data and analysis. Pre- or Corequisite: GEOS 4223. Prerequisite: GEOS 3413. (Typically offered: Fall Odd Years)

GEOS 5003. Seminar in Geography. 3 Hours.
Selected topics, the nature of which varies with the need. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

GEOS 5011. Colloquium. 1 Hour.
Weekly meetings of faculty, graduates, advanced students and guests to discuss research and trends in the field of geography. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

GEOS 5023. Technical and Proposal Writing for the Geosciences. 3 Hours.
Preparation of technical reports, research proposals, and manuscripts for publication in the area of geosciences. (Typically offered: Spring)

GEOS 5043. Foundations of Geospatial Data Analysis. 3 Hours.
Basic mathematical tools applied in geospatial technology, including trigonometry in mapping, linear algebra in remote sensing, optimization in spatial decision support, and graph theory in routing. Course develops the framework for spatial data analysis and decision support. Pre- or Corequisite: GEOS 5543. (Typically offered: Fall and Spring)

GEOS 5053. Quaternary Environments. 3 Hours.
An interdisciplinary study of the Quaternary Period, including dating methods, deposits, soils, climates, tectonics, and human adaptation. Lecture 2 hours, laboratory 2 hours per week. Prerequisite: Graduate standing. (Typically offered: Fall)
This course is cross-listed with ANTH 5053, ENDY 5053.

GEOS 5073. Geospatial Technologies Computational Toolkit. 3 Hours.
Basic computational tools and processes applied in geospatial software, related computer hardware components, systems and applications software, and spatial database fundamentals. Python, including SciPy and NumPy, geospatial implementations will be emphasized. No programming experience is required. Pre- or Corequisite: GEOS 5543. (Typically offered: Fall and Spring)

GEOS 5083. Geospatial Data Mining. 3 Hours.
Basic tools for analyzing, summarizing and visualizing geospatial data. Exploratory data and spatial data analysis, probability distributions and application, single and multivariate analysis and hypothesis testing, and spatial smoothing and interpolation. Emphasis will be on problem solving in geospatial settings using the R statistical language. Prerequisite: GEOS 5043 and GEOS 5073 or equivalent. (Typically offered: Fall and Spring)

GEOS 5093. History and Philosophy of Geography. 3 Hours.
This course familiarizes students with the history of geography, the contributions of geographers to scientific thought and theory, and research techniques that are used in geography. Emphasis is given to the integration of statistical and spatial analysis, and their applications in field research. The course includes short field-based projects in and around Northwest Arkansas. (Typically offered: Spring Even Years)

GEOS 510V. Special Problems in Physical Geosciences. 1-6 Hour.
Special problems in Geosciences. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

GEOS 5113. Global Change. 3 Hours.
Examines central issues of global change including natural and human induced climate change, air pollution, deforestation, desertification, wetland loss urbanization, and the biodiversity crisis. The U.S. Global Change Research Program is also examined. (Typically offered: Fall)
This course is cross-listed with ENDY 5113.

GEOS 5123. Stratigraphic Principles and Practice. 3 Hours.
Physical and biological characteristics of sedimentary environments and their correlation in time with emphasis on the local geologic section. Corequisite: Lab component. Prerequisite: GEOS 4223 or GEOS 5323 (formerly GEOS 4223). (Typically offered: Irregular)

GEOS 5133. Radar Remote Sensing. 3 Hours.
Introduction to radar remote sensing and its applications in geology, geography, archeology, engineering, and agriculture. Focuses on Synthetic Aperture Radar (SAR) and advanced techniques including radar stereo, polarimetry, and interferometry. Covers Interferometric SAR (InSAR) for mapping topography and modeling Earth’s surface motions due to earthquakes, volcanic eruptions, landslides, and subsidence. Prerequisite: GEOS 3023 or equivalent. (Typically offered: Spring)

GEOS 5143. 3D Seismic Exploration. 3 Hours.
(Formerly GEOS 4463.) Interpretation of 3D seismic data for geological structure, stratigraphy, and pore fluid variations with emphasis on hydrocarbon exploration. Credit will not be given for both GEOS 4463 and GEOS 5143. Prerequisite: GEOS 4433 or GEOS 5433 (formerly GEOS 4433). (Typically offered: Spring)

GEOS 5153. Environmental Site Assessment. 3 Hours.
Principles, problems, and methods related to conducting an environmental site assessment. An applied course covering field site assessment, regulatory documentation, and report preparation. Prerequisite: GEOS 4033 or GEOS 5263 (formerly GEOS 4033). (Typically offered: Irregular)
This course is cross-listed with ENDY 5153.
GEOS 5163. Hydrogeologic Modeling. 3 Hours.
Topics include numerical simulation of ground water flow, solute transport, aqueous geochemistry, theoretical development of equations, hypothesis testing of conceptual models, limitations of specific methods, and error analysis. Emphasis on practical applications and problem solving. Prerequisite: GEOS 4033 or GEOS 5263 (formerly GEOS 4033) and computer literacy. (Typically offered: Irregular)

GEOS 5173. Urban Geography. 3 Hours.
(Area patterns of modern urban regions and the focus shaping these patterns. Emphasis is placed on American urban areas and their evolution and functional areas. Field work. Graduate degree credit will not be given for both GEOS 4073 and GEOS 5173. (Typically offered: Irregular)

GEOS 5183. Geography of the Middle East. 3 Hours.
(Formerly GEOS 4073.) Physical and cultural landscapes, natural and cultural resources, art and architecture, land use, political history, OPEC, and current problems of North Africa and the Middle East region west of Afghanistan are discussed. Class participation, discussions, slides and films, and student presentations will round out the class. Graduate degree credit will not be given for both GEOS 4043 and GEOS 5183. (Typically offered: Fall)

GEOS 5196. Advanced Field Methods of Applied Hydrogeology. 6 Hours.
Applied field course emphasizing collection and interpretation of ground water data. Three hours may be applied toward an M.S. degree in geology. Prerequisite: GEOS 4033 or GEOS 5253 (formerly GEOS 4033). (Typically offered: Summer)

GEOS 520V. Special Problems in Human Geography. 1-6 Hour.
Special problems in human geography. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

GEOS 5213. Principles of Remote Sensing. 3 Hours.
Fundamental concepts of remote sensing of the environment. Optical, infrared, microwave, LIDAR, and in situ sensor systems are introduced. Remote sensing of vegetation, water, urban landscapes, soils, minerals, and geomorphology is discussed. The course includes laboratory exercises in GIS software and field spectroscopy. (Typically offered: Fall)

GEOS 5223. Sedimentary Petrology. 3 Hours.
Sediments and sedimentary rocks. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: GEOS 4223 or GEOS 5323 (formerly GEOS 4223). (Typically offered: Fall)

GEOS 5233. Geography of Religion & Sacrality. 3 Hours.
Explores the spatial nature of the World’s major faiths and religious institutions, focusing on the distribution and origins of these religions. Examines the religious beliefs, rituals, architecture, demographics, and art in different societies, cultures, and countries. Considers the tenets and practices of what is sacred and/or spiritual, held in common by a group or community. Prerequisite: Graduate standing. (Typically offered: Fall Odd Years)

GEOS 5243. Political Geography. 3 Hours.
(Formerly GEOS 4243.) Contemporary world political problems in their geographic context. Development of the principles of political geography with emphasis upon the problems of Eastern Europe, Africa, and Southeast Asia. Graduate degree credit will not be given for both GEOS 4243 and GEOS 5243. (Typically offered: Fall Odd Years)

GEOS 5253. Geomorphology. 3 Hours.
(Formerly GEOS 4053.) Mechanics of landform development. Lecture 2 hours, laboratory 3 hours per week. Several local field trips are required during the semester. Graduate degree credit will not be given for both GEOS 4053 and GEOS 5253. (Typically offered: Spring)

GEOS 5263. Hydrogeology. 3 Hours.
(Formerly GEOS 4033.) Occurrence, movement, and interaction of water with geologic and cultural features. Lecture 3 hours per week. Graduate degree credit will not be given for both GEOS 4033 and GEOS 5263. Corequisite: Lab component. Prerequisite: MATH 2043 or MATH 2554, and GEOS 3514. (Typically offered: Spring)

GEOS 5273. Principles of Geochemistry. 3 Hours.
Introduction to fundamental principles of geochemistry from historic development to modern concepts. Graduate degree credit will not be given for both GEOS 4063 and GEOS 5273. Prerequisite: CHEM 1121L, CHEM 1123 and GEOS 2313. (Typically offered: Fall)

GEOS 5283. Economic Geology. 3 Hours.
(Formerly GEOS 4083.) Introduction to mineral deposits used as economic resources. Covers basic geology and geochemistry of mineral deposit formations and the formation of major classes of deposits. Examines the relationship between the distribution of ores, oil, gas, coal, and Plate Tectonics. Explores environmental issues associated with the extraction of earth resources. Graduate degree credit will not be given for both GEOS 4083 and GEOS 5283. Prerequisite: GEOS 2313. (Typically offered: Irregular)

GEOS 5293. Introduction to Global Positioning Systems and Global Navigation Satellite Systems. 3 Hours.
(Formerly GEOS 4593.) Fundamentals of navigation, mapping, and high-precision positioning using the Navstar Global Positioning System. Topics include datum definition and transformation, map projections, autonomous and differential positioning using both code and carrier processing, and analysis of errors. Graduate degree credit will not be given for both GEOS 4593 and GEOS 5293. (Typically offered: Fall)

This course is cross-listed with ANTH 5593.

GEOS 530V. Special Problems in Regional Geography. 1-6 Hour.
Special problems in regional geography. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

GEOS 5313. Planetary Atmospheres. 3 Hours.
Origins of planetary atmospheres, structures of atmospheres, climate evolution, dynamics of atmospheres, levels in the atmosphere, the upper atmosphere, escape of atmospheres, comparative planetology of atmospheres. (Typically offered: Irregular)

GEOS 5323. Stratigraphy and Sedimentation. 3 Hours.
(Formerly GEOS 4223.) Introductory investigation of stratigraphic and sedimentologic factors important to the study of sedimentary rocks. Lecture 2 hours, laboratory 3 hours per week. A required weekend, two-day field trip will be conducted during the semester. Graduate degree credit will not be given for both GEOS 4223 and GEOS 5323. Corequisite: Lab component. Prerequisite: GEOS 3413. (Typically offered: Fall)

GEOS 534V. Internship in Physical Geography. 3-6 Hour.
(Formerly GEOS 430V.) Supervised experience in municipal, county, state or private natural resource management agency, or any other such organization approved by instructor. Graduate degree credit will not be given for both GEOS 430V and GEOS 534V. (Typically offered: Fall, Spring and Summer)

GEOS 5353. Meteorology. 3 Hours.
(Formerly GEOS 4353.) Examination of the atmospheric processes that result in multifarious weather systems. Offered as physical science. Graduate degree credit will not be given for both GEOS 4353 and GEOS 5353. (Typically offered: Fall)

GEOS 5363. Climatology. 3 Hours.
(Formerly GEOS 4363.) Fundamentals of topical climatology followed by a study of regional climatology. Offered as physical science. Graduate degree credit will not be given for both GEOS 4363 and GEOS 5363. (Typically offered: Spring)
GEOS 537V. Geology Field Trip. 1-2 Hour.
(Formerly GEOS 437V.) Camping field trip to areas of geologic interest, usually conducted during Spring Break. Graduate degree credit will not be given for both GEOS 437V and GEOS 537V. (Typically offered: Spring) May be repeated for up to 4 hours of degree credit.

GEOS 5383. Hazard & Disaster Assessment, Mitigation, Risk & Policy. 3 Hours.
(Formerly GEOS 4383.) Comprehensive introduction to interdisciplinary approaches to natural and environmental hazards and risk. Hazards and disaster assessment, mitigation, and policy are the focus of the class. Graduate degree credit will not be given for both GEOS 4383 and GEOS 5383. (Typically offered: Spring) May be repeated for up to 6 hours of degree credit.

GEOS 5393. Mathematical Modeling of Geological Processes. 3 Hours.
This course explores a variety of topics in applied mathematics and computational methods within the context of studying geological processes and from the perspective of a modeling practitioner. Programming is conducted in Python. Knowledge of Calculus II is necessary. (Typically offered: Irregular)

GEOS 5403. American Public Lands and Policy. 3 Hours.
The course examines the role of American federal public lands in 19th-21st century geography, history, policy, and art. It investigates the growth of conservation, preservation, and management movements in the US by looking at America’s national parks, forests, dams, wildlife refuges, wilderness areas, managed and agricultural lands. Prerequisite: Graduate standing. (Typically offered: Irregular)

GEOS 5423. Remote Sensing of Natural Resources. 3 Hours.
Introductory digital image processing of remotely sensed data. Topics include data collection, laboratory design, scientific visualization, radiometric and geometric correction, enhancement, pattern recognition, artificial intelligence, and change detection in natural resource remote sensing. GIS-based exercises and a course project are included. Prerequisite: GEOS 3213 or GEOS 5213. (Typically offered: Spring Even Years)

GEOS 5433. Geophysics. 3 Hours.
(Formerly GEOS 4433.) Derivation from physical principles, of the geophysical methods for mapping the Earth. Computational methods of converting gravity, magnetic, radiometric, electrical, and seismic data into geologic information. Lecture 3 hours, laboratory 2 hours per week. Graduate degree credit will not be given for both GEOS 4433 and GEOS 5433. Corequisite: Lab component. Prerequisite: MATH 2564 and PHYS 2033 and PHYS 2031L and GEOS 3514. (Typically offered: Irregular)

GEOS 5443. The Solid Earth. 3 Hours.
Modern views for the origin of the solid Earth and its structure, composition, and evolution through geologic time. Topics will include examination of relevant geophysical and geochemical constraints used to develop global models for the Earth. Prerequisite: MATH 2564, CHEM 1123, PHYS 2074 or instructor consent. (Typically offered: Irregular)

GEOS 5453. Introduction to Raster GIS. 3 Hours.
(Formerly GEOS 4553.) Theory, data structure, algorithms, and techniques behind raster-based geographical information systems. Through laboratory exercises and lectures multidisciplinary applications are examined in database creation, remotely sensed data handling, elevation models, and resource models using boolean, map algebra, and other methods. Graduate degree credit will not be given for both GEOS 4553 and GEOS 5453. (Typically offered: Fall) This course is cross-listed with ANTH 5553.

GEOS 5473. Applied Climatology. 3 Hours.
Applied climatology involves the use of climatic data to solve a variety of social, economic and environmental problems, such as for clients in agriculture, water and energy management. The basic purpose of applied climatology is to help society, at all scales and levels, to achieve a better adjustment to the climatic environment. (Typically offered: Fall)

GEOS 5483. Severe Weather. 3 Hours.
(Formerly GEOS 4483.) Focuses on the formation and impact of weather phenomena such as blizzards, floods, tornadoes, thunderstorms, hurricanes and droughts. Covers the mechanisms and physics that control severe weather, advanced terminology, physical concepts and scientific methods used in meteorology, and the analysis and interpretation of meteorological data. Graduate degree credit will not be given for both GEOS 4483 and GEOS 5483. (Typically offered: Spring)

GEOS 550V. Internship in GIS & Cartography. 3-6 Hour.
(Formerly GEOS 440V.) Supervised experience in GIS and/or cartographic applications with municipal, county, state, or private enterprises. Graduate degree credit will not be given for both GEOS 440V and GEOS 550V. (Typically offered: Spring and Summer) May be repeated for up to 6 hours of degree credit.

GEOS 5513. Introduction to GIS Programming. 3 Hours.
This course introduces fundamentals of GIS software engineering and offers hands-on tutorials in customized applications using ArcGIS through programming ArcObjects in VBA/VA.net environment. Topics covered include ArcObjects, different programming syntax and styles, and fundamental routines and functions in ArcGIS. After completing the course, students will have the capability develop customized ArcGIS applications. (Typically offered: Fall)

GEOS 5523. Cartographic Design & Production. 3 Hours.
(Formerly GEOS 4523.) This course addresses advanced cartographic concepts (i.e. visual hierarchy, aesthetics, image cognition) and production techniques as they relate to computer-assisted mapping. Students produce a variety of maps using Adobe Illustrator (CS 4-6) software to build a map portfolio. Field trips may be required. Graduate degree credit will not be given for both GEOS 4523 and GEOS 5523. (Typically offered: Spring)

GEOS 5533. Introduction to Petroleum Geophysics. 3 Hours.
(Formerly GEOS 4533.) Introduction to seismic wave propagation and petroleum seismology with particular emphasis on seismic events, elastic waves, and seismic survey design. Credit will not be given for both GEOS 4533 and GEOS 5533. Prerequisite: MATH 2564, PHYS 2033, and GEOS 3514 or consent of instructor. (Typically offered: Fall)

GEOS 5543. Geospatial Applications and Information Science. 3 Hours.
An introduction to the methods and theory underlying the full range of geographic information science and collateral areas - including GNSS, remote sensing, cadastral, spatial demographics and others. (Typically offered: Fall and Spring)

GEOS 5553. Spatial Analysis Using ArcGIS. 3 Hours.
Applications of analysis of spatial data using ArcGIS tools in map design, on-line mapping, creating geodatabases, accessing geospatial data, geo-processing, digitizing, geocoding, spatial analysis including basic spatial statistics, analysis of spatial distributions and patterning and 3D application using ArcGIS 3D Analyst. Prerequisite: GEOS 3543 or GEOS 5543. (Typically offered: Fall and Spring)

GEOS 5563. Tectonics. 3 Hours.
Development of ramifications of the plate tectonics theory. Analysis of the evolution of mountain belts. Lecture 3 hours per week. Prerequisite: GEOS 3514. (Typically offered: Fall)

GEOS 5573. Advanced Cartographic Techniques & Production. 3 Hours.
Covers advanced production and techniques in cartography, including animation, geospatial visualization, pochade, and advanced visualization. Emphasizes client relationships in creating and producing cartographic materials. Corequisite: Lab component. Prerequisite: GEOS 4523 or GEOS 5523. (Typically offered: Irregular)
GEOS 5583. Enterprise and Multiuser GIS. 3 Hours.
GIS practice that is typical of collaborative team-based geospatial organizations. Solve real-world problems through end-to-end GIS design and implementation using ArcGIS Enterprise, extensive federal, state, and local repositories, and high quality software documentation. Includes relevant training in geospatial provenance and metadata, and in enterprise and multiuser GIS administration. Introductory-level familiarity with GIS is recommended. (Typically offered: Spring)

GEOS 5593. Introduction to Geodatabases. 3 Hours.
Fundamental concepts and applications of geospatial databases. Schema development and spatial data models for geodatabase. Spatial and attribute query and optimization, properties and structures of relational and object-oriented geodatabases. Spatial extensions of SQL, spatial indexing, measurement, and geometry. Course will use PostGIS, ESRI File Geodatabases, and MS-SQL. Prerequisite: GEOS 3543 and GEOS 3103 or equivalent. (Typically offered: Fall and Spring)

GEOS 560V. Graduate Special Problems. 2-6 Hours.
Library, laboratory, or field research in different phases of geology. (Typically offered: Fall, Spring and Summer) May be repeated for up to 4 hours of degree credit.

GEOS 5612. Research Methods in Geosciences. 2 Hours.
Survey of research methodologies used in both geology and geography, with an emphasis on quantitative analysis. Preparation of research proposals and presentations in the field of geosciences. Prerequisite: Graduate standing. (Typically offered: Fall)

GEOS 5653. GIS Analysis and Modeling. 3 Hours.
(Formerly GEOS 4653.) Unlike conventional GIS courses that focus on studying "where", this course will teach students to address beyond "where" using various GIS analysis and modeling techniques to explore "why" and "how". The course will provide theoretical and methodological reviews of the principles of cartographic modeling and multi-criteria decision-making. Graduate degree credit will not be given for both GEOS 4653 and GEOS 5653. (Typically offered: Spring) This course is cross-listed with ANTH 5653, ENDY 5043.

GEOS 5663. Low-Temperature Geochemistry of Natural Waters. 3 Hours.
(Formerly GEOS 4663.) Covers the low-temperature geochemistry of waters and their associated minerals at Earth’s surface. Examines the controls on the chemical composition of natural waters and the minerals precipitated from them. Topics covered will include water-rock interactions, pH, redox, the carbonate-water system, clay minerals and exchange, heavy metals, and a brief introduction to stable isotopes and geomicrobiology. Credit will not be given for both GEOS 4663 and GEOS 5663. Prerequisite: CHEM 1121L, CHEM 1123, GEOS 1113, and GEOS 1111L. (Typically offered: Fall)

GEOS 5673. Volcanology. 3 Hours.
A broad introduction to volcanic processes and their associated hazards. Emphasis will be placed on applying basic physical and chemical principles to understanding volcanic systems. Prerequisite: GEOS 2313. (Typically offered: Spring)

GEOS 5693. Environmental Justice. 3 Hours.
(Formerly GEOS 4693.) This course deals with the ethical, environmental, legal, economic, and social implications of society’s treatment of the poor, the disenfranchised, and minorities who live in the least desirable, deteriorating neighborhoods, communities, and niches of our country. The class integrates science with philosophy, politics, economics, policy, and law, drawing on award-winning films, current news, and case studies. Credit will not be given for both GEOS 4693 and GEOS 5693. (Typically offered: Spring)

GEOS 5713. Geology of Our National Parks. 3 Hours.
(Formerly GEOS 4563.) This course examines the underlying geology responsible for selected parks, and explores the interplay of geology, biology, climate, topography, and humans to evaluate the value of the parks, and to anticipate the problems they will face in the near and long-term. Credit will not be given for both GEOS 4563 and GEOS 5713. Prerequisite: GEOS 1113. (Typically offered: Fall)

GEOS 5743. Petroleum Geology. 3 Hours.
(Formerly GEOS 4253.) Distribution and origin of petroleum. Lecture 2 hours, laboratory 2 hours per week. Graduate degree credit will not be given for both GEOS 4253 and GEOS 5743. Corequisite: Lab component. Prerequisite: Admission to the Geology graduate program. (Typically offered: Fall)

GEOS 5753. Karst Hydrogeology. 3 Hours.
(Formerly GEOS 4153.) Assessment of ground water resources in carbonate rock terrains; relation of ground water and surface water hydrology to karst; quantification of extreme variability in karst environments; data collection rationale. Field trips required. Graduate degree credit will not be given for both GEOS 4153 and GEOS 5753. Prerequisite: GEOS 4033 or GEOS 5263 (formerly GEOS 4033). (Typically offered: Irregular)

GEOS 5783. Geography of Europe. 3 Hours.
(Formerly GEOS 4783.) Geographic regions of the area with emphasis on their present development. Graduate degree credit will not be given for both GEOS 4783 and GEOS 5783. (Typically offered: Irregular)

GEOS 5793. Geospatial Unmanned Aircraft Systems. 3 Hours.
Geospatial unmanned aircraft systems (UAS) are becoming key technologies in a number of disciplines. This course will introduce safe and legal operation of UAS in aerial photography, multispectral, thermal and LIDAR applications, geodetic control, photogrammetric and computer vision processing, and the creation of accurate 2D and 3D digital information products. Pre- or Corequisite: (GEOS 3213 or GEOS 5213) and (GEOS 4593 or GEOS 5293) or equivalent. (Typically offered: Fall)

GEOS 5853. Environmental Isotope Geochmistry. 3 Hours.
Introduction to principles of isotope fractionation and distribution in geologic environments, isotopic analytical methods, and extraction of isotope samples; application of isotopes in characterization of geologic processes and interaction with hydrologic, surficial, and biologic attenuation, paleothermometry soil, and biogeochemical processes. (Typically offered: Spring) May be repeated for up to 3 hours of degree credit. This course is cross-listed with ENDY 5853.

GEOS 5863. Quantitative Techniques in Geosciences. 3 Hours.
(Formerly GEOS 4663.) An introduction to the application of standard quantitative and spatial statistical techniques to geoscientific analysis. Students will use both micro and large system computers in the course. Graduate degree credit will not be given for both GEOS 4863 and GEOS 5863. (Typically offered: Spring) This course is cross-listed with ANTH 5863.

GEOS 5873. Geological Data Analysis. 3 Hours.
Quantitative methods and techniques for analysis and interpretation of geological data. Credit will not be given for both GEOS 4873 and GEOS 5873. Corequisite: Lab component. Prerequisite: MATH 2564 and GEOS 3514. (Typically offered: Spring)

GEOS 5893. Geography of Religion & Sacrality. 3 Hours.
Examines how the geographic and climatic environments shape and influence religious tradition. Considers the location of worship centers in a community and the world, as well as the geography within them. Studies the relationship between communal and sacred spaces. Explores religious pilgrimages and how migration affects religious practice. (Typically offered: Irregular)
German (GERM)

Courses

GERM 1003. Elementary German I (ACTS Equivalency = GERM 1013). 3 Hours. Elementary German I. (Typically offered: Fall, Spring and Summer)

GERM 1013. Elementary German II (ACTS Equivalency = GERM 1023). 3 Hours. Elementary courses stress correct pronunciation, aural comprehension, and simple speaking ability, and lead to active mastery of basic grammar and limited reading ability. (Typically offered: Fall, Spring and Summer)

GERM 2003. Intermediate German I (ACTS Equivalency = GERM 2013). 3 Hours. Intermediate courses lead to greater facility in spoken language and to more advanced reading skills. (Typically offered: Fall, Spring and Summer)

GERM 2013. Intermediate German II (ACTS Equivalency = GERM 2023). 3 Hours. Continued development of basic speaking comprehension and writing skills and intensive development of reading skills. (Typically offered: Fall, Spring and Summer)

GERM 3003. Advanced German I. 3 Hours. Development of reading, writing, listening, and speaking skills. Some grammar review and translation exercises. Emphasis on vocabulary acquisition and the correct use of idiomatic expressions. Prerequisite: GERM 2013. (Typically offered: Fall)

GERM 3013. Introduction to Literature. 3 Hours. Development of reading skills and introduction to literary analysis. Prerequisite: GERM 2013 or equivalent. (Typically offered: Fall)

GERM 3033. Conversation. 3 Hours. Three hours per week of guided conversation practice for the post-intermediate student. Prerequisite: GERM 2013 or instructor consent. (Typically offered: Spring)

GERM 4003. Advanced German II. 3 Hours. Further development of reading, listening, and speaking skills. Some grammar review and translation exercises. Emphasis on vocabulary acquisition and the correct use of idiomatic expressions. Prerequisite: GERM 3003. (Typically offered: Spring)

GERM 4013. Germany and the Holocaust: The Significance of the Holocaust in Differentiated Contexts. 3 Hours. Taught in English. Topics covering the role of the Holocaust in German history, culture, art, language and German Studies. Equal emphasis will be placed on historical competence and philosophical/theoretical inquiry, addressed from a variety of media and primary and secondary sources. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

GERM 4023. German Migration and National Identity. 3 Hours. Examines the experiences of Germans who have migrated abroad, migrants in Germany, and those who have felt like migrants in their own country due to isolating historical experiences and are confronted with what it means to be a German. Incorporates traditional literary narrative, autobiography, film, and music. Prerequisite: GERM 3003 or GERM 3013, or instructor consent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

GERM 4033. Advanced Conversation. 3 Hours. Three hours per week of conversation practice for the advanced undergraduate. Prerequisite: GERM 3003 or instructor consent. (Typically offered: Irregular)

GERM 4043. German Cinema. 3 Hours. Presents a range of German films in cultural-historical context; vocabulary and structures for discussing film, film history, and film theory in German. Prerequisite: GERM 3003. (Typically offered: Regular)

GERM 4123. The German Novella. 3 Hours. An intensive study of the novella as a genre from its origin to the present. Prerequisite: GERM 3013. (Typically offered: Regular)

GERM 4133. The German Drama. 3 Hours. A study of the development of the forms and themes of the German drama from the middle ages to the present. Prerequisite: GERM 3013. (Typically offered: Irregular)

GERM 4143. German Lyric Poetry. 3 Hours. A study of the forms and themes of German lyric poetry from the middle ages to the present. Prerequisite: GERM 3013. (Typically offered: Irregular)

GERM 4213. German Civilization. 3 Hours. Explores the politics, cultural developments, and language of German-speaking countries since written evidence of their existence. Readings are drawn from current events and archived material, as well as literary or visual texts; learning practice includes news, informational videos, and archives of recorded events. Prerequisite: GERM 3003 or equivalent. (Typically offered: Spring)

GERM 4333. Professional German I. 3 Hours. Introduces students to the language of German used in the workplace and provides insights into business practices in German-speaking countries. Follows a project based approach and covers aspects of professional presentations, team assignments, business correspondence, resume writing and job application. Open to all majors; no business prerequisites. Prerequisite: GERM 3003 or GERM 3013 or consent of the instructor. (Typically offered: Irregular)

GERM 470V. Special Topics. 1-3 Hour. May be offered in a topic not specifically covered by courses otherwise listed. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.
GRSD 5013. Practicum for Future Faculty. 3 Hours.
This course is designed to follow GRSD 5003 and to give participants opportunities to apply theories and methods learned in that course. To accomplish these goals, the course instructor helps the participant arrange a mentoring opportunity as part of this course. Prerequisite: GRSD 5003. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

GRSD 5032. The Professoriate: Research and Service. 3 Hours.
Designed to complement GRSD 5003 by focusing on topics of interest to future academic professionals beyond those related to instruction. Topics include developing a research statement, strategies for securing an academic position the general nature of employment and service expectations in higher education, research ethics, and funding issues, including grant proposal writing. (Typically offered: Fall)

GRSD 5041. Graduate Enrollment. 1 Hour.
This course allows a degree-seeking graduate student to continue as an active graduate student. Students should enroll in this course only when they are not enrolled in credit-bearing academic courses. This course cannot be counted for degree credit. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

GRSD 5091. Topics in Graduate Education. 1 Hour.
Special topics course on professionalization topics in Graduate Education. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

Greek (GREK) Courses

GREK 1003. Elementary Ancient Greek I. 3 Hours.
The rudiments of classical Greek, with concentration on grammar, vocabulary, and syntax. Short selections from ancient authors lead to basic reading ability. (Typically offered: Fall)

GREK 1013. Elementary Ancient Greek II. 3 Hours.
A continuation of the rudiments of classical Greek, with concentration on grammar, vocabulary, and syntax. Short selection from ancient authors lead to basic reading ability. (Typically offered: Spring)

GREK 1203. Beginning Modern Greek I. 3 Hours.
Conversational language of Greece today. Stresses correct pronunciation, aural comprehension, and simple speaking ability. Leads to active mastery of basic grammar and limited reading ability. (Typically offered: Fall)

GREK 1213. Beginning Modern Greek II. 3 Hours.
A continuation of GREK 1203. Stresses correct pronunciation, aural comprehension, and simple speaking ability. Leads to active mastery of basic grammar and limited reading ability. (Typically offered: Spring)

GREK 2003. Intermediate Ancient Greek I. 3 Hours.
Ancient Greek grammar and syntax, with readings in Greek prose. Prerequisite: GREK 1013 or equivalent. (Typically offered: Fall)

GREK 2013. Homer. 3 Hours.
Selections from the Iliad or the Odyssey: a survey of Greek epic poetry. Prerequisite: GREK 2003 or equivalent. (Typically offered: Spring)

GREK 4003. Greek Lyric Poetry. 3 Hours.
Readings from selected Greek lyric poems, to be chosen from several appropriate authors from the 7th through the 5th centuries BCE: Archilochus, Hipponax, Sappho, Alcaeus, Tyrtaeus, Mimnermus, Simonides, Solon, Xenophanes, Theognis, Pindar, Bacchylides. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREK 4013. Greek Epic Poetry. 3 Hours.
Study of the primary works of Greek hexameter poetry, including Homer, Hesiod, and/or the Homeric Hymns, with special attention to issues of oral composition and performance. Prerequisite: GREK 2013. (Typically offered: Irregular)
GREEK 4023. Greek Philosophy. 3 Hours.
Study of representative works of Greek philosophy, including those of the Pre-Socratics, Plato, and/or Aristotle. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREEK 4033. Herodotus or Thucydides. 3 Hours.
Readings of Herodotus, Book VII, and Thucydides, Book VI; collateral readings on the Persian and Peloponnesian Wars. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREEK 4043. Greek Drama. 3 Hours.
Readings of 2 tragedies and one comedy; a study of the Greek theatre. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREEK 4053. Greek Syntax and Composition. 3 Hours.
Greek syntax and composition. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREEK 4063. Hellenistic Poetry. 3 Hours.
Selections from significant post-classical authors, including Callimachus, Theocritus, Dion, Moschus, Herondas, Apollonios of Rhodes, and/or poets of the Greek Anthology. Special attention to archaic and classical influences, contemporary Hellenistic culture, and Roman responses. Prerequisite: GREK 2013. (Typically offered: Irregular)

GREEK 4073. Ancient Greek Novel. 3 Hours.
Study of the development of the Greek novel including the works of Lucian, Longus, Heliodorus, and/or Achilles Tatius. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREEK 4083. Greek Epigraphy. 3 Hours.
Study of inscriptions, especially Attic, in their historical and social contexts, from the 8th century BCE to the Hellenistic/Roman period. Training in epigraphical conventions and symbols. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREEK 4093. Biblical and Patristic Greek. 3 Hours.
Selected readings from appropriate texts, varying by semester, including the Septuagint, New Testament, Apostolic Fathers, and other patristic literature to the 5th century CE. Reading and discussion of selected texts in major genres. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREEK 4103. Greek Oratory. 3 Hours.
Readings from selected speeches, to be chosen from one or more appropriate authors: Lysias, Antiphon, Demosthenes, Isocrates, Andocides. Study of sophism and rhetoric of Athens in the 5th and 4th centuries BCE. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREEK 475V. Special Investigations. 1-6 Hour.
Special investigations. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

GREEK 5003. Greek Lyric Poetry. 3 Hours.
(Formerly GREK 4003.) Readings from selected Greek lyric poems, to be chosen from several appropriate authors from the 7th through the 5th centuries BCE: Archilochus, Hipponax, Sappho, Alcaeus, Tyrtaeus, Minnemurus, Semonides, Solon, Xenophanes, Theognis, Pindar, Bacchylides. Graduate degree credit will not be given for both GREK 4003 and GREK 5003. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREEK 5013. Greek Epic Poetry. 3 Hours.
(Formerly GREK 4013.) Study of the primary works of Greek hexameter poetry, including Homer, Hesiod, and/or the Homeric Hymns, with special attention to issues of oral composition and performance. Graduate degree credit will not be given for both GREK 4013 and GREK 5013. Prerequisite: GREK 2013. (Typically offered: Irregular)

GREEK 5023. Greek Philosophy. 3 Hours.
(Formerly GREK 4023.) Study of representative works of Greek philosophy, including those of the Pre-Socratics, Plato, and/or Aristotle. Graduate degree credit will not be given for both GREK 4023 and GREK 5023. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREEK 5033. Herodotus or Thucydides. 3 Hours.
(Formerly GREK 4033.) Readings of Herodotus, Book VII, and Thucydides, Book VI; collateral readings on the Persian and Peloponnesian Wars. Graduate degree credit will not be given for both GREK 4033 and GREK 5033. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREEK 5043. Greek Drama. 3 Hours.
(Formerly GREK 4043.) Readings of two tragedies and one comedy; a study of the Greek theatre. Graduate degree credit will not be given for both GREK 4043 and GREK 5043. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREEK 5053. Greek Syntax and Composition. 3 Hours.
(Formerly GREK 4053.) Greek syntax and composition. Graduate degree credit will not be given for both GREK 4053 and GREK 5053. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREEK 5063. Hellenistic Poetry. 3 Hours.
(Formerly GREK 4063.) Selections from significant post-classical authors, including Callimachus, Theocritus, Dion, Moschus, Herondas, Apollonios of Rhodes, and/or poets of the Greek Anthology. Special attention to archaic and classical influences, contemporary Hellenistic culture, and Roman responses. Graduate degree credit will not be given for both GREK 4063 and GREK 5063. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREEK 5073. Ancient Greek Novel. 3 Hours.
(Formerly GREK 4073.) Study of the development of the Greek novel including the works of Lucian, Longus, Heliodorus, and/or Achilles Tatius. Graduate degree credit will not be given for both GREK 4073 and GREK 5073. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREEK 5083. Greek Epigraphy. 3 Hours.
(Formerly GREK 4083.) Study of inscriptions, especially Attic, in their historical and social contexts, from the 8th century BCE to the Hellenistic/Roman period. Training in epigraphical conventions and symbols. Graduate degree credit will not be given for both GREK 4083 and GREK 5083. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREEK 5093. Biblical and Patristic Greek. 3 Hours.
(Formerly GREK 4093.) Selected readings from appropriate texts, varying by semester, including the Septuagint, New Testament, Apostolic Fathers, and other patristic literature to the 5th century CE. Reading and discussion of selected texts in major genres. Graduate degree credit will not be given for both GREK 4093 and GREK 5093. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREEK 5103. Greek Oratory. 3 Hours.
(Formerly GREK 4103.) Readings from selected speeches, to be chosen from one or more appropriate authors: Lysias, Antiphon, Demosthenes, Isocrates, Andocides. Study of sophism and rhetoric of Athens in the 5th and 4th centuries BCE. Graduate degree credit will not be given for both GREK 4103 and GREK 5103. Prerequisite: GREK 2013 or equivalent. (Typically offered: Irregular)

GREEK 575V. Special Investigations. 1-6 Hour.
Special investigations. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.
Health, Human Performance and Recreation (HHPR)

Courses

HHPR 5353. Research in Health, Human Performance and Recreation. 3 Hours. Methods and techniques of research in health, human performance and recreation including an analysis of examples of their use and practice in their application to problems of interest to the student. (Typically offered: Fall, Spring and Summer)

HHPR 6233. Management in HHPR. 3 Hours. Deals with principles, procedures, relationships, problems, and current practices in the supervision of health education and kinesiology. Includes management of facilities, programs, personnel, and processes. (Typically offered: Irregular)

HHPR 6333. Measurement in HHPR. 3 Hours. Competencies for analysis and application of evaluation and measurement in HHPR. (Typically offered: Fall Odd Years)

HHPR 6483. Grant Writing. 3 Hours. This course is designed to develop student understanding of the research grants process including identifying funding sources, preparation of grants and the grants review process. The course will be focused on the NIH platform which is the base model used for most biomedical research proposals. We will discuss and have guest speakers to elaborate on other common funding sources and types of funding including: NSF, USDA, Corporate Funds and Research Contracts, Foundations (such as ACSM, AHA, etc.) (Typically offered: Spring Odd Years)

HHPR 689V. Directed Research. 1-6 Hour. Laboratory investigations, in basic and applied research. (Typically offered: Fall, Spring and Summer)

HHPR 699V. Seminar. 1-3 Hour. Seminar. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

HHPR 700V. Doctoral Dissertation. 1-18 Hour. Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Higher Education (HIED)

Courses

HIED 5003. Overview-American Higher Education. 3 Hours. A basic course in the study of higher education open to all students seeking careers in colleges and universities. Serves as an introduction to the programs, problems, issues, and trends in higher education. (Typically offered: Fall)

HIED 5033. Student Affairs in Higher Education. 3 Hours. Study of origins, functions, and policies in student personnel services in contemporary 2- and 4-year colleges and universities with emphasis on the student and student development. (Typically offered: Fall)

HIED 5043. Student Development in Higher Education. 3 Hours. Provides those who work or plan to work in post secondary educational institutions with an understanding of the student population in contemporary colleges and universities. (Typically offered: Spring)

HIED 504V. Practicum in Higher Education. 1-6 Hour. Students are assigned to a department or agency within or outside the university for professional experience under the joint supervision of on-site personnel and university faculty. Periodic meetings are scheduled for evaluation, discussion, and examination of techniques. (Typically offered: Fall, Spring and Summer)

HIED 5053. The Community College. 3 Hours. An overview of the community college. Topics include the history and philosophy of the community college movement, students, curriculum, state and local campus governance, teaching, student personnel work, finance and issues, problems, and trends. (Typically offered: Irregular)

HIED 5063. Diversity in Higher Education. 3 Hours. Broadly explores how sociocultural contexts influence diversity at colleges and universities. Focuses on the responsibilities of higher education leaders to be multiculturally competent professionals who foster inclusive practices for diverse student populations. (Typically offered: Irregular)

HIED 5073. Management of Higher Education Institutions. 3 Hours. Principles and concepts of management and their application in college and university settings. (Typically offered: Fall and Summer)

HIED 5083. History and Philosophy of Higher Education. 3 Hours. An examination of the history and development of higher education including the study of the philosophy, objectives, and functions of various types of institutions. (Typically offered: Spring)

HIED 5093. Research in Higher Education and Student Affairs. 3 Hours. This course provides master's students an overview of research and literature applicable to the discipline; teaches students how to understand academic literature and use empirical evidence to inform practices and policies at colleges and universities. Prerequisite: MEd students in the Higher Education Program. (Typically offered: Fall, Spring and Summer)

HIED 5103. Higher Education in International Contexts. 3 Hours. Explores various systems of higher education around the world. Equips students with the knowledge and skills to work in the increasingly internationalized field of higher education. (Typically offered: Irregular)

HIED 5303. Non-Profit Fundraising. 3 Hours. Non-Profit Fundraising examines the theory and practice of the professional field of fundraising and development, which is dedicated to attracting philanthropic support from constituents for colleges, universities, health organizations, hospitals, non-profit organizations, museums and other philanthropic endeavors. (Typically offered: Irregular)

HIED 5643. Reflective Practice in Higher Education and Student Affairs. 3 Hours. Provides students an opportunity to work in a functional area of higher education, reflect on how their experiences inform their career goals as higher education professionals, and learn job search strategies in higher education. (Typically offered: Fall, Spring and Summer) May be repeated for up to 9 hours of degree credit.

HIED 574V. Internship. 1-3 Hour. Supervised field experiences in student personnel services, college administration, academic advising, institutional research, development, or other areas of college and university work. (Typically offered: Fall, Spring and Summer)

HIED 600V. Master's Thesis. 1-6 Hour. Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

HIED 6013. The Professoriate: Problems and Issues. 3 Hours. An examination of the vital issues and trends affecting college faculty personnel with emphasis upon institutional practices and policies. (Typically offered: Fall)

HIED 6023. Introduction to the Study of Higher Education. 3 Hours. A requirement for all new doctoral and specialist students. Familiarization with writing requirements, library search procedures, library resources, and program requirements. Prerequisite: Admission to Higher Education Ed.D program. (Typically offered: Irregular)

HIED 605V. Independent Study. 1-6 Hour. Provides students with an opportunity to pursue special study in higher education. (Typically offered: Fall, Spring and Summer)
HIED 6083. Management Skills for Effective Leadership. 3 Hours.
Development of management skills that enhance leadership includes understanding yourself, managing yourself, team building, personnel selection, group and individual decision-making, problem solving, managing conflict, developing valid performance appraisal systems, conducting performance appraisal interview, and other topics of current interest. Prerequisite: Doctoral students in Higher Education or permission of the instructor. (Typically offered: Irregular)

HIED 6093. Leading Change. 3 Hours.
An in-depth examination of leadership, change, and culture in postsecondary education. (Typically offered: Irregular)

HIED 6303. Advancement in Higher Education. 3 Hours.
Advancement in Higher Education examines the theory and practice of the professional field and function referred to as "institutional advancement", which is dedicated to attracting philanthropic support as well as building attitudinal and behavioral support among key constituents for colleges and universities. (Typically offered: Irregular)

HIED 6323. Design and Evaluation of College Teaching. 3 Hours.
Theory and practice of effective college teaching. Emphasis is placed on preparation and evaluation of instruction. (Typically offered: Irregular)

HIED 6343. Strategies for Effective College Teaching. 3 Hours.
An examination of traditional and innovative instructional strategies for use in college teaching. (Typically offered: Irregular)

HIED 6353. The College and University Presidency. 3 Hours.
The course explores the basic elements of the presidency of an academic institution and examines the critical issues facing the college and university presidents/chancellors. (Typically offered: Irregular)

HIED 6423. Trends, Issues and Problems in Higher Education. 3 Hours.
A study of the current problems and trends related to the field of higher education. (Typically offered: Irregular)

HIED 6483. Strategic Enrollment Management. 3 Hours.
An examination of admissions marketing strategies, communications plans, branding, and forecasting as well as how other areas (financial aid, honors, scholarships, and student affairs) contribute to successful recruitment efforts. Other key enrollment management areas of focus for the class include academic records, registration, degree audits, FERPA, student support, and most importantly, retention. Major state and federal legislation that underscores any of these activities will be discussed as well. (Typically offered: Irregular)

HIED 6533. Assessment of Institutional Effectiveness in Higher Education. 3 Hours.
The course examines the fundamentals of assessment of learning outcomes and institutional effectiveness and introduces assessment as a tool to inform strategic planning and data-driven decision-making in higher education. (Typically offered: Irregular)

HIED 6643. College Students in the United States. 3 Hours.
Students will engage with the leading theoretical and empirical scholarship related to college students and use this information to engage in class discussion, complete course assignments, consider implications for practice, and contemplate opportunities for new scholarship. Prerequisite: Doctoral student in the Higher Education Program or instructor consent. (Typically offered: Irregular)

HIED 6653. Legal Aspects of Higher Education. 3 Hours.
An examination of the legal status of higher education in the United States; the rights and responsibilities of educators and students including fair employment; due process; torts liability and contracts; student rights landmark court decisions; federal and state legislation having an impact on education. (Typically offered: Fall and Spring)

HIED 6663. Finance and Fiscal Management. 3 Hours.
Higher education finance and budgeting practices: problems, issues, trends, and policy issues in higher education. (Typically offered: Irregular)

HIED 6683. Governance and Policy Making in Higher Education. 3 Hours.
An analysis of governance and policy making affecting the control of colleges and universities. Attention is given to policy generation, governing board supervision, and the impact of institutional, professional, and regional groups as well as community, state, and federal pressures. (Typically offered: Irregular)

HIED 6693. Research Techniques in Higher Education. 3 Hours.
Techniques of research applicable to Higher Education. (Typically offered: Irregular)

HIED 674V. Internship. 1-6 Hour.
Supervised field experiences in student personnel services, college administration, college teaching, institutional research, development, or other areas of college and university work. (Typically offered: Fall and Spring and Summer)

HIED 699V. Seminar. 1-6 Hour.
A series of seminar for specialized study into areas of current significance in postsecondary education, such as leadership and planning; organization, development, and change; human resource development and appraisal; the student in higher education; etc. (Typically offered: Fall, Spring and Summer) May be repeated for up to 9 hours of degree credit.

HIST 1003. Perspectives in History. 3 Hours.
Introduction to the history major and to college life, emphasizing essential collegiate academic skills and the methods and techniques of the professional historian. Designed for history majors, history minors, and those with an interest in learning skills relevant to history, other humanities, or other social sciences. (Typically offered: Regular)

HIST 1003H. Honors Perspectives in History. 3 Hours.
Introduction to the history major and to college life, emphasizing essential collegiate academic skills and the methods and techniques of the professional historian. Designed for history majors, history minors, and those with an interest in learning skills relevant to history, other humanities, or other social sciences. Prerequisite: Honors standing. (Typically offered: Regular)

This course is equivalent to HIST 1003.

HIST 1113. Institutions and Ideas of World Civilizations I (ACTS Equivalency = HIST 1113). 3 Hours.
Introduces the major civilizations of the world in their historical context to 1500. (Typically offered: Fall and Spring)

HIST 1113H. Honors Institutions and Ideas of World Civilizations I. 3 Hours.
Study of Western and non-Western civilizations. (Typically offered: Irregular)

This course is equivalent to HIST 1113.

HIST 1123. Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123). 3 Hours.
Introduces the major civilizations of the world in their historical context, since 1500. (Typically offered: Fall and Spring)

HIST 1123H. Honors Institutions and Ideas of World Civilizations II. 3 Hours.
Study of Western and non-Western civilizations. (Typically offered: Irregular)

This course is equivalent to HIST 1123.
HIST 1203. History of Football. 3 Hours.
Explores the history of football in America from its invention in the nineteenth century, through its meteoric growth in the twentieth century, to the most recent developments. Examines the ways that the game has both reflected broader social and economic trends in America, and catalyzed them. (Typically offered: Irregular)

HIST 1213. History of Beer. 3 Hours.
Beer is among the oldest beverages devised by humankind. The course adopts a global perspective to trace the history of beer and brewing in their broader social contexts from antiquity to the present day. (Typically offered: Spring)

HIST 1223. History of Business in America. 3 Hours.
Surveys the evolution of American business enterprises, with emphases on entrepreneurs, technology and corporate structures, the role of governments and markets, and the challenges these businesses faced. (Typically offered: Fall Odd Years)

HIST 1233. History of Race and Medicine. 3 Hours.
Examines history of western biomedicine on the intersection of science, medicine, and race to trace origins of current racial disparities. Examples from the United States and other international developments. (Typically offered: Irregular)

A history of American life encompassing constitutional, political, social, intellectual and economic development from prior to European colonization to 1877. (Typically offered: Fall, Spring and Summer)

HIST 2013. History of the American People, 1877 to Present (ACTS Equivalency = HIST 2123). 3 Hours.
A history of American life encompassing constitutional, political, social, intellectual and economic development from Reconstruction to the present. (Typically offered: Fall, Spring and Summer)

HIST 2093. Animals in World History. 3 Hours.
Survey of the interrelationship between human and nonhuman animals in comparative historical settings. The course is interdisciplinary by design and draws from social history, cultural studies, religious history, literature, film, and visual culture to gain a deeper sense of how animals have been integral to human societies. (Typically offered: Fall and Spring)

HIST 3003. History of Christianity. 3 Hours.
This course surveys the theological, political, and cultural history of Mediterranean Christianity, c. 30-600 CE. Special topics include patristics, Christianity and Empire, and the formation of Christian sacred space. (Typically offered: Spring)

HIST 300V. Internship in History. 1-3 Hour.
Work experience in a historical agency arranged by the student under the guidance of a faculty member. Paper required. (Typically offered: Fall, Spring and Summer). May be repeated for up to 6 hours of degree credit.

HIST 3013. Ancient Historians. 3 Hours.
Survey of ancient historiography from Herodotus (5th c BCE) to Ammianus Marcellinus (4th c CE). Topics covered include the development of ancient history, historical causality, rhetoric and history, military history, historical biography, use of polemic, Roman adaptations of Greek models, and the portrayal of the “other” in history. (Typically offered: Fall)

HIST 3033. Islamic Civilization. 3 Hours.
A survey of the foundation, evolution, and distinctive character of Islam, with attention to religion, literature, art, architecture, science, and political society. Particular attention given to the development of Islamic doctrines, sectarian movements, and systematic theology. Concludes with a look at Islamic resurgence movements and their place in the contemporary world. (Typically offered: Irregular)

HIST 3043. History of the Modern Middle East. 3 Hours.
Examines the history of the Islamic Middle East from the rise of the Ottoman and Safavid Persian empires up to World War I and then concludes with the issues and patterns of 20th century Middle Eastern political and socio-economic life. Topics include Islam and politics, Arab nationalism, Western imperialism, the Arab-Zionist conflict, petroleum politics, and modernization vs. traditionalism. (Typically offered: Irregular)

HIST 3053. Women, Gender, and Sexuality in Colonial Latin America. 3 Hours.
This course examines women, gender, and sexuality in colonial Latin America. It explores the lives of indigenous, Spanish, African, and mixed-race women from all social ranks. A central question is: does the current status of women in Latin America stem from a colonial legacy of gender oppression and sexual repression? (Typically offered: Irregular)

HIST 3063. Military History. 3 Hours.
Survey of the basic principles and problems of strategy, tactics, and military organization from Alexander the Great to the present. Special attention will be given to the operation of these factors in the American Revolution, the Napoleonic Wars, the American Civil War, and World War II. (Typically offered: Irregular)

HIST 3073. Women and Gender in Modern Latin American History. 3 Hours.
Examines the role of women in Latin America and the Spanish Caribbean from independence to modern times. Special emphasis will be on women’s changing gender roles and expectations as they confronted legal, political, and social institutions. (Typically offered: Irregular)

HIST 3083. Women and Christianity. 3 Hours.
From Paul to the mystics of the late medieval church, this course considers women’s religious expression, symbolic action, interaction with holy men, and their relationship with the ecclesiastical hierarchy. Other important questions include women’s institutional subordination opportunities for autonomous action. (Typically offered: Irregular)

HIST 3093. Women in U.S. History. 3 Hours.
Examines women in U.S. History from the early encounters of North American colonization to the gendered experiences of American women in the present day. (Typically offered: Irregular)

HIST 3133. History of Sports in Africa. 3 Hours.
This course considers the ways that Africans have strategically employed sports to confront and overcome both domestic and external challenges and how these approaches and the range of constituent strategies have changed over time. (Typically offered: Irregular)

HIST 3193. The Making of the Modern Caribbean. 3 Hours.
This course is cross-listed with AAST 3193.
History of the Caribbean from pre-Columbian to present times focusing in particular on indigenous origins, colonialism, slavery, rebellion, independence, nationalism, and political integration in the making of the modern Caribbean region. (Typically offered: Fall)
This course is cross-listed with AAST 3193.

HIST 3203. Colonial Latin America. 3 Hours.
An introduction to the social, cultural, political and economic formation of Latin America, during the period from 1492 to the movements for independence. (Typically offered: Fall Odd Years)

HIST 3213. Modern Latin America. 3 Hours.
An investigation of the varying courses of modernization in Latin America, covering popular revolution, urban populism and military dictatorship. (Typically offered: Spring Even Years)
HIST 3233. African American History to 1877. 3 Hours.

This survey course provides students with an overview of the development of civilization in South Asia (a region encompassing the countries of India, Pakistan, Bangladesh, Nepal and Sri Lanka) from its earliest human occupants through the end of the heyday of the Mughal empire in the early 18th century CE. (Typically offered: Irregular)

HIST 3783. Islam and Early South Asia. 3 Hours.
Although Islam originated in Arabia, South Asian countries such as Pakistan, India, and Bangladesh today host among the largest populations of Muslims in the world. This survey course examines the introduction of Islam to South Asia in the 7th century CE and its subsequent development there through the mid-18th century. (Typically offered: Irregular)

HIST 3803. Special Topics in Ancient History. 3 Hours.
Special topics related to Ancient History which are not usually presented in regular courses. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

HIST 3813. Special Topics in African History. 3 Hours.
Special topics related to African history which are not usually presented in depth in regular courses. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

HIST 3823. Special Topics in Asian History. 3 Hours.
Special topics related to Asian history which are not usually presented in depth in regular courses. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

HIST 3833. Special Topics in European History. 3 Hours.
Special topics related to European history which are not usually presented in depth in regular courses. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

HIST 3843. Special Topics in Latin American and Caribbean History. 3 Hours.
Special topics related to Latin American and Caribbean history which are not usually presented in depth in regular courses. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

HIST 3853. Special Topics in Middle East History. 3 Hours.
Special topics related to Middle East history which are not usually presented in depth in regular courses. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

HIST 3854. Special Topics in U.S. History. 3 Hours.
Historical topics in the history of the United States which are usually not covered in depth in regular courses. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

HIST 3883. Islam and Early South Asia. 3 Hours.
Although Islam originated in Arabia, South Asian countries such as Pakistan, India, and Bangladesh today host among the largest populations of Muslims in the world. This survey course examines the introduction of Islam to South Asia in the 7th century CE and its subsequent development there through the mid-18th century. (Typically offered: Irregular)
HIST 3963. Art as History. 3 Hours.
Explores how historians can use art as historical source and how people have historically interpreted and analyzed art. Focus on art production/intepretation in Early Modern Europe (14th to 18th century), contemporary tastes, and cultural practices informing art production. (Typically offered: Irregular)

HIST 3973H. Honors Methods. 3 Hours.
Practical introduction to historical research and writing. Examines research methods and current theories of interpreting and evaluating the past. Prepares students for honors thesis development and writing. Prerequisite: Junior standing and honors history major. (Typically offered: Fall)

HIST 398V. Special Topics. 1-3 Hour.
Historical topics which are not usually presented in depth in regular courses. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

HIST 399VH. Honors History Thesis. 1-6 Hour.
Honors history thesis. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

HIST 4003. Democratic Athens. 3 Hours.
History of the Athens from the sixth century BCE to the end of the fourth. Topics include origins and evolution of democracy, the Persian wars, the rise and fall of the Athenian Empire, and the development of historiography, literature, art, and philosophy during the period. (Typically offered: Irregular)

Origin and development of the American party system from the implementation of the constitution to the election of McKinley. (Typically offered: Fall Even Years)
This course is cross-listed with PLSC 4303.

HIST 4513. History of Political Parties in the United States Since 1896. 3 Hours.
Response of the party system to America’s emergence as an industrial nation and world power from the election of 1896 to present. (Typically offered: Spring Odd Years)
This course is cross-listed with PLSC 4313.

HIST 4543. American Social and Intellectual History Since 1865. 3 Hours.
Survey of thought and society since the Civil War. (Typically offered: Irregular)

HIST 4563. The Old South, 1807-1865. 3 Hours.
Survey of the political, social, and economic development of the antebellum South. (Typically offered: Irregular)
This course is cross-listed with AAST 4563.

HIST 4573. The New South, 1860 to the Present. 3 Hours.
Survey of the development of the Civil War and postwar South to the present. (Typically offered: Irregular)
This course is cross-listed with AAST 4573.

HIST 4583. Arkansas in the Nation. 3 Hours.
Designed to provide advanced undergraduate and graduate students with a comprehensive understanding of the full sweep of Arkansas history. The focus will be on social, economic and political history, and historiography. (Typically offered: Irregular)

HIST 4593. The Colonial French in the Mississippi Valley. 3 Hours.
This course focuses on the French Colonial Mississippi Valley from 1698 until 1763. Activities for both French and non-French speaking students provide a rich environment to discuss encounters, subsistence strategies, and warfare faced by native peoples, missionaries, explorers, and colonists alike. Students will examine primary handwritten, transcribed, or translated sources. (Typically offered: Spring)

HIST 4603. U.S. Labor History to 1877. 3 Hours.
Examines the changing nature of work in U.S. history from 1607 until 1877 including the ways that workers—individually and collectively—understand the meanings of their labor and to the ways that notions of class, gender, ethnicity, and race inform these understandings. (Typically offered: Irregular)

HIST 4613. Colonial America 1600-1763. 3 Hours.
History of colonial America from 1600 to the end of the Seven Years War emphasizing economic, social, and cultural perspectives. Topics include Native American, French, Spanish, English, Dutch, and Russian interactions in North America and the larger Atlantic World. (Typically offered: Irregular)

HIST 4623. Revolution ary America, 1763 to 1789. 3 Hours.
History of revolutionary America emphasizing economic, social, and cultural perspectives. Topics include historical interpretations of the causes of the war, the impact of war on African Americans, women, loyalists, elite, and poor Americans. The course also examines the formation of the new national government. (Typically offered: Irregular)

HIST 4643. Early American Republic, 1789-1828. 3 Hours.
History of the early United States emphasizing social and cultural perspectives. Topics addressed will include westward expansion, slavery, religion, and economic change. (Typically offered: Irregular)

HIST 4653. Antebellum America, 1828-1850. 3 Hours.
History of antebellum U.S. emphasizing social and cultural perspectives. Topics addressed will include slavery, religion, gender, the market economy, regionalism, and political developments. (Typically offered: Irregular)

HIST 4663. Rebellion to Reconstruction, 1850-1877. 3 Hours.
A survey of political, social, and economic issues from the late antebellum period through Reconstruction. Emphasis is placed on the causes of the Civil War and the problems of postwar America. A brief examination of the Civil War is included. (Typically offered: Irregular)

HIST 4673. The American Civil War. 3 Hours.
An intensive study of the political, social, military, and economic aspects of the American Civil War period. (Typically offered: Fall)

HIST 4693. Approaching Global History. 3 Hours.
Explores theoretical perspectives on global history through a treatment of the historiographical development of the field, readings of landmark texts, and selected case studies of global themes. (Typically offered: Irregular)
This course is cross-listed with INST 4693.

HIST 4703. Emergence of Modern America, 1876-1917. 3 Hours.
A survey of the impact of the Industrial Revolution, Imperialism, and progressivism upon American life and institutions. (Typically offered: Fall Odd Years)

HIST 4723. America Between the Wars, 1917-1941. 3 Hours.
The impact of World War I, the 1920s, and the Great Depression upon American society and culture. (Typically offered: Spring Even Years)

HIST 4733. Recent America, 1941 to the Present. 3 Hours.
A general survey of American history since World War II with emphasis upon the presidency, reform movements, the Cold War, and cultural developments. (Typically offered: Irregular)

HIST 4743. The Cold War in Latin America: Revolutions, Violence, and Politics. 3 Hours.
This course will trace the rise of the ideological and political struggles over social and economic development and the security regimes designed to thwart socialist revolution and political mobilization. The influence of the United States in Latin American security regimes and “containment” activities will receive special attention. (Typically offered: Irregular)

HIST 4753. Diplomatic History of the United States, 1776-1900. 3 Hours.
Survey of American foreign relations from the American Revolution through the Spanish-American War. Principal topics include isolationism, freedom of the seas, manifest destiny and continental expansion, overseas expansion, and the diplomacy of war and peace. Emphasis on the relationship between domestic politics and foreign affairs. (Typically offered: Fall Even Years)

HIST 4763. Diplomatic History of the United States, 1900-1945. 3 Hours.
America's development as a world power. The course examines U.S. relations with Europe, Latin America, and East Asia, plus America's first approach to the Middle East. Particular emphasis is placed on America's involvement in World War I and World War II. (Typically offered: Spring Odd Years)

HIST 4773. Diplomatic History of the US, 1945 to Present. 3 Hours.
U.S. involvement in world affairs since WWII. The Cold War from an international perspective, including strategies, nuclear deterrence, conflicts, economic developments, cultural relations among allies and adversaries. Post-Cold War scenarios, including war on terrorism. (Typically offered: Irregular)

HIST 4783. History of Modern Mexico. 3 Hours.
This course examines the history of Mexico from the wars of independence to the present. Emphasis will be placed on the turbulent nineteenth century and the Mexican Revolution. Themes covered include colonial legacies, national identities, popular culture, emigration, and relations with the United States. (Typically offered: Irregular)
HIST 4793. Colonial India, 1758-1948. 3 Hours.
Examines the course of Indian history from the 1758 Battle of Plassey to eventual independence from Great Britain in 1948. Special attention is given to India's place within the British Empire, particularly the East Indian Company, the Indian Mutiny, the Raj, the rise of Gandhi, and India's independence movement. (Typically offered: Irregular)

HIST 4803. Modern Scandinavia. 3 Hours.
Examines the history of the Nordic lands, including Denmark, Finland, Iceland, Norway, and Sweden, from 1500 to the present. (Typically offered: Irregular)

HIST 4813. Africans and Slavery in Colonial Latin America. 3 Hours.
Explores the diverse experiences of slaves and free Blacks in colonial Spanish and Portuguese America from 1500 to around 1888, demonstrating that bondage and the practice of African slavery was a pillar of political authority in colonial Latin America. (Typically offered: Irregular)
This course is cross-listed with AAST 4813.

HIST 4823. Black Freedom in the Age of Emancipation. 3 Hours.
This course centers on the comparative study of Atlantic World freedom movements from the perspective of the African Diaspora. It focuses on the histories, meanings, legacies of the various types of black emancipation in the Atlantic World and the cultural technologies that enabled them. (Typically offered: Spring)
This course is cross-listed with AAST 4823.

HIST 4843. Global History of Soccer. 3 Hours.
Prompts students to explore the various historical processes related to the global diffusion of and engagement with soccer. Examines the ways soccer has reflected the broader, ongoing process of globalization, with players, ideas, tactics, and wealth circulating throughout the globe. (Typically offered: Irregular)

HIST 4873. Germany since 1945. 3 Hours.
Examines the history of Germany since the end of the Second World War including political division and economic recovery, dissident movements in East Germany and alternative cultures in West Germany, reunification in 1990, and the legacy of Nazism and the Holocaust. (Typically offered: Irregular)

HIST 4883. Health and Disease: 1500 to the Present. 3 Hours.
Explores the emergence of epidemics against the backdrop of the nation state and anxieties over women, the lower classes, and other marginalized groups. The rise of modern health programs illuminates the cultural construction of medicine, the biases of scientific inquiry, and the tensions among paternalism, liberty, and prejudice. (Typically offered: Irregular)

HIST 4893. Senior Capstone Seminar. 3 Hours.
Examines research methods and current theories of interpreting and evaluating the past. Emphasizes skills of analysis, synthesis, and integration. A grade of a B or better on a primary source based research paper will satisfy the Fulbright College Writing Requirement. Required for all history majors. Prerequisite: History major and senior standing. (Typically offered: Fall and Spring)

HIST 4943. U.S. Labor History, from 1877-present. 3 Hours.
This course will examine the changing nature of work in U.S. history from 1877 until the present. It will pay particular attention to the ways that workers--individually and collectively--understand the meanings of their labor and to the ways that notions of class, gender, ethnicity, and race inform these understandings. (Typically offered: Irregular)

HIST 4963. Third World Underdevelopment and Modernization. 3 Hours.
Examines key issues related to societal change in the Third World, including various views and theories of international development and modernization. Other major issues explored include social inequalities, food and hunger, population, environment, trade and globalization, international aid, and the roles of state, market, and civil society. (Typically offered: Irregular)
This course is cross-listed with AAST 4963.

HIST 4973. The Civilization of the Renaissance in Italy. 3 Hours.
Important trends in Italian culture between the 14th and 16th centuries, including the birth of humanism, new understandings of the past, “new” political ideologies, scientific innovation, and famous art produced in the Western tradition. (Typically offered: Irregular)

HIST 498V. Senior Thesis. 1-6 Hour.
Senior thesis. (Typically offered: Irregular)

HIST 4993. History of the Ottoman Empire, 1300-1923. 3 Hours.
History of the Ottoman Empire from its emergence as frontier principality in Anatolia ca. 1300, through its heyday as a major imperial power on three continents in the fifteenth through the eighteenth centuries, ending with its encounter with western imperialism and nationalism in the nineteenth and early twentieth centuries. (Typically offered: Irregular)

HIST 5003. Democratic Athens. 3 Hours.
(Formerly HIST 4003.) History of the Athenes from the sixth century BCE to the end of the fourth. Topics include origins and evolution of democracy, the Persian wars, the rise and fall of the Athenian Empire, and the development of historiography, literature, art, and philosophy during the period. Graduate degree credit will not be given for both HIST 4003 and HIST 5003. (Typically offered: Irregular)

HIST 5013. Alexander the Great and the Hellenistic World. 3 Hours.
(Formerly HIST 4013.) A survey of the achievements of Alexander and the culture of the new world he created. The personality and career of Alexander are examined as well as the rich diversity of the Hellenistic world: trade with India, religious syncretism, and the development of Hellenistic science and philosophy. Graduate degree credit will not be given for both HIST 4013 and HIST 5013. (Typically offered: Irregular)

HIST 5033. Roman Empire. 3 Hours.
(Formerly HIST 4033.) History of Rome from the Emperor Augustus to Constantine, ca. 30 BCE - 337 CE. Topics include the sources for imperial Rome, the organization of imperial government, the provinces of Rome and provincial government, art and literature under the empire, the rise of Christianity, and the conversion of the Empire. Graduate degree credit will not be given for both HIST 4033 and HIST 5033. (Typically offered: Irregular)

HIST 506V. Readings in European History. 1-6 Hour.
Directed readings in the field of European history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

HIST 507V. Readings in American History. 1-6 Hour.
Readings. Prerequisite: Graduate standing. (Typically offered: Fall, Summer) May be repeated for up to 12 hours of degree credit.

HIST 511V. Research Problems in Latin American History. 1-6 Hour.
Research problems in Latin American history. (Typically offered: Irregular)

HIST 517V. Readings in Asian History. 1-6 Hour.
Readings. Prerequisite: Graduate standing. (Typically offered: Spring and Summer) May be repeated for up to 12 hours of degree credit.

HIST 5193. The Civilization of the Renaissance in Italy. 3 Hours.
Important trends in Italian culture between the 14th and 16th centuries, including the birth of humanism, new understandings of the past, “new” political ideologies, scientific innovation, and famous art produced in the Western tradition. (Typically offered: Irregular)

HIST 5193. Great Britain,1901-2001. 3 Hours.
(Formerly HIST 4193.) Examines the history of the British Isles from the death of Queen Victoria in 1901 to the reelection of Prime Minister Tony Blair in 2001. Special attention is given to the collapse of the British Empire, the birth of the welfare state, and the challenges inherent in the decline of British world power. Graduate degree credit will not be given for both HIST 4193 and HIST 5193. (Typically offered: Spring Odd Years)
HIST 5203. History of the Holocaust. 3 Hours.
(Formerly HIST 4203.) Examines the origins, history, and legacies of the European Holocaust. Traces the origins of anti-Semitism in Europe, the rise of Nazism in Germany, the path to genocide during World War II, and the role of victims, perpetrators, rescuers, and bystanders. Considers issues of memory and justice in the postwar era. Graduate degree credit will not be given for both HIST 4203 and HIST 5203. (Typically offered: Irregular)

HIST 522V. Readings in Latin America History. 1-6 Hour.
Readings in Latin American history. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

HIST 524V. Readings in African History. 1-6 Hour.
Readings in African history. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

HIST 525V. Research Problems in African History. 1-6 Hour.
Research problems in African history. (Typically offered: Irregular)

HIST 526V. Readings in Middle Eastern History. 1-6 Hour.
Readings in Middle Eastern history. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

HIST 527V. Readings in Medieval History. 1-6 Hour.
Readings in Medieval history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

HIST 528V. Research Problems in Middle Eastern History. 1-6 Hour.
Research problems in Middle Eastern history. (Typically offered: Irregular)

HIST 530V. Readings in British History. 1-6 Hour.
Directed readings in the field of British history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

HIST 533V. Readings in Ancient History. 1-6 Hour.
Readings in Ancient history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

HIST 534V. Research Problems in Ancient History. 1-6 Hour.
Research problems in Ancient history. Prerequisite: Graduate standing. (Typically offered: Irregular)

HIST 5393. Early Modern Islamic Empires, 1300-1750. 3 Hours.
(Formerly HIST 4393.) An examination of the historical development of the three great Islamic empires in the early modern period: the Ottomans, the Safavids of Iran, and the Mughals of India. Special attention given to imperial expansion, administrative structures, religious-legal establishment, and the formation of distinct traditions in political ideology, historiography, and the arts and sciences. Graduate degree credit will not be given for both HIST 4393 and HIST 5393. (Typically offered: Spring Odd Years)

HIST 5403. Islam in Asia. 3 Hours.
(Formerly HIST 4403.) Introduces students to the history of Islam in East and Southeast Asia over the past 1,200 years. It focuses on the 18th-21st centuries when Muslims were part of everyday life in Asia and participated in the formation of majority and minority identities in the region. Graduate degree credit will not be given for both HIST 4403 and HIST 5403. (Typically offered: Irregular)

HIST 545V. Readings in Caribbean History. 1-6 Hour.
Graduate readings in Caribbean history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

HIST 546V. Research Problems in Caribbean History. 1-6 Hour.
Independent research in Caribbean history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HIST 547V. Readings in Atlantic History. 1-6 Hour.
Graduate readings in Atlantic world history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

HIST 5483. African American Biographies. 3 Hours.
(Formerly HIST 4483.) Introduction to the history and intellectual development of famous and not-so-famous African Americans. Graduate degree credit will not be given for both HIST 4483 and HIST 5483. (Typically offered: Irregular)

HIST 5493. Religion in America to 1860. 3 Hours.
(Formerly HIST 4493.) History of religion in early America, primarily from a social and cultural perspective. Topics will include region, social class, growth of institutions, slavery, print culture, and social reform in traditions including Protestantism, West African religion, Catholicism, Native American religion, and Judaism. Graduate degree credit will not be given for both HIST 4493 and HIST 5493. (Typically offered: Irregular)

HIST 5503. History of Political Parties in the United States, 1789-1896. 3 Hours.
(Formerly HIST 4503.) Origin and development of the American party system from the implementation of the constitution to the election of McKinley. Graduate degree credit will not be given for both HIST 4503 and HIST 5503. (Typically offered: Fall Even Years)

HIST 5513. History of Political Parties in the United States Since 1896. 3 Hours.
(Formerly HIST 4513.) Response of the party system to America's emergence as an industrial nation and world power from the election of 1896 to present. Graduate degree credit will not be given for both HIST 4513 and HIST 5513. (Typically offered: Spring Odd Years)

HIST 5523. Roman Republic. 3 Hours.
(Formerly HIST 4023.) History of Rome from its origins in the eighth century BCE to the fall of the Republic in the first century BCE. Topics include the sources for Roman history, the development, functioning, and ultimate failure of republican government, the Roman army, and Roman imperialism in Italy and the Mediterranean. Graduate degree credit will not be given for both HIST 4023 and HIST 5523. (Typically offered: Irregular)

HIST 5543. American Social and Intellectual History Since 1865. 3 Hours.
(Formerly HIST 4543.) Survey of thought and society since the Civil War. Graduate degree credit will not be given for both HIST 4543 and HIST 5543. (Typically offered: Irregular)

HIST 5563. The Old South, 1607-1865. 3 Hours.
(Formerly HIST 4563.) Survey of the political, social, and economic development of the antebellum South. Graduate degree credit will not be given for both HIST 4563 and HIST 5563. (Typically offered: Fall Odd Years)

HIST 5573. The New South, 1860 to the Present. 3 Hours.
(Formerly HIST 4573.) Survey of the development of the Civil War and postwar South to the present. Graduate degree credit will not be given for both HIST 4573 and HIST 5573. (Typically offered: Fall Even Years)

HIST 5583. Arkansas in the Nation. 3 Hours.
(Formerly HIST 4583.) Designed to provide advanced undergraduate and graduate students with a comprehensive understanding of the full sweep of Arkansas history. The focus will be on social, economic and political history, and historiography. Graduate degree credit will not be given for both HIST 4583 and HIST 5583. (Typically offered: Irregular)

HIST 5593. The Colonial French in the Mississippi Valley. 3 Hours.
(Formerly HIST 4593.) This course focuses on the French Colonial Mississippi Valley from 1698 until 1763. Activities for both French and non-French speaking students provide a rich environment to discuss encounters, subsistence strategies, and warfare faced by native peoples, missionaries, explorers, and colonists alike. Students will examine primary handwritten, transcribed, or translated sources. Graduate degree credit will not be given for both HIST 4593 and HIST 5593. (Typically offered: Spring)
HIST 5603. U.S. Labor History to 1877. 3 Hours.
(Formerly HIST 4603.) Examines the changing nature of work in U.S. history from 1607 until 1877 including the ways that workers—individually and collectively—understand the meanings of their labor and to the ways that notions of class, gender, ethnicity, and race inform these understandings. Graduate degree credit will not be given for both HIST 4603 and HIST 5603. (Typically offered: Fall Odd Years)

HIST 5613. Colonial America 1600-1763. 3 Hours.
(Formerly HIST 4613.) History of colonial America from 1600 to the end of the Seven Years War emphasizing economic, social, and cultural perspectives. Topics include Native American, French, Spanish, English, Dutch, and Russian interactions in North America and the larger Atlantic World. Graduate degree credit will not be given for both HIST 4613 and HIST 5613. (Typically offered: Irregular)

HIST 5623. Revolutionary America, 1763 to 1789. 3 Hours.
(Formerly HIST 4623.) History of revolutionary America emphasizing economic, social, and cultural perspectives. Topics include historical interpretations of the causes of the war, the impact of war on African Americans, women, loyalists, elite, and poor Americans. The course also examines the formation of the new national government. Graduate degree credit will not be given for both HIST 4623 and HIST 5623. (Typically offered: Irregular)

HIST 5643. Early American Republic, 1789-1828. 3 Hours.
(Formerly HIST 4643.) History of the early United States emphasizing social and cultural perspectives. Topics addressed will include westward expansion, slavery, religion, and economic change. Graduate degree credit will not be given for both HIST 4643 and HIST 5643. (Typically offered: Irregular)

HIST 5653. Antebellum America, 1828-1850. 3 Hours.
(Formerly HIST 4653.) History of antebellum U.S. emphasizing social and cultural perspectives. Topics addressed will include slavery, religion, gender, the market economy, regionalism, and political developments. Graduate degree credit will not be given for both HIST 4653 and HIST 5653. (Typically offered: Irregular)

HIST 5663. Rebellion to Reconstruction, 1850-1877. 3 Hours.
(Formerly HIST 4663.) A survey of political, social, and economic issues from the late antebellum period through Reconstruction. Emphasis is placed on the causes of the Civil War and the problems of postwar America. A brief examination of the Civil War is included. Graduate degree credit will not be given for both HIST 4663 and HIST 5663. (Typically offered: Irregular)

HIST 5673. The American Civil War. 3 Hours.
(Formerly HIST 4673.) An intensive study of the political, social, military, and economic aspects of the American Civil War period. Graduate degree credit will not be given for both HIST 4673 and HIST 5673. (Typically offered: Fall)

HIST 5683. The American Civil Rights Movement. 3 Hours.
(Formerly HIST 4383.) Introduction to the history and development of the civil rights movement in the United States. Graduate degree credit will not be given for both HIST 4383 and HIST 5683. (Typically offered: Irregular)

HIST 5693. Late Middle Ages. 3 Hours.
(Formerly HIST 4053.) This course examines the political, social-economic, intellectual, and spiritual developments of European history, c. 1000-1400 CE. Special topics include monasticism, sacral kingship, the crusades, and the medieval university. Graduate degree credit will not be given for both HIST 4053 and HIST 5693. (Typically offered: Spring Odd Years)

HIST 570V. Special Topics. 1-6 Hour.
Special topics. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

HIST 5723. America Between the Wars, 1917-1941. 3 Hours.
(Formerly HIST 4723.) The impact of World War I, the 1920s, and the Great Depression upon American society and culture. Graduate degree credit will not be given for both HIST 4723 and HIST 5723. (Typically offered: Irregular)

HIST 573V. Readings in Global History. 1-6 Hour.
Directed readings in the field of Global history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

HIST 5753. Diplomatic History of the United States, 1776-1900. 3 Hours.
(Formerly HIST 4753.) Survey of American foreign relations from the American Revolution through the Spanish-American War. Principal topics include isolationism, freedom of the seas, manifest destiny and continental expansion, overseas expansion, and the diplomacy of war and peace. Emphasis on the relationship between domestic politics and foreign affairs. Graduate degree credit will not be given for both HIST 4753 and HIST 5753. (Typically offered: Fall Even Years)

HIST 5763. Diplomatic History of the United States, 1900-1945. 3 Hours.
(Formerly HIST 4763.) America's development as a world power. The course examines U.S. relations with Europe, Latin America, and East Asia, plus America's first approach to the Middle East. Particular emphasis is placed on America's involvement in World War I and World War II. Graduate degree credit will not be given for both HIST 4763 and HIST 5763. (Typically offered: Spring Odd Years)

HIST 5773. Diplomatic History of the US, 1945 to Present. 3 Hours.
(Formerly HIST 4773.) U.S. involvement in world affairs since WWII. The Cold War from an international perspective, including strategies, nuclear deterrence, conflicts, economic developments, cultural relations among allies and adversaries. Post-Cold War scenarios, including war on terrorism. Graduate degree credit will not be given for both HIST 4773 and HIST 5773. (Typically offered: Fall Odd Years)

HIST 5783. History of Modern Mexico. 3 Hours.
(Formerly HIST 4783.) This course examines the history of Mexico from the wars of independence to the present. Emphasis will be placed on the turbulent nineteenth century and the Mexican Revolution. Themes covered include colonial legacies, national identities, popular culture, emigration, and relations with the United States. Graduate degree credit will not be given for both HIST 4783 and HIST 5783. (Typically offered: Irregular)

HIST 5793. Colonial India, 1758-1948. 3 Hours.
(Formerly HIST 4793.) Examines the course of Indian history from the 1758 Battle of Plassey to eventual independence from Great Britain in 1948. Special attention is given to India's place within the British Empire, particularly the East Indian Company, the Indian Mutiny, the Raj, the rise of Gandhi, and India's independence movement. Graduate degree credit will not be given for both HIST 4793 and HIST 5793. (Typically offered: Irregular)

HIST 5803. Modern Scandinavia. 3 Hours.
(Formerly HIST 4803.) Examines the history of the Nordic lands, including Denmark, Finland, Iceland, Norway, and Sweden, from 1500 to the present. Graduate degree credit will not be given for both HIST 4803 and HIST 5803. (Typically offered: Irregular)

HIST 5813. Africans and Slavery in Colonial Latin America. 3 Hours.
(Formerly HIST 4813.) Explores the diverse experiences of slaves and free Blacks in colonial Spanish and Portuguese America from 1500 to around 1888, demonstrating that bondage and the practice of African slavery was a pillar of political authority in colonial Latin America. Graduate degree credit will not be given for both HIST 4813 and HIST 5813. (Typically offered: Irregular)

HIST 5823. Black Freedom in the Age of Emancipation. 3 Hours.
(Formerly HIST 4823.) This course centers on the comparative study of Atlantic World freedom movements from the perspective of the African Diaspora. It focuses on the histories, meanings, legacies of the various types of black emancipation in the Atlantic World and the cultural technologies that enabled them. Graduate degree credit will not be given for both HIST 4823 and HIST 5823. (Typically offered: Spring)
HIST 5833. Social and Cultural History of the Modern Middle East. 3 Hours.  
(Formerly HIST 4433.) An analysis of Middle East history in the 17th-20th centuries which focuses on the social transformation of urban and rural life. Particular emphasis is given to the roles of economics, genealogy, art, and popular culture. Graduate degree credit will not be given for both HIST 4433 and HIST 5833.  
(Typically offered: Irregular)

HIST 5873. Germany since 1945. 3 Hours.  
(Formerly HIST 4873.) Examines the history of Germany since the end of the Second World War including political division and economic recovery, dissident movements in East Germany and alternative cultures in West Germany, reunification in 1990, and the legacy of Nazism and the Holocaust. Graduate degree credit will not be given for both HIST 4873 and HIST 5873.  
(Typically offered: Irregular)

HIST 5883. Health and Disease: 1500 to the Present. 3 Hours.  
(Formerly HIST 4883.) Explores the emergence of epidemics against the backdrop of the nation state and anxieties over women, the lower classes, and other marginalized groups. The rise of modern health programs illuminates the cultural construction of medicine, the biases of scientific inquiry, and the tensions among paternalism, liberty, and prejudice. Graduate degree credit will not be given for both HIST 4883 and HIST 5883.  
(Typically offered: Irregular)

HIST 5893. Germany, 1918-1945. 3 Hours.  
(Formerly HIST 4253.) Study of German history from advent of the Weimar Republic to the end of the Third Reich with emphasis upon the failure of democratic government in the 1920s and the rise and fall of the National Socialist dictatorship. Graduate degree credit will not be given for both HIST 4253 and HIST 5893.  
(Typically offered: Irregular)

HIST 5943. U.S. Labor History, from 1877-present. 3 Hours.  
(Formerly HIST 4943.) This course will examine the changing nature of work in U.S. history from 1877 until the present. It will pay particular attention to the ways that workers—individually and collectively—understand the meanings of their labor and to the ways that notions of class, gender, ethnicity, and race inform these understandings. Graduate degree credit will not be given for both HIST 4943 and HIST 5943.  
(Typically offered: Spring Even Years)

HIST 5963. Third World Underdevelopment and Modernization. 3 Hours.  
(Formerly HIST 4963.) Examines key issues related to societal change in the Third World, including various views and theories of international development and modernization. Other major issues explored include social inequalities, food and hunger, population, environment, trade and globalization, international aid, and the roles of state, market, and civil society. Graduate degree credit will not be given for both HIST 4963 and HIST 5963.  
(Typically offered: Irregular)

HIST 5973. The Civilization of the Renaissance in Italy. 3 Hours.  
Important trends in Italian culture between the 14th and 16th centuries, including the birth of humanism, new understandings of the past, "new" political ideologies, scientific innovation, and famous art produced in the Western tradition.  
(Typically offered: Irregular)

HIST 5983. Intellectual History of Europe Since the Enlightenment. 3 Hours.  
(Formerly HIST 4143.) A survey of the major developments in European thought and culture since the emergence of Romanticism. Topics include Romanticism, Darwinism, Marxism, and Modernism. Graduate degree credit will not be given for both HIST 4143 and HIST 5983.  
(Typically offered: Fall Even Years)

HIST 600V. Master's Thesis. 1-6 Hours.  
Master's Thesis. Prerequisite: Graduate standing.  
(Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

HIST 6013. The Era of the French Revolution. 3 Hours.  
(Formerly HIST 4213.) France from the salons of the Enlightenment to the Napoleonic Wars. The French Revolution will be explored in terms of politics and personalities, ideas and symbols, class and gender relations, and violence and terror. Graduate degree credit will not be given for both HIST 4213 and HIST 6013.  
(Typically offered: Fall Odd Years)

HIST 6033. Society and Gender in Modern Europe. 3 Hours.  
(Formerly HIST 4133.) Changing values and attitudes toward childhood, family life, sexuality, and gender roles in Europe from the Renaissance to the present. The social impact of the Industrial Revolution, urbanization, demographic change, and the two world wars. Graduate degree credit will not be given for both HIST 4133 and HIST 6033.  
(Typically offered: Spring Odd Years)

HIST 6063. Tudor-Stuart England, 1485-1714. 3 Hours.  
(Formerly HIST 4163.) Examines the history of the British Isles from the ascension of Henry VII and the Tudor dynasty until the close of the Stuart Era in 1714. Special attention is given to the English Reformation, the Elizabethan years, the 17th Century Revolutions, and the birth of an overseas Empire. Graduate degree credit will not be given for both HIST 4163 and HIST 6063.  
(Typically offered: Spring Even Years)

HIST 6073. Renaissance and Reformation, 1300-1600. 3 Hours.  
(Formerly HIST 4073.) Examines the history of Europe from the end of the Middle Ages through the Renaissance to the Reformation and Counter-Reformation. Special attention is paid to changes in popular piety, political thought, religious representation, and the discovery of the New World. Graduate degree credit will not be given for both HIST 4073 and HIST 6073.  
(Typically offered: Fall Even Years)

HIST 6083. Early Modern Europe, 1600-1800. 3 Hours.  
(Formerly HIST 4083.) Begins with the upheaval of the reformation, moves through the crisis of the 17th century and culminates with the democratic revolution of the 18th century. Examines the consolidation of the European state system, the propagation of modern science, discovery of overseas worlds, and the advent of the Industrial Revolution. Graduate degree credit will not be given for both HIST 4083 and HIST 6083.  
(Typically offered: Spring Odd Years)

HIST 6093. The History of African Americans and Social Justice. 3 Hours.  
(Formerly HIST 4093.) Explores how the United States has extended social justice to African Americans during the nation's history. Examines social justice for blacks and the impact of historic policies and practices on black life today. Graduate degree credit will not be given for both HIST 4093 and HIST 6093.  
(Typically offered: Irregular)

HIST 6113. Archaic Greece. 3 Hours.  
(Formerly HIST 4113.) History of Greece from the late Bronze Age to the end of the Persian Wars. This class will focus particularly on the sources involved with reconstructing early Greek history, especially Herodotus and Homer, on the development of the Greek city-state or polis, and on the interaction between the Greeks and Near-eastern civilizations during this period, culminating in the wars between the Greeks and the Persian Empire. Graduate degree credit will not be given for both HIST 4113 and HIST 6113.  
(Typically offered: Irregular)

HIST 6173. The Latin American City. 3 Hours.  
(Formerly HIST 4173.) This course examines the social, political, and cultural aspects of the modern Latin American city from an interdisciplinary perspective. The course includes an introduction to urban studies concepts, and each semester is organized around a specific set of case studies. Graduate degree credit will not be given for both HIST 4173 and HIST 6173.  
(Typically offered: Irregular)

HIST 6183. Great Britain 1707-1901. 3 Hours.  
(Formerly HIST 4183.) Examines the history of the British Isles from the 1707 Act of Union between Scotland and England until the death of Queen Victoria in 1901. Special attention is given to the spread of Empire, industrialization, and the political, social, and cultural aspects of the Georgian and Victorian Eras. Graduate degree credit will not be given for both HIST 4183 and HIST 6183.  
(Typically offered: Fall Even Years)
HIST 6203. Byzantine Empire. 3 Hours.
(Formerly HIST 4103.) Examines the history and culture of the Byzantine Empire from the reign of Constantine I to the fall of Constantinople in 1453. Topics include the development of Christianity and the schism with the western church, the crusades, and Byzantine influence on Islam, Russia, the Ottomans, and the Renaissance. Graduate degree credit will not be given for both HIST 4103 and HIST 6203. (Typically offered: Irregular)

HIST 6223. France Since 1815. 3 Hours.
(Formerly HIST 4223.) Survey of French history from the overthrow of Napoleon to the 5th Republic, with emphasis on French politics, society, and culture. Graduate degree credit will not be given for both HIST 4223 and HIST 6223. (Typically offered: Spring Even Years)

HIST 6243. Germany, 1789-1918. 3 Hours.
(Formerly HIST 4243.) Study of German history from the Age of Absolutism to the collapse of the German Empire at the end of the First World War. Special attention is paid to the Enlightenment and Romantic movements; nationalism and the unification of Germany; and evolving conflicts over the political and social order. Graduate degree credit will not be given for both HIST 4243 and HIST 6243. (Typically offered: Irregular)

HIST 6263. Independence and Africa Today. 3 Hours.
(Formerly HIST 4263.) Examines the last half-century of Africa's history, focusing on the last few decades. Introduction of Africa's colonial past, revolutions and struggles for independence. Review of African development in the post-colonial and contemporary era, successes and failures of independent Africa, and the challenges the continent faces today. Graduate degree credit will not be given for both HIST 4263 and HIST 6263. (Typically offered: Spring)

HIST 6293. Latin American Environmental History. 3 Hours.
Explores the challenges, debates, and ecologies of Latin America in order to understand the historical roots of current environmental crises. It engages a historiography on ecosystems found in the region. Uses environmental history texts and scholarly articles to build a layered and transnational approach. (Typically offered: Irregular)

HIST 6303. Transatlantic Relations, 1919-Present. 3 Hours.
(Formerly HIST 4303.) US-Western European Relations, from the Wilsonian era to the present, covering strategic, economic, and cultural aspects. Graduate degree credit will not be given for both HIST 4303 and HIST 6303. (Typically offered: Irregular)

HIST 6333. Modern Islamic Thought. 3 Hours.
(Formerly HIST 4333.) Main currents in Islamic theology and political philosophy from the Ottoman Empire to the end of the twentieth century. Graduate degree credit will not be given for both HIST 4333 and HIST 6333. (Typically offered: Irregular)

HIST 6343. Golden Age Portugal and Spain. 3 Hours.
(Formerly HIST 4343.) This course will examine the diverging and converging paths of Portugal and Spain during the early modern period (15th-17th centuries). We will chart their rise as global imperial powers and their initial declines. We'll explore the political, social, and religious contexts in which Golden Age Iberia flourished. Graduate degree credit will not be given for both HIST 4343 and HIST 6343. (Typically offered: Irregular)

HIST 6463. The American Frontier. 3 Hours.
(Formerly HIST 4463.) American westward expansion and its influence on national institutions and character. Emphasis on the pioneer family and the frontier's role in shaping American society, culture, economy, and politics. Topics include exploration, the fur trade, the cattle kingdom and the mining, farming, and military frontiers. Graduate degree credit will not be given for both HIST 4463 and HIST 6463. (Typically offered: Fall Odd Years)

HIST 6473. Environmental History. 3 Hours.
(Formerly HIST 4473.) Examines the interactions between human culture and the natural environments: Concepts of nature in the West and elsewhere, dynamics of the Physical Environment, case studies in Regional Environmental History and the Politics of Environmental movements. Graduate degree credit will not be given for both HIST 4473 and HIST 6473. (Typically offered: Irregular)

HIST 6513. New Women in the Middle East. 3 Hours.
(Formerly HIST 4413.) This course covers the transformation of social and cultural roles of women in the Middle East since the 19th Century. Emphasizes include political emancipation, religious reformation, artistic representation, and gendered re-definition. Graduate degree credit will not be given for both HIST 4413 and HIST 6513. (Typically offered: Irregular)

HIST 6523. Wars of Religion: From the Crusades to 9/11. 3 Hours.
(Formerly HIST 4323.) Examines the place of religion in combat across the centuries. A case study approach is used to explore different conflicts from the twelfth century crusades against Muslim forces to 9/11. Investigates how religious motivations may or may not be related to other political, social, cultural, economic concerns. Graduate degree credit will not be given for both HIST 4323 and HIST 6523. (Typically offered: Irregular)

HIST 6543. Late Antiquity and the Early Middle Ages. 3 Hours.
(Formerly HIST 4043.) This course examines the political, spiritual, intellectual, and social-economic developments of European history, c. 300-1000 CE. Special topics include the Christianization of the late Roman Empire and Byzantium, as well as the formation of Celtic and Germanic Kingdoms in the West. Graduate degree credit will not be given for both HIST 4043 and HIST 6543. (Typically offered: Fall Even Years)

HIST 6553. The Middle East since 1914. 3 Hours.
(Formerly HIST 4363.) Middle East since 1914 addresses European colonialism, the rise of new social elites, independence, revolution, globalization, economic self-determination, persistent regional conflicts and ongoing battles over "cultural authenticity". Graduate degree credit will not be given for both HIST 4363 and HIST 6553. (Typically offered: Irregular)

HIST 6623. Africa and the Trans-Atlantic Slave Trade. 3 Hours.
(Formerly HIST 4123.) Examines the trans-Atlantic slave trade with a primary focus on the role of Africa and Africans in creating the unique economy and culture of the trans-Atlantic world. Graduate degree credit will not be given for both HIST 4123 and HIST 6623. (Typically offered: Irregular)

HIST 6643. Frontiers and Borderlands in Colonial Latin America. 3 Hours.
(Formerly HIST 4443.) This course examines frontiers and borderlands in colonial Latin America and focuses on the regions of California, New Mexico, Texas, Brazil, and the Río de la Plata. It demonstrates that frontiers and borderlands are defined by the absence of a hegemonic European power and associated with the prevalence of Indigenous norms. Graduate degree credit will not be given for both HIST 4443 and HIST 6643. (Typically offered: Irregular)

HIST 6703. Emergence of Modern America, 1876-1917. 3 Hours.
(Formerly HIST 4703.) A survey of the impact of the Industrial Revolution, Imperialism, and progressivism upon American life and institutions. Graduate degree credit will not be given for both HIST 4703 and HIST 6703. (Typically offered: Fall Odd Years)

HIST 6733. Recent America, 1941 to the Present. 3 Hours.
(Formerly HIST 4733.) A general survey of American history since World War II with emphasis upon the presidency, reform movements, the Cold War, and cultural developments. Graduate degree credit will not be given for both HIST 4733 and HIST 6733. (Typically offered: Irregular)
HIST 6743. The Cold War in Latin America: Revolutions, Violence, and Politics. 3 Hours.
(Formerly HIST 4743.) This course will trace the rise of the ideological and political struggles over social and economic development and the security regimes designed to thwart socialist revolution and political mobilization. The influence of the United States in Latin American security regimes and “containment” activities will receive special attention. Graduate degree credit will not be given for both HIST 4743 and HIST 6743. (Typically offered: Irregular)

HIST 6843. Global History of Soccer. 3 Hours.
Prompts students to explore the various historical processes related to the global diffusion of and engagement with soccer. Examines the ways soccer has reflected the broader, ongoing process of globalization, with players, ideas, tactics, and wealth circulating throughout the globe. (Typically offered: Irregular)

HIST 6993. History of the Ottoman Empire, 1300-1923. 3 Hours.
History of the Ottoman Empire from its emergence as frontier principality in Anatolia ca. 1300, through its heyday as a major imperial power on three continents in the fifteenth through the eighteenth centuries, ending with its encounter with western imperialism and nationalism in the nineteenth and early twentieth centuries. (Typically offered: Irregular)

HIST 700V. Doctoral Dissertation. 1-18 Hour.
Independent research and writing leading to the completion of a doctoral dissertation. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

HIST 7023. Historical Methods. 3 Hours.
Practical introduction to historical research and writing. Consists of lecture, library reading, and class criticism of research papers. Prerequisite: Graduate standing. (Typically offered: Fall)

HIST 7043. Historiography. 3 Hours.
Survey of the history of historical writing and a study of the important schools and historical interpretation. Prerequisite: Graduate standing. (Typically offered: Irregular)

HIST 7053. Reading Seminar in Asian History. 3 Hours.
Concentrated reading in selected specialized areas of Asian history. Prerequisite: Advanced graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7103. Reading Seminar in American History. 3 Hours.
Historiographical and bibliographical study of special areas of U.S. history, such as Antebellum America, the Civil War, etc. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7123. Research Seminar in History. 3 Hours.
Research projects in selected fields of history, such as political history, gender history, history of race, etc. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7133. Reading Seminar in European History. 3 Hours.
Historiographical and bibliographical study of special periods in European history, such as the Roman Empire, the late Middle Ages, the French Revolution, etc. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7153. Reading Seminar in British History. 3 Hours.
Historiographical and bibliographical study of selected periods of British history. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7213. Reading Seminar in Middle Eastern History. 3 Hours.
Historiographical and bibliographical study of special areas of Middle Eastern history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7313. Reading Seminar in Latin American History. 3 Hours.
Historiographical and bibliographical study of special areas in Latin American history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7353. Reading Seminar in Medieval History. 3 Hours.
Historiographical and bibliographical study of special areas in medieval history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7373. Reading Seminar in Ancient History. 3 Hours.
Historiographical and bibliographical study of special areas in ancient history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7413. Reading Seminar in African History. 3 Hours.
Historiographical and bibliographical study of selected periods and/or topics in African history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7433. Reading Seminar in Caribbean History. 3 Hours.
Historiographical and bibliographical study of special areas in Caribbean history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7453. Reading Seminar in Global History. 3 Hours.
Graduate seminar adopting global perspectives on Europe, US, Asia, Africa, Latin America. Decentering narratives focusing on regional approaches, the course examines the global implications of various historical developments. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

Honors College (HNRC)

Courses

HNRC 102VH. Honors College Introduction to Research. 1-6 Hour.
The Honors College Introduction to Research functions as part of a bridge program between secondary education and the university. The main purpose is to introduce students to the full range of research activities available at an R-1 institution and to do so under the guidance of both STEM and non-STEM honors faculty members. Prerequisite: Departmental consent. Pre- or Corequisite: Honors standing or membership in the Honors College Path Program. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HNRC 204VH. Honors International Research Internship Foundations. 1-6 Hour.
The Honors College International Research Internship Foundations hours are intended for undergraduates who undertake an international research internship, usually with funding from the Honors College. An on-campus faculty mentor will supervise the preparatory work in advance of the time spent abroad. Pre- or Corequisite: Honors standing. Prerequisite: Departmental consent. (Typically offered: Irregular) May be repeated for degree credit.

HNRC 205VH. Honors Domestic Internship Foundations. 1-6 Hour.
The Honors College Domestic Internship Foundations hours are intended for undergraduates who undertake a domestic internship, usually with funding from the Honors College. An on-campus faculty mentor will approve any needed preparatory work in advance of the internship. Prerequisite: Departmental consent. Pre- or Corequisite: Honors standing. (Typically offered: Irregular) May be repeated for degree credit.

HNRC 300VH. Honors College Forum. 1-3 Hour.
The Honors College Forum centers on contemporary issues sparking intense national and international media scrutiny. Faculty experts partner with honors students in a seminar-style, discussion format. Topics vary by semester. Pre- or Corequisite: Honors standing. (Typically offered: Fall and Spring) May be repeated for degree credit.
HNRC 301VH. Honors College Retro Readings. 1-3 Hour.
Honors College Retro Readings centers on classic authors read through a contemporary lens. Faculty experts partner with honors students from all undergraduate colleges in a seminar-style discussion format. Topics vary by semester. Pre- or Corequisite: Honors standing. (Typically offered: Fall and Spring) May be repeated for degree credit.

HNRC 3801H. Honors College Catapult. 1 Hour.
This course is designed to place ambitious, high-achieving students on a trajectory toward nationally competitive awards and/or graduate and professional programs of study. Students in the course will prepare their academic resume, construct a personal statement, and answer essay prompts as each component may relate to nationally competitive awards and graduate or professional school admission. Additional topics include studying for advanced tests such as the Graduate Record Exam (GRE), building a graduate or professional school timeline, and preparing for interviews. Learning outcomes will be achieved through active engagement in writing and compilation exercises, research, and discussion. Prerequisite: Honors standing. (Typically offered: Spring)

HNRC 3901H. Honors Med School. 1 Hour.
Introduces students to the process of applying to medical school while dispelling several common myths about the practice of medicine. Seminar participants also explore pressing issues facing doctors these days, including the opioid crisis, the increasing elderly population, and the rise of corporate healthcare. Prerequisite: Departmental consent. Pre- or Corequisite: Honors standing. (Typically offered: Spring)

HNRC 4013H. Honors College Signature Seminar. 3 Hours.
The Honors College Signature Seminar Series features leading scholars who will offer courses bridging multiple colleges and having broad appeal. These signature seminars will develop from the current research of the faculty who offer them, thereby inviting honors students into their scholarly world at a very high level. The goal of the signature seminar series is to spark undergraduate research projects and to stimulate career trajectories, including nationally competitive fellowships and/or admittance to graduate and professional programs. Topics vary by semester. Eligible students must be in good standing in the Honors College. Pre- or Corequisite: Honors standing. Prerequisite: Departmental consent. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

HNRC 402VH. Honors College Research. 1-6 Hour.
The Honors College Research hours are intended for undergraduates who have already begun their research on campus and will travel domestically for a significant period of time to enhance and extend this research. An on-campus faculty mentor and a research mentor on-site are required. Prerequisite: Departmental consent. Pre- or Corequisite: Honors standing. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

HNRC 403VH. Honors College International Research. 1-6 Hour.
The Honors College International Research hours are intended for undergraduates who have already begun their research on campus and will travel abroad for a significant period of time to enhance and extend this research. An on-campus faculty mentor and a research mentor on-site are required. Prerequisite: Departmental consent. Pre or corequisite: Honors standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HNRC 404VH. Honors International Research Internship. 1-6 Hour.
The Honors College International Research Internships are intended for upper-level undergraduates who undertake an international research internship, usually with funding from the Honors College. An on-campus faculty mentor and a research mentor on-site are required. Prerequisite: Departmental consent. Pre- or corequisite: Honors standing. (Typically offered: Irregular) May be repeated for degree credit.

HNRC 405VH. Honors Domestic Internship. 1-6 Hour.
The Honors College Domestic Internship hours are intended for upper-level undergraduates who undertake a domestic internship, usually with funding from the Honors College. An on-campus faculty mentor will approve any needed preparatory work in advance of the internship. (Typically offered: Irregular) May be repeated for degree credit.

Horticulture (HORT)
Courses
HORT 1103. Plants, People and You. 3 Hours.
Plants, People and You is a course designed to introduce students to the world of horticulture, with an emphasis on how plants can be used for food, fun, health, economic value or environmental contribution. (Typically offered: Fall)

HORT 1303. Introduction to Floral Design. 3 Hours.
Students in this introductory class in Floral Design will learn basic design elements such as line, form, mass, balance, texture and color as used in floral art. Students will gain an appreciation of the various types and species of flowers and foliage used in various floral arrangements such as bouquets and centerpieces. In addition, students will learn common post-harvest handling techniques of fresh cut floral plant material to prolong vase-life from the purchasing stage to the final design. Corequisite: Lab component. (Typically offered: Spring)

A course introducing students to the biological and technologies underlying the propagation, production, handling and use of horticultural crops, turf and landscape plants. Students will be introduced to the various disciplines and commodities of horticulture. The use of plants for the benefit of humankind because of their aesthetic and nutritional value will be explored. Previous instruction in Plant Science, Plant Biology, or general Botany is strongly encouraged. Corequisite: Lab component. (Typically offered: Fall)

HORT 2101. Horticulural Career Development. 1 Hour.
A course which presents concepts necessary for developing a career and becoming a professional in horticulture industries or businesses. Concepts of goal setting, effective communication and interpersonal skills, behaviors and performance, portfolio and resume, development and job hunting skills will be presented. (Typically offered: Spring)

HORT 2303. Introduction to Turfgrass Management. 3 Hours.
An introductory course in turfgrass management emphasizing turfgrass growth, adaptation, and management. Methods for establishment, fertilization, mowing, cultivation, irrigation, and pest management are presented, and their impact on culture of lawns, golf courses, athletic fields, and other managed turf areas discussed. (Typically offered: Fall)

HORT 3103. Woody Landscape Plants. 3 Hours.
Identification, climatic adaptation and landscape design values of woody ornamental trees, shrubs and vines. Lecture 2 hours per week. Corequisite: Lab component. (Typically offered: Spring Odd Years)

HORT 3113. Herbaceous and Indoor Plant Materials. 3 Hours.
Identification, culture, and use of annuals, perennials in landscapes and foliage plants in interiors. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. (Typically offered: Spring Odd Years)

HORT 3123. International Horticulture. 3 Hours.
Considerable globalization of agriculture has occurred over the past several decades, especially in the area of horticultural crops. This course provides a base of knowledge of the international horticulture industry focusing on principles and practices of development and trade of horticultural crops. (Typically offered: Spring)
HORT 3203. Sustainable Landscape Practices. 3 Hours.
New methods of landscape management are required to restore or protect the ecological services provided by developed landscapes. This course is focused on methods for sustainable land management. Included as part of the curriculum is a survey of sustainable management as it applies to site resources, including water, nutrients, energy and biodiversity. Retrofitting existing development, organic lawn, tree, and shrub care, successional landscapes, permaculture, sustainable material selection, and best available equipment will be covered in depth. Prerequisite: HORT 2003. (Typically offered: Fall)

HORT 3303. Vegetable Crops. 3 Hours.
General course in vegetable crops with attention to the principles underlying methods of production and handling related to yields and quality of the products. Lecture 2 hours, laboratory 2 hours per week. Prerequisite: HORT 2003 and CSES 2203. (Typically offered: Fall Odd Years)

HORT 3403. Turfgrass Management. 3 Hours.
Cultural and management practices of commercial and residential lawns. Principles and practices of mowing, fertilizing, irrigating, and control of weed, disease, and insects. Identification of turfgrass; equipment selection. Corequisite: Lab component. Prerequisite: HORT 2303. (Typically offered: Spring Even Years)

HORT 3503. Sustainable and Organic Horticulture. 3 Hours.
This course will provide a base of knowledge of the principles and practices of sustainable, organic, and alternative horticulture management systems. The class will review and evaluate topics including soil biological processes (compost, humus and fertility), pest management, alternative farming systems, and organic agriculture. After this foundation information is studied, the class will study applications of sustainable agriculture principles to production systems such as greenhouse vegetable production, ornamental production, fruit production, and landscape and turf management. (Typically offered: Fall Even Years)

HORT 400V. Special Problems. 1-6 Hour.
Original investigations on assigned problems in horticulture. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

HORT 401V. Special Topics in Horticulture, Turf or Landscape. 1-6 Hour.
Topics related to horticulture, turfgrass or landscape science or management not covered in other courses or a more intensive study of a specific topic. (Typically offered: Irregular) May be repeated for degree credit.

HORT 402V. Horticulture Judging and Competition Activity. 1-6 Hour.
Training for and participation on horticultural identification, judging and competitive teams. Prerequisite: HORT 4003. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HORT 403V. Professional Landscape Installation and Construction. 3 Hours.
Principles and practices involved in landscape installation and construction. Topics covered include sequencing construction activities, protecting existing trees, landscape soils, selecting plants, planting and transplanting plant materials, wood construction, cement and masonry construction, and low-voltage lighting. Lecture 3 hours per week. Prerequisite: HORT 2003. (Typically offered: Fall Even Years)

HORT 404V. Professional Landscape Management. 3 Hours.
Principles and practices of landscape management and maintenance. Topics include low maintenance and seasonal color design, pruning and hazard tree management, water and fertilizer management, pesticide use, and other maintenance activities. Basic elements of marketing, specifications and contracts, estimating, personnel management, and equipment selection and acquisition relevant for landscape services will be introduced. Preparatory training in agribusiness or business is suggested. Prerequisite: HORT 2003 and HORT 3103. (Typically offered: Fall Odd Years)

HORT 4103. Fruit Production Science and Technology. 3 Hours.
The management technologies and cultural practices of fruit crops including (but not limited to) blueberries, blackberries, raspberries, strawberries, grapes, peaches, and apples will be presented. The underlying scientific principles of crop genetics, nutrition, and physiology will be presented as a basis for making management decisions in fruit crop productions. Corequisite: Lab component. Prerequisite: HORT 2003. (Typically offered: Spring Odd Years)

HORT 4153. Sustainable Techniques in Urban Horticulture. 3 Hours.
Sustainable Techniques in Urban Horticulture is a practicum based course where the student will learn basic techniques in sustainable production of horticultural crops in an urban or small-scale environment. Crops may include vegetables, cut flowers, or small fruits. This course is intended for students who do not have an agricultural production background or for those students wanting to learn more about the production of high-value horticultural crops under sustainable production systems. (Typically offered: Summer)

HORT 4403. Plant Propagation. 3 Hours.
Principles of plant propagation using seeds, cuttings, grafting, budding, layering, and tissue culture. The physiological basis of propagation is described. Knowledge of plant growth and physiology is needed. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: HORT 2003. (Typically offered: Spring)

HORT 4403H. Honors Plant Propagation. 3 Hours.
Principles of plant propagation using seeds, cuttings, grafting, budding, layering, and tissue culture. The physiological basis of propagation is described. Knowledge of plant growth and physiology is needed. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: HORT 2003 and honors standing. (Typically offered: Spring)

This course is equivalent to HORT 4403.

HORT 4413. Horticulture Physiology. 3 Hours.
This course provides students with a background into the physiological processes of plants with an emphasis on horticultural crops and how the processes relate to horticultural crop production practices. Among the topics covered are photosynthesis, respiration, water relations and morphogenesis. Prerequisite: HORT 2003 and CHEM 1073. (Typically offered: Spring)

HORT 4503. Sustainable Nursery Production. 3 Hours.
This course addresses issues and practices involved in production of quality woody nursery crops (e.g. trees and shrubs produced in open field and containerized systems). (Typically offered: Spring Even Years)

HORT 4603. Practical Landscape Planning. 3 Hours.
Ornamental planting design and landscape planning concepts. Preparing planting plans, materials sheets, and cost estimates for residential properties. Prerequisite: HORT 3103. (Typically offered: Spring Even Years)

HORT 462V. Horticulture, Landscape, Turf Sciences Internship Experience. 1-6 Hour.
A supervised practical work experience in a horticulture, landscape design, or turf business or research program to gain professional competence and insight into employment opportunities. Prerequisite: COMM 1313 and HORT 2101. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

HORT 4701L. Greenhouse Management and Controlled Environment Horticulture Laboratory. 1 Hour.
Laboratory involving hands-on experiments designed to demonstrate principles discussed in the lecture section. Includes field trips. Corequisite: HORT 4703. (Typically offered: Fall Odd Years)
HORT 4703. Greenhouse Management and Controlled Environment Horticulture. 3 Hours.
Operation and management of greenhouses and other controlled environments used in horticultural production. Emphasis on system design and construction, control of light intensity and photoperiod, heating and cooling systems, substrates, mineral nutrition, water quality and irrigation systems. Prerequisite: HORT 2003 and CHEM 1073. (Typically offered: Fall)

HORT 472V. Horticulture, Landscape, Turf Sciences Internship Assessment. 1-6 Hour.
The objective of the HORT 472V Internship Assessment is for the student to gain mastery in written and oral communication skills and critical thinking skills by reflection and analysis of ideas, artifacts, and events gained from a prior internship experience. The student is expected to master specific skills in the context, content development, syntax and mechanics and purpose of writing in a visual presentation relating to the internship experience. The student will also master skills in the organization, central message, language, and delivery of an oral presentation related to the internship experience. The student will master critical thinking skills through the explanation of issues, personal perspective, evidence presentation, and conclusions and outcomes related to the internship experience. Prerequisite: HORT 462V. (Typically offered: Fall, Spring and Summer)

HORT 4801L. Greenhouse Crops Production Laboratory. 1 Hour.
Laboratory involving hands-on experiments designed to demonstrate principles discussed in the lecture section. Includes field trips. Corequisite: HORT 4803. (Typically offered: Spring Even Years)

HORT 4803. Greenhouse Crops Production. 3 Hours.
Principles and practices of production and marketing of crops commonly grown in controlled environments including flowering containerized herbaceous species, geophytes, annual and perennial bedding plants, hydroponic vegetables and herbs. Prerequisite: HORT 4703. (Typically offered: Spring Even Years)

HORT 4903. Golf and Sports Turf Management. 3 Hours.
Turf management techniques for golf courses, and athletic fields including species selection, root-zone construction and modification, fertilization, mowing, irrigation and pest control. Corequisite: Lab component. Prerequisite: CSES 2203 and CSES 2201L and (HORT 2303 or HORT 3403). (Typically offered: Fall Odd Years)

HORT 4913. Rootzone Management for Golf and Sports Turf. 3 Hours.
An overview of the fundamental concepts of the physical and chemical properties of rootzones as related to construction and turfgrass management. Corequisite: Lab component. Prerequisite: HORT 2303 and CSES 2203. (Typically offered: Spring Odd Years)

HORT 4921. Golf Course Operations. 1 Hour.
This course is designed to cover specific aspects of golf course operations that would not be included in traditional turfgrass management courses. Topics will include budgeting, personnel management, tournament setup and operation, dealing with golf club committees, communication, and other relevant topics related to managing a golf course maintenance operation. Prerequisite: HORT 4903. (Typically offered: Fall Even Years)

HORT 4932. Turf Best Management Practices. 2 Hours.
The course covers the impacts of turfgrass management practices on turf quality and the environment. In addition, the identification, biology, and control practices for the major insects, diseases, and weeds that infest turf will be covered. Emphasis will be placed on management strategies that include both chemical and non-chemical approaches to the prevention and control of common turfgrass pests. Prerequisite: HORT 4903. (Typically offered: Spring Odd Years)

HORT 5001. Seminar. 1 Hour.
Review of scientific literature and oral reports on current research in horticulture. (Typically offered: Fall and Spring) May be repeated for up to 4 hours of degree credit.

HORT 501V. Special Topics in Horticulture, Turf or Landscape. 1-6 Hour.
(Formerly HORT 401V.) Topics related to horticulture, turfgrass or landscape science or management not covered in other courses or a more intensive study of a specific topic. Graduate degree credit will not be given for both HORT 401V and HORT 501V. (Typically offered: Irregular) May be repeated for degree credit.

HORT 502V. Horticulture Judging and Competition Activity. 1-6 Hour.
(Formerly HORT 402V.) Training for and participation on horticultural identification, judging and competitive teams. Graduate degree credit will not be given for both HORT 402V and HORT 502V. Prerequisite: HORT 2003. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HORT 503V. Special Problems Research. 1-6 Hour.
Original investigations on assigned problems in horticulture. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

HORT 5043. Advanced Plant Breeding. 3 Hours.
Application of genetic principles to the improvement of crop plants. Presentation of conventional plant breeding methods and special techniques such as polyploidy, interspecific hybridization and induced mutation. Lecture 3 hours per week. Prerequisite: BIOL 2323 and BIOL 2321L or (ANSC 3123 and CSES 4103). (Typically offered: Spring Odd Years)

HORT 5103. Plant Growth and Development. 3 Hours.
This course will focus on environmental and developmental processes of plant growth and development. A student completing this course should have an understanding of the developmental processes of plant growth and how environmental factors interact to affect and control plant growth and development. (Typically offered: Fall)

HORT 5113. Fruit Production Science and Technology. 3 Hours.
(Formerly HORT 4103.) The management technologies and cultural practices of fruit crops including (but not limited to) blueberries, blackberries, raspberries, strawberries, grapes, peaches, and apples will be presented. The underlying scientific principles of crop genetics, nutrition, and physiology will be presented as a basis for making management decisions in fruit crop productions. Graduate degree credit will not be given for both HORT 4103 and HORT 5113. Corequisite: Lab component. Prerequisite: HORT 2003. (Typically offered: Spring Odd Years)

HORT 5143. Professional Landscape Management. 3 Hours.
Principles and practices of landscape management and maintenance. Topics include low maintenance and seasonal color design, pruning and hazard tree management, water and fertilizer management, pesticide use, and other maintenance activities. Basic elements of marketing, specifications and contracts, estimating, personnel management, and equipment selection and acquisition relevant for landscape services will be introduced. Preparatory training in agribusiness or business is suggested. Prerequisite: HORT 2003 and HORT 3103. (Typically offered: Fall Odd Years)

HORT 5153. Sustainable Techniques in Urban Horticulture. 3 Hours.
Student will learn basic techniques in sustainable production of horticultural crops in an urban or small-scale environment. Crops may include vegetables, cut flowers, or small fruits. This course is intended for students who do not have an agricultural production background or for those students wanting to learn more about the production of high-value horticultural crops under sustainable production systems. For graduate credit, students will be expected to design a four-year crop rotation scheme using sustainable techniques. The student will also develop a plan addressing issues such as post-harvest handling and or food safety issues. (Typically offered: Summer)
HORT 5203. Temperature Stress Physiology. 3 Hours.
This course will teach students how to apply biological, chemical and physical principles to models of how plants are damaged by temperature extremes and how they change to increase resistance. Students will apply these principles to better understand plant responses to other environmental challenges, including both biotic and abiotic stresses. (Typically offered: Spring)

HORT 530V. Special Problems. 1-6 Hour.
(Formerly HORT 400V.) Original investigations on assigned problems in horticulture. Graduate degree credit will not be given for both HORT 400V and HORT 530V. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

HORT 5333. Professional Landscape Installation and Construction. 3 Hours.
(Formerly HORT 4303.) Principles and practices involved in landscape installation and construction. Topics covered include sequencing construction activities, protecting existing trees, landscape soils, selecting plants, planting and transplanting plant materials, wood construction, cement and masonry construction, and low-voltage lighting. Lecture 3 hours per week. Preparatory training in agribusiness or business is suggested. Graduate degree credit will not be given for both HORT 4033 and HORT 5333. Prerequisite: HORT 2003. (Typically offered: Fall Even Years)

HORT 5403. Plant Propagation. 3 Hours.
(Formerly HORT 4403.) Principles of plant propagation using seeds, cuttings, grafting, budding, layering, and tissue culture. The physiological basis of propagation is described. Knowledge of plant growth and physiology is needed. Lecture 2 hours, laboratory 2 hours per week. Graduate degree credit will not be given for both HORT 4403 and HORT 5403. Corequisite: Lab component. Prerequisite: BIOL 1613 and BIOL 1611L. (Typically offered: Spring)

HORT 5413. Horticulture Physiology. 3 Hours.
(Formerly HORT 4413.) This course provides students with a background into the physiological processes of plants with an emphasis on horticultural crops and how the processes relate to horticultural crop production practices. Among the topics covered are photosynthesis, respiration, water relations and morphogenesis. Graduate degree credit will not be given for both HORT 4413 and HORT 5413. Prerequisite: HORT 2003 and CHEM 1073. (Typically offered: Spring)

HORT 5503. Sustainable Nursery Production. 3 Hours.
(Formerly HORT 4503.) This course addresses issues and practices involved in production of quality woody nursery crops (e.g. trees and shrubs produced in open filed and containerized systems). Graduate degree credit will not be given for both HORT 4503 and HORT 5503. (Typically offered: Spring Even Years)

HORT 5701L. Greenhouse Management and Controlled Environment Horticulture Laboratory. 1 Hour.
(Formerly HORT 4701L.) Laboratory involving hands-on experiments designed to demonstrate principles discussed in the lecture section. Includes field trips. Graduate degree credit will not be given for both HORT 4701L and HORT 5701L. Corequisite: HORT 5703. (Typically offered: Fall Odd Years)

HORT 5703. Greenhouse Management and Controlled Environment Horticulture. 3 Hours.
(Formerly HORT 4703.) Operation and management of greenhouses and other controlled environments used in horticultural production. Emphasis on system design and construction, control of light intensity and photoperiod, heating and cooling systems, substrates, mineral nutrition, water quality and irrigation systems. Graduate degree credit will not be given for both HORT 4703 and HORT 5703. Prerequisite: HORT 2003 and CHEM 1073. (Typically offered: Fall)

HORT 5801L. Greenhouse Crops Production Laboratory. 1 Hour.
(Formerly HORT 4801L.) Laboratory involving hands-on experiments designed to demonstrate principles discussed in the lecture section. Includes field trips. Graduate degree credit will not be given for both HORT 4801L and HORT 5801L. Corequisite: HORT 5803. (Typically offered: Spring Even Years)

HORT 5803. Greenhouse Crops Production. 3 Hours.
(Formerly HORT 4803.) Principles and practices of production and marketing of crops commonly grown in controlled environments including flowering containerized herbaceous species, geophytes, annual and perennial bedding plants, hydroponic vegetables and herbs. Graduate degree credit will not be given for both HORT 4803 and HORT 5803. Prerequisite: HORT 4703 or HORT 5703 (formerly HORT 4703). (Typically offered: Spring Even Years)

HORT 5903. Golf and Sports Turf Management. 3 Hours.
(Formerly HORT 4903.) Turf management techniques for golf courses, and athletic fields including species selection, root-zone construction and modification, fertilization, mowing, irrigation and pest control. Graduate degree credit will not be given for both HORT 4903 and HORT 5903. Corequisite: Lab component. Prerequisite: CSES 2203 and CSES 2201L and (HORT 2303 or HORT 3403). (Typically offered: Fall Odd Years)

HORT 5913. Rootzone Management for Golf and Sports Turf. 3 Hours.
(Formerly HORT 4913.) An overview of the fundamental concepts of the physical and chemical properties of rootzones as related to construction and turfgrass management. Graduate degree credit will not be given for both HORT 4913 and HORT 5913. Corequisite: Lab component. Prerequisite: HORT 2303. (Typically offered: Spring Odd Years)

HORT 5921. Golf Course Operations. 1 Hour.
(Formerly HORT 4921.) This course is designed to cover specific aspects of golf course operations that would not be included in traditional turfgrass management courses. Topics will include budgeting, personnel management, tournament setup and operation, dealing with golf club committees, communication, and other relevant topics related to managing a golf course maintenance operation. Graduate degree credit will not be given for both HORT 4921 and HORT 5921. Prerequisite: HORT 4903 or HORT 5903 (formerly HORT 4903). (Typically offered: Fall Even Years)

HORT 5932. Turf Best Management Practices. 2 Hours.
(Formerly HORT 4932.) The course covers the impacts of turfgrass management practices on turf quality and the environment. In addition, the identification, biology, and control practices for the major insects, diseases, and weeds that infest turf will be covered. Emphasis will be placed on management strategies that include both chemical and non-chemical approaches to the prevention and control of common turfgrass pests. Graduate degree credit will not be given for both HORT 4932 and HORT 5932. Prerequisite: HORT 2303, PLPA 3003 and ENTO 3013. (Typically offered: Spring Odd Years)

HORT 5993. Global Horticulture and Human Nutrition to Enhance Community Resilience and Food Security. 3 Hours.
This course covers three broad areas (Global Horticulture, Sustainable International Development, Human Health and Nutrition) and experts on three campuses created the instruction. The course is intended to be multi-disciplinary, and students should use their contextual knowledge to add to weekly discussions. Prerequisite: Graduate standing. (Typically offered: Spring Even Years)
This course is cross-listed with AGED 5993, FDSC 5993.

HORT 600V. Master's Thesis. 1-6 Hour.
Master's Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

HORT 602V. Special Topics in Horticulture. 1-3 Hour.
Discussion and advanced studies on selected topics in genetics, plant breeding, physiology and culture of horticultural crops. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for degree credit.
HORT 6033. Molecular Plant Breeding. 3 Hours.
In-depth study of genetic improvement and techniques. Covers both current and classical literature. Topics to be discussed: haploidy, genetic control of pairing, somatic instability, tissue culture and protoplast fusion, and male sterility. Lecture discussion 3 hours per week. Prerequisite: BIOL 2323 and BIOL 2321L (or ANSC 3123 and CSES 4103 or equivalent). (Typically offered: Fall)

HOSP 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. May be repeated for degree credit. Prerequisite: Graduate Standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 18 hours of degree credit.

Hospitality Management (HOSP) Courses

HOSP 1603. Introduction to Hospitality Management. 3 Hours.
Study of the hospitality industry from a global perspective. Emphasizes an introduction to the different sectors of the hospitality industry: food service, lodging, travel & tourism, and marketing of the sectors. Exposes students to experienced practitioners who provide real life case studies and perspectives on management in the hospitality environment. Provides career development perspectives and instruction as well as management roles and techniques. (Typically offered: Fall and Spring)

HOSP 2603. Purchasing and Cost Control. 3 Hours.
Food purchasing with emphasis on specifications. Relationship of food purchasing to available equipment. Receiving, storage, distribution, and inventory control. Meal quality control and costing. Food and nonfood materials, management of the purchasing process, and communication. Specification writing, menu analysis, and costing. Prerequisite: Must be a HESC, HNAD, FNAH or HOSP major or a EVMG-M student. (Typically offered: Fall and Spring)

HOSP 2611. Foodservice Sanitation. 1 Hour.
Principles and theory of food safety and sanitation in the hospitality and foodservice industries, focused on prevention of food borne illnesses and ensuring public health and consumer safety. Prerequisite: HNAD, FNAH, or HOSP major, NUTR-M students or CATEBS-FCS students. (Typically offered: Fall and Spring)

HOSP 2633. Lodging Property Management. 3 Hours.
Examines the organization, duties and administration of the hotel. Includes: the rooms division, convention/meeting spaces, and general business operations. Pre- or Corequisite: HOSP 1603. (Typically offered: Fall and Spring)

HOSP 2643. Intro to Casino Management. 3 Hours.
This course provides an overview of casino operations including the economics of the casino and its interface with hotels and other organizations and the practices and problems associated with the casino management such as staffing, security, controls, taxation and entertainment. Prerequisite: HOSP 1603 and (Hospitality Management Bachelor of Science (HOSPBS) or Hospitality Management Minor (HOSP-M) or Event Management Minor (EVMG-M) students). (Typically offered: Fall, Spring and Summer)

HOSP 2653. Introduction to Hospitality Finance. 3 Hours.
Accounting principles, procedures and transactions used for the compilation of financial reports in hospitality industries. Prerequisite: HOSP 1603. (Typically offered: Fall and Spring)

HOSP 3301. Hospitality Pre-Internship. 1 Hour.
A study of job descriptions, responsibilities at the management level, structural operations, work procedures, job performance evaluations, job application, the resume and portfolio development in preparation for HOSP 4693 Hospitality Management Internship. Prerequisite: HOSP 1603, HOSP majors only, and junior standing. (Typically offered: Fall and Spring)

HOSP 3623. Introduction to Meetings and Events Management. 3 Hours.
Focuses on the planning and management of meetings and events in the hospitality industry. Includes developing event goals and objectives, site planning and management, event set up, risk management, food and beverage planning and management, budgeting, working with event services vendors, and marketing and promotion of events and meetings. Prerequisite: HOSP 1603, HOSP 2603, or Event Management Minor (EVMG-M) students. (Typically offered: Fall)

HOSP 3653. Hospitality, Dietetic Management and Human Resources. 3 Hours.
Function and methods of management as related to the hospitality, nutrition and dietetic industries. Topics include: recruitment, placement, talent management, training and development, and compensation. Prerequisite: HOSP 1603 or NUTR 1201, and junior standing. (Typically offered: Fall and Summer)

HOSP 3673. Event Safety and Venue Management. 3 Hours.
This course will provide students with the information, skills, and tools necessary to help provide a safe environment, reduce liability, and guide individual and group behavior at events. Students will learn the information that is necessary to develop a risk management and safety plan for an event and/or venue, how to identify and plan to avoid potential problems, and how to implement safety and crowd management plans to ensure a safe event. The primary focus of the course will be on live event and venue safety planning. Prerequisite: HOSP 1603, HOSP 2603, and HOSP 3623 or Event Management Minor (EVMG-M) students. (Typically offered: Spring)

HOSP 4602L. Culture and Cuisines of the World Practicum. 2 Hours.
Development of service management skills for the hospitality industry through preparation and service of food, staffing, professionalism, recipe standardization, menu planning, cost control, sanitation, safety, and overall quality assurance. Instruction for planning food flow from receiving to service of meals, including choosing proper equipment for the flow plan and service items. Student must have a current Food Managers Certificate which is achieved upon successful completion of HOSP 2611. Laboratory 7 hrs per week. Pre- or Corequisite: HOSP 4603.

HOSP 4603. Culture and Cuisines of the World. 3 Hours.
Explores foods and food ways of various cultural/ethnic groups. Considers origin and migration of foods and customs throughout the world. Studies food's relationship to cultural groups, geographical location, social practices and economic well-being. Analyzes impact of multiple cultures on foods, food preparation, and food ways in the U.S. Students must have a current Food Managers Certification, which is achieved upon successful completion of HOSP 2611. Pre- or corequisite: HOSP 4602L. Prerequisite: HOSP 1603, HOSP 2603, HOSP 2611, junior standing, Hospitality Management Bachelor of Science in Human Environmental Science (HOSPBS) majors only, and instructor consent required. (Typically offered: Fall and Spring)

HOSP 4613. Festival Management and Analysis. 3 Hours.
This course provides students both knowledge and practical experiences of festival management and analysis. Lectures based on the selected textbook will systematically offer students the understanding of multiple aspects of a festival, such as alignment with the target attendees, connect to community and place, festival media platforms, and monitoring and evaluating festivals. Prerequisite: HOSP 1603, HOSP 2603, and HOSP 3623. (Typically offered: Fall)

HOSP 4643. Special Events Management. 3 Hours.
Hands-on study of special events. Planning activities include conception, planning, implementation, execution of the hospitality program's annual fundraising event and evaluation. The interaction between staff, customers, guests, vendors, and others necessary to implement a successful special event. Topics including marketing, public relations and volunteer coordination are implemented. Additional focus on catering through, hotels, restaurants, and private companies. Prerequisite: HOSP 1603, HOSP 2603, HOSP 3623 and HOSP majors only. (Typically offered: Spring)
HOSP 4653. Global Travel and Tourism Management. 3 Hours.
Course recounts the history of travel, explores the future, and discusses the components of tourism from a global perspective. An overview of tourism planning at the global level will be presented. A variety of planning theories, procedures and tourism guidelines to meet the diverse needs of travelers, destination communities, hospitality organizations, public, non-governmental organizations, and the private sector will be introduced in this class. Prerequisite: HOSP 1603 and HOSP 3623, or Hospitality Management Minor (HOSP-M) students. (Typically offered: Spring)

HOSP 4663. Hospitality Management Capstone. 3 Hours.
Integration of previous classroom, laboratory, and practical experiences through development of a comprehensive project. Additional focus on application of critical thinking, demonstration of leadership principles, interaction with industry professionals and development of an awareness of societal and ethical issues and their application to the hospitality industries. Prerequisite: HOSP 4603, HOSP 4602L, HOSP 3653 and Junior standing. (Typically offered: Spring) May be repeated for up to 6 hours of degree credit.

HOSP 4673. Destination Marketing & Operations. 3 Hours.
This course is designed to provide students with a basic understanding of the tasks and processes involved in running a successful destination management organization (DMO). The course places heavy emphasis on destination marketing. Prerequisite: HOSP 1603 and junior standing. (Typically offered: Fall)

HOSP 4683. Hospitality Management Internship. 3 Hours.
Supervised experience in an instructor approved work/learning situation relating to the hospitality industry in multiple aspects of a hospitality organization. Emphasis on application of knowledge and skills to actual job roles and responsibilities related to a future career in the hospitality industry. Requires employment in a hospitality setting for a minimum of 250 clock hours that must be completed in the semester of enrollment. Prerequisite: HOSP 3301, HOSP 2611, HOSP 2633, HOSP 2653, HOSP 3623, HOSP 3653, Junior standing, restricted to HOSP students, 500 hours of documented work-related hospitality industry experience and instructor consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

HOSP 5643. Meetings and Convention Management. 3 Hours.
Focuses on the planning and management of meetings and conventions in the hospitality industry. (Typically offered: Fall)

HOSP 5653. Global Travel and Tourism Management. 3 Hours.
The course recounts the history of travel, explores the future, and discusses the components of tourism from a global perspective. (Typically offered: Spring)

HOSP 5663. Critical Issues and Trends in Hospitality and Tourism. 3 Hours.
The hospitality industry is arguably one of the most important sources of income and foreign exchange and is growing rapidly. However, national and international crises have huge negative economic consequences. This course explores change and foreign exchange and is growing rapidly. However, national and international crises have huge negative economic consequences. This course explores change and its application to the hospitality industries. Prerequisite: HOSP 4603, HOSP 4602L, HOSP 3653 and Junior standing. (Typically offered: Spring) May be repeated for up to 6 hours of degree credit.

HDFS 1403H. Honors Life Span Development. 3 Hours.
a broad overview of the physical, psychological, and social development of the individual from conception until death. Emphasis is on individual development in a family context. Lecture 3 hours per week. (Typically offered: Fall and Spring)

HDFS 1403H. Honors Life Span Development. 3 Hours.
a broad overview of the physical, psychological, and social development of the individual from conception until death. Emphasis is on individual development in a family context. Lecture 3 hours per week. (Typically offered: Fall and Spring)

HDFS 1403. Life Span Development. 3 Hours.
a broad overview of the physical, psychological, and social development of the individual from conception until death. Emphasis is on individual development in a family context. Lecture 3 hours per week. (Typically offered: Fall and Spring)

HDFS 2401L. Infant and Toddler Development Laboratory. 1 Hour.
Introduction to infant and toddler development. Focus on observation and applied experience with children 0-3 documenting cognitive, emotional, language, physical, and social development, and demonstrating developmentally appropriate practice. Corequisite: HDFS 2403. Prerequisite: HDFS majors or BRKD majors or HDFS minors or CATEBS-FCSE majors or instructor consent. (Typically offered: Fall and Spring)

HDFS 2403. Infant and Toddler Development. 3 Hours.
Infant and toddler development from conception through toddlerhood with emphasis on physical, emotional, social, and cognitive domains. Theoretical and research-based information will be applied to developmentally appropriate practice. Historical and future perspectives will be explored as will the expanding opportunities for professional work with infants and toddlers. Observations in care centers will be assigned. Corequisite: HDFS 2401L. Prerequisite: HDFS majors or BRKD majors or HDFS minors or CATEBS-FCSE majors or by instructor consent. (Typically offered: Fall and Spring)

HDFS 2413. Family Relations. 3 Hours.
Courtship, marriage, and parenthood in the United States, with attention to cultural and psychological factors which affect relations among family members. Lecture 3 hours per week. (Typically offered: Fall and Spring)

HDFS 2413H. Honors Family Relations. 3 Hours.
Courtship, marriage, and parenthood in the United States, with attention to cultural and psychological factors which affect relations among family members. Lecture 3 hours per week. Prerequisite: Honors standing. (Typically offered: Fall and Spring) This course is equivalent to HDFS 2413.

HDFS 2433. Child Development. 3 Hours.
Theory, research, and application in physical, cognitive, social, and emotional development of the child, studied in the biocultural context. Begins with prenatal development and continues through adolescence, with special emphasis on early and middle childhood. (Typically offered: Fall and Spring)

HDFS 2433H. Honors Child Development. 3 Hours.
Theory, research, and application in physical, cognitive, social, and emotional development of the child, studied in the biocultural context. Begins with prenatal development and continues through adolescence, with special emphasis on early and middle childhood. Prerequisite: Honors standing. (Typically offered: Fall and Spring) This course is equivalent to HDFS 2433.
HDFS 2463. Introduction to Leadership and Administration in the Helping Professions. 3 Hours.
Planning, developing, operating, and evaluating programs in the helping professions, including child care and family-related agencies. Emphasis will be on administrators’ roles as leaders in organizations. Topics include facilities, budget, staff development, and policy manuals. Prerequisite: Human Environmental Science (HESCBS) majors, Human Development & Family Science (HDFSBS) majors, Birth through Kindergarten (BRKDBS) majors, Human Development & Family Science (HDFS-M) minors, or departmental consent. (Typically offered: Fall)

HDFS 2471L. Child Guidance Laboratory. 1 Hour.
Introduction to the guidance system. Focus on discipline techniques that are positive and age/stage appropriate for children ages 3-8. Corequisite: HDFS 2473. Prerequisite: HDFS 2433. (Typically offered: Fall and Spring)

HDFS 2473. Child Guidance. 3 Hours.
Introduction to the guidance system. Focus on discipline techniques that are positive and age/stage appropriate for children ages 3-8. Lecture 3 hours per week plus 1 hour demonstration. Corequisite: HDFS 2471L. Prerequisite: HDFS 2433. (Typically offered: Fall and Spring)

HDFS 2483. Family Financial Management. 3 Hours.
Economic considerations of the family in a rapidly changing society. Family finance and consumer problems are emphasized. Prerequisite: HDFS 2413 or HDFS 2413H. (Typically offered: Fall and Spring)

HDFS 2493. Introduction to Cultural Competence. 3 Hours.
Basic introduction to definitions of intercultural competence, diversity, cultural values and beliefs, attitudes and verbal and non-verbal behavior, are examined to identify basic differences among individuals from diverse cultural backgrounds and across populations. (Typically offered: Fall, Spring and Summer)

HDFS 2603. Rural Families and Communities. 3 Hours.
Meaning of sociology and sociological concepts with reference to rural society, families and communities; interdependence of rural and urban population in ecological areas; institutions; social change and adjustment. (Typically offered: Fall and Spring)

HDFS 2603H. Honors Rural Families and Communities. 3 Hours.
Meaning of sociology and sociological concepts with reference to rural society, families and communities; interdependence of rural and urban population in ecological areas; institutions; social change and adjustment. Prerequisite: Honors standing. (Typically offered: Spring)

This course is equivalent to HDFS 2603.

HDFS 3333. Language and Literacy Pedagogy for Birth through Kindergarten Educators. 3 Hours.
This course combines theory on emergent language and literacy development with research-based pedagogy for birth through kindergarten classrooms. Topics include: language and literacy development and exceptionality; English Language Learners, environmental influences, best practice pedagogy, identifying language and literacy delays, and intervention strategies. This course includes a service learning component. Prerequisite: HDFS 2433, HDFS 2403 and HDFS 2401L. (Typically offered: Fall)

HDFS 3423. Adolescent Development. 3 Hours.
Physiological and psychological development of the older child and youth, from pre-adolescence to adulthood. Theories of adolescent development. Cross-cultural studies. Peer group influences. Some attention to pathological behaviors. Prerequisite: HDFS 1403 or PSYC 2003. (Typically offered: Spring Odd Years)

HDFS 3423H. Honors Adolescent Development. 3 Hours.
Physiological and psychological development of the older child and youth, from pre-adolescence to adulthood. Theories of adolescent development. Cross-cultural studies. Peer group influences. Some attention to pathological behaviors. Prerequisite: HDFS 1403 or PSYC 2003 and honors standing. (Typically offered: Spring Odd Years)

This course is equivalent to HDFS 3423.

HDFS 3443. Families in Crisis. 3 Hours.
An interdisciplinary perspective on internal and external crises faced by contemporary families, including substance abuse, natural disasters and other crisis events. Students will explore the family processes during such experiences and develop strategies for stress management, coping, and recovery. Lecture 3 hours per week. Prerequisite: HDFS 2413 or HDFS 2413H. (Typically offered: Fall)

HDFS 3443H. Honors Families in Crisis. 3 Hours.
An interdisciplinary perspective on internal and external crises faced by contemporary families, including substance abuse, natural disasters and other crisis events. Students will explore the family processes during such experiences and develop strategies for stress management, coping, and recovery. Lecture 3 hours per week. Prerequisite: Honors standing and HDFS 2413 or HDFS 2413H. (Typically offered: Fall)

This course is equivalent to HDFS 3443.

HDFS 3453. Parenting and Family Dynamics. 3 Hours.
Focus is on influence of parenting and family dynamics on individual development, especially factors in family life which contribute to normal psychological development. Topics include family values, the psychology of sex and pregnancy, the transition to parenthood, childbearing techniques, family influences on cognitive and social development, and changes in family relationships during the life cycle. Prerequisite: (HDFS majors or HDFS minors or BRKD majors or CATEBS-FCSE majors) and (HDFS 1403 or PSYC 2003) and COMM 1313. (Typically offered: Fall and Spring)

HDFS 3463. The Hospitalized Child: Child Life Programming. 3 Hours.
Introduces child life programming in health care settings. Topics include: roles and expectations of a Child Life Specialist, importance of play, coping techniques, family advocacy, administration and professionalism. Lecture 3 hours per week. Prerequisite: HDFS 2433. (Typically offered: Spring)

HDFS 3481. Pre-Internship in Human Development and Family Sciences. 1 Hour.
This course prepares students for their internship experience (HDFS 4483) in Human Development and Family Sciences. Topics covered include professional and ethical behavior when working with people, families and communities. The course will also cover professional and career development topics. By the end of the course, students are expected to have secured an internship position suitable for HDFS 4483. Students should enroll in this course no earlier than the semester before they anticipate enrolling in HDFS 4483. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer)

HDFS 4313. Building Family and Community Relationships. 3 Hours.
This course will help students interested in early childhood to value the role parents play in schools and the role schools play in a community. Various models of parent involvement will be explored. Students will plan a school-community collaborative which values diverse cultures. Prerequisite: HDFS or BRKD majors, HDFS minors, or instructor consent. (Typically offered: Spring)

HDFS 4332L. Curriculum and Assessment: Birth to Three Years. 2 Hours.
The course will introduce students to curriculum planning and assessment in programs serving children from birth to three years of age. Emphasis will be on responsive relationships and curriculum focused on routines and activities. Corequisite: HDFS 4332L. Prerequisite: HDFS 2403 and HDFS 2401L. (Typically offered: Spring)
HDFS 4332L. Curriculum and Assessment: Birth to Three Years Laboratory. 2 Hours.
Laboratory. Corequisite: HDFS 4332. Prerequisite: HDFS 2403 and HDFS 2401L.
(Typically offered: Spring)

HDFS 4342. Curriculum and Assessment: Three Years through Kindergarten. 2 Hours.
Students will plan curriculum and assessment for children three years of age through kindergarten. Emphasis will be on professionalism, philosophy and a code of ethics. Students will interact with young children and facilitate learning and assessment experiences in a program for young children. Corequisite: HDFS 4342L. Prerequisite: HDFS 2473 and HDFS 2471L. (Typically offered: Fall)

HDFS 4342L. Curriculum and Assessment: Three Years through Kindergarten. 2 Hours.
Laboratory. Corequisite: HDFS 4342. (Typically offered: Fall)

HDFS 4353. Play as Development in Childhood. 3 Hours.
This course will examine the contribution of play to cognitive, social, and emotional development of children. It will provide an overview of play theories and practices in indoor and outdoor settings, with an emphasis on nature-based learning and diversity and inclusion. Prerequisite: HDFS 2433. (Typically offered: Fall, Spring and Summer)

HDFS 4363. Play as Development in Adulthood. 3 Hours.
This course will examine play as it pertains to development throughout life with a particular focus on adulthood. The modes of adult play will be examined, along with the benefits of play across adulthood. Emphasis will be on play, not as opposition to work, but as a part of a full life. Prerequisite: HDFS 1403. (Typically offered: Fall, Spring and Summer)

HDFS 4373. Field Experience in Birth through Kindergarten Programs. 3 Hours.
This course provides the student with interactive and observational experiences with young children in community-based early childhood programs. Prerequisite: HDFS 4332, HDFS 4332L, HDFS 4342, and HDFS 4342L. (Typically offered: Spring)

HDFS 4383. Field Experience in Birth through Kindergarten Program II. 3 Hours.
This course provides students with advanced interactive and observational experiences with young children in community-based early childhood programs. Prerequisite: HDFS 4332 and HDFS 4332L and HDFS 4342 and HDFS 4342L. (Typically offered: Spring)

HDFS 4413. Infancy: Brain, Learning and Social Cognition. 3 Hours.
Investigation into how brain mechanisms interact with experience to provide the basis for learning and social cognition. Topics include face perception, motor cognition, imitation, joint attention and shared experience, empathy and altruism, theory of mind, social and moral cognition, language, memory, number, geometry and navigation, object representation, and executive function. Prerequisite: HDFS 2433 or PSYC 3093. (Typically offered: Spring Even Years)

HDFS 4413H. Honors Infancy: Brain, Learning and Social Cognition. 3 Hours.
Investigation into how brain mechanisms interact with experience to provide the basis for learning and social cognition. Topics include face perception, motor cognition, imitation, joint attention and shared experience, empathy and altruism, theory of mind, social and moral cognition, language, memory, number, geometry and navigation, object representation, and executive function. Prerequisite: Honors standing and HDFS 2433 or PSYC 3093. (Typically offered: Spring Even Years)
This course is equivalent to HDFS 4413.

HDFS 4423. Adult Development. 3 Hours.
Examine individual development beginning with the transition adulthood through middle age; approximate age ranges are 18-60 years. Content focuses on physical, cognitive, psychological, and social changes that occur throughout this period of the life span. The impact of love, work, and family on men’s and women’s movement through the transitions that comprise adulthood are emphasized. Prerequisite: HDFS 1403 or PSYC 2003 and junior standing. (Typically offered: Fall)

HDFS 4443. Gerontology. 3 Hours.
Physiological and psychological development of the aging individual, extended family relations, service networks for the elderly, and retirement activities. Some attention to housing and care needs of persons in advanced years. Lecture 3 hours per week. Seminar. Prerequisite: HDFS 1403 (or HDFS 2413 or PSYC 2003 or SCWK 2133) and junior standing. (Typically offered: Spring)

HDFS 4473. Multicultural Families. 3 Hours.
The course provides students with opportunities to gain awareness of their own cultures and families, reflect on families from a diverse array of cultures, and develop critical thinking skills needed to effectively engage with people and families from cultures different than their own. Prerequisite: HDFS 2493 and Junior or Senior Standing. (Typically offered: Fall)

HDFS 4483. Internship in Human Development and Family Studies. 3 Hours.
The internship experience provides practical experience for students in settings that are designed to serve the needs of individuals and/or families across the life span. Students must work a minimum of 120 hours in the setting. May be repeated for up to 6 hours of degree credit. Prerequisite: Grade of B or higher in HDFS 3481, junior standing, and instructor consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

HDFS 4493. Public Policy Advocacy for Children and Families. 3 Hours.
Public policy advocacy as related to children and family issues. Strategies for advocacy will be emphasized. Lecture three hours per week. Prerequisite: HDFS 2603 or SOCI 2013, Honors and Junior standing. (Typically offered: Fall)

HDFS 4493H. Honors Public Policy Advocacy for Children and Families. 3 Hours.
Public policy advocacy as related to children and family issues. Strategies for advocacy will be emphasized. Lecture three hours per week. Prerequisite: HDFS 2603 or SOCI 2013, Honors and Junior standing. (Typically offered: Fall)
This course is equivalent to HDFS 4493.

HDFS 4603. Environmental Sociology. 3 Hours.
The course provides a social perspective on environmental issues. It examines the linkage between society, ecological systems and the physical environment. It provides conceptual framework(s) for analyzing environmental issues, considers the role of humans in environmental issues, and enhances understanding the complexity of the relationship between societal organization and environmental change. (Typically offered: Irregular)
This course is cross-listed with SOCI 4603, SUST 4603.

HDFS 4763. Research in HDFS: Methodological Approaches. 3 Hours.
This class introduces the methodology of HDFS and other social sciences in the social world. It covers research design, sampling, measurement, and other topics that underlie the social science conclusions presented to you in other classes. The class begins with an introduction to the goals of social science research, then focuses on the understanding of the 3 validities with which social scientists, and consumer of social science, must concern themselves: Internal, Measurement, and External. Each of these three validities is used as the focus of a course section. The class concludes with a fourth section that integrates these topics and other social science methods. It is recommended that HDFS students complete Rural Families and Communities (HDFS 2603) prior to enrolling in this course. Prerequisite: HDFS major or BRKD major and Junior Standing. (Typically offered: Fall)
HDFS 4773. Research in HDFS: Statistical Approaches. 3 Hours.
This course is an introduction to analytical approaches to research in human development and family sciences and will examine the principles and practices underlying the development of knowledge in the field. Emphases in this course will be on conducting and evaluating data analyses relevant to human environmental sciences majors. Students will become critical consumers of data and develop basic skills to analyze and interpret their own data. Prerequisite: HDFS 4763, STAT 2303, and HDFS major or BRKD major. (Typically offered: Spring)

HDFS 5013. Field Experience in Gerontology. 3 Hours.
Supervised research/practical experience in field setting. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HDFS 5023. Critical Issues in Aging. 3 Hours.
Consideration of current issues of aging not covered in depth in other courses. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HDFS 5403. Family Theories and Methods. 3 Hours.
This course is an introduction to graduate study in families. The course focuses on historical and contemporary family theories and research methods that have influenced research on families. Prerequisite: Graduate standing. (Typically offered: Spring)

HDFS 5413. Adult Development. 3 Hours.
The course covers physical, cognitive, social, and personal dimensions of adult development. The information is presented from a lifespan developmental framework which encompasses (a) a multidisciplinary perspective, (b) consideration of the impact of prior development on late life as well as socio-historical influences (c) recognition of individual differences among older persons, and (d) concern for promoting optimal functioning. Prerequisite: Graduate standing. (Typically offered: Spring)

HDFS 5423. Theories of Human Development. 3 Hours.
Classic and contemporary theories and theoretical issues concerning human development across the life span. Prerequisite: Graduate standing. (Typically offered: Fall Even Years)

HDFS 5433. Advanced Studies in Child Development. 3 Hours.
An in-depth examination of issues in development during infancy, early, and middle childhood. Developmental theory and accomplishments/milestones are studied in the biocultural context. Emphasis is on review and analysis of classic and recent research literature and on evaluation of theoretical perspectives based on research evidence. Prerequisite: Graduate standing. (Typically offered: Spring Odd Years)

HDFS 5443. Gerontology. 3 Hours.
Examines physiological and psychological development of the aging individual, extended family relationships, service networks for older adults, and retirement activities. Some attention given to housing and care needs of persons in advanced years. Lecture 3 hours per week, seminar format. Prerequisite: Graduate standing. (Typically offered: Spring)

HDFS 5453. Aging in the Family. 3 Hours.
This course considers theories and research on personal and family transitions and experiences in mid to late life that impact individuals and their family relationships. Applied assignments address these same issues. Prerequisite: Graduate standing. (Typically offered: Spring)

HDFS 5463. Administration and Leadership in the Helping Professions. 3 Hours.
Planning, developing, operating, and evaluating programs in the helping professions, including child care and family-related agencies. Emphasis will be on administrators' roles as leaders in organizations. Topics include facilities, budget, staff development, and policy manuals. (Typically offered: Fall)

HDFS 5473. Cognitive Health. 3 Hours.
Cognitive skills form the foundation for functioning in everyday life and these skills take on added importance in older adulthood. This course focuses on selected theoretical approaches and current research related to cognitive aging. We will review normative and non-normative cognitive changes, assessment techniques, and prevention/intervention efforts. Throughout the course we will keep the role of environment and lifespan implications in the forefront of our discussion. Prerequisite: Graduate standing. (Typically offered: Summer Odd Years)

HDFS 5483. Creativity and Aging. 3 Hours.
What happens to creativity as a person ages? This unique class will help students to understand developmental and pathological changes in the brain that can lead to changes in creative output over time. Through hands-on experiences and direct association with older adults, students will grow an appreciation for creativity produced and inspired by older people. This course is intended to provide experiences that will help the student to be able to create art programs for older adults. Prerequisite: Graduate standing. (Typically offered: Summer)

HDFS 5493. Environments and Aging. 3 Hours.
Designing for aging is big business. The older population of the U.S. is increasing in numbers, and lives in more varied kinds of housing, from single family homes to specially designed residential units for people experiencing dementia. This course uses interdisciplinary perspectives in an on-line web-based format to explore the preferences and needs of older adults and the attributes of various physical environments that enhance their lives. Students apply this knowledge to the design and management of housing, institutional facilities, neighborhoods, and communities. Prerequisite: Graduate standing. (Typically offered: Spring)

HDFS 5593. Public Policy Advocacy for Children and Families. 3 Hours.
(Formerly HDFS 4493.) Public policy advocacy as related to children and family issues. Strategies for advocacy will be emphasized. Lecture three hours per week. Graduate degree credit will not be given for both HDFS 4493 and HDFS 5593. (Typically offered: Fall)

HDFS 5603. Environmental Sociology. 3 Hours.
(Formerly HDFS 4603.) The course provides a social perspective on environmental issues. It examines the linkage between society, ecological systems and the physical environment. It provides conceptual framework(s) for analyzing environmental issues, considers the role of humans in environmental issues, and enhances understanding the complexity of the relationship between societal organization and environmental change. Graduate degree credit will not be given for both HDFS 4603 and HDFS 5603. (Typically offered: Fall)
This course is cross-listed with SOCI 5603.

HDFS 5803. Gender and Aging. 3 Hours.
This course is designed to expose students to an overview of conceptual and applied issues related to how women age. Instead of focusing exclusively on women, this course will focus on women and men in order to understand the dynamic role of gender for the aging process. Students will be introduced to current theoretical and empirical work on the intersections between gender and aging. Using both life course and lifespan perspectives; biological, social, and behavioral aspects of human development and aging will be examined with respect to gender differences and similarities. Prerequisite: Graduate standing. (Typically offered: Summer Even Years)

HDFS 5823. Mental Health and Aging. 3 Hours.
This is an advanced level course in Mental Health and Aging. The student will be introduced to the range of issues involved in this subject utilizing several theoretical perspectives within an overall systems framework. The major emotional, mental, and psychiatric problems encountered in old age will be examined along with the normal processes of the aging individual's personality, mental and brain functions. Common interventions and treatments available will be explored, as well as the consequences of no or inappropriate services. Challenges and barriers on the macro and micro systems levels will be presented with implications for the future of this field. Prerequisite: Graduate standing. (Typically offered: Spring)
HDFS 5843. Physical Health and Nutrition in Aging. 3 Hours.
This course identifies the basic physiological changes during aging and their impacts in health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

HDFS 5853. Policy and Aging. 3 Hours.
This course introduces much of the history behind the policies and programs targeted at aging individuals. Provides overview of the factors that impact economic well-being in late life, as well as an overview of community resources available to older adults. Prerequisite: Graduate standing. (Typically offered: Fall)

HDFS 5873. Seminar in Long Term Care-. 3 Hours.
This course provides valuable information to the person interested in a leadership role in long-term care, but is also useful to persons who think their careers might intersect with senior living organizations or for those students who have a potential interest in long-term care options for their own parents or loved ones. The class is designed to benefit from a very successful intercession course taught each December/January intercession by adjunct professor, Steve Shields. Steve had been CEO at Meadowlark Hills Retirement Community from 1994 until 2010. He is nationally known for his ability to motivate change in long-term care settings. Taped lectures and presentations from the intercession course will provide some of the content for this class. Prerequisite: Graduate standing. (Typically offered: Fall Odd Years)

Human Environmental Sciences (HESC)

Courses

HESC 255V. Special Topics. 1-6 Hour.
Topics not covered in other courses or a more intensive study of specific topics in the specializations of human environmental sciences. (Typically offered: Irregular) May be repeated for degree credit.

HESC 400V. Special Problems. 1-6 Hour.
Special problems. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

HESC 455V. Special Topics. 1-6 Hour.
Topics not covered in other courses, a focused study of specific topics in the students' areas of concentration. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HESC 455VH. Honors Special Topics. 1-6 Hour.
Topics not covered in other courses, a focused study of specific topics in the students' areas of concentration. Prerequisite: Honors standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HESC 500V. Special Problems. 1-6 Hour.
(Formerly HESC 400V.) Special problems. Graduate degree credit will not be given for both HESC 400V and HESC 500V. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

HESC 502V. Special Problems Research. 1-6 Hour.
Individual study or research for graduates in the field of human environmental sciences. (Typically offered: Fall, Spring and Summer)

HESC 5053. Survey Design and Scale Development. 3 Hours.
This course is designed to provide the expertise required to design and conduct survey research. Students will understand the instruments (scales/questionnaire) used in data collection processes and acquire the statistical skills necessary to develop and test these survey instruments. This course uses both theory and practice. Hands-on training will be provided via SPSS package for data analyses, and Qualtrics will be used for web-based surveys. Prerequisite: 3 hours of graduate-level statistics coursework and HESC 5463 or AGED 5463 or instructor consent. (Typically offered: Spring)
This course is cross-listed with AGED 5493.

HESC 5111. Introduction to Graduate Program. 1 Hour.
Overview of graduate program in the School of Human Environmental Sciences. 1 hour. Topics include master's program requirements; graduate student responsibilities; timetable for academic year; forms and deadlines; scheduling and time management; library searches; fundamentals of writing literature reviews; quantitative, qualitative, and mixed research methods; secondary data analyses; and tips for research presentations. Prerequisite: Departmental Consent. (Typically offered: Fall)

HESC 5211. Professional Development. 1 Hour.
Discussion of current literature and research. 1 hour. Topics include diverse research topics and methods in Human Environmental Sciences, professional development, and career opportunities in academia and industry. Prerequisite: HESC 5111 or Departmental Consent. (Typically offered: Fall)

HESC 5463. Research Methodology in Social Sciences. 3 Hours.
Logical structure and the method of science. Basic elements of research design; observation, measurement, analytic method, interpretation, verification, presentation of results. Applications to research in the economic and sociological problems of agriculture and Human Environmental Sciences. Prerequisite: Graduate standing. (Typically offered: Fall)
This course is cross-listed with AGED 5463.

HESC 555V. Special Topics in Human Environmental Sciences. 1-3 Hour.
Topics not covered in other courses or a more intensive study of specific topics in the specializations of human environmental sciences. (Typically offered: Irregular)

HESC 600V. Master's Thesis. 1-6 Hour.
Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

HESC 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Human Resource and Workforce Development Education (HRWD)

Courses

HRWD 200V. Work Knowledge. 1-19 Hour.
Credit by advanced standing examination for job knowledge as measured by program approved National Occupational Competency Testing Institute (NOCTI) assessments. (Typically offered: Irregular) May be repeated for up to 19 hours of degree credit.

HRWD 3113. Foundations of Human Resource Development. 3 Hours.
Presents the theory and processes associated with human resource development (HRD) used to design and measure interventions in the areas of organization development, personnel training and development, and career development. Students will analyze organizations and study global implications of HRD, and survey topics in human resource management (HRM) that distinguish HRM from HRD. (Typically offered: Fall, Spring and Summer)
HRWD 3123. Career Development. 3 Hours.
This course introduces the concepts of career development and career theories. Career development in both the private and public sectors will be explored. Students will gain knowledge that should enable them to be effective in developing their careers and those of others. (Typically offered: Fall and Summer)

HRWD 3133. Writing for Human Resource and Workforce Development Professionals. 3 Hours.
This course focuses on the types of formal reports typically prepared by Human Resource Development professionals with an emphasis on preparation, data collection and research, organization, style, format, graphics, and technical descriptions. (Typically offered: Spring)

HRWD 3213. Organization Development. 3 Hours.
This undergraduate-level course presents the theory and practice of organization development (OD) as a means for performance improvement at various levels, including organization, departmental unit, work group, and individual. The course covers the processes of OD, interventions, theories, and practice of OD life goals. (Typically offered: Spring and Summer)

HRWD 3223. Managing Human Resource Development Programs. 3 Hours.
The basic aim of this course is to equip the students to examine the essential aspects of the theory and practice of managing human resource development programs. Employees require higher level of analytical, problem solving and creative skills. This course aims to help students develop the skills of employee through better understanding of mechanisms for employment equity, transparency, intellectual capital, e-learning, and career development. This course is designed to guide students through an in depth process of identifying, analyzing, and synthesizing elements related to developing, articulating, and implementing an organizational vision, mission, and strategic plan for HRD programs. Prerequisite: Junior standing. (Typically offered: Fall and Spring)

HRWD 3313. Training and Development. 3 Hours.
This course addresses the acquisition of professional skills and strategies associated with creating and maintaining training and development activities in the workplace. It involves a regular class/workshop situation where training and development skills are practiced and encouraged and a work-based situation where skills are tried and implemented as well as assessed. (Typically offered: Fall and Spring)

HRWD 3323. Designing and Developing Human Resource Development Programs. 3 Hours.
Students will learn to design and develop training programs. The focus is on need for training, application of learning principles, writing instructional objectives and plans, designing active training methods, using visual aids, working with groups, and evaluating training. Pre- or Corequisite: HRWD 3113 and HRWD 3313. Prerequisite: Junior standing. (Typically offered: Spring and Summer)

HRWD 3333. Communication in Human Resource and Workforce Development. 3 Hours.
This course offers instruction on types of communication commonly encountered by Human Resource Development professionals. Emphasis is on audience and purpose analysis, topic research, visual aids, and delivery methods. Activities include preparation and delivery of extemporaneous speeches, team communication, communication with clients, and preparation and delivery of training sessions. (Typically offered: Fall and Summer)

HRWD 4113. The Generational Dynamics in the Workplace. 3 Hours.
Focus of study on the concepts of individual and generational differences among employees in the workplace; what they are and how they affect workplace teaching and learning. Prerequisite: Senior standing. (Typically offered: Fall and Spring)

HRWD 4123. Strategic Human Resource Development. 3 Hours.
This course introduces students to the theories and principles of Strategic HRD. Methods of aligning HRD strategy with the business strategy of the organization are discussed. Prerequisite: Junior standing. (Typically offered: Fall and Summer)

HRWD 4133. International Human Resource Development and Cultural Differentiation. 3 Hours.
This course is designed to introduce students to concepts of international HRD and cultural differentiation that must be acknowledged when developing programs for all employees in the workplace. Prerequisite: Senior standing. (Typically offered: Fall and Summer)

HRWD 4213. Workplace Diversity and Human Resource Development. 3 Hours.
Students will study workplace diversity and the role of HRD in implementing workplace diversity strategies and programs. Prerequisite: Senior standing. (Typically offered: Spring and Summer)

HRWD 4223. Professional and Leadership Development. 3 Hours.
Students are introduced to professional and leadership development theories and principles. Methods and strategies for succession planning, self-development, and change are discussed. Prerequisite: Junior standing. (Typically offered: Fall and Summer)

HRWD 4233. HRD Legal and Ethical Issues. 3 Hours.
This course covers the major employment law facts and concepts used in human resource development. Applications of the key concepts and facts are emphasized in the class. Knowledge of the employment law facts and concepts and their applications at the workplace is vital for the human resource development professional. Prerequisite: Junior standing. (Typically offered: Fall and Spring)

HRWD 4313. Human Resource Development Program and Product Evaluation. 3 Hours.
This course covers the evaluation of HRD programs and products used in the workplace. Students will develop methods of assessing the viability of programs and products to best meet the needs of the organization. Prerequisite: Senior standing. (Typically offered: Spring and Summer)

HRWD 4323. Instructional Technology and Design. 3 Hours.
This course addresses the application of instructional technology and design associated with the needs assessment and design of course materials in human resource development. The emphasis is on the learner in workplace situations. The course will cover the history of the field and its current status. Prerequisite: Junior standing. (Typically offered: Fall and Summer)

HRWD 4333. Human Resource Development Capstone. 3 Hours.
This course will serve as the assessment course for students in the HRWD program. The course work will evaluate all aspects of the HRD curriculum, specifically the three pillars of HRD: career development, organization development, and training and development. Prerequisite: HRWD 3113, HRWD 3213, HRWD 3313 and senior standing. (Typically offered: Fall and Spring)

HRWD 450V. Experiential Learning. 1-19 Hour.
This course is limited to persons qualifying for experiential credit to be applied to the Human Resource Development Concentration only. Credit is awarded for documented experiential or occupational learning based on a standardized format as suggested by the Council for the Advancement of Experiential Learning (CAEL). Credit for certain occupational training or professional certifications may also be earned using the American Council on Education (ACE) guidelines. (Typically offered: Irregular) May be repeated for up to 19 hours of degree credit.

HRWD 5113. Foundations of Human Resource & Workforce Development. 3 Hours.
An overview of human resource and workforce development (HRWD) in organizations. Focus on the integration of training and development, career development, and organization development. Topics include strategic planning for human resource and workforce development, needs assessment, program development, application of workplace learning theories, career development theories and methods, and application of organization learning theories. (Typically offered: Fall, Spring and Summer)
HRWD 5123. Career Transitions. 3 Hours.
This advanced level course is intended for career development professionals and/or subject-matter experts interested in improving their career development skills within a structured or unstructured learning environment. The emphasis in this course is on gaining career development techniques and planning formal and informal career development strategies for the individual or the organization. (Typically offered: Spring)

HRWD 5133. HRWD Diversity Issues. 3 Hours.
This course emphasis is on current trends and case studies of diversity in the workplace. Prerequisite: Graduate standing. (Typically offered: Fall)

HRWD 5213. Organizational Analysis. 3 Hours.
This course introduces the analysis process in organizations. The instruction and activities will enable students to develop skills in conducting organizational needs analysis (OA) as a basis for performance improvement in the workplace. (Typically offered: Spring and Summer)

HRWD 5223. Strategic Human Resource and Workforce Development Education. 3 Hours.
A comprehensive examination of the issues, topics, principles, theories, philosophies and concepts facing tomorrow's HRD professionals. Includes the transformation of strategic HRD; the role of strategic HRD leaders as change agents; the principles of strategic HRD; professional practice do mains of strategic HRD; organizational learning, performance, and change; and analysis, design, and evaluation of HRD interventions. Students will identify practices for informing decisions related to the formation of strategic HRD planning and implementation efforts. (Typically offered: Fall)

HRWD 5233. HRWD Employment, Legal, and Ethical Issues. 3 Hours.
This course focuses on employment, legal and ethical issues within the workplace. Students will gain knowledge that should enable them to be effective in understanding current employment concerns, equal employment opportunity (EEO) laws, and ethical practices within the workplace and how these employment concerns, laws, and practices impact society. (Typically offered: Spring)

HRWD 5313. Facilitating Learning in the Workplace. 3 Hours.
Facilitation of learning and performance improvement in the workplace. Application of instructional methods, formal and informal learning strategies, coaching, team building, and formal and informal on-the-job learning tactics. Focus on facilitating individual and group learning to affect organizational change. (Typically offered: Spring)

HRWD 5323. International HRWD. 3 Hours.
Exploration of how globalization and culture affect the workplace and the human resource development profession. Difference between global HRD and HRD practiced in a single country. Impact of culture on every aspect of HRD implementation and practice. Examination of HRD practices in different regions of the world. (Typically offered: Fall)

HRWD 5333. HRWD Technological Resources. 3 Hours.
This course provides students with the tools and abilities to evaluate and understand technology resources used in HRWD. Primary course elements are instructional design characteristics of technology, theoretical and practical uses of technology resources to facilitate and manage learning, and selecting the best or most appropriate technological resources. The course uses online technologies and learning experiences. (Typically offered: Fall)

HRWD 5433. HRWD Capstone. 3 Hours.
This course is the final course for the degree in Human Resource and Workforce Development. Students will be assessed on their overall knowledge and understanding of the field. The focus of this course will be research and analysis of classic works and current trends. Pre- or Corequisite: 27 MED credit hours completed. (Typically offered: Fall, Spring and Summer)

HRWD 571V. Independent Study. 1-3 Hour.
Independent study. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

HRWD 572V. Workshop. 1-3 Hour.
Workshop. Prerequisite: Advanced graduate standing. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

HRWD 573V. Experiential Learning. 1-18 Hour.
This course is designed for the student to attain paid or unpaid experiential development. (Typically offered: Irregular) May be repeated for up to 18 hours of degree credit.

HRWD 6313. Project and Program Evaluation. 3 Hours.
This course is a doctoral level course designed as an introduction to project and program evaluation in human resource and workforce development. Emphasis is on (a) project design and development, (b) program development and improvement, and (c) the integration of evaluation with strategic planning and performance improvement. (Typically offered: Spring Even Years)

HRWD 6323. Qualitative Research Design and Analysis. 3 Hours.
This course is designed to introduce HRWD students to qualitative research design, data collection and data analysis. Course content includes data collection through interviews, field observation, records research, ethical issues associated with conducting research in organizational settings, and internal and external validity problems. Prerequisite: ESRM 5013 and ESRM 6403. (Typically offered: Spring Even Years)

HRWD 6333. Quantitative Research Design and Analysis. 3 Hours.
This course provides HRWD students with the tools and abilities to design and implement an original research project using quantitative measures. Primary course elements are research design application, theoretical settings of research, and testing research within an appropriate literature base. The course uses online technologies and on-campus learning experiences. Prerequisite: ESRM 5013 and ESRM 6403. (Typically offered: Fall Even Years)

HRWD 6343. HRWD Dissertation Seminar. 3 Hours.
This course is a dissertation seminar. The student will prepare a prospectus and begin the first three chapters of their dissertation. This course is designed to be taken near the end of the doctoral student's course work. The course addresses the principles and techniques underlying organizational research, both experimental and non-experimental. It covers the basic philosophy of science and research methods and gives attention to the practical problems of design, data collection sampling, and data analysis. Prerequisite: ESRM 6403. (Typically offered: Fall Even Years)

HRWD 6413. Career Theory and Decision Making. 3 Hours.
This course focuses on comprehensive understanding of career theory and decision making to enhance career development that emphasizes technology, cross-cultural issues, practical application, and the global economy. Career development in the private and public sectors will be explored. Students will gain knowledge that should enable them to be effective in developing their careers and those of others using multicultural considerations and a global perspective. (Typically offered: Fall)

HRWD 6423. Practicum. 3 Hours.
Practicum is designed to allow doctoral students in workforce development education an opportunity to apply the theoretical knowledge, skills and abilities to training, teaching, or research projects. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HRWD 6513. Organization Development. 3 Hours.
This course teaches development of organization activities that intervene in the interaction of people systems to increase the effectiveness of using a variety of applied behavioral sciences. It includes the dynamics of organizations, the genesis of organizational theory and evolution of organizational dynamics, including examination of system structure, chaos theory, group dynamics and interaction, leadership theories, diversity issues impacting organizations, and techniques of change agent intervention. (Typically offered: Summer Odd Years)
HRWD 6523. Leadership Models and Concepts. 3 Hours.
This doctoral course concentrates on using commonly accepted principles of leadership to develop skills needed in workforce development education settings. (Typically offered: Fall Odd Years)

HRWD 6533. HRWD Ethical and Legal Issues. 3 Hours.
Focuses on ethical and legal issues within the workplace and behavioral science research. Students gain knowledge that should enable them to be effective in understanding ethical and legal issues within their workplace and how they can impact society. (Typically offered: Fall)

HRWD 6613. Learning and Teaching Theories. 3 Hours.
Models and philosophies of important theorists in the field of teaching and learning. (Typically offered: Spring Odd Years)

HRWD 6633. Technology Systems in Human Resource and Workforce Development. 3 Hours.
This course provides students with the tools and abilities to evaluate and understand technology systems in HRWD. Primary course elements are instructional design characteristics of technology systems, theoretical and practical settings that use technology systems to facilitate and manage learning, and selecting the best or most appropriate system for organizational use. The course uses online technologies and learning experiences. (Typically offered: Fall Odd Years)

HRWD 6643. History and Foundations of HRWD. 3 Hours.
This course focuses on the history of human resource development as a practice and a profession. Particular emphasis in this course is placed on the influence of philosophy on developing HRD theory and practice. As students progress through this course they can expect to gain greater understanding of how HRD developed as a profession, the historical root of its theory and practice, and an understanding of how to evaluate the philosophical assumptions of current HRD theory and practice. (Typically offered: Fall Even Years)

HRWD 6713. HRWD Curriculum Design. 3 Hours.
Determining principles of curriculum development, implementation, and evaluation with emphasis in human resource development education. (Typically offered: Summer)

HRWD 6723. Entrepreneurial Development. 3 Hours.
An advanced graduate-level course examining the history, economics, theory and practice of developing Entrepreneurial enterprises. This course presents an overview of the business and organizational systems with which an entrepreneur should be familiar. (Typically offered: Irregular)

HRWD 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Humanities (HUMN)

Courses

HUMN 1114H. Honors Roots of Culture to 500 C.E. 4 Hours.
This course constitutes the first segment of a four-semester interdisciplinary study of the Egyptian Book of the Dead, the Torah, the Roman Colosseum, Hinduism, and Confucianism. Open to first-year Honors students by invitation only. Corequisite: Drill component. (Typically offered: Fall)

HUMN 1124H. Honors Equilibrium of Cultures 500-1600. 4 Hours.
This course constitutes the second segment of a four-semester sequence focusing on world cultures. Semester 2 may include the interdisciplinary study of Islam, early Byzantium, Gothic architecture, Heian Japan, and the ancient Maya. Open to first-year Honors students by invitation only. Corequisite: Drill component. (Typically offered: Spring)

HUMN 1124V. Honors Equilibrium of Cultures 500-1600. 4 Hours.
This course constitutes the second segment of a four-semester sequence focusing on world cultures. Semester 2 may include the interdisciplinary study of Islam, early Byzantium, Gothic architecture, Heian Japan, and the ancient Maya. Open to first-year Honors students by invitation only. Corequisite: Drill component. (Typically offered: Fall)

HUMN 2013. Introduction to Buddhism. 3 Hours.
Beginning with an analysis of the fundamental principles that underlie all Buddhist thought and practice, students will proceed through the major precepts that have historically distinguished the traditions of Southern and Northern Asia. Attention will also be given to Buddhism’s spread through Europe and North America in the twentieth century. (Typically offered: Fall)

HUMN 2114H. Honors Birth of Modern Culture 1600-1900. 4 Hours.
This course constitutes the third segment of a four-semester sequence focusing on world cultures. Semester 3 may include the interdisciplinary study of Renaissance Venice, feudal Japan, Moghul India, Jefferson’s Monticello, and Darwinism. Open to second-year Honors students by invitation only. Corequisite: Drill component. (Typically offered: Fall)

HUMN 2203H. Honors Humanities Abroad. 3 Hours.
This course is intended as a companion to the Honors Humanities Project (H2P). Students participate in faculty-led site visits to selected countries to facilitate an interdisciplinary exploration of global humanities topics covered in the H2P sequence (HUMN 1114H, HUMN 1124H, and HUMN 2114H). Prerequisite: HUMN 1114H or HUMN 1124H or HUMN 2114H and honors standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HUMN 2213. Introduction to World Religions. 3 Hours.
A survey of major religious traditions, including--but not limited to--Hinduism, Buddhism, Judaism, Christianity, and Islam. (Typically offered: Spring and Summer)

HUMN 301V. Internship in Humanities. 1-3 Hour.
Work experience in the Arkansas Humanities Center or other humanities entity or organization. Project required. (Typically offered: Fall, Spring and Summer)

HUMN 3083. Professional Topics. 3 Hours.
Specialized topics related to professional issues in the humanities, e.g. academic and alternative-academic job searches, publication workshops, public humanities, and/or teaching of humanities disciplines at various levels. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit. This course is cross-listed with ENGL 3083.

HUMN 3163. On Death and Dying. 3 Hours.
Reviews the theory and humanistic importance of the concepts of death and dying in society. An experimental option and interdisciplinary faculty presenters will be part of the format. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer)

HUMN 3923H. Honors Colloquium. 3 Hours.
Treats a special topic or issue offered as a part of the Honors Program. Prerequisite: Honors candidacy. (Typically offered: Irregular) May be repeated for degree credit.

HUMN 425V. Colloquium. 1-6 Hour.
An interdisciplinary, value-oriented discussion course. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HUMN 5083. Professional Topics. 3 Hours.
Specialized topics related to professional issues in the humanities, e.g. academic and alternative-academic job searches, publication workshops, public humanities, and/or teaching of humanities disciplines at various levels. (Typically offered: Spring Odd Years) This course is cross-listed with ENGL 5083.
Industrial Engineering (INEG) Courses

INEG 2001. Industrial Engineering Seminar. 1 Hour.
Overview of the Department of Industrial Engineering: faculty and their backgrounds and interests, staff and the services they provide, facilities, curricular requirements, extracurricular opportunities, post-graduate opportunities. (Typically offered: Fall)

INEG 2103. Introduction to Industrial Engineering. 3 Hours.
Survey of industrial engineering problems. Application of key concepts from linear algebra and calculus in solving industrial engineering problems. Use of spreadsheets in solving industrial engineering problems. Visualization of common types of industrial engineering data. Exploration of the principles of effective teamwork and professionalism. Prerequisite: Drill component. (Typically offered: Fall and Spring)

INEG 2214. Computing Methods for Industrial Engineers I. 4 Hours.
Introduction to programming and computing methods within the context of traditional industrial engineering problem solving. Students will be exposed to classic industrial engineering problem scenarios. Basic techniques within object-oriented programming, including designing classes, using objects, creating methods, looping and decision constructs, arrays, and file handling, will be used to facilitate solving these problems. Pre- or Corequisite: (MATH 2445 or MATH 2514 or MATH 2554) and INEG 2103. (Typically offered: Fall and Spring)

INEG 2223. Computing Methods for Industrial Engineers II. 3 Hours.
A continuation of INEG 2214. Review of fundamental computing methods and exposure to advanced use of computing libraries. Developing and implementing algorithms using computing methods to solve illustrative and practical problems of interest to industrial engineers. Students will use existing computing libraries, data structures, and programming interfaces to implement software using problem-based learning. Prerequisite: INEG 2214. (Typically offered: Fall and Spring)

INEG 2313. Applied Probability and Statistics for Engineers I. 3 Hours.
Applications to engineering problems of probability theory, discrete and continuous random variables, descriptive statistics, single-population point and interval estimation, single-population hypothesis testing, goodness-of-fit testing, and contingency table testing. INEG and DTSC students only. Corequisite: Drill component. Prerequisite: MATH 2564 and INEG or DTSC students only. (Typically offered: Fall and Spring)

INEG 2313H. Honors Applied Probability and Statistics for Engineers I. 3 Hours.
Applications to engineering problems of probability theory, discrete and continuous random variables, descriptive statistics, single-population point and interval estimation, single-population hypothesis testing, goodness-of-fit testing, and contingency table testing. INEG and DTSC students only. Corequisite: Drill component. Prerequisite: MATH 2564. (Typically offered: Fall and Spring)

INEG 2333. Applied Probability and Statistics for Engineers II. 3 Hours.
Applications to engineering problems of two-population point and interval estimation, two-population hypothesis testing, linear regression, correlation, design of experiments, analysis of variance, and nonparametric statistics. Introduction to statistical quality control. Corequisite: Drill component. Prerequisite: INEG 2313. (Typically offered: Fall and Spring)

INEG 2403. Industrial Cost Analysis. 3 Hours.
Use of accounting information for planning and control with emphasis on the engineering viewpoint; introduction to general accounting procedures; principles of cost accounting and other aspects of production costs; budgeting, depreciation, taxes, distribution of profits, securities, sources of corporate capital, interpretation of financial statements, and other related topics. Laboratory required. Corequisite: Lab component. (Typically offered: Spring)

INEG 2413. Engineering Economic Analysis. 3 Hours.
Economic aspects of engineering, including current economic problems and the treatment of estimates when evaluating alternative courses of action. Methods of selection and replacement of equipment and break-even points of operation; desirability of new processes or projects where asset life, rate of return on investment, and first, fixed, differential, marginal, and sunk costs must be considered. Corequisite: Drill component. Prerequisite: MATH 2445 or MATH 2514 or MATH 2554. (Typically offered: Fall and Spring)

INEG 2812H. Honors Industrial Engineering Research Experience I. 2 Hours.
Introduction to the research of the faculty of the Department of Industrial Engineering for the purpose of matching students with an undergraduate research advisor. Development of skills in using electronic resources to conduct background research on individuals and topics in the industrial engineering academic community. Prerequisite: Instructor consent and honors standing. (Typically offered: Spring)

INEG 3313. Engineering Probability and Statistics. 3 Hours.
Applications to engineering problems of data summary and presentation, random variables and probability distributions, point and interval estimation, hypothesis testing, linear regression, and design of experiments. Not for credit toward the Bachelor of Science in Industrial Engineering. Corequisite: Drill component. Prerequisite: MATH 2564. (Typically offered: Fall, Spring and Summer)

INEG 3513. Manufacturing Processes. 3 Hours.
This course focuses on the manufacturing processes that impart geometry and properties to engineering materials including casting, metalworking, machining, joining, heat treatment, and polymer processes. Process selection and analysis, design-for-manufacturing principles, cost estimation, and selection of process parameters are covered. Lab component covers communication of manufacturing specifications via engineering drawings. Prerequisite: MEEG 2303. Corequisite: Lab component. (Typically offered: Spring)

INEG 3613. Introduction to Operations Research. 3 Hours.
Introduction to modeling and analysis of deterministic operations design and planning problems using formal optimization algorithms and software. Identification and formulation of appropriate applications, linear programming, sensitivity, network flows/transportation/assignment problems, shortest paths, and integer linear programming. Prerequisite: (INEG 2214 or CSCE 2004 or DASC 1204) and (MATH 2574 or DASC 2594). (Typically offered: Spring)

INEG 3623. Simulation. 3 Hours.
The development and use of discrete-event simulation models for the analysis and design of systems found in manufacturing, distribution, and service contexts. Coverage includes conceptual modeling, model translation to computer form, statistical input models, random number generation and Monte Carlo methods, experimentation and statistical output analysis, and queuing analysis. Includes the use of modern computer simulation languages. Corequisite: Drill component. Prerequisite: INEG 2223 or CSCE 2004 or DASC 1204. Pre- or Corequisite: INEG 2333 or STAT 3003. (Typically offered: Fall)

INEG 3623H. Honors Simulation. 3 Hours.
The development and use of discrete-event simulation models for the analysis and design of systems found in manufacturing, distribution, and service contexts. Coverage includes conceptual modeling, model translation to computer form, statistical input models, random number generation and Monte Carlo methods, experimentation and statistical output analysis, and queuing analysis. Includes the use of modern computer simulation languages. Corequisite: INEG 2333 and drill component. Prerequisite: INEG 2413 and CSCE 2004. (Typically offered: Summer)
INEG 3714. Work Methods and Ergonomics. 4 Hours.
Ways of designing jobs, machines, operations and work environments so they are compatible with human capacities and limitations. Work methods topics include methods analysis, time studies, work sampling and learning curves. Cognitive and physical capabilities and limitations of humans are addressed through the study of human information processing, motor control theory, anthropometry, biomechanics, work physiology and manual material handling. Design of controls and displays, hand tools and workstations, along with work related musculoskeletal disorders. Laboratory required. Corequisite: Lab component. Pre- or Corequisite: INEG 2333. (Typically offered: Fall and Spring)

INEG 3812H. Honors Industrial Engineering Research Experience II. 2 Hours.
Development of an undergraduate research proposal. Introduction to the peer review process. Examination of conference travel, nationally-competitive award, and graduate fellowships. Emphasis on technical communication skills. Prerequisite: INEG 2812H and honors standing. (Typically offered: Fall)

INEG 400VH. Honors Thesis. 1-3 Hour.
For Honors College students majoring in Industrial Engineering only. Prerequisite: Honors college students only and instructor consent. (Typically offered: Fall, Spring and Summer)

INEG 410V. Special Topics in Industrial Engineering, 1-4 Hour.
Consideration of current industrial engineering topics not covered in other courses. Prerequisite: Senior standing. (Typically offered: Irregular) May be repeated for up to 4 hours of degree credit.

INEG 410VH. Honors Special Topics in Industrial Engineering, 1-3 Hour.
Consideration of current industrial engineering topics not covered in other courses. Prerequisite: Senior standing. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit. This course is equivalent to INEG 410V.

INEG 411V. Individual Study in Industrial Engineering, 1-3 Hour.
Individual study and research on a topic mutually agreeable to the student and a faculty member. Prerequisite: Instructor consent. (Typically offered: Fall, Spring and Summer)

INEG 411VH. Honors Individual Study in Industrial Engineering, 1-3 Hour.
Individual study and research on a topic mutually agreeable to the student and a faculty member. Prerequisite: Instructor consent and honors candidacy. (Typically offered: Fall, Spring and Summer) This course is equivalent to INEG 411V.

INEG 4123. Global Engineering and Innovation. 3 Hours.
This course provides engineering students a global perspective for design and innovation. Students explore various design thinking tools and techniques. Students apply engineering design and innovation techniques to create solutions that meet specified markets with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors. Students also have the opportunity to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which considers the impact of the engineering solution in the global, economic, environmental, and social contexts. Prerequisite: Senior standing or instructor consent. (Typically offered: Irregular)

INEG 4143. Data Mining. 3 Hours.
The course focuses on the principles, theory, design, and implementation of data mining algorithms for large-scale data. Topics include foundations of data mining; preprocessing; mining frequent patterns, associations and correlations; supervised learning including decision tree induction, naive Bayesian classification, support vector machine, logistic regression, Bayesian network, and K-nearest neighbor learning; unsupervised learning including K-means clustering, hierarchical clustering, density-based clustering, and grid-based clustering; outlier analysis; graph mining; scalable and distributed data mining. Prerequisite: (INEG 2333 and INEG 2223) or (CSCE 2014 and INEG 3313). (Typically offered: Fall)

INEG 4163. Introduction to Modern Statistical Techniques for Industrial Applications. 3 Hours.
This application-oriented course is driven by real problems arising from industry and focuses on problem solving using both modern and classic statistical methods. For both senior undergraduate and graduate students, the main goal of this course is to provide a comprehensive introduction to those most popular statistical learning methods and tools (such as R and Apache Spark) which are widely used in industry today. Prerequisite: INEG 2333. (Typically offered: Spring)

INEG 4223. Occupational Safety and Health Standards. 3 Hours.
Survey of existing and proposed standards by examining fundamental physical, economic, and legal bases. Performance vs. specific standards. Enforceability and data collection. National consensus and promulgation process. Includes a computer-based design project. Prerequisite: INEG 2313. (Typically offered: Irregular)

INEG 4253. Leadership Principles and Practices. 3 Hours.
The course is designed to expose students to multiple approaches to leadership in a wide variety of settings. Leadership styles, the knowledge areas and competencies expected of today’s leaders, the challenges leaders face, the historical and philosophical foundations of leadership, the relationships among leadership theory, leadership practice, and the moral-ethical aspects of leadership are among the topics covered in the course. A number of respected regional, national, and international leaders share “lessons learned” in their leadership journeys. Plus, a number of highly regarded leadership books and case studies on leadership are read and discussed. Students may not receive credit for INEG 4253 and INEG 5253/OMGT 5253. Prerequisite: Senior standing. (Typically offered: Fall)

INEG 4253H. Honors Leadership Principles and Practices. 3 Hours.
The course is designed to expose students to multiple approaches to leadership in a wide variety of settings. Leadership styles, the knowledge areas and competencies expected of today’s leaders, the challenges leaders face, the historical and philosophical foundations of leadership, the relationships among leadership theory, leadership practice, and the moral-ethical aspects of leadership are among the topics covered in the course. A number of respected regional, national, and international leaders share “lessons learned” in their leadership journeys. Plus, a number of highly regarded leadership books and case studies on leadership are read and discussed. Students may not receive credit for INEG 4253 and INEG 5253/OMGT 5253. Prerequisite: Honors standing and instructor consent. (Typically offered: Fall) This course is equivalent to INEG 4253.

INEG 4232. Quality Engineering and Management. 3 Hours.
Provides the student with complete coverage of the functional area of “Quality Assurance” ranging from the need for such a function, how it works, techniques utilized, and managerial approaches for insuring its effectiveness. Prerequisite: INEG 2333. (Typically offered: Irregular)

INEG 4343. Cognitive Ergonomics. 3 Hours.
Studies of human cognition in work settings in order to enhance performance of cognitive tasks through an understanding of cognitive processes (e.g., attention, perception errors, decision making, workload) required of operators in modern industries. Emphasis lies on how to (re)design human-machine interfaces and cognitive artifacts so that human well-being and system performance are optimized in work environments. Prerequisite: INEG 2223 or CSCE 2004. (Typically offered: Irregular)

INEG 4423. Advanced Engineering Economy. 3 Hours.
Preparation of feasibility studies, including cost estimation, risk and uncertainty, sensitivity analysis and decision making. Effects of taxes, depreciation and financing costs on cash flows. Prerequisite: INEG 2313 and INEG 2413. (Typically offered: Irregular)
INEG 4423H. Honors Advanced Engineering Economy. 3 Hours.
Preparation of feasibility studies, including cost estimation, risk and uncertainty, sensitivity analysis and decision making. Effects of taxes, depreciation and financing costs on cash flows. Prerequisite: INEG 2313 and INEG 2413. (Typically offered: Irregular)
This course is equivalent to INEG 4423.

INEG 4433. Systems Engineering and Management. 3 Hours.
Overview of the fundamental concepts underlying the management of engineering. Reviews the engineering decision process within the life cycle. Examines implementation of basic management functions in technical organizations and development of strategy tools within a complex organization. Prerequisite: INEG 2413. (Typically offered: Fall)

INEG 4433H. Honors Systems Engineering and Management. 3 Hours.
Overview of the fundamental concepts underlying the management of engineering. Reviews the engineering decision process within the life cycle. Examines implementation of basic management functions in technical organizations and development of strategy tools within a complex organization. Prerequisite: INEG 2413. (Typically offered: Fall)
This course is equivalent to INEG 4433.

INEG 4443. Project Management. 3 Hours.
Analysis of the strategic level of project management including planning, organizing, and staffing for successful project execution. Professional creativity, motivation, leadership, and ethics are also explored. At the tactical level, project selection, control, and systems management are analyzed. Systems development and decision support tools for project management are studied. Prerequisite: Senior standing. (Typically offered: Irregular)

INEG 4443H. Honors Project Management. 3 Hours.
Analysis of the strategic level of project management including planning, organizing, and staffing for successful project execution. Professional creativity, motivation, leadership, and ethics are also explored. At the tactical level, project selection, control, and systems management are analyzed. Systems development and decision support tools for project management are studied. Prerequisite: Senior standing. (Typically offered: Irregular)
This course is equivalent to INEG 4443.

INEG 4453. Productivity Improvement. 3 Hours.
Analysis of common productivity problems. Development of skills required to diagnose problems; measure productivity; develop improvement strategies; and provide for the implementation and maintenance of productivity measurement and improvement systems. Prerequisite: Senior standing. (Typically offered: Irregular)

INEG 4533. Application of Machine Vision. 3 Hours.
Automated machine vision applied to assembly and inspection tasks traditionally performed by human operators; development of application by acquiring image, processing image data, analyzing image and transmitting results; application analysis, selection and economics. Laboratory required. Corequisite: Lab component. Prerequisite: Senior standing. (Typically offered: Spring)

INEG 4543. Facility Logistics. 3 Hours.
The design and analysis of efficient logistics systems at the facility level, with an emphasis on distribution facilities. Unit load, break bulk, crossdock and order fulfillment centers and their component systems and software. Automated and manual systems. Corequisite: Lab component. Prerequisite: INEG 2413 and INEG 3613. (Typically offered: Fall)

INEG 4553. Production Planning and Control. 3 Hours.
Strategy and competition, forecasting, aggregate planning, inventory control subject to known demand, inventory control subject to uncertain demand, supply chain management, push and pull production control systems, and operations scheduling. Pre or Corequisite: INEG 3613. Prerequisite: INEG 2333 or STAT 3003. (Typically offered: Fall)

INEG 4563. Industrial Robotics. 3 Hours.
An interdisciplinary treatment of: industrial robotics; manipulator anatomy, control, and programming; end-of-arm tooling; sensors & sensing; system integration and safety; future trends. Significant out-of-class programming assignments to solve common industrial automation problems. Corequisite: Lab component. Prerequisite: INEG 2214 or CSCE 2004) and (MATH 2445 or MATH 2514 or MATH 2554). (Typically offered: Fall)

INEG 4593. Manufacturing Systems. 3 Hours.
This course is designed to highlight the major topics in manufacturing systems. Different manufacturing models and metrics are emphasized. This course also introduces classification, general terminology, technical aspects, economics, and analysis of manufacturing systems. Corequisite: Lab component. Prerequisite: INEG 3513 or graduate standing. (Typically offered: Irregular)

INEG 4633. Transportation Logistics. 3 Hours.
Quantitative aspects of transportation and logistics involving analysis and optimization. Topics include: facility location analysis, network design, network flow and transportation modeling, vehicle routing, fleet sizing, driver assignment, and supply chain issues (logistics demand, role of inventory in the network, role of technology, etc.). Prerequisite: INEG 2333 and INEG 3613. (Typically offered: Irregular)

INEG 4683. Decision Support in Industrial Engineering. 3 Hours.
Reinforcing important computer programming methods using industrial engineering-based applications. Students will utilize Microsoft Excel and Visual Basic for Applications to develop custom solutions to challenging industrial engineering problems. Emphasis on computational proficiency and computing productivity in a spreadsheet-based setting. Prerequisite: (INEG 2214 or CSCE 2004) and INEG 2313. (Typically offered: Fall)

INEG 4733. Industrial Ergonomics. 3 Hours.
Gives background and experience in measurement and evaluation of human performance as it pertains to the working environment. The physical, physiological and psychological capabilities of the tasks they are to perform. Laboratory projects required. Prerequisite: INEG 2333 and INEG 3714. (Typically offered: Irregular)

INEG 4812H. Honors Industrial Engineering Research Experience III. 2 Hours.
Completion of an undergraduate research thesis. Introduction to the identification of outlets for dissemination of industrial engineering research. Introduction to the process of identifying opportunities for future extensions of completed research. Prerequisite: INEG 3812H and honors standing. (Typically offered: Fall)

INEG 4833. Introduction to Database Concepts for Industrial Engineers. 3 Hours.
An introduction to the basic principles of database modeling and technologies for industrial engineers. Coverage includes analyzing user requirements, representing data using conceptual modeling techniques (e.g., UML, ERD), converting conceptual models to relational implementations via database design methodologies, extracting data via structured query language processing, and understanding the role of database technology in industrial engineering application areas such as inventory systems, manufacturing control, etc. The application of a desktop database application such as Access will be emphasized. Prerequisite: INEG 2223 or CSCE 2004. (Typically offered: Irregular)

INEG 4911. Industrial Engineering Capstone Experience I. 1 Hour.
Develop a written and oral proposal for a comprehensive project for an industrial sponsor. Conduct background research, data collection, and preliminary analysis using industrial engineering tools; define objectives, performance measures, and deliverables; identify and schedule required tasks. INEG students only. Prerequisite: INEG major. Pre- or Corequisite: INEG 2001, INEG 3613, INEG 3623, INEG 3714, INEG 4433, and INEG 4553. (Typically offered: Fall)
INEG 4923. Industrial Engineering Capstone Experience II. 3 Hours.
Develop a written and oral report for a comprehensive project for an industrial sponsor. Complete identified tasks and measure success in achieving defined objectives using industrial engineering tools; create and document deliverables. Students must have successfully completed INEG 4911 in the immediately prior semester. Two hours lecture, One, three hour lab. Corequisite: Lab component. Prerequisite: INEG 3613, INEG 3623, and INEG 4911. (Typically offered: Fall)

INEG 513V. Master's Research Project and Report. 1-6 Hour.
Required course for students electing the report option. (Typically offered: Fall, Spring and Summer)

INEG 514V. Special Topics in Industrial Engineering. 1-3 Hour.
Consideration of current industrial engineering topics not covered in other courses. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

INEG 515V. Individual Study in Industrial Engineering. 1-3 Hour.
Opportunity for individual study of advanced subjects related to a graduate industrial engineering program to suit individual requirements. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

INEG 5163. Introduction to Modern Statistical Techniques for Industrial Applications. 3 Hours.
This application-oriented course is driven by real problems arising from industry and focuses on problem solving using both modern and classic statistical methods. For both senior undergraduate and graduate students, the main goal of this course is to provide a comprehensive introduction to those most popular statistical learning methods and tools (such as R and Apache Spark) which are widely used in industry today. For graduate students, this course will also cover the fundamental theory behind some of the methodologies. Students will not receive graduate degree credit for both INEG 410V with the same title, and INEG 5163. (Typically offered: Spring)

INEG 5243. Automated Manufacturing. 3 Hours.
Introduction to manufacturing processes and concurrent engineering in the electronics industry. Survey of electronics components and products and the processes of fabrication and assembly. Principles of design, productivity, quality, and economics. Emphasis on manufacturability. (Typically offered: Irregular)

INEG 5253. Leadership Principles and Practices. 3 Hours.
The course is designed to expose students to multiple approaches to leadership in a wide variety of settings. Leadership styles, the knowledge areas and competencies expected of today’s leaders, the challenges leaders face, the historical and philosophical foundations of leadership, the relationships among leadership theory, leadership practice, and the moral-ethical aspects of leadership are among the topics covered in the course. A number of respected regional, national, and international leaders share “lessons learned” in their leadership journeys. Plus, a number of highly regarded leadership books and case studies on leadership are read and discussed. Students may not receive credit for INEG 4253 and INEG 5253/OMGT 5253. (Typically offered: Fall)

This course is cross-listed with OMGT 5253.

INEG 5263. Engineering Statistics. 3 Hours.
A graduate level engineering statistics course covering functions of random variables, properties and distributions of random samples, theory of statistical inference, and rationales of testing hypotheses and constructing confidence intervals. Prior knowledge of material equivalent to MATH 2574 and INEG 2333 is expected. (Typically offered: Fall)

INEG 5313. Engineering Applications of Probability Theory. 3 Hours.
Introduction to probability, discrete random variables, continuous random variables, multiple random variables, sequences of Bernoulli trials. Applications of these topics from inventory, reliability, quality control. (Typically offered: Fall)

INEG 5323. Engineering Applications of Stochastic Processes. 3 Hours.
Renewal processes, Poisson processes, discrete-time Markov chains, continuous-time Markov chains. Applications of these topics from inventory, reliability, quality control, queueing. (Typically offered: Spring)

INEG 5333. Design of Industrial Experiments. 3 Hours.
Statistical analysis as applied to problems and experiments in engineering and industrial research; experiment design and analysis; probability; and response surface analysis. (Typically offered: Irregular)

INEG 5373. Repairable Systems Modeling. 3 Hours.
Applications of probability, statistics, simulation and optimization to problems related to 1) modeling the performance of repairable equipment; 2) designing optimal inspection and maintenance policies for repairable equipment; and 3) optimizing the allocation of maintenance resources. (Typically offered: Irregular)

INEG 5393. Applied Regression Analysis for Engineers. 3 Hours.
Present concepts and applications to introduce statistical tools for discovering relationships among variables. Focus on fitting and checking linear and nonlinear regression models. Practical tools for engineers. (Typically offered: Irregular)

INEG 5423. Advanced Engineering Economy. 3 Hours.
(Formerly INEG 4423.) Preparation of feasibility studies, including cost estimation, risk and uncertainty, sensitivity analysis and decision making. Effects of taxes, depreciation and financing costs on cash flows. Graduate degree credit will not be given for both INEG 4423 and INEG 5423. (Typically offered: Irregular)

INEG 5433. Cost Estimation Models. 3 Hours.
Overview of cost estimation techniques and methodologies applied to manufacturing and service organizations. Accomplished through detailed analysis of the cost estimation development process and various cost estimation models. Topics include data collection and management, learning curves, activity based costing, detailed and parametric estimation models, and handling risk and uncertainty. (Typically offered: Irregular)

This course is cross-listed with OMGT 5433.

INEG 5443. Decision Models. 3 Hours.
Focus on quantitative decision models for technical and managerial problems for private and public organizations. Topics include shareholder value, stakeholder value, Value-Focused Thinking, axioms of decision analysis, decision making challenges, decision traps, cognitive biases, decision processes, decision framing, influence diagrams, value hierarchy structuring, designing creative alternatives, singe objective models, multiojective additive value model, swing weights, sensitivity analysis, portfolio decision models with binary linear programming, probability elicitation, Bayes Law, decision trees, Monte Carlo simulation, expected value, dominance (deterministic and stochastic), tornado diagrams, value of information, risk preference, utility models, expected utility, and communicating analysis insights. (Typically offered: Irregular)

This course is cross-listed with OMGT 5443.

INEG 5453. Systems Engineering and Management. 3 Hours.
(Formerly INEG 4453.) Overview of the fundamental concepts underlying the management of engineering. Reviews the engineering decision process within the life cycle. Examines implementation of basic management functions in technical organizations and development of strategy tools within a complex organization. Graduate degree credit will not be given for both INEG 4453 and INEG 5453. (Typically offered: Fall)

INEG 5463. Project Management. 3 Hours.
(Formerly INEG 4463.) Analysis of the strategic level of project management including planning, organizing, and staffing for successful project execution. Professional creativity, motivation, leadership, and ethics are also explored. At the tactical level, project selection, control, and systems management are analyzed. Systems development and decision support tools for project management are studied. Graduate degree credit will not be given for both INEG 4443 and INEG 5463. (Typically offered: Irregular)
INEG 5533. Network Optimization in Transportation Logistics. 3 Hours.
Focus on quantitative modeling and analysis of network optimization problems and their application in logistics system design and operation. Topics include network design and routing and location analysis, with emphasis on the application of both exact and heuristic solution techniques for large-scale instances of such problems. Prerequisite: INEG 5613. (Typically offered: Spring)

INEG 5563. Industrial Robotics. 3 Hours.
An interdisciplinary treatment of industrial robotics; manipulator anatomy, control, and programming; end-of-arm tooling; sensors & sensing; system integration and safety; current research topics. Graduate-level lab assignments and examinations. Significant literature review and writing assignments. Not open to students with credit for INEG 4563. Prerequisite: Graduate standing or instructor consent. (Typically offered: Fall)

INEG 5613. Introduction to Optimization Theory. 3 Hours.
A graduate level introduction to the foundational rationales of numerical optimization methods including linear programming, integer programming, network flows, and discrete dynamic programming. Model formulation and tractability, search strategies, characterization of optimal solutions, duality and sensitivity, outcome justification. Prerequisite: Graduate standing. (Typically offered: Fall)

INEG 5623. Analysis of Inventory Systems. 3 Hours.
Elements of production and inventory control, economic lot size models, price breaks models using Lagrangian method, deterministic dynamic inventory model, probabilistic one-period and multi-period models, zero and positive lead time models, and continuous review models. Prerequisite: INEG 5313. (Typically offered: Irregular)

INEG 5683. Nonlinear Programming. 3 Hours.
An introduction to the theory and methodology of nonlinear programming. Focus on engineering and management science applications of nonlinear optimization. Both single and multi-variable as well as unconstrained and constrained problems are addressed. (Typically offered: Irregular)

INEG 5693. Heuristic Optimization. 3 Hours.
Theory and applications of methodological approaches explicitly addressed to heuristic or approximate optimization of integer and combinatorial models. Prerequisite: INEG 5613. (Typically offered: Irregular)

INEG 5803. Simulation. 3 Hours.
The development and use of discrete-event simulation models for the analysis and design of systems found in manufacturing, distribution, and service contexts. Coverage includes conceptual modeling, model translation to computer form, statistical input models, random number generation and Monte Carlo methods, experimentation and statistical output analysis, and queuing analysis. Includes the use of modern computer simulation languages. Cannot receive credit for both INEG 3623 and INEG 5803. Corequisite: Drill component. (Typically offered: Irregular)

INEG 5813. Introduction to Simulation. 3 Hours.
Development and use of discrete-event simulation models for the analysis and design of systems found in manufacturing, distribution, and service contexts. Coverage includes conceptual modeling, model translation to computer form, statistical input models, random number generation and Monte Carlo methods, experimentation and statistical output analysis, and queuing analysis. For off-campus, distance education students only. (Typically offered: Irregular)

INEG 5823. Systems Simulation I. 3 Hours.
Random number generation, random variate generation, timekeeping in simulations, discrete event modeling, construction of digital simulation models, statistical analysis of simulation results, and analysis of simulation experiments utilizing a computer programming language. (Typically offered: Irregular)

INEG 5833. Introduction to Database Concepts for Industrial Engineers. 3 Hours.
(Formerly INEG 4833.) An introduction to the basic principles of database modeling and technologies for industrial engineers. Coverage includes analyzing user requirements, representing data using conceptual modeling techniques (e.g., UML, ERD), converting conceptual models to relational implementations via database design methodologies, extracting data via structured query language processing, and understanding the role of database technology in industrial engineering application areas such as inventory systems, manufacturing control, etc. The application of a desktop database application such as Access will be emphasized. Graduate degree credit will not be given for both INEG 4833 and INEG 5833. (Typically offered: Irregular)

INEG 600V. Master's Thesis. 1-9 Hour.
Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

INEG 6113. Linear Optimization. 3 Hours.
A precise treatment of linear programming. Theory of convex sets, linear inequalities; development of the simplex method; duality theory; post optimality application and interpretation. Variants of the simplex methods and interior-point algorithms are discussed. Prerequisite: INEG 5613. (Typically offered: Fall)

INEG 614V. Special Topics for Doctoral Students in Industrial Engineering. 1-3 Hour.
Consideration of current industrial engineering topics at the doctoral level that are not covered in other courses. Prerequisite: PhD student in Industrial Engineering or consent of the instructor. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

INEG 6213. Integer Programming. 3 Hours.
This course offers the theory needed to model and efficiently solve large-scale binary, mixed and general integer programs. The tools needed to assess the computational complexity of these problems will be fully studied. Additional topics include the conceptual foundation required for the development of cutting plane, branch-and-price, Lagrange relaxation and constraint programming approaches. Implementation considerations specific to preprocessing, valid inequality generation and solution methodology convergence will be emphasized. Prerequisite: INEG 6113. (Typically offered: Spring)

INEG 6313. Network Optimization. 3 Hours.
A theorem-proof based advanced study providing rigorous exposition of foundational network optimization concepts including relevant optimization theory, algorithm development techniques, complexity analysis, data structures, and important applications. Prerequisite: INEG 6113. (Typically offered: Fall)

INEG 6323. Advanced Stochastic Processes. 3 Hours.
This course prepares Ph.D. students with advanced topics in probability and stochastic processes, with a focus on deriving and analyzing probability and stochastic models, and theorem proving in related topics. Contents include review of probability theorems, limit and convergence theorems, generating functions, Poisson processes, renewal theory, discrete and continuous Markov chains, and other advance topics. Prerequisite: INEG 5313 and INEG 5323. (Typically offered: Spring)

INEG 6363. Generalized Linear Models. 3 Hours.
Introduce the generalized linear model (GLM), inference, likelihood and diagnostics. Apply log linear and logistic models. Develop techniques for growth curves, and longitudinal and survival data. Cover spatial and normal linear models, and dynamic GLM for dependent data. (Typically offered: Irregular)
**Information Systems (ISYS) Courses**

**ISYS 1120. Computer Competency Requirement. 0 Hours.**
Students entering the Walton College are expected to possess basic competencies in MS Windows, Word, Excel, and PowerPoint. The requirement is expected to be completed in an 8-week session. Deficiencies may be remedied through appropriate self-paced, computer-based instruction and/or alternative courses. Prerequisite: Students must earn a pre-assessment score of 70 or higher and department consent. (Typically offered: Fall, Spring and Summer)

**ISYS 1123. Business Application Knowledge - Computer Competency. 3 Hours.**
An introduction to computer literacy using information business application software; email/Internet; word processing; spreadsheets; presentation; database; collaborative/groupware; and integration of computer applications. Introduces the student to computer Concepts and Microsoft Office (Word, Excel, Windows, and PowerPoint) to manage finances, work with formulas, charts and graphics, and the development of professional worksheets and presentations. Students learn business computing through appropriate self-paced, computer-based instruction. Non-degree credit for business students; may be used to fulfill ISYS 1120 degree requirement if student earns a grade of C or better. (Typically offered: Fall, Spring and Summer)

**ISYS 2103. Business Information Systems. 3 Hours.**
This course presents the fundamentals of business information systems (IS) topics essential to today's business graduate. Applied areas of business will be used to provide the context for the IS topics, business applications, and management challenges. The broad objective of this course is to present students with a business and information systems framework that will allow them to envision how business decisions are enabled and empowered by information systems and technology. Corequisite: SEVI 2053 or ACCT 2023. Prerequisite: WCOB 1033 with a grade of C or better and (ISYS 1120 or (ISYS 1123 with a grade of C or better)). (Typically offered: Fall, Spring and Summer)

**ISYS 2103H. Honors Business Information Systems. 3 Hours.**
This course presents the fundamentals of business information systems (IS) topics essential to today's business graduate. Applied areas of business will be used to provide the context for the IS topics, business applications, and management challenges. The broad objective of this course is to present students with a business and information systems framework that will allow them to envision how business decisions are enabled and empowered by information systems and technology. Corequisite: SEVI 2053 or ACCT 2023. Prerequisite: WCOB 1033 with a grade of C or better and (ISYS 1120 or (ISYS 1123 with a grade of C or better)). (Typically offered: Fall, Spring and Summer)

This course is equivalent to ISYS 2103.

**ISYS 2263. Principles of Information Systems. 3 Hours.**
This course presents the fundamental concepts used in developing information systems. It provides a framework for students to use throughout their software development coursework. Also includes management of information systems concepts. This course requires extensive use of computer systems. Prerequisite: ACCT 2013, MATH 2053 and ISYS 2103, each with a grade of C or better. (Typically offered: Fall and Spring)

**ISYS 3273. Cryptocurrency. 3 Hours.**
This course will focus on topics such as a brief history of money, Bitcoin and the origin of cryptocurrency, blockchain system fundamentals (cryptography and consensus algorithms), real-world application with software clients and wallets, as well as assessing the current regulatory environment, financial applications and exchanges. Upon completion, students will understand what constitutes as digital money and how this phenomenon is currently transpiring within an economic, legal, and financial context; will be prepared to learn more about specific financial industry applications; make judgements on viability of certain crypto projects; and speak to challenges facing the future of cryptocurrency. Prerequisite: ISYS 2103 and ACCT 2013, each with a grade of C or better. (Typically offered: Fall and Spring)

**ISYS 3293. Systems Analysis and Design. 3 Hours.**
Practice and application of one structured analysis methodology; development of structured analysis specification; exposure to other methodologies; quality assurance and walkthroughs; survey of real systems and their components. Prerequisite: ISYS 2263 or CSCE 2014 with a grade of C or better. (Typically offered: Fall and Spring)

**ISYS 3393. Business Application Development Fundamentals. 3 Hours.**
Principles of design and development of windows and web applications using cutting edge visual development tools. The programming language will be a modern language used widely in industry, and the focus will be on its use in client-server, web, and/or mobile applications. Pre- or Corequisite: ISYS 3293. Prerequisite: ISYS 2263 or CSCE 2014 with a grade of "C" or better. (Typically offered: Fall and Spring)

**ISYS 4013. Principles of Data and Cybersecurity. 3 Hours.**
This course provides students with insight into the cybersecurity and data issues surrounding businesses; fundamental concepts of the study of law - enabling students to understand the basics of reading and briefing a case as well as the process of legal analysis and case procedure and discovery; securing organizational data; detecting and responding to cyber-based security breaches; emerging technologies, and ensuring a secured computing environment for safeguarding company information will be explored. Prerequisite: Junior Standing. (Typically offered: Fall and Spring)

**ISYS 4023. Network and Data Security in a Changing World. 3 Hours.**
This course explores network and data security in the context of today's digital enterprise. In addition to traditional network protocol and security issues, this course will explore security issues unique to cloud environments, data protection, IoT ecosystems, ERP systems, and Blockchain deployments. Prerequisite: ISYS 4013 with a grade of C or better. (Typically offered: Fall and Spring)
ISYS 4033. Advanced Information Security Management. 3 Hours.
This course provides students with an in-depth, advanced understanding of cybersecurity and data management. Topics include risk assessment, continuity planning, data protection, threat detection, threat/risk mitigation, and recovery issues and techniques. Current topics in data and cybersecurity will also be included. Prerequisite: ISYS 4023 with a grade of C or better. (Typically offered: Fall and Spring)

ISYS 4043. Cybersecurity, Crime and Data Privacy Law Fundamentals. 3 Hours.
This course examines the law governing computer crime, data privacy, and cybersecurity. Substantive crimes such as hacking, identity theft, economic espionage, and online threats are discussed. The Fourth Amendment, Privacy, the Wiretap Act, and other limits on law enforcement that might affect private industry developing surveillance tools used by governments are examined. Prerequisite: ISYS 4013. (Typically offered: Fall and Spring)

ISYS 4053. Advanced Cybersecurity, Crime and Privacy Law. 3 Hours.
The course will explore best practices for data privacy and security protection measures, mitigation techniques for privacy and security threats, and privacy and security law. The importance of informational privacy will be highlight and a high-level overview of U.S. laws and regulations including FTC roles, and government surveillance will be provided. Prerequisite: ISYS 4023 and ISYS 4043. (Typically offered: Fall and Spring)

ISYS 4173. Blockchain Fundamentals. 3 Hours.
This course provides the fundamental concepts underpinning blockchain technologies. This course focuses on blockchain applications for business. Students will learn about the overall blockchain landscape, including the investments, the size of markets, major players and the global reach, as well as the potential business value of blockchain applications and the challenges that must be overcome to achieve that value. Students will learn enough about the underlying technologies to be well-prepared to develop blockchain applications in future courses. Prerequisite: ISYS 2103 and ACCT 2013, each with a grade of C or better, or CSCE 2004 with a grade of C or better. (Typically offered: Fall and Spring)

ISYS 4193. Business Analytics and Visualization. 3 Hours.
Introductory study of business analytics, visualization, and systems to provide analytics-based information derived from data within and/or external to the organization. Business analytics used to support management in the decision making, Application of tools in business analytics, problem solving, visualization, and decision making. Prerequisite: (Non-business majors: (INEG 2313 or STAT 3013 with a grade of C or better)) or (Business majors: (WCOB 1033 with a grade of C or better)). (Typically offered: Fall)

ISYS 4213. ERP Fundamentals. 3 Hours.
An introduction to enterprise resource planning systems. Students should gain an understanding of the scope of these integrated systems that reach across organizational boundaries and can change how a company does business. Implementation issues are covered, including the importance of change management. Prerequisite: ISYS 2103 and ACCT 2013, each with a grade of C or better, or CSCE 2004, with a grade of C or better. (Typically offered: Fall and Spring)

ISYS 4223. ERP Configuration and Implementation. 3 Hours.
The process of configuring and implementing an enterprise resource planning system. Business process analysis and integration. Students will develop a company and set up several modules in SAP R/3 for use. Develop understanding of how the business processes work and integrate. Prerequisite: ISYS 4213 with a grade of "C" or better. (Typically offered: Fall)

ISYS 4233. Seminar in ERP Development. 3 Hours.
ERP administration and system development practices. Advanced system support issues related to Enterprise Resource Planning systems that are used in global organizations. Basic ABAP programming. In addition, students will learn how to provide basic systems administration support of the operating system, database, and application systems software levels or ERP systems. Pre- or Corequisite: ISYS 4223 with a grade of "C" or better. (Typically offered: Spring)

ISYS 4243. Current Topics in Computer Information. 3 Hours.
Intensive investigation of selected developments in computer information systems hardware, software, and organization having current impact on computer information systems design and application. Offering an extension of lower-level CIS courses through individual student research and faculty team-teaching of advanced topics. Topical selection made with each course offering. Prerequisite: Junior standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ISYS 4283. Business Database Systems. 3 Hours.
Introduces student to centralized information system design and implementation for business applications. In-depth study of logical systems modeling; physical file management; and software requirements. Pre- or Corequisite: ISYS 3393. Prerequisite: ISYS 3293 with a grade of C or better. (Typically offered: Fall)

ISYS 4293. Business Intelligence. 3 Hours.
Business intelligence focuses on creating, developing and storing information and knowledge from internal and external sources to better support business decisions. We will consider techniques from machine learning, data mining, and information retrieval to extract useful knowledge from data, which could be used for business intelligence, personalization or user profiling. Prerequisite: ISYS 4193 with a grade of "C" or better. (Typically offered: Spring)

ISYS 4363. Business Project Development. 3 Hours.
Review of fundamentals of application processing systems design and development; implementation of such a system by class. Prerequisite: ISYS 3393 and ISYS 4283 each with a grade of C or better. (Typically offered: Spring)

ISYS 4373. Application Development with Java. 3 Hours.
This course covers object-oriented programming concepts and illustrates them via an appropriate object-oriented programming language. Students will be exposed to the design of software objects, creation of software objects, and the use of objects in constructing an information system. Prerequisite: ISYS 3293 with a grade of C or better. (Typically offered: Fall)

ISYS 4393. Seminar in Applied Business Analytics. 3 Hours.
Application of business analytics, business intelligence, data mining, and data visualization to business problem solving. Business Analytics techniques using current and relevant software are applied to current business problems for presentation to management. Prerequisite: ISYS 4293. (Typically offered: Fall and Spring)

ISYS 4453. Introduction to Blockchain Applications. 3 Hours.
The focus of this course is to expose students to working with mainframe computer systems, large-scale data, and blockchain software & technologies. This course provides the opportunity for students to gain valuable insight into mainframe coding concepts, SQL, and data in a mainframe operating environment. Pre- or corequisite: ISYS 4173. (Typically offered: Fall)

ISYS 4463. Blockchain Enterprise Systems Development. 3 Hours.
Accurately capturing and storing business transactions is an important processing function in many businesses. This course provides students with the necessary understanding and skills to develop blockchain and other large-scale data applications in a mainframe environment with high volume. Prerequisite: ISYS 4453 with a grade of "C" or better. (Typically offered: Spring)

ISYS 450V. Independent Study. 1-3 Hour.
Permits students on individual basis to explore selected topics in data processing and/or Quantitative Analysis. (Typically offered: Fall and Spring)
ISYS 5013. Data and Cybersecurity. 3 Hours.
This course provides current business cybersecurity and data issues for graduate students to include securing data, detecting and responding to cyber security breaches, cyber-technologies, current security and cryptographic techniques, and ensuring a secured computing environment to safeguard company information. In addition, students will explore cybersecurity strategies and compliance with security standards, as well as data confidentiality, integrity, ethical use, and availability. Prerequisite: Graduate standing and departmental consent. (Typically offered: Fall and Spring)

ISYS 5023. Data and System Security. 3 Hours.
This course involves a comprehensive study of data security and network security in today's digital enterprise. Traditional network protocol and security issues are explored as well as security issues such as cloud environments, data protection, IoT ecosystems, ERP systems, and Blockchain deployments. Prerequisite: ISYS 5013. (Typically offered: Fall and Spring)

ISYS 5033. Advanced Data and Cybersecurity Management. 3 Hours.
This course provides graduate students with an in-depth, advanced understanding of information security and data management. Topics include risk management, information systems security, continuity planning, data protection, threat detection, threat/risk mitigation, recovery issues/techniques, and current topics. Prerequisite: ISYS 5023. (Typically offered: Fall and Spring)

ISYS 5043. Cybersecurity, Crime, and Data Privacy Law I. 3 Hours.
This graduate level course in examines applicable cybersecurity, crime, and data privacy law to include the Fourth Amendment, Privacy, the Wiretap Act, and other. Limits on law enforcement that might affect private industry developing surveillance tools used by governments are reviewed. Crimes such as hacking, identity theft, economic espionage, online threats, are also discussed. Prerequisite: ISYS 5013. (Typically offered: Fall and Spring)

ISYS 5053. Cybersecurity, Crime and Privacy Law II. 3 Hours.
The course explores best practices for data, privacy, and security protection measures with respect to privacy and security law, as well as mitigation techniques for privacy and security threats. The importance of informational privacy will be highlighted along with a high-level overview of U.S. laws and regulations including FTC roles and government surveillance. Prerequisite: ISYS 5023 and ISYS 5043. (Typically offered: Fall and Spring)

ISYS 5103. Data Analytics Fundamentals. 3 Hours.
Fundamental knowledge and skills in several major areas of business data analytics. Emphasis on the management and use of data in modern organizations, intermediate & advanced spreadsheet topics; relational databases & SQL; and programming (such as Python). Prerequisite: MIS Director approval. (Typically offered: Fall)

ISYS 511V. IT Toolkit & Skills Seminar. 1-3 Hour.
Seminar in Information Systems solutions and concepts (such as applications development, VB.NET, analysis of problems and design of solutions via application systems, etc.) designed for students entering the MIS program--may not be used for MIS degree credit. Prerequisite: MIS Director approval. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

ISYS 5133. Blockchain and E Business Development. 3 Hours.
This course explores various blockchain and e-business development technologies and then utilizes these technologies for developing a realistic application. Students will also learn strategies and use a varied web stack to build web pages that interact with blockchain platforms. Pre- or corequisite: ISYS 5173. (Typically offered: Fall)

ISYS 516V. Independent Study. 1-3 Hour.
(Formerly ISYS 450V.) Permits students on individual basis to explore selected topics in data processing and/or Quantitative Analysis. Graduate degree credit will not be given for both ISYS 450V and ISYS 516V. (Typically offered: Fall and Spring)

ISYS 5173. Blockchain Fundamentals. 3 Hours.
This course provides the fundamental concepts underpinning blockchain technologies. The focus is on blockchain applications for business. Students will learn about the overall blockchain landscape, including investments, the size of markets, major players and the global reach, as well as the potential business value of blockchain applications and the challenges that must be overcome to achieve that value. Students will learn about the underlying technologies to speak intelligently to technology experts and will be well-prepared to develop blockchain applications in future courses. Prerequisite: Graduate standing and departmental consent. (Typically offered: Fall, Spring and Summer)

ISYS 5203. Experimental Design. 3 Hours.
ANOVA, experimental design, introduction to basis of statistics. Prerequisite: Graduate standing and WCOB 1033 or equivalent. (Typically offered: Fall)

ISYS 5213. ERP Fundamentals. 3 Hours.
An introduction to enterprise resource planning systems. Students should gain an understanding of the scope of these integrated systems that reach across organizational boundaries and can change how a company does business. Implementation issues are covered, including the importance of change management. Prerequisite: Graduate standing. (Typically offered: Fall and Summer)

ISYS 5223. ERP Configuration and Implementation. 3 Hours.
The process of configuring and implementing an enterprise resource planning system. Business process analysis and integration. Students will develop a company and set up several modules in SAP for use. Develop understanding of how the business processes work and integrate. Prerequisite: ISYS 5213 or equivalent. (Typically offered: Fall and Spring)

ISYS 5233. Seminar in ERP Development. 3 Hours.
ERP administration and system development practices. Advanced system support issues related to Enterprise Resource Planning systems that are used in global organizations. Basic ABAP programming. In addition, students will learn about the overall ERP support of the operating system, database, and application systems software levels of ERP systems. Pre- or Corequisite: ISYS 5223. Prerequisite: ISYS 5213. (Typically offered: Spring) May be repeated for up to 6 hours of degree credit.

ISYS 5243. Current Topics in Computer Information. 3 Hours.
(Formerly ISYS 4243.) Intensive investigation of selected developments in computer information systems hardware, software, and organization having current impact on computer information systems design and application. Offering an extension of lower-level CIS courses through individual student research and faculty team-teaching of advanced topics. Prerequisite: MIS Director approval. Graduate degree credit will not be given for both ISYS 4243 and ISYS 5243. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

ISYS 535V. Internship Experience. 1-6 Hour.
This course allows a student to experience an internship within a business and benefit from the work experience. The internship focuses on applications and business problems and is supervised by a faculty member as well as a member of the company/firm. Prerequisite: MIS Director approval is required. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ISYS 5363. Business Analytics. 3 Hours.
This course in managerial business analytics provides future managers with the key concepts of decision modeling and information technology management concepts. Students will learn to utilize real time operational business data, as well as quickly process and effectively leverage information. In addition, students will exercise strategic IT deployment skills for supply chain and marketing processes as well as develop strong decision modeling abilities. (Typically offered: Spring)
ISYS 5373. Application Development with Java. 3 Hours. (Formerly ISYS 4373.) This course covers object-oriented programming concepts and illustrates them via an appropriate object-oriented programming language. Students will be exposed to the design of software objects, creation of software objects, and the use of objects in constructing an information system. Graduate degree credit will not be given for both ISYS 4373 and ISYS 5373. Prerequisite: ISYS 3293 with a grade of C or better. (Typically offered: Fall)

ISYS 5403. Quantitative Methods and Decision Making. 3 Hours. Utilization of information, quantitative techniques, and computer application in decision making and problem solving for managers. (Typically offered: Irregular) This course is cross-listed with SCMT 5133.

ISYS 5423. Seminar in Systems Development. 3 Hours. Advanced study of structured systems development. Emphasis on strategies and techniques of structured analysis and structured design for producing logical systems specifications and for deriving physical systems designs. Coverage of methodologies for dealing with complexity in the development of information systems. Prerequisite: ISYS 5111V. (Typically offered: Fall)

ISYS 5433. Enterprise Systems. 3 Hours. Enterprise Systems comprises the entire class of information technology and systems that support the mission of the company including decision support and business processes. This managerial enterprise systems course focuses on strategic issues of information technology. Students study the various elements and integration of an organization’s business processes; as a result, students gain an understanding and working knowledge of systems used to support these business processes and their use in decision making. In addition, students will study concepts and develop skills needed to utilize decision-centric business intelligence and knowledge management applications. (Typically offered: Spring)

ISYS 5453. Blockchain and Enterprise Data. 3 Hours. The focus of this course is to expose students to working with distributed and service oriented architectures for different applications as well as the IT infrastructure needed. The course provides the opportunity for students to gain valuable insight into blockchain as a distributed system and cloud architecture platforms with the goal of developing enterprise applications. Prerequisite: ISYS 5133. (Typically offered: Spring)

ISYS 5463. Enterprise Transaction Systems. 3 Hours. Being able to accurately capture and store business transactions is an important processing function in many businesses. For many large companies with high volume processing, the tools of choice for transaction processing are applied. This course provides students with the necessary understanding and skills to develop advanced applications in mainframe environment. Pre- or Corequisite: ISYS 5453 or equivalent or MIS Director approval. (Typically offered: Irregular)

ISYS 5503. Decision Support and Analytics. 3 Hours. Analysis of the highest level of information support for the manager-user. A study of systems providing analytics-based information derived from databases within and/or external to the organization and used to support management in the decision making. Application of tools in business analytics, problem solving, and decision making. Prerequisite: MIS Director approval. (Typically offered: Fall)

ISYS 5603. Analytics and Visualization. 3 Hours. This course focuses on how to discern and tell your story visually using data based on traditional graphical data representation as well as the latest data and information technologies. Coverage includes both visualization theory and hands-on exercises using appropriate computing tools. The course will also include visualization of predictive, clustering, and association models. The opportunities and challenges of Big Data visualization will be explored. Corequisite: Lab component. Prerequisite: (ISYS 5503) or (ISYS 5133 and departmental consent). (Typically offered: Fall)

ISYS 5713. Seminar in IS Topics. 3 Hours. Intensive seminar in selected information systems topics. Topical selection made with each course offering. Prerequisite: ISYS 511V or MIS Director approval. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ISYS 5723. Advanced Multivariate Analysis. 3 Hours. Factor analysis and other advanced techniques. (Typically offered: Irregular)

ISYS 5833. Data Management Systems. 3 Hours. Investigation and application of advanced database concepts include database administration, database technology, and selection and acquisition of database management systems. Data modeling and system development in a database environment. Prerequisite: ISYS 5103. (Typically offered: Spring)

ISYS 5843. Seminar in Business Intelligence and Knowledge Management. 3 Hours. Business intelligence focuses on assessing and creating information and knowledge from internal and external sources to support business decision making process. In this seminar, data mining and information retrieval techniques will be used to extract useful knowledge from data, which could be used for business intelligence, and knowledge management. Pre- or Corequisite: ISYS 5833 or equivalent. Prerequisite: ISYS 5503 or equivalent. (Typically offered: Spring)

ISYS 593V. Global Technology and Analytics Seminar. 1-3 Hour. This course is designed to provide an updated, comprehensive, and rigorous treatment of emerging global topics. Includes, but is not limited to, global study experiences, business insights, and foundational perspectives; examines significant issues from global perspectives. Prerequisite: Department Consent, Graduate standing, and MIS Director approval. (Typically offered: Summer) May be repeated for up to 3 hours of degree credit.

ISYS 5943. Management of Information Technology Seminar. 3 Hours. Presented in a way that allows you to play an active role in the design, use, and management of information technology. Using IT to transform the organization, as competitive strategy, and creating new relationship with other firms is included. Pre- or Corequisite: ISYS 5833. Prerequisite: ISYS 5423. (Typically offered: Spring)

ISYS 599V. Practicum Seminar. 1-6 Hour. This course is designed to introduce and engage the student in the practice, application, and problem solving in the business environment. Hands-on application of a business problem. Students will gain experience working on, making decisions about, and developing solutions for business applications. Topics include but not limited to analytics, data, and information technology. Prerequisite: Graduate standing and MIS Director approval. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ISYS 601V. Graduate Colloquium. 1-6 Hour. Presentation and critique of research papers and proposals. (Typically offered: Fall and Spring)

ISYS 6133. Survey of IS Research. 3 Hours. This is an introductory seminar in information systems research for doctoral students. Its objective is to introduce participants to major streams of IS research and discuss many of the important roles and responsibilities of an IS researcher. Also, this course will play the important role of introducing participants to the research of the current IS faculty. (Typically offered: Fall)

ISYS 6333. Individual-level Research in IS. 3 Hours. This course aims to expose students to individual-level research in IS. It provides a window into major streams of individual-level research in IS and reference disciplines. (Typically offered: Irregular) May be repeated for up to 18 hours of degree credit.

ISYS 636V. Special Problems. 1-6 Hour. Independent reading and research under supervision of senior staff member. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.
ISYS 6373. Social Networks in Information Systems Research. 3 Hours.
This is an introductory course in social networks for doctoral students. The course will be structured to be suitable to participants from a broad array of social and behavioral sciences. The study of social networks has emerged as an important stream with many fields, ranging from mathematics to organizational behavior to information systems to sociology. Although much of the early development took place in the analysis and methods to study social networks, more recently, a great deal of theory has been developed related to help better understand nonomological networks related to social networks (and associated constructs). Prerequisite: Graduate standing and permission of the ISYS PhD Coordinator. (Typically offered: Irregular)

ISYS 6633. Systems Development. 3 Hours.
The course provides an in-depth study of systems development as an area of research, understanding of the theoretical and conceptual foundations, insight into the current state of the research area, utilizes both IS and reference discipline literature as appropriate, guidance for conducting research projects and producing publishable research, an opportunity to work on cutting-edge research. (Typically offered: Irregular)

ISYS 6733. Information Systems for Managing Organizations and Platforms. 3 Hours.
The goal of this seminar is to provide an understanding of the issues related to the organizational impacts of information technologies, the processes to create value by using information technologies, and the strategic and competitive dynamics related to information technologies in organizations. Students will read and discuss various theories, conceptual issues, and empirical papers pertaining to research on these topics of inquiry. Prerequisite: Graduate standing and permission of the ISYS PhD Coordinator. (Typically offered: Irregular)

ISYS 6633. Systems Development. 3 Hours.
The course provides an in-depth study of systems development as an area of research, understanding of the theoretical and conceptual foundations, insight into the current state of the research area, utilizes both IS and reference discipline literature as appropriate, guidance for conducting research projects and producing publishable research, an opportunity to work on cutting-edge research. (Typically offered: Irregular)

ISYS 6733. Emerging Topics. 3 Hours.
Various emerging topics, such as RFID applications and RFID supply chain, ethical decision models, behavioral modeling, piracy and privacy issues, and virtual worlds. (Typically offered: Irregular) May be repeated for up to 15 hours of degree credit.

ISYS 6743. Qualitative and Quantitative Methods in Research. 3 Hours.
This seminar focuses on the study of processes, such as those associated with adoption and diffusion of technologies, the organizational impacts of technologies, and decision-making and planning by individuals and groups. Prerequisite: Graduate standing and permission of the ISYS PhD Coordinator. (Typically offered: Irregular)

ISYS 6753. Management of Knowledge and Information Systems. 3 Hours.
This seminar focuses on research related to the management of two key resources: (a) information systems (IS); and (b) knowledge. The course aims to help prepare students to become good researchers on management of IS and knowledge. Prerequisite: Graduate standing and permission of the ISYS PhD Coordinator. (Typically offered: Irregular)

ISYS 6833. Theory Development. 3 Hours.
To acquire theory development and writing skills, to understand challenges in developing and writing theory sections of papers, and to discuss approaches to writing good empirical journal articles. This course is suited for all social sciences students and is particularly appropriate for students conducting behavioral research in the business disciplines. (Typically offered: Irregular)

ISYS 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Interdisciplinary Studies (IDST) Courses

IDST 2003. Introduction to Interdisciplinary Studies. 3 Hours.
Introduces students to the concept of interdisciplinary studies. May be taken by students considering pursuit of an Interdisciplinary Studies major or by students in their first semester following acceptance into the program. Required of all Interdisciplinary Studies majors. (Typically offered: Fall)

Interior Design (IDES) Courses

IDES 1003. Basic Course in the Arts: Interior Design Lecture. 3 Hours.
A general introduction to the field and the profession of interior design, as well as increasing the student's appreciation of the relationship between the enclosing architecture of the space and the interior environment. (Typically offered: Fall and Summer)

IDES 1003H. Honors Basic Course in the Arts: Interior Design Lecture. 3 Hours.
A general introduction to the field and the profession of interior design, as well as increasing the student's appreciation of the relationship between the enclosing architecture of the space and the interior environment. (Typically offered: Fall and Summer)

This course is equivalent to IDES 1003.

IDES 1035. Fundamental Design Skills. 5 Hours.
Fundamental design skills; development of visual and verbal communication skills including observation skills, design technologies, analysis and representation in both 2-dimensions and 3-dimensions through analog and digital tools; creative and critical thinking skills. (Typically offered: Fall and Summer)

IDES 1045. Fundamental Design Methodology. 5 Hours.
Fundamental design skills; use of precedents for understanding principles of design and natural and formal ordering systems; design development using both iterative and alternative methods of exploration in 2-dimensions and 3-dimensions using analog and digital tools; continued development of visual and verbal communication skills. Prerequisite: IDES 1035. (Typically offered: Spring and Summer)

IDES 2723. Digital Media in Design. 3 Hours.
Develops conceptual and practical knowledge of digital techniques on architectural and interior design production. The aim is to provide a foundation in digital modeling, drawings, renderings, and an introduction to digital fabrication. Prerequisite: Interior Design majors only. (Typically offered: Fall)

IDES 2804. Interior Design Studio III. 4 Hours.
An introduction to interior space articulation and the creation of small scale spaces. Components of various presentation methods and formats. Overnight travel requires additional fees. Prerequisite: IDES 1045. (Typically offered: Fall)

IDES 2814. Interior Design Studio IV. 4 Hours.
Studio activities with emphasis on conceptualization, design theory and applications, ideation, programming and computer application. Overnight travel required. Prerequisite: IDES 2804. (Typically offered: Spring)

IDES 2823. Interior Design Materials and Assemblies. 3 Hours.
A study of materials, resources and assemblies used in interior spaces. (Typically offered: Fall)

IDES 2823H. Honors Interior Design Materials and Assemblies. 3 Hours.
A study of materials, resources and assemblies used in designing interior spaces. (Typically offered: Fall)

This course is equivalent to IDES 2823.
IDES 2883. History of Interior Design. 3 Hours.
Study of historic interiors and furniture from antiquity through the present day. Identification of interior styles and furniture of these eras is emphasized. (Typically offered: Spring)

IDES 2883H. Honors History of Interior Design. 3 Hours.
Study of historic interiors and furniture from antiquity through the present day. Identification of interior styles and furniture of these eras is emphasized. (Typically offered: Spring)
This course is equivalent to IDES 2883.

IDES 3805. Interior Design Studio V. 5 Hours.
Emphasis on residential and/or commercial building systems. Continued development of presentation skills including hand and computer-based techniques. Prerequisite: IDES 2814. (Typically offered: Fall)

IDES 3815. Interior Design Studio VI. 5 Hours.
Advanced studio problems involving larger-scale interior spaces and contract documents for public use. Overnight field trip requires additional fees. Prerequisite: IDES 3805. (Typically offered: Spring)

IDES 3833. Building Systems for Interior Design. 3 Hours.
A survey course of building systems that addresses the design implications of heating/air conditioning/ventilation, plumbing, power, data/voice/and telecommunications, fire protection, security, and acoustical systems on building interiors. Performance characteristics and sustainable technologies will be addressed. Prerequisite: IDES 2814 and IDES 2823. (Typically offered: Fall)

IDES 3833H. Honors Building Systems for Interior Design. 3 Hours.
A survey course of building systems that addresses the design implications of heating/air conditioning/ventilation, plumbing, power, data/voice/and telecommunications, fire protection, security, and acoustical systems on building interiors. Performance characteristics and sustainable technologies will be addressed. Prerequisite: IDES 2814 and IDES 2823. (Typically offered: Fall)
This course is equivalent to IDES 3833.

IDES 3843. Lighting Systems. 3 Hours.
Exploration of interior design applications of lighting systems. (Typically offered: Spring)

IDES 3843H. Honors Lighting Systems. 3 Hours.
Exploration of interior design applications of lighting systems. Prerequisite: Honors standing. (Typically offered: Spring)
This course is equivalent to IDES 3843.

IDES 465V. Special Topics. 1-6 Hour.
A focused study of specialized topics in interior design. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

IDES 4805. Interior Design Studio VII. 5 Hours.
Comprehensive design studio synthesizing design skills, knowledge and critical thinking skills with emphasis on research, programming and process. Prerequisite: IDES 3815 and IDES 4823. (Typically offered: Fall) May be repeated for degree credit.

IDES 4811. Internship for Interior Design. 1 Hour.
Supervised work experience and observation of operations/management procedures in approved design, government or service business. Prerequisite: IDES 3815. (Typically offered: Summer)

IDES 4813. Human Factors for Design. 3 Hours.
Emphasis is given to human behavior as applied to the design disciplines. Types of interior spaces, environmental effects on behavior, ergonomics, interior design needs of special groups, and human factors programs are studied. Lecture 3 hours per week. Prerequisite: Completion of any two of the following: ANTH 1023, SOCI 2013, PSYC 2003, HDFS 1403 or GEOS 1123. (Typically offered: Spring)

IDES 4813H. Honors Human Factors for Design. 3 Hours.
Emphasis is given to human behavior as applied to interior design. Types of interior spaces, environmental effects on behavior, ergonomics, interior design needs of special groups, and human factors programs are studied. Lecture 3 hours per week. Prerequisite: Completion of any two of the following: ANTH 1023, SOCI 2013, PSYC 2003, HDFS 1403 or GEOS 1123. (Typically offered: Fall) This course is equivalent to IDES 4813.

IDES 4815. Interior Design Studio VIII. 5 Hours.
Comprehensive design studio synthesizing design skills, knowledge, and critical thinking skills developed in previous design studios, including ideation, programming, construction, and human factors. Prerequisite: IDES 4805. (Typically offered: Spring) May be repeated for degree credit.

IDES 4815H. Honors Interior Design Studio VIII. 5 Hours.
Comprehensive design studio synthesizing design skills, knowledge, and critical thinking skills developed in previous design studios, including ideation, programming, construction, and human factors. Prerequisite: IDES 4805. (Typically offered: Spring)
This course is equivalent to IDES 4815.

IDES 4823. Professional Practice for Interior Design. 3 Hours.
General procedures for operating and maintaining an interior design business. Business documentation, communication, professional responsibilities and ethics. Corequisite: IDES 3805. (Typically offered: Fall)

IDES 4823H. Honors Professional Practice for Interior Design. 3 Hours.
General procedures for operating and maintaining an interior design business. Business documentation, communication, professional responsibilities and ethics. Corequisite: IDES 3805. (Typically offered: Fall)
This course is equivalent to IDES 4823.

IDES 485V. Design Tours. 1-3 Hour.
Domestic and international study tours of a variety of design locations that contribute to the body of knowledge. Prerequisite: IDES 2814. (Typically offered: Irregular)

IDES 4943. Perspectives on Historic Preservation. 3 Hours.
Introduction of history, theory, and praxis of preservation design, emphasizing development and implementation of preservation projects in the practices of architecture, landscape architecture and interior design. Central themes include: preservation as a form of design; principles, rationales, and ideologies associated with preservation practice; and sustainable strategies for preservation design. Prerequisite: ARCH 2233 and ARCH 2243 or LARC 3413 and LARC 4413 or IDES 2883. (Typically offered: Fall)
This course is cross-listed with LARC 4943, ARCH 4943.
**INST 300V. Internship in International Studies. 1-6 Hour.** Internship in international studies-related agency or organization, arranged by the student and/or faculty member, under the guidance of a faculty member. (Typically offered: Summer) May be repeated for up to 6 hours of degree credit.

**INST 3303. European Integration and Globalization. 3 Hours.** Interdisciplinary study of the cultural, economic, and political processes of modern European integration in the context of a changing relationship between Europe and the wider world during the 20th and 21st centuries. (Typically offered: Fall Even Years)

**INST 3503. Issues in the Global South. 3 Hours.** Interdisciplinary study of salient historical and contemporary issues of the Global South, including the cultural, economic, and political forces that shape and/or emerge from societies or political subjects that historically experienced underdevelopment and colonialism. (Typically offered: Fall Odd Years)

**INST 3603. Universal Human Rights: History and Practice since 1945. 3 Hours.** Study of the development and growth of the universal human rights movement since the end of the Second World War. Emphasis on using human rights as a lens to understand and assess global affairs in the late 20th and early 21st centuries. Creates space for INST 3603 to be offered as part of a study abroad program. (Typically offered: Spring Even Years)

**INST 3673. Social Entrepreneurship. 3 Hours.** Explores notions of social entrepreneurship at both the global and local levels. Multiple case studies are analyzed to show the possibilities of participating in a market economy while promoting sustainable development. Students will undertake projects combining sound business practices with sustainable approaches to social challenges. Prerequisite: Junior standing. (Typically offered: Fall and Spring)

**INST 399VH. Honors Thesis. 1-6 Hour.** To be used for completing an International Studies Honors Thesis. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

**INST 4003. International Studies Seminar. 3 Hours.** The capstone course in international studies involves intensive study of key global issues or aspects of international affairs. Students choose a research project culminating in a substantial term paper to meet the College writing requirement. Prerequisite: INST 2813 or PLSC 2813. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit. This course is cross-listed with PLSC 4913.

**INST 4003H. Honors International Studies Seminar. 3 Hours.** The capstone course in international studies involves intensive study of major global trends and issues. Students choose a research project culminating in a senior thesis to meet the College writing requirement. Prerequisite: INST 2813 or PLSC 2813 and honors standing. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit. This course is cross-listed with INST 4003, PLSC 4913.

**INST 406V. Independent Study in International Studies. 1-6 Hour.** Independent study in international studies. Arranged in agreement and under the guidance of a faculty member. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

**INST 4103. Geography of Political Violence. 3 Hours.** This seminar focuses on the rise of civil conflict in the post-World War II world. We are particularly interested in understanding the institutional challenges facing countries that experience such conflict. The class will develop a contextually-informed understanding of the international system and how it is shaped by civil war. Prerequisite: Junior or senior standing. (Typically offered: Fall Even Years) This course is cross-listed with GEOS 4493.

**INST 4103H. Honors Geography of Political Violence. 3 Hours.** This seminar focuses on the rise of civil conflict in the post-World War II world. We are particularly interested in understanding the institutional challenges facing countries that experience such conflict. The class will develop a contextually-informed understanding of the international system and how it is shaped by civil war. Prerequisite: Junior or senior standing and honors standing. (Typically offered: Fall Even Years) This course is cross-listed with GEOS 4493, INST 4103.

**INST 4603. Peace Studies: Approaches and Theory. 3 Hours.** Exploration of key theories, concepts, and methodological approaches within the interdisciplinary field of peace studies. Emphasis on historical and contemporary concepts of peace, conflict, violence, and justice; the institutions, legal frameworks, and intercultural norms facilitating peace; and the practical application of theory to strategic peace building. (Typically offered: Spring Odd Years)

**INST 4653. International Food Security and Food Sovereignty. 3 Hours.** Explores the concepts of food security and food sovereignty and the ways in which humans have addressed issues related to hunger. Focus on the contemporary international cultural, social, and political discussion of future problems and solutions. (Typically offered: Irregular)

**INST 4693. Approaching Global History. 3 Hours.** Explores theoretical perspectives on global history through a treatment of the historiographical development of the field, readings of landmark texts, and selected case studies of global themes. (Typically offered: Irregular) This course is cross-listed with HIST 4693.

**INST 4873. International Communication and Globalization. 3 Hours.** Examines aspects of international communication and the impact of globalization on the production, dissemination, and consumption of media technology and messages. (Typically offered: Irregular)

**INST 4893. International Negotiation and Mediation. 3 Hours.** This course examines international negotiations and mediation. International negotiation refers to the processes and methods by which state and non-state actors reach agreements through persuasion and similar non-violent means. This course analyzes the processes, methods, and mechanisms, and challenges of international negotiations and the growing use of mediation. (Typically offered: Irregular) This course is cross-listed with PLSC 4893.

**INST 493V. Global Changemakers: Social Innovation Abroad. 3-6 Hour.** Exploration of selected global issues and social innovation techniques through collaborative engagement with domestic and international entities. Focus on initiatives addressing global issues at the local or regional level. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

**INST 493VH. Honors Global Changemakers: Social Innovation Abroad. 3-6 Hour.** Exploration of selected global issues and social innovation techniques through collaborative engagement with domestic and international entities. Focus on initiatives addressing global issues at the local or regional level. Prerequisite: Honors standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

---

**Italian (ITAL) Courses**

**ITAL 1003. Elementary Italian I. 3 Hours.** Elementary Italian I. (Typically offered: Fall)

**ITAL 1013. Elementary Italian II. 3 Hours.** Elementary courses stress correct pronunciation, aural comprehension, and simple speaking ability, and lead to active mastery of basic grammar and limited reading ability. (Typically offered: Spring)
Intermediate courses lead to greater facility in spoken language and to more advanced reading and writing skills. (Typically offered: Fall and Spring)

ITAL 2013. Intermediate Italian II. 3 Hours.
Continued development of basic speaking comprehension, and writing skills and intensive development of reading skills. (Typically offered: Spring)

ITAL 3033. Italian Conversation. 3 Hours.
Three hours per week of guided conversation practice for the post-intermediate student. Prerequisite: ITAL 2013. (Typically offered: Fall)

ITAL 3103. Italian Cinema. 3 Hours.
Examines Italian culture (history, language, politics, religion, and society) through the lens of the camera. Content begins with the 1860’s, covers the Unification of Italy, and continues to contemporary Italy. Students will analyze and examine diverse cultural themes within films. (Typically offered: Fall)

ITAL 3113. Introduction to Literature. 3 Hours.
Development of reading skills and introduction to literary analysis. Prerequisite: ITAL 2013 or equivalent. (Typically offered: Summer) May be repeated for up to 3 hours of degree credit.

ITAL 3123. Advanced Italian. 3 Hours.
Further intensive development of writing, listening and speaking skills. It will include a review of the essentials of Italian grammar. Prerequisite: ITAL 2013 or equivalent. (Typically offered: Spring)

ITAL 3333. Made in Italy. 3 Hours.
Based around the concept of MADE IN ITALY and its 4 As, Abbigliamento (clothes), Agroalimentare (food), Arredamento (furniture) and Automotive (automobiles), this course examines the economy of Italy through various perspectives. Prerequisite: ITAL 2013. (Typically offered: Irregular)

ITAL 3983. Special Studies. 3 Hours.
May be offered in a subject not specifically covered by courses otherwise listed. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ITAL 4023. Contemporary Images of and from Rome. 3 Hours.
Examines the many manifestations of Rome through literature, film, and onsite experiential learning. Introduces texts and places that highlight Rome as a protagonist from the late 19th century to the present. Taught in Italian. Prerequisite: ITAL 2013. (Typically offered: Summer)

ITAL 4033. Advanced Italian Conversation. 3 Hours.
Conversation practice for advanced undergraduates. Intended to refine language comprehension while providing in-depth understanding of Italian life and culture. Prerequisite: ITAL 3033 or ITAL 3113 or instructor consent. (Typically offered: Fall)

ITAL 4113. Italian Fairy Tales in Literature, Visual Arts, and Cinema. 3 Hours.
Explores different typologies of fables and examines the evolution of the genre from the Middle Ages to contemporary times. Taught in Italian. Prerequisite: ITAL 3113 or ITAL 3123 or instructor’s consent. (Typically offered: Spring Even Years)
This course is cross-listed with MRST 4113.

ITAL 4123. Dante: A Journey Between Visions and Words. 3 Hours.
Explores the pivotal work of Dante Alighieri’s Divine Comedy as well as its visual representations and critical interpretations from the Middle Ages to the contemporary time. Theme is variable. Taught in English. (Typically offered: Fall Odd Years)

ITAL 4333. Italian for International Business. 3 Hours.
Equips students with the linguistic and cultural knowledge needed for the business sector in Italy and/or with Italian businesses housed in North America. Taught in Italian. Prerequisite: ITAL 3033 or ITAL 3333. (Typically offered: Irregular)

ITAL 475V. Special Investigations. 1-6 Hour.
Special investigation of one or more topics related to the Italian language. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ITAL 5123. Dante: A Journey Between Visions and Words. 3 Hours.
Explores the pivotal work of Dante Alighieri’s Divine Comedy as well as its visual representations and critical interpretations from the Middle Ages to the contemporary time. Theme is variable. Taught in English. (Typically offered: Fall Odd Years)

Japanese (JAPN) Courses

JAPN 1003. Elementary Japanese I. 3 Hours.
Designed for true beginners of Japanese, this course aims to introduce general concepts of the Japanese language: the writing system, basic conversational expressions, vocabulary, and sentence patterns. (Typically offered: Fall)

JAPN 1013. Elementary Japanese II. 3 Hours.
Elementary courses stress correct pronunciation, aural comprehension, and simple speaking ability, and lead to active mastery of basic grammar and limited reading ability. (Typically offered: Fall)

JAPN 1116. Intensive Elementary Japanese. 6 Hours.
Equivalent to JAPN 1003 and JAPN 1013. Intended for true beginners of Japanese who have never learned or spoken the language before. Emphasis on all skill areas: correct pronunciation, aural comprehension, speaking ability, reading, and writing. Focuses on developing the students’ command of Japanese sentence patterns and vocabulary. (Typically offered: Spring)

Intermediate courses lead to greater facility in spoken language and to more advanced reading skills. (Typically offered: Fall)

JAPN 2013. Intermediate Japanese II. 3 Hours.
Continued development of basic reading comprehension and writing skills and intensive development of reading skills. Prerequisite: JAPN 2003 or equivalent. (Typically offered: Spring)

JAPN 2013H. Honors Intermediate Japanese II. 3 Hours.
Continued development of basic reading comprehension and writing skills and intensive development of reading skills. Prerequisite: Honors standing and JAPN 2003, or equivalent. (Typically offered: Spring)
This course is equivalent to JAPN 2013.

JAPN 2116. Intensive Intermediate Japanese. 6 Hours.
Equivalent to JAPN 2003 and JAPN 2013. Emphasizes intensive oral/aural drills and reading/speaking exercises and intensive grammar drills. Prerequisite: JAPN 1013 or equivalent. (Typically offered: Irregular)

JAPN 3003H. Honors Advanced Japanese I. 3 Hours.
Introduces more complex forms and structures of the language as well as more Kanji (Chinese Characters) aiming at the improvement of all the skills: speaking, listening, writing and reading. Prerequisite: JAPN 2013. (Typically offered: Irregular)

JAPN 3013H. Honors Advanced Japanese II. 3 Hours.
Continuation of JAPN 3003 with more complex forms and structures of the language as well as more Kanji (Chinese Characters) aiming at the improvement of all the skills: speaking, listening, writing and reading. Prerequisite: JAPN 3003. (Typically offered: Irregular)

JAPN 3033. Advanced Japanese Conversation. 3 Hours.
Conversational practice for advanced learners of Japanese. Designed primarily for students who intend to use Japanese in business and other formal settings. Honorific and humble expressions will be emphasized. Prerequisite: JAPN 3116 or equivalent. (Typically offered: Spring)

JAPN 3033H. Honors Advanced Japanese Conversation. 3 Hours.
Conversational practice for advanced learners of Japanese. Designed primarily for students who intend to use Japanese in business and other formal settings. Honorific and humble expressions will be emphasized. Prerequisite: Honors standing and JAPN 2013. (Typically offered: Fall)
This course is equivalent to JAPN 3033.
JAPN 3103. Advanced Reading in Japanese. 3 Hours.
Designed to build vocabulary and to strengthen students’ Japanese reading skills through extensive practice with authentic materials such as readings of on-line newspapers, advertisements, Web pages, and excerpts from Japanese Haiku poetry and literature. Prerequisite: JAPN 3116 or equivalent Japanese proficiency. (Typically offered: Fall)

JAPN 3103H. Honors Advanced Reading in Japanese. 3 Hours.
Designed to build vocabulary and to strengthen students’ Japanese reading skills through extensive practice with authentic materials such as readings of on-line newspapers, advertisements, Web pages, and excerpts from Japanese Haiku poetry and literature. Prerequisite: JAPN 3116 or equivalent Japanese proficiency. (Typically offered: Fall)

This course is equivalent to JAPN 3103.

JAPN 3116. Intensive Advanced Japanese. 6 Hours.
This course aims to improve students’ Japanese proficiency further in all skill areas through intensive practice. Prerequisite: JAPN 2013 or equivalent Japanese proficiency. (Typically offered: Fall)

JAPN 3116H. Honors Intensive Advanced Japanese. 6 Hours.
This course aims to improve students’ Japanese proficiency further in all skill areas through intensive practice. Prerequisite: JAPN 2013 or equivalent Japanese proficiency. (Typically offered: Fall)

This course is equivalent to JAPN 3116.

JAPN 3983. Special Studies. 3 Hours.
May be offered in a subject not specifically covered by courses otherwise listed. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

JAPN 3983H. Honors Special Studies. 3 Hours.
May be offered in a subject not specifically covered by courses otherwise listed. Prerequisite: Honors candidacy. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

This course is equivalent to JAPN 3983.

JAPN 4033. Oral Communication & Composition in Japanese. 3 Hours.
Designed to strengthen Japanese language skills in oral communication and writing. Consists of conversational activities, presentations and debates, and composition in settings such as business, school, and everyday life. Prerequisite: JAPN 3116 or equivalent Japanese proficiency. (Typically offered: Fall)

JAPN 4033H. Honors Oral Communication & Composition in Japanese. 3 Hours.
Designed to strengthen Japanese language skills in oral communication and writing. Consists of conversational activities, presentations and debates, and composition in settings such as business, school, and everyday life. Prerequisite: JAPN 3116 or equivalent Japanese proficiency. (Typically offered: Fall)

This course is equivalent to JAPN 4033.

JAPN 4333. Professional Japanese I: Business Writing. 3 Hours.
This course aims to familiarize the students with formats, vocabulary, and expressions in Japanese business correspondence. Emphasizes career-ready Japanese language proficiency. Prerequisite: JAPN 3116 or equivalent Japanese proficiency. (Typically offered: Spring)

JAPN 4333H. Honors Business Writing in Japanese. 3 Hours.
This course aims to familiarize the students with formats, vocabulary, and situational specific expressions in Japanese business correspondence. Prerequisite: JAPN 2013 or equivalent Japanese proficiency. (Typically offered: Spring)

This course is equivalent to JAPN 4333.

JAPN 4343. Professional Japanese II: Translation. 3 Hours.
Continuation of Professional Japanese I. Emphasizes translation, career-ready Japanese language proficiency, and further advancement of Japanese language proficiency in all skill areas. Completion of a professional translation project based on contemporary material is required. Prerequisite: JAPN 4333 or equivalent. (Typically offered: Fall)

JAPN 4343H. Honors Professional Japanese II: Translation. 3 Hours.
Continuation of Professional Japanese I. Emphasizes translation, career-ready Japanese language proficiency, and further advancement of Japanese language proficiency in all skill areas. Completion of a professional translation project based on contemporary material is required. Prerequisite: JAPN 4333 or equivalent. (Typically offered: Fall)

This course is equivalent to JAPN 4343.

JAPN 5313. Language and Society of Japan. 3 Hours.
(Formerly JAPN 4313.) The primary objective of this course is to investigate the way the Japanese language reflects the beliefs and custom of the Japanese people as a social group. For comparison purposes, this course makes reference to studies in American language and culture. Proficiency in Japanese not required. Graduate degree credit will not be given for both JAPN 4313 and JAPN 5313. (Typically offered: Fall)

JAPN 5333. Professional Japanese I: Business Writing. 3 Hours.
(Formerly JAPN 4333.) This course aims to familiarize the students with formats, vocabulary, and expressions in Japanese business correspondence. Emphasizes career-ready Japanese language proficiency. Graduate degree credit will not be given for both JAPN 4333 and JAPN 5333. Prerequisite: JAPN 3116 or equivalent Japanese proficiency. (Typically offered: Spring)

Jewish Studies (JWST)

Courses

JWST 2003. Introduction to Judaism. 3 Hours.
An introduction to the practices, teachings, and scriptures of Judaism, focusing on the post-Biblical period up to the present. (Typically offered: Fall Odd Years)

JWST 3103. Introduction to Jewish Languages. 3 Hours.
An introduction to the alphabet, grammar, syntax, and basic vocabulary of Hebrew, Jewish Aramaic and Yiddish. (Typically offered: Fall Even Years)

JWST 4003. Modern Jewish Thought. 3 Hours.
A survey of the main trends in Jewish thought from the seventeenth through the nineteenth century. (Typically offered: Irregular)

This course is cross-listed with PHIL 4103.

JWST 4013. Contemporary Jewish Thought. 3 Hours.
A survey of trends in Jewish thought in the twentieth and twenty-first centuries, focusing on the ways in which Jewish thinkers have responded to the events affecting Jews and the conditions of Jewish life in from approximately 1900 to the present. (Typically offered: Spring Odd Years)

This course is cross-listed with PHIL 4313.
JOUR 1003. Journalism Writing Skills. 3 Hours.
Provides a functional approach to improving language and writing skills specific to journalistic writing. Covers introductory journalistic writing and correct grammar usage, the logic governing syntax and punctuation use, analysis of grammar and syntax, sentence structure, word selection to convey proper meaning, memory aids, and other language topics relevant to journalistic writing. (Typically offered: Fall and Spring)

JOUR 1023. Media and Society. 3 Hours.
A survey of mass media (newspaper, radio, TV, magazine, advertising, public relations, photography, etc.) which stresses their importance in today’s society and introduces the student to the various areas in journalism. Recommended for students considering journalism as a major. Prerequisite: Journalism major, Advertising and Public Relations major, Journalism minor, or department consent. (Typically offered: Fall and Spring)

JOUR 1033. Media Writing. 3 Hours.
Introduces students to the skills of observation, critical thinking and concise writing required in all aspects of journalism and strategic media, as well as to the technology needed in upper-level courses. A prerequisite to JOUR 2003, JOUR 2013, JOUR 2031L, JOUR 2032, JOUR 2053, JOUR 2063, ADPR 3723 and ADPR 3743. Corequisite: Lab component. Pre- or Corequisite: JOUR 1003 or complete and pass the GSP (Grammar, Spelling and Punctuation) test in JOUR 1100 with a 75% or higher. Prerequisite: Journalism major, Advertising and Public Relations major, Journalism minor, or department consent. (Typically offered: Fall and Summer)

JOUR 1100. Grammar Spelling Punctuation Requirement. 0 Hours.
Students must complete the Grammar Spelling Punctuation (GSP) requirement as a prerequisite or corequisite to JOUR 1033 Media Writing. Students who do not take JOUR 1003 Journalistic Writing Skills to complete the GSP must take JOUR 1100, study for the GSP on their own and pass by earning a 75% or higher on the GSP test administered by the School of Journalism and Strategic Media. Pre- or Corequisite: JOUR 1003. (Typically offered: Fall and Spring)

JOUR 2003. Storytelling for Today’s Media. 3 Hours.
Introduction to developing content strategies that tell accurate, concise stories across multiple media platforms. Emphasizes clear, effective storytelling in media content production for print, broadcast and digital platforms, including social media, podcasting and video blogging. Integrates lessons on corporate social responsibility, personal branding and media entrepreneurship. Prerequisite: Journalism major, Advertising and Public Relations major, Journalism minor, or department consent. (Typically offered: Fall and Spring)

JOUR 2013. News Reporting I. 3 Hours.
Intensive training in the methods of gathering and writing news. Lecture 2 hours, laboratory 2 hours per week. Prerequisite: Must be a Journalism major, Advertising and Public Relations major, Journalism minor, or obtain department consent; JOUR 1023 and JOUR 1033, each with a grade of C or better, and either 1) JOUR 1003 with a grade of C or better or complete and pass the GSP (Grammar, Spelling and Punctuation) test in JOUR 1100 with a 75% or higher, or 2) at least 30 credit hours completed. (Typically offered: Fall and Spring)

JOUR 2031L. Broadcast News Reporting I Laboratory. 1 Hour.
Provides experience in basic broadcast news reporting techniques. Laboratory 3 hours per week. Corequisite: JOUR 2032. Prerequisite: (At least 30 credit hours completed; must be a Journalism major, Advertising and Public Relations major, Journalism minor, or obtain department consent; JOUR 1033 with a grade of C or better; JOUR 1003 with a grade of C or better or complete and pass the GSP (Grammar, Spelling and Punctuation) test in JOUR 1100 with a 75% or higher)) or (At least 30 credit hours completed; must be a Journalism major, Advertising and Public Relations major, Journalism minor, or obtain department consent; must have completed at least 6 credit hours in JOUR courses, each with a grade of C or better.) (Typically offered: Fall and Spring)

JOUR 2032. Broadcast News Reporting I. 2 Hours.
Intensive training in the methods of gathering and writing broadcast news. Lecture 2 hours per week. Corequisite: JOUR 2031L. Prerequisite: (At least 30 credit hours completed; must be a Journalism major, Advertising and Public Relations major, Journalism minor, or obtain department consent; JOUR 1033 with a grade of C or better; JOUR 1003 with a grade of C or better or complete and pass the GSP (Grammar, Spelling and Punctuation) test in JOUR 1100 with a 75% or higher)) or (At least 30 credit hours completed; must be a Journalism major, Advertising and Public Relations major, Journalism minor, or obtain department consent; must have completed at least 6 credit hours in JOUR courses, each with a grade of C or better.) (Typically offered: Fall and Summer)

JOUR 2053. Multimedia Journalism. 3 Hours.
Provides students with the skills of visual literacy, photo editing, audio processing, video editing and web publishing. Good writing will be emphasized. The course examines basic aesthetic principles in visual composition and techniques applicable to audio, video and web production. Prerequisite: Must be a Journalism major, Advertising and Public Relations major, Journalism minor, or obtain department consent; JOUR 1023 and JOUR 1033, each with a grade of C or better, and either 1) JOUR 1003 with a grade of C or better or complete and pass the GSP (Grammar, Spelling and Punctuation) test in JOUR 1100 with a 75% or higher, or 2) At least 30 credit hours completed. (Typically offered: Fall and Summer)

JOUR 2063. Media Graphics and Technology. 3 Hours.
Introduction to computer skills required in journalism; focuses on training in the major creative software used for generating media graphics and visual communication. Emphasizes content creation and web publishing, including infographics and promotional materials. Prerequisite: Journalism major, Advertising and Public Relations major, Journalism minor, or department consent. (Typically offered: Fall and Summer)

JOUR 2331L. Photojournalism I Laboratory. 1 Hour.
Photojournalism 1 Lab involves the transfer of images from a digital camera to a computer, and involves the use of image editing and enhancing software as well as layout and design software. Corequisite: JOUR 2332. (Typically offered: Fall)

JOUR 2332. Photo Journalism I. 2 Hours.
Beginning course in the fundamentals of photography, including digital photography, composition, file transfer and management, image enhancement, and layout and design. Corequisite: JOUR 2331L. (Typically offered: Fall)

JOUR 2453. Introduction to Sports Television Production I. 3 Hours.
Introduction to the specialized field of sports television production. Focuses on multicamera, single-camera and studio production. Studio lab and field work outside of regularly scheduled class time required. (Typically offered: Fall)
JOUR 3013. Editing. 3 Hours.
Theories and practices in newspaper editing, copyreading, headline writing, page layout and the gathering and publication of written and pictorial information. Prerequisite: JOUR 1023 and JOUR 2013, each with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 3023. News Reporting II. 3 Hours.
Continuation of JOUR 3013. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: JOUR 2013 with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 3071L. Broadcast News Reporting II Laboratory. 1 Hour.
Continuation of JOUR 3031L. Including advanced skills in broadcast news techniques. Corequisite: JOUR 3071L. Prerequisite: JOUR 2032 and JOUR 2031L, each with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 3072. Broadcast News Reporting II. 2 Hours.
Continuation of JOUR 3032. Including advanced methods of gathering and writing broadcast news. Corequisite: JOUR 3071L. Prerequisite: JOUR 2032 and JOUR 2031L, each with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 3083. Photojournalism II. 3 Hours.
Study of news and feature photography. Includes planning and shooting photographs for newspapers and magazines, and instills in the student photojournalistic techniques, and ethical considerations of photographing for publication. Includes producing multimedia presentations and working with audio as well as still images. Lecture 3 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: JOUR 2332 and JOUR 2331L, each with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 3123. Feature Writing. 3 Hours.
Study of non-fiction newspaper and magazine feature articles with emphasis on locating subjects, and on writing techniques and practice in article writing. Prerequisite: JOUR 2013 with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 3163. Sports Journalism. 3 Hours.
Emphasis on techniques and principles of coverage of sports and sports-related subjects on and off the field, and on the relationship between sports and the mass media. (Typically offered: Fall)

JOUR 3263. African Americans in Film. 3 Hours.
A survey of the history of images of African Americans in film, especially as these images are examined in the context of stereotypical renditions and/or realistic representations of African American experiences. Issues of African American history, culture, and socio-political context will be addressed in the analyses of these films. Prerequisite: ENGL 1023 and junior or senior standing. (Typically offered: Irregular) This course is cross-listed with AAST 3263, ENGL 3263, COMM 3263.

JOUR 3273. African Americans in Documentary Film. 3 Hours.
Exploration of the African-American image and experience in the context of time, historical record and varying production viewpoints from diverse documentarians. African-American history, culture and socio-political context are addressed in the analyses of these documentary films from the perspectives of mainstream media, independent filmmakers and minority documentarians. Prerequisite: Junior or senior standing. (Typically offered: Spring) This course is cross-listed with AAST 3273, COMM 3273.

JOUR 3453. Sports Television Production II. 3 Hours.
Advanced production techniques in the specialized field of sports television production. Focuses on multi-camera, single-camera and studio production. Studio lab and field work outside of regularly scheduled class time required. Prerequisite: JOUR 2453 with a grade of C or better, or instructor consent. (Typically offered: Irregular)

JOUR 3633. Media Law. 3 Hours.
Constitutional guarantees, statutory laws and court cases applicable to mass communications. Prerequisite: Junior standing. (Typically offered: Fall and Spring)

JOUR 3733. Covering the Courts. 3 Hours.
Explores the mechanics of covering trials and other aspects of legal affairs reporting. Prerequisite: JOUR 3633 with a grade of C or better. (Typically offered: Spring)

JOUR 3923H. Honors Colloquium. 3 Hours.
Covers a special topic or issue, offered as a part of the honors program. Prerequisite: Honors candidacy (not restricted to candidacy in journalism). (Typically offered: Fall and Spring) May be repeated for degree credit.

JOUR 401V. Advanced Journalistic Practices. 1-4 Hour.
Study of advanced journalistic practices and methods, individual or group projects. Prerequisite: Junior standing and 10 hours of journalism and a 2.5 cumulative grade average. (Typically offered: Fall and Spring)

JOUR 402V. Internship in Journalism. 1-3 Hour.
Credit for practical experience gained through a journalistic internship. Report required on significant aspect of internship experience. Prerequisite: Journalism or Advertising and Public Relations major, and junior standing, and 10 hours JOUR/ADPR courses, and 2.50 minimum cumulative grade point average. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

JOUR 4033. Advanced Radio News Reporting. 3 Hours.
Intensive training in the production of in-depth, public radio style news stories. Prerequisite: JOUR 2032 and JOUR 2031L, each with a grade of C or better. (Typically offered: Spring)

JOUR 4043. Government and the Media. 3 Hours.
Focuses on the links between mass media and government and the increasingly significant role of media in politics and government. Examines the power, responsibility, and performance of the press and public officials/government agencies in their relationship with each other. Prerequisite: Junior standing. (Typically offered: Fall)

JOUR 405V. Specialized Journalism Seminar. 1-3 Hour.
Primary purpose of course is to enlarge the journalistic skills of students interested in advanced forms of mass communication. Students undertake projects related to particular aspects or problems of journalism. Content varies. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

JOUR 4063. Computer-Assisted Publishing. 3 Hours.
In-depth, hands-on exploration of computer hardware and software in the design and production of media messages. Examination of developing media technologies and the computer's influence on design and conceptualization. (Typically offered: Irregular)

JOUR 4073. Social Media and Journalism. 3 Hours.
Social Media and Journalism teaches conceptual knowledge and skills to develop news judgment and use changing technological tools to disseminate news quickly and to different audiences. The value of interacting with sources and the audience is stressed as are ethical, legal and accuracy issues. Prerequisite: JOUR 2013 or JOUR 2032 with a grade of C or better. (Typically offered: Fall)

JOUR 4083. Data Journalism. 3 Hours.
An introduction to basic data reporting skills, including how to use data to guide and inform reporting as well as tell stories to better serve the public. Ethical issues and best practices in data reporting are also examined. Prerequisite: Any STAT course or instructor permission. (Typically offered: Fall)

JOUR 4093. Business Journalism. 3 Hours.
Examines how the U.S. economy works and how to find news in business, market and government data sources. Focuses on the role of corporations, financial markets, and regulators, and benefiting students interested in sports, entertainment, political and investigative journalism. (Typically offered: Spring)

JOUR 4131. Literature of Journalism. 3 Hours.
Surveys the works of book and magazine-length narrative non-fiction, from the mid-19th century to the present. (Typically offered: Fall)
JOUR 4333. Ethics in Journalism. 3 Hours.
Critical examination of specific ethical problems confronting professionals in all areas of mass communications. Reading and writing assignments are aimed at familiarizing students with the nature of the mass media and their social responsibilities. Prerequisite: Junior standing. (Typically offered: Fall and Spring)

JOUR 443V. Event Promotion and Execution. 1-3 Hour.
Practicum for students to plan, design, promote and execute several Journalism Days events, to include the Roy Reed Lecture, a scholarship reception, a job fair, Senior Salute and a fundraiser. Prerequisite: Junior standing. (Typically offered: Spring)

JOUR 4503. Magazine Writing. 3 Hours.
This intensive writing and reporting course is for students with proven feature-writing skills and an interest in the human-interest stories found in such leading magazines as The New Yorker, Esquire, Harper’s, the Atlantic, and others. Students will compose magazine-length nonfiction stories on timely subjects under deadline. Stories are submitted for contests and publication, when possible. Prerequisite: JOUR 2013 with a grade of C or better. (Typically offered: Spring)

JOUR 4553. Magazine Editing and Production I. 3 Hours.
Instruction with lab work in editing and producing various types of magazines. Course includes magazine design, selecting and editing stories and photographs, laying out the story and photo pages, and other mechanical processes. Lecture 2 hours, laboratory 2 hours per week. (Typically offered: Spring)

JOUR 4863. Television News Reporting I. 3 Hours.
Continuation of JOUR 3072 and JOUR 3071L. Includes the specialized knowledge and skills needed in field reporting, anchoring, writing, and producing news for commercial television. Lab component arranged. Corequisite: Lab component. Prerequisite: JOUR 3072 and JOUR 3071L, each with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 4873. Television News Reporting II. 3 Hours.
Continuation of JOUR 4863. Laboratory component arranged. Prerequisite: JOUR 4863 with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 4883. Advanced Television News Production. 3 Hours.
Continuation of JOUR 4873. Students prepare and present television newscasts for air. Laboratory component arranged. Corequisite: Lab component. Prerequisite: JOUR 4873 with a grade of C or better. (Typically offered: Irregular)

JOUR 4893. Television News Producing. 3 Hours.
Intensive training in methods of producing a live television news broadcast, including news gathering, writing broadcast copy and production strategies. Lab 6 hours. Corequisite: Lab component. Prerequisite: JOUR 3072 and JOUR 3071L, each with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 4903. Community Journalism. 3 Hours.
This three-hour course will blend student' reporting and editing skills with instruction on how regional newspapers select and present news to a local audience. This course will instruct students in deciding news stories for regional readers, how those stories can best be written and displayed. The semester goal is to publish a paper. Prerequisite: Junior standing. (Typically offered: Spring)

JOUR 4923. History of the Black Press. 3 Hours.
Covers the historic context of contributions and innovations to U.S. newspapers by African Americans. Also investigates the role of the black press from its beginnings in 1827 through the civil rights movement. Prerequisite: Junior standing. (Typically offered: Spring Even Years)
This course is cross-listed with AAST 4923.

JOUR 4943H. Honors Research Methods in Journalism. 3 Hours.
Emphasis on the major types of qualitative and quantitative research, electronic data base searching, and traditional library research. Prerequisite: Journalism or Advertising and Public Relations major and honors standing. (Typically offered: Spring)
JOUR 5173. Social Media and Journalism. 3 Hours.
(Formerly JOUR 4073.) Social Media and Journalism teaches conceptual knowledge and skills to develop news judgment and use changing technological tools to disseminate news quickly and to different audiences. The value of interacting with sources and the audience is stressed as are ethical, legal, and accuracy issues. Graduate degree credit will not be given for both JOUR 4073 and JOUR 5173. Prerequisite: JOUR 2013 or JOUR 2032 with a grade of C or better. (Typically offered: Fall)

JOUR 5193. Professional Journalism Seminar. 3 Hours.
Examination of complex problems encountered by professional journalists with focus on research and analysis of the role of journalism in major social, economic, and political developments. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

JOUR 5283. Data Journalism. 3 Hours.
Provides an in-depth experience of combining street reporting and data analysis to tell a story of significant societal importance. Students are introduced to techniques in data analysis, management, visualization and production of data-driven articles and multimedia presentations. Prerequisite: Instructor permission. (Typically offered: Fall)

JOUR 5313. Literature of Journalism. 3 Hours.
A survey of superior works of book and magazine-length narrative non-fiction, from the mid-19th century to today. Includes such authors as Hersey, Didion, Orlean, and Conover. (Typically offered: Irregular)

JOUR 5323. Documentary Production I. 3 Hours.
In-depth study of documentary film as non-fiction, long form journalism. Covers subject, funding, research and development, pre-production planning, field production, talent, music, post production, promotion, broadcast and distribution. Required trip to Hot Springs Documentary Film Festival. (Typically offered: Fall)

JOUR 5333. Documentary Production II. 3 Hours.
A continuation of JOUR 5323, Documentary Production I. Students photograph, write, and edit a documentary begun in the fall semester. Prerequisite: JOUR 5323. (Typically offered: Spring)

JOUR 5463. Campaigns. 3 Hours.
(Formerly ADPR 4463.) Applying advertising principles and techniques to preparation of a complete campaign; determining agency responsibilities, marketing objectives and research, media mix, and creative strategy. Emphasis also given to campaign presentation delivery, utilizing audio and visual techniques. Graduate degree credit will not be given for both ADPR 4463 and JOUR 5463. Prerequisite: ADPR 3723 and ADPR 3743, each with a grade of B or better, and 2.5 overall GPA. (Typically offered: Fall, Spring and Summer)

JOUR 5473. Account Planning. 3 Hours.
An introduction to applied advertising research and account planning. Integrate consumers' perspectives into creative strategy to developing brand stories for clients. Write creative briefs, positioning statements and prepare copy-testing research instruments to evaluate messages. Utilize consumer research for creating messages for diverse cultures. Prerequisite: Graduate standing. (Typically offered: Fall and Spring)

JOUR 5503. Magazine Writing. 3 Hours.
(Formerly JOUR 4503.) This intensive writing and reporting course is for students with proven feature-writing skills and an interest in the human-interest stories found in such leading magazines as The New Yorker, Esquire, Harper's, the Atlantic, and others. Students will compose magazine-length nonfiction stories on timely subjects under deadline. Stories are submitted for contests and publication, when possible. Graduate degree credit will not be given for both JOUR 4503 and JOUR 5503. Prerequisite: JOUR 2013 with a grade of C or better. (Typically offered: Spring)

JOUR 5883. Advanced Television News Production. 3 Hours.
(Formerly JOUR 4883.) Continuation of JOUR 4873. Students prepare and present television newscasts for air. Laboratory component arranged. Graduate degree credit will not be given for both JOUR 4883 and JOUR 5883. Corequisite: Lab component. Prerequisite: JOUR 4873 with a grade of C or better. (Typically offered: Irregular)

JOUR 5903. Community Journalism. 3 Hours.
(Formerly JOUR 4903.) This three-hour course will blend student reporting and editing skills with instruction on how regional newspapers select and present news to a local audience. This course will instruct students in deciding news stories for regional readers, how those stories can best be written and displayed. The semester goal is to publish a paper. Graduate degree credit will not be given for both JOUR 4903 and JOUR 5903. (Typically offered: Spring)

JOUR 5923. History of the Black Press. 3 Hours.
Covers the historic context of contributions and innovations to U.S. newspapers by African Americans. Also investigates the role of the black press from its beginnings in 1827 through the civil rights movement. (Typically offered: Spring Even Years)

JOUR 600V. Master’s Thesis. 1-6 Hour.
Required of all M.A. journalism students. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Kinesiology (KINS)

Courses

KINS 3901H. Kinesiology Honors Thesis Tutorial. 1 Hour.
Designed to provide the foundation for the Honors Thesis/Project. Students and faculty tutors work "one-on-one" exploring a specific topic which has been agreed upon by the student and the professor. Prerequisite: Honors candidacy and EXSCBS, KINSBS, or PHEDBS major. (Typically offered: Fall, Spring and Summer)

KINS 405V. Independent Study. 1-3 Hour.
Provides students an opportunity to pursue special study of research problems. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

KINS 405VH. Honors Independent Study. 1-3 Hour.
Provides students an opportunity to pursue special study of research problems. Prerequisite: Honors candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit. This course is equivalent to KINS 405V.

KINS 498VH. Kinesiology Honors Thesis/Project. 1-3 Hour.
Designed to provide facilitation of the Honors Thesis/Project. Students and faculty work "one-on-one" to complete the honors thesis/project. Prerequisite: Honors candidacy, EXSCBS, KINSBS, or PHEDBS major, and KINS 3901H or EXSC 3723H. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

KINS 5413. Adapted Movement Science. 3 Hours.
Methods and techniques for working with individuals with disabilities in an adapted movement science. (Typically offered: Fall Even Years)

KINS 5423. Assessment and Prescriptive Programming in Adapted Movement Science. 3 Hours.
Instruction in the assessment, prescription, and use of instruction methods, materials, and equipment relevant to working with people with disabilities. (Typically offered: Spring Odd Years)

KINS 5493. Practicum in Adapted Physical Education. 3 Hours.
Deals with the application of skills, knowledge and concepts necessary for planning, organizing and conducting adapted physical education programs through supervised field experiences. (Typically offered: Irregular)
LARC 2335. Landscape Architecture Design III: Engaging Site, Engaging Place. 5 Hours.
Fundamentals of site inventory, analysis, and assessment. Through measurement, observation, and documentation, students engage with the design of local and regional sites, synthesizing place-based inventorial understanding and experiential response. Students gain an appreciation for both quantifiable and qualitative measurement and observation as creative tools for design development. Corequisite: LARC 2351. Prerequisite: LARC 1325. (Typically offered: Fall)

LARC 2345. Landscape Architecture IV: Collaborating with Site. 5 Hours.
Students consider an increased complexity of landscape issues and multi-purpose design strategies within a local or regional context, while simultaneously responding to external programmatic requirements. Instructor-guided design projects reinforce the value of site exploration and enumeration. The design process is enriched through programmatic and service requirements, stakeholder collaboration, and reflection on design implication. Corequisite: LARC 2351. Prerequisite: LARC 2335. (Typically offered: Spring)

LARC 2345H. Honors Landscape Architecture IV: Collaborating with Site. 5 Hours.
Students consider an increased complexity of landscape issues and multi-purpose design strategies within a local or regional context, while simultaneously responding to external programmatic requirements. Instructor-guided design projects reinforce the value of site exploration and enumeration. The design process is enriched through programmatic and service requirements, stakeholder collaboration, and reflection on design implication. Corequisite: LARC 2351. Prerequisite: LARC 2335 and Honors candidacy. (Typically offered: Spring)
This course is equivalent to LARC 2345.

LARC 2351. Advocacy and Theory Module: Engaging Site, Engaging Place. 1 Hour.
Students explore theories and history and their implementation to increase understanding of concurrent design studio topics. Students develop advocacy capacities through communication, collaboration and skills through workshops, readings, stakeholder engagement and discussions. Students form rationales for design and personal disposition, while gaining knowledge to advocate for the profession and discipline. Corequisite: LARC 2335. (Typically offered: Fall)

LARC 2361. Advocacy and Theory Module: Collaborating with Site. 1 Hour.
Students explore theories and history and their implementation to increase understanding of concurrent design studio topics. Students develop advocacy capacities through communication, collaboration and skills through workshops, readings, stakeholder engagement and discussions. Students form rationales for design and personal disposition, while gaining knowledge to advocate for the profession and discipline. Corequisite: LARC 2345. (Typically offered: Spring)

LARC 2371. Advocacy and Theory Module: International Urban Place. 1 Hour.
Students explore theories and history and their implementation to increase understanding of concurrent design studio topics. Students develop advocacy capacities through communication, collaboration and skills through workshops, readings, stakeholder engagement and discussions. Students form rationales for design and personal disposition, while gaining knowledge to advocate for the profession and discipline. Corequisite: LARC 3355. (Typically offered: Summer)

LARC 2714. Ecological Design and Construction: Terrain. 4 Hours.
Introduces students to fundamental principles of reading and understanding geomorphology, site systems, and site design. Design tools include grading techniques, earthwork computations, and site-related documentation of natural and built structures. Site-related principles of sustainability are introduced as a framework for solving contemporary site issues. (Typically offered: Fall)
LARC 2914. Sustainable Design and Construction: Plant Communities. 4 Hours.
Introduces plants as components of healthy ecosystems, to innovative and sustainable plants and planting strategies as design frameworks, and to planting as powerful design tool. Soils as building block of healthy designs, foundation identification of woody plants and plant taxonomy, and fundamental concepts of time--ephemerality, phenology, and phenomenology. (Typically offered: Spring)

LARC 303V. Special Projects. 1-6 Hour.
Design implementation, study, practicum, and preparation of working drawings. (Typically offered: Irregular) May be repeated for degree credit.

LARC 303VH. Honors Special Projects. 1-6 Hour.
Design implementation, study, practicum, and preparation of working drawings. Prerequisite: Honors candidacy. (Typically offered: Irregular)
This course is equivalent to LARC 303V.

LARC 3123. Advanced Design Visualization, Inquiry and Communications. 3 Hours.
Students learn the applications of current communication techniques and technologies in landscape architecture to discover implications through inquiry. Field work and other modes of investigation and seeing are used around urbanization and large scale landscapes in design inquiry. Students learn how to communicate the implications of design to broad stakeholders. (Typically offered: Spring)

LARC 3355. Landscape Architecture Design V: International Urban Place. 5 Hours.
Investigation of social behavior as applied to program and design that serves human needs. Projects reflect increased scope, scale, and resolution with a detailed design component. Studio and lecture. Corequisite: LARC 2371. Prerequisite: LARC 2345. (Typically offered: Summer)

LARC 3365. Landscape Architecture Design VI: Engaging Communities; Understanding Culture. 5 Hours.
Students engage in design projects working for and/or with a particular population, including forming partnerships with a variety of stakeholders. The studio emphasizes empathy and understanding of competing value systems. Students apply a new cultural understanding to design projects. Corequisite: LARC 3381. Prerequisite: LARC 3355. (Typically offered: Fall)

LARC 3375. Landscape Architecture Design VII: Collaborating with Communities. 5 Hours.
Investigation and application of an issues-based, service-learning, community design project, focusing on resiliency and forming partnerships with a variety of stakeholders. Students engage in design as a means for influencing and negotiating on behalf of a community partner. Corequisite: LARC 3391. (Typically offered: Spring)

LARC 3381. Advocacy and Theory Module: Engaging Communities; Understanding Culture. 1 Hour.
Students explore theories and history and their implementation to increase understanding of concurrent design studio topics. Students develop advocacy capacities through communication, collaboration and skills through workshops, readings, stakeholder engagement and discussions. Students form rationales for design and personal disposition, while gaining knowledge to advocate for the profession and discipline. Corequisite: LARC 3365. (Typically offered: Fall)

LARC 3391. Advocacy and Theory Module: Collaborating with Communities. 1 Hour.
Students explore theories and history and their implementation to increase understanding of concurrent design studio topics. Students develop advocacy capacities through communication, collaboration and skills through workshops, readings, stakeholder engagement and discussions. Students form rationales for design and personal disposition, while gaining knowledge to advocate for the profession and discipline. Corequisite: LARC 3375. (Typically offered: Spring)

LARC 3413H. Honors History of Landscape Architecture I. 3 Hours.
Introduction to the development of meaning, organization, and impact of design and planning at garden and community scales from the Neolithic period through the eighteenth century. This course is equivalent to LARC 3413.

LARC 3413. History of Landscape Architecture I. 3 Hours.
Analysis of the interaction between landscapes and human cultural development as reflected in the meaning, organization, and impact of design and planning at garden and community scales from the Neolithic period through the eighteenth century. (Typically offered: Fall)

LARC 3724. Ecological Design and Construction: Water and Drainage. 4 Hours.
Introduces water-related issues as encountered and addressed by landscape architects. Students will understand, apply, and design infrastructure such as retention/detention ponds, bioswales, and constructed wetlands. Technical documentation methods as a means of conveying design intent are included. Prerequisite: LARC 2714. (Typically offered: Fall)

LARC 3724H. Honors Landscape Construction II. 4 Hours.
Introduction to landscape architectural materials and methods of construction and assembly. Emphasis on material properties and how those properties affect the materials used in the landscape and interactions with other materials. An introduction to dimensional and layout systems and parking requirements with increased complexity of construction documents. Lecture and laboratory. Prerequisite: Honors candidacy. (Typically offered: Fall)
This course is equivalent to LARC 3724.

LARC 3734. Sustainable Design and Construction: Material and Methods of Assembly. 4 Hours.
Introduces students to issues in material selection including properties, construction techniques, practical considerations in material use and subsequent implications and effects on the built environment. Material use and human experience are also explored. Technical documentation methods as a means of conveying design intent are included. Prerequisite: LARC 3724. (Typically offered: Spring)

LARC 3734H. Honors Landscape Architecture Construction III. 4 Hours.
Introduction into the design and fabrication methods of structures in the landscape. Emphasis on statics in calculating sizes and selection of materials for free-standing and retaining walls, and wooden structures. Advanced technical drawing component and computer integration of drawing production. Lecture and laboratory. Prerequisite: LARC 3724 and Honors candidacy. (Typically offered: Spring)
This course is equivalent to LARC 3734.

LARC 3914. Sustainable Design and Construction: Remediation and Plants on Structure. 4 Hours.
Introduces particular strategies and techniques of plant use in the built environment. Potential topics include green infrastructure, site, soil, and water remediation techniques, and structural considerations of planting on structure. (Typically offered: Fall)

LARC 3914H. Honors Planting Design I. 4 Hours.
Introduction to small scale projects involving use of plant materials in relation to other landscape elements, formulation of a vocabulary of plant materials and preparation of integrated planting plans and applicable specifications. Includes laboratory. Prerequisite: HORT 3103 and Honors candidacy. (Typically offered: Fall)
This course is equivalent to LARC 3914.

LARC 3933. Cultural Landscape Studies. 3 Hours.
The examination of landscape forms, and their historic and evolutionary development. Includes study of cultural, political, and site context influences. Prerequisite: LARC 3413. (Typically offered: Irregular)
LARC 402V. Special Studies. 1-6 Hour.
Individual or group study and practicum involving landscape design, planning and management, history and environmental analysis. (Typically offered: Irregular) May be repeated for degree credit.

LARC 402VH. Honors Special Studies. 1-6 Hour.
Individual or group study and practicum involving landscape design, planning and management, history and environmental analysis. (Typically offered: Irregular) May be repeated for degree credit.

This course is equivalent to LARC 402V.

LARC 4033. Landscape Architecture Theory. 3 Hours.
Examination of historic and current theories in landscape architecture and planning to develop critical judgement. Seminar format includes readings and case studies in issues such as social and environmental justice. Prerequisite: LARC 3413 and LARC 4413 or instructor consent. (Typically offered: Summer)

LARC 4033H. Honors Landscape Architecture Theory. 3 Hours.
Examination of historic and current theories in landscape architecture and planning to develop critical judgement. Seminar format includes readings and case studies in issues such as social and environmental justice. Prerequisite: LARC 3413 and LARC 4413 or instructor consent. (Typically offered: Fall)

This course is equivalent to LARC 4033.

LARC 4123. Urban Form Studies. 3 Hours.
The examination of urban, village, and suburban form and its influencing forces. Includes study of cultural forces, technological developments, and physical shape, scale, and materials that define urban areas. Required field trip component of study abroad. Prerequisite: LARC 3413. (Typically offered: Summer)

LARC 4311. Advocacy and Theory Module: Capstone. 1 Hour.
Students explore theories and history and their implementation to increase understanding of concurrent design studio topics. Students develop advocacy capacities through communication, collaboration and skills through workshops, readings, stakeholder engagement and discussions. Students form rationales for design and personal disposition, while gaining knowledge to advocate for the profession and discipline. Corequisite: LARC 4385. (Typically offered: Fall)

LARC 4321. Advocacy and Theory Module: Comprehensive. 1 Hour.
Students explore theories and history and their implementation to increase understanding of concurrent design studio topics. Students develop advocacy capacities through communication, collaboration and skills through workshops, readings, stakeholder engagement and discussions. Students form rationales for design and personal disposition, while gaining knowledge to advocate for the profession and discipline. Corequisite: LARC 4395. (Typically offered: Spring)

LARC 4365. Landscape Architecture Design VIII: Capstone. 5 Hours.
Topic based, service learning studio that blends faculty research interests with student initiative and the potential for collaboration. This studio builds on the broad foundation of previous coursework while developing a design specialization through which students can advocate for both the profession and the communities they serve. Corequisite: LARC 4311. (Typically offered: Fall)

LARC 4395. Landscape Architecture Design IX: Comprehensive. 5 Hours.
Summative studio that requires the student to demonstrate landscape architectural design competency through a multiscalar approach that utilizes various resolutions to address critical, multidimensional problems. Corequisite: LARC 4321. (Typically offered: Spring)

LARC 4413. History of Landscape Architecture II. 3 Hours.
Critical study and analysis of landscape architecture from nineteenth century to the present, with an emphasis on the philosophies, design and planning theories, and social conditions that have influenced the form of gardens, parks, and cities. (Typically offered: Spring)

LARC 4413H. Honors History of Landscape Architecture II. 3 Hours.
Critical study and analysis of landscape architecture from nineteenth century to the present, with an emphasis on the philosophies, design and planning theories, and social conditions that have influenced the form of gardens, parks, and cities. Prerequisite: Honors candidacy. (Typically offered: Spring)

This course is equivalent to LARC 4413.

LARC 4523H. Landscape Architecture Honors Thesis. 3 Hours.
Development and production of an honors thesis proposal and thesis. Required for all landscape architecture honors students. Prerequisite: Honors standing. (Typically offered: Irregular)

LARC 4714. Landscape Architecture Construction IV. 4 Hours.
(Systems) Introduction to systems of landscape architectural construction including stormwater management, lighting, irrigation, water features, and erosion control. Emphasis on an advanced grading and landscape manipulation skills, and stormwater system design and calculations. Significant integration of computer generated drawings. Lecture and laboratory. Prerequisite: LARC 2714. (Typically offered: Fall)

LARC 4753. Incremental Sprawl Repair. 3 Hours.
Exploration of the causes, manifestation and results of suburban sprawl on the built environment. Design and planning strategies linked to landscape, urbanism, policy, transportation, resource-conservation, ecology, and social structures are proposed. Emphasis is placed on combining traditional and cutting edge methods for repairing sprawled cities and regions. Prerequisite: 4th or 5th year student or instructor approval. (Typically offered: Irregular)

This course is equivalent to LARC 4753.

LARC 4811. Landscape Architecture Interns. 1 Hour.
Supervised work experience and observation of operations and management procedures in approved design, government, or non-profit organization. Exposure to a wide range of job tasks and project types. Students apply what they learn to their studies. Summative outcomes include reflection. Prerequisite: LARC 3375. (Typically offered: Summer)

LARC 4943. Perspectives on Historic Preservation. 3 Hours.
Introduction of history, theory, and praxis of preservation design, emphasizing development and implementation of preservation projects in the practices of architecture, landscape architecture and interior design. Central themes include: preservation as a form of design; principles, rationales, and ideologies associated with preservation practice; and sustainable strategies for preservation design. Prerequisite: ARCH 2233 and ARCH 2243 or LARC 3413 and LARC 4413 or IDES 2883. (Typically offered: Fall)

This course is cross-listed with IDES 4943, ARCH 4943.

LARC 4943H. Honors Perspectives on Historic Preservation. 3 Hours.
Introduction of history, theory, and praxis of preservation design, emphasizing development and implementation of preservation projects in the practices of architecture, landscape architecture and interior design. Central themes include: preservation as a form of design; principles, rationales, and ideologies associated with preservation practice; and sustainable strategies for preservation design. Prerequisite: ARCH 2233 and ARCH 2243 or LARC 3413 and LARC 4413 or IDES 2883. (Typically offered: Fall)

This course is cross-listed with LARC 4943, IDES 4943, ARCH 4943.
**Latin (LATN)**

**Courses**

**LATN 1003. Elementary Latin I. 3 Hours.**
The rudiments of classical Latin, with concentration on grammar, vocabulary, and syntax. Short selections from ancient authors lead to basic reading ability. (Typically offered: Fall)

**LATN 1013. Elementary Latin II. 3 Hours.**
A continuation of the rudiments of classical Latin, with concentration on grammar, vocabulary, and syntax. Short selections from ancient authors lead to basic reading ability. (Typically offered: Spring)

**LATN 2003. Petronius’ Satyricon. 3 Hours.**
Development of reading skills through selections from Satyricon, and an introduction to imperial history and culture through critical study of the novel in translation. Prerequisite: LATN 1013 or equivalent. (Typically offered: Fall)

**LATN 2013. Catullus. 3 Hours.**
Development of reading skills through selections from Catullus’ poems, and an introduction to the culture and history of the late republic through critical study of Catullus in translation and secondary works. Prerequisite: LATN 2003 or equivalent. (Typically offered: Spring)

**LATN 3003. Virgil and Ovid. 3 Hours.**
Selections from the Aeneid and/or the Metamorphoses, and an introduction to Roman literary history through the critical study of these works in translation. Prerequisite: LATN 2013 or equivalent. (Typically offered: Fall)

**LATN 3013. Caesar. 3 Hours.**
Selected readings from Caesar’s commentaries on Gallic or Civil Wars, and an overview of Republican political and military history through the critical study of the commentaries in translation and secondary works. Prerequisite: LATN 3003 or equivalent. (Typically offered: Spring)

**LATN 3063. Intensive Elementary Latin Reading. 3 Hours.**
Overview of Latin grammar, vocabulary and syntax, leading to reading prose texts. For undergraduates who want short, intensive introduction to Latin and graduate students working towards reading proficiency. Successful completion fulfills graduate student research reading proficiency requirement. LATN 3063 alone cannot fulfill the Foreign Language requirement in Fulbright College. No credit for this course and LATN 1003 and/or LATN 1013. (Typically offered: Summer)

**LATN 4003. Roman History. 3 Hours.**
Selections from Sallust, Livy, Tacitus, or Suetonius. An overview of Roman Historiography through the critical study of complete works in translation and secondary works. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

**LATN 4013. Roman Satire. 3 Hours.**
Selections from the satires of Horace, Juvenal, Persius, or Seneca. An overview of Roman humor and the genre of satire through the critical study of complete works in translation and secondary works. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

**LATN 4023. Roman Didactic Epic. 3 Hours.**
Selections from Virgil’s Georgics, Lucretius’ De Rerum Natura, or Manilius’ Astronomica. An overview of Roman philosophical poetry through the critical study of complete works in translation and secondary works. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

**LATN 4033. Roman Drama. 3 Hours.**
Selections from Plautus, Terence, or Seneca. An overview of Roman theater through the critical study of complete works in translation and secondary works. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

**LATN 4043. Roman Elegy. 3 Hours.**
Selections from Propertius, Tibullus, or Ovid. An overview of the genre through the critical study of complete works in translation and secondary works. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

**LATN 4073. Roman Novel. 3 Hours.**
Selections from Petronius or Apuleius. An overview of the genre through the critical study of complete works in translation and secondary works. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

**LATN 4083. Roman Oratory. 3 Hours.**
Selections from the orations and theoretical works of Cicero, Seneca the Elder, or Quintilian. An overview of the genre through the critical study of complete works in translation and secondary works. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

**LATN 4093. Roman Philosophy. 3 Hours.**
Selections from the philosophical works of Cicero or Seneca. An overview of Roman philosophy through the critical study of complete works in translation and secondary works. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

**LATN 475V. Special Investigations. 1-6 Hour.**
Special investigations. (Typically offered: Irregular) May be repeated for degree credit.
LATN 5003. Roman History. 3 Hours.
(Formerly LATN 4003.) Selections from Sallust, Livy, Tacitus, or Suetonius. An overview of Roman Historiography through the critical study of complete works in translation and secondary works. Graduate degree credit will not be given for both LATN 4003 and LATN 5003. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

LATN 5013. Roman Satire. 3 Hours.
(Formerly LATN 4013.) Selections from the satires of Horace, Juvenal, Persius, or Seneca. An overview of Roman humor and the genre of satire through the critical study of complete works in translation and secondary works. Graduate degree credit will not be given for both LATN 4013 and LATN 5013. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

LATN 5023. Roman Didactic Epic. 3 Hours.
(Formerly LATN 4023.) Selections from Virgil's Georgics, Lucretius' De Rerum Natura, or Manilius' Astronomica. An overview of Roman philosophical poetry through the critical study of complete works in translation and secondary works. Graduate degree credit will not be given for both LATN 4023 and LATN 5023. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

LATN 5033. Roman Drama. 3 Hours.
(Formerly LATN 5033.) Selections from Plautus, Terence, or Seneca. An overview of Roman theater through the critical study of complete works in translation and secondary works. Graduate degree credit will not be given for both LATN 4033 and LATN 5033. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

LATN 5043. Roman Elegy. 3 Hours.
(Formerly LATN 4043.) Selections from Propertius, Tibullus, or Ovid. An overview of the genre through the critical study of complete works in translation and secondary works. Graduate degree credit will not be given for both LATN 4043 and LATN 5043. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

LATN 5063. Roman Pastoral and Lyric. 3 Hours.
Selections from Catullus, Virgil's Eclogues, Horace's Odes, or Calpurnius Sicius. An overview of the two genres through the critical study of complete works in translation and secondary works. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

LATN 5073. Roman Novel. 3 Hours.
(Formerly LATN 4073.) Selections from Petronius or Apuleius. An overview of the genre through the critical study of complete works in translation and secondary works. Graduate degree credit will not be given for both LATN 4073 and LATN 5073. (Typically offered: Irregular)

LATN 5083. Roman Oratory. 3 Hours.
(Formerly LATN 4083.) Selections from the orations and theoretical works of Cicero, Seneca the Elder, or Quintilian. An overview of the genre through the critical study of complete works in translation and secondary works. Graduate degree credit will not be given for both LATN 4083 and LATN 5083. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

LATN 5093. Roman Philosophy. 3 Hours.
(Formerly LATN 4093.) Selections from the philosophical works of Cicero or Seneca. An overview of Roman philosophy through the critical study of complete works in translation and secondary works. Graduate degree credit will not be given for both LATN 4093 and LATN 5093. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

LATN 5633. Medieval Latin. 3 Hours.
Selections from medieval writers from the 4th to the 17th century. Prerequisite: LATN 3003 or equivalent. (Typically offered: Irregular)

LATN 575V. Special Investigations. 1-6 Hour.
Special investigations. (Typically offered: Irregular) May be repeated for degree credit.
LAWW 413V. ULW: Gender-Based Violence & Human Rights Policies & Procedures. 2-3 Hour.
The course explores various forms of gender-based violence in public and private spheres and the relationship between this violence and discourse on human rights in both the legal and policy arenas. Also considers additional solutions to the prevention of sexual violence including the economic empowerment of women, the education of girls, and others. Meets the Upper Level Writing Requirement. (Typically offered: Irregular)

LAWW 4144. Torts. 4 Hours.
An introduction to basic principles of liability for harm to persons and property. The course analyzes various categories of tortious conduct, defenses and immunities, damages, and underlying principles and policies justifying liability. (Typically offered: Irregular)

LAWW 4173. Criminal Procedure: Investigations. 3 Hours.
Generally this course focuses on: (1) criminal investigation practices, more precisely, contacts between the police and persons suspected or accused of crime, at the time of or shortly before and after arrest; (2) the federal constitutional rights of suspects in their contacts with the police or, stated another way, the federal constitutional restrictions (or lack of restrictions) on the police, based on the 4th, 5th, 6th, and 14th amendments; (3) the exclusionary rule, which limits the admissibility of evidence obtained by the police from suspects in violation of their federal constitutional rights; and (4) United States Supreme Court jurisprudence. (Typically offered: Irregular)

LAWW 4182. Upper Level Writing - Business Drafting. 2 Hours.
ULW-Business Drafting is an advanced writing course that takes students through a number of writing assignments. It is geared at teaching students to produce prescriptive writing, as opposed to predicting how the law would apply or persuading a reader about how the law should apply. This class therefore requires students to use information that they have gained in other classes, notably Business Organizations, and use it in drafting appropriate documents ranging from organizational forms, to documents describing how a business is to be operated, to commercial contracts. Students will also work on professionally communicating with various constituents such as clients and other attorneys about the contents of and rationale behind drafting choices in these documents. Prerequisite: LAWW 4294. (Typically offered: Irregular)

LAWW 4212. Upper Level Writing: Policing Law & Policy. 2 Hours.
This course will analyze the role of police discretion in the criminal justice system particularly in the context of traffic stops, interrogations, and suppression hearings. Although there are no prerequisites, students have ideally already taken Criminal Procedure and Criminal Procedure II. (Typically offered: Irregular)

LAWW 4233. Upper Level Writing: Crime and the Supreme Court. 3 Hours.
This course critically examines criminal law and procedure cases currently pending before the Supreme Court. Students will construct hypothetical Supreme Court, argue selected cases, take a vote, and then produce an actual series of judicial opinions, and make an appellate argument. Prerequisite: LAWW 4013 and LAWW 4113. (Typically offered: Irregular)

LAWW 4294. Business Organizations. 4 Hours.
This is an introductory, survey course focusing primarily on the law applicable to closely held businesses, including agency rules and the law applicable to general and limited partnerships, LLCs and LLPs, limited liability companies, and corporations. (Typically offered: Irregular)

LAWW 4442. Law & Accounting. 2 Hours.
Study of basic accounting principles and their importance to attorneys engaged in business related activities. Topics covered include the fundamental accounting equation, the nature of accrual accounting, understanding financial statements, and accounting for assets and liabilities. Also a review of basic principles associated with financial statement analysis and valuation principles, including the time value of money. Intended for students with little or no business training, and may not be taken for credit by students who have previously earned 3 or more hours of undergraduate or graduate credit in accounting courses. (Typically offered: Irregular)

LAWW 445V. Mastering Legal Analysis. 1-2 Hour.
In this course students will revisit and expand upon the core principles of legal analysis. This course will be based on an active-learning model with a focus on practicing legal analysis under time-pressured conditions. The professor will provide extensive individualized feedback on exercises. The materials for this course will largely be drawn from the written portions of the bar exam (both Arkansas and UBE). (Typically offered: Irregular)

LAWW 500V. Special Topics. 1-18 Hour.
Included under this heading will be a variety of variable credit law courses taught by law faculty on topics that are not included elsewhere in the curriculum. (Typically offered: Irregular) May be repeated for up to 18 hours of degree credit.

LAWW 5013. Professional Responsibility. 3 Hours.
Role of the lawyer as counselor, advocate, and public servant; obligation to society of the individual lawyer and the profession as a whole; ethical problems of the profession; representation of the unpopular cause and the desirable client, lawyers’ obligation to law reform; lawyer and the press; the lawyer in public service; the aspects of law office management. (Typically offered: Irregular)

LAWW 502V. Remedies. 3-4 Hour.
Covers equity (jurisdiction and powers of courts of equity, injunctions, including adequacy of legal remedies, balancing of equities, interests protected, and defenses), damages (compensatory, exemplary, and nominal damages; direct and consequential damages; mitigation; special application in contract and tort actions) and restitution (relief afforded by the judicial process, to prevent unjust retention of benefits). (Typically offered: Irregular)

LAWW 5031. Basic Title Examination. 1 Hour.
Basic Title Examination is a course designed to teach students how to examine abstracts of title and other compilations of public real estate records to determine ownership and marketability of surface title. The course utilizes the theoretical understanding gained from traditional substantive law courses including Property and Decedents? Estates but teaches applied practical skills not usually taught in those courses. (Typically offered: Fall)

LAWW 5041. Oil and Gas Title Examination. 1 Hour.
Oil and Gas Title Examination is a course designed to teach students who have successfully completed Basic Title Examination how to use abstracts of title and other compilations of public real estate records to determine ownership and marketability of oil and gas titles. Students will work on practical skills not currently taught in the usual classroom setting. Pre- or Corequisite: LAWW 5031. (Typically offered: Fall)

LAWW 5053. Energy Law. 3 Hours.
Energy law governs the life cycle of energy resources, from resource development and generation of electricity to the end use in homes, businesses, and cars. In this growing area of practice, energy lawyers represent energy companies, public utilities, government agencies, and non-profit organizations. The course provides a survey of how different sources of energy - hydropower, oil and natural gas, coal, nuclear energy, and renewables - are regulated. Through this survey, we will consider important policy issues such as public utility regulation and the role of markets; the federal-state balance; and environmental impacts and the future of clean energy. (Typically offered: Irregular)

LAWW 5073. Family Law. 3 Hours.
Devoted primarily to the problems generated by family relationships. There is a large section on formation and dissolution of marriage. Substantial time is also given to paternity and legitimacy, obligations toward and of children, custody, adoption, guardianship, general property law as it is affected by family relationships, and divorce and custody in the federal system (focusing primarily on enforceability of decrees in one state by courts sitting in another state). (Typically offered: Irregular)
LAWW 5083. First Amendment. 3 Hours.
An intensive examination of the legal issues arising under the First Amendment to the United States Constitution, with an emphasis on basic free speech doctrines and the dilemmas posed by interplay between the free exercise and establishment clauses. Prerequisite: LAWW 5114. (Typically offered: Irregular)

LAWW 5092. Banking & Creditors' Rights Litigation. 2 Hours.
Students in this course will learn how to protect and enforce the creditors' rights through litigation by drafting demand letters, petitions, motions, settlement agreement, proposed judgments, and other filings before and after bankruptcy. Students will simulate the representation of a creditor with a defaulted loan and will be expected to enforce the applicable instruments within the Model Rules of Professional Conduct as well as the strictures of the Bankruptcy Code. Through the simulated filings and oral arguments, students will be introduced to enforcement and bankruptcy concepts and will be better prepared to practice in the creditors' rights realm. (Typically offered: Fall and Spring)

LAWW 510V. Law: Study Abroad. 1-6 Hour.
Open to law students studying abroad in officially sanctioned programs. (Typically offered: Irregular)

LAWW 5114. Constitutional Law. 4 Hours.
An introduction to the basic principles of constitutional law and to current constitutional doctrines and problems. The primary focus will be on the structure of the federal system and on the rights of individuals under the Due Process and Equal Protection clauses of the Fifth and Fourteenth Amendments. (Typically offered: Spring)

LAWW 5122. ABOTA Trial Practice Lecture Series. 2 Hours.
Lecture series by experienced and prominent Arkansas trial attorneys, lecturing on case evaluation, jury instructions, witness preparation, scheduling orders, courtroom civility, voir dire, opening statement, direct and cross-examination, objections, and closing arguments. (Typically offered: Spring)

LAWW 5133. Real Estate Transactions. 3 Hours.
Focuses on real estate transfer, real estate finance and real estate development. Issues relating to the sale of land and conveyances of real property, mortgages and the planning, financing, constructing and marketing of modern real estate developments are treated. (Typically offered: Irregular)

LAWW 5163. Administrative Law. 3 Hours.
The course is constructed around Federal materials, but with some state references. Considers the origin and constitutional basis for the administrative process; executive and legislative controls with particular emphasis upon the judicial control of the administrative process (delegations, procedural and substantive due process, judicial assistance and enforcement and review of administrative decisions). (Typically offered: Irregular)

LAWW 5172. Disability Law. 2 Hours.
This course will survey the history, purposes, and processes of international arbitration. Involved. Prerequisite: LAWW 4294. (Typically offered: Irregular)

LAWW 5191. Deposition Practice. 1 Hour.
The focus of this class is to teach how to take, defend and use depositions in civil cases. There will be extensive study of Rules 26-32 of the Arkansas and Federal Rules of Civil Procedure. Additionally, the State and Federal cases applicable to depositions will be discussed and reviewed. Discussion on the practicality of a deposition such as the timing, scheduling and expenses in depositions. Students will observe parts of several video depositions followed by a discussion. (Typically offered: Irregular)

LAWW 5213. Business Lawyering Skills. 3 Hours.
Provides practical skills instruction through exercises that simulate business client interviews, negotiations, mediation, and arbitration. Multiple written projects are also involved. Prerequisite: LAWW 4294. (Typically offered: Irregular)

LAWW 5252. International Commercial Arbitration. 2 Hours.
This course will survey the history, purposes, and processes of international commercial arbitration. (Typically offered: Irregular)

LAWW 527V. Law and Economics. 2-3 Hour.
Law and Economics examines legal and policy issues by critically analyzing whether legal rules provide the greatest good to the greatest number of people. The course offers an introduction to basic economic principles, while providing a useful review of many core law school and bar exam subjects. (Typically offered: Irregular)

LAWW 5293. Cyber Crime. 3 Hours.
This course examines the law governing computer crime and the limits on law enforcement surveillance. We consider substantive crimes such as hacking, identity theft, economic espionage, and online threats before we examine the Fourth Amendment, the Wiretap Act, and other limits on law enforcement. (Typically offered: Irregular)

LAWW 5303. International and Domestic Sales and Leasing. 3 Hours.

LAWW 5313. Payment Systems. 3 Hours.
This course summarizes and explains the fundamental law applicable to a broad variety of current payment systems. Coverage includes issues of liability, transfer, holder in due course status, and check collection applicable to negotiable instruments (checks, notes, drafts) governed by UCC Articles 3 and 4, as well as letters of credit and documents of title governed by UCC Articles 5 and 7. The course further examines the rights, obligations, and federal protection applicable to credit and debit cards. Finally, it addresses recent legal developments in regard to a variety of electronic fund transfers, prepaid cards and digital currencies. (Typically offered: Irregular)

LAWW 5333. Health Policy. 3 Hours.
The focus will be on policy issues facing the American health care system. We will discuss health policy, policy making, and the law. The American health care delivery system will be studied -- including its funding mechanisms (like Medicare, Medicaid, and health insurance) -- and compared to other countries. Public health institutions and systems will be explored. The Affordable Care Act will be reviewed in depth. Social health determinants will be examined, along with ways attorneys can intervene to "treat" important social issues affecting health. Individual rights to health care in the U.S. will be discussed, as well as specific rights related to gender, abortion, genetic research, suicide, and end-of-life issues. Discrimination in health care will be examined. Medical malpractice reform will be debated. Public health issues like FDA drug regulation, obesity, opioid abuse, vaccinations, and medical marijuana will be surveyed. Health care quality policy and the law will be reviewed. Additional topics will be added as time allows and as current events dictate. (Typically offered: Irregular)
LAWW 535V. Arkansas Constitutional Law. 1-2 Hour.
This course covers provisions of the Arkansas Constitution, including the Declaration of Rights, the separation of powers, the power of the executive and legislative branches, sovereign immunity, independent commissions, gambling and morality provisions, elections and term limits, taxation and exemptions, taxpayer lawsuits, and other topics. (Typically offered: Irregular)

LAWW 536V. Securities Regulation. 2-3 Hour.
This course explores the federal regulation of securities, with emphasis on the Securities Act of 1933 and the Securities Exchange Act of 1934. Topics examined include: the definition of a securities, public company disclosures, enforcement issues, antifraud rules, and insider trading liability, public offering mechanics, and exempt offerings. Prerequisite: LAWW 4294. (Typically offered: Irregular)

LAWW 5372. Immigration Law. 2 Hours.
A study of the immigration, nationality, and naturalization laws of the United States; discussion of policy issues relating to migration, refugees, asylum, deportation, and citizenship issues. The Course will also explore pop culture references to immigration issues and examine the truths and fallacies of what is presented for entertainment purposes. (Typically offered: Irregular)

LAWW 5382. Employment Discrimination. 2 Hours.
This course focuses on the study of the significant cases and statutes that protect employees from discrimination based on race, color, religion, sex, national origin, age, and disability, with emphasis on Title VII of the Civil Rights Act of 1964, the Age Discrimination in Employment Act, and the Americans with Disabilities Act. Final exam will be a take-home exam. (Typically offered: Irregular)

LAWW 5391. Effective Corporate Compliance. 1 Hour.
This course provides a high-level overview of the importance and structure of an effective compliance program within a business, with the purpose of mitigating legal risk. The Federal Sentencing Guidelines specify the elements of an effective compliance program, and some federal agencies like have interpreted these or implemented them through regulation. Corporations are facing an ever-changing regulatory environment in a multitude of sectors, and this course prepares students with a foundational level of how compliance professionals build effective compliance programs, using a relevant fact pattern to bring the course material to life. Students who choose to work for a corporation (even in the legal department) will need to be familiar with how that corporation implements the elements of an effective compliance program, so as to effectively defend or advise the corporation. (Typically offered: Irregular)

LAWW 5402. Legislation. 2 Hours.
Law in the United States increasingly comes from written texts -- statutes, ordinances, and administrative regulations. This course will introduce the primary tools that lawyers use when interpreting these texts. It will begin with an overview of various theories and methodological approaches to interpretation. Then it will turn to the ways that lawyers and courts discern the meaning of legal texts (including through canons of interpretation) and construe those texts in light of external sources of authority (including legislative history and other texts). At various points during the course, students will apply these tools to hypothetical and real-world problems. (Typically offered: Irregular)

LAWW 5413. Natural Resources Law. 3 Hours.
This course examines the laws and policies governing the use of natural resources. Natural resources include forests, water, and wildlife, as well as hard rock minerals, coal, oil, and natural gas. We will discuss who owns these resources, how they are used or managed, and how their use is regulated. The course will also consider the laws governing management of public lands, such as national parks, monuments, and wilderness areas. Throughout the course, we will examine the values at stake in natural resource use and protection, the conflicts between public and private use, and the challenges inherent in natural resource management. (Typically offered: Irregular)

LAWW 5431. Jury Trial Strategies. 1 Hour.
The goal of this class is to introduce students to the evaluation, preparation and prosecution of a jury trial. The class emphasizes properly evaluating the merits of a case early on and investigating the facts, parties and witnesses. The students will be asked to draft a complaint and an answer based on vignettes provided. Unlike other substantive law classes; this is very much a hands-on, how-to class. We will discuss in detail several "how to" procedures such as: Propounding discovery requests, making proper objections, making motions for directed verdict, preparing exhibits, proffering testimony, preparing jury instructions, making opening statements and closing arguments and how to make a proper record for appeal. All of these procedures will be supplemented with current precedent from the Arkansas Supreme Court and Court of Appeals and each step will be discussed within the confines of the Arkansas Rules of Professional Conduct. (Typically offered: Irregular)

LAWW 544V. Legal Operations. 2-3 Hour.
In this course students will learn about the operations principles 21st century legal entities are utilizing - and to which they are being held accountable. Topics will include: Strategic Planning, Financial Management, Vendor Management, Data Analytics, Technology, Change Management, Artificial Intelligence, Outside Counsel, Selection and Management, as well as others. (Typically offered: Irregular)

LAWW 5451. Environmental Torts. 1 Hour.
The focus of this class is common law environmental torts resulting in property damage, including negligence, trespass, strict liability, and nuisance. Presented are the elements of those causes of action and a review of common environmental tort fact patterns. Also discussed are issues associated with environmental torts, such as imputed liability, and defenses. Review remedies for damage to property and individuals. (Typically offered: Irregular)

LAWW 547V. State and Local Government. 2-3 Hour.
As citizens, much of our interaction with the law is local. Local governments determine the location of our nearest grocery store, how high (or low) property taxes will be, whether to maintain a public library, how late bars can serve alcohol, and even whether it is lawful to keep a pet python. Local government activity is significant, immediate, and pervasive. Despite the importance of local government law and institutions, most law school courses focus only on federal and state sources of law with little or no mention of local government. This course aims to address this void by providing a useful overview of core legal doctrines affecting the structure, authority, financing, and liabilities of local government in the United States. The course also covers the theoretical and empirical research underlying those doctrines, and is structured to provide a broad understanding of local government relevant to most United States jurisdictions. (Typically offered: Irregular)

LAWW 548V. Privacy Law. 1-3 Hour.
Information Privacy and Security Law will explore the principles underlying the emerging law of informational privacy in the context of significant U.S. data privacy legislation with relevant comparisons to certain international data privacy regimes. Topics include the role of the FTC and state and federal laws. Regulations specific to children, healthcare, telemarketing, email, data breach and financial services will be addressed and discussion will touch on data analytics, facial recognition and other new technologies. (Typically offered: Irregular)

LAWW 550V. Wills, Trusts, and Estates. 1-4 Hour.
This is the study of the traditional areas of wills and trusts (intestate and testate succession). The trusts area includes both the private trust and the charitable trust. Taxation problems are not covered in depth but are instead reserved for the Federal Estate & Gift Taxation course. (Typically offered: Irregular)

LAWW 5513. Labor Law. 3 Hours.
The right to organize; organization of labor unions; strikes; picketing; boycotts; collective bargaining; collective labor agreements and their enforcement; unfair labor practices by employers and by unions; the union member and his union; state labor relations legislation; the National Labor Relations Act and the Labor Management Relations Act. Not offered every year. (Typically offered: Irregular)
LAWW 5523. General Practice Capstone I. 3 Hours.
General Practice Capstone I is designed to provide students with practical information to help them transition from law school to a general practice. Experienced practitioners will present a series of workshops on discrete practice areas like criminal defense, family law, personal injury, depositions, estate planning and probate, legal ethics, and small business advisement. Includes access to practice checklists, pleadings, forms, and law practice aids. (Typically offered: Fall)

LAWW 5533. General Practice Capstone II. 3 Hours.
General Practice Capstone II complements Capstone I, and moves the focus topically to practical lawyering in common administrative law areas. The spring workshop series focuses on administrative proceedings in criminal law (probation, parole, drug court, habeas corpus), in-house details on employment law (employee manuals and termination policies); termination and unemployment including Workers Compensation, Social Security Disability, Veterans Benefits, Nursing Home Administration, Medicare and Medicaid. (Typically offered: Spring)

LAWW 5543. International Business Transactions. 3 Hours.
This class is designed as an introductory overview of the body of laws that govern international business transactions. Subjects we will cover include international intellectual property treaties, import and export regulations, international commercial agreements, international payment mechanics and terms, antidumping and countervailing measures, competition (antitrust) law in international business, international corporation formation, acquisition, reorganization, and regulation of operations, international trade and project finance, regulation of global corruption, international tax planning, and planning international commercial arbitration. (Typically offered: Irregular)

LAWW 5600. Law Research Assistant. 0 Hours.
Law Research Assistant is a zero-credit course available to students who work with or under the supervision of a faculty member on a research project that contributes significantly to faculty research, course preparation or presentation, or other scholarly work for or under the direction of a faculty member. Except as otherwise approved by the supervising faculty member with the concurrence of the Associate Dean for Academic Affairs, only students who have successfully completed or are currently registered for Law 5622 Essential Legal Research may enroll. Students who are working on research with or under the direction of a faculty member must have the written pre-approval of the supervising faculty to be registered and must obtain from the Law School Registrar and complete and submit to the Registrar the course request form. (Typically offered: Fall, Spring and Summer)

LAWW 5622. Essential Legal Research. 2 Hours.
This course covers the strategies, techniques, books, and databases essential to perform cost-effective legal research necessary for the practice of law and to assist faculty members as research assistants. (Typically offered: Fall and Spring)

LAWW 5643. International Criminal Law. 3 Hours.
This course will survey important topics in international criminal law such as genocide, war crimes, and crimes against humanity. It will trace the use of international tribunals from the Nuremberg and Tokyo tribunals to the International Criminal Court to enforce these international criminal laws. (Typically offered: Irregular)

LAWW 5662. Mergers and Acquisitions. 2 Hours.
This course examines the legal and business considerations involved in the purchase and sale of a business, including an in-depth look at various transactional structures and the implications for shareholder voting, appraisal rights, along with an extensive review of director duties at all stages of the deal. Pre- or Corequisite: LAWW 4294. (Typically offered: Irregular)

LAWW 567V. Nonprofit Organizations. 2-3 Hour.
This course examines issues relating to the organization, operation, governance, and dissolution of various nonprofit entities, including charitable and public benefit corporations. Topics covered include the regulation of charitable contributions and their solicitation, obtaining and protecting tax-exempt status, and political and business activities of nonprofit organizations. (Typically offered: Irregular)

LAWW 5692. Rule of Law Colloquium. 2 Hours.
Course is about inquiry and exploration. Course covers the Foreign Corrupt Practices Act, the UK Bribery Act, and other anti-corruption initiatives. The context of why corruption exists and ways to address it, including through means other than legal prohibitions. (Typically offered: Irregular)

LAWW 5701. Baseball and the Law. 1 Hour.
This course includes cases on the power of the commissioner; the taxes of a Dodger shortstop; antitrust law and Curt Flood; ownership of Barry Bonds' home run #73; negligence at Wrigley Field; removal jurisdiction and Pete Rose; publicity rights to the Babe; criminal law and the Black Sox; trademark law. (Typically offered: Irregular)

LAWW 5881. Arkansas Landlord Tenant Law. 1 Hour.
The course will explore Arkansas landlord tenant law along with proposals for revision of the law. Topics covered will be the forcible entry and detainer statute, the security deposit statute, the failure to vacate statute, the residential landlord tenant act, and Arkansas's limitation on tort liability for landlords. Discussion on the federal laws governing HUD tenancies and the greater rights afforded in those tenancies. The course will discuss both theory and practice. (Typically offered: Irregular)

LAWW 599V. Debtor-Creditor Relations. 3-4 Hour.
Study of Article 9 of the Uniform Commercial Code and of the remedies of unsecured creditors. (Typically offered: Irregular)

LAWW 602V. Independent Legal Research. 1-3 Hour.
Independent legal research conducted under the supervision of faculty members. Ordinarily a student may not accumulate more than two semester hours of credit for Independent Legal Research. This cumulative maximum may be exceeded only by special permission of the dean, who in exceptional circumstances may approve a cumulative maximum credit of three semester hours of credit for Independent Legal Research. (Typically offered: Fall, Spring and Summer)

LAWW 603V. Federal Courts. 1-3 Hour.
Focus is on essential aspects of federal court procedure, the scope and limits of federal judicial power, and the underlying principles of federalism and separation of powers. Topics will include federal court jurisdiction, the power of Congress to limit that jurisdiction, Supreme Court review of state court judgments, and abstention and justiciability doctrines. (Typically offered: Irregular)

LAWW 607V. Conflict of Laws. 2-3 Hour.
Study of the legal principles involved in problems which have connections with two or more states requiring a choice-of-law, choice-of-law in federal courts, and jurisdiction in multi-state situations. (Typically offered: Irregular)

LAWW 6082. Arkansas Civil Practice. 2 Hours.
This course will focus in depth on the intricacies of Arkansas civil litigation, including the long arm statute, venue, service of process, pleadings, motion practice, class actions, discovery, default judgments, summary judgments, directed verdicts, the right to a jury trial, new trials, appellate practice, and prior adjudication. (Typically offered: Irregular)

LAWW 6093. Evidence. 3 Hours.
Study of the rules of evidence under which trials are conducted; the methods by which items of evidence and admitted or excluded; relevancy, real evidence, testimonial proof, and hearsay and its exceptions. (Typically offered: Irregular)

LAWW 611V. Interschool Competition Team. 1-2 Hour.
Interschool Competition Team provides an avenue for outstanding students to register their completion of a rigorous interschool competition for the purposes of academic credit. Students may register for this credit after satisfying the standards for approval of non-graded credit for Interschool Competition Credit, as outlined in the University of Arkansas School of Law Board of Advocates Bylaws and relevant Bylaw and Academic Standards provisions, as promulgated by the Faculty. (Typically offered: Fall and Spring)
LAWW 6122. Private Equity Investing. 2 Hours.
Will focus on the central issues related to private equity investing – both from the view of the company seeking private equity investment as well as from the view of the private equity investor. The overarching general objective of the course is to teach students the skills and tools used in the private equity arena. More specifically, this is a "what, why and how" course that will require students to apply legal and analytical skills to advising clients on actual issues in transactions. (Typically offered: Irregular)

LAWW 6133. Antitrust Law. 3 Hours.
Federal anti-trust laws and their relationship to concentrations of economic power in the contexts of monopoly mergers, price fixing, economic boycotts and discrimination, re-sale price maintenance, dealer franchises, and exclusive dealing. Comparative analysis of free enterprise market and government regulated industries. Recommended for second- and third-year students interested in business practice or government service, as well as social welfare, or students with an interest in the subject. (Typically offered: Irregular)

LAWW 6143. Oil and Gas. 3 Hours.
Study of the law of oil and gas with emphasis on the interests that may be created in oil and gas, the rights of the landowner, provisions in the oil and gas lease, the rights of assignees, and legislation dealing with production and conservation. (Typically offered: Irregular)

LAWW 614V. Board of Advocates Credit. 1-4 Hour.
Members of the Board of Advocates may receive ungraded academic credit, to be awarded in the spring semester of the member’s third year in law school, upon completion of duties for the fall and spring semesters. (Typically offered: Fall, Spring and Summer)

LAWW 615V. Elder Law. 1-2 Hour.
Course covers the unique legal issues of the elderly including physical and mental characteristics of the elderly and how to adequately represent their needs; unique housing issues that progress from help at home to nursing home placement and how to pay for services with Medicaid and VA benefits; Medicaid and VA rules and planning for benefits; and the need for specific documents dealing with their impending incapacity, eventual death and passing with dignity. (Typically offered: Irregular)

LAWW 616V. Law Review Credit. 1-4 Hour.
Law review credit. (Typically offered: Fall, Spring and Summer)

LAWW 6173. Introduction to Intellectual Property Law. 3 Hours.
This is an overview course covering the basics of intellectual property law (IP law). Thus, this course focuses on the protection of proprietary rights in inventions, writings, creative expression, software, trade secrets, trade designations, and other intangible intellectual products by federal patent, copyright, trademark and unfair competition law, and by state trade secrecy and unfair competition law. The course aims to give students entering a general business or civil litigation practice an overview of the various intellectual property doctrines. The course is designed both for those who are interested in pursuing IP as a career, and those who are looking only for a basic knowledge of the subject. There are no prerequisites, and a scientific background is not required. J.D. students and non-law students are welcomed. (Typically offered: Irregular)

LAWW 618V. Journal of Food Law & Policy Credit. 1-5 Hour.
Students receive credit for completion of duties on the Law School's publication of The Journal of Food Law & Policy. (Typically offered: Spring)

LAWW 6192. Workers' Compensation. 2 Hours.
Study of state legislation providing remedies for workers injured in the course of their employment. Not offered every year. (Typically offered: Irregular)

LAWW 6193. Workplace Legislation. 3 Hours.
An in-depth look at workplace statutes and the interpretive regulations along with significant and recent case law. Emphasis on wage and hour law, the Family Medical Leave Act, Occupational Safety and Health law and Arkansas Unemployment Compensation law. (Typically offered: Irregular)

LAWW 6203. Trial Advocacy. 3 Hours.
An introduction to actual trial work and trial techniques through simulated exercises and the conduct of a mock trial. This course will satisfy the skills requirement. Pre- or Corequisite: LAWW 6093. (Typically offered: Fall and Spring)

LAWW 621V. Products Liability. 2-3 Hour.
An intensive study of the area including a review of the theories of liability; the concepts of product and defect; potential defendants; defenses; problems of proof and causation. (Typically offered: Irregular)

LAWW 6233. Federal Income Tax of Individuals. 3 Hours.
Fundamentals of the federal income taxation of individuals. Topics covered include gross income, deductions, assignments of income, basis, taxation of property transactions, and tax accounting. (Typically offered: Irregular)

LAWW 6253. Federal Income Taxation of Business Entities. 3 Hours.
Focus on tax issues in business formation, operation, distributions, and liquidations. Prerequisite: LAWW 6233. (Typically offered: Irregular)

LAWW 6262. Estate Planning. 2 Hours.
Study of the role of lawyers (including ethical considerations) in fact gathering and analysis of data; testamentary and nonprobate transfers; planning for incapacity; Medicaid, income tax, and transfer tax considerations in small and large estates; gift techniques; planning for the surviving spouse; revocable and irrevocable trusts; life insurance; disposition of business interests; and post-mortem tax planning. Students are strongly encouraged to take either Wills, Trust and Estates or Federal Estate and Gift Taxation prior to taking the course. (Typically offered: Irregular)

LAWW 6282. Multistate Substance and Strategies. 2 Hours.
In this class, students will review via videotaped lecture the seven subjects tested on the Multistate Bar Exam (MBE): Civil Procedure, Constitutional Law, Contracts, Criminal Law & Procedure, Evidence, Property, and Torts. For each subject, students will complete assessment quizzes and practice multiple choice questions. The final exam will consist of 100 MBE-style questions covering all subjects. (Typically offered: Spring)

LAWW 629V. Public Corporations. 2-3 Hour.
A survey of topics applicable to publicly owned corporations, including: corporate governance; shareholder communication and proxy regulation; introduction to corporate finance and dividend policies; mergers and acquisitions; tender offer regulation; aspects of securities regulation; and insider trading. Prerequisite: LAWW 4294. (Typically offered: Irregular)

LAWW 631V. Interschool Competition Team. 1-2 Hour.
Interschool Competition Team provides an avenue for outstanding student advocates to register their completion of a rigorous interschool competition for purposes of academic credit. Students may register for this credit after satisfying the relevant Bylaw and Academic Standards provisions, as promulgated by the Faculty. (Typically offered: Fall and Spring)

LAWW 6323. Poverty Law: Theory and Practice. 3 Hours.
Considers the implications of statutory and constitutional provisions that relate to several substantive areas of poverty law practice including public benefits, employment, consumer, health and family law. Prerequisite: LAWW 5114. (Typically offered: Irregular)
LAWW 633V. Intellectual Property. 2-3 Hour.
This course involves an introductory survey of topics in intellectual property, including copyright, trademark, patent, and unfair competition issues. If time permits, the course may also cover certain aspects of e-commerce. (Typically offered: Irregular)

LAWW 6343. Conflict Resolution. 3 Hours.
Explores methods utilized in the legal profession for resolving disputes. Students develop skills by participating in simulation exercises designed to identify and apply processes. Class readings/discussion on theory and practice will be followed by student simulations. (Typically offered: Irregular)

LAWW 635V. Arkansas Law Notes Credit. 1-4 Hour.
Arkansas Law Notes is published online as a student-run law journal by the University of Arkansas School of Law to members of the bar and the law school community at arkansaslawnotes.com. The publication features articles and current research, including student works. Law Notes is a tradition of the School of Law, dedicated to providing timely and insightful research on a variety of subjects to members of the bar. Law Notes is produced under the guidance of Professors Lonnie Beard, Uche Ewuelukwa, and Brian Gallini. A mark of “CR” will be given. (Typically offered: Irregular)

LAWW 6364. Legal Clinic: Immigration. 4 Hours.
Immigration Clinic will provide opportunities for students preparing for a career in immigration law or general practice by developing skills that are critical in legal practice through an experiential learning model. Working under the supervision of a clinical faculty member, students will represent sectors of the immigrant population for graded credit. Criminal Procedure and Professional Responsibility are prerequisites, as well as the completion of at least forty-eight credit hours prior to enrollment. Prerequisite: LAWW 5013. (Typically offered: Irregular)

LAWW 6374. Legal Clinic: Bankruptcy. 4 Hours.
In this experiential course students are closely supervised in the preparation and filing of consumer Chapter 7 bankruptcy cases for individuals and spouses from intake interview through discharge. The skill set taught includes information and fact gathering during a series of taped interviews, ethically handling trust account monies, drafting and filing the bankruptcy petition using document assembly software, appearance before the U.S. Trustee at the First Meeting of Creditors, and negotiating with bankruptcy trustees, creditors and other interested parties. The basic course is for 4 credit hours, and the Advanced course is available for an additional 2 credit hours. The expected learning outcome is to have students gain competence in providing representation in Chapter 7 consumer bankruptcies. (Typically offered: Irregular)

LAWW 6393. Legal Clinic: Nonprofit. 3 Hours.
Rule 15 certification requires completion of 48 hours, including all first year classes and Professional Responsibility. Students receive clinical legal experience counseling and representing non-profit organizations serving Northwest Arkansas in a wide range of non-litigation business law matters. Services include startup, incorporation, obtaining federal and state tax exemptions, change of business form, purchase and lease of real and personal property, employment and labor law issues, and general contract negotiation, drafting and execution. In addition, students prepare and participate as presenters in a workshop on matters of general interest to non-profit organizations. Legal Clinic Faculty supervise and review the student attorney’s work, and provide personal feedback to the individual student attorneys. Prerequisite: LAWW 5013. (Typically offered: Irregular)

LAWW 6403. Land Use. 3 Hours.
Covers public land use controls such as zoning, subdivision regulations, and eminent domain (including private property rights, takings, and inverse condemnation). Heavy emphasis is placed on planning at state and local levels. (Typically offered: Irregular)

LAWW 6413. Legal Clinic: Advanced Criminal Practice. 3 Hours.
The Advanced Criminal Practice Clinic is a 3-credit course offered after a student has successfully completed Criminal Practice Clinic. Students who wish to continue work on existing cases or work on more complicated criminal matters, may apply to enroll in the Advanced Criminal Practice Clinic. Professor approval is required for enrollment. Prerequisite: LAWW 6424. (Typically offered: Irregular)

LAWW 6424. Legal Clinic: Criminal Practice Clinic. 4 Hours.
The Criminal Practice Clinic represents clients charged with misdemeanor and simple felony charges primarily in Washington County. Under close faculty supervision, students develop their ability to effectively and ethically practice law while providing much-needed legal assistance. In addition to client representation, and court appearances, students participate in a weekly seminar. Qualification for Rule XV practice. Prerequisite: LAWW 6093, LAWW 4173, and LAWW 5013. (Typically offered: Irregular)

LAWW 645V. American Legal History. 2-3 Hour.
An examination of major themes in American legal history, with an emphasis on the origins and meaning of the United States Constitution. Various topics will be explored in the light of the original understandings, developments over time, and current interpretations by the courts and the body politic. Course can and will be offered in either a two or three credit hour version. The latter would allow both an increase in the number of topics covered and greater depth of coverage for selected issues. (Typically offered: Irregular)

LAWW 646V. Student Coordinating Attorney. 1-3 Hour.
The School of Law recognizes the educational value of placements under the supervision of licensed, experienced attorneys, and offers students the possibility of public service learning opportunity serving as a student coordinating attorney for 2-3 credits of ungraded credit if approved by the designated Faculty Supervisor. This option shall be available only to a student with a cumulative GPA of at least 2.0 who has successfully completed 30 hours of Law School classes including Professional Responsibility, and who has obtained and submitted at least one recommendation from a faculty member who has had that student in at least one class in the past 12 months. A student coordinating attorney is a pro-bono position involving exposure to real world situations, involving some aspect of public service, where a lawyer’s expertise and insights will be called for and can be observed. Placement is restricted to the courses offered in the all of the clinics offered at the law school. This position covers an entire semester (15 weeks during the spring and fall, and 10-12 weeks during the summer). For a two-credit student coordinating attorney position, the average work load must be no less than 8 hours per week in the fall and spring, or 10 hours per week in the summer. For a three-credit student coordinating attorney position, the average work load would be no less than 12 hours per week in the fall and spring, or 15 hours per week in the summer. Application required and must be completed in writing and delivered to the Faculty Supervisor no later than October 15 of the preceding semester for a spring semester student coordinating attorney position, no later than March 15 for a summer or fall semester student coordinating attorney position. (Typically offered: Fall and Spring)

LAWW 648V. Special Topics (Skills). 1-3 Hour.
Special Topics (Skills) is a course where “class names” allow for a menu of course titles that provide substantial instruction in professional skills related to the responsibilities which lawyers are called upon to meet such as trial and appellate advocacy, alternative methods of dispute resolution, counseling, interviewing, negotiating, problem solving, factual investigation, organization and management of legal work, drafting, and analytical processes for applying those skills in ethical fashion. (Typically offered: Fall, Spring and Summer) May be repeated for up to 15 hours of degree credit.
LAWW 6493. Law and Psychology. 3 Hours.
This course covers key aspects of the relationship between law and psychology. Examples include: the regulatory effect on clinical practice of statutes, administrative regulations, and court decisions; and the influence of psychological expertise on legal decision-making through expert testimony in trial courts and amici briefs in appellate courts, testimony before legislative and administrative bodies, publication of research results, and provision of clinical services to correctional populations and public service occupations. (Typically offered: Irregular)

LAWW 650V. International Externship. 1-5 Hour.
International Externships are experiences available in the summer to students having completed 30 hours toward the JD degree. Students work variable hours and weeks, in law offices, non-profit/government agencies dealing with international matters. By participating in/observing various tasks, students are exposed to international legal practice and issues of professional responsibility in an international context. There is a Field and an Academic Component to this course. (Typically offered: Irregular) May be repeated for up to 10 hours of degree credit.

LAWW 6513. Immigration Law and Policy. 3 Hours.
Study of immigration and nationality, including exclusion and deportation; political asylum and refugee status; visa allocation and distribution; labor certification; and naturalization and citizenship. It is recommended that Administrative Law be taken first. (Typically offered: Irregular)

LAWW 6523. Employment Law. 3 Hours.
An overview of the law governing various aspects of the employment relationship, both statutory and common law. Covers the establishment and parameters of employment, the security of the worker, employer's rights, and terminations. (Typically offered: Irregular)

LAWW 654V. Public Interest Externship. 1-3 Hour.
Public Interest Externships are experiences available to students having completed 30 hours toward the JD degree. Students work part-time -- 12 hours/week over 14 weeks (variable in summer) -- serving an underprivileged population in traditional and non-traditional public service and public interest sectors. By participating in/observing various tasks, students develop legal and professional skills appropriate to various areas and types of law. There is a Field and an Academic Component to this course. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

LAWW 6553. Arbitration Skills. 3 Hours.
This course explores the practical as well as the legal problems presented by the use of alternative dispute resolution (ADR) to resolve disputes, with an emphasis on employment. While other areas of ADR will be touched upon, such as mediation and peer-review, the primary focus of the course will be on arbitration as the means to resolve problems in the workplace and commercial context generally. The course provides instruction and practice (through a variety of simulations) assessing all aspects of arbitration, including when/whether to arbitrate, selecting the arbitrator, conducting an arbitration, and post-hearing issues. Students will become familiar with the most common techniques and strategies that lawyers use in employment arbitration, and should be better prepared to represent your client's interests in that proceeding. (Typically offered: Irregular)

LAWW 6582. Legal Clinic: Advanced Immigration. 2 Hours.
The Advanced Immigration Law Clinic allows students to obtain an additional 2 credits of experience. Only students who have completed the Immigration Law Clinic may take the Advanced course in a subsequent semester. The Clinic provides opportunities for students preparing for a career in immigration law by developing skills that are critical in legal practice through an experiential learning model. The Clinic allows for continuity in cases, as well as opportunities to handle more advanced and diverse cases. The Clinic is offered to 2-3 students per semester. Each will receive 2 credits. Students are expected to work approximately 4 hours per credit hour, per week, including work done for class preparation, group work, individual meetings, and representation. Students are chosen through an application process including a brief statement on interest in Immigration Law and goals for study in the Advanced Clinic. Prerequisite: LAWW 6564. (Typically offered: Fall and Spring)

LAWW 660V. Government Externship. 1-3 Hour.
Government Externships are experiences available to students having completed 30 hours toward the JD degree. Students work part-time -- 12 hours/week over 14 weeks (variable in summer) -- alongside government attorneys, exposing students to legal issues and practice in government agencies. By participating in/observing various tasks, students develop legal and professional skills appropriate to government work. There is a Field and an Academic Component to this course. (Typically offered: Fall and Spring) May be repeated for up to 12 hours of degree credit.

LAWW 661V. Bankruptcy. 2-3 Hour.
Study of the philosophy behind and practical application of federal bankruptcy law. (Typically offered: Irregular)

LAWW 6633. Criminal Procedure: Adjudication. 3 Hours.
This course focuses on prosecuting crime. Principal topics include: the prosecutor's decision to charge, the role of defense counsel, initial appearance, bail and pretrial release, grand juries and preliminary hearings, discovery, guilty pleas and plea bargaining, speedy trial, double jeopardy, trials and pretrial motions, sentencing and post-conviction remedies. (Typically offered: Irregular)

LAWW 6702. Copyright Law. 2 Hours.
The nature of the rights, acquisition and enforcement, and property and contract interests in copyrights. (Typically offered: Fall, Spring and Summer)

LAWW 671V. Judicial Externship. 1-3 Hour.
Judicial Externships are experiences available to students having completed 30 hours toward the JD degree. Students work part-time - 12 hours/week over 14 weeks (variable in summer) - in judicial chambers, exposing students to the court system and the adjudication of cases from the judge's perspective. By observing proceedings/engaging in research/judicial writing, students develop legal and professional skills appropriate to litigation. There is a Field and an Academic Component to this course. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

LAWW 673V. Criminal Defense Externship. 1-3 Hour.
Criminal Defense Externships are experiences available to students having completed 30 hours toward the JD degree. Students work part-time -- 12 hours/week over 14 weeks (variable in summer) -- alongside Public Defenders, exposing students to criminal law and strategy from the defense perspective. By participating in/observing various tasks, students develop legal and professional skills appropriate to criminal defense work. There is a Field and an Academic Component to this course. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.
LAWW 676V. Capstone Externship. 1-12 Hour.
Capstone Externships are experiences available to students having completed 60 hours toward the JD degree. These full-time externships place students alongside working attorneys in any one of the externships below -- 35-40 hours/week over 15 weeks (10-12 weeks in summer) -- exposing students to greater responsibility and more in-depth projects. There is a Field and an Academic Component to this course. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

LAWW 681V. Legislative Externship. 1-2 Hour.
The Legislative Externship exposes students to the role of the legislator and the legislative process. It is available for three credits (at least 168 hours on-site) to students who have completed 30 hours of law school credits, and who will serve the externship in a legislative office in Washington D.C., or in a state capital during a legislative session. By observing/participating in various tasks, students develop legal and professional skills necessary to both the legislative and general practice of law. The course has a field and an academic component. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

LAWW 6822. Patent Law. 2 Hours.
Study of the patent system of the United States, including conditions for a valid patent, procedures of the patent office, and litigation relating to patents. Not offered every year. (Typically offered: Irregular)

LAWW 683V. Criminal Prosecution Externship. 1-3 Hour.
Criminal Prosecution Externships are experiences available to students having completed 30 hours toward the JD degree. Students work part-time -- 12 hours/week over 14 weeks (variable in summer) -- alongside prosecutors, exposing students to criminal law and strategy from the prosecutorial perspective. By participating in/observing various tasks, students develop legal and professional skills appropriate to criminal prosecution. There is a Field and an Academic Component to this course. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

LAWW 6843. Legal Clinic: Advanced Civil Litigation and Advocacy Clinic. 3 Hours.
Students in the Advanced Civil Litigation & Advocacy Clinic (CLAC) continue their representation of low-income clients seeking to enforce their rights in civil matters. While the Clinic docket varies, it usually consists primarily of unpaid wage cases as well as other civil matters. Under close faculty supervision, you will further develop your ability to effectively and ethically practice law while providing much-needed legal services. As an advanced clinic student, you will exercise increased independence and take on more complex matters. Prerequisite: LAWW 6924. (Typically offered: Irregular)

LAWW 686V. Corporate Counsel Externships. 1-4 Hour.
Corporate Counsel Externships are experiences available to students having completed 30 hours toward the JD degree. Students work part-time -- 16 hours/week over 14 weeks (variable in summer) -- alongside attorneys in traditional legal departments/non-traditional business-compliance areas, exposing students to legal issues facing these attorneys daily. By observing/participating in various tasks, students develop legal and professional skills appropriate to corporations. There is a Field and an Academic component to this course. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

LAWW 6873. Legal Clinic: Advanced Nonprofit Clinic. 3 Hours.
Students who have successfully completed the Transactional Clinic in the fall or spring semester may enroll for 3 hours of graded credit in the Advanced Transactional Clinic in any subsequent semester. Students will be assigned a normal client load during both semesters. In the summer students may enroll in Transactional Clinic and Advanced Transactional Clinic during the same term. Students will be assigned to provide legal representation to qualified nonprofit organizations under the supervision of a faculty member. Students will have the opportunity interview and counsel nonprofit entities and perform a number of transactional legal services for corporate clients including: drafting bylaws, preparing and filing articles of incorporation, completing and submitting applications for tax exempt status with state and federal tax agencies; and preparing and filing articles of dissolution. Admission to Advanced Clinic in connection with any of the eligible clinic courses is limited and by approval of the faculty member. Prerequisite: Qualification for Rule XV practice. (Typically offered: Irregular)

LAWW 6913. Environmental Law. 3 Hours.
Devoted primarily to the legal problems related to the environment. Included is consideration of environmental impact in public and private decision making. (Typically offered: Irregular)

LAWW 6924. Legal Clinic: Civil Litigation and Advocacy Clinic. 4 Hours.
Students will represent low-income clients seeking to enforce their rights in civil matters. Under close faculty supervision, students will develop and refine their ability to effectively and ethically practice law. Students will handle all aspects of client representation, including interviewing and counseling, fact investigation and discovery, negotiation, and court appearances. Students will also participate in a weekly seminar and may have the opportunity to engage in other forms of advocacy. Cumulative GPA of 2.00, successful completion of 48 semester hours, including Civil Procedure I and II, Criminal Procedure, Evidence, and Professional Responsibility, and qualifying for Rule XV practice. Prerequisite: LAW 4173, LAW 5013 and LAW 6093. (Typically offered: Fall and Spring)

LAWW 6933. Legal Clinic: Human Trafficking. 3 Hours.
Students complete advocacy projects for organizations that confront and prevent human trafficking. Students may employ a range of public interest practice strategies including report writing, legislative drafting, and community education. During the seminar, students develop skills related to their advocacy projects. Students also study the human trafficking problem and anti-trafficking laws and evaluate anti-trafficking strategies. Students learn interviewing and counseling skills, and how to work with survivors of trauma and across cultural and language difference. (Typically offered: Fall and Spring)

LAWW 6943. Public International Law. 3 Hours.
Principles of international law involving relations among government. The function of international tribunals and organizations. (Typically offered: Irregular)

LAWW 697V. Legal Clinic: Advanced Bankruptcy. 2-3 Hour.
Legal Clinic: Advanced Federal Practice provides opportunities for students preparing for a career in consumer bankruptcy law by developing skills that are critical in legal practice through an experiential learning model. The Advanced Federal Practice Clinic will allow for continuity in cases, as well as opportunities to handle more advanced and diverse cases. Offered to 2-3 students each semester, students enrolled in this course must have taken Federal Practice Clinic, gaining basic knowledge of bankruptcy law and procedure. Students are expected to work approximately 4 hours per credit hour, per week, including work done for class preparation, group work, individual meetings, and representation. Students are chosen through the application process. Prerequisite: LAWW 6374. (Typically offered: Fall and Spring)

LAWW 7031. Regulation of Livestock Marketing and Sales. 1 Hour.
Study of the regulation of livestock and poultry sales under the Packers and Stockyards Act, with a particular focus on production contracting, mandatory price reporting, industry concentration, and antitrust issues. (Typically offered: Spring)
LAWW 704V. Federal Regulation of Food Labeling and Safety. 1-4 Hour. Welcome to Federal Regulation of Food Labeling & Food Safety. This course will explore the federal law that applies to the labeling of food products by examining discreet topics, including the labeling of genetically engineered ingredients, food fraud, organic labeling, and the new restaurant menu regulations. It will also explore the federal regulation of food safety, examining food recalls, the food code, and traceability. The law, the role of government, the perspective of industry and the interest consumers will all be examined. (Typically offered: Fall)

LAWW 706V. Sports Law. 2-3 Hour. The major topics covered include significant contract issues, tort liability involving participants, institutions, physicians and equipment manufacturers, criminal liability, drug testing, constitutional and related issues dealing with sports associations and Title 9 and gender equity issues. Other relevant topics may also be covered if possible. (Typically offered: Irregular)

LAWW 707I. Agricultural Cooperatives and Local Food Systems. 1 Hour. Introduction to the legal structure of a cooperative and examination of the recent use of the cooperative model in encouraging local and regional food systems. (Typically offered: Irregular)

LAWW 7073. Mediation in Practice. 3 Hours. This three credit course is an introduction to the process of mediation and focuses on mediation theory and practice. The course provides a comprehensive overview of the mediation process, including the role of the mediator, litigants, attorneys, the courts and other relevant participants. Students are taught the basic skills needed to participate in a mediation as a mediator or as an advocate, and introduced to the ways in which mediation is used in various settings such as state and federal courts, and government agencies. Because this is skills class, it includes a lot of interactive work, including simulated mediations. All students are required to actively participate in the simulated mediations. (Typically offered: Irregular)

LAWW 708V. Selected Issues in Agricultural and Food Law. 1-3 Hour. Specialized study of one or more current issues in agricultural and food law, regulation, and policy. (Typically offered: Spring)

LAWW 709V. Agricultural Bankruptcy. 1-2 Hour. Examination of bankruptcy law as applied to agricultural operations, including Chapter 12 - Family Farmer Reorganization. No prior knowledge of bankruptcy is required. (Typically offered: Spring Even Years)

LAWW 710V. Agricultural Biotechnology. 1-2 Hour. Study of the regulation of agricultural biotechnology, including the approval process for new technologies, the patenting of new products and technologies, and the restrictions associated with their use. (Typically offered: Irregular)

LAWW 7111. Introduction to Agricultural Taxation. 1 Hour. Overview of federal income tax law as applied to agricultural operations. (Typically offered: Irregular)

LAWW 713V. Agricultural Water Law. 1-2 Hour. Study of the basic legal principles applicable to water rights through consideration of water rights for agricultural use. (Typically offered: Spring)

LAWW 714V. The Right to Food. 1-3 Hour. Is the right to adequate food recognized as a human right under international law? Should the right to adequate food be recognized as a human rights? How is the human right to adequate food defined & implemented? What are the core elements of the right to adequate food? What is the scope of this right? What are the present and future threats to the right to food? How are individuals & communities whose right to food are compromised fighting back? This course introduces the principle & concept of the human right to adequate food and its practical application and implications. (Typically offered: Irregular)

LAWW 7211. Energy Policy and Agriculture. 1 Hour. Survey of the legal dimensions of various energy issues occurring on agricultural lands and in rural areas, including wind power, solar power, ethanol production, power line transmission, and fracking. (Typically offered: Irregular)

LAWW 7231. Specialized Legal Research and Writing. 1 Hour. Legal writing skill development, including training in plain-English legal writing, electronic research training, and publication strategies. (Typically offered: Fall)

LAWW 7243. Health Law. 3 Hours. An examination of the role of the law in determining access to and regulation of the quality of services provided by the health care industry. (Typically offered: Irregular)

LAWW 726V. Farmed Animal Welfare Law and Policy. 1-2 Hour. Examination of the legal issues involved in determining welfare standards for animals raised for food. In addition to introducing federal animal welfare and humane slaughter laws, state referenda, state law standards, and so-called "ag gag" laws are studied. (Typically offered: Irregular)

LAWW 727V. Food Safety Litigation. 1-2 Hour. Examination of food borne illness litigation with an initial introduction to food product liability followed by the study of actual cases brought against food manufacturers. (Typically offered: Fall)

LAWW 7312. Agricultural Perspectives. 2 Hours. Agriculture has a rich and varied history, and today's issues are often best understood in the context of this history. This course examines a wide range of social and economic issues, considering their origin and how history is reflected in today's policies. The course includes a series of documentaries. (Typically offered: Spring)

LAWW 7321. Agricultural Policy and the Federal Budget. 1 Hour. Study of the impact of the Office of Management and Budget and the cost scoring system on federal agricultural policy making in Washington, D.C. Current farm policy issues are discussed within the context of budgetary constraints and pressures. (Typically offered: Fall)

LAWW 740V. Federal Farm Programs and Crop Insurance. 1-2 Hour. Survey of the complex network of federal farm programs and federal crop insurance programs that are available to U.S. producers. (Typically offered: Fall)

LAWW 741V. Food, Farming and Sustainability. 1-3 Hour. Survey of the complex legal topics that make up the body of agricultural and food law focusing on current issues of significance. (Typically offered: Fall)

LAWW 742V. Global Food Security. 1-2 Hour. Survey of the role of law and policy in affecting problems of global food security in the face of increasing population, changing diets, environmental pressures, and climate change. (Typically offered: Irregular)

LAWW 744V. Selected Issues in International Food and Agriculture. 1-3 Hour. Specialized study of one or more selected legal/policy issues related to international agriculture and food systems. (Typically offered: Spring)

LAWW 7501. Farm Succession Planning. 1 Hour. Farm succession planning is one of the most important aspects of farm management but one of the most difficult to discuss with most producers. Traditional notions of how a farm estate should be divided among heirs can often conflict with what is best for the farm business and the testator's wishes. This course will equip students with basic tools to facilitate meaningful discussion among family members about the development and maintenance of a farm succession plan. Students will examine various instruments for accomplishing succession planning goals including wills, trusts, and business structures. The course will also touch on the role of conservation easements, tax considerations, and the importance of encouraging families to begin transferring the farming operation to the heirs before the testators pass. (Typically offered: Spring)

LAWW 7511. Introduction to the Law of Food and Agriculture. 1 Hour. Orientation course that provides an overview of the legal and policy issues presented by the production of food and fiber, including a discussion of structural changes in agriculture, sustainability issues, and trends in consumer interest. (Typically offered: Fall)
LAWW 7612. Advanced Consumer Bankruptcy. 2 Hours.
Study of recent developments in the law of bankruptcy as it applies to consumer and non-consumer transactions. (Typically offered: Irregular)

LAWW 762V. Legal Issues: Indigenous Food and Agriculture. 1-2 Hour.
Overview of the legal, historic, social, and economic issues important to sustainable food and agriculture development in Indian Country. It features in-depth discussion of historic and emerging issues including land use challenges, tribal food and agriculture code development, and barriers to effective agriculture development. (Typically offered: Irregular)

LAWW 763V. Regulated Markets in Agriculture. 1-2 Hour.
Study of the economic regulation of specific sectors of the agricultural industry focusing on perishable agricultural commodities (fruits and vegetables), and dairy products. Included is the study of formal and informal administrative review. (Typically offered: Spring)

LAWW 764V. Practicum in Agricultural & Food Law. 1-4 Hour.
This experiential course provides LL.M. candidates with an opportunity to work with agencies, advocacy organizations, businesses, and others engaged in agricultural & food law practice and policy throughout the country. Work can be performed on-site or via distance. Prerequisite: Only available to students admitted to the LL.M. Program. (Typically offered: Fall, Spring and Summer)

LAWW 765V. Intellectual Property Issues in the Food & Agricultural Sector. 1-3 Hour.
This course offers an overview of the key IP issues in food and agriculture. The focus is on five types of IP - Trademarks, Trade Secrets, Geographical Indicators (GIs), Copyrights, and Patents. The course will introduce students to IP law (domestic, regional and global) and will look at the expansion of IPRs in food and agriculture. (Typically offered: Irregular)

LAWW 7662. American Indian Law. 2 Hours.
Study of the domestic federal law of the United States as it applies to Native Americans and their tribes. The general concept of tribal self-determination is the unifying theme of the course. Particular topics include tribal sovereignty and government; American Indian civil rights; administration of justice on and off the reservation; American Indian land claims; land, hunting, and fishing rights; water rights; American Indian health, education, and welfare; Bureau of Indian Affairs; state taxation; individual and tribal treaty rights; federal Indian policy; and zoning and environmental controls. (Typically offered: Irregular)

LAWW 770V. Advanced Writing in Agricultural and Food Law. 1-4 Hour.
Research in a specialized area of agricultural or food law and development of a paper that demonstrates rigorous legal analysis and quality legal writing. (Typically offered: Spring) May be repeated for degree credit.

LAWW 771V. Independent Research in Agricultural and Food Law. 1-2 Hour.
Independent research in agricultural and food law conducted under the supervision of a faculty member. (Typically offered: Fall, Spring and Summer)

LAWW 7721. Administrative Process and Practice in Agricultural and Food Law. 1 Hour.
Study of administrative law and practice in the specialized areas of agricultural and food law. Relevant regulatory agencies are introduced. Rulemaking, adjudication, and judicial review are covered. (Typically offered: Fall)

LAWW 774V. Urban Agriculture: Law and Policy. 1-2 Hour.
Study of the legal issues raised by the rising interest in urban agricultural activities. Topics of study include land use and zoning issues, farmers market issues, and legal issues associated with community sponsored agriculture. (Typically offered: Irregular)

LAWW 776V. Agricultural Finance and Credit. 1-3 Hour.
Study of the legal issues surrounding the financing of agricultural operations, including credit availability, agricultural security issues under the Uniform Commercial Code, and debt restructuring opportunities. Special focus is on lending options offered by the Farm Service Agency and the Farm Credit System. (Typically offered: Irregular)

LAWW 7773. Water Law. 3 Hours.
Study of real property principles governing ownership rights in water and the federal and state statutes controlling the use of water. (Typically offered: Irregular)

LAWW 778V. Agricultural Labor Law. 1-2 Hour.
Study of the legal, social, and economic issues that arise from the extensive use of migrant labor in U.S. agricultural operations. Topics include agricultural exemptions from labor laws, the Migrant & Seasonal Agricultural Worker Protection Act, and agriculture's reliance on undocumented alien workers. (Typically offered: Spring)

LAWW 781V. Local-Regional Food Systems and the Law. 1-2 Hour.
This course examines recent efforts to re-establish local and regional food systems and explores the attendant legal and policy issues. (Typically offered: Irregular)

LAWW 782V. Food Security, Social Justice, & the Law. 1-2 Hour.
Survey of the legal and policy issues raised by the food justice movement. Topics covered include food insecurity and poverty, public health concerns such as obesity, the economics of healthy eating, food deserts, and food waste. Each will be considered in light of the legal and governmental policy issues raised. (Typically offered: Fall Odd Years)

LAWW 785V. Federal Nutrition Law and Policy. 1-2 Hour.
Study of federal nutrition policy, including the development of the federal nutrition standards, the framework for the food assistance programs, the federal school lunch program, and the government's efforts to encourage healthy eating. Prerequisite: LAWW 786V. (Typically offered: Irregular)

LAWW 786V. Food Law and Policy. 1-3 Hour.
An introduction to the network of laws that govern our food system. An overview of regulation by both the Food & Drug Administration and the USDA is provided. Policy considerations are discussed in light of current issues. (Typically offered: Irregular)

LAWW 7932. Environmental Regulation of Agriculture. 2 Hours.
This course examines the major federal environmental statutes applicable to agricultural operations with attention to current cases and controversies under those laws. It also explores the regulatory authority and enforcement practices of the EPA and other agencies. (Typically offered: Spring)

LAWW 794V. Business, Human Rights, & Corporate Social Responsibility. 1-3 Hour.
Business has helped lift people around the world out of poverty. However, businesses can have a serious impact on human rights. This is true for businesses in the food and agricultural sector. Around the globe companies in all sectors are contributing to human rights abuses. With globalization, the proliferation of multinational corporations, and increase in the scale and volume of foreign direct investment, the situation appears to be getting worse. The course explores the business-human rights nexus with a particular focus on the food and agricultural sector and on case studies from around the world. (Typically offered: Irregular)

LAWW 796V. Agriculture and the Environment. 1-3 Hour.
Agriculture is increasingly criticized for its impact on the environment. This course examines the tensions between the desire to produce food and fiber efficiently and concern for sustainability and the protection of natural resources. (Typically offered: Fall)
Management (MGMT)

Courses

MGMT 2103. Managing People and Organizations. 3 Hours.
Study of the process of acquiring and managing Human Capital, focusing on the organizational behavior, legal, economic, and technical issues concerned with business decisions about acquiring, motivating, and retaining employees; emphasis given to the development, implementation, and assessment of policies and practices consistent with legal, social, human, and environmental dynamics. Prerequisite: SEVI 2053 or ACCT 2023 and WCOB 1033 each with a grade of C or better. (Typically offered: Fall, Spring and Summer)

MGMT 2103H. Honors Managing People and Organizations. 3 Hours.
Study of the process of acquiring and managing Human Capital, focusing on the organizational behavior, legal, economic, and technical issues concerned with business decisions about acquiring, motivating, and retaining employees; emphasis given to the development, implementation, and assessment of policies and practices consistent with legal, social, human, and environmental dynamics. Prerequisite: SEVI 2053 or ACCT 2023 and WCOB 1033 with a grade of C or better. (Typically offered: Fall, Spring and Summer)
This course is equivalent to MGMT 2103.

MGMT 3533. Alternative Dispute Resolution. 3 Hours.
This immersion into the divergent forms of conflict/dispute resolution will expose students to the dynamics of one of the leading disciplines in the workplace and society as a whole. Students will be presented with a comprehensive analysis of divergent aspects of conflict resolution strategies such as negotiation, mediation, arbitration, neutral fact finding, settlement conferences, summary trials, conciliation and facilitation. Confrontational negotiating styles and illustrations will be contrasted with topical strategies such as mutual gains. Prerequisite: Junior standing. (Typically offered: Irregular)

MGMT 3563. Management Concepts and Organizational Behavior. 3 Hours.
Business students may not receive credit for this course. Course introduces students to fundamental concepts of management practice with particular emphasis on managing human behavior in organizations. Addresses the planning, organizing, directing, and controlling functions performed by managers as these functions relate to managing human resources. Provides survey of critical management concepts; enables students to develop analytical and problem solving skills through case studies and experimental exercises. Students may not receive credit for both MGMT 3563 and MGMT 2103. Walton College majors are not eligible to register for the course. No degree credit for Walton College majors. (Typically offered: Irregular)

MGMT 3653. A Competitive Advantage: Creating and Leading a Diverse Workforce. 3 Hours.
Study of the process of creating and leading a diverse workforce, focusing on the knowledge and skills necessary for creating a culture that embraces and makes diversity work; examines the many dimensions of diversity with emphasis on understanding the range of cultural behaviors and expectations, cultural communication, and building diverse work teams. Special attention will be given to developing talent management competencies, such as recruiting, coaching, mentoring, career development, and evaluating and measuring the effects of diversity initiatives. Prerequisite: Junior standing. (Typically offered: Irregular)

MGMT 4103. Special Topics in Management. 3 Hours.
Explores trends, concepts, and important developments in management as they impact on organizational performance. Topics are selected by the Management Department faculty for each semester the course is offered. (Typically offered: Irregular) May be repeated for degree credit.

MGMT 4103H. Honors Special Topics in Management. 3 Hours.
Explores trends, concepts, and important developments in management as they impact on organizational performance. Topics are selected by the Management Department faculty for each semester the course is offered. (Typically offered: Irregular) May be repeated for degree credit. This course is equivalent to MGMT 4103.

MGMT 4243. Ethics and Corporate Responsibility. 3 Hours.
A comprehensive and critical examination of traditional and current ethical theories and approaches that guide business decision-making, ethical issues that affect business decisions, and ethics related to the various business disciplines. (Typically offered: Fall and Spring)

MGMT 4253. Leadership. 3 Hours.
This course offers a foundation for understanding and evaluating organizational leadership. It is designed to assist students in developing frameworks for understanding and enacting leadership. This course examines topics such as the nature and foundation of the leader-follower relationship, models that explain effective leadership, and the interface of leadership with gender, ethics, and culture. Prerequisite: MGMT 2103 or MGMT 3563. (Typically offered: Fall and Spring)

MGMT 4263. Organizational Change and Development. 3 Hours.
This course will develop diagnostic and intervention skills that can be applied to identifying and overcoming problems of morale and productivity in organizations. A variety of behavioral methods will be covered. Prerequisite: MGMT 2103 or MGMT 3563. (Typically offered: Fall and Spring)

MGMT 450V. Independent Study. 1-3 Hour.
Permits students on individual basis to explore selected topics in management. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

MGMT 4633. Faith, Spirituality, and the Workplace. 3 Hours.
An in-depth and interactive survey of faith and spirituality in the workplace. Provides students with a foundational knowledge of various faith traditions and forms of spirituality, including non-theist perspectives. Highlights the interconnections between faith traditions. Encourages exploration and identification of personal value systems and their origins. Develops skills that enable meaningful interaction with individuals from diverse faith and spiritual backgrounds. Examines the growing body of academic research on faith and spirituality in the workplace. Studies the management challenges and opportunities inherent in developing faith-friendly workplaces. Examines the different ways modern organizations are approaching faith and spirituality in the workplace. Offers perspectives from, and provides the opportunity to engage with, multiple religious, spiritual, and business leaders. Prerequisite: Junior Standing. (Typically offered: Irregular)

MGMT 4943. Organizational Staffing. 3 Hours.
In-depth study of theoretical, legal, methodological, and substantive issues related to selection, performance appraisal, and development of employees. Students participate in individual and group projects designed to provide theoretical and practical skills related to staffing. Prerequisite: WCOB 1033. (Typically offered: Fall and Spring)

MGMT 4953. Organizational Rewards and Compensation. 3 Hours.
Develops an understanding of reward systems theory and its application to the design of compensation systems. Provides theoretical and legal background and practical applications for the use of reward systems in attracting, motivating, and retaining employees. Prerequisite: WCOB 1033. (Typically offered: Fall and Spring)

MGMT 5223. Business Leadership and Ethics. 3 Hours.
Management for a global environment. The class will cover interpersonal workplace skills such as leadership and motivation, along with the management of human capital through well designed recruitment, selection, performance evaluation, compensation, and quality control systems. (Typically offered: Fall) May be repeated for degree credit.
MGMT 5613. Leadership and Organizational Behavior. 3 Hours.
Managing in a global workforce, including human resource issues, motivation, performance evaluation, quality concepts, transformational leadership, and selection/recruitment/development of employees. (Typically offered: Summer)

MGMT 6011. Graduate Colloquium. 1 Hour.
Presentation and critique of research papers and proposals. (Typically offered: Fall and Spring) May be repeated for degree credit.

MGMT 6113. Seminar in Organizational Behavior. 3 Hours.
Survey of theoretical and empirical literature in organizational behavior. Stresses critical evaluation of current writing in the field and its integration with prior research. Covers topics relating to motivation, individual differences, job attitudes, social influence processes, and group dynamics. Prerequisite: Admission to a Ph.D. program. (Typically offered: Irregular)

MGMT 6213. Seminar in Research Methods. 3 Hours.
Familiarizes students with the principles and techniques underlying research in management and organizations. Issues of basic philosophy of science and research methods are covered. Special attention given to the practical problems of research design, measurement, data collection, sampling, and interpretation in conducting research in management and in organizations. Prerequisite: Admission to a Ph.D. program. (Typically offered: Irregular)

MGMT 6223. Seminar in Management Topics. 3 Hours.
Seminar in special research topics in management. Topics vary depending upon instructor. Prerequisite: Admission to a Ph.D. program. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

MGMT 6233. Seminar in Human Resource Management. 3 Hours.
Provides an overview of major issues in human resource management. Designed to familiarize students with the seminal research in human resource management, and to provide them with the conceptual and methodological tools necessary to do research in the area. Prerequisite: Admission to a Ph.D. program. (Typically offered: Irregular)

MGMT 636V. Special Problems in Management. 1-12 Hour.
Individual reading and research. (Typically offered: Fall and Spring) May be repeated for up to 12 hours of degree credit.

MGMT 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall and Spring) May be repeated for degree credit.

Marketing (MKTG)

MKTG 3013. Retail Internship. 3 Hours.
This experience is designed to give students an internship opportunity to combine their formal academic preparation with an exposure to the retail, consumer products and related industries. Prerequisite: MKTG 3433 with a grade of C or better, completion of the pre-business core, junior standing, and department consent. (Typically offered: Fall, Spring and Summer)

MKTG 3433. Introduction to Marketing. 3 Hours.
Examines strategies, tactical, and operational decisions related to contemporary marketing activities. Topics covered include product, services and international strategies in consumer and business markets. Prerequisite: (ECON 2013 and ECON 2023) or (ECON 2143) and WCOB 1033, each with a grade of C or better. (Typically offered: Fall, Spring and Summer)

MKTG 3433H. Honors Introduction to Marketing. 3 Hours.
Examines strategies, tactical, and operational decisions related to contemporary marketing activities. Topics covered include product, services and international strategies in consumer and business markets. Prerequisite: (ECON 2013 and ECON 2023) or (ECON 2143) and WCOB 1033 each with a grade of C or better. (Typically offered: Fall, Spring and Summer)

This course is equivalent to MKTG 3433.

MKTG 3553. Consumer Behavior. 3 Hours.
Analyzes consumer motivation, buying behavior, market adjustment, product innovation and adaptation; consumer market measurement, including survey of economic, behavioral science theories of consumer market behavior, producer and intermediary reactions. Consumer decision making is evaluated as to psychological drives, sociological concepts used by producers, channel intermediaries, consumers; considers methods, techniques for measuring consumer behavior, and analyzing consumer markets. Prerequisite: MKTG 3433. (Typically offered: Fall and Spring)

MKTG 3563. Marketing Research. 3 Hours.
Research designs, techniques, and analyses of primary and secondary data for the purposes of (1) developing market forecasts and segmentation analyses; (2) strategy implementation determining product development, pricing, distribution, and promotion decisions; and (3) monitoring customer attitudes, motivations and satisfaction. Prerequisite: MKTG 3433. (Typically offered: Fall, Spring and Summer)

MKTG 3565. Category Management Topics. 3 Hours.
This course exposes new majors in Marketing and Supply Chain Management to the current thinking of management and supply chain professionals in consumer packaged goods (CPG) and the tools to determine consumer demand in the CPG industry. Pre- or Corequisite: MKTG 3433. Prerequisite: SCMT 2103. (Typically offered: Irregular)

MKTG 3833. Digital Marketing. 3 Hours.
An exploratory introduction to the tools and tactics used by today’s marketers to effectively promote products, brands, and companies in the digital age, with focus on digital content, website design, graphic and video design, digital advertising, social media, search-engine optimization, email marketing, and marketing analytics. Prerequisite: MKTG 3433. (Typically offered: Irregular)

MKTG 4003H. Honors Marketing and Transportation Colloquium. 3 Hours.
Explores events, concepts and/or new developments in the field of Marketing and/or Transportation. Prerequisite: Senior standing. (Typically offered: Irregular)

MKTG 4103. Marketing Topics. 3 Hours.
Special topics in marketing not available in other courses. Topics are selected by the Marketing faculty for each semester each course is offered. Prerequisite: MKTG 3433. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

MKTG 4233. Integrated Marketing Communications. 3 Hours.
The theory, knowledge, and application relevant to the coordination of marketing communications including advertising, personal selling, sales promotion, public relations, and publicity. Prerequisite: MKTG 3433. (Typically offered: Fall and Spring)

MKTG 4343. Selling and Sales Management. 3 Hours.
Examines how organizations and individuals communicate value and obtain desired results through the process of personal selling and customer relationship management, along with the role of sales management in the development of people and resource utilization within the firm. Pre- or Corequisite: MKTG 3433. (Typically offered: Fall and Spring)
MKTG 4353. Advanced Professional Selling. 3 Hours.
Applies best practices of the selling process with hands-on and practical approaches to developing long-term business-to-business and business to customer relationships, communicating value and earning desired long-term results. The usage of role-play, involvement in sales competitions, sales data analytics and utilizing practitioner mentorships are key elements of this class with the goal of having the student be prepared to enter the sales field upon class completion. Prerequisite: MKTG 4343. (Typically offered: Irregular)

MKTG 4433. Retail Strategy. 3 Hours.
Concentrates on planning to meet the objectives and satisfy the retail marketing concept. Attention is devoted to retail format, competition among retail institutions, determination of store location, merchandise lines, atmospherics, and levels of customer service provided with the sale of consumer products. Prerequisite: MKTG 3433. (Typically offered: Fall and Spring)

MKTG 4443. Retail Buying and Merchandise. 3 Hours.
Examination of supplier and buyer responsibilities and decisions associated with product assortment, depth, budgets, promotions, inventory investment and control, and gross margin management for consumer goods including apparel, food, and durables. Prerequisite: MKTG 3433. (Typically offered: Fall and Spring)

MKTG 4453. New Product Development. 3 Hours.
The course is structured along the three main dimensions of new product development: designing, manufacturing, and marketing of new products. An analytical approach is taken consistent with current thinking and practice of the industry. Students learn the best approaches from a marketing manager's perspective to effectively manage the NPD process. Prerequisite: MKTG 3433. (Typically offered: Fall)

MKTG 450V. Independent Study. 1-3 Hour.
The Marketing Independent Study course permits students on an individual basis to explore select topics in Marketing and Retail. Independent study projects will explore topics relevant for marketing and retail that typically are not covered in the existing curriculum. Prerequisite: Junior standing. (Typically offered: Irregular)

MKTG 4513. Nonprofit Marketing. 3 Hours.
This course is designed to give students a deeper understanding of marketing in the nonprofit sector, how it functions and how nonprofit marketing differs from traditional for profit marketing through leadership opportunities. Students will work with local nonprofits on various marketing projects throughout the semester. The class will use a service learning model of instruction where students take a leadership role in project development and execution. Prerequisite: MKTG 3433. (Typically offered: Fall and Spring)

MKTG 4633. Global Marketing. 3 Hours.
Examines differences in global environment; how cultural considerations, political, legal, and economic conditions affect market entry strategies and marketing mix decisions; development of marketing plan for global environments. Prerequisite: MKTG 3433. (Typically offered: Fall and Spring)

MKTG 4853. Marketing Management. 3 Hours.
Strategic planning and management of the marketing function within the firm from a managerial viewpoint. Focus on the development and management of marketing strategies and tactics related to product, pricing, promotion, and distribution decisions. Prerequisite: MKTG 3633 and MKTG 3553. (Typically offered: Fall and Spring)

MKTG 5103. Introduction to Marketing. 3 Hours.
Introduction to marketing concepts and practices as applied to the retail consumer environment. Focuses on the strategic development, positioning, and management of products, promotion, distribution, pricing, and store environments in building customer relationships from retailer and supplier perspectives. (Core) (Typically offered: Fall and Spring) May be repeated for degree credit.

MKTG 5223. Marketing. 3 Hours.
Product management, market research, marketing communications, retailing and distribution, consumer behavior, and social and ethical implications of marketing. (Typically offered: Fall)

MKTG 5333. Retailing Strategy and Processes. 3 Hours.
Strategic planning and operation of retailing organizations. Investigation of the various types of retailing with emphasis on both the strategic and functional aspects in retail processes. (Typically offered: Spring)

MKTG 5433. Consumer and Market Research. 3 Hours.
Modern marketing research methods and analyses applied to consumers, shoppers, and buyers of goods and services sold in competitive retail environments. Attention is given to both quantitative and qualitative methods, analyses, interpretation, and decision making. Prerequisite: MKTG 5103. (Typically offered: Fall)

MKTG 5523. Marketing Analytics. 3 Hours.
This course is intended to teach students how to use data analytics to improve marketing decision making at every stage of the Strategic Marketing Process. The focus will be on the skills and tools needed to obtain, process, and analyze data to formulate and answer critical marketing questions and make managerial recommendations. This is a hands-on course that employs real-world databases, lectures, cases, and exercises. Prerequisite: MKTG 5103. (Typically offered: Spring)

MKTG 5553. New Product Development and Strategy. 3 Hours.
Behavioral and social science concepts applied to retail shoppers, buyers, and consumers of products and services. Attention is given to research on the cognitive, affective, and experiential aspects involved in the acquisition, consumption, and disposal of products and services by individuals and households. Prerequisite: MKTG 5103. (Typically offered: Irregular)

MKTG 5563. Retail Strategy. 3 Hours.
The purpose of this course is to investigate the changing landscape of the retail industry. It should be noted that "retail" is an incredibly broad topic covering everything from consumer insights to supply chain to sales management. Retail is currently experiencing somewhat of a revolution as companies experiment with new technology, innovative ways to make shopping more enjoyable, or ways of engaging the customer in a way they are not likely to forget. This course will be based on identification and discussion of new trends that emerge in the retail environment. Prerequisite: MKTG 5223. (Typically offered: Spring)

MKTG 563V. Special Problems in Marketing. 1-6 Hour.
Individual research problems. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

MKTG 6413. Special Topics in Marketing. 3 Hours.
Seminar in special topics in marketing. Topics vary depending upon the instructor. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

MKTG 6433. Seminar in Research Methods. 3 Hours.
Extensive review of literature illustrative of marketing research studies. Focuses upon theoretical foundations of research design, methodology, and analysis as well as interpretation of univariate, bivariate, and multivariate data in marketing theory exploration. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

MKTG 6443. Seminar in Marketing Theory. 3 Hours.
Comprehensive survey and critical review of the history of marketing thought and contemporary schools of thought in marketing discipline. In-depth research, review, synthesis, and a research proposal will be required in a selected topic from the perspectives of advancing marketing theory. (Typically offered: Irregular)

MKTG 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall and Spring) May be repeated for degree credit.
Master of Business Administration (MBAD)

Courses

MBAD 5241. Ethical Decision Making. 1 Hour.
Business Ethics will address business ethics issues from a personal, professional, and organizational perspective. We will cover basic ethical decision-making frameworks to help inform students' personal moral frameworks, ethical issues that are most relevant to managers of modern organizations, and the role of business in society. (Typically offered: Fall)

MBAD 536V. MBA Internship. 1-3 Hour.
This course allows a student to experience an internship within a business and benefit from the applied experience. The internship may be designed to offer a wide range of business experiences. The internship must be supervised by a faculty member as well as a member of the firm. MBA Director approval required. (Typically offered: Summer) May be repeated for up to 3 hours of degree credit.

MBAD 536V. Study Abroad-Special Problems. 1-3 Hour.
Provides MBA students with the opportunity to explore a business problem in depth under the guidance of a graduate faculty member. MBA Director approval required. (Typically offered: Summer) May be repeated for degree credit.

MBAD 5433. Capstone Project. 3 Hours.
A large-scale project integrating various business topics. Prerequisite: MGMT 5313. (Typically offered: Summer)

MBAD 5511. Professional Development -- Special Topics In Business. 1 Hour.
A concentrated emphasis on one business topic. Corequisite: MGMT 5613, ACCT 5263 and ECON 5253. (Typically offered: Fall and Spring) May be repeated for up to 5 hours of degree credit.

Mathematics (MATH)

Courses

MATH 0001L. College Algebra Laboratory I. 1 Hour.
This course provides additional support and instruction for students enrolled in MATH 1203 who are required to take it based on the placement requirements stipulated for that course. Credit earned in this course will not be applied to the total hours required for a degree. One lab hour. (Typically offered: Fall, Spring and Summer)

MATH 0002L. College Algebra Laboratory II. 2 Hours.
This course provides additional support and instruction for students enrolled in MATH 1203 who are required to take it based on the placement requirements stipulated for that course. Credit earned in this course will not be applied to the total hours required for a degree. Two lab hours. (Typically offered: Fall, Spring and Summer)

MATH 0131L. Quantitative Reasoning Laboratory. 1 Hour.
This course provides additional support and instruction for students enrolled in MATH 1313 who are required to take it based on the placement requirements stipulated for that course. Credit earned in this course will not be applied to the total hours required for a degree. One lab hour. (Typically offered: Fall, Spring and Summer)

MATH 1203. College Algebra (ACTS Equivalency = MATH 1103). 3 Hours.
Topics include the solution and application of linear and quadratic equations and inequalities; functions, graphs, and theory of equations; matrix solutions of systems of equations and basic properties of matrices. Prerequisite: A score of at least 46 on ALEKS, at least 22 on the math component of the ACT exam, at least 540 on the math component of the new SAT or old SAT, at least 63 on the Accuplacer Classic College Math, at least 263 on the Accuplacer Next Generation QAS, at least 254 on the Accuplacer NG AAF, or at least 66 on the Compass Algebra. Students who score at least 30 on ALEKS, at least 19 on the math component of the ACT exam, at least 510 on the math component of the new SAT or 460 on the math component of the old SAT, at least 42 on the Accuplacer Classic College Math, at least 255 on the Accuplacer Next Generation QAS, at least 235 on the Accuplacer NG AAF, or at least 41 on the Compass Algebra must also register for MATH 0001L as a corequisite. Students who score below 30 on ALEKS, below 19 on the math component of the ACT exam, below 510 on the math component of the new SAT or 460 on the math component of the old SAT, below 42 on the Accuplacer Classic College Math, at least 255 on the Accuplacer Next Generation QAS, at least 235 on the Accuplacer NG AAF, or below 41 on the Compass Algebra must also register for MATH 0002L as a corequisite. (Typically offered: Fall, Spring and Summer)

MATH 1213. Plane Trigonometry (ACTS Equivalency = MATH 1203). 3 Hours.
Basic topics in trigonometry including identities, formulas, and polar coordinate system. Credit will be allowed for only one of either MATH 1213 or MATH 1284C. Prerequisite: MATH 1203 or MATH 1204 with a grade of C or better, or a score of at least 60 on the Math Placement Test, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall, Spring and Summer)

MATH 1284C. Precalculus Mathematics (ACTS Equivalency = MATH 1305). 4 Hours.
Topics in algebra and trigonometry. To be taken by students who expect to take MATH 2554. Corequisite: Drill component. Prerequisite: MATH 1203 or MATH 1204 with a grade of C or better, or a score of at least 60 on the Math Placement Test, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall, Spring and Summer)

MATH 1313. Quantitative Reasoning (ACTS Equivalency = MATH 1113). 3 Hours.
Reasoning about quantitative information, and the use of mathematical tools and models as citizens, consumers, entrepreneurs and employees in today's complex technological society. Topics include modeling with functions; quantity, measurement and indices; finance; counting, probability, odds and risk. Prerequisite: A score of at least 40 on ALEKS, at least 19 on the ACT exam, at least 510 on the math component of the new SAT, at least 460 on the math component of the old SAT, at least 42 on the Accuplacer Classic College Math, at least 255 on the Accuplacer Next Generation QAS, at least 235 on the Accuplacer Next Generation AAF, or at least 41 on Compass Algebra. Students who score below 40 on ALEKS, below 19 on the math component of the ACT exam, below 510 on the math component of the new SAT, below 460 on the math component of the old SAT, below 42 on the Accuplacer Classic College Math, below 255 on the Accuplacer Next Generation QAS, below 235 on the Accuplacer Next Generation AAF, or below 41 on Compass Algebra must also register for MATH 0131L as a corequisite. (Typically offered: Fall and Spring)
MATH 1514. Calculus with Algebra and Trigonometry I. 4 Hours.
Topics in algebra, trigonometry and precalculus are integrated with elementary differential calculus. Part of a two semester sequence with MATH 2514; these two courses together are equivalent to MATH 1284C and MATH 2554C. MATH 1514 BY ITSELF NOT EQUIVALENT TO EITHER MATH 1284C OR MATH 2554C.
This course must be taken with MATH 2514. Intended for students who place into MATH 1284C, but who would profit from an earlier exposure to calculus concepts. Closed to students with credit for MATH 2554C. Prerequisite: MATH 1203 or MATH 1204 with a grade of C or better, or a score of at least 60 on the Math Placement Test, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall)

MATH 2033. Mathematical Thought. 3 Hours.
This course introduces students to a variety of topics in modern mathematics. Topics vary and can include graph theory, game theory, voting systems, foundations of logic, cardinality, discrete geometry combinatorics, geometry of surfaces, topology and symmetry. Prerequisite: MATH 1203 or MATH 1204 with a grade of C or better, or a score of at least 60 on the Math Placement Test, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall, Spring and Summer)

MATH 2043. Survey of Calculus (ACTS Equivalency = MATH 2203). 3 Hours.
Selected topics in elementary calculus and analytic geometry for students in business, agriculture, and social sciences. Credit will be allowed for only one of MATH 2043 and MATH 2554. Prerequisite: MATH 1203 or MATH 1204 or MATH 1213 or MATH 1284C or MATH 2053 with a grade of C or better, or a score of at least 60 on the Math Placement Test, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall, Spring and Summer)

MATH 2043C. Survey of Calculus. 3 Hours.
Selected topics in elementary calculus and analytic geometry for students in business, agriculture, and social sciences. Credit will be allowed for only one of MATH 2043 and MATH 2554. Corequisite: Drill component. Prerequisite: MATH 1203 or MATH 1204 or MATH 1213 or MATH 1284C or MATH 2053 with a grade of C or better, or a score of at least 60 on the Math Placement Test, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall, Spring and Summer)

MATH 2053. Finite Mathematics. 3 Hours.
Selected topics in probability and statistics, review of algebraic matrices, and graphic analysis of linear programming for students in business, agriculture, and social sciences. Taught with a two-day-per-week lecture and one-day-per-week drill. Corequisite: Drill component. Prerequisite: MATH 1203 or MATH 1204 or MATH 1213 or MATH 1284C or MATH 2043 with a grade of C or better, or a score of at least 60 on the Math Placement Test, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall and Spring)

MATH 2183. Mathematical Reasoning in a Quantitative World. 3 Hours.
Mathematical and statistical reasoning are required in contexts of growing complexity and sophistication. The purpose of this course is to cause students to possess the power and habit of mind to search out quantitative information, critique it, reflect upon it, and apply it in their public, personal and professional lives. Prerequisite: MATH 1203, MATH 1204, or MATH 1313, or a score of at least 60 on the Math Placement Test, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall and Spring)

MATH 2213. Survey of Mathematical Structures I. 3 Hours.
Sets and logic, systems of numerations, number systems and operations, and elementary number theory. Prerequisite: A grade of C or better in any of MATH 1203, MATH 1204, MATH 1213, MATH 1284C, MATH 1313, MATH 2043, MATH 2053, MATH 2183 or MATH 2554, or a score of at least 80% on the University of Arkansas Mastery of Algebra Exam, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall, Spring and Summer)

MATH 2223. Survey of Mathematical Structures II. 3 Hours.
Geometry and measurement, and statistics and probability. Prerequisite: A grade of C or better in MATH 2213. (Typically offered: Fall, Spring and Summer)

MATH 2445. Calculus I with Review (ACTS Equivalency = MATH 2405). 5 Hours.
Derivative of functions of one variable, applications of the derivative, introduction of the integral, and applications. Credit will be allowed for only one of MATH 2445, MATH 2554 or MATH 2043. Prerequisite: MATH 1213 with a grade of C or better, or MATH 1284C with a grade of C or better, or a score of at least 70 on the Math Placement Test, or a score of at least 28 on the math component of the ACT exam, or a score of at least 640 on the math component of the old SAT or 660 on the math component of the new SAT, or a score of at least 2 on the Calculus AB or BC Advanced Placement Exam. (Typically offered: Fall, Spring and Summer)

This course is equivalent to MATH 2554.

MATH 2514. Calculus with Algebra and Trigonometry II. 4 Hours.
Continuation of MATH 1514. Topics in algebra, trigonometry, and precalculus are integrated with elementary differential and integral calculus. Completion of MATH 1514 and MATH 2514 is equivalent to completion of MATH 1284C and MATH 2554C. This course is meant exclusively for students who have previously taken MATH 1514. MATH 2514 BY ITSELF NOT EQUIVALENT TO EITHER MATH 1284C OR MATH 2554C. Closed to students with credit for MATH 2554C. Prerequisite: MATH 1514 with a grade of C or better. (Typically offered: Spring)

MATH 2554. Calculus I (ACTS Equivalency = MATH 2405). 4 Hours.
Derivative of functions of one variable, applications of the derivative, introduction of the integral, and applications. Credit will be allowed for only one of MATH 2554 and MATH 2043. Prerequisite: MATH 1213 with a grade of C or better, or MATH 1284C with a grade of C or better, or a score of at least 76 on the Math Placement Test, or a score of at least 28 on the math component of the ACT exam, or a score of at least 640 on the math component of the old SAT or 660 on the math component of the new SAT, or a score of at least 2 on the Calculus AB or BC Advanced Placement Exam. (Typically offered: Fall, Spring and Summer)

MATH 2554C. Calculus I (ACTS Equivalency = MATH 2405). 4 Hours.
Derivative of functions of one variable, applications of the derivative, introduction of the integral, and applications. Credit will be allowed for only one of MATH 2554 and MATH 2043. Corequisite: Drill component. Prerequisite: MATH 1213 with a grade of C or better, or MATH 1284C with a grade of C or better, or a score of at least 76 on the Math Placement Test, or a score of at least 28 on the math component of the ACT exam, or a score of at least 640 on the math component of the old SAT or 660 on the math component of the new SAT, or a score of at least 2 on the Calculus AB or BC Advanced Placement Exam. (Typically offered: Fall, Spring and Summer)

This course is equivalent to MATH 2554.
MATH 254H. Honors Calculus I. 4 Hours.
Topics in analytic geometry and calculus presented in a rigorous manner suitable for an honors student. Students may not receive credit for both MATH 2043 and MATH 2554. Prerequisite: Honors standing or departmental consent; and a score of at least 30 on the math component of the ACT exam, or a score of at least 680 on the math component of the old SAT or 710 on the math component of the new SAT. (Typically offered: Fall and Spring)
This course is equivalent to MATH 2554.
MATH 2564. Calculus II (ACTS Equivalency = MATH 2505). 4 Hours.
Integral calculus of one variable and infinite series. Prerequisite: MATH 2554 with a grade of C or better. (Typically offered: Fall, Spring and Summer)
MATH 2564C. Calculus II. 4 Hours.
Integral calculus of one variable and infinite series. Three hours of lecture and two hours of drill (recitation) per week. Corequisite: Drill component. Prerequisite: MATH 2554 with a grade of C or better. (Typically offered: Fall, Spring and Summer)
This course is equivalent to MATH 2564.
MATH 2564H. Honors Calculus II. 4 Hours.
Integral calculus of one variable and infinite series. Prerequisite: MATH 2554 with a grade of A, or MATH 2554H with a grade of A or B, or a score of 5 on the AP AB Calculus Exam. (Typically offered: Spring)
This course is equivalent to MATH 2564.
MATH 2574. Calculus III (ACTS Equivalency = MATH 2603). 4 Hours.
Differential and integral calculus of several variables, and vector calculus. Prerequisite: MATH 2554 with a grade of C or better. (Typically offered: Fall, Spring and Summer)
MATH 2574C. Calculus III. 4 Hours.
Differential and integral calculus of several variables, and vector calculus. Three hours of lecture and two hours of drill (recitation) per week. Corequisite: Drill component. Prerequisite: MATH 2554 with a grade of C or better. (Typically offered: Fall, Spring and Summer)
This course is equivalent to MATH 2574.
MATH 2574H. Honors Calculus III. 4 Hours.
Differential and integral calculus of several variables, and vector calculus. Prerequisite: MATH 2554 with a grade of A, or MATH 2554H with a grade of A or B, or a score of 5 on the AP BC Calculus exam. (Typically offered: Fall and Spring)
This course is equivalent to MATH 2574.
MATH 2584. Elementary Differential Equations. 4 Hours.
First and second order ordinary differential equations, the Laplace transform, and matrix systems of ordinary differential equations. Prerequisite: MATH 2564 or MATH 2564C with a grade of C or better. (Typically offered: Fall, Spring and Summer)
MATH 2584C. Elementary Differential Equations. 4 Hours.
First and second order ordinary differential equations, the Laplace transform, and matrix systems of ordinary differential equations. Three hours of lecture and two hours of drill (recitation) per week. Corequisite: Drill component. Prerequisite: MATH 2564 or MATH 2564C with a grade of C or better. (Typically offered: Fall, Spring and Summer)
This course is equivalent to MATH 2584.
MATH 2584H. Honors Elementary Differential Equations. 4 Hours.
Topics in ordinary differential equations, systems of differential equations and the Laplace transform presented with an emphasis on modeling. Prerequisite: MATH 2564 with a grade of A, or MATH 2564H with a grade of A or B, or a score of 5 on the AP BC Calculus exam. (Typically offered: Irregular)
This course is equivalent to MATH 2584.
MATH 2603. Discrete Mathematics. 3 Hours.
Introductory study of sets, relations, logic, proofs, algorithms, counting methods, graph theory, trees, and Boolean algebras. Prerequisite: MATH 2554 with a grade of C or better or the equivalent. (Typically offered: Fall, Spring and Summer)
MATH 2803. Transition to Advanced Mathematics. 3 Hours.
An introduction to concepts encountered in advanced mathematics. Emphasis is placed on developing the student's problem solving skills and ability to correctly communicate abstract concepts. Topics to include set theory, logic, relations, functions and mathematical induction presented in the context of intriguing mathematical problems. Pre- or Corequisite: MATH 2554 or MATH 2554C. (Typically offered: Fall and Spring)
MATH 2903. Functions, Foundations and Models. 3 Hours.
An in-depth study of topics from secondary school mathematics, emphasizing the development of the concept function, function patterns in data sets, connections among the main topics associated with a secondary school curriculum, and the appropriate use of technology. Pre-or Corequisite: MATH 2564 or MATH 2564C. (Typically offered: Fall and Spring)
MATH 3013. Introduction to Probability. 3 Hours.
A calculus-based introduction to probability. Discrete probability spaces and counting techniques, discrete and continuous probability distributions, random variables, random samples, law of large numbers, central limit theorem. Prerequisite: MATH 2564 or MATH 2564C. (Typically offered: Fall, Spring and Summer)
This course is cross-listed with STAT 3013.
MATH 3083. Linear Algebra. 3 Hours.
Systems of linear equations, vector spaces, linear transformations, matrices, and determinants. Only one of MATH 3083 and MATH 3093 will count for credit. Prerequisite: MATH 2554 or MATH 2564, with a grade of C or better. (Typically offered: Fall, Spring and Summer)
MATH 3093. Abstract Linear Algebra. 3 Hours.
A proof-based course on vector spaces, linear transformations, matrices, determinants, eigenspaces and eigenvalues, with applications. Recommended for mathematics majors. Only one of MATH 3083 and MATH 3093 may be counted for credit. Pre- or Corequisite: MATH 2564 with a C or better. Prerequisite: MATH 2803 with a C or better. (Typically offered: Fall and Spring)
MATH 3103. Combinatorics. 3 Hours.
Basic combinatorial techniques including the study of the principle of inclusion and exclusion and generating functions. Additional topics may include modular arithmetic, algebraic coding theory, Polya's method of enumeration, and an introduction to abstract algebraic structures. Prerequisite: MATH 2603 or MATH 2803. Pre- or Corequisite: MATH 3083 or MATH 3093. (Typically offered: Fall and Spring)
MATH 3113. Introduction to Abstract Algebra I. 3 Hours.
Introduction to algebraic structures with emphasis on rigorous justification of results. Prerequisite: MATH 2803 with a grade of C or better; and MATH 3083 or MATH 3093 with a grade of C or better. (Typically offered: Fall and Spring)
MATH 3133. History of Mathematics. 3 Hours.
Survey of the development of mathematical ideas from the ancient to the modern times. Prerequisite: MATH 2554, and MATH 2803 or MATH 2803, both with a grade of C or better. (Typically offered: Spring)
MATH 3203. Number Theory. 3 Hours.
Topics in elementary number theory. Prerequisite: MATH 2554, and MATH 2603 or MATH 2803, both with a grade of C or better. (Typically offered: Irregular)
MATH 3513. Elementary Analysis. 3 Hours.
A first rigorous course in analysis. The formal basis of the real number system, the Intermediate Value Theorem, Rolle's Theorem, differentiation, the Mean Value Theorem and its consequences, Taylor's Theorem, L'Hopital's rules, convexity, Riemann integration, the Fundamental Theorem of Calculus. Only one of MATH 3513 and MATH 4513 may be counted for credit toward the major. Prerequisite: A grade of C or better in each of MATH 2554 or MATH 2554C, MATH 2564 or MATH 2564C, MATH 2574 or MATH 2574C, MATH 3083 or MATH 3093, and MATH 2803. (Typically offered: Fall)
MATH 3583. Foundations of Applied Mathematics. 3 Hours.
Introduction to the derivation and analysis of physical models. Topics include dimensional analysis, perturbation methods, the method of characteristics, continuum mechanics, and elastic, material and fluid equations. Case studies come from biology, fluid dynamics, engineering, chemistry and other areas. Prerequisite: MATH 2574 and MATH 2584. (Typically offered: Fall)

MATH 3773. Foundations of Geometry I. 3 Hours.
Axiomatic method: Euclidean geometry; non-Euclidean geometry. Prerequisite: MATH 2554, and MATH 2603 or MATH 2803, each with a grade of C or better. (Typically offered: Fall)

MATH 3923H. Honors Colloquium. 3 Hours.
Covers a special topic or issue, offered as part of the honors program. Prerequisite: Honors candidacy (not restricted to candidacy in mathematics). (Typically offered: Irregular) May be repeated for degree credit.

MATH 399VH. Honors Mathematics Course. 1-6 Hour.
Honors thesis research and writing under the direction of a faculty member in the department. Prerequisite: Departmental consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

MATH 400V. Directed Readings. 1-7 Hour.
Directed readings. Prerequisite: Departmental consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 7 hours of degree credit.

MATH 405V. Internship in Professional Practice. 1-3 Hour.
Professional work experience involving significant use of mathematics or statistics in business, industry or government. Prerequisite: Departmental consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

MATH 4103. Advanced Linear Algebra. 3 Hours.
Linear functionals, matrix representation of linear transformations, scalar product, and spectral representation of linear transformations. Prerequisite: MATH 3083 or MATH 3093. (Typically offered: Irregular)

MATH 4113. Introduction to Abstract Algebra II. 3 Hours.
Topics in abstract algebra including finite abelian groups, linear groups, factorization in commutative rings and Galois theory. Prerequisite: MATH 3113. (Typically offered: Spring)

MATH 4153. Mathematical Modeling. 3 Hours.
Mathematical techniques for formulating, analyzing, and criticizing deterministic models taken from the biological, social, and physical sciences. Techniques include graphical methods, stability, optimization, and phase plane analysis. Prerequisite: MATH 2584. (Typically offered: Irregular)

MATH 4163. Dynamic Models in Biology. 3 Hours.
Mathematical and computational techniques for developing, executing, and analyzing dynamic models arising in the biological sciences. Both discrete and continuous time models are studied. Applications include population dynamics, cellular dynamics, and the spread of infectious diseases. Prerequisite: MATH 2554. (Typically offered: Irregular)

MATH 4173. Mathematical CAM Design. 3 Hours.
Mathematical and computational techniques for Computer aided manufacturing. Applying linear algebra to model 3d space, representation of curves and surfaces in 3d models, converting between smooth and discrete approximations of curves, algorithms to create surfaces from machine toolpaths, inverse kinematics, basic G-Code programming. Prerequisite: MATH 2574 or MATH 2574C. (Typically offered: Irregular)

MATH 4253. Symbolic Logic I. 3 Hours.
Rigorous analyses of the concepts of proof, consistency, equivalence, validity, implication, and truth. Full coverage of truth-functional logic and quantification theory (predicate calculus). Discussion of the nature and limits of mechanical procedures (algorithms) for proving theorems in logic and mathematics. Informal accounts of the basic facts about infinite sets. Prerequisite: MATH 2603, MATH 2803, or PHIL 2203. (Typically offered: Fall)

This course is cross-listed with PHIL 4253.

MATH 4303. Ordinary Differential Equations. 3 Hours.
Existence, uniqueness, stability, qualitative behavior, and numerical solutions. Prerequisite: MATH 2584 and (MATH 4513 or MATH 3513). (Typically offered: Fall)

MATH 4343. Introduction to Scientific Computing. 3 Hours.
Provides an understanding of a diverse set of problems, as well as algorithms for solving them and implementing the algorithms using high performance computing resources and environments. The emphasis is on problem solving and offers multiple projects concerning applications in science and engineering. Prerequisite: MATH 3083 or MATH 3093. (Typically offered: Spring)

MATH 4353. Numerical Linear Algebra. 3 Hours.
Numerical methods for problems of linear algebra, including the solution of very large systems, eigenvalues, and eigenvectors. Prerequisite: MATH 3083 or MATH 3093. (Typically offered: Spring)

MATH 4363. Numerical Analysis. 3 Hours.
General iterative techniques, error analysis, root finding, interpolation, approximation, numerical integration, and numerical solution of differential equations. Prerequisite: MATH 2584. (Typically offered: Fall)

MATH 4373. Finite Element Methods and Solution of Sparse Linear Systems. 3 Hours.
Provides an in-depth understanding of numerical methods for the solution of partial differential equations using Finite Element Methods, Direct and Iterative Methods for the Sparse Linear Systems. Prerequisite: MATH 4353. (Typically offered: Spring)

MATH 4403. Numerical Linear Algebra II. 3 Hours.
Provides an in-depth understanding of numerical methods for the solution of large scale eigenvalue problems arising in science and engineering applications including theory, implementation and applications. Prerequisite: MATH 4353. (Typically offered: Fall)

MATH 4423. Introduction to Partial Differential Equations. 3 Hours.
Matrices, Fourier analysis, and partial differential equations. Prerequisite: MATH 2584 or MATH 2584C with a grade of C or better; and MATH 2574 with a grade of C or better. (Typically offered: Fall, Spring and Summer)

MATH 4443. Complex Variables. 3 Hours.
Complex analysis, series, and conformal mapping. Additional applications for graduate credit. Prerequisite: MATH 2603 or MATH 2803, and MATH 2584 or MATH 2584C. (Typically offered: Fall)

MATH 4503. Differential Geometry. 3 Hours.
Topics include: classical differential geometry of curves and surfaces in 3-space, differential forms and vector fields. Prerequisite: MATH 2574 or MATH 2574C. (Typically offered: Irregular)

MATH 4513. Advanced Calculus I. 3 Hours.
The real and complex number systems, basic set theory and topology, sequences and series, continuity, differentiation, and Taylor's theorem. Emphasis is placed on careful mathematical reasoning. Only one of MATH 3513 and MATH 4513 may be counted for credit toward the major. Prerequisite: MATH 2574, MATH 2803 and MATH 3083 or MATH 3093. (Typically offered: Fall and Spring)

MATH 4523. Advanced Calculus II. 3 Hours.
The Riemann-Stieltjes integral, uniform convergence of functions, Fourier series, implicit function theorem, Jacobians, and derivatives of higher order. Prerequisite: MATH 4513. (Typically offered: Spring)
MATH 4703. Introduction to Point-Set Topology. 3 Hours.
A study of topological spaces including continuous transformations, connectedness and compactness. Prerequisite: MATH 4513. (Typically offered: Irregular)

MATH 4933. Mathematics Major Seminar. 3 Hours.
Weekly seminars on topics of historical or cross-disciplinary interest, designed to address students' mathematical knowledge, problem-solving and communication skills, in which student presentations play a part. Also serves as a forum for sharing information about career opportunities and preparation for employment. Prerequisite: Senior standing and a mathematics major, or departmental consent. (Typically offered: Spring)

MATH 498V. Senior Thesis. 1-6 Hour.
Senior thesis. (Typically offered: Fall, Spring and Summer)

MATH 499V. Research Topics in Mathematics. 1-3 Hour.
Current research interests in mathematics, at an advanced undergraduate or beginning graduate level. Prerequisite: Departmental consent. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

MATH 5013. Abstract Algebra with Connections to School Mathematics. 3 Hours.
Basic structures of abstract algebra (rings, fields, groups, modules and vector spaces) with emphasis on rings and fields as generalizations of the ring of integers and field of rational numbers. Graduate degree credit will not be awarded for both MATH 4113 (or MATH 5123) and MATH 5013. Prerequisite: Graduate standing or departmental consent. (Typically offered: Irregular)

MATH 5023. Geometry with Connections to School Mathematics. 3 Hours.
School geometry from an advanced perspective including conformity to the Common Core State Standards for Mathematics. Study will include historical developments and geometry based on transformations of two- and three-dimensional space. Prerequisite: Graduate standing. (Typically offered: Fall Odd Years)

MATH 5033. Advanced Calculus with Connections to School Mathematics Teaching. 3 Hours.
Rigorous development of the real numbers, continuity, differentiation, and integration. Graduate degree credit will not be awarded for both MATH 4513 (or MATH 5503) and MATH 5033. Prerequisite: Departmental consent. (Typically offered: Irregular)

MATH 504V. Special Topics for Teachers. 1-6 Hour.
Current topics in mathematics of interest to secondary school teachers. Prerequisite: Graduate standing or departmental consent. (Typically offered: Irregular) May be repeated for degree credit.

MATH 5053. Probability & Statistics with Connections to School Mathematics. 3 Hours.
An advanced perspective of probability and statistics as contained in the high school mathematics curriculum with connections to other components of school mathematics. The content is guided by the content of the high school probability and statistics of the Common Core State Standards for Mathematics. Prerequisite: Graduate standing. (Typically offered: Spring)

MATH 507V. Professional Development for Secondary Mathematics Teaching. 1-6 Hour.
Validated participation in professional development mathematics workshops or institutes sanctioned by national or international educational organizations such as the College Board, International Baccalaureate Program, and the National Board for Professional Teaching Standards. Prerequisite: Enrollment in Secondary Mathematics Teaching, MA degree program or departmental consent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

MATH 510V. Mathematical Seminar. 1-3 Hour.
Members of the faculty and advanced students meet for presentation and discussion of topics. Prerequisite: Graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall and Spring) May be repeated for up to 3 hours of degree credit.

MATH 5113. Introduction to Abstract Algebra II. 3 Hours.
(Formerly MATH 4113.) Topics in abstract algebra including finite abelian groups, linear groups, factorization in commutative rings and Galois theory. Graduate degree credit will not be given for both MATH 4113 and MATH 5113. Prerequisite: MATH 5113. (Typically offered: Spring)

MATH 5123. Algebra I. 3 Hours.
What the beginning graduate student should know about algebra: groups, rings, fields, modules, algebras, categories, homological algebra, and Galois Theory. Prerequisite: MATH 3113, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall)

MATH 5133. Algebra II. 3 Hours.
Continuation of MATH 5123. Prerequisite: MATH 5123, and graduate standing in mathematics or statistics. (Typically offered: Spring)

MATH 5153. Advanced Linear Algebra. 3 Hours.
(Formerly MATH 4103.) Linear functionals, matrix representation of linear transformations, scalar product, and spectral representation of linear transformations. Graduate degree credit will not be given for both MATH 4103 and MATH 5153. Prerequisite: Graduate standing. (Typically offered: Fall)

MATH 5163. Dynamic Models in Biology. 3 Hours.
(Formerly MATH 4163.) Mathematical and computational techniques for developing, executing, and analyzing dynamic models arising in the biological sciences. Both discrete and continuous time models are studied. Applications include population dynamics, cellular dynamics, and the spread of infectious diseases. Graduate degree credit will not be given for both MATH 4163 and MATH 5163. Prerequisite: MATH 2554. (Typically offered: Irregular)

MATH 5213. Advanced Calculus I. 3 Hours.
(Formerly MATH 4513.) The real and complex number systems, basic set theory and topology, sequences and series, continuity, differentiation, and Taylor's theorem. Emphasis is placed on careful mathematical reasoning. Graduate degree credit will not be given for both MATH 4513 and MATH 5213. Prerequisite: Graduate standing. (Typically offered: Fall)

MATH 5223. Advanced Calculus II. 3 Hours.
(Formerly MATH 4523.) The Riemann-Stieltjes integral, uniform convergence of functions, Fourier series, implicit function theorem, Jacobians, and derivatives of higher order. Graduate degree credit will not be given for both MATH 4523 and MATH 5223. Prerequisite: MATH 4513 or MATH 5213 (formerly MATH 4513). (Typically offered: Spring)

MATH 525V. Internship in Professional Practice. 1-3 Hour.
(Formerly MATH 405V.) Professional work experience involving significant use of mathematics or statistics in business, industry or government. Graduate degree credit will not be given for both MATH 405V and MATH 525V. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

MATH 5263. Symbolic Logic I. 3 Hours.
(Formerly MATH 4253.) Rigorous analyses of the concepts of proof, consistency, equivalence, validity, implication, and truth. Full coverage of truth-functional logic and quantification theory (predicate calculus). Discussion of the nature and limits of mechanical procedures (algorithms) for proving theorems in logic and mathematics. Informal accounts of the basic facts about finite sets. Graduate degree credit will not be given for both MATH 4253 and MATH 5263. Prerequisite: MATH 2603, MATH 2803, or PHIL 2203. (Typically offered: Fall)
This course is cross-listed with PHIL 5253.

MATH 5303. Ordinary Differential Equations. 3 Hours.
Existence, uniqueness, stability, qualitative behavior, and numerical solutions. Prerequisite: MATH 2584 and MATH 4513, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall)
MATH 5313. Partial Differential Equations. 3 Hours.  
Laplace's equation, Heat equation, Wave Equation, Method of Characteristics. Prerequisite: MATH 4423, MATH 4513, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall)

MATH 5323. Partial Differential Equations II. 3 Hours.  
Fourier Transforms, Sobolev Spaces, Elliptic Regularity. Prerequisite: MATH 5313 and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Spring)

MATH 5353. Mathematical Modeling. 3 Hours.  
(Formerly MATH 4153.) Mathematical techniques for formulating, analyzing, and criticizing deterministic models taken from the biological, social, and physical sciences. Techniques include graphical methods, stability, optimization, and phase plane analysis. Graduate degree credit will not be given for both MATH 4153 and MATH 5353. Prerequisite: MATH 2584. (Typically offered: Irregular)

MATH 5363. Scientific Computation and Numerical Methods. 3 Hours.  
An introduction to numerical methods used in solving various problems in engineering and the sciences. May not earn credit for this course and MATH 4353 or MATH 4363. Prerequisite: Graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall) This course is cross-listed with PHYS 5363.

MATH 5373. Finite Element Methods and Solution of Sparse Linear. 3 Hours.  
Provides an in-depth understanding of numerical methods for the solution of partial differential equations using Finite Element Methods, Direct and Iterative Methods for the Sparse Linear Systems. Prerequisite: MATH 5393. (Typically offered: Spring)

MATH 5383. Numerical Analysis. 3 Hours.  
(Formerly MATH 4363.) General iterative techniques, error analysis, root finding, interpolation, approximation, numerical integration, and numerical solution of differential equations. Graduate degree credit will not be given for both MATH 4363 and MATH 5383. Prerequisite: Graduate standing. (Typically offered: Fall)

MATH 5393. Numerical Linear Algebra. 3 Hours.  
(Formerly MATH 4353.) Numerical methods for problems of linear algebra, including the solution of very large systems, eigenvalues, and eigenvectors. Graduate degree credit will not be given for both MATH 4353 and MATH 5393. Prerequisite: Graduate standing. (Typically offered: Spring)

MATH 5403. Numerical Linear Algebra II. 3 Hours.  
Provides an in-depth understanding of numerical methods for the solution of large scale eigenvalue problems arising in science and engineering applications including theory, implementation and applications. Prerequisite: MATH 5393. (Typically offered: Fall)

MATH 5423. Introduction to Partial Differential Equations. 3 Hours.  
Matrices, Fourier analysis, and partial differential equations. Does not count towards degree credit in MATH. Prerequisite: Graduate standing. (Typically offered: Fall and Spring)

MATH 5443. Complex Variables. 3 Hours.  
(Formerly MATH 4443.) Complex analysis, series, and conformal mapping. Graduate degree credit will not be given for both MATH 4443 and MATH 5443. Prerequisite: MATH 2603 or MATH 2803, and MATH 2584 or MATH 2584C. (Typically offered: Fall)

MATH 5453. Functional Analysis I. 3 Hours.  
Banach Spaces, Hilbert Spaces, operator theory, compact operators, dual spaces and adjoints, spectral theory, Hahn-Banach, open mapping and closed graph theorems, uniform boundedness principle, weak topologies. Prerequisite: MATH 5513, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Spring Odd Years)

MATH 5503. Theory of Functions of a Real Variable I. 3 Hours.  
Real number system, Lebesque measure, Lebesque integral, convergence theorems, differentiation of monotone functions, absolute continuity and the fundamental theorem of calculus L^P spaces, Holder and Minkowski inequalities, and bounded linear functionals on the L^P spaces. Prerequisite: MATH 4523 or MATH 5223 (formerly MATH 4523), and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall)

MATH 5513. Theory of Functions of a Real Variable II. 3 Hours.  
Measure and integration on abstract measure spaces, signed measures, Hahn decomposition, Radon-Nikodym theorem, Lebesque decomposition, measures on algebras and their extensions, product measures, and Fubini's theorem. Prerequisite: MATH 5503, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Spring)

MATH 5523. Theory of Functions of a Complex Variable I. 3 Hours.  
Comlex numbers, analytic functions, power series, complex integration, Cauchy's Theorem and integral formula, maximum principle, singularities, Laurent series, and Mobius maps. Prerequisite: MATH 4513 or MATH 5213 (formerly MATH 4513). (Typically offered: Fall)

MATH 5533. Theory of Functions of a Complex Variable II. 3 Hours.  
Riemann Mapping Theorem, analytic continuation, harmonic functions, and entire functions. Prerequisite: MATH 5523, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Spring)

MATH 5603. Differential Geometry. 3 Hours.  
(Formerly MATH 4503.) Topics include: classical differential geometry of curves and surfaces in 3-space, differential forms and vector fields. Graduate degree credit will not be given for both MATH 4503 and MATH 5603. Prerequisite: MATH 2574 or MATH 2574C. (Typically offered: Irregular)

MATH 5703. Topology I. 3 Hours.  
An introduction to topology. Topics include metric spaces, topological spaces and general point-set topology, homotopy and the fundamental group, covering spaces, the classification of surfaces. Prerequisite: MATH 4513 or MATH 5213 (formerly MATH 4513), and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall Even Years)

MATH 5713. Topology II. 3 Hours.  
The continuation of Topology I. Topics include: advanced homotopy and covering spaces, the Seifert-van Kampen theorem, homology and the Mayer-Vietoris sequence. Prerequisite: MATH 5703, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Spring Odd Years)

MATH 5723. Differential Topology I. 3 Hours.  
An introduction to the topology of smooth manifolds: applications of the inverse function theorem to smooth maps, Sard's theorem, transversality, intersection theory, degrees of maps, vector fields and differential forms on manifolds, integration on manifolds. Prerequisite: MATH 4513 or MATH 5213 (formerly MATH 4513) and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall Odd Years)

MATH 5733. Differential Topology II. 3 Hours.  
The continuation of Differential Topology I, with additional advanced topics. Possible advanced topics may include: Morse theory, de Rham cohomology theory, Poincare duality, Riemannian geometry, and Lie groups and Lie algebras. Prerequisite: MATH 5723 and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Spring Even Years)

MATH 5803. Introduction to Point-Set Topology. 3 Hours.  
(Formerly MATH 4703.) A study of topological spaces including continuous transformations, connectedness and compactness. Graduate degree credit will not be given for both MATH 4703 and MATH 5803. Prerequisite: MATH 4513 or MATH 5213 (formerly MATH 4513). (Typically offered: Irregular)
MATH 599V. Research Topics in Mathematics. 1-3 Hour.
(Formerly MATH 499V.) Current research interests in mathematics. Graduate
degree credit will not be given for both MATH 499V and MATH 599V. Prerequisite:
Departmental consent. (Typically offered: Irregular) May be repeated for up to 12
hours of degree credit.

MATH 609V. Topics in Math Education. 1-6 Hour.
Topics in mathematics education research including curriculum, teacher education,
learning theory, and assessment. Prerequisite: Graduate standing. (Typically
offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

MATH 610V. Directed Readings. 1-6 Hour.
Directed readings. Prerequisite: Departmental consent. (Typically offered:
Irregular) May be repeated for up to 18 hours of degree credit.

MATH 619V. Topics in Algebra. 1-6 Hour.
Current research interests in algebra. Prerequisite: Graduate standing in
mathematics or statistics, or departmental consent. (Typically offered: Fall, Spring
and Summer) May be repeated for degree credit.

MATH 6203. Theory of Probability. 3 Hours.
A rigorous mathematical treatment based on measure theory of the fundamental
notions and results of the theory of probability. Topics covered include laws of large
numbers, central limit theorems, conditional expectations. Additional topics that may
be covered include martingales, Markov chains, Brownian motion and stochastic
integration. Prerequisite: MATH 5513. (Typically offered: Fall)

MATH 6213. Mathematical Statistics. 3 Hours.
A rigorous mathematical treatment of the fundamental principles and results in the
theory of Statistics. Topics include exponential families of distributions, estimation
of unknown parameters, the classical theory of theory of hypothesis testing, Large
sample approximations, large sample properties of estimators. Prerequisite:
MATH 6203. (Typically offered: Spring)

MATH 659V. Topics in Analysis. 1-6 Hour.
Current research interests in analysis. Prerequisite: Graduate standing in
mathematics or statistics, or departmental consent. (Typically offered: Fall, Spring
and Summer) May be repeated for degree credit.

MATH 679V. Topics in Topology. 1-6 Hour.
Current research interest in topology. Prerequisite: Graduate standing in
mathematics or statistics, or departmental consent. (Typically offered: Fall, Spring
and Summer) May be repeated for degree credit.

MATH 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. Prerequisite: Doctoral candidacy in mathematics. (Typically
offered: Fall, Spring and Summer) May be repeated for degree credit.

Mechanical Engineering (MEEG)

MEEG 2003. Statics. 3 Hours.
Equilibrium and resultants of force systems in a plane and in space; analysis of
structures, friction, centroids, moments of inertia, and virtual work method. Methods
of analysis are emphasized. Corequisite: Drill component. Pre- or Corequisite:
MATH 2574 or MATH 2574C. Prerequisite: PHYS 2054. (Typically offered: Fall,
Spring and Summer)

MEEG 2003H. Honors Statics. 3 Hours.
Equilibrium and resultants of force systems in a plane and in space; analysis of
structures, friction, centroids, moments of inertia, and virtual work method. Methods
of analysis are emphasized. Corequisite: Drill component. Pre- or Corequisite:
MATH 2574 or MATH 2574C. Prerequisite: PHYS 2054 and honors standing.
(Typically offered: Fall, Spring and Summer)

This course is equivalent to MEEG 2003.

MEEG 2013. Dynamics. 3 Hours.
Kinematics and kinetics of particle and of rigid bodies; work and energy; impulse
and momentum, and special topics. Corequisite: Drill component. Prerequisite:
MEEG 2003 and MATH 2574. (Typically offered: Fall, Spring and Summer)

MEEG 2101. Computer-aided Design. 1 Hour.
The concept and application of solid-modeling, based on SolidWorks Computer-
Aided Design (CAD) software suite, are introduced in this course. They include
sketches, parts modeling, assembly of parts, and drawing documentation.
Prerequisite: GNEG 1121 or GNEG 1121H or GNEG 1103. (Typically offered: Fall
and Spring)

MEEG 2103. Introduction to Machine Analysis. 3 Hours.
Introduction to kinematics and kinetics of mechanisms, static and dynamic forces,
gears and cam design and analysis. Recitation three hours per week and drill one
hour per week. Corequisite: Drill component. Pre- or Corequisite: MEEG 2013.
Prerequisite: PHYS 2054 and MEEG 2101. (Typically offered: Spring and Summer)

MEEG 2303. Introduction to Materials. 3 Hours.
A study of chemical, physical, and electrical properties of materials using
fundamental atomistic approach. The materials of interest are: metals, polymers,
ceramics, and composites. The interactive relationship between structure,
properties, and processing of materials will be emphasized. For various engineering
applications. Corequisite: Drill component. Prerequisite: MATH 2554, PHYS 2054
and CHEM 1103. (Typically offered: Fall and Spring)

MEEG 2403. Thermodynamics. 3 Hours.
A study of the 1st and 2nd laws of thermodynamics. Availability of energy, properties
of liquids, gases, and vapors; nonflow and flow processes. Recitation 3 hours,
drill 2 hours per week. Corequisite: Drill component. Prerequisite: PHYS 2054 and
MATH 2564. (Typically offered: Fall, Spring and Summer)

MEEG 2703. Computer Methods in Mechanical Engineering. 3 Hours.
Use of computers and programming for solving engineering problems. Basic
numerical methods including errors, equation solution, matrices, optimization,
regression, integration, and differential equations. Corequisite: Drill component. Pre-
or Corequisite: MATH 2584. (Typically offered: Spring and Summer)

MEEG 3013. Mechanics of Materials. 3 Hours.
Stress and deformation of members in tension, compression, torsion, and bending,
and the design of these members. Columns, statically indeterminate beams, and
(Typically offered: Fall, Spring and Summer)

MEEG 3013H. Honors Mechanics of Materials. 3 Hours.
Stress and deformation of members in tension, compression, torsion, and bending,
and the design of these members. Columns, statically indeterminate beams, and
simple connections. Corequisite: Drill component. Prerequisite: MEEG 2003 and
honors standing. (Typically offered: Fall, Spring and Summer)

This course is equivalent to MEEG 3013.

MEEG 3113. Fundamentals of Vibrations. 3 Hours.
Time and frequency domain mathematical techniques for linear system vibrations
are reviewed. Undamped system and viscously damped systems are analyzed.
Equations of motion of single and multiple degrees-of-freedom systems are studied.
Vibration of multi-degree-of-freedom systems are analyzed using modal analysis
and modal summation methods. Eigenvalue problems as related vibrations are
studied. Corequisite: Drill component. Prerequisite: MEEG 2103, MATH 2584 or
MATH 2584C, MEEG 2703, and MEEG 2013. (Typically offered: Fall and Spring)

MEEG 3202L. Mechanical Engineering Laboratory I. 2 Hours.
Introduction to measurement, uncertainty, data acquisition, and instrumentation
with an emphasis in materials and manufacturing. Corequisite: Drill component,
Pre- or Corequisite: MEEG 3013 and ELEG 3903. Prerequisite: MEEG 2303 and
PHYS 2074. (Typically offered: Fall and Spring)
MEEG 3212L. Mechanical Engineering Laboratory II. 2 Hours.
Design and implementation of measurements, fabrication processes, data acquisition, and data analysis with emphasis in mechanical and fluid systems. Corequisite: Drill component. Prerequisite: MEEG 3202L, MEEG 3503 and MEEG 3113. (Typically offered: Fall and Spring)

MEEG 3223. Introduction to Mechatronics. 3 Hours.
This course is an introduction to design and control the mechatronic system, which requires integration of the mechanical and electrical knowledge within a unified framework. The topics covered in this course include basic electronics, diodes, transistors, power amplifiers, digital logic, operation amplifier, motor design, encoder, and programming in Arduino. Corequisite: Lab component. Prerequisite: MEEG 3202L. (Typically offered: Spring)

MEEG 3503. Mechanics of Fluids. 3 Hours.
A study of fluids including fluid properties, pressure, and flow fields utilizing conservation of mass, energy, and momentum principles. Prerequisite: MEEG 2403 or CHEG 2313. Pre- or Corequisite: MATH 2584. (Typically offered: Fall and Summer)

MEEG 4003. Intermediate Dynamics. 3 Hours.
Review of central-force motion of spacecraft, use of rotating reference frames, Coriolis acceleration. Kinematics of rigid bodies in 3-D space: velocities and accelerations in different moving reference frames, addition theorem of angular accelerations. Kinetics of rigid bodies in 3-D space: eigenvalues and eigenvectors of inertia matrices, momentum and kinetic energy of a rigid body in 3-D motion, Euler's equations of motion; precession, nutation, and spin of a gyroscope; forced steady precession, torque free steady precession, space cone, and body cone. Prerequisite: MEEG 2013. (Typically offered: Irregular)

MEEG 4023. Composite Materials: Analysis and Design. 3 Hours.
A study of fibrous composite materials with emphasis on mechanical behavior, synthesis, and application. Topics include macro- and micromechanical analysis lamina, lamina theory, failure analysis in design, and manufacturing techniques. Prerequisite: MEEG 3013. (Typically offered: Irregular)

MEEG 4103. Machine Element Design. 3 Hours.
This course introduces the static failure theories and fatigue failure theories, and how each of the theories can be applied in practical engineering problems in supporting the selection and design of machine elements. This course also introduces key design concepts, design principles, design process, and design guidelines for four commonly-used machine elements: spring, gear, bearing and shaft. Pre- or Corequisite: MEEG 3113. Prerequisite: MEEG 3013. (Typically offered: Fall, Spring and Summer)

MEEG 4103H. Honors Machine Element Design. 3 Hours.
This course introduces the static failure theories and fatigue failure theories, and how each of the theories can be applied in practical engineering problems in supporting the selection and design of machine elements. This course also introduces key design concepts, design principles, design process, and design guidelines for four commonly-used machine elements: spring, gear, bearing and shaft. Advanced project required of honors students. Advanced project required. (Typically offered: Fall, Spring and Summer)

This course is equivalent to MEEG 4103.

MEEG 4123. Finite Element Methods I. 3 Hours.
Introduction to the use of the finite element method in mechanical engineering analysis and design. Use of commercial software to solve thermal and mechanical problems. Pre- or Corequisite: MEEG 3013 and MEEG 4413. (Typically offered: Irregular)

MEEG 4132. Professional Engineering Practices. 2 Hours.
Design proposal preparation, design codes, professional ethics, engineering economics, and the role of the engineer in society. Pre- or Corequisite: MEEG 4103 or MEEG 4483. (Typically offered: Fall and Spring)

MEEG 4143. Design for Safety. 3 Hours.
This course provides an overview of safety engineering and a framework from which the students can evaluate and develop mechanical and thermal systems from a safety perspective. Pre- or Corequisite: MEEG 4413. Prerequisite: MEEG 3013. (Typically offered: Irregular)

MEEG 4153. Fundamentals of Mechanical Design. 3 Hours.
This class is designed to provide engineering students with a head start in industry as design engineers or working in an engineering related function. The course contents cover machine design and analysis experiences as related to working in industry and performing consulting work. Major topics include the design process, design procedures, fasteners, general design and numerous consulting experiences. A concept design exercise and two special design projects will be assigned to the students as homework. Prerequisite: MEEG 4103. (Typically offered: Fall)

MEEG 4173. Model-Based Systems Design and Analysis. 3 Hours.
This course provides students with an introduction into the two main approaches to understanding and designing complex engineered systems. First, the course covers the unique technical challenge of systems engineering and design of systems. Second, the course covers concepts, methods and tools related to "model-based systems design." This covers formal modeling of the information content of complex systems. The third portion of the course will focus on modeling the complex behavior of the systems. This is often described as dynamical systems modeling. Students will utilize the methods and tools presented in class to model a complex engineered system of their choice (with instructor approval). The classes will alternate between presenting modeling methods to the students and students demonstrating their system to the class utilizing those methods. Students may not receive credit for both MEEG 4173 and MEEG 5173. Prerequisite: MEEG 4103 or Instructor consent. (Typically offered: Spring Even Years)

MEEG 4182. Creative Project Design I. 2 Hours.
Students will select a capstone design project, and each student group will prepare a formal written proposal on their project for presentation to a panel of judges. This group project will be carried to completion in MEEG 4192. Corequisite: MEEG 4483. Prerequisite: MEEG 4103. (Typically offered: Fall and Spring)

MEEG 4192. Creative Project Design II. 2 Hours.
Students choose their capstone project from a list of approved engineering problems. During the course of two semesters, students will learn and apply the design process along with project management skills to deliver the solution on time and on budget as a team. For the first semester (CP1) the team will focus on design of the best solution and development of a complete engineering package necessary to move forward. In the final semester (CP2) the team will implement and test the performance of their solution. Prerequisite: MEEG 4182. (Typically offered: Fall and Spring)

MEEG 4202L. Mechanical Engineering Laboratory III. 2 Hours.
Application of measurement techniques to mechanical engineering problems which emphasize mechanical and thermal systems. Corequisite: Drill component. Pre- or corequisite: MEEG 4483. Prerequisite: MEEG 3212L and MEEG 4103. (Typically offered: Fall, Spring and Summer)

MEEG 4213. Control of Mechanical Systems. 3 Hours.
Mathematical modeling for feedback control of dynamic mechanical systems with design techniques using LaPlace transforms, state variables, root locus, frequency analysis, and criteria for performance and stability. Prerequisite: MEEG 3113. (Typically offered: Irregular)

MEEG 4233. Microprocessors in Mechanical Engineering I: Electromechanical Systems. 3 Hours.
Microcomputer architectural, programming, and interfacing. Smart product design (microprocessor-based design). Control of DC and stepper motors and interfacing to sensors. Applications to robotics and real-time control. Mobile robot project. Digital and analog electronics are reviewed where required. Prerequisite: ELEG 3903. (Typically offered: Irregular)
MEEG 4253. Introduction to Robotics. 3 Hours.
This course serves as an introduction to robotics. The course covers the historical development of robotics as a field, and as mechatronics systems, the importance of integrating sensors, actuators and end-effectors. Topics covered in this course will include but not limited to the following: mathematical modeling of robots, rigid motions and homogeneous transformation, forward/inverse kinematics, and velocity kinematics. Prerequisite: MEEG 2703, MEEG 3113 and instructor consent. (Typically offered: Fall)

MEEG 4303. Materials Laboratory. 3 Hours.
A study of properties, uses, testing, and heat treatment of basic engineering materials and related analytical techniques. Corequisite: Lab component. Prerequisite: MEEG 2303. (Typically offered: Irregular)

MEEG 4313. Introduction to Tribology. 3 Hours.
A study of science and technology of interacting surfaces in relative motion. Topics include solid surface characterization, contact between solid surfaces, adhesion, friction, wear, lubrication, micro/nanotribology, friction and wear screening test methods, and tribological components and applications. Prerequisite: MEEG 3013 and MEEG 3503 or graduate standing. (Typically offered: Irregular)

MEEG 4323L. Nanotechnology Laboratory. 3 Hours.
Provides students with hands-on experience in several major areas of nanotechnology, including nanoscale imaging, synthesis of nanomaterials, nanostructure assembly and manipulation, device and system integration, and performance evaluation. Students can earn credit for only one of the following courses: MEEG 4323L, BENG 4753L, BMEG 4103L, CHEM 4153L, PHYS 4793L. Corequisite: Drill component, junior standing and instructor consent. Prerequisite: MATH 2564 and PHYS 2074. (Typically offered: Fall)
This course is cross-listed with CHEM 4153L, PHYS 4793L.

MEEG 4323M. Honors Nanotechnology Laboratory. 3 Hours.
Provides students with hands-on experience in several major areas of nanotechnology, including nanoscale imaging, synthesis of nanomaterials, nanostructure assembly and manipulation, device and system integration, and performance evaluation. Students can earn credit for only one of the following courses: MEEG 4323M, BENG 4753L, BMEG 4103L, CHEM 4153L, PHYS 4793L. Corequisite: Drill component, junior standing and instructor consent. Prerequisite: MATH 2564 and PHYS 2074. (Typically offered: Fall)

MEEG 4333. Hybrid Electric Vehicles. 3 Hours.
This course is intended to provide an introduction to basics of hybrid and pure electrical vehicles (mainly passenger cars), covering history, architecture, constituents, working mechanisms, and key technologies. The course focuses on fundamental concepts of different hybrid electrical vehicles (HEVs) and their technical features and highlights the successes of the state-of-the-art pure electrical vehicles (EVs). In addition, this course will introduce various battery technologies used for electrical vehicles, covering traditional batteries, lithium-ion batteries, and batteries beyond lithium-ions. It is appropriate for engineering and natural science students interested in obtaining basic knowledge of hybrid and pure electrical vehicles to prepare for a career in developing alternate energy sources. Prerequisite: ELEG 3903 or BENG 3113, and senior standing. (Typically offered: Spring)

MEEG 4413. Heat Transfer. 3 Hours.
Basic thermal energy transport processes; conduction, convection, and radiation; and the mathematical analysis of systems involving these processes in both steady and time-dependent cases. Prerequisite: MEEG 3503. (Typically offered: Spring and Summer)

MEEG 4423. Power Generation. 3 Hours.
Study of design and operational aspects of steam, gas, and combined cycle power plants. Brief study of Nuclear and Alternative energy systems. Prerequisite: MEEG 3503. (Typically offered: Irregular)

MEEG 4433. Aerospace Propulsion. 3 Hours.
Principles, operation, and characteristics of gas turbine and rocket engines. Brief study of novel spacecraft propulsion systems. Prerequisite: MEEG 3503. (Typically offered: Irregular)

MEEG 4453. Industrial Waste and Energy Management. 3 Hours.
Applications of thermodynamics, heat transfer, fluid mechanics, and electric machinery to the analysis of waste streams and energy consumption for industrial facilities. Current techniques and technologies for waste minimization and energy conservation including energy-consuming systems and processes, utility rate analysis, economic analysis and auditing are taught. Prerequisite: MEEG 4413. (Typically offered: Irregular)

MEEG 4473. Indoor Environmental Control. 3 Hours.
Gives student a thorough understanding of the fundamental theory of air conditioning design for commercial buildings, including calculating heating and cooling loads along with the proper selection and sizing of air conditioning equipment. Prerequisite: MEEG 4413. (Typically offered: Irregular)

MEEG 4483. Thermal Systems Analysis and Design. 3 Hours.
Analysis design and optimization of thermal systems and components with examples from such areas as power generation, refrigeration, and propulsion. Availability loss characteristics of energy systems and availability conservation methods. Prerequisite: MEEG 4413. (Typically offered: Fall and Summer)

MEEG 4483H. Honors Thermal Systems Analysis and Design. 3 Hours.
Analysis design and optimization of thermal systems and components with examples from such areas as power generation, refrigeration, and propulsion. Availability loss characteristics of energy systems and availability conservation methods. Additional topics, with an additional design project and /or more rigorous approach to design projects for honors course. Advanced project required. Prerequisite: MEEG 4413 (Typically offered: Fall and Summer)
This course is equivalent to MEEG 4483.

MEEG 4493. Internal Combustion Engines. 3 Hours.
Study of the design of internal combustion engines, including emissions and performance issues. Pre- or Corequisite: MEEG 3503. (Typically offered: Irregular)

MEEG 4503. Introduction to Flight. 3 Hours.
The course will provide understanding in basic aerodynamics, airfoil design and characteristics, and flight control surfaces. Prerequisite: MATH 2584, MEEG 3503. (Typically offered: Fall)

MEEG 4503H. Honors Introduction to Flight. 3 Hours.
The course will provide understanding in basic aerodynamics, airfoil design and characteristics, and flight control surfaces. Prerequisite: MATH 2584 and MEEG 3503. (Typically offered: Fall)
This course is equivalent to MEEG 4503.

MEEG 4523. Astronautics. 3 Hours.
Study of spacecraft design and operations. Prerequisite: MEEG 2013 and MEEG 2403 or consent of instructor. (Typically offered: Irregular)

MEEG 4633. Additive Manufacturing. 3 Hours.
This course provides an overview of developing opportunities and critical challenges of additive manufacturing (AM, also known as 3-D printing). It covers existing and emerging additive manufacturing processes in the context of product design, materials selection and processing, and industrial and consumer applications. Students will learn to take advantage of the new capabilities of additive manufacturing technologies (e.g., design freedom) for existing and new applications and the implementation of their designs in a laboratory through project-based learning. Students may not receive credit for both MEEG 4633 and MEEG 5633. Prerequisite: MEEG 2101, MEEG 2303, MEEG 3013, and MEEG 3503 or instructor consent. (Typically offered: Spring)
MEEG 4703. Mathematical Methods in Engineering. 3 Hours.
Determinants, matrices, inverse of a matrix, simultaneous equations, eigenvalues, eigenvectors, coordinate transformations for matrices, diagonalization, square roots of a matrix, cryptography, and method of least squares. Vector algebra and calculus, Green's theorem, Stokes' theorem, and Gauss' divergence theorem. Index notation, epsilon-delta identity, and Cartesian tensors. Curvilinear coordinates, base vectors, and covariant and contravariant tensors. Applications to mechanics. Prerequisite: MATH 2574. (Typically offered: Irregular)

MEEG 4903H. Honors Mechanical Engineering Research. 3 Hours.
Independent research for mechanical engineering honors students. Prerequisite: Honors standing and instructor consent. (Typically offered: Fall and Spring)

MEEG 491V. Special Topics in Mechanical Engineering. 1-6 Hour.
Consideration of current mechanical engineering topics not covered in other courses. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

MEEG 491VH. Honors Special Topics in Mechanical Engineering. 1-6 Hour.
Consideration of current mechanical engineering topics not covered in other courses. Prerequisite: Honors standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

MEEG 492V. Individual Study in Mechanical Engineering. 1-3 Hour.
Individual study and research on a topic of mutually agreeable interest to the student and a faculty member. Prerequisite: Senior standing. (Typically offered: Fall, Spring and Summer)

MEEG 492VH. Honors Individual Study in Mechanical Engineering. 1-3 Hour.
Individual study and research on a topic of mutually agreeable interest to the student and a faculty member. Prerequisite: Senior standing. (Typically offered: Fall, Spring and Summer) This course is equivalent to MEEG 492V.

MEEG 5033. Advanced Mechanics of Materials I. 3 Hours.
Combined stress, theories of failure, thick-walled cylinders, bending of unsymmetrical sections, torsion in noncircular section, plate stresses, and strain energy analysis. Prerequisite: MEEG 2013 and MEEG 3013. (Typically offered: Irregular)

MEEG 5153. Fundamentals of Mechanical Design. 3 Hours.
(Formally MEEG 4153.) This class is designed to provide engineering students with a head start in industry as design engineers or working in an engineering related function. The course contents cover machine design and analysis experiences as related to working in industry and performing consulting work. Major topics include the design process, design procedures, fasteners, general design and numerous consulting experiences. A concept design exercise and two special design projects will be assigned to the students as homework. Graduate degree credit will not be given for both MEEG 4153 and MEEG 5153. Prerequisite: MEEG 4103. (Typically offered: Fall)

MEEG 5163. Advanced Product Design. 3 Hours.
This course provides an in-depth and comparative study on the theories of engineering design and equips students to understand and utilize the tools and methodologies founded on those theories. (Typically offered: Fall)

MEEG 5173. Model-Based Systems Design and Analysis. 3 Hours.
This course provides students with an introduction into the two main approaches to understanding and designing complex engineered systems. First, the course covers the unique technical challenge of systems engineering and design of systems. Second, the course covers concepts, methods and tools related to "model-based systems design." This covers formal modeling of the information content of complex systems. The third portion of the course will focus on modeling the complex behavior of the systems. This is often described as dynamical systems modeling. Students will utilize the methods and tools presented in class to model a complex engineered system of their choice (with instructor approval). The classes will alternate between presenting modeling methods to the students and students demonstrating their system to the class utilizing those methods. Students may not receive credit for both MEEG 4173 and MEEG 5173. Prerequisite: MEEG 4103 or Instructor consent. (Typically offered: Spring Even Years)

MEEG 5203. Robot Modeling and Simulation. 3 Hours.
This is a graduate level course in Robotics dealing with the behavioral study of robots. Topics covered in this course will include but not limited to the following: mathematical modeling of robots, rigid motions and homogeneous transformation, forward/inverse kinematics of robots, velocity kinematics, path and trajectory planning, robot dynamics, joint control, PD/PID control, and multivariable control. Advanced topics may include passivity-based motion control, geometric nonlinear control, computer vision, vision-based control, and sensor fusion. Prerequisite: Graduate standing in MEEG or ELEG and consent of the instructor. (Typically offered: Spring)

MEEG 5253. Bio-Mems. 3 Hours.
Topics include the fundamental principles of microfluidics, Navier-Stokes Equation, bio/abio interfacing technology, bio/abio hybrid integration of microfabrication technology, and various biomedical and biological problems that can be addressed with microfabrication technology and the engineering challenges associated with it. Lecture 3 hours per week. Prerequisite: MEEG 3503 or CVEG 3213 or CHEG 2133. (Typically offered: Spring)
This course is cross-listed with BENG 5253.

MEEG 5263. Introduction to Micro Electro Mechanical Systems. 3 Hours.
A study of mechanics and devices on the micro scale. Course topics will include: introduction to micro scales, fundamentals of microfabrication, surface and bulk micromachining, device packaging, device reliability, examples of micro sensors and actuators. Recitation three hours per week. (Typically offered: Fall)

MEEG 5283. Microelectronics Reliability. 3 Hours.
In this course, students will learn about common failure modes experienced in electronic packaging and devices, with special attention on mechanical and thermally driven failure mechanisms. Additionally, students will gain familiarity with accelerated testing methods and the associated governing standards associated with electronics reliability qualifications used in identifying and certifying electronics for various applications. Prerequisite: ELEG 5273 or instructor consent. (Typically offered: Fall Even Years)

MEEG 5303. Physical Metallurgy. 3 Hours.
Physical and chemical properties of solids and the application of materials in commerce. Prerequisite: MEEG 2303. (Typically offered: Irregular)

MEEG 5333. Introduction to Tribology. 3 Hours.
A study of science and technology of interacting surfaces in relative motion. Topics include solid surface characterization, contact between solid surfaces, adhesion, friction, wear, lubrication, micro/nanotribology, friction and wear screening test methods, and tribological components and applications. Students may not earn credit for both MEEG 5333 and MEEG 4313. Prerequisite: Graduate standing. (Typically offered: Irregular)
MEEG 5343. Computational Material Science. 3 Hours.
This course provides students with an overview of different modeling techniques in material science. Applications will be presented on a broad range of modeling techniques including atomistic simulation methods, Monte Carlo techniques, molecular mechanics, and molecular dynamics. Prerequisite: Graduate standing. (Typically offered: Irregular)

MEEG 5353. Lithium-ion Batteries and Beyond: Materials, Characterization, and Performance. 3 Hours.
This course is intended to provide students an overview of various battery systems and help students understand the concepts of primary and secondary batteries. The course materials will focus on lithium-ion batteries (LIBs), covering their electrochemical mechanisms, components, materials synthesis, materials characterization, and performance evaluations. Prerequisite: CHEM 1103 and MEEG 2303. (Typically offered: Fall)

MEEG 5403. Advanced Thermodynamics. 3 Hours.
An in-depth review of classical thermodynamics, including availability analysis, combustion, and equilibrium, with an introduction to quantum mechanics and statistical thermodynamics. Prerequisite: Graduate standing in Engineering or consent of instructor. (Typically offered: Spring)

MEEG 5453. Advanced Heat Transfer. 3 Hours.
More in-depth study of topics covered in MEEG 4413, Heat Transfer, and coverage of some additional topics. Prerequisite: MEEG 4413 or equivalent. (Typically offered: Fall)

MEEG 5473. Radiation Heat Transfer. 3 Hours.
Spectral analysis, radiant exchange in gray and non-gray enclosures, gas radiation, and multi-mode heat transfer. Prerequisite: MEEG 5453 or equivalent. (Typically offered: Summer Even Years)

MEEG 5483. Thermal Systems Analysis and Design. 3 Hours.
(Formerly MEEG 4483.) Analysis design and optimization of thermal systems and components with examples from such areas as power generation, refrigeration, and propulsion. Availability loss characteristics of energy systems and availability conservation methods. Graduate degree credit will not be given for both MEEG 4483 and MEEG 5483. Prerequisite: MEEG 4413. (Typically offered: Fall and Summer)

MEEG 5503. Advanced Fluid Dynamics I. 3 Hours.
A basic survey of the characteristics of fluid flow under a variety of conditions with examples. Begins with a derivation of the Navier-Stokes equations and an evaluation of the dimensionless groups found from these equations. Topics to be covered include viscous laminar and turbulent boundary layers, jets and wakes, Stokes flow, inviscid flows with and without free surfaces and turbulence. Prerequisite: MEEG 3503 and MATH 2584. (Typically offered: Spring)

MEEG 5513. Introduction to Flight. 3 Hours.
(Formerly MEEG 4503.) The course will provide understanding in basic aerodynamics, airfoil design and characteristics, and flight control surfaces. Graduate degree credit will not be given for both MEEG 4503 and MEEG 5513. Prerequisite: MATH 2584, MEEG 3503. (Typically offered: Fall)

MEEG 5523. Astronautics. 3 Hours.
(Formerly MEEG 4523.) Study of spacecraft design and operations. Graduate degree credit will not be given for both MEEG 4523 and MEEG 5523. Prerequisite: MEEG 2013 and MEEG 2403 or consent of instructor. (Typically offered: Irregular)

MEEG 5533. Fundamentals of Aerodynamics. 3 Hours.
A study of external-flow fluid mechanics applied to Aerodynamics. Topics include integral and differential forms of the basic fluid equations (continuity, momentum, and energy), potential flow, and supersonic flow. Prerequisite: MEEG 3503. (Typically offered: Spring)

MEEG 5633. Additive Manufacturing. 3 Hours.
This course provides an overview of developing opportunities and critical challenges of additive manufacturing (AM, also known as 3-D printing). It covers existing and emerging additive manufacturing processes in the context of product design, materials selection and processing, and industrial and consumer applications. Students may not receive credit for both MEEG 4633 and MEEG 5633. Prerequisite: MEEG 2101, MEEG 2303, MEEG 3013, and MEEG 3503 or instructor consent. (Typically offered: Spring)

MEEG 5733. Advanced Numerical Methods. 3 Hours.
Numerical methods for the solution of linear and non-linear ordinary and partial differential equations; initial and boundary value problems; one-step and multi-step methods; predominantly finite difference but also finite element and control volume techniques; and computer applications. Graduate standing in Engineering or consent of instructor. (Typically offered: Irregular)

MEEG 5833. Aerospace Propulsion. 3 Hours.
(Formerly MEEG 4433.) Principles, operation, and characteristics of gas turbine and rocket engines. Brief study of novel spacecraft propulsion systems. Graduate degree credit will not be given for both MEEG 4433 and MEEG 5833. Prerequisite: MEEG 3503. (Typically offered: Irregular)

MEEG 5853. Industrial Waste and Energy Management. 3 Hours.
This course in a basic application of thermodynamics, heat transfer, fluid mechanics, and electric machinery to the analysis of energy consumption and waste streams in industrial manufacturing facilities. There is also application toward energy conservation in commercial buildings. Current techniques and technologies for energy conservation and waste minimization are covered, including energy-consuming systems and processes, utility rate analysis, economic analysis and auditing. This course may be of interest to engineers in industry, consulting, facilities, environmental sustainability, and others. Prerequisite: MEEG 4413 or consent of instructor. (Typically offered: Irregular)

MEEG 5873. Indoor Environmental Control. 3 Hours.
This course is a broad use of thermal-fluid concepts toward understanding and applying fundamental theories of heating, ventilating, and air conditioning (HVAC) design. Upon completion of the course, students will be able to apply current engineering techniques and methodologies to design HVAC systems, including heating and cooling loads, and proper selection and sizing of air conditioning equipment. Moreover, through this class, students will gain a physical understanding of HVAC systems and buildings, which is needed for today’s HVAC designs. This course may be of interest to engineers in industry, consulting, facilities, and others. Prerequisite: MEEG 4413 or consent of instructor. (Typically offered: Irregular)

MEEG 591V. Special Topics in Mechanical Engineering. 1-6 Hour.
Consideration of current advanced mechanical engineering topics not covered in other courses. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

MEEG 592V. Individual Study in Mechanical Engineering. 1-6 Hour.
Opportunity for individual study of advanced subjects related to a graduate mechanical engineering program to suit individual requirements. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

MEEG 5953. Fundamentals of Fracture and Fatigue in Structures. 3 Hours.
The course will cover the concepts of linear-elastic, elastic-plastic and time-dependent Fracture Mechanics as applied to fracture in a variety of materials, structures, and operating conditions. The examples will include fracture in large components such as aircraft, bridges and pressure vessels and also in bones and in soft materials and human tissue. Prerequisite: Graduate standing in Civil, Mechanical or Biomedical Engineering or consent of the instructor. (Typically offered: Fall and Spring)

This course is cross-listed with BMGE 5953, CVEG 5953.
MEEG 5963. Advanced Fracture Mechanics and Structural Integrity. 3 Hours.
This course provides an in-depth treatment of advanced topics in fracture mechanics such as stress analysis of cracks under elastic-plastic loading, crack initiation and growth under elastic-plastic and time-dependent creep and creep-fatigue conditions. The course emphasizes fundamental underpinnings of nonlinear fracture mechanics and its use in material evaluation and life prediction methodology for structural components. Micro-mechanics of fracture and crack growth processes are also covered. Prerequisite: MEEG 5953, or BMEG 5953, or CVEG 5953 or equivalent, or instructor consent. (Typically offered: Fall and Spring)

MEEG 600V. Master’s Thesis. 1-6 Hour.
Master’s Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

MEEG 6800. Graduate Seminar. 0 Hours.
A periodic seminar devoted to mechanical engineering research topics. Course includes letter grades A, B, C, D, and F as well as CR. (Typically offered: Fall and Spring)

MEEG 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Medical Humanities (MEDH) Courses
MEDH 3223. Special Topics in Medical Humanities. 3 Hours.
Examines the intersections between medical and health topics with humanities or social science fields. (Typically offered: Spring Odd Years) May be repeated for degree credit.

Medieval and Renaissance Studies (MRST) Courses
MRST 2013. Introduction to Medieval and Renaissance Studies. 3 Hours.
An interdisciplinary introduction to the major historical and cultural developments in northern Europe and the Mediterranean basin from approximately 500 to 1600 C.E. (Typically offered: Fall Even Years)

MRST 3013. Special Topics in Medieval Studies. 3 Hours.
In-depth study of some topic or period of medieval literature, art, history and philosophy. Prerequisite: Sophomore standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

MRST 3013H. Honors Special Topics in Medieval Studies. 3 Hours.
In-depth study of some topic or period of medieval literature, art, history and philosophy. Prerequisite: Sophomore standing. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.
This course is equivalent to MRST 3013.

MRST 3023. Special Topics in Early Modern Studies. 3 Hours.
In-depth study of some topic or period of Early Modern literature, art, history and philosophy. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

MRST 3023H. Honors Special Topics in Early Modern Studies. 3 Hours.
In-depth study of some topic or period of Early Modern literature, art, history and philosophy. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

MRST 4003. Medieval and Renaissance Studies Colloquium. 3 Hours.
Advanced study of some more narrowly focused aspect of medieval and/or Renaissance studies. Prerequisite: Sophomore standing. (Typically offered: Spring Odd Years) May be repeated for up to 6 hours of degree credit.

MRST 4003H. Honors Medieval and Renaissance Studies Colloquium. 3 Hours.
Advanced study of some more narrowly focused aspect of medieval and/or Renaissance studies. Prerequisite: Sophomore standing. (Typically offered: Spring Odd Years) May be repeated for up to 6 hours of degree credit.
This course is equivalent to MRST 4003.

MRST 4113. Italian Fairy Tales in Literature, Visual Arts, and Cinema. 3 Hours.
Explores different typologies of fables and examines the evolution of the genre from the Middle Ages to contemporary times. Taught in Italian. Prerequisite: ITAL 3113 or ITAL 3123 or instructor’s consent. (Typically offered: Spring Even Years)
This course is cross-listed with ITAL 4113.

Middle East Studies (MEST) Courses
MEST 2003. Introduction to Islam. 3 Hours.
This course introduces Islam as a global religion and world civilization, including study of the Qur’an, prophet Muhammad, ritual and community practices, metaphysics, mysticism, art, literature, and sacred and critical history. (Typically offered: Irregular)

MEST 2003H. Honors Introduction to Islam. 3 Hours.
This course introduces Islam as a global religion and world civilization, including study of the Qur’an, prophet Muhammad, ritual and community practices, metaphysics, mysticism, art, literature, and sacred and critical history. (Typically offered: Irregular)
This course is equivalent to MEST 2003.

MEST 2013. Introduction to Middle East Studies. 3 Hours.
This course is designed to provide students with fundamental building blocks for understanding the contemporary Middle East/Islamic World. Students will be introduced to a variety of disciplinary approaches to the study of the geo-cultural region, including history, politics, arts and literature, religions and cultures, social geography, and economics. (Typically offered: Fall)

MEST 3003. Islam: Beliefs and Practices. 3 Hours.
Explores the relationship between teachings, norms, customary practices and Muslim perception of Islam. Examines theoretical concepts and practices, such as war and peace, democracy, pluralism, modernity, human rights, environment, gender, Islamic law, nation-state, and citizenship in addition to the basic tenets of Islam. (Typically offered: Spring)

MEST 3003H. Honors Islam: Beliefs and Practices. 3 Hours.
Explores the relationship between teachings, norms, customary practices and Muslim perception of Islam. Examines theoretical concepts and practices, such as war and peace, democracy, pluralism, modernity, human rights, environment, gender, Islamic law, nation-state, and citizenship in addition to the basic tenets of Islam. Prerequisite: Honors standing. (Typically offered: Spring)
This course is equivalent to MEST 3003.

MEST 340V. MEST Independent Study. 1-3 Hour.
An exploration of varied topics related to the Middle East and North Africa studied independently with the supervision of a faculty member. Credit arranged with instructor. Prerequisite: Instructor consent and junior standing (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

MEST 340VH. Honors MEST Independent Study. 1-3 Hour.
An exploration of varied topics related to the Middle East and North Africa studied independently with the supervision of a faculty member. Credit arranged with instructor. Prerequisite: Instructor consent, junior standing and honors standing. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.
This course is equivalent to MEST 340V.
MEST 399V. MEST: Honors Thesis. 1-3 Hour.
Middle East Studies Honors research, readings and thesis. Prerequisite: Junior standing. (Typically offered: Irregular)

MEST 4003. Middle East Studies Colloquium. 3 Hours.
An interdepartmental colloquium with an annual change in subject required of all students in the Middle East studies program. Prerequisite: Sophomore standing. (Typically offered: Spring) May be repeated for up to 6 hours of degree credit.

MEST 4003H. Honors Middle East Studies Colloquium. 3 Hours.
Honors colloquium. (Typically offered: Spring) May be repeated for up to 3 hours of degree credit.
This course is equivalent to MEST 4003.

MEST 4103. Special Topics in Middle East Studies. 3 Hours.
Courses in lecture or seminar format to be offered in a variety of disciplines relating to the history, culture, politics, geography, languages, literature, arts, and religions of the Middle East, North Africa, and/or Islamic world. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

MEST 4103H. Honors Special Topics in Middle East Studies. 3 Hours.
Courses in lecture or seminar format to be offered in a variety of disciplines relating to the history, culture, politics, geography, languages, literature, arts, and religions of the Middle East, North Africa, and/or Islamic world. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

MEST 420V. Internship. 3-6 Hour.
Internship experience with a group, firm, agency, or non-profit organization related to the Middle East and/or North Africa (MENA). Local, regional, and international internships (paid and unpaid) may take place with various NGOs, related corporations, and US Agencies and Departments. Prerequisite: Junior or senior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

MEST 420VH. Honors Internship. 3-6 Hour.
Internship experience with a group, firm, agency, or non-profit organization related to the Middle East and/or North Africa (MENA). Local, regional, and international internships (paid and unpaid) may take place with various NGOs, related corporations, and US Agencies and Departments. Prerequisite: Junior or senior standing and honors standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.
This course is equivalent to MEST 420V.

Music (MUSC)

Courses
MUSC 3923H. Honors Colloquium in Music. 3 Hours.
Covers a special topic or issue offered as part of the honors program. Prerequisite: Honors candidacy (not restricted to candidacy in Music). (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

MUSC 490VH. Honors Essay. 1-6 Hour.
An honors research paper in Music History or literature, Ethnomusicology, Music Theory, or Music Education. Open to seniors in honors. (Typically offered: Irregular)

Music Education (MUED)

Courses
MUED 1371. Teaching the Beginning Percussionist. 1 Hour.
A study of the pedagogy and techniques needed to instruct middle school and junior high percussionists. Emphasis on elementary snare drum and marimba performance. Study of junior high band and orchestra methods, solos and ensemble music. Prerequisite: Music education major pursuing a degree in Piano Education, Voice Education, String Education or Woodwind Brass Percussion Education; or instructor's consent. (Typically offered: Fall and Spring)

MUED 2012. Introduction to Music Education. 2 Hours.
A course designed to provide early experiences for the prospective music teacher. Students will become familiar with professional trends, music classroom organizational and management issues, and principles of effective education. Emphases will include basic psychological and philosophical orientation, as well as observations in public school classrooms. Required of all prospective Music Education majors. (Typically offered: Spring)

MUED 2532. Class Instruction in Woodwind Instruments. 2 Hours.
Familiarizes students with elementary and intermediate skills, techniques and pedagogy needed to teach woodwind instruments—flute, clarinet, saxophone, oboe, and bassoon—in a class setting. Corequisite: Lab component. Prerequisite: MUED major and sophomore standing. (Typically offered: Fall and Spring)

MUED 2542. Class Instruction in Brass Instruments. 2 Hours.
Familiarizes students with elementary and intermediate skills, techniques and pedagogy needed to teach brass instruments—trumpet, French horn, trombone, euphonium, and tuba—in a class setting. Corequisite: Lab component. Prerequisite: MUED major and sophomore standing. (Typically offered: Fall and Spring)

MUED 2552. Class Instruction in Orchestral String Instruments. 2 Hours.
Familiarizes students with elementary and intermediate skills, techniques and pedagogy needed to teach orchestral stringed instruments in a class setting. Includes a lab that specifically focuses on peer teaching of concepts and skills related to teaching stringed instruments. Corequisite: Lab component. Prerequisite: Bachelor of Music Major with an emphasis in PIAN, VOCE, STRG, or WWBP and sophomore standing. (Typically offered: Fall and Spring)

MUED 3021. Supervised Practicum in Teaching Musical Skills. 1 Hour.
Provides for supervised teaching opportunities with public school students in instrumental, choral, and elementary classes. Prerequisite: All Emphases: MUED 2012. (Typically offered: Spring)

MUED 3833. Music Education in the Elementary School. 3 Hours.
Concepts of elementary music education; methods, materials, curriculum design, and supervision in elementary school music. Prerequisite: MUED 2012. (Typically offered: Fall and Spring)

MUED 3911. Classroom Instruments in Music Education. 1 Hour.
The study of instruments utilized in the general music classroom, including but not limited to the Orff Instrumentarium, pitched and unpitched hand-held percussion, frame and various ethnic drums, guitar, and recorder. Elementary and secondary general music classroom preparation with an emphasis on orchestration, composition, and improvisation with instruments commonly utilized in required music classes in public schools. Open to music education majors or with instructor's consent. Pre- or Corequisite: MUED 3833. Prerequisite: MUED 2012. (Typically offered: Fall)

MUED 4031. Seminar for Professional Entry into Music Education. 1 Hour.
A seminar offered during student teaching semester to prepare the student for the role of a professional educator. Content includes professional ethics and conduct, classroom management, evaluation and grading, and application for employment. (Typically offered: Fall and Spring)

MUED 4112. Pedagogy in Music Education. 2 Hours.
A course presenting broad music teaching concepts and specific teaching behaviors. Students will experience the pedagogical teaching situation through the construct of effective communication practice. Emphases will be on providing a laboratory environment representative of public school classrooms. Required of all Music Education majors. Prerequisite: MUED 3833. (Typically offered: Fall)

MUED 4273. Methods for Teaching String Instruments. 3 Hours.
Methods and materials for students preparing to teach orchestral instruments and ensembles in the public schools. Prerequisite: MUED 1371, MUED 2012, MUED 2532, MUED 2542, MUED 2552, and MUED 3021. (Typically offered: Fall Odd Years)
MUED 4283. Teaching Vocal Music. 3 Hours.
Methods and materials used in teaching high school music. Prerequisite: MUED 2012. (Typically offered: Fall Even Years)

MUED 4293. Instrumental Methods. 3 Hours.
Problems of teaching instrumental music in the public schools. Prerequisite: MUED 1371, MUED 2012, MUED 2532, MUED 2542, and MUED 3021. (Typically offered: Fall)

MUED 451V. Student Teaching: Elementary Music. 4-8 Hour.
A minimum of five weeks and a maximum of ten weeks will be spent in an off-campus school, where the student will teach under supervision in the elementary classroom and will participate in other activities involving the school and community. Enrollment requirement is for a total of 12 hours and 15 weeks involvement in MUED 452V and MUED 451V. Successful completion of a criminal background check is required prior to beginning student teaching. Corequisite: MUED 452V. Prerequisite: Bachelor of Music degree in Music Education. (Typically offered: Fall and Spring)

MUED 452V. Student Teaching: Secondary Music. 4-8 Hour.
A minimum of five weeks and a maximum of ten weeks will be spent in an off-campus school, where the student will teach under supervision in the elementary classroom and will participate in other activities involving the school and community. Enrollment requirement is for a total of 12 hours and 15 weeks involvement in MUED 452V and MUED 451V. Successful completion of a criminal background check is required before beginning student teaching. Corequisite: MUED 451V. Prerequisite: Bachelor of Music degree in Music Education. (Typically offered: Fall and Spring)

MUED 4743. Characteristics of Special Needs Students in the Music Classroom. 3 Hours.
Provides an overview to special needs students in the music classroom. Explores the characteristics of special needs students in six domains: cognitive, communicative, emotional, behavioral, and medical and physical. Requires outside class time working with special needs students. Prerequisite: Instructor's consent. (Typically offered: Fall)

MUED 477V. Special Topics in Music Education. 1-4 Hour.
Subject matter not covered in other sources. With permission, may be repeated for credit if topics are different. (Typically offered: Irregular) May be repeated for degree credit.

MUED 5513. Seminar: Resources in Music Education. 3 Hours.
Study of the analytical and writing skills necessary for academic research in music education. Each student identifies one problem specific to music education, finds and reviews related literature and sources, develops a comprehensive bibliography, and writes a paper which synthesizes the research. Open to graduate students and undergraduates in honors in music education. (Typically offered: Irregular)

MUED 5563. Seminar: Issues in Music Education. 3 Hours.
A seminar exploring the relationships between the profession of teaching music and selected views about learning theories, teaching methods, philosophy, psychology, and other selected topics relevant to contemporary music education. (Typically offered: Irregular)

MUED 5733. Music Education in the Elementary School. 3 Hours.
Concepts of elementary music education; methods, materials, curriculum design, and supervision in elementary school music. (Typically offered: Irregular)

MUED 5743. Characteristics of Special Needs Students in the Music Classroom. 3 Hours.
A review of characteristics and behaviors of students in the music classroom that have identified or unidentified disabilities in learning. Prerequisite: Admission into Music Education for Special Needs Students Graduate Certificate. (Typically offered: Fall)

MUED 5753. Teaching Music to Students with Special Needs. 3 Hours.
Instructs students how to construct and implement curriculum and assessments for students with special needs in a music classroom. Prerequisite: MUED 5743. (Typically offered: Spring)

MUED 5763. Practicum in Teaching Music to Students with Special Needs. 3 Hours.
Students will utilize and evaluate designed curriculum and assessment from MUED 5753 in a music classroom. Prerequisite: MUED 5743. Corequisite: MUED 5753. (Typically offered: Spring)

MUED 577V. Special Topics in Music Education. 1-4 Hour.
(Formerly MUED 477V.) Subject matter not covered in other sources. With permission, may be repeated for credit if topics are different. Graduate degree credit will not be given for both MUED 477V and MUED 577V. (Typically offered: Irregular) May be repeated for degree credit.

MUED 5811. Curriculum Design in Music. 1 Hour.
Goals and objectives in music education. Student will develop a curriculum for an actual or hypothetical music education program. (Typically offered: Irregular)

An in-service training workshop for elementary music teachers. (Typically offered: Irregular)

MUED 5862. Marching Band Techniques. 2 Hours.
Includes the place of the marching band in the school program, types of formations used, and selecting, arranging or writing the musical score. (Typically offered: Irregular)

MUED 5973. Tests and Measurement in Music. 3 Hours.
This course will address the psychometric concepts of tests and measurement of music achievement, aptitude, attitude, and self-assessment. The course will focus on the teaching and assessment of musical skills, musical responses, and will critically examine existing aptitude tests (Seashore, Watkins Farnum, Gordon, etc.). Basic statistical concepts and data analysis used in common testing scenarios will be introduced. Prerequisite: Graduate standing in music. (Typically offered: Irregular)

MUED 5983. Psychology of Music Behavior. 3 Hours.
This course is an introduction to the psychology of music, and will adopt an interdisciplinary view toward the field, covering such topics as philosophical and sociological questions about the nature and function of music, the physiology of the ear, the physical and perceptual properties of sounds (acoustics), performance anxiety, preference and taste research, social and pedagogical attributes of performance, and behavioral musical responses. Prerequisite: Graduate standing. (Typically offered: Irregular)

MUED 600V. Master's Thesis. 1-6 Hour.
Preparation of a master's thesis as partial fulfillment of the requirement for the master's degree. (Typically offered: Irregular) May be repeated for degree credit.

MUED 605V. Independent Study. 1-6 Hour.
Provides students with an opportunity to pursue special study of problems in music education. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

Music Ensemble (MUEN) Courses
MUEN 1211. Latin American Ensemble I. 1 Hour.
Plays music of Latin America with particular focus on Afro-Caribbean music and its performance practices. Students perform, improvise, arrange and compose in a variety of styles such as Son, Danzon, Cha-Cha-Cha, Mambo, Latin Jazz, Salsa, and Timba. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.
MUEN 1221. World Music Ensemble I. 1 Hour.
Study music and practices from a variety of musical cultures, while simultaneously acquiring solid grounding in music theory, musicianship skills, music history, and literature. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1231. Songwriters’ Ensemble I. 1 Hour.
A combined songwriting course and contemporary music ensemble. Students build a portfolio of original songs while studying elements of modern songwriting including harmony, lyrics, form, arranging, production, and style. The class acts as an ensemble to present a recital of original music for the final performance. (Typically offered: Fall) May be repeated for up to 2 hours of degree credit.

MUEN 1241. Beginning Jazz Combo. 1 Hour.
Introductory ensemble experience offering a repertoire-based approach to learning basic improvisation skills and the performance of common jazz styles. Open to both music and non-music majors. (Typically offered: Spring)

MUEN 1251. Arkansas Soul Band I. 1 Hour.
Perform historical and contemporary popular music from the African American tradition. These genres include, but are not limited to, soul, blues, funk, R&B, and hip-hop. Students will develop arranging and musical direction skills, as well as analysis of performance, arrangements, and compositions/songwriting in these styles. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1261. Intermediate Jazz Combo I. 1 Hour.
Intermediate small jazz ensemble focused on improvisation in the context of bebop, free jazz, fusion, and related styles. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1271. Advanced Jazz Combo I. 1 Hour.
Advanced small jazz ensemble focused on improvisation in the context of bebop, free jazz, fusion, and related styles. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1401. Opera Theatre I. 1 Hour.
Study of opera through performances of scenes, chamber and major operatic production. Admission with director’s approval. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1411. Razorback Chorus I. 1 Hour.
Performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual’s grasp of the essential elements of music, and expose students to choral repertory in the tenor-bass range. Admission is open to any student on campus that can sing in the tenor-bass range. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1421. Inspirational Chorale I. 1 Hour.
Performance of African American literature with particular emphasis on Negro spirituals, traditional/contemporary gospel music, and sacred world music. Rehearsal 3 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1431. Symphony Orchestra I. 1 Hour.
Large, select orchestral ensemble setting with a focus on the study and performance of a range of symphonic literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced players; by audition only. Prerequisite: Director’s consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1441. Marching Band I. 1 Hour.
Large ensemble performs at football games. Emphasis on high performance standards and a variety of performing styles. Rehearsal 8 hours per week. (Typically offered: Fall) May be repeated for up to 2 hours of degree credit.

MUEN 1451. Schola Cantorum I. 1 Hour.
Large, select choral ensemble with focus on the study and performance of a range of choral literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced singers; by audition only. Prerequisite: Director’s consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1461. Wind Symphony I. 1 Hour.
Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission by audition. Prerequisite: Director’s consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1471. Jazz Orchestra. 1 Hour.
Training in the various styles of jazz and popular music. Rehearsal 3 hours per week. Admission by audition. Prerequisite: Instructor consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1481. Campus Band I. 1 Hour.
Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public may be required. Admission by audition or special approval. Corequisite: Lab component. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1491. Concert Band I. 1 Hour.
Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public may be required. Admission is by audition or special approval. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1501. Chamber Music I. 1 Hour.
Performance of small ensemble music for any combination of instruments and/or voice. Rehearsal 3 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1511. Symphonic Band I. 1 Hour.
Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public are required. Admission is by audition or special approval. Prerequisite: Director’s consent. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1521. Woodwind Quintet I. 1 Hour.
Study and performance of music for woodwind quintet. Weekly coaching will emphasize intonation, blend, stylistic awareness, and ensemble precision. Repertoire ranges from the 18th to the 20th centuries. 3 hours of rehearsals weekly. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1541. Accompanying I. 1 Hour.
Piano accompanying of vocal and instrumental soloists. Rehearsal 2 hours per week. Prerequisite: MUAP 110V. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1551. Percussion Ensemble I. 1 Hour.
Study and performance of ensemble music for multiple percussion instruments. Rehearsal 2 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.
MUEN 1561. Musical Theater Orchestra I. 1 Hour.
Instrumental ensemble with focus on the preparation and performance of musical theater pit orchestra music, in conjunction with UA Theater's mainstage musical. Admission by audition or director's approval. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

MUEN 1581. Chamber Choir I. 1 Hour.
Study and performance of vocal chamber music. Rehearsal 2 hours per week for 1 hour of credit. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1591. Treble Chorus I. 1 Hour.
Performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to choral repertory in the treble range. Admission is open to any student on campus that can sing in the treble range. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1691. Wind Ensemble I. 1 Hour.
Large ensemble setting performing orchestral wind and symphonic band literature with emphasis on high performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission is by audition. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1711. Flute Ensemble I. 1 Hour.
Study and performance of music for multiple flutes, including trios, quartets, quintets, and flute choir. Rehearsal 2 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1721. Clarinet Ensemble I. 1 Hour.
Study and performance of music for multiple clarinets, including trios, quartets, quintets, and clarinet choir. Rehearsal 2 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1731. Saxophone Ensemble I. 1 Hour.
Study and performance of music for multiple saxophones, including trios, quartets, quintets, and saxophone choir. Rehearsal 3 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1751. Trumpet Ensemble I. 1 Hour.
Study and performance of music for multiple trumpets, including trios, quartets, quintets, and trumpet choir. Rehearsal 2 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1761. New Music Ensemble I. 1 Hour.
Small, select ensemble with emphasis on music written in the last hundred years, especially by important living composers. Focus on audience engagement through high performance standards, unconventional settings, and programs unique to the region. Off-campus appearances and outreach activities are required. Admission by consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1771. Trombone Ensemble I. 1 Hour.
Study and performance of music for multiple trombones, including trios, quartets, quintets, and trombone choir. Rehearsal 2 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1781. Tuba Ensemble. 1 Hour.
Study and performance of music for multiple combinations of tuba and euphonium, including trios, quartets, quintets, and low brass choir. Rehearsal 2 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2211. Latin American Ensemble II. 1 Hour.
This ensemble plays music of Latin America with particular focus on Afro-Caribbean music and its performance practices. Students will have an opportunity to perform, improvise, arrange and compose in a variety of styles such as Son, Danzon, Cha-Cha-Cha, Mambo, Latin Jazz, Salsa, and Timba. The ensemble will perform at least one concert per semester and occasionally will perform at other activities on and off campus. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2221. World Music Ensemble II. 1 Hour.
Students in the World Music Ensemble will closely study music and practices from a variety of musical cultures, while simultaneously acquiring solid grounding in music theory, musicianship skills, music history, and literature. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2231. Songwriters' Ensemble II. 1 Hour.
A combined songwriting course and contemporary music ensemble. Students build a portfolio of original songs while studying elements of modern songwriting including harmony, lyrics, form, arranging, production and style. The class acts as an ensemble to present a recital of original music for the final performance. (Typically offered: Fall) May be repeated for up to 2 hours of degree credit.

MUEN 2251. Arkansas Soul Band II. 1 Hour.
Perform historical and contemporary popular music from the African American tradition. These genres include, but are not limited to, soul, blues, funk, R&B, and hip-hop. Students will develop arranging and musical direction skills, as well as analysis of performance, arrangements, and compositions/songwriting in these styles. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2261. Intermediate Jazz Combo II. 1 Hour.
Intermediate small jazz ensemble focused on improvisation in the context of bebop, free jazz, fusion, and related styles. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2271. Advanced Jazz Combo II. 1 Hour.
Advanced small jazz ensemble focused on improvisation in the context of bebop, free jazz, fusion, and related styles. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2401. Opera Theatre II. 1 Hour.
Continuation of Opera Theatre I. Study of opera through performances of scenes, chamber and major operatic production. Admission with director's approval. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2411. Inspirational Chorale II. 1 Hour.
Performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to choral repertory in the tenor-bass range. Admission is open to any student on campus that can sing in the tenor-bass range. Admission by audition or director's approval. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2421. Inspirational Chorale II. 1 Hour.
Continuation of Inspirational Chorale I. Performance of African American literature with particular emphasis on Negro spirituals, traditional/contemporary gospel music, and sacred world music. Rehearsal 3 hours per week. Admission with director's approval. Prerequisite: Sophomore standing, audition and approval of director. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.
MUEN 2431. Symphony Orchestra II. 1 Hour.
Continuation of Symphony Orchestra I. Large, select orchestral ensemble setting with a focus on the study and performance of a range of symphonic literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced players; by audition only. Prerequisite: Sophomore standing and director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2441. Marching Band II. 1 Hour.
Continuation of Marching Band I. Large ensemble performs at football games. Emphasis on high performance standards and a variety of performing styles. Rehearsal 8 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2451. Schola Cantorum II. 1 Hour.
Continuation of Schola Cantorum I. Large, select choral ensemble with focus on the study and performance of a range of choral literature. Emphasis on high artistic standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission by audition. Prerequisite: Sophomore standing and director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2461. Wind Symphony II. 1 Hour.
Continuation of Wind Symphony I. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission by audition. Prerequisite: Sophomore standing and director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2467. Jazz Orchestra II. 1 Hour.
Continuation of Jazz Performance Laboratory II. Training in the various styles of jazz and popular music. Rehearsal 3 hours per week. Admission by audition. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2481. Campus Band II. 1 Hour.
Continuation of Campus Band I. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public may be required. Admission is by audition or special approval. Corequisite: Lab component. Prerequisite: Sophomore standing. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2491. Concert Band II. 1 Hour.
Continuation of Concert Band I. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public may be required. Admission is by audition or special approval. Prerequisite: Sophomore standing. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit. This course is equivalent to MUEN 1491.

MUEN 2501. Chamber Music II. 1 Hour.
Continuation of Chamber Music I. Performance of small ensemble music for any combination of instruments and/or voice. Rehearsal 3 hours per week. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2511. Symphonic Band II. 1 Hour.
Continuation of Symphonic Band I. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission is by audition or special approval. Prerequisite: Sophomore standing; director's consent. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2521. Woodwind Quintet II. 1 Hour.
Continuation of Woodwind Quintet I. Study and performance of music for woodwind quintet. Weekly coaching will emphasize intonation, blend, stylistic awareness, and ensemble precision. Repertoire ranges from the 18th to the 20th centuries. 3 hours of rehearsals weekly. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2541. Accompanying II. 1 Hour.
Continuation of Accompanying I. Piano accompanying of vocal and instrumental soloists. Rehearsal 2 hours per week. Pre- or Corequisite: Sophomore standing and MUAP 210V. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2551. Percussion Ensemble II. 1 Hour.
Continuation of Percussion Ensemble I. Study and performance of ensemble music for multiple percussion instruments. Rehearsal 2 hours per week. Prerequisite: Sophomore standing. (Typically offered: Spring and Summer) May be repeated for up to 2 hours of degree credit.

MUEN 2561. Musical Theater Orchestra II. 1 Hour.
Instrumental ensemble with focus on the preparation and performance of musical theater pit orchestra music, in conjunction with UA Theater's mainstage musical. Admission by audition or director's approval. Prerequisite: Sophomore standing. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

MUEN 2581. Chamber Choir II. 1 Hour.
Continuation of Chamber Choir I. Study and performance of vocal chamber music. Rehearsal 2 hours per week for 1 hour of credit. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2591. Treble Chorus II. 1 Hour.
Continuation of Women's Chorus I. Performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to choral repertoire in the treble range. Admission is open to any student on campus that can sing in the treble range. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2691. Wind Ensemble II. 1 Hour.
Large ensemble setting performing orchestral wind and symphonic band literature with emphasis on high performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission is by audition. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit. This course is equivalent to MUEN 1691.

MUEN 2711. Flute Ensemble II. 1 Hour.
Continuation of Flute Ensemble I. Study and performance of music for multiple flutes, including trios, quartets, quintets, and flute choir. Rehearsal 2 hours per week. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2721. Clarinet Ensemble II. 1 Hour.
Continuation of Clarinet Ensemble I. Study and performance of music for multiple clarinets, including trios, quartets, quintets, and clarinet choir. Rehearsal 2 hours per week. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.
MUEN 2731. Saxophone Ensemble II. 1 Hour.
Continuation of Saxophone Ensemble I. Study and performance of music for multiple saxophones, including trios, quartets, quintets, and saxophone choir. Rehearsal 3 hours per week. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2751. Trumpet Ensemble II. 1 Hour.
Continuation of Trumpet Ensemble I. Study and performance of music for multiple trumpets, including trios, quartets, quintets, and trumpet choir. Rehearsal 2 hours per week. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2761. New Music Ensemble II. 1 Hour.
Continuation of New Music Ensemble I. Small, select ensemble with emphasis on music written in the last hundred years, especially by important living composers. Focus on audience engagement through high performance standards, unconventional settings, and programs unique to the region. Off-campus appearances and outreach activities are required. Admission by consent. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2771. Trombone Ensemble II. 1 Hour.
Continuation of Trombone Ensemble I. Study and performance of music for multiple trombones, including trios, quartets, quintets, and trombone choir. Rehearsal 2 hours per week. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2781. Tuba Ensemble II. 1 Hour.
Continuation of Tuba Ensemble I. Study and performance of music for multiple combinations of tuba and euphonium, including trios, quartets, quintets, and low brass choir. Rehearsal 2 hours per week. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3211. Latin American Ensemble III. 1 Hour.
This ensemble plays music of Latin America with particular focus on Afro-Caribbean music and its performance practices. Students will have an opportunity to perform, improvise, arrange and compose in a variety of styles such as Son, Danzon, Cha-Cha-Cha, Mambo, Latin Jazz, Salsa, and Timba. The ensemble will perform at least one concert per semester and occasionally will perform at other activities on and off campus. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3221. World Music Ensemble III. 1 Hour.
Students in the World Music Ensemble will closely study music and practices from a variety of musical cultures, while simultaneously acquiring solid grounding in music theory, musicianship skills, music history, and literature. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3231. Songwriters' Ensemble III. 1 Hour.
A combined songwriting course and contemporary music ensemble. Students build a portfolio of original songs while studying elements of modern songwriting including harmony, lyrics, form, arranging, production and style. The class acts as an ensemble to present a recital of original music for the final performance. (Typically offered: Fall) May be repeated for up to 2 hours of degree credit.

MUEN 3251. Arkansas Soul Band III. 1 Hour.
Perform historical and contemporary popular music from the African American tradition. These genres include, but are not limited to, soul, blues, funk, R&B, and hip-hop. Students will develop arranging and musical direction skills, as well as analysis of performance, arrangements, and compositions/songwriting in these styles. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3261. Intermediate Jazz Combo III. 1 Hour.
Intermediate small jazz ensemble focused on improvisation in the context of bebop, free jazz, fusion, and related styles. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3271. Advanced Jazz Combo III. 1 Hour.
Advanced small jazz ensemble focused on improvisation in the context of bebop, free jazz, fusion, and related styles. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3401. Opera Theatre III. 1 Hour.
Continuation of Opera Theatre II. Study of opera through performances of scenes, chamber and major operatic production. Admission with director's approval. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3411. Razorback Chorus III. 1 Hour.
Continuation of Men's Chorus II. Performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to choral repertory in the tenor-bass range. Admission is open to any student on campus that can sing in the tenor-bass range. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3421. Inspirational Chorale III. 1 Hour.
Continuation of Inspirational Chorale II. Performance of African American literature with particular emphasis on Negro spirituals, traditional/contemporary gospel music, and sacred world music. Rehearsal 3 hours per week. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3431. Symphony Orchestra III. 1 Hour.
Continuation of Symphony Orchestra II. Large, select orchestral ensemble setting with a focus on the study and performance of a range of symphonic literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced players; by audition only. Prerequisite: Junior standing; director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3441. Marching Band III. 1 Hour.
Continuation of Marching Band II. Large ensemble performs at football games. Emphasis on high performance standards and a variety of performing styles. Rehearsal 8 hours per week. (Typically offered: Fall) May be repeated for up to 2 hours of degree credit.

MUEN 3451. Schola Cantorum III. 1 Hour.
Continuation of Schola Cantorum II. Large, select choral ensemble with focus on the study and performance of a range of choral literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced singers; by audition only. Prerequisite: Junior standing and director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3461. Wind Symphony III. 1 Hour.
Continuation of Wind Symphony II. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concersts of high artistic merit which serve the campus community and general public are required. Admission by audition. Prerequisite: Junior standing and director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3471. Jazz Orchestra III. 1 Hour.
Continuation of Jazz Performance Lab II. Training in the various styles of jazz and popular music. Rehearsal 3 hours per week. Admission by audition. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.
MUEN 3481. Campus Band III. 1 Hour.
Continuation of Campus Band II. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Performances include music of various styles and periods. Concerts of artistic merit which serve the campus community and general public may be required. Admission is by audition or special approval. Pre- or Corequisite: Lab component. Corequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3491. Concert Band III. 1 Hour.
Continuation of Concert Band II. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public may be required. Admission is by audition or special approval. Pre- or Corequisite: Junior standing. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit. This course is equivalent to MUEN 1491.

MUEN 3501. Chamber Music III. 1 Hour.
Continuation of Chamber Music II. Performance of small ensemble music for any combination of instruments and/or voice. Rehearsal 3 hours per week. Pre- or Corequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3511. Symphonic Band III. 1 Hour.
Continuation of Symphonic Band II. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public are required. Admission is by audition or special approval. Pre- or Corequisite: Junior standing and director's consent. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3521. Woodwind Quintet III. 1 Hour.
Continuation of Woodwind Quintet II. Study and performance of music for woodwind quintet. Weekly coaching will emphasize intonation, blend, stylistic awareness, and ensemble precision. Repertoire ranges from the 18th to the 20th centuries. 3 hours of rehearsals weekly. Pre- or Corequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3541. Accompanying III. 1 Hour.
Continuation of Accompanying II. Piano accompanying of vocal and instrumental soloists. Rehearsal 2 hours per week. Pre- or Corequisite: Junior standing and MUAP 310V. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3551. Percussion Ensemble III. 1 Hour.
Continuation of Percussion Ensemble II. Study and performance of ensemble music for multiple percussion instruments. Rehearsal 2 hours per week. Pre- or Corequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3581. Chamber Choir III. 1 Hour.
Continuation of Chamber Choir II. Study and performance of vocal chamber music. Rehearsal 2 hours per week for 1 hour of credit. Pre- or Corequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3591. Treble Chorus III. 1 Hour.
Continuation of Women's Chorus II. Performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to choral repertoire in the treble range. Admission is open to any student on campus that can sing in the treble range. Pre- or Corequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3691. Wind Ensemble III. 1 Hour.
Continuation of Wind Ensemble II. Large ensemble setting performing orchestral wind and symphonic band literature with emphasis on high performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission is by audition. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit. This course is equivalent to MUEN 1691.

MUEN 3721. Clarinet Ensemble III. 1 Hour.
Continuation of Clarinet Ensemble II. Study and performance of music for multiple clarinets, including trios, quartets, quintets, and clarinet choir. Rehearsal 2 hours per week. Pre- or Corequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3731. Saxophone Ensemble III. 1 Hour.
Continuation of Saxophone Ensemble II. Study and performance of music for multiple saxophones, including trios, quartets, quintets, and saxophone choir. Rehearsal 3 hours per week. Pre- or Corequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3751. Trumpet Ensemble III. 1 Hour.
Continuation of Trumpet Ensemble II. Study and performance of music for multiple trumpets, including trios, quartets, quintets, and trumpet choir. Rehearsal 2 hours per week. Pre- or Corequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3761. New Music Ensemble III. 1 Hour.
Continuation of New Music Ensemble II. Small, select ensemble with emphasis on music written in the last hundred years, especially by important living composers. Focus on audience engagement through high performance standards, unconventional settings, and programs unique to the region. Off-campus appearances and outreach activities are required. Admission by consent. Pre- or Corequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3771. Trombone Ensemble III. 1 Hour.
Continuation of Trombone Ensemble II. Study and performance of music for multiple trombones, including trios, quartets, quintets, and trombone choir. Rehearsal 2 hours per week. Pre- or Corequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3781. Tuba Ensemble III. 1 Hour.
Continuation of Tuba Ensemble II. Study and performance of music for multiple combinations of tuba and euphonium, including trios, quartets, quintets, and low brass choir. Rehearsal 2 hours per week. Pre- or Corequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4211. Latin American Ensemble IV. 1 Hour.
This ensemble plays music of Latin America with particular focus on Afro-Caribbean music and its performance practices. Students will have an opportunity to perform, improvise, arrange and compose in a variety of styles such as Son, Danzon, Cha-Cha-Cha, Mambo, Latin Jazz, Salsa, and Timba. The ensemble will perform at least one concert per semester and occasionally will perform at other activities on and off campus. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4221. World Music Ensemble IV. 1 Hour.
Students in the World Music Ensemble will closely study music and practices from a variety of musical cultures, while simultaneously acquiring solid grounding in music theory, musicianship skills, music history, and literature. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.
MUEN 4231. Songwriters' Ensemble IV. 1 Hour.
A combined songwriting course and contemporary music ensemble. Students build a portfolio of original songs while studying elements of modern songwriting including harmony, lyrics, form, arranging, production and style. The class acts as an ensemble to present a recital of original music for the final performance. (Typically offered: Fall) May be repeated for up to 2 hours of degree credit.

MUEN 4251. Arkansas Soul Band IV. 1 Hour.
Perform historical and contemporary popular music from the African American tradition. These genres include, but are not limited to, soul, blues, funk, R&B, and hip-hop. Students will develop arranging and musical direction skills, as well as analysis of performance, arrangements, and compositions/songwriting in these styles. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4261. Intermediate Jazz Combo IV. 1 Hour.
Intermediate small jazz ensemble focused on improvisation in the context of bebop, free jazz, fusion, and related styles. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4271. Advanced Jazz Combo IV. 1 Hour.
Advanced small jazz ensemble focused on improvisation in the context of bebop, free jazz, fusion, and related styles. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4311. Latin American Ensemble V. 1 Hour.
This ensemble plays music of Latin America with particular focus on Afro-Caribbean music and its performance practices. Students will have an opportunity to perform, improvise, arrange and compose in a variety of styles such as Son, Danzon, Cha-Cha-Cha, Mambo, Latin Jazz, Salsa, and Timba. The ensemble will perform at least one concert per semester and occasionally will perform at other activities on and off campus. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4321. World Music Ensemble V. 1 Hour.
Students in the World Music Ensemble will closely study music and practices from a variety of musical cultures, while simultaneously acquiring solid grounding in music theory, musicianship skills, music history, and literature. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4331. Songwriters' Ensemble V. 1 Hour.
A combined songwriting course and contemporary music ensemble. Students build a portfolio of original songs while studying elements of modern songwriting including harmony, lyrics, form, arranging, production and style. The class acts as an ensemble to present a recital of original music for the final performance. (Typically offered: Fall) May be repeated for up to 2 hours of degree credit.

MUEN 4351. Arkansas Soul Band V. 1 Hour.
This ensemble performs historical and contemporary popular music from the African American tradition. These genres include but are not limited to soul, blues, funk, R&B, and hip-hop. Students will develop arranging and musical direction skills as well as analysis of performance, arrangements, and compositions/songwriting in these styles. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4361. Intermediate Jazz Combo V. 1 Hour.
Intermediate small jazz ensemble focused on improvisation in the context of bebop, free jazz, fusion, and related styles. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4371. Advanced Jazz Combo V. 1 Hour.
Advanced small jazz ensemble focused on improvisation in the context of bebop, free jazz, fusion, and related styles. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4401. Opera Theatre IV. 1 Hour.
Continuation of Opera Theatre III. Study of opera through performances of scenes, chamber and major operatic production. Admission with director's approval. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4411. Razorback Chorus IV. 1 Hour.
Continuation of Men's Chorus III. Performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to choral repertoire in the tenor-bass range. Admission is open to any student on campus that can sing in the tenor-bass range. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4421. Inspirational Chorale IV. 1 Hour.
Continuation of Inspirational Chorale III. Performance of African American literature with particular emphasis on Negro spirituals, traditional/contemporary gospel music, and sacred world music. Rehearsal 3 hours per week. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4431. Symphony Orchestra IV. 1 Hour.
Continuation of Symphony Orchestra III. Large, select orchestral ensemble setting with a focus on the study and performance of a range of symphonic literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced players; by audition only. Prerequisite: Senior standing; director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4441. Marching Band IV. 1 Hour.
Continuation of Marching Band III. Large ensemble performs at football games. Emphasis on high performance standards and a variety of performing styles. Rehearsal 8 hours per week. (Typically offered: Fall) May be repeated for up to 2 hours of degree credit.

MUEN 4451. Schola Cantorum IV. 1 Hour.
Continuation of Schola Cantorum III. Large, select choral ensemble with focus on the study and performance of a range of choral literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced singers; by audition only. Prerequisite: Senior standing and director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4461. Wind Symphony IV. 1 Hour.
Continuation of Wind Symphony III. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission by audition. Prerequisite: Senior standing and director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4471. Jazz Orchestra IV. 1 Hour.
Continuation of Jazz Performance Lab III. Training in the various styles of jazz and popular music. Rehearsal 3 hours per week. Admission by audition. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.
MUEN 4481. Campus Band IV. 1 Hour.
Continuation of Campus Band III. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public may be required. Admission by audition or special approval. Corequisite: lab component. Prerequisite: Senior standing. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4491. Concert Band IV. 1 Hour.
Continuation of Concert Band III. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public may be required. Admission is by audition or special approval. Prerequisite: Senior standing. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4511. Symphonic Band IV. 1 Hour.
Continuation of Symphonic Band III. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public are required. Admission is by audition or special approval. Prerequisite: Senior standing and director’s consent. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4521. Woodwind Quintet IV. 1 Hour.
Continuation of Woodwind Quintet III. Study and performance of music for woodwind quintet. Weekly coaching will emphasize intonation, blend, stylistic awareness, and ensemble precision. Repertoire ranges from the 18th to the 20th centuries. 3 hours of rehearsals weekly. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4541. Accompanying IV. 1 Hour.
Continuation of Accompanying III. Piano accompanying of vocal and instrumental soloists. Rehearsal 2 hours per week. Pre-or Corequisite: Senior standing and MUAP 410V. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4551. Percussion Ensemble IV. 1 Hour.
Continuation of Percussion Ensemble III. Study and performance of ensemble music for multiple percussion instruments. Rehearsal 2 hours per week. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4561. Musical Theater Orchestra IV. 1 Hour.
Instrumental ensemble with focus on the preparation and performance of musical theater pit orchestra music, in conjunction with UA Theater’s mainstage musical. Admission by audition or director’s approval. Prerequisite: Senior standing. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

MUEN 4581. Chamber Choir IV. 1 Hour.
Continuation of Chamber Choir III. Study and performance of vocal chamber music. Rehearsal 2 hours per week for 1 hour of credit. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4591. Treble Chorus IV. 1 Hour.
Continuation of Women’s Chorus III. Performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual’s grasp of the essential elements of music, and expose students to choral repertory in the treble range. Admission is open to any student on campus that can sing in the treble range. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4601. Opera Theatre V. 1 Hour.
Continuation of Opera Theatre IV. Study of opera through performances of scenes, chamber and major operatic production. Admission with director’s approval. Prerequisite: Two semesters of MUEN 4401. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4621. Inspirational Chorale V. 1 Hour.
Continuation of Inspirational Chorale IV. Performance of African American literature with particular emphasis on Negro spirituals, traditional/contemporary gospel music, and sacred world music. Rehearsal 3 hours per week. Admission with director’s approval. Prerequisite: Two semesters of MUEN 4421. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4631. Symphony Orchestra V. 1 Hour.
Continuation of Symphony Orchestra IV. Large, select orchestral ensemble setting with a focus on the study and performance of a range of symphonic literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced players; by audition only. Prerequisite: Two semesters of MUEN 4431. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4651. Schola Cantorum V. 1 Hour.
Continuation of Schola Cantorum IV. Performance of a range of choral literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced singers; by audition only. Prerequisite: Two semesters of MUEN 4451. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4661. Wind Symphony V. 1 Hour.
Continuation of Wind Symphony IV. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission by audition. Prerequisite: Two semesters of MUEN 4461. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4671. Jazz Orchestra V. 1 Hour.
Continuation of Jazz Performance Laboratory IV. Training in the various styles of jazz and popular music. Rehearsal 3 hours per week. Admission by audition. Prerequisite: Two semesters of MUEN 4471. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4691. Wind Ensemble V. 1 Hour.
Continuation of Wind Ensemble III. Large ensemble setting performing orchestral wind and symphonic band literature with emphasis on high performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission is by audition. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

This course is equivalent to MUEN 1691.

MUEN 4711. Flute Ensemble IV. 1 Hour.
Continuation of Flute Ensemble III. Study and performance of music for multiple flutes, including trios, quartets, quintets, and the flute choir. Rehearsal 2 hours per week. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.
MUEN 4721. Clarinet Ensemble IV. 1 Hour.
Continuation of Clarinet Ensemble III. Study and performance of music for multiple clarinets, including trios, quartets, quintets, and clarinet choir. Rehearsal 2 hours per week. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4731. Saxophone Ensemble IV. 1 Hour.
Continuation of Saxophone Ensemble III. Study and performance of music for multiple saxophones, including trios, quartets, quintets, and saxophone choir. Rehearsal 3 hours per week. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4751. Trumpet Ensemble IV. 1 Hour.
Continuation of Trumpet Ensemble III. Study and performance of music for multiple trumpets, including trios, quartets, quintets, and trumpet choir. Rehearsal 2 hours per week. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4761. New Music Ensemble IV. 1 Hour.
Continuation of New Music Ensemble III. Small, select ensemble with emphasis on music written in the last hundred years, especially by important living composers. Focus on audience engagement through high performance standards, unconventional settings, and programs unique to the region. Off-campus appearances and outreach activities are required. Admission by consent. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4771. Trombone Ensemble IV. 1 Hour.
Continuation of Trombone Ensemble III. Study and performance of music for multiple trombones, including trios, quartets, quintets, and trombone choir. Rehearsal 2 hours per week. Prerequisite: Senior standing. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

MUEN 4781. Tuba Ensemble IV. 1 Hour.
Continuation of Tuba Ensemble III. Study and performance of music for multiple combinations of tuba and euphonium, including trios, quartets quintets, and low brass choir. Rehearsal 2 hours per week. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4911. Flute Ensemble V. 1 Hour.
Continuation of Flute Ensemble IV. Study and performance of music for multiple flutes, including trios, quartets, quintets, and flute choir. Rehearsal 2 hours per week. Prerequisite: Two semesters of MUEN 4711. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4921. Clarinet Ensemble V. 1 Hour.
Continuation of Clarinet Ensemble IV. Study and performance of music for multiple clarinets, including trios, quartets, quintets, and clarinet choir. Rehearsal 2 hours per week. Prerequisite: Two semesters of MUEN 4721. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4941. Marching Band V. 1 Hour.
Continuation of Marching Band IV. Large ensemble performs at football games. Emphasis on high performance standards and a variety of performing styles. Rehearsal 8 hours per week. Prerequisite: Two semesters of MUEN 4441. (Typically offered: Fall) May be repeated for up to 2 hours of degree credit.

MUEN 4961. New Music Ensemble V. 1 Hour.
Continuation of New Music Ensemble IV. Small, select ensemble with emphasis on music written in the last hundred years, especially by important living composers. Focus on audience engagement through high performance standards, unconventional settings, and programs unique to the region. Off-campus appearances and outreach activities are required. Admission by consent. Prerequisite: Two semesters of MUEN 4761. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4981. Tuba Ensemble V. 1 Hour.
Continuation of Tuba Ensemble IV. Study and performance of music for multiple combinations of tuba and euphonium, including trios, quartets, quintets, and low brass choir. Rehearsal 2 hours per week. Prerequisite: Two semesters of MUEN 4781. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 5211. Latin American Ensemble. 1 Hour.
This ensemble plays music of Latin America with particular focus on Afro-Caribbean music and its performance practices. Students will have an opportunity to perform, improvise, arrange and compose in a variety of styles such as Son, Danzon, Cha-Cha-Cha, Mambo, Latin Jazz, Salsa, and Timba. The ensemble will perform at least one concert per semester and occasionally will perform at other activities on and off campus. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.
MUEN 5221. World Music Ensemble. 1 Hour.
Students in the World Music Ensemble will closely study music and practices from a variety of musical cultures, while simultaneously acquiring solid grounding in music theory, musicianship skills, music history, and literature. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 5231. Songwriters' Ensemble. 1 Hour.
A combined songwriting course and contemporary music ensemble. Students build a portfolio of original songs while studying elements of modern songwriting including harmony, lyrics, form, arranging, production and style. The class acts as an ensemble to present a recital of original music for the final performance. (Typically offered: Fall) May be repeated for up to 2 hours of degree credit.

MUEN 5241. Beginning Jazz Combo. 1 Hour.
Introductory ensemble experience offering a repertoire-based approach to learning basic improvisation skills and the performance of common jazz styles. Open to both music and non-music majors. (Typically offered: Spring)

MUEN 5251. Arkansas Soul Band. 1 Hour.
Perform historical and contemporary popular music from the African American tradition. These genres include, but are not limited to, soul, blues, funk, R&B, and hip-hop. Students will develop arranging and musical direction skills, as well as analysis of performance, arrangements, and compositions/songwriting in these styles. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 5261. Intermediate Jazz Combo. 1 Hour.
Intermediate small jazz ensemble focused on improvisation in the context of bebop, free jazz, fusion, and related styles. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 5271. Advanced Jazz Combo. 1 Hour.
Advanced small jazz ensemble focused on improvisation in the context of bebop, free jazz, fusion, and related styles. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 5401. Opera Theatre. 1 Hour.
Study of opera through performances of scenes, chamber and major operatic production. Admission with director's approval. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5411. Razorback Chorus. 1 Hour.
Performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to choral repertory in the tenor-bass range. Admission is open to any student on campus that can sing in the tenor-bass range. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5421. Inspirational Chorale. 1 Hour.
Performance of African-American literature with particular emphasis on Negro spirituals, traditional/contemporary gospel music and sacred world music. Rehearsal 3 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 5431. Symphony Orchestra. 1 Hour.
Rehearsal 3 hours per week with extra rehearsals at director's discretion. Admission with director's approval. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5441. Marching Band. 1 Hour.
Rehearsal 8 hours per week. Admission with director's approval. (Typically offered: Fall) May be repeated for degree credit.

MUEN 5451. Schola Cantorum. 1 Hour.
Vocal ensemble limited to the more experienced singers. Rehearsal 5 hours per week. Admission with director's approval. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5461. Wind Symphony. 1 Hour.
Rehearsal 3 to 5 hours per week. Admission by audition and approval of the conductor. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5471. Jazz Orchestra. 1 Hour.
Training in the various styles of jazz and popular music. Rehearsal 3 hours per week. Admission by audition. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5481. Campus Band. 1 Hour.
Rehearsal 3 hours per week. Admission by audition and approval of the conductor. (Typically offered: Spring) May be repeated for degree credit.

MUEN 5491. Concert Band. 1 Hour.
Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public may be required. Admission is by audition or special approval. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 5501. Chamber Music. 1 Hour.
Study and performance of music for small ensemble for any combination of instruments and/or voice. Rehearsal 3 hours per week. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5521. Woodwind Quintet. 1 Hour.
Study and performance of music for woodwind quintet. Weekly coaching will emphasize intonation, blend, stylistic awareness, and ensemble precision. Repertoire ranges from the 18th to the 20th centuries. 3 hours of rehearsals weekly. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5541. Accompanying. 1 Hour.
Piano accompanying of vocal and instrumental soloists. Rehearsal 2 hours per week. Pre- or Corequisite: MUAP 510V. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5551. Percussion Ensemble. 1 Hour.
Study and performance of entire ensemble music for multiple percussion instruments. Rehearsal 2 hours per week. (Typically offered: Spring and Summer) May be repeated for degree credit.

MUEN 5561. Musical Theater Orchestra. 1 Hour.
Instrumental ensemble with focus on the preparation and performance of musical theater pit orchestra music, in conjunction with UA Theater's mainstage musical. Admission by audition or director's approval. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

MUEN 5591. Treble Chorus. 1 Hour.
Performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to choral repertory in the treble range. Admission is open to any student on campus that can sing in the treble range. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 5691. Wind Ensemble. 1 Hour.
Large ensemble setting performing orchestral wind and symphonic band literature with emphasis on high performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission is by audition. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 5721. Clarinet Ensemble. 1 Hour.
Study and performance of music for multiple clarinets, including trios, quartets, quintets, and clarinet choir. Rehearsal 2 hours per week. (Typically offered: Fall and Spring) May be repeated for degree credit.
MUEN 5751. Trumpet Ensemble. 1 Hour.
Study and performance of music for multiple trumpets, including trios, quartets, quintets, and trumpet choir. Rehearsal 2 hours per week. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5757. New Music Ensemble. 1 Hour.
Small, select ensemble with emphasis on music written in the last hundred years, especially by important living composers. Focus on audience engagement through high performance standards, unconventional settings, and programs unique to the region. Off-campus appearances and outreach activities are required. Admission by consent. (Typically offered: Fall and Spring)

MUEN 5771. Trombone Ensemble. 1 Hour.
Study and performance of music for multiple trombones, including trios, quartets, quintets, and trombone choir. Rehearsal 2 hours per week. (Typically offered: Irregular) May be repeated for degree credit.

MUEN 5771. Chamber Choir. 1 Hour.
Continuation of Chamber Choir V for graduate students. Study and performance of vocal chamber music. Rehearsal 2 hours per week for 1 hour of credit. (Typically offered: Fall and Spring)

Music Industry (MUIN) Courses

MUIN 2011. Contemporary Commercial Songwriting. 1 Hour.
Introduction to the songwriting craft and profession by studying songwriting techniques, creating original songs, and exploring business aspects of the songwriting component of the music industry. No prior music courses or experience required. Instrumental, vocal, or music technology skills encouraged. (Typically offered: Fall, Spring and Summer)

MUIN 3403. Composing for Film and Television. 3 Hours.
Develop the tools needed to create original music for visual media. Focuses on the aesthetics, procedures, and technical aspects of scoring for film and television. Completion of MUTH 3613 Form and 20th Century Techniques or MUTH 3723 Jazz Analysis is recommended. Prerequisite: (MUAC 2112 and MUTH 2603) or instructor consent. (Typically offered: Fall and Spring)

MUIN 4103. Legal Aspects of the Music Industry. 3 Hours.
Gives students an in-depth look at the many types of legal agreements and concepts used in the music industry commonly utilized by artists, composers, and corporations. Topics include copyright, trademark, recording contracts, management, publishing and licensing. Prerequisite: ENGL 1023. (Typically offered: Fall and Spring)

MUIN 4553. Live Music Business. 3 Hours.
The applied component of the live music business corresponding to the student-run record label services project in the department of music. Incorporates live music project cycles, digital marketing of live music, booking venues, routing tours, creating showcase events for student-run record label artists. Corequisite: Lab component. (Typically offered: Fall)

MUIN 5553. Live Music Business. 3 Hours.
The applied component of the live music business corresponding to the student-run record label services project in the department of music. Incorporates live music project cycles, digital marketing of live music, booking venues, routing tours, creating showcase events for student-run record label artists. (Typically offered: Fall)

MUIN 5563. Artist Development. 3 Hours.
The applied component of the artist development side of the music department's student-run label services project. Students will work on project cycles involving selecting artists, recording and producing music, organizing music releases and media campaigns, creating online promotional strategies, and mapping the development of musical artists' careers. Corequisite: Lab component. (Typically offered: Spring)

Music History (MUHS) Courses

MUHS 3503. Jazz History. 3 Hours.
This course includes overviews of major jazz styles, significant musicians, related historical events, and critical approaches in the field of jazz studies. Students will build skills in active listening, transcription, and academic reading and writing while expanding their familiarity with musical techniques and the cultural history of jazz. Prerequisite: MLIT 1013 or MLIT 1013H. (Typically offered: Fall)

MUHS 3703. Music in Western Civilization. 3 Hours.
Introduction to the study of Western music, history, scholarship, and research methods. Analyzes musical monuments as aesthetic objects and considers their relation to such issues as exoticism, politics and religious belief, as well as the status of this canon in the early twenty-first century. Prerequisite: (MLIT 1013 or MLIT 1013H) and MUTH 1603 or instructor's consent. (Typically offered: Fall)

MUHS 3713. Topics in Musicology. 3 Hours.
Topics in Western, world, and popular musics. Prerequisite: ((MLIT 1013 or MLIT 1013H) and MUTH 1603) or instructor consent. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

MUHS 4253. Capstone Project Seminar. 3 Hours.
Develop a project related to a specific area of musical study. Options include musico logical research papers, music theoretical analyses, music cognition research projects, performance lecture recitals, and recording projects with a written component. Prerequisite: MUHS 3703 and MUHS 3713. (Typically offered: Spring)

MUHS 4253H. Honors Capstone Project Seminar. 3 Hours.
Develop a project related to a specific area of musical study. Options include musico logical research papers, music theoretical analyses, music cognition research projects, performance lecture recitals, and recording projects with a written component. Prerequisite: MUHS 3703 and MUHS 3713 and honors standing. (Typically offered: Spring)

This course is equivalent to MUHS 4253.

MUHS 4623. Music History Review. 3 Hours.
Review of the central data and concepts of music history, with emphasis on individual periods as needed by students enrolled. Credit in this course may not count toward the Master of Music or Master of Education degree. (Typically offered: Fall)

MUHS 473. Survey of String Literature. 3 Hours.
A survey of solo and chamber music literature involving stringed instruments. Prerequisite: MUAP 110V and MUTH 3613. (Typically offered: Fall Even Years)

MUHS 4733. Survey of Symphonic Literature. 3 Hours.
A survey of the symphonic literature from its beginning to the present. (Typically offered: Fall Odd Years)

MUHS 476. Survey of Vocal Literature I. 3 Hours.
A survey of concert literature for the solo voice. (Typically offered: Fall Even Years)
MUHS 4773. Survey of Vocal Literature II. 3 Hours.
A survey of concert literature for the solo voice. Prerequisite: MUHS 4763. (Typically offered: Spring Odd Years)

MUHS 4793. Band Literature. 3 Hours.
A study of literature written for performance by concert band, symphonic band, and wind ensemble, representative of the following five periods in Music History: Renaissance (1420-1600), Baroque (1600-1750), Classical (1750-1820), Romantic (1820-1900), and Contemporary (1900-present). (Typically offered: Irregular)

MUHS 4803. Survey of Keyboard Literature I. 3 Hours.
A survey of the piano works of outstanding composers. Prerequisite: MUAP 110V. (Typically offered: Fall Even Years)

MUHS 4813. Survey of Keyboard Literature II. 3 Hours.
A survey of the piano works of outstanding composers. Prerequisite: MUHS 4803. (Typically offered: Spring Odd Years)

MUHS 489V. Seminar in Music History. 1-4 Hour.
Subject matter not covered in other courses. With permission, may be repeated for credit if topics are different. (Typically offered: Irregular) May be repeated for degree credit.

MUHS 5253. Special Topics in Music History. 3 Hours.
Topics in world, Western, and popular musics. May be required based on graduate musicology entrance exam. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

MUHS 5563. Collaborative Piano Literature I, Woodwind and Brass Repertoire. 3 Hours.
Survey of collaborative literature for piano and wind or brass instruments. Focus on music for the collaborative duo (instrument and piano) including sonatas and concerto. (Typically offered: Fall Even Years)

MUHS 5573. Collaborative Piano Literature II, String Repertoire. 3 Hours.
Survey of collaborative literature for the piano. Focus on the repertoire of sonatas, concerto and concert works for the piano and instrument (violin, viola, cello, and double bass). (Typically offered: Spring Odd Years)

MUHS 5633. Survey of Symphonic Literature. 3 Hours.
(Formerly MUHS 4733.) A survey of the symphonic literature from its beginning to the present. Graduate degree credit will not be given for both MUHS 4733 and MUHS 5633. (Typically offered: Fall Even Years)

MUHS 5673. Survey of Vocal Literature II. 3 Hours.
(Formerly MUHS 4773.) A survey of concert literature for the solo voice. Graduate degree credit will not be given for both MUHS 4773 and MUHS 5673. Prerequisite: MUHS 4763. (Typically offered: Spring Odd Years)

MUHS 5693. Band Literature. 3 Hours.
(Formerly MUHS 4793.) A study of literature written for performance by concert band, symphonic band, and wind ensemble, representative of the following five periods in Music History: Renaissance (1420-1600), Baroque (1600-1750), Classical (1750-1820), Romantic (1820-1900), and Contemporary (1900-present). Graduate degree credit will not be given for both MUHS 4793 and MUHS 5693. (Typically offered: Irregular)

MUHS 5703. Survey of String Literature. 3 Hours.
(Formerly MUHS 4703.) A survey of solo and chamber music literature involving stringed instruments. Graduate degree credit will not be given for both MUHS 4703 and MUHS 5703. Prerequisite: MUAP 110V and MUTH 3613. (Typically offered: Fall Even Years)

MUHS 5722. Directed Studies in Music Literature I. 2 Hours.
Research in music literature in the performance field of the individual student. (Typically offered: Fall and Spring)

MUHS 5732. Directed Studies in Music Literature II. 2 Hours.
Research in music literature in the performance field of the individual student. Prerequisite: MUHS 5722. (Typically offered: Fall and Spring)

MUHS 5763. Survey of Vocal Literature I. 3 Hours.
(Formerly MUHS 4763.) A survey of concert literature for the solo voice. Graduate degree credit will not be given for both MUHS 4763 and MUHS 5763. (Typically offered: Fall Even Years)

MUHS 5803. Survey of Keyboard Literature I. 3 Hours.
(Formerly MUHS 4803.) A survey of the piano works of outstanding composers. Graduate degree credit will not be given for both MUHS 4803 and MUHS 5803. Prerequisite: MUAP 110V. (Typically offered: Fall Even Years)

MUHS 5813. Survey of Keyboard Literature II. 3 Hours.
(Formerly MUHS 4813.) A survey of the piano works of outstanding composers. Graduate degree credit will not be given for both MUHS 4813 and MUHS 5813. Prerequisite: MUHS 4803. (Typically offered: Spring Odd Years)

MUHS 589V. Seminar in Music History. 1-4 Hour.
(Formerly MUHS 489V.) Subject matter not covered in other courses. With permission, may be repeated for credit if topics are different. Graduate degree will not be given for both MUHS 489V and MUHS 589V. (Typically offered: Irregular) May be repeated for degree credit.

MUHS 5903. Seminar in Musicology. 3 Hours.
Focuses on specialized topics and repertoires within the history of Western music and introduces students to musico-logical approaches to these subjects. Prerequisite: MUHS 5973 or instructor consent. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUHS 5952. Choral History and Literature I. 2 Hours.
Detailed study of choral history and literature from Gregorian chant to J.S. Bach. (Typically offered: Irregular)

MUHS 5962. Choral History and Literature II. 2 Hours.
Detailed study of choral history and literature from J.S. Bach to the present. (Typically offered: Irregular)

MUHS 5973. Seminar in Bibliography and Methods of Research. 3 Hours.
A survey of the methods and materials of musical research, including bibliography, methods of analysis, and style in the presentation of research results. Open to graduate students and to juniors in Honors. (Typically offered: Fall)

MUHS 600V. Master’s Thesis. 1-6 Hour.
Master’s Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Music Literature (MLIT)

MLIT 1003. Experiencing Music (ACTS Equivalency = MUSC 1003). 3 Hours.
Examines how music reflects and impacts culture while familiarizing students with various musical styles, forms and ideas. Develops listening skills and introduces basic music vocabulary and fundamentals. (Typically offered: Fall, Spring and Summer)

MLIT 1003H. Honors Experiencing Music. 3 Hours.
Examines how music reflects and impacts culture while familiarizing students with various musical styles, forms and ideas. Develops listening skills and introduces basic music vocabulary and fundamentals. (Typically offered: Fall and Spring) This course is equivalent to MLIT 1003.

MLIT 1013. Music and Society. 3 Hours.
Introduction to academic study of Western art music, jazz, popular music, and world music. Students will gain experience in guided listening and in reading, writing, and critical thinking about musical cultures and their roles in society. Required for music majors. Prerequisite: Music major or music minor or instructor consent. (Typically offered: Fall)
MLIT 1013H. Honors Music and Society. 3 Hours.
Introduction to academic study of Western art music, jazz, popular music, and world music. Students will gain experience in guided listening and in reading, writing, and critical thinking about musical cultures and their roles in society. Required for music majors. Prerequisite: Music major or music minor and honors standing or instructor consent. (Typically offered: Fall)
This course is equivalent to MLIT 1013.

MLIT 1333. Popular Music. 3 Hours.
Cover the history of popular music during the 20th and 21st centuries within its social and cultural contexts. Examines the origins, evolution, and stylistic features of prominent popular genres, such as country, rock, blues, hip hop, and soul. (Typically offered: Fall and Spring)

Music Pedagogy (MUPD) Courses

MUPD 3801. Conducting I. 1 Hour.
A study of the elementary techniques of conducting instrumental and choral groups. Prerequisite: MUTH 2603. (Typically offered: Fall)

MUPD 3811. Conducting II: Instrumental Music. 1 Hour.
Continuation of study of the technique of conducting instrumental music groups. Prerequisite: MUPD 3801. (Typically offered: Spring)

MUPD 3861. Conducting II: Vocal Music. 1 Hour.
Continuation of study of conducting with emphasis on techniques of choral conducting. Prerequisite: MUPD 3801. (Typically offered: Spring)

MUPD 3871. Reed-Making. 1 Hour.
The making of reeds for oboe, bassoon, or clarinet, including the processing of cane from tubes. (Typically offered: Fall) May be repeated for up to 2 hours of degree credit.

MUPD 3883. Jazz Pedagogy. 3 Hours.
This course will provide future teachers with a sequenced method and resource materials to teach jazz songs, style, and improvisation by ear and from sheet music in instrumental and vocal ensembles. The course will also address ensemble rehearsal techniques and teaching individual students. The teaching content includes a variety of songs from the jazz tradition appropriate for students in middle school, high school, and college, along with tools for assessment of student progress. (Typically offered: Irregular)

MUPD 477V. Special Topics in Pedagogy. 1-6 Hour.
Subject matter not covered in other sources. With permission, may be repeated for credit if topics are different. (Typically offered: Irregular) May be repeated for degree credit.

MUPD 4863. Piano Pedagogy. 3 Hours.
Analytical study and discussion of the various approaches to piano pedagogy and its application in individual/class instruction. Involve demonstration of principles through actual teaching of beginning, intermediate and upper level students. Graduate degree credit will not be given for both MUPD 4863 and MUPD 5763. (Typically offered: Spring Even Years)

MUPD 5763. Piano Pedagogy. 3 Hours.
(CFormerly MUPD 4863.) Analytical study and discussion of the various approaches to piano pedagogy and its application in individual/class instruction. Involve demonstration of principles through actual teaching of beginning, intermediate and upper level students. Graduate degree credit will not be given for both MUPD 4863 and MUPD 5763. (Typically offered: Spring Even Years)

MUPD 577V. Special Topics in Pedagogy. 1-6 Hour.
Subject matter not covered in other sources. With permission, may be repeated for credit if topics are different. Graduate degree credit will not be given for both MUPD 4863 and MUPD 577V. (Typically offered: Irregular) May be repeated for degree credit.

MUPD 582V. Conducting. 1-4 Hour.
Private lessons of 1/2 hour and 1 hour conducting laboratory each week. Development of skills in conducting symphony, choral, opera, oratorio, ballet, and band repertoire. (Typically offered: Fall and Spring) May be repeated for up to 18 hours of degree credit.

MUPD 599V. Special Workshop in Music. 1-6 Hour.
Presented by visiting master artist-teacher in various fields of music performance, teaching and composition. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

Music Theory (MUTH) Courses

MUTH 1003. Basic Musicianship. 3 Hours.
Introductory-level studies in music theory and aural perception for students not prepared for MUTH 1603 or MUTH 1621. (Typically offered: Fall)

MUTH 1603. Music Theory I. 3 Hours.
A study of diatonic harmonic practice. Includes part-writing and analysis. Prerequisite: A grade of C or better in MUTH 1003 or instructor consent. (Typically offered: Spring)

MUTH 1621. Aural Perception I. 1 Hour.
Development of aural perception through ear training, sight singing, and keyboard harmony. Meets 2 hours per week. (Typically offered: Spring)

MUTH 1631. Aural Perception II. 1 Hour.
Continued development of aural perception through ear training, sight singing, and keyboard harmony. Meets 2 hours per week. Prerequisite: A grade of C or better in MUTH 1621. (Typically offered: Fall)

MUTH 164V. Composition I. 1-4 Hour.
Private lessons of one-half hour, and one hour of composition laboratory session each week. Development of skills in creative musical expression. Specifically for composition-theory majors. Others admitted by consent. Prerequisite: Music theory or composition major. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

MUTH 2603. Music Theory II. 3 Hours.
A continuation of MUTH 1603. Also includes chromatic harmony. Prerequisite: A grade of C or better in MUTH 1603. (Typically offered: Fall)

MUTH 2621. Aural Perception III. 1 Hour.
A continuation of MUTH 1631. Two hours per week, one hour credit. Prerequisite: A grade of C or better in MUTH 1631. (Typically offered: Spring)

MUTH 2631. Aural Perception IV. 1 Hour.
A continuation of MUTH 2621. Two hours per week, one hour credit. Prerequisite: A grade of C or better in MUTH 2621. (Typically offered: Fall)
MUTH 264V. Composition II. 1-4 Hour.
Continuation of Composition I. Private lessons of one-half hour, and one hour of composition laboratory session per credit hour each week. Continued development of skills in creative musical expression. Specifically for composition-theory majors. Others admitted by consent. Prerequisite: Two semesters of MUTH 164V with grades of “B” and recommendation of instructor. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

MUTH 3603. 18th Century Counterpoint. 3 Hours.
A study of 18th century counterpoint. Writing and analysis of inventions, canons, fugues, etc. Three hours per week. Prerequisite: A grade of C or better in MUTH 2603. (Typically offered: Spring)

MUTH 3613. Form and 20th Century Techniques. 3 Hours.
A study of the harmonic and melodic trends of the 20th century. Three hours per week. Prerequisite: A grade of C or better in MUTH 2603. (Typically offered: Fall)

MUTH 3623. Music Perception. 3 Hours.
A study of the perception and cognition of music. Prerequisite: MUTH 2603. (Typically offered: Spring Even Years)

MUTH 364V. Composition III. 1-4 Hour.
Continuation of Composition II. Private lessons of one-half hour, and one hour of composition laboratory session per credit hour each week. Continued development of advanced skills in creative musical expression. Specifically for composition-theory majors. Others admitted by consent. Prerequisite: Two semesters of MUTH 264V with grades of “B” and recommendation of instructor. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit. This course is equivalent to MUTH 364V.

MUTH 3723. Jazz Analysis. 3 Hours.
This course is an introduction to jazz analysis. Course content will include lead sheet symbols, jazz progressions, lead sheet analysis, improvisation, phrasing and meter, and aural skills. Prerequisite: A grade of C or better in MUTH 2603. (Typically offered: Irregular)

MUTH 3733. Functional Jazz Piano. 3 Hours.
This course is intended for both jazz pianists and non-pianists and provides methods for common jazz piano voicings. Through practical applications and drills, the students will be familiar with a variety of common voicings techniques, including (but not limited to): 1) "shell" voicing, 2) two-note critical tone voicings (both with roots and rootless), 3) three-note left-hand voicings, and 4) four-part "drop 2" voicings. Also, this course will provide basic techniques for improvisation. Prerequisite: MUTH 1603 and MUTH 1621, both with grades of "B" and recommendation of instructor. (Typically offered: Irregular)

MUTH 3742. Jazz Arranging. 2 Hours.
This course introduces students to techniques in arranging for small and large jazz ensembles. Students will analyze representative examples of various jazz styles, learn technical features of common jazz instruments, experiment with common approaches to arranging, and write their own arrangements of jazz standards for small ensemble and big band. Prerequisite: MUTH 2603. (Typically offered: Irregular)

MUTH 3923. Music and Mind. 3 Hours.
Examines music from the perspective of cognitive science. Readings and discussions investigate the psychological processes that underlie musical behaviors such as listening and performing while also learning how to adopt empirical methods to study music and make sense of empirical data related to music. Prerequisite: Instructor consent. (Typically offered: Fall)

MUTH 3923H. Honors Music and Mind. 3 Hours.
Examines music from the perspective of cognitive science. Readings and discussions investigate the psychological processes that underlie musical behaviors such as listening and performing while also learning how to adopt empirical methods to study music and make sense of empirical data related to music. (Typically offered: Fall)

This course is equivalent to MUTH 3923.

MUTH 4322. Score Reading. 2 Hours.
A conductor's approach to the technique of score reading and analysis of orchestra, band, and choral scores for the purpose of preparing composition for rehearsal and performance. (Typically offered: Fall)

MUTH 4612. Orchestration. 2 Hours.
A continuation of study of the capabilities of the various orchestral and band instruments and their use in arrangement for ensembles, band, and orchestra. Scoring for orchestra. Prerequisite: MUTH 3613. (Typically offered: Spring)

MUTH 462V. Music Theory Review. 1-3 Hour.
A continuation and intensification of undergraduate music theory. (May not count for credit toward the Master of Music degree.) (Typically offered: Fall)

MUTH 464V. Composition IV. 1-4 Hour.
Continuation of Composition III. Private lessons of one-half hour and one hour of composition laboratory session per credit hour each week. Continued development of advanced skills in creative musical expression. Specifically for composition-theory majors. Others admitted by consent. Prerequisite: Two semesters of MUTH 364V with grades of “B” and recommendation of instructor. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit. This course is equivalent to MUTH 464V.

MUTH 464VH. Honors Composition IV. 1-4 Hour.
Continuation of Composition III. Private lessons of one-half hour and one hour of composition laboratory session per credit hour each week. Continued development of advanced skills in creative musical expression. Specifically for composition-theory majors. Others admitted by consent. Prerequisite: Two semesters of MUTH 364V with grades of “B” and recommendation of instructor. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit. This course is equivalent to MUTH 464V.

MUTH 4703. Writing Music Analysis. 3 Hours.
Analysis of music with an emphasis on analytical writing skills and the use of library source materials. Prerequisite: MUTH 3603. (Typically offered: Spring)

MUTH 477V. Special Topics in Music Theory. 1-4 Hour.
Subject matter not covered in other courses. Prerequisite: Instructor consent. (Typically offered: Irregular) May be repeated for degree credit.

MUTH 477VH. Honors Special Topics in Music Theory. 1-4 Hour.
Subject matter not covered in other courses. (Typically offered: Irregular) May be repeated for up to 8 hours of degree credit. This course is equivalent to MUTH 477V.

MUTH 4923H. Honors Colloquium in Music Theory. 3 Hours.
Covers a special topic or issue, offered as part of the honors program. (Typically offered: Irregular)

MUTH 498V. Senior Thesis. 1-18 Hour.
Senior Thesis. (Typically offered: Fall, Spring and Summer)
MUTH 5322. Score Reading. 2 Hours.
(Formerly MUTH 4322.) A conductor’s approach to the technique of score reading and analysis of orchestra, band, and choral scores for the purpose of preparing composition for rehearsal and performance. Graduate degree credit will not be given for both MUTH 4322 and MUTH 5322. (Typically offered: Fall)

MUTH 5343. Analytical Techniques. 3 Hours.
An intensive study of selected works from music literature. Schenkerian analysis, rhythmic analysis, and set theory analytical techniques will be studied and employed in addition to traditional harmonic and formal analysis. Prerequisite: MUTH 3613 or equivalent and graduate standing. (Typically offered: Fall)

MUTH 5612. Orchestration. 2 Hours.
(Formerly MUTH 4612.) A continuation of study of the capabilities of the various orchestral and band instruments and their use in arrangement for ensembles, band, and orchestra. Scoring for orchestra. Graduate degree credit will not be given for both MUTH 4612 and MUTH 5612. Prerequisite: MUTH 3613. (Typically offered: Spring)

MUTH 5623. Pedagogy of Theory. 3 Hours.
Detailed study of methods of teaching undergraduates courses in music theory and aural perception. Prerequisite: Graduate standing. (Typically offered: Irregular)

MUTH 5643. Analysis of 20th Century Music. 3 Hours.
Study of 20th century music and analytic techniques including pitch class set theory and serial techniques. Prerequisite: Graduate standing. (Typically offered: Irregular)

MUTH 5672. Advanced Orchestration. 2 Hours.
A study of advanced principles of orchestral writing through individual projects in scoring and analysis. Prerequisite: MUTH 4612 or MUTH 5612 (formerly MUTH 4612) or equivalent. (Typically offered: Irregular)

MUTH 568V. Composition. 1-4 Hour.
Private lessons of one-half hour, and one hour of composition laboratory session each week. Development of skills in creative musical expression specifically for composition-theory majors - others admitted by consent. Prerequisite: Graduate standing. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUTH 5703. Writing Music Analysis. 3 Hours.
(Formerly MUTH 4703.) Analysis of music with an emphasis on analytical writing skills and the use of library source materials. Graduate degree credit will not be given for both MUTH 4703 and MUTH 5703. Prerequisite: MUTH 3603. (Typically offered: Spring)

MUTH 577V. Special Topics in Music Theory. 1-4 Hour.
(Formerly MUTH 477V.) Subject matter not covered in other courses. Graduate degree credit will not be given for both MUTH 477V and MUTH 577V. Prerequisite: Instructor consent. (Typically offered: Irregular) May be repeated for degree credit.

MUTH 599V. Independent Study in Music Theory. 1-6 Hour.
Provides students with an opportunity to pursue special study of topics in music theory. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

MUTH 600V. Master’s Thesis. 1-6 Hour.
Master’s Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Nursing (NURS)

Courses
NURS 2012. Nursing Informatics. 2 Hours.
This course focuses on how information technology is used in the health care system. The course describes how nursing informatics is currently being used by healthcare professionals and speculates about future applications. Prerequisite: For pre-nursing and nursing majors only. Must have sophomore standing or above and a GPA of 3.0 or above. (Typically offered: Fall, Spring and Summer)

NURS 2022. Introduction to Professional Nursing Concepts. 2 Hours.
The course presents an overview of theories, principles and concepts essential to professional nursing practice. It includes ethical and legal implications relevant to health care systems. Focus is on the nursing process as the organizing framework for the delivery of care. It also explores the role of the professional nurse. This is a pre-nursing course. Prerequisite: For pre-nursing and nursing majors only. Must have sophomore standing or above and a GPA of 3.0 or above. (Typically offered: Fall, Spring and Summer)

NURS 2032. Therapeutic and Interprofessional Communication. 2 Hours.
Focuses on interpersonal and group communication in health care settings. It explores the role of the nurse in the therapeutic communication process. Prerequisite: For pre-nursing and nursing majors only. Must have sophomore standing or above and a GPA of 3.0 or above. (Typically offered: Fall, Spring and Summer)

NURS 3111. Clinical Skills for Professional Nurses. 1 Hour.
Students apply nursing concepts and skills with emphasis on the caregiver role transition and use of the nursing process. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head, and students must have completed all University core and program prerequisites. Pre- or Corequisite: NURS 4323. (Typically offered: Fall and Spring)

NURS 3171. Independent Study Nursing. 1 Hour.
A structured learning experience in nursing to improve knowledge of the science in nursing. Objectives and experiences are designed on an individual basis with a faculty advisor. May be taken with any 3500 level nursing course or above. (Typically offered: Irregular) May be repeated for up to 7 hours of degree credit.

NURS 3302. Older Adult Nursing. 2 Hours.
This course builds on previous nursing knowledge by focusing on gerontologic theories, concepts, and principles as they relate to nursing care of older adults. Students explore socio-cultural context of gerontologic nursing, professional standards of practice, common health concerns, and future considerations. Prerequisite: NURS 4323, NURS 4313 and admission of to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. Pre- or Corequisite: NURS 3111. (Typically offered: Fall, Spring and Summer)

NURS 3313. Pharmacology in Nursing. 3 Hours.
The use of therapeutic drugs in health care is the focus of the course. Nursing assessment, safety measures and client education related to drug therapy are emphasized. This is a Level I course. Prerequisite: Admission into the BSN professional program. (Typically offered: Fall and Spring)

NURS 3314. Pathophysiology. 4 Hours.
The course focuses on underlying concepts common to pathophysiologic processes across the life span. Factors that contribute to altered physiological functioning and the body’s adaptive and compensatory mechanisms are studied. Emphasizes concepts essential for understanding the rationale for preventive and therapeutic nursing interventions in health and illness. This is a Level I course. Prerequisite: Admission into BSN professional program. (Typically offered: Fall and Spring)

NURS 3321L. Health Assessment Practicum. 1 Hour.
The course focuses on the implementation of concepts and principles of health assessment, preparing students to complete a holistic health assessment of the well person. This is a Level I course. Corequisite: NURS 3342. Prerequisite: BIOL 2443, BIOL 2441L, BIOL 2213, BIOL 2211L, and admission to the BSN professional program. (Typically offered: Fall, Spring and Summer)
NURS 3332. Adult Health I for Nurses. 2 Hours.
The course focuses on the experience of acute problems across the health-illness continuum. Students learn to utilize the nursing process through case planning and case studies while focusing on the adult population. Prerequisite: NURS 4313, NURS 3302 and admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 3342. Health Assessment. 2 Hours.
This course focuses on concepts and principles of health assessment in a well person. Health status, environment, physical and psychosocial findings, and medical terminology are emphasized to create a holistic health assessment plan. This is a Level I course. Prerequisite: Admission into the BSN professional program of studies, BIOL 2443, BIOL 2441L, BIOL 2213 and BIOL 2211L. Corequisite: NURS 3321L. (Typically offered: Fall and Spring)

NURS 3402. Nursing Concepts: Older Adult. 2 Hours.
This course focuses on gerontologic theories, concepts, and principles as they relate to nursing care of older adults. Students explore socio-cultural context of gerontologic nursing, professional standards of practice, common health concerns, and future considerations. This is a Level I course. Prerequisite: Admission into the BSN Professional Program of Studies. (Typically offered: Fall and Spring)

Introduction to the nursing process and the scope of basic human needs. The student learns to use nursing diagnoses and care plans in case studies. This is a Level I course. Corequisite: NURS 3424. Prerequisite: Admission to BSN professional program. (Typically offered: Fall and Spring)

NURS 3424. Professional Role Implementation I: Caregiver. 4 Hours.
Students apply basic nursing concepts and skills in laboratory and clinical settings. Emphasis is on the role of nurse as caregiver and use of the nursing process in the delivery of care. This is a Level I course. Pre- or Corequisite: NURS 3422, NURS 3321L, and NURS 3313. Prerequisite: Admission to the BSN program. (Typically offered: Fall and Spring)

Focuses on the adult population experiencing acute problems in the health-illness continuum. Utilizing the nursing process, nursing, and medical treatments of selected conditions that will be emphasized in the acute care setting. This is a Level I course. Corequisite: NURS 3644. Prerequisite: NURS 3313, NURS 3314, NURS 3321L, NURS 3402, and NURS 3422. (Typically offered: Fall and Spring)

NURS 3644. Professional Role Implementation II: Caregiver. 4 Hours.
Emphasizes the role of caregiver in acute care settings. Course expands on assessment and includes advanced clinical skills. Emphasizes the use of clinical judgment to promote optimal health for adults experiencing illness and/or undergoing surgery. This is a Level I course. Pre- or Corequisite: NURS 3634. Prerequisite: NURS 3313, NURS 3314, NURS 3321L, NURS 3402, NURS 3422, and NURS 3424. (Typically offered: Fall and Spring)

NURS 3644H. Honors Professional Role Implementation II: Caregiver. 4 Hours.
Emphasizes the role of caregiver in acute care settings. Course expands on assessment and includes advanced clinical skills. Emphasizes the use of clinical judgment to promote optimal health for adults experiencing illness and/or undergoing surgery. This is a Level I course. Pre- or Corequisite: NURS 3634. Prerequisite: NURS 3313, NURS 3314, NURS 3321L, NURS 3402, NURS 3422, and NURS 3424. (Typically offered: Fall and Spring)

This course is equivalent to NURS 3644.

NURS 3742. Nursing Concepts: Mental Health and Illness. 2 Hours.
Presents the basic concepts and theories of mental health and illness. Examines various therapeutic modalities in the care of clients experiencing mental health or psychosocial disorders. This is a Level I course. Corequisite: NURS 3752. Prerequisite: NURS 3313, NURS 3314, NURS 3321L, NURS 3402, and NURS 3422. (Typically offered: Fall and Spring)

NURS 3752. Professional Role Implementation III: Caregiver. 2 Hours.
Students work with clients who have mental health problems, observe group process in therapy sessions, and develop interpersonal communication skills. Students apply research-based knowledge in assisting assigned clients to meet mental and other health care needs. The caregiver role is emphasized. This is a Level I course. Pre- or Corequisite: NURS 3742. Prerequisite: NURS 3313, NURS 3314, NURS 3321L, NURS 3402, NURS 3422, and NURS 3424. (Typically offered: Fall and Spring)

NURS 3772. Mental Health Nursing. 2 Hours.
This course presents basic concepts and theories of mental health and illness. Students examine nursing care of clients with various mental health and psychosocial disorders. Therapeutic modalities and their use in a variety of settings are explored. Prerequisite: NURS 4323 and NURS 3111 and admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 3782. Mental Health Practicum. 2 Hours.
Students will apply the theoretical principles learned in the NURS 3772: Mental Health Nursing to the care of clients with mental health disorders in a variety of settings. Prerequisite: NURS 4323, and NURS 3111 and admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. Pre- or Corequisite: NURS 3772. (Typically offered: Fall, Spring and Summer)

NURS 3842. Foundations of Scientific Evidence in Nursing Practice. 2 Hours.
Introduction to the use of scientific evidence in nursing through a comparative analysis of selected studies. Theoretical, methodological, and analytical approaches are explored. Students acquire basic competencies in evaluating, interpreting, and applying evidence-based knowledge for use in professional nursing practice. This is a Level I course. (Typically offered: Fall and Spring)

NURS 3842H. Honors Foundations of Scientific Evidence in Nursing Practice. 2 Hours.
Introduction to the use of scientific evidence in nursing through a comparative analysis of selected studies. Theoretical, methodological, and analytical approaches are explored. Students acquire basic competencies in evaluating, interpreting, and applying evidence-based knowledge for use in professional nursing practice. This is a Level I course. (Typically offered: Fall and Spring)

This course is equivalent to NURS 3842.

NURS 3901H. Honors Nursing Thesis Tutorial. 1 Hour.
Designed to provide the foundation for the Honors Thesis/Project. Students and faculty tutors work “one-on-one” exploring a specific topic which has been agreed upon by the student and the professor. Prerequisite: Honors candidacy and NURSB5 major. (Typically offered: Fall, Spring and Summer)

NURS 4003. Transition to Professional Nursing Practice. 3 Hours.
This course supports educational mobility building on a core of common knowledge and skill from previous nursing education. The course emphasizes a transition to the professional nursing roles and competencies outlined in the Essentials of Baccalaureate Education in Professions Nursing Practice. Prerequisite: Admission to an online undergraduate BSN professional program, or instructor or departmental consent. (Typically offered: Fall and Spring)

NURS 4013. Informatics for the Professional Nurse. 3 Hours.
This course focuses on how information technology is used in the health care system. The course describes how nursing informatics is currently being used by healthcare professionals, and speculates about future applications. Prerequisite: Admission to an online undergraduate BSN professional program, or instructor or departmental consent. (Typically offered: Fall and Spring)
NURS 4023. Health Promotion Across the Lifespan. 3 Hours.
This course introduces theories and concepts of teaching and learning, health and wellness, and health behavior in the context of health promotion in nursing. The complex relationships that exist among culture, family, community, and health are explored. Students apply evidence-based strategies to assess, implement, and evaluate health promotion interventions for individuals, families, communities, and populations. Prerequisite: NURS 4003, NURS 4013, NURS 4843 and admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4063. Population and Community Health Nursing. 3 Hours.
This course introduces general principles of population and community health nursing to provide a theoretical base for the care of families, aggregates, communities, and populations. Students apply the concepts of disease prevention and assessment to plan, implement, and evaluate interventions to address diverse health care issues across the lifespan. Corequisite: NURS 4073 (for LNBN students only). Prerequisite: NURS 4003, NURS 4843, NURS 4013, (ESRM 2403 or STAT 2303) and admission to an online undergraduate BSN professional program or permission by the instructor or department head and (NURS 3332, NURS 4102, NURS 4124, and NURS 4143 for LNBN students only). (Typically offered: Fall, Spring and Summer)

NURS 4073. Population and Community Health Practicum. 3 Hours.
Practicum basis for applying knowledge from public health and nursing theory. Learners utilize evidence-based strategies for disease prevention and health promotion with individuals, families, and populations in a variety of community health settings. Prerequisite: NURS 4843, NURS 4013, NURS 3332, NURS 4102, NURS 4124, and NURS 4143 and admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. Pre- or Corequisite: NURS 4063. (Typically offered: Fall, Spring and Summer)

NURS 4092. Professional Role Practicum. 2 Hours.
This clinical practicum provides the licensed nursing student with an opportunity to synthesize and apply knowledge of concepts developed throughout the nursing program. Evidence based practice will guide development of a quality improvement project in an area of student's interest. The course provides an opportunity to collaborate with a mentor/preceptor and reflect professional goals. Requires a total of 75 clinical hours. Prerequisite: NURS 4701 and admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4102. Adult Health II for Nurses. 2 Hours.
Focuses on the adult population experiencing chronic problems in the health-illness continuum. Utilizing the nursing process, nursing and medical treatment of selected conditions will be emphasized across transitional care settings. Prerequisite: NURS 3332, NURS 3302, NURS 4313, and admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4112. Nursing Concepts: Teaching and Health Promotion. 2 Hours.
The course focuses on teaching/learning and the professional nurse’s role in health promotion and disease prevention. A variety of health education and health promotion strategies are presented and evaluated. This is a Level I course. Prerequisite: Admission to the nursing program and completion of NURS 3422 and NURS 3424. (Typically offered: Fall and Spring)

NURS 4124. Child and Family Nursing. 4 Hours.
Students explore theory and evidence-based knowledge regarding holistic nursing care of children and families. Principles of health promotion and health education are utilized throughout the course. Prerequisite: NURS 4313, NURS 3111, and NURS 4323 and admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. (Typically offered: Fall and Spring)

NURS 4143. Child and Family Practicum. 3 Hours.
Clinical practicum experience for application of evidence-based knowledge and skills in the nursing care of children and families. Prerequisite: NURS 3111, NURS 4323, NURS 4313, and admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. Pre- or Corequisite: NURS 4124. (Typically offered: Fall and Spring)

NURS 4154. Nursing Concepts: Children and Family. 4 Hours.
This course provides theory and research-based knowledge regarding holistic nursing care of children and families. Principles of health promotion and health education for expanding families are integral to this course. This is a Level II course. Corequisite: NURS 4164. Pre- or Corequisite: NURS 4112. (Typically offered: Fall and Spring)

NURS 4164. Professional Role Implementation IV: Teacher. 4 Hours.
Clinical and laboratory experience for application of research-based knowledge and skills in the nursing care of children and families. Emphasis is on teaching role of the nurse. This is a Level II course. Pre- or Corequisite: NURS 4154. Prerequisite: Completion of Level I courses. (Typically offered: Fall and Spring)

NURS 4203. Leadership for Professional Nurses. 3 Hours.
This course introduces theories and principles of management and leadership and the professional nurse’s role within the health care system. Social issues, economic policy, and regulatory requirements are used to explore healthcare delivery systems and access, quality improvement, and patient safety. This course includes strategies for monitoring delivery of care, outcomes, and evaluating program effectiveness. Prerequisite: NURS 4003, and admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4212. Leadership Practicum. 2 Hours.
Students will apply the theoretical principles learned in NURS 4203 to the delivery of healthcare. Prerequisite: NURS 4323, NURS 3111 and admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. Pre- or Corequisite: NURS 4203. (Typically offered: Fall, Spring and Summer)

NURS 4242. Leadership in Nursing. 2 Hours.
Introduces principles of leadership and the professional nurse’s roles in the health care system. Considers the perspectives of management, organization, and change theory. Includes strategies for monitoring delivery of care, outcomes and evaluating program effectiveness. This is a Level II course. (Typically offered: Fall and Spring)

NURS 4252. Professional Role Implementation V: Manager. 2 Hours.
Students will apply the theoretical principles learned in NURS 4242 and NURS 4262 to the delivery of care to adults with chronic conditions across transitions of care settings. The manager will be emphasized. This is a Level II course. Prerequisite: Completion of Level I courses. Pre- or Corequisite: NURS 4242 and NURS 4262. (Typically offered: Fall and Spring)

NURS 4252H. Honors Professional Role Implementation V: Manager. 2 Hours.
Students will apply the theoretical principles learned in NURS 4242 and NURS 4262 to the delivery of care to adults with chronic conditions across transitions of care settings. The manager will be emphasized. This is a Level II course. Prerequisite: Completion of Level I courses. Pre- or Corequisite: NURS 4242 and NURS 4262. (Typically offered: Fall and Spring)

This course is equivalent to NURS 4252.

NURS 4262. Nursing Concepts: Adult Health and Illness II. 2 Hours.
Focuses on the adult population experiencing chronic problems in the health-illness continuum. Utilizing the nursing process, nursing and medical treatment of selected conditions will be emphasized across transitional care settings. This is a Level II course. Prerequisite: Level I courses. (Typically offered: Fall and Spring)
NURS 4262H. Honors Nursing Concepts: Adult Health and Illness II. 2 Hours.
Focuses on the adult population experiencing chronic problems in the health-illness continuum. Utilizing the nursing process, nursing and medical treatment of selected conditions will be emphasized across transitional care settings. This is a Level II course. Prerequisite: Level I courses. (Typically offered: Fall and Spring)
This course is equivalent to NURS 4262.

NURS 4313. Pathophysiology in Nursing. 3 Hours.
The course focuses on the study of the underlying concepts of physiological functioning and the body's adaptive and compensatory mechanisms within a systems framework. Learners examine aspects of disease processes including etiology, pathogenesis, and clinical manifestations; as it applies to current nursing practice with diverse clients across the lifespan. Prerequisite: Admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4323. Health Assessment and Clinical Reasoning. 3 Hours.
This 3-credit theory course focuses on increasing knowledge of health assessment skills. Emphasis is placed on strengthening clinical reasoning skills through identifying normal findings, interpreting abnormal findings, and applying principles of evidence-based practice to the health assessment process. The role of documentation of assessment findings to third-party reimbursement is also explored. Prerequisite: Admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4442. Nursing Concepts: Critical Care. 2 Hours.
Focuses on the adult population experiencing multiple or critical illnesses or conditions necessitating admission to a critical care unit. The course emphasizes both nursing and medical treatment of selected conditions. This is a Level II course. Corequisite: NURS 4452. Prerequisite: Completion of Level I courses and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, and NURS 4262. (Typically offered: Fall and Spring)

NURS 4452. Professional Role Implementation VI: Role Synthesis. 2 Hours.
Clinical learning is focused on further developing and refining the knowledge, skills, and attitudes necessary to manage the care of an acutely ill or complex patient and/or family within the context of an inter-professional team. Prerequisite: NURS 4111, NURS 4332, NURS 4102, NURS 4323, NURS 4124, NURS 4143, NURS 3302, NURS 4313, and admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4552. Critical Care Practicum. 2 Hours.
Clinical learning is focused on further developing and refining the knowledge, skills, and attitudes necessary to manage the care of an acutely ill or complex patient and/or family within the context of an inter-professional team. Prerequisite: NURS 4111, NURS 4332, NURS 4102, NURS 4323, NURS 4124, NURS 4143, NURS 3302, and NURS 4313 and admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. Pre- or Corequisite: NURS 4542. (Typically offered: Fall, Spring and Summer)

NURS 4603. Nursing Concepts: Community. 3 Hours.
The course focuses on theories and concepts in community health nursing. Health resources are explored in a variety of settings. This is a Level II course. Corequisite: NURS 4613. Prerequisite: Completion of Level I courses and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, and NURS 4262. (Typically offered: Fall, Spring and Summer)

NURS 4603H. Honors Nursing Concepts: Community. 3 Hours.
The course focuses on theories and concepts in community health nursing. Health resources are explored in a variety of settings. This is a Level II course. Corequisite: NURS 4613. Prerequisite: Completion of Level I courses and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, and NURS 4262. (Typically offered: Fall and Spring)

NURS 4613. Professional Role Implementation VII: Role Synthesis. 3 Hours.
Application of community health concepts and the nursing process to promote community health and to restore health in a variety of settings. This is a Level II course. Pre- or Corequisite: NURS 4603. Prerequisite: Completion of Level I courses and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, and NURS 4262. (Typically offered: Fall and Spring)

NURS 4613H. Honors Professional Role Implementation VII: Role Synthesis. 3 Hours.
Application of community health concepts and the nursing process to promote community health and to restore health in a variety of settings. This is a Level II course. Pre- or Corequisite: NURS 4603. Prerequisite: Completion of Level I courses and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, and NURS 4262. (Typically offered: Fall and Spring)

NURS 4701. Professional Nursing Synthesis. 1 Hour.
The course emphasizes reflection, integration, and synthesis of concepts from previous courses. Course enrollment occurs in the last semester of the program. Prerequisite: Admission to an online undergraduate BSN professional program or permission by the instructor or department head, and all university core and program prerequisites. (Typically offered: Fall, Spring and Summer)

NURS 4712. Seminar in Nursing. 2 Hours.
Focuses on integrating the nursing caregiver, teacher and manager roles. Prepares students to analyze practice issues, trends and future demands. Explores the roles of baccalaureate prepared professional nurses and facilitates students to incorporate those roles as they enter professional practice. Must be taken in the final semester of the Professional Program of Study. This is a Level II course. Corequisite: NURS 4722. Prerequisite: Completion of Level I courses and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, and NURS 4262. (Typically offered: Fall and Spring)

NURS 4722. Professional Role Implementation VIII: Role Synthesis. 2 Hours.
Clinical immersion experience that approximates the role of a beginning BSN nurse generalist. Corequisite: NURS 4712. Prerequisite: Completion of Level I courses and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, and NURS 4262. (Typically offered: Fall and Spring)

NURS 481V. Special Topics in Nursing. 1-6 Hour.
This course is the study of a special topic(s) in nursing. Content varies. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.
NURS 4843. Scientific Foundation for Professional Nursing Practice. 3 Hours.
This course introduces the research process through a comparative analysis of
selected studies exemplifying various theoretical, methodological, and analytical
approaches. Students acquire the basic competencies to critically read, evaluate
and interpret nursing research studies for use in professional nursing practice.
Prerequisite: Admission to an online undergraduate BSN professional program or
permission by the instructor or department head. (Typically offered: Fall and Spring)

NURS 491V. Independent Study in Nursing. 1-6 Hour.
A selected learning experience in nursing to enhance knowledge and/or practice
of the profession. Objectives and experiences are designed on an individual basis
with a faculty adviser. May be taken with any 3500-level nursing course or above.
(Typically offered: Fall, Spring and Summer)

NURS 491VH. Nursing Honors Thesis/Project. 1-3 Hour.
Designed to provide facilitation of the Honors Thesis/Project. Students and faculty
work "one-on-one to complete the honors thesis/project. Prerequisite: Honors
candidacy, Nursing Bachelor of Science (NURSBS) major, and NURS 3901H or
NURS 3842H. (Typically offered: Fall, Spring and Summer) May be repeated for up
to 3 hours of degree credit.

NURS 5003. Theoretical and Scientific Foundations for Nursing Practice. 3
Hours.
The course utilizes the critical reasoning process to examine the element of nursing
knowledge. Emphasis is placed on concept analysis and the evaluation of nursing
theories. Identification of the links between theory and empirical indicators is
examined. The clinical relevance of mid-range and practice theories is explored.
Prerequisite: Admission to the graduate program or by permission of the instructor.
(Typically offered: Fall)

NURS 5033. Scientific Foundations and Role Development in Advanced
Practice Nursing. 3 Hours.
Examines development of the advanced practice nursing role and evolution of
the Doctor of Nursing Practice (DNP). Concepts include scientific foundations of
practice, role development, interdisciplinary collaborative strategies, advanced
scope of practice, patient advocacy, and legal/ethical principles in the advanced
practice role. Prerequisite: Admission to the program or by permission of the
instructor. (Typically offered: Fall)

NURS 5043. Concepts of Health Promotion Within Diverse Populations. 3
Hours.
Provides a theoretical base for health promotion, risk reduction and disease
prevention at the individual, family and community levels. A cross-disciplinary
approach to achieve or preserve health is identified. Focuses on holistic plans
and interventions that address the behavioral and social factors that contribute to
morbidity and mortality in diverse populations. Provides opportunity to develop,
implement, and evaluate health promotion interventions for selected clients.
Prerequisite: Admission to the program or by permission of the instructor.
(Typically offered: Spring)

NURS 5053. Evidence-Based Practice and Innovation in Nursing. 3 Hours.
Examines models and strategies for leadership in evidence-based practice and
innovation, outcomes management, and translational scholarship. The emphasis of
this course is on problem identification, information retrieval, critical appraisal, and
synthesis of a body of evidence. It provides the student with the foundation for MSN
and DNP evidence-based projects. Prerequisite: Admission to the program or
by permission of the instructor. (Typically offered: Spring)

NURS 5063. Health Care Policy. 3 Hours.
Provides knowledge and understanding needed to participate in policy development
analysis and implementation. Provides and overview of the political process, health
care policy, advocacy, leadership roles, legislative and regulatory issues, health
care financing, and evaluating outcomes. Access, cost, and quality of health care
are major foci in this course. Prerequisite: Admission to the graduate program or by
permission of the instructor. (Typically offered: Summer)

NURS 5073. Curriculum Design and Development in Nursing Education. 3
Hours.
This course provides the essential elements that define and operationalize the
process of curriculum design and development. Students will examine curriculum
theories, models, and concepts from the perspective of nursing education. They
will analyze factors that influence program and curriculum development. Historical
and philosophical foundations of nursing practice and educational principles are
examined. The application and synthesis of curriculum theory and their application
to nursing is emphasized. The role of the educator in the dynamic relationship
between the practice setting, research, and curriculum is examined. Students will
participate in the design of curriculum which reflects professional nursing practice,
standards, theory, and research. Prerequisite: Admission to the Graduate Program
or departmental consent. Completion of all general and research core classes or
approval of the MSN Education Program Coordinator. (Typically offered: Fall and
Spring)

NURS 5083. Methods of Assessment and Evaluation in Nursing Education. 3
Hours.
This course is one of four offered in the nursing education concentration in
preparation for the role of educator in academic and clinical settings. Students
explore theories, models, and evidence for best practice in assessing learning
- including constructing exam items and creating tools for assessing writing
assignments. Students discuss grading and other concepts related to assessment
and evaluation as it relates to nursing education. Pre- or Corequisite: Completion of
NURS 5073 or NURS 5093. Prerequisite: Admission to the Masters of Science in
Nursing or the Doctor of Nursing Practice Program. (Typically offered: Summer)

NURS 5093. Instructional Design and Delivery in Nursing Education. 3
Hours.
This course is one of four offered in the nursing education concentration in
preparation for the role of educator in academic and clinical settings. Students
explore teaching and learning theories and other evidence to guide practice in the
advanced role of the educator. Students gain competencies in the knowledge and
skills necessary for delivering evidence-based teaching and learning strategies in a
variety of learning environments. Prerequisite: Admission to the Graduate Program
or departmental consent. (Typically offered: Spring)

NURS 5101. Advanced Health Assessment and Diagnostic Reasoning. 1 Hour.
Applies health assessment, physical examination techniques, clinical decision
making, and diagnostic reasoning to formulate a culturally-sensitive, individualized
plan of care, which includes health promotion and disease prevention. Corequisite:
NURS 5112. (Typically offered: Fall)

NURS 5112. Advanced Health Assessment and Diagnostic Reasoning Clinical
Practicum. 2 Hours.
Focus is on the application of clinical decision making, diagnostic reasoning, and
advanced physical examination techniques to develop differential diagnoses,
problem list, and a plan of care for individual clients. Corequisite: NURS 5101.
(Typically offered: Fall)

NURS 5123. Advanced Pharmacology. 3 Hours.
Provides advanced concepts and application of pharmacology for broad categories
of agents used in disease management. Establishes the relationship between
pharmacologic agents and physiologic/pathologic responses. It assists students with
the development of knowledge and skills to prescribe and manage a client's health
in a safe, high quality, and cost-effective manner. Prerequisite: Admission to the
graduate program or by permission of the instructor. (Typically offered: Spring)
NURS 5143. Advanced Pathophysiology. 3 Hours.
Provides a comprehensive understanding of normal physiologic and pathologic mechanisms of disease that serves as a foundation for clinical assessment, decision making, and management of individuals. Includes mechanisms of disease, genetic susceptibility, and immune responses in selected disorders. This course includes concepts of pathophysiology across the lifespan. Prerequisite: Admission to the graduate program or by permission of the instructor. (Typically offered: Fall)

NURS 5272. Clinical Practicum: Interpretive Diagnostic Reasoning. 2 Hours.
Application of principles of pathologic mechanisms of disease, pharmacotherapeutics, and pharmacokinetics to refine and synthesize skills for history taking, physical examination, clinical assessment, diagnostic reasoning, and decision making for adult and geriatric individuals. Pre- or Corequisite: NURS 5101, NURS 5112, NURS 5143 and NURS 5123. (Typically offered: Summer)

NURS 5303. Foundations of Nursing Education. 3 Hours.
Considers the principles, philosophies, theories, and strategies of teaching, learning, and evaluation needed in nursing education. (Typically offered: Fall)

NURS 5313. Curriculum and Evaluation in Nursing Education. 3 Hours.
Considers knowledge and skills needed for curriculum and program development and evaluation for a variety of nursing education settings. (Typically offered: Summer)

NURS 5323. Teaching in Nursing Practicum. 3 Hours.
Supervised experience in the nurse educator role in both classroom and clinical settings. (Typically offered: Fall)

NURS 5332. Common Problems in Acute Care in Adult and Gerontology Populations Clinical Practicum. 2 Hours.
Focuses on the management of adult-gerontology patients with common acute illnesses. Emphasizes the application of principles of pathologic mechanisms of disease, history taking, physical examination, and clinical decision making. Corequisite: NURS 5434. Prerequisite: NURS 5101 and NURS 5112. (Typically offered: Spring)

NURS 5343. Specialty Development I. 3 Hours.
This course will include two foci. There will be readings focused on current topics in a specialty area. A focused field experience will allow student to integrate knowledge and skills in a specialty area of nursing in preparation for the nurse educator role. (Typically offered: Spring)

NURS 5353. Specialty Development II. 3 Hours.
Building on the Independent Study: Specialty Development I, this course will include two foci. There will be readings focused on current topics in a specialty area. A focused field experience will allow student to integrate knowledge and skills in a specialty area of nursing in preparation for the nurse educator role. Prerequisite: NURS 5343. (Typically offered: Fall)

NURS 5403. Scholarly Writing. 3 Hours.
This course will focus on the fundamentals of academic writing at the graduate level with the goal of honing students' critical reading and writing skills. Attention will be given to mechanics, usage, and style, as well as to handling and citing sources. The emphasis throughout is on creative thinking and precise, scholarly writing. Prerequisite: Completion of a baccalaureate degree and acceptance into the graduate program. (Typically offered: Fall and Summer)

NURS 5413. Executive Leadership in Nursing. 3 Hours.
This course focuses on the health care structures and processes, human capital management, health and public policy, communication principles and styles, negotiations, leadership effectiveness, strategic visioning, ethics and advocacy, and innovation. Learning will enable the professional nurse executive to lead complex health care environments applying an advanced skill set in each of the focus areas. Prerequisite: NURS 5403, NURS 5529, NURS 5043, NURS 5053, NURS 5063, MBAD 5241, HRWD 5233, NURS 6233, ESRM 6403. (Typically offered: Spring)

NURS 5423. Health Systems Operations. 3 Hours.
This course focuses on the complex practice environment. Enables the professional nurse leader to demonstrate knowledge of care management and delivery, professional practice environment and models, and quality monitoring and improvement. Professional practice and health care delivery models and settings, role delineation, laws and regulations, accreditation, and professional practice standards will be emphasized. Prerequisite: NURS 5403, NURS 5523, NURS 5043, NURS 5053, NURS 5063, MBAD 5241, HRWD 5233, NURS 6233, ESRM 6403. (Typically offered: Fall)

NURS 5434. Common Problems in Acute Care in Adult and Gerontology Populations. 4 Hours.
Examines principles of pathologic mechanisms of disease, refine skills for history taking, physical examination, and clinical decision making for adult and geriatric individuals with common acute illnesses. Corequisite: NURS 5443. Prerequisite: NURS 5101 and NURS 5112. (Typically offered: Spring)

NURS 5443. Chronic Health Problems in Adult and Gerontology Populations. 3 Hours.
Explores evidence-based models for the management of selected chronic conditions, focusing on assessment and treatment of individuals and families. Utilizes advanced theories, concepts, knowledge, and skill in the care of diverse adult and geriatric populations with complex chronic health problems. Corequisite: NURS 5454. Prerequisite: Completion of NURS 5434 and NURS 5332. (Typically offered: Fall)

NURS 5454. Chronic Health Problems in Adult and Gerontology Populations Clinical Practicum. 4 Hours.
Focuses on the management of adult-gerontology populations with complex, chronic health problems. Emphasis is on the application of theoretical concepts, assessment skills, clinical decision making, and evidence-based standards to formulate diagnoses, clinical impressions, treatment, and evaluation plans in the acute or out-patient setting. Corequisite: NURS 5443. Prerequisite: NURS 5434 and NURS 5332. (Typically offered: Fall)

NURS 5463. Acute and Critical Illness in Adult and Gerontology Populations. 3 Hours.
Provides an in-depth knowledge of management of acutely and critically ill adults. Emphasis is on the use of evidence-based knowledge to formulate diagnoses, treatment, evaluation plans, and referral for adults who have complex acute or critical health problems, or are at high risk for developing complications. Corequisite: NURS 5475. Prerequisite: NURS 5443 and NURS 5454. (Typically offered: Spring)

NURS 5475. Acute and Critical Illness in Adult and Gerontology Populations Clinical Practicum. 5 Hours.
Experiences allow the student to apply safe, scientifically sound, cost effective, legal and ethical management strategies to the care of adults with complex acute and critical illness. Emphasis is on the development of advanced clinical skills in acute and critical care settings. Corequisite: NURS 5463. Prerequisite: NURS 5443 and NURS 5454. (Typically offered: Spring)

NURS 5483. Common Problems in Primary Care. 3 Hours.
Examines principles of pathologic mechanisms of disease, refines knowledge for thorough history taking, physical examination, and clinical decision-making for men, women, and families with common illnesses treated in primary care. Includes anticipatory guidance, health promotion, disease prevention, and reproductive health. Corequisite: NURS 5495. Prerequisite: NURS 5101 and NURS 5112. (Typically offered: Spring)

NURS 5495. Common Problems in Primary Care Clinical Practicum. 5 Hours.
Clinical component to 5483 Common Problems Primary Care. Refines skills for thorough history taking, physical examination, and clinical decision-making for men, women, and families with common illnesses treated in primary care as well as health promotion, disease prevention, and reproductive health needs. Corequisite: NURS 5483. Prerequisite: NURS 5101 and NURS 5112. (Typically offered: Spring)
NURS 5523. Healthcare Informatics. 3 Hours.
Prepares graduate students to serve as leaders in the utilization of information systems and technology to support and improve education, patient care, and healthcare systems. Assists students in evaluating and integrating qualified technologies into various practice settings. Students will explore current and emerging trends in Healthcare Informatics and their legal, ethical, and political implications. Prerequisite: Admission to the graduate program or by permission of the instructor. (Typically offered: Summer)

NURS 5543. Primary Care of Children. 3 Hours.
Focuses on evidence-based models for the management of children from diverse cultures with common conditions in primary care. Includes anticipatory guidance, health promotion, and disease prevention. Emphasis on application of theoretical concepts, assessment skills, clinical decision-making, and evidence-based standards to formulate differential diagnoses, clinical impressions, treatment, and evaluation plans in primary care. Corequisite: NURS 5683. Prerequisite: NURS 5873 and NURS 5884. (Typically offered: Spring)

NURS 5683. Primary Care of Children Clinical Practicum. 3 Hours.
Focuses on the management of children in the clinical setting with emphasis on holistic assessment and treatment of this population and their families. Students will engage in the assessment, diagnosis and treatment of conditions common to primary practice in pediatric clinics. This course will consist of 135 contact hours. Corequisite: NURS 5543. Prerequisite: NURS 5873 and NURS 5884. (Typically offered: Spring)

NURS 579V. Independent Study. 1-3 Hour.
Independent study designed by student with faculty advisor. May be completed as alternative to thesis. (Typically offered: Fall, Spring and Summer)

NURS 5873. Complex Problems in Primary Care. 3 Hours.
Focuses on application of health promotion and chronic disease management in complex adult patients. Students will utilize evidence-based approaches to health promotion, assessment, differential diagnosis and disease management. Emphasizes clinical decision making, chronic care models, coordination of care, poly-drug therapy and information systems. Corequisite: NURS 5884. Prerequisite: NURS 5483 and NURS 5495. (Typically offered: Fall)

NURS 5884. Complex Problems in Primary Care Clinical Practicum. 4 Hours.
Clinical component to NURS 5873 Complex Problems in Primary Care. Offers the student an opportunity to exercise critical judgment and implement theoretical knowledge in the management of care of adults experiencing complex health problems. Corequisite: NURS 5873. Prerequisite: NURS 5495 and NURS 5483. (Typically offered: Fall)

NURS 598V. Nursing Special Topics. 1-6 Hour.
Special Topics course to fulfill national accreditation body for Family Nurse Practitioner. Prerequisite: NURSDP major. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

NURS 599V. Seminar. 1-3 Hour.
Selected topics in nursing explored in discussion format. (Typically offered: Irregular)

NURS 600V. Master’s Thesis. 1-3 Hour.
Student research to fulfill degree requirement for the MSN. Prerequisite: NURS 5053. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

NURS 6123. Evaluation Methods and Translational Research for Evidence-based Practice. 3 Hours.
The translation of evidence into practice, including theoretical and practical challenges, is analyzed through the use of case studies and proposals. Uses methods of inquiry for systematic appraisal of nursing practice or healthcare programs to identify practice outcomes and create an environment to support and sustain changes. Prerequisite: NURS 6343 or by permission of the instructor. (Typically offered: Spring)

NURS 6224. DNP Clinical Practicum I. 4 Hours.
Provides an opportunity to synthesize advanced knowledge and role behaviors within a specialty concentration. Designed to apply nursing theory, translational research, epidemiologic principles, ethical/legal principles, outcome evaluations, healthcare systems thinking, and economics into a specialized clinical practice role and setting. Depending upon specialty and experience, may require travel to campus. Prerequisite: NURS 5443, NURS 5454, NURS 5463, and NURS 5475. (Typically offered: Summer)

NURS 6233. Healthcare Economics and Finance. 3 Hours.
Provides economic, financial, and business knowledge and skills required for a leadership role in financial planning and decision making within healthcare delivery systems. Prerequisite: Admission to the graduate program or by permission of the instructor. (Typically offered: Fall)

NURS 6244. DNP Clinical Practicum II. 4 Hours.
Provides an opportunity to synthesize advanced knowledge and role behaviors within a specialty concentration. Designed to apply nursing theory, translational research, epidemiologic principles, ethical/legal principles, outcome evaluations, healthcare systems thinking, and economics into a specialized clinical practice role and setting. Depending upon specialty and experience, may require travel to campus. Corequisite: NURS 7122. Prerequisite: NURS 6224. (Typically offered: Fall)

NURS 6263. Organization Management and Systems Leadership. 3 Hours.
Facilitates understanding of how to lead, advocate, and manage innovative responses to organizational needs and challenges. Emphasizes development and evaluation of care delivery models that meet the needs of targeted patient populations by enhancing accountability for effective and efficient healthcare, quality improvement, and patient safety. Prerequisite: Admission to the graduate program or by permission of the instructor. (Typically offered: Summer)

NURS 628V. DNP Clinical Practicum III. 1-8 Hour.
Allows for the continuation of specialty role development and a more refined and advanced approach to care delivery, systems thinking, and leadership. Allows for the total number of practice hours required for certification and/or degree. Corequisite: NURS 5543, NURS 5583, NURS 5463, and NURS 5475. (Typically offered: Spring) May be repeated for up to 8 hours of degree credit.

NURS 6343. Analytic Methods and Epidemiology for Health Care. 3 Hours.
This course will examine the role of epidemiology and statistics in advanced nursing practice. The student will learn how the concepts of epidemiology are used to measure and describe the health of individuals and populations and apply statistical concepts and analytical methods to data encountered in practice. Major topics to be covered include sources of data, study designs, analytical strategies and interpretation of data related to disease causality, risk, and prevalence. Prerequisite: ESRM 5393. (Typically offered: Fall, Spring and Summer)

NURS 6663. Emergency Preparedness in Rural United States. 3 Hours.
Emergency preparedness in Rural United States is an elective course for graduate nursing students. This course will prepare them for the role of nurse practitioner in rural clinical settings during times when National Incident Management Systems are necessary to manage national disasters, tragedies, or contagion in rural areas of the US. (Typically offered: Fall and Spring)

NURS 6662. Rural Primary Care in Arkansas. 2 Hours.
This is a rural health course elective for graduate nursing students. The purpose of this course is to prepare them for the role of nurse practitioner educator in the academic setting by providing additional knowledge and exposure to topics and diseases seen in rural primary care in Arkansas. (Typically offered: Fall and Spring)

NURS 6682. Opioid Use in Rural Arkansas. 2 Hours.
This course prepares graduate nursing students for the nurse practitioner role in rural settings by providing knowledge, exposure to risk factors, treatment strategies for opioid abuse and misuse, policies and regulations related to prescribing opioids, and gaps in community responses addressing this epidemic in rural primary care in Arkansas. (Typically offered: Fall and Spring)
NURS 6993. Advanced Practice Registered Nursing (APRN) Residency: A Service-Learning Course. 3 Hours.
The service-learning APRN residency provides students skills to identify potential rural and underserved employment environments, prepare for interviews, and complete pre-employment documents necessary to evolve from graduate DNP students to fully employable, practice-ready APRNs for communities in Arkansas and surrounding states through reflective journaling, discussions, and completion of activities. Corequisite: NURS 628V or special permission of instructor teaching the course. Prerequisite: NURS 6244, admission to the University of Arkansas Graduate School, and the Eleanor Mann School of Nursing Graduate Program or permission of faculty teaching the course. (Typically offered: Spring)

NURS 7113. Capstone Seminar I. 3 Hours.
Designed to unify and organize the student’s field of inquiry for the final Capstone Project. Emphasis is on the application of an evidence-based intervention suitable to their area of focus that involves appropriate methodology and application with the goal for change in practice or outcome analysis. Prerequisite: Completion of NURS 6224 and/or permission of the instructor. (Typically offered: Fall)

NURS 7122. DNP Project Implementation I. 2 Hours.
Provides necessary support and elements for students to begin execution of the DNP Project in collaboration with the sponsoring site. (Typically offered: Fall)

NURS 7132. Capstone Seminar II. 2 Hours.
Focuses on data exploration and analysis for the organization and refinement of all aspects of Capstone Project, emphasizing implementation and evaluation of the evidence-based intervention. Allows student to finalize the scholarly written and oral report for dissemination of results. Corequisite: NURS 7142. Prerequisite: NURS 7113 and NURS 7122. (Typically offered: Spring)

NURS 7142. DNP Project Implementation II. 2 Hours.
Provides an avenue for students to complete and disseminate the DNP project. Allows students the opportunity to synthesize and demonstrate the ability to employ effective communication and collaboration skills, leadership roles, influence healthcare quality and safety, evaluate practice, and successfully negotiate change in healthcare delivery for individuals, families, populations, or systems. Prerequisite: NURS 7122. (Typically offered: Spring)

Nutrition (NUTR)

Courses

NUTR 1201. Introduction to the Dietetic Profession. 1 Hour.
Introduction to profession of dietetics and nutrition including history, scope and future of professionals with emphasis on academic preparation, internships, acquisition of professional credentials, career laddering and career opportunities. Guest speakers will supplement lectures and assignments. Prerequisite: HNHI; HNAD or FNAH majors only or by department consent. (Typically offered: Fall and Spring)

NUTR 1213. Fundamentals of Nutrition. 3 Hours.
The functions of food, body processes, optimum diets in relation to health and physical fitness. (Typically offered: Fall and Spring)

NUTR 1213H. Honors Fundamentals of Nutrition. 3 Hours.
The functions of food, body processes, optimum diets in relation to health and physical fitness. (Typically offered: Fall and Spring)
This course is equivalent to NUTR 1213.

NUTR 2111L. Principles of Foods Laboratory. 1 Hour.
Laboratory exercises and practice applicable of Principles of Foods. Lab 3 hours. Corequisite: NUTR 2113. (Typically offered: Fall and Spring)
NUTR 3213. Nutrition Education and Counseling. 3 Hours.
Introduction to development of communication skills related to educational theory and techniques, development of educational materials, interpersonal communication skills, group dynamics, public speaking, and interviewing techniques. Includes discussion of counseling theory and methods, and how education and counseling are intertwined for nutrition professionals. Includes development of skills in nutrition counseling. Prerequisite: NUTR 1213, HNAD or FNAH majors only, and Junior or Senior standing. (Typically offered: Fall)

NUTR 3213H. Honors Nutrition Education and Counseling. 3 Hours.
Introduction to development of communication skills related to educational theory and techniques, development of educational materials, interpersonal communication skills, group dynamics, public speaking, and interviewing techniques. Includes discussion of counseling theory and methods, and how education and counseling are intertwined for nutrition professionals. Includes development of skills in nutrition counseling. Prerequisite: NUTR 1213, HNAD or FNAH majors only, Junior or Senior standing, and honors standing. (Typically offered: Spring)

NUTR 3603. Quantity Foods. 3 Hours.
This course focuses on menu planning for a variety of food service organizations, with consideration of age, special needs, diet type, cultural and ethical parameters. Students will design flavorful and appealing menus that meet current nutrition recommendations, guidelines and budgetary constraints. They will learn recipe standardization, quantity production, and overall quality control. Prerequisite: NUTR 1213, HOSP 2603, junior standing and Human Nutrition and Dietetics Bachelor of Science (HNADBS) or Food, Nutrition and Health Bachelor of Science (FNAHBS) majors only. (Typically offered: Spring)

NUTR 4001. Nutrition Seminar. 1 Hour.
Presentation and discussion of selected nutrition topics of current interest. Prerequisite: Senior standing and HNHI; HNAD or FNAH majors only. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

NUTR 4101L. Research Methods in Nutrition Lab. 1 Hour.
Application of experimental methods for investigations in nutrition research. Pre- or corequisite: STAT 2303. Corequisite: NUTR 4103. Prerequisite: NUTR 2113, NUTR 2111L, NUTR 3203 and major in either Human Nutrition and Dietetics (HNAD), or Food, Nutrition and Health (FNAH) and senior standing only. (Typically offered: Spring)

NUTR 4103. Research Methods in Nutrition. 3 Hours.
This course will cover applications of experimental methods for investigations in nutrition research and cookery. Corequisite: NUTR 4101L. Pre- or Corequisite: STAT 2303. Prerequisite: NUTR 2113, NUTR 2111L, NUTR 3203 and major in either Human Nutrition and Hospitality Innovation (HNHI), or Human Nutrition and Dietetics (HNAD); or Food, Nutrition and Health (FNAH) and senior standing only. (Typically offered: Spring)

NUTR 4213. Advanced Nutrition. 3 Hours.
Normal nutrition with emphasis on utilization of nutrients. Lecture and reports on current literature 3 hours per week. Prerequisite: CHEM 3813 and NUTR 3203. (Typically offered: Fall)

NUTR 4223. Life Cycle Nutrition. 3 Hours.
Study of normal nutrition emphasizing quantitative needs for nutrients as functions of biologic processes that vary during stages of the life cycle. Attention is given to preconception, pregnancy, childhood and older adults. Prerequisite: (HNAD majors and NUTR 3203) or (FNAH majors and senior standing). (Typically offered: Fall)

NUTR 4243. Community Nutrition. 3 Hours.
Identifying, assessing, and developing solutions for nutritional problems encountered at the local, state, federal, and international levels. Lecture 3 hours per week. Prerequisite: NUTR 1213, junior standing, and Food, Nutrition and Health Bachelor of Science in Human Environmental Science (FNAHBS) or Human Nutrition and Dietetic Bachelor of Science in Human Environmental Science (HNADBS) majors only. (Typically offered: Spring)

NUTR 4263. Medical Nutrition Therapy I. 3 Hours.
Principles of medical nutrition therapy with emphasis on the Nutrition Care Process, and the pathophysiology and current standards of practice for diseases and disorders. Pre- or corequisite: NUTR 3213 and NUTR 4213. Prerequisite: BIOL 2213, BIOL 2211L, CHEM 3813 and NUTR 3003. (Typically offered: Fall)

NUTR 4273. Medical Nutrition Therapy II. 3 Hours.
Principles of medical nutrition therapy with emphasis on the Nutrition Care Process, and the pathophysiology and current standards of practice for diseases and disorders. Lecture 3 hours per week. Prerequisite: NUTR 4263. (Typically offered: Spring)

NUTR 4303. Cultural Perspectives on Foods. 3 Hours.
Cultural competence is growing in importance as our population becomes more culturally diverse. This course covers cuisine and culture of various regions for the purpose of promoting respect and understanding for cultural diversity. Students will learn the history of foods, ingredients, flavor profiles, religious based food practices, etiquette, and customs. Corequisite: Junior or senior standing, and (Human Nutrition and Dietetics majors (HNADBS) or Food, Nutrition and Health majors (FNAHBS) or Hospitality Management (HOSPB) majors). (Typically offered: Fall)

NUTR 4401L. Recipe Modification Lab. 1 Hour.
Students will use existing research to identify foods with preventative and functional properties and apply that information to develop recipes for improved nutritional quality and disease management. They will gather data to modify and refine the products and create an educational tool to promote their products. Corequisite: NUTR 4403. Prerequisite: NUTR 3603. (Typically offered: Spring Odd Years)

NUTR 4403. Recipe Modification. 3 Hours.
Students will use existing research to identify foods with preventative and functional properties and apply that information to develop recipes for improved nutritional quality and disease management. They will gather data to modify and refine the product and create an educational tool to promote their product. Corequisite: NUTR 4401L. Prerequisite: NUTR 2113 and NUTR 2111L. (Typically offered: Spring)

NUTR 5113. Advanced Nutrition. 3 Hours.
(Formerly NUTR 4213.) Normal nutrition with emphasis on utilization of nutrients. Lecture and reports on current literature 3 hours per week. Graduate degree credit will not be given for both NUTR 4213 and NUTR 5113. Prerequisite: CHEM 3813 and NUTR 3203. (Typically offered: Fall)

NUTR 521V. Readings in Nutrition. 1-6 Hour.
Seminar and individual study. Prerequisite: Instructor consent. (Typically offered: Irregular)

NUTR 5223. Nutrition During the Life Cycle. 3 Hours.
Study of normal nutrition emphasizing quantitative needs for nutrients as functions of biologic processes that vary during stages of the life cycle. Nutritive needs during pregnancy and childhood are emphasized with some attention to nourishing aging and elderly adults. Factors that affect food choices and eating behavior are also considered. Lecture 3 hours per week. On campus and web-based delivery is offered. Prerequisite: Graduate standing and consent of instructor. (Typically offered: Fall)

NUTR 5243. Community Nutrition. 3 Hours.
(Formerly NUTR 4243.) Identifying, assessing, and developing solutions for nutritional problems encountered at the local, state, federal, and international levels. Lecture 3 hours per week. Graduate degree credit will not be given for both NUTR 4243 and NUTR 5243. (Typically offered: Spring)

NUTR 5263. Medical Nutrition Therapy I. 3 Hours.
Principles of medical nutrition therapy with emphasis on Nutrition Care Process, and the pathophysiology and current standards of practice for diseases and disorders. Lecture 3 hours per week. Prerequisite: Graduate standing and consent of instructor. (Typically offered: Fall)
NUTR 5273. Medical Nutrition Therapy II. 3 Hours.
Principles of medical nutrition therapy with emphasis on the Nutrition Care Process, and the pathophysiology and current standards of practice for diseases and disorders. Lecture 3 hours per week. Prerequisite: NUTR 5263. (Typically offered: Spring)

Operations Management (OMGT) Courses

OMGT 4313. Law and Ethics. 3 Hours.
Analysis of the fundamental legal principles applicable in protecting the rights and interests of individuals and organizations; court systems and litigation processes; constitutional law and legislation; formation and discharge of contracts; agency relationships; torts; labor laws; patents; trademarks; copyrights; unfair competition; ethics; professional relations. Not for graduate credit. (Typically offered: Fall, Spring and Summer)

OMGT 4323. Industrial Cost Analysis. 3 Hours.
Use of accounting information for planning and control from a management viewpoint; principles of cost accounting and other aspects of production costs; budgeting, depreciation, taxes, distribution of profits, securities, sources of corporate capital, and interpretation of financial statements. Not for graduate credit. (Typically offered: Fall, Spring and Summer)

OMGT 4333. Applied Statistics. 3 Hours.
Fundamentals of probability and distribution theory with applications in managerial decision making. Descriptive methods, probability distributions, sampling distributions and hypothesis testing are included. Not for graduate credit. (Typically offered: Fall, Spring and Summer)

OMGT 4853. Introduction to Decision Support Tools in Operations Management. 3 Hours.
This course covers decision support tools used in operations management including spreadsheet applications, introduction to database concepts, and presentation methods. The primary decision support tools covered are Microsoft Office products, specifically Excel, but also Word and PowerPoint. It is not a typical course on Microsoft Office products. This course covers how the Excel functions and capabilities are applied in operations management and in the other OMGT courses. The course introduces Excel Topics used in the OMGT curriculum, while reinforcing other Excel topics with review questions. Most of the course covers the Excel skills and techniques needed in the OMGT core courses, but covers some of the Excel concepts used in the elective courses. Pre- or Corequisite: OMGT 4333 or equivalent or departmental consent. Prerequisite: Program administered proficiency exam or departmental consent. (Typically offered: Fall, Spring and Summer)

OMGT 5003. Introduction to Operations Management. 3 Hours.
Provides an overview of the functional activities necessary for the creation/delivery of goods and services. Topics covered include: productivity; strategy in a global business environment; project management; quality management; location and layout strategies; human resources management; supply chain and inventory management; material requirements planning; JIT; maintenance and reliability; and other subjects relevant to the field. Required course. Pre- or Corequisite: OMGT 4853. Prerequisite: OMGT 4333, and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. MSE or MSEM students may take the course with advisor consent. (Typically offered: Fall and Spring)

OMGT 5013. Supply Chain Management for Operations Managers. 3 Hours.
Focuses on the development and application of decision models in supply chains with emphasis on supply chain performance, cost, and metrics; demand forecasting; aggregate planning; inventory management; supply chain design and distribution; transportation modeling and analysis; supply chain coordination; the role of information technology; and sourcing decisions. Spreadsheet tools and techniques will be used to analyze supply chain performance. Prerequisite: OMGT 4333, OMGT 4853 and admitted to OPMGMS, EMGTMS, ENGRME or OMPMGC Graduate Certificate Program, or departmental consent. (Typically offered: Fall, Spring and Summer)

OMGT 5113. Human Resource Management. 3 Hours.
A review of Human Resources Management functions as they apply in today's business setting with specific emphasis on regulatory compliance, total rewards systems, recruitment, training, and employment practices. The course is designed both for HRM professionals and for line managers/professionals who need to understand the roles and responsibilities of HR as a business partner. Prerequisite: OMGT 4313, OMGT 5003 and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Fall, Spring and Summer)

OMGT 5123. Finance for Operations Managers. 3 Hours.
Examines the scope and environment of finance for operations managers. Topics include financial markets, interest rates, financial statements, cash flows, and performance evaluation. Valuation of financial assets, using time value of money; the meaning and measurement of risk/return; capital-budgeting, cost of capital, capital structure, dividend policy, and working capital management are also covered. Required course (may substitute OMGT 5463). Pre- or Corequisite: OMGT 5003. Prerequisite: OMGT 4323, OMGT 4853 and admitted to OPMGMS, EMGTMS, ENGRME, or OMPMGC Graduate Certificate Program, or departmental consent. (Typically offered: Fall, Spring and Summer)

OMGT 5133. Operations Management in the Service Sector. 3 Hours.
Review of the role of the operations management in the service sector, e.g., health care systems, banking, municipal services, utilities, and postal service and others. Emphasizes the principles and methodologies applicable to the solution of problems within the service industries. Pre- or Corequisite: OMGT 5003. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5143. Strategic Issues in Human Resource Management. 3 Hours.
Explores the concept of Strategic Human Resource Management with emphasis on effective partnering by various HR functions with all levels of management to support the large-scale, long-range goals of achieving success in the organization's chosen markets. Internal and external impacts on and of HR in all areas will be examined. Students will analyze case studies to build on basic concepts acquired in OMGT 5113. Prerequisite: OMGT 5003, OMGT 4313, OMGT 5113 and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)
OMGT 5253. Leadership Principles and Practices. 3 Hours.
The course is designed to expose students to multiple approaches to leadership in a wide variety of settings. Leadership styles, the knowledge areas and competencies expected of today’s leaders, the challenges leaders face, the historical and philosophical foundations of leadership, the relationships among leadership theory, leadership practice, and the moral-ethical aspects of leadership are among the topics covered in the course. A number of respected regional, national, and international leaders share “lessons learned” in their leadership journeys. Plus, a number of highly regarded leadership books and case studies on leadership are read and discussed. Students may not receive credit for INEG 4253 and INEG 5253/OMGT 5253. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Fall, Spring and Summer)
This course is cross-listed with INEG 5253.

OMGT 5303. Health Care Policies and Issues. 3 Hours.
Explores health care management strategies and policy development with emphasis on health insurance, Medicare, Medicaid and managed care, as well as employee health benefits. The roles of government and business in policy formulation are addressed, as are the problems of financing health care, legal and ethical considerations, current healthcare issues, and quality measures. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5373. Quality Management. 3 Hours.
Introduces students to quality management concepts and their use in enhancing organizational performance and profitability. History of the quality movement, its broad application in key economic sectors, and philosophical perspectives of major quality leaders will be discussed. Focus is on continuous process improvement, using data and information to guide organizational decision-making. The Six Sigma approach and associated statistical tools, supporting process improvement, are also covered. Pre- or Corequisite: OMGT 5003. Prerequisite: OMGT 4333 and OMGT 4853, and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5403. Industrial Safety and Health Administration. 3 Hours.
Based on Federal Regulations for Occupational Safety and Health, the course examines current regulations, as well as their commonsense application. Covers various standards, such as those for material handling, personal protective equipment, toxic substances, and machine guarding. Uses case studies and real world scenarios to present topics and demonstrate their application. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5423. Operations Management & Global Competition. 3 Hours.
Studies of principles and cases in business/industrial administration in global competition. Survey of markets, technologies, multi-national corporations, cultures, and customs. Discussion of ethics, professionalism, difference valuing, human relations skills, and other topics relevant to global practice. Pre- or Corequisite: OMGT 5003. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Spring)

OMGT 5433. Cost Estimation Models. 3 Hours.
Overview of cost estimation techniques and methodologies applied to manufacturing and service organizations. Accomplished through detailed analysis of the cost estimation development process and various cost estimation models. Topics include data collection and management, learning curves, activity based costing, detailed and parametric estimation models, and handling risk and uncertainty. Prerequisite: OMGT 4853 and OMGT 4333, and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)
This course is cross-listed with INEG 5433.

OMGT 5443. Decision Models. 3 Hours.
Focus on quantitative decision models for technical and managerial problems for private and public organizations. Topics include shareholder value, stakeholder value, Value-Focused Thinking, axioms of decision analysis, decision making challenges, decision traps, cognitive biases, decision processes, decision framing, influence diagrams, value hierarchy structuring, designing creative alternatives, single objective models, multiobjective additive value model, swing weights, sensitivity analysis, portfolio decision models with binary linear programming, probability elicitation, Bayes Theorem, decision trees, Monte Carlo simulation, expected value, dominance (deterministic and stochastic), tornado diagrams, value of information, risk preference, utility models, expected utility, and communicating analysis insights. Prerequisite: (OMGT 5003, OMGT 4333, and OMGT 4853) or INEG 2313, and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)
This course is cross-listed with INEG 5443.

OMGT 5463. Economic Decision Making. 3 Hours.
Principles of economic analysis with emphasis upon discounted cash flow criteria for decision-making. Comparison of criteria such as rate of return, annual cost, and present worth for the evaluation of investment alternatives. Required course (may be substituted by OMGT 5123). Prerequisite: OMGT 5003, OMGT 4323 and OMGT 4853, and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5473. Lean Six Sigma. 3 Hours.
This course covers the application of lean principles to manufacturing, service and government processes in order to improve productivity, increase value and eliminate waste as well as the use of the Six Sigma problem solving methodology to reduce variation and improve quality. Students will gain experience with the tools and analysis methods used in both approaches. The topics covered include: methods for creating Lean processes, proven lean problem-solving methodologies, managing a lean transformation, implementing a Six Sigma initiative, and executing the five phases of the Six Sigma DMAIC process, and communicating results to stakeholders and decision-makers. Prerequisite: (OMGT 5003 or departmental consent), and admitted to the (Master of Science in Operations Management Program, or the) Project Management Graduate Certificate Program, or be a non-degree seeking graduate student with departmental consent. (Typically offered: Fall, Spring and Summer)

OMGT 5493. Advanced Lean Six Sigma. 3 Hours.
With an emphasis on application, this course builds upon the Lean Six Sigma and Quality Management courses and covers analysis techniques for Lean Six Sigma problem solving in the Analyze, Improve, and Control phases of the DMAIC process. The topics covered include descriptive versus inferential statistics, sampling, Hypothesis Testing with Normal and Non-Normal Data, regression analysis, design of experiments, and control charts. Prerequisite: OMGT 5473 and OMGT 5373. (Typically offered: Fall, Spring and Summer)
OMGT 5503. Maintenance Management. 3 Hours.
Principles and practices of maintenance department organization, prevention procedures, and typical equipment problems. Includes related topics such as plant protection, preventative and plant maintenance. Pre- or Corequisite: OMGT 5003. Prerequisite: OMGT 4333 and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5613. Lean Production and Inventory Control. 3 Hours.
Defines analytical methods used to support inventory replenishment for the production of goods and services. Operational problems of production systems are examined, including objective/subjective forecasting methods, aggregate planning of work force and production under seasonal demand; and inventory models of EOQ for known and unknown demand. Supply chain management and lean manufacturing concepts are also discussed. Prerequisite: OMGT 4333 and OMGT 5003, and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5623. Strategic Management. 3 Hours.
Examines strategic management, which is defined as the art and science of formulating, implementing, and evaluating cross-functional decisions that enable an organization to achieve its long-term objectives. Principles of strategic management will be covered in conjunction with case studies to provide opportunity for analysis and experience in applying these principles in an operations management environment. Required course. Prerequisite: OMGT 5003 and OMGT 4313, and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5633. Linkages among Technology, Economics and Societal Values. 3 Hours.
Addresses how macro-level change is influenced by the linkages among technology, economics and societal values. Three major course initiatives: 1) Developing a conceptual model for understanding how macro-level change has occurred over history; 2) Examining recorded history in order to develop a contextual appreciation for Society's current situation; and 3) Using statistical data to identify six overriding world trends that are likely to greatly impact society's goal of achieving sustainable prosperity and well being in the foreseeable future. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

This course is cross-listed with BENG 5633.

OMGT 5653. Introduction to Data Analytics for Operations Managers. 3 Hours.
Introduces data science and data analytics. Provides basic skill instruction in the statistical data analysis programming language R. Provides experience building and interpreting descriptive and predictive data analytics models. Provides operations managers with the skill and tools to use and understand advanced data analytics methods. Provides practice communicating those results to senior stakeholders and decision makers. Prerequisite: OMGT 5003 or EMGT 5003, must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5673. Principles of Operations Research. 3 Hours.
Surveys the mathematical models used to design and analyze operational systems. Includes linear programming models, waiting line models, computer simulation models, and management science. Students will be introduced to applications of operations research and solution methods, using spreadsheet software. Pre- or Corequisite: OMGT 5003 and OMGT 4853. Prerequisite: OMGT 4333 and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5733. Human Factors in Operations Management. 3 Hours.
Introduces the interaction of humans with systems, attempting to apply the same rigor of purpose and understanding to these systems and interactions as with production planning, supply chain design, or other elements of operations management. Emphasizes identifying, diagnosing and finding solutions for perceptual, cognitive and organizational errors. The scientific method and various quantitative and qualitative research techniques will be used to both evaluate and solve problems as well as determine and frame outcomes. Pre- or Corequisite: OMGT 5003. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

OMGT 5783. Project Management for Operations Managers. 3 Hours.
An introduction to the Critical Path Method and Program Evaluation and Review Technique. Covers project planning and control methods; activity sequencing; time-cost trade-offs; allocation of manpower and equipment resources; scheduling activities and computer systems for PERT/CPM with emphasis on MS project. Case studies include topical issues combining methodologies and project management soft skills, such as conflict management, negotiation, presentations to stakeholders, and team building. Required course. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5793. Risk Management. 3 Hours.
Students will learn to apply tools to identify, assess, communicate and manage risk. Course work includes methods to identify risks, develop risk models, assess risk, and evaluate risk management options. Case studies are used to understand risk management challenges in systems development in complex organizations. Prerequisite: OMGT 5003 or EMGT 5003, must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5823. Information Technology for Operations Managers. 3 Hours.
Information Technology for the management and control of information systems and processes used in operations management. Topics covered include e-Business and e-Commerce Systems, Management Information Systems (MIS), Data Resource Management, Networking, Decision Support, Information Security, Enterprise and Global IT, and IT Strategies and Solutions for Operations Managers. Pre- or Corequisite: OMGT 5003. Prerequisite: OMGT 4853 and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)
OMGT 5833. Decision Support Application Development for Operations Management. 3 Hours.
Students will utilize Microsoft Excel and will write programming code in Visual Basic for Applications to develop custom solutions to challenging operations management problems. Emphasis will be placed on computing productivity in a spreadsheet-based setting to develop practical, useful decision support applications and computer programs to support operations management. Assumes basic knowledge of programming. Pre- or Corequisite: OMGT 5003. Prerequisite: OMGT 4853 and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5873. Organizing for Change. 3 Hours.
Provides an overview of fundamental management functions, organizational decision-making authority, structures and controls to support managing change. Topics include leadership, strategy and ethical perspectives on change management. Pre- or Corequisite: OMGT 5003. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5903. Operations Management of Unmanned Aircraft Systems. 3 Hours.
Course focuses on the fundamentals of UAS operations and the applications of UAS systems in research, government and business applications. Modules cover government compliance, licensing/certification requirements, University Policy and current events in the UAS field. Prepares students to participate in research or UAS operational roles. Discusses policy and process issues in society and considerations for ethical UAS use. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5933. Cybersecurity for Operations Managers. 3 Hours.
The cybersecurity for operations managers course introduces strategic and tactical processes to implement the National Institute of Standards and Technology (NIST) Risk Management Framework (RMF). Additionally, the Body of Knowledge for the American Society of Industrial Security is applied to each process and procedure. Managers and Leaders responsible for cybersecurity, with or without an IT background, are provided a logical RMF to establish an effective cybersecurity program in their organization. (Typically offered: Fall, Spring and Summer)

OMGT 5943. Resilient Design and Crisis Management for Operations Managers. 3 Hours.
This course expands the knowledge of managing and responding to a crisis including preparation through resilient design. Using foundational knowledge from the Department of Homeland Security Federal Emergency Management Administration and industry standards, the course guides operations managers in the preparation, prevention and response to emergency incidents and the techniques used to add resilience to operations. Human resources, supply chain, organizational structure, authorities, legal frameworks and emergency operations centers and private/public partnerships including critical infrastructure protection are explored throughout the course. (Typically offered: Fall, Spring and Summer)

OMGT 5983. Advanced Project Management. 3 Hours.
This course builds upon the project management for operations managers' course and offers students an opportunity to apply advanced project management tools to manage troubled projects. Topics include determining the project status using the schedule baseline, cost estimations, and earned value management techniques. Students will learn how to perform a project assessment/audit and will create a troubled project recovery plan. The course includes presentations of case study assignments to gain experience in communicating the status and recovery of failed and troubled projects. Prerequisite: OMGT 5783 and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Fall, Spring and Summer)

OMGT 5993. Homeland Security for Operations Managers. 3 Hours.
Introduces concepts of Homeland Security in industry and government settings. Covers basic legal and compliance programs and risk management processes. Explains the continuity between critical infrastructure, government and private sector roles. Focuses on system design and understanding of the National Incident Management System protecting the homeland. Introduces cybersecurity and intelligence analysis concepts. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 600V. Master's Thesis. 1-6 Hour.
Master's thesis option for OMGT students. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

Philosophy (PHIL)

Courses

PHIL 1003. Critical Reasoning: Discovery, Deduction, and Intellectual Self-Defense. 3 Hours.
This is a practical, "hands-on" course in sound reasoning, critical thinking, and the careful evaluation of evidence and argument. The course will utilize a range of real-world sources (television, Internet, magazines, etc.) and will be informed in content and method by the psychology of human judgment. (Typically offered: Irregular)

PHIL 1503. Special Topics in Philosophy and Culture. 3 Hours.
Exploration of introductory-level special topics of an issue or issues in contemporary culture not otherwise covered in the philosophy curriculum. (Typically offered: Irregular)

PHIL 2003. Introduction to Philosophy (ACTS Equivalency = PHIL 1103). 3 Hours.
An examination of such basic philosophical topics as the existence of God, the nature of the human mind, the relationship between appearance and reality, the forms and limits of human knowledge, freedom of the will, and standards of right and wrong. Includes both historical and contemporary readings. (Typically offered: Fall, Spring and Summer)

PHIL 2003C. Introduction to Philosophy. 3 Hours.
An examination of such basic philosophical topics as the existence of God, the nature of the human mind, the relationship between appearance and reality, the forms and limits of human knowledge, freedom of the will, and standards of right and wrong. Includes both historical and contemporary readings. Corequisite: Drill component. (Typically offered: Fall and Spring)

This course is equivalent to PHIL 2003.

PHIL 2003H. Honors Introduction to Philosophy. 3 Hours.
An examination of such basic philosophical topics as the existence of God, the nature of the human mind, the relationship between appearance and reality, the forms and limits of human knowledge, freedom of the will, and standards of right and wrong. Includes both historical and contemporary readings. (Typically offered: Fall, Spring and Summer)

This course is equivalent to PHIL 2003.

PHIL 2103. Introduction to Ethics (ACTS Equivalency = PHIL 1003). 3 Hours.
Basic concepts of moral philosophy, including historical and contemporary literature concerned with such issues as ethical relativism vs. objectivism, duty, happiness, freedom of the will and responsibilities, facts and values, individual liberty and society. Application of theories to substantive questions. (Typically offered: Fall, Spring and Summer)
PHIL 2103C. Introduction to Ethics (ACTS Equivalency = PHIL 1003). 3 Hours.
Basic concepts of moral philosophy, including historical and contemporary literature concerned with such issues as ethical relativism vs. objectivism, duty, happiness, freedom of the will and responsibility, facts and values, individual liberty and society. Application of theories to substantive questions. Corequisite: Drill component. (Typically offered: Irregular)
This course is equivalent to PHIL 2103.

PHIL 2203. Logic (ACTS Equivalency = PHIL 1003). 3 Hours.
Traditional and modern methods of deductive and inductive inference. (Typically offered: Fall, Spring and Summer)

PHIL 2303. Human Nature and the Meaning of Life. 3 Hours.
Examination of important views on human nature, the meaning of human existence, the value and significance of different human activities and projects, and on what philosophy, religion, art, and literature have to teach us on these topics. Reading may be drawn from a variety of philosophical, literary, and religious writings. (Typically offered: Irregular)

PHIL 2503. Philosophical Explorations. 3 Hours.
Explores topics in philosophy that are not currently covered in lower-level philosophy courses. (Typically offered: Irregular)

PHIL 3013. Ethics and the Professions. 3 Hours.
After a survey of the standard theories of moral obligation, justice, and rights, the course focuses on specific moral problems that arise within engineering, business, and the professions. (Typically offered: Fall, Spring and Summer)

PHIL 3113. Environmental Ethics. 3 Hours.
The course addresses ethical questions about nature and the natural environment. Topics of discussion include anthropocentric and biocentric ethics, population control, obligations to future generations, animal rights, moral considerability, Leopold's land ethic, deep ecology, and ecofeminism. (Typically offered: Irregular)
This course is cross-listed with ENSC 3933.

PHIL 3123. Bioethics. 3 Hours.
This course examines ethical dilemmas that arise in biological research, medical research, medical practice, and healthcare policy. Topics may include such things as abortion, assisted reproduction, cloning & genetic engineering, assisted suicide & voluntary euthanasia, organ donation, research ethics, patient autonomy, and healthcare policy. (Typically offered: Irregular)

PHIL 3203. Philosophy and the Christian Faith. 3 Hours.
This course will deal with philosophical issues that arise in Christian theology. Topics to be discussed may include the doctrines of the Incarnation, the Trinity, Atonement, and Hell, as well as the nature of God and the relationship between faith and reason. (Typically offered: Irregular)

PHIL 3443. Animal Minds. 3 Hours.
This course explores questions about thinking, consciousness, emotion, and communication in non-human animals; about the differences between human and non-human animals; and about implications for our treatment of animals. (Typically offered: Irregular)

PHIL 390V. Readings. 1-6 Hour.
Readings on topics of research interested or those not typically offered in regular classes, by arrangement with Professor. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

PHIL 3923H. Honors Colloquium. 3 Hours.
Treats a special topic of interest offered as part of the honors program. Prerequisite: honors candidacy (not restricted to candidacy in philosophy). (Typically offered: Irregular) May be repeated for degree credit.

PHIL 3943. Philosophy and Physics. 3 Hours.
Examination of the metaphysical and epistemological implications of specific physical theories with an emphasis on twentieth-century physics. Topics covered may include the nature of space and time (particularly as described in relativity theory), the nature of the quantum mechanical world, and the temporal asymmetries found in thermodynamics and other areas of physics. (Typically offered: Irregular)

PHIL 399VH. Honors Course. 1-6 Hour.
Honors thesis research and writing under the direction of a faculty member in the department. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

PHIL 4003. Ancient Greek Philosophy. 3 Hours.
Pre-Socratics, Socrates, Plato, and Aristotle. Prerequisite: 3 hours of philosophy. (Typically offered: Fall)

PHIL 4013. Platonism and Origin of Christian Theology. 3 Hours.
The study of Plato, Middle Platonism, and Neoplatonism, including Philo, Plotinus, and Proclus, and the influence of Platonism on the Greek church fathers of the 2nd-5th centuries, principally Origen and Gregory of Nyssa and also Pseudo-Dionysius. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 4023. Medieval Philosophy. 3 Hours.
Includes Augustine, Bonaventure, Aquinas, Scotus, and Ockham. (Typically offered: Irregular)

PHIL 4033. Modern Philosophy-17th and 18th Centuries. 3 Hours.
British and continental philosophy, including Bacon, Descartes, Spinoza, Leibniz, Hobbes, Locke, Berkeley, Hume, and Kant. (Typically offered: Spring)

PHIL 4043. Nineteenth Century Continental Philosophy. 3 Hours.
Study of major Continental European philosophers of the 19th century including Hegel, Marx, Kierkegaard, Schopenhauer, Nietzsche. Emphasis on the nature of persons, the question of freedom, and the importance of self-expression, as well as views on knowledge, reality, and the nature of philosophy. Prerequisite: 3 hours of Philosophy. (Typically offered: Irregular)

PHIL 4063. Twentieth Century Continental Philosophy. 3 Hours.
Study of major figures (e.g. Husserl, Heidegger, Sartre, Foucault, Derrida) and trends (phenomenology, existentialism, hermeneutics, critical theory, deconstruction) in 20th century French and German thought. Topics include human beings and their place in the world, the role of history and culture, and the possibility of critical reflection. (Typically offered: Irregular)

PHIL 4073. History of Analytic Philosophy. 3 Hours.
From Frege to recent figures, including Russell, Moore, Wittgenstein, Schlick, Carnap, Ayer, Ryle, Strawson, Quine, including a representative sample of works on the logical analysis of language, logical positivism, and ordinary language analysis. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 4093. Special Topics in Philosophy. 3 Hours.
This course will cover subject matter not covered in regularly offered courses. Course cannot be repeated when the topic is the same as one in which the student is previously enrolled. (Typically offered: Irregular) May be repeated for degree credit.

PHIL 4103. Modern Jewish Thought. 3 Hours.
A survey of the main trends in Jewish thought from the seventeenth through the nineteenth century. (Typically offered: Irregular)
This course is cross-listed with JWST 4003.

PHIL 4113. Social and Political Philosophy. 3 Hours.
Selected philosophical theories of society, the state, social justice, and their connections with individuals. (Typically offered: Irregular)

PHIL 4123. Classical Ethical Theory. 3 Hours.
Study of classical texts in the history of philosophical ethics from Plato to Nietzsche. Philosophers covered may include Plato, Aristotle, Butler, Hume, Kant, and Mill. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)
PHIL 4133. Contemporary Ethical Theory. 3 Hours.
A study of contemporary texts in philosophical ethics from G.E. Moore to the present. Philosophers covered may include Moore, Stevenson, Hare, Foot, and Rawls. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 4143. Philosophy of Law. 3 Hours.
A philosophical consideration of the nature of law, theory of adjudication, concepts of legal responsibility, liberty and the limits of law, and selected moral-legal issues (abortion, affirmative action, punishment, etc.). (Typically offered: Irregular)

PHIL 4183. Kant's Critique of Pure Reason. 3 Hours.
In his Critique of Pure Reason, one of the most important works in the history of philosophy, Kant describes how the mind works and claims to solve the major problems of metaphysics. The course is aimed at coming to a basic understanding of Kant's thought and at thinking critically about his claims. (Typically offered: Irregular)

PHIL 4193. Existentialism. 3 Hours.
Explores texts by major existentialist philosophers including Kierkegaard, Nietzsche, Heidegger, Sartre, and relevant literary works. Topics may include critiques of traditional views of human nature, the self, the meaning of life and existing authentically. (Typically offered: Irregular)

PHIL 4203. Theory of Knowledge. 3 Hours.
An examination of skepticism, the nature and structures of knowledge and epistemic justification, human rationality, and the justification of religious belief. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 4213. Philosophy of Science. 3 Hours.
Examination of issues related to scientific explanation, empirical foundations of science, observation and objectivity, nature of laws and theories, realism and instrumentalism, induction and confirmation, models, causation, and simplicity, beginning with historical survey set in the context of the history of science but emphasizing works from the 1930s to the current period, often including issues in recent physics. (Typically offered: Irregular)

PHIL 4233. Philosophy of Language. 3 Hours.
A survey of mainstream philosophical theories of meaning, reference, truth, and logical form. Attention given to the views of such figures as Frege, Russell, Tarski, Searle, Dumett, and the advocates of possible world's semantics. (Typically offered: Irregular)

PHIL 4253. Symbolic Logic I. 3 Hours.
Rigorous analyses of the concepts of proof, consistency, equivalence, validity, implication, and truth. Full coverage of truth-functional logic and quantification theory (predicate calculus). Discussion of the nature and limits of mechanical procedures (algorithms) for proving theorems in logic and mathematics. Informal accounts of the basic facts about infinite sets. Prerequisite: PHIL 2203 or MATH 2603. (Typically offered: Fall)
This course is cross-listed with MATH 4253.

PHIL 4303. Philosophy of Religion. 3 Hours.
Types of religious belief and critical examination of their possible validity, including traditional arguments and contemporary questions of meaning. (Typically offered: Irregular)

PHIL 4313. Contemporary Jewish Thought. 3 Hours.
A survey of trends in Jewish thought in the twentieth and twenty-first centuries, focusing on the ways in which Jewish thinkers have responded to the events affecting Jews and the conditions of Jewish life from approximately 1900 to the present. (Typically offered: Irregular)
This course is cross-listed with JWST 4013.

PHIL 4323. Philosophy of Race and Gender. 3 Hours.
Examines the metaphysical, ethical, aesthetic, political, and legal dimensions of race and gender. Topics include theories of race and gender, Latinx feminism, the ethics of racist humor and removing historical monuments, misogyny and misandry, transgender and nonbinary identities, and the role of self-interpretation in sexual orientation. (Typically offered: Irregular)

PHIL 4333. Feminist Philosophy. 3 Hours.
Explores feminist contributions in traditional philosophical areas such as ethics, political philosophy, and epistemology. Topics include feminist analyses of the family, pornography, sexual harassment, violence against women, and race relations; and ways different schools of feminist thought describe women's oppression, its causes, and resistance to it. (Typically offered: Irregular)

PHIL 4403. Philosophy of Art. 3 Hours.
Varieties of truth and value in the arts and aesthetic experience, focusing on the creative process in the art and in other human activities. (Typically offered: Spring)

PHIL 4423. Philosophy of Mind. 3 Hours.
An examination of such topics as the relationship between mind and body, the mentality of machines, knowledge of other minds, the nature of psychological explanation, the relationships between psychology and the other sciences, mental representation, the nature of the self, and free will and determinism. (Typically offered: Irregular)

PHIL 4433. Philosophy of Psychology. 3 Hours.
Explores philosophical issues concerning the domain, foundations and methodology of psychology, and the relation of psychological explanations to other scientific and philosophical investigations of the mind. Topics include cognitive architecture and the evolution of minds, extended or embodied cognition, perception and introspection, consciousness and attention, social cognition, thought and language. (Typically offered: Irregular)
This course is cross-listed with PSYC 4433.

PHIL 4603. Metaphysics. 3 Hours.
Theory and critical analysis of such basic metaphysical problems as mind and body, universals and particulars, space and time, determinism and free will, self-identity and individualism, with emphasis on contemporary perspectives. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 4983. Capstone Course for Philosophy Majors. 3 Hours.
An undergraduate seminar to be taken in the student's final spring semester. The content will vary with the instructor. The objective is for the student to sharpen his or her philosophical skills by, e.g., writing short papers, giving class presentations, and writing a substantial final essay. Prerequisite: 21 hours of philosophy. (Typically offered: Spring)

PHIL 5003. Ancient Greek Philosophy. 3 Hours.
(Formerly PHIL 4003.) Pre-Socratics, Socrates, Plato, and Aristotle. Graduate degree credit will not be given for both PHIL 4003 and PHIL 5003. Prerequisite: Three hours of philosophy coursework. (Typically offered: Fall)

PHIL 5013. Platonism and Origin of Christian Theology. 3 Hours.
(Formerly PHIL 4013.) The study of Plato, Middle Platonism, and Neoplatonism, including Philo, Plotinus, and Proclus, and the influence of Platonism on the Greek church fathers of the 2nd-5th centuries, principally Origen and Gregory of Nyssa and also Pseudo-Dionysius. Graduate degree credit will not be given for both PHIL 4013 and PHIL 5013. Prerequisite: Three hours of philosophy coursework. (Typically offered: Irregular)

PHIL 5023. Medieval Philosophy. 3 Hours.
(Formerly PHIL 4023.) Includes Augustine, Bonaventure, Aquinas, Scotus, and Ockham. Graduate degree credit will not be given for both PHIL 4023 and PHIL 5023. (Typically offered: Irregular)

PHIL 5033. Modern Philosophy-17th and 18th Centuries. 3 Hours.
(Formerly PHIL 4033.) British and Continental philosophy, including Bacon, Descartes, Spinoza, Leibniz, Hobbes, Locke, Berkeley, Hume, and Kant. Graduate degree credit will not be given for both PHIL 4033 and PHIL 5033. (Typically offered: Spring)
PHIL 5043. Nineteenth Century Continental Philosophy. 3 Hours.
(Formerly PHIL 4043.) Study of major Continental European philosophers of the 19th century including Hegel, Marx, Kierkegaard, Schopenhauer, Nietzsche. Emphasis on the nature of persons, the question of freedom, and the importance of self-expression, as well as views on knowledge, reality, and the nature of philosophy. Graduate degree credit will not be given for both PHIL 4043 and PHIL 5043. Prerequisite: 3 hours of Philosophy. (Typically offered: Irregular)

PHIL 5063. Twentieth Century Continental Philosophy. 3 Hours.
(Formerly PHIL 4063.) Study of major figures (e.g. Husserl, Heidegger, Sartre, Foucault, Derrida) and trends (phenomenology, existentialism, hermeneutics, critical theory, deconstruction) in 20th century French and German thought. Topics include human beings and their place in the world, the role of history and culture, and the possibility of critical reflection. Graduate degree credit will not be given for both PHIL 4063 and PHIL 5063. (Typically offered: Irregular)

PHIL 5073. History of Analytic Philosophy. 3 Hours.
(Formerly PHIL 4073.) From Frege to recent figures, including Russell, Moore, Wittgenstein, Schlick, Carnap, Ayer, Ryle, Strawson, Quine, including a representative sample of works on the logical analysis of language, logical positivism, and ordinary language analysis. Graduate degree credit will not be given for both PHIL 4073 and PHIL 5073. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 5093. Special Topics in Philosophy. 3 Hours.
(Formerly PHIL 4093.) This course will cover subject matter not covered in regularly offered courses. Graduate degree credit will not be given for both PHIL 4093 and PHIL 5093. Course cannot be repeated when topic is the same as one for which the student has been previously enrolled. (Typically offered: Irregular) May be repeated for degree credit.

PHIL 5103. Modern Jewish Thought. 3 Hours.
(Formerly PHIL 4103.) A survey of the main trends in Jewish thought from the seventeenth through the nineteenth century. Graduate degree credit will not be given for both PHIL 4103 and PHIL 5103. (Typically offered: Irregular)

PHIL 5113. Social and Political Philosophy. 3 Hours.
(Formerly PHIL 4113.) Selected philosophical theories of society, the state, social justice, and their connections with individuals. Graduate degree credit will not be given for both PHIL 4113 and PHIL 5113. (Typically offered: Irregular)

PHIL 5123. Classical Ethical Theory. 3 Hours.
(Formerly PHIL 4123.) Study of classical texts in the history of philosophical ethics from Plato to Nietzsche. Philosophers covered may include Plato, Aristotle, Butler, Hume, Kant, and Mill. Graduate degree credit will not be given for both PHIL 4123 and PHIL 5123. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 5133. Contemporary Ethical Theory. 3 Hours.
(Formerly PHIL 4133.) A study of contemporary texts in philosophical ethics from G.E. Moore to the present. Philosophers covered may include Moore, Stevenson, Hare, Foot, and Rawls. Graduate degree credit will not be given for both PHIL 4133 and PHIL 5133. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 5143. Philosophy of Law. 3 Hours.
(Formerly PHIL 4143.) A philosophical consideration of the nature of law, theory of adjudication, concepts of legal responsibility, liberty and the limits of law, and selected moral-legal issues (abortion, affirmative action, punishment, etc.). Graduate degree credit will not be given for both PHIL 4143 and PHIL 5143. (Typically offered: Irregular)

PHIL 5183. Kant's Critique of Pure Reason. 3 Hours.
(Formerly PHIL 4183.) In his Critique of Pure Reason, one of the most important works in the history of philosophy, Kant describes how the mind works and claims to solve the major problems of metaphysics. The course is aimed at coming to a basic understanding of Kant's thought and at thinking critically about his claims. Graduate degree credit will not be given for both PHIL 4183 and PHIL 5183. (Typically offered: Irregular)

PHIL 5193. Existentialism. 3 Hours.
Explores texts by major existentialist philosophers including Kierkegaard, Nietzsche, Heidegger, Sartre, and relevant literary works. Topics may include critiques of traditional views of human nature, the self, the meaning of life and existing authentically. (Typically offered: Irregular)

PHIL 5203. Theory of Knowledge. 3 Hours.
(Formerly PHIL 4203.) An examination of skepticism, the nature and structures of knowledge and epistemic justification, human rationality, and the justification of religious belief. Graduate degree credit will not be given for both PHIL 4203 and PHIL 5203. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 5213. Philosophy of Science. 3 Hours.
(Formerly PHIL 4213.) Examination of issues related to scientific explanation, empirical foundations of science, observation and objectivity, nature of laws and theories, realism and instrumentalism, induction and confirmation, models, causation, and simplicity, beginning with historical survey set in the context of the history of science but emphasizing works from the 1930s to the current period, often including issues in recent physics. Graduate degree credit will not be given for both PHIL 4213 and PHIL 5213. (Typically offered: Irregular)

PHIL 5233. Philosophy of Language. 3 Hours.
(Formerly PHIL 4233.) A survey of mainstream philosophical theories of meaning, reference, truth, and logical form. Attention given to the views of such figures as Frege, Russell, Tarski, Searle, Dummet, and the advocates of possible world semantics. Graduate degree credit will not be given for both PHIL 4233 and PHIL 5233. (Typically offered: Irregular)

PHIL 5253. Symbolic Logic I. 3 Hours.
(Formerly PHIL 4253.) Rigorous analyses of the concepts of proof, consistency, equivalence, validity, implication, and truth. Full coverage of truth-functional logic and quantification theory (predicate calculus). Discussion of the nature and limits of mechanical procedures (algorithms) for proving theorems in logic and mathematics. Informal accounts of the basic facts about infinite sets. Graduate degree credit will not be given for both PHIL 4253 and PHIL 5253. Prerequisite: PHIL 2203 or MATH 2603. (Typically offered: Fall)
This course is cross-listed with MATH 5263.

PHIL 5303. Philosophy of Religion. 3 Hours.
(Formerly PHIL 4303.) Types of religious belief and critical examination of their possible validity, including traditional arguments and contemporary questions of meaning. Graduate degree credit will not be given for both PHIL 4303 and PHIL 5303. (Typically offered: Irregular)

PHIL 5313. Contemporary Jewish Thought. 3 Hours.
(Formerly PHIL 4313.) A survey of trends in Jewish thought in the twentieth and twenty-first centuries, focusing on the ways in which Jewish thinkers have responded to the events affecting Jews and the conditions of Jewish life from approximately 1900 to the present. Graduate degree credit will not be given for both PHIL 4313 and PHIL 5313. (Typically offered: Irregular)

PHIL 5323. Philosophy of Race and Gender. 3 Hours.
Examines the metaphysical, ethical, aesthetic, political, and legal dimensions of race and gender. Topics include theories of race and gender, Latinx feminism, the ethics of racist humor and removing historical monuments, misogyny and misandry, transgender and nonbinary identities, and the role of self-interception in sexual orientation. (Typically offered: Irregular)

PHIL 5333. Feminist Philosophy. 3 Hours.
Explores feminist contributions in traditional philosophical areas such as ethics, political philosophy, and epistemology. Topics include feminist analyses of the family, pornography, sexual harassment, violence against women, and race relations; and ways different schools of feminist thought describe women's oppression, its causes, and resistance to it. (Typically offered: Irregular)
PHIL 5403. Philosophy of Art. 3 Hours.
(Formerly PHIL 4403.) Varieties of truth and value in the arts and aesthetic experience, focusing on the creative process in the art and in other human activities. Graduate degree credit will not be given for both PHIL 4403 and PHIL 5403. (Typically offered: Spring)

PHIL 5423. Philosophy of Mind. 3 Hours.
(Formerly PHIL 4423.) An examination of such topics as the relationship between mind and body, the mentality of machines, knowledge of other minds, the nature of psychological explanation, the relationships between psychology and the other sciences, mental representation, the nature of the self, and free will and determinism. Graduate degree credit will not be given for both PHIL 4423 and PHIL 5423. (Typically offered: Irregular)

PHIL 5433. Philosophy of Psychology. 3 Hours.
Explores philosophical issues concerning the domain, foundations and methodology of psychology, and the relation of psychological explanations to other scientific and philosophical investigations of the mind. Topics include cognitive architecture and the evolution of minds, extended or embodied cognition, perception and introspection, consciousness and attention, social cognition, thought and language. (Typically offered: Irregular)

PHIL 5603. Metaphysics. 3 Hours.
(Formerly PHIL 4603.) Theory and critical analysis of such basic metaphysical problems as mind and body, universals and particulars, space and time, determinism and free will, self-identity and individualism, with emphasis on contemporary perspectives. Graduate degree credit will not be given for both PHIL 4603 and PHIL 5603. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 5823. Seminar: Spinoza. 3 Hours.
Seminar: Spinoza (Typically offered: Irregular)

PHIL 5883. Seminar: Wittgenstein. 3 Hours.
Seminar: Wittgenstein (Typically offered: Irregular)

PHIL 5983. Philosophical Seminar. 3 Hours.
Various topics and issues in historical and contemporary philosophy. (Typically offered: Fall and Spring) May be repeated for up to 3 hours of degree credit.

PHIL 600V. Master’s Thesis. 1-6 Hour.
Master’s Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

PHIL 690V. Graduate Readings. 1-6 Hour.
Supervised individual readings in historical and contemporary philosophy. (Typically offered: Fall, Spring and Summer)

PHIL 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

**Physical Education (PHED) Courses**

PHED 1003. The Physical Education Profession: An Overview. 3 Hours.
An introduction to the teaching of physical education. (Typically offered: Fall and Spring) May be repeated for degree credit.

PHED 2023. Sport Skills. 3 Hours.
This course is designed to prepare the student to teach sport skills, primarily those taught in grades 5-8. Prerequisite: PHED 1003. (Typically offered: Fall and Spring)

PHED 2373. Elementary Physical Education. 3 Hours.
Program planning and techniques of teaching physical education activities to children; for early childhood, elementary and physical education teachers, supervisors, and principals. Prerequisite: PHED 1003. (Typically offered: Fall and Spring)

PHED 3003. Outdoor Education. 3 Hours.
This course is designed to provide opportunities for the student to acquire the skills, teaching and leadership techniques associated with outdoor and adventure activities. Prerequisite: Admission into PHED BSE program is required. (Typically offered: Fall)

PHED 3033. Educational Rhythms and Gymnastics. 3 Hours.
This course is designed to provide opportunities for the student to perform and teach a variety of rhythmical and gymnastic activities. Prerequisite: Admission into PHED BSE program is required. (Typically offered: Spring)

PHED 3043. Teaching Fitness. 3 Hours.
Instructional strategies for teaching public school students about fitness concepts. Prerequisite: Admission into PHED BSE program is required. (Typically offered: Spring)

PHED 3163. Exercise Physiology: Theory and Application. 3 Hours.
Examination of the changes during childhood and adolescence of physiological responses to exercise. The exploration includes the study of the maturation of the body's functional capacities as it relates to exercise. Designed for Physical Education Teacher Education majors. Prerequisite: BIOL 2443 and BIOL 2441L. (Typically offered: Fall and Spring)

PHED 3163H. Honors Exercise Physiology: Theory and Application. 3 Hours.
Examination of the changes during childhood and adolescence of physiological responses to exercise. The exploration includes the study of the maturation of the body's functional capacities as it relates to exercise. Designed for Physical Education Teacher Education majors. Prerequisite: BIOL 2443 and BIOL 2441L and P-12 or K-12 physical education major, Honors standing. (Typically offered: Fall and Summer)

This course is equivalent to PHED 3163.

PHED 3203. Principles and Problems of Coaching. 3 Hours.
A focus on the various aspects of coaching the athletes in contemporary society through an examination of research findings related to factors affecting performance. Attention to be given to principles, problems and understanding essential to the management of athletic contests. (Typically offered: Fall and Spring)

PHED 3223. Motor Development. 3 Hours.
An overview of contemporary motor development and movement theory, developmental hierarchies, and physiological aspects of development throughout the lifespan. (Typically offered: Fall and Spring)

PHED 3413. Administration in Physical Education. 3 Hours.
An examination of the administrative duties of the physical education teacher. (Typically offered: Spring)

PHED 3573. The School Health Program. 3 Hours.
Studies school health services, the health environment, and health education, as well as the teacher's potential role in each. Prerequisite: PBHL 1103. (Typically offered: Fall)

PHED 3623. Sport Sociology. 3 Hours.
An investigation of the impact of physical education and sport on society. (Typically offered: Spring)

PHED 3903. Physical Education for Special Populations. 3 Hours.
Provides fundamental concepts and skills essential to physical education programming for students with disabilities. Deals with definitions, disabling conditions, developmental and remedial activities, games, and sports. Prerequisite: Junior standing. (Typically offered: Fall)

PHED 3903H. Honors Physical Education for Special Populations. 3 Hours.
Provides fundamental concepts and skills essential to physical education programming for students with disabilities. Deals with definitions, disabling conditions, developmental and remedial activities, games, and sports. Prerequisite: Junior standing. (Typically offered: Fall)
PHED 391V. Special Topics in PHED. 1-3 Hour.
Designed to cover specialized topics not presented in physical education coursework. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

PHED 4001. Coaching Practicum. 1 Hour.
Designed for students who want to add the Coaching Endorsement to the state teaching license. Student serves as a coaching assistant with a local school, University or recreational sports team. Students who serves as a coaching assistant with a local school must successfully complete a criminal background check prior to beginning coaching practicum. Prerequisite: PHED 3203 and proof of current First Aid/CPR/AED certification submitted to instructor of record. (Typically offered: Fall and Spring)

PHED 4023. Class Management. 3 Hours.
This course is designed to provide opportunities for the student to acquire an understanding that emphasizes class management; and includes professional ethics, and school policies related to students, faculty, and programs. Corequisite: PHED 407V and PHED 4733. Prerequisite: Senior status in PHEDBS; a grade of “C” or better in all KINS/PHED Teacher Education classes (PHED 1003, PHED 2023, PHED 3033, PHED 3043, PHED 3203, PHED 2373, PHED 4703, PHED 4743, PHED 3903, PHED 432V, PHED 3003, PHED 3623 and PHED 3413); a cumulative grade point average of 2.7; passing scores on approved standardized assessments as listed by the COEHP Office of Teacher Education; completion of the Praxis II content knowledge for Health and Physical Education exam with scores presented to the university internship supervisor by December 1st. (Typically offered: Fall and Spring)

PHED 407V. Physical Education Teaching Internship. 1-9 Hour.
This internship involves supervised teaching experience in a P-12 setting. Students will be placed under the guidance of a mentor teacher at specific school sites within NW Arkansas. Internship will be done at both the elementary and secondary levels. Successful completion of a criminal background check is required before beginning internship. Corequisite: PHED 4023 and PHED 4733. Prerequisite: Admission into PHED BSE program is required. (Typically offered: Spring) May be repeated for degree credit.

PHED 432V. Teaching Practicum. 1-2 Hour.
K-12 Kinesiology majors serve as a teaching assistant with a local school physical education teacher. This course should be taken the semester before PHED 407V Internship. Prerequisite: Admission into PHED BSE program is required. (Typically offered: Fall)

PHED 4703. Assessment in Physical Education. 3 Hours.
An examination of the assessment duties required of a physical education teacher. The use of authentic assessment and various grading strategies will be investigated. Prerequisite: Admission into PHED BSE program is required. (Typically offered: Fall)

PHED 4733. Senior Seminar. 3 Hours.
This capstone class will cover special topics for the Kinesiology P-12 students in preparation for entry into the profession. Resumes, cover letters, teaching philosophy, references, and interview preparation will be included. Students will also review contemporary issues relevant to the physical education teacher. Corequisite: PHED 4023. Prerequisite: Senior status in PHEDBS, a grade of “C” or better in all KINS/PHED Teacher Education classes: PHED 1003, PHED 2023, PHED 3033, PHED 3043, PHED 3203, PHED 2373, PHED 4703, PHED 4743, PHED 3903, PHED 432V, PHED 3003, PHED 3623 and PHED 3413; a cumulative grade point average of 2.7 or greater; and passing scores on approved standardized assessments as listed by the COEHP Office of Teacher Education; and the completed Praxis II content knowledge for Health and Physical Education exam with scores presented to the university internship supervisor by December 1st. (Typically offered: Spring)

PHED 4743. Secondary Physical Education. 3 Hours.
Strategies and curriculum for physical education, grades 7-12. Prerequisite: PHED 1003, a cumulative grade point average of 2.7, and passing scores on approved standardized assessments as listed by the COEHP Office of Teacher Education. (Typically offered: Fall)

PHED 480V. Workshop. 3-6 Hour.
Physical education workshop. Prerequisite: Instructor consent. (Typically offered: Summer)

PHED 5243. Sport Skill Assessment and Instructional Strategies. 3 Hours.
The focus of this course is practical assessment techniques and instructional strategies in the area of sport and physical education activities. (Typically offered: Fall and Summer)

PHED 5253. The Physical Education Curriculum. 3 Hours.
Principles, problems, procedures, and the influence of educational philosophy on programs in physical education and their application in the construction of a course of study for a specific situation. (Typically offered: Fall and Summer)

PHED 5273. Professional Issues in Physical Education and Sport. 3 Hours.
A review of contemporary research literature informing effective teaching practices in physical education settings. Students gain experience in critically reviewing literature and discussing current issues. (Typically offered: Fall and Summer)

PHED 5313. Risk Management in Physical Education & Athletics. 3 Hours.
This course is designed to provide opportunities for the student to acquire an understanding of how to reduce the risk of injuries and eliminate hazards that may contribute to injuries associated with physical education and athletics. (Typically offered: Spring and Summer)

PHED 5483. Conducting Research in Physical Education. 3 Hours.
Methods and techniques of research in physical education, including an analysis of examples of their use and practice in their application to problems of interest to the student. Prerequisite: Students must be currently enrolled in the online MEd in Physical Education program. (Typically offered: Fall, Spring and Summer)

PHED 5553. Scientific Principles of Movement and Performance. 3 Hours.
This course focuses on theoretical information about sport biomechanics and movement principles, with practical applications to the physical education of coaching profession. (Typically offered: Spring and Summer)

PHED 5643. Motor Learning. 3 Hours.
Concepts of motor learning and control are presented. Attention is given to an analysis of the literature in movement control, motor behavior, and motor learning. (Typically offered: Fall and Spring)

PHED 5753. Sport Psychology. 3 Hours.
Investigation of historical and contemporary research in sport psychology. (Typically offered: Spring and Summer)

PHED 5803. Measurement Concepts for K-12 Physical Education Teachers. 3 Hours.
This course focuses on techniques that physical education teachers can use to monitor student progress in a K-12 environment. (Typically offered: Spring and Summer)

PHED 6363. Supervision in Physical Education. 3 Hours.
The focus of this course is instructional supervision as a set of complex processes in which the supervisor works within accepted guidelines and functions to effectively supervise a teacher's pedagogical development. The Physical Education Instructional Supervision (PEIS) Model will be used to help facilitate this process. (Typically offered: Fall and Spring)

PHED 6723. Project Implementation and Data Analysis. 3 Hours.
This course is designed to provide students with the tools to identify, develop, and submit grant proposals. (Typically offered: Fall and Spring)
Physical Education Activity (PEAC)

Courses

PEAC 1221. Beginning Jogging. 1 Hour.  
Instruction and participation in jogging. (Typically offered: Irregular)

PEAC 1251. Beginning Racquetball. 1 Hour.  
Instruction and participation in racquetball. (Typically offered: Irregular)

PEAC 1351. Beginning Golf. 1 Hour.  
Instruction and participation in golf. (Typically offered: Irregular)

PEAC 1391. Fitness Walking. 1 Hour.  
Instruction and participation in vigorous walking for cardiovascular development and improvement. (Typically offered: Irregular)

PEAC 1471. Beginning Badminton. 1 Hour.  
Instruction and participation in badminton. (Typically offered: Irregular)

PEAC 1621. Fitness Concepts. 1 Hour.  
Acquaints students with a basic knowledge, understanding, and value of physical activity as related to optimal wellness. (Typically offered: Irregular)

PEAC 1661. Weight Training. 1 Hour.  
Instruction and participation in weight training. (Typically offered: Irregular) May be repeated for degree credit.

PEAC 1901. Special Topics. 1 Hour.  
Instruction and participation in specialized activity. (Typically offered: Irregular) May be repeated for up to 4 hours of degree credit.

Physics (PHYS)

Courses

PHYS 1021L. Physics and Human Affairs Laboratory. 1 Hour.  
Laboratory 2 hours per week. Pre- or Corequisite: PHYS 1023. (Typically offered: Fall, Spring and Summer)

PHYS 1021M. Honors Physics and Human Affairs Laboratory. 1 Hour.  
Laboratory 2 hours per week. Pre- or Corequisite: PHYS 1023H. (Typically offered: Fall, Spring and Summer)

This course is equivalent to PHYS 1021L.

PHYS 1023. Physics and Human Affairs. 3 Hours.  
The great ideas of physics, together with their philosophical and social impact. Scientific topics include cosmology, relativity, quantum mechanics. Philosophical and social topics include methods and values of science, problems related to energy sources, and implications of modern weapons. Non-mathematical. Designed for non-science majors. Along with PHYS 1021L, can be used to satisfy a 4-year physical science requirement for a B.A. degree. Students who have received credit in PHYS 2013 and PHYS 2033, or PHYS 2054 and PHYS 2074 cannot also receive degree credit in this course. Corequisite: PHYS 1021L. (Typically offered: Fall, Spring and Summer)

PHYS 1023H. Honors Physics and Human Affairs. 3 Hours.  
The great ideas of physics, together with their philosophical and social impact. Scientific topics include cosmology, relativity, quantum mechanics. Philosophical and social topics include methods and values of science, problems related to energy sources, and implications of modern weapons. Non-mathematical. Designed for non-science majors. Along with PHYS 1021L, can be used to satisfy a 4-year physical science requirement for a B.A. degree. Students who have received credit in PHYS 2013 and PHYS 2033, or PHYS 2054 and PHYS 2074 cannot also receive degree credit in this course. Corequisite: PHYS 1021L. (Typically offered: Fall, Spring and Summer)

PHYS 1034. Physics for Elementary Education Majors. 4 Hours.  
For elementary education majors. Physical science concepts based on state frameworks are explored in a mixed lecture/lab environment. The inquiry-based lab activities can be transferable for school classroom use. Topics covered include: scientific inquiry, motion and forces, conservation of energy, heat, light, electricity and simple circuits, and magnetism. Prerequisite: Elementary education major. Corequisite: Lab component. (Typically offered: Spring)

PHYS 1044. Physics for Architects I. 4 Hours.  
Covers the classical laws of mechanics, including static equilibrium, elasticity, and oscillations, with emphasis on topics relevant to architecture. Includes the use of mechanics concepts such as motion, position, speed, velocity, acceleration, force, torque, momentum, energy, and oscillations, with application to basic structural elements such as cables, trusses, and beams. Corequisite: Lab component. Prerequisite: Major in architecture or interior design or agricultural education communication & technology. (Typically offered: Fall)

PHYS 1054. Physics for Architects II. 4 Hours.  
Acoustics, electricity and magnetism, light, and environmental physics. Topics include resonance, acoustical isolation, interference, reverberation time, electrical circuitry with emphasis on power and efficiency, electrical storage, light sources, reflection, refraction, absorption, transmission, color, astronomy (to give perspective to the use of sunlight in architecture), heat, noise, and radioactivity pollution. Lecture 3 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: PHYS 1044. (Typically offered: Spring)

PHYS 2011L. College Physics I Laboratory (ACTS Equivalency = PHYS 2014 Lab), 1 Hour.  
Laboratory 2 hours per week. Corequisite: PHYS 2013. (Typically offered: Fall and Summer)

A non-calculus survey of the principles of physics including mechanics, heat and sound. Lecture 3 hours per week and drill 1 hour per week. Corequisite: Drill component and PHYS 2011L. Prerequisite: (MATH 1203 and MATH 1213) or (MATH 1284C or MATH 2043 or MATH 2554) or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT, or 620 on the math component of the new SAT. (Typically offered: Fall and Summer)

PHYS 2031L. College Physics II Laboratory (ACTS Equivalency = PHYS 2024 Lab), 1 Hour.  
Laboratory 2 hours per week. Corequisite: PHYS 2033. (Typically offered: Summer)

PHYS 2033. College Physics II (ACTS Equivalency = PHYS 2024 Lecture). 3 Hours.  
Continuation of PHYS 2013. Topics include electricity and magnetism, light, relativity, quantum mechanics, atomic and nuclear structure. Lecture 3 hours, drill 1 hour per week. Corequisite: Drill component and PHYS 2031L. Prerequisite: PHYS 2013 or PHYS 2054. (Typically offered: Spring and Summer)

PHYS 2054. University Physics I (ACTS Equivalency = PHYS 2034). 4 Hours.  
Introduction to the principles of mechanics, wave motion, temperature and heat, with calculus. Lecture three hours per week and practicum two hours a week (included in lab component). Corequisite: Lab component. Prerequisite: MATH 2554. (Typically offered: Fall, Spring and Summer)

PHYS 2054H. Honors University Physics I. 4 Hours.  
Introduction to the principles of mechanics, wave motion, temperature and heat, with calculus. Lecture three hours per week and practicum two hours a week (included in lab component). Corequisite: Lab component. Prerequisite: MATH 2554. (Typically offered: Fall, Spring and Summer)

This course is equivalent to PHYS 2054.
PHYS 2074. University Physics II (ACTS Equivalency = PHYS 2044 Lecture). 4 Hours.
Continuation of PHYS 2054. Topics covered include electricity, magnetism, light and geometric optics. Lecture three hours per week and practicum two hours per week. Corequisite: Lab component. Prerequisite: PHYS 2054 and MATH 2564. (Typically offered: Fall, Spring and Summer)

PHYS 2074H. Honors University Physics II. 4 Hours.
Continuation of PHYS 2054H. Topics covered include electricity, magnetism, light and geometric optics. Lecture three hours per week and practicum two hours per week. Corequisite: Lab component. Prerequisite: (PHYS 2054 or PHYS 2054H) and MATH 2564. (Typically offered: Spring)
This course is equivalent to PHYS 2074.

PHYS 2094. University Physics III. 4 Hours.
A continuation of PHYS 2054 and PHYS 2074. Topics include waves, physical optics, thermodynamics, kinetic theory, and an introduction to quantum mechanics. Lecture 3 hours per week and practicum 2 hours per week (included in lab component). Pre- or Corequisite: MATH 2574. Corequisite: Lab component. Prerequisite: PHYS 2074. (Typically offered: Fall)

PHYS 306V. Projects. 1-3 Hour.
Individual experimental or theoretical research problems for advanced undergraduates. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

PHYS 3113. Analytical Mechanics. 3 Hours.
Newton's laws of motion applied to particles, systems of particles, and rigid bodies. Introduction to Hamilton's and Lagrange's equations. Pre- or Corequisite: MATH 2584. (Typically offered: Fall)

PHYS 3213. Electronics in Experimental Physics. 3 Hours.
DC & AC electronics, semiconductors, operational amplifiers, and digital logic circuits with lab applications in experimental physics. Corequisite: Lab component. Prerequisite: PHYS 2094 or instructor consent. (Typically offered: Spring Odd Years)

PHYS 3273. Inquiry and Modeling in Science Education. 3 Hours.
Study of science practices with an emphasis on modeling and inquiry for learning/teaching. Includes practical, philosophical, cognitive, and disciplinary specific dimensions of doing science in academic and nonacademic settings. Includes planning and implementing multiple scientific inquiries, engaging in reflective practices, writing and presenting scientific information. Safety issues are included. Corequisite: Drill component. Prerequisite: 8 hours of PHYS courses. (Typically offered: Spring)
This course is cross-listed with CHEM 3273, BIOL 3273.

PHYS 3273H. Honors UTeach Research Methods. 3 Hours.
A project-based course for prospective science and mathematics teachers utilizing scientific research methods and inquiry to solve research problems. Corequisite: Lab component. Prerequisite: ARSC 1201 and ARSC 1212, junior standing and honors. (Typically offered: Spring)
This course is cross-listed with PHYS 3273, CHEM 3273, BIOL 3273.

PHYS 3453. Electromagnetic Theory I. 3 Hours.
Basics of Electromagnetic Theory, focusing on statics and introducing Maxwell's equations. Topics covered are: vector calculus and the solution of partial differential equations by separation of variables, electrostatics, dielectric media, electric currents, magnetic fields, magnetic properties of matter, electromagnetic induction, force and energy in electrodynamics, and Maxwell's equations. Pre- or Corequisite: MATH 2584. Prerequisite: MATH 2574 and PHYS 2074. (Typically offered: Spring)

PHYS 3463. Electromagnetic Theory II. 3 Hours.
Basics of Electromagnetic Theory, focusing on dynamical aspects. Topics to be covered include: Time-varying electric and magnetic fields including propagation of electromagnetic plane waves in vacuum and in matter, reflection, refraction, and guided wave propagation, radiation from point charges and dipoles, and relativity and the relativistic formulation of electrodynamics. Prerequisite: PHYS 3453. (Typically offered: Fall)

PHYS 3544. Optics. 4 Hours.
Elements of geometrical, physical, and quantum optics. Lecture 3 hours, laboratory 2 hours. Corequisite: Lab component. Prerequisite: PHYS 2074 and MATH 2564. (Typically offered: Fall)

PHYS 3603. Introduction to Modern Physics. 3 Hours.
An introduction to the basic ideas of 20th century physics, with an emphasis on those that form the foundations of modern technology: quantum theory and its application to atomic, nuclear, optical and condensed matter physics. No credit is given toward a B.S. degree in physics. Prerequisite: PHYS 2033 and MATH 2043 or MATH 2554. (Typically offered: Fall)

PHYS 360VL. Modern Physics Laboratory. 1-3 Hour.
Experiments illustrating the development and concepts of modern physics. No credit given toward a B.S. major in physics. Prerequisite: PHYS 3603. (Typically offered: Fall)

PHYS 3613. Modern Physics. 3 Hours.
Introduction to special relativity, statistical physics, quantum physics, and a survey of molecules, solids, and statistical physics. Prerequisite: PHYS 2074. (Typically offered: Fall, Spring and Summer)

PHYS 361VL. Modern Physics Laboratory. 1-3 Hour.
Advanced experiments, projects, and techniques in atomic, nuclear, and solid state physics. Pre- or corequisite: PHYS 3613. (Typically offered: Fall) May be repeated for up to 3 hours of degree credit.

PHYS 3923H. Honors Colloquium. 3 Hours.
Covers a special topic or issue, offered as part of the honors program. No more than 3 hours may be offered toward fulfillment of the requirements for the B.S. or B.A. degree in Physics. Prerequisite: Honors candidacy (not restricted to candidacy in physics). (Typically offered: Spring) May be repeated for degree credit.

PHYS 399VH. Honors. 1-6 Hour.
Independent study for physics students enrolled in the honors program. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PHYS 400V. Laboratory and Classroom Practices in Physics. 1-3 Hour.
The pedagogy of curricular materials. Laboratory and demonstration techniques illustrating fundamental concepts acquired through participation in the classroom as an apprentice teacher. Prerequisite: PHYS 3113. (Typically offered: Fall, Spring and Summer)

PHYS 4073. Introduction to Quantum Mechanics. 3 Hours.
A survey of quantum mechanics from the wave mechanical point of view including the application of quantum mechanics to the simple harmonic oscillator, angular momentum, and the hydrogen atom. Required course for B.S. Physics majors. Prerequisite: PHYS 3613, MATH 2574, and MATH 2584. (Typically offered: Fall)

PHYS 4083. Advanced Quantum Mechanics. 3 Hours.
Advanced topics in introductory quantum mechanics including identical particles, approximation methods; time-independent perturbations theory, variational principle, time-dependent perturbations theory, and scattering. Prerequisite: PHYS 4073, MATH 2574, and MATH 2584. (Typically offered: Spring)
PHYS 4113. Physics in Perspective. 3 Hours.
Human implications of physics, including life's place in the universe, the methods of science, human sense perceptions, energy utilization, social impacts of technology, and the effect of physics on modern world views. Credit allowed for only one of PHYS 4113 or PHYS 4103. Prerequisite: PHYS 3613. (Typically offered: Irregular)

PHYS 4213. Physics of Devices. 3 Hours.
Principles of physics applied in a selection of technologically important devices in areas including computing, communications, medical imaging, lasers, and energy utilization. Students will utilize technical journals. Credit allowed for only one of PHYS 4203 or PHYS 4213. Prerequisite: PHYS 3613. (Typically offered: Irregular)

PHYS 4333. Thermal Physics. 3 Hours.
Equilibrium thermodynamics, statistical physics, and kinetic energy. Prerequisite: PHYS 3613. (Typically offered: Spring)

PHYS 4613. Introduction to Biophysics and Biophysical Techniques. 3 Hours.
Origins of biophysics, biological polymers and polymer physics, properties of DNA and proteins, techniques to study DNA and proteins, biological membrane and ion channels, biological energy, experimental techniques to study single DNA and proteins. Two experiments are included: (1) DNA Gel electrophoresis; (2) Measurement of double-stranded DNA melting point. Prerequisite: PHYS 3613 and PHYS 4333, or consent. (Typically offered: Spring)

PHYS 4653. Subatomic Physics. 3 Hours.
Nuclear structure and nuclear reactions. Nature and properties of elementary particles and resonances, their interactions and decays. Phenomenological theory and discussion of experimental evidence. Prerequisite: PHYS 3613. (Typically offered: Fall Odd Years)

PHYS 4713. Solid State Physics. 3 Hours.
Crystal structure, diffraction and symmetry. Lattice vibrations, elasticity and optical properties. Electronic structure, band theory, transport and magnetism. Course emphasizes applications and current topics in semiconductors, optics and magnetism. Pre- or Corequisite: PHYS 4073. (Typically offered: Spring Even Years)

PHYS 4734. Introduction to Laser Physics. 4 Hours.
A combined lecture/laboratory course covering the theory of laser operation, laser resonators, propagation of laser beams, specific lasers such as gas, solid state, semiconductor and chemical lasers, and laser applications. Prerequisite: PHYS 3544. (Typically offered: Spring)

PHYS 4773. Introduction to Optical Properties of Materials. 3 Hours.
A course covering crystal symmetry optical transmission and absorption, light scattering (Raman and Brillouin) optical constants, carrier mobility, and polarization effects in semi-conductors, quantum wells, insulators, and other optically important materials. Prerequisite: PHYS 3544. (Typically offered: Spring)

PHYS 4793L. Nanotechnology Laboratory. 3 Hours.
Provides students with hands-on experience in several major areas of nanotechnology, including nanoscale imaging, synthesis of nanomaterials, nanostructure assembly and manipulation, device and system integration, and performance evaluation. Students can earn credit for only one of the following courses: MEEG 4323L, BENG 4753L, BMEG 4103L, CHEM 4153L, PHYS 4793L. Corequisite: Drill component, junior standing and instructor consent. Prerequisite: MATH 2564, PHYS 2074, and CHEM 1123. (Typically offered: Fall)

PHYS 498V. Senior Thesis. 1-6 Hour.
Senior Thesis. (Typically offered: Fall, Spring and Summer)

PHYS 4991. Physics Senior Seminar. 1 Hour.
Student mastery of the principles of physics are assessed by means of a research paper, a presentation on the research topic, and a reflection essay over coursework completed as part of the physics degree. A quantitative assessment examination will also be administered. Satisfies the Fulbright College writing requirement. (Typically offered: Fall, Spring and Summer)

PHYS 500V. Laboratory and Classroom Practices in Physics. 1-3 Hour.
The pedagogy of curricular materials. Laboratory and demonstration techniques illustrating fundamental concepts acquired through participation in the classroom as an apprentice teacher. (Typically offered: Fall) May be repeated for up to 3 hours of degree credit.

PHYS 5011. Introduction to Current Physics Research Seminar. 1 Hour.
This seminar course introduces new Physics graduate students to the faculty of the Physics department and their current research efforts. In addition, the students will be introduced to scientific ethics, and learn communication skills. (Typically offered: Fall)

PHYS 502V. Individual Study in Advanced Physics. 1-4 Hour.
Guided study in current literature. (Typically offered: Fall and Spring) May be repeated for up to 4 hours of degree credit.

PHYS 5041. Journal Club Seminar. 1 Hour.
In this seminar, the students will present talks based on published research articles. The goal of the course is to develop oral communication skills in the students. Effective literature search techniques will also be covered. (Typically offered: Spring)

PHYS 5073. Mathematical Methods for Physics. 3 Hours.
This course merges the mathematics required in classical mechanics, electrostatics, magnetostatics, and quantum mechanics into a single course. The goal is to develop physics problem-solving skills, a strong mathematical foundation, and a more unified picture of physics. (Typically offered: Fall)

PHYS 5083. Mathematical Methods of Physics II. 3 Hours.
Applications of matrices, tensors, and linear vector spaces to problems in physics. Introduction to groups and their representations, and symmetry principles in modern physics. Prerequisite: PHYS 5073. (Typically offered: Irregular)

PHYS 5093. Applications of Group Theory to Physics. 3 Hours.
Application of group theory to topics in physics, especially to atomic/molecular and solid-state physics. Prerequisite: PHYS 5073. (Typically offered: Irregular)

PHYS 5103. Advanced Mechanics. 3 Hours.
Dynamics of particles and rigid bodies. Hamilton's equations and canonical variables. Canonical transformations. Small oscillations. Prerequisite: PHYS 5073. (Typically offered: Fall)

PHYS 5111. Research Techniques Through Laboratory Rotations. 1 Hour.
Graduate students will be introduced to detailed operational aspects of two Physics research laboratories through extensive observation of those laboratory's operations during a six week rotation through each lab. Planning for starting a research project in the summer will take place in the final three week rotation period. (Typically offered: Spring)

PHYS 5213. Statistical Mechanics. 3 Hours.
Classical and quantum mechanical statistical theories of matter and radiation. Prerequisite: PHYS 5413. (Typically offered: Spring)

PHYS 5263L. Experiment and Data Analysis. 3 Hours.
This course is devoted to learning some of the frequently used experimental techniques and methods by which experimental data are analyzed to extract quantitative information on physical parameters. Students will perform experiments, analyze data, and write lab reports. Prerequisite: Instructor consent. (Typically offered: Fall)
PHYS 5313. Advanced Electromagnetic Theory I. 3 Hours.
Electrostatics, boundary-value problems in electrostatics, electrodynamics in a medium, magnetostatics, and Faraday's Law. (Typically offered: Spring)

PHYS 5323. Advanced Electromagnetic Theory II. 3 Hours.
Maxwell equations, conservation laws, wave propagation, waveguides, radiating systems, scattering, special relativity, and radiation by moving charges. (Typically offered: Fall)

PHYS 5363. Scientific Computation and Numerical Methods. 3 Hours.
An introduction to numerical methods used in solving various problems in engineering and the sciences. May not earn credit for this course and MATH 4353 or MATH 4363. (Typically offered: Fall Even Years)

PHYS 5413. Quantum Mechanics I. 3 Hours.
Non-relativistic quantum mechanics; the Schrödinger equation; the Heisenberg matrix representation; operator formalism; transformation theory; spinors and Pauli theory; the Dirac equation; applications to atoms and molecules; collision theory; and semiclassical theory of radiation. (Typically offered: Fall)

PHYS 5423. Quantum Mechanics II. 3 Hours.
Continuation of PHYS 5413 Prerequisite: PHYS 5413. (Typically offered: Spring)

PHYS 5513. Atomic and Molecular Physics. 3 Hours.
Survey of atomic and molecular physics with emphasis on the electronic structure and spectroscopy of 1 and 2 electron atoms and diatomic molecules. Includes fine and hyperfine structure, Zeeman and Stark mixing of states, collision phenomena, radiative lifetimes, and experimental techniques. Prerequisite: PHYS 5413. (Typically offered: Fall)

PHYS 5613. Introduction to Biophysics and Biophysical Techniques. 3 Hours.
Origins of biophysics, biological polymers and polymer physics, properties of DNA and proteins, techniques to study DNA and proteins, biological membrane and ion channels, biological energy, experimental techniques to study single DNA and proteins. Two experiments are included: (1) DNA Gel electrophoresis; (2) Measurement of double-stranded DNA melting point. (Typically offered: Spring)

PHYS 5653. Subatomic Physics. 3 Hours.
Nuclear structure and nuclear reactions. Nature and properties of elementary particles and resonances, their interactions and decays. Phenomenological theory and discussion of experimental evidence. (Typically offered: Fall Odd Years)

PHYS 5713. Condensed Matter Physics I. 3 Hours.
The course covers the Drude theory and the Sommerfeld theory of metals, crystal lattices, reciprocal lattices, X-ray diffraction, Bloch's theory of electrons in periodic potential, formation of band gap, lattice vibration, and cohesive energy in solids. Prerequisite: PHYS 5413. (Typically offered: Fall)

PHYS 5723. Physics at the Nanoscale. 3 Hours.
This is a cross-disciplinary course that is focused on teaching nanoscience and engineering by studying surface science, the building and analysis of quantum-confined structures, and related nano manufacturing processes. Students will achieve an integrated knowledge of the concepts of surface science, quantum mechanics, nano processing and manipulation, and techniques of materials research. (Typically offered: Fall Odd Years)

PHYS 5734. Laser Physics. 4 Hours.
A combined lecture/laboratory course covering the theory of laser operation, laser resonators, propagation of laser beams, specific lasers such as gas, solid state, semiconductor and chemical lasers, and laser applications. (Typically offered: Spring Odd Years)

PHYS 5753. Applied Nonlinear Optics. 3 Hours.
Topics include: practical optical processes, such as electro-optic effects, acousto-optic effects, narrow-band optical filters, second harmonic generation, parametric amplification and oscillation, and other types of nonlinear optical spectroscopy techniques which are finding current practical applications in industry. (Typically offered: Fall)

PHYS 5763. Experimental Methods for Nanoscience. 3 Hours.
Fundamentals of the selected techniques suitable for characterization on the nanoscale. Focus on diverse methods such as x-ray and neutron spectroscopy, scanning probe microscopies, optical methods, electron diffraction methods and more. (Typically offered: Fall)

PHYS 5773. Introduction to Optical Properties of Materials. 3 Hours.
This course covers crystal symmetry optical transmission and absorption, light scattering (Raman and Brillouin) optical constants, carrier mobility, and polarization effects in semi-conductors, quantum wells, insulators, and other optically important materials. (Typically offered: Spring Even Years)

PHYS 5783. Physics of 2D Materials. 3 Hours.
Introduces the structures of all known layered materials, followed by mechanical, electronic, spin, optical, and topological properties of two-dimensional materials. Discussion of theoretical concepts and examination of experimental manifestations of those concepts are interwoven throughout the semester. Knowledge of solid state physics is required. Pre- or Corequisite: PHYS 5413. (Typically offered: Fall)

PHYS 588V. Selected Topics in Physics. 1-3 Hour.
Selected topics in experimental or theoretical physics at the advanced level. (Typically offered: Fall/Summer) May be repeated for up to 6 hours of degree credit.

PHYS 600V. Master of Science Thesis. 1-6 Hour.
Master of Science Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

PHYS 6513. Theoretical Biophysics. 3 Hours.
Introduction to biology as a complex system, networks and information theory, negative and positive feedback systems, gene regulation, noise, and noise propagation, cell signaling pathways, intercellular interactions, and emergence of cooperativity in biological systems. Prerequisite: PHYS 5613. (Typically offered: Fall)

PHYS 6613. Quantum Optics. 3 Hours.
Properties of light and its interaction with atoms, particular attention given to the laser and recent experiments. Classical theory of resonance; Optical Bloch Eqs.; 2 level atoms in steady fields; pulse propagation; semiclassical theory of the laser, coherent states and coherent functions; gas, solid, and dye lasers; photon echoes and superradiance; quantum electrodynamics and spontaneous emission. Prerequisite: PHYS 5413 or equivalent. (Typically offered: Fall)

PHYS 6713. Condensed Matter Physics II. 3 Hours.
The course covers surface physics, physics of homogeneous and inhomogeneous semiconductors, dielectric and ferroelectric physics, defects in crystals, spin interaction and magnetic properties, superconductivity, and band structure calculation. Prerequisite: PHYS 5713 and PHYS 5413. (Typically offered: Fall)

PHYS 688V. Physics of the Quantum World. 1-3 Hour.
Selected topics in quantum physics at the advanced level. (Typically offered: Fall/Spring) May be repeated for up to 6 hours of degree credit.

PHYS 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.
Plant Pathology (PLPA)

Courses

PLPA 3001L. Principles of Plant Pathology Laboratory. 1 Hour.
Lab course in examination of the causes and symptoms of plant disease and the genetics of plant disease. Physiology, and ecology of host-pathogen interactions. Spread of disease and principles of disease control. Pre- or Corequisite: PLPA 3003 or BIOL 3003. (Typically offered: Fall)
This course is cross-listed with BIOL 3001L.

PLPA 3003. Principles of Plant Pathology. 3 Hours.
Examination of the causes and symptoms of plant disease and the genetics of plant disease. Physiology, and ecology of host-pathogen interactions. Spread of disease and principles of disease control. (Typically offered: Fall)
This course is cross-listed with BIOL 3003.

PLPA 400V. Research. 1-6 Hour.
Original investigations of assigned problems in plant pathology. Prerequisite: PLPA 3004. (Typically offered: Fall, Spring and Summer)

PLPA 4123. Bacterial Lifestyles. 3 Hours.
The course will introduce students to bacteria as prokaryotic organisms, different from eukaryotes such as plants and animals. Model microbial systems will be studied in more detail to identify unique strategies that bacteria employ to thrive in their respective environment, whether they are causing diseases or establishing beneficial interactions with animal or plants or coexisting with other microorganisms in diverse ecological environments. The course will also cover special adaptations that bacteria have evolved to adapt to harsh environments and how these adaptations can be harnessed to control pollution. Prerequisite: (BIOL 2013 and BIOL 2011L) or BIOL 3123. (Typically offered: Spring Odd Years)
This course is cross-listed with BIOL 4223.

PLPA 4223. Plant Disease Control. 3 Hours.
Principles, methods and mechanics of plant disease control. Emphasis is given to the integration of control measures and epidemiology of plant diseases. Lecture 3 hours per week, Prerequisite: PLPA 3003. (Typically offered: Fall)
This course is cross-listed with BIOL 4133.

PLPA 4304. Applied Plant Disease Management. 4 Hours.
A plant pathology course emphasizing practical understanding of the concepts and principles of agronomic and horticultural crop disease management, including disease diagnosis, monitoring, and using models to forecast disease events. Prerequisite: PLPA 3003 or instructor consent. (Typically offered: Irregular)

PLPA 4333. Biotechnology in Agriculture. 3 Hours.
Discussion of the techniques, applications, and issues of biotechnology as it is being used in modern agriculture. Coverage includes the basics of molecular biology, production of transgenic plants and animals, and new applications in the agricultural, food, and medical marketplace. Lecture and discussion, 3 hours per week. (Typically offered: Fall)
This course is cross-listed with BIOL 4333.

PLPA 462V. Internship. 1-6 Hour.
Supervised practical work experience in pest management to develop and demonstrate professional competence. A maximum of 6 hours credit per semester or summer session is permitted. Faculty approval of projects proposal prior to enrollment, and written or oral reports are required. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

PLPA 5001L. Seminar. 1 Hour.
Review of scientific literature and oral reports on current research in plant pathology. Prerequisite: Graduate standing. (Typically offered: Fall and Spring) May be repeated for up to 4 hours of degree credit.

PLPA 502V. Special Problems Research. 1-6 Hour.
Original investigations of assigned problems in plant pathology. Prerequisite: Graduate standing, (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PLPA 504V. Special Topics. 1-18 Hour.
Lecture topics of current interest not covered in other courses in plant pathology or other related areas. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 18 hours of degree credit.

PLPA 5223. Plant Disease Control. 3 Hours.
(Formerly PLPA 4223.) Principles, methods and mechanics of plant disease control. Emphasis is given to the integration of control measures and epidemiology of plant diseases. Lecture 3 hours per week. Graduate degree credit will not be given for both PLPA 4223 and PLPA 5223. (Typically offered: Fall)

PLPA 5303. Advanced Plant Pathology: Host-Pathogen Interactions. 3 Hours.
Presentation of important contemporary concepts relative to disease resistance and the physiology, biochemistry, and molecular biology of plant-pathogen interactions. Lecture 3 hours per week. Prerequisite: PLPA 3003 or equivalent and graduate standing. (Typically offered: Spring Odd Years)

PLPA 5313. Advanced Plant Pathology: Ecology and Epidemiology. 3 Hours.
Presentation of important contemporary concepts relative to the ecology and epidemiology of foliar and soil-borne plant pathogens. Lecture 3 hours per week. Prerequisite: PLPA 3003 and graduate standing. (Typically offered: Spring Even Years)

PLPA 5324. Applied Plant Disease Management. 4 Hours.
(Formerly PLPA 4304.) A plant pathology course emphasizing practical understanding of the concepts and principles of agronomic and horticultural crop disease management, including disease diagnosis, monitoring, and using models to forecast disease events. Graduate degree credit will not be given for both PLPA 4304 and PLPA 5324. (Typically offered: Fall)

PLPA 5333. Biotechnology in Agriculture. 3 Hours.
(Formerly PLPA 4333.) Discussion of the techniques, applications, and issues of biotechnology as it is being used in modern agriculture. Coverage includes the basics of molecular biology, production of transgenic plants and animals, and new applications in the agricultural, food, and medical marketplace. Lecture and discussion, 3 hours per week. Graduate degree credit will not be given for both PLPA 4333 and PLPA 5333. (Typically offered: Fall)

PLPA 5404. Diseases of Economic Crops. 4 Hours.
Diagnosis and management of important diseases of cotton, fruits, rice, trees, soybeans, wheat, and vegetables will be covered in a lecture, laboratory, and field format. Lecture 2 hours, laboratory 4 hours per week. Four 1-day field trips will be involved. Corequisite: Lab component. Prerequisite: PLPA 3003. (Typically offered: Summer)
PLPA 5603. Plant Pathogenic Fungi. 3 Hours.
Plant Pathogenic Fungi is structured as an integrated lecture/laboratory class designed for students that are interested in developing an understanding and appreciation for taxonomy, biology, and ecology of plant pathogenic fungi and related saprophytic fungi. Corequisite: Lab component. Prerequisite: PLPA 3003 or BIOL 4424 or graduate standing. (Typically offered: Fall Odd Years)

PLPA 600V. Master's Thesis. 1-6 Hour.
Master's Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

PLPA 6203. Plant Virology. 3 Hours.
Lecture emphasizing discussion of recent advances in plant virology. Laboratory concerned with techniques and equipment used in plant virus studies, including transmission of viruses, characterization utilizing ultracentrifugation, spectrophotometry, electrophoresis, electron microscopy, and serology. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: CHEM 5813 or CHEM 5843 or CHEM 6873 or consent of instructor. (Typically offered: Fall Even Years)

PLPA 6503. Plant Bacteriology. 3 Hours.
Current concepts and techniques in plant bacteriology, including taxonomic, ecological and molecular aspects of plant pathogenic bacteria and their interactions with hosts. Lecture 2 hours, laboratory 2 hours per weeks. Corequisite: Lab component. Prerequisite: BIOL 2013 and BIOL 2011L. (Typically offered: Spring Odd Years) May be repeated for up to 3 hours of degree credit.

Plant Sciences (PTSC) Courses
PTSC 6101. Colloquium in Plant Sciences. 1 Hour.
Advanced discussion of topics in plant science on a participatory basis. Topics in plant pathology, horticulture and forestry will be treated. Prerequisite: Graduate standing. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

PTSC 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Political Science (PLSC) Courses
PLSC 1003. Perspectives in Political Science. 3 Hours.
This course takes a topical approach to introducing first-year Political Science students to the academic skills essential to success in college and the methods of the political science discipline. The course emphasizes the transition to the UA and university-level work by addressing topics such as the advising process and civic engagement. Prerequisite: Freshmen Political Science majors only. (Typically offered: Fall and Spring)

PLSC 1003H. Honors Perspectives in Political Science. 3 Hours.
This course takes a topical approach to introducing first-year students to the academic skills essential to success in college and the methods of the political science discipline. The course emphasizes the transition to the UA and university-level work by addressing topics such as the advising process and civic engagement. Prerequisite: Honors standing. (Typically offered: Fall and Spring) This course is equivalent to PLSC 1003.

Survey of the history, basic ideas, structure, and political processes of the national government of the United States, including the fundamental relationships of the federal system. Required of all political science majors. (Typically offered: Fall, Spring and Summer)

PLSC 2013. Introduction to Comparative Politics. 3 Hours.
An introductory survey of comparative political systems. (Typically offered: Fall, Spring and Summer)

PLSC 2203. State and Local Government (ACTS Equivalency = PLSC 2103). 3 Hours.
Organization and functions of state and local governments in the United States, intergovernmental relations, administration, adjudication, and the organization and function of political parties on state and local levels. (Typically offered: Fall Even Years; Summer)

PLSC 2813. Introduction to International Relations and Global Studies. 3 Hours.
An interdisciplinary survey of the state system, the role of non-state actors, and the processes and outcomes of globalization. Topics include theories of international conflict and peace, international norms and ethics, international law and organizations, global cultural interactions, and contemporary transnational challenges. (Typically offered: Fall and Spring) This course is cross-listed with INST 2813.

PLSC 2813H. Honors Introduction to International Relations and Global Studies. 3 Hours.
An interdisciplinary survey of the state system, the role of non-state actors, and the processes and outcomes of globalization. Topics include theories of international conflict and peace, international norms and ethics, international law and organizations, global cultural interactions, and contemporary transnational challenges. Prerequisite: Honors standing. (Typically offered: Fall and Spring)

PLSC 300V. Internship in Public Affairs. 1-3 Hour.
Work experience in a public agency arranged by the student under the guidance of a faculty member. Paper required. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PLSC 3103. Public Administration. 3 Hours.
Trends and organization of public administration, dynamics of management; fiscal and personnel management; administrative powers and responsibility. Prerequisite: PLSC 2003. (Typically offered: Spring)

PLSC 3203. Introduction to Legal Studies. 3 Hours.
An examination of the legal profession, legal writing, and the substantive areas of law in the U.S. Prerequisite: PLSC 2003. (Typically offered: Fall and Spring)

PLSC 3213. The South and the Law: Race, Gender, and Citizenship. 3 Hours.
Examines the experience of racial and ethnic minorities, as well as women, in the post-Civil War South. Explores legal ramifications and tracks cultural and political legacies of landmark cases and/or legislative acts. (Typically offered: Fall)

PLSC 3223. Arkansas Politics and the Nation. 3 Hours.
An examination of Arkansas Politics including the political process, public policies, social problems, political behavior, governmental structure, and contemporary issues with an emphasis on the historical, regional, and national context. Prerequisite: PLSC 2003. (Typically offered: Spring)

PLSC 3233. The Judicial Process. 3 Hours.
The structure and operation of the state and national court systems. Emphasis is upon the role of the judiciary in the American political system and the political aspects and consequences of judicial decision-making. Prerequisite: PLSC 2003. (Typically offered: Fall)
PLSC 3253. Urban Politics. 3 Hours.
Analysis of comparative urban systems, including political process, public policy, social problems, governmental structure, and voter behavior. Prerequisite: PLSC 2003. (Typically offered: Spring)

PLSC 3263. Latino Politics. 3 Hours.
An overview of Latino political behavior that analyzes the social, economic, and political issues impacting the Latino/Hispanic community in the United States. The course focuses on understanding relationships of power and interaction within the institutional contexts that shape diverse Latino experiences. (Typically offered: Fall)

PLSC 3293. African American Politics. 3 Hours.
This is a survey course designed to provide students with a comprehensive overview of African American political participation in the United States. In addition to analyzing important events in African American Politics, the course attempts to explain evolving patterns of political participation in Black America. Prerequisite: PLSC 2003. (Typically offered: Fall)

This course is cross-listed with AAST 3293.

PLSC 3303. American Political Development. 3 Hours.
Examines the evolution of the American State and corresponding governmental and political institutions. Topics include models of political change and evolution, American political culture(s), governing institutional structures at the national level, the evolution of federalism, political linkage structures, and public policy. Prerequisite: PLSC 2003. (Typically offered: Irregular)

PLSC 3393. Civil Rights Policy and Politics. 3 Hours.
This course will draw from linkages between the protest phase of the civil rights and American political institutions. The course explores the institutional impact of the civil rights movement on the presidency, congress, the courts, administrative regulatory agencies, and civil rights advisory organizations. Prerequisite: PLSC 3293. (Typically offered: Spring)

This course is cross-listed with AAST 3393.

PLSC 3503. Governments and Politics of East Asia. 3 Hours.
Comparative analysis of structures, processes, and problems of the political systems of the Democratic Republic of Vietnam, Japan, and the Peoples Republic of China. Prerequisite: PLSC 2013. (Typically offered: Fall)

This course is cross-listed with AIST 3503.

PLSC 3523. Politics of the Middle East. 3 Hours.
Survey of the unity and diversity in the political development of the Middle East, as evident in historical legacies, state formation, civil society, social class, and political identity. (Typically offered: Fall)

PLSC 3543. Introduction to Citizenship Studies. 3 Hours.
Introduction to the field of citizenship studies with a focus on theoretical and empirical illustrations. Covers citizenship in the Middle East, Latin America, and contemporary Africa. Theoretically grounded in comparative politics, students should develop understanding of the complex debates and real-time challenges which shape this sub-field of political science. (Typically offered: Spring)

PLSC 3553. Western European Politics. 3 Hours.
Comparative analysis of Western European parliamentary systems with special attention to political traditions, constitutional arrangements, socio-economic structure, and the political and legislative processes in countries such as Britain, France, and Germany. Prerequisite: PLSC 2003 or PLSC 2013. (Typically offered: Irregular)

PLSC 3573. Governments and Politics of Latin America. 3 Hours.
Comparative survey of Latin America political forces and institutions with special attention to patterns and problems of political change and development in that area. Prerequisite: PLSC 2013. (Typically offered: Irregular)

PLSC 3593. Politics of Mexico. 3 Hours.
A comparative survey of contemporary Mexican politics emphasizing Mexico's historical-institutional trajectory in relation to the US, North American relations, and the experiences of Mexicans in Greater (Gran) Mexico. Prerequisite: PLSC 2013. (Typically offered: Spring)

PLSC 3603. Scope and Methods of Political Science. 3 Hours.
The basic principles and assumptions of political inquiry (methodology) and research techniques for gathering and analyzing data about political phenomena. Prerequisite: PLSC 2003. (Typically offered: Fall, Spring and Summer)

PLSC 3683. International Conflict and National Security Policy. 3 Hours.
This course examines international conflict and national security policy. The first part of the course analyzes the causes and consequences of international conflict and mechanisms for conflict resolution. The second part examines the formulation and implementation of national security in comparative perspective and U.S. national security policy. Prerequisite: PLSC 2813. (Typically offered: Fall Even Years)

PLSC 3803. International Organization. 3 Hours.
This course is about how state and non-state actors try to organize the international system to help manage crucial issues such as the development and use of force, the efficiency and fairness of markets, and the realization and protection of human rights and environmental health (Typically offered: Spring)

PLSC 3813. International Law. 3 Hours.
Analysis of the traditional principles of public international law including the law of war, the law of sea and air, and the legal nature of statehood; and analysis of selected principles of private international law relevant to such topics as the multinational corporation, international arbitration, commerce with Communist states, and the expropriation of foreign property. Prerequisite: Junior standing. (Typically offered: Fall)

PLSC 3823. Theories of International Relations. 3 Hours.
Analysis of major intellectual traditions in the field of international relations, including realism, liberalism, and social constructivism. Emphasis will be placed on how they help us to understand war, revolution, global capitalism, nationalism, peace, and other significant international phenomena. Prerequisite: PLSC 2003 and PLSC 2013. (Typically offered: Spring)

PLSC 3835. American Foreign Policy. 3 Hours.
The structure and process for making and implementing the foreign policy of the United States, and an evaluation of current policies in the contemporary international milieu. Prerequisite: PLSC 2003 or PLSC 2013. (Typically offered: Fall)

PLSC 390V. Special Topics. 1-3 Hour.
Special topics in political science. (Typically offered: Fall and Summer) May be repeated for degree credit.

PLSC 3923H. Honors Colloquium. 3 Hours.
Covers a special topic or issue, offered as part of the honors program. Prerequisite: Honors candidacy in political science. (Typically offered: Irregular) May be repeated for degree credit.

PLSC 394V. Readings in Political Science. 1-3 Hour.
For advanced students who wish to study some field of political science beyond the course offering available in that field. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PLSC 3983. Politics in Literature. 3 Hours.
Analysis of political theories and issues through extensive reading and discussion of selected works of literature. Prerequisite: PLSC 2003 or PLSC 2013. (Typically offered: Spring)

PLSC 399VH. Honors Course. 1-3 Hour.
Honors thesis research and writing under the direction of a faculty member in the department. Prerequisite: Junior standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.
PLSC 400V. Special Topics. 1-3 Hours.
Topics in political science not usually covered in other courses. (Typically offered: Irregular) May be repeated for degree credit.

PLSC 4093. Politics and Policy on Film. 3 Hours.
An examination of the ways in which politics, government, policymakers, and public policy issues are portrayed on film. Selections vary, but may include historic and contemporary works, independent films and blockbusters, fictional works, biopics, and documentaries. Heavy emphasis on independent research and informed discussion, focused on the context in which the works were made and the ways they were received by audiences. (Typically offered: Irregular)

PLSC 4103. Introduction to Urban Planning. 3 Hours.
Reviews the many forms, functions, and purposes of American cities. Covers basic planning theories, surveys the various sub-fields of planning, discusses trends in the planning field, and utilizes computer simulations. (Typically offered: Fall)

PLSC 4143. U.S. Environmental Politics and Policy. 3 Hours.
Surveys recent patterns of environmentalism in the U.S. and explores the nature of policy making with regard to environmental and economic development issues. Topics may include conservation vs. preservation, multiple use vs. sustainability, intergovernmental policy implementation, incentives, and free market environmentalism. Prerequisite: PLSC 2003. (Typically offered: Spring and Summer)

PLSC 4153. Public Policy. 3 Hours.
A study of public policy formulation, implementation, and evaluation at various levels of government. Prerequisite: PLSC 2003. (Typically offered: Fall)

PLSC 4173. Community Development. 3 Hours.
Encompasses the political, economic, and social issues that shape contemporary communities. This class examines substantive issues in community development, related theories and techniques. A major focus of the course will be on low-income and minority neighborhoods and efforts to create more inclusive communities in the United States and abroad. Prerequisite: Junior standing. (Typically offered: Fall)

PLSC 4193. Administrative Law. 3 Hours.
Legal aspects of the administrative process and the effect of legal principles and processes upon administrative decision-making. Emphasis is given to the limitation of administrative discretion and the judicial review of administrative decisions. Prerequisite: PLSC 2003. (Typically offered: Spring)

PLSC 4203. American Political Parties. 3 Hours.
The nature, function, and history of political parties in the United States with emphasis on party membership, organization, campaign techniques, finance and electoral alliances. Prerequisite: PLSC 2003. (Typically offered: Irregular)

PLSC 4213. Campaigns and Elections. 3 Hours.
This course examines the American electoral process. It is an empirical course that provides opportunities for original analysis of survey data and election returns. Emphasis is placed on the most recent federal election. Prerequisite: PLSC 2003 (Typically offered: Irregular)

PLSC 4233. The American Chief Executive. 3 Hours.
Offices and roles of the President and state governors of the United States focusing on the evolution of the offices in terms of responsibilities and political leadership. Prerequisite: PLSC 2003. (Typically offered: Spring)

PLSC 4243. Minority Politics. 3 Hours.
Reviews political action and concepts of political activity by minority groups, focusing on contemporary political behavior. Prerequisite: PLSC 2003. (Typically offered: Spring)

PLSC 4253. The U.S. Constitution I. 3 Hours.
United States Supreme Court decisions involving the functions and powers of Congress, the Supreme Court, and the President and federalism. Prerequisite: PLSC 2003. (Typically offered: Spring)

PLSC 4263. The U.S. Constitution II. 3 Hours.
United States Supreme Court decisions interpreting the political, economic, and civil rights of individuals and groups. Prerequisite: PLSC 2003. (Typically offered: Irregular)

PLSC 4273. Political Psychology. 3 Hours.
Examines role of the individual in the polity including basic psychological constructs of relevance to political action, the formulation and maintenance of stable political orientations, the patterns linking the individual to the polity, and major modes of inquiry. Prerequisite: PLSC 2003. (Typically offered: Irregular)

PLSC 4283. Federalism and Intergovernmental Relations. 3 Hours.
Analysis of changes in intergovernmental relations in the American federal system. Discussions will focus on political, economic/fiscal and administrative aspects of policy changes of the pre-and post-Reagan eras. (Typically offered: Spring Even Years)

PLSC 4303. History of Political Parties in the U.S. 1789-1896. 3 Hours.
Origin and development of the American party system from the implementation of the Constitution to the election of McKinley. (Typically offered: Fall Even Years)
This course is cross-listed with HIST 4503.

PLSC 4313. History of Political Parties in the United States Since 1896. 3 Hours.
Response of the party system to America's emergence as an industrial nation and world power from the election of 1896 to present. (Typically offered: Spring Odd Years)
This course is cross-listed with HIST 4513.

PLSC 4323. Racial Identity, Politics, and Public Policy. 3 Hours.
Examines how race and perceived racial differences affect political discourse, mobilization, representation, and political outcomes. Prerequisite: PLSC 3293 or AAST 1003 or Junior standing. (Typically offered: Spring Even Years)
This course is cross-listed with AAST 4323.

PLSC 4333. Southern Politics. 3 Hours.
Evaluates the significance of the southern region within the national political scene, as well as discusses the unique political history and workings of the region. Explores the various groups within the region that continue to fight for political influence and power. (Typically offered: Spring)

PLSC 4343. Money and Politics. 3 Hours.
Familiarizes students with the world of money and politics in the United States. Examines the function of money in elections, the legal aspects, and the consequences of the regulatory environment. Provides a means to gain analytic computer skills and a strong foundation for further study of political science. (Typically offered: Fall)

PLSC 4373. Political Communication. 3 Hours.
Study of the nature and function of the communication process as it operates in the political environment. (Typically offered: Spring Even Years)
This course is cross-listed with COMM 4373.

PLSC 4513. Creating Democracies. 3 Hours.
Analyses of the creation of democracies in Europe, South America, Asia, Africa, the Middle East, East Europe, and the former Soviet Union. Prerequisite: PLSC 2013. (Typically offered: Fall Even Years)

PLSC 4523. Introduction to Gender and Politics in the Middle East. 3 Hours.
Introduces the complexities of women's political lives in the Middle East by studying gender roles, relations and how identities are constructed during different political moments. (Typically offered: Fall)
PLSC 4533. China’s Foreign Trade and International Order: History, Policy, and Theory. 3 Hours.
This interdisciplinary course explores China’s foreign trade and international order by introducing students to the historical context and economic theory necessary for understanding China’s role in the international trading system from the ancient past to the contemporary era. (Typically offered: Irregular)
This course is cross-listed with ECON 4533.

PLSC 4563. Government and Politics of Russia. 3 Hours.
Study of Russian and Soviet politics after 1917 and of the democratization of Russia and the other successor states. Prerequisite: PLSC 2003 or PLSC 2013. (Typically offered: Spring Even Years)

PLSC 4573. Gender and Politics. 3 Hours.
Examines the significance of gender in politics. Includes discussion of the women’s movement and feminist theory, but emphasizes the content and process of public policy as it relates to women and men. Focus is on the U.S. but final third is devoted to comparative topics. Prerequisite: PLSC 2003 or PLSC 2013. (Typically offered: Irregular)

PLSC 4583. Political Economy of East Asia. 3 Hours.
Development strategies and policies of major economies in East Asia. Topics include theories for East Asia’s economic growth, dynamics and process of East Asian political and economic developments, strengths and limits of the East Asian development model. Asian values and their implications for Asian-style democracy, and dynamics of regional cooperation. (Typically offered: Spring)

PLSC 4593. Islam and Politics. 3 Hours.
Compares contemporary Islamist political movements. Seeks to explain causes, debates, agendas, and strategies of Islamists in the political realm. Addresses sovereignty, the rule of law, visions of the good state and society, and relations between nationalism, religion and political development. Focus on Middle East with comparative reference to other cases. (Typically offered: Spring)

PLSC 4613. Social Network Analysis. 3 Hours.
Introduces the fundamentals of Social Network Analysis (SNA), and its applications for research in various social science fields. Prerequisite: SOCI 2013. (Typically offered: Fall)
This course is cross-listed with SOCI 4183.

PLSC 4633. Citizenship in the Middle East. 3 Hours.
Explores citizenship in the Middle East and North Africa (MENA) with a focus on theoretical and empirical illustrations. Theoretically grounded in comparative politics, and empirically engaged with case studies on citizenship formation, students will develop an understanding of the complex debates and challenges which shape this sub-field of political science. (Typically offered: Fall Odd Years)

PLSC 4793. Latino/Hispanic Political Thought. 3 Hours.
A survey course designed to examine the development of Latino/Hispanic political thought from Iberian and Latin American political culture and philosophy to contemporary US political ideology/thought. (Typically offered: Spring)

PLSC 4793H. Honors Latino/Hispanic Political Thought. 3 Hours.
A survey course designed to examine the development of Latino/Hispanic political thought from Iberian and Latin American political culture and philosophy to contemporary US political ideology/thought. Prerequisite: Honors standing. (Typically offered: Spring)
This course is equivalent to PLSC 4793.

PLSC 4803. Foreign Policy Analysis. 3 Hours.
Comparative analysis of foreign policy, with attention paid to explanations at a variety of levels, such as the individual, group, organizational, societal, systemic. (Typically offered: Irregular)

PLSC 4813. Chinese Foreign Policy. 3 Hours.
Provides an introduction to Chinese foreign policy. Key topics covered include the historical, domestic, and international contexts of Chinese foreign policy, China’s relations with key partner countries, security strategies, foreign economic relations, and evolving role in global governance. (Typically offered: Fall)

PLSC 4823. Foreign Policy of East Asia. 3 Hours.
This course provides an introduction to the international relations of two major East Asian states, China and Japan. Key topics include: China and Japan’s interaction with the world political and economic systems; domestic sources of international behavior and major dimensions of foreign policy in the 1980s and 1990s. (Typically offered: Spring)
This course is cross-listed with AIST 4823.

PLSC 4833. International Political Economy. 3 Hours.
This course provides an analysis of the interaction between politics and markets in the world economy. Its central objective is to illustrate how political and state actions have shaped and been shaped by the development of the global economy. (Typically offered: Fall)

PLSC 4843. The Middle East in World Affairs. 3 Hours.
An analysis of geo-political and socio-economic characteristics of Middle Eastern societies and their impact on world economic and political order. Special attention to such issues as the Arab-Israeli conflict, the promotion of lasting peace in the region, impact of oil on world politics, the involvement of superpowers, rehabilitation of Palestinian refugees and the role of the United Nations. (Typically offered: Spring)

PLSC 4853. International Norms and Corporate Social Responsibility. 3 Hours.
This course focuses on the interplay between international social expectations and business strategy. How norms prevail and why norms emerge will be observed from a business vantage point. Pre- or corequisite: PLSC 2003 or PLSC 2013. (Typically offered: Spring)

PLSC 4863. Political Psychology and International Relations. 3 Hours.
Examines psychological approaches to international relations and examines how these perspectives advance the study of world politics. (Typically offered: Irregular)

PLSC 4873. Inter-American Politics. 3 Hours.
An analysis of the political themes, regional organization, and hemispheric relations that constitute the inter-American system, with special emphasis on conflict and cooperation in the hemispheric policies of the American republics. Prerequisite: Junior standing. (Typically offered: Irregular)

PLSC 4883. Politics of International Law. 3 Hours.
This course examines the interaction between law and politics in the international system, focusing on international law. (Typically offered: Irregular)

PLSC 4893. International Negotiation and Mediation. 3 Hours.
This course examines international negotiations and mediation. International negotiation refers to the processes and methods by which state and non-state actors reach agreements through persuasion and similar non-violent means. This course analyzes the processes, methods, and mechanisms, and challenges of international negotiations and the growing use of mediation. (Typically offered: Irregular)
This course is cross-listed with INST 4893.

PLSC 4913. International Studies Seminar. 3 Hours.
Intensive study of key global issues and aspects of international affairs, culminating in a research project that meets the Fulbright College writing requirement. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit. This course is cross-listed with INST 4003.

PLSC 4913H. Honors International Studies Seminar. 3 Hours.
Intensive study of key global issues and aspects of international affairs, culminating in a research project that meets the Fulbright College writing requirement. Prerequisite: Honors standing. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit. This course is cross-listed with INST 4003, PLSC 4913.
PLSC 4933. African American Political Ideology. 3 Hours.
A survey course designed to identify and examine characteristics and functions of various variants of black political ideology/thought. (Typically offered: Spring Odd Years)
This course is cross-listed with AAST 4933.

PLSC 498V. Senior Thesis. 1-6 Hour.
Senior Thesis. (Typically offered: Fall, Spring and Summer)

PLSC 499VH. Honors Essay. 1-6 Hour.
To be used for completing a Political Science Honors Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PLSC 500V. Special Topics. 1-3 Hour.
(Formerly PLSC 400V.) Topics in political science not usually covered in other courses. Graduate degree credit will not be given for both PLSC 400V and PLSC 500V. (Typically offered: Irregular) May be repeated for degree credit.

PLSC 5043. The U.S. Constitution I. 3 Hours.
(Formerly PLSC 4253.) United States Supreme Court decisions involving the functions and powers of Congress, the Supreme Court, and the President and federalism. Graduate degree credit will not be given for both PLSC 4253 and PLSC 5043. Prerequisite: PLSC 2003. (Typically offered: Spring)

PLSC 5053. Creating Democracies. 3 Hours.
(Formerly PLSC 4513.) Analyses of the creation of democracies in Europe, South America, Asia, Africa, the Middle East, East Europe, and the former Soviet Union. Graduate degree credit will not be given for both PLSC 4513 and PLSC 5053. Prerequisite: PLSC 2013. (Typically offered: Fall Even Years)

PLSC 5083. The Middle East in World Affairs. 3 Hours.
An analysis of geo-political and socio-economic characteristics of Middle Eastern societies and their impact on world economic and political order. Special attention to such issues as the Arab-Israeli conflict, the promotion of lasting peace in the region, impact of oil on world politics, the involvement of superpowers, rehabilitation of Palestinian refugees and the role of the United Nations. (Typically offered: Spring)

PLSC 5103. Human Behavior in Complex Organizations. 3 Hours.
Review of the fundamental literature and a systematic analysis of various theories and research focusing on organization and behavior in public administration, including the discussion of organizational development, human motivation, leadership, rationality, efficiency and conflict management in public organizations. Prerequisite: Graduate standing. (Typically offered: Spring Odd Years; Summer)

PLSC 5113. Seminar in Human Resource Management. 3 Hours.
Intensive study of public personnel policies and practices, including legal foundations, classification and compensation plans, recruitment and selection processes, training, employment policies and morale, employee relations and organization. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 5123. Public Budgeting and Finance. 3 Hours.
Focuses on the budgeting process and governmental fiscal policy formulation, adoption, and execution. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 5133. Nonprofit Management. 3 Hours.
This course provides an overview of the principal management functions in public and nonprofit organizations. Topics include financial management, HR development, program development. The relationships among volunteer boards of trustees, fund raising, public relations, and program personnel are analyzed, and the complex environments with service sector agencies are explored. (Typically offered: Fall)

PLSC 5143. Administrative Law. 3 Hours.
A seminar which examines the constitutional and statutory basis and authority of public organizations. Special attention focuses on the nature of the rule-making and adjudicatory powers of public agencies and on executive, legislative, and judicial restraints on such activities. Also considered are the role, scope, and place of public regulatory activities. Prerequisite: Graduate standing. (Typically offered: Spring)

PLSC 5163. Public Policy. 3 Hours.
Seminar examining the study of public policy making in complex organizations. Attention given to different theories and frameworks explaining public policy making. Prerequisite: Graduate standing. (Typically offered: Spring)

PLSC 5173. Community Development. 3 Hours.
Community development encompasses the political, social, and economic issues that shape contemporary communities. The seminar examines substantive issues in community development, related theories, and techniques. A major focus of the course will be on low-income and minority neighborhoods and efforts to create more inclusive communities in the U.S. and abroad. (Typically offered: Fall)

PLSC 5193. Seminar in Public Administration. 3 Hours.
Study of the principal management functions in public Administration. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 5213. Seminar in American Political Behavior. 3 Hours.
Study of the principal management functions in public Administration. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 5233. The American Chief Executive. 3 Hours.
Study of the principal management functions in public Administration. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 5253. Politics of Race and Ethnicity. 3 Hours.
Study of the principal management functions in public Administration. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 5263. Federalism and Intergovernmental Relations. 3 Hours.
Study of the principal management functions in public Administration. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 5373. Political Communication. 3 Hours.
Examines the function of money in elections, the legal aspects, and the consequences of the regulatory environment. Provides a means to gain analytic computer skills and a strong foundation for further study of political science. (Typically offered: Fall)

PLSC 5383. Seminar in Political Communication. 3 Hours.
Examines the function of money in elections, the legal aspects, and the consequences of the regulatory environment. Provides a means to gain analytic computer skills and a strong foundation for further study of political science. (Typically offered: Fall)
This course is cross-listed with COMM 5383.
PLSC 5503. Comparative Political Analysis. 3 Hours.
A selection of topics to provide the theoretical, conceptual and methodological and foundation for the analysis of contemporary political systems. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 5513. Seminar in Politics of the Middle East. 3 Hours.
Explores the major lines of inquiry on the politics of the state and society in the context of endogenous and exogenous forces that have influenced conceptions of power, legitimacy, and identity. Prerequisite: Graduate standing. (Typically offered: Irregular)

PLSC 5563. Government and Politics of Russia. 3 Hours.
(Formerly PLSC 4563.) Study of Russian and Soviet politics after 1917 and of the democratization of Russia and the other successor states. Graduate degree credit will not be given for both PLSC 4563 and PLSC 5563. Prerequisite: PLSC 2003 or PLSC 2013. (Typically offered: Spring Even Years)

PLSC 5583. Political Economy of East Asia. 3 Hours.
(Formerly PLSC 4583.) Development strategies and policies of major economies in East Asia. Topics include theories for East Asia’s economic growth, dynamics and process of East Asian political and economic developments, strengths and limits of the East Asian development model, Asian values and their implications for Asian-style democracy, and dynamics of regional cooperation. Graduate degree credit will not be given for both PLSC 4583 and PLSC 5583. (Typically offered: Spring)

PLSC 5593. Islam and Politics. 3 Hours.
Compares contemporary Islamist political movements. Seeks to explain causes, debates, agendas, and strategies of Islamists in the political realm. Addresses sovereignty, the rule of law, visions of the good state and society, and relations between nationalism, religion and political development. Focus on Middle East with comparative reference to other cases. (Typically offered: Fall)

PLSC 5703. Research Design in Political Science and Public Policy. 3 Hours.
This course is designed to introduce graduate students to fundamental research issues in the realm of applied social science while developing the ability to apply basic skills for conducting research. (Typically offered: Fall)

PLSC 5803. Seminar in International Politics. 3 Hours.
Research seminar providing intensive coverage of selected topics in theories of international relations, the comparative study of foreign policy making, and international organizations. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 5823. Qualitative Methods in Political Science. 3 Hours.
Develops expertise in qualitative research methods, including when such methods are appropriate, the benefits and drawbacks, and how to distinguish between strong and weak research questions. (Typically offered: Spring Even Years)

PLSC 5833. International Political Economy. 3 Hours.
Seminar with concentrated reading in selected and specialized areas of contemporary international relations. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 5843. International Legal Order. 3 Hours.
Analysis of distinctive characteristics of contemporary international law. Topics include role of legal order in controlling the use of force in international relations and the impact of social and political environment on growth of international law and relations among international political systems. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 5863. Political Psychology and International Relations. 3 Hours.
Examines psychological approaches to international relations and examines how these perspectives advance the study of world politics. (Typically offered: Irregular)

PLSC 5873. Inter-American Politics. 3 Hours.
An analysis of the political themes, regional organization, and hemispheric relations that constitute the inter-American system, with special emphasis on conflict and cooperation in the hemispheric policies of the American republics. (Typically offered: Irregular)

PLSC 5883. Politics of International Law. 3 Hours.
This course examines the interaction between law and politics in the international system, focusing on international law. (Typically offered: Irregular)

PLSC 590V. Directed Readings in Political Science. 1-3 Hour.
Directed readings in Political Science. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PLSC 5913. Research Methods in Political Science. 3 Hours.
Methods relevant to research in the various fields of political science. Required of all graduate students in political science. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 592V. Internship in Political Science. 1-6 Hour.
Internship in a local, state, regional, or federal agency. Paper required on a significant aspect of internship experience. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

PLSC 5943. Advanced Research Methods in Political Science. 3 Hours.
Provides a firm theoretical foundation in, and an ability to apply, various multivariate statistical methods that are most commonly used for empirical analysis of politics and policy. Prerequisite: PLSC 5913 or equivalent. (Typically offered: Fall)

PLSC 595V. Research Problems in Political Science. 1-3 Hour.
Research problems in Political Science. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PLSC 5963. Visualizing Critical Race Theory. 3 Hours.
An advanced overview of a particular type of multi-point research design. Mixed methods research combines quantitative and qualitative research strategies in a single research project. (Typically offered: Spring)

PLSC 5993. African American Political Ideology. 3 Hours.
A survey course designed to identify and examine characteristics and functions of several variants of black political ideology/thought. (Typically offered: Spring Odd Years)

PLSC 600V. Master's Thesis. 1-6 Hour.
Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

PLSC 6963. Visualizing Critical Race Theory. 3 Hours.
An examination of critical theoretical approaches to the concepts of race and racism. Students will examine the ways in which these constructs perform a critical function in the construction of race(s) and racism(s) and their relevance to visual culture. (Typically offered: Fall and Spring)

This course is cross-listed with ARED 6963, AAST 6963.

Poultry Science (POSC)

Courses

POSC 1003. Introduction to Poultry Science. 3 Hours.
To introduce the student to the career opportunities in the poultry science industry. Students will be introduced to biological sciences associated with poultry. Corequisite: Lab component. (Typically offered: Fall)

POSC 1062. Sustainable Integrated Small Animal Farming. 2 Hours.
Practical information on small scale animal production, including practical strategies for farm planning, issues of economic and environmental sustainability, best management practices, biosecurity, disease prevention, and farm safety will be presented. (Typically offered: Spring)

This course is cross-listed with ANSC 1062.

POSC 1123. The Animals in our Lives. 3 Hours.
Address the controversies and focus on animal welfare, environmental issues and sustainability. (Typically offered: Summer)
POSC 2343. Poultry Production. 3 Hours.
To develop a basic foundation about the practices utilized to produce broilers and turkeys. Course will highlight hatchery function and management; embryo development and hatching; chick/poultry transportation, preparation and maintenance of facilities for rearing birds, bird environment, nutrition, and health. Also to be covered are the different roles associated with live production in an integrated company. Corequisite: Lab component. (Typically offered: Fall)

POSC 2353. Poultry Breeder Management. 3 Hours.
Students will be introduced to the management practices used in production of young and adult chickens, turkeys, and other poultry with special emphasis on broiler, breeder, and market egg production. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. (Typically offered: Spring)

POSC 2411L. Domestic Animal Microbiology Laboratory. 1 Hour.
This course is designed for students working on their Poultry Science, Animal Science, and/or Food Science degrees. Students enrolled in this course will learn how to collect samples aseptically from live birds and meat samples, transport samples, and culture samples on a variety of different microbiological media. In addition, students will have the opportunity to visit one of the microbiology labs in the local poultry production facilities. Students will learn how to handle samples, stain bacterial cells, and identify unknown bacteria from field samples. A lab period will be assigned to teaching students on how to use bacteria in food production by teaching students how to prepare and sample yogurt. Corequisite: POSC 2413. (Typically offered: Fall)

POSC 2413. Domestic Animal Microbiology. 3 Hours.
Basic concepts of domestic animal and poultry microbiology including diversity, genetics, metabolism, growth, control of growth, pathogenesis, and immunology. Prerequisite: (BIOL 1543 and BIOL 1541L) and (CHEM 1073 or CHEM 1103 or CHEM 1123). Corequisite: POSC 2411L. (Typically offered: Fall)

POSC 3013. Exotic Companion Birds. 3 Hours.
Topics include basic care, health, breeding, bird evolution, anatomy, and nutritional management of commonly kept exotic companion birds, including parrots, cockatoos, macaws, finches, canaries, and pigeons. Discussion will include housing and care for individual pet birds and large scale breeding and production. Lecture/discussion 3 hours per week. Prerequisite: BIOL 1543. (Typically offered: Fall Odd Years)

POSC 3033. Animal Physiology. 3 Hours.
Fundamental aspects of central nervous, muscularoskeletal, reproductive, digestive, immune, cardiovascular, respiratory, and renal systems will be covered. The normal structure and function of these systems will be emphasized. Lecture 3 hours per week. Prerequisite: BIOL 1543 and CHEM 1123. (Typically offered: Spring Even Years)

POSC 3034. Avian Anatomy. 4 Hours.
Detailed coverage of the external and internal anatomy of poultry, including formation and development of the egg and embryo. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: BIOL 1543. (Typically offered: Spring Even Years)

POSC 3513. Current Approaches in Agricultural Laboratory Research. 3 Hours.
A laboratory course to introduce students to current laboratory research techniques used in agricultural and life sciences. Hands-on laboratory exercises will emphasize current cellular and molecular research techniques, laboratory notebook keeping, data interpretation, and presentation of results. Prerequisite: BIOL 1543. (Typically offered: Spring Even Years)
This course is cross-listed with ANSC 3513.

POSC 3513H. Honors Current Approaches in Agricultural Laboratory Research. 3 Hours.
A laboratory course to introduce students to current laboratory research techniques used in agricultural and life sciences. Hands-on laboratory exercises will emphasize current cellular and molecular research techniques, laboratory notebook keeping, data interpretation, and presentation of results. Prerequisite: BIOL 1543. (Typically offered: Spring Even Years)
This course is cross-listed with POSC 3513, ANSC 3513.

POSC 3554. Avian Anatomy. 4 Hours.
An issues-oriented course focusing on the legal issues involved in the production of poultry, swine, and livestock. Emphasis will center on the laws, regulations and policy arguments involved in animal confinement, antibiotic use, humane slaughter and veterinary medicine, along with other related issues. The wide range of regulation from local to state to federal, depending on the issue will be studied and discussed. (Typically offered: Irregular) May be repeated for degree credit.

POSC 401V. Internship in Poultry Science. 1-6 Hour.
Supervised work experience with private or government organizations to introduce students to professional areas of work in poultry science. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 8 hours of degree credit.

POSC 402V. Research Experience. 1-6 Hour.
An undergraduate research experience should familiarize students with the research process and expand their knowledge in areas of poultry science through scientific literature searches and hands-on experiential learning. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

POSC 4033. Statistical Process Control in the Food Industry. 3 Hours.
Analysis of processing data related to compliance with regulatory limits, quality & safety limits and internal & external customer specifications. Emphasizes statistical process control chart development, including understanding data and chart selection, calculating statistical limits, and interpreting process performance. Prerequisite: Instructor consent. (Typically offered: Irregular)

POSC 404V. Special Topics in Poultry Science. 1-4 Hour.
Topics not covered in other courses or for a more intensive study of specific topics in poultry science. (Typically offered: Irregular) May be repeated for degree credit.

POSC 4123. Legal Issues in Animal Agriculture. 3 Hours.
An issues-oriented course focusing on the legal issues involved in the production of poultry, swine and livestock. Emphasis will center on the laws, regulations and policy arguments involved in animal confinement, antibiotic use, humane slaughter and veterinary medicine, along with other related issues. The wide range of regulation from local to state to federal, depending on the issue will be studied and discussed. (Typically offered: Spring Odd Years)
This course is cross-listed with AGEC 4123, ANSC 4123.
POSC 4163. Companion Animal Nutrition. 3 Hours.
This course is designed to focus on the digestive anatomy, physiology, and nutrient metabolism of non-herbivorous companion animals, primarily dogs and cats. Topics discussed will also include an overview of the pet food industry, its regulations and commonly utilized ingredients. Students will gain a deeper understanding of nutrition as it relates to life stages and various disease states that can affect both dogs and cats. This course will require a Saturday trip to one or two off campus facilities. Prerequisite: ANSC 3143 or POSC 4343. (Typically offered: Spring)
This course is cross-listed with ANSC 4163.

POSC 4213. Integrated Poultry Management Systems. 3 Hours.
Major managerial systems in the integrated commercial poultry industry. Development of an understanding of the basic decision making processes of poultry companies and the factors influencing these decisions. Prerequisite: POSC 2353 and AGEC 1103 and AGEC 2303. (Typically offered: Spring)

POSC 4233. Value Added Muscle Foods. 3 Hours.
An intense study of muscle structure and how it relates to the development of further processed meat products. Muscle ultrastructure, protein functionality, product development, and quality analysis will be covered. In class hands on activities will also be included to allow students to obtain experience of producing processed meat products. Prerequisite: POSC 4314. (Typically offered: Spring Odd Years)

POSC 4314. Egg and Meat Technology. 4 Hours.
Study of the science and practice of processing poultry meat and egg products; examination of the physical, chemical, functional and microbiological characteristics of value added poultry products; factors affecting consumer acceptance and marketing of poultry products and the efficiency of production. Corequisite: Lab component. Prerequisite: (CHEM 1123 and CHEM 1121L) or (CHEM 1073 and CHEM 1071L) and BIOL 1543 and BIOL 1541L. (Typically offered: Fall)

POSC 4333. Poultry Breeding. 3 Hours.
Application of new developments in poultry breeding for efficient egg and meat production. Not intended for students interested in a career in veterinary sciences. Lecture 3 hours per week. Prerequisite: MATH 1203 or higher and junior standing. (Typically offered: Fall Odd Years)

POSC 4343. Poultry Nutrition. 3 Hours.
Principles of nutrition as applied to the formulation of practical chicken and turkey rations. Lecture 3 hours per week. Prerequisite: CHEM 2613 or CHEM 3603 and junior standing. (Typically offered: Spring)

POSC 4801. Seminar: Research Topics. 1 Hour.
Required by all poultry science majors. Prerequisite: Junior or Senior standing and COMM 1313. (Typically offered: Spring Odd Years)

POSC 4811. Seminar: Professionalism. 1 Hour.
Addressing issues associated with preparation for finding and retaining your first job in the poultry industry. Lecture 1 hour per week. Prerequisite: Junior or Senior standing. (Typically offered: Fall Odd Years)

POSC 4821. Seminar: Problem Solving. 1 Hour.
Real world problem solving of poultry production systems. Lecture 1 hour per week. Prerequisite: Junior or senior standing. (Typically offered: Spring Even Years)

POSC 4831. Seminar: Processing Regulations. 1 Hour.
Processing plant procedures and regulations with an emphasis on problem solving. Lecture 1 hour per week. Prerequisite: Junior or senior standing. (Typically offered: Fall Even Years)

POSC 4923. Brain and Behavior. 3 Hours.
Covers cellular through neural systems, major brain functions and comparative neuroanatomy. Topics include ion channels, membrane and action potentials, synaptic integration, neurotransmitters, major brain regions of mammals and birds, sensory and autonomic nervous systems, neuroendocrine system, and control by the brain of critical functions and behavior. Lecture 3 hours per week. Prerequisite: (ANSC 3033 or POSC 3033) or PSYC 2003, or BIOL 2213, or BIOL 2443, or BIOL 2533. (Typically offered: Fall)
This course is cross-listed with ANSC 4923.

POSC 500V. Special Problems. 1-6 Hour.
Work in special problems of poultry industry. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

POSC 5033. Statistical Process Control in the Food Industry. 3 Hours.
(Formerly POSC 4033.) Analysis of processing data related to compliance with regulatory limits, quality and safety limits and internal and external customer specifications. Emphasizes statistical process control chart development, including understanding data and chart selection, calculating statistical limits, and interpreting process performance. Graduate degree credit will not be given for both POSC 4033 and POSC 5033. Prerequisite: Instructor consent. (Typically offered: Irregular)

POSC 510V. Special Topics in Poultry Sciences. 1-4 Hour.
Topics not covered in other courses or a more intensive study of specific topics in poultry science. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for degree credit.

POSC 5113. Food Toxicology and Contaminants. 3 Hours.
During this course, the student will learn basic concepts of food toxicology, study the different physiological processes involved in food borne intoxications, and learn about potential health problems associated with exposure to these compounds. Prerequisite: Graduate study. (Typically offered: Irregular)

POSC 5123. Advanced Animal Genetics. 3 Hours.
Specialized study of animal genetics. Lecture 3 hours per week. Prerequisite: POSC 3123 or ANSC 3123. (Typically offered: Fall Even Years)
This course is cross-listed with ANSC 5123.

POSC 5143. Biochemical Nutrition. 3 Hours.
Interrelationship of nutrition and physiological chemistry; structure and metabolism of physiological significant carbohydrates, lipids, and proteins; integration of metabolism with provision of tissue fuels; specie differences in regulatory control of tissue and whole body metabolism of nutrients. Prerequisite: CHEM 3813. (Typically offered: Fall Even Years)

POSC 5152. Protein and Amino Acid Nutrition. 2 Hours.
Students will be introduced to the basic processes of protein digestion, amino acid absorption, transport, metabolism, and utilization along with how biochemical function of proteins and their dynamic state affect nutritional status for animals and man. Prerequisite: CHEM 3813. (Typically offered: Spring Even Years)
This course is cross-listed with ANSC 5152.

POSC 5163. Companion Animal Nutrition. 3 Hours.
This course is designed to focus on the digestive anatomy, physiology, and nutrient metabolism of non-herbivorous companion animals, primarily dogs and cats. Topics discussed will also include an overview of the pet food industry, its regulations and commonly utilized ingredients. Students will gain a deeper understanding of nutrition as it relates to life stages and various disease states that can affect both dogs and cats. This course will require a Saturday trip to one or two off campus facilities. Prerequisite: ANSC 3143 or POSC 4343. (Typically offered: Spring)
This course is cross-listed with ANSC 5163.
POSC 5213. Integrated Poultry Management Systems. 3 Hours.  
(Formerly POSC 4213.) Major managerial systems in the integrated commercial poultry industry. Development of an understanding of the basic decision making processes of poultry companies and the factors influencing those decisions. Graduate degree credit will not be given for both POSC 4213 and POSC 5213. Prerequisite: POSC 2353 and AGEC 1103 and AGEC 2303. (Typically offered: Fall)

POSC 5233. Value Added Muscle Foods. 3 Hours.  
An intense study of muscle structure and how it relates to the development of future processed meat products. Muscle ultrastructure, protein functionality, product development, and quality analysis will be covered. In class hands on activities will also be included to allow students to obtain experience of producing processed meat products. (Typically offered: Spring Even Years)

POSC 5243. Legal Issues in Animal Agriculture. 3 Hours.  
(Formerly POSC 4123.) An issues-oriented course focusing on the legal issues involved in the production of poultry, swine and livestock. Emphasis will center on the laws, regulations and policy arguments involved in animal confinement, antibiotic use, humane slaughter and veterinary medicine, along with other related issues. The wide range of regulation from local to state to federal, depending on the issue will be studied and discussed. Graduate degree credit will not be given for both POSC 4123 and POSC 5243. (Typically offered: Spring Odd Years)

POSC 5254. Egg and Meat Technology. 4 Hours.  
(Formerly POSC 4314.) Study of the science and practice of processing poultry meat and egg products; examination of the physical, chemical, functional and microbiological characteristics of value added poultry products; factors affecting consumer acceptance and marketing of poultry products and the efficiency of production. Graduate degree credit will not be given for both POSC 4314 and POSC 5254. Corequisite: Lab component. Prerequisite: (CHEM 1123 and CHEM 1121L) or (CHEM 1073 and CHEM 1071L) and BIOL 1543 and BIOL 1541L. (Typically offered: Fall)

POSC 5303. Domestic Animal Bacteriology. 3 Hours.  
A study of bacteria pathogenic for domestic animals. Lecture 3 hours per week. (Typically offered: Fall)

POSC 5333. Poultry Breeding. 3 Hours.  
(Formerly POSC 4333.) Application of new developments in poultry breeding for efficient egg and meat production. Not intended for students interested in a career in veterinary sciences. Lecture 3 hours per week. Graduate degree credit will not be given for both POSC 4333 and POSC 5333. (Typically offered: Fall Odd Years)

POSC 5343. Advanced Immunology. 3 Hours.  
Aspects of innate, cell-mediated, and humoral immunity in mammalian and avian species. Molecular mechanisms underlying the function of the immune system are emphasized. A course in Basic Immunology prior to enrollment in Advanced Immunology is recommended but not required. Lecture 3 hours per week. (Typically offered: Spring)  
This course is cross-listed with BIOL 5343.

POSC 5352L. Immunology in the Laboratory. 2 Hours.  
Laboratory course on immune-diagnostic laboratory techniques and uses of antibodies as a research tool. Included are cell isolation and characterization procedures, immunochemistry, flow cytometry, ELISA and cell culture assay systems. Laboratory 6 hours per week. Prerequisite: POSC 5343 or BIOL 5343 or BIOL 4713. (Typically offered: Spring)  
This course is cross-listed with BIOL 5352L.

POSC 5443. Poultry Nutrition. 3 Hours.  
(Formerly POSC 4343.) Principles of nutrition as applied to the formulation of practical chicken and turkey rations. Lecture 3 hours per week. Graduate degree credit will not be given for both POSC 4343 and POSC 5443. Prerequisite: CHEM 2613 or CHEM 3603. (Typically offered: Spring)

POSC 5742. Advanced Poultry Diseases. 2 Hours.  
An in-depth coverage of the most important diseases of poultry with a focus on understanding mechanisms of pathogenesis, diagnostic techniques and principles of prevention. Lecture/discussion 2 hours per week. Prerequisite: POSC 3223. (Typically offered: Spring Odd Years)

POSC 5743L. Advanced Analytical Methods in Animal Sciences Laboratory. 3 Hours.  
Introduction into theory and application of current advanced analytical techniques used in animal research. Two 3-hour laboratory periods per week. (Typically offered: Fall)  
This course is cross-listed with ANSC 5743L.

POSC 5873. Molecular Analysis of Foodborne Pathogens. 3 Hours.  
Course topics will include molecular detection and identification of foodborne pathogens, the molecular response of foodborne pathogens to their environments, functional genomic approaches, and analysis of complex microbial communities. Lecture/discussion 3 hours per week. (Typically offered: Fall)

POSC 5901. Graduate Seminar. 1 Hour.  
Critical review of the current scientific literature pertaining to the field of poultry science. Oral reports. Recitation 1 hour per week. Prerequisite: Senior standing. (Typically offered: Fall and Spring)

POSC 5923. Brain and Behavior. 3 Hours.  
Covers cellular through neural systems, major brain functions and comparative neuroanatomy. Topics include ion channels, membrane and action potentials, synaptic integration, neurotransmitters, major brain regions of mammals and birds, sensory and autonomic nervous systems, neuroendocrine system, and control by the brain of critical functions and behavior. Lecture 3 hours per week. Prerequisite: (ANSC 3033 or POSC 3033) or PSYC 2003 or BIOL 2213 or BIOL 2443 or BIOL 2533. (Typically offered: Fall)  
This course is cross-listed with ANSC 5923.

POSC 5932. Cardiovascular Physiology of Domestic Animals. 2 Hours.  
Cardiovascular physiology, including mechanisms of heart function and excitation, and blood vessel mechanisms associated with the circulatory system in domestic animals and poultry. Lecture 3 hours; drill 1 hour per week (for second 8 weeks of semester). Pre- or Corequisite: CHEM 3813. Corequisite: Drill component. Prerequisite: POSC 3033 or ANSC 3033. (Typically offered: Fall)  
This course is cross-listed with ANSC 5932.

POSC 5942. Endocrine Physiology of Domestic Animals. 2 Hours.  
Endocrine physiology, including mechanisms of hormone secretion, function, and regulation. Mechanisms associated with the endocrine system will be discussed for domestic animals and poultry. Lecture 3 hours; drill 1 hour per week (for second 8 weeks of semester). Pre- or Corequisite: CHEM 3813. Corequisite: Drill component. Prerequisite: POSC 3033 or ANSC 3033. (Typically offered: Fall)  
This course is cross-listed with ANSC 5942.

POSC 5952. Respiratory Physiology of Domestic Animals. 2 Hours.  
Respiratory physiology, including mechanisms of lung function and gas exchange. Mechanisms associated with the interaction of the respiratory system with other bodily systems in domestic animals and poultry will be discussed. Lecture 3 hours; drill 1 hour per week for first 8 weeks of semester. Pre- or Corequisite: CHEM 3813. Corequisite: Drill component. Prerequisite: ANSC 3033 or POSC 3033. (Typically offered: Spring)  
This course is cross-listed with ANSC 5952.
POSC 5962. Gastrointestinal/Digestive Physiology of Domestic Animals. 2 Hours.
Gastrointestinal and hepatic physiology, including mechanisms of digestion, absorption of nutrients with emphasis on cellular control mechanisms in domestic animals and poultry. Lecture 3 hours; drill 1 hour per week (for second 8 weeks of semester). Pre- or Corequisite: CHEM 3813. Corequisite: Drill component. Prerequisite: ANSC 3033 or POSC 3033. (Typically offered: Fall) This course is cross-listed with ANSC 5962.

POSC 5972. Renal Physiology of Domestic Animals. 2 Hours.
Renal physiology, including mechanisms of renal clearance with emphasis on cellular control mechanisms in domestic animals and poultry. Lecture 3 hours; drill 1 hour per week (for second 8 weeks of semester). Pre- or Corequisite: CHEM 3813. Corequisite: Drill component. Prerequisite: ANSC 3033 or POSC 3033. (Typically offered: Spring) This course is cross-listed with ANSC 5972.

POSC 600V. Thesis. 1-6 Hour.
Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

POSC 6123. Advanced Food Animal Wellbeing. 3 Hours.
Advances in fundamentals of animal welfare including animal health, animal handling, food safety and productivity. Prerequisite: Instructor consent. (Typically offered: Spring) This course is cross-listed with ANSC 6123.

POSC 6343. Vitamin Nutrition in Domestic Animals. 3 Hours.
The vitamins required by domestic animals with emphasis upon their role in animal nutrition, physiological functions, and consequences of failure to meet the requirement of the animal. Lecture 3 hours per week. Prerequisite: (ANSC 3143 or POSC 4343) and CHEM 3813. (Typically offered: Spring Even Years) This course is cross-listed with ANSC 6343.

POSC 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Psychology (PSYC)

Courses

An introduction to the field of Psychology, including the investigation of the biological bases of behavior; learning and cognitive processes; developmental and social psychology; and personality, psychopathology, and the treatment of psychological disorders. Students will be expected to complete a research requirement. (Typically offered: Fall, Spring and Summer)

PSYC 2003H. Honors General Psychology. 3 Hours.
An introduction to the field of Psychology, including the investigation of the biological bases of behavior; learning and cognitive processes; developmental and social psychology; and personality, psychopathology, and the treatment of psychological disorders. Students will be expected to complete a research requirement. (Typically offered: Fall and Spring) This course is equivalent to PSYC 2003.

PSYC 2013. Introduction to Statistics for Psychologists. 3 Hours.
Introduction to the descriptive and inferential statistics commonly used by psychologists. A grade of C or better in PSYC 2013 is required as a prerequisite for PSYC 3073. Corequisite: Drill component. Prerequisite: PSYC 2003 and MATH 2043 or MATH 2053 or MATH 2554, with a grade of C or better, and a Psychology major. (Typically offered: Fall, Spring and Summer)

PSYC 2043. The Psychology of Health and Well-being. 3 Hours.
Introduces students to the application of psychological science to healthy, meaningful living across the age span. Explores key research findings related to issues in modern living, including social connections, emotional adjustment, romantic relationships, parenting and schooling, family life, and work life. Prerequisite: PSYC 2003. (Typically offered: Spring)

PSYC 206V. Directed Readings. 1-4 Hour.
For undergraduate majors in psychology. Prerequisite: Six hours of psychology; Instructor's permission. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PSYC 207V. Laboratory Experience. 1-4 Hour.
Laboratory experience in psychology obtained by working as part of a faculty member's research team. Prerequisite: PSYC 2003 and Instructor's permission. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PSYC 2173. Research Literacy in Psychological Science. 3 Hours.
Training in critical evaluation of research in psychological science, including understanding statistics and research methods used by psychologists. Prerequisite: PSYC 2003 and a psychology minor. (Typically offered: Fall and Spring)

PSYC 3013. Social Psychology. 3 Hours.
Theories and representative research in social psychology, emphasizing the influence of the social world on human behavior. Introduction to the problems, theories, and experiments of social psychology. Prerequisite: PSYC 2003. (Typically offered: Fall and Spring)

PSYC 3023. Abnormal Psychology. 3 Hours.
Theories and representative research about the causes and treatment of the major forms of abnormal behavior. Prerequisite: PSYC 2003. (Typically offered: Fall and Spring)

PSYC 3063. Psychology of Diversity. 3 Hours.
Introduction to the psychology of diversity, including historical perspectives, biological and social bases of bias, individual differences, social identity, intergroup interactions, and power and privilege. Prerequisite: PSYC 2003. (Typically offered: Fall and Spring)

PSYC 3073. Research Methods. 3 Hours.
Training in execution and interpretation of experiments using the classical experimental designs. Limited enrollment. Prerequisite: PSYC 2013 and (MATH 2043, or MATH 2053, or MATH 2554) with a grade of "C" or better and a psychology major. (Typically offered: Fall and Spring)

PSYC 3093. Developmental Psychology (ACTS Equivalency = PSYC 2103). 3 Hours.
Theories and representative research in the psychological factors influencing development, including both hereditary and environmental influences, from conception through adolescence. Prerequisite: PSYC 2003. (Typically offered: Fall and Spring)

PSYC 3103. Cognitive Psychology. 3 Hours.
Introduction to theories and research in cognition including memory, language, and problem-solving. Prerequisite: PSYC 2003. (Typically offered: Fall and Spring)

PSYC 3173. Biopsychology. 3 Hours.
An introduction to the biological basis of behavior. Lectures cover current research about the neural correlates underlying sensory, motor, cognitive, and emotional processes. Prerequisite: PSYC 2003. (Typically offered: Spring)

PSYC 3923H. Honors Colloquium. 3 Hours.
Treats a special topic or issue, offered as part of the honors program. May be repeated when the content is changed. Prerequisite: honors candidacy (not restricted to candidacy in psychology). (Typically offered: Irregular) May be repeated for degree credit.
PSYC 399VH. Honors Course. 1-6 Hour.
Honors course. Prerequisite: Junior standing and instructor's permission. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

PSYC 4033. Educational Psychology. 3 Hours.
Psychological theories and concepts applied to the educational process. Investigates the learner and instructional variables in a wide range of educational settings. Prerequisite: Six hours of psychology, not including PSYC 2013. (Typically offered: Irregular)

PSYC 4053. Psychological Tests. 3 Hours.
Nature and theory of individual and group tests of intelligence, personality, interests, and attitudes. Prerequisite: Nine hours of psychology, including a C or better in PSYC 2013. (Typically offered: Irregular)

PSYC 4063. Psychology of Personality. 3 Hours.
Theories and representative research concerning the development and nature of the normal personality. Prerequisite: Six hours of psychology, not including PSYC 2013. (Typically offered: Irregular)

PSYC 4073. Psychology of Learning. 3 Hours.
Theories and representative research on basic principles of learning and memory in both animals and humans. Prerequisite: Six hours of psychology, not including PSYC 2013. (Typically offered: Spring)

PSYC 4083. Advanced Research. 3 Hours.
A lecture/laboratory course covering research in a specialized area of psychology. Provides experience with design, conduct, analysis, and presentation of research projects related to class topics. Successful completion of the class, including a formal paper in APA style, with a grade of C or better will fulfill the senior writing requirement. Prerequisite: Eighteen hours of psychology including a grade of at least a C in PSYC 3073 and senior standing. (Typically offered: Fall and Spring)

PSYC 409V. Psychology Seminar. 1-3 Hour.
Provides intensive coverage of specialized psychological topics. Prerequisite: Six hours of psychology, not including PSYC 2013. (Typically offered: Irregular) May be repeated for up to 18 hours of degree credit.

PSYC 4123. Perception. 3 Hours.
Theories and representative research in the areas of sensation and perception. Prerequisite: Six hours of psychology, not including PSYC 2013. (Typically offered: Irregular)

PSYC 4143. History and Systems of Psychology. 3 Hours.
Examination of the concepts, methods, and systems which have contributed to the development of modern psychology. Prerequisite: Fifteen hours of psychology and senior standing. (Typically offered: Irregular)

PSYC 4183. Behavioral Neuroscience. 3 Hours.
Examination of the biological basis of behavior. Surveys the anatomy, physiology, and pharmacology of the mammalian brain and examines brain mechanisms underlying a wide range of behaviors and cognitive processes. Prerequisite: Six hours of psychology, not including PSYC 2013. (Typically offered: Fall)

PSYC 4193. Comparative Psychology. 3 Hours.
Analysis of animal behavior from an evolutionary perspective, with emphasis on the role of the environment and interactions with other animals in shaping the evolution of behavior within a species, and the evolution of differences in behavior between species. Prerequisite: Six hours of psychology, not including PSYC 2013. (Typically offered: Spring)

PSYC 4283. Advanced Seminar. 3 Hours.
A seminar/discussion class covering research in specialized areas of psychology. Students will read original sources and present their ideas and conclusions several formats. Successful completion of the class, including a formal paper in APA style, with a grade of C or better will fulfill the senior writing requirement. Prerequisite: Eighteen hours of psychology including a grade of at least a C in PSYC 3073; senior standing. (Typically offered: Fall and Spring)

PSYC 4433. Philosophy of Psychology. 3 Hours.
Explores philosophical issues concerning the domain, foundations and methodology of psychology, and the relation of psychological explanations to other scientific and philosophical investigations of the mind. Topics include cognitive architecture and the evolution of minds, extended or embodied cognition, perception and introspection, consciousness and attention, social cognition, thought and language. (Typically offered: Irregular) This course is cross-listed with PHIL 4433.

PSYC 5013. Advanced Developmental Psychology. 3 Hours.
Critical examination of the research relevant to the psychological factors influencing the growth processes of the individual from birth to maturity. (Typically offered: Spring)

PSYC 5033. Psychopathology Theory & Assessment. 3 Hours.
Psychological and somatic factors contributing to pathological behavior. Interrelations of these factors will be analyzed in terms of how they lead to differential abnormal states. Includes guidelines for using structured interviews in the diagnosis and clinical assessment of major psychological disorders. Prerequisite: PSYC 3023 and enrollment in the Graduate Program in Psychology, or instructor consent. (Typically offered: Fall)

PSYC 5043. Assessment of Intellectual and Cognitive Abilities. 3 Hours.
Training in the theory, administration and interpretation of individual tests of intelligence and mental ability. Prerequisite: PSYC 4053 and enrollment in the Psychology Graduate Program. (Typically offered: Fall)

PSYC 5063. Advanced Social Psychology. 3 Hours.
Theory, methodology, and contemporary research in the major areas of social psychology. Topics include attitude theory and measurement, group processes, social and cultural factors. (Typically offered: Spring)

PSYC 5073. Introduction to Clinical Practice: Core Skills and Ethical Guidelines. 3 Hours.
An introduction to clinical practice focusing on a) interview methods and techniques and b) ethical principles and guidelines. Includes an introduction to clinic policies and procedures. Prerequisite: Enrollment in the Psychology graduate program. (Typically offered: Spring)

PSYC 5080. Observational Practicum. 0 Hours.
Observation of senior therapists in the provision of psychodiagnostic and psychotherapeutic techniques. Pre- or Corequisite: Doctoral students only. (Typically offered: Fall, Spring and Summer) May be repeated for up to 0 hours of degree credit.

PSYC 5113. Theories of Learning. 3 Hours.
Major concepts in each of the important theories of learning. (Typically offered: Fall)

PSYC 5123. Cognitive Psychology. 3 Hours.
Contemporary theories and research on human information processing including topics such as memory, language, thinking, and problem solving. (Typically offered: Spring Even Years)

PSYC 5133. Inferential Statistics for Psychology. 3 Hours.
Inferential statistics, including representative parametric tests of significance. Special emphasis on analysis of variance, covariance, and component variance estimators as applied to psychological research. Prerequisite: PSYC 2013. (Typically offered: Fall)
PSYC 5143. Advanced Descriptive Statistics for Psychology, 3 Hours.
Special correlation techniques followed by a survey of representative nonparametric
tests of significance. Major emphasis on advanced analysis of variance theory and
designs. Prerequisite: PSYC 5133. (Typically offered: Spring)

PSYC 5153. Advanced History and Systems of Psychology, 3 Hours.
Advanced examination of the concepts, methods, and systems which have
contributed to the development of modern psychology. (Typically offered: Fall)

PSYC 5163. Personality: Theory & Assessment, 3 Hours.
An introduction to empirically based theories of personality and personality disorders
with an emphasis on standardized instruments in the assessment of normative
and pathological personality. Includes training in the interpretation, integration, and
reporting of results. Pre- or Corequisite: PSYC 5043. Prerequisite: Enrollment in the
Psychology graduate program or instructor consent. (Typically offered: Spring)

PSYC 5173. Structural Equation Modeling, 3 Hours.
Introduction to concepts and methods of structural equation modeling. Major
emphasis on advanced techniques to model latent variables using large sample
survey data. Prerequisite: PSYC 5133 and PSYC 5143. Corequisite: Lab
component. (Typically offered: Spring Even Years)

PSYC 5223. Perception, 3 Hours.
(Formerly PSYC 4123.) Theories and representative research in the areas of
sensation and perception. Graduate degree credit will not be given for both
PSYC 4123 and PSYC 5223. Prerequisite: Six hours of psychology, not including
PSYC 2013. (Typically offered: Irregular)

PSYC 523V. Research Practicum, 1-3 Hour.
Presentation, evaluation, and discussion of on-going research proposals. Required
of all experimental graduate students in the first 2 years of their program. (Typically
offered: Fall and Spring)

PSYC 5313. Introduction to Clinical Science: Research Design and Ethical
Guidelines, 3 Hours.
Provides a) guidelines for designing and conducting empirical research in clinical
psychology, b) ethical principles that regulate clinical research, and c) supervised
opportunities to develop a clinical research proposal. Prerequisite: Enrollment in the
Psychology graduate program. (Typically offered: Fall)

PSYC 600V. Master’s Thesis, 1-6 Hour.
Master’s Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for
degree credit.

PSYC 602V. Seminar: Teaching Psychology, 1-3 Hour.
Survey of the literature on teaching of psychology in college. Includes: planning the
course, method, examining and advising students. Prerequisite: Teaching assistant.
(Typically offered: Fall and Spring)

PSYC 607V. Clinical Practicum III, 1-3 Hour.
Provides supervised experience in the application of the more complex and
lesser known psychodiagnostic techniques and training and experience in
psychotherapeutic techniques with the more severe functional disorders, with special
topics in these domains emphasized across sections. Prerequisite: PSYC 5073;
Enrollment in the Psychology graduate program. (Typically offered: Fall, Spring and
Summer) May be repeated for degree credit.

PSYC 609V. Clinical Graduate Seminar, 1-3 Hour.
Provides intensive coverage of specialized clinical topics. Open to all graduate
students. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of
degree credit.

PSYC 611V. Individual Research, 1-18 Hour.
Individual research. (Typically offered: Fall, Spring and Summer) May be repeated
for up to 18 hours of degree credit.

PSYC 6133. Advanced Behavioral Neuroscience, 3 Hours.
Examination of the biological basis of behavior, with emphasis on underlying neural
mechanisms. (Typically offered: Fall)
PADM 5813. Managing Information Technologies in Public Affairs. 3 Hours. Examines digital interactions between citizens, institutions, and political interests from the perspective of analysts, civic leaders, and professional non-technical administrators. Explores timely issues related to public information transactions, ethics and best practices of public information management, and the strategic positioning of public information assets. Prerequisite: Graduate standing. (Typically offered: Spring)

PADM 5823. Grant Writing for the Social Sciences. 3 Hours. This course will teach students the fundamentals of obtaining grants from local, state and federal agencies. (Typically offered: Irregular)

PADM 5833. Urban Planning. 3 Hours. Reviews the many forms, functions, and purposes of American cities. Covers basic planning theories, surveys the various sub-fields of planning, discusses trends in the planning field, and utilizes computer simulations. (Typically offered: Fall) This course is cross-listed with PLSC 4103.

PADM 5853. Performance Measurement in the Public and Nonprofit Sectors. 3 Hours. Provides a hands-on approach for measuring organizational performance and using performance information of decision making. Addresses components and key issues of performance measurement, such as steps in the measurement process, methods of data gathering, and analysis. Prerequisite: PLSC 5193. (Typically offered: Summer)

PADM 5863. Issues in Public and Nonprofit Management. 3 Hours. Explores current developments and themes in the theory and practice of public and nonprofit management. Covers a range of contemporary issues in the field, such as managing collaborative networks, e-government, and managing for results. Emerging trends are intensively discussed at the juncture of theory and practice. (Typically offered: Spring)

PADM 587V. Professional Development. 1-6 Hour. Encompasses internships, professional projects if individual is employed full-time and not eligible for an internship, conference and workshop participation, and other activities conducive to the students development as a public service professional. (Typically offered: Spring and Summer)

PADM 588V. Directed Readings. 1-3 Hour. Directed readings. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

PADM 589V. Independent Research. 1-3 Hour. Independent Research. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

PADM 5903. Risk and Public Policy. 3 Hours. Examines how concepts of risk serve to justify and shape public policies and risk management practices. (Typically offered: Spring)

PADM 5913. Policy Analysis: Theory and Practice. 3 Hours. Provides a firm theoretical foundation in, and an ability to apply, the general instruments necessary for professional practice of policy analysis. (Typically offered: Fall)

Public Health (PBHL) Courses

PBHL 1103. Personal Health and Safety. 3 Hours. Health and safety problems with emphasis on the promotion of individual health and safety. (Typically offered: Fall and Spring)

PBHL 1203. Prevention of Drug Abuse. 3 Hours. Provides an overview of drugs of use and abuse in society. Also assists the student in evaluating drug abuse prevention approaches for public, private, or community settings. (Typically offered: Fall)

PBHL 1303. Introduction to Human Sexuality. 3 Hours. An examination of human sexuality with a critical analysis of male and female attitudes and values affecting self-understanding and gender identity. (Typically offered: Fall and Spring)

PBHL 2101. Special Topics. 1 Hour. Examination and application of health promotion concepts based on individualized health hazard appraisal. (Not to replace content courses leading to teacher certification in health education). (Typically offered: Fall and Spring) May be repeated for up to 5 hours of degree credit.

PBHL 2663. Terminology for the Health Professions. 3 Hours. Emphasis is on word roots and combined forms of words describing various facets of health and disease. Descriptive definitions with application of practical significance included for the health professional. (Typically offered: Spring) This course is cross-listed with EXSC 2683.

PBHL 310V. Seminar in Public Health. 1-3 Hour. Synthesis and critical analysis of current literature in the area of community health promotion. Prerequisite: PBHL majors only. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

PBHL 3202. Health Care and Public Health Policy. 2 Hours. This course provides an introduction to health care services, inclusive of the characteristics and structure of the U.S. health care delivery system and comparison to other health systems. Aspects of public health policy, laws, ethics, and economics will be examined. Upon completion of the course, students are expected to demonstrate an understanding of the key elements of the health care industry as it pertains to medical care and public health, including an understanding of the roles of health care providers, public and private payers, the role of government, and challenges facing health care systems. Pre- or Corequisite: PBHL 1103 and (PBHL 3443 or PBHL 2613). Prerequisite: Public Health Bachelor of Science (PBHLS) major required. (Typically offered: Spring)

PBHL 3202H. Honors Health Care and Public Health Policy. 2 Hours. This course provides an introduction to health care services, inclusive of the characteristics and structure of the U.S. health care delivery system and comparison to other health systems. Aspects of public health policy, laws, ethics, and economics will be examined. Upon completion of the course, students are expected to demonstrate an understanding of the key elements of the health care industry as it pertains to medical care and public health, including an understanding of the roles of health care providers, public and private payers, the role of government, and challenges facing health care systems. Prerequisite: Public Health Bachelor of Science (PBHLS) major and honors standing required. (Typically offered: Spring) This course is equivalent to PBHL 3202.

PBHL 333V. Research in Public Health. 1-3 Hour. This course is intended for undergraduate students who wish to gain research experience under the direction of a faculty mentor. Students will work independently and collaborate with faculty member(s) and fellow students to conduct research in a specified area of interest. The purpose of the course is for the student to develop knowledge in her/his own domain, strengthen her/his research skills, and work collaboratively on research projects. The directed research course places more emphasis on the students’ role as a researcher in an academic setting. Prerequisite: Instructor consent. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.
PBHL 333VH. Honors Research in Public Health. 1-3 Hour.
This course is intended for undergraduate students who wish to gain research experience under the direction of a faculty mentor. Students will work independently and collaborate with faculty member(s) and fellow students to conduct research in a specified area of interest. The purpose of the course is for the student to develop knowledge in her/his own domain, strengthen her/his research skills, and work collaboratively on research projects. The directed research course places more emphasis on the students' role as a researcher in an academic setting. Prerequisite: Instructor consent. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit. This course is equivalent to PBHL 333V.

PBHL 3443. Introduction to Public Health. 3 Hours.
This course is intended for undergraduate students and will focus on the foundations of public health as a profession and its future outlook. Public health concepts and practice. Topics include philosophy, purpose, history, organization, functions, tools, activities and results at national, state, and community levels. (Typically offered: Fall and Spring)

PBHL 3633. First Responder-First Aid. 3 Hours.
Prepares persons to administer cardiopulmonary resuscitation and emergency aid to victims of serious bleeding, poisoning, shock, fracture, and other forms of injury until emergency medical services personnel arrive at the scene. (Typically offered: Irregular)

PBHL 3643. Public Health Program Planning and Evaluation. 3 Hours.
Emphasis on community analysis; defining and verifying community health problems; establishing program goals; defining and assessing health behaviors; formulating educational goals, objectives, methods, and activities; promoting programs; and designing program evaluation. Prerequisite: Public Health Bachelor of Science (PBHLBS) major. (Typically offered: Spring)

PBHL 3643H. Honors Public Health Program Planning and Evaluation. 3 Hours.
Emphasis on community analysis; defining and verifying community health problems; establishing program goals; defining and assessing health behaviors; formulating educational goals, objectives, methods, and activities; promoting programs; and designing program evaluation. Prerequisite: Public Health Bachelor of Science (PBHLBS) major and honors standing. (Typically offered: Spring)

PBHL 3663. Principles and Practice of Mental Health Promotion. 3 Hours.
Understanding and practicing the principles of sound mental health are key elements in achieving high level wellness. This course encourages students' exploration of the mental dimensions of holistic health and presents strategies to achieve a more healthful balance in life. (Typically offered: Irregular)

PBHL 3683. Health Care Consumerism. 3 Hours.
Study of products and services provided by the health care delivery system; an analysis of those components lacking scientific credibility, yet promoted for the maintenance or restoration of health status. (Typically offered: Irregular)

PBHL 3683H. Honors Health Care Consumerism. 3 Hours.
Study of products and services provided by the health care delivery system; an analysis of those components lacking scientific credibility, yet promoted for the maintenance or restoration of health status. (Typically offered: Spring Even Years)
This course is equivalent to PBHL 3683.

PBHL 3901H. Honors Public Health Thesis Tutorial. 1 Hour.
Designed to provide the foundation for the Honors Thesis/Project. Students and faculty tutors work "one-on-one" exploring a specific topic which has been agreed upon by the student and the professor. Prerequisite: Honors candidacy and PBHLBS major. (Typically offered: Fall, Spring and Summer)

PBHL 391V. Special Topics in PBHL. 1-3 Hour.
Designed to cover specialized topics not presented in public health coursework. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

PBHL 4043. Internship in Public Health. 3 Hours.
Designed to provide the student with an extended work experience in a selected community/public health program. The student works under college supervision with a professional in the health care delivery field. Pre- or Corequisite: PBHL 3443 and PBHL 4603. Prerequisite: Successful completion of PBHL 1103, Senior standing, and Public Health Bachelor of Science (PBHLBS) major required. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

PBHL 410V. Global Health: Issues, Concepts and Perspectives. 3-6 Hour.
Emphasis placed on needs assessment, development, implementation, evaluation, and sustainability of public health initiatives designed to improve the health and well-being of community members at all levels of the health continuum; topics of focus will include determinants of health, mental health, environmental health, nutrition, maternal and child health, sexual health, injuries and chronic and infectious diseases. Prerequisite: Approval from Study Abroad to participate in the Community Development Service Learning Program. (Typically offered: Summer)

PBHL 410VH. Honors Global Health: Issues, Concepts and Perspectives. 3-6 Hour.
This course is equivalent to PBHL 410V.

PBHL 4401. Certified Health Education Specialist: Responsibilities and Competencies. 1 Hour.
This course is an overview of the competencies necessary for being a Certified Health Education Specialist (CHES), and also of the concepts and skills required for carrying out effective health education programs in a variety of different settings, including School, Community, Health Care and Worksite settings. Through a combination of self study, seminar discussions, and research projects, a thorough understanding of the competencies and core concepts in the fields of public health and health promotion will be attained. While the emphasis of the course is placed on studying for the CHES examination, the course will also provide a format to further your preparation as a professional health educator. Prerequisite: PBHL major. (Typically offered: Spring Odd Years)

PBHL 4553. Environmental Health. 3 Hours.
This course explores current environmental problems and issues related to public health. Topics include health risk assessment, management, and communication; sources of pollution, environmental and health effects of war, food safety and other environmental health topics. Also discussed are the roles of the environment in human health and disease, the basic principles of environmental health practice, and major environmental health legislation and policy. Format for course will include lecture web based seminars, and small group seminars. (Typically offered: Irregular)

PBHL 4603. Health Behavior: Theories and Application. 3 Hours.
Understanding the reasons for health behavior is vital for the health education professional. It is necessary to assist in the development of services and programs that are likely to move an individual from an unhealthy behavior to one that is more appropriate for a healthy lifestyle. This course surveys the major health behavior theories used in health education and applications of the theories will be used in the class. Prerequisite: PBHL 3443 and Public Health Bachelor of Science (PBHLBS) major required. (Typically offered: Fall)
PBHL 4603H. Honors Health Behavior: Theories and Application. 3 Hours.
Understanding the reasons for health behavior is vital for the health education professional. It is necessary to assist in the development of services and programs that are likely to move an individual from an unhealthy behavior to one that is more appropriate for a healthy lifestyle. This course surveys the major health behavior theories used in health education and applications of the theories will be used in the class. Prerequisite: Must be a honors student, PBHL 3443 and Public Health Bachelor of Science (PBHLBS) major required. (Typically offered: Fall)
This course is equivalent to PBHL 4603.

PBHL 4613. Principles of Epidemiology. 3 Hours.
Distribution and patterns of disease or physiological conditions within populations; an examination of the nature of epidemiological research. (Typically offered: Fall)

PBHL 4613H. Honors Principles of Epidemiology. 3 Hours.
Distribution and patterns of disease or physiological conditions within populations; an examination of the nature of epidemiological research. Prerequisite: Honors standing. (Typically offered: Fall)

PBHL 4623. Human Diseases. 3 Hours.
An examination of the variety, behavior, distribution, and management of both infectious and noninfectious diseases in human populations. Prerequisite: BIOL 1603 (or BIOL 1543 and BIOL 1541L). (Typically offered: Irregular)

PBHL 4643. Multicultural Health. 3 Hours.
Through lecture, discussion, simulations, and case studies, students will develop an appreciation for the cultural traditions and practices of different groups. The importance and implications of these traditions on health outcomes and health status will be examined. Students will also develop skills of cultural competence that are essential for public health practitioners today. Prerequisite: Public Health Bachelor of Science (PBHLBS) major required. (Typically offered: Spring and Summer)

PBHL 4643H. Honors Multicultural Health. 3 Hours.
Through lecture, discussion, simulations, and case studies, students will develop an appreciation for the cultural traditions and practices of different groups. The importance and implications of these traditions on health outcomes and health status will be examined. Students will also develop skills of cultural competence that are essential for public health practitioners today. Prerequisite: Public Health Bachelor of Science (PBHLBS) major and honors standing required. (Typically offered: Spring and Summer)

PBHL 4800. Honors Public Health Thesis/Project. 1-3 Hour.
Designed to provide facilitation of the Honors Thesis/Project. Students and faculty work “one-on-one” to complete the honors thesis/project. Prerequisite: Honors candidacy, PBHLBS major, and PBHL 3901H. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

PBHL 5023. Teaching in Community Health Promotion. 3 Hours.
Examination and practical exposure to the principles and practices of undergraduate teaching in public health. Includes course planning, teaching techniques, assessment strategies, and supervised practice. Prerequisite: Admission to the M.S. or Ph.D. program in Community Health Promotion. (Typically offered: Fall and Spring) May be repeated for up to 3 hours of degree credit.

PBHL 5213. Evaluation of Public Health Programs. 3 Hours.
This seminar style course is designed to provide students with exposure to different types of program evaluation, including needs assessment, formative evaluation, process evaluation, and outcome and impact evaluation. The course covers theoretical frameworks supporting evaluation, ethics in evaluation, methods for data collection, reporting evaluation findings, and strengths and limitations of conducting program evaluation. Prerequisite: PBHL 5563 and HHPR 5353. (Typically offered: Fall)

PBHL 5353. Health Counseling. 3 Hours.
A review of the role and function of the health counselor including a focus on problem solving approaches for coping with daily problems of living, decision making, and life style planning. (Typically offered: Fall Odd Years)

PBHL 5533. Theories of Social and Behavioral Determinants of Health. 3 Hours.
This course will provide a basic foundation in the social and behavioral sciences relevant to public health. Students will learn the role of social and behavioral determinants in the health of individuals and of populations. Then, students will learn models and theories of health behavior, both generally and specifically. Generally, the student will learn how to identify, analyze, and use theoretical constructs and principles with particular attention to the use of theory in professional public health practice. Specifically, the student will learn the constructs and principles of several theories commonly used in public health behavior research and intervention design. The course will cover the four major individual that focus on intrapersonal factors (i.e., Health Belief Model, Transtheoretical Model, Theory of Reasoned Action/Planned Behavior, and Social Cognitive Theory) as well as several social, organizational, and community theories that are beyond the individual level. (Typically offered: Fall)

PBHL 5543. Contemporary Issues in Human Sexuality. 3 Hours.
Indepth analysis of the social, biological, and behavioral factors associated with the development of one’s sexuality. (Typically offered: Irregular)

PBHL 5563. Public Health: Practices and Planning. 3 Hours.
Acquaints the student with the structure, functions, and current problems in public health and with the role of education in public health. Prevention and control practices and planning will be emphasized. Prerequisite: PBHL 5573. (Typically offered: Spring)

PBHL 5573. Principles of Health Education. 3 Hours.
This is a required survey course that will ensure that all public health students, within their first full year of study, are exposed to the fundamental concepts and theories that provide the basis for the body of knowledge in the field of public health. Students will be introduced to fundamental principles, concepts and tools used in public health to understand and promote the health of populations. (Typically offered: Fall)

PBHL 5613. Epidemiology for Public Health Practice. 3 Hours.
This course will present principles and practices related to the prevention and control of health-related conditions in the human population. Emphasis will be placed on understanding the principle concepts of epidemiology, including aspects of disease distribution, epidemiologic methods, risk of disease and injury, descriptive and analytic epidemiologic methods and study designs, and application of epidemiologic data to the prevention and control of disease and injury. Format for every class will include lecture and small group seminars. (Typically offered: Fall)

PBHL 5623. Human Diseases. 3 Hours.
(Formerly PBHL 4623.) An examination of the variety, behavior, distribution, and management of both infectious and noninfectious diseases in human populations. Graduate degree credit will not be given for both PBHL 4623 and PBHL 5623. (Typically offered: Irregular)

PBHL 5633. Health Administration, Organizations, and Systems. 3 Hours.
This course provides an overview of management processes for public health professionals; basic principles of resource management; comparison of organization, structure, and function of health care, public health, and regulatory systems; and the application of systems thinking tools to public health issues. (Typically offered: Irregular)
PBHL 5643. Multicultural Health. 3 Hours.
Through lecture, discussion, simulations, and case studies, students will develop an appreciation for the cultural traditions and practices of different groups. The importance and implications of these traditions on health outcomes and health status will be examined. Particular attention will be paid to the role of the public health educator in mediating the impact of health disparities, including advocacy. Students will develop skills of cultural competence that are essential for public health practitioners today. Prerequisite: Graduate standing or consent. (Typically offered: Spring Even Years)

PBHL 5653. Social Determinants of Health. 3 Hours.
This course will provide a foundational perspective to systematically analyze health topics. Students will use the socioecological approach to comprehensively interpret social determinants of health and summarize their meaning in the context of public and global health promotion efforts. (Typically offered: Fall)

PBHL 574V. Internship. 1-6 Hour.
Internship in health behavior and health promotion. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

PBHL 589V. Independent Research. 1-6 Hour.
Development, implementation, and completion of graduate research project. Prerequisite: M.S. degree in Community Health Promotion and HHP 5353 and ESRM 5393. (Typically offered: Fall, Spring and Summer)

PBHL 600V. Master's Thesis. 1-6 Hour.
Thesis in health behavior and health promotion. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

PBHL 6013. Advanced Directed Research. 3 Hours.
This course is intended for doctoral students who wish to pursue research under the direction of a faculty member. In this course, doctoral students will work independently and collaborate with faculty member(s) and fellow students to conduct research in a specified area of interest. The purpose of the course is for the student to develop knowledge in her/his own domain, strengthen her/his research skills, and work collaboratively on research projects. The course will aim for students to present research findings at conferences and/or publish research findings in peer reviewed journals. The directed research course places more emphasis on the students' role as a researcher in an academic setting. Prerequisite: Admission to the Ph.D. program in Community Health Promotion. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

PBHL 605V. Independent Study. 1-6 Hour.
Provides students with an opportunity to pursue special study of education problems. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PBHL 6333. Health Behavior Research. 3 Hours.
A review of human behavior and its relationship to health and wellbeing. Focuses on contemporary health behavior research and instrumentation. (Typically offered: Fall Even Years)

PBHL 6553. Environmental Health. 3 Hours.
An analysis and evaluation of the various environmental factors that influence our health. Causes of problem factors are identified and solutions proposed for improving environmental conditions. (Typically offered: Spring)

PBHL 6733. Health and the Aging Process. 3 Hours.
An overview of the health-related issues facing elderly populations with in-depth study of the biological and behavioral changes associated with aging. (Typically offered: Irregular)

PBHL 6803. Health Communication Theory, Research and Practice. 3 Hours.
This course is designed to acquaint you with the role of communication in health education and with basic principles and practices in interpersonal, group, and mass communication. Health communication theory will be discussed in the first part of the semester, followed by important research in the area of health communication, and finally putting to practice the material will be the terminal experience for the course. (Typically offered: Spring Odd Years)

PBHL 6833. Principles of Epidemiology II. 3 Hours.
Provides students with knowledge and skills necessary to design, conduct, and interpret observational epidemiological concepts, sources of data, prospective cohort studies, retrospective cohort studies, case-control studies, cross-sectional studies, methods of sampling, estimating sample size, questionnaire design, and effects of measurement error. Corequisite: ESRM 5393 or ESRM 6403. (Typically offered: Spring and Summer)

PBHL 699V. Seminar. 1-6 Hour.
Discussion of selected topics and review of current literature in community health promotion. Prerequisite: Advanced graduate standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

Public Policy (PUBP)

Courses
PUBP 6001. Pro-Seminar. 1 Hour.
An introduction to the field of public policy and to the program. The seminar will address topics such as the meaning of public policy, policy research, the dissertation process, and particular issues of public policy concern. Prerequisite: Admission to program. (Typically offered: Fall)

PUBP 6013. Theories of Public Policy. 3 Hours.
This seminar introduces doctoral students to the major concepts, frameworks, and theories of public policy. Emphasis is on the usefulness and limitations of these frameworks and theories in empirical research. Prerequisite: Graduate standing. (Typically offered: Fall)

PUBP 6023. Law and Public Policy. 3 Hours.
This course focuses on the legal aspects of public policy, with emphasis on the regulatory process and its legal constraints. Also considered are the process of administrative decision making, judicial review, legislative oversight, and public access to government information. (Typically offered: Spring)

PUBP 6033. Community Development Policy and Practice. 3 Hours.
This course examines multiple community development definitions, the community capitals framework as well as theories, conceptual frameworks and processes and how these are linked, both historically and currently, to broad-based US public policy and specifically, housing and workforce development policies. (Typically offered: Summer)

PUBP 604V. Special Topics in Public Policy. 1-6 Hour.
Designed to cover specialized topics not usually presented in depth in regular courses. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

PUBP 6103. Policy Planning, Implementation, and Evaluation. 3 Hours.
This interdisciplinary seminar will explore the relationship between policy, public administration, and organizations in the community. Stakeholder groups will be considered as part of the newer approaches to practice-driven scholarship. The class will examine innovative approaches to decision making, strategic management and policy leadership in complex interorganizational and interagency settings. (Typically offered: Irregular)
PUBP 6113. Agenda Setting and Policy Formulation. 3 Hours.
Introduces agenda and policy formation focusing on the classic theoretical and empirical literature. The course is designed to introduce graduate students to a variety of theories typologies, concepts, and ideas relating to the study of public policy. (Typically offered: Fall)
PUBP 612V. Research Problems in Policy. 1-6 Hour.
Research problems. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.
PUBP 6134. Capstone Seminar in Public Policy. 4 Hours.
This course is intended to integrate various policy interests in a specific community-based project. Prerequisite: Instructor permission required. (Typically offered: Fall and Spring)
PUBP 6143. Mixed Method Research Design. 3 Hours.
Mixed method research is a multi-point research strategy that combines quantitative and qualitative research strategies into a single research project. (Typically offered: Irregular)
PUBP 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral dissertation. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Recreation and Sport Management (RESM) Courses

RESM 1003. Professional Foundations of Recreation and Sport Management. 3 Hours.
An analysis of the historical and philosophical development of recreation, sport and leisure. Theories of play, recreation, sport and leisure are studied. Economic, political, technical, and social forces are examined as these influence recreation, sport, parks, and leisure services is examined in context with diverse service delivery systems. Prerequisite: RESM major or RESM minor or instructor consent. (Typically offered: Fall and Spring)

RESM 1013. Sport Management Fundamentals. 3 Hours.
This course is designed to present an overview of the fundamentals of sport management in professional and intercollegiate sport, as well as issues facing sport organizations and how management techniques can be applied to solve sport business problems. A description of career opportunities in sport will be presented with special interest in helping the student design a course of study that best meets his/her goals. Prerequisite: RESMBS major or instructor consent. (Typically offered: Fall)

RESM 1023. Recreation and Natural Resources. 3 Hours.
An examination of the use and management of natural resources for outdoor recreation with consideration of multiple use, environmental ethics, risk management, and other current considerations. Several field visits will be required as part of the class, including a weekend outing. Prerequisite: RESM major or RESM minor or by instructor consent. (Typically offered: Fall, Spring and Summer)

RESM 2011. Recreation and Sport Practicum. 1 Hour.
Students are assigned to assist in leisure-oriented programs for exposure to organizational structure, services, and programming of cooperating recreational and sport agencies. Students may take 1-2 hours per semester; each credit hour is a 45-hour experience. Students must complete 2 different experiences before internship. Prerequisite: RESM 1003 or RESM 1013 with a grade of C or better. (Typically offered: Fall, Spring and Summer) May be repeated for up to 2 hours of degree credit.

RESM 2063. Commercial Recreation and Sport. 3 Hours.
Examination of the commercial recreation and sport industries. The operational requirement of a wide range of recreation businesses will be studied. Case study and field investigation methods will be emphasized. Prerequisite: RESM 1003 or RESM 1013 with a grade of C or better. (Typically offered: Fall and Spring)

RESM 2813. Recreation and Sport Leadership. 3 Hours.
Development of knowledge related to leadership theory, group dynamics, and face to face leadership techniques. Students gain an understanding of leadership theories as they are applied in a field setting. Pre- or Corequisite: COMM 1313. Prerequisite: RESM 1003 or RESM 1013 with a grade of C or better. (Typically offered: Fall and Spring)

RESM 2853. Leisure and Society. 3 Hours.
This course is an examination of leisure and its effect on society. Course content includes identification and exploration of motivating factors related to various traditional and contemporary leisure expressions as it occurs across diverse populations. (Typically offered: Fall, Spring and Summer)

RESM 2853H. Honors Leisure and Society. 3 Hours.
This course is an examination of leisure and its effect on society. Course content includes identification and exploration of motivating factors related to various traditional and contemporary leisure expressions as it occurs across diverse populations. (Typically offered: Fall and Spring)
This course is equivalent to RESM 2853.

RESM 3023. Sport Management Fundamentals. 3 Hours.
This course is designed to present an overview of the fundamentals of sport management in professional and intercollegiate sport, as well as issues facing sport organizations and how management techniques can be applied to solve sport business problems. A description of career opportunities in sport will be presented with special interest in helping the student design a course of study that best meets his/her goals. Prerequisite: RESM 1003 with a grade of C or better. (Typically offered: Fall)

RESM 3073. Managing College Athletics. 3 Hours.
This course examines modern college athletics and the issues facing today’s college athletics administrators. To appropriately do so, the course looks at the history of college athletics and accompanying issues. Further, the class will identify and discuss various constituencies of an athletics department as well as the various units within an athletics department. The class will examine the makeup of the NCAA and its operations as well as issues facing it. Prerequisite: RESM 1003 or RESM 1013 both with a C or better. (Typically offered: Fall)

RESM 3083. Research in Recreation and Sport. 3 Hours.
An introduction to the applied methods and techniques of research and evaluation in recreation and sport services. General consideration given to research applications such as needs assessment, program evaluation, and marketing studies. Emphasis placed on the logic underlying the research process. Prerequisite: Senior standing and RESM 1003 or RESM 1013 both with a grade of C or better. (Typically offered: Fall and Spring)

RESM 3083H. Honors Research in Recreation and Sport. 3 Hours.
An introduction to the applied methods and techniques of research and evaluation in recreation and sport services. General consideration given to research applications such as needs assessment, program evaluation, and marketing studies. Emphasis placed on the logic underlying the research process. Prerequisite: Honors candidacy and RESM 1003 or RESM 1013 both with a grade of C or better. (Typically offered: Fall and Spring)

RESM 3093. Diversity and Inclusion in Recreation and Sport Management. 3 Hours.
An introduction to the basic concepts of inclusive and special recreation and sport services integrated with knowledge and skill sets required to provide accessible recreation and leisure programming for people with disabilities. Prerequisite: RESM 1003 with a grade of C or better. (Typically offered: Spring)
RESM 3833. Program Planning in Recreation and Sport. 3 Hours.
Development of the fundamentals of program planning using modern techniques of identifying and analyzing program areas and community needs. Includes program development and application with a variety of population groups and representative leisure service areas. Prerequisite: RESM 1003 or RESM 1013 with a grade of C or better. (Typically offered: Spring)

RESM 3843. Recreation and Sport Facilities. 3 Hours.
Planning concepts, design principles, and maintenance techniques are emphasized. Also, technical design concepts and firsthand experiences in maintenance of facilities are included. Prerequisite: RESM 1003 or RESM 1013 with a grade of C or better. (Typically offered: Spring)

RESM 3873. Law and Risk for Recreation and Sport Management. 3 Hours.
In-depth look at risk management and related legal issues affecting recreation and sport administration. Pre- or Corequisite: RESM major or RESM minor or by instructor consent. Prerequisite: Junior standing, and RESM 1003 or RESM 1013 both with a grade of C or better. (Typically offered: Fall)

RESM 3883. Marketing and Promotion in Recreation and Sport Management. 3 Hours.
This course provides an overview of the principles and practices of promotions and marketing in the recreation and sport industry. Topics include sport marketing planning, market segmentation and identification of the target market, marketing mix, and sponsorship. Credits: three hours. Prerequisite: (RESM 1003 or RESM 1013 with a grade of C or better), and (ECON 2143 or (ECON 2013 and ECON 2023)). (Typically offered: Fall and Spring)

RESM 3901H. Honors Recreation and Sport Management Thesis Tutorial. 1 Hour.
Designed to provide the foundation for the Honors Thesis/Project. Students and faculty tutors work "one-on-one" exploring a specific topic which has been agreed upon by the student and the professor. Prerequisite: Honors candidacy, RESMBS major, and RESM 1003 with a grade of C or better. (Typically offered: Fall, Spring and Summer)

RESM 391V. Special Topics in RESM. 1-3 Hour.
Designed to cover specialized topics not presented in recreation and sport management coursework. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

RESM 4003. Management in Recreation and Sport. 3 Hours.
Management techniques for recreation and sport programs and facilities. Prerequisite: RESM 1003 or RESM 1013 with a grade of C or better. (Typically offered: Fall and Spring)

RESM 4013. Contemporary Issues in Leisure and Sport. 3 Hours.
Discussion of selected topics and review of current literature in the recreation and sport field. Analysis of current trends and professional issues are emphasized. Certification at the instructor level or higher in at least 2 areas of expertise must be completed before a grade is assigned in this course. Prerequisite: Senior standing and RESM 1003 or RESM 1013 with a grade of C or better. (Typically offered: Fall and Spring)

RESM 4023. Outdoor Adventure Leadership. 3 Hours.
This course considers the values and scope of outdoor recreation programs, leadership and skill development with practical experience in a wilderness environment. The course will include a canoe trip through the wilderness, and skill training in such areas as orienteering and rock climbing; and leadership development in interpersonal and processing skills. The graduate portion of the class is geared toward leading and trip planning for taking college age and older students into remote areas. Graduate degree credit will not be given for both RESM 4023 and RESM 5023. (Typically offered: Summer)

RESM 405V. Independent Study in Recreation and Sport. 1-3 Hour.
Provides student an opportunity to pursue special study of research problems. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

RESM 4273. The Intramural Sports Program. 3 Hours.
Historical development, aim and objectives, organization, administration, units of competition, program of activities, schedule making, scoring plans, rules and regulations, awards, and special administrative problems. (Typically offered: Fall Odd Years)

RESM 4283. History and Application of American Sport. 3 Hours.
This survey course will explore the historical development of sport in American culture and the processes of change in American culture and sport from the 15th century to the present. Students will learn how to apply historical concepts to current issues in recreation and sport management. (Typically offered: Irregular)

RESM 440V. Internship. 1-12 Hour.
This experiential based course requires 40 hours per week of work in an approved agency for a full semester. It is recommended that students register for the summer session after completion of their course work. Prerequisite: RESM 3873 and two hours of RESM 2011 with grades of C or better. (Typically offered: Fall, Spring and Summer)

RESM 4411. Pre-Internship Preparation. 1 Hour.
Enables student preparation for internship experiences and eventual employment. Course will assist students in preparation of resumes; provide opportunities for interview practice; the development of job search and application skills, as well as other requisites for entering the professional workforce. Prerequisite: RESM 1003 or RESM 1013, both with a grade of C or better. Pre- or Corequisite: RESM 3873. (Typically offered: Fall)

RESM 480V. Workshop. 1-3 Hour.
Workshop. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

RESM 489VH. Honors Recreation and Sport Management Thesis/Project. 1-3 Hour.
Designed to provide facilitation of the Honors Thesis/Project. Students and faculty work "one-on-one" to complete the honors thesis/project. Prerequisite: Honors candidacy, RESMBS major, and RESM 3901H. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

RESM 5023. Outdoor Adventure Leadership. 3 Hours.
(Formerly RESM 4023.)This course considers the values and scope of outdoor recreation programs, leadership and skill development with practical experience in a wilderness environment. The course will include a canoe trip through the wilderness, and skill training in such areas as orienteering and rock climbing; and leadership development in interpersonal and processing skills. The graduate portion of the class is geared toward leading and trip planning for taking college age and older students into remote areas. Graduate degree credit will not be given for both RESM 4023 and RESM 5023. (Typically offered: Summer)

RESM 5273. The Intramural Sports Program. 3 Hours.
(Formerly RESM 4273.) Historical development, aim and objectives, organization, administration, units of competition, program of activities, schedule making, scoring plans, rules and regulations, awards, and special administrative problems. Graduate degree credit will not be given for both RESM 4273 and RESM 5273. (Typically offered: Fall Odd Years)

RESM 5283. History and Application of American Sport. 3 Hours.
This survey course will explore the historical development of sport in American culture and the processes of change in American culture and sport from the 15th century to the present. Students will learn how to apply historical concepts to current issues in recreation and sport management. (Typically offered: Irregular)
RSOC 5293. Athletics and Higher Education. 3 Hours.
This course features an examination of the historical development of athletics within American institutions of higher learning with an emphasis upon concepts and ideals that underlie the developments and the major problems affecting contemporary intercollegiate athletics. The purpose of this course is to teach the learner about the development of intercollegiate athletics from the mid-19th century to today. A second purpose of this course is to examine the major issues facing sport administrators within intercollegiate athletics today. (Typically offered: Spring and Summer)

RSOC 5333. Sport Media and Public Relations. 3 Hours.
The course will explore the relationship between media organizations and sport organizations, with an emphasis on the business of media rights, as well as public relations theories such as two-way symmetrical communication and agenda setting. Finally, the course will examine practical communication tactics employed by public relations practitioners such as image repair and crisis communications, and the issues presented by forms of new media. (Typically offered: Fall)

RSOC 5463. Sports Facilities Management. 3 Hours.
Considers basic elements and procedures in the planning, design, construction, operation, and maintenance of sport facilities; management considerations in conducting various types of events. (Typically offered: Summer)

RSOC 560V. Workshop. 1-3 Hour.
Workshop. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

RSOC 574V. Internship. 1-3 Hour.
This experiential-based course requires 135 hours per semester of work in a recreation or sport setting. (Typically offered: Fall, Spring and Summer)

RSOC 5813. Social Issues in Sport. 3 Hours.
Using sociological theories and scholarship to examine social and cultural influences on sport and physical activity. Course is based on a social justice framework and a cultural studies perspective. (Typically offered: Fall and Summer)

RSOC 5833. Recreation and Sport for Special Populations. 3 Hours.
Skills, knowledge, and concepts within recreation and sport which are appropriate to planning and implementing recreation and sport programs and services for the handicapped. (Typically offered: Irregular)

RSOC 5843. Tourism. 3 Hours.
Explores major concepts of tourism to discover what makes tourism work, how tourism is organized, and its social and economic effects. (Typically offered: Spring)

RSOC 5853. Capstone in Recreation and Sport Management. 3 Hours.
Capstone course where students utilize program courses to solve administrative issues which may arise in an organization. Attention is given to how departmental organization, administrative practices and policies, strategic planning, personnel management, finances, and legal areas are integrated to create solutions to broad-based contemporary issues. (Typically offered: Spring)

RSOC 5873. Leadership in Recreation and Sport Management Services. 3 Hours.
Considers research, theory, and practical applications of leadership principles utilized in the provision of recreation and sport management services. Focus is on motivation, attitude, communication, group dynamics, and problem solving. (Typically offered: Fall and Summer)

RSOC 5883. Recreation and Sport Services Promotion. 3 Hours.
Examines specific strategies for promoting recreation and sport programs in the local community. (Typically offered: Summer)

RSOC 5893. Public and Private Finance in Recreation and Sport Management. 3 Hours.
Develops an understanding of both public and private finance management for students in public and private management positions. Provides an understanding of the budgeting processes and techniques used in obtaining and controlling funds, including private sector finance problems in areas of credit, pricing, indexing, and debt management. (Typically offered: Fall)

RSOC 600V. Master's Thesis. 1-18 Hour.
Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

RSOC 605V. Independent Study. 1-3 Hour.
Independent study. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

RSOC 612V. Directed Reading in Recreation and Sport. 1-3 Hour.
Critical analysis of literature in the area of recreation and sport. (Typically offered: Fall, Spring and Summer)

RSOC 6133. Issues in RESM. 3 Hours.
A review of the significant social, demographic, behavioral, developmental, and technological issues that influence health, kinesiology, and recreation and sport management programs. Prereq- or corequisite: Doctoral level students only. (Typically offered: Irregular)

RSOC 6533. Legal and Political Aspects. 3 Hours.
An overview of major legislation affecting recreation and sport management professions; how to operate within these laws; and methods for influencing new legislation. Also discusses political aspects of professions both outside and inside government agencies. (Typically offered: Spring)

RSOC 674V. Internship. 1-3 Hour.
Students will learn diverse teaching techniques and implement them in an ongoing undergraduate recreation and sport management class serving as the teaching laboratory. The "what," "when," and "how" relative to integrating various teaching techniques with specific content areas in the class will be explored by both the student and the instructor. (Typically offered: Fall, Spring and Summer)

Rural Sociology (RSOC)
Courses
RSOC 5603. Community and Natural Resources. 3 Hours.
Introduction to the breadth of considerations involved in community resource management, including theoretical frameworks, methodological investigations and applied practices to enhance the ability of community development professionals to work with their communities to plan, develop and monitor the conservation and development of natural resources with multiple functions. (Typically offered: Irregular)

RSOC 600V. Master's Thesis. 1-6 Hour.
Master's Thesis. Prerequisites: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

RSOC 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Russian (RUSS)
Courses
RUSS 1003. Elementary Russian I. 3 Hours.
First semester of Russian intended for students who have not studied the language before. Students learn how to read and write in the Cyrillic alphabet, as well as communicate on basic topics and gain cultural awareness about the modern Russian-speaking world. (Typically offered: Fall)
RUSS 1013. Elementary Russian II. 3 Hours.
A continuation of RUSS 1003. Continues developing basic listening, communicative, cultural, speaking, reading, and writing skills. Prerequisite: RUSS 1003. (Typically offered: Spring)

RUSS 2003. Intermediate Russian I. 3 Hours.
Focuses on mastering speaking, writing, reading, listening skills and cultural awareness using a variety of different texts and cultural material. Prerequisite: RUSS 1013. (Typically offered: Fall)

RUSS 2013. Intermediate Russian II. 3 Hours.
Continues expanding students’ writing, reading, listening, and communicative skills by leading them to intermediate advanced level. Prerequisite: RUSS 2003. (Typically offered: Spring)

RUSS 3003. Advanced Russian I. 3 Hours.
Through reading and discussing contemporary political and historical events students advance their speaking, listening, and writing skills. The course builds on and advances the language skills acquired in RUSS 2013 Intermediate Russian II. Prerequisite: RUSS 2013, or equivalent language skills that will be equal to four semesters of language instruction. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

RUSS 4113. Special Themes in Russian. 3 Hours.
Covers topics not normally dealt with in period courses. Sample topics include gender and sexuality, war and memory, Holocaust, art and protest, modernism/post-modernism, Jewish writers, and cinema. Topics announced one semester in advance. This course is taught in English. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit. This course is cross-listed with WLIT 4113.

RUSS 4123. Survey of Russian Literature from Its Beginning to the 1917 Revolution. 3 Hours.
The instructor will discuss the historical and cultural backgrounds while focusing on major writers and will deal with literature as an outlet for social criticism. There will be textual analysis. It will be taught in English. (Typically offered: Irregular) This course is cross-listed with WLIT 4123.

RUSS 4133. Survey of Russian Literature Since the 1917 Revolution. 3 Hours.
The instructor will discuss the historical and cultural backgrounds while focusing on major writers and will deal with literature as an outlet for social criticism. There will be textual analysis. It will be taught in English. Graduate degree credit will not be given for both RUSS 4123 and RUSS 5123. (Typically offered: Irregular)

RUSS 5113. Special Themes in Russian. 3 Hours.
Covers topics not normally dealt with in period courses. Sample topics include gender and sexuality, war and memory, Holocaust, art and protest, modernism/post-modernism, Jewish writers, and cinema. Topics announced one semester in advance. This course is taught in English. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

RUSS 5133. Survey of Russian Literature Since the 1917 Revolution. 3 Hours.
The instructor will discuss the historical and cultural backgrounds while focusing on major writers and will deal with literature as an outlet for social criticism. There will be textual analysis. It will be taught in English. Graduate degree credit will not be given for both RUSS 4123 and RUSS 5133. (Typically offered: Irregular) This course is cross-listed with WLIT 5133.

RUSS 575V. Special Investigations. 1-6 Hour.
Special investigations. (Typically offered: Fall and Spring) May be repeated for degree credit.

STEM Education for Early Childhood (STEM) Courses

STEM 2003. The Art of STEM Communication. 3 Hours.
It is widely known that breakdown of communication contributes to mistrust and misunderstanding of the scientific enterprise. In this dynamic, interdisciplinary course including guest lectures, socio-scientific issues, and theatre-style methods, students will learn to communicate complex STEM topics clearly and effectively using research-based practices from the field of education. (Typically offered: Fall and Spring)

STEM 2103. Knowing and Learning in Science and Mathematics. 3 Hours.
This course examines theories of learning to provide a firm foundation for teaching, learning, and communicating within STEM disciplines. Drawing from scholarship in educational psychology and other disciplines, students explore implications for designing effective learning environments, the relationship between communication and learning, and how learning is influenced by culture. (Typically offered: Fall)

STEM 3203. Classroom Interactions. 3 Hours.
This course examines the interaction between teachers, students, and content, and how effective communication and pedagogical knowledge contribute to development of conceptual understanding of STEM subjects. Students learn a variety of lesson planning and instructional strategies to engage students of diverse backgrounds and implement in a high school practicum. Prerequisite: STEM 2103. (Typically offered: Spring)

STEM 3303. Project Based Instruction for Secondary Mathematics and Science. 3 Hours.
This teacher preparation course focuses on the integration of mathematics and science concepts in project-based lessons to model ways used by scientists, mathematicians, and engineers in addressing real world problems. Each student team will design and teach a project-based unit and evaluate its effectiveness in a secondary classroom. Prerequisite: STEM 2203 or instructor consent. (Typically offered: Fall)

STEM 4033. Introduction to STEM Education. 3 Hours.
This course provides an introduction to the foundations of STEM education disciplines and the strategies used to deliver integrative STEM education in the elementary and secondary school setting. The nature of STEM education disciplines, STEM pedagogy, teaching strategies, integrative STEM learning, STEM careers, and problem-centered instruction are addressed. (Typically offered: Spring and Summer)

STEM 4043. Creativity and Innovation in STEM Education. 3 Hours.
This course in technology and engineering education focuses on the development and introduction of technology and engineering-based activities to support science and mathematics instruction in the elementary and middle level classroom. Through hands-on, problem based learning challenges, students will develop an understanding of the design process and the integration of science, technology, engineering, and mathematics (STEM) often used to solve real-world problems. Prerequisite: STEM 4033. (Typically offered: Spring)
STEM 4104. Astronomy for Educators. 4 Hours.
Astronomy for Educators splits evenly between the basics of astronomy and practical methods for teaching astronomy effectively to all grade levels. The class is appropriate and effective for elementary, middle school, and secondary educators. Pedagogy focuses on the use of low-cost models that help all students grasp astronomy fundamentals such as phases of the Moon and how our solar system works. Lab activities include building and working with scientific models, evening lab activities give students the opportunity to use telescopes and binoculars to observe the Moon, planets, constellations and more. No prior experience or astronomy knowledge is assumed for this course. (Typically offered: Fall and Spring)

STEM 4333. History and Philosophy of Science for Science Teachers. 3 Hours.
The History and Philosophy of Science for Science Teachers explores knowledge generation in the sciences by referencing the history and philosophy of the sciences. The course prepares future teachers with the background, rationales and strategies necessary to enhance student knowledge and interest in these important foundation areas. (Typically offered: Spring)

STEM 4506. Supervised Clinical Teaching Internship. 6 Hours.
Supervised Clinical Teaching is the apprenticeship experience for students preparing for careers as mathematics, science, and computer science teachers. Teacher interns will teach at the secondary level with mentoring provided by university supervisors and experienced classroom educators. A required weekly seminar will address experiences, questions and problems encountered in the field. Prerequisite: STEM 4003 or STEM 4033 or CATE 4073. (Typically offered: Fall and Spring)

STEM 5023. Creativity and Innovation in STEM. 3 Hours.
This introductory course in technology and engineering education (TEED) focuses on the development and introduction of TEED activities to support science and mathematics instruction in the elementary classroom. Through hands-on, problem-based learning challenges, students will develop and understand the importance of the engineering design process and the integration of STEM often used to solve real-world problems. Prerequisite: STEM 4033 or STEM 5033 (formerly STEM 4033). (Typically offered: Fall and Summer)

STEM 5033. Introduction to STEM Education. 3 Hours.
(Formerly STEM 4033.) This course provides an introduction to the foundations of STEM education disciplines and the strategies used to deliver integrative STEM education in the elementary and secondary school setting. The nature of STEM education disciplines, STEM pedagogy, teaching strategies, integrative STEM learning, STEM careers, and problem-centered instruction are addressed. Graduate degree credit will not be given for both STEM 4033 and STEM 5033. (Typically offered: Spring and Summer)

STEM 5104. Astronomy for Educators. 4 Hours.
(Formerly STEM 4104.) Astronomy for Educators splits evenly between the basics of astronomy and practical methods for teaching astronomy effectively to all grade levels. The class is appropriate and effective for elementary, middle school, and secondary educators. Pedagogy focuses on the use of low-cost models that help all students grasp astronomy fundamentals such as phases of the Moon and how our solar system works. Lab activities include building and working with scientific models, evening lab activities give students the opportunity to use telescopes and binoculars to observe the Moon, planets, constellations and more. No prior experience or astronomy knowledge is assumed for this course. Graduate degree credit will not be given for both STEM 4104 and STEM 5104. (Typically offered: Fall and Spring)

STEM 5203. Problem-Based Mathematics. 3 Hours.
This graduate level course focuses on sharing, modeling and practicing strategies to support the meaningful integration of science, technology, engineering and mathematics (STEM) with the emphasis on mathematics in the K-4 classroom. A strong foundation for integrating the STEM disciplines through a problems-based approach within the elementary curriculum will be developed by providing students with theoretical frameworks, research, resources, and methods related to appropriate and effective classroom practice. Prerequisite: CIED 3123. (Typically offered: Fall and Spring)

STEM 5213. Teaching Problem-Based Science in the Elementary Grades. 3 Hours.
This graduate level course focuses on sharing, modeling and practicing strategies to support the meaningful integration of science, technology, engineering and mathematics (STEM) with the emphasis on science in the K-4 classroom. A strong foundation for integrating the STEM disciplines through a problems-based approach within the elementary curriculum will be developed by providing students with theoretical frameworks, research, resources, and methods related to appropriate and effective classroom practice. Prerequisite: CIED 3143 and admission to either Elementary Education (ELEDMA) or Curriculum and Instruction (CiEDME) program. (Typically offered: Spring)

Secondary Education (SEED) Courses
SEED 3283. Teaching Experiences in Education. 3 Hours.
The field experience is an essential component of the Bachelor of Arts in Teaching degree. The field experience allows Teacher Candidates (TC) to make further application of theoretical principles of teaching and learning. Teacher Candidates will be assigned placement in an area school for the length of the fall semester. During this assignment, the TC will both observe and participate in teaching. Prerequisite: Admission to B.A.T. (Typically offered: Fall)

SEED 4003. Teaching Secondary Science. 3 Hours.
Study of the methods and materials for teaching science. Includes philosophical, cognitive, and psychological dimensions of teaching science. The planning of instruction, microteaching, safety and liability issues, and the development of instructional materials are included. Prerequisite: STEM 2033. (Typically offered: Fall)

SEED 4022. Classroom Management Concepts. 2 Hours.
A number of different classroom management techniques are studied. It is assumed that a teacher must possess a wide range of knowledge and skills to be an effective classroom manager. Prerequisite: Admission to B.A.T. program. (Typically offered: Fall and Spring)

SEED 4063. Disciplinary and Interdisciplinary Literacies in Education. 3 Hours.
This course teaches the integration of reading, writing, and new literacies within the discipline and across disciplines. Theory and strategy are presented as integrated strands of the language process as presented in the context of instructional principles and suggested teaching practices. A solid research base is emphasized while keeping the focus on practical application. Prerequisite: Admission to B.A.T. program. (Typically offered: Fall and Spring)

SEED 4103. Methods of Teaching Secondary Social Studies I. 3 Hours.
Study of the methods and materials in social studies. Includes philosophical, cognitive, and psychological dimensions of teaching. The planning of instruction, microteaching, and the development of instructional materials are included. Prerequisite: Admission to the B.A.T. program. (Typically offered: Fall and Spring)

SEED 4113. Teaching History, Government and Economics. 3 Hours.
Study of the methods and materials in teaching history, government and economics. Includes philosophical, cognitive, and psychological dimensions of teaching, planning of instruction, microteaching, and the development of instructional materials are included. (Typically offered: Fall and Spring)
SEED 4203. English Language Arts/Speech & Drama Methods of Instruction. 3 Hours.
This course provides an introduction to teaching English language arts (ELA) and
speech/drama in the context of elementary, middle and high school settings. The
topics, issues, methods, and materials encompassing philosophical, cognitive, and
psychological dimensions of teaching the content area provide the major tenets of
instruction. Prerequisite: Admission to B.A.T. program leading to licensure. (Typically
offered: Fall and Spring)

SEED 4213. Issues and Trends in Literacy. 3 Hours.
This course provides an examination of practices to teaching literacy, broadly
defined. The topics, issues, methods, and materials encompassing philosophical,
cognitive, and psychological dimensions of teaching provide the major tenets of
instruction. Prerequisite: Admission to B.A.T. program leading to licensure. (Typically
offered: Fall and Spring)

SEED 4303. Teaching Secondary Mathematics I. 3 Hours.
Study of the theories that have influenced teaching and learning of mathematics.
Specific frameworks of secondary students' mathematical thinking and learning
trajectories will be examined. Implications for instruction will be explored.
Prerequisite: STEM 3203. (Typically offered: Fall)

SEED 4313. Teaching Secondary Mathematics II. 3 Hours.
Framed by current literature in mathematics education, teacher candidates will
deepen their knowledge of effective practices for teaching mathematics and their
understanding of the essential elements of school mathematics programs such as
access and equity, curriculum, and assessment. The course will focus on pedagogy
for teaching high school mathematics content. Pre- or Corequisite: STEM 3203.
(Typically offered: Spring)

SEED 4443. Methods of Teaching Foreign Language K-12. 3 Hours.
Study of the methods and materials in the teaching of foreign language in K-12 settings as well as the theories of second language acquisition. Includes
philosophical, cognitive, and psychological dimensions of teaching foreign
languages. The planning of instruction, microteaching, and the development of
 instructional materials are included. Prerequisite: Admission to the B.A.T. program.
(Typically offered: Fall and Spring)

SEED 4523. Instructional Practices in Teaching Foreign Language. 3 Hours.
A pedagogical studies course based on the theoretical and practical aspects of
methods, techniques, and materials for effective teaching of foreign languages in
K-12 schools. Prerequisite: Admission to B.A.T. Program leading to licensure.
(Typically offered: Fall and Spring)

SEED 5003. Introduction to Teaching Secondary Science. 3 Hours.
Study of the methods and materials for teaching science. Includes philosophical,
cognitive, and psychological dimensions of teaching science. The planning of
instruction, microteaching, safety and liability issues, and the development of
 instructional materials are included. Prerequisite: Admission to Teacher Education
(EDUCMA) M.A.T. program. (Typically offered: Summer) May be repeated for up to
6 hours of degree credit.

SEED 5013. Teaching Secondary Science: Theory to Practice. 3 Hours.
This course is a continuation of SEED 5003, Introduction to Teaching Secondary
Science, and is taken concurrently with CIED 528V, Secondary Cohort Teaching
Internship. Students will receive instruction in advanced methodologies for teaching
science and will reflect on their experiences in their internships. Corequisite:
CIED 528V. Prerequisite: SEED 5003. (Typically offered: Fall)

SEED 5103. Methods of Teaching Secondary Social Studies I. 3 Hours.
Study of the methods and materials in social studies. Includes philosophical,
cognitive, and psychological dimensions of teaching. The planning of instruction,
microteaching, and the development of instructional materials are included.
Prerequisite: Admission to Teacher Education (EDUCMA) M.A.T. program.
(Typically offered: Summer)

SEED 5113. Teaching History, Government and Economics. 3 Hours.
Study of the methods and materials in teaching history, government and economics.
Includes philosophical, cognitive, and psychological dimensions of teaching,
planning of instruction, microteaching, and the development of instructional materials
are included. Prerequisite: Admission to Teacher Education (EDUCMA) M.A.T.
program. (Typically offered: Fall)

SEED 528V. Secondary Field Experience. 1-6 Hour.
Student teaching in grades 7-12 to be specific to the fall semester experience of the
Secondary Education Master of Arts in Teaching program. Students will practice and
master instructional strategies under the supervision of qualified mentor teachers
and university faculty members. (Typically offered: Fall) May be repeated for up to 9
hours of degree credit.

SEED 5303. Teaching Secondary Mathematics. 3 Hours.
Study of the methods and materials in teaching middle, junior high, and high school
mathematics. Philosophical, cognitive, and psychological dimensions of teaching
secondary topics including, but not limited to algebra, geometry, and statistics. The
planning of instruction, microteaching, and the development of instructional materials
are included. Prerequisite: Admission to Teacher Education (EDUCMA) M.A.T.
program. (Typically offered: Summer)

SEED 5313. Theories of Learning Mathematics. 3 Hours.
Examination of research results related to student learning and achievement in
secondary mathematics in the areas of rational numbers, algebraic reasoning,
geometric proof, and data and probability. Prerequisite: SEED 5303. (Typically
offered: Fall)

SEED 5413. Instructional Practices in Teaching Foreign Language. 3 Hours.
The theoretical and practical aspects of methods, techniques, and materials for
effective teaching of foreign/second languages in K-12 schools. Prerequisite:
Admission to the M.A.T. program. (Typically offered: Fall)

SEED 5503. Teaching Secondary Mathematics and Science. 3 Hours.
Study of the methods and materials for teaching secondary mathematics and
science. Includes the philosophical, cognitive, and psychological dimensions of
teaching mathematics and science. The planning of instruction, microteaching, and
the development of instructional materials are included. Prerequisite: Admission to
the M.A.T. program. (Typically offered: Summer)

Social Work (SCWK) Courses

SCWK 2133. Introduction to Social Work. 3 Hours.
Introduction to social work as a profession and to social welfare institutions from the
perspective of the generalist, entry level social worker. Emphasis on empowerment
function of social work. (Typically offered: Fall, Spring and Summer)

SCWK 3013. Child Advocacy I: Perspectives on Child Maltreatment and Child
Advocacy. 3 Hours.
Introductory course in child advocacy studies training. Covers the history,
comparative perspectives, legal framework, responses to child maltreatment, skills
necessary to do the work, other pertinent issues pertaining to child maltreatment
and child advocacy. (Typically offered: Fall)

SCWK 3163. On Death and Dying. 3 Hours.
Reviews the theory and humanistic importance of the concepts of death and dying in
society. An experimental option and interdisciplinary faculty presenters will be part of
the format. (Typically offered: Irregular)
SCWK 3193. Human Diversity and Social Work. 3 Hours.
An introduction to information basic concepts related to human diversity and social work. Provides content on differences and similarities in the experiences, needs, and beliefs of people distinguished by race, ethnicity, culture, class, gender, sexual orientation, religion, physical or mental ability, age or national origin. The Live Section of this course is for Social Work Majors, Minors, and Pre-Social Work students only. The Online Section (901) is open to Non-Social Work Majors. Prerequisite: Social Work major, minor or Pre-SCWK students for live sections only. Online sections (901) open to students in other departments. (Typically offered: Fall, Spring and Summer)

SCWK 3233. Contemporary Issues in Juvenile Justice. 3 Hours.
This course is designed as a discussion of contemporary issues in juvenile justice. The focus is on the child and family system, including various theories related to underlying causes for involvement in the juvenile courts. This course will also describe the current workings of the juvenile court system and implications for the future. (Typically offered: Fall, Spring and Summer)

Study of the needs of deprived children with some attention to methods and standards of care. Cultural competence and family-centered practice are emphasized. (Typically offered: Irregular)

SCWK 399VH. Honors Course. 1-18 Hour.
Honors course. Prerequisite: Junior standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

SCWK 4013. Child Advocacy II: Professional and System Responses to Child Maltreatment. 3 Hours.
Continuation of Child Advocacy Studies I. Focuses on the responses of professionals to allegations of child maltreatment. Covers competency-based skills training including forensic interviewing and documentation. Prerequisite: SCWK 3013. (Typically offered: Spring)

SCWK 4023. Child Advocacy III: Responding to the Survivor of Child Abuse. 3 Hours.
Continuation of Child Advocacy Studies II. Provides training to recognize the effects of child maltreatment and to develop intervention strategies for children and their families. Outside experiential activities for this course include court room observations. Prerequisite: SCWK 3013 and SCWK 4013. (Typically offered: Summer)

SCWK 405V. Special Topics in Social Work. 1-6 Hour.
Comprehensive study of various topics of importance in contemporary social welfare and social work practice. Prerequisite: Junior standing. (Typically offered: Irregular) May be repeated for degree credit.

SCWK 4073. Social Work Research and Technology I. 3 Hours.
An overview of forms and sources of social work research including existing social data, techniques for collecting original social data, and techniques of organization, interpretation, and presentation of data. Students will also become proficient in the use of current technology for social work research and practice. Prerequisite: Social Work major, minor or Pre-SCWK students for live sections only. Online sections (901) open to students in other departments. (Typically offered: Fall, Spring and Summer)

SCWK 4093. Human Behavior and the Social Environment I. 3 Hours.
Provides a conceptual framework for knowledge of human behavior and the social environment with a focus on individuals. Social systems, life-course, assets, and resiliency-based approaches are presented. Special attention is given to the impact of discrimination and oppression on the ability to reach or maintain optimal health and well-being. Prerequisite: COMM 1313, PSYC 2003, SOCI 2013, SCWK 2133, and SCWK 3193 and (BIOL 1543 and BIOL 1541L, or ANTH 1013 and ANTH 1011L). (Typically offered: Fall and Spring)

SCWK 4103. Human Behavior and the Social Environment II. 3 Hours.
This course applies the basic framework for creating and organizing knowledge of human behavior and the social environment acquired in HBSE I to the understanding of family, group, organizational, community, and global systems. Attention is given to discrimination, oppression, the impact of technology, and poverty at each system level. Prerequisite: SCWK 4093 and SCWK 4153. (Typically offered: Fall and Spring)

SCWK 4143. Addiction and the Family. 3 Hours.
Introduction to the biophysical basis of chemical and behavior compulsions with special focus on family impacts. Childhood development within addictive families is also examined. Social work intervention with substance abusing families is highlighted. (Typically offered: Irregular)

SCWK 4153. Social Welfare Policy. 3 Hours.
Describes and analyzes the policies and services rendered by local, state, regional, national, and international agencies as well as the policy implications for social work practice. Students prepare to advocate social policy changes designed to improve social conditions, promote social and economic justice, and to empower at-risk populations. Prerequisite: COMM 1313, PLSC 2003, SCWK 2133, and SCWK 3193. (Typically offered: Fall and Spring)

SCWK 4163. African American Perspectives of Trauma, Loss, and Recovery. 3 Hours.
Explores dimensions of trauma, loss, and recovery within the lived experiences of African American individuals, families, and communities in the United States. Prerequisite: Junior standing or instructor consent. (Typically offered: Fall)
This course is cross-listed with AAST 4163.

SCWK 4173. Social Work with African American Families. 3 Hours.
An overview of historical and contemporary issues of African American families using culturally competent and strengths based frameworks. Focuses on the Black family as a social institution. Covers current trends affecting Black families, historical influences, evaluation of social policies, and programs of today. Prerequisite: Junior standing or instructor consent. (Typically offered: Irregular)
This course is cross-listed with AAST 4173.

SCWK 4183. Social Work with Elders. 3 Hours.
Survey of theories of gerontology, service programs and unmet needs of the aging citizen. (Typically offered: Irregular)

SCWK 4213. The Diagnosis and Treatment of Substance Use Disorders. 3 Hours.
Explores the use and abuse of drugs and alcohol with an emphasis on evidence-based treatment approaches to help engage and treat chemically dependent clients. Best practices to be reviewed will include Motivational Interviewing (MI), Cognitive Behavioral Therapy (CBT), harm reduction approaches, Medication Assisted Treatment (MAT), and Dialectical Behavioral Therapy (DBT). (Typically offered: Fall, Spring and Summer)

SCWK 4243. Impact of Policy on Addiction. 3 Hours.
Explores the history of drug policy in the United States, focusing on the relationship between people, drugs, and the criminalization of certain substances. Examines how other countries have developed and utilized harm reduction and decriminalization approaches and policies. (Typically offered: Fall, Spring and Summer)

SCWK 4253. Spirituality and Social Work Practice. 3 Hours.
This course prepares students to respond competently and ethically to diverse spiritual and religious perspectives. Utilizing social work ethics and values as a guide, students will develop a comparative, critically reflective approach to practice. Prerequisite: SCWK 3193 or instructor consent. (Typically offered: Fall and Spring)
SCWK 4333. Social Work Practice I. 3 Hours.
This is the first in the sequence of practice courses introducing students to the
generalist approach to micro social work. This course focuses on developing a solid
foundation for practice with individuals, including learning basic communication and
helping skills, values, principles, and the connection of theory to practice. Pre- or
Corequisite: SCWK 4103. Prerequisite: SCWK 4093 and SCWK 4153. (Typically offered: Fall and Spring)

SCWK 4343. Social Work Practice II. 3 Hours.
This is the second course in the social work practice sequence, emphasizing
theories, models, and techniques related to generalist practice with families
and groups. The course elaborates on system theory as it impacts groups and
families, and use of experiential teaching methods. Prerequisite: SCWK 4103 and
SCWK 4333. (Typically offered: Fall and Spring)

SCWK 4412. Field Seminar I. 2 Hours.
An integrative seminar to assist students in comparing their practice experiences,
integrating knowledge acquired in the classroom, and expanding knowledge beyond
the scope of the practicum setting. Corequisite: SCWK 4434 and social work majors
only. (Typically offered: Fall, Spring and Summer)

SCWK 4422. Field Seminar II. 2 Hours.
An integrative seminar to assist students in comparing their practice experiences,
integrating knowledge acquired in the classroom, and expanding knowledge beyond
the scope of the practicum setting. Corequisite: SCWK 4444. Prerequisite: Social
Work majors only. (Typically offered: Fall, Spring and Summer)

SCWK 4434. Social Work Internship I. 4 Hours.
Arranged in connection with social service agencies. Credit is based on completion
of all course objectives, including a minimum of 220 hours of field work under the
supervision of a licensed social worker. Corequisite: SCWK 4412. Prerequisite:
Social work major, SCWK 4073, SCWK 4103, and SCWK 4333. (Typically offered: Fall, Spring and Summer)

SCWK 4444. Social Work Internship II. 4 Hours.
Arranged in connection with social service agencies. Credit is based on completion
of all course objectives, including a minimum of 220 hours of field work under the
supervision of a licensed social worker. Corequisite: SCWK 4422. Prerequisite:
SCWK majors only, SCWK 4343, SCWK 4733 and SCWK 4434. (Typically offered: Fall, Spring and Summer)

SCWK 4523. Ethics and Aging. 3 Hours.
Explores the complexities of aging and ethical decision making with older adult
clients. Students learn to identify ethical dilemmas and to appreciate structured
ethical decision making, generalizing the information learned across all populations
served. (Typically offered: Irregular)

Prepares students to identify, assess, and respond to the various historical and
contemporary factors impacting the welfare of children around the world and focuses
on factors such as health, maltreatment, culture, policy, education, and social
advocacy. (Typically offered: Fall, Spring and Summer)

SCWK 4733. Social Work Practice III. 3 Hours.
Students acquire and practice the skills, knowledge, and values necessary for
culturally competent generalist social work practice with organizations and
communities. Special attention is given to the implications of discrimination
and oppression for attaining social and economic justice. Pre- or Corequisite:
SCWK 4103 and SCWK 4343. Prerequisite: SCWK 4333. (Typically offered: Fall and Spring)

SCWK 4753. Grantwriting. 3 Hours.
Provides advanced theoretical and practical approaches to program planning
and development in order to write grant applications. Emphasis is placed on
the importance of developing the practice skills of program planning, understanding
program performance, identifying funders, responding to requests for proposals and
writing successful grant proposals. (Typically offered: Irregular)

SCWK 496V. Independent Study. 1-6 Hour.
Independent Study designed to meet the particular needs of individual students.
(Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCWK 5003. Foundations of Culturally Competent Social Work Practice. 3 Hours.
The purpose of this course is the acquisition and demonstration of beginning
graduate-level social work values and ethics, knowledge, and skills necessary
for cultural competence in work with individuals, families, groups, organizations,
communities, and global contexts. A multi-systems life-course conceptual framework
is used. Prerequisite: Admission to the two-year or part-time MSW program.
(Typically offered: Fall)

SCWK 5013. Bridge Course: Evidenced Based Social Work. 3 Hours.
This course prepares MSW students to transition from the foundation course to the
advanced concentration courses. Students will become familiar with the mission
and conceptual framework underlying the advanced concentration and develop
beginning knowledge of traditional and alternative approaches to client system
assessment. Prerequisite: Admission into the advanced standing MSW program or
completion of foundation courses. (Typically offered: Summer)

SCWK 505V. Special Topics in Social Work. 1-6 Hour.
(Formerly SCWK 405V.) Comprehensive study of various topics of importance
in contemporary social welfare and social work practice. Graduate degree credit
will not be given for both SCWK 405V and SCWK 505V. (Typically offered:
Irregular) May be repeated for degree credit.

SCWK 5073. Social Work Research and Technology II. 3 Hours.
This course is intended to build the advanced research skills necessary to develop
a research proposal and complete a thesis or capstone project. Students will plan
the project, collect and analyze data and write a research report of their findings.
Projects will focus on systematic evaluation of service delivery and personal
professional practice. Prerequisite: Completion of year one for two-year students or
summer semester for advanced standing students. (Typically offered: Fall)

SCWK 5083. Social Work With Elders. 3 Hours.
(Formerly SCWK 4183.) Survey of theories of gerontology, service programs and
unmet needs of the aging citizen. Graduate degree credit will not be given for both
SCWK 4183 and SCWK 5083. (Typically offered: Irregular)

SCWK 5093. Human Behavior and the Social Environment I. 3 Hours.
(Formerly SCWK 4093.) Provides a conceptual framework for knowledge of human
behavior and the social environment with a focus on individuals. Social systems, life-
course, assets, and resiliency-based approaches are presented. Special attention
is given to the impact of discrimination and oppression on the ability to reach or
maintain optimal health and well-being. Graduate degree credit will not be given
for both SCWK 4093 and SCWK 5093. Prerequisite: COMM 1313, PSYC 2003,
SOCL 2013, SCWK 2133, and SCWK 3193 and (BIOL 1543 and BIOL 1541L or
ANTH 1013 and ANTH 1011L). (Typically offered: Fall and Spring)

SCWK 5103. Human Behavior and the Social Environment II. 3 Hours.
(Formerly SCWK 4103.) This course applies the basic framework for creating and
organizing knowledge of human behavior and the social environment acquired in
HBSE I to the understanding of family, group, organizational, community, and global
systems. Attention is given to discrimination, oppression, the impact of technology,
and poverty at each system level. Graduate degree credit will not be given for both
SCWK 4103 and SCWK 5103. Prerequisite: SCWK 4093 or SCWK 5093 (formerly SCWK 4093) and SCWK 4153 or SCWK 5353 (formerly SCWK 4153). (Typically offered:
Fall and Spring)

SCWK 5143. Global Social and Economic Justice and Oppression. 3 Hours.
The role and responsibilities of the social work profession are examined in an
international comparative context. Particular emphasis is given to social workers' responsibilities to advance global social and economic justice and reduce human
oppression through community, social, economic, and organizational development
strategies. Prerequisite: SCWK 5003 or SCWK 5013. (Typically offered: Irregular)
SCWK 5163. Social Work Management, Administration and Supervision. 3 Hours.
This course develops advanced skills in management, administration, and supervision in social work organizations. Emphasis is placed on developing leadership skills in ethics, budgeting, finance, resource development, information management, evaluation, staff hiring, supervision and development, and the use of technology in organizational leadership, development, and maintenance. Prerequisite: Graduate standing and SCWK 5003 or SCWK 5013. (Typically offered: Irregular)

SCWK 5173. Advanced Practice with Families and Couples. 3 Hours.
The purpose of this course is to provide advanced understanding of the knowledge, skills and values needed to assess and intervene effectively with traditional and non-traditional families and couples. The course will examine social systems and life-course strengths approaches to understand how families and couples function. Students will design interventions. Prerequisite: SCWK 5003 or SCWK 5013. (Typically offered: Irregular)

SCWK 5183. Advanced Practice with Individuals. 3 Hours.
This course develops advanced skills in social work practice on a micro level. Students learn to analyze and compare practice models. They gain skills in selecting a practice model and integrating multiple models based on client needs. Prerequisite: SCWK 5003 or SCWK 5013. (Typically offered: Irregular)

SCWK 5213. Advanced Practice in Behavioral and Mental Health. 3 Hours.
This advanced course prepares students to identify mental disorders, plan intervention strategies with clients from a strengths perspective, and understand mental health programs through which services are delivered. Differential diagnosis and the impact of socioeconomic status, gender, race, and sexual orientation on diagnosis and treatment decisions are addressed. Prerequisite: SCWK 5003 or SCWK 5013. (Typically offered: Irregular)

SCWK 5243. The Diagnosis and Treatment of Substance Use Disorders. 3 Hours.
The Diagnosis and Treatment of Substance Use Disorders course will explore the use and abuse of drugs and alcohol with an emphasis on evidence-based treatment approaches to help engage and treat chemically dependent clients. Best practices to be reviewed will include Motivational Interviewing (MI), Cognitive Behavioral Therapy (CBT), harm reduction approaches, Medication Assisted Treatment (MAT), and Dialectical Behavioral Therapy (DBT). (Typically offered: Fall and Spring and Summer)

SCWK 5253. Spirituality and Social Work Practice. 3 Hours.
This course prepares students to respond competently and ethically to diverse spiritual and religious perspectives. Utilizing social work ethics and values as a guide, students will develop a comparative, critically reflective approach to practice. Prerequisite: SCWK 4103 or SCWK 5103 (formerly SCWK 4103) or SCWK 5003 or SCWK 5013. (Typically offered: Fall and Spring)

SCWK 5263. Impact of Policy on Addiction. 3 Hours.
The Drug Policy course will explore the history of drug policy within the United States, focusing on the relationship between people, drugs, and the criminalization of certain substances. This course will also examine how the War on Drugs has led to the collateral consequences of mass incarceration, racial discrimination in policy development and sentencing laws, and a treatment system that exists almost exclusively within the criminal justice system. Finally, this course will explore how other countries have developed and utilized harm reduction and decriminalization approaches and policies in order to shift treatment and financial resources from supply and enforcement to demand and treatment. (Typically offered: Fall, Spring and Summer)

SCWK 5273. Social Work Research and Technology I. 3 Hours.
(Formerly SCWK 4073.) An overview of forms and sources of social work research including existing social data, techniques for collecting original social data, and techniques of organization, interpretation, and presentation of data. Students will also become proficient in the use of current technology for social work research and practice. Graduate degree credit will not be given for both SCWK 4073 and SCWK 5273. Prerequisite: SCWK 4093 or SCWK 5093 (formerly SCWK 4093) and SCWK 4153 or SCWK 5353 (formerly SCWK 4153). Pre- or Corequisite: One of the following: STAT 2303, SOCI 3303 and SOCI 3301L, PSYC 2013, or ESRM 2403. (Typically offered: Fall and Spring)

SCWK 5333. Social Work Practice I. 3 Hours.
(Formerly SCWK 4333.) This is the first in the sequence of practice courses introducing students to the generalist approach to micro social work. This course focuses on developing a solid foundation for practice with individuals, including basic social and helping skills, values, principles, and the connection of theory to practice. Graduate degree credit will not be given for both SCWK 4333 and SCWK 5333. Prerequisite: SCWK 4093 or SCWK 5093 (formerly SCWK 4093) and SCWK 4153 or SCWK 5353 (formerly SCWK 4153). Pre- or Corequisite: SCWK 4103 or SCWK 5103 (formerly SCWK 4103). (Typically offered: Fall and Spring)

SCWK 5343. Advanced Practice with Groups. 3 Hours.
This course provides advanced knowledge, skills, and values needed to assess and intervene effectively with populations seen in the social work practice of group therapy. This course examines group dynamics, life-course and strengths perspectives, and client-centered assessment of needs and their application in agency settings. Prerequisite: SCWK 5003 or SCWK 5013. (Typically offered: Irregular)

SCWK 5353. Social Welfare Policy. 3 Hours.
(Formerly SCWK 4153.) Describes and analyzes the policies and services rendered by local, state, regional, national, and international agencies as well as the policy implications for social work practice. Students prepare to advocate social policy changes designed to improve social conditions, promote social and economic justice, and to empower at-risk populations. Graduate degree credit will not be given for both SCWK 4153 and SCWK 5353. Prerequisite: COMM 1313, PLSC 2003, SCWK 2133, and SCWK 3193. (Typically offered: Fall and Spring)

SCWK 5412. Foundation Field Seminar. 2 Hours.
A required course for MSW students without an accredited undergraduate degree in social work. The purpose of the seminar is to allow students to integrate classroom content with experiences in the field, to learn peer supervision and consultation, and to learn from the experiences of other students in the field. Corequisite: SCWK 5434. (Typically offered: Spring and Summer)

SCWK 5434. Foundation Field Internship. 4 Hours.
This course is required of all graduate students entering the MSW program without an accredited undergraduate degree in social work. Minimum of 330 clock hours of agency-based professional social work practicum experience, supervised by a licensed MSW, is required. Corequisite: SCWK 5412. Prerequisite: SCWK 5003, SCWK 5333 (formerly SCWK 4333), SCWK 5273 (formerly SCWK 4073), SCWK 5093 (formerly SCWK 4093), and SCWK 5353 (formerly SCWK 4153). (Typically offered: Fall and Spring)

SCWK 5442. Field Seminar III. 2 Hours.
This seminar is required of all graduate students entering the MSW program with advanced standing. Students integrate classroom content with experiences in the field, learn peer supervision and consultation, and learn from the experience of other students in the field. Corequisite: SCWK 5444. Prerequisite: Admission to graduate program with advanced standing. (Typically offered: Summer)
SCWK 5444. Field Internship III. 4 Hours.
This course is required of all graduate students entering the MSW program with advanced standing. A minimum of 240 clock hours of agency-based professional social work practicum experience, supervised by a licensed MSW, is required. Corequisite: SCWK 5442. Prerequisite: Admission to graduate program with advanced standing. (Typically offered: Summer)

SCWK 5954. Social Work Practice II. 3 Hours.
(Formerly SCWK 4343.) This is the second course in the social work practice sequence, emphasizing theories, models, and techniques related to generalist practice with families and groups. The course elaborates on system theory as it impacts groups and families, and use of experiential teaching methods. Graduate degree credit will not be given for both SCWK 4343 and SCWK 5954. Prerequisite: SCWK 4103 or SCWK 5103 (formerly SCWK 4103) and SCWK 4333 or SCWK 5333 (formerly SCWK 4333). (Typically offered: Fall and Spring)

SCWK 5733. Social Work Practice III. 3 Hours.
(Formerly SCWK 4733.) Students acquire and practice the skills, knowledge, and values necessary for culturally competent generalist social work practice with organizations and communities. Special attention is given to the implications of discrimination and oppression for attaining social and economic justice. Graduate degree credit will not be given for both SCWK 4733 and SCWK 5733. Prerequisite: SCWK 4333 or SCWK 5333 (formerly SCWK 4333). Pre- or Corequisite: SCWK 4103 or SCWK 5103 (formerly SCWK 4103) and SCWK 4343 or SCWK 5543 (formerly SCWK 4343). (Typically offered: Fall and Spring)

SCWK 596V. Independent Study. 1-6 Hours.
Independent study designed to meet the particular needs of individual graduate students. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCWK 6000L. Thesis Laboratory. 0 Hours.
This laboratory is required for completion of the thesis, which is developed through components of the graduate Research & Technology sequence. Other courses in the graduate curriculum provide support for the conceptualization and development of the thesis. (Typically offered: Fall and Spring)

SCWK 6003. Advanced Social Work Practice Using the MSLC Perspective. 3 Hours.
Advanced Social Work Practice Using the Multi-Systems Life Course (MSLC) perspective teaches advanced practice behaviors with individuals, families, groups, organizations, and communities. This course focuses on integrating the arenas of advanced theory, research, policy practice, direct practice, required competencies and advanced practice behaviors using the MSLC perspective. Prerequisite: Admission into the advanced standing MSW program or completion of foundation courses. (Typically offered: Fall)

SCWK 6233. Advanced Social Work Practice With Children And Youth Using the MSLC Perspective. 3 Hours.
This course focuses on the development, revision, and impact of practice with children and youth from a Multi-Systems Life Course (MSLC) perspective. Historical trends as well as current practices will be examined with a focus on learning and improving social work practice skills. Prerequisite: SCWK 6003. (Typically offered: Spring)

SCWK 6243. Advanced Social Work Practice With Adults Using the MSLC Perspective. 3 Hours.
This course focuses on the development, revision, and impact of practice with adults from a Multi-Systems Life Course (MSLC) perspective. Historical trends as well as current practices will be examined with a focus on learning and improving social work practice skills. Prerequisite: SCWK 6003. (Typically offered: Spring)

SCWK 6442. Advanced Field Seminar I. 2 Hours.
The first of two advanced field seminars required of all students in the MSW program. The purpose of the seminar is to allow students to integrate classroom content with experiences in the field, to practice peer supervision and consultation, and to learn from the experiences of other students in the field. Corequisite: SCWK 6444. Prerequisite: SCWK 5412 or SCWK 5442. (Typically offered: Fall)

SCWK 6444. Advanced Field Internship I. 4 Hours.
This is the first of two advanced field internships required of all graduate students in the MSW program. A minimum of 330 clock hours of agency-based professional social work practicum experience, supervised by a licensed MSW, is required. Corequisite: SCWK 6442. Prerequisite: SCWK 5434 or SCWK 5444. (Typically offered: Fall)

SCWK 6452. Advanced Field Seminar II. 2 Hours.
This is the second of two advanced field seminars required of all students in the MSW program. The purpose of the seminar is to allow students to integrate classroom content with experiences in the field, to demonstrate peer supervision and consultation, and to learn from the experiences of other students in the field. Corequisite: SCWK 6454. Prerequisite: SCWK 6442. (Typically offered: Spring)

SCWK 6454. Advanced Field Internship II. 4 Hours.
This is the second of two advanced Field Internship courses required of all graduate students in the MSW program. A minimum of 330 clock hours of agency-based professional social work practicum experience supervised by a licensed MSW is required. Corequisite: SCWK 6452. Prerequisite: SCWK 6442. (Typically offered: Spring)

Sociology (SOCI)

Courses

SOCI 2013. General Sociology (ACTS Equivalency = SOCI 1013). 3 Hours.
Applies a sociological perspective and develops critical thinking. Focuses on culture, identity, race, ethnicity, gender, class inequality, crime, deviance, globalization, social change, and social institutions. Overview of sociological theories and methods for systematic understanding of society. (Typically offered: Fall, Summer and Spring)

SOCI 2013H. Honors General Sociology. 3 Hours.
Develops critical thinking, writing, and research skills by applying a sociological perspective. Focuses on culture, identity, race, ethnicity, gender, class inequality, collective behavior, crime, deviance, globalization, social change, and social institutions. Overview of sociological theories and methods for systematic understanding of society. (Typically offered: Fall, Summer and Spring)

SOCI 2033. Social Problems (ACTS Equivalency = SOCI 2033). 3 Hours.
Sociological analysis of major social problems, with emphasis placed on social justice, poverty and economic inequality, racial and ethnic relations, gender, crime, education, and other contemporary issues. Develops critical thinking. (Typically offered: Irregular)

SOCI 3001L. Social Science Data Analytics Lab. 1 Hour.
Provides opportunities to implement social science data analytics skills through completing a series of data modules. The course prepares students to interpret data meaningfully within a variety of future employment fields. Students gain familiarity working with a number of marketable datasets, such as those generated by big data. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring)

SOCI 3011. Special Topics. 1 Hour.
Designed to develop the tools to write effectively in the social sciences, including skills related to organizing manuscripts, writing problem statements, identifying and synthesizing research, and revising and editing. Prerequisite: SOCI 2013 or CRIM 2003. (Typically offered: Fall and Spring) May be repeated for up to 3 hours of degree credit.

This course is cross-listed with CRIM 3011.
SOCI 3023. Criminological Theory. 3 Hours.
Advanced survey of theories of crime causation. Examines broad sociological paradigms, as well as both individual and aggregate-level explanations of crime causation. Applies criminological theories to contemporary issues associated with crime and criminal justice. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring)
This course is equivalent to CRIM 3023.

SOCI 3023H. Honors Criminological Theory. 3 Hours.
Advanced survey of theories of crime causation. Examines broad sociological paradigms, as well as both individual and aggregate-level explanations of crime causation. Applies criminological theories to contemporary issues associated with crime and criminal justice. Prerequisite: SOCI 2013, honors and junior standing. (Typically offered: Fall and Spring)
This course is equivalent to CRIM 3023.

SOCI 3053. Serial Crime. 3 Hours.
Exploration of the historical development of criminal profiling related to serial homicide, serial sex crimes, serial stalking, and serial arson. Examination of behavioral and criminological theories, focusing on different profiling techniques and their strengths and challenges. Case studies and published research on serial crime will be used whenever possible. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring)
This course is cross-listed with CRIM 3053.

SOCI 3063. Victimization. 3 Hours.
Introduction to the scientific study of victimization. Examines conceptual boundaries of victimology research, covers theories, statistics and trends relevant to victimology; reviews the victim blaming and defending perspectives; explores practical applications of victimology, and evaluates the social, legal, and criminological issues that stem from concern over victims. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring)
This course is cross-listed with CRIM 3063.

SOCI 3103. Religion and Society. 3 Hours.
Theories and research on: religious symbols and rituals, becoming and staying religious, the formation and maintenance of religious organizations, religion and social inequality, religion and social change, and globalization. (Typically offered: Irregular)

SOCI 3153. Urban Sociology. 3 Hours.
Examines growth of cities, urban inequalities, politics, social movements, built environment, ecology, sustainability, cultural identity, global cities, and immigration. Implications considered for policy and planning. Prerequisite: SOCI 2013. (Typically offered: Irregular)

SOCI 3173. Latinos, Migration, and the U.S. South. 3 Hours.
Examines social, economic, and population changes in the U.S. South, including shift of Latinos’ settlement patterns, actions taken by policy makers to adapt to new demographic context, and mechanisms immigrants use to facilitate their induction into the southern community. Prerequisite: SOCI 2013. (Typically offered: Fall)

SOCI 3193. Race, Class, Gender, and Sexuality. 3 Hours.
A critical examination of the layers of the global systems that shape and construct social inequalities. Overview of sociological theories and research on how race, class, gender, and sexuality intersect and function separately to organize systems of inequality. Prerequisite: SOCI 2013 or SOCI 2013H and junior standing. (Typically offered: Fall and Spring)
This course is equivalent to SOCI 3193.

SOCI 3203. Corrections and Social Control. 3 Hours.
Overview of correctional systems and punishment. Focuses on theories of correctional philosophies, practices, and procedures, along with the historical development and modern practices of corrections, sentencing, facilities, and issues facing correctional populations. Also examines principles and practices of treatment and rehabilitation in correctional settings. Prerequisite: CRIM 2003. (Typically offered: Fall and Spring)
This course is cross-listed with CRIM 3203.

SOCI 3223. Social Psychology. 3 Hours.
A sociological approach to the study of the interaction between society and the self with an emphasis upon reference groups such as the family, friends, work, lifestyle, and deviance. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring)

SOCI 3263. Families and Social Change. 3 Hours.
A sociological analysis of the diversity and inequality that exists among families, and the ways in which families have and continue to change over time. Topics discussed include sex, gender, and sexuality, race, ethnicity, and immigration, class and economic transformations. Prerequisite: SOCI 2013. (Typically offered: Spring)

SOCI 3273. Sociology of China. 3 Hours.
Examines many aspects of Chinese people, their cultures, and practices, and also looks at Chinese Americans in the U.S. both historically and currently. Prerequisite: SOCI 2013. (Typically offered: Irregular)
This course is cross-listed with AIST 3273.

SOCI 3301L. Social Data and Analysis Laboratory. 1 Hour.
The lab is an extension of the lecture in SOCI 3303. Using a variety of computer packages, the lab provides practical experience in managing and analyzing social data. Corequisite: SOCI 3303. (Typically offered: Fall and Spring)

SOCI 3301M. Honors Social Data and Analysis Laboratory. 1 Hour.
The lab is an extension of the lecture in SOCI 3303. Using a variety of computer packages, the lab provides practical experience in managing and analyzing social data. Corequisite: SOCI 3303H. Prerequisite: Honors candidacy. (Typically offered: Fall and Spring)
This course is equivalent to SOCI 3301L.

SOCI 3303. Social Data and Analysis. 3 Hours.
Introduction to descriptive and inferential statistics, with special emphasis on common techniques in social research. Course focuses on the practical usage of data and application to real-world issues. Corequisite: SOCI 3301L. Prerequisite: SOCI 2013 and junior standing. (Typically offered: Fall and Spring)

SOCI 3303H. Honors Social Data and Analysis. 3 Hours.
Introduction to descriptive and inferential statistics, with special emphasis on common techniques in social research. Course focuses on the practical usage of data and application to real-world issues. Corequisite: SOCI 3301L. Prerequisite: Honors candidacy, SOCI 2013 and junior standing. (Typically offered: Fall and Spring)
This course is equivalent to SOCI 3303.

SOCI 3313. Social Research. 3 Hours.
Study and experience in implementing a methodological “toolbox,” including theorizing, designing, measuring, sampling, collecting, interpreting, and reporting empirical results for real-world social research applications. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring)

SOCI 3313H. Honors Social Research. 3 Hours.
Study and experience in implementing a methodological “toolbox,” including theorizing, designing, measuring, sampling, collecting, interpreting, and reporting empirical results for real-world social research applications. Prerequisite: Honors candidacy, SOCI 2013 and junior standing. (Typically offered: Fall and Spring)
This course is equivalent to SOCI 3313.
SOCI 3413. Special Topics. 3 Hours.
Offerings vary; check for particular course topics offered. Designed to cover specialized topics in greater depth than regular survey courses provide. Prerequisite: SOCI 2013. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SOCI 3413H. Honors Special Topics. 3 Hours.
Offerings vary; check for particular course topics offered. Designed to cover specialized topics in greater depth than regular survey courses provide. Prerequisite: Honors candidacy and SOCI 2013 or SOCI 2013H. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.
This course is equivalent to SOCI 3413.

SOCI 3423. Social Theory. 3 Hours.
Examines the philosophical underpinnings of sociology; introduces notable classical and contemporary social theorists; develops an appreciation for the ways classical works continue to form the basis for contemporary social thought. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring)

SOCI 3423H. Honors Social Theory. 3 Hours.
Examines the philosophical underpinnings of sociology; introduces notable classical and contemporary social theorists; develops an appreciation for the ways classical works continue to form the basis for contemporary social thought. Prerequisite: Honors standing, junior standing and SOCI 2013. (Typically offered: Fall and Spring)
This course is equivalent to SOCI 3423.

SOCI 3453. Immigration and Crime. 3 Hours.
Provides a comprehensive foundation of the relationship between immigration, one of the most powerful forces that influences a nation’s social fabric, and crime. Focuses not only on U.S. immigration but also crime in the global context. Prerequisite: SOCI 2013. (Typically offered: Fall)
This course is cross-listed with CRIM 3453.

SOCI 3513. Criminal Evidence. 3 Hours.
Examination of how evidence is collected, processed, and presented in court, with an emphasis on the competing interests of crime control and individual liberties. Prerequisite: CRIM 2003. (Typically offered: Fall)

SOCI 3723. Deviant Behavior. 3 Hours.
Sociological overview of disconforming conduct: its definition, theoretical understandings and research. Specific topics may include: interpersonal violence, self-destructive disorders, controversial lifestyles, substance abuse, as well as the relationship between inequality and disturbing acts. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring)
This course is cross-listed with CRIM 3723.

SOCI 399VH. Honors Course. 1-6 Hour.
Honors. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 12 hours of degree credit.

SOCI 4003. Internship in Sociology. 3 Hours.
(Formerly SOCI 4006) Supervised experience in municipal, county, or state agencies, or any other agency which is approved by the instructor. Prerequisite: SOCI 2013. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

SOCI 4013. Special Topics in Sociology. 3 Hours.
Offerings vary; check for particular course topics offered. Designed to cover specialized topics in greater depth than regular survey courses provide. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

SOCI 4013H. Honors Special Topics in Sociology. 3 Hours.
Offerings vary; check for particular course topics offered. Designed to cover specialized topics in greater depth than regular survey courses provide. Prerequisite: Honors candidacy and SOCI 2013 or SOCI 2013H. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.
This course is equivalent to SOCI 4013.

SOCI 403V. Individual Study in Sociology. 1-3 Hour.
In-depth individual or group study with a faculty member on advanced sociological readings and/or participation in supervised research as an experience-based course. Faculty permission required in advance of enrollment. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

SOCI 4043. Seminar in Sociology. 3 Hours.
Capstone course in sociology. This course is intended to apply and demonstrate the knowledge and skills developed over a college career. Sociological theory and current research findings are applied to everyday life. Emphasis is given to personal, professional and career development. Prerequisite: Senior standing. (Typically offered: Fall and Spring)

SOCI 4063. Organizations in Society. 3 Hours.
Review of literature on work and organizations, with focus on race, class, gender inequalities, and interactions between society and organizations; discussion of topics related to white collar crime and deviant behavior inside modern corporations. Prerequisite: SOCI 2013. (Typically offered: Spring)
This course is cross-listed with CRIM 4063.

SOCI 4143. Juvenile Justice. 3 Hours.
Examination of juvenile justice system and juvenile crime, including historical development of the system and treatment of juvenile delinquents along with legal, correctional, and treatment processes and philosophies. Emphasis on current issues facing delinquents, the system, and delinquency prevention in addition to trends in juvenile crime. Prerequisite: CRIM 2003. (Typically offered: Fall and Spring)
This course is cross-listed with CRIM 4143.

SOCI 4153. Race and Society. 3 Hours.
Sociological study of race within the U.S., with an emphasis on understanding how race operates within contemporary social institutions. Critical engagement and discussion of topics relating to race will be encouraged. Prerequisite: SOCI 2013 or AAST 1003 or AAST 2023. (Typically offered: Fall)
This course is cross-listed with AAST 4153.

SOCI 4183. Social Network Analysis. 3 Hours.
Introduces the fundamentals of Social Network Analysis (SNA), and its applications for research in various social science fields. Prerequisite: SOCI 2013. (Typically offered: Fall)
This course is cross-listed with PLSC 4613.

SOCI 4233. Death Penalty. 3 Hours.
Examines problems and social issues related to the death penalty in the U.S., including the history of capital punishment, Supreme Court decisions, how various jurisdictions seek the death penalty, the comparative costs of incarceration and execution, miscarriages of justice, and how the criminal justice system responds to these issues. Prerequisite: CRIM 2003 or SOCI 2013. (Typically offered: Irregular)
This course is cross-listed with CRIM 4233.

SOCI 4253. Social Impact of Data Analytics. 3 Hours.
Teaches students to assess social science data by raising awareness regarding the social impacts of data analytics. Particular attention is paid to the ethical issues involved in the potential benefits and risks across each of the four phases of the data cycle: data collection, consolidation, analytics, and use. Prerequisite: SOCI 2013. (Typically offered: Spring)

SOCI 4263. Sociology of Mental Health and Illness. 3 Hours.
Develops critical thinking, writing, and research skills by applying a sociological perspective to studying mental health and illness, including definitions, theories, measurements, and social correlates. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring)
SOCI 4263H. Honors Sociology of Mental Health and Illness. 3 Hours.
Develops critical thinking, writing, and research skills by applying a sociological perspective to studying mental health and illness, including definitions, theories, measurements, and social correlates. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring)
This course is equivalent to SOCI 4263.

SOCI 4443. Terrorism and Homeland Security. 3 Hours.
Examines the evolution of modern terrorism and homeland security, focusing primarily upon American terrorist movements (ideologies, motives, and tactics), Social, political, and criminal justice responses to terrorism are also considered. Prerequisite: Junior standing. (Typically offered: Spring)
This course is cross-listed with CRIM 4443.

SOCI 4603. Environmental Sociology. 3 Hours.
The course provides a social perspective on environmental issues. It examines the linkage between society, ecological systems and the physical environment. It provides conceptual framework(s) for analyzing environmental issues, considers the role of humans in environmental issues, and enhances understanding the complexity of the relationship between societal organization and environmental change. Prerequisite: Junior or above standing. (Typically offered: Spring)
This course is cross-listed with HDFS 4603, SUST 4603.

SOCI 5001. Proseminar. 1 Hour.
An informal forum for graduate students and faculty to present and discuss ongoing research interests as well as the current state of the discipline. Prerequisite: Graduate standing. (Typically offered: Fall)

SOCI 500V. Advanced Problems in Sociology. 1-3 Hour.
Individual research on problems or problem areas. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

SOCI 5013. Advanced Social Research. 3 Hours.
An examination of experimental and quasi-experimental designs used in the analysis of sociological data with focus upon appropriate units of analysis and design selection, sampling, interview techniques, and questionnaire construction. Prerequisite: Graduate standing or instructor consent. (Typically offered: Fall)

SOCI 503V. Special Topics. 1-6 Hour.
Designed to cover specialized topics not usually presented in depth in regular courses. Prerequisite: Graduate Standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SOCI 5083. Applied Qualitative Research. 3 Hours.
An introduction to research strategies including intensive interviewing, participant observational fieldwork, content analysis, historical analysis, and comparative research. Emphasis on the practical aspects of designing and executing research involving multiple methods of data gathering and analysis. Prerequisite: Graduate standing. (Typically offered: Fall)

SOCI 5113. Seminar in Social Inequality. 3 Hours.
Major theories of stratification; types of stratification systems, comparisons of modern and traditional systems; emergent trends. Prerequisite: Graduate standing. (Typically offered: Irregular)

SOCI 5133. The Community. 3 Hours.
A sociological analysis of the theory, methods and materials used in the study of the community. Prerequisite: Graduate standing. (Typically offered: Irregular)

SOCI 5233. Theories of Deviance. 3 Hours.
A survey of major theories-classical, developmental, ecological, functionalist, conflict, subcultural, control, and phenomenological-explaining morally condemned differences in society. Particular emphasis is on practical implications of each perspective for policy and social control. Prerequisite: Graduate standing. (Typically offered: Irregular)

SOCI 5253. Classical Social Theory. 3 Hours.
A survey of social theory up to the late 20th century. An introduction to the classical sociological theories that continue to inform research, analysis, and policy formation. Major issues will include the relationship between the individual and the community, and the sources of stability, conflict, and change. Prerequisite: Graduate standing. (Typically offered: Fall)

SOCI 5263. Contemporary Social Theory. 3 Hours.
Analysis of contemporary social theories & major theoretical debates. Emphasis is on critical evaluation & application of theoretical perspectives to current social issues affecting families and communities. Prerequisite: Graduate standing. (Typically offered: Spring)

SOCI 5311L. Applied Data Analysis Laboratory. 1 Hour.
Provides instruction for data transformations required for the advanced statistical procedures used in the Statistical Package for the Social Sciences (SPSS). Also provides instruction in the use of advanced statistical procedures covered in SOCI 5313. Prerequisite: Graduate standing. (Typically offered: Spring)

SOCI 5313. Applied Data Analysis. 3 Hours.
Covers basic concepts and applications of the general linear model to a variety of sociological research issues and problems. Also provides an introduction to binary dependent and multivariate categorical data analysis for sociological research. Prerequisite: Graduate standing. Familiarity with statistical computer programs is assumed. (Typically offered: Spring)

SOCI 5413. Seminar in Criminological Theory. 3 Hours.
An examination of the causation of crime, focusing primarily on sociological theories. Prerequisite: Graduate standing. (Typically offered: Spring)

SOCI 5423. Research in Criminology. 3 Hours.
Examination of empirical research in criminology, focusing on methodological problems, strategies, and findings. Prerequisite: Graduate standing. (Typically offered: Fall)

SOCI 5433. Victimization. 3 Hours.
Study of the causes, correlates, and consequences of victimization, focusing on theories of victimization and the role of victims in the criminal justice system. Prerequisite: Graduate standing. (Typically offered: Irregular)

SOCI 5443. Seminar in Terrorism and Homeland Security. 3 Hours.
Examines the evolution of modern terrorism and homeland security, focusing primarily on the dynamics of American terrorist movements (ideologies, motives, and tactics). Social, political, and criminal justice responses to terrorism are also considered. (Typically offered: Spring)

SOCI 5453. Social Control. 3 Hours.
Study of sociological theories and research on formal social control, primarily institutional responses to criminal behavior. Prerequisite: Graduate standing. (Typically offered: Irregular)

SOCI 5473. Crime and Community. 3 Hours.
Examination of how neighborhood structural characteristics and social organization affect crime, as well as how the presence of crime and disorder in a community can affect neighborhood social organization. Prerequisite: Graduate standing. (Typically offered: Irregular)

SOCI 5503. Research Internship. 3 Hours.
Supervised research experience. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)
SOCI 5603. Environmental Sociology. 3 Hours.
(Formerly SOCI 4603.) The course provides a social perspective on environmental issues. It examines the linkage between society, ecological systems and the physical environment. It provides conceptual framework(s) for analyzing environmental issues, considers the role of humans in environmental issues, and enhances understanding of the complexity of the relationship between societal organization and environmental change. Graduate degree credit will not be given for both SOCI 4603 and SOCI 5603. (Typically offered: Spring)
This course is cross-listed with HDFS 5603.

SOCI 600V. Master's Thesis. 1-6 Hour.
Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Southern Studies (SOST)

Courses

SOST 2003. Introduction to Southern Studies. 3 Hours.
A three credit hour interdisciplinary course that explores the history, politics, literature, and culture of the U.S. South from the colonial era to the present. Students who minor in Southern Studies will be required to take Introduction to Southern Studies. (Typically offered: Fall Odd Years)

SOST 399V. Special Topics in Southern Studies. 1-3 Hour.
Topics that explore the American South which are not usually presented in depth in regular courses. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

Space and Planetary Sciences (SPAC)

Courses

SPAC 3923H. Honors Colloquium. 3 Hours.
Covers special topics in the space and planetary sciences. Not restricted to any particular major. Prerequisite: Honors candidacy or permission of the instructor. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SPAC 5033. Astrophysics I: Stars and Planetary Systems. 3 Hours.
 Stellar structure and evolution, the properties of the solar system, and extrasolar planetary systems. (Typically offered: Fall Odd Years)
This course is cross-listed with ASTR 5033.

SPAC 5111L. Space and Planetary Lab. 1 Hour.
Laboratory course in space and planetary sciences consisting of experiments in the five major areas of space and planetary sciences: planetary astronomy, planetary geology, planetary atmospheres, origin and evolution of life and orbital mechanics and astronomy. Intended for students enrolled in the graduate programs in space and planetary sciences. (Typically offered: Fall)

SPAC 5123. Internship. 3 Hours.
Internship for graduate students in the space and planetary sciences. Graduate degree programs and concentrations in the graduate programs in physics, biology, geosciences and mechanical engineering. Students conduct a phase of their research, normally for one month, at a national or industrial laboratory in North America or overseas. (Typically offered: Fall and Spring)

SPAC 5161. Seminar. 1 Hour.
Seminars organized by the Center for Space and Planetary Sciences covering topics on the cutting edge of research in the field for graduate students conducting research with a faculty member in the space and planetary sciences as part of their graduate degree programs or concentrations in the graduate programs in physics, biology, geology, geography and mechanical engineering. (Typically offered: Fall and Spring)

SPAC 5211. SPAC Proseminar. 1 Hour.
Introductory course consisting of discourses and case studies in ethics, communications and public policy in the administration of space and planetary sciences. Prerequisite: Admission to program or instructor consent. (Typically offered: Spring)

SPAC 5313. Planetary Atmospheres. 3 Hours.
Origins of planetary atmospheres, structures of atmospheres, climate evolution, dynamics of atmospheres, levels in the atmosphere, the upper atmosphere, escape of atmospheres, and comparative planetology of atmospheres. (Typically offered: Irregular)

SPAC 5413. Planetary Geology. 3 Hours.
Exploration of the solar system, geology and stratigraphy, meteorite impacts, planetary surfaces, planetary crusts, basaltic volcanism, planetary interiors, chemical composition of the planets, origin and evolution of the Moon and planets. (Typically offered: Spring Even Years)

SPAC 5553. Astrobiology. 3 Hours.
Discusses the scientific basis for the possible existence of extraterrestrial life. Includes origin and evolution of life on Earth, possibility of life elsewhere in the solar system (including Mars), and the possibility of life on planets around other stars. Prerequisite: Instructor consent. (Typically offered: Spring Even Years)
This course is cross-listed with BIOL 5553.

SPAC 5613. Astronautics. 3 Hours.
Study of spacecraft design and operations. Prerequisite: Admission to program or instructor consent. (Typically offered: Irregular)

SPAC 600V. Master's Thesis. 1-10 Hour.
Master's thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

SPAC 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral dissertation. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Spanish (SPAN)

Courses

SPAN 1003. Elementary Spanish I (ACTS Equivalency = SPAN 1013). 3 Hours.
A first introduction of Spanish for true beginners—pronunciation, aural comprehension, speaking and reading in Spanish—with an objective towards active mastery of basic grammatical structures. (Typically offered: Fall and Spring)

SPAN 1013. Elementary Spanish II (ACTS Equivalency SPAN 1023). 3 Hours.
Elementary courses stress pronunciation, aural comprehension, and simple speaking ability, and lead to active mastery of basic grammar and limited reading ability. (Typically offered: Fall and Spring)

Intermediate courses lead to greater facility in spoken language and to more advanced reading skills. (Typically offered: Fall and Spring)

Continued development of basic speaking comprehension and writing skills and intensive development of reading skills. (Typically offered: Fall and Spring)

SPAN 2013H. Honors Intermediate Spanish II. 3 Hours.
Continued development of basic speaking comprehension and writing skills and intensive development of reading skills. (Typically offered: Fall and Spring)
This course is equivalent to SPAN 2013.
SPAN 2123. Spanish for Heritage Speakers I. 3 Hours.
Designed for students from a Spanish-speaking background with limited to no formal study of the language. Literacy development in Spanish with emphasis on building vocabulary, plus reading and writing skills. Prerequisite: Students who have taken one year or less of Spanish. Placement by exam or by Spanish Advisor. (Typically offered: Irregular)

SPAN 3003. Advanced Spanish. 3 Hours.
Further intensive practice to strengthen written and oral expression. Includes a review of the essentials of Spanish grammar. Prerequisite: SPAN 2013 or equivalent. (Typically offered: Fall and Spring)

SPAN 3033. Conversation and Composition. 3 Hours.
Three hours per week of guided conversation (oral) and composition (written) practice for the post-intermediate student. Prerequisite: SPAN 3003. (Typically offered: Fall and Spring)

SPAN 3103. Cultural Readings. 3 Hours.
A course designed to build vocabulary and to strengthen reading skills and oral expression through extensive practice with culturally authentic materials. Prerequisite: SPAN 2013 or equivalent. (Typically offered: Fall and Spring)

SPAN 3113. Introduction to Literature. 3 Hours.
Further development of reading skills and introduction to literary commentary and analysis. Prerequisite: (Both SPAN 3003 and SPAN 3103 or only SPAN 3123), or equivalent. (Typically offered: Fall and Spring)

SPAN 3113H. Honors Introduction to Literature. 3 Hours.
Further development of reading skills and introduction to literary commentary and analysis. Prerequisite: Honors standing, both SPAN 3003 and SPAN 3103 or only SPAN 3123. (Typically offered: Irregular)
This course is equivalent to SPAN 3113.

SPAN 3123. Spanish for Heritage Speakers II. 3 Hours.
Designed for students from a Spanish-speaking background with some formal training in Spanish and/or the ability to read and write in the language. Continue developing language skills, plus introduction to the U.S. Latino literature and culture. Prerequisite: Students who have taken two years of Spanish in High School, SPAN 2123 or placement exam. (Typically offered: Fall and Spring)

SPAN 3883. Translation and Interpretation I: Spa/Eng - Eng/Spa. 3 Hours.
Designed for learners who want to improve their proficiency in both Spanish and English while introducing translation and interpretation theory with hands-on practice. Prerequisite: Both SPAN 3003 and SPAN 3103, or only SPAN 3123, or instructor consent. (Typically offered: Irregular)

SPAN 399VH. Honors Spanish Course. 1-6 Hour.
Honors thesis research and writing under the direction of a faculty member in the department. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 12 hours of degree credit.

SPAN 4003. Advanced Grammar. 3 Hours.
For majors and advanced students covering the problematic areas of Spanish syntax and usage. Prerequisite: SPAN 3003 and SPAN 3103. (Typically offered: Fall)

SPAN 4073. Introduction to Hispanic Linguistics. 3 Hours.
Deepens students' knowledge of the Spanish language through an introduction to the discipline of Linguistics, which is the field of science that studies human language. Areas of Hispanic linguistics that will be covered include phonology (sound system), morphology (word structure), and syntax (sentence structure). Prerequisite: SPAN 4003. (Typically offered: Irregular)

SPAN 4103. Monuments of Spanish Literature I. 3 Hours.
Monuments of the major works of Spanish literature from El Cid through the 17th century. Prerequisite: SPAN 3113. (Typically offered: Irregular)

SPAN 4113. Monuments of Spanish Literature II. 3 Hours.
Monuments of Spanish literature from the 18th century to the present. Prerequisite: SPAN 3113. (Typically offered: Irregular)

SPAN 4123. Spanish for Heritage Speakers III. 3 Hours.
Continued development and expansion of Spanish writing skills. Special emphasis given to active grammar, textual production, and critical thinking for writing in academic and professional settings. Students' work involves research, reading, composing, delivering presentations, writing and proofreading different types of essays. Prerequisite: Students who have taken three or more years of Spanish in high school, AP Spanish, SPAN 3123 or placement exam. (Typically offered: Irregular)

SPAN 4133. Survey of Spanish-American Literature I. 3 Hours.
Survey of Spanish-American literature from the Colonial period to mid-19th Century, including pre-Hispanic Indigenous Literatures. Prerequisite: SPAN 3113. (Typically offered: Irregular)

SPAN 4193. Survey of Spanish-American Literature II. 3 Hours.
Survey of Spanish-American literature from Modernism to the present. Prerequisite: SPAN 3113. (Typically offered: Irregular)

SPAN 4213. Spanish Civilization. 3 Hours.
A wide-ranging exploration of Spanish history and culture from the Middle Ages to the present. Prerequisite: SPAN 3113. (Typically offered: Irregular)

SPAN 4223. Latin American Civilization. 3 Hours.
Latin American civilization. Prerequisite: SPAN 3113. (Typically offered: Irregular)

SPAN 4243. Literature and Culture in the Hispanic United States. 3 Hours.
An exploration of the history and culture, art and politics of the major Hispanic groups in the United States. Focus on contemporary attitudes and issues. Prerequisite: SPAN 3113. (Typically offered: Irregular)

SPAN 4253. Latin American Cinema and Society. 3 Hours.
This course examines key issues in Latin American culture and history through films, documentaries, and literary and cultural texts. Topics included are: Human Rights, Ethnicity, Gender, Revisions of the past. Prerequisite: SPAN 3113. (Typically offered: Irregular)

SPAN 4333. Business Spanish I. 3 Hours.
Enhances ability to interact in Spanish-language business environments by providing a solid foundation in vocabulary and structure in functional business areas such as company structure, banking and accounting, capital investment, goods and services, marketing, finance, and import-export. Students commit to 15 hours during the semester to work on business-related projects with the Spanish-speaking community of Northwest Arkansas. Prerequisite: (SPAN 3003 and SPAN 3103) or SPAN 3123. (Typically offered: Fall and Spring)

SPAN 4563. Latino Youth Biliteracy Service Learning Project. 3 Hours.
The Latino Youth Biliteracy Project is a service learning course for students in Spanish and Latin American and Latino Studies. Readings on Latino education policies and challenges, bilingualism, and the immigrant experience. Students commit from 15 to 30 hours of mentoring Latino youth at local schools during the semester (in addition to class meeting times) and complete a research project on Latino education. Prerequisite: SPAN 3113 or SPAN 3123 or instructor consent. (Typically offered: Irregular)

SPAN 4583. Advanced Spanish for Health Professions. 3 Hours.
Advanced Spanish for Health Professions is an upper level service learning course for students in Spanish and Latin American and Latino Studies. Development of Spanish language for healthcare providers. Readings on the state of Latino health care in Arkansas and the United States. Students will work 30 hours during the semester on health related projects with the Spanish speaking community of NWA. Prerequisite: SPAN 3003 and SPAN 3103 or SPAN 5123. (Typically offered: Irregular)
SPAN 4623. Advanced Proficiency in Spanish. 3 Hours.
Work in translation and composition, oral proficiency, and phonetics and pronunciation for students who still seek further practice in skills development to extend their fluency and proficiency in the second language. Suitable for non-native speaking students considering becoming teachers of Spanish. Prerequisite: SPAN 4003 or instructor consent. (Typically offered: Irregular)

SPAN 470V. Special Topics. 1-3 Hour.
May be offered in a topic not specifically covered by courses otherwise listed. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SPAN 475V. Special Investigations. 1-6 Hour.
Special investigations. (Typically offered: Fall and Spring) May be repeated for degree credit.

SPAN 4873. Creative Writing in Spanish. 3 Hours.
Introduces students to basic skills and tools needed to be a creative writer in Spanish by exploring poetry, short story, and the short novel. Prerequisite: SPAN 3033 and SPAN 3103. (Typically offered: Fall Even Years)

SPAN 5073. Introduction to Hispanic Linguistics. 3 Hours.
Deepens students’ knowledge of the Spanish language through an introduction to the discipline of Linguistics, which is the field of science that studies human language. Areas of Hispanic linguistics that will be covered include phonology (sound system), morphology (word structure), and syntax (sentence structure). (Typically offered: Irregular)

SPAN 5203. Medieval Spanish Literature. 3 Hours.
From the ‘Jarchas’ to the Celestina. (Typically offered: Irregular)

SPAN 5233. Golden Age Novel. 3 Hours.
Major works of Spanish prose fiction from the 16th and 17th centuries, with close reading of major works. (Typically offered: Irregular)

SPAN 5243. Golden Age Poetry and Drama. 3 Hours.
History and development of those genres in the 16th and 17th centuries, with close reading of major works. (Typically offered: Irregular)

SPAN 5253. Colonial Literature and Culture. 3 Hours.
An introductory course to the history, culture and literature of colonial Spanish America from 1492 until 1810. The course will cover representative colonial and indigenous texts and their contexts including Renaissance, Baroque, and travel literature of the Eighteenth Century. The course will be taught in Spanish. (Typically offered: Irregular)

SPAN 5273. Survey of 19th Century Spanish Literature. 3 Hours.
A graduate-level survey of Spanish literature from Neoclassicism to the Generation of 1898. (Typically offered: Irregular)

SPAN 5283. Survey of Contemporary Spanish Literature. 3 Hours.
A graduate-level survey of Spanish literature from the Transition to the present. (Typically offered: Irregular)

SPAN 5343. Survey of 20th Century Spanish Literature. 3 Hours.
A graduate-level survey of Spanish literature from the Generation of 1898 to the Transition. Prerequisite: Graduate standing. (Typically offered: Irregular)

SPAN 5393. 19th Century Spanish American Literature. 3 Hours.
Study of representative literary works from Independence (1810) to 1900's. The course covers Neoclassicism, Romanticism, Realism/Naturalism, and Modernism and the role of literature in the nation-building process. The course will be taught in Spanish. (Typically offered: Irregular)

SPAN 5403. Spanish American Theatre. 3 Hours.
Historical examination of the theatre in Spanish America, with close analysis particularly of representative works and movements in the 20th century. (Typically offered: Irregular)

SPAN 5463. 20th Century Spanish American Literature. 3 Hours.
Critical survey of major movements and outstanding and representative works in 20th century prose and poetry, from the Mexican Revolution and the avant-garde to the contemporary boom and post-boom. (Typically offered: Irregular)

SPAN 5563. Latino Youth Biliteracy Service Learning Project. 3 Hours.
The Latino Youth Biliteracy Project is a service learning course for students in Spanish and Latin American and Latino Studies. Readings on Latino education policies and challenges, bilingualism, and the immigrant experience. Students commit from 15 to 30 hours of mentoring Latino youth at local schools during the semester (in addition to class meeting times) and complete a research project on Latino education. Prerequisite: Graduate standing. (Typically offered: Irregular)

SPAN 5703. Special Topics. 3 Hours.
May be offered in a subject not specifically covered by the courses otherwise listed. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SPAN 575V. Special Investigations. 1-6 Hour.
Special investigations. (Typically offered: Irregular) May be repeated for degree credit.

SPAN 5773. Indigenismo Literature. 3 Hours.
A study of ‘indigenismo’, an intellectual and literary tradition in Latin America examining the history of exploitation and marginalization of indigenous peoples. Readings include texts by Mariategui, Icaza, Andrade, Asturias, Arguedas, Castellanos, and also ‘indigenista’ works in music and the plastic arts. (Typically offered: Irregular)

SPAN 5943. U.S. Latino/a Literatures and Cultures. 3 Hours.
Explores the construction and negotiation of Latino/a identities through the study of literary and filmic texts. Theoretical concepts (e.g. latinidad, latinization, intralatino, cultural remittances) will also be studied. Topics of discussion may include: transnationalism, bilingualism, and interactions between different Latino groups. Taught in Spanish. Prerequisite: Graduate standing. (Typically offered: Irregular)

Special Education (SPED) Courses

SPED 3843. Introduction to Learning and Behavior Analysis. 3 Hours.
This course provides information on: (a) the philosophical assumptions and principles of behavior analysis; (b) systems, processes, and concepts of the experimental and applied behavior analysis; and (c) the ethical and legal issues in its use. (Typically offered: Fall)

SPED 3863. Applications of Behavior Change Procedures. 3 Hours.
Course content includes (a) information on behavior change procedures; (b) activities designed to acquire skill in developing and evaluating behavioral change programs; and (c) information and activities designed to acquire skills in providing and monitoring persons and systems providing support. Legal and ethical standards will be reviewed and applied to the course content. Prerequisite: SPED 3843. (Typically offered: Spring)

SPED 3893. Field Experience in Applied Behavior Analysis. 3 Hours.
Supervised field experience in program, schools, and other settings using the methodology of applied behavior analysis. Prerequisite: SPED 3843. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

SPED 411V. Mentoring Students with Special Needs. 1-6 Hour.
This course provides students an opportunity to mentor students with special needs. Students spend from 3 - 9 hours weekly providing academic and social supports to students with special needs. Prerequisite: Consent of instructor. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.
SPED 4173. Introduction to Dyslexia: Literacy Development and Structure of Language. 3 Hours.
This course focuses on the assessment of students with disabilities, literacy development, skills & intervention. Students will utilize foundational concepts of oral and written language including the structure of language to assess student's difficulties and plan appropriate instruction. Techniques discussed include informal observation, miscue analysis, multisensory teaching, and portfolio assessment. Preerequisite: Admission into Special Education Bachelor of Science in Education (SPEDBS), Childhood Education Bachelor of Science in Education (CHEDBS), or departmental consent. (Typically offered: Spring)

SPED 4413. ABA and Classroom Management for Teachers. 3 Hours.
Students in this course will develop an understanding of the basic principles of Applied Behavior Analysis (ABA) and learn how to implement these principles across a Positive Behavior Support Model. Intervention plans include development of individual supports, classroom management supports, and whole school behavior supports. Field experience required. Prerequisite: Admission into Special Education Bachelor of Science in Education (SPEDBS), Birth through Kindergarten Bachelor of Science in Human Environmental Science (BRKDBS), or departmental consent. (Typically offered: Spring)

SPED 4413H. Honors ABA and Classroom Management for Teachers. 3 Hours.
Students in this course will develop an understanding of the basic principles of Applied Behavior Analysis (ABA) and learn how to implement these principles across a Positive Behavior Support Model. Intervention plans include development of individual supports, classroom management supports, and whole school behavior supports. Field experience required. Prerequisite: Honors standing. (Typically offered: Spring)
This course is equivalent to SPED 4413.

SPED 4423. Technology for the Inclusive Classroom. 3 Hours.
A study of the use of instructional and assistive/ augmentative technology for students with learning differences and special learning needs. Prerequisite: Admission into Special Education Bachelor of Science in Education (SPEDBS) or departmental consent. (Typically offered: Fall)

SPED 4433. Curriculum Development and Instructional Planning. 3 Hours.
Study of the research base for the design and adaptation of curriculum and instructional strategies for students with disabilities in general and special classrooms. Prerequisite: Admission into Special Education Bachelor of Science in Education (SPEDBS) or departmental consent. (Typically offered: Spring)

SPED 4443. Career Development and Transition Planning for Students with Disabilities. 3 Hours.
A study of career development theory and the research-based strategies for evaluating, planning, and implementing transition programs for students with disabilities. Prerequisite: Admission into Special Education Bachelor of Science Education (SPEDBS) or departmental consent. (Typically offered: Fall)

SPED 4453. Assessment of Students with Disabilities. 3 Hours.
A study of the methods and techniques of the assessment of children in all areas of exceptionality with emphasis on diagnosis, classification, and tracking progress. Field experience required. Prerequisite: Admission into Special Education Bachelor of Science in Education (SPEDBS) or departmental consent. (Typically offered: Fall)

SPED 4453H. Honors Assessment of Students with Disabilities. 3 Hours.
A study of the methods and techniques of the assessment of children in all areas of exceptionality with emphasis on diagnosis, classification, and tracking progress. Field experience required. (Typically offered: Fall)
This course is equivalent to SPED 4453.

SPED 4463. Teaching Students with Significant Disabilities. 3 Hours.
A study of methods and materials for teaching students (K-12) with severe disabilities, including severe mental retardation, serious emotional disturbance, other health impairments, multiple disabilities, and severe physical disabilities. Prerequisite: Admission into Special Education Bachelor of Science in Education (SPEDBS), Birth through Kindergarten Bachelor of Science Human Environmental Sciences (BRKDBS), or departmental consent. (Typically offered: Spring)

SPED 4473. Teaching Students with Disabilities in Math and Science. 3 Hours.
A study of content, methods, and materials for teaching mathematics and science to students with diverse learning needs and how to adapt curriculum to meet diverse needs. Field experience required. Prerequisite: Admission into Special Education Bachelor of Science in Education (SPEDBS) or departmental consent. (Typically offered: Spring)

SPED 4483. Teaching Literacy Skills to Students with Disabilities. 3 Hours.
This course will offer a detailed study of how to systematically and explicitly teach essential reading skills to students with disabilities or those at-risk for learning difficulties. Field experience required. Prerequisite: Admission into Special Education Bachelor of Science in Education (SPEDBS), Childhood Education Bachelor of Science in Education (CHEDBS), or departmental consent. (Typically offered: Fall)

SPED 4493. Introduction to Students with High Incidence Disabilities. 3 Hours.
The purpose of this course is to develop an understanding of high incidence disabilities, understand the unique characteristics as they apply to the context of the K-12 classroom, be able to design an appropriate classroom setting, and use evidence-based teaching practices for students with high incidence disabilities. Prerequisite: Admission into Special Education Bachelor of Science in Education (SPEDBS), Birth through Kindergarten Bachelor of Science Human Environmental Science (BRKDBS), or departmental consent. (Typically offered: Fall)

SPED 4538. Special Education Internship - Kindergarten through 6th Grade. 8 Hours.
Provides the opportunity to focus demonstrating and refining teaching skills through a teaching internship in special education grades K-6 grades while simultaneously developing a professional portfolio. Must be taken concurrently with SPED 4543. Corequisite: SPED 4543. (Typically offered: Fall)

SPED 4543. Special Education Seminar - Kindergarten through 6th Grade. 3 Hours.
Provides the opportunity to focus on issues encountered in the teaching internship in special education grades seventh through twelfth grade while simultaneously developing a professional portfolio. Must be taken concurrently with SPED 4538. Corequisite: SPED 4538. (Typically offered: Fall)

SPED 4553. Special Education Research - Kindergarten through 6th Grade. 3 Hours.
Designing, conducting and applying research to improve classroom instruction in special education (K-6). (Typically offered: Fall)

SPED 4568. Special Education Teaching Internship - 7th through 12th Grade. 8 Hours.
Provides the opportunity to focus demonstrating and refining teaching skills through a teaching internship in special education grades 7-12 grades while simultaneously developing a professional portfolio. Must be taken concurrently with SPED 4573. Corequisite: SPED 4573. (Typically offered: Spring)

SPED 4573. Special Education Seminar - 7th through 12th Grade. 3 Hours.
Provides the opportunity to focus on issues encountered in the teaching internship in special education grades seventh through twelfth grade while simultaneously developing a professional portfolio. Must be taken concurrently with SPED 4568. Corequisite: SPED 4568. (Typically offered: Spring)

SPED 4583. Special Education Research - 7th through 12th Grade. 3 Hours.
Designing, conducting and applying research to improve classroom instruction in special education (7-12). (Typically offered: Spring)
SPED 5143. Teaching Communication Skills to Persons with Autism. 3 Hours.
This course focuses on classroom and teaching strategies for the development of communication skills with students who have autism spectrum disorders. Students will learn the characteristics of typical language development, atypical language development in autism, functional communication training and behavior analytic approaches to teaching communication. Prerequisite: Admission to the Graduate School. (Typically offered: Summer)

SPED 5173. Introduction to Dyslexia: Literacy Development & Structure of Language. 3 Hours.
This course focuses on the assessment of students with disabilities, literacy development, skills and intervention. Students will utilize foundational concepts of oral and written language including the structure of language to assess students' difficulties and plan appropriate instruction. Techniques discussed include informal observation, miscue analysis, multisensory teaching, and portfolio assessment. Prerequisite: Admission to graduate school. (Typically offered: Spring)

SPED 532V. Practicum in Special Education. 1-6 Hour.
Supervised field experiences in special education programs, schools, institutions, and other facilities for exceptional children. (Typically offered: Irregular)

SPED 5343. Analysis of Behavior for Teachers. 3 Hours.
An advanced course in managing behaviors in students with exceptionalities. Students are provided with experiences in applying theoretical bases of classroom management through identifying, assessing graphing, and analyzing behavioral data and implementing management plans. Ethical issues in the use of functional analysis are addressed. (Typically offered: Fall)

SPED 5413. ABA and Classroom Management for Teachers. 3 Hours.
(Formerly SPED 4413.) Students in this course will develop an understanding of the basic principles of Applied Behavior Analysis (ABA) and learn how to implement these principles across a Positive Behavior Support Model. Intervention plans include development of individual supports, classroom management supports, and whole school behavior supports. Graduate degree credit will not be given for both SPED 4413 and SPED 5413. (Typically offered: Fall)

SPED 5423. Technology for the Inclusive Classroom. 3 Hours.
(Formerly SPED 4423.) A study of the use of instructional and assistive/augmentative technology for students with learning differences and special learning needs. Graduate degree credit will not be given for both SPED 4423 and SPED 5423. (Typically offered: Fall)

SPED 5433. Curriculum Development and Instructional Planning. 3 Hours.
(Formerly SPED 4433.) Study of the research base for the design and adaptation of curriculum and instructional strategies for students with disabilities in general and special classrooms. Graduate degree credit will not be given for both SPED 4433 and SPED 5433. (Typically offered: Fall)

SPED 5443. Career Development and Transition Planning for Students with Disabilities. 3 Hours.
(Formerly SPED 4443.) A study of career development theory and the research-based strategies for evaluating, planning, and implementing transition programs for students with disabilities. Graduate degree credit will not be given for both SPED 4443 and SPED 5443. (Typically offered: Fall)

SPED 5463. Teaching Students with Significant Disabilities. 3 Hours.
(Formerly SPED 4463.) A study of methods and materials for teaching students (K-12) with severe disabilities, including severe mental retardation, serious emotional disturbance, other health impairments, multiple disabilities, and severe physical disabilities. Graduate degree credit will not be given for both SPED 4463 and SPED 5463. (Typically offered: Spring)

SPED 5483. Teaching Literacy Skills to Students with Disabilities. 3 Hours.
(Formerly SPED 4483.) This course will offer a detailed study of how to systematically and explicitly teach essential reading skills to students with disabilities or those at-risk for learning difficulties. Graduate degree credit will not be given for both SPED 4483 and SPED 5483. (Typically offered: Spring)

SPED 5493. Introduction to Students with Autism Spectrum Disorder. 3 Hours.
(Formerly SPED 4493.) The purpose of this course is to develop an understanding of autism spectrum disorders, understand the unique characteristics as they apply to the context of the classroom, be able to design an appropriate classroom setting, and use evidence based teaching practices for students with autism spectrum disorders. Graduate degree credit will not be given for both SPED 4493 and SPED 5493. (Typically offered: Spring)

SPED 5543. Dyslexia Teaching Practicum. 3 Hours.
Provides the opportunity to demonstrate and refine teaching skills with dyslexic students and others with literacy learning disabilities through case studies and structured multi-sensory teaching of reading and writing skills with grades k-12 while simultaneously developing a professional portfolio. A minimum of 82 hours of field experiences with dyslexic students is required. (Typically offered: Spring)

SPED 5633. Curriculum Development and Instructional Planning. 3 Hours.
Study of the research base for the design and adaptation of curriculum and instructional strategies for students with disabilities in general and special classrooms. (Typically offered: Irregular)

SPED 5643. Individual Diagnostic Testing. 3 Hours.
A study of various individual diagnostic tests used to identify students with disabilities and develop individual educational programs. Prerequisite: Admission to Graduate School. (Typically offered: Irregular)

SPED 5653. Individual Intelligence Testing. 3 Hours.
A study of various individual intelligence tests, including the Wechsler series, and their use in schools to identify students with disabilities. Prerequisite: Admission to Graduate School. (Typically offered: Irregular)

SPED 5663. Teaching Science and Math to Students with Disabilities. 3 Hours.
A study of content, methods, and materials for teaching science and math courses to students with diverse learning needs and how to adapt curriculum to meet diverse needs. Prerequisite: Admission to graduate school. (Typically offered: Irregular)

SPED 5673. Teaching Students with Disabilities in the Content Areas. 3 Hours.
A study of content, methods, and materials for teaching content courses to students with diverse learning needs (K-12). (Typically offered: Irregular)

SPED 5683. Teaching Literacy Skills to Students with Disabilities. 3 Hours.
This course will offer a detailed study of how to systematically and explicitly teach essential reading skills to students with disabilities or those at-risk for learning difficulties. (Typically offered: Irregular)

SPED 5713. Career Development and Transition for People with Disabilities. 3 Hours.
This is an advanced course at the master's level in the specialty studies. The Scholar Practitioner model at this level will pursue an in-depth study of the transition process for students with disabilities including transition plan development, work based learning opportunities, developing skills in self-advocacy and self-determination using evidence based practices, family engagement, collaborative program planning and evaluation. (Typically offered: Fall)

SPED 5733. Inclusive Practices for Diverse Populations. 3 Hours.
An advanced study of the characteristics of persons with exceptional learning needs and the provision of appropriate instruction in the general education classroom including the use of current technologies including instructional media, social networking, and other educational technologies. Prerequisite: Graduate standing. (Typically offered: Summer)

SPED 5743. Teaching Persons With Physical and Health Disabilities. 3 Hours.
This course is an advanced course at the master's level in the specialty studies. The Scholar Practitioner model at this level will pursue an in-depth study of the characteristics, needs, and methods for teaching of persons with physical and health disabilities while emphasizing advance learning in the specialty studies and the social and behavioral studies in the substantive areas. Prerequisite: Graduate standing. (Typically offered: Spring)
SPED 5753. Nature and Needs of Persons with Serious Emotional Disorders. 3 Hours.
A survey of the educational, psychological, and social characteristics of individuals with serious emotional disorders. Four major categories of behaviors (personality disorders, pervasive developmental disorders, and learning/behavior disorders) are reviewed in relationship to identification, assessment, and program intervention within the public school setting. Prerequisite: CIED 3023. (Typically offered: Irregular)

SPED 5763. Teaching Individuals with Severe Disabilities. 3 Hours.
Methods and materials for teaching students with severe disabilities, including severe mental retardation, serious emotional disturbance, and severe physical disabilities. (Typically offered: Spring)

SPED 5773. Methods for Young Children with Disabilities. 3 Hours.
This course is one of the substantive core courses required of all students being recommended for the P-4 Instructional Specialist license. The Scholar-Practitioner Model at this level provides an introduction to the education of young children with special learning needs and a foundation for the developing professional. (Typically offered: Irregular)

SPED 5783. Professional and Family Partnerships. 3 Hours.
This course is an advanced course at the master's level in the specialty studies. The Scholar Practitioner model at this level will pursue an in-depth study of family-school partnerships from early childhood through the transition to adulthood while emphasizing advance learning in the specialty studies and the social and behavioral studies in the substantive areas. Prerequisite: Admission to graduate school. (Typically offered: Fall)

SPED 5793. Practicum in Applied Behavior Analysis. 3 Hours.
This course is a supervised practicum that provides students with experience in applying the knowledge, skills, and dispositions by teaching individuals using Applied Behavior Analysis. Instructor approval needed for enrolling in the course. Prerequisite: Instructor Consent. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

SPED 5873. Assessment and Programming for Students with Disabilities. 3 Hours.
Methods and techniques of assessment of children in all areas of exceptionality with emphasis on diagnosis and classification. (Typically offered: Fall)

SPED 5883. Research in Inclusive Education. 3 Hours.
Review of research in inclusive education including all areas of exceptionality and English language learners with emphasis on research-based practices. (Typically offered: Fall)

SPED 5893. Organization, Administration and Supervision of Special Education. 3 Hours.
Procedures, responsibilities and problems of organization, administration, and supervision of special education programs. (Typically offered: Irregular)

SPED 599V. Special Topics. 1-6 Hour.
Discussion and readings on selected topics in special education. Special focus on recent and emerging topics in special education. Prerequisite: Admission to Graduate School and Special Education graduate program. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SPED 605V. Independent Study. 1-6 Hour.
Advanced studies on potential research topics for graduate students in special education. Prerequisite: Admission to the Graduate School and instructor consent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SPED 6403. Emerging Issues in Special Education. 3 Hours.
A study in the complex issues with which professionals in the field of special education must be familiar and prepared to address. (Typically offered: Irregular)

SPED 641V. Special Topics in Special Education. 1-3 Hour.
Discussion and advanced studies on select topics in special education. Specific focus will include evidence-based and emerging practices in special education. (Typically offered: Irregular)

SPED 6423. Philosophical and Sociological Bases of Special Education. 3 Hours.
A study of the basic philosophical and sociological bases for current practices in special education. (Typically offered: Irregular)

SPED 6433. Legal Aspects of Special Education. 3 Hours.
A study of litigation and legislation in special education, federal and state laws and court cases, and due process hearings. (Typically offered: Irregular)

SPED 6453. Human Performance Improvement. 3 Hours.
This course is an introduction to Human Performance Technology, a rapidly growing field that applies the principles, methods, and empirical generalizations of Behavior Analysis to improving human performance in organizations. Working from a theoretical basis, students will learn how to diagnose performance discrepancies in organizational settings, design and evaluate appropriate behavior-based solutions. Prerequisite: SPED 6843. (Typically offered: Spring)

SPED 6463. Concepts and Principles in Behavior Analysis. 3 Hours.
Course provides information on: (a) the philosophical assumptions and principles of behavior analysis; (b) basic principles, processes, and concepts of applied behavior analysis; and (c) the ethical and legal issues in its use. Prerequisite: SPED 6843. (Typically offered: Summer)

SPED 6803. Teaching Students with Autism Spectrum Disorders. 3 Hours.
This course provides students with an understanding of individuals who have been diagnosed with autism spectrum disorders. The course provides a life-span perspective by focusing on preschoolers, school-aged children, and adults. Students will study the characteristics of these individuals and general educational strategies for their education. (Typically offered: Fall)

SPED 6813. Characteristics and Assessment of Persons with ASD. 3 Hours.
This course provides an in-depth study of the characteristics and assessment of persons with autism spectrum disorders. It includes formal and informal assessment measures used to assist in the identification of students with ASD, as well as provide information for program development for this group of students. (Typically offered: Spring)

SPED 6823. Instructional Methods for Students with Autism Spectrum Disorders. 3 Hours.
This course is designed to assist professional educators in planning and implementing instructional and support services for students with autism spectrum disorders. Students will learn how to participate in collaborative family, school, and community partnerships. (Typically offered: Fall)

SPED 6833. Practicum in Autism Spectrum Disorders. 3 Hours.
Supervised field experiences in programs, schools, and other settings for children with autism spectrum disorders. (Typically offered: Fall, Spring and Summer)

SPED 6843. Basic Principles of ABA. 3 Hours.
Course provides information on: (a) the philosophical assumptions and principles of behavior analysis; (b) basic principles, processes, and concepts of applied behavior analysis; and (c) ethical and legal issues involved in its use. Prerequisite: Admittance to the Applied Behavior Analysis Graduate Certificate (APBAGC). (Typically offered: Fall)

SPED 6853. Behavioral Assessment in ABA. 3 Hours.
Course content includes information on effective methods and the development of skills: (a) assessing, organizing, and interpreting behavior; (b) conducting task analysis and selecting intervention goals and strategies; (c) displaying data; and (d) making evidence-based decisions. Legal and ethical standards will be reviewed and applied to behavioral change procedures used. Prerequisite: SPED 6843. (Typically offered: Summer)
SPED 6863. Behavior Change Procedures and Supports. 3 Hours.
Course content includes (a) information on behavior change procedures; (b) activities designed to acquire skill in developing and evaluating behavioral change programs; and (c) information and activities designed to acquire skills in providing and monitoring persons and systems providing support. Legal and ethical standards will be reviewed and applied to the course content. Prerequisite: SPED 6843. (Typically offered: Spring)

SPED 6873. Measurement and Experimental Design. 3 Hours.
Course content includes information on and the development of skills in: (a) the measurement of the multiple dimensions of behaviors; (b) the use of methods of measuring behavior; (c) the experimental evaluation of interventions; and (d) the multiple methods of displaying and interpreting behavioral data. Legal and ethical standards will be reviewed and applied to the course content. (Typically offered: Fall)

SPED 6883. ABA Ethical, Professional, and Legal Standards. 3 Hours.
Course content includes information on the ethical, professional and legal standards in special education and, specifically, the area of applied behavior analysis. Prerequisite: SPED 6843. (Typically offered: Summer)

Statistics (STAT)

Courses

A problem-oriented course with applications from many fields. Emphasis on understanding the nature of statistical orderliness implied by probability laws. Statistical analysis is treated as a means of decision making in the face of uncertainty. Prerequisite: MATH 1203 or MATH 1204 each with a grade of C or better, or MATH 1313 with a grade of C or better, or a score of at least 50 on the Math Placement Test, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall, Spring and Summer)

STAT 2823. Biostatistics. 3 Hours.
An introductory course in biostatistics emphasizing methods for collecting, graphing, and understanding data. Special emphasis is placed upon available methods for both exploratory and confirmatory data analysis. Particular attention is given to statistical methods for data sets with discrete variables. Pre- or Corequisite: MATH 2254. Corequisite: Lab component. (Typically offered: Spring)

STAT 3001L. Statistics Methods Laboratory. 1 Hour.
Introduction to the statistical software SAS, including its use for common statistical analyses. A practical complement to the statistical methodology covered in STAT 3003. (Typically offered: Fall and Spring)

STAT 3003. Statistical Methods. 3 Hours.
Describing Data, Basic Probability, Random variables, Uniform, Normal and Binomial Distributions, Sampling Distributions, Confidence Intervals, Hypothesis testing, Correlation and Regression, Contingency table, Comparing two populations, ANOVA. Prerequisite: MATH 2254 or MATH 2254C. (Typically offered: Fall and Spring)

STAT 3013. Introduction to Probability. 3 Hours.
A calculus-based introduction to probability. Discrete probability spaces and counting techniques, discrete and continuous probability distributions, random variables, random samples, law of large numbers, central limit theorem. Prerequisite: MATH 2254. (Typically offered: Fall, Spring and Summer)

This course is cross-listed with MATH 3013.

STAT 3113. Introduction to Mathematical Statistics. 3 Hours.
A calculus-based introduction to mathematical statistics, revolving around estimation, hypothesis testing, and Bayesian inference. Emphasis is given to the unifying mathematical and decision-theoretical principles that provide a justification to different estimation and testing procedures. Prerequisite: STAT 3013 or departmental consent. (Typically offered: Spring)

STAT 4013. Statistical Forecasting and Prediction. 3 Hours.
Provides an in depth look at the theory and practice of applied modeling of temporal data for data science, including model building, selection, autocorrelation, autoregression and moving averages, and prediction for correlated data. Students will gain experience using statistical software to learn from data using applied time series and models. Prerequisite: DASC 3213 or approval by the instructor. (Typically offered: Fall)

STAT 4023. Bayesian Methods. 3 Hours.
Provides an introductory look at the theory and practice of applied Bayesian modeling for data science: including model building, selection, regularization, classification and prediction. Students will gain experience using statistical software to learn from data using applied Bayesian models. Prerequisite: DASC 3213 or approval by the instructor. (Typically offered: Spring)

STAT 4033. Nonparametric Statistical Methods. 3 Hours.
Chi square tests, Kolmogorov-Smirnov goodness-of-fit tests, the Mann-Whitney and Wilcoxon 2-sampling tests, and various nonparametric measures of association. Prerequisite: STAT 2303 or STAT 2823 or departmental consent. (Typically offered: Fall, Spring and Summer)

STAT 4043. Sampling Techniques. 3 Hours.
Considers optimum techniques of simple random, stratified random, cluster, systematic and multistage sampling from finite populations subject to cost precision constraints. Wide range of applications. (Typically offered: Fall, Spring and Summer)

STAT 405V. Internship in Professional Practice. 1-3 Hour.
Professional work experience involving significant use of mathematics or statistics in business, industry or government. Prerequisite: Departmental consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

STAT 4101L. Introduction to R. 1 Hour.
A hands-on introduction to R software, a free and open-source computing environment used for data manipulation and analysis across a broad spectrum of subject areas. Intended for new users. Content begins with simple data manipulation, then complex data structures and common statistical procedures are covered. (Typically offered: Fall)

STAT 4333. Analysis of Categorical Responses. 3 Hours.
Statistical tools to analyze univariate and multivariate categorical responses. Emphasis is given to Generalized Linear Models, including logistic regression and loglinear models. Prerequisite: Departmental consent. (Typically offered: Spring)

STAT 4373. Experimental Design. 3 Hours.
Topics in the design and analysis of planned experiments, including randomized block, Latin square, split plot, and BIB designs, use of fractional factorial replication, and repeated measures. (Typically offered: Spring)

STAT 5001L. Statistics Methods Laboratory. 1 Hour.
Introduction to the statistical software SAS, including its use for common statistical analyses. A practical complement to the statistical methodology covered in STAT 3003. (Typically offered: Fall and Spring)

STAT 5003. Statistical Methods. 3 Hours.
Describing Data, Basic Probability, Random variables, Uniform, Normal and Binomial Distributions, Sampling Distributions, Confidence Intervals, Hypothesis testing, Correlation and Regression, Contingency table, Comparing two populations, ANOVA. Prerequisite: STAT 2303 or MATH 2254. (Typically offered: Fall and Spring)

STAT 5001L. Statistics Methods Laboratory. 1 Hour.
Introduction to the statistical software SAS, including its use for common statistical analyses. Graduate degree credit will not be given for both STAT 4001L and STAT 5001L. (Typically offered: Fall and Spring)

STAT 5003. Statistical Methods. 3 Hours.
Describing Data, Basic Probability, Random variables, Uniform, Normal and Binomial Distributions, Sampling Distributions, Confidence Intervals, Hypothesis testing, Correlation and Regression, Contingency table, Comparing two populations, ANOVA. (Typically offered: Fall and Spring)

STAT 5033. Nonparametric Statistical Methods. 3 Hours.
(Formerly STAT 4033.) Chi square tests, Kolmogorov-Smirnov goodness-of-fit tests, the Mann-Whitney and Wilcoxon 2-sampling tests, and various nonparametric measures of association. Graduate degree credit will not be given for both STAT 4033 and STAT 5033. (Typically offered: Fall, Spring and Summer)
STAT 5043. Sampling Techniques. 3 Hours.
(Formerly STAT 4043.) Considers optimum techniques of simple random, stratified random, cluster, systematic and multistage sampling from finite populations subject to cost precision constraints. Wide range of applications. Graduate degree credit will not be given for both STAT 4043 and STAT 5043. Prerequisite: STAT 5003. (Typically offered: Fall, Spring and Summer)

STAT 505V. Internship in Professional Practice. 1-3 Hour.
(Formerly STAT 405V.) Professional work experience involving significant use of mathematics or statistics in business, industry or government. Graduate degree credit will not be given for both STAT 405V and STAT 505V. Prerequisite: Departmental consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

STAT 5103. Introduction to Probability Theory. 3 Hours.
Fundamentals of probability, distribution theory, and random variables; expected value, moments, and generating functions; classic parametric families of distributions; central limit theorems, inequalities, and laws of large numbers. Prerequisite: MATH 2574 and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall)

STAT 5113. Statistical Inference. 3 Hours.
Statistical theory of estimation and testing hypothesis. Prerequisite: STAT 5103 and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Spring)

STAT 5121L. Introduction to R. 1 Hour.
(Formerly STAT 4101L.) A hands-on introduction to R software, a free and open-source computing environment used for data manipulation and analysis across a broad spectrum of subject areas. Intended for new users. Content begins with simple data manipulation, then complex data structures and common statistical procedures are covered. Graduate degree credit will not be given for both STAT 4101L or STAT 5121L. (Typically offered: Fall)

STAT 5313. Regression Analysis. 3 Hours.
Review of matrix algebra, parameter estimation in linear models, regression diagnostics, collinearity, variable selection, nonparametric regression, Bayesian regression. Prerequisite: STAT 5003 or departmental consent. (Typically offered: Spring)

STAT 5333. Analysis of Categorical Responses. 3 Hours.
Statistical tools to analyze univariate and multivariate categorical responses. Emphasis is given to Generalized Linear Models, including logistic regression and loglinear models. Prerequisite: STAT 5003 or departmental consent. (Typically offered: Spring)

STAT 5353. Methods of Multivariate Analysis. 3 Hours.
Statistical tools to analyze multivariate datasets. Topics include the multivariate linear model, principal component analysis, factor analysis, linear discriminant analysis, clustering, classification and regression trees, support vector machines, nonlinear dimensionality reduction. Prerequisite: STAT 5313, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Spring)

STAT 5373. Experimental Design. 3 Hours.
(Formerly STAT 4373.) Topics in the design and analysis of planned experiments, including randomized block, Latin square, split plot, and BIB designs, use of fractional factorial replication, and repeated measures. Graduate degree credit will not be given for both STAT 4373 and STAT 5373. Prerequisite: STAT 5003. (Typically offered: Spring)

STAT 5383. Time Series Analysis. 3 Hours.
Identification, estimation and forecasting of time series. Spectral analysis including the fast Fourier transform computational aspects are emphasized. Prerequisite: STAT 5103, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall, Spring and Summer)

STAT 5413. Spatial Statistics. 3 Hours.
Applied spatial statistics, covering univariate spatial modeling (kriging), multivariate spatial modeling (cokriging), methods of estimation and inference, and spatial sampling designs. Special relevance to remote sensing. Prerequisite: STAT 5313, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall)

STAT 5443. Computational Statistics. 3 Hours.
In-depth introduction to computer-based algorithms used for inference and forecasting. Course content may vary by semester. Possible algorithms covered could include: resampling methods (bootstrap), Markov chain Monte Carlo, variable selection in high-dimensional regression (LASSO and LARS), artificial neural networks, ensemble methods (boosting, bagging, random forests), and kernel methods. Prerequisite: STAT 5113 or departmental consent. (Typically offered: Spring)

STAT 610V. Research in Statistics. 1-4 Hour.
Research in statistics. Prerequisite: Graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Irregular)

STAT 639V. Topics in Statistics. 1-3 Hour.
Current state of the art on methodology in one of the topics: multivariate analysis, time series analysis, sequential analysis, factor analysis, or biostatistics. Prerequisite: Graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Irregular) May be repeated for degree credit.

Statistics and Analytics (STAN) Courses

STAT 501V. Special Topics in Statistics and Analytics. 1-6 Hour.
Designed to cover specialized topics not usually presented in depth in regular courses. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

STAT 502V. Research Problems in Statistics and Analytics. 1-6 Hour.
Designed to allow focused study into student's research area. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

STAT 600V. Master's Thesis. 1-6 Hour.
Master's Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Supply Chain Management (SCMT) Courses

SCMT 2103. Integrated Supply Chain Management. 3 Hours.
An introduction to integrated supply chain management. Core capabilities in plan, source, make, deliver, service/customer management, new product design, strategy, governance, project management, performance management, technology enablement, and supply chain finance are explored to provide students with a comprehensive cross-functional view of demand-driven value networks. Prerequisite: ACCT 2013 and WCOB 1033 each with a grade of C or better. (Typically offered: Fall and Spring)

SCMT 2103H. Honors Integrated Supply Chain Management. 3 Hours.
An introduction to integrated supply chain management. Core capabilities in plan, source, make, deliver, service/customer management, new product design, strategy, governance, project management, performance management, technology enablement, and supply chain finance are explored to provide students with a comprehensive cross-functional view of demand-driven value networks. Prerequisite: ACCT 2013 and WCOB 1033 each with a grade of C or better. (Typically offered: Fall and Spring)

This course is equivalent to SCMT 2103.
SCMT 3103. Supply Chain Management Internship. 3 Hours.  
This experience is designed to give students an internship opportunity to combine their formal academic preparation with an exposure to the supply chain profession. Prerequisite: Department consent, completion of pre-business core, junior standing, and SCMT 2103 with a grade of C or better. (Typically offered: Fall and Summer)

SCMT 3443. DELIVER: Transportation and Distribution Management. 3 Hours.  
Management of functional delivery and customer service capabilities in demand-driven value networks. Applicable interfaces with enabling capabilities such as governance, performance management, analytics, and technology enablement are evaluated. Prerequisite: ((ECON 2013 and ECON 2023) or ECON 2143) and SCMT 2103 with a grade of C or better. (Typically offered: Fall and Spring)

SCMT 3613. SOURCE: Procurement and Supply Management. 3 Hours.  
This course covers the critical sourcing and procurement processes: strategic sourcing, source to pay, and supplier relationship management. Additionally, it covers innovative efforts to grow sourcing contribution to demand-driven supply chain integration, including sustainability, technology, and risk management. Prerequisite: ((ECON 2013 and ECON 2023) or ECON 2143) and SCMT 2103 with a grade of C or better. (Typically offered: Fall and Spring)

SCMT 3623. PLAN: Inventory and Forecasting Analytics. 3 Hours.  
The intent of this course is to rigorously examine two key elements of logistics: inventory control and forecasting. Coverage of the former topic specifically focuses on inventory control methods for stochastic demand and lead times. Besides a review of the associated theoretical bases, the implementation of such policies in Excel is a central component of the course. Forecasting topics covered in this course include a review of a variety of forecasting techniques and forecast error measurement. Moreover, the linkage between forecasting and inventory control is discussed. As with inventory control, students will learn how to implement various forecasting techniques in Excel. Prerequisite: ((ECON 2013 and ECON 2023) or ECON 2143) and SCMT 2103 with a grade of C or better. (Typically offered: Fall and Spring)

SCMT 3633. Supply Chain Service and Customer Management. 3 Hours.  
Management of supply chain service quality, relationships, and customer segmentation in demand-driven value networks. Applicable cross-functional interfaces, performance measurement, and integration opportunities for boundary spanning supply chain professionals are discussed with emphasis on value-added behavioral exchange dynamics. Prerequisite: SCMT 3613. (Typically offered: Irregular)

SCMT 3643. International Logistics. 3 Hours.  
Logistics activities in international business with special emphasis on international sourcing and distribution channels, international transportation, import and export procedures, international sale and payment terms, and documentation. Special emphasis is placed on current events and their effect on the management of operations of U.S.-based organizations. Prerequisite: ((ECON 2013 and ECON 2023), or ECON 2143) and SCMT 2103 with a grade of C or better. (Typically offered: Fall and Spring)

SCMT 3653. Project Management: Supply Chain New Product Planning and Launch. 3 Hours.  
Applies principles and tools of project management to supply chain industry projects in the new product development launch process to ensure alignment with supply chain processes. Experiential learning in collaborative team settings facilitate new product development and launch solutions to demand-driven value network problems. Prerequisite: (ECON 2013 and ECON 2023) or (ECON 2143 and SCMT 2103) each with a grade of C or better. (Typically offered: Fall and Spring)

SCMT 3663. MAKE: Supply Chain Process Improvement. 3 Hours.  
The course focuses on the fundamental concepts, techniques, and tools for managing production and improving business processes across the supply chain, in both manufacturing and service contexts. Philosophies, principles, approaches, and techniques students will learn and experience in this course include Lean, Total Quality Management, Theory of Constraints, Practical Scientific Thinking, and Toyota Kata. Prerequisite: SCMT 2103 with a grade of C or better. (Typically offered: Fall and Spring)

SCMT 4003H. Honors Supply Chain Management Colloquium. 3 Hours.  
Explores events, concepts and/or new developments in the field of Supply Chain Management. Prerequisite: Junior standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCMT 4103. Special Topics in Supply Chain Management. 3 Hours.  
Special topics in supply chain management not available in other courses. Topics are selected by the supply chain faculty for each semester each course is offered. Prerequisite: Junior standing. (Typically offered: Irregular)  

SCMT 4123. Sustainable Logistics and Supply Chain Management. 3 Hours.  
Explores key sustainability concepts across supply chain functions of supply management, operations, and distribution. Course topics include values-based leadership, globalizing sustainability, marketing sustainability, voluntary product standards and governance, stakeholder engagement, reverse logistics, humanitarian logistics, and transportation. Overall, we will consider the feasibility and role of firms in producing sustainability in global supply chains. (Typically offered: Irregular)  

SCMT 4233. Supply Chain Design and Optimization. 3 Hours.  
This course focuses on supply chain network design and the underlying strategies needed to manage a supply chain as business conditions change and evolve. The purpose of this course is to provide the student with supply chain design thinking skills that they can employ to design solutions that optimize supply chain performance considering costs, constraints, and structure. The course is a combination of lecture and supply chain optimization case studies (network, transportation, and inventory). Prerequisite: SCMT 3443 and SCMT 3623. (Typically offered: Fall and Spring)  

SCMT 4333. Supply Chain Performance Management and Analytics. 3 Hours.  
Integrates the strategic directives and successful execution by using supply chain performance management and analytics to drive supply chains from end-to-end. Examines and applies data analytics and visualization tools to better manage conflicting supply chain objectives and trade-offs. Prerequisite: SCMT 2103 with a grade of "C" or better. (Typically offered: Fall and Spring)

SCMT 4453. Supply Chain Strategy and Change Management. 3 Hours.  
Evaluate and select appropriate supply chain strategies and change management approaches for business situations. This capstone course leverages plan, source, make, deliver, customer service, and new product development capabilities to meet strategic and financial goals in demand-driven networks. Prerequisite: SCMT 3443, SCMT 3613 and SCMT 3623. (Typically offered: Fall and Spring)

SCMT 466V. Independent Study in Supply Chain Management. 1-3 Hour.  
Permits students to explore selected topics in supply chain management, logistics and transportation. (Typically offered: Fall and Spring)

SCMT 4853. Cross-Sector Collaboration for Sustainability. 3 Hours.  
This course explores how organizations in the three sectors of society work together in value creation by addressing social and environmental problems manifest in global supply chains. Focusing on business and nonprofit organizations, we investigate the forces that bring about and influence these collaborations from practical and theoretical perspectives. Prerequisite: Junior Standing. (Typically offered: Spring)
SCMT 5123. Sustainable Logistics and Supply Chain Management. 3 Hours.
Explores key sustainability concepts across supply chain functions of supply management, operations, and distribution. Course topics include values-based leadership, globalizing sustainability, marketing sustainability, voluntary product standards and governance, stakeholder engagement, reverse logistics, humanitarian logistics, and transportation. Overall, we will consider the feasibility and role of firms in producing sustainability in global supply chains. Prerequisite: Graduate Standing and Departmental Consent. (Typically offered: Irregular)

SCMT 5133. Quantitative Methods and Decision Making. 3 Hours.
Utilization of information, quantitative techniques, and computer application in decision making and problem solving for managers. Prerequisite: Graduate Standing and Departmental Consent. (Typically offered: Fall)

This course is cross-listed with ISYS 5403.

SCMT 560V. Special Topics in Logistics. 1-6 Hour.
Explores current events, concepts, and new developments in the field of logistics and transportation. Topics are selected by the Marketing and Transportation faculty for each semester the course is offered. Prerequisite: Graduate Standing and Departmental Consent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCMT 5623. Technology-enabled Supply Chain Design and Optimization. 3 Hours.
This course focuses on supply chain network design and the underlying strategies needed to manage a supply chain as business conditions change and evolve. The purpose of this course is to provide the student with design thinking skills that they can employ to design solutions that optimize supply chain performance considering costs, constraints and structure. The course is a combination of lecture and supply chain optimization case studies (network, transportation and inventory). Prerequisite: Graduate Standing. (Typically offered: Fall and Spring)

SCMT 5633. Foundations for New Product Launch and Integrated Demand-Driven Value Networks. 3 Hours.
Supply chain management is the integration of key business processes from end user through suppliers. The focus of this course is on the business fundamentals and core processes that must be linked throughout the supply chain in order to ensure the effective development and delivery of products and services that satisfy customers. Prerequisite: Graduate Standing and Departmental Consent. (Typically offered: Fall and Spring)

SCMT 5643. Transportation Strategies in the Supply Chain. 3 Hours.
This course focuses on the setting of objectives and the design of optimal transportation strategy and alternative means of implementing transportation strategies within different types of organizations. Prerequisite: Graduate Standing and Department Consent. (Typically offered: Fall)

SCMT 5653. Global Logistics and Supply Management. 3 Hours.
This course examines the planning and management of logistics, but emphasizes supplier selection and development, logistics options, strategic alliances, and performance measurement. Emphasis is placed on the integration of purchasing, materials management, and multi-firm logistics planning. International logistics is also addressed within each of these topics. Prerequisite: Graduate standing and departmental consent. (Typically offered: Fall)

SCMT 5663. PLAN: Demand Planning and Inventory Operations. 3 Hours.
This course focuses on ‘plan’ in the plan, source, make, deliver framework. It examines the integrated planning and management of supply chain activities including, notably, demand forecasting and replenishment. In addition to modeling related decisions both in within-firm and supply chain contexts, strategic issues related to interfirm coordination and collaboration will be discussed. Prerequisite: Graduate Standing and Department Consent. (Typically offered: Fall and Spring)

SCMT 5673. Modeling Retail & Consumer Products Logistics. 3 Hours.
This is a more quantitative approach to measuring logistics performance, modeling tradeoffs and making decisions. Topics include forecasting, inventory management, network optimization, and transportation routing. Prerequisite: Graduate Standing and Department Consent. (Typically offered: Irregular)

SCMT 5683. SOURCE: Global Procurement and Supply Management. 3 Hours.
In the global supply chain sourcing and procurement plays a critical role in ensuring supply, growing margins and contributing to reliable delivery to customers. This course covers the core sourcing and procurement processes of strategic sourcing, supplier relationship management and takes a leadership approach to those covering topics such as change management and business alignment issues involved. Prerequisite: Graduate Standing and Departmental Consent. (Typically offered: Spring)

SCMT 5693. Supply Chain Performance Management and Analytics. 3 Hours.
This course will survey standard and advanced analytical techniques used to transform data into actionable business intelligence and students will gain hands-on experience with these techniques. They will gain an understanding of the practical considerations that arise in real-world applications by means of a term project. They will gain exposure to data science software capable of advanced predictive analytics and also through cases, expose them to innovative ways in which firms are using analytics to improve supply chain management processes. Prerequisite: Graduate Standing and Department Consent. (Typically offered: Fall)

SCMT 5713. MAKE: Achieving Operational Excellence. 3 Hours.
This course focuses on understanding the key processes involved in providing valuable products and services for customers as well as important approaches to continuously improving these processes. Learners will leave this course with skills necessary to continuously improve the key manufacturing and service processes involved in providing valuable products and services to customers, as well as the project management competencies necessary to embedded new, innovative capabilities in their supply chains. Prerequisite: Graduate Standing and Departmental Consent. (Typically offered: Fall and Spring)

SCMT 5723. DELIVER: Customer Service and Distribution Management. 3 Hours.
This course is designed to provide students with a broad understanding of the customer service and delivery processes needed to drive demand-driven value networks. The emphasis of this course will focus on systemic alignment across the functional capabilities of customer fulfillment service quality, transportation, distribution and return capabilities across the supply chain, with a specific emphasis on governance, performance management and the integration of advanced technologies. Prerequisite: Graduate Standing and Departmental Consent. (Typically offered: Fall and Spring)

SCMT 5733. Supply Chain Strategy, Governance and Change Management. 3 Hours.
Evaluate and select appropriate supply chain strategies, change management approaches, and governance structures for business situations. This course leverages plan, source, make, deliver, customer service, and new product development capabilities to meet strategic and financial goals in demand-driven value networks. Prerequisite: Graduate Standing and Departmental Consent. (Typically offered: Fall and Spring)

SCMT 601V. Graduate Colloquium. 1-6 Hour.
This course familiarizes students with academic and professional issues in the discipline of supply chain management with exposure to current research and contemporary research practices, current industry trends, the publication process, professional service opportunities, and pedagogical issues. Prerequisite: Admission to the PhD program in Supply Chain Management. (Typically offered: Fall and Spring)

SCMT 636V. Special Topics in Supply Chain Management. 1-6 Hour.
Independent reading and investigation in supply chain management. Prerequisite: Doctoral standing. (Typically offered: Fall, Spring and Summer)
SCMT 6413. Fundamentals of Logistics and Supply Chain Management. 3 Hours. 
Introduces students to the key substantive areas of logistics and supply chain management. Offers a combination of lectures covering topics such as inventory control and forecasting and seminars discussing associated academic literature. Prerequisite: Admission to doctoral program. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCMT 6433. Supply Chain Management Research. 3 Hours. 
Introduces students to major streams of SCM research and discusses the interest and merit of the research question(s), the appropriateness of the theoretical framework and/or hypothesis development, the adequacy of the research design, including data collection, measurement, and analysis (methodology), the accuracy of the discussion of the results. Prerequisite: Admission to doctoral program. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCMT 6443. Theory in Supply Chain Management. 3 Hours. 
Provides an overview of theories from fields such as strategic management and marketing and explores applications of these theories to supply chain management research. Emphasis is placed on the development of theoretically grounded testable hypotheses in the context of a broad range of SCM research areas. Prerequisite: Admission to doctoral program. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCMT 6453. Behavioral Supply Chain Management. 3 Hours. 
Focuses on human behavior in supply chain management. Topics may include but will not be restricted to behavior in inventory and ordering processes, in retail store execution, in global supply chain management, in the face of adversity and catastrophic supply chain risk, and in supply chain relationships. Prerequisite: Admission to doctoral program. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCMT 6463. Research in Retail Supply Chain Management. 3 Hours. 
Focuses on retail-related supply chain management research. Seminar topics may include but will not be restricted to retail sales and order forecasting, inventory management, and store execution issues. Prerequisite: Admission to doctoral program. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCMT 6473. Emerging Topics in Supply Chain Management. 3 Hours. 
Covers various emerging topics, such as information technology applications in the supply chain, humanitarian logistics, supply chain security, and individual-level decision-making in the supply chain. Prerequisite: Admission to doctoral program. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCMT 6483. Supply Chain Economics. 3 Hours. 
This course familiarizes students with economic concepts and philosophies underlying the organization of economic activity in the discipline of supply chain management. Enables students to evaluate, critique, and judge the quality of scholarly supply chain research that is grounded on economic principles and ideas. Provides training in developing supply chain research grounded in economic principles and ideas into an academic paper. Prerequisite: Admission to PhD program in Supply Chain Management. (Typically offered: Fall and Spring)

SCMT 700V. Doctoral Dissertation. 1-18 Hour. 
Dissertation studies in supply chain management. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

**Sustainability (SUST)**

**Courses**

**SUST 1103. Foundations of Sustainability. 3 Hours.** 
Foundations of Sustainability is an interdisciplinary course to introduce concepts and theories of sustainability at global, regional, and local levels. Emphasis is on four thematic areas of sustainability: social, natural, built, and managed systems. The aim is to increase environmental literacy for engagement of sustainability into students’ own disciplines. (Typically offered: Spring)

**SUST 1103H. Honors Foundations of Sustainability. 3 Hours.** 
Foundations of Sustainability is an interdisciplinary course to introduce concepts and theories of sustainability at global, regional, and local levels. Emphasis is on four thematic areas of sustainability: social, natural, built, and managed systems. The aim is to increase environmental literacy for engagement of sustainability into students’ own disciplines. Corequisite: Drill component. (Typically offered: Spring) This course is equivalent to SUST 1103.

**SUST 2103. Applications of Sustainability. 3 Hours.** 
Applications of Sustainability is an interdisciplinary course introducing data gathering, data analysis or interpretation, and synthesis of data applied to problems in sustainability. Students engage in hands-on, inquiry-based investigation of sustainability issues across four thematic areas: social systems, natural systems, built systems (Architecture & Engineering), and managed systems (Agriculture & Business). Prerequisite: SUST 1103 or instructor consent. (Typically offered: Fall)

**SUST 2103H. Honors Applications of Sustainability. 3 Hours.** 
Applications of Sustainability is an interdisciplinary course introducing data gathering, data analysis or interpretation, and synthesis of data applied to problems in sustainability. Students engage in hands-on, inquiry-based investigation of sustainability issues across four thematic areas: social systems, natural systems, built systems (Architecture & Engineering), and managed systems (Agriculture & Business). Corequisite: Drill component. Prerequisite: SUST 1103 or instructor consent. (Typically offered: Fall) This course is equivalent to SUST 2103.

**SUST 390V. Special Problems in Sustainability. 1-6 Hour.** 
Special Problems is intended to fulfill a need in the sustainability curriculum to offer one-time pilot course work in any semester prior to the formal curriculum approval process, offer seminars on unusual but timely topics in sustainability on a one-time basis, or independent study for students seeking additional expertise in sustainability research and scholarship. Prerequisite: SUST 1103 and SUST 2103 or instructor permission. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

**SUST 4103. Capstone Experience in Sustainability. 3 Hours.** 
A capstone experience focused on service learning, research learning, or internship in sustainability, Student engagement in community service, research, or relevant work on sustainability through a summer internship or equivalent experience provides opportunities for students to apply sustainability theories and principles learned from prior course work toward advancing sustainability across society. Prerequisite: SUST 1103 and SUST 2103. (Typically offered: Spring)

**SUST 4603. Environmental Sociology. 3 Hours.** 
The course provides a social perspective on environmental issues. It examines the linkage between society, ecological systems and the physical environment. It provides conceptual framework(s) for analyzing environmental issues, considers the role of humans in environmental issues, and enhances understanding the complexity of the relationship between societal organization and environmental change. Prerequisite: Junior or senior standing. (Typically offered: Fall) This course is cross-listed with HDFS 4603, SOCI 4603.

**SUST 4693. Environmental Justice. 3 Hours.** 
This course deals with the ethical, environmental, legal, economic, and social implications of society’s treatment of the poor, the disenfranchised, and minorities who live in the less desirable, deteriorating neighborhoods, communities, and niches of our country. The class integrates science with philosophy, politics, economics, policy, and law, drawing on award-winning films, current news, and case studies. (Typically offered: Spring) This course is equivalent to GEOS 4693.
SUST 5103. Foundations of Sustainable and Resilient Systems. 3 Hours.
Exploring sustainability foundations, application, and assessment, this course provides students the skills and competencies to understand, communicate, and evaluate sustainability at multiple scales. Using core sustainability concepts, such as systems and complexity, resilience and vulnerability, we evaluate interrelationships among environmental, societal, and economic well-being and the implications for decision-making. (Typically offered: Fall)

SUST 5203. Decision Making, Analysis and Synthesis in Sustainability. 3 Hours.
Provides an applied framework for analyzing decision dynamics, supporting and promoting more sustainable decisions, and measuring the sustainability of systems. The course applies theories of change, institutional decision theory, social and institutional constructs of sustainability, indicator and metric development across social, ecological, and economic domains, and communication strategies. (Typically offered: Spring)

SUST 5303. Sustainable Global Food, Energy and Water Systems. 3 Hours.
Provides a detailed review of the existing global food production/distribution and water systems, with an emphasis on scarcity, equity, management and challenges from changing global systems. This course explores the inputs and efficiencies of existing agricultural production systems, and examines equity and value in these systems. (Typically offered: Fall)

SUST 590V. Special Problems in Sustainability. 1-6 Hour.
Special Problems is intended to fulfill a need in the sustainability curriculum to offer one-time pilot course work in any semester prior to the formal curriculum approval process, offer seminars on unusual but timely topics in sustainability on a one-time basis, or independent study for students seeking additional expertise in sustainability research and scholarship. Prerequisite: Graduate standing. (Typically offered: Fall)

Swahili (SWAH)

Courses

SWAH 1003. Elementary Swahili I. 3 Hours.
Stresses correct pronunciation, aural comprehension, simple speaking ability, and leads to mastery of basic grammar and limited reading ability. (Typically offered: Irregular)

SWAH 1013. Elementary Swahili II. 3 Hours.
Continues to stress correct pronunciation, aural comprehension, and speaking ability and continues to build mastery of basic grammar and limited reading ability. Prerequisite: SWAH 1003 (Typically offered: Irregular)

SWAH 1116. Intensive Swahili I. 6 Hours.
Equivalent to SWAH 1003 and SWAH 1013. Stresses correct pronunciation, aural comprehension, and simple speaking ability, and leads to mastery of basic grammar and limited reading ability. (Typically offered: Irregular)

Leads to greater facility in spoken language and develops more advanced reading and writing skills. Prerequisite: SWAH 1003 and SWAH 1013. (Typically offered: Irregular)

SWAH 2013. Intermediate Swahili II. 3 Hours.
Leads to greater facility in spoken language and develops more advanced reading and writing skills. Prerequisite: SWAH 1003, SWAH 1013 and SWAH 2003. (Typically offered: Irregular)

SWAH 2116. Intensive Swahili II. 6 Hours.
Equivalent to SWAH 2003 and SWAH 2013. Leads to greater facility in speaking, comprehension, and writing skills and intensive development of reading skills. Prerequisite: SWAH 1116 or SWAH 1003 and SWAH 1013. (Typically offered: Irregular)

Technology Education (TEED)

Courses

TEED 1103. The Nature of Technology. 3 Hours.
Foundational study of the close relationship between nature, emerging technologies, and technological literacy throughout history. (Typically offered: Spring)

TEED 1203. CAD Technology I. 3 Hours.
Use and care of instruments; lettering, sketching, applied geometry, pictorial drawing, and orthographic projection. Introduction to computer-aided drafting. (Typically offered: Spring)

TEED 2103. Technology and Society. 3 Hours.
An examination of the complex relationships between society, values, and technological development in developed and under-developed nations. (Typically offered: Fall)

TEED 3203. The Technology of Communicating. 3 Hours.
Conceptual foundations and methodologies for teaching information and communications technology. (Typically offered: Irregular)

TEED 3303. The Technologies of Energy and Movement. 3 Hours.
Conceptual foundations and methodologies for teaching energy, power, and transportation technologies at the secondary level. Prerequisite: TEED 1103 or TEED 2103. (Typically offered: Irregular)

TEED 4103. Engineering Design for Technology Education Capstone. 3 Hours.
Analysis of engineering design, focus on design processes, physical and computer modeling, and materials processing. Prerequisite: TEED 1103. (Typically offered: Irregular)

TEED 495V. Industrial Internship. 1-12 Hour.
In an actual industrial setting, the student will study managerial functions, organizational practices, product design, production fabrication, routing, quality control, work schedules, industrial relations, and related activities of American industrial society. (Typically offered: Fall, Spring and Summer) May be repeated for up to 15 hours of degree credit.

Theatre (THTR)

Courses

THTR 1003. Theatre Appreciation (ACTS Equivalency = DRAM 1003). 3 Hours.
Introduction to theatre arts: playwriting, directing, acting, and design. For the general student. May not be presented towards satisfaction of the B.A. in fine arts requirement by theatre majors. (Typically offered: Fall, Spring and Summer)

THTR 1003H. Honors Theatre Appreciation. 3 Hours.
Introduction to theatre arts: playwriting, directing, acting, and design. For the general student. May not be presented towards satisfaction of the B.A. in fine arts requirement by theatre majors. Prerequisite: Honors candidacy. (Typically offered: Fall and Spring)

This course is equivalent to THTR 1003.

THTR 1013. Musical Theatre Appreciation. 3 Hours.
Includes reading, viewing, guided listening, critical thinking, creating, and writing about this quintessentially American art form and its role in society. (Typically offered: Fall and Spring)

THTR 1013H. Honors Musical Theatre Appreciation. 3 Hours.
Includes reading, viewing, guided listening, critical thinking, creating, and writing about this quintessentially American art form and its role in society. Prerequisite: Honors candidacy. (Typically offered: Fall and Spring)

This course is equivalent to THTR 1013.
THTR 1223. Introduction to Theatre. 3 Hours.
This course is designed to create an ensemble of theatre students, passionate about all areas of discipline within the theatre art form. Theatre majors get acquainted with the practical expectations of being a student in the Department of Theatre while gaining a more in-depth appreciation of theatre as a collaborative art form. Prerequisite: Theatre major or minor. (Typically offered: Fall)

This course is equivalent to THTR 1003.

THTR 1313. Stage Technology: Costumes and Makeup. 3 Hours.
Fundamentals of basic costume construction with an emphasis on techniques, materials, planning and process. Training in the basic principles of theatrical makeup application. Corequisite: Drill component. Prerequisite: Theatre major or instructor consent. (Typically offered: Fall and Spring)

THTR 1323. Stage Technology: Scenery and Lighting. 3 Hours.
Fundamentals of scenery and lighting technology with emphasis on theatre tools, equipment, and basic drafting. Training in basic principles and skills of stage carpentry, scene painting, lighting technology and rigging. Prerequisite: Theatre major or instructor consent. Corequisite: Drill component. (Typically offered: Fall and Spring)

THTR 1423. Script Analysis. 3 Hours.
Investigation of the dramatic forms and structures of play texts - from the classical era to the present - with special emphasis on how actors, directors, and designers encounter and realize texts in the production process. (Typically offered: Fall and Spring)

THTR 1423H. Honors Script Analysis. 3 Hours.
Investigation of the dramatic forms and structures of play texts - from the classical era to the present - with special emphasis on how actors, directors, and designers encounter and realize texts in the production process. Prerequisite: Honors candidacy. (Typically offered: Irregular)

This course is equivalent to THTR 1423.

THTR 1683. Acting I. 3 Hours.
An analytical approach to the actor's art with emphasis on the techniques of characterization. (Typically offered: Fall and Spring)

THTR 1883. Acting I for Theatre Majors. 3 Hours.
An introductory acting studio course for theatre majors, exploring the physical, vocal, analytical, and imaginative processes required for the performance of dramatic texts. Through exercises and study, this course builds a vocabulary and technique that serves as a foundation for theatre classes within the major. Corequisite: Theatre major or minor. (Typically offered: Fall and Spring)

THTR 2313. Fundamentals of Theatrical Design. 3 Hours.
Principles and practices of theatre design including the elements of design and the fundamental principles of art and their application to the areas of set, costume, and lighting design. This course studies the designer's role in the theatre, design process, and aesthetics. Emphasis on the basic principles of two-dimensional art and graphic forms through the use of various media. Prerequisite: THTR 1313, THTR 1323 and THTR 1423. (Typically offered: Fall)

THTR 2461. Alexander Technique Lessons. 1 Hour.
Students will become aware of habitual patterns of tension and how these patterns interfere with performance, learning, and overall health. The Technique offers practical skills for improving coordination and for re-gaining a sense of ease of movement in all activities. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

THTR 2473. Voice and Speech for the Actor. 3 Hours.
Develops the student's free, natural voice for use on stage and in front of the camera. Topics address physical awareness, breath awareness, touch of sound, gathering vibrations, channel of sound, spine awareness, resonators, rib awareness, and articulation. Prerequisite: THTR 1223, THTR 1423, and THTR 1883. (Typically offered: Fall and Spring)

THTR 2483. Stage Movement. 3 Hours.
An introduction to the Psycho-physical approach to acting and actor training developed by Michael Chekhov. Prerequisite: THTR 1223, THTR 1423 and THTR 1883. (Typically offered: Fall and Spring)

THTR 2683. Acting II. 3 Hours.
An acting studio course deepening the exploration of techniques introduced in Acting I, including expanded work on characterization and script analysis through exercises, scene-work and monologue performance. Prerequisite: THTR 1683 or THTR 1883. (Typically offered: Fall and Spring)

THTR 3001. Production Practicum. 1 Hour.
Credit for participation in technical assignments related to mainstage or faculty-directed productions: one (1) credit hour per production. Assignments shall be determined by the faculty. Credit will be awarded only after completion of assignments and only with faculty approval. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

THTR 3011. Performance Practicum. 1 Hour.
Credit for performance in faculty directed productions; one credit hour per production. Assignments shall be determined by the faculty. Credit will be awarded only after satisfactory completion of assignment and with faculty approval. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

THTR 3213. Costume Design. 3 Hours.
Learn the art and practice of costume design for theatrical productions. Emphasis will be placed on the elements and principles of design as it relates to character development. Additional emphasis will be placed on script analysis, research methods, fabric selection, collaboration, and rendering techniques. Prerequisite: THTR 2313. (Typically offered: Fall Odd Years)

THTR 3463. Introduction to the Alexander Technique. 3 Hours.
The Alexander Technique helps us to become aware of habits of tension and how these patterns interfere with performance, learning, and overall health. The technique offers a systematic process of re-learning how to move with more ease and coordination in all activities. (Typically offered: Summer) May be repeated for up to 6 hours of degree credit.

THTR 3513. Drafting for the Theatre. 3 Hours.
Covers basic technical drawing and graphic skills necessary to communicate design ideas to fellow artisans. Both production and design-oriented drafting will be explored using both hand drafting and computer techniques. Prerequisite: THTR 1323 or instructor consent. (Typically offered: Fall Even Years)

THTR 3653. Directing I. 3 Hours.
Basic principles and techniques of play direction, including play analysis, audition and rehearsal organization, staging and collaborating with actors. Pre- or Corequisite: Theatre major and junior or senior standing, or instructor consent. Prerequisite: THTR 1223 or THTR 1423 or THTR 1003 or THTR 1003H, and THTR 1313, THTR 1323 and THTR 2683. (Typically offered: Fall and Spring)

THTR 3663. Acting: Scene Study. 3 Hours.
An advanced acting studio building on techniques introduced in Acting I and II. Intensive work on script analysis, emotional preparation, awakening the imagination, characterization, partner work and playing action. Prerequisite: THTR 2683. (Typically offered: Spring)

THTR 3673. Acting: Auditioning. 3 Hours.
An advanced acting course, focusing on theatrical monologues and developing the actor's confidence and ability in theatre auditioning. In simulated auditions, students develop and explore contrasting monologues, including contemporary and classical pieces, comedy, and drama. Students practice slating techniques, cold and prepared callbacks, musical auditions, video submissions, and resume preparation. Prerequisite: THTR 2683. (Typically offered: Fall)
THTR 3603. Stage Management. 3 Hours.
The study of the principles of stage management as practiced in academic and professional theatre. The course develops the core management skills of communication and organization through classroom exercises. The course also provides opportunities for stage management in University productions. Prerequisite: THTR 1313 and THTR 1323. (Typically offered: Spring)

THTR 3733. Lighting Design. 3 Hours.
The study of the art and practice of stage lighting design through demonstration and projects. The course includes lighting technology, history, electricity, fixtures, consoles and control systems. Emphasis is placed on collaboration and storytelling with light. Prerequisite: THTR 2313. (Typically offered: Fall Even Years)

THTR 3903. Makeup Design. 3 Hours.
Learn the principles, techniques, materials, and tools used in makeup design for theatrical productions. Character analysis, character development, as well as period styles will be the basis for all makeup applications. Specialized make up includes an introduction to prosthetics, scars, and wounds. Prerequisite: THTR 2313. (Typically offered: Irregular)

THTR 3923H. Honors Colloquium. 3 Hours.
Treats a special topic or issue, offered as part of the honors program. Prerequisite: Honors candidacy (not restricted to candidacy in THTR). (Typically offered: Irregular) May be repeated for degree credit.

THTR 399VH. Honors Thesis. 1-6 Hour.
The Honor student will complete a thesis. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

THTR 4063. Playwriting. 3 Hours.
A beginning workshop in the fundamentals of playwriting designed for students interested in exploring how their personal stories translate and get expressed theatrically. Exercises in dialogue, character development, conflict, and dramatic structure will culminate in the completion of an original one-act play. Prerequisite: Sophomore standing or greater. (Typically offered: Fall and Spring)

THTR 4123. Rendering for the Theatre. 3 Hours.
Develops the vocabulary of visual communication for theatre using a variety of media and techniques. Investigation of traditional as well as digital drawing and painting methods and materials used by theatrical designers. Prerequisite: THTR 2313. (Typically offered: Spring Odd Years)

THTR 4141. Singing for Musical Theatre. 1 Hour.
Private study of the singing voice focusing on musical theatre vocal technique and repertoire. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

THTR 4153. Musical Theatre Performance. 3 Hours.
Principles and techniques of performing a singing role for the theatre. Examines the relationship between score and text. (Typically offered: Fall Even Years)

THTR 4233. History of the Theatre I. 3 Hours.
A survey of dramatic literature, theatre practices and cultural contexts for dramatic presentation from classical Greece through the 19th century. The research component of this course fulfills the Fulbright Writing Requirement. Prerequisite: THTR 1223 or THTR 1003 or THTR 1003H. (Typically offered: Fall)

THTR 4333. History of the Theatre II. 3 Hours.
A survey of dramatic literature from the rise of realism to the present, designed to examine historical context, theatrical convention, modes of storytelling and questions of diversity and inclusion in the theatrical cannon. Prerequisite: THTR 1223 or THTR 1003 or THTR 1003H. (Typically offered: Spring)

THTR 4463. African American Theatre History — 1950 to Present. 3 Hours.
A chronological examination of African-American theatre history from 1950 to the present through the study of African-American plays and political/social conditions. Upon completion of this course the student should be familiar with the major works of African-American theatre and have a deeper understanding of American History. (Typically offered: Irregular) This course is cross-listed with AAST 4463.

THTR 4483. Acting: Meisner I. 3 Hours.
This course introduces students to the Sanford Meisner approach to acting. A progressive series of exercises focus on listening, concentration, imagination, working from impulse, and actively connecting to given circumstances. This class is the first in a two course sequence of Meisner study. Prerequisite: THTR 2683. (Typically offered: Fall Odd Years)

THTR 4493. Acting: Meisner II. 3 Hours.
Continuation of Beginning Meisner Technique. A progressive series of exercises focus on emotional preparation, connection to impulse, and living fully under imaginative circumstances. Prerequisite: THTR 4483. (Typically offered: Spring Even Years)

THTR 4563. Scene Design. 3 Hours.
Theory and practice in the art of scenic design, including historical and contemporary styles and techniques. Prerequisite: THTR 2313. (Typically offered: Spring Even Years)

THTR 4653. Scene Painting. 3 Hours.
The study and application of sound in a theatrical environment covering both technology and design aspects of sound in a live setting. Prerequisite: THTR 2313. (Typically offered: Irregular)

THTR 4683. Acting: Shakespeare. 3 Hours.
An acting studio course exploring the performance of Shakespearean texts, with focus on scansion, verse and prose, poetry, characterization and voice and articulation. Prerequisite: THTR 2683. (Typically offered: Spring Odd Years)

THTR 4703. Theatre Education: Methods of Instruction. 3 Hours.
Introduces leading theories and practices in theatre instruction for junior high and high school students. Focuses on creating, adapting, and justifying pedagogical strategies as well as the design and implementation of effective theatre curriculum. Prerequisite: CIED 3033 or SEED 4022 or instructor’s consent. (Typically offered: Fall)

THTR 4713. Theatre Education: Program Design and Leadership. 3 Hours.
Introduces the skills necessary for the successful integration of theatre arts in the secondary school environment. Focuses on the promotion of theatre as a discipline, both in classes and as an co-curricular activity. Advances planning and leadership skills necessary for theatre program directors. Contains one required field experience. Prerequisite: THTR 4703. (Typically offered: Spring)

THTR 4833. Scene Painting. 3 Hours.
A studio class in painting techniques for the theatre. Exercises in color, textures, styles, and execution. Prerequisite: THTR 2313. (Typically offered: Fall Even Years)

THTR 490V. Independent Study. 1-3 Hour.
Individually designed and conducted programs of reading and reporting under the guidance of a faculty member. Prerequisite: Instructor consent. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

THTR 491V. Special Topics. 1-3 Hour.
Classes not listed in the regular curriculum, offered on demand on the basis of student needs and changes within the profession. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.
THTR 492V. Internship. 1-12 Hour.
A practical, experiential approach to performance and production using the internship program to provide training and experience more advanced than that provided during the normal school year. Students will outline a contract of specific requirements based upon that individual's needs, goals, and skills. Prerequisite: Instructor consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

THTR 493V. Special Topics in Design and Technology. 1-3 Hour.
Topics not listed in the regular curriculum. Topics related to scenery, costumes, lighting, and sound will be offered on demand to accommodate Design & Technology focused student needs and changes within the profession. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

THTR 494V. Special Topics in Performance. 1-3 Hour.
Topics not listed in the regular curriculum. Topics related to acting, directing, and playwriting will be offered on demand to accommodate Design & Technology focused student needs and changes within the profession. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

THTR 4953. Theatre in London. 3 Hours.
Immerses scholars in the world of theatre and culture in Britain. Students spend four weeks in London with excursions to Stratford-upon-Avon, Oxford and Bath. Literature, performance, design and history are all explored through lectures, field trips and writing prompts. (Typically offered: Summer)

THTR 4991. Theatre Capstone. 1 Hour.
A culminating experience in the major, students will develop a portfolio of work encompassing their undergraduate focus in Performance or Design and Technology. The course concludes with a presentation of their body of work to a panel of Theatre Department faculty akin to a professional audition or portfolio review. (Typically offered: Fall)

THTR 5123. Theatrical Design Rendering Techniques. 3 Hours.
Investigation of drawing and painting methods and materials useful to theatrical designers. Integration of traditional and digital technology and tools in creating the documents necessary to communication in the theatrical process. (Typically offered: Irregular)

THTR 5133. Design Portfolio Development. 3 Hours.
Development of the skills and techniques used to prepare and present a professional design portfolio in order to successfully interview for a career in the theatre. Traditional and digital output including portfolio, website and marketing materials are created. Prerequisite: Graduate Standing in Theatre or by instructor permission. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

THTR 5143. History of Decor for the Stage. 3 Hours.
An overview of architectural decoration and its application to theatrical design from the Predynastic Period (4400-3200 B.C.) through the Art Deco period with references to contemporary decor. Prerequisite: Graduate Standing in Theatre or by instructor permission. (Typically offered: Irregular)

THTR 5151. Singing for Musical Theatre. 1 Hour.
Private study of the singing voice focusing on musical theatre vocal technique and repertoire. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

THTR 5173. Drafting for the Designer. 3 Hours.
Focuses on industry standard practices of drafting. Students will study and execute design drafting packages for the theatre, including but not limited to Designer Drawings, Painter's Elevations, Props Packages, Lighting Plots and Sections. Prerequisite: Graduate Standing in Theatre or by instructor permission. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

THTR 5183. Scene Design Studio. 3 Hours.
Individual and advanced projects in designing scenery for various theatrical genres as well as non-theatrical applications with emphasis on the design process involving playscript analysis, text analysis, and research. Collaboration skills and advanced rendering techniques will be explored. Contributes to on-going portfolio development. Prerequisite: THTR 4653 or instructor consent. (Typically offered: Fall) May be repeated for up to 6 hours of degree credit.

THTR 5193. Scene Technology Studio. 3 Hours.
Individual and advanced projects in scenic techniques with emphasis on scene painting, drafting, rendering, properties design, or scenic crafts as determined by student need. Contributes to on-going portfolio development. Prerequisite: Graduate standing or instructor consent. (Typically offered: Spring) May be repeated for up to 9 hours of degree credit.

THTR 5283. Costume Design Studio. 3 Hours.
Individual and advanced projects in costume construction and techniques with emphasis on flat pattern, draping, corsetry, tailoring or costume crafts as determined by student need. Contributes to on-going portfolio development. Prerequisite: Graduate standing or instructor consent. (Typically offered: Spring) May be repeated for up to 9 hours of degree credit.

THTR 5293. Costume Technology Studio. 3 Hours.
Individual and advanced projects in costume construction and techniques with emphasis on flat pattern, draping, corsetry, tailoring or costume crafts as determined by student need. Contributes to on-going portfolio development. Prerequisite: Graduate standing or instructor consent. (Typically offered: Spring) May be repeated for up to 9 hours of degree credit.

THTR 5383. Lighting Technology Studio. 3 Hours.
Individual and advanced projects in lighting technology with emphasis on programming, equipment, advanced control, lighting software, methods of digital rendering and computer visualization. Contributes to ongoing portfolio development. Prerequisite: Graduate standing or instructor consent. (Typically offered: Summer) May be repeated for up to 9 hours of degree credit.

THTR 5413. African American Theatre History -- 1950 to Present. 3 Hours.
A chronological examination of African-American theatre history from 1950 to the present through the study of African-American plays and political/social conditions. Students will become familiar with the major works of African-American theatre and have a deeper understanding of American History. Graduate degree credit will not be given for both THTR 4463 and THTR 5413. (Typically offered: Irregular)

THTR 542V. Graduate Acting Studio. 1-3 Hour.
Provides actors with intensive opportunities to explore specific aspects of their craft. Sample topics include characterization, Chekhov, Pinter, Brecht, improvisation and mask work. Topics vary each semester. Prerequisite: Graduate standing in Theatre. (Typically offered: Irregular) May be repeated for up to 18 hours of degree credit.

THTR 5432. Graduate Voice and Speech I. 2 Hours.
Teaches how to build clear vocal production using proper breath support, grounded in the Alexander technique. Emphasis on the connection between breath and thought, learning to undo inadequate vocal habits, and vocal hygiene. Prerequisite: Graduate standing in Theatre. (Typically offered: Fall) May be repeated for up to 4 hours of degree credit.
THTR 5443. Graduate Acting: Period Styles. 3 Hours.
Styles of acting in relation to French and English Dramatic Literature (16th-19th Centuries). This course also examines the historical and cultural influences that shaped each genre. A period dance component is included. Prerequisite: Graduate standing in Theatre. (Typically offered: Spring)

THTR 545V. Musical Theatre Performance. 1-3 Hour.
Theory and techniques of performing a singing role for the theatre. Integrates acting and vocal techniques and examines the relationship between score and text. Prerequisite: Graduate standing in Theatre. (Typically offered: Irregular)

THTR 5463. Audition Techniques. 3 Hours.
A thorough study and practical application of audition skills and techniques. This course will equip the student with prepared audition pieces and experience in cold reading, on-camera work, and improvisation. The course also explores the practical needs of the actor; from how to get an audition to how to prepare a resume. Prerequisite: Graduate standing in Theatre. (Typically offered: Fall, Spring and Summer)

THTR 5473. Graduate Acting: Shakespeare. 3 Hours.
Analysis of Shakespeare for performance. Work will include the plays of Shakespeare and his contemporaries, including cultural and theatrical contexts required for understanding the scripts. Prerequisite: Graduate standing in Theatre. (Typically offered: Irregular)

THTR 548V. Meisner Technique I. 1-3 Hour.
Acting theory and exercises of Sanford Meisner, including repetition work, connecting with partner, three moment game, activities, and emotional preparation. Prerequisite: Graduate standing in Theatre. (Typically offered: Irregular)

THTR 549V. Meisner Technique II. 1-3 Hour.
Continuation of Meisner Technique I. Incorporation of theory and advanced exercises of the Meisner Technique into the playing of text. Prerequisite: THTR 548V. (Typically offered: Irregular)

THTR 5511. Alexander Technique Lessons. 1 Hour.
Students will become aware of habitual patterns of tension and how these patterns interfere with performance, learning, and overall health. The Technique offers practical skills for improving coordination and for re-gaining a sense of ease of movement in all activities. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

THTR 5523. Writing for Television and Screen. 3 Hours.
Advanced study and practice in writing for the small and big screen, with focus on writing for television. This writing workshop is an investigation into the form, structure, and vocabulary of writing for television, designed to give students tools, strategies, and practice in writing for television. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

THTR 5533. Graduate Playwriting: Special Projects. 3 Hours.
Advanced study and practice in the area of playwriting. The area of concentration will be determined by the student’s specific writing project(s). Prerequisite: Graduate standing. (Typically offered: Fall and Spring) May be repeated for up to 18 hours of degree credit.

THTR 5552. Graduate Voice and Speech II. 2 Hours.
A continuation of Graduate Voice and Speech I, exploring more closely the connection between breath support and volume, pitch, range, resonance and articulation. Prerequisite: THTR 5432. (Typically offered: Spring)

THTR 5562. Graduate Voice and Speech III. 2 Hours.
Continuation of Graduate Voice and Speech II, focusing on the classification of vowels and consonants according to the International Phonetic Alphabet (IPA). Prerequisite: THTR 5552. (Typically offered: Fall)

THTR 5572. Graduate Voice and Speech IV. 2 Hours.
Continuation of Graduate Voice and Speech III. Extension of the application of the IPA to the analysis of different accents of individuals for whom English is a second language. Approximately eight dialects of English will be examined. Prerequisite: THTR 5562. (Typically offered: Spring)

THTR 5593. Acting and Directing Absurdist Theatre. 3 Hours.
This course focuses on a particular dramatic style that developed following World War II: Absurdism. In scene presentation projects, students will grapple with the unusual challenges acting and directing these plays, as well as explore the cultural contexts, philosophies and theatrical traditions that led to their invention. Prerequisite: Graduate standing in Theatre. (Typically offered: Irregular)

THTR 5633. Creating a One-Person Show. 3 Hours.
Actors learn to use compelling personal experiences and interests in the creation of a unique one-person show. Includes exploration in characterization, staging and playwriting. Culminates in the public presentation of a short one-person show. Prerequisite: Graduate standing in Theatre. (Typically offered: Irregular)

THTR 5643. Devised Theatre. 3 Hours.
Explores performer-created works developed through group dynamics, with emphasis on innovative source materials and inventive theatrical approaches. (Typically offered: Irregular)

THTR 5663. Directing Modern Drama. 3 Hours.
Studio course exploring the challenges of directing post-19th Century dramatic literature. Individual projects in collaboration with actors. Sample dramatic literature includes styles such as Realism, Expressionism, Absurdist, post-Modernism and Epic Theatre. Topics vary each semester. Prerequisite: Graduate standing in Theatre. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

THTR 5673. Adapting and Directing Non-Theatrical Texts. 3 Hours.
Offers directors practice in the adaptation and staging of non-theatrical prose, poetry and current events. Individual projects in collaboration with actors. Prerequisite: Graduate standing in Theatre. (Typically offered: Irregular)

THTR 5683. Directing Studio. 3 Hours.
Hands-on exploration into the direction of historical and contemporary texts and styles, including Greek, Roman, Shakespeare, Realism, American and international scripts and the adaptation of non-theatrical material. Topics vary each semester. Includes discussion and investigation of the theatrical arts and collaborative and production processes. Prerequisite: MFA Directing student or instructor consent. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

THTR 5691. Scene Study for Directing Studio. 1 Hour.
Participation as an actor in scenes presented for the graduate Directing Studio course. Varying historical and contemporary texts and styles each semester. Class meets one hour each week, plus outside rehearsals, depending on casting. Prerequisite: Instructor consent. (Typically offered: Fall and Spring) May be repeated for up to 4 hours of degree credit.

THTR 5713. Directing Classics. 3 Hours.
Explores the challenges of directing classic texts. Individual projects in collaboration with actors on a wide variety of pre-20th Century dramatic literature. Topics vary each semester. Prerequisite: Directing Studio in Theatre. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

THTR 5723. History of the Theatre I. 3 Hours.
A survey of dramatic literature, theatre practices and cultural contexts for dramatic presentation from classical Greece through the 19th century. (Typically offered: Fall)

THTR 5733. History of the Theatre II. 3 Hours.
A survey of dramatic literature from the rise of realism to the present, designed to examine historical context, theatrical convention, modes of storytelling and questions of diversity and inclusion in the theatrical cannon. (Typically offered: Spring)
THTR 5773. Script Analysis. 3 Hours.
Introduces the fundamentals of dramatic structure, in plays from the classical era to the present, with emphasis on how a dramatic work conveys cultural meaning and how it informs the production approaches of actors, directors, and designers. (Typically offered: Irregular)

THTR 5783. Viewpoints. 3 Hours.
Exploration and application of the Viewpoints movement technique. Prerequisite: Graduate standing in Theatre. (Typically offered: Irregular)

THTR 5833. Scene Painting. 3 Hours.
(Formerly THTR 4833.) A studio class in painting techniques for the theatre. Exercises in color, textures, styles, and execution. Graduate degree credit will not be given for both THTR 4833 and THTR 5833. (Typically offered: Spring Odd Years) May be repeated for up to 6 hours of degree credit.

THTR 590V. Independent Study. 1-18 Hour.
Individually designed and conducted programs of reading and reporting under guidance of a faculty member. (Typically offered: Fall, Spring and Summer) May be repeated for up to 18 hours of degree credit.

THTR 591V. Special Topics. 1-3 Hour.
Classes not listed in the regular curriculum, offered on demand based on student needs and changes within the profession. Prerequisite: Graduate standing in Theatre or Instructor consent required. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

THTR 592V. Internship. 1-6 Hour.
Supervised practice in the various arts and crafts of the theatre (e.g. full design responsibility for a production; box office management; actor apprenticeship in a professional company). (Typically offered: Irregular)

THTR 5953. Theatre in London. 3 Hours.
(Formerly THTR 4953.) Theatre in London Study Abroad immerses scholars in the professional company. (Typically offered: Irregular)

THTR 6432. Advanced Skills of the Physical Actor. 2 Hours.
Introduction to form and genre via Commedia dell’Arte where students will improvise and construct lazzi within the constraints of a specific form. The fundamental role of musicality and rhythm in dramaturgy will be underlined as students move towards more complex compositional forms. Prerequisite: THTR 6132. (Typically offered: Fall, Spring and Summer)

THTR 6423. Stylized Theatre Practices. 3 Hours.
Constellated around the notion of Composed Theatre and draws on the psycho-physical vocabulary and various dramaturgical approaches. Focuses on generating textual material and composition, with a view to elaborating personal projects. Provides practical and conceptual tools that enable solutions to be found to acting and dramaturgical challenges of creating new work. Prerequisite: THTR 6132. (Typically offered: Fall, Spring and Summer)

THTR 6433. Devised Theatre Practices. 3 Hours.
Focuses on the creation of student-driven devised performance projects. Each student will be responsible for devising a short piece to professional standards for public performance. (Typically offered: Fall, Spring and Summer)

THTR 6446. Devised and Physical Theatre Internship. 6 Hours.
Focuses off-site with professional companies. Devised and physical theatre techniques are investigated that supplement or complement the previous semester's study. Requires a journal, a final paper or a final project of the learned technique studied. Prerequisite: Must complete at least 10 hours of credit in 5000 level THTR coursework. (Typically offered: Summer) May be repeated for up to 12 hours of degree credit.

THTR 6451. Improvisation and Text in Commedia dell'Arte. 1 Hour.
Delves into the aesthetic, literary, and technical structures in which are rooted the dramaturgical components of Commedia dell'Arte. Focuses on the processes of improvisation, and makes use of sources such as scenarios, acting treatise and reperpectives, lazzi, and iconographic documents. Prerequisite: THTR 6741. (Typically offered: Fall, Spring and Summer)

THTR 6414. Basic Skills of the Physical Actor. 4 Hours.
Designed to enable actors to develop the physical, vocal, musical and rhythmic skills necessary for their craft, including movements, contemporary dance, voice work and music. Introduces the notion of collaborative theatre and the principles of a trans-disciplinary approach to training. Students will create and perform in Italian. Prerequisite: Admission to the MFA program. (Typically offered: Fall, Spring and Summer)

THTR 6423. Extended Skills of the Physical Actor. 3 Hours.
Focuses on the creation of student-driven devised performance projects. Each student will be responsible for devising a short piece to professional standards for public performance. Fundamental design principles are introduced underscoring improvisation and future composition. Prerequisite: THTR 6414. (Typically offered: Fall, Spring and Summer)

THTR 6432. Advanced Skills of the Physical Actor. 2 Hours.
Focuses on the creation of student-driven devised performance projects. Each student will be responsible for devising a short piece to professional standards for public performance. Fundamental design principles are introduced underscoring improvisation and future composition. Prerequisite: THTR 6423. (Typically offered: Fall, Spring and Summer)

THTR 6441. Beyond Techniques. 1 Hour.
Tracks students in their final semester focusing on maintaining core fitness and readiness on a physical and vocal level. Students develop further skills in devising, writing and composition in readiness for their thesis projects. Prerequisite: THTR 6432. (Typically offered: Fall, Spring and Summer)
THTR 6471. The Body as Sign. 1 Hour.
Explores the connections between “meaning” and “illusion” in examples drawn from theatre, dance and other art forms. Emphasis on the connections displayed by the actor’s body. Classes will investigate plays and works of art by focusing on the role the body assumes as a medium of meanings through illusion. Prerequisite: THTR 6731. (Typically offered: Fall, Spring and Summer)

THTR 6513. Ensemble Creation. 3 Hours.
Reinforces the need to maintain a cohesive ensemble where a daily “routine” is part of a company ethic and practice. Students re-visit their ensemble and individual or small-group works devised during the previous courses. They further refine and define these works under faculty mentoring. Prerequisite: THTR 6333. (Typically offered: Fall, Spring and Summer)

THTR 6611. Professional Aspects of Theatre. 1 Hour.
Introduction to industry through research of professional companies producing work that contains devised and physically-based material. Also covers elements of grant writing, producing on a budget, publicity and promotion. Prerequisite: THTR 6346. (Typically offered: Fall, Spring and Summer)

THTR 6711. Theory, History, and Aesthetics of Physical Theatre I. 1 Hour.
Investigates key physical theatre practitioners within both the realm of classical and modern theories and the conceptual sphere emerging from significant contemporary theatre. Intended to make students aware of the political value of their artistic vision as an aesthetic expression of contemporary society. Prerequisite: Admission to the MFA Program. (Typically offered: Fall, Spring and Summer)

THTR 6721. Theory, History, and Aesthetics of Physical Theatre II. 1 Hour.
Continuation of Aesthetics and History of Physical Theatre I. Focuses on significant contemporary physical theatre practitioners. Investigates productions, techniques, and poetics of current physical theatre companies presently operating. Prerequisite: THTR 6711. (Typically offered: Fall, Spring and Summer)

THTR 6731. Theory, History, and Aesthetics of Physical Theatre III. 1 Hour.
Provides insights into popular theatre practices and practitioners in the broader context of physical theatre. Focuses on the aesthetic, social, political, and economic concerns related to diverse significant popular theatre practices, which were, and still are, alternative to mainstream forms of entertainment: buffoon, clown, and cabaret, among others. Prerequisite: THTR 6721. (Typically offered: Fall, Spring and Summer)

THTR 6741. Non-Western Theatre. 1 Hour.
Introduces students to non-Western theatrical forms, concentrating on the traditional, primarily the theatre of three Asian countries: Japan, China, and India. Explores production methods, performance styles, audiences and social milieu, and will challenge the perception of theatre forms usually not included in the Western canon. Prerequisite: THTR 6111. (Typically offered: Fall, Spring and Summer)

THTR 6811. Technical Theatre for the Physical Performer I. 1 Hour.
Introductory, broad based study of technical theatre focusing on contemporary practices in stage lighting, projection, sound, costume and automation. Emphasis will be placed on the blending of old and emerging technology for use by the physical performer. Corequisite: Lab component. Prerequisite: Admission to the M.F.A. Program. (Typically offered: Fall, Spring and Summer)

THTR 6821. Technical Theatre for the Physical Performer II. 1 Hour.
Introductory, broad based study of technical theatre focusing on equipment used in stage lighting, projection, sound, costume and automation. Emphasis will be placed on the use of standard theatrical equipment for the theatre as well as software typically used in the creation and presentation of live theatre. Corequisite: Lab component. Prerequisite: THTR 6811. (Typically offered: Fall, Spring and Summer)

THTR 6913. Special Topics in Devised and Physical Theatre. 3 Hours.
Topics in the areas of theatre that result in the creation of a devised work in dramatic literature, performance, or design. (Typically offered: Fall, Spring and Summer)

U A Clinton School (UACS)

Courses

UACS 502V. Advanced Problems in Public Service. 1-3 Hours.
Provides an opportunity for individual study. (Typically offered: Irregular)

UACS 5101. Ethical and Legal Dimensions of Public Service. 1 Hour.
This course will provide an overview of the primary ethical principles and legal concepts that guide difficult decisions in the public realm. Traditional academic study of ethical and legal theory will be combined with practical approaches to problem solving. Students will explore issues of economic, political, and social justice through case studies of current issues. Students will construct cases that are relevant to their own fields and present them to the class, identifying ethical and legal constraints on decision-making and implementation. (Typically offered: Irregular)

UACS 5303. Communication Processes and Conflict Transformation. 3 Hours.
The course is designed to increase the student’s personal communication effectiveness as a leader and public servant, and to enable students to understand the application of communication processes in the public arena. (Typically offered: Irregular)

UACS 5313. Dynamics of Social Change. 3 Hours.
The course deals with the elements of social change in a democratic society, and how these intersect with and are affected by economic and political forces. A critical examination of the various justifications for promoting or discouraging social change will be undertaken, and the inherent strengths and weaknesses of these various approaches will be analyzed. Real-world cases will be used, and a culminating exercise will be a strategic assessment of the Lower Mississippi Delta. (Typically offered: Irregular)

UACS 5323. Leadership in Public Service. 3 Hours.
This course is designed to increase students’ knowledge of leadership concepts and best practices, provide opportunities and experiences that improve leadership skills and techniques, and enhance capabilities in organizational management. Students will assess their leadership strengths and weaknesses, as well as develop an action plan to match their career goals. They will improve knowledge and skills in building diverse teams, in initiating/managing change, in addressing uncertainty, and in leading non-governmental organizations. At the end of the course, students should be able to design leadership strategies to successfully address a spectrum of issues in public service and in promoting the community good. (Typically offered: Irregular)

UACS 5333. Analysis for Decision Making in Public Service. 3 Hours.
This course is intended to provide students with analytical tools that enhance their skills in diagnosing problems and formulating solutions within organizations and communities. Instruction will focus on evaluating community assets as a balance to assessing community need. Underlying values of social justice and collaborative problem-solving provide a benchmark for these activities. Students, working in teams, will be challenged to apply their skills to cases related to affordable housing and homelessness. (Typically offered: Irregular)

University (UNIV)

Courses

UNIV 1001. University Perspectives. 1 Hour.
A first-year “student success” course, this class will be taught with both an online component and classroom activities. The course is designed to teach/encourage critical thinking and civic engagement. Additionally, this class will explore strategies for dealing with stress and time management to promote solutions for maintaining a physically and mentally healthy body, and to develop communication and leadership skills to benefit students in their education and their careers. Corequisite: Drill component. (Typically offered: Fall and Spring)
UNIV 1001H. Honors University Perspectives. 1 Hour.
A first-year “student success” course, this class will be taught with both an online component and classroom activities. The course is designed to teach/courage critical thinking and civic engagement. Additionally, this class will explore strategies for dealing with stress and time management to promote solutions for maintaining a physically and mentally healthy body, and to develop communication and leadership skills to benefit students in their education and their careers. (Typically offered: Fall, Spring and Summer)
This course is equivalent to UNIV 1001.

UNIV 1011. Writing with Integrity for the Academic World. 1 Hour.
An exploration of the principles and skills of writing with academic integrity in a collegiate setting. Aimed at preparing students to recognize the intellectual property of others and distinguish it from their own in the research and writing process with attention to the reading, research and writing processes, ethical decision making, and the nature and significance of intellectual property. (Typically offered: Fall and Spring)

UNIV 1031. Math Study Skills. 1 Hour.
Eight-week course designed for students experiencing difficulty in studying and learning the cognitive and behavioral dimensions of learning mathematics and includes topics such as memory and mathematics, translating mathematics, and math anxiety. Also recommended for math education majors. (Typically offered: Fall, Spring and Summer)

UNIV 1042. College Learning I. 2 Hours.
The focus of this course is on developing and applying college-level thinking and learning skills specific to the University and on developing a student support base through a class learning community. (Typically offered: Fall and Spring)

UNIV 1051. College Learning II. 1 Hour.
College Learning II complements College Learning I by focusing on additional topics leading to student success, such as setting goals and implementing action plans, assessing interests and skills, investigating career possibilities, and developing financial literacy. (Typically offered: Fall, Spring and Summer)

UNIV 1101. Independent Study. 1 Hour.
Allows students to explore selected topics on an individual basis. (Typically offered: Fall, Spring and Summer) May be repeated for up to 2 hours of degree credit.

UNIV 1211. Seminar. 1 Hour.
360 Seminars are courses taught in a small group setting by faculty and staff from throughout departments and colleges on campus that will help students to explore core class content deep level, hone the skills necessary to be successful in a wide range of courses, and recognize interdisciplinary themes in their core courses. In a low-stress/ high-engagement environment, instructors will work with students to address challenges and expand upon areas of interest found in introductory general education courses. Topics vary by semester. Prerequisite: Instructor permission. (Typically offered: Fall and Spring)

UNIV 1401. Classroom to Career. 1 Hour.
This course gives students the tools to prepare for a career or graduate school upon college graduation. Students will graduate from the nationally recognized Career Track Razorbacks program offered by the Career Development Center in an 8-week session as opposed to the traditional non-course option. Coursework will consist of the completion of seven modules including Self-Awareness, Career Exploration, Work and Leadership Experience, Job Search Strategies, Resume/Cover Letter Writing, Interview Skills, and Professional Networking. (Typically offered: Fall and Spring)

UNIV 2001. Leadership by Design. 1 Hour.
Leadership by Design is taught by a multi-disciplinary team across campus that will help students examine their campus community and how to intentionally take a leadership role in instigating change. Students will explore concepts of change management, peer leadership, and campus programs and policies and apply these concepts to a team-based project. Students’ selected small group projects will allow students to examine a need for new policies and programs on campus or proposing change to existing policies and programs on campus through well-researched project proposals. (Typically offered: Fall and Spring)

UNIV 2101. Peer Mentoring Experience. 1 Hour.
The UNIV 210V Peer Mentoring Experience is an independent study course open to students selected as a mentor through the the required selection process. Student-mentors enrolled in this course will serve for the semester as a mentor for one or more UNIV 1001 University Perspectives course(s); meet with University Perspectives students who may need additional guidance; engage in required leadership development and training opportunities; read related research on leadership, development, peer mentoring, and first-year experience programs; and provide feedback on their experience as a mentor. Prerequisite: UNIV 1001 and instructor consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 2 hours of degree credit.

UNIV 3401. Career Planning and Professional Development for Juniors and Seniors. 1 Hour.
This course examines the career planning process of self-assessment, exploring career opportunities in the world of work and learning assertive job search strategies that result in the development of a “Life after College” career plan. (Typically offered: Irregular)

University Connections Program (UCPG)
Courses
UCPG 0005. University Connections Intensive English. 5 Hours.
This class is part of the Intensive English Program designed for students who are in their first semester of the University Connections three-semester program. Not for degree credit. Prerequisite: Language assessment required. (Typically offered: Fall, Spring and Summer)

Walton College of Business (WCOB)
Courses
WCOB 1011. Writing with Integrity for the Academic World. 1 Hour.
This course is designed to train students in responsible academic writing with a particular emphasis on academic honesty in the writing process. This course will emphasize the skills necessary to distinguish what ideas are your own, and which have been gleaned from another source. We will examine the ideological foundations of intellectual property, and the ethical implications of recognizing intellectual property as belonging to its creator or creators. (Typically offered: Fall and Spring)

WCOB 1033. Data Analysis and Interpretation. 3 Hours.
This is an introductory level course covering topics involving estimation of population characteristics, research design and hypothesis testing, as well as measuring and predicting relationships. The course should enable the students to develop an understanding regarding the application and interpretation of basic data analysis techniques with an emphasis on statistical applications. Prerequisite: (MATH 2053 or MATH 2554, each with a grade of C or better) and (ISYS 1120 or (ISYS 1123 with a grade of C or better)). (Typically offered: Fall, Spring and Summer)
Walton College of Business (WCOB)

WCOB 1033H. Honors Data Analysis and Interpretation. 3 Hours.
This is an introductory level course covering topics involving estimation of population characteristics, research design and hypothesis testing, as well as measuring and predicting relationships. The course should enable the students to develop an understanding regarding the application and interpretation of basic data analysis techniques with an emphasis on statistical applications. Prerequisite: (MATH 2053 or MATH 2554, each with a grade of C or better) and (ISYS 1120 or (ISYS 1123 with a grade of C or better)). (Typically offered: Irregular)
This course is equivalent to WCOB 1033.

WCOB 1111. Freshman Business Connection. 1 Hour.
Development of personal development skills, including time management; stress management and academic planning, necessary for success; introduction to business career options and opportunities. (Typically offered: Fall)

WCOB 1111H. Honors Freshman Business Connection. 1 Hour.
Development of personal development skills, including time management; stress management and academic planning, necessary for success; introduction to business career options and opportunities. Prerequisite: Honors standing. (Typically offered: Irregular)
This course is equivalent to WCOB 1111.

WCOB 1600. Undergraduate Research Assistant. 0 Hours.
Undergraduate research. (Typically offered: Fall, Spring and Summer)

WCOB 2063. Workplace Competencies. 3 Hours.
This online course identifies the skills necessary to be successful as a professional in the workplace. Employers expect new college graduates to possess certain competencies. This course identifies and creates opportunities for the development of the skills most often valued in the workplace, including working in a team structure; goal setting; decision making and problem solving; planning, organizing and prioritizing work; power, persuasion and oral communication; obtaining and processing relevant data; technical skills evaluation; written communications skills; workplace image and attitude; corporate values and workplace ethics; and influencing others at a new job. (Typically offered: Irregular)

WCOB 210V. Special Topics in Business. 1-6 Hour.
Special topics of an interdisciplinary nature. (Typically offered: Spring) May be repeated for up to 6 hours of degree credit.

WCOB 230V. Walton College Study Abroad. 3-6 Hour.
Open to undergraduate students studying abroad in officially sanctioned programs in Walton College. Topics vary by location of study abroad opportunities. Prerequisite: Departmental consent. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

WCOB 230VH. Honors Walton College Study Abroad. 3-6 Hour.
Open to undergraduate students studying abroad in officially sanctioned programs in Walton College. Topics vary by location of study abroad opportunities. Prerequisite: Honors standing and departmental consent. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.
This course is equivalent to WCOB 230V.

WCOB 2600. Undergraduate Research Assistant. 0 Hours.
Undergraduate research. (Typically offered: Fall, Spring and Summer)

WCOB 3003H. Honors College Colloquium. 3 Hours.
An inter-disciplinary course exploring events, concepts, and/or new developments in the field of business administration. Prerequisite: Junior or senior standing. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

WCOB 3023. Sustainability in Business. 3 Hours.
The course focuses on theoretical and practical bases for pursuing sustainability in business and society. Students learn four definitions of sustainability, measured on four axes expressed by: 1987 UN Brundtland Report (intergenerational equity), Triple-play (people, planet, profits), resource sustainability, and economic justice (fair global system of rules, fairly enforced). Prerequisite: Junior standing. (Typically offered: Irregular)

WCOB 3033. The African American Experience in Business. 3 Hours.
This course is designed to provide the student with a comprehensive and critical analysis of the history of the African American experience as a member of the business sector of the United States economics. The course will review information that includes and demonstrates activities prior to slavery, during, and after slavery. (Typically offered: Irregular)
This course is cross-listed with AAST 3033.

WCOB 3043. From Books to Boardrooms. 3 Hours.
Examines career choices and skills necessary to be successful as a professional in the workforce. Self-assessment and career exploration strategies are examined using career development theories. Incorporates career path management principles to include exploring occupations, networking, enhancing business communications, job searching, workplace success skills, and college to work transition. Business majors may not use course towards upper level business credit, but may be used toward non-business elective credit. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer)

WCOB 3053. Diversity in the Workforce. 3 Hours.
This course is designed to engage students in discussions and to increase their awareness and knowledge about barriers and contributions of underrepresented groups. This course will cover race, class, gender, sexuality, ethnicity, nationality, and physical differences that impacts underrepresented groups and how this information can influence that work environment. The course involves weekly discussion, critical evaluation, and reflection of the subjects that are covered in the assignments. Prerequisite: Junior Standing. (Typically offered: Spring Odd Years)

WCOB 310V. Internship. 1-3 Hour.
Internship allows students to earn one to three hours of academic credit per semester for work related to their major and/or minor. Accumulated credit may not exceed six hours. Eligibility requires: 1) junior standing in the college, 2) completion of the pre-business core and 3) the prescribed GPA. See catalog for details. Prerequisite: Junior standing and completion of pre-business core. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

WCOB 320V. International Internship. 1-3 Hour.
The International Internship allows students to work overseas with a pre-approved employer. Students must have a faculty supervisor who will work with their employer to monitor their work experience and progress. Students are responsible for finding a faculty supervisor, and the Global Engagement Office will work with both the student and faculty member to facilitate the employer relationship and expectations. Students will receive one to three hours of credit per semester based on hours worked and length of time abroad. Students may receive up to three hours of credit. Prerequisite: Junior Standing, 3.0 cumulative GPA, and Department Consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

WCOB 330V. Walton College Study Abroad. 3-6 Hour.
Open to undergraduate students studying abroad in officially sanctioned programs in the Walton College. Topics vary by location of study abroad opportunities. To be eligible for credit, students must have junior standing and Walton College majors must have completed all pre-business requirements prior to studying abroad. Prerequisite: Departmental consent, completion of 30 hours, ENGL 1013, (MATH 2053 or MATH 2554), ECON 2013, ECON 2023, (ISYS 1120 or ISYS 1123), WCOB 1111 and ACCT 2032. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.
World Languages, Literatures and Cultures (WLLC) Courses

WLLC 3053. The Colonial French in the Mississippi Valley. 3 Hours.
This course focuses on the French Colonial Mississippi Valley from 1698 until 1763. Activities for both French and non-French speaking students provide a rich environment to discuss encounters, subsistence strategies, and warfare faced by native peoples, missionaries, explorers, and colonists alike. Students will examine primary handwritten, transcribed, or translated sources. (Typically offered: Spring)

WLLC 3173. Introduction to Linguistics. 3 Hours.
Introduction to language study with stress upon modern linguistic theory and analysis. Data drawn from various languages reveal linguistic universals as well as phonological, syntactic, and semantic systems of individual languages. Related topics: language history, dialectology, language and its relation to culture and society, the history of linguistic scholarship. Prerequisite: Junior standing. (Typically offered: Irregular)
This course is cross-listed with COMM 3173, ENGL 3173.

WLLC 3923H. Honors Colloquium. 3 Hours.
Covers a special topic or issue, offered as part of the honors program. Prerequisite: Honors candidacy (not restricted to candidacy in foreign languages). (Typically offered: Irregular) May be repeated for degree credit.

WLLC 398V. Special Studies. 1-6 Hour.
A course (not independent study) which covers a topic or author not usually presented in depth in regular courses. (Typically offered: Irregular) May be repeated for degree credit.

WLLC 398VH. Honors Special Studies. 1-6 Hour.
A course (not independent study) which covers a topic or author not usually presented in depth in regular courses. (Typically offered: Irregular) May be repeated for degree credit.

WLLC 4013. Ethno-Historic Approach to Native American Languages. 3 Hours.
This course pursues an ethno-historic examination of Native American languages among Native nations primarily from the southeast and midwest including the Quapaws, the Cherokee, the Caddos, and the Illinois, though other nations are certainly discussed. This course examines the Native American group's history, European encounters, spoken and written language, nonverbal language, visual and ritual communication, devastation to language and culture through boarding schools, as well as current language revitalization. (Typically offered: Fall)

WLLC 4023. Languages, Cultures, and Teaching with Technology. 3 Hours.
This course provides senior level undergraduate and graduate students with innovative ways to teach and communicate through the use of modern technologies as applied to second languages. Topics of discussion include instructional systems design, Web 2.0 technologies, presentation technologies, online facilitation, and pedagogical strategies for using technological tools in language and culture courses. Prerequisite: Senior standing. (Typically offered: Irregular)

WLLC 4033. Languages, Cultures and Teaching with Video. 3 Hours.
This course provides senior level undergraduates and graduate students with the knowledge and skills needed to teach and communicate through the use of video as applied to second languages. Topics of discussion include instructional systems design, development of strong pedagogical strategies for teaching with film, analysis of research focused on subtitling, learning strategies, mental effort, and language and culture development, as well as some videotaping and editing. Prerequisite: Senior standing. (Typically offered: Irregular)

WLLC 4033H. Honors Language, Culture and Video Development. 3 Hours.
This course provides senior level undergraduates and graduate students with the knowledge and skills needed to teach and communicate through the use of video as applied to second languages. Topics of discussion include instructional systems design, videotaping, editing and development for internet and DVD delivery, and effective utilization of video in teaching and communication. Prerequisite: Senior standing. (Typically offered: Irregular)
This course is equivalent to WLLC 4033.
WLLC 4043. The Early French in North America. 3 Hours.
This course focuses on French exploration in North America from 1508 until 1698. Activities for both French and non-French speaking students provide a rich environment to discuss first encounters, cultural differences, and colonization struggles through New France by indigenous peoples, missionaries, military and colonists alike. This course strongly familiarizes students with historic events leading up to the beginnings of Colonial French Arkansas and Lower Mississippi Valley. Prerequisite: FREN 2013 or equivalent. (Typically offered: Fall)

WLLC 423V. Culture and Civilization: Field Studies. 1-18 Hour.
May be taken by students participating in overseas work study programs approved by the department. (Typically offered: Irregular) May be repeated for degree credit.

WLLC 423VH. Honors Culture and Civilization: Field Studies. 1-18 Hour.
May be taken by students participating in overseas work study programs approved by the department. (Typically offered: Irregular) May be repeated for degree credit. This course is equivalent to WLLC 423V.

WLLC 5023. Languages, Cultures, and Teaching with Technology. 3 Hours.
This course provides graduate students with innovative ways to teach and communicate through the use of modern technologies as applied to second languages. Topics of discussion include instructional systems design, Web 2.0 technologies, presentation technologies, online facilitation, and pedagogical strategies for using technological tools in language and culture courses. Prerequisite: Graduate standing. (Typically offered: Fall)

WLLC 5033. Languages, Cultures and Teaching with Video. 3 Hours.
This course provides graduate students with the knowledge and skills needed to teach and communicate through the use of video as applied to second languages. Topics of discussion include instructional systems design, development of strong pedagogical strategies for teaching with film, analysis of research focused on subtitled, learning strategies, mental effort, and language and culture development, as well as some videotaping and editing. (Typically offered: Spring)

WLLC 504V. Translation Workshop. 1-6 Hour.
Problems of translation and the role of the translator as both scholar and creative writer; involves primarily the discussion in workshop of the translations of poetry, drama, and fiction done by the students, some emphasis upon comparative studies of existing translations of well-known works. Primary material will vary. Prerequisite: Reading knowledge of a foreign language. (Typically offered: Irregular) This course is cross-listed with ENGL 5043.

WLLC 5063. Teaching Foreign Languages on the College Level. 3 Hours.
Focus on basic methodological concepts and their practical application to college foreign language instruction. (Typically offered: Irregular)

WLLC 5463. Descriptive Linguistics. 3 Hours.
A scientific study of language with primary emphasis on modern linguistic theory and analysis. Topics include phonology, morphology, syntax, semantics, language acquisition, and historical development of world languages. (Typically offered: Fall) This course is cross-listed with ANTH 5473, ENGL 5463.

WLLC 5723. Language Learning Research and Theory. 3 Hours.
Introduces research and theory in the field of second language learning and acquisition. Develops the ability to critically read and assess published research, while connecting with current theories of how languages are learned. Also introduces the process of carrying out research in language learning. A research project proposal is required. (Typically offered: Irregular)

WLLC 575V. Special Investigations. 1-6 Hour.
Special investigations in world languages, literatures and cultures. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

WLLC 6553. Applied Linguistics Seminar. 3 Hours.
Research and discussion in areas of applied linguistics ranging from discourse analysis, literacy, language pedagogy, and language planning to translation theory. Subject matter changes depending on student interest and faculty expertise. Prerequisite: WLLC 5463 or equivalent introduction to linguistics. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

World Literature (WLIT)

COURSES

WLIT 1113. World Literature: Beginnings to 1650 CE (ACTS Equivalency = ENGL 2113). 3 Hours.
An introduction to literature from the beginning of civilization to about 1650. (Typically offered: Fall, Spring and Summer)

WLIT 1113H. Honors World Literature I. 3 Hours.
Introduction to the study of both western and non-western literature. Prerequisite: Honors standing or English ACT score of 28 or above. (Typically offered: Fall, Spring and Summer)
This course is equivalent to WLIT 1113.

WLIT 1123. World Literature: 1650CE to Present (ACTS Equivalency = ENGL 2123). 3 Hours.
An introduction to literature from 1650 to the present. (Typically offered: Fall, Spring and Summer)

WLIT 1123H. Honors World Literature II. 3 Hours.
A continuation of the study of literary masterpieces of the world. Prerequisite: Honors standing or English ACT score of 28 or above. (Typically offered: Fall, Spring and Summer)
This course is equivalent to WLIT 1123.

WLIT 3523. The Quran as Literature. 3 Hours.
The Quran as literary text, its style and form, historical context, translation issues, communities of interpretation, and comparative perspectives. Course's integrated approach includes translations of literature originally in Arabic. All readings in English; students with reading abilities in Arabic encouraged to read original text. (Typically offered: Irregular)

WLIT 3623. The Bible as Literature. 3 Hours.
The several translations of the Bible; its qualities as great literature; its influence upon literature in English; types of literary forms. (Typically offered: Irregular) This course is cross-listed with ENGL 3623.

WLIT 3713. Literature of Spain. 3 Hours.
Examines the multiple cultural traditions of Spain between 711 and 1615 C.E. Course's integrated approach includes translation of literature originally in Arabic (50%+ of course content), Hebrew, Spanish, and French. All readings in English; students with reading abilities in original languages encouraged to read original text. (Typically offered: Irregular)

WLIT 3723H. Honors Classical Arabic Literature. 3 Hours.
Arabic literature from 1) pre-Islamic era; 2) dawn of Islam, 610-661 C.E.; 3) Umayyad era, 661-750; Abbasid era, peaking in the ninth and tenth centuries. May include selected post-classical but pre-modern works. No Arabic required; students with Arabic encouraged to engage original text. (Typically offered: Irregular)

WLIT 3983. Special Studies. 3 Hours.
Covers a topic not usually presented in depth in regular courses. Not an independent study. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.
WLIT 4113. Special Themes in Russian. 3 Hours.
Covers topics not normally dealt with in period courses. Sample topics include
gender and sexuality, war and memory, Holocaust, art and protest, modernism/
post-modernism, Jewish writers, and cinema. Topics announced one semester in
advance. This course is taught in English. (Typically offered: Irregular) May be
repeated for up to 9 hours of degree credit.
This course is cross-listed with RUSS 4113.

WLIT 4123. Survey of Russian Literature from Its Beginning to the 1917
Revolution. 3 Hours.
The instructor will discuss the historical and cultural backgrounds while focusing on
major writers and will deal with literature as an outlet for social criticism. There will
be textual analysis. It will be taught in English. (Typically offered: Irregular)
This course is cross-listed with RUSS 4123.

WLIT 4133. Survey of Russian Literature Since the 1917 Revolution. 3 Hours.
The instructor will discuss the historical and cultural backgrounds while focusing on
major writers and will deal with literature as an outlet for social criticism. There will
be textual analysis. It will be taught in English with readings in English. (Typically
offered: Irregular)
This course is cross-listed with RUSS 4133.

WLIT 4443. Queer Theor(ies). 3 Hours.
Introduction to the complex history and evolution of Queer Theory into Queer
Theor(ies) from Foucault to the Present. (Typically offered: Irregular)

WLIT 4923. Modern World Drama. 3 Hours.
Drama from Ibsen to the 1930s. (Typically offered: Irregular)

WLIT 4993. African Literature. 3 Hours.
A study of modern African fiction, drama, poetry, and film from various parts of
Africa in their cultural context. Works are in English or English translation. (Typically
offered: Irregular)

WLIT 5113. Special Themes in Russian. 3 Hours.
Covers topics not normally dealt with in period courses. Sample topics include
gender and sexuality, war and memory, Holocaust, art and protest, modernism/
post-modernism, Jewish writers, and cinema. Topics announced one semester in
advance. This course is taught in English. (Typically offered: Irregular) May be
repeated for up to 9 hours of degree credit.
This course is cross-listed with RUSS 5113.

WLIT 5123. Survey of Russian Literature from Its Beginning to the 1917
Revolution. 3 Hours.
(Formerly WLIT 4123.) The instructor will discuss the historical and cultural
backgrounds while focusing on major writers and will deal with literature as an
outlet for social criticism. There will be textual analysis. It will be taught in English.
Graduate degree credit will not be given for both WLIT 4123 and WLIT 5123.
(Typically offered: Irregular)

WLIT 5133. Survey of Russian Literature Since the 1917 Revolution. 3 Hours.
(Formerly WLIT 4133.) The instructor will discuss the historical and cultural
backgrounds while focusing on major writers and will deal with literature as an outlet
for social criticism. There will be textual analysis. It will be taught in English with
readings in English. Graduate degree credit will not be given for both WLIT 4133 and
WLIT 5133. (Typically offered: Irregular)
This course is cross-listed with RUSS 5133.

WLIT 5193. Introduction to Comparative Literature. 3 Hours.
Literary theory, genres, movements, and influences. (Typically offered: Irregular)

WLIT 5443. Queer Theor(ies). 3 Hours.
Introduction to the complex history and evolution of Queer Theory into Queer
Theor(ies) from Foucault to the Present. (Typically offered: Irregular)
This course is cross-listed with GNST 5443.

WLIT 5523. The Quran as Literature. 3 Hours.
The Quran as literary text: its style and form, historical context, translation, issues,
communities of interpretation, and comparative perspectives. Course's integrated
approach includes translations of literature originally in Arabic. All readings in
English; students with reading abilities in Arabic encouraged to read original text.
(Typically offered: Irregular)

WLIT 5623. The Bible as Literature. 3 Hours.
The several translations of the Bible; its qualities as great literature; its influence
upon literature in English; types of literary forms. (Typically offered: Irregular)
This course is cross-listed with ENGL 5623.

WLIT 575V. Special Investigations on World Literatures and Cultures. 1-6 Hour.
Independent study of a special topic in world literatures and cultures. Prerequisite:
Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of
degree credit.

WLIT 5993. African Literature. 3 Hours.
(Formerly WLIT 4993.) A study of modern African fiction, drama, poetry, and film
from various parts of Africa in their cultural context. Works are in English or English
translation. Graduate credit will not be given for both WLIT 4993 and WLIT 5993.
(Typically offered: Irregular)

WLIT 600V. Master's Thesis. 1-6 Hour.
Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for
degree credit.

WLIT 603V. Special Studies in Comparative Literature. 1-6 Hour.
Special studies in comparative literature. (Typically offered: Irregular) May be
repeated for up to 6 hours of degree credit.

WLIT 6703. Psychoanalysis and Culture. 3 Hours.
Readings of key texts in Psychoanalytic thought and cultural criticism including
Freud, Lacan, Kristeva, Certeau, Zizek, and others. Selections of Psychoanalytic
approaches to literature, film and gender and trauma studies. (Typically offered: Irregular)

WLIT 6713. Literature of Spain, 711-1615 C.E.. 3 Hours.
Examines the multiple cultural traditions of Spain between 711-1615 C.E. and train
to produce scholarship pertinent to the field. Integrated approach includes English
translations of literature originally in Arabic (50%+ of content), Hebrew, Spanish,
French. Students with reading abilities in original languages encouraged to read
original text. (Typically offered: Irregular)

WLIT 6803. Postcolonial Theory and Subaltern Studies. 3 Hours.
Seminar examining the geopolitical (imperial, colonial and national) implications of
knowledge and culture. Selected readings of early postcolonial texts by Cesaire,
Fanon, and Fernandez Retamar, as well as more recent texts by Said, Spivak,
Bhabha, Mignolo, Beverly and Chakrabarty among others. (Typically offered: Irregular)

WLIT 690V. Seminar. 1-6 Hour.
Seminars. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

WLIT 700V. Doctoral Dissertation. 1-18 Hour.
Doctoral Dissertation. (Typically offered: Fall, Spring and Summer) May be repeated for
degree credit.

Glossary
Academic Dismissal. An academic status (http://
catalog.uark.edu/undergraduateregistry/academicregulations/
academicprobationsuspensionanddismissal/) resulting from unsatisfactory
grades in which students are not permitted to enroll at the university until
approved through an appeal process.
Academic Probation. An academic status (p. 63) resulting from unsatisfactory grades.

Academic Suspension. An academic status (p. 63) for unsatisfactory grades in which students are not permitted to register for courses for a specified time period.

Act 1052/467. Section 21 of Arkansas Act 467 of 1989 specifies that all first-time entering freshmen who are enrolled in a bachelor’s degree program will be placed in either college-level credit courses in English and mathematics or developmental courses in English composition, reading, and mathematics on the basis of their scores on specified tests. Find out more in the Registration (p. 49) section of the catalog.

Activity Course. Course devoted to participation in, knowledge of, or performance of some form of physical activity.

Add. See Drop/Add below.

Advance Registration. A period of time scheduled during a regular (fall or spring) semester that allows currently enrolled students to register for the next regular semester. In addition, advance registration for the summer sessions is scheduled during the spring semester.

Applied Instruction. A course that integrates both the teaching and hands-on application of knowledge or information; attends to the practical and utilitarian function of the subject (distinguished from theoretical). Examples may include: livestock judging team, music and art courses, cooperative education, and experiential learning.

Apprenticeship/Externship. Experiential learning opportunity to give students practical exposure and training in a career field. This is generally off-campus, supervised, and designed to prepare students for the transition from school to career.

Area Studies. Interdisciplinary study of geographical or cultural areas. Topics include the history, geography, politics, culture, language, and literature of the area. Generally, an area study is a minor or a second major. Examples of area studies include African and African American studies, Latin American and Latino studies, and Middle East studies.

Audit. To take a course without credit.

Adviser. A faculty or staff member assigned to a student to advise that student on academic matters that include degree requirements and selection of courses.

Certification/Licensure Requirements. The set of course, hour, and other academic requirements that must be completed to receive certification/licensure such as certification to teach in the public schools.

Class Schedule. List of courses and sections for a specific semester, including names of instructors; day, hour, and place of class meetings; and detailed registration procedures. The class schedule is available online.

Clinical Rotation/Instruction. Course that takes place in a clinical setting, including practice labs, hospitals, and other agencies; students apply methods and principles of a clinical discipline.

College or School. One of ten major divisions within the university that offers specialized curricula.

Combined Major. A combination of subsets of two primary discipline specific requirements (each of which is typically 15 to 24 hours and less than the number required for a major) which together constitute the major in a program of study leading to one bachelor’s degree with a combined major in two disciplines. For example, a Bachelor of Arts degree with a combined major in English and journalism.

Concentration. A subset of requirements within the discipline-specific (field of study or major) requirements in a program of study leading to a graduate or bachelor’s degree. Examples are the Doctor of Philosophy degree with physics as the field of study and a concentration in neuroscience or a Bachelor of Music degree with a major in music and a concentration in jazz studies. Concentrations will print on the transcript.

Consent. A prerequisite that requires the student to obtain approval from the instructor or the department before he or she will be allowed to register for the course.

Core. Core is a set of required coursework specified for students at the college/school, department, or program/area level. Core is what is required for all students at that level or in that program. Hours will vary depending upon the major. Core and major requirements are usually stated in terms of specific courses or lists of courses from which any course chosen will meet the requirement. The “list” may actually be a defined set such as lower-level courses or upper-level courses; courses in the department, in the program, or in the college; or courses identified by one or more course, program, or department codes.

Elective courses may involve a greater or lesser degree of student choice. A general elective course could be one that is needed to complete the number of hours required for the degree when no other requirements remain to be met. A free elective course may be one that is not needed to complete either course requirements or hour requirements.

Corequisite. A course that must be taken at the same time as the course described.

Correspondence. See Self-Paced (Correspondence) below.

Course. A unit of academic instruction.

Course Deficiencies. Lacking required units of study in high school. Find out more in the Placement and Proficiency portion (p. 39) of the Enrollment Services section of the catalog.

Course Load. The number of semester credit hours a student may schedule in a given term.

Credit Hour. See Academic Policy 1200.40 (https://provost.uark.edu/policies/120040.php) for university's credit hour definition.

Cumulative Grade-Point Average. An average computed by dividing the total number of grade points earned by the total number of credit hours attempted in all courses for which grades (rather than marks) are given.

Curriculum. A program of courses comprising the formal requirements for a degree in a particular field of study.

Degree Program. The program of study defined by sets of academic requirements that lead to a degree that the university is authorized to offer. Undergraduate degree requirements are typically stated in terms of numbers of credit hours and specific courses at university, college/school, and discipline levels. Graduate degree requirements are typically stated in terms of numbers of credit hours and specific courses at discipline levels. Examples are a Bachelor of Science degree program, which typically has a minimum of 120 hours; a Master of Arts degree program, which typically has a minimum of 30 hours; and a Doctor of Philosophy degree program, which has a minimum of 72 graduate semester credit hours beyond the
bachelor's degree and 42 graduate-only semester hours beyond the master's degree.

**Department.** Division of faculty or instruction within a college, such as Department of Accounting within the Sam M. Walton College of Business.

**Dependent Major.** See **Second Major** below.

**Dissertation/Thesis Research.** Research conducted and submitted in support of candidature for a degree or professional qualification; a formal treatise presenting the results of study submitted in partial fulfillment of the requirements of an advanced degree; process requires intensive interaction between student and professor.

**Double Degree Program.** A program of study that includes one set of university requirements and two sets of college or school and primary discipline-specific requirements and leads to two different bachelor’s degrees with two different majors. Such a program could, for example, lead to a Bachelor of Science degree with a major in chemistry and a Bachelor of Science in Chemical Engineering degree. Such programs are comparatively rare, and hours required to complete them vary, depending upon overlap in requirements.

**Double Major.** The two complete sets of primary discipline-specific requirements (typically consisting of a minimum of 30 hours each) constituting the two majors within a program of study leading to one bachelor's degree with two complete majors. For example, a Bachelor of Arts degree with a double major in Spanish and French.

**Drill.** Supplemental instruction or practice using repetition or discussion.

**Drop/Add.** Dropping or adding of select courses while still remaining enrolled in the university. This can only be done during specified times as published in the academic calendar (http://registrar.uark.edu/academic-dates/academic-semester-calendar/). See also **Withdrawal** below.

**Eight-Semester Degree Completion Program.** Most majors offered by the University of Arkansas can be completed in eight semesters, and the university provides plans that show students which classes to take each semester in order to finish in eight semesters. A few undergraduate majors either require a summer internship or fieldwork or are five-year professional programs, and may therefore not qualify for the eight-semester degree completion program.

**Elective.** Elective courses may involve a greater or lesser degree of student choice. A general elective course could be one that is needed to complete the number of hours required for the degree when no other requirements remain to be met. A free elective course may be one that is not needed to complete either course requirements or hour requirements.

**Equivalent.** A course allowed in place of a similar course in the same academic discipline. May require approval by an academic dean.

**Externship.** See **Apprenticeship/Externship** above.

**Fees.** Charges, additional to tuition, that cover specific university services, programs, facilities, activities and/or events. Find out more in the undergraduate Fee and Cost Estimates (p. 52) section or the graduate Fee and Cost Estimates (http://catalog.uark.edu/graduatecatalog/feegeneralinformation/) section.

**Field of Study.** The primary discipline-specific (or multidisciplinary or interdisciplinary) set of requirements in a graduate program of study. The field of study typically consists of a minimum of 30 hours at the master's degree level, of 30 hours beyond the master's degree at the educational specialist level, and of 96 hours for the doctor of education degree. Field of study hour requirements vary more widely for the doctor of philosophy degree, but 60 hours is typical. For example, a Master of Arts degree in history, a Master of Arts in Teaching degree in teacher education, an Education Specialist degree in curriculum and instruction, a Doctor of Education degree in higher education, a Doctor of Philosophy degree in business administration.

**Field Studies.** Hands-on study undertaken outside the laboratory or place of learning, usually in a natural environment or among the general public. Examples may include archeological and geological field studies.

**Focused Studies.** A set of courses that a student may elect to take as part of the major requirements that provides focus in a particular area related to the major. Completing a focused study is not required for the major, but serves as a guide for students who want to further specialize their studies. Focused studies do not need ADHE approval and do not appear on the transcript.

**Grade Points.** Points per semester hour assigned to a grade (not a mark), indicating numerical value of the grade. The grade-point average indicates overall performance and is computed by dividing the total number of grade points earned by the number of semester hours attempted.

**Grade Sanction(s).** A penalty for academic dishonesty. Grade sanctions may consist of either a grade of zero or a failing grade on part or all of a submitted assignment or examination or the lowering of a course grade, or a failing grade of XF to denote failure by academic dishonesty.

**Hazing.** Any activity that is required of an individual that may cause mental or physical stress and/or embarrassment when in the process of joining or belonging to any organization.

**Independent Study.** Project collaboratively designed by the instructor and student to pursue an area of study not covered by the established curriculum; typically completed without class attendance but through formal supervision by an instructor.

**Internship.** A formal program that provides practical experience in an occupation or profession; applied, monitored, and supervised, field-based learning experience for which the student may or may not be paid; may include field work/experience, supervised courses, student teaching, and cooperative education; provides opportunities for students to gain experience in a career field.

**Intersession.** A two-week mini-session that is held at the beginning of the regular fall, spring, and summer terms. Coursework during an intersession is very concentrated and intensive. Intersession classes are not available to new freshmen.

**Laboratory.** Course meeting in a defined physical setting for the hands-on application of methods and principles of a discipline; credit-bearing section which requires a registration separate from the lecture component of the course.

**Lecture.** A class session in which an instructor speaks on a specific topic.

**Lecture/laboratory.** Lecture course which integrates a lab component as part of the same course registration.

**Major.** The primary discipline-specific (or multidisciplinary or interdisciplinary) set of requirements in an undergraduate program of study. The major typically consists of a minimum of 30 hours and identifies by name a specific degree area. For example, a Bachelor of
Arts degree with a major in English or a Bachelor of Science in Business Administration degree with a major in accounting.

**Minor.** The lesser set of discipline-specific (or multidisciplinary or interdisciplinary) requirements in an undergraduate program of study. The minor typically consists of a minimum of 15 hours or more in a designated discipline.

**Noncredit Course.** A course for which no credit is given. (Some credit courses will not count toward degrees.)

**Overload.** A course load of more semester hours than a student is normally permitted to schedule in a given period.

**Practicum.** Involves supervised activities emphasizing practical application of theory, especially one in which a student gains exposure to a field of study; generally required as part of the program curriculum.

**Pre-Professional Requirements.** The set of course, hour, and other academic requirements that must be completed before entry into a school, a program of study, or an advanced level of a program of study, either at the U of A or at another institution.

**Prerequisite.** A course or requirement that must be completed before the term when the described course is taken.

**Private Study.** Involves individual instruction with regular meetings; one-to-one demonstration, performance critique, music, fine arts or performing arts are examples.

**Readings.** A course where the instructor assigns readings and facilitates discussion at regular class meetings.

**Registration.** Enrollment at the beginning or prior to the beginning of a semester, including selection of classes and payment of fees and tuition.

**Research.** Research conducted that is independent of that done for a dissertation or thesis.

**Sanction(s).** The penalty for noncompliance to a policy. Usually a response that will redirect the individual or group’s inappropriate behavior, encourage responsible judgment and ethical reasoning, protect the community’s property and rights, and affirm the integrity of the institution’s conduct standards.

**Section.** A division of a course for instruction. A course may be taught in one or more sections or classes or at different times, depending on enrollment in the course.

**Second/Dependent Major.** A second complete set of primary discipline-specific requirements in a discipline in which only a second or dependent major may be earned. A second major must be earned in a degree program in which the first major is one authorized to be given independently. Typically, a minimum of 30 hours is earned in each major area or discipline. Examples of second major areas are African and African American studies, Middle East studies, and Latin American and Latino Studies. An example of a degree with a second major is a Bachelor of Arts degree with a major in political science and a second major in Middle East studies. The second major is always listed second on the transcript.

**Self-Paced (Correspondence).** Course in which instruction is web-based and students are physically separated from the instructor. Interaction between instructor and student is not regular or substantive, and is primarily initiated by the student. These courses are self-paced and are not distance education. Students are not required to be admitted to the University of Arkansas to take a self-paced course.

**Semester Credit Hour.** Unit of measure of college work. One semester credit hour is normally equivalent to one hour of class work or from two to six hours of laboratory work per week for a semester.

**Seminar.** Involves a small group of students engaged in advanced study and original research under a member of the faculty and meeting regularly to exchange information and hold discussions; highly focused and topical course; may include student presentations and discussions of reports based on literature, practices, problems, or research.

**Special Problems.** Individualized investigation of topics or case studies in a specific field under the supervision of an instructor for the purpose of enhancing or illuminating the regular curriculum.

**Special Topics.** An organized course devoted to a particular issue in a specific field; course content is not necessarily included in the regular curriculum for the major.

**State Minimum Core.** See University Core below.

**Student Number.** A number given to each student as a permanent identification number for use at the university.

**Studio Course.** Involves the application of design and theory in a defined physical setting; students explore and experiment under the guidance of an instructor.

**Summer Sessions.** Periods of time during the summer when course work is offered. (Go to the Academic Calendar (p. 8) for specific times and dates.)

**Syllabus.** An outline or summary of the main points of a course of study, lecture, or text.

**Telecommunications.** Course that utilizes technology in conveying teaching material. This only includes courses that use technology as the primary delivery method of course content, not courses that simply use technology to support another delivery method. These are distant education courses that generally:Uses one or more of the following technologies to deliver instruction to students who are separated from the instructor and to support regular and substantive interaction between the students and the instructor, synchronously or asynchronously. The technologies used may include:

- The Internet;
- One-way and two-way transmissions through open broadcast, closed circuit, cable, microwave, broadband lines, fiber optics, satellite, or wireless communications devices;
- Audio-conferencing, etc.; or
- Videocassettes, DVDs, and CD-Roms, if the videocassettes, DVDs, or CD-Roms are used in conjunction with any of the technologies listed in the first three options

**Track.** A subdivision of a concentration that a student must select and fulfill to complete the requirements of the concentration. Examples are the portfolio and thesis tracks within the specialist concentration in the Master of Arts in English degree. Tracks will print on the transcript.
Transcript. A complete record of the student’s enrollment and academic history at the University of Arkansas, including all undergraduate, graduate, and law courses.

Tuition. The charge for university enrollment and registration, calculated per credit hour each semester. Tuition rates may vary depending on a student’s resident status, undergraduate or graduate standing, and college affiliation. Tuition does not include cost of room and board. Additional charges will apply depending on student status. See the entry for Fees above.

UAConnect (https://uaconnect.uark.edu/). The online database that maintains student, faculty and staff records and class schedules.

Undeclared Major. Designation indicating students who have not selected a major.

Undergraduate Study. Work taken toward earning an associate or a baccalaureate degree.

University Core. The state of Arkansas specifies a number of core courses that students must successfully pass to obtain a degree. These are also sometimes referred to as the State Minimum Core. Find out more in the Requirements for Graduation (p. 85) and University Core (http://catalog.uark.edu/undergraduatecatalog/academicregulations/universitycore/) portions of the Academic Regulations section.

Withdrawal. Official withdrawal (http://registrar.uark.edu/registration/withdrawal.php) from all courses during a semester at the university.

1 In establishing the official count of degrees awarded by the U of A, the Arkansas Department of Higher Education will count only one degree (major) for each student who completes a degree with double or combined majors. U of A staff may note in which major the degree is counted. Two degrees are counted only if the student completes two separate degree programs, a Master of Arts and a Master of Science, for instance.
