Letter from the Dean

Enhanced-Learning Experience

The Bumpers College of Agricultural, Food and Life Sciences is committed and dedicated to preparing our students to become leaders for the economic and social well-being of Arkansas, the region, nation and beyond by producing graduates for careers that matter—in the areas of food, family and the environment.

We are proud of the quality of our students and the work they do. The DISCOVERY undergraduate journal gives us an opportunity to highlight the exceptional work of just a few of our students as they report on the results of research projects conducted in partnership with faculty mentors.

The journal is an enhanced-learning experience as it encourages our students to engage beyond the classroom, offers an outlet to share results and findings in a citable publication, and provides a service to society.

We encourage student research by awarding undergraduate research grants. Our students have been competitive for research and travel grants awarded by the Honors College and the Arkansas Department of Higher Education, and many projects are designed to meet the requirements for an honors thesis in the Bumpers College Honors Program.

We are pleased to present this issue to you as an example of the exceptional work of our undergraduates. Congratulations to the student authors, and thank you to the faculty mentors and editors who contributed to their projects.

Michael Vayda, Dean and Associate Vice President–Academic Programs
